CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF THE COMPANY

The colleges, schools and universities that are part of the Career Education Corporation (CEC) family offer high-quality education to a diverse student population of approximately 75,000 students across the world in a variety of career-oriented disciplines through online, on-ground and hybrid learning program offerings. The more than 90 campuses that serve these students are located throughout the United States, and in France and Monaco, and offer doctoral, master s, bachelor s and associate degrees and diploma and certificate programs.

We are an industry leader whose institutions are recognized globally. Those institutions include, among others, American InterContinental University (AIU); Brooks Institute; Colorado Technical University (CTU); Harrington College of Design; INSEEC Group (INSEEC) Schools; International University of Monaco (IUM); International Academy of Design & Technology (IADT); Le Cordon Bleu North America (LCB); and Sanford-Brown Institutes and Colleges. Through our schools, we are committed to providing high-quality education, enabling students to graduate and pursue rewarding career opportunities.

For more information, see our website at www.careered.com. The website includes a detailed listing of individual campus locations and web links to our colleges, schools and universities.

As used in this Quarterly Report on Form 10-Q, the terms we, us, our, the Company and CEC refer to Career Education Corporation and our wholly-owned subsidiaries. The terms school and university refer to an individual, branded, proprietary educational institution, owned by us and includes its campus locations. The term campus refers to an individual main or branch campus operated by one of our schools or universities.

2. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, the financial statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. Operating results for the quarter ended March 31, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013.

The unaudited consolidated financial statements presented herein include the accounts of CEC. All intercompany transactions and balances have been eliminated.

In the fourth quarter of 2012, we reorganized our business across seven reporting segments: CTU, AIU (comprises University Schools); Health Education, Culinary Arts, Design & Technology (comprises Career Schools); International; and Transitional Schools. This reorganization was a result of the decision made in the fourth quarter of 2012 to teach out a number of campuses, which are now included in our Transitional Schools reporting segment, along with certain additional campuses which were previously in the process of being taught out. These campuses employ a gradual teach-out process, enabling them to continue to operate while current students complete their course of study; they no longer enroll new students. The results of operations for campuses within the Transitional Schools segment will be reported within continuing operations for all periods presented until they complete their teach-out. As campuses within Transitional Schools cease operations, the results of operation for all periods presented will be reflected within discontinued operations. During the first quarter of 2013 and the fourth quarter of 2012, we completed the teach-out of Sanford-Brown College (SBC) Hazelwood and LCB Pittsburgh, respectively. Accordingly, the results of operations for these campuses are now reported within discontinued operations. All prior period results have been recast to reflect our reporting segments on a comparable basis.

Table of Contents

As of March 31, 2013, an agreement for the sale of our AIU campus in London, England existed with an effective date for the sale of April 1, 2013. AIU London is considered to be part of the AIU asset group and as such the sale will be reported within continuing operations in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 205 *Presentation of Financial Statements*. AIU London meets the criteria of an asset held for sale under FASB ASC Topic 360 *Property, Plant and Equipment* and accordingly, we recorded this asset at fair market value less costs to sell as of March 31, 2013. We received no consideration for the sale of AIU London resulting in a fair market value of zero and recorded a loss of \$6.7 million on the pending sale during the first quarter of 2013. As the fair value was determined based on a quoted price, this would be categorized as Level 1 per ASC Topic 820. This loss is reported within other (expense) income on our unaudited consolidated statements of income and comprehensive income. The terms of the sales agreement provide that we make payments to the buyer in consideration of negative working capital and obligate us to make payments to offset future rent payments made by the buyer related to leases assigned to the buyer; accordingly, these amounts have been included in the loss calculation. Also included in the loss on the pending sale is approximately \$3.3 million of expense related to the cumulative translation loss resulting from the effects of foreign currency on AIU London's balance sheet as of March 31, 2013. This loss had previously been recorded within accumulated other comprehensive loss as a component of stockholders' equity.

3. RECENT ACCOUNTING PRONOUNCEMENTS

In March 2013, the FASB issued Accounting Standards Update (ASU) 2013-05, *Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity*. ASU 2013-05 provides guidance on releasing cumulative translation adjustments (CTA) when an entity ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity, and also provides guidance on releasing CTA in partial sales of equity method investments and in step acquisitions. For public entities, ASU 2013-05 is effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013. If early adoption is elected, the guidance in this ASU should be applied as of the beginning of the entity's fiscal year of adoption. We are currently evaluating this guidance, and do not believe the adoption will significantly impact the presentation of our financial condition, results of operations and disclosures.

In February 2013, the FASB issued ASU No. 2013-04, *Liabilities (Topic 405): Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date*. The guidance in ASU 2013-04 requires entities to measure obligations resulting from joint and several liability arrangements, for which the total obligation amount is fixed at the reporting date, as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and any additional amount it expects to pay on behalf of its co-obligors. ASU 2013-04 also specifies disclosure requirements. For public entities, ASU 2013-04 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013 and should be applied retrospectively to all prior periods presented for obligations resulting from joint and several liability arrangements that exist at the beginning of the entity's fiscal year of adoption. Early adoption is permitted. We are currently evaluating this guidance, and do not believe the adoption will significantly impact the presentation of our financial condition, results of operations and disclosures.

In February 2013, the FASB issued ASU No. 2013-02, *Comprehensive Income (Topic 220) Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. The amendments in this ASU require entities to provide information about amounts reclassified out of accumulated other comprehensive income by component, and to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income, or cross-reference to other disclosures, based on certain criteria. ASU 2013-02 is effective prospectively for reporting periods beginning after December 15, 2012; early adoption is permitted. We have adopted this guidance which did not materially impact the presentation of our financial condition, results of operation and disclosures.

Table of Contents

In addition, we have evaluated and adopted the guidance of ASU No. 2012-02, *Intangibles-Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment* issued in July 2012. The amendments in this ASU give entities the option to first assess qualitative factors to determine whether the existence of events and circumstances indicates that it is more likely than not that an indefinite-lived intangible asset is impaired. If impairment is indicated, the fair value of the indefinite lived intangible asset should be determined and the quantitative impairment test should be performed by comparing the fair value with the carrying amount in accordance with Subtopic 350-30; if impairment is not indicated, the entity is not required to take further action. The adoption of this ASU did not impact the presentation of our financial condition, results of operation and disclosures.

4. BUSINESS ACQUISITION**Ecoles Supérieures de Commerce Chambéry**

On December 18, 2012 we assumed operation of the European-based business school Ecoles Supérieures de Commerce Chambéry (ESC Chambéry). ESC Chambéry is part of the national network of graduate business schools in France and is certified by the French Ministry of Education. This operation represents a strategic opportunity to expand geographically within Europe, providing our INSEEC Group Schools with an opportunity to leverage existing programs and management infrastructure to drive growth.

The final allocation of purchase price resulted in a bargain purchase of \$0.7 million, which was recorded as a gain on purchase within other income (expense) on our consolidated statement of income and comprehensive income for the year ended December 31, 2012. We believe this association resulted in a bargain purchase gain, given that the purchase price was less than the fair market value of the net assets acquired, as a result of the prior entity's history of operating losses and the inability to self-sustain without government subsidies.

5. DISCONTINUED OPERATIONS

As of March 31, 2013, the results of operations for campuses that have ceased operations or were sold, and are considered distinct operations as defined under FASB ASC Topic 205 *Presentation of Financial Statements*, are presented within discontinued operations. During the first quarter of 2013 and the fourth quarter of 2012, our SBC Hazelwood and LCB Pittsburgh campuses, respectively, ceased operations. All current and prior period financial statements and the related notes herein, include the results of operations and financial position for these campuses as components of discontinued operations.

Results of Discontinued Operations

The summary of unaudited results of operations for our discontinued operations for the quarters ended March 31, 2013 and 2012 were as follows:

	For the Quarter Ended March 31,	
	2013	2012
	(Dollars in thousands)	
Revenue	\$ 27	\$ 2,778
Loss before income tax	\$ (1,126)	\$ (1,836)
Income tax benefit ⁽¹⁾	(414)	(12,253)
(Loss) income from discontinued operations, net of tax	\$ (712)	\$ 10,417

- (1) Amount represents the difference between total consolidated income tax (benefit) provision, calculated by applying the estimated full-year consolidated effective tax rate to (losses) earnings reported for the period, and the income tax (benefit) provision for continuing operations, calculated by applying the estimated full-year effective tax rate for continuing operations to pretax (loss) income from continuing operations for the period.

Table of Contents**Assets and Liabilities of Discontinued Operations**

Assets and liabilities of discontinued operations on our unaudited consolidated balance sheets as of March 31, 2013 and December 31, 2012 include the following:

	March 31, 2013	December 31, 2012
	(Dollars in thousands)	
Assets:		
Current assets:		
Cash and cash equivalents	\$ 15	\$ 63
Receivables, net	251	476
Other current assets		115
Deferred income tax assets	3,450	3,450
Total current assets	3,716	4,104
Non-current assets:		
Property and equipment, net	1	162
Deferred income tax assets	17,253	17,253
Other assets, net	1,389	1,553
Total assets of discontinued operations	\$ 22,359	\$ 23,072
Liabilities:		
Current liabilities:		
Accounts payable	\$ 17	\$ 29
Accrued expenses	323	665
Deferred tuition revenue		20
Remaining lease obligations	11,966	9,174
Total current liabilities	12,306	9,888
Non-current liabilities:		
Remaining lease obligations	27,982	33,103
Other	196	96
Total liabilities of discontinued operations	\$ 40,484	\$ 43,087

Remaining Lease Obligations

A number of the campuses that ceased operations have remaining lease obligations that expire over time with the latest expiration in 2019. A liability is recorded representing the fair value of the remaining lease obligation at the time the space is no longer being utilized. Changes in our future remaining lease obligations, which are reflected within current and non-current liabilities of discontinued operations on our unaudited consolidated balance sheets, for the quarters ended March 31, 2013 and 2012, were as follows:

	Balance, Beginning of Period	Charges Incurred (1)	Net Cash Payments	Other (2)	Balance, End of Period
	(Dollars in thousands)				
For the quarter ended March 31, 2013	\$ 42,277	\$ (302)	\$ (2,016)	\$ (11)	\$ 39,948
For the quarter ended March 31, 2012	\$ 45,961	\$ 295	\$ (2,612)	\$	\$ 43,644

- (1) Includes charges for newly vacated spaces and subsequent adjustments for accretion, revised estimates, and variances between estimated and actual charges, net of any reversals for terminated lease obligations.
- (2) Includes existing prepaid rent and deferred rent liability balances for newly vacated spaces that are netted with the losses incurred in the period recorded.

Table of Contents**6. FINANCIAL INSTRUMENTS****Cash and Cash Equivalents and Investments**

Cash and cash equivalents from our continuing operations consist of the following as of March 31, 2013 and December 31, 2012:

	March 31, 2013	December 31, 2012
	(Dollars in thousands)	
Cash	\$ 119,834	\$ 136,783
Money market funds	103,982	103,776
Cash and cash equivalents, unrestricted	223,816	240,559
Restricted cash	11,408	97,878
Total cash and cash equivalents	\$ 235,224	\$ 338,437

Included in cash and cash equivalents, unrestricted within our unaudited consolidated balance sheets are amounts related to certain of our European campuses that operate as not-for-profit schools. The cash and cash equivalents related to these schools require that the funds be utilized for these particular not-for-profit schools. The amount of not-for-profit cash and cash equivalents was \$79.8 million and \$87.2 million at March 31, 2013 and December 31, 2012, respectively.

Restricted cash balances as of March 31, 2013 and December 31, 2012 are comprised of:

	March 31, 2013	December 31, 2012
	(Dollars in thousands)	
Cash collateral for amounts under:		
Credit Agreement	\$	\$ 88,000
Letters of credit	8,906	7,376
Funds restricted for legal matter	2,502	2,502
Total restricted cash	\$ 11,408	\$ 97,878

Investments from our continuing operations consist of the following as of March 31, 2013 and December 31, 2012:

	March 31, 2013 (Dollars in thousands) Gross Unrealized			
	Cost	Gain	(Loss)	Fair Value
Short-term investments (available for sale):				
U.S. Treasury Bills	\$ 63,952	4	(5)	\$ 63,951
Long-term investments (available for sale):				
Municipal bond	7,850		(468)	\$ 7,382
Total investments (available for sale)	\$ 71,802	\$ 4	\$ (473)	\$ 71,333

Table of Contents

	Cost	December 31, 2012 (Dollars in thousands) Gross Unrealized		Fair Value
		Gain	(Loss)	
Short-term investments (available for sale):				
U.S. Treasury Bills	\$ 63,879	4	(7)	\$ 63,876
Long-term investments (available for sale):				
Municipal bond	7,850		(468)	7,382
Total investments (available for sale)	\$ 71,729	\$ 4	\$ (475)	\$ 71,258

In the table above, unrealized holding losses as of March 31, 2013 relate to short-term investments that have been in a continuous unrealized loss position for less than one year. The table also includes an unrealized holding loss, greater than one year, that relates to our long-term investment in a municipal bond, which is an auction rate security (ARS). When evaluating our investment for possible impairment, we review factors such as the length of time and extent to which fair value has been less than the cost basis, the financial condition of the investee, and our ability and intent to hold the investment for a period of time that may be sufficient for anticipated recovery in fair value. The unrealized loss attributable to our municipal bond at March 31, 2013 is attributable to the continued lack of activity in the ARS market, exposing this investment to liquidity risk.

Our municipal bond is comprised of debt obligations issued by states, cities, counties, and other governmental entities, which earn federally tax-exempt interest. Our investment in ARS has a stated term to maturity of greater than one year, and as such, we classify our investment in ARS as non-current on our unaudited consolidated balance sheets within other assets. Auctions can fail when the number of sellers of the security exceeds the buyers for that particular auction period. In the event that an auction fails, the interest rate resets at a rate based on a formula determined by the individual security. The ARS for which auctions have failed continues to accrue interest and is auctioned on a set interval until the auction succeeds, the issuer calls the security, or it matures. As of March 31, 2013, we have determined this investment is at risk for impairment due to the nature of the liquidity of the market over the past year. Cumulative unrealized losses as of March 31, 2013 amount to \$0.5 million and are reflected within accumulated other comprehensive loss as a component of stockholders' equity. We believe this impairment is temporary, as we do not intend to sell the investment and it is unlikely we will be required to sell the investment before recovery of its amortized cost basis.

Fair Value Measurements

FASB ASC Topic 820 *Fair Value Measurements* establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

As of March 31, 2013, we held investments that are required to be measured at fair value on a recurring basis. These investments (available-for-sale) consist of U.S. Treasury bills that are publicly traded and for which market prices are readily available.

