(1) DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Arinco Computer Systems Inc., the predecessor of the Company and its subsidiaries, (the "Company"), was incorporated on March 31, 1978; however, the Company formally commenced implementation of its plan to provide professional consulting services on June 15, 2000. The Company provided a broad range of professional consulting services, including e-services and technology strategy, online branding, web architecture and design, systems integration, systems architecture and outsourcing. The Company has served clients throughout the United States and, as of June 30, 2003, has offices in Connecticut. During the year ended December 31, 2001, the Board of Directors voted to divest the Company of a majority of its then existing operations.

At June 30, 2003, the Company's sole consolidated subsidiary is:

- o Iguana Studios, Inc. (which has limited continuing operating activities)

Based on the Company's assessment of the opportunities in the radio business, in 2001 the Board of Directors decided to merge with Franklin Capital Corporation and jointly develop and acquire network radio programming and sales and

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

syndication businesses. On December 4, 2001 the Company entered into an agreement and plan of merger with Franklin Capital. On July 1, 2002, the Company received a notice of termination from Franklin Capital terminating the proposed merger.

On September 30, 2002, the Board of Directors announced the adoption of a plan of liquidation and dissolution in order to maximize stockholder value and noted that if no suitable business opportunities became available to it, subject to stockholder approval, it would commence liquidation in 2003. However, the plan permits the Board of Directors to amend, modify or abandon the plan, notwithstanding stockholder approval, if the Board determines doing so would be in the best interests of the Company and its stockholders.

On June 17, 2003, the individual filling the roles of President, Chief Executive Officer and Chief Financial Officer of the Company resigned. The former executive had an employment agreement dated September 17, 2001 governing the terms and conditions of his employment. On June 17, 2003, the Company and such former executive entered into a separation agreement and general release (the "Separation Agreement"). The Company will pay the former executive the severance he is entitled to under the Separation Agreement, totaling \$140, and has recorded a charge in the Statement of Operations for the three months ended June 30, 2003 for the value of expected payments and benefits payable to the former executive.

The Company announced on June 18, 2003 that it signed a Letter of Intent (the "Letter of Intent") with Neurologix, Inc. ("Neurologix") to merge a newly-formed, wholly-owned subsidiary of the Company with and into Neurologix, with Neurologix surviving as a wholly-

owned subsidiary of the Company (the "Merger"). In the event the Merger is consummated, the Company expects to abandon the plan of liquidation and dissolution. If the Merger is not consummated, the Company expects to pursue the plan of liquidation and dissolution previously adopted.

On June 30, 2003, the Company sold to Textor Family Limited Partnership all of the issued and outstanding shares of capital stock of Papke-Textor, Inc. d/b/a Canned Interactive ("Canned").

INTERIM RESULTS

The accompanying unaudited consolidated balance sheet as of June 30, 2003, the unaudited consolidated statements of operations and cash flows for the periods ended June 30, 2003 and 2002, and the unaudited consolidated statement of stockholders' equity as of June 30, 2003 have been prepared by the Company. In the opinion of management, the accompanying condensed consolidated financial statements have been prepared on the same basis as the annual audited financial statements and contain all adjustments, which include only normal recurring adjustments, considered necessary for a fair presentation of the Company's financial position, results of operations and cash flows at the dates and for the periods presented in conformity with accounting principles generally

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

accepted in the United States applicable to interim periods. Certain prior period amounts have been reclassified to conform to the current period's presentation.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expense during the reporting period. Actual results could differ from those estimates.

While the Company believes that the disclosures presented are adequate to make the information not misleading, these condensed consolidated financial statements should be read in conjunction with the audited financial statements and related notes for the fiscal year ended December 31, 2002, which are contained in the Company's Annual Report on Form 10-K. As a result of the divestiture of Canned, the Company's last remaining revenue generating operation, the results for the six month period ended June 30, 2003 will not be indicative of the results to be expected for the full fiscal year or for any future periods.

PRINCIPLES OF CONSOLIDATION

The accompanying unaudited condensed consolidated financial statements include the accounts of Change Technology Partners, Inc. and its majority-owned and controlled subsidiaries from the date of acquisition. All significant intercompany transactions and balances have been eliminated in consolidation. Investments in less than majority-owned entities over which the Company has significant influence are accounted for using the equity method.

REVENUE RECOGNITION

Revenues are recognized for fixed price arrangements in the period services are rendered using the percentage-of-completion method, provided the Company has the ability to produce reasonably dependable estimates, collection of the resulting receivable is probable and no significant obligations remain. The cumulative impact of any revision in estimates of the cost to complete and losses on projects in process are reflected in the period in which they become known. Through September 30, 2002 the Company's revenues were recognized under the completed contract method of accounting as the Company did not have reasonably dependable estimates with respect to projects at its former subsidiary, Canned. Beginning in the fourth quarter of 2002, Canned's revenues were recognized using the percentage of completion method. Canned's projects were typically short term in nature, generally spanning less than 90 days.

