PARAMOUNT GROUP, INC. AND PARAMOUNT PREDECESSOR

NOTES TO COMBINED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. Organization and Business

As used in these consolidated and combined financial statements, unless indicated otherwise, all references to “we,” “us,” “our,” the “Company,” and “Paramount” refer to Paramount Group, Inc. and its consolidated subsidiaries, including Paramount Group Operating Partnership LP, upon completion of the Formation Transactions (as more fully described below) and the initial public offering of common stock.

We are a fully-integrated real estate investment trust (“REIT”) focused on owning, operating, managing, acquiring and redeveloping high-quality, Class A office properties in select central business district submarkets of New York City, Washington, D.C. and San Francisco. As of June 30, 2015, our portfolio consisted of 12 Class A office properties aggregating approximately 10.4 million square feet that had an occupancy rate of 92.9%.

We were incorporated in Maryland as a corporation on April 14, 2014 to continue the business of our Predecessor, as defined, and did not have any meaningful operations until the acquisition of substantially all of the assets of our Predecessor and the assets of the Property Funds, as defined, that it controlled, as well as the interests of unaffiliated third parties in certain properties. Our properties were acquired through a series of Formation Transactions (the “Formation Transactions”) concurrently with our initial public offering of 150,650,000 common shares at a public offering price of \$17.50 per share on November 24, 2014 (the “Offering”).

We conduct our business through, and substantially all of our interests are held by, Paramount Group Operating Partnership LP, a Delaware limited partnership (the “Operating Partnership”). We are the sole general partner of, and owned approximately 80.4% of, the Operating Partnership as of June 30, 2015.

Our Predecessor

Our Predecessor is not a legal entity but a combination of entities under common control as they were entities controlled by members of the Otto family that held various assets, including interests in (i) 15 private equity real estate funds controlled by our Predecessor (which included nine primary funds and six parallel funds) (collectively,

the “Funds”) that owned interests in 12 properties, (ii) a wholly-owned property, Waterview, in Rosslyn, Virginia and (iii) three partially owned properties in New York, NY (See note 4, Investments in Unconsolidated Joint Ventures).

Below is a summary of the 15 private equity real estate funds that were controlled by our Predecessor prior to the completion of the Formation Transactions.

The following funds are collectively referred to herein as the “Property Funds”:

- ¶Paramount Group Real Estate Fund I, L.P. (“Fund I”)
- ¶Paramount Group Real Estate Fund II, L.P. (“Fund II”)
- ¶Paramount Group Real Estate Fund III, L.P. (“Fund III”)
- ¶Paramount Group Real Estate Fund IV, L.P. (“Fund IV”)

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying consolidated and combined financial statements include the accounts of Paramount and its consolidated subsidiaries, including the Operating Partnership. All significant inter-company amounts have been eliminated. In our opinion, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, result of operations and changes in the cash flows have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted. These consolidated and combined financial statements have been prepared in accordance with the instructions to Form 10-Q of the Securities and Exchange Commission (“SEC”) and should be read in conjunction with the consolidated and combined financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the SEC.

We have made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The results of operations for the three and six months ended June 30, 2015 are not necessarily indicative of the operating results for the full year.

Our Predecessor’s combined financial statements included all the accounts of our Predecessor, including its interests in (i) the Funds, (ii) Waterview and (iii) the three partially-owned properties. Our Predecessor evaluated each of the Funds pursuant to the control model of Accounting Standards Codification (“ASC”) 810-20, Consolidation—Control of Partnerships and Similar Entities and concluded that based on its rights and responsibilities as the sole managing member of the general partner it should consolidate each of the Funds. With the exception of the Residential Fund, which is carried at historical cost, each of the Funds qualify as investment companies pursuant to Financial Services—Investment Companies (“ASC 946”); accordingly, the underlying real estate investments are carried at fair value, which was retained in consolidation by our Predecessor.

Upon completion of the Offering and the Formation Transactions, we acquired substantially all of the assets of our Predecessor and all of the assets of the Property Funds that it controlled, other than their interests in 60 Wall Street, 50

Beale Street, and a residual 2.0% interest in One Market Plaza. In addition, as part of the Formation Transactions, we also acquired the interests of certain unaffiliated third parties in 1633 Broadway, 31 West 52nd Street and 1301 Avenue of the Americas. These transactions were accounted for as transactions among entities under common control. However, since the assets that we acquired from our Predecessor are no longer held by funds which qualify for investment company accounting, we account for these assets following the Formation Transactions using historical cost accounting. As a result, our consolidated financial statements following the Formation Transactions, differ significantly from, and are not comparable with, the historical financial position and results of operations of our Predecessor.

Significant Accounting Policies

There were no material changes to our significant accounting policies disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

Segment Reporting

Upon completion of the Offering and Formation Transactions, we acquired substantially all of the assets of our Predecessor and substantially all of the assets of the Property Funds that it controlled. Our business, post the Formation Transactions, is comprised of one reportable segment. We have determined that our properties have similar economic characteristics to be aggregated into one reportable segment (operating, leasing and managing office properties). Our determination was based primarily on our method of internal reporting. Our Predecessor historically operated an integrated business that consisted of three reportable segments, (i) Owned Properties, (ii) Managed Funds and (iii) a Management Company. The Owned Properties segment consisted of properties in which our Predecessor had a direct or indirect ownership interest, other than properties that it owned through its private equity real estate funds. The Managed Funds segment consisted of the private equity real estate funds. In addition, our Predecessor included a Management Company that performed property management and asset management services and certain general and administrative level functions, including legal and accounting, as a separate reportable segment.

Recently Issued Accounting Literature

In May 2014, the FASB issued an update ("ASU 2014-09") Revenue from Contracts with Customers. ASU 2014-09 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most of the existing revenue recognition guidance. ASU 2014-09 requires an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services and also requires certain additional disclosures. ASU 2014-09 is effective for interim and annual reporting periods in fiscal years that

begin after December 15, 2016. We are currently evaluating the impact of the adoption of ASU 2014-09 on our consolidated financial statements.