As of March 31, 2013, our investment in a municipal bond is classified as available-for-sale and reflected at fair value. The auction event for this investment has failed for over three years. The fair value of this security is estimated utilizing a discounted cash flow analysis as of March 31, 2013. This analysis considers, among other items, the collateralization underlying the security investment, the credit worthiness of the counterparty, the timing of expected future cash flows, and the expectation of the next time the security is expected to have a successful auction. This security was also compared, when possible, to other observable market data with similar characteristics.

Table of Contents

Investments measured at fair value on a recurring basis subject to the disclosure requirements of FASB ASC Topic 820 *Fair Value Measurements* at March 31, 2013 and December 31, 2012 were as follows:

	As of March 31, 2013 (Dollars in thousands)			Total
	Level 1	Level 2	Level 3	
U.S. Treasury bills	\$ 63,951	\$	\$	\$ 63,951
Municipal bond			7,382	7,382
Totals	\$ 63,951	\$	\$ 7,382	\$ 71,333

	As of December 31, 2012 (Dollars in thousands)			Total
	Level 1	Level 2	Level 3	
U.S. Treasury bills	\$ 63,876	\$	\$	\$ 63,876
Municipal bond			7,382	7,382
Totals	\$ 63,876	\$	\$ 7,382	\$ 71,258

The following table presents a rollforward of our assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as defined in FASB ASC Topic 820 for the quarter ended March 31, 2013:

	(Dollars in thousands)
Balance at December 31, 2012	\$ 7,382
Unrealized gain (loss)	
Balance at March 31, 2013	\$ 7,382

Credit Agreement

During the fourth quarter of 2012, we entered into a revolving credit facility pursuant to a Credit Agreement with BMO Harris Bank N.A., in its capacities as the initial lender thereunder and the administrative agent for the lenders which from time to time may be parties to the Credit Agreement. The revolving credit facility under the Credit Agreement is scheduled to mature on January 31, 2014. The Credit Agreement requires that interest and fees are payable quarterly in arrears and principal is payable at maturity.

We may prepay amounts outstanding under, or terminate, the Credit Agreement upon three or five business days prior notice, respectively, in each case without premium or penalty. The Credit Agreement contains customary affirmative, negative and financial maintenance covenants, including limits on capital expenditures and a requirement to maintain a minimum of \$75.0 million in cash and cash equivalents in domestic accounts at all times. The loans under the Credit Agreement are secured by 110% cash collateral. The agreement also contains customary representations and warranties, events of default, and rights and remedies upon the occurrence of any event of default, including rights to accelerate the debt and rights to realize upon the collateral securing the obligations under the Credit Agreement.

During the first quarter of 2013, we repaid the full amount borrowed of \$80.0 million under the Credit Agreement.

Table of Contents

7. STUDENT RECEIVABLES

Student receivables represent funds owed to us in exchange for the educational services provided to a student. Student receivables are reflected net of an allowance for doubtful accounts and net of deferred tuition revenue. Student receivables, net are reflected on our unaudited consolidated balance sheets as components of both current and non-current assets.

Generally, a student receivable balance is written off once it reaches greater than 90 days past due. Although we analyze past due receivables, it is not practical to provide an aging of our non-current student receivable balances as a result of the methodology utilized in determining our earned student receivable balances. Student receivables are recognized on our unaudited consolidated balance sheets as they are deemed earned over the course of a student's program and/or term, and therefore cash collections are not applied against specifically dated transactions.

We do not accrue interest on past due student receivables; interest is recorded only upon collection. Interest rates are determined at the time a payment plan is extended to a student.

Our standard student receivable allowance estimation methodology considers a number of factors that, based on our collection experience, we believe have an impact on our repayment risk and ability to collect student receivables. Changes in the trends in any of these factors may impact our estimate of the allowance for doubtful accounts. These factors include, but are not limited to: internal repayment history, repayment practices of previous extended payment programs and information provided by a third-party institution who previously offered similar extended payment programs, changes in the current economic, legislative or regulatory environments and credit worthiness of our students. These factors are monitored and assessed on a regular basis. Overall, our allowance estimation process for student receivables is validated by trending analysis and comparing estimated and actual performance. The repayment risk associated with student receivables under extended payment plans is generally higher than those not related to extended payment plans; as such, the allowance for doubtful accounts for these student receivables as a percentage of outstanding student receivables is higher.

Student Receivables Under Extended Payment Plans and Recourse Loan Agreements

To assist students in completing their educational programs, we had previously provided extended payment plans to certain students and also had loan agreements with Sallie Mae and Stillwater National Bank and Trust Company (Stillwater) which required us to repurchase loans originated by them to our students after a certain period of time. We no longer provide extended payment plans to students and the recourse loan agreements with Sallie Mae and Stillwater ended in March 2008 and April 2007, respectively.

As of March 31, 2013 and December 31, 2012, the amount of non-current student receivables under these programs, net of allowance for doubtful accounts and net of deferred tuition revenue, was \$6.7 million and \$6.8 million, respectively.

Table of Contents**Student Receivables Valuation Allowance**

Changes in our current and non-current receivables allowance for the quarters ended March 31, 2013 and 2012 were as follows:

	Balance, Beginning of Period	Charges to Expense (1)	Amounts Written-off	Balance, End of Period
	(Dollars in thousands)			
For the quarter ended March 31, 2013	\$ 47,158	\$ 6,673	\$ (12,025)	\$ 41,806
For the quarter ended March 31, 2012	\$ 63,541	\$ 8,970	\$ (13,880)	\$ 58,631

- (1) Charges to expense include an offset for recoveries of amounts previously written off of \$2.7 million and \$2.8 million for the quarters ended March 31, 2013 and 2012, respectively.

Fair Value Measurements

The carrying amount reported in our unaudited consolidated balance sheets for the current portion of student receivables approximates fair value because of the nature of these financial instruments as they generally have short maturity periods. It is not practicable to estimate the fair value of the non-current portion of student receivables, since observable market data is not readily available, and no reasonable estimation methodology exists.

8. RESTRUCTURING CHARGES

During 2012, we made the decision to teach out a number of campuses, meaning gradually close the campuses through an orderly process. Consistent with our commitment to students, we will work with each campus to ensure that existing students are afforded the opportunity to complete their course of study. We anticipate that a majority of these campus closures will be completed by the second quarter of 2014.

In addition, during the fourth quarter of 2012, we made the decision to carry out a reduction in force as we reorganize our campus and corporate functions to common operating structures across our ground campuses, most notably within our Career Schools, as well as to better align with the current student population.

The following table details the changes in our accrual for severance and related costs related to these restructuring events for our continuing operations during the quarter ended March 31, 2013:

	(Dollars in thousands)
Balance at December 31, 2012	\$ 10,538
Severance & related charges	391
Payments ⁽¹⁾	(4,351)
Non-cash adjustments ⁽²⁾	17
Balance as of March 31, 2013	\$ 6,595

- (1) Includes payments related to COBRA and outplacement services which are assumed to be completed by the third month following an employee's departure.

- (2)

Edgar Filing: CAREER EDUCATION CORP - Form 10-Q

Includes cancellations due to employee departures prior to agreed upon end dates, employee transfers to open positions within the organization and subsequent adjustments to severance and related costs.

The current portion of the accrual for severance and related charges was \$4.6 million and \$7.8 million as of March 31, 2013 and December 31, 2012, respectively, which is recorded within current accrued expenses – payroll and related benefits; the long-term portion of \$2.0 million and \$2.7 million, respectively, is recorded

Table of Contents

within other non-current liabilities on our unaudited consolidated balance sheets. In addition, as of March 31, 2013, we have accrued approximately \$0.9 million related to retention bonuses that have been offered to certain employees. These amounts will be recorded ratably over the period the employees are retained.

In addition to the charges detailed above, a number of these campuses will have remaining lease obligations following the eventual campus closure, with the longest lease term being through 2021. The total gross remaining lease obligations for these campuses once they complete the close process is expected to approximate \$78.0 million, which includes amounts for base rent and estimated expenses for certain occupancy charges such as common area maintenance. At the time each campus completes the close process, a charge will be recorded representing the net present value of the remaining lease obligation reduced by an estimated amount for sublease income. The final amount related to each campus will be finalized at each campus closure date.

9. COMMITMENTS AND CONTINGENCIES

An accrual for estimated legal fees and settlements of \$5.8 million and \$6.5 million at March 31, 2013 and December 31, 2012, respectively, is presented within other current liabilities on our unaudited consolidated balance sheets.

Litigation

We are, or were, a party to the following legal proceedings that are outside the scope of ordinary routine litigation incidental to our business. Due to the inherent uncertainties of litigation, we cannot predict the ultimate outcome of these matters. An unfavorable outcome of any one or more of these matters could have a material adverse impact on our business, results of operations, cash flows and financial position.

Securities Litigation

Ross, et al. v. Career Education Corporation, et al. On January 13, 2012, a class action complaint was filed in the U.S. District Court for the Northern District of Illinois, naming the Company and various individuals as defendants and claiming that the defendants violated Section 10(b) of the Securities Exchange Act of 1934 (the Exchange Act) by making material misstatements in and omitting material information from the Company's public disclosures concerning its schools' job placement rates and its compliance with accreditation standards. The complaint further claimed that the individual defendants violated Section 20(a) of the Exchange Act by virtue of their positions as control persons of the Company. Plaintiff asks for unspecified amounts in damages, interest, and costs, as well as ancillary relief. On March 23, 2012, the Court appointed KBC Asset Management NV, the Oklahoma Police Pension & Retirement Systems, and the Oklahoma Law Enforcement Retirement System, as lead plaintiffs in the action. On May 3, 2012, lead plaintiffs filed a consolidated amended complaint, asserting the same claims alleged in the initial complaint, and naming the Company and two former executive officers as defendants. Lead plaintiffs seek damages on behalf of all persons who purchased the Company's common stock between February 19, 2009 and November 21, 2011. On October 30, 2012, the Court ruled on defendants' motion to dismiss, granting it as to one of the former executive officer defendants and denying it as to the other defendants. On January 28, 2013, defendants filed answers to the consolidated amended complaint. A status hearing is scheduled for June 13, 2013.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because of the inherent difficulty in assessing the appropriate measure of damages and the number of potential class members who might be entitled to recover damages, if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

Table of Contents

Shareholder Derivative Actions and Demands

Bangari v. Lesnik, et al. On December 7, 2011, a derivative action was filed in the Circuit Court of Cook County, Chancery Division on behalf of the Company naming the Company's Board of Directors at that time as individual defendants and the Company as a nominal defendant. Plaintiff alleges breach of fiduciary duty and abuse of control by the individual defendants in connection with the Company's alleged ongoing failure to have proper internal controls in place to appropriately determine its schools' placement rates or to comply with relevant accreditation standards regarding placement practices and determinations. Plaintiff asks for unspecified amounts in damages, interest, and costs, as well as ancillary relief. On February 10, 2012, defendants filed motions to dismiss or stay the complaint. On August 21, 2012, the Court denied defendants' motions to dismiss, and granted defendants' request for a stay. A status hearing is scheduled for May 24, 2013.

Cook v. McCullough, et al. On December 22, 2011, a derivative action was filed in the U.S. District Court for the Northern District of Illinois on behalf of the Company naming the Company's Board of Directors at that time as well as various current and former officers as individual defendants and the Company as a nominal defendant. Plaintiff alleges breach of fiduciary duty, abuse of control and gross mismanagement by all of the individual defendants based on allegations similar to those asserted in *Bangari*, described above, and on defendants' alleged failure to prevent the Company's disclosure of allegedly misleading statements relating to placement rates. Plaintiff also asserts a claim of unjust enrichment against certain individual defendants due to their receipt of incentive-based compensation based on allegedly inflated short-term financial performance. Plaintiff asks for unspecified amounts in damages, interest, and costs, as well as ancillary relief. On March 16, 2012, defendants filed motions to dismiss or stay the complaint. The Court granted the motions to stay pending resolution of the motions to dismiss. On August 13, 2012, the Court denied defendants' motions to dismiss and ordered the parties to engage in certain preliminary discovery. Defendants filed answers to the complaint on October 22, 2012. A status hearing is scheduled for May 30, 2013.

Alex v. McCullough, et al. On November 5, 2012, a derivative action was filed in the U.S. District Court for the Northern District of Illinois on behalf of the Company naming the Company's Board of Directors at that time as well as various current and former officers as individual defendants and the Company as a nominal defendant. Plaintiff alleges breach of fiduciary duty, waste of corporate assets and unjust enrichment by all of the individual defendants based on allegations similar to those asserted in *Bangari* and *Cook*, described above. In addition, in connection with the Company's reporting of placement rates, plaintiff also asserts violations of Sections 10(b) and 20(a) of the Exchange Act against certain individual defendants. Plaintiff asks for unspecified amounts in damages, interest, and costs, as well as ancillary relief. Defendants' response to the complaint is currently due May 6, 2013. A status hearing is scheduled for May 9, 2013.

The Company's Board of Directors has addressed forming a Special Litigation Committee (SLC) for the purpose of conducting a thorough and independent investigation into the allegations raised in the *Bangari* and *Cook* derivative actions described above and subsequent related claims. The SLC would be delegated the authority to take any and all actions as the SLC deems appropriate and in the best interests of the Company regarding what, if any, actions the Company should undertake with respect to the findings of the SLC.

Because of the many questions of fact and law that may arise, the outcome of these actions and investigation is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for these matters because they are in their early stages and the complaints do not seek a specified amount of damages. Accordingly, we have not recognized any liability associated with these matters.

Student Litigation

Amador, et al. v. California Culinary Academy and Career Education Corporation; Adams, et al. v. California Culinary Academy and Career Education Corporation. On September 27, 2007, Allison Amador and 36 other current and former students of the California Culinary Academy (CCA) filed a complaint in the

Table of Contents

California Superior Court in San Francisco. Plaintiffs plead their original complaint as a putative class action and allege four causes of action: fraud; constructive fraud; violation of the California Unfair Competition Law; and violation of the California Consumer Legal Remedies Act. Plaintiffs contend that CCA made a variety of misrepresentations to them, primarily oral, during the admissions process. The alleged misrepresentations relate generally to the school's reputation, the value of the education, the competitiveness of the admissions process, and the students' employment prospects upon graduation, including the accuracy of statistics published by CCA.