Revenues are recognized for time-and-materials based arrangements in the period when the underlying services are rendered, provided collection of the resulting receivable is probable and no significant obligations remain.

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

The Company enters into project specific contracts with its clients who are generally billed in the same period in which services are rendered. If services are rendered in advance of billings, the Company records and presents the related amounts as unbilled revenue. If amounts are received in advance of services being performed, the amounts are recorded and presented as deferred revenues.

In connection with the divestiture of Canned by the Company, revenues are now included in discontinued operations.

COST OF REVENUES

Cost of revenues consists primarily of compensation of billable employees, travel, subcontractor costs, and other costs directly incurred in the delivery of services to clients. Billable employees are full time employees and subcontractors whose time is spent servicing client projects.

CHANGE TECHNOLOGY PARTNERS, INC. AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Interim Financial Statements

(in thousands, except share data)

In connection with the divestiture of Canned by the Company, such costs are now included in discontinued operations.

EQUITY-BASED COMPENSATION

The Company accounts for its employee stock option plans in accordance with the provisions of the Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations including Financial Accounting Standards Board Interpretation No. 44. As such, compensation expense related to employee stock options is recorded only if, on the date of grant, the fair value of the underlying stock exceeds the exercise price. All such deferred compensation is amortized over the related vesting period on a straight-line basis. The Company adopted the disclosure-only requirements of SFAS No. 123 "Accounting for Stock-Based Compensation," which allows entities to continue to apply the provisions of APB Opinion No. 25 for transactions with employees and provide pro forma net income (loss) and pro forma earnings (loss) per share disclosures for employee stock grants made as if the fair value based method of accounting in SFAS No. 123 had been applied to these transactions.

Had compensation cost for these awards been determined based on the fair value at the grant dates consistent with the method prescribed by SFAS No. 123, the Company's net loss would have been adjusted to the pro forma amounts indicated below:

BASIC AND DILUTED NET LOSS PER COMMON SHARE

Basic net loss per common share excludes the effect of potentially dilutive securities and is computed by dividing net income or loss available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted net loss per share adjusts for the effect of convertible securities, warrants and other potentially dilutive financial instruments only in the periods in which such effect would have been dilutive.

The following securities were not included in the computation of diluted net loss per share because to do so would have had an antidilutive effect for the periods presented:

Warrants	25,856,252	25,856,252
Series A Convertible Preferred Stock.....	645	645

As a result, the basic and diluted net loss per share is equal for all periods presented.

GOODWILL

Effective January 1, 2002, the Company adopted SFAS 142, "Goodwill and Intangible Assets." At January 1, 2002 the intangible assets consisted of goodwill and the subsumed workforce acquired in connection with the acquisition of the Company's former subsidiary, Canned. Management reviewed goodwill for impairment in the fourth quarter of each year or earlier if indicators of potential impairment exist. In connection with the sale of the Canned reporting unit in June 2003, goodwill totaling \$1,782 was charged to loss on disposal of discontinued operations.

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

RECENT ACCOUNTING PRONOUNCEMENTS

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities". SFAS No. 146, which is effective prospectively for exit or disposal activities initiated after December 31, 2002, applies to costs associated with an exit activity, including restructurings, or with a disposal of long-lived assets. Those activities can include eliminating or reducing product lines, terminating employees and contracts and relocating plant facilities or personnel. SFAS No. 146 requires that exit or disposal costs are recorded as an operating expense when the liability is incurred and can be measured at fair value. Commitment

11

CHANGE TECHNOLOGY PARTNERS, INC. AND SUBSIDIARIES

to an exit plan or a plan of disposal by itself will not meet the requirement for recognizing a liability and the related expense under SFAS No. 146. SFAS No. 146 grandfathers the accounting for liabilities that were previously recorded under EITF Issue 94-3. Accordingly, SFAS No. 146 will have no effect on the exit costs recorded by the Company prior to December 31, 2002.

Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation" ("SFAS 148"), is an amendment to Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation", and provides alternative methods of transition for an entity that voluntarily changes from the intrinsic value based method of accounting for stock-based employee compensation prescribed in APB No. 25 to the fair value method prescribed in SFAS 123. As permitted under SFAS 148, the Company has continued to apply the accounting provisions of APB No. 25, and to provide the annual pro forma disclosures of the effect of adopting the fair value method as required by SFAS 123. SFAS 148 also requires pro forma disclosure to be provided on a quarterly basis. The Financial Accounting Standards Board recently indicated that they will require stock-based employee compensation to be recorded as a charge to earnings beginning in 2004. The Company will continue to monitor their progress on the issuance of this standard, as well as evaluate the Company's position with respect to current guidance.