In June 2014, the FASB issued an update (“ASU 2014-12”) to ASC Topic 718, Compensation – Stock Compensation. ASU 2014-12 requires an entity to treat performance targets that can be met after the requisite service period of a share based award has ended, as a performance condition that affects vesting. ASU 2014-12 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2015. We are currently evaluating the impact of the adoption of ASU 2014-12 on our consolidated financial statements.

In February 2015, the FASB issued an update (“ASU 2015-02”) Amendments to the Consolidation Analysis to ASC Topic 810, Consolidation. ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years that begin after December 15, 2015. We are currently evaluating the impact of the adoption of ASU 2015-02 on our consolidated financial statements.

In April 2015, the FASB issued an update (“ASU 2015-03”) Simplifying the Presentation of Debt Issuance Costs to ASC Topic 835, Interest – Imputation of Interest. ASU 2015-03 requires an entity to present debt issuance costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs is reported as interest expense. ASU 2015-03 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2015. The adoption of this update on January 1, 2016 will not have a material impact on our consolidated financial statements.

Revolving Credit Facility

As of June 30, 2015, there were no amounts outstanding under our senior unsecured revolving credit facility and \$200,000,000 was reserved under a letter of credit.

Interest Rate Swaps

We manage our market risk on variable rate debt by entering into swap agreements to fix the rate on all or a portion of the debt for varying periods through maturity. These interest rate swaps are derivative instruments that are designated as fair value hedges and are recorded on our balance sheet at fair value with changes in the fair value recognized through earnings. The following table summarizes our outstanding interest rate swaps.

7. Noncontrolling Interests

Consolidated Joint Ventures and Funds

Noncontrolling interests in consolidated joint ventures and funds consists of (i) equity interests in properties that are not wholly owned by us but are consolidated into our financial results because we exercise control over the entities that own such properties and (ii) equity interests in funds that are consolidated into our financial results because we are the sole general partner of such Funds. As of June 30, 2015 and December 31, 2014, noncontrolling interests in consolidated joint ventures and funds on our consolidated balance sheets aggregated \$703,596,000 and \$685,888,000, respectively.

Operating Partnership

Noncontrolling interests in the Operating Partnership represents common units of the Operating Partnership that are held by third parties, including management. Common units of the Operating Partnership may be tendered for redemption to the Operating Partnership for cash. We, at our option, may assume that obligation and pay the holder either cash or common shares on a one-for-one basis. Since the number of common shares outstanding is equal to the number of common units owned by us, the redemption value of each common unit is equal to the market value of each common share and distributions paid to each common unitholder is equivalent to dividends paid to common stockholders. As of June 30, 2015, noncontrolling interests in the Operating Partnership on our consolidated balance sheets had a carrying amount of \$904,683,000 and a redemption value of \$886,487,000.

8. Variable Interest Entities (“VIEs”)

As of June 30, 2015 and December 31, 2014, we held variable interests in PGRESS-A, PGRESS-H, Residential Fund Feeder and Fund VII-H, which were determined to be VIEs. We are required to consolidate our interests in these entities because we are deemed to be the primary beneficiary and have the power to direct the activities of the entity that most significantly affect economic performance and the obligation to absorb losses and right to receive benefits that could potentially be significant to the entity. The table below summarizes the assets and liabilities of these entities. The liabilities are secured only by the assets of the entities, and are non-recourse to us.

9. Fair Value Measurements

ASC 820, Fair Value Measurement and Disclosures, defines fair value and establishes a framework for measuring fair value. The objective of fair value is to determine the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). ASC 820 establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three levels: Level 1 – quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities; Level 2 – observable prices that are based on inputs not quoted in active markets, but corroborated by market data; and Level 3 – unobservable inputs that are used when little or no market data is available. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In determining fair value, we utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as consider counterparty credit risk in our assessment of fair value. Considerable judgment is necessary to interpret Level 2 and 3 inputs in determining the fair value of our financial and non-financial assets and liabilities. Accordingly, our fair value estimates, which are made at the end of each reporting period, may be different than the amounts that may ultimately be realized upon sale or disposition of these assets.

Financial Assets and Liabilities measured at Fair Value

Financial assets and liabilities that are measured at fair value on our consolidated balance sheets consists of (i) real estate fund investments, (ii) marketable securities (which represent the assets in our deferred compensation plan, for which there is a corresponding liability on our consolidated balance sheets) and (iii) interest rate swaps. The table below aggregates the fair values of these financial assets and liabilities at June 30, 2015 and December 31, 2014, based on their levels in the fair value hierarchy.

Property Funds

At June 30, 2015, the Property Funds had three investments. These investments are classified as Level 3. We obtain third party appraisals at least annually. We use a discounted cash flow valuation technique to estimate the fair value of each of these investments, which is updated quarterly by personnel responsible for the management of each investment and reviewed by senior management at each reporting period. The discounted cash flow valuation technique requires us to estimate cash flows for each investment over the anticipated holding period, which currently ranges from 1.0 to 10.0 years. Cash flows are derived from property rental revenue (base rents plus reimbursements) less operating expenses, real estate taxes and capital and other costs, plus projected sales proceeds in the year of exit. Property rental revenue is based on leases currently in place and our estimates for future leasing activity, which are based on current market rents for similar space. Similarly, estimated real estate taxes and operating expenses are based on amounts incurred in the current period plus a projected growth factor for future periods. Anticipated sales proceeds at the end of an investment's expected holding period are determined based on the net cash flow of the investment in the year of exit, divided by a terminal capitalization rate, less estimated selling costs. The fair value of each property is calculated by discounting future cash flows (including anticipated sales proceeds), using an appropriate discount rate. The fair value of the investment is calculated by subtracting property level debt, if any, from the fair value of the property.

