Mainstream Entertainment, Inc. Notes to Financial Statements (unaudited)

NOTE 1 NATURE OF OPERATIONS

Mainstream Entertainment, Inc. (f/k/a Skreem Studios, Inc and Skreem Studios LLC)(the Company) was formed on October 7, 2005 as a limited liability company with the beneficial interest held by two of the Company s shareholders, Jeffrey Martin and Tony Harrison. The Company initiated pre-commencement activity in May 2006, renting a studio facility, acquiring equipment, building out two studios and incurring other pre-operational expenses. On April 1, 2007, the Company was acquired by Insight Management Corporation (f/k/a Skreem Records Corporation) under the purchase method and commenced business operations.

On June 27, 2008, the majority stockholders authorized a name and entity change from Skreem Studios, LLC to Skreem Studios, Inc. On July 1, 2008, Insight Management Corporation commenced a reverse spin-off of Skreem Studios, Inc., whereby the shareholders of record received one share of Skreem Studios, Inc. for each share owned of Insight Management. On August 2, 2010, the Board of Directors authorized a name change from Skreem Studios, Inc. to Mainstream Entertainment, Inc. The financial statements report activity of the Company from its inception on October 7, 2005.

The Company s business is the operation of a recording studio. The Company plans to generate revenue by providing the facility and related recording services. The Company leased two studio facilities located at 7648 Southland Boulevard, Orlando, Florida, Suite/Studio 104 and Suite/Studio 105. On April 15, 2009 the Board of Directors decided to suspend operations with the intention of resuming at a different location at a future date. The Company resumed operations on December 15, 2011 from the receipt of additional funding.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Company have been prepared utilizing the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America. Under this method, revenues are recognized when earned and expenses are recorded when liabilities are incurred.

Revenue Recognition

Revenue is recognized when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when persuasive evidence of an arrangement exists, services have been provided, the price is fixed or determinable, and collectability is reasonably assured. Revenue that is billed in advance such as recurring weekly or monthly services are initially deferred and recognized as revenue over the period the services are provided. At December 31, 2011, no significant revenue has been recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Concentrations of Risk

The rental of professional recording studios and provision of related services is highly competitive, with over a dozen studios operating in the metropolitan Orlando area. Major factors that contribute to success are quality, convenience, service and price. The cost of providing high quality service includes the acquisition of technologically current equipment in an environment that is built to provide good acoustics, which makes it difficult to compete with price. There can be no assurance that the Company will be able to compete against the established studios, particularly in the current economic environment in which there is downward price pressure. This competition may adversely affect the Company's business, results of operations and financial condition.

The Company's performance will be substantially dependent on the performance of its executive officer and engineer, Justin Martin and Charles Camorata. The loss of the services of its executive officer or key employee, particularly in the early stages of operation and development, could have a material effect on its business, results of operations or financial condition. The Company does not maintain key man life insurance covering either of them.

The Company's financing of cash flows is dependent on loans from its principal shareholder. The loss of this funding could have a material effect on its business, results of operations and financial condition.

The Company's executive officers and key shareholders control approximately 94% of the Company's outstanding Common Stock. Accordingly, the Company's executive officers and several key shareholders hold significant influence over the Company on matters submitted to the stockholders for approval, including the election of directors, mergers, consolidations, the sale of all or substantially all of its assets, and also the power to prevent or cause a change in control.

The Company's growth and continued operations could be impaired by limitations on access to capital markets. If the market for securities were to weaken for an extended period of time, the Company's ability to raise capital will be substantially reduced. Even if the market for securities were not to weaken, there is no assurance that a market for the Company's stock will exist in the future.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. As December 31, 2011 and September 30, 2011, there were no cash equivalents.

Prepaid Expenses

Prepaid expenses are advance payments for products or services that will be used in operations during the next twelve months.

Development Stage Company

The Company complies with FASB Pronouncements for its characterization of the Company as development stage.

Property, Equipment, and Improvements

Property and equipment are stated at cost less accumulated depreciation and valuation adjustments. Major additions and improvements are capitalized, and routine expenditures for repairs and maintenance are charged to expense as incurred. Fully depreciated assets are carried on the books until the date of disposal. Property sold or retired, and the

related gain or loss, if any, is taken into income currently. Property that costs less than \$500 is expensed as incurred.

Depreciation and Amortization

Depreciation is calculated according to the straight-line method over the estimated useful lives of the respective assets, which range from three to seven years for equipment and furnishings and over the life of the lease for leasehold improvements.

Impairment of Long Lived Assets

Long-lived assets are reviewed for impairment in accordance with the applicable FASB standard, "Accounting for the Impairment or Disposal of Long-lived Assets". Under the standard, long-lived assets are tested for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. An impairment charge is recognized for the amount, if any, which the carrying value of the asset exceeds the fair value.

Fair Value Measurements

On January 1, 2008, the Company adopted ASC No. 820-10 (ASC 820-10), Fair Value Measurements. ASC 820-10 relates to financial assets and financial liabilities.

ASC 820-10 defines fair value, establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America (GAAP), and expands disclosures about fair value measurements. The provisions of this standard apply to other accounting pronouncements that require or permit fair value measurements and are to be applied prospectively with limited exceptions.

ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This standard is now the single source in GAAP for the definition of fair value, except for the fair value of leased property. ASC 820-10 establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs), and (2) an entity's own assumptions, about market participant assumptions, that are developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820-10 are described below:

Level 1. Observable inputs such as quoted prices in active markets;

Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company values its fixed assets at their fair value if impairment is identified in accordance with the applicable FASB standard. The inputs that are used in determining the fair value of these assets are Level 3 inputs. These inputs consist of but are not limited to the following: estimates of prices for similar assets according to web markets such as ebay, estimates of the condition of the property, and estimates of the costs to get the assets ready for sale. There were no impairment indicators as of December 31, 2011. No assets were re-valued at fair value on a recurring or non-recurring basis as of December 31, 2011.

Income Taxes

The Company accounts for income taxes under the applicable Financial Accounting Standards Board of Financial Accounting Standard, "Accounting for Income Taxes". Under the standard, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax base. Current income tax provisions are made based on taxable income reported to federal and state taxing authorities. Deferred tax assets, including tax loss and credit carryforwards, and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. As of December 31, 2011 and September 30, 2011, there were no current or deferred income tax expense or benefits.

For income tax reporting purposes, the Company uses accounting methods that recognize depreciation sooner than for financial statement reporting. As a result, the basis of property and equipment for financial reporting exceeds its tax basis by the cumulative amount that accelerated depreciation exceeds straight-line depreciation. Deferred income taxes have been recorded for the excess, which will be taxable in future periods through reduced depreciation deductions for tax purposes. A full valuation allowance has been taken on the deferred tax assets based on the Company's determination that they are unlikely to pay income taxes in the future.

Cash paid for income taxes for the three month periods ended December 31, 2011 and 2010, respectively and from inception was \$0.

Basic and Diluted Net Income Per Common Share

Basic and diluted net loss per share calculations are calculated on the basis of the weighted average number of common shares outstanding during the year. The per share amounts include the dilutive effect of common stock equivalents in years with net income. Basic and diluted loss per share is the same due to the anti-dilutive nature of potential common stock equivalents. The Company had no common stock equivalents from inception through December 31, 2011.

As of December 31, 2011, there were no potentially dilutive securities outstanding.

Stock Based Compensation

The Company accounts for stock-based employee compensation arrangements and for stock options issued to non-employees using the fair value method in accordance with the provisions of the applicable FASB standards.

The Company did not grant any stock options from inception through December 31, 2011.

Advertising

Advertising costs are generally expensed as incurred. Total advertising cost for the three month periods ended December 31, 2011 and 2010, and from inception was \$0, \$0, and \$4,440, respectively.

Recent Accounting Pronouncements

In December 2010, the FASB issued FASB ASU No. 2010-28, When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts, which is now codified under FASB ASC Topic 350, Intangibles—Goodwill and Other. This ASU provides amendments to Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not a goodwill impairment exists. When determining whether it is more likely than not that an impairment exists, an entity should consider whether there are any adverse qualitative factors, such as a significant deterioration in market conditions, indicating an impairment may exist. FASB ASU No. 2010-28 is effective for fiscal years (and interim periods within those years) beginning after December 15, 2010. Early adoption is not permitted. Upon adoption of the amendments, an entity with reporting units having carrying amounts which are zero or negative is required to assess whether it is more likely than not that the reporting units' goodwill is impaired. If the entity determines impairment exists, the entity must perform Step 2 of the goodwill impairment test for that reporting unit or units. Step 2 involves allocating the fair value of the reporting unit to each asset and liability, with the excess being implied goodwill. An impairment loss results if the amount of recorded goodwill exceeds the implied goodwill. Any resulting goodwill impairment should be recorded as a cumulative-effect adjustment to beginning retained earnings in the period of adoption. This ASU is not expected to have any material impact to our financial statements.

In December 2010, the FASB issued FASB ASU No. 2010-29, Disclosure of Supplementary Pro Forma Information for Business Combinations, which is now codified under FASB ASC Topic 805, Business Combinations. A public entity is required to disclose pro forma data for business combinations occurring during the current reporting period. This ASU provides amendments to clarify the acquisition date to be used when reporting the pro forma financial information when comparative financial statements are presented and improves the usefulness of the pro forma revenue and earnings disclosures. If a public company presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) which occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The supplemental pro forma disclosures required are also expanded to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. FASB ASU No. 2010-29 is effective on a prospective basis for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010, with early adoption permitted. The adoption of this ASU will not have a material effect on our financial position, results of operations or cash flows.

In January 2010, the FASB issued an amendment to ASC 505, Equity, where entities that declare dividends to shareholders that may be paid in cash or shares at the election of the shareholders are considered to be a share issuance that is reflected prospectively in EPS, and is not accounted for as a stock dividend. This standard is effective for interim and annual periods ending on or after December 15, 2009 and is to be applied on a retrospective basis. The adoption of this standard did not have a significant impact on the Company's financial statements.

On February 24, 2010, the FASB issued guidance in the Subsequent Events topic of the FASC to provide updates including: (1) requiring the Company to evaluate subsequent events through the date in which the financial statements are issued; (2) amending the glossary of the Subsequent Events topic to include the definition of SEC filer and exclude the definition of Public entity; and (3) eliminating the requirement to disclose the date through which subsequent events have been evaluated. This guidance was prospectively effective upon issuance. The adoption of this guidance did not impact the Company's financial statements.