INVESTMENTS IN BROADSTREAM AND NETPRO

In June 2000, the Company purchased 7,626,165 shares of Series A Convertible Redeemable Preferred Stock ("Series A") of Broadstream, Inc. (d/b/a Network Prophecy) ("Broadstream"), representing an approximately 30% equity interest (calculated on an as-if-converted basis) and approximately 47% voting interest, in exchange for \$6,500.

Broadstream is a streaming media management services company that provides software to measure, manage and monitor delivery of streaming media content and data. The investment in Broadstream is being accounted for under the equity method. Based upon the capital structure of, and the equity participation in, the equity investee, the Company has assumed conversion of Series A shares in computing its share of losses of this investee.

In May 2001, Broadstream completed a recapitalization whereby all of the holders of Series A shares exchanged their Series A shares for shares of Series A-1 Convertible Redeemable Preferred Stock ("Series A-1"). The recapitalization modified the conversion ratio, policies regarding dividends and voting rights for Series A-1 holders. No additional consideration was paid by the Company or any other Series A-1 shareholder in connection with this transaction. As

13

CHANGE TECHNOLOGY PARTNERS, INC. AND SUBSIDIARIES

(in thousands, except share data)

a result of the recapitalization the voting interest of common shareholders was reduced from 31% to 13%.

Also in May 2001, in connection with the recapitalization, the Company transferred 1,191,569 Series A-1 shares to Adelson Investors, LLC ("Adelson"), another shareholder of Broadstream, as payment for certain financing-related services performed by Adelson on behalf of Broadstream. This transfer has been accounted for as a contribution by the Company of such shares to Broadstream in

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

exchange for no consideration. Subsequent to the recapitalization and non-reciprocal share transfer, the Company owned 6,434,596 shares of Series A-1 Convertible Redeemable Preferred Stock of Broadstream, representing an approximately 43% equity interest (calculated on an as-if-converted basis) and a 49% voting interest.

On August 15, 2001 the Company purchased a secured convertible promissory note from Broadstream in exchange for \$600 in connection with an aggregate \$1,600 bridge loan financing consummated by Broadstream. The aggregate bridge loan financing was secured by all of Broadstream's assets. The note also contained certain conversion provisions in the event Broadstream were to close a new round of financing or enter into certain transactions.

On November 30, 2001 the Company assigned its Broadstream promissory note to a newly formed entity, NetPro Holdings Inc. ("NetPro") in exchange for 13,674,753 shares of NetPro Series A-1 Convertible Redeemable Participating Preferred Stock. On November 30, 2001 as a result of the application of the equity method, the net book value of the note approximated zero and no gain or loss was recorded as a result of this exchange. Concurrent with this transaction, NetPro foreclosed on the note and elected to take possession of all of Broadstream's assets in full satisfaction of the notes.

On December 15, 2001, the Company purchased 1,585,479 shares of NetPro Series B-1 Convertible Redeemable Participating Preferred Stock in exchange for \$200 in connection with a larger ongoing financing arrangement.

As of December 31, 2001 the Company's interest in NetPro represented approximately 38% of NetPro outstanding equity, and was being accounted for under the equity method of accounting. On November 8, 2001 the Company sold a 51% voting interest in InSys Technology, Inc. ("InSys"), a wholly-owned subsidiary, to a certain member of the management

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

team in exchange for \$50 and concurrently forgave approximately \$400 of advances to InSys. The Company has no obligation to provide additional funding to InSys.

Concurrently, the Company loaned InSys \$100 evidenced by a promissory note. The note bears interest at a rate equal to the London Interbank offer rate plus 2%, until the principal amount of the note is paid in full. InSys is obligated to pay, on an annual basis, at a minimum, 50% of the excess of its annual earnings before taxes.

The Company's retained equity interest and note receivable, net of the Company's pro rata share of InSys' net losses absorbed during the period from November 8, 2001 to December 31, 2001, totaled \$312. The Company's pro rata share of InSys' net loss for the six months ended June 30, 2003 and 2002 totaled \$107 and \$155, respectively, which is included in equity in losses and impairment of investments in unconsolidated affiliates in the accompanying statement of operations.

On June 17, 2003, in connection with the resignation of the Company's Chief Executive Officer, the Company entered into an agreement to transfer its interest in InSys to the former executive, contingent upon the approval of the other member of InSys. Upon receipt of such approval, the then book value of InSys will be charged to severance expense.

DIVESTITURE OF RAND INTERACTIVE CORPORATION

On November 2, 2001 the Company sold all issued and outstanding shares of RAND Interactive Corporation ("RAND"), a wholly-owned subsidiary, to certain members of management in exchange for 375,039 shares of the Company's common stock, and a warrant to purchase such amount of shares of common stock that shall equal, at the time of exercise, 30% of the issued and

outstanding shares of RAND common stock on a fully diluted basis. Such warrants have a stated exercise price of \$1.00 in the aggregate, expire on November 3, 2013, and are contingently exercisable upon the occurrence of certain prospective events, as defined.