On April 3, 2008, the same counsel representing plaintiffs in the Amador action filed the Adams action on behalf of Jennifer Adams and several other unnamed members of the Amador putative class. The Adams action also was styled as a class action and was based on the same allegations underlying the Amador action and attempted to plead the same four causes of action pled in the Amador action. The Adams action was deemed related to the Amador action and was being handled by the same judge.

The parties executed a formal settlement agreement as of November 1, 2010. On April 18, 2012, the Court issued an order granting final approval of the settlement and on April 19, 2012, the Court entered a final judgment on the settlement.

On June 3, 2011, the same attorneys representing the class in the *Amador* action filed a separate complaint in the San Francisco County Superior Court entitled *Abarca v. California Culinary Academy, Inc., et al.*, on behalf of 115 individuals who are opt outs in the Amador action and/or non-class members, and therefore not subject to the Amador settlement. On June 15, 2011, the same attorneys filed another action in the San Francisco County Superior Court entitled *Andrade, et al. v. California Culinary Academy, Inc., et al.*, on behalf of another 31 individuals who are opt outs in the *Amador* action and/or non-class members, and therefore not subject to the Amador settlement. On August 12, 2011, plaintiffs counsel filed a third action on behalf of five individuals who opted out of or were not parties to the Amador settlement entitled *Aprieto, et al. v. California Culinary Academy*. New counsel has substituted in to represent 78 of the individuals and the Court has entered orders allowing class counsel to withdraw from representing the remaining individuals. On January 18, 2013, new counsel filed a complaint entitled *Coleman, et al. v. California Culinary Academy* on behalf of two individuals who appear to be persons who opted out of the class action settlement. None of these four suits are being prosecuted as a class action. They each allege the same claims as were previously alleged in the Amador action, plus claims for breach of contract and violations of the repealed California Education Code. The plaintiffs in these cases seek damages, including consequential damages, punitive damages and attorneys' fees. We have not responded to these four complaints, which have been deemed related and transferred to the same judge who handled the *Amador* case, because they have been stayed pending a final determination as to which of the remaining individual plaintiffs have viable claims that are not barred by the final judgment on the *Amador* settlement.

There are 95 total plaintiffs who have not settled or dismissed their claims. 80 of these plaintiffs are represented by counsel. Based on the Company's records and the records of the class settlement, the 15 plaintiffs not represented by counsel (pro per plaintiffs) received notice of the settlement and did not file claims, and therefore their individual claims are expected to be barred.

The Court ordered all parties, including 13 of the pro per plaintiffs (the other two had only recently appeared in pro per), to appear at a further case management conference on April 12, 2013. Only two of the 13 pro per plaintiffs appeared and the Court indicated it will be issuing an order dismissing all other pro per plaintiffs. Thus, the action currently involves 80 plaintiffs represented by counsel and 4 pro per plaintiffs.

Discovery is proceeding as to the remaining plaintiffs and the Company intends to file answers to the claims asserted by such plaintiffs. The Court is expected to set a trial date on certain test cases (8 to 10 plaintiffs) for some time in late 2013 or early 2014. The test cases are expected to involve the equitable claims asserted under the California Unfair Competition Law and therefore are expected to be tried to the Court rather than a jury.

Because of the many questions of fact and law that may arise as discovery and pre-trial proceedings progress, the outcome of the *Abarca*, *Andrade*, *Aprieto* and *Coleman* legal proceedings with respect to the

Table of Contents

remaining plaintiffs is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for these actions because these matters are in their early stages and involve many unresolved issues of fact and law. Accordingly, we have not recognized any future liability associated with these actions.

Lilley, et al. v. Career Education Corporation, et al. On February 11, 2008, a class action complaint was filed in the Circuit Court of Madison County, Illinois, naming the Company and Sanford-Brown College, Inc. as defendants. Plaintiffs filed amended complaints on September 5, 2008 and September 24, 2010. The five plaintiffs named in the amended complaint are former students who attended a medical assistant program at Sanford-Brown College located in Collinsville, Illinois. The amended complaint asserts claims for alleged violations of the Illinois Private Business and Vocational Schools Act, for alleged unfair conduct and deceptive conduct under the Illinois Consumer Fraud and Deceptive Business Practices Act, as well as common law claims of fraudulent misrepresentation and fraudulent omission.

In the amended complaint filed on September 24, 2010, the plaintiffs allege that the school's enrollment agreements contained false and misleading information regarding placement statistics, job opportunities and salaries and that Admissions, Financial Aid and Career Services personnel used standardized materials that allegedly contained false and/or deceptive information. Plaintiffs also allege that the school misused a standardized admissions test to determine program placement when the test was not intended for that purpose; failed to provide allegedly statutorily required loan repayment information; and misrepresented the transferability of credits. Plaintiffs seek compensatory, treble and punitive damages, disgorgement and restitution of all tuition monies received from medical assistant students, attorneys' fees, costs and injunctive relief.

Defendants filed a motion to dismiss the amended complaint on October 20, 2010. On October 27, 2010 the Court granted defendants' motion with respect to plaintiffs' fraudulent omission claims. The Court denied the motion with respect to the statutory claims under the Private Schools Act and the Illinois Consumer Fraud Act and the common law fraudulent misrepresentation claim.

By Order dated December 3, 2010, the Court certified a class consisting of all persons who attended Sanford-Brown College in Collinsville, Illinois and enrolled in the Medical Assisting Program during the period from July 1, 2003 through November 29, 2010. This class consists of approximately 2,300 members. On February 10, 2011, the Fifth District Appellate Court granted defendants' petition for leave to appeal the trial court's class certification order. By Order filed on October 25, 2012, the Appellate Court reversed the class certification order. The Appellate Court also ruled that the four named plaintiffs can proceed with their individual causes of action and, if successful, receive an award of actual damages, treble damages if fraud is proven, injunctive relief and reasonable attorneys' fees and costs.

Plaintiffs' Petition for Leave to Appeal with the Illinois Supreme Court was denied and the case will now return to the Circuit Court for further proceedings consistent with the Appellate Court's October 25, 2012 Order.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because of the inherent difficulty in assessing the appropriate measure of damages and the number of potential class members who might be entitled to recover damages, if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

Surrett, et al. v. Western Culinary Institute, Ltd. and Career Education Corporation. On March 5, 2008, a complaint was filed in Portland, Oregon in the Circuit Court of the State of Oregon in and for Multnomah County naming Western Culinary Institute, Ltd. and the Company as defendants. Plaintiffs filed the complaint individually and as a putative class action and alleged two claims for equitable relief: violation of Oregon's Unlawful Trade Practices Act (UTPA) and unjust enrichment. Plaintiffs filed an amended complaint on

Table of Contents

April 10, 2008, which added two claims for money damages: fraud and breach of contract. Plaintiffs allege that Western Culinary Institute, Ltd. (WCI) made a variety of misrepresentations to them, relating generally to WCI s placement statistics, students employment prospects upon graduation from WCI, the value and quality of an education at WCI, and the amount of tuition students could expect to pay as compared to salaries they could expect to earn after graduation. WCI subsequently moved to dismiss certain of plaintiffs claims under Oregon s UTPA; that motion was granted on September 12, 2008. On February 5, 2010, the Court entered a formal Order granting class certification on part of plaintiff s UTPA and fraud claims purportedly based on omissions, denying certification of the rest of those claims and denying certification of the breach of contract and unjust enrichment claims. The class consists of students who enrolled at WCI between March 5, 2006 and March 1, 2010, excluding those who dropped out or were dismissed from the school for academic reasons.

Plaintiffs filed a Fifth Amended Complaint on December 7, 2010, which included individual and class allegations by Nathan Surrett. Class notice was sent on April 22, 2011, and the opt-out period expired on June 20, 2011. The class consisted of approximately 2,600 members. They are seeking tuition refunds, interest and certain fees paid in connection with their enrollment at WCI.

On May 23, 2012, WCI filed a motion to compel arbitration of claims by 1,062 individual class members who signed enrollment agreements containing express class action waivers. The Court issued an Order denying the motion on July 27, 2012. WCI filed an appeal from the Court s Order and on August 30, 2012, the Court of Appeals issued an Order granting WCI s motion to compel the trial court to cease exercising jurisdiction in the case. Thus, all proceedings with the trial court have been stayed pending the outcome of the appeal.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because of the inherent difficulty in assessing the appropriate measure of damages and the number of class members who might be entitled to recover damages, if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

Vasquez, et al. v. California School of Culinary Arts, Inc. and Career Education Corporation. On June 23, 2008, a putative class action lawsuit was filed in the Los Angeles County Superior Court entitled *Daniel Vasquez and Cherish Herndon v. California School of Culinary Arts, Inc. and Career Education Corporation*. The plaintiffs allege causes of action for fraud, constructive fraud, violation of the California Unfair Competition Law and violation of the California Consumer Legal Remedies Act. The plaintiffs allege improper conduct in connection with the admissions process during the alleged class period. The alleged class is defined as including all persons who purchased educational services from California School of Culinary Arts, Inc. (CSCA), or graduated from CSCA, within the limitations periods applicable to the alleged causes of action (including, without limitation, the period following the filing of the action). Defendants successfully demurred to the constructive fraud claim and the Court has dismissed it. Defendants also successfully demurred to plaintiffs claims based on alleged violations of California s former Private Postsecondary and Vocational Educational Reform Act of 1989 (the Reform Act). Plaintiffs motion for class certification was denied by the Court on March 6, 2012.

Plaintiffs counsel have filed eight separate but related multiple plaintiff actions originally involving a total of approximately 1,000 former students entitled *Banks, et al. v. California School of Culinary Arts; Abrica v. California School of Culinary Arts; Aguilar, et al. v. California School of Culinary Arts; Alday v. California School of Culinary Arts; Ackerman, et al. v. California School of Culinary Arts; Arechiga, et al. v. California School of Culinary Arts; Anderson, et al., v. California School of Culinary Arts; and Allen v. California School of Culinary Arts*. All eight cases are pending in the Los Angeles County Superior Court and the allegations in these cases are essentially the same as those asserted in the *Vasquez* class action case. The individual plaintiffs in these cases seek compensatory and punitive damages, disgorgement and restitution of tuition monies received, attorneys fees, costs and injunctive relief. All of these cases have been deemed related to the *Vasquez* class action and therefore are pending before the same judge who is presiding over the *Vasquez* case.

Table of Contents

On June 15, 2012, pursuant to a stipulation by the parties, the plaintiffs filed a consolidated amended complaint in the *Vasquez* action consolidating all eight of the separate actions referenced above. Defendants' response to the consolidated complaint was filed on July 13, 2012. The Court has lifted the stay on actions that were consolidated and the parties are now engaged in discovery.

On June 22, 2012, defendants filed motions to compel arbitration of plaintiffs' claims. On August 10, 2012, the Court granted the motions with respect to two later versions of the arbitration agreement at issue, and denied the motions with respect to the earliest version signed by certain of the plaintiffs. Approximately 54 individuals signed the later two versions of the arbitration agreement, and their claims are subject to arbitration. Nine of those individuals have filed arbitration demands before the American Arbitration Association to date. Those arbitrations have been set for hearing on dates between May and September 2013.

Among other causes of action, the consolidated complaint alleges a claim under the repealed Reform Act. On September 25, 2012, the Court sustained defendants' demurrers to the Reform Act claims without leave to amend, and overruled defendants' demurrers to the breach of contract claims which seek remedies under the Reform Act.

Defendants issued offers to compromise pursuant to the California Code of Civil Procedure to 1,478 individual plaintiffs, 345 of which were accepted. The total amount that has been or will be paid to eliminate these claims is approximately \$2.1 million. This aggregate amount was recorded in the third quarter of 2012 and the majority of the payments were made by September 30, 2012. Due to the recent addition of 385 new plaintiffs, there are currently approximately 1,052 active plaintiffs in the consolidated action.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of these legal proceedings is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for these actions with respect to the current plaintiffs because our possible liability depends on an assessment of the appropriate measure of damages, if we were to be found liable. Accordingly, we have not recognized any liability associated with these actions except as described above.

Kishia Houck, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc., and *Juan Antonio Morales, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc.* On May 23, 2012, a putative class action was filed in the Circuit Court of the Thirteenth Judicial Circuit for Hillsborough County, Florida, captioned, *Kishia Houck, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc.* The *Houck* plaintiffs alleged causes of action under Florida's Deceptive and Unfair Trade Practices Act and for breach of the implied covenant of good faith and fair dealing, unjust enrichment, and breach of fiduciary duty. They alleged that the defendants made a variety of misrepresentations to them, relating generally to salary and employment prospects, instructor qualifications, transferability of credits, career placement services, the reputation of the International Academy of Merchandising & Design, Inc., the value and quality of the education, the overall cost to attend the school, and relevant student loan information. The putative class was defined as including all students who are or have enrolled in defendants' degree programs at IADT's Tampa and Orlando, Florida campuses during an undetermined time period. The *Houck* plaintiffs sought to recover damages and also sought declaratory and injunctive relief.

On July 5, 2012, the action was removed to the U.S. District Court for the Middle District of Florida. On August 3, 2012, the *Houck* plaintiffs filed a Third Amended Class Action Complaint. On September 7, 2012, defendants moved to dismiss the *Houck* plaintiffs' claims and to compel arbitration. On October 12, 2012, the parties jointly moved the Court to postpone most case activity until it decides whether to refer the case for arbitration.

On September 11, 2012, a second putative class action was filed in the U.S. District Court for the Middle District of Florida, captioned, *Juan Antonio Morales, et al. v. Career Education Corporation and International*

Table of Contents

Academy of Merchandising & Design, Inc. The *Morales* plaintiffs alleged essentially the same factual bases and causes of action as in *Houck*, but added a request for punitive damages. The definition of the putative class in *Morales* was the same as in *Houck*.

On October 23, 2012, the *Morales* plaintiffs filed a First Amended Complaint in which, among other things, they added several additional plaintiffs, including a proposed class representative, and a claim for civil conspiracy. Thus, *Morales* included causes of action under Florida's Deceptive and Unfair Trade Practices Act, and for breach of the implied covenant of good faith and fair dealing, unjust enrichment, breach of fiduciary duty, and civil conspiracy. On November 2, 2012, the Court ordered *Morales* closed, incorporated it into *Houck*, and ordered that all further pleadings shall be filed in *Houck*. Plaintiffs filed a Consolidated Amended Class Action Complaint on November 11, 2012, which included all plaintiffs from both *Houck* and *Morales* and added a cause of action for violation of the Federal Racketeer Influenced and Corrupt Organizations Act. Defendants subsequently, on November 30, 2012, filed a motion to dismiss, a motion to compel arbitration, and a motion to strike the plaintiffs' punitive damages claims.