Significant unobservable inputs used in determining the fair value of each investment include capitalization rates and discount rates. These rates are based on, among other factors, location and type of property. Significant unobservable quantitative inputs in the table below were utilized in determining the fair value of the Property Fund investments at June 30, 2015 and December 31, 2014.

| Unobservable Quantitative Input | As of June 30, 2015 | | As of December 31, 2014 | |
|---------------------------------|---------------------|---|-------------------------|---|
| | Range | Weighted average (based on fair value of investments) | Range | Weighted average (based on fair value of investments) |
| Discount rates | 7.00% | 7.00% | 6.50% - 7.25% | 6.83% |
| Terminal capitalization rates | 5.00% | - | 6.00% | 5.55% |
| | | | 5.50% - 6.00% | 5.72% |

The above inputs are subject to change based on changes in economic and market conditions and/or changes in use or timing of exit. Changes in discount rates and terminal capitalization rates result in increases, or decreases, in the fair

values of these investments. The discount rates encompass, among other things, uncertainties in the valuation models with respect to terminal capitalization rates and the amount and timing of cash flows. Therefore, a change in the fair value of these investments resulting from a change in the terminal capitalization rate may be partially offset by a change in the discount rate. Significant increases (decreases) in any of these inputs in isolation would result in a significantly lower (higher) fair value, respectively.

Alternative Investment Funds

At June 30, 2015, Alternative Investment Funds had investments in a mezzanine loan and preferred equity. These instruments are classified as Level 3. Estimates of the fair value of these instruments are determined by the standard practice of modeling the contractual cash flows required under the instrument and discounting them back to their present value at the appropriate current risk adjusted interest rate. The balances are updated quarterly by a third party and reviewed by senior management at each reporting period.

Significant unobservable inputs used in determining the fair value of these investments include credit spreads and preferred returns. Significant increases or decreases in any of these inputs in isolation would result in a significantly lower (higher) fair value, respectively. Significant unobservable quantitative inputs in the table below were utilized in determining the fair value of the investments in the Alternative Investment Funds at June 30, 2015 and December 31, 2014.

| Unobservable Quantitative Input | As of June 30, 2015 | | As of December 31, 2014 | |

| | Range | Weighted average (based on fair value of investments) | Range | Weighted average (based on fair value of investments) |

Interest Rate Swaps

Interest rate swaps are valued by a third-party specialist, based on a pricing model that incorporates market observable inputs for interest rate curves and unobservable inputs for credit spreads. The interest rate swaps are classified as Level 2 in the valuations hierarchy.

Financial Assets and Liabilities Not Measured at Fair Value

Financial assets not measured at fair value on our consolidated balance sheets consists of cash equivalents, and are classified as Level 1 as their carrying amount approximates their fair value, due to their short-term nature. Financial liabilities not measured at fair value include mortgages and notes payable. Estimates of the fair value of these instruments are determined by the standard practice of modeling the contractual cash flows required under the instrument and discounting them back to their present value at the appropriate current risk adjusted interest rate, which is provided by a third-party specialist. For floating rate debt, we use forward rates derived from observable market yield curves to project the expected cash flows we would be required to make under the instrument. These instruments are classified as Level 2.

13. Incentive Compensation

Stock Based Compensation

We account for all stock-based compensation in accordance with ASC 718, Compensation – Stock Compensation. As of June 30, 2015, we have 14,347,116 shares available for future grants under the Plan, if all awards granted are full value awards, as defined in the 2014 Equity Incentive Plan. Stock based compensation for the three and six months ended June 30, 2015 was \$1,370,000, and \$4,405,000, respectively, and includes \$1,861,000 of expense related to the acceleration of vesting of the stock awards in connection with a separation agreement and release in the six months ended June 30, 2015.

On April 1, 2015, the compensation committee (the “Compensation Committee”) of the board of directors approved the Company’s 2015 Performance Program (the “2015 Performance Program”), a multi-year performance-based equity compensation program. The purpose of the 2015 Performance Program is to further align the interests of the Company’s stockholders with that of management by encouraging the Company’s senior officers to create stockholder value in a “pay for performance” structure. Under the 2015 Performance Program, participants may earn awards in the form of LTIP Units of the Operating Partnership based on the Company’s total return to stockholders (“TRS”) over a three-year performance measurement period beginning on April 1, 2015 and continuing through March 31, 2018, on both an absolute basis and relative basis. One-half of the award is earned if the Company outperforms a predetermined absolute TRS and the other half is earned if the Company outperforms a predetermined relative TRS. Specifically, participants begin to earn awards under the 2015 Performance Program if the Company’s TRS for the performance measurement period equals or exceeds 21% on an absolute basis and exceeds the performance of the SNL Office REIT Index by 100 basis points on a relative basis, and awards will be fully earned if the Company’s TRS for the performance measurement period equals or exceeds 40% on an absolute basis and exceeds the performance of the SNL Office REIT Index by 700 basis points on a relative basis. Participants will not earn any awards under the 2015 Performance Program if the Company’s TRS during the performance measurement period does not meet these minimum thresholds. The number of LTIP Units that are earned if performance is above the minimum thresholds, but below the maximum thresholds, will be determined based on linear interpolation between the percentages earned at the minimum and maximum thresholds. During the performance measurement period, participants will receive only one-tenth of the dividends otherwise payable to the Company’s common stockholders with respect to their LTIP Units and the remaining dividends on their LTIP Units will accrue during the performance measurement period and will be paid to participants only if the LTIP Units are ultimately earned based on the achievement of the designated performance objectives.

If the designated performance objectives are achieved, awards earned under the 2015 Performance Program will also be subject to vesting based on continued employment with the Company through April 1, 2020, with 50% of each award vesting on the date the Compensation Committee determines the awards earned under the 2015 Performance Program following the conclusion of the performance period, and 25% vesting on each of April 1, 2019 and April 1, 2020.

Deferred Compensation

In connection with the Formation Transactions, we assumed a deferred compensation plan (the “1993 Plan”) from our Predecessor. The 1993 Plan permits certain management employees to defer certain percentages of their compensation, as defined. The assets of the 1993 Plan remain the sole property of the Company and are subject to the claims of its general creditors. The assets of the 1993 Plan are included in “marketable securities” and “restricted cash,” with an offsetting liability included in “other liabilities” on our consolidated balance sheets. Income from the mark-to-market of investments in our deferred compensation plan is included in “interest and other income” and this amount is entirely offset by expense from the mark-to-market of plan liabilities, which is included as a component of “general and administrative” expenses on our consolidated statements of income.