ACQUISITION OF IGUANA STUDIOS, INC.

In connection with the acquisition of Iguana Studios, Inc. ("Iguana"), in March 2001, 2,300,000 shares of the Company's common stock were placed in escrow. The related contingency period expired in July 2002, and the fair value of such shares was included in the aggregate purchase price at that time. As of December 31, 2001 all employees of Iguana had been terminated, and the subsidiary's operating activities had ceased. The remaining net book value of Iguana intangibles was \$0. Accordingly, the Company recorded additional impairment charges in July 2002 totaling \$69 representing the fair value of such shares.

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

("Canned"), a Los Angeles-based media and entertainment interactive agency, for approximately \$1,100 in cash, including acquisition costs, and 6,436,552 shares of the Company's common stock valued at approximately \$1,000.

The business combination was accounted for using the purchase method of accounting and, accordingly, the total consideration was allocated to the tangible and intangible assets acquired and liabilities assumed on the basis of their respective fair values on the date of acquisition. The results of operations of Canned, and the estimated fair value of the assets acquired and liabilities assumed are included in the Company's consolidated financial statements from the date of acquisition. Of the total purchase price, approximately \$104 was allocated to the net tangible liabilities assumed, \$2,177 was allocated to identified intangible assets, primarily assembled workforce, and to goodwill. The fair value of the identified intangible assets was determined using the replacement cost approach for the assembled workforce. On January 1, 2002, in connection with the Company's adoption of SFAS 142, the value ascribed to the acquired workforce was subsumed into goodwill, and amortization of these assets ceased. Also in connection with the acquisition of Canned, \$200 in cash and 715,172 shares of the Company's common stock were placed in escrow. The related contingency period expired in December 2002, at which time the cash and the then fair value of the shares, totaling \$214, was included in the aggregate purchase price.

On June 30, 2003, the Company sold all of the issued and outstanding shares of Canned to a limited partnership of which Canned's managing director is the general partner. The results of operations for Canned, including the loss on sale and goodwill impairment in 2003, are reported as discontinued operations for all periods presented. The accompanying consolidated Statements of Operations for the three and six month periods ending June 30, 2002 were restated to reflect such classification. Payments are due in various installments of principal plus accrued interest commencing on April 25, 2002 and continuing annually thereafter through April 25, 2006. During the second quarter of 2003, the Company received installment payments, totaling \$36. This amount was less than the \$86 due in that period. As a result of the underpayment and management's assessment of the likelihood of future collection, the Company established a valuation allowance for the remaining principal amount of the notes totaling \$473.

(5) COMMITMENTS AND CONTINGENCIES

In July 2001, the Board of Directors terminated the employment of the Company's then President and Chief Executive Officer. The former executive had an employment agreement dated August 21, 2000 that provided for severance benefits. Total minimum lease payments, above, have not been reduced for future minimum sublease rentals totaling approximately \$103.

As a result of the Company's divestiture of certain operations, employee terminations and terminated business combination, the Company evaluated its alternatives with respect to its contractual obligations concerning leased facilities. As of June 30, 2002, the Company determined that certain facilities had no substantive future use or benefit to the Company. The Company accrued the remaining costs relating to these leases, net of sublease income, in the second quarter of 2002. At June 30, 2003, \$106 of this amount remained.

LEGAL PROCEEDINGS

The Company is involved in various legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operation or liquidity.

(6) STOCKHOLDER'S EQUITY

In April, 2002 the Company cancelled 15,468,748 outstanding warrants with a weighted average exercise price of \$0.85 in exchange for no consideration.

In August, 2002 the Company's shareholders approved the grant to the former Chief Executive Officer of an option to purchase 6,000,000 shares of the Company's common stock. Under the Separation Agreement entered into in connection with such former Chief Executive Officer's resignation on June 17, 2003, such options, together with 3,000,000 previously granted, were immediately vested and may be exercised at any time on or before March 31, 2005. As a result of this modification to the terms of the options, the Company has recorded a charge of \$90. This amount is included in stock-based compensation in the accompanying Statement of Operations for the period ended June 30, 2003.

(7) RELATED PARTY TRANSACTIONS

During the six months ended June 30, 2003, the Company incurred legal fees in connection with certain transactions and other matters in the normal course of business. A portion of these services were provided by a firm of which a former member of the Board of Directors is a partner. Such former member of the Board of Directors resigned on June 12, 2003. Fees incurred by this firm totaled approximately \$148 in the six months ended June 30, 2003.