On December 14, 2012, plaintiffs filed a motion for leave to conduct discovery on the issue of whether the arbitration provisions in the student enrollment agreements signed by each of the plaintiffs is unconscionable. A hearing was held on the motion on January 17, 2013, which concluded with the Court denying plaintiffs' request for discovery. On February 11, 2013, plaintiffs responded to the motion to compel arbitration, motion to dismiss, and motion to strike plaintiffs' demand for punitive damages. On March 12, 2013, defendants replied to plaintiffs' response to defendants' motion to compel arbitration.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of these legal proceedings is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for these actions because, among other things, our potential liability depends on whether a class is certified and, if so, the composition and size of any such class, as well as on an assessment of the appropriate measure of damages if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

David Cohen, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc. On January 14, 2013, a putative class action was filed in the U.S. District Court for the Middle District of Florida, captioned, *David Cohen, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc.* The *Cohen* plaintiffs allege causes of action under Florida's Deceptive and Unfair Trade Practices Act and for unjust enrichment, breach of fiduciary duty, civil conspiracy, and violation of the Federal Racketeer Influenced and Corrupt Organizations Act. They allege that defendants made a variety of misrepresentations to them, relating generally to salary and employment prospects, instructor qualifications, transferability of credits, career placement services, the reputation of the International Academy of Merchandising & Design, Inc., the value and quality of the education, the overall cost to attend the school, and relevant student loan information. The putative class is defined as including all students who are or have enrolled in defendants' degree programs at its Tampa and Orlando, Florida campuses during an undetermined time period. The *Cohen* plaintiffs seek to recover compensatory and punitive damages and also seek declaratory and injunctive relief.

The complaint is essentially identical to the Consolidated Amended Class Action Complaint previously filed in *Kishia Houck, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc.*, raising the same claims and including the same class definition, with the exception that the *Cohen* plaintiffs, unlike those in *Houck*, have not raised a claim for breach of the implied covenant of good faith and fair dealing.

On February 11, 2013, defendants filed a motion to compel arbitration, a motion to dismiss, and a motion to strike plaintiffs' demand for punitive damages, which are still pending as of April 30, 2013.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we

Table of Contents

cannot reasonably estimate a range of potential loss, if any, for this action because, among other things, our potential liability depends on whether a class is certified and, if so, the composition and size of any such class, as well as on an assessment of the appropriate measure of damages if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

Danielle Brainard, et al. v. Career Education Corporation and Sanford-Brown Limited, Inc. On September 11, 2012, a putative class action was filed in the U.S. District Court for the Middle District of Florida, captioned, *Danielle Brainard, et al. v. Career Education Corporation and Sanford-Brown Limited, Inc. d/b/a Sanford-Brown College and d/b/a Sanford-Brown Institute-Orlando*. In their complaint, plaintiffs alleged causes of action under Florida's Deceptive and Unfair Trade Practices Act and the Federal Racketeer Influenced and Corrupt Organizations Act (RICO), for breach of the implied covenant of good faith and fair dealing, unjust enrichment, and breach of fiduciary duty. Plaintiffs allege that defendants made a variety of misrepresentations to them, relating generally to salary and employment prospects, instructor qualifications, transferability of credits, the necessity for completing a medical assistant program before enrolling in other technical programs, career placement services, the reputation of Sanford-Brown College and Sanford-Brown Institute, the value and quality of the education, the overall cost to attend the school, and relevant student loan information. The putative classes are defined as including (1) all students who are or have enrolled in defendants' degree programs at its Tampa and Orlando, Florida campuses during an undetermined time period, and (2) all students who are or have enrolled in defendants' degree programs at any of their Sanford-Brown campuses throughout the United States during an undetermined period who were told by defendants that they had to complete a medical assistant program prior to enrolling in other technical programs. Plaintiffs seek to recover damages and also seek declaratory and injunctive relief.

On October 18, 2012, plaintiffs filed a First Amended Complaint. In this amended pleading, plaintiffs added several additional plaintiffs and a claim for civil conspiracy.

The Court granted defendants' motion to compel arbitration on March 11, 2013 and the case is stayed pending arbitration.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because, among other things, our potential liability depends on whether a class or classes are certified and, if so, the composition and size of any such class(es), the number of arbitrations that plaintiffs file and thereafter prosecute, as well as on an assessment of the appropriate measure of damages if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

Ronald Cernohorsky, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc. On January 14, 2013, a putative class action was filed in the Circuit Court of the Thirteenth Judicial Circuit for Hillsborough County, Florida, captioned, *Ronald Cernohorsky, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc. d/b/a IADT Online*. The *Cernohorsky* plaintiffs allege causes of action against CEC and IADT Online under Florida's Deceptive and Unfair Trade Practices Act and for unjust enrichment, breach of fiduciary duty, and violation of the Federal Racketeer Influenced and Corrupt Organizations Act. They allege that defendants made a variety of misrepresentations to them, relating generally to salary and employment prospects, instructor qualifications, transferability of credits, career placement services, the reputation of IADT Online, the value and quality of the education, the overall cost to attend the school, and relevant student loan information. The putative class is defined as including all students who are or have enrolled in defendants' online degree programs during an undetermined time period. The *Cernohorsky* plaintiffs seek to recover compensatory and punitive damages and also seek declaratory and injunctive relief.

Table of Contents

The complaint is similar to the Consolidated Amended Class Action Complaint previously filed in *Kishia Houck, et al. v. Career Education Corporation and International Academy of Merchandising & Design, Inc.*, but focuses on students enrolled in IADT's online degree programs, rather than at its Tampa and Orlando, Florida campuses.

On February 11, 2013, defendants filed a motion to compel arbitration, a motion to dismiss, and a motion to strike plaintiffs' demand for punitive damages, which are still pending as of April 30, 2013.

On April 2, 2013, the Court transferred the case to Judge Kovachevich, who is presiding over the related *Houck* and *Cohen* actions.

Because of the many questions of fact and law that have already arisen and that may arise in the future, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because, among other things, our potential liability depends on whether a class is certified and, if so, the composition and size of any such class, as well as on an assessment of the appropriate measure of damages if we were to be found liable. Accordingly, we have not recognized any liability associated with this action.

Keith Stafford v. American Intercontinental University and Does 1-10, inclusive. On September 4, 2012, plaintiff Keith Stafford, on behalf of himself only, filed this action against American InterContinental University in the United States District Court, Northern District of Indiana. The complaint alleges two claims for negligent and willful violations of the Telephone Consumer Protection Act (TCPA). In his initial complaint, plaintiff alleged that he received automated dialer calls using a robotic voice in violation of the TCPA. He also alleges that he instructed AIU to cease making the calls but AIU did not do so. The Company filed an answer to plaintiff's complaint on November 13, 2012.

On February 18, 2013, plaintiff filed a first amended class action complaint in which he makes essentially the same allegations on behalf of a class defined as [a]ll persons within the United States who, at any time during the last four years, received one or more non-emergency telephone calls from [AIU] to a residential telephone through the use of an artificial or pre-recorded voice, and who did not provide prior express consent for such calls. Plaintiff seeks injunctive relief, statutory and treble damages of \$1500 per call for willful violations of the TCPA plus attorneys' fees and costs. The Company filed an answer to the first amended class action complaint on February 25, 2013.

The Company has conducted an investigation into the claims by the named plaintiff Keith Stafford and believes that the calls placed to the plaintiff did not violate the TCPA. Plaintiff served preliminary written discovery on January 11, 2013. The Company responded to the discovery and sent a letter to plaintiff's counsel demanding dismissal of the action. Plaintiff's counsel is considering the Company's demand.

Because of the many questions of fact and law that may arise as discovery and pre-trial proceedings progress, the outcome of this action is uncertain at this point. Although we believe the action lacks merit, the case is in the preliminary stages and may involve unresolved issues of fact and law. Therefore, based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action. Accordingly, we have not recognized any liability associated with this action.

False Claims Act

United States of America, ex rel. Melissa Simms Powell, et al. v. American InterContinental University, Inc., a Georgia Corporation, Career Education Corp., a Delaware Corporation and John Doe Nos. 1-100. On July 28, 2009, we were served with a complaint filed in the U.S. District Court for the Northern District of Georgia, Atlanta Division. The complaint was originally filed under seal on July 14, 2008 by four former employees of the Dunwoody campus of our American InterContinental University on behalf of themselves and

Table of Contents

the federal government. The case is captioned *United States of America, ex rel. Melissa Simms Powell, et al. v. American InterContinental University, Inc., a Georgia Corporation, Career Education Corp., a Delaware Corporation and John Doe Nos. 1-100*. On July 27, 2009, the Court ordered the complaint unsealed and we were notified that the U.S. Department of Justice declined to intervene in the action. When the federal government declines to intervene in a False Claims Act action, as it has done in this case, the private plaintiffs (or relators) may elect to pursue the litigation on behalf of the federal government and, if they are successful, receive a portion of the federal government's recovery. The action alleges violations of the False Claims Act, 31 U.S.C. § 3729(a)(1) and (2), and promissory fraud, including allegedly providing false certifications to the federal government regarding compliance with certain provisions of the Higher Education Act and accreditation standards. Relators claim that defendants' conduct caused the government to pay federal funds to defendants and to make payments to third-party lenders, which the government would not have made if not for defendants' alleged violation of the law. Relators seek treble damages plus civil penalties and attorneys' fees. The lawsuit is currently in the discovery phase. On July 12, 2012, the Court granted our motion to dismiss for a lack of jurisdiction, the claims related to incentive compensation and proof of graduation. Thus, the only claim that remains pending against defendants is based on relators' contention that defendants misled the school's accreditor, Southern Association of Colleges and Schools, during the accreditation process.

Because of the many questions of fact and law that may arise, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because the complaint does not seek a specified amount of damages and it is unclear how damages would be calculated. Moreover, the case presents novel legal issues and discovery is in its early stages. Accordingly, we have not recognized any liability associated with this action.

Brent M. Nelson v. Career Education Corporation, Sanford-Brown, Ltd., and Ultrasound Technical Services, Inc. On April 18, 2013, we were served with a complaint filed in the U.S. District Court for the Eastern District of Wisconsin. The complaint was originally filed under seal on July 30, 2012 by a former employee of Sanford-Brown College Milwaukee on behalf of himself and the federal government. The case is captioned *Brent M. Nelson, bringing this action on behalf of the United States of America, v. Career Education Corporation, Sanford-Brown, Ltd., and Ultrasound Technical Services, Inc.* On February 27, 2013, the Court ordered the complaint unsealed and we were notified that the U.S. Department of Justice declined to intervene in the action. After the federal government declined to intervene in this case, the relators elected to pursue the litigation on behalf of the federal government and, if they are successful, receive a portion of the federal government's recovery. The relators filed an amended complaint on April 12, 2013. The amended complaint alleges violations of the False Claims Act, 31 U.S.C. § 3729(a)(1) and (2), including allegedly providing false certifications to the federal government regarding compliance with certain provisions of the Higher Education Act and accreditation standards. Relators claim that defendants' conduct caused the government to pay federal funds to defendants and to make payments to third-party lenders, which the government would not have made if not for defendants' alleged violation of the law. Relators seek treble damages plus civil penalties and attorneys' fees. Defendants' answer to the complaint is currently due on May 9, 2013.

Because of the many questions of fact and law that may arise, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because the complaint does not seek a specified amount of damages and it is unclear how damages would be calculated. Moreover, the case presents novel legal issues and is in its early stages. Accordingly, we have not recognized any liability associated with this action.

Employment Litigation

Wilson, et al. v. Career Education Corporation. On August 11, 2011, Riley Wilson, a former Admissions Representative based in Minnesota, filed a complaint in the U.S. District Court for the Northern District of Illinois. The two-count complaint asserts claims of breach of contract and unjust enrichment arising from our decision to terminate our Admissions Representative Supplemental Compensation Plan. In addition to his

Table of Contents

individual claims, Wilson also seeks to represent a nationwide class of similarly situated Admissions Representatives who also were affected by termination of the plan. On October 6, 2011, we filed a motion to dismiss the complaint. On April 13, 2012, the Court granted our motion to dismiss in its entirety and dismissed plaintiff's complaint for failure to state a claim. The Court dismissed this action with prejudice on May 14, 2012. On June 11, 2012, plaintiff filed a Notice of Appeal with the U.S. Court of Appeals for the Seventh Circuit appealing the final judgment of the trial court. Briefing was completed on October 30, 2012, and oral argument was held on December 3, 2012. The Seventh Circuit has not yet ruled on the appeal.

Because plaintiff has filed a notice of appeal, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action. Accordingly, we have not recognized any liability associated with this action.

Gonzalez, et al. v. Career Education Corporation, et al. On September 16, 2011, Karla Gonzalez and 19 other current and former employees of Southern California School of Culinary Arts, Ltd. (SCSCA) who worked primarily as admissions representatives filed a complaint in California Superior Court for the County of Los Angeles, Northeast District. The complaint named us, SCSCA, Le Cordon Bleu, Inc. and two former SCSCA employees as defendants. Following several amendments, the plaintiffs alleged in their complaint, among other things, that the defendants (i) failed to pay them overtime and rest break compensation in violation of the California Labor Code; (ii) owe statutory penalties under the California Labor Code for unpaid wages; (iii) engaged in unfair competition and unfair business practices in violation of the California Business and Professions Code relating to false time records and failure to pay wages owed; (iv) breached contracts by failing to pay bonuses for enrolling students; (v) engaged in unfair competition and unfair business practices in violation of the California Business and Professions Code by failing to report and intending to evade taxes; (vi) are responsible for statutory penalties under the California Private Attorneys General Act (PAGA) for violations of various sections of the California Code; (vii) committed fraud by failing to pay allegedly promised bonuses and by altering time records; and (viii) violated public policy by retaliating against the plaintiffs. In their PAGA claim, plaintiffs sought recovery of penalties for violations of various wage and hour provisions of the California Code on behalf of themselves and all other similar current and former employees in California.

The defendants answered the complaint by denying all allegations, and the parties engaged in discovery. Since discovery commenced, two plaintiffs agreed to voluntarily dismiss their claims, and one other plaintiff has accepted an offer to compromise issued pursuant to the California Code of Civil Procedure. On or about March 13, 2013, the parties agreed to settle the claims of the 17 remaining plaintiffs. After the settlement papers are finalized and signed by all parties, all remaining claims of the 17 plaintiffs will be dismissed with prejudice.