In January 2010, the Financial Accounting Standards Board (FASB) issued guidance to amend the disclosure requirements related to recurring and nonrecurring fair value measurements. The guidance requires new disclosures on the transfers of assets and liabilities between Level 1 (quoted prices in active market for identical assets or liabilities) and Level 2 (significant other observable inputs) of the fair value measurement hierarchy, including the reasons and the timing of the transfers. Additionally, the guidance requires a roll forward of activities on purchases, sales, issuance, and settlements of the assets and liabilities measured using significant unobservable inputs (Level 3 fair value measurements). The guidance became effective for us with the reporting period beginning January 1, 2010, except for the disclosure on the roll forward activities for Level 3 fair value measurements, which will become effective for us with the reporting period beginning July 1, 2011. Other than requiring additional disclosures, adoption of this new guidance should not have a material impact on our financial statements.

NOTE 3 GOING CONCERN

The Company's financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities and commitments in the normal course of business for the foreseeable future. Since inception, the Company has accumulated losses of \$700,206 and has a working capital deficit of \$280,423 at December 31, 2011. These conditions raise substantial doubt as to the Company's ability to continue as a going concern. Management intends to finance these deficits through the sale of stock.

NOTE 4 DEVELOPMENT STAGE OPERATIONS

The Company was formed October 7, 2005. Initial funding for the Company was provided by the parent's principal stockholder via equity capital, direct debt capital and indirect/related party debt capital. The Company's business operations commenced January 2, 2008 and were discontinued on April 15, 2009. Operations of the Company from inception have been devoted primarily to raising capital, obtaining financing, acquiring equipment, constructing improvements to the rented studio facilities, and administrative functions. Start-up and organization costs are expensed as incurred. The Company resumed operations on December 15, 2011 from the receipt of additional funding. Transactions with shareholders and other related parties are described in other notes to these financial statements.

NOTE 5 CUSTOMER DEPOSITS

In December 2011, the Company entered into a contract with one customer to produce a compact disk recording consisting of seven to ten selections to be sold by the customer. The gross contract amount is \$35,000 and estimated costs on the contract are \$2,000. Talent on the record will be compensated as a percentage of sales. As of December 31, 2011 and September 30, 2011, the Company received \$19,500 and \$0, respectively, in customer deposits for the music production contract. The production of the music is expected to start in January 2012 and will end in June of the same year. As of December 31, 2011 and September 30, 2011, the deposit represents a liability to the Company since revenue will not be recognized on this contract until services have been provided.

NOTE 6 RELATED PARTY NOTES

On February 26, 2008, the Company's Parent Company as of that date, Skreem Records Corporation, issued 500,000 common shares of SRC stock to relieve notes payable on behalf of both the Company and the Parent Company. The debt relieved related to the Company was \$205,500. The debt relieved for the Parent Company was \$44,500, for a total debt relieved for the parent and subsidiary of \$250,000. The relative market value of the SRC stock at the time of issuance was \$0.50 per share. Therefore, no gain or loss on this extinguishment was recognized as the consideration given up by the parent in the form of SRC stock was equal to the consideration received in relief of the notes payable of \$250,000. This non-cash transaction was taken as a contribution from the parent in fiscal 2008.

At December 31, 2011 and September 30, 2011, interest in the amounts of \$43,701 and \$41,752, respectively, is accrued on these notes. Interest expense for the three months ended December 31, 2011 and 2010, and from inception was \$4,514, \$3,382 and \$68,620, respectively.

Short-term debt as of December 31, 2011 and September 30, 2011 consisted of the following demand notes:

	December 31, 2011	December 30, 2011
Various unsecured demand notes to the principal shareholder with no stated interest rate; interest is being accrued at 8% and 5% per annum. At December 31, 2011 and September 30, 2011, the principal balance of the 5% notes was \$21,749 and \$21,699 and of the 8% notes was \$19,938 and \$21,500, respectively.	\$ 41,687	\$ 43,200
Various unsecured demand notes to a business owned and controlled by the principal shareholder with a stated interest rate of 5% and 8% per annum. At December 31, 2011 and September 30, 2011, the principal balance of the 5% notes was \$11,500 and \$11,500 and of the 8% notes was \$7,478 and \$11,923, respectively.	18,978	23,423
Various unsecured demand notes to a corporation controlled by the principal shareholder with a stated interest rate of 8% per annum.	10,016	10,016
Various unsecured demand notes to a limited partnership controlled by the principal shareholder with stated interest rates of 5% and 6% per annum. At December 31, 2011 and September 30, 2010, the principal balance of the 5% notes was \$24,150 and \$24,150, respectively, and of the 6% notes was \$10,750 and \$10,750, respectively.	34,900	34,900
Various unsecured demand notes to a limited partnership controlled by the principal shareholder with stated interest rates of 5% and 6% per annum. At December 31, 2011 and September 30, 2011, the principal balance of the 5% notes was \$41,500 and \$41,500 and of the 6% notes was \$6,000 and \$6,000, respectively.	47,500 \$ 153,081	47,500 \$ 159,039

The related party creditor is Jeffrey Martin, the controlling shareholder of the Company who owns 73% of the Company's shares.