The 1993 Plan had a balance of \$29,829,000 and \$28,148,000 as of June 30, 2015 and December 31, 2014, respectively.

15. Related Party
Due to Affiliates

As of June 30, 2015 and December 31, 2014, we had an aggregate of \$27,299,000 of liabilities that were due to affiliates. These liabilities were comprised of a \$24,500,000 note payable to CNBB-RDF Holdings, LP, which is an entity owned by Maren Otto, Katharina Otto-Bernstein and Alexander Otto, and a \$2,799,000 million note payable to a different entity owned by members of the Otto family, both of which were made in lieu of certain cash distributions prior to the completion of the Formation Transactions. The notes are due in October 2017 and bear interest at a fixed rate of 0.50%.

16. Commitments and Contingencies

Insurance

We carry commercial general liability coverage on our properties, with limits of liability customary within the industry. Similarly, we are insured against the risk of direct and indirect physical damage to our properties including coverage for the perils of flood and earthquake shock. Our policies also cover the loss of rental income during an estimated reconstruction period. Our policies reflect limits and deductibles customary in the industry and specific to the buildings and portfolio. We also obtain title insurance policies when acquiring new properties. We currently have coverage for losses incurred in connection with both domestic and foreign terrorist-related activities. While we do carry commercial general liability insurance, property insurance and terrorism insurance with respect to our properties, these policies include limits and terms we consider commercially reasonable. In addition, there are certain losses (including, but not limited to, losses arising from known environmental conditions or acts of war) that are not insured, in full or in part, because they are either uninsurable or the cost of insurance makes it, in our belief, economically impractical to maintain such coverage. Should an uninsured loss arise against us, we would be required to use our own funds to resolve the issue, including litigation costs. We believe the policy specifications and insured limits are adequate given the relative risk of loss, the cost of the coverage and industry practice and, in the opinion of our management, the properties in our portfolio are adequately insured.

Other Commitments and Contingencies

We are a party to various claims and routine litigation arising in the ordinary course of business. Some of these claims or others to which we may be subject from time to time, including claims arising specifically from the Formation Transactions, may result in defense costs, settlements, fines or judgments against us, some of which are not, or cannot be, covered by insurance. Payment of any such costs, settlements, fines or judgments that are not insured could have an adverse impact on our financial position and results of operations. Should any litigation arise in connection with the Formation Transactions, we would contest it vigorously. In addition, certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage, which could adversely impact our results of operations and cash flow, expose us to increased risks that would be uninsured, and/or adversely impact our ability to attract officers and directors.

The terms of our mortgage debt and certain side letters in place include certain restrictions and covenants which may limit, among other things, certain investments, the incurrence of additional indebtedness and liens and the disposition or other transfer of assets and interests in the borrower and other credit parties, and requires compliance with certain

debt yield, debt service coverage and loan to value ratios. In addition, our senior unsecured revolving credit facility contains representations, warranties, covenants, other agreements and events of default customary for agreements of this type with comparable companies. As of June 30, 2015, we believe we are in compliance with all of our covenants.

718 Fifth Avenue - Put Right

Prior to the Formation Transactions, an affiliate of our Predecessor owned a 25.0% interest in 718 Fifth Avenue, a five-story building containing 19,050 square feet of prime retail space that is located on the southwest corner of 56th Street and Fifth Avenue in New York, (based on its 50.0% interest in a joint venture that held a 50.0% tenancy-in-common interest in the property). Prior to the completion of the Formation Transactions, this interest was sold to its partner in the 718 Fifth Avenue joint venture, who is also our partner in the joint venture that owns 712 Fifth Avenue, New York, New York. In connection with this sale, we granted our joint venture partner a put right, pursuant to which the 712 Fifth Avenue joint venture would be required to purchase the entire direct or indirect interests held by our joint venture partner or its affiliates in 718 Fifth Avenue at a purchase price equal to the fair market value of such interests. The put right may be exercised at any time after the four-year anniversary of the sale of its interest in 718 Fifth Avenue upon 12 months written notice with the actual purchase occurring no earlier than the five-year anniversary of the sale of its interest in 718 Fifth Avenue. If the put right is exercised and the 712 Fifth Avenue joint venture acquires the 50.0% tenancy-in-common interest in the property that will be held by our joint venture partner following the sale of its interest to our joint venture partner, we will own a 25.0% interest in 718 Fifth Avenue.

17. Segments Disclosure

The Company

Upon completion of the Offering and Formation Transactions, we acquired substantially all of the assets of our Predecessor and substantially all of the assets of the Property Funds that it controlled. Our business, following the Formation Transactions, is comprised of one reportable segment. We have determined that our properties have similar economic characteristics to be aggregated into one reportable segment (operating, leasing and managing office properties). Our determination was based, in part, on our method of internal reporting.

The following tables provide selected results for each reportable segment for the three and six months ended June 30, 2015 and 2014.

⁽¹⁾ Net Operating Income (“NOI”) is a metric we use to measure the operating performance of our properties, and consists of property-related revenue (which includes rental revenue, tenant reimbursement income and certain other

income) less operating expenses (which includes building expenses such as cleaning, security, repairs and maintenance, utilities, property administration and real estate taxes). We use NOI internally as a performance measure and believe it provides useful information to investors regarding our financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level. Other real estate companies may use different methodologies for calculating NOI, and accordingly, our presentation of NOI may not be comparable to other real estate companies.

The Predecessor

Our Predecessor historically operated an integrated business that consisted of three reportable segments, (i) Owned Properties, (ii) Managed Funds and (iii) a Management Company. The Owned Properties segment consisted of properties in which our Predecessor had a direct or indirect ownership interest, other than properties that it owned through its private equity real estate funds. The Managed Funds segment consisted of the private equity real estate funds. In addition, our Predecessor included a Management Company that performed property management and asset management services and certain general and administrative level functions, including legal and accounting, as a separate reportable segment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the combined consolidated financial statements of that of our Predecessor, including the related notes included therein.