Nimely, et al. v. Randstad General Partners, Randstad USA, Randstad Inhouse Services L.P., and Career Education Corporation. On December 30, 2012, April R. Nimely, a former hourly, non-exempt call center employee based in Illinois filed a putative class and collective action complaint in the U.S. District Court for the Northern District of Illinois against the Company and various entities of the staffing firm Randstad, which the Company used to supplement its own staff at some of its call centers. The complaint asserts claims under the Fair Labor Standards Act, the Illinois Minimum Wage Law, and the Illinois Wage Payment and Collection Act (IWPCA) arising from the alleged failure to pay wages for work performed before and after shifts and during breaks. The putative collective class was defined as [a]ll persons who worked for Defendants as telephone dedicated employees, however titled, who were compensated, in part or in full, on an hourly basis throughout the United States at any time between December 30, 2009 and the present who did not receive the full amount of overtime wages earned and owed to them.

On February 27, 2013, defendants filed their answers to the complaint and motion to dismiss the IWPCA count of the complaint. Plaintiff's motions for class certification and conditional collective action certification are currently due on May 28, 2013, defendants' response is due June 10, 2013 and plaintiff's reply is due June 24, 2013.

Table of Contents

Because of the many questions of fact and law that may arise, the outcome of this legal proceeding is uncertain at this point. Based on information available to us at present, we cannot reasonably estimate a range of potential loss, if any, for this action because these matters are in their early stages, and involve many unresolved issues of fact and law. Accordingly, we have not recognized any liability associated with this action.

Other Litigation

In addition to the legal proceedings and other matters described above, we are also subject to a variety of other claims, suits and investigations that arise from time to time in the ordinary conduct of our business, including, but not limited to, claims involving students or graduates and routine employment matters. While we currently believe that such claims, individually or in aggregate, will not have a material adverse impact on our financial position, cash flows or results of operations, these other matters are subject to inherent uncertainties, and management's view of these matters may change in the future. Were an unfavorable final outcome to occur in any one or more of these matters, there exists the possibility of a material adverse impact on our business, reputation, financial position, cash flows, and the results of operations for the period in which the effect becomes probable and reasonably estimable.

State Investigations

The Company received from the Attorney General of the State of New York (NYAG) a Subpoena Duces Tecum dated May 17, 2011 (the Subpoena), relating to the NYAG's investigation of whether the Company and certain of its schools have complied with certain New York state consumer protection, securities, finance and other laws. Pursuant to the Subpoena, the NYAG has requested from the Company, and certain of its schools, documents and detailed information on a broad spectrum of business practices, including such areas as marketing and advertising, student recruitment and admissions, education financing, training and compensation of admissions and financial aid personnel, programmatic accreditation, student employment outcomes, placement rates of graduates and other disclosures made to students. The documents and information sought by the NYAG in connection with its investigation cover the time period from May 17, 2005 to the present. As previously disclosed, at the direction of the Company's Board of Directors, an independent internal investigation was conducted into the determination of placement rates at the Company's Health Education segment schools as well as a review of such practices at all of its other domestic schools. The Company has reported the results of this investigation to the NYAG. The Company continues to cooperate with the NYAG with a view towards resolving this inquiry as promptly as possible.

The Florida campuses of Sanford-Brown Institute received a notice on November 5, 2010 from the State of Florida Office of the Attorney General that it has commenced an investigation into possible unfair and deceptive trade practices at these schools. The notice includes a subpoena to produce documents and detailed information for the time period from January 1, 2007 to the present about a broad spectrum of business practices at such schools. The Florida campuses of Sanford-Brown Institute have responded to the subpoena and continue to cooperate with the Florida Attorney General with a view towards resolving this inquiry as promptly as possible.

The Company received from the Attorney General of the State of Illinois (IL AG) a Civil Investigative Demand (CID) dated December 9, 2011. The CID relates to the IL AG's investigation of whether the Company and its schools operating in Illinois have complied with certain Illinois state consumer protection laws. Pursuant to the CID, the IL AG has requested from the Company and its schools documents and detailed information on a broad spectrum of business practices, including such areas as marketing and advertising, student recruitment and admissions, education financing, training and compensation of admissions and financial aid personnel, programmatic accreditation, student employment outcomes, placement rates of graduates and other financial and organizational information. The documents and information sought by the IL AG in connection with its investigation cover the time period from January 1, 2006 to the present. The Company is cooperating with the IL AG's office with a view towards resolving this inquiry as promptly as possible.

Table of Contents

The Company received from the Department of Justice of the State of Oregon (OR DOJ) an Investigative Demand (ID) dated January 3, 2012. The ID relates to the OR DOJ s investigation of whether the Company and AIU operating in Oregon have complied with certain Oregon state consumer protection laws. Pursuant to the ID, the OR DOJ has requested from the Company and AIU documents and detailed information on a broad spectrum of business practices, including such areas as consumer practices, accreditation, advertisements, recruitment, enrollment and admission of students, financial aid, records of discrimination complaints, academic performance, certain degree programs and student disclosures. The documents and information sought by the OR DOJ in connection with its investigation cover the time period from January 1, 2004 to the present. The Company is cooperating with the OR DOJ s office with a view towards resolving this inquiry as promptly as possible.

The Company received from the Commonwealth of Massachusetts Office of the Attorney General (MA AG) a Civil Investigative Demand dated September 27, 2012. The CID relates to the MA AG s investigation of whether certain of the Company s schools have complied with Massachusetts consumer protection laws in connection with marketing and advertising, job placement and student outcomes, the recruitment of students, and the financing of education. Pursuant to the CID, the MA AG has requested from the Company documents and detailed information covering a broad spectrum of areas, including student information, programs of study, externships, tuition, financial aid, default rates, graduation rates, employment outcomes, recruitment and admissions, career services, student disclosures, employee compensation, accreditation, advertising, and complaints relating to operations, recruitment, placement, retention, graduation and quality of education. The documents and information sought by the MA AG in connection with its investigation generally cover the time period from January 1, 2008 to the present, with some specific requests covering time periods as early as January 1, 2003 to the present. The Company is cooperating with the MA AG s office with a view towards resolving this inquiry as promptly as possible.

We cannot predict the scope, duration or outcome of these investigations. At the conclusion of these matters, the Company or certain of its schools may be subject to claims of failure to comply with state laws or regulations and may be required to pay significant financial penalties and/or curtail or modify their operations. Other state attorneys general may also initiate inquiries into the Company or its schools. If any of the foregoing occurs, our business, reputation, financial position, cash flows and results of operations could be materially adversely affected. Based on information available to us at present, we cannot reasonably estimate a range of potential monetary or non-monetary impact these investigations might have on the Company because it is uncertain what remedies, if any, these regulators might ultimately seek in connection with these investigations.

SEC Inquiry and Other Information Requests

During the second quarter of 2012, the Company was advised by the Chicago Regional Office of the Securities and Exchange Commission (SEC) that it is conducting an inquiry pertaining to our previously reported 2011 investigation and review of student placement rate determination practices and related matters. We are cooperating fully with the inquiry. We cannot determine the eventual duration, scope or outcome of this matter.

The Company and its institutions have responded to requests for information regarding its 2011 investigation and review of placement determination practices and related matters from the Higher Learning Commission of the North Central Association of Colleges and Schools, Middle States Commission on Higher Education, Commonwealth of Pennsylvania Department Education Division of Higher and Career Education, the Arizona State Board for Private Postsecondary Education, the Minnesota Office of Higher Education and the Florida Commission for Independent Education. We cannot predict the outcome of these information requests and any legal proceeding, claim or other matter that may arise relating thereto.

Table of Contents

Regulatory Matters

ED Inquiry and HCM1 Status

In December 2011, ED advised the Company that it is conducting an inquiry concerning possible violations of ED misrepresentation regulations related to placement rates reported by certain of the Company's institutions to accrediting bodies, students and potential students. This inquiry stems from the Company's self-reporting to ED of its internal investigation into student placement determination practices at the Company's Health Education segment schools and review of placement determination practices at all of the Company's other domestic schools in 2011. The Company has been cooperating with ED in connection with this inquiry. If ED determines that the Company or any of its institutions violated ED misrepresentation regulations with regard to the publication of placement rates or other disclosures to students or prospective students, ED may revoke, limit, suspend or deny the institution's Title IV eligibility, or impose fines. Any such action would first likely require reasonable prior notice and an opportunity for an administrative hearing (as recently confirmed by the U.S. Court of Appeals for the District of Columbia), and would be subject to appeal.

In December 2011, ED also moved all of the Company's institutions from the advance method of payment of Title IV Program funds to cash monitoring status (referred to as Heightened Cash Monitoring 1, or HCM1, status). Although the Company's prior practices substantially conformed to the requirements of this more restrictive method of drawing down students' Title IV Program funds, if ED finds violations of the HEA or related regulations, ED may impose monetary or program level sanctions, or transfer the Company's schools to the reimbursement or Heightened Cash Monitoring 2 (HCM2) methods of payment of Title IV Program funds. While on HCM2 status, an institution must disburse its own funds to students, document the students' eligibility for Title IV Program funds and comply with certain waiting period requirements before receiving such funds from ED, which results in a significant delay in receiving those funds. The process of re-establishing a regular schedule of cash receipts for the Title IV Program funds if ED places our schools on reimbursement or HCM2 payment status could take several months, and would require us to fund ongoing operations substantially out of existing cash balances. If our existing cash balances are insufficient to sustain us through this transition period, we would need to pursue other sources of liquidity, which may not be available or may be costly.

OIG Audit

Our schools and universities are also subject to periodic audits by various regulatory bodies, including the U.S. Department of Education's Office of Inspector General (OIG). The OIG audit services division commenced a compliance audit of CTU in June 2010, covering the period July 5, 2009 to May 16, 2010, to determine whether CTU had policies and procedures to ensure that CTU administered Title IV Program and other federal program funds in accordance with applicable federal law and regulation. On January 13, 2012, the OIG issued a draft report identifying three findings, including one regarding the documentation of attendance of students enrolled in online programs and one regarding the calculation of returns of Title IV Program funds arising from student withdrawals without official notice to the institution. CTU submitted a written response to the OIG, contesting these findings, on March 2, 2012. CTU disagreed with the OIG's proposed determination of what constitutes appropriate documentation or verification of online academic activity during the time period covered by the audit. CTU's response asserted that this finding was based on the retroactive application of standards adopted as part of the program integrity regulations that first went into effect on July 1, 2011. The OIG final report, along with CTU's response to the draft report, was forwarded to ED's Office of Federal Student Aid on September 21, 2012. On October 24, 2012, CTU provided a further response challenging the findings of the report directly to ED's Office of Federal Student Aid. As a result of ED's review of these materials, on January 31, 2013, CTU received a request from ED that it perform two file reviews to determine potential liability on two discrete issues associated with one of the above findings. The first file review relates to any potential aid awarded to students who engaged in virtual classroom attendance activities prior to the official start date of a course and for which no further attendance was registered during the official class term. The second file review relates to students that were awarded and paid Pell funds for enrollment in two concurrent courses, while only registering attendance in one of the two courses. The Company has completed these file reviews and

Table of Contents

provided supporting documentation to ED on April 10, 2013. Based on the completed reviews, the Company has reduced its estimate of the potential liability during the first quarter of 2013 relating to this audit to approximately \$750,000 from \$2.5 million, and has considered this along with other matters outstanding when assessing the adequacy of its legal reserves.

10. INCOME TAXES

The components of pretax (loss) income from continuing operations for the quarters ended March 31, 2013 and 2012 are as follows:

	For the Quarter Ended March 31,	
	2013	2012
	(Dollars in thousands)	
U.S.	\$ (34,105)	\$ 35,836
Foreign	8,375	12,253
Total	\$ (25,730)	\$ 48,089

The determination of the annual effective tax is based upon a number of significant estimates and judgments, including the estimated annual pretax income in each tax jurisdiction in which we operate and the ongoing development of tax planning strategies during the year. In addition, our provision for income taxes can be impacted by changes in tax rates or laws, the finalization of tax audits and reviews, as well as other factors that cannot be predicted with certainty. As such, there can be significant volatility in interim tax provisions.

The following is a summary of our income tax (benefit) provision and effective tax rate from continuing operations:

	For the Quarter Ended March 31,	
	2013	2012
	(Dollars in thousands)	
Pretax (loss) income	\$ (25,730)	\$ 48,089
(Benefit from) provision for income taxes	\$ (11,239)	\$ 6,430
Effective income tax rate	-43.7%	13.4%

The decrease in the effective tax rate for the quarter ended March 31, 2013 as compared to the prior year quarter was primarily due to lower full-year projected results of operations and the relative percentage of operating income that our not-for-profit institutions will contribute to consolidated results. The current quarter tax rate was also impacted by a \$2.0 million favorable tax adjustment related to the resolution of various state tax exposures which increased the effective tax rate benefit by 7.8%. The cumulative effect of foreign and state valuation losses, foreign rate differences and not-for-profit operating income reduced the effective tax rate benefit by 2.4%.

We estimate that it is reasonably possible that the liability for unrecognized tax benefits for a variety of uncertain tax positions will decrease by up to \$12.6 million in the next twelve months as a result of the completion of various tax audits currently in process and the expiration of the statute of limitations in several jurisdictions. The income tax rate for the quarter ended March 31, 2013 does not take into account the possible reduction of the liability for unrecognized tax benefits. The impact of a reduction to the liability will be treated as a discrete item in the period the reduction occurs. We recognize interest and penalties related to unrecognized tax benefits in tax expense. As of March 31, 2013, we had accrued \$3.2 million as an estimate for reasonably possible interest and accrued penalties.

Our tax returns are routinely examined by federal, state and foreign tax authorities and these audits are at various stages of completion at any given time. The Internal Revenue Service completed its examination of our U.S. income tax returns through our tax year ended December 31, 2007.

Table of Contents**11. SHARE-BASED COMPENSATION****Overview of Share-Based Compensation Plans**

The Career Education Corporation 2008 Incentive Compensation Plan (the 2008 Plan) authorizes awards of stock options, stock appreciation rights, restricted stock, restricted stock units, deferred stock, performance units, annual incentive awards, and substitute awards, which generally may be settled in cash or shares of our common stock. Any shares of our common stock that are subject to awards of stock options or stock appreciation rights payable in shares will be counted as 1.0 share for each share issued for purposes of the aggregate share limit and any shares of our common stock that are subject to any other form of award payable in shares will be counted as 1.67 shares for each share issued for purposes of the aggregate share limit. As of March 31, 2013, there were approximately 10.2 million shares of common stock available for future share-based awards under the 2008 Plan. This amount does not reflect 4.2 million shares underlying restricted stock units and stock options outstanding as of March 31, 2013, which upon vesting or exercise will be settled in shares of our common stock and thus reduce the common stock available for future share-based awards under the 2008 Plan by the amount vested, multiplied by the applicable factor under the plan.