On September 16, 2009 the Company successfully concluded the negotiation and met the obligations required to be released from the commitment under non-cancelable operating leases for its former two studio/suite facility. The facility had been leased under two leases, each of which had a term that expired on May 31, 2012. From the time in which rent payments ceased in February 2009 until the time of the release from the facility lease, the Company accrued its monthly obligation to pay rent under the lease. At the time of the settlement, accrued rent payable in the amount of \$13,662 was written off and recognized as forgiveness of debt income.

On September 30, 2009, a note payable was no longer due to a corporation but was the subject of an ownership transfer due to the corporation forgiving the debt. The Company recognized \$541 of debt forgiveness income in conjunction with this event, consisting of \$500 of principal and \$41 of accrued interest.

On June 30, 2011, a note payable was forgiven and no longer due. The Company recognized \$1,215 of debt forgiveness income in conjunction with this event, consisting of \$1,200 of principal and \$15 of accrued interest.

For the three month periods ending December 31, 2011 and 2010, and for the period from inception through December 31, 2011, the Company has recognized forgiveness of debt income in the amounts of \$1,215, \$0 and \$15,418, respectively.

NOTE 7 CAPITAL STOCK

On July 1, 2008, Skreem Studios, LLC was spun off from its then Parent Company Skreem Records Corporation (now called Insight Management, Inc.). Subsequent to the spin off, the limited liability company incorporated and became Skreem Studios, Inc. All shareholders of the Parent Company as of July 1, 2008 received one share in the newly formed Skreem Studios, Inc. These shares were treated as founders shares by the Company with an increase to common stock and the offset to additional paid in capital. This was the only stock transaction by the Company from inception through December 31, 2011.

The Company has 100,000,000 shares of \$0.001 par value stock authorized. At December 31, 2011, there were 3,051,870 shares outstanding. Ownership by significant parties, officers and employees of the Company are as follows:

Name of beneficial owner	Number of shares	% of Ownership
Jeffrey Martin	2,228,500	73
Justin Martin, Vice President	300,000	10
Karen Aalders, Secretary/Treasurer	183,000	6
Thomas Tedrow	110,000	4
Charles Camorata, President	20,000	1
Other shareholders	251,370	6

NOTE 8 RELATED PARTY TRANSACTIONS

All of the non-trade debt financing and related interest expense for the Company have been provided by and paid or accrued to the principal shareholder or entities controlled by him, see Note 6.

The facility at which the equipment held is stored is owned by an entity controlled by the principal shareholder and the rent expense for usage is contributed by the shareholder as additional paid in capital in the amounts of \$0, \$0, and \$1,002 for the three months ended December 31, 2011 and 2010 and from inception to December 31, 2011, respectively.

On April 2010, the Company loaned Sexy Fishing Lures, Inc., a related entity, \$100. On October 1, 2010, the outstanding loan from Sexy Fishing Lures, Inc and accrued interest receivable of \$2 was forgiven in exchange for relief on \$102 of debt owed to Jeffrey Martin.

As of January 1, 2011, the demand note from a business owned and controlled by the principal shareholder was assumed by Jeffrey Martin.

NOTE 9 COMMITMENTS AND CONTINGENCIES

In October 2009, the Company leased studio facilities at 275 North Bayshore Drive, Ocoee, Florida 34761. The lease was renegotiated on May 21, 2010 which permitted the Company to use the facilities at a rate of \$50 per hour without

any minimum use requirements. The facility was not used between October 2009 and December 31, 2010. On February 2, 2011, the lease was renegotiated and extended the term to December 31, 2012.

NOTE 10 EQUIPMENT

Property and equipment at December 31, 2011 and September 30, 2011 consisted entirely of \$6,355 and \$7,736 of recording studio equipment. The equipment was being stored and was not in service.

The Company leased two Studio/Suites in June and September, 2006. These Suites required significant modifications and alterations in order for them to be placed in service as recording studios. Direct costs of \$96,374 as well as carrying costs associated with the leasehold improvements of \$16,786 were capitalized as they occurred and were being amortized straight line from the commencement of operations on January 2, 2008 over the five year term of the lease.

On August 10, 2008, the Company suffered a break-in and substantial equipment was stolen. The Company also incurred damage to its leased facility. The Company filed an insurance claim on the incident, receiving proceeds in the amount of \$166,701 and recognizing an extraordinary loss of \$19,376 for the year ended September 30, 2008. An extraordinary gain in the amount of \$32,813 was recognized in the twelve months ended September 30, 2009 for additional claims granted.

In April, 2009, the Company vacated its leased facility (see Note 1). At that time the Company sold a small portion of its equipment at a loss and stored the remainder of its equipment (see Note 11). All leasehold improvements were fully impaired as of September 30, 2009.

All escalating payment leases were expensed according to the straight line method.

NOTE 11 OTHER ASSETS EQUIPMENT HELD (NOT IN SERVICE)

In April 2009, the Company moved its remaining equipment into storage with the intention of utilizing it in the future for operations. Upon being moved to storage, the equipment was marked down to fair market value and a loss of \$4,777 was recognized to adjust carrying value from net book value during the twelve months ended September 30, 2009. The equipment valued at fair market value is being depreciated over its remaining useful life.