Forward-Looking Statements

We make statements in this Quarterly Report on Form 10-Q that are considered "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, which are usually identified by the use of words such as "anticipates," "believes," "estimates," "expects," "intends," "may," "plans," "projects," "seeks," "should," "will," and such words or similar expressions. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and are including this statement for purposes of complying with those safe harbor provisions. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, we can give no assurance that the plans, intentions, expectations or strategies will be attained or achieved. Furthermore, actual results may differ materially from those described in the forward-looking statements and will be affected by a variety of risks and factors that are beyond our control including, without limitation:

- unfavorable market and economic conditions in the United States and globally and in New York City, Washington, D.C. and San Francisco;
- risks associated with our high concentrations of properties in New York City, Washington, D.C., and San Francisco;
- risks associated with ownership of real estate;
- decreased rental rates or increased vacancy rates;
- the risk we may lose a major tenant;
- limited ability to dispose of assets because of the relative illiquidity of real estate investments;
- intense competition in the real estate market that may limit our ability to attract or retain tenants or re-lease space;
- insufficient amounts of insurance;
- uncertainties and risks related to adverse weather conditions, natural disasters and climate change;
- risks associated with actual or threatened terrorist attacks;
- exposure to liability relating to environmental and health and safety matters;
- high costs associated with compliance with the Americans with Disabilities Act;
- failure of acquisitions to yield anticipated results;
- risks associated with real estate activity through our joint ventures and private equity real estate funds;
- general volatility of the capital and credit markets and the market price of our common stock;
- exposure to litigation or other claims;
- loss of key personnel;
- risks associated with breaches of our data security;
- risks associated with our substantial indebtedness;
- failure to refinance current or future indebtedness on favorable terms, or at all;
- failure to meet the restrictive covenants and requirements in our existing debt agreements;

- fluctuations in interest rates and increased costs to refinance or issue new debt;
- risks associated with derivatives or hedging activity;
- risks associated with high mortgage rates or the unavailability of mortgage debt which make it difficult to finance or refinance properties and could subject us to foreclosure;
- risks associated with future sales of our common stock by our continuing investors or the perception that our continuing investors intend to sell substantially all of the shares of our common stock that they hold;
- risks associated with the market for our common stock;
- failure to qualify as a REIT;
- compliance with REIT requirements, which may cause us to forgo otherwise attractive opportunities or liquidate certain of our investments; or
- any of the other risks included in this Quarterly Report on Form 10-Q or in our Annual Report on Form 10-K for the year ended December 31, 2014, including those set forth in Item 1A entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2014.

Accordingly, there is no assurance that our expectations will be realized. Except as otherwise required by the U.S. federal securities laws, we disclaim any obligations or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. The reader should review carefully our financial statements and the notes thereto, as well as Item 1A entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2014.

Overview

We are a fully-integrated real estate investment trust (“REIT”) focused on owning, operating, managing, acquiring and redeveloping high-quality, Class A office properties in select central business district submarkets of New York City, Washington, D.C. and San Francisco. We conduct our business through, and substantially all of our interests are held by, Paramount Group Operating Partnership LP, a Delaware limited partnership (the “Operating Partnership”). We are the sole general partner of, and owned approximately 80.4% of, the Operating Partnership as of June 30, 2015.

We were incorporated in Maryland as a corporation on April 14, 2014 to continue the business of our Predecessor, as defined, and did not have any meaningful operations until the acquisition of substantially all of the assets of our Predecessor and assets of the Property Funds, as defined, that it controlled, as well as the interests of unaffiliated third parties in certain properties. Our properties were acquired through a series of Formation Transactions (the “Formation Transactions”) concurrently with our initial public offering of 150,650,000 common shares at a public offering price of \$17.50 per share on November 24, 2014 (the “Offering”).

Objectives and Strategy

Our primary business objective is to enhance shareholder value by increasing cash flow from operations. The strategies we intend to execute to achieve this objective include:

- Leasing available vacant space;
- Releasing space that is at below-market rents;
- Maintaining a disciplined acquisition strategy focused on owning and operating Class A office properties in select central business district submarkets of New York City, Washington, D.C. and San Francisco;
- Redeveloping and repositioning properties to increase returns; and
- Proactively managing our portfolio to increase occupancy and rental rates.

Financial Results

Three Months Ended June 30, 2015

Net loss attributable to common shareholders was \$4,709,000, or \$0.02 per diluted share, for the three months ended June 30, 2015.

Core funds from operations (“Core FFO”) attributable to common shareholders for the three months ended June 30, 2015, was \$46,315,000, or \$0.22 per diluted share, including \$4,709,000 of carried interest from fund investments. Core FFO attributable to common shareholders for the three months ended June 30, 2015 excludes certain “non-core” items that affect comparability, which are listed in the table below. The aggregate of these items, net of amounts attributable to noncontrolling interests, increased FFO attributable to common shareholders by \$6,348,000, or \$0.03 per diluted share. FFO attributable to common shareholders for the three months ended June 30, 2015, which includes the impact of these items, was \$52,663,000, or \$0.25 per diluted share.

Six Months Ended June 30, 2015

Net loss attributable to common shareholders was \$14,440,000, or \$0.07 per diluted share, for the six months ended June 30, 2015.

Core FFO attributable to common shareholders for the six months ended June 30, 2015, was \$85,278,000, or \$0.40 per diluted share, including \$5,106,000, or \$0.02 per diluted share, of carried interest from fund investments. Core FFO attributable to common shareholders for the six months ended June 30, 2015, excludes certain “non-core” items that affect comparability, which are listed in the table below. The aggregate of these items, net of amounts attributable to noncontrolling interests, increased FFO attributable to common shareholders by \$10,702,000, or \$0.05 per diluted share. FFO attributable to common shareholders for the six months ended June 30, 2015, which includes the impact of these items, was \$95,980,000, or \$0.45 per diluted share.

Portfolio Operations and Leasing Activity

As of June 30, 2015, our portfolio consisted of 12 Class A office properties aggregating approximately 10.4 million square feet that was 94.8% leased.

