PROXY STATEMENT

This Proxy Statement is furnished in connection with solicitation of proxies on behalf of the Board of Directors of Financial Institutions, Inc. ("FII") for the Annual Meeting of Shareholders of FII to be held on May 5, 2004.

Edgar Filing: FINANCIAL INSTITUTIONS INC - Form DEF 14A

The principal executive office of FII is located at 220 Liberty Street, Warsaw, New York 14569. The main telephone number for FII is (585) 786-1100.

The close of business of March 12, 2004 has been fixed as the record date for determination of the shareholders entitled to notice of, and to vote at, the meeting. On that date there were outstanding and entitled to vote 11,172,673 shares of common stock, each of which is entitled to one vote on each matter at the meeting. The approximate date on which this Proxy Statement and the enclosed proxy card are being sent to shareholders is April 5, 2004.

Shareholders of record may vote by telephone, via the Internet or by mail. The toll-free telephone number and Internet web site are listed on the enclosed proxy. If you vote by telephone or via the Internet you do not need to return your proxy card. If you choose to vote by mail, please mark the ballot boxes, date and sign it, and then return it in the enclosed envelope (no postage is necessary if being mailed within the United States). If your shares are held in the name of a bank, broker or other holder of record, you will receive instructions from the holder of record that you must follow in order for your shares to be voted. Each proxy submitted will be voted at the meeting in accordance with the choices specified thereon and, if no choices are specified, will be voted for the election of directors as set forth in this proxy statement. A shareholder giving a proxy has the right to revoke it at any time before it has been voted by (i) giving written notice to that effect to the FII Corporate Secretary, (ii) executing and delivering a proxy bearing a later date which is voted at the Annual Meeting, or (iii) attending and voting in person at the Annual Meeting.

ELECTION OF DIRECTORS and INFORMATION WITH RESPECT TO

BOARD OF DIRECTORS

FII's Board of Directors is divided into three classes, one of which is elected at each Annual Meeting for a term of three years and until their successors have been elected and qualified. The Board of Directors believes that the nominees listed below will be available and able to serve as directors, but, if for any reason any of them should not be, the persons named in the proxy may exercise discretionary authority to vote for a substitute proposed by the Board of Directors. The holders of a majority in interest of all common stock issued, outstanding and entitled to vote are required to be present in person or to be represented by proxy at the meeting in order to constitute a quorum for transaction of business. Directors are elected by a plurality of the votes cast by shareholders entitled to vote in the election. Proxies indicating abstentions and broker non-votes are counted as present for quorum purposes but are not counted for or against the election of directors. FII's By-laws govern the methods for counting votes and vest this responsibility in the Inspectors of Election appointed to perform this function.

1

Board composition changes since the last Annual Meeting include the appointment of Joseph F. Hurley and the resignation of Bryan G. vonHahmann. The Board of Directors currently consists of twelve members and the Board has resolved that, absent any further changes in the composition of the Board prior to the Annual Meeting, upon expiration of the terms of Jon J. Cooper and Wolcott J. Humphrey, Jr., who are not standing for reelection, the number of directors constituting the entire Board shall be fixed at ten. The current Director nominees are listed in the following two tables:

In 2003, the Board of Directors held ten meetings. All directors attended more than 75% of the Board meetings and the meetings of Committees on which they serve with the exception of Jon J. Cooper, who was unable to attend three of the ten Board meetings. There is no required attendance policy with respect to the Annual Meeting of Shareholders, however 100% of the directors did attend the 2003 FII Annual Meeting. John R. Tyler, Jr. is the Lead Director, and presides at executive sessions of non-management directors.

The Board of Directors has established the following three standing committees: Audit; Management Development & Compensation; and Nominating/Governance. All three committees function under written charters, which outline the respective authority, membership, meetings, duties and responsibilities.

The Audit Committee reviews the general scope of the audit conducted by the independent auditors, and matters relating to our financial reporting, internal control systems and credit quality. In performing its function, the Audit Committee meets separately with representatives of the independent auditors, internal auditors, loan review firm and senior management. In 2003, the Audit Committee held seven meetings. The Audit Committee membership is currently comprised of Barton P. Dambra as Chairperson, John R. Tyler, Jr., Susan R. Holliday, James E. Stitt, and Joseph F. Hurley. After a review of the requirements, his qualifications and experience including being a New York State Certified Public Accountant, along with discussions with outside legal counsel, the Board has concluded that Barton P. Dambra fully meets the required "audit committee financial expert" definition. See further discussion of committee in the separate Audit Committee Report on pages 9 -10.