As of March 31, 2013, we estimate that compensation expense of approximately \$10.0 million will be recognized over the next four years for all unvested share-based awards that have been granted to participants, including stock options, shares of restricted stock and restricted stock units to be settled in shares of stock but excluding restricted stock units to be settled in cash.

Stock Options. The exercise price of stock options granted under each of the plans is equal to the fair market value of our common stock on the date of grant. Employee stock options generally become exercisable 25% per year over a four-year service period beginning on the date of grant and expire ten years from the date of grant. Non-employee directors' stock options expire ten years from the date of grant and generally become exercisable as follows: one-third on the grant date, one-third on the first anniversary of the grant date, and one-third on the second anniversary of the grant date, or, one-fourth on the grant date and one-fourth for each of the first through third anniversaries of the grant date. Both employee stock options and non-employee director stock options are subject to possible earlier vesting and termination in certain circumstances. Generally, if a plan participant terminates his or her employment for any reason other than by death or disability during the vesting period, he or she forfeits the right to unvested stock option awards. Grants of stock options are generally only subject to the service conditions discussed previously.

Stock option activity during the quarter ended March 31, 2013 under all of our plans was as follows:

	Options (In thousands)	Weighted Average Exercise Price
Outstanding as of December 31, 2012	2,592	\$ 25.96
Granted	890	2.72
Exercised		
Forfeited	(69)	6.21
Cancelled	(33)	34.21
Outstanding as of March 31, 2013	3,380	\$ 20.16
Exercisable as of March 31, 2013	2,111	\$ 28.66

Restricted Stock and Restricted Stock Units to be Settled in Stock. Restricted stock and restricted stock units to be settled in shares of stock generally become fully vested either three years after the date of grant or 25% per year over a four-year service period beginning on the date of grant. Generally, if a plan participant terminates his or her employment for any reason other than by death or disability during the vesting period, he or she forfeits the right to the unvested restricted stock and restricted stock units. The vesting of restricted stock and restricted

Table of Contents

stock units is subject to possible acceleration in certain circumstances. Certain restricted stock awarded to plan participants referred to as performance-based restricted stock are subject to performance conditions that, even if the requisite service period is met, may reduce the number of shares or units of restricted stock that vest at the end of the requisite service period or result in all shares or units being forfeited.

The following table summarizes information with respect to all outstanding restricted stock and restricted stock units to be settled in shares of stock under our plans during the quarter ended March 31, 2013:

	Restricted Stock (Shares and Units in thousands)				
	Shares	Weighted Average Grant-Date Fair Value Per Share	Units	Weighted Average Grant-Date Fair Value Per Unit	Total
Outstanding as of December 31, 2012	854	\$ 24.74	1,144	\$ 8.27	1,998
Granted			43	2.72	43
Vested	(142)	23.38	(304)	8.63	(446)
Forfeited	(364)	27.76	(89)	8.63	(453)
Outstanding as of March 31, 2013	348	\$ 22.37	794	\$ 7.79	1,142

2013 Annual Grants. During the first quarter of 2013, as part of our annual long term incentive grants to employees, we issued restricted stock units to be settled in cash and cash-based performance unit awards in addition to stock option grants. The cash-settled restricted stock units are recorded as liabilities as the expense is recognized. Cash-settled restricted stock units are settled with a cash payment for each unit vested equal to the closing price on the vesting date. Cash-settled restricted stock units are not included in common shares reserved for issuance or available for issuance under the 2008 Plan. For cash-settled restricted stock units granted in 2013, vesting is primarily 25% per year over the four year period beginning on the grant date.

During the quarter ended March 31, 2013, we awarded approximately 2.5 million cash-settled restricted stock units under the 2008 Plan with a grant date fair value of \$6.7 million. Upon vesting, based on the conditions set forth in the award agreements, these units will be settled in cash. We valued these units in accordance with the guidance set forth by FASB ASC Topic 718 *Compensation-Stock Compensation* and recognized a liability of \$0.1 million as of March 31, 2013 based upon our stock price as of March 31, 2013 and the number of days lapsed during the service period as of March 31, 2013.

The performance unit awards granted during the first quarter of 2013 are long-term incentive, cash-based awards. Payment of these awards is based upon a calculation of Total Shareholder Return (TSR) of CEC as compared to TSR across a specified peer group of our competitors over a three-year performance period ending on December 31, 2015. These awards are recorded as liabilities as the expense is recognized and fair value for these awards is revalued at each period end date with changes in fair value recorded in our statement of income and comprehensive income in the current period. The grant date fair value of the performance unit awards granted during the first quarter of 2013 was \$5.0 million. A liability of \$0.1 million was recorded as of March 31, 2013, which represents the fair value of the liability incurred through March 31, 2013.

Table of Contents**12. WEIGHTED AVERAGE COMMON SHARES**

The weighted average number of common shares used to compute basic and diluted net (loss) income per share for the quarters ended March 31, 2013 and 2012 were as follows:

	For the Quarter Ended March 31, 2013 2012 (In thousands)	
Basic common shares outstanding	66,428	66,844
Common stock equivalents		116
Diluted common shares outstanding	66,428	66,960

Basic net (loss) income per share is calculated by dividing net (loss) income by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed by dividing net (loss) income by the weighted average number of shares assuming dilution. Dilutive common shares outstanding is computed using the Treasury Stock Method and reflects the additional shares that would be outstanding if dilutive stock options were exercised and restricted stock and restricted stock units were settled for common shares during the period.

Due to the fact that we reported a loss from continuing operations for the quarter ended March 31, 2013, potential common stock equivalents are excluded from the diluted common shares outstanding calculation. Per FASB ASC Topic 260 *Earnings Per Share*, an entity that reports discontinued operations shall use income or loss from continuing operations as the benchmark for calculating diluted common shares outstanding, and as such, we have zero common stock equivalents since these shares would have an anti-dilutive effect on our net loss per share for the quarter ended March 31, 2013. For the quarter ended March 31, 2012, certain unexercised stock option awards and unvested restricted stock awards are excluded from our computations of diluted earnings per share, as these shares were out-of-the-money and their effect would have been anti-dilutive. The anti-dilutive awards that were excluded from our computations of diluted earnings per share were 4.2 million for the quarter ended March 31, 2012.

In addition to the common stock issued upon the exercise of employee stock options and the granting of restricted stock, we issued approximately 0.1 million shares for each of the quarters ended March 31, 2013 and 2012 upon the purchase of common stock pursuant to our employee stock purchase plan.

13. SEGMENT REPORTING

Our segments were determined in accordance with FASB ASC Topic 280 *Segment Reporting* and were based upon how the Company analyzes performance and makes decisions. Each segment represents a group of postsecondary education providers that offer a variety of degree and non-degree academic programs. These segments are organized by key market segments to enhance brand focus and operational alignment within each segment to more effectively execute our strategic growth plan.

In the fourth quarter of 2012, we reorganized our business across seven reporting segments: CTU, AIU (comprises University Schools); Health Education, Culinary Arts, Design & Technology (comprises Career Schools); International; and Transitional Schools. This reorganization was a result of the decision made in the fourth quarter of 2012 to teach out a number of campuses, which are now included in our Transitional Schools reporting segment, along with certain additional campuses which were previously in the process of being taught out. These campuses employ a gradual teach-out process, enabling them to continue to operate while current students complete their course of study; they no longer enroll new students. The results of operations for campuses within the Transitional Schools segment will be reported within continuing operations for all periods presented until they complete their teach-out. As campuses within Transitional Schools cease operations, the

Table of Contents

results of operation for all periods presented will be reflected within discontinued operations. During the first quarter of 2013 and fourth quarter of 2012, we completed the teach-out of SBC Hazelwood and LCB Pittsburgh, respectively. Accordingly, the results of operations for these campuses are now reported within discontinued operations. All prior period results have been recast to reflect our reporting segments on a comparable basis.

The reporting segments are described below.

University Schools:

Colorado Technical University (CTU) schools collectively offer academic programs in the career-oriented disciplines of business studies, information systems and technologies, criminal justice, computer science and engineering, and health sciences in an online, classroom or laboratory setting.

American InterContinental University (AIU) schools collectively offer academic programs in the career-oriented disciplines of business studies, information technologies, criminal justice and design technologies in an online, classroom or laboratory setting.

Career Schools:

Health Education includes our Sanford-Brown schools, along with Brown College, Briarcliffe College and Missouri College. These schools collectively offer academic programs in the career-oriented disciplines of health education, complemented by certain programs in business studies and information technology in a classroom, laboratory or online setting.

Culinary Arts includes our Le Cordon Bleu schools in North America that collectively offer hands-on programs in the career-oriented disciplines of culinary arts and patisserie and baking in the commercial kitchens of Le Cordon Bleu; and advanced degree programs in culinary arts and hotel and restaurant management online.

Design & Technology includes IADT, Harrington College of Design and Brooks Institute schools. These schools collectively offer academic programs primarily in the career-oriented disciplines of fashion design, game design, graphic design, interior design, film and video production, photography and visual communications in a classroom, laboratory or online setting as well as job training in the field of energy conservation.

International includes our INSEEC schools and IUM school which are located in France and Monaco, respectively. These schools collectively offer academic programs in the career-oriented disciplines of business studies, health education, advertising, communications and technologies and luxury goods and services in a classroom or laboratory setting.

Transitional Schools includes our campuses that are currently being taught out.

We evaluate segment performance based on operating results. Adjustments to reconcile segment results to consolidated results are included under the caption Corporate and Other, which primarily includes unallocated corporate activity and eliminations.

Table of Contents

Summary financial information by reporting segment is as follows:

	Revenue		Operating (Loss) Income	
	For the Quarter Ended March 31,		For the Quarter Ended March 31,	
	2013	2012	2013	2012
	(Dollars in thousands)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion below contains forward-looking statements, as defined in Section 21E of the Securities Exchange Act of 1934, as amended, that reflect our current expectations regarding our future growth, results of operations, cash flows, performance and business prospects, and opportunities, as well as assumptions made by, and information currently available to, our management. We have tried to identify forward-looking statements by using words such as anticipate, believe, plan, expect, intend, project, will, potential and similar expressions, but these words are not the exclusive means of identifying forward-looking statements. These statements are based on information currently available to us and are subject to various risks, uncertainties, and other factors, including, but not limited to, those matters discussed in Part I, Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2012 that could cause our actual growth, results of operations, cash flows, performance, business prospects and opportunities to differ materially from those expressed in, or implied by, these statements. Except as expressly required by the federal securities laws, we undertake no obligation to update such factors or to publicly announce the results of any of the forward-looking statements contained herein to reflect future events, developments, or changed circumstances, or for any other reason.

Overview

We are an industry leader whose institutions are recognized globally. Those institutions include, among others, American InterContinental University (AIU); Brooks Institute; Colorado Technical University (CTU); Harrington College of Design; INSEEC Group (INSEEC) Schools; International University of Monaco (IUM); International Academy of Design & Technology (IADT); Le Cordon Bleu North America (LCB); and Sanford-Brown Institutes and Colleges. Through our schools, we are committed to providing high-quality education, enabling students to graduate and pursue rewarding career opportunities.

In 2012, we created the Transitional Schools reporting segment as a result of the decision made in the fourth quarter of 2012 to teach out a number of campuses, which are now included in our Transitional Schools reporting segment, along with certain additional campuses which were previously in the process of being taught out. These campuses employ a gradual teach-out process, enabling them to continue to operate while current students complete their course of study; they no longer enroll new students. The results of operations for schools within the Transitional Schools segment will be reported within continuing operations for all periods presented until they complete their teach-out. As schools within Transitional Schools cease operations, the results of operation for all periods presented will be reflected within discontinued operations. During the first quarter of 2013 and the fourth quarter of 2012, we completed the teach-out of SBC Hazelwood and LCB Pittsburgh, respectively. Accordingly, the results of operations for these campuses are now reported within discontinued operations. All prior period results have been recast to reflect our reporting segments on a comparable basis.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with our unaudited consolidated financial statements and the notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q. The MD&A is intended to help investors understand the results of operations, financial condition and present business environment. The MD&A is organized as follows:

2013 First Quarter Overview

Consolidated Results of Operations

Segment Results of Operations

Summary of Critical Accounting Policies and Estimates

Liquidity, Financial Position and Capital Resources

Table of Contents

2013 FIRST QUARTER OVERVIEW

During the first quarter of 2013, we remained focused on executing against our strategic goals, which are comprised of efforts to both right-size and re-engineer our organization to appropriately serve our current and future student populations as well as growth initiatives to better align our program offerings and underlying processes to provide invaluable student experiences which afford advancement in the student's respective field of study. The industry continues to experience challenges, which we are not immune to, such as, extended student decision making cycle times, increased competition across the industry and an overall decline in student interest. Despite these challenges, we continue to believe that the postsecondary education industry plays a critical role in the overall education market.

For the first quarter of 2013, our revenue declined 21% as compared to the prior year quarter. Additionally, we reported an operating loss of \$18.1 million for the first quarter of 2013. Our new student starts were down 27% as compared to the prior year quarter. Current year new student starts were impacted by the introduction of our new student readiness programs as well as our decision to teach out a number of our domestic campuses, whose results are reflected within Transitional Schools. During 2012 and 2013, certain programs had been established to assist students in assessing their readiness to commit to enrolling in college-level courses. The goal of these readiness programs is to identify students who may not be prepared for the rigor of college studies and allow them to leave the institution prior to incurring any debt. Adjusting for the impact of these readiness programs and excluding the impact of our Transitional Schools, new student starts were down 12% as compared to the prior year quarter.

In April 2013, Scott Steffey joined the organization as President and Chief Executive Officer. Scott brings diverse experience with and exposure to the education industry, including from both the non-profit and private sectors. With his background, Scott is well versed in the challenges and opportunities that lie ahead for both the sector and our Company. Several key areas of focus identified for 2013 include:

Right-sizing and re-engineering our organization.

Expanding and growing our successful International business. These institutions operate in the strategically enviable position of elite tier or grand école as it is known in France among education institutions in Western Europe.

Following a disciplined approach to assess, identify and teach out our Transitional Schools campuses with a student-centered approach.

Advancing the process of retooling and expanding our programs, rationalizing our geographies, increasing operating efficiency and consolidating brands among our Career Schools.

Improving the quality of our efforts and success in engaging, attracting, enrolling and retaining students.

Differentiating our University brands to serve distinct student segments – education achievers and degree-focused professionals.

