UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d)
of the Securities Exchange Act of 1934

For the quarterly period ended December 31, 2011

Commission File No. 001-33794

HILLENBRAND, INC.

(Exact name of registrant as specified in its charter)

Indiana
(State of incorporation)

26-1342272
(I.R.S. Employer Identification No)

One Batesville Boulevard
Batesville, IN
(Address of principal executive offices)

47006
(Zip Code)

Telephone: **(812) 934-7500**

Edgar Filing: Hillenbrand, Inc. - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell Company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of January 27, 2012, 62,473,962 shares of the registrant's no par common stock were outstanding.

Hillenbrand, Inc.

Condensed Notes to Consolidated Financial Statements (Unaudited)

(in millions, except share and per share data)

1. Background and Basis of Presentation

Hillenbrand, Inc. is a global diversified industrial enterprise with two platforms that manufacture premium business-to-business products for a wide variety of industries. Batesville is the leader in the North American funeral products industry, and Process Equipment Group is a recognized leader in the design and production of equipment and systems used in processing applications. Hillenbrand, the Company, we, us, our, and similar words refer to Hillenbrand, Inc. and its subsidiaries.

The accompanying unaudited consolidated financial statements include the accounts of Hillenbrand, Inc. and its wholly owned subsidiaries. These unaudited financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial statements and therefore do not include all information required in accordance with accounting principles generally accepted in the United States (GAAP). The unaudited consolidated financial statements have been prepared on the same basis as the consolidated financial statements as of and for the fiscal year ended September 30, 2011. Certain prior period balances have been reclassified to conform to the current presentation. In the opinion of management, these financial statements reflect all normal and recurring adjustments considered necessary to present fairly the Company's consolidated financial position and the consolidated results of operations and cash flow as of the dates and for the periods presented.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures of contingent assets and liabilities as of the dates presented. Actual results could differ from those estimates. Examples of such estimates include, but are not limited to, the establishment of reserves related to customer rebates, allowance for doubtful accounts, warranties, early pay discounts, inventories, income taxes, accrued litigation, and self-insurance; and the estimation of progress toward performance criteria under the incentive compensation programs.

2. Summary of Significant Accounting Policies

The accounting policies used in preparing these financial statements are consistent with the accounting policies described in our Annual Report on Form 10-K for the fiscal year ended September 30, 2011, which was filed with the SEC on November 28, 2011. The following represent additions and changes to significant accounting policies in the previously filed Form 10-K.

Recently Adopted and Issued Accounting Standards

Edgar Filing: Hillenbrand, Inc. - Form 10-Q

In May 2011, the FASB issued *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (Topic 820, Fair Value Measurement)*. The new standard provides updates to measurement guidance and enhanced disclosure requirements. The most significant change is an expansion of the information required for Level 3 measurements based on unobservable inputs. The new disclosure requirements are effective for Hillenbrand in our second quarter beginning January 1, 2012. We do not expect that the adoption of this standard will have a significant impact on our consolidated financial statements.

In June 2011, the FASB issued an accounting standards update titled *Presentation of Comprehensive Income*. This update eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. An entity can elect to present items of net income and other comprehensive income in one continuous statement or in two separate consecutive statements. Each component of net income and each component of other comprehensive income, together with totals for comprehensive income and its two parts, net income and other comprehensive income, must be displayed under either alternative. The new disclosure requirements are effective for Hillenbrand in our fiscal year beginning October 1, 2012.

In September 2011, the FASB issued an accounting standards update titled *Intangibles - Goodwill and Other: Testing Goodwill for Impairment*. This update gives the option of performing a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount and, in some cases, skip the two-step impairment test. This standard is effective for Hillenbrand for our fiscal year beginning

Table of Contents

October 1, 2012, and early adoption is permitted. We do not expect that the adoption of this standard will have a significant impact on our consolidated financial statements.

3. Business Acquisitions

We completed the acquisition of Rotex Global, LLC on August 31, 2011. We have completed a preliminary purchase price allocation, and we do not expect the final allocation adjustments (primarily deferred income taxes) to be material to our financial statements. There were no significant changes to the preliminary purchase price allocation as of December 31, 2011.