The Management Development & Compensation Committee is responsible for making recommendations to the Board of Directors with respect to the compensation of our executive officers, for establishing policies relating to our overall compensation plans, practices and employee benefits, and overseeing management development and succession plans. The Committee also administers our Management Stock Incentive Plan and grants awards to eligible employees under the plan. The Management Development & Compensation Committee membership is currently comprised of Pamela Davis Heilman as Chairperson, Samuel M. Gullo, and John E. Benjamin. In 2003, the Management Development & Compensation Committee held twelve meetings.

The Nominating/Governance Committee is charged with assisting the Board of Directors in identifying qualified individuals to become directors, determining membership on Board committees and addressing corporate governance issues. The Nominating/Governance Committee membership is currently comprised of John R. Tyler, Jr. as Chairperson, James H. Wyckoff, Pamela Davis Heilman, and John E. Benjamin. Committee members are considered independent under the NASDAQ rules. In 2003, the Nominating/Governance Committee held seven meetings. This

4

committee's charter is available on pages 20 - 21 as Exhibit B as well as on FII's website at www.fiiwarsaw.com. The FII Nominating / Governance Committee will consider nominations made by shareholders or directors received timely pursuant to FII's By-laws. The evaluation process will include, but not limited to, determining (i) whether the nominee would be independent as defined in the Corporate Governance Guidelines, (ii) that the nominee fits the qualifications set forth in the FII Board Succession Plan, and (iii) that the nominee fits the Board's then current needs for diversity, geographic distribution, and professional expertise. Written nominations should be directed to the FII

Edgar Filing: FINANCIAL INSTITUTIONS INC - Form DEF 14A

Director of Human Resources. The committee will evaluate all nominees on the same basis, provided that current directors who are eligible for reelection may be evaluated solely on the basis of their record of performance as an FII director.

In 2003 directors who were not employed by FII or our subsidiary banks were paid an annual retainer of \$10,000, 50% in cash and 50% in FII common stock, and a separate fee for each Board and Committee meeting that they attended. The 2003 fee schedule for attending each meeting was as follows: \$1,000 per Board meeting, \$600 per committee meeting for a Committee Chairperson, and \$500 per committee meeting for each other member. We do not compensate directors who are employed by us or our subsidiary banks for service as directors. Under the 1999 Directors Stock Incentive Plan, our non-employee directors receive option grants of 1,000 shares of FII common stock annually. The annual option grants to non-employee directors in May 2003 contained an exercise price of \$20.50 and a three-year vesting period. An eligible director whose service begins on a date other than the date of an Annual Meeting of Shareholders receives a pro rata option grant.

AUDIT COMMITTEE REPORT

The Audit Committee of the Company assists the Board of Directors in its general oversight of the Company's financial reporting process, internal controls and audit functions. The Audit Committee is comprised solely of independent members, including a financial expert, as defined by the NASDAQ rules, and operates under a written charter adopted by the Board of Directors. The Committee reviews and assesses the adequacy of its charter on an annual basis. See the Audit Committee charter as Exhibit A on pages 18 - 19.

Management is responsible for the Company's internal controls and financial reporting process. The Company's independent accountants, KPMG LLP ("KPMG"), are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee the financial reporting and audit processes.

In connection with these responsibilities, the Company's Audit Committee met with management and the independent accountants to review and discuss the Company's December 31, 2003 consolidated financial statements. The Audit Committee also discussed with the independent accountants the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees). The Audit Committee received written disclosures from the independent accountants required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and considered the compatibility of non-audit services with KPMG's independence.

Edgar Filing: FINANCIAL INSTITUTIONS INC - Form DEF 14A

I. Audit Fees

Fees billed by KPMG for professional services rendered in connection with the audits of the Company's consolidated financial statements, the limited reviews of the interim consolidated financial statements included in the Company's Forms 10-Q and consents and review of documents filed with the SEC were \$170,500 for fiscal year ended December 31, 2003 and \$255,475 for fiscal year ended December 31, 2002.

