Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

On Monday, May 21, 2018, we executed a new credit agreement with PNC, as administrative agent for our lenders. The \$267 million credit agreement allows for a \$147 million term loan and a \$120 million revolver with a maturity of May 2022. Our current debt is \$206 million. The credit facility is collateralized by substantially all of the assets of Hallador Energy Company, with its restricted subsidiaries Sunrise Coal, LLC and Summit Terminal serving as guarantors.

The interest rate on the facility ranges from LIBOR plus 3.00% to LIBOR plus 4.50%, depending on our leverage ratio. We expect the interest rate to be LIBOR plus 4% for the remainder of 2018.

The maximum leverage ratio (total funded debt / trailing 12 months EBITDA) is as follows:

| Fiscal Periods Ending | Ratio |
|--|-------|
| June 30, 2018 through March 31, 2019 | 3.75X |
| June 30, 2019 and September 30, 2019 | 3.50X |
| December 31, 2019 through September 30, 2020 | 3.25X |
| December 31, 2020 through September 30, 2021 | 3.00X |
| December 31, 2021 and each fiscal quarter thereafter | 2.75X |

The debt service coverage ratio (trailing 12 months EBITDA / annual debt service) requires a minimum of 1.25X through the maturity of the credit facility.

Sunrise entered into swap agreements to fix the LIBOR component of the interest rate on 100% of the outstanding loan balances. We estimate the effective fixed rate to be approximately 6.5% over the life of the loan.

The credit agreement also imposes certain other customary restrictions and covenants as well as certain milestones we must meet in order to draw down the full amount, including a maximum annual capex of \$30 million. The term loan requires annual amortization during the four years, beginning June 2018, at 15%, 20%, 25%, 25%, with a balloon at maturity.

A copy of the credit agreement will be filed as an exhibit to our Form 10-Q for the quarter ended June 30, 2018.