NOTE 12 INCOME TAXES

The Company has federal and state net operating loss carry forwards of \$513,984 and \$513,984, which expire in various years ending September 30, as indicated below:

	Federal	Florida
2013	\$ ---	\$ 101,262
2014	---	250,251
2015	---	73,457
2016	---	70,857
2017	---	18,157
2023	101,262	---
2024	250,251	---
2025	73,457	---
2025	70,857	---
2026	18,157	---
Total	\$ 513,985	\$ 513,985

A full valuation allowance has been taken on the deferred tax assets based on the Company's determination that they are unlikely to pay income taxes in the future.

NOTE 13 LOSS ON IMPAIRMENT OF FIXED ASSETS

The Company recognized a loss on the impairment of assets in the amount of \$0 and \$0 in the three months ended December 31, 2011 and 2010, respectively, and of \$86,850 from inception through December 31, 2011.

NOTE 14 SUBSEQUENT EVENTS

Subsequent events were evaluated through the date financial statements were issued. No material events came to our attention through the date these financial statements were issued.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

We caution you that this report contains forward-looking statements regarding, among other things, financial, business, and operational matters.

All statements that are included in this Quarterly Report, other than statements of historical fact, are forward-looking statements. Forward-looking statements involve known and unknown risks, assumptions, uncertainties, and other factors. Statements made in the future tense, and statements using words such as may, can, could, should, predict, potential, continue, opportunity, intend, goal, estimate, expect, expectations, project, projections, believe, think, confident, scheduled or similar expressions are intended to identify forward-looking statements. Forward-looking statements are not a guarantee of performance and are subject to a number of risks and uncertainties, many of which are difficult to predict and are beyond our control. These risks and uncertainties could cause actual results to differ materially from those expressed in or implied by the forward-looking statements, and therefore should be carefully considered. We caution you not to place undue reliance on the forward-looking statements, which speak only as of the date of this report. We disclaim any obligation to update any of these forward-looking statements as a result of new information, future events, or otherwise, except as expressly required by law. References in this Form 10-Q, unless another date is stated, are to December 31, 2011. As used herein, the "Company," "Mainstream," "we," "us," "our" and words of similar meaning refer to Mainstream Entertainment, Inc.

Overview

Mainstream Entertainment, Inc. is an entertainment production company originally formed as a limited liability company (Skreem Studios, LLC) in Florida, on October 7, 2005. The Company is and has historically been primarily engaged in music production and distribution in the United States and Europe. The Company initiated pre-commencement activity in May 2006, renting a studio facility, acquiring equipment, building out two studios and incurring other pre-operational expenses.

On April 1, 2007, the Company was acquired by Insight Management Corporation (f/k/a Skreem Records Corporation) and commenced business operations. In June 2008, the majority stockholders authorized a name and entity change from Skreem Studios, LLC to Skreem Studios, Inc. On July 1, 2008, Insight Management Corporation commenced a reverse spin-off of Skreem Studios, Inc., whereby the shareholders of record as of July 1, 2008, received one share of Skreem Studios, Inc. for each share owned of Insight Management Corporation. Insight Management Corporation, as of July 1, 2008, is no longer related to the Company. On August 2, 2010 the Company changed its name to Mainstream Entertainment, Inc.

On August 10, 2008, we suffered a break-in and substantial equipment was stolen. Our insurance paid \$166,701 for our loss.

We are a development stage company, which leases a recording studio equipped to provide all of the services necessary for recording and editing finished audio products. Our finished audio products will be compact disks and digital music files. We anticipate that we will publish hard copies of music on compact disks which we will produce.

Our manufacturing process will entail recording music onto compact disks and other forms of digital media. We intend to offer these products for sale through traditional music distribution channels. The Studio, known locally as Gettings Studio, is located at 275 North Bayshore Dr. Ocoee, Florida 34761. It provides four recording studios, a live recording space that measures over 650 square feet, large enough for a 25-piece orchestra. It also has a client lounge, a conference room, wet bar, and shower accommodations.

We also act as a producer. Our role as a producer includes identifying and contracting with musical groups and individual artists to promote their talent. This involves student coaching and guiding musicians, conducting recording sessions, overseeing the mixing and mastering process, and planning and directing the promotion and sale of the work product. Revenue will be initiated through prior industry contacts of the officers, internet advertising via a Company web page (which is not currently in place), direct contact and traditional print marketing. The Company cannot guarantee that any revenues will be generated. The Company and its predecessors have been unprofitable since 2005. To date, all revenues have been generated from a company named NRJ Co., (NRJ), a company located in France. The Company related revenues were paid for music group "Wish", a music group whom Justin Martin, our Vice President is a member. Justin Martin is the 27 year old son of Jeff Martin, our majority shareholder.

Our monthly burn rate consists of professional fees (which include legal and accounting fees) of approximately \$2,800 and interest expense of approximately \$1,100, for a total of \$3,900 in monthly expenses. The Company is dependent upon loans made by the Company's majority shareholder, Jeffrey Martin (See Certain Relationships and Related Transactions). The Company is completely dependent on Jeff Martin for its present and future funding. Mr. Martin is not obligated to fund the Company and the Company cannot provide any assurance that Mr. Martin's funding will continue in the future. The cash available to the Company at December 31, 2011 is not sufficient to cover any of the average monthly expenditures before requiring additional capital. As of February 1, 2012, we had approximately \$247.80 of cash available for operations.