During the three months ended March 31, 2002, the Company incurred management and investment advisory service fees in connection with identifying, evaluating, negotiating, and managing investment opportunities for the Company. These services were provided by a firm of which the former President and Chief

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

Executive Officer of the Company was previously affiliated. Such former President and Chief Executive Officer of the Company resigned on June 17, 2003. Fees incurred by the Company to this firm totaled \$75 in the three months ended March 31, 2002. As of June 30, 2002, the Company no longer utilizes this firm to perform any services for the Company. Such payments to the Company totaled \$156 and \$115 during the six months ended June 30, 2003 and 2002, respectively. Furthermore, the firm was indebted to the Company in the amount of \$115 and \$194 at June 30, 2003 and December 31, 2002, respectively, for its pro rata share of certain leasehold improvements and rental payments due, which are reflected in the Related Party Receivable in the accompanying Balance Sheet.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Company's audited consolidated financial statements and accompanying notes for the fiscal year ended December 31, 2002. Certain statements contained within this discussion constitute forward-looking statements. See "Special Note Regarding Forward Looking Statements."

ACCOUNTING POLICIES

The preparation of the Company's financial statements in conformity with generally accepted accounting principles in the United States requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company's estimates, judgments and assumptions are continually evaluated based on available information and experience. Because of the use of estimates inherent in the financial reporting process, actual results could differ from those estimates.

Prior to the divestiture of Canned, the Company derived its revenues from services performed under one of two pricing arrangements: time-and-materials or fixed-price. The services performed under either of these arrangements were substantially identical.

Revenues were recognized for fixed-price arrangements in the period services were rendered using the percentage-of-completion method, based on the percentage of costs incurred to date to total estimated projects costs, provided the Company had the ability to produce reasonably dependable estimates, collection of the resulting receivable was probable and no significant obligations remained. The cumulative impact of any revision in estimates of the cost to complete and losses on projects in process were reflected in the period in which they became known. Through September 30, 2002 the Company's revenues were recognized under the completed contract method of accounting as the Company did not have reasonably dependable estimates with respect to projects at the Company's former subsidiary, Canned. Beginning in the fourth quarter of 2002, Canned's revenues were recognized using the percentage of completion method. Canned's projects were typically short term in nature, generally spanning less than 90 days.

Revenues were recognized for time-and-materials based arrangements in the period when the underlying services were rendered, provided collection of the resulting receivable was probable and no significant obligations remained.

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

Provisions for estimated project specific losses on both types of contracts were made during the period in which such losses became probable and could be estimated. To date, such losses have not been significant. The Company reports revenue net of reimbursable expenses.

Any estimation process, including that used in preparing contract accounting models, involves inherent risk. The Company reduced the inherent risk relating to revenue and cost estimates in percentage-of-completion models through corporate policy, approval and monitoring processes. Risks relating to service delivery, productivity and other factors were considered in

21

the estimation process. For all client contracts, provisions for estimated losses on individual contracts were made in the period in which the loss first became apparent.

The Company maintained allowances for doubtful accounts for estimated losses resulting from the inability of customers to make payments. If the financial condition of the Company's customers deteriorated, resulting in the customers' inability to make payments, additional allowances were required. Additionally, the Company assesses the need for provisions for estimated uncollectible amounts with respect to its loans receivable resulting from the inability of an issuer to make payments when they become due. The Company bases this estimate on the financial condition of the issuer, trends in its results of operations or other changes in circumstances. If the financial condition of an issuer deteriorates, resulting in such issuer's inability to fulfill its obligation under the promissory note evidencing such a loan, additional allowances will be required.

The Company has reduced its deferred tax assets to an amount that the Company believes is more likely than not to be realized, which was \$0 at December 31, 2002 and June 30, 2003. In so doing, the Company has estimated future taxable losses in determining the valuation allowance. In the event that actual results differ from these estimates or these estimates are adjusted in future periods, the Company may need to modify its valuation allowance which could materially affect its financial position and results of operations.

OVERVIEW AND RECENT DEVELOPMENTS

Prior to commencement of the operational divestiture described in the Company's Form 10-K for the year ended December 31, 2001, the Company was a provider of a broad range of professional consulting services, including e-services and technology strategy, online branding, web architecture and design systems integration, system architecture and outsourcing.

On December 4, 2001 the Company entered into an agreement and plan of merger with Franklin Capital Corporation, a Delaware corporation. On July 1, 2002 the Company received a notice of termination from Franklin terminating the proposed merger.

The Company made two investments in 2001 and one in the first quarter of 2002 in Excelsior Radio Networks, Inc. (f/k/a eCom Capital, Inc.), a subsidiary of Franklin Capital, which produces, syndicates and distributes radio programs and related services. The Company purchased a promissory note and warrant for \$2,250,000 from Excelsior in August 2001 and in December 2001 purchased 250,000 common shares of Excelsior from Franklin Capital for \$250,000. In April 2002 the Company purchased an additional promissory note from Excelsior for \$4,708,000 in conjunction with the purchase by Excelsior of Dial

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

Communication Group Inc. and Dial Communications Group LLC. The \$2,250,000 promissory note was paid in full, together with related accrued interest, on October 1, 2002. The \$4,708,000 note was repaid in full, together with related accrued interest, on January 21, 2003.