Driving leadership and innovation with our virtual personalized learning powered by adaptive learning technology and teaching methodology that we have introduced and are expanding across our institutions.

Faced with the continued challenges affecting our Company and the industry, it is imperative that we continue to make progress against each of these areas of focus. During the first quarter of 2013 we continued to see progress on elements of our management initiatives and positive trends in each of our institutions.

With respect to our International operations, during the first quarter of 2013, key metrics within our International reporting segment are trending positively, including increases in revenue, new student starts and student population. Operating income remained relatively flat due to certain increased expenses within academics.

Table of Contents

and occupancy related to acquisitions made in 2012, student expansion and continued investments in programmatic accreditations.

Within our Transitional Schools reporting segment, we completed the teach-out of one of our campuses in the first quarter of 2013 and remain on track with the remaining campuses which are in the teach-out process. Our retention rates at these campuses increased as compared to the prior year quarter which demonstrates our commitment to ensuring students are provided with the tools necessary to complete their course of study. We expect to incur operating losses for the campuses within the Transitional Schools segment of between \$70 and \$80 million for the year ending December 31, 2013, excluding the impact of remaining lease obligation charges and other unusual items.

Our University Schools group, which includes both CTU and AIU, reported operating income of \$19.1 million for the first quarter of 2013 while revenue decreased approximately 16% as compared to the prior year quarter. New student starts for these segments declined 26% for the first quarter of 2013 as compared to the prior year quarter and population decreased 13%. We believe that the current state of the economy and the uncertainty surrounding job prospects continues to impact many students' decision to return to school and incur debt.

Additionally, as mentioned previously, CTU and AIU had established certain programs to enable students to assess their readiness to commit to enrolling in college-level courses. Excluding the impact of these readiness programs, new student starts for CTU and AIU were down 10% and 22% in the first quarter of 2013 as compared to 2012, respectively.

Within both CTU and AIU, we expanded the use of our adaptive learning technologies during the first quarter of 2013 as part of our personalized learning platform. The initial results of this strategic initiative are promising in terms of how this will advance the science of learning and teaching to the benefit of both our students and faculty.

Additionally, effective April 1, 2013, we sold our AIU campus in London, England resulting in a loss on the pending sale of \$6.7 million during the first quarter of 2013.

During the first quarter of 2013, our Career Schools reported a 28% decrease in revenue as compared to the prior year quarter and collectively reported an operating loss of \$30.6 million. New student starts were down 11% for the first quarter of 2013 as compared to the prior year quarter and student population was down 30% as compared to the prior year quarter. We continue to make progress to enhance critical operations and academic processes across Career Schools through focus on new student intake initiatives, new programs and re-engineering efforts. Additionally, the re-introduction of the Associates program within our Culinary Arts segment has produced positive results and the mix of students entering this program has continued to increase through the first quarter of 2013.

Across all of our institutions and our corporate support center, we are in the process of developing and implementing a business model and cost structure that is aligned with lower student enrollment and the closing of selected campuses. These efforts will address all aspects of our domestic business and include changes associated with lower student volumes, as well as fundamental business model changes that will allow us to be more profitable as revenues stabilize and grow in the future. We make these changes with an eye towards standardization and simplification of the way we operate while maintaining the quality of education we provide to our students. We are moving aggressively to strengthen our business and financial performance. Some of our improvement initiatives have already been executed. The remainder are in-process. We expect to complete a majority of these efforts in the third and fourth quarters of this year. These activities will result in material impacts to 2013 and beyond with expected reductions to operating expense of \$25 million or more in 2013.

As we exit the first quarter of 2013, we continue to focus on our key strategies and initiatives to reposition us in the market as well as continue to focus on our processes and plans that will right-size and re-engineer the organization and rebuild our culture for success. Alongside our continued strategic efforts, we remain focused on the Company's mission of putting our students' success first.

Table of Contents

Regulatory Updates

ED Rule-Making Initiatives. In a notice published on April 16, 2013, ED announced negotiated rule-making initiatives on several matters, including gainful employment, state authorization of distance learning or online programs and underwriting standards for some student loans. ED's announcement noted that it will hold hearings on these topics in May 2013 with the intent to begin the rule-making process in September 2013, but provided only limited detail on the topics to be discussed during the proposed rule-making. See Item 1, *Business*, in our Annual Report on Form 10-K for the year ended December 31, 2012 for more information about gainful employment and state authorization regulations, how portions of prior regulations on these matters were invalidated by the courts and how these matters generally affect our business.

Cohort Default Rates. In the first quarter of 2013, ED released draft unofficial two-year cohort default rates for the 2011 cohort and draft unofficial three-year cohort default rates for the 2010 cohort. In general, the draft 2011 two-year rates for our institutions increased slightly over the prior two-year rates and the draft 2010 three-year rates showed slight improvement over prior three-year rates. Only one campus in addition to a campus which is in teach-out has draft rates in excess of ED's annual thresholds. Draft rates do not result in sanctions and can change before ED's expected release of the official cohort default rates in September 2013. See Item 1, *Business - Student Financial Aid and Related Federal Regulation - Compliance with Federal Regulatory Standards and Effect of Federal Regulatory Violations - Student Loan Default Rates* in our Annual Report on Form 10-K for the year ended December 31, 2012 for more information about cohort default rates, our prior year rates and ED's standards applicable to the two-year and three-year rates.

ABHES. As previously disclosed, the Accrediting Bureau of Health Education Schools (ABHES) acted at its July 2012 meeting to place three of our Health Education campuses on show-cause as a result of site visit reports and questions related to their previously reported 2011 ABHES placement rates for their medical assisting programs. In February 2013 we learned that ABHES had acted at its January 2013 meeting to withdraw its programmatic accreditation from the medical assisting programs at these three campuses. These campuses also failed to meet the 70% placement rate standard for the ABHES 2012 reporting year. In accordance with ABHES standard processes, we appealed the decision by ABHES to withdraw accreditation from the three medical assisting programs and filed statements of appeal on March 22, 2013. An appeal panel is scheduled to hear each statement of appeal on May 17, 2013. These programs remain accredited during the pending appeal. Two of the three impacted campuses were part of the campus closures announced in 2012 and are expected to complete their teach-outs in 2013 and 2015. In addition, the medical assisting programs and one surgical technology program at three additional campuses, including one that graduated its last student from the medical assisting program in February 2013, were placed on show cause for reasons similar to those stated above. The responses to these show cause directives for the continuing programs were due on May 1, 2013. As previously disclosed, all of our campuses with ABHES-accredited programs filed annual reports with ABHES in November 2012 including annual placement rates for the ABHES 2012 reporting year, and 51 of 56 ABHES-accredited programs that reported placement rates at these campuses fell below ABHES' 70% placement rate standard applicable for the ABHES 2012 reporting year. As a result, these programs are subject to additional reporting requirements to ABHES.

Table of Contents**CONSOLIDATED RESULTS OF OPERATIONS**

The summary of selected financial data table below should be referenced in connection with a review of the following discussion of our results of operations for the quarters ended March 31, 2013 and 2012.

	2013	For the Quarter Ended March 31, % of Total Revenue	2012 (Dollars in thousands)	% of Total Revenue	% Change 2013 vs. 2012
TOTAL REVENUE	\$ 340,483		\$ 431,364		-21.1%

<i>Effective tax rate</i>	<i>-43.7%</i>		<i>13.4%</i>		
(LOSS) INCOME FROM CONTINUING OPERATIONS	\$ (14,491)	-4.3%	\$ 41,659	9.7%	-134.8%
(LOSS) INCOME FROM DISCONTINUED OPERATIONS, net of tax	(712)	-0.2%	10,417	2.4%	-106.8%
NET (LOSS) INCOME	\$ (15,203)	-4.5%	\$ 52,076	12.1%	-129.2%

Educational services and facilities expense includes costs directly attributable to the educational activities of our schools, including: (1) salaries and benefits of faculty, academic administrators, and student support personnel, and (2) costs of educational supplies and facilities, including rents on school leases, certain costs of establishing and maintaining computer laboratories, costs of student housing, and owned and leased facility costs. Also included in educational services and facilities expense are costs of other goods and services provided by our schools, including costs of textbooks, laptop computers, restaurant services and contract training.

General and administrative expense includes salaries and benefits of personnel in corporate and school administration, marketing, admissions, financial aid, accounting, human resources, legal and compliance. Other expenses within this expense category include costs of advertising and production of marketing materials, occupancy of the corporate offices and bad debt expense.

Quarter Ended March 31, 2013 as Compared to the Quarter Ended March 31, 2012**Revenue**

The decline in revenue as compared to the prior year quarter was a result of lower revenue across all of our domestic segments. This decline was driven by approximately 26% fewer students enrolled within our domestic institutions as of the beginning of the year and approximately 29%

fewer new student starts across our domestic

Table of Contents

institutions in the first quarter of 2013 as compared to 2012. Excluding the impact of Transitional Schools which no longer enroll new students, we had approximately 20% fewer domestic new student starts in the first quarter of 2013 as compared to 2012. We believe our domestic institutions continue to be impacted by external factors including economic conditions, negative publicity, extended student decision-making timelines and changes in regulatory requirements. During 2012 and 2013, certain programs had been established to enable students to assess their readiness to commit to enrolling in college-level courses. Adjusting for the impact of these readiness programs, new student starts are 12% lower in the first quarter of 2013 as compared to 2012, excluding Transitional Schools.

Educational Services and Facilities Expense

The decrease in educational services and facilities expense as compared to the prior year quarter is primarily driven by lower academic costs, most notably bookstore and faculty costs as a result of lower student population across all of our domestic institutions. We continue to closely monitor the variable costs while maintaining optimal student-teacher ratios. As a percentage of revenue, educational services and facilities expense increased as compared to the prior year quarter primarily due to fixed costs, including occupancy costs and certain academic expenses, remaining relatively flat as compared to the prior year quarter.

General and Administrative Expense

The decline in general and administrative expense as compared to the prior year quarter is mainly due to lower admissions and bad debt expenses, which are partially offset by higher administrative expense. The prior year administrative expense included a \$19.0 million insurance recovery recorded within Corporate and Other related to the settlement of claims under certain insurance policies. Excluding the impact of the prior year insurance recovery, administrative expense decreased primarily as a result of the reduction in force carried out in the fourth quarter of 2012 to reorganize our campus and corporate functions to common operating structures and to better align with the current student population. Admissions costs decreased primarily in salary related expenses due to cost reductions made in response to decreasing enrollments.

Bad debt expense incurred by each of our segments during the quarters ended March 31, 2013 and 2012 was as follows:

	For the Quarter Ended March 31,			
	2013	As a % of Segment Revenue	2012	As a % of Segment Revenue
(Dollars in thousands)				
Bad debt expense:				
CTU	\$ 2,014	2.2%	\$ 1,954	2.0%
AIU	1,620	2.4%	2,241	2.5%
Total University Schools	3,634	2.3%	4,195	2.3%
Health Education	404	1.1%	395	0.7%
Culinary Arts	1,758	3.8%	2,086	3.3%
Design & Technology	525	1.7%	776	1.9%
Total Career Schools	2,687	2.4%	3,257	2.1%
International	470	0.9%	442	1.0%
Corporate and Other	(718)	NM	(457)	NM
Subtotal	6,073	1.9%	7,437	1.9%
Transitional Schools	600	3.0%	1,533	3.4%
Total	\$ 6,673	2.0%	\$ 8,970	2.1%

Table of Contents**Operating (Loss) Income**

The operating loss reported for the current quarter resulted from the decline in revenues across all of our domestic segments which was only partially offset with the decline in operating expenses as we continue to experience the impacts of deleveraging of our business. Initiatives to align expenses with the declining population, changes in marketing strategies and implementation of efficiencies in our support functions continue to partially offset the impact of declining revenues and deleveraging of the business.

(Benefit from) Provision for Income Taxes

The decrease in the effective tax rate for the quarter ended March 31, 2013 as compared to the prior year quarter was primarily due to lower full-year projected results of operations and the relative percentage of operating income that our not-for-profit institutions will contribute to consolidated results. The current quarter tax rate was also impacted by a \$2.0 million favorable tax adjustment related to the resolution of various state tax exposures which increased the tax rate benefit by 7.8%. The cumulative effect of foreign and state valuation losses, foreign rate differences and not-for-profit operating income reduced the effective tax rate benefit by 2.4%.

(Loss) Income from Discontinued Operations

The results of operations for campuses that have been taught out or sold, and are considered distinct operations as defined under FASB ASC Topic 205 *Presentation of Financial Statements*, are presented within discontinued operations. During the first quarter of 2013 and the fourth quarter of 2012, we completed the teach out of our SBC Hazelwood and LCB Pittsburgh campuses, respectively. All current and prior period financial statements and the related notes herein, including segment reporting, include the results of operations and financial position of these campuses as components of discontinued operations. See Note 5 *Discontinued Operations* of the notes to our unaudited consolidated financial statements for further discussion.

SEGMENT RESULTS OF OPERATIONS

The following tables set forth unaudited segment results for the periods presented. Results for the prior year quarter have been reclassified to be comparable to the current year presentation.

	For the Quarter Ended March 31,							
	(Dollars in thousands)							
	REVENUE			OPERATING (LOSS) INCOME		OPERATING MARGIN (LOSS)		
	2013	2012	% Change	2013	2012	2013	2012

Subtotal	16,780	20,450	-18%	70,700	84,300	-16%
Transitional Schools ⁽³⁾	70	2,630	NM	4,300	11,100	-61%
Total	16,850	23,080	-27%	75,000	95,400	-21%

- (1) The first quarter of 2013 was favorably impacted when compared to the prior year quarter due to the timing of the program offerings in the first quarter of 2013 versus the prior year. Excluding the impact of these items, the change in new student starts for International would have been 22%.
- (2) Student population as of March 31, 2013 includes approximately 900 students enrolled in the International schools acquired in the second and fourth quarters of 2012. Excluding the impact of these acquisitions, student population increased 14%.
- (3) Campuses within the Transitional Schools segment no longer enroll new students; students who re-enter after 365 days are reported as new student starts.

Quarter Ended March 31, 2013 as Compared to the Quarter Ended March 31, 2012

University Schools. Current quarter revenue decreased approximately 16% as both AIU and CTU experienced declines in revenue as compared to the prior year quarter. Lower student population at the beginning of the year, coupled with lower new student starts during the current quarter, resulting from the continued decline in new student interest, contributed to this decline. During 2012 and 2013, CTU and AIU had established certain programs to enable students to assess their readiness to commit to enrolling in college-level courses. Excluding the impact of these readiness programs, new student starts for CTU and AIU are 10% and 22% lower in the first quarter of 2013 as compared to 2012, respectively.