We had a net loss of \$19,537 for the three months ended December 31, 2011, compared to a net loss of \$13,835 for the three months ended December 31, 2010, an increase in net loss of \$5,702 or 41% from the prior period. The Company had a deficit accumulated during the development stage of \$700,206 and a working capital deficit of \$280,423 as of December 31, 2011. For the year ending, September 30, 2011, we had a net loss of \$72,161 and as of September 30, 2011, we had a working capital deficit of \$262,367 and a deficit accumulated during the development state of \$680,669. Our independent certifying accountant has expressed doubt about our ability to continue as a "going concern".

In May 2011, the Company launched its first song titled "Mom's Song" which is being offered for sale on iTunes. The song may be heard on YouTube and iTunes. The song was written and performed by Justin Martin.

In December 2011, the Company entered into an understanding with Barton Funeral Services, Inc. to record and produce music for a CD to sell to funeral homes at a total cost of \$35,000. The Company had received \$19,500 in connection with this understanding during the three months ended December 31, 2011. An additional \$8,000 is due pursuant to the understanding in March 2012 and a final payment of \$7,500 is due by July 31, 2012. The artist(s) engaged to record the music will be compensated as a percentage of sales of the record. The start of production of the CD is anticipated to begin in the first calendar quarter of 2012 and be completed by the end of the second calendar quarter of 2012.

PLAN OF OPERATIONS

The Company plans to focus on the contracting of music writers, artists, and producers with the intent of providing a professional recording and producing environment for them to create their material, then promoting their material through industry proven means including but not limited to, social media, websites, product placement, live performances and radio airplay. This promotion is for the purpose of creating a demand for the artists and their products thus positioning the Company to enter into contracts with larger well-established companies for further promotion of the artists. The process for finding and signing artists is multifaceted including, but not limited to, internet searches, contests, live scouting, and affiliations with other industry professionals globally.

We plan to derive revenue from multiple sources including, but not limited to:

Percentage of sales and publishing income through sales of downloads through iTunes, Amazon MP3, etc.,

.
Licensing of artists' products to third party users,

.
Percentage of live performances, management fees, and merchandising,

.
Internet advertising through affiliate programs such as Google AdSense, monetizing artists' websites and social media such as Facebook, YouTube, and Twitter, and

.
Profits realized from rental of recording studio time, video production, and creation of internet promotion for artists with previously secured investors or investment capital.

Use of funds will include:

.
Up front studio costs,

.
Video production costs,

.
Creation of web content such as web sites, social media oversight and other web related activities,

.
General oversight of business and production operations, and

Accounting, both in house and outside accounting/auditing services.

The Company searches continuously for talent for recording and performing. When an artist is found to be commercially viable, the Company will sign the artist to a contract, which is customary in the industry to include audio recordings, video recordings, live performances, merchandising, publishing revenues, endorsements, and management. These contracts will provide for a percentage of revenues generated by all of the above endeavors to be divided between the artist and the Company. The costs of this process are estimated at \$5,000.

The timeframe necessary to establish an artist varies according to the artist's prior endeavors as well as the amount of composition the artist has ready for recording or performance. In some instances, such as when the artist has sufficient composition material to begin immediately, the music product can be ready for digital distribution within 60 to 90 days.

The Company will provide music recording and video production, promotion, and booking for the artists. Distribution of artists' material will be through standard industry outlets and includes both digital and hard copy production according to popularity and profitability of the artist. In addition, the Company will provide web sites and direction in the use of social networking including Facebook, YouTube, and Twitter. There is an approximate \$6,500 cost associated with this phase and a completion time which is estimated around 60 to 90 days. We estimate revenues would be generated approximately 90 to 120 days after release of an artist's first product.

The Company will seek funding from Jeff Martin, its majority shareholder, in order to cover these costs, provided that Mr. Martin is not under any obligation to provide the Company with funding.

Distribution

The Company plans to distribute the artists' products through internet sales, live performances, and in store product. In store product will be considered when internet and live performance demands show that production of CD and/or DVD product may be profitable. The Company will pursue licensing and sales agreements with third party distributors for overseas distribution and sales. Distribution costs will be born by the individual agreements that we may sign with foreign companies.

Social Networking

An artist's main interest is the promotion of their own material, and in the interest of self-promotion they stay connected and reach out to their followers through continuous social networking. These artists generate thousands of followers through their Twitter accounts, Facebook pages, and YouTube videos. We plan to centralize these self-promotion efforts providing guidance of an artist's networking efforts as well as working to increase visibility through focused marketing. Through oversight and monitoring of this networking traffic, monetizing these efforts is planned to be realized through affiliate advertising programs, web based direct sales programs, and pay-per-click affiliations. This process could potentially prove to be a significant revenue source. Manpower, not money runs this phase of the operation.