During the three months ended June 30, 2015, we leased 199,972 square feet at a weighted average initial rent of \$71.84 per square foot. This leasing activity, offset by lease expirations during the three months, increased portfolio wide occupancy by 20 basis points from March 31, 2015. Of the 199,972 square feet leased in the three months, 138,232 square feet represent second generation space (space that has been vacant for less than twelve months) for which we achieved rental rate increases of 15.4% on a cash basis and 19.0 % on a GAAP basis. The weighted average lease term for leases signed during the three months was 11.1 years and tenant improvements and leasing commissions on these leases were \$7.38 per square foot per annum, or 10.3% of initial rent.

The following table presents additional details on the leases signed during the three months ended June 30, 2015 and is not intended to coincide with the commencement of rental revenue in accordance with accounting principles generally accepted in the United States of America ("GAAP").

During the six months ended June 30, 2015, we leased 355,800 square feet at a weighted average initial rent of \$73.67 per square foot. This leasing activity, offset by lease expirations during the six months, increased portfolio wide occupancy by 90 basis points from December 31, 2014. Of the 355,800 square feet leased during the six months, 161,962 square feet represent second generation space for which we achieved rental rate increases of 15.7% on a cash basis and 18.3% on a GAAP basis. The weighted average lease term for leases signed during the six months was 12.6 years and tenant improvements and leasing commissions on these leases were \$7.61 per square foot per annum, or 10.3% of initial rent.

The following table presents additional details on the leases signed during the six months ended June 30, 2015 and is not intended to coincide with the commencement of rental revenue in accordance with GAAP.

Critical Accounting Policies

There were no material changes to our critical accounting policies disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

Segment Reporting

Upon completion of the Offering and Formation Transactions, we acquired substantially all of the assets of our Predecessor and substantially all of the assets of the Property Funds that it controlled. Our business, following the Formation Transactions, is comprised of one reportable segment. We have determined that our properties have similar economic characteristics to be aggregated into one reportable segment (operating, leasing and managing office properties). Our determination was based primarily on our method of internal reporting.

Our Predecessor historically operated an integrated business that consisted of three reportable segments, (i) Owned Properties, (ii) Managed Funds and (iii) a Management Company. The Owned Properties segment consisted of properties in which our Predecessor had a direct or indirect ownership interest, other than properties that it owned through its private equity real estate funds. The Managed Funds segment consisted of the private equity real estate funds. In addition, our Predecessor included a Management Company that performed property management and asset management services and certain general and administrative level functions, including legal and accounting, as a separate reportable segment.

Recently Issued Accounting Literature

In May 2014, the FASB issued an update (“ASU 2014-09”) Revenue from Contracts with Customers. ASU 2014-09 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most of the existing revenue recognition guidance. ASU 2014-09 requires an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services and also requires certain additional disclosures. ASU 2014-09 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2016. We are currently evaluating the impact of the adoption of ASU 2014-09 on our consolidated financial statements.

In June 2014, the FASB issued an update (“ASU 2014-12”) to ASC Topic 718, Compensation – Stock Compensation. ASU 2014-12 requires an entity to treat performance targets that can be met after the requisite service period of a share based award has ended, as a performance condition that affects vesting. ASU 2014-12 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2015. We are currently evaluating the impact of the adoption of ASU 2014-12 on our consolidated financial statements.

In February 2015, the FASB issued an update (“ASU 2015-02”) Amendments to the Consolidation Analysis to ASC Topic 810, Consolidation. ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years that begin after December 15, 2015. We are currently evaluating the impact of the adoption of ASU 2015-02 on our consolidated financial statements.

In April 2015, the FASB issued an update (“ASU 2015-03”) Simplifying the Presentation of Debt Issuance Costs to ASC Topic 835, Interest – Imputation of Interest. ASU 2015-03 requires an entity to present debt issuance costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset. Amortization of the costs is reported as interest expense. ASU 2015-03 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2015. The adoption of this update on January 1, 2016 will not have a material impact on our consolidated financial statements.

Results of Operations

The following pages summarize our consolidated results of operations for the three and six months ended June 30, 2015 and the combined consolidated historical results of operations of our Predecessor for the three and six months ended June 30, 2014.

As noted above, the acquisition of the properties from our Predecessor, was accounted for as transactions among entities under common control. However, since the assets that we acquired from our Predecessor are no longer held by funds which qualify for investment company accounting, we account for these assets following the Formation Transactions using consolidated historical cost accounting. As a result, our consolidated financial statements following the Formation Transactions differ significantly from, and are not comparable with, the historical financial position and results of operations of our Predecessor.

Liquidity and Capital Resources

Our primary sources of liquidity include existing cash balances, cash flow from operations and borrowings available under our \$1.0 billion senior unsecured revolving credit facility, which could be increased to \$1.250 billion, subject to certain conditions. We expect that these sources will provide adequate liquidity over the next 12 months for all anticipated needs, including scheduled principal and interest payments on our outstanding indebtedness, existing and anticipated capital improvements, the cost of securing new and renewal leases, dividends to shareholders and distributions to unitholders, and all other capital needs related to the operations of our business. We anticipate that our long-term needs including debt maturities and the acquisition of additional properties will be funded by operating cash flow, mortgage financings and/or re-financings, and the issuance of long-term debt or equity.

Although we may be able to anticipate and plan for certain of our liquidity needs, unexpected increases in uses of cash that are beyond our control and which affect our financial condition and results of operations may arise, or our sources of liquidity may be fewer than, and the funds available from such sources may be less than, anticipated or required.

Liquidity

As of June 30, 2015, we had \$438,088,000 of cash and cash equivalents and \$800,000,000 of borrowing capacity under our revolving credit facility, net of \$200,000,000, which has been reserved under a letter of credit. At June 30, 2015, our outstanding consolidated debt aggregated \$2.853 billion. None of this debt matures in 2015 and \$926,260,000 matures in December 2016. We may refinance our maturing debt when it comes due or refinance or prepay it early depending on prevailing market conditions, liquidity requirements and other factors. The amounts involved in connection with these transactions could be material to our consolidated financial statements.

Dividend Policy

On May 21, 2015, we declared a regular quarterly cash dividend of \$0.095 per share of common stock for the second quarter ending June 30, 2015, payable on July 15, 2015 to stockholders of record as of the close of business on June 30, 2015. This dividend policy, if continued, would require us to pay out approximately \$25,000,000 each quarter to common stockholders and unitholders.