The financial information in the table below summarizes the combined results of operations for the Company, including Rotex for the three months ended December 31, 2010, on a pro forma basis, as though the companies were combined as of the beginning of the period presented. The pro forma financial information is presented for informational purposes only and may not be indicative of the results of operations if the acquisition had actually taken place at the beginning of the period presented and should not be considered representative of future consolidated results of operations.

	Three Months Ended December 31, 2010	
Pro forma net revenue	\$	230.7
Pro forma net income		29.8
Pro forma diluted earnings per share		0.48

4. Supplemental Balance Sheet Information

	December 31, 2011		September 30, 2011	
Trade accounts receivable reserves	\$	19.5	\$	21.7
Accumulated depreciation on property	\$	260.5	\$	256.2
Other intangible assets	\$	382.8	\$	384.2
Accumulated amortization		(58.7)		(51.4)
Other intangibles, net	\$	324.1	\$	332.8
Inventories:				
Raw materials and components	\$	39.1	\$	36.0
Work in process		12.2		10.8
Finished goods		38.7		36.9
Total inventories	\$	90.0	\$	83.7

5. Financing Receivables and Allowances for Credit Losses

Edgar Filing: Hillenbrand, Inc. - Form 10-Q

As of December 31, 2011, Batesville had \$7.8 of customer notes receivable, primarily representing long-term payment plans negotiated to collect unpaid balances. These notes generally carry repayment terms up to five years and have a weighted-average interest rate of 4.9% at December 31, 2011. The current portion of these notes (\$4.5) is included in trade receivables and the long-term portion (\$3.3) is included in other assets in the consolidated balance sheets.

We evaluate the recoverability of each note receivable quarterly and record allowances based upon the customer's credit score, historical experience, and individual customer collection experience. As of December 31, 2011, \$2.7 of customer notes receivable were over 31 days past due. Accordingly, we have established an allowance of \$0.7 related to these notes with a gross balance of \$2.2 as of December 31, 2011. There has not been a significant change in the reserve during the periods presented. Each quarter we perform a detailed review of all notes upon which a reserve was established to determine whether any amounts should be charged off. Amounts are charged off when they are deemed to no longer be collectible.

Table of Contents6. Financing Agreements

	December 31, 2011		September 30, 2011
\$400 revolving credit facility	\$ 283.0	\$	283.0
\$150 senior unsecured notes, due July 15, 2020, net of discount	148.5		148.5
Total long-term debt	\$ 431.5	\$	431.5

As of December 31, 2011, we (i) had \$6.7 outstanding letters of credit under the revolving credit facility, (ii) were in compliance with all covenants set forth in the credit agreement, and (iii) had \$110.3 of remaining borrowing capacity available under the facility. Under the Distribution Agreement with Hill-Rom Holdings, Inc., the ability to borrow against the facility for certain strategic transactions such as acquisitions may be limited. The term of the revolving credit facility expires in March 2013. During the three-month periods ended December 31, 2011 and 2010, the weighted average interest rates were 0.7%.

Our Swiss subsidiary maintains additional availability of \$18.6 through local credit facilities collateralized by cash or real property. As of December 31, 2011, there were no borrowings under these facilities, and availability was reduced by \$5.2 for outstanding bank guarantees. We had \$12.0 additional outstanding letters of credit and bank guarantees with other financial institutions.

On July 9, 2010, we issued \$150.0 fixed-rate senior unsecured notes due July 15, 2020 (the Notes). The Notes bear interest at a fixed rate of 5.5%, payable semi-annually in arrears commencing January 15, 2011. The Notes were issued at an original issue discount of \$1.6, which is being amortized to interest expense over the term of the Notes using the effective interest rate method, resulting in an annual interest rate of 5.65%. Deferred financing costs associated with the Notes of \$2.1 are being amortized to interest expense over the term of the Notes.