Publishing

All artists will be asked to sign a Publishing Agreement as part of the Contract between the Company and the artist. This agreement will grant rights for the writer's compositions to the Company for which the Company will pay royalties based on the terms and conditions of the agreement. Revenues will be realized from the performance of or sales of any product containing the performances of the artist/writer, as well as through the licensing of those rights to third parties for performance and recording. No additional money will be needed for this phase. Charles Camorata, the Company's President and Chief Executive Officer, has the experience to run all publishing functions for the Company. The time frame will be structured whenever new music is written by one of our signed artists. The artist will submit the composition to the Company for publishing. The revenue stream will be split between the Company and the artist.

Recording and Production

The Company will provide recording and production of artists using facilities currently under contract. The cost of each individual artist will vary according to the amount of material to be recorded, which will be determined by the Company; therefore, the cost of producing each artist can be determined prior to production and can be controlled by the Company. The cost associated with this phase will be paid for by the contracting company. This process should begin within 90 days from signing a new artist or a recording company that will pay for the production and recording on a contractual basis.

Results of Operations and Operating Expenses:

We generated revenues of \$1,000 for the three months ended December 31, 2011, compared to no revenues for the three months ended December 31, 2010. Revenues for the three months ended December 31, 2011 were solely due to recording services and song licensing rights.

We had \$16,023 of total operating expenses for the three months ended December 31, 2011, compared to \$10,453 for the three months ended December 31, 2010, an increase in total operating expenses of \$5,570 or 53% from the prior period. The increase in operating expenses was due to a \$5,570 or 61% increase in general and administrative expenses to \$14,642 for the three months ended December 31, 2011, compared to \$9,072 for the three months ended December 31, 2010. The increase in general and administrative expenses was mainly due to accounting, auditing and legal fees.. We had a depreciation expense of \$1,381 for both the three months ended December 31, 2011 and 2010, as there was no change in our depreciable asset base.

We had total other expenses of \$4,514 for the three months ended December 31, 2011, compared to \$3,382 for the three months ended December 31, 2010, an increase in other expenses of \$1,132 or 33% from the prior period, which was solely due to interest accrued on amounts owed to our largest shareholder and creditor, Jeffrey Martin (as described below). Interest expense increased due to increased borrowing from Mr. Martin.

We had a net loss of \$19,537 for the three months ended December 31, 2011, compared to a net loss of \$13,835 for the three months ended December 31, 2010, an increase in net loss of \$5,702 or 41% from the prior period.

Liquidity and Capital Resources

As of December 31, 2011 the Company had \$2,950 of total current assets consisting of \$1,269 of cash and \$1,681 of prepaid expenses.

As of the date of this filing, the Company has approximately \$247.80_ available for Company use, which funds were raised subsequent to December 31, 2011 in connection with loans from Jeff Martin. The Company does not believe that such funds will be sufficient to fund its expenses over the next twelve months. There can be no assurance that additional capital will be available to the Company. The Company currently has no agreements, arrangements, or understandings with any person to obtain funds through bank loans, lines of credit, or any other sources.

The Company had total assets of \$9,305 as of December 31, 2011, which included \$2,950 of current assets and \$6,355 of long-term assets consisting of equipment, net of depreciation.

The Company had total current liabilities consisting solely of current liabilities of \$283,373 as of December 31, 2011, which included \$67,091 of accounts payable and accrued liabilities, \$43,701 of accrued interest related party, representing accrued interest on the loans payable to Jeffrey Martin, our largest shareholder, as described below, \$19,500 of deposit for contract, relating to the contract with Barton Funeral Services, Inc., as described above, and \$153,081 of related party notes payable to Mr. Martin.

The Company had a deficit accumulated during the development stage of \$700,206 and a working capital deficit of \$280,423 as of December 31, 2011.

Previously the Company has relied upon its majority shareholder to advance funds to allow it to operate. The plan of operation outlined above is not principally dependent upon debt financing. If the fund raising falls short of the goals outlined, the majority shareholder will continue to fund the Company as needed until profitability. Jeff Martin, as the majority shareholder, does not have an obligation to contribute any additional funds to the company. Mr. Martin's contribution is discretionary, but it is likely he will continue to fund the company if necessary. However, because the Company has no bank arrangements or plans currently in effect, its inability to raise equity financing for the above purposes will have a severe negative impact on the plan of operations outlined above.

The Company had \$7,221 of net cash used in operations for the three months ended December 31, 2011, which was mainly due to \$19,500 of customer deposits and \$7,397 of increase in accounts payable and accrued expenses offset by \$19,537 of net loss.

Debt Financings and Related Party Notes:

The Company is highly dependent on related party financing, specifically from its majority shareholder, Jeffrey Martin (Related Party Notes). All of the debt financing and related interest expense for the Company have been provided by and paid or accrued to Jeffrey Martin, the principal shareholder or entities controlled by him. The Related Party Notes are made formal through promissory notes. Other than these Related Party Notes, there are no other formal agreements between the Company and Jeffrey Martin regarding any future debt financing or the payment of related interest expenses.

On February 26, 2008, the Company's former Parent Company, Insight Management Corporation (the Former Parent Company), formerly known as Skreem Records Corporation, issued 500,000 common shares of the Former Parent Company common stock to relieve notes payable on behalf of both the Company and the Former Parent Company, for a total debt relieved of \$250,000. The 500,000 Former Parent Company common shares were issued to Jeffrey Martin. The debt relieved related to the Company was \$205,500, which was incurred by the Company's acquisition of equipment and operations such as rent, utilities and similar expenses. The debt relieved for the Former Parent Company was \$44,500.