II. Audit Related Fees

Audit-related services consist of audits of the Company's broker-dealer subsidiary's financial statements, financial statements of employee benefit plans, acquisition due diligence, regulatory compliance procedures, and consultation concerning financial accounting and reporting standards. These fees were \$46,500 for fiscal year ended December 31, 2003 and \$60,410 for fiscal year ended December 31, 2002.

Tax Fees

Aggregate fees for tax compliance and advisory services for the fiscal year ended December 31, 2003 were \$81,250 and \$83,720 for the fiscal year ended December 31, 2002.

All Other Fees

No additional fees than reported as audit fees, audit related fees and tax fees were billed by KPMG for the fiscal years ended December 31, 2003 and December 31, 2002.

9

Procedures have been adopted that require Audit Committee pre-approval of permissible services to be performed by the independent accountant, including the fees and other compensation to be paid; certain routine additional professional services not to exceed \$10,000 per quarter may be performed at the request of the Company without such approval. The additional professional services include tax assistance, research and compliance, assistance in research of accounting literature, and assistance in due diligence activities. A listing of the additional services provided to the Company each quarter, if any, is provided to the Company's Audit Committee at the first scheduled meeting after the end of the quarter. Reporting of these services is a standing agenda item for each Audit Committee meeting.

Based upon the Audit Committee's discussions with management and the independent accountants, and its review of the information described above, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2003, to be filed with the Securities and Exchange Commission.

COMPENSATION OF EXECUTIVE OFFICERS

Edgar Filing: FINANCIAL INSTITUTIONS INC - Form DEF 14A

MANAGEMENT DEVELOPMENT & COMPENSATION COMMITTEE REPORT

The Management Development and Compensation Committee (Committee), which serves as the Compensation Committee of the Company, is composed entirely of independent directors as defined by the rules of the National Association of Securities Dealers, Inc. As described in the Committee charter, the primary responsibilities of the Committee include:

- o Approving the design of the compensation program for the Company's executives that includes:
 - Base salary and benefits,
 - Short-term incentive cash compensation, and
 - Long-term stock option program.
- o Establishing policies relating to overall compensation practices and employee benefits.

In designing these programs, the Committee focuses on several important goals:

- o Aligning the interests of executives with shareholders' goals of maximizing long-term share value and return.
- o Attracting, retaining and motivating high-performing executives in the most cost-efficient manner.

10

- o Creating a high-performing and satisfying workplace.

In 2003, the Company conducted a comprehensive review of its employee compensation and benefit programs. The objectives of the study were several: to maintain programs that would enable the Company to attract and retain quality employees; to control the overall costs of compensation and benefits; to support the key business and strategic objectives of the Company, and to validate that current salary ranges and structures used are in line with those of comparable financial institutions.

The Committee determined that the Company's aggregate employee compensation and benefit costs compared very favorably with other financial services industries of similar size, when measured as a percentage of average assets, total revenue, total non-interest expense, as well as total cost per employee. Benefit plan and incentive compensation designs were reviewed as well. As a result, changes were made in benefit plan design that should reduce overall expense over time while allowing the Company to remain competitive in the labor market.

The Company's compensation program reflects a mix of stable and at risk compensation. The Committee believes that this structure fairly rewards executives and aligns their interests with those of shareholders in an efficient manner. The method of determining compensation for senior executives is described in more detail below.

Base salary. The performance of each senior executive is evaluated annually against the duties outlined in that person's position description as well as annual goals that have been identified for the upcoming year. Based on the outcome of the performance evaluation, an annual base rate is established. Formal salary ranges have been developed based upon duties as described in each position description. The Committee periodically reviews the ranges which have

Edgar Filing: FINANCIAL INSTITUTIONS INC - Form DEF 14A

been set to make sure they adequately reflect the position descriptions and the Company's overall management structure. To ensure competitive salaries, the Committee regularly reviews industry compensation surveys and market rates generally for organizations of similar size. While these benchmarks are used as guidelines, individual performance is considered first when base compensation is established. The Committee intends that salaries be set roughly at peer medians accounting for size, cost of living differences and organizational performance. Year-to-year increases in base salary depend upon prior year performance, determined through the formal evaluation process. Merit increases are based on the individual's performance rating and the executive's placement within the salary range for his or her position.

