Notes to Consolidated Financial Statements

August 31, 2010

(Unaudited)

**NOTE 1 BASIS OF PRESENTATION & GOING CONCERN**

Basis of Presentation

The unaudited interim consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q of Article 10 of Regulations S-X in the United States of America and are presented in United States dollars. They do not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to the consolidated financial statements for the year ended November 30, 2009 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission.

The interim unaudited consolidated financial statements should be read in conjunction with those consolidated financial statements included in Form 10-K. In the opinion of Management, all adjustments considered necessary for fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the three months and nine months ended August 31, 2010 are not necessarily indicative of the results that may be expected for the year ending November 30, 2010.

Going Concern

The consolidated financial statements have been prepared on the basis of a going concern which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has a working capital deficiency of \$930,585 at August 31, 2010 (November 30, 2009 - \$763,149) and has incurred losses since inception of \$5,758,732 and further losses are anticipated in the development of its mineral properties raising substantial doubt as to the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on raising additional capital to fund ongoing exploration and development and ultimately on generating future profitable operations. Management plans to continue funding the Company's operations with advances, other debt sources and further equity placements.

**NOTE 2 CAPITAL STOCK**

During the nine month period ended August 31, 2010, the Company issued:

-

**NOTE 3 RELATED PARTY TRANSACTIONS**

While we believe in the veracity of all statements made herein, forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by us, are inherently subject to significant business, economic and competitive uncertainties and contingencies and known and unknown risks. As a result of such risks, our actual results could differ materially from those expressed in any forward-looking statements made by, or on behalf of, our company. We will not necessarily update information if any forward-looking statement later turns out to be inaccurate. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons, including risks and uncertainties set forth in our Annual Report on Form 10-K, as well as in other documents we file with the Securities and Exchange Commission ("*SEC*").

The following information has not been audited. You should read this information in conjunction with the unaudited financial statements and related notes to the financial statements included in this report.

*Plan of Operations*

Our plan of operations for the near future is to complete a secondary exploration program on the Mercedes 100 property. We anticipate that this program will cost approximately \$250,000.

In addition, we anticipate spending \$60,000 on professional fees, \$120,000 on management fees, \$120,000 on consulting fees, \$40,000 on travel costs, \$40,000 on promotional expenses and \$40,000 on other administrative expenses in the next 12 months.

Total expenditures over the next 12 months are therefore expected to be \$670,000. We will not be able to proceed with either exploration program, or meet our administrative expense requirements, without additional financing.

Edgar Filing: BROOKMOUNT EXPLORATIONS INC - Form 10-Q

We will require additional funding in order to proceed with exploration on the Mercedes 100 property and to cover administrative expenses. We anticipate that additional funding will be in the form of equity financing from the sale of our common stock or from director loans. We do not have any arrangements in place for any future equity financing or loans.

We are the beneficial owner of a 100% interest in the Mercedes 100 property, consisting of six mineral claims, as follows:

<b>Claim Name</b>	<b>Claim Number</b>	<b>Claim Area (Hectares)</b>
Mercedes 100	C-08020145X011	450.00
Celeste	C-010151600	298.84
Celeste No. 2	C-010151500	218.58

Nuevo Herrahe Cuatro	C-010154100	996.96
Nueva Charo	C-010051101	446.93

Subsequently, we acquired the Confienza Claim (C-010079806) consisting of 500 hectares at the Mercedes 100 property.

On May 25, 2006, we entered into an option agreement (the *Agreement* ) to acquire an option to purchase 100% of the issued share capital of 722161 B.C. Ltd ( *722161 BC* ) on the following terms:

The issuance of 100,000 common shares upon execution of the Agreement (issued);

We must incur exploration expenses of \$1,000,000 over a period of five years from the date of the Agreement. 722161 BC has a 56% interest in mineral claims located in the Rock Creek area of British Columbia, Canada.

On March 31, 2008, a formal notice of default was issued by 722161 BC. We had 30 days to cure the default, at which time the agreement terminated except as to our obligations prior to the default of approximately \$80,000, which we have recorded as a liability. We did not cure the default and the agreement terminated on April 30, 2008.