Current quarter operating income for the University Schools decreased \$14.7 million, or 43.5%, as compared to the prior year quarter driven by the declines in revenue, which were only partially offset by decreases in operating expenses. All expense categories were lower when compared to the prior year quarter, with the exception of advertising expense, as cost reduction efforts were implemented in response to the continued decline in student population. During the first quarter of 2013, CTU continued its brand campaign which contributed to CTU's \$4.2 million increase in advertising expense.

Career Schools. Current quarter revenue decreased \$44.5 million, or 28%, as Health Education, Design & Technology and Culinary Arts each experienced declines in revenue as compared to the prior year quarter. The decrease in revenue is primarily due to a lower student population at the beginning of the year as well as new student starts being approximately 11% lower than the prior year quarter.

The current quarter operating loss of \$30.6 million for Career Schools is driven by the decline in revenue, which is partially offset by decreases in operating expenses. Certain expenses, including academics and admissions expenses decreased as compared to the prior year quarter, primarily due to the reduction in force which occurred in the fourth quarter of 2012 to reorganize our campus and corporate functions to common operating structures across our ground campuses.

Table of Contents

International. Current quarter revenue increased \$6.8 million, or 16.0%, as compared to the prior year quarter. Approximately \$3.7 million of this increase resulted from the two acquisitions we made in April and December, 2012. The remaining increase in revenue is due to higher new student starts and student population.

Operating income remained relatively flat as compared to the prior year quarter. Higher operating expenses, primarily academic, occupancy, and administrative costs, drove the decrease in operating margin by approximately 350 basis points from the prior year quarter. The increase in academic expense resulted from the acquisitions in the prior year as well as the continued investment at certain institutions within INSEEC Group as it prepares to seek internationally recognized programmatic accreditation. The increase in student population drove the increase in occupancy costs, as compared to the prior year, due to the expansion of facilities to accommodate the growing student population.

Transitional Schools. This segment includes our campuses that are currently being taught out. Current quarter revenue declined 55.0% as compared to the prior year quarter due to the campuses no longer enrolling students. We expect revenue to continue to decline as compared to the prior year as campuses continue to wind down their operations. We anticipate that the majority of these campus closures will be completed by the second quarter of 2014.

The operating loss within Transitional Schools increased by \$2.1 million as compared to the prior year quarter as the lower revenue exceeded reductions in operating expenses.

Corporate and Other. This category includes unallocated costs that are incurred on behalf of the entire company. Corporate and Other costs increased \$19.0 million as compared to the prior year quarter. The prior year quarter results included an insurance recovery of \$19.0 million related to the settlement of claims under certain insurance policies.

SUMMARY OF CRITICAL ACCOUNTING POLICIES AND ESTIMATES

A detailed discussion of the accounting policies and estimates that we believe are most critical to our financial condition and results of operations that require management's most subjective and complex judgments in estimating the effect of inherent uncertainties is included under the caption "Summary of Critical Accounting Policies and Estimates" included in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2012. Note 2 "Summary of Significant Accounting Policies" of the notes to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2012 also includes a discussion of these and other significant accounting policies.

LIQUIDITY, FINANCIAL POSITION, AND CAPITAL RESOURCES

As of March 31, 2013, cash, cash equivalents and short-term investments totaled \$299.2 million. Our cash flows from operations have historically been adequate to fulfill our liquidity requirements. We historically have financed our operating activities, organic growth and acquisitions primarily through cash generated from operations, existing cash balances and credit facility borrowings. The recent declines in operating performance have resulted in a decrease in net cash (used in) provided by operating activities. As we execute on our strategic imperatives, we expect that there will be continued pressure on our domestic operating cash flows in the short term. We anticipate that we will be able to satisfy the cash requirements associated with, among other things, our working capital needs, capital expenditures and lease commitments through at least the next 12 months primarily with cash generated by operations and existing cash balances.

Restricted cash balances as of March 31, 2013 approximate \$11.4 million and are comprised of \$8.9 million of certificates of deposit to provide securitization for the letters of credit and \$2.5 million of funds related to a legal matter. In addition, included in cash and cash equivalents within our unaudited consolidated balance sheets are amounts related to certain of our European campuses that are operated as not-for-profit schools. The cash and

Table of Contents

cash equivalents related to these schools require that the funds be utilized for these particular not-for-profit schools. The amount of not-for-profit cash and cash equivalents was \$79.8 million and \$87.2 million at March 31, 2013 and December 31, 2012, respectively. Restrictions on these cash balances have not affected, nor do we believe will affect, our ability to fund our daily operations.

As of March 31, 2013 and December 31, 2012, our foreign subsidiaries, including our not-for-profit schools, held cash and cash equivalents and short-term investments of approximately \$114.2 million and \$128.6 million, respectively. We have not provided for additional U.S. income taxes on approximately \$130.6 million of foreign subsidiary earnings as these earnings are considered permanently invested in those businesses as of March 31, 2013. Such earnings could become taxable upon sale, conversion or liquidation of these non-U.S. subsidiaries, upon dividend repatriation of cash balances or upon a change in management's intent to consider these earnings permanently invested. We currently have no plans to repatriate additional cash and cash equivalents and short-term investments held by our foreign subsidiaries because we plan to reinvest such cash and cash equivalents and short term investments to support our operations and continued growth plans outside the United States through funding of capital expenditures, acquisitions, operating expenses or other similar cash needs of these foreign operations. Further, we do not currently forecast a need for these funds in the United States because the Company's U.S. operations are supported by the cash generated by its U.S. operations and existing domestic cash balances. At March 31, 2013, approximately \$173.6 million of our unrestricted cash and cash equivalents and short term investments were held by our U.S. operations.

Currently, we would only plan on repatriating part or all of the remaining foreign cash when it would be tax efficient through the utilization of foreign tax credits, when earnings qualify as previously taxed income, upon material changes in U.S. or foreign tax laws related to repatriation, upon divestiture of the related asset, or in the event of a material domestic capital requirement.

The discussion above reflects management's expectations regarding liquidity; however, we are not able to assess the effect of loss contingencies on future cash requirements and liquidity. See Note 9 "Commitments and Contingencies" of the notes to our unaudited consolidated financial statements. Further, as a result of the significance of the Title IV Program funds received by our students, we are highly dependent on these funds to operate our business. Any reduction in the level of Title IV funds that our students are eligible to receive or any impact on timing or our ability to receive Title IV Program funds would have a significant impact on our operations and our financial condition. See Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012.

Sources and Uses of Cash

Operating Cash Flows

During the quarter ended March 31, 2013, net cash flows used in operating activities totaled \$14.2 million. During the quarter ended March 31, 2012, net cash flows provided by operating activities totaled \$17.4 million.

Our primary source of cash flows from operating activities is tuition collected from our students. Our students derive the ability to pay tuition costs through the use of a variety of funding sources, including, among others, federal loan and grant programs, state grant programs, private loans and grants, school payment plans, private and institutional scholarships and cash payments. For the quarters ended March 31, 2013 and 2012, approximately 78% and 81%, respectively, of our U.S. schools' cash receipts from tuition payments come from Title IV Program funding.

For further discussion of Title IV Program funding and alternative private loan funding sources for our students, see "Student Financial Aid And Related Federal Regulation" in Item 1, "Business," in our Annual Report on Form 10-K for the year Ended December 31, 2012.

Our primary uses of cash to support our operating activities include, among other things, cash paid and benefits provided to our employees for services, to vendors for products and services, to lessors for rents and

Table of Contents

operating costs related to leased facilities, to suppliers for textbooks and other school supplies, and to federal, state and local governments for income and other taxes.

During the first quarter of 2013, we recorded a loss on pending sale of AIU London of \$6.7 million. Included in the loss on pending sale was \$3.3 million relating to the cumulative translation loss resulting from the effects of foreign currency on AIU London's balance sheet.

Investing Cash Flows

During the quarters ended March 31, 2013 and 2012, net cash flows used in investing activities totaled \$6.1 million and \$12.2 million, respectively.

Purchases and Sales of Available-for-Sale Investments. Purchases and sales of available-for-sale investments resulted in a \$0.1 million net cash outflow and a \$0.1 million net cash inflow during the quarters ended March 31, 2013 and 2012, respectively.

Capital Expenditures. Capital expenditures decreased to \$4.1 million for the quarter ended March 31, 2013 as compared to \$12.3 million for the quarter ended March 31, 2012. Capital expenditures represented 1.2% and 2.8% of total revenue of continuing and discontinued operations during the quarters ended March 31, 2013 and 2012, respectively.

Payments of Cash upon Sale of Business. In conjunction with the sale of AIU London, we paid \$1.9 million in cash to the buyer in consideration of negative working capital.

Financing Cash Flows

During the quarter ended March 31, 2013, net cash flows provided by financing activities approximated \$6.7 million. During the quarter ended March 31, 2012, net cash flows used in financing activities totaled \$60.1 million.

Credit Agreement. During the fourth quarter of 2012, we entered into a revolving credit facility pursuant to a Credit Agreement with BMO Harris Bank N.A., in its capacities as the initial lender thereunder and the administrative agent for the lenders which from time to time may be parties to the Credit Agreement. The revolving credit facility under the Credit Agreement is scheduled to mature on January 31, 2014. The Credit Agreement requires that interest and fees are payable quarterly in arrears and principal is payable at maturity.

We borrowed the maximum amount of \$80.0 million under the Credit Agreement in December 2012 and repaid this amount in full during the first quarter of 2013.

Restricted Cash. During 2012, we established restricted cash balances of approximately \$97.9 million, of which \$88.0 million represented the 110% cash collateral for the loan secured under our Credit Agreement that was entered into during the fourth quarter of 2012. In the first quarter of 2013, we repaid the revolving credit facility thereby releasing the \$88.0 million of restricted cash.

Repurchases of Stock. During the first quarter of 2013, we did not repurchase any shares of our common stock. During the first quarter of 2012, we repurchased 6.1 million shares of our common stock for approximately \$56.4 million at an average price of \$9.29 per share. Repurchases of stock in 2012 were funded by cash generated from operating activities.

Contractual Obligations

As of March 31, 2013 there were no significant changes to our contractual obligations from December 31, 2012. We are not a party to any off-balance sheet financing or contingent payment arrangements, nor do we have any unconsolidated subsidiaries.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to financial market risks, including changes in interest rates and foreign currency exchange rates. We use various techniques to manage our market risk, including, from time to time, the use of derivative financial instruments. We do not use derivative financial instruments for speculative purposes.

Our municipal bond investment in auction rate securities (ARS) has a stated term to maturity of greater than one year. We classify our investment in ARS on our unaudited consolidated balance sheets within other non-current assets. An auction can fail when the number of sellers of the security exceeds the buyers for that particular auction period. In the event that an auction fails, the interest rate resets at a rate based on a formula determined by the individual security. The ARS for which an auction has failed continues to accrue interest and is auctioned on a set interval until the auction succeeds, the issuer calls the securities, or it matures. As of March 31, 2013, we have determined this investment is at risk for impairment due to the nature of the liquidity of the market over the past year. As a result, we recorded a cumulative unrealized loss reflected within accumulated other comprehensive loss on our unaudited consolidated balance sheet of approximately \$0.5 million as of March 31, 2013. We believe this impairment is temporary, as we do not intend to sell the investment and it is unlikely we will be required to sell the investment before recovery of its amortized cost basis.

Interest Rate Exposure

Any outstanding borrowings under our Credit Agreement bear annual interest at fluctuating rates as determined by the Base Loan Rate or the London Interbank Offered Rate (LIBOR) for the relevant currency, plus the applicable rate based on the type of loan. As of March 31, 2013, we had no outstanding borrowings under this agreement.

Our financial instruments are recorded at their fair values as of March 31, 2013 and December 31, 2012. We believe that the exposure of our consolidated financial position and results of operations and cash flows to adverse changes in interest rates is not significant.

Foreign Currency Exposure

We are subject to foreign currency exchange exposures arising from current and anticipated transactions denominated in currencies other than the U.S. dollar, and from the translation of foreign currency balance sheet accounts into U.S. dollar balance sheet accounts. Specifically, we are subject to risks associated with fluctuations in the value of the Euro and the British pound versus the U.S. dollar.

As a percentage of total continuing operations for the quarter ended March 31, 2013, our international operations represented approximately 15% of revenue and contributed \$13.5 million of operating income. Total assets of our international operations represent 27% of total consolidated assets as of March 31, 2013. Our current quarter results included a favorable impact of foreign currency exchanges rates of \$0.3 million and \$0.1 million related to revenue and operating income, respectively, versus the prior year quarter.

As our international operations contribute a larger percentage to our consolidated results of operations, our exposure to foreign currency exchange rate fluctuations will increase.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We completed an evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q (Report) under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the Exchange

Table of Contents

Act). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2013 our disclosure controls and procedures were effective to provide reasonable assurance that (i) the information required to be disclosed by us in this Report was recorded, processed, summarized, and reported within the time periods specified in the rules and forms provided by the U.S. Securities and Exchange Commission (SEC) and (ii) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2013, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on the Effectiveness of Controls

Our management does not expect that our disclosure controls and procedures or our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in a cost-effective control system, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within our company have been detected.

These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

Note 9 Commitments and Contingencies to our unaudited consolidated financial statements is incorporated herein by reference.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, the reader should carefully consider the factors discussed in Part I, Item 1A Risk Factors, in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, which was filed with the Securities and Exchange Commission on February 28, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth information regarding purchases made by us of shares of our common stock on a monthly basis during the quarter ended March 31, 2013:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
December 31, 2012				\$ 183,296,772
January 1, 2013 - January 31, 2013		\$		183,296,772
February 1, 2013 - February 28, 2013				183,296,772
March 1, 2013 - March 31, 2013	155,222	2.92		183,296,772
Total	155,222			

(1) Includes 155,222 shares delivered back to the Company for payment of withholding taxes from employees for vesting restricted shares and restricted stock units pursuant to the terms of the Career Education Corporation 2008 Incentive Compensation Plan.

(2) As of March 31, 2013, approximately \$183.3 million was available under our previously authorized repurchase program. Stock repurchases under this program may be made on the open market or in privately negotiated transactions from time to time, depending on various factors, including market conditions and corporate and regulatory requirements. The stock repurchase program does not have an expiration date and may be suspended or discontinued at any time.

Item 6. Exhibits

The exhibits required to be filed by Item 601 of Regulation S-K are listed in the Exhibit Index, which is attached hereto and incorporated by reference herein.