Development and Redevelopment Expenditures

We are in the process of redeveloping the lobby and retail space at One Market Plaza, including new entrances along Spear, Steuart and Mission streets as well as public seating. The project, which is expected to be completed by the fall of 2015, is estimated to cost approximately \$25,000,000, of which \$11,234,000 has been expended as of June 30, 2015.

We are also in the process of redeveloping the public plaza at 1633 Broadway. The project, which is expected to be completed by the fourth quarter of 2016, is estimated to cost approximately \$15,000,000.

Off Balance Sheet Arrangements

As of June 30, 2015, our unconsolidated joint ventures had \$270,514,000 of outstanding indebtedness, of which our share was \$125,531,000. We do not guarantee the indebtedness of unconsolidated joint ventures other than providing customary environmental indemnities and guarantees of specified non-recourse carveouts relating to specified covenants and representations; however, we may elect to fund additional capital to a joint venture through equity contributions (generally on a basis proportionate to our ownership interests), advances or partner loans in order to enable the joint venture to repay this indebtedness upon maturity.

Insurance

We carry commercial general liability coverage on our properties, with limits of liability customary within the industry. Similarly, we are insured against the risk of direct and indirect physical damage to our properties including coverage for the perils of flood and earthquake shock. Our policies also cover the loss of rental income during an estimated reconstruction period. Our policies reflect limits and deductibles customary in the industry and specific to the buildings and portfolio. We also obtain title insurance policies when acquiring new properties. We currently have coverage for losses incurred in connection with both domestic and foreign terrorist-related activities. While we do carry commercial general liability insurance, property insurance and terrorism insurance with respect to our properties, these policies include limits and terms we consider commercially reasonable. In addition, there are certain losses (including, but not limited to, losses arising from known environmental conditions or acts of war) that are not insured, in full or in part, because they are either uninsurable or the cost of insurance makes it, in our belief, economically impractical to maintain such coverage. Should an uninsured loss arise against us, we would be required to use our own funds to resolve the issue, including litigation costs. We believe the policy specifications and insured limits are adequate given the relative risk of loss, the cost of the coverage and industry practice and, in the opinion of our management, the properties in our portfolio are adequately insured.

Other Commitments and Contingencies

We are a party to various claims and routine litigation arising in the ordinary course of business. Some of these claims or others to which we may be subject from time to time, including claims arising specifically from the Formation Transactions, may result in defense costs, settlements, fines or judgments against us, some of which are not, or cannot be, covered by insurance. Payment of any such costs, settlements, fines or judgments that are not insured could have an adverse impact on our financial position and results of operations. Should any litigation arise in connection with the Formation Transactions, we would contest it vigorously. In addition, certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage, which could adversely impact our results of operations and cash flow, expose us to increased risks that would be uninsured and/or adversely impact our ability to attract officers and directors.

The terms of our mortgage debt and certain side letters in place include certain restrictions and covenants which may limit, among other things, certain investments, the incurrence of additional indebtedness and liens and the disposition or other transfer of assets and interests in the borrower and other credit parties, and requires compliance with certain debt yield, debt service coverage and loan to value ratios. In addition, our senior unsecured revolving credit facility contains representations, warranties, covenants, other agreements and events of default customary for agreements of this type with comparable companies. As of June 30, 2015, we believe we are in compliance with all of our covenants.

Inflation

Substantially all of our leases provide for separate real estate tax and operating expense escalations. In addition, many of the leases provide for fixed base rent increases. We believe inflationary increases in expenses may be at least partially offset by the contractual rent increases and expense escalations described above. We do not believe inflation

has had a material impact on our historical financial position or results of operations.

Cash Flows

As noted above, we no longer account for the assets that we acquired from the private equity real estate funds that our Predecessor controlled under investment company accounting. Instead, we account for these assets using either consolidated historical cost accounting or the equity method. Moving from investment company accounting to consolidated historical cost accounting or the equity method resulted in a significant change in the classification of our cash flows. For example, the purchase and sale of underlying investments by our private equity real estate funds that utilize investment company accounting are treated as an operating activity and such purchases and sales are shown net of any related mortgage debt entered into upon acquisition or repaid upon sale. Purchases and sales that we engage in directly or through our consolidated subsidiaries other than these funds are treated as investing activities and any related mortgage debt entered into upon acquisition or repaid upon sale is treated as financing activities. Furthermore, all other property-level debt activity relating to properties owned by these funds is currently treated as operating activity, whereas debt activity engaged in directly or through our consolidated subsidiaries other than these funds is treated as financing activity. In addition, the net income of our Predecessor currently reflects significant unrealized gains or losses relating to properties owned by these funds. Any unrealized gains or losses are reversed to arrive at net cash flow provided by or used in operating activities. Gains or losses arising from sales of properties owned by us directly or through our consolidated subsidiaries will only be recognized by us when realized. The proceeds of such sales will be reflected in net cash provided by investing activities.

The Company – Six Months Ended June 30, 2015

Cash and cash equivalents were \$438,088,000 and \$438,599,000, at June 30, 2015 and December 31, 2014, respectively, a decrease of \$511,000. The following table sets forth the changes in cash flow.

| | Six Months Ended June 30, 2015 |

| Net cash provided by (used in): | |
| Operating activities | \$62,326 |
| Investing activities | (32,364) |
| Financing activities | (30,473) |

Operating Activities

Six months ended June 30, 2015 – We generated \$62,326,000 of cash from operating activities for the six months ended June 30, 2015, primarily from \$76,283,000 of net income before noncash adjustments and \$1,993,000 of distributions from unconsolidated joint ventures, partially offset by \$15,950,000 from net changes in operating assets and liabilities. Noncash adjustments of \$84,562,000 were primarily comprised of depreciation and amortization,

straight-lining of rental income, unrealized gain on interest rate swaps and changes in operating assets and liabilities was primarily due to additions to deferred charges.

Investing Activities

Six months ended June 30, 2015 – We used \$32,364,000 of cash for investing activities for the six months ended June 30, 2015, primarily due to additions to rental properties of \$41,914,000, partially offset by a decrease in restricted cash of \$9,550,000.