7. Retirement Benefits*Defined Benefit Plans*

	Three Months Ended December 31,			
	2011		2010	
Service costs	\$ 1.5	\$	1.3	
Interest costs	3.2		3.2	
Expected return on plan assets	(3.4)		(3.8)	
Amortization of unrecognized prior service costs, net	0.2		0.2	
Amortization of net loss	1.4		1.0	
Net pension costs	\$ 2.9	\$	1.9	

Postretirement Healthcare Plans Net postretirement healthcare costs were \$0.2 and \$0.3 for the three months ended December 31, 2011 and 2010.

Edgar Filing: Hillenbrand, Inc. - Form 10-Q

Defined Contribution Plans Expenses related to our defined contribution plans were \$1.8 and \$1.6 for the three months ended December 31, 2011 and 2010.

Table of Contents8. Income Taxes

The following is a reconciliation of the effective income tax rate with the U.S. federal statutory income tax rate:

	Three Months Ended December 31,	
	2011	2010
Federal statutory rates	35.0%	35.0%
Adjustments resulting from the tax effect of:		
Permanent reinvestment of unremitted earnings	(34.7)	
State and income taxes, net of federal benefit	2.7	3.4
Foreign income tax rate differential	(2.1)	(0.9)
Domestic manufacturer's deduction	(2.5)	(2.4)
Unrecognized tax benefits	(3.6)	0.4
Other, net	0.7	0.4
Effective income tax rate	(4.5)%	35.9%

In connection with the acquisition of K-Tron in April 2010, we recorded a deferred tax liability related to the historical earnings of its Swiss operations that would be subject to U.S. income taxes upon earnings repatriation. With the acquisition of Rotex we identified the need to retain cash overseas to support the continued growth of the Process Equipment Group and we began developing a plan to integrate Rotex into our existing international structure. As a result, during the three months ended December 31, 2011, we asserted the K-Tron historical earnings to be permanently reinvested. Accordingly, a tax benefit of \$10.4 was recognized during the period, representing the full release of the deferred tax liability. As of December 31, 2011, U.S. federal and state income taxes have not been provided on accumulated undistributed earnings of substantially all of our foreign subsidiaries as these earnings are considered permanently reinvested.

The activity within our reserve for unrecognized tax benefits was:

Balance at September 30, 2011	\$	7.3
Additions for tax positions of prior years		0.1
Reductions in tax positions of prior years		(1.0)
Balance at December 31, 2011	\$	6.4
Other amounts accrued at December 31, 2011, for interest and penalties	\$	1.7

9. Earnings per Share

At December 31, 2011 and 2010, potential dilutive effects of unvested time-based restricted stock units and stock options, representing approximately 2.2 million shares, were excluded from earnings per share as their effects were anti-dilutive. The dilutive effects of performance-based stock awards will be included in diluted net earnings per share when the related performance criteria are met. At December 31, 2011 and 2010, potential dilutive effects representing approximately 1.8 million and 1.6 million shares were excluded from the computation of diluted earnings per share as the related performance criteria were not met, although we expect to meet various levels of criteria in the future. There was no significant difference in basic and diluted earnings per share and average shares outstanding as a result of dilutive equity awards for the three-month periods ended December 31, 2011 and 2010.

10. Shareholders Equity

During the three months ended December 31, 2011, we paid \$11.9 of cash dividends and retired 0.2 million shares of stock.

Table of Contents11. Comprehensive Income and Accumulated Other Comprehensive Loss

The components of comprehensive income, net of tax, were:

	Three Months Ended December 31,			
	2011		2010	
Net income	\$	31.3	\$	27.1
Change in currency translation adjustment		(6.6)		9.8
Change in pension and postretirement		0.1		0.8
Change in net unrealized gains (losses) on derivative instruments		(0.1)		(0.1)
Change in net unrealized gains (losses) on available-for-sale securities		(1.1)		0.3
Comprehensive income	\$	23.6	\$	37.9

The components of accumulated other comprehensive loss, net of tax, were:

	December 31, 2011		September 30, 2011	
Currency translation adjustment	\$	13.8	\$	20.4
Pension and postretirement		(60.4)		(60.5)
Net unrealized loss on derivative instruments		0.1		0.2
Net unrealized gain on available-for-sale securities		(0.7)		0.4
Accumulated other comprehensive loss	\$	(47.2)	\$	(39.5)

The cumulative foreign currency translation decrease was the result of the strengthening U.S. dollar compared to the Swiss Franc and Euro during the three months ended December 31, 2011.