The relative market value of the Former Parent Company common stock at the time of issuance was \$0.50 per share. Therefore, no gain or loss on this extinguishment was recognized as the consideration given up by the former parent in the form of the Former Parent Company common stock was equal to the consideration received in relief of the notes payable of \$250,000. This non-cash transaction was taken as a contribution from the Former Parent Company in fiscal 2008.

In December 2011, the Company entered into an understanding with Barton Funeral Services, Inc. to record and produce music for a CD to sell to funeral homes at a total cost of \$35,000. The Company had received \$19,500 in connection with this understanding during the three months ended December 31, 2011. An additional \$8,500 is due pursuant to the understanding in March 2012 and a final payment of \$7,500 is due by July 31, 2012. There is no written agreement evidencing this understanding. The artist(s) engaged to record the music will be compensated as a percentage of sales of the record. The start of production of the CD is anticipated to begin in the first calendar quarter of 2012 and be completed by the end of the second calendar quarter of 2012.

We have budgeted the need for approximately \$50,000 of additional funding during the next 12 months to continue our business operations, pay costs and expenses associated with our filing requirements with the Securities and Exchange Commission and undertake our business plan which funding may not be available on favorable terms, if at all. If we are unable to raise adequate working capital for fiscal 2012, we will be restricted in the implementation of our business plan.

The financial statements included herein have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. As shown in the accompanying financial statements, the Company has had minimal revenues and has accumulated losses since inception. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity financing to continue operations, and the attainment of profitable operations. These financial statements do not include any adjustments related to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue as a going concern.

Moving forward, we plan to seek out additional debt and/or equity financing to pay costs and expenses associated with our filing requirements with the Securities and Exchange Commission and business activities (as described herein); however, we do not currently have any specific plans to raise such additional financing at this time. The sale of additional equity securities, if undertaken by the Company and if accomplished, may result in dilution to our shareholders. We cannot assure you, however, that future financing will be available in amounts or on terms acceptable to us, or at all.

At December 31, 2011 and September 30, 2011, interest in the amounts of \$43,701 and \$41,752, respectively, is accrued on the notes due and payable to Mr. Martin. Interest expense for the three months ended December 31, 2011 and 2010, and from inception was \$4,514, \$3,382 and \$68,620, respectively.

	December 31, 2011	September 30, 2011
Various unsecured demand notes to the principal shareholder with no stated interest rate; interest is being accrued at 8% and 5% per annum. At December 31, 2011 and September 30, 2011, the principal balance of the 5% notes was \$21,749 and \$21,699 and of the 8% notes was \$19,938 and \$21,500, respectively.	\$ 41,687	\$ 43,200
Various unsecured demand notes to a business owned and controlled by the principal shareholder with a stated interest rate of 5% and 8% per annum. At December 31, 2011 and September 30, 2011, the principal balance of the 5% notes was \$11,500 and \$11,500 and of the 8% notes was \$7,478 and \$11,923, respectively.	18,978	23,423
Various unsecured demand notes to a corporation controlled by the principal shareholder with a stated interest rate of 8% per annum.	10,016	10,016
Various unsecured demand notes to a limited partnership controlled by the principal shareholder with stated interest rates of 5% and 6% per annum. At December 31, 2011 and September 30, 2010, the principal balance of the 5% notes were \$24,150 and \$24,150, respectively, and of the 6% notes were \$10,750 and \$10,750, respectively.	34,900	34,900
Various unsecured demand notes to a limited partnership controlled by the principal shareholder with stated interest rates of 5% and 6% per annum. At December 31, 2011 and September 30, 2011, the principal balance of the 5% notes was \$41,500 and \$41,500 and of the 6% notes was \$6,000 and \$6,000, respectively.	47,500	47,500
	\$ 153,081	\$ 159,039

The related party creditor is Jeffrey Martin, the controlling shareholder of the Company who owns 73% of the Company's shares.

On June 30, 2011, a note payable was forgiven and is no longer due. The Company recognized \$1,215 of debt forgiveness income in conjunction with this event, consisting of \$1,200 of principal and \$15 of accrued interest.

For the three month periods ending December 31, 2011 and 2010, and for the period from inception through December 31, 2011, the Company has recognized forgiveness of debt income in the amounts of \$1,215, \$0 and \$15,418, respectively.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Pursuant to Item 305(e) of Regulation S-K (§ 229.305(e)), the Company is not required to provide the information required by this Item as it is a smaller reporting company, as defined by Rule 229.10(f)(1).

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Principal Executive Officer and Principal Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on our evaluation, our Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures are not designed at a reasonable assurance level and are not effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

We regularly review our system of internal control over financial reporting to ensure we maintain an effective internal control environment. There were no changes in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we may become party to litigation or other legal proceedings that we consider to be a part of the ordinary course of our business. We are not currently involved in legal proceedings that could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations. We may become involved in material legal proceedings in the future.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the period ended September 30, 2011, filed with the Commission on January 30, 2012, and investors are encouraged to review such risk factors prior to making an investment in the Company.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. (Removed and Reserved)

Item 5. Other Information.