Incentive compensation. The incentive compensation program provides senior executives with additional incentive to meet performance targets set by the Committee. Senior executives receive bonus compensation at year-end, based upon the Company's performance and the performance of their business unit relative to targets established at the beginning of the year. Targets are based on prior year performance, an assessment of the current and expected opportunities and market conditions and the specific strategic objectives established for the current year. Incentive compensation also is based on objective performance with respect to return on equity, net interest margin, non-interest income relative to average assets and non-interest expense relative to average assets. These targets are aligned with the Company's strategic direction and focus. Because Company objective targets were not achieved, bonus compensation for each senior executive was reduced by at least 50% versus 2002.

11

Stock options. To encourage growth in shareholder value, the Committee provides senior executives with stock options. The stock option plan, which was approved by the shareholders, is intended to encourage share ownership in order to motivate and retain key officers who are in a position to substantially affect the long-term success of the Company. The Committee believes that stock options, which provide value to participants only when the Company's shareholders benefit from stock price appreciation, are an important component of aligning the interests of executives with those of the Company's shareholders. The Company's senior executives received a five-year grant of stock options in 1999 as part of the program which expired on December 31, 2003. Effective January 1, 2004, the Committee adopted a new five-year program under which stock options are granted annually to all participants, including senior executives, based on a multiple of base salary. In designing the program, the Committee weighed the incentive gains from stock options with the accompanying dilution of ownership to arrive at a plan which is beneficial to the long run interests of the Company's shareholders.

The principal components of the 2003 compensation program for named executives are summarized in the table on the next page.

Chief Executive Officer. Mr. Peter Humphrey's compensation is determined in generally the same manner as other senior executives, as described above, but with particular focus on overall company performance versus objective targets. Using these criteria, the Committee conducts an annual evaluation of Mr. Humphrey's performance to determine year-to-year changes in his base salary and his incentive compensation. As a result of his annual review in 2002, his base salary for 2003 was increased by 7% over his base salary for 2002. For purposes of determining his incentive compensation for 2003, Mr. Humphrey's review focused on the Company's financial performance in 2003, its strategic and tactical achievements during the year and its organizational development and utilization of senior executives and the Board of Directors. Although Mr. Humphrey achieved many of his and the Company's performance goals for 2003,

Edgar Filing: FINANCIAL INSTITUTIONS INC - Form DEF 14A

especially in the area of strategic initiatives, the Company's 2003 financial performance inhibited his ability to earn his full incentive compensation, and his 2003 bonus decreased 64% versus the prior year.

BENEFIT PLANS

FII maintains a defined benefit retirement plan that covers all of our full- and part-time employees who satisfy the eligibility requirements. Employees are eligible to participate in the plan if they have completed one year of employment and are at least 21 years of age. Participants with five or more years of service are entitled to annual pension benefits beginning at 62 years of age. The amount of the retirement benefit is 1.75% of the participant's highest average five consecutive years' compensation multiplied by the number of years of service up to 35 years, plus 1.25% of the participant's highest average five consecutive years' compensation for service in excess of 35 years, not to exceed 40 years of creditable service, less 0.49% of the average of the participant's final three years' compensation multiplied by the number of years of service up to 35 years. If a participant terminates employment with us before completing five years of service, such person forfeits the right to receive plan benefits. Total plan expense charged to our operations for 2003, 2002 and 2001 and was \$1,364,000, \$726,000, and \$270,000, respectively, and the market value of the assets held by the plan at December 31, 2003 was approximately \$17.56 million. The following table sets forth

14

the estimated plan benefits payable upon retirement for various levels of compensation and years of service:

Compensation	Years of Service				
	15	20	25	30	35
\$150,000	30,518	40,691	50,864	61,037	71,209

\$400,000	41,768	55,691	69,614	83,537	97,459

\$500,000	41,768	55,691	69,614	83,537	97,459
\$550,000	41,768	55,691	69,614	83,537	97,459
\$600,000	41,768	55,691	69,614	83,537	97,459
\$625,000	41,768	55,691	69,614	83,537	97,459

For purposes of determining benefits under the plan, compensation includes salary and bonus but cannot exceed \$200,000. The benefit computation is based on a life annuity with a five-year certain. The Social Security Offset (included in the above figures) is 0.49% times the three-year final average salary up to covered compensation times the number of years of creditable service up to 35 years. This offset assumes a 2003 benefit for a participant of age 65. The estimated credited years of service for each of the Named Executive Officers as of December 31, 2003 were as follows: Peter G. Humphrey, 24.417; Jon J. Cooper, 5.750; Randolph C. Brown, 11.167; Douglas L. McCabe, 2.667, and Thomas D. Grover .25.