12. Share-Based Compensation

	Three Months Ended December 31,			
	2011		2010	
Share-based compensation costs	\$	5.3	\$	2.5
Income tax benefit		2.0		0.9
Share-based compensation costs, net of tax	\$	3.3	\$	1.6

During the three months ended December 31, 2011, we made the following grants:

Edgar Filing: Hillenbrand, Inc. - Form 10-Q

	Number of Units
Stock options	504,440
Time-based stock awards	2,214
Performance-based stock awards (maximum that can be earned)	662,051

Stock options granted had a weighted average exercise price of \$22.26, and our time-based stock awards and performance-based stock awards had a weighted average grant date fair value of \$18.62 and \$22.26 for the three-month period ended December 31, 2011.

13. Commitments and Contingencies

Litigation

General

Like most companies we are involved on an ongoing basis in claims, lawsuits, and government proceedings relating to our operations, including environmental, antitrust, patent infringement, business practices, commercial transactions, product and general liability, workers' compensation, auto liability, employment, and other matters.

Table of Contents

The ultimate outcome of these matters cannot be predicted with certainty. An estimated loss from these contingencies is recognized when we believe it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated; however, it is difficult to measure the actual loss that might be incurred related to litigation. If a loss is not considered probable and/or cannot be reasonably estimated, we are required to make a disclosure if there is at least a reasonable possibility that a material loss may have been incurred. Legal fees associated with claims and lawsuits are generally expensed as incurred.

Claims other than employment and related matters have deductibles and self-insured retentions ranging from \$0.5 to \$1.0 per occurrence or per claim, depending upon the type of coverage and policy period. Outside insurance companies and third-party claims administrators assist in establishing individual claim reserves, and an independent outside actuary provides estimates of ultimate projected losses, including incurred but not reported claims, which are used to establish reserves for losses. Claim reserves for employment-related matters are established based upon advice from internal and external counsel and historical settlement information for claims and related fees, when such amounts are considered probable of payment.

The recorded amounts represent our best estimate of the costs we will incur in relation to such exposures, but it is virtually certain that actual costs will differ from those estimates.

Antitrust Litigation

In 2005, the Funeral Consumers Alliance, Inc. (FCA) and a number of individual consumer casket purchasers filed a purported class action antitrust lawsuit on behalf of certain consumer purchasers of Batesville® caskets against the Company and our former parent company, Hillenbrand Industries, Inc., now Hill-Rom Holdings, Inc. (Hill-Rom), and three national funeral home businesses (the FCA Action). A more detailed history of the litigation has been disclosed in previous filings.

The lawsuit claimed, among other things, that the Company's maintenance and enforcement of, and alleged modifications to, its long-standing policy of selling caskets only to licensed funeral homes were the product of a conspiracy among the Company, the other defendants, and others to exclude independent casket discounters, resulting in suppressed competition in the alleged market for caskets and allegedly leading consumers to pay higher than competitive prices for caskets.

Plaintiffs in the FCA Action have generally sought monetary damages on behalf of a class of purchasers of Batesville caskets, trebling of any such damages that may be awarded, recovery of attorneys' fees and costs, and injunctive relief. The plaintiffs in the FCA Action filed a report indicating that they were seeking damages ranging from approximately \$947.0 to approximately \$1,460.0 before trebling on behalf of the purported class of consumers they seek to represent, based on approximately one million casket purchases by the purported class members.

The Federal District Court for the Southern District of Texas denied class certification on March 26, 2009, and ultimately dismissed the lawsuit on September 24, 2010, concluding that plaintiffs shall take nothing by their suit. Currently, the FCA Action is on appeal to the Fifth Circuit Court of Appeals. Plaintiffs have appealed both the District Court's order of dismissal and the order denying class certification. The parties have submitted all appellate briefs, and the Court of Appeals heard oral argument from the parties on December 5, 2011. The Court of Appeals has not yet issued its ruling affirming or reversing the District Court.