On January 15, 2003, the Company sold the Excelsior shares and the Excelsior warrant to Sunshine III, LLC for total consideration of approximately \$648,000 in cash.

On September 30, 2002, the Board of Directors announced the adoption of a plan of liquidation and dissolution in order to maximize stockholder value and noted that if no suitable

22

business opportunities became available to it, subject to stockholder approval, it would commence liquidation in 2003. However, the plan permits the Board of Directors to amend, modify or abandon the plan, notwithstanding stockholder approval, if the Board determines doing so would be in the best interests of the Company and its stockholders.

On June 17, 2003, the individual filling the roles of President, Chief Executive Officer and Chief Financial Officer of the Company resigned. The former executive had an employment agreement dated September 17, 2001 governing the terms and conditions of his employment. Upon such former executive's resignation, the Company entered into the Separation Agreement. The Company will pay the former executive the severance he is entitled to under the Separation Agreement and has recorded a charge in the Statement of Operations for the three months ended June 30, 2003 for the value of expected payments and benefits payable to the former executive.

The Company announced on June 18, 2003 that it signed a Letter of Intent in connection with its proposed Merger with Neurologix. In the event the Merger is consummated, the Company expects to abandon the plan of liquidation and dissolution. If the Merger is not consummated, the Company expects to pursue the plan of liquidation and dissolution previously adopted.

On June 30, 2003, the Company sold to Textor Family Limited Partnership all of the issued and outstanding shares of capital stock of Canned. As a result of the divestiture, the Company has no continuing revenue generating operations.

OVERVIEW OF OPERATIONS

Canned Interactive was the Company's sole revenue generating subsidiary from December 2001 through June 30, 2003. Canned is based in Los Angeles, California and designs and produces interactive media such as digital video discs (DVD) and web sites, primarily for entertainment, consumer goods, sports and technology companies.

Most theatrical films, including new and library releases, are now released in DVD format. Canned designed interactive content for those titles, enriching the viewer experience and creating value for Canned's clients. Canned also used its design and technology skills to create and enhance web sites with interactive and streaming content.

Agreements entered into in connection with time-and-materials projects were generally terminable by the client upon 30-days' prior written notice, and clients were required to pay the Company for all time, materials and expenses incurred by the Company through the effective date of termination. Agreements entered into in connection with fixed-price projects were generally terminable

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

by the client upon payment for work performed and the next progress payment due.

Canned's costs consisted primarily of compensation and related costs of personnel dedicated to customer assignments. Project personnel costs also included fees paid to subcontractors for work performed in connection with projects and non-reimbursed travel expenses.

23

The Company's selling, general and administrative costs consist primarily of compensation and related costs of the management and administrative functions, including finance and accounting, marketing, human resources and internal information technology, the costs of the Company's facilities and other general corporate expenses.

The Company's equity based compensation expense is comprised of amortization of the deferred compensation associated with the grant of stock options to the Board of Directors and a former President and Chief Executive Officer whose employment was terminated by the Board of Directors in July 2001. Such cost is measured as the difference between the exercise price of options granted and the fair market value of the underlying stock on the date of measurement, and is being recognized as expense over the vesting period of the options. Also included in equity based compensation is a charge, totaling \$90,000, associated with the modification of the former Chief Executive's options upon his resignation in June 2003. The Company incurred approximately \$270,000 and \$263,000 in equity based compensation expense during the six months ended June 30, 2003 and 2002, respectively.

ACQUISITIONS AND DIVESTITURES

The Company evaluated acquisitions based on numerous quantitative and qualitative factors. Quantitative factors include historical and projected revenues and profitability, geographic coverage and backlog of projects under contract. Qualitative factors include strategic and cultural fit, management skills, customer relationships and technical proficiency.

INSYS. On November 8, 2001 the Company sold a 51% voting interest in InSys, a wholly-owned subsidiary, to a member of its management team in exchange for \$50,000 and concurrently forgave approximately \$400,000 of advances to InSys. In addition, the Company loaned InSys \$100,000 evidenced by a promissory note. This note bears interest at a rate equal to the London Interbank Offer Rate plus 2%.

RAND INTERACTIVE CORPORATION. On November 2, 2001 the Company sold all of the issued and outstanding shares of RAND, a wholly-owned subsidiary, to a member of its management team in exchange for 375,039 shares of Common Stock, and a warrant to purchase such amount of shares of RAND common stock that equals, at the time of exercise, 30% of the issued and outstanding shares of RAND common stock on a fully diluted basis. The warrant has an aggregate exercise price of \$1.00, is exercisable upon the occurrence of certain events and expires on November 3, 2013.