FII also maintains a contributory profit sharing plan pursuant to Internal Revenue Code Section 401(k) covering substantially all employees. At least one year of service is required to be eligible for employer-matching contributions. Participants may contribute up to 50% of their compensation to the Plan, subject to IRS limitations. Each year we determine, at our discretion, the amount of matching contributions. Total plan expense for 2003, 2002, and 2001 was \$299,000, \$1,057,000, and \$708,000, respectively.

EMPLOYMENT AGREEMENTS

FII has a three-year employment agreement with Peter G. Humphrey providing for his employment as FII's President and Chief Executive Officer. The agreement includes change of control and change of authority provisions. If his employment is terminated within twelve months after a change in control and a change of authority (as those terms are defined in the agreement), Mr. Humphrey will receive an amount equal to the sum of 300% of the base salary plus the average annual incentive compensation paid FII to him for the most recent three tax years ending before the date on which the change of control and change of authority occurred. In the event of termination without cause (as defined in the agreement) Mr. Humphrey will receive an amount equal to the sum of two years base salary plus the average of the annual incentive compensation paid for the most recent two tax years ending before the date on which termination occurred.

Messrs. Cooper, Brown, McCabe, and Burke are CEOs of our subsidiaries and have employment agreements with them providing employment as the subsidiaries' President and Chief Executive Officer. Each agreement is for a three-year term and includes

15

change of control and change of authority provisions. If the executive's employment is terminated within twelve months after a change in control and a change of authority (as those terms are defined in the agreement), the executive will receive an amount equal to the sum of 200% of the base salary plus the average annual incentive compensation paid by FII to him for the most recent two tax years ending before the date on which the change of control and change of authority occurred. In the event of termination without cause (as defined in the agreement) the executive will receive an amount equal to the sum of one year base salary and the annual incentive compensation paid for the most recent tax year ending before the date termination occurred.

INDEPENDENT AUDITORS

KPMG LLP has served as the independent auditors of FII since 1995. Representatives of KPMG LLP are expected to be present at the Annual Meeting. They will be given an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

CERTAIN RELATIONSHIPS AND TRANSACTIONS

Our directors, executive officers and many of our substantial shareholders and their affiliates are also customers. "Affiliates" include corporations, partnerships and other organizations in which they are officers or partners, or in which they and their immediate families have at least a 10% interest. During 2003, our subsidiary banks made loans in the ordinary course of business to many of our directors, officers, principal shareholders and their affiliates, and to directors, officers and their affiliates of our subsidiary banks. On December 31, 2003, the aggregate principal amount of loans to the FII directors, named executive officers and their affiliates was \$3,096,000. Loans outstanding by subsidiary banks to certain officers, directors or companies in which they have 10% or more beneficial ownership (including officers and directors of FII as well as its subsidiaries) approximated \$25,651,000 at December 31, 2003. Loans made by our subsidiary banks to officers, directors or companies in which they have a 10% or more beneficial interest (including officers and directors of FII as well as its subsidiaries) were made in the ordinary course of business on substantially the same terms, including interest rate and collateral, as comparable transactions with other customers and did not involve more than the normal risk of collectibility or present other unfavorable features. Loans to directors, executive officers and substantial shareholders are subject to limitations contained in the Federal Reserve Act, which requires that such loans satisfy certain criteria. We expect to have such transactions or transactions on a similar basis with our directors, executive officers, principal shareholders and their associates in the future.

FII engaged the law firm of Hodgson Russ LLP to provide legal services to FII during 2003. Director Pamela Davis Heilman is currently a partner with this law firm.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires FII's directors and executive officers and persons who own more than 10% of a registered class of FII's equity securities to file with the U.S. Securities and Exchange Commission reports of transactions in and ownership of FII common stock. Officers, directors and greater than 10% shareholders are required by SEC regulations to furnish FII with copies of all Section 16(a) forms they file. Based solely on review of the copies of such reports and

16

representations that no other reports are required, all Section 16(a) filing requirements applicable to its officers, directors and greater than 10% beneficial owners were complied with during the fiscal year ended December 31, 2003 except that Randolph C. Brown and Patrick C. Burke each filed one late report.