If plaintiffs succeed in overturning the judgment, reversing the District Court order denying class certification, and a class is subsequently certified in the FCA Action filed against Hill-Rom and Batesville, and if the plaintiffs prevail at a trial of the class action, the damages awarded to the plaintiffs, which would be trebled as a matter of law, could have a material adverse effect on our results of operations, financial condition, and cash flow. In antitrust actions such as the FCA Action, the plaintiffs may elect to enforce any judgment against any or all of the co-defendants, who have no statutory contribution rights against each other. We and Hill-Rom have entered into a Judgment Sharing Agreement that apportions the costs and any potential liabilities associated with this litigation between us and Hill-Rom.

The defendants are vigorously contesting both liability and the plaintiffs' damages theories.

Table of Contents

As of December 31, 2011, we had incurred approximately \$29.2 in cumulative legal and related costs associated with the FCA Action since its inception.

Matthews Litigation

In August 2010, the York Group, Inc., Milso Industries Corporation, and Matthews International Corporation (collectively the plaintiffs) filed a lawsuit against Scott Pontone and Batesville Casket Company, Inc. in the United States District Court, Western District of Pennsylvania, which was subsequently amended by the plaintiffs in February 2011 to include two additional defendants, Harry Pontone and Pontone Casket Company, LLC (the Litigation). The Litigation arises, in part, as a result of a Marketing Consulting Agreement entered into between Batesville and Pontone Casket Company effective June 24, 2010, and Batesville's hiring of two former employees of certain plaintiff entities in June 2010. Scott Pontone provides consulting services to Batesville pursuant to the Marketing Consulting Agreement entered into between Batesville and Pontone Casket Company. The plaintiffs allege that Scott Pontone and Harry Pontone breached contractual and business obligations with the plaintiffs and that Batesville induced certain of those breaches as part of its sales initiatives in the New York metropolitan area.

The plaintiffs claim that they have lost revenue and will lose future revenue in the New York metropolitan area, although the amount of those alleged damages is unspecified. The plaintiffs seek to: (i) recover compensatory damages, punitive damages, attorneys' fees and costs; and (ii) enjoin certain activities by Harry Pontone, Scott Pontone, Pontone Casket Company, and Batesville and its employees in the New York metropolitan area. The plaintiffs had originally moved for a preliminary injunction, but withdrew that request after expedited discovery. No trial date has been set, and the parties are engaged in ongoing motions practice and discovery. A hearing on a motion to dismiss for lack of subject matter jurisdiction filed by the Pontone defendants is scheduled for February 3, 2012.

The Company believes it acted lawfully and intends to defend this matter vigorously. The Company does not believe, based on currently available information, that the outcome of this lawsuit will have a material adverse effect on the Company's financial condition and liquidity. If the plaintiffs prevail at trial, however, the outcome could be materially adverse to the Company's operating results or cash flow for the particular period, depending, in part, upon the operating results or cash flow for such period.

14. Fair Value Measurements

	Carrying Value at December 31, 2011	Fair Value at December 31, 2011 Using Inputs Considered as:		
		Level 1	Level 2	Level 3

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements and Factors That May Affect Future Results

Throughout this Form 10-Q, we make a number of forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. As the words imply, these are statements about future plans, objectives, beliefs, and expectations that might or might not happen in the future, as contrasted with historical information. Forward-looking statements are based on assumptions that we believe are reasonable, but by their very nature they are subject to a wide range of risks.

Accordingly, in this Form 10-Q, we may say something like,

We expect that future revenue associated with Process Equipment Group will be influenced by order backlog.

That is a forward-looking statement, as indicated by the word expect and by the clear meaning of the sentence.

Other words that could indicate we are making forward-looking statements include:

intend	believe	plan	expect	may	goal	would
become	pursue	estimate	will	forecast	continue	could
targeted	encourage	promise	improve	progress	potential	should

This is not an exhaustive list. Our intent is to provide examples of how readers might identify forward-looking statements. The absence of any of these words, however, does not mean that the statement is not forward-looking.