Financing Activities

Six months ended June 30, 2015 – We used \$30,473,000 of cash for financing activities for the six months ended June 30, 2015, primarily due to the payments of dividends to common shareholders and unitholders of \$35,325,000 and distributions to noncontrolling interests of \$5,673,000, partially offset by contributions from noncontrolling interests of \$11,203,000.

Predecessor

Cash and cash equivalents were \$173,757,000 and \$307,161,000 at June 30, 2014 and December 31, 2013, respectively, a decrease of \$133,404,000 for the three months ended June 30, 2014. The following table sets forth the changes in cash flow.

| | Six Months Ended June 30, 2014 |
|---------------------------------|--|

| Net cash provided by (used in): | |
| Operating activities | \$(162,501) |
| Investing activities | (64,075) |
| Financing activities | 93,172 |

Operating Activities

Six months ended June 30, 2014 – Our Predecessor used \$162,501,000 of cash for operating activities for the six months ended June 30, 2014, primarily to fund real estate fund investments aggregating \$164,181,000.

Investing Activities

Six months ended June 30, 2014 – Our Predecessor used \$64,075,000 of cash for investing activities for the six months ended June 30, 2014. This was primarily due to a \$64,650,000 acquisition by a consolidated private equity fund, which is accounted under the historical cost accounting rather than Investment Company accounting.

Financing Activities

Six months ended June 30, 2014 – Our Predecessor generated \$93,172,000 of cash from financing activities for the three months ended June 30, 2014 primarily from contributions from noncontrolling interests aggregating \$86,621,000 and loans issued by noncontrolling interests of \$39,075,000, partially offset by an distributions to Predecessor

shareholders of \$21,070,000 and offering costs of \$9,577,000.

Non-GAAP Financial Measures

We use and present NOI, Cash NOI, FFO and Core FFO, as supplemental measures of our performance. The summary below describes our use of these measures, provides information regarding why we believe these measures are meaningful supplemental measures of our performance and reconciles these measures from net income or loss, the most directly comparable GAAP measure.

Net Operating Income (“NOI”)

NOI is a metric we use to measure the operating performance of our properties, and consists of property-related revenue (which includes rental revenue, tenant reimbursement income and certain other income) less operating expenses (which includes building expenses such as cleaning, security, repairs and maintenance, utilities, property administration and real estate taxes). We also present Cash NOI, which deducts from NOI, straight-line rent adjustments and the amortization of above and below-market leases, including our share of such adjustments of unconsolidated joint ventures. In addition, we present our pro rata share of NOI and Cash NOI, which represents our share of NOI and Cash NOI of consolidated and unconsolidated joint ventures, based on our percentage ownership in the underlying assets. We use these metrics internally as performance measures and believe they provide useful information to investors regarding our financial condition and results of operations because they reflect only those income and expense items that are incurred at the property level. Other real estate companies may use different methodologies for calculating NOI and Cash NOI, and accordingly, our presentation of NOI and Cash NOI may not be comparable to other real estate companies.

The following table presents a reconciliation of net income (loss) to NOI and Cash NOI.

Funds from Operations (“FFO”) and Core Funds from Operations (“Core FFO”)

FFO is a supplemental measure of our performance. We present FFO in accordance with the definition adopted by National Association of Real Estate Investment Trusts, (“NAREIT”). NAREIT defines FFO as GAAP net income or loss adjusted to exclude net gains from sales of depreciated real estate assets, impairment losses on depreciable real estate and depreciation and amortization expense from real estate assets, including the pro rata share of such adjustments of unconsolidated joint ventures. FFO is commonly used in the real estate industry to assist investors and analysts in comparing results of real estate companies because it excludes the effect of real estate depreciation and amortization and net gains on sales, which are based on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions. In addition, we present Core FFO as an alternative measure of our operating performance, which adjusts FFO for certain other items that we believe enhance the comparability of our FFO across periods. Core FFO, when applicable, excludes the impact of acquisition, transaction and formation related costs, unrealized gains or losses on interest rate swaps, severance costs and defeasance and debt breakage costs, in order to reflect the Core FFO of our real estate portfolio and operations. In future periods, we may also exclude other items from Core FFO that we believe may help investors compare our results.

FFO and Core FFO are presented as supplemental financial measures and do not fully represent our operating performance. Other REITs may use different methodologies for calculating FFO and Core FFO or use other definitions of FFO and Core FFO and, accordingly, our presentation of these measures may not be comparable to other real estate companies. Neither FFO nor Core FFO is intended to be a measure of cash flow or liquidity. Please refer to our financial statements, prepared in accordance with GAAP, for purposes of evaluating our financial condition, results of operations and cash flows.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss from adverse changes in market prices and interest rates. Our future earnings, cash flows and fair values relevant to financial instruments are dependent upon prevalent market interest rates. Our primary market risk results from our indebtedness, which bears interest at both fixed and variable rates. We manage our market risk on variable rate debt by entering into swap arrangements with the lender to effectively fix the rate on all or a portion of the debt for varying periods up to maturity. This in turn, reduces the risks of variability of cash flows created by variable rate debt and mitigates the risk of increases in interest rates. Our objective when undertaking such arrangements is to reduce our floating rate exposure and we do not enter into hedging arrangements for speculative purposes. Subject to maintaining our status as a REIT for Federal income tax purposes, we may utilize swap arrangements in the future.

The following table summarizes our total consolidated indebtedness and the effect to interest expense of a 100 basis point increase in LIBOR.

As of June 30, 2015, our interest rate swaps had a fair value that resulted in a net liability of \$160,473,000.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and regulations. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of June 30, 2015, the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, regarding the effectiveness of our disclosure controls and procedures at the end of the period covered by this Report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded, as of that time, that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in reports filed or submitted under the Exchange Act is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting in connection with the evaluation referenced above that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are a party to various claims and routine litigation arising in the ordinary course of business. As of June 30, 2015, we do not believe that the results of any such claims or litigation, individually or in the aggregate, will have a material adverse effect on our business, financial position, results of operations or cash flows.

ITEM 1A. RISK FACTORS

There were no material changes to the Risk Factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.