IGUANA. In connection with the acquisition of Iguana in March 2001, 2,300,000 shares of the Company's common stock were placed in escrow. The related contingency period expired in July 2002, and the fair value of such shares was included in the aggregate purchase price. As of December 31, 2001 all employees of Iguana had been terminated, and the subsidiary's operating activities had ceased. The remaining net book value of Iguana intangibles was \$0. Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

CANNED. On June 12, 2001, the Company acquired Papke-Textor, Inc. d/b/a Canned Interactive, a Los Angeles based media and entertainment interactive agency, for approximately

24

\$1,100,000 in cash, including acquisition costs, and 6,436,552 shares of Common Stock, valued at approximately \$1,000,000. The business combination was accounted for using the purchase method of accounting.

Also in connection with the acquisition of Canned, \$200,000 in cash and 715,172 shares of the Company's common stock were placed in escrow. In connection with such sale, all Inter-Company Loans in excess of \$300,000 were converted by the Company into equity of Canned without the issuance to the Company of any additional capital stock or the granting of any right to receive any additional equity in Canned. Additionally, the Company received \$300,000 from Canned as payment in full of the outstanding Inter-Company Loans.

BROADSTREAM AND NETPRO. In May 2001, Broadstream completed a recapitalization whereby the holders of Series A Convertible Redeemable Preferred Stock exchanged their Series A shares for shares of Series A-1 Convertible Redeemable Preferred Stock. The recapitalization modified the conversion ratio, policies regarding dividends and voting rights for Series A-1 holders. No additional consideration was paid by the Company or any other preferred shareholder in connection with this transaction. As a result of the recapitalization the voting interest of common shareholders was reduced from 31% to 13%.

Also in May 2001, in connection with the recapitalization, the Company transferred 1,191,569 Series A-1 Convertible Redeemable Preferred shares to Adelson Investors, LLC, another shareholder of Broadstream. This transfer is accounted for as a contribution by the Company of such shares to Broadstream in exchange for no consideration. Subsequent to the recapitalization, and non-reciprocal share transfer, the Company owned 6,434,596 shares of Series A-1 convertible redeemable preferred stock of Broadstream, representing an approximately 43% equity interest (calculated on an as-if-converted basis) and 49% voting interest.

On August 15, 2001 the Company purchased a secured convertible promissory note from Broadstream in exchange for \$600,000 in connection with an aggregate \$1,600,000 bridge loan financing consummated by Broadstream. The aggregate bridge loan financing was secured by all of Broadstream's assets. The note also contained certain conversion provisions in the event Broadstream closed a new round of financing or entered into a change of control transaction.

On November 30, 2001 the Company assigned its note to a newly formed entity, NetPro Holdings Inc. in exchange for 13,674,753 shares of NetPro Series A-1 convertible redeemable participating preferred stock. On November 30, 2001 as a result of the application of the equity method, the net book value of the note approximated zero. No gain or loss was recorded as a result of this exchange. Concurrent with this transaction, NetPro foreclosed on the note and

elected to take possession of all of Broadstream's assets in full satisfaction of the notes. Broadstream remains in existence but is not conducting any business.

On December 24, 2001, the Company purchased 1,585,479 shares of NetPro Series B-1 convertible redeemable participating preferred stock in exchange for \$200,000 in connection with a larger ongoing financing effort by NetPro. On January 10, 2002, the Company invested an additional \$100,000 in NetPro Series B-1 stock, and on March 7, 2002 the Company invested a final \$100,000 in NetPro Series B-1 stock. On March 14, 2002, the board of directors of NetPro voted to suspend all of the company's business operations and immediately terminate substantially all of its employees due to NetPro's loss of significant clients and associated revenues

REVENUES. In connection with the divestiture of Canned by the Company, revenues are now included in discontinued operations.

COST OF REVENUES. Cost of revenues consists principally of costs directly incurred in the delivery of services to clients, primarily consisting of compensation of billable employees. Billable employees are full time employees and sub-contractors whose time spent working on client projects is charged to that client at agreed-upon rates. Billable employees were our primary source of revenue. In connection with the divestiture of Canned by the Company, such costs are now included in discontinued operations.

GENERAL AND ADMINISTRATIVE EXPENSES. Selling, general and administrative expenses consist primarily of compensation and related benefits, professional services fees, facilities costs, and advertising and promotional costs. Selling, general and administrative expenses decreased from \$1,777,000 in the three months ended June 30, 2002 to \$516,000 in the three months ended June 30, 2003 and from \$1,858,000 in the six months ended June 30, 2002 to \$1,545,000 in the six months ended June 30, 2003. This decrease was primarily a result of the decreased rent expense associated with facilities abandoned in the second quarter of 2002, and a decrease in professional services fees as a result of the termination in 2002 of the proposed merger with Franklin.

EQUITY IN LOSSES AND IMPAIRMENT OF INVESTMENTS IN UNCONSOLIDATED AFFILIATES. Equity in losses and Impairment of investments in unconsolidated affiliates was \$260,000 in the three months ended June 30, 2002 and \$44,000 in the three months ended June 30, 2003, and \$582,000 in the six months ended June 30, 2002 and \$107,000 in the six months ended June 30, 2003. Equity in losses of unconsolidated affiliates is a result of the Company's minority ownership in Broadstream, NetPro and InSys that have been accounted for under the equity method of accounting. Under the equity method of accounting, the Company's proportionate share, calculated on an as-if-converted basis, of the investee's operating losses and amortization of the Company's net excess investment over its equity in the investee's net assets is included in equity in losses of unconsolidated affiliates. Impairment of investments in unconsolidated affiliates is a

result of the cessation of NetPro's and LiveSky's operations in 2002. The Company evaluated the recoverability of its investments in light of the carrying values relative to future cash flows. As a result of this analysis, in 2002 the Company recorded impairment charges that reduced the remaining NetPro and Livesky investment balances to \$0.

INTEREST AND DIVIDEND INCOME. Interest and dividend income was \$257,000 in the three months ended June 30, 2002 and \$13,000 in the three months ended June 30, 2003, and \$407,000 in the six months ended June 30, 2002 and \$69,000 in the six months ended June 30, 2003. The decrease in interest and dividend income for the six months ended June 30, 2003 was attributable to a decrease in the Company's notes receivable as a result of repayment. Interest income in future periods may fluctuate as a result of the average cash the Company maintains and changes in the market rates of the Company's cash equivalents. The Company expects that the average cash balance may continue to decrease as the Company continues to incur operating losses.

INCOME TAXES. The Company has available estimated net operating loss carry forwards for income tax purposes of approximately \$23,137,000 through the period ended June 30, 2003, which expire on various dates from 2003 through 2023. A full valuation allowance has been established due to uncertainty whether the Company will generate sufficient taxable earnings to utilize the available net operating loss carryforwards. A portion of the Company's net operating loss carryforwards may also be limited due to significant changes in ownership under Section 382 of the Tax Reform Act of 1986.

LIQUIDITY AND CAPITAL RESOURCES

HISTORICAL SOURCE OF FUNDING

On March 28, 2000, an investor group led by Pangea Internet Advisors, LLC purchased 4,000,000 shares of Series B convertible preferred stock for net proceeds to the Company of approximately \$39,450,000 in cash. Also on March 28, 2000, certain other investors purchased warrants to purchase 41,250,000 shares of common stock for \$100,000.

WORKING CAPITAL AND RESULTS OF OPERATIONS

The Company had \$7,252,000 in cash and cash equivalents available as of June 30, 2003, invested predominantly in instruments that are highly liquid, investment grade securities that have maturities of less than 45 days.

Beginning in the third quarter of 2001, in response to continued unfavorable market conditions for its services, the Company embarked on a review of its operations with the goal of formulating a course of action to minimize near term losses, capital expenditures and reduce cash outflows. As of June 30, 2003, the Company has no revenue generating operations, a limited number of employees and has significantly reduced fixed expenses. During the six months ended June 30, 2003, the Company used \$1,008,000 to fund operations.

The Company's future contractual obligations at June 30, 2003 were as follows:

Amounts Due in Fiscal Year Ending December 31,

Edgar Filing: CHANGE TECHNOLOGY PARTNERS INC - Form 10-Q

	2003 -----	2004 -----	2005 ----- (in thousands)	2006 -----
Operating leases.....	\$ 229	\$ --	\$ --	\$ --
Capital Leases.....	17	10	--	--
	-----	-----	-----	-----
	\$ 246	\$ 10	\$ --	\$ --
	=====	=====	=====	=====

The Company intends to fund these obligations from its cash on hand at June 30, 2003.

In January, 2003, the Company sold its shares of Excelsior common stock and the Excelsior warrant to Sunshine III, LLC for total consideration of approximately \$648,000 in cash. Also in January, 2003 the \$4,708,000 note from Excelsior was repaid in full, together with related accrued interest totaling \$142,000.

Given the Company's current level of operations, the Company's capital resources are sufficient to meet anticipated cash needs for working capital and capital expenditures relating to existing operations for at least the next 12 months. However, the Company continues to review suitable business opportunities. If the Merger is consummated, the plan of liquidation and dissolution adopted by the Board is abandoned and the Company's operations require significant cash outlays to fund operations, the Company may be required to seek additional sources of financing or to sell certain assets.

28

If the plan of liquidation and dissolution adopted by the Board is pursued, the Company will begin the process of negotiating settlements with respect to its remaining obligations and liabilities. In the event the Company is unable to negotiate successfully the termination of these obligations, the Company may have less or no cash proceeds to distribute to its stockholders.