Here is the key point: Forward-looking statements are not guarantees of future performance, and actual results could differ materially from those set forth in forward-looking statements. Any number of factors many of which are beyond our control could cause our performance to differ significantly from what is described in the forward-looking statements.

For a discussion of factors that could cause actual results to differ from those contained in forward-looking statements, see the discussions under the heading Risk Factors in Item 1A of the Form 10-K for the year ended September 30, 2011, and Part II, Item 1A, of this Form 10-Q. We assume no obligation to update or revise any forward-looking statements.

Table of Contents**Executive Overview**

(in millions throughout Management's Discussion and Analysis)

The following discussion compares our results for the three months ended December 31, 2011 to the three months ended December 31, 2010. We begin the discussion at a consolidated level and provide separate detail about Batesville, Process Equipment Group, and Corporate. These financial results are prepared in accordance with accounting principles generally accepted in the U.S. (GAAP).

We also provide certain non-GAAP operating performance measures. These non-GAAP measures exclude the tax benefit of the international integration, long-term incentive compensation related to the international integration, backlog amortization, antitrust litigation, business acquisition costs, and sales tax adjustments, as well as the related income tax. This non-GAAP information is provided as a supplement, not as a substitute for, or as superior to, measures of financial performance prepared in accordance with GAAP.

We use this information internally to make operating decisions and believe it is helpful to investors because it allows more meaningful period-to-period comparisons of our ongoing operating results. The information can also be used to perform trend analysis and to better identify operating trends that may otherwise be masked or distorted by these types of items. Finally, the Company believes it provides a higher degree of transparency of certain items.

We have previously discussed our strategy to prudently acquire selected manufacturing businesses that have a record of success and could benefit from our core competencies to spur faster and more profitable growth. Given that strategy, it is a natural consequence to incur related expenses such as amortization from acquired intangible assets and additional interest expense from debt-funded acquisitions. Accordingly, we use EBITDA, among other measures, to monitor our business performance.

The non-GAAP operating performance measures are discussed on page 18.

Consolidated

	Three Months Ended December 31,			
	2011		2010	
	Amount	% of Revenue	Amount	% of Revenue
Net revenue	\$ 231.6	100.0	\$ 211.0	100.0
Gross profit	93.7	40.5	91.2	43.2
Operating expenses	60.3	26.0	49.1	23.3
Operating profit	33.4	14.4	42.1	20.0
Interest expense	(2.9)	1.3	(2.8)	1.3
Other income and expense	(0.5)	0.2	3.0	1.4
Income taxes	(1.3)	0.6	15.2	7.2
Net income	\$ 31.3		\$ 27.1	

Edgar Filing: Hillenbrand, Inc. - Form 10-Q

- Consolidated revenue increased 10% (\$20.6) to \$231.6, and 9% on a constant currency basis. The revenue increase was largely due to the Rotex acquisition completed in August 2011, as well as an increase in existing Process Equipment Group revenue, offset by volume declines in the Batesville business platform. Batesville's revenue was \$145.9, a decrease of \$14.0 (9%). Process Equipment Group's revenue increased 68% (\$34.6) to \$85.7, and 65% on a constant currency basis.
- Gross profit margin was 40.5% compared to 43.2%, a decline of 270 basis points.
- Batesville's gross profit margin was 39.6%, a 320 basis point decline, largely due to lower volume and to a lesser extent, the increased price of steel and fuel.
- Process Equipment Group's gross profit margin was 41.9%, a 270 basis point decline. The decline was primarily due to higher large systems sales in the quarter, which typically include more outsourced components. Additionally, the prior year's quarter included a number of equipment upgrades as customers invested to improve efficiencies coming out of the economic downturn.
- Operating expenses as a percentage of sales increased to 26.0% from 23.3% in the prior year, almost entirely driven by the backlog amortization of \$2.5 at Rotex and \$2.2 of additional long-term incentive compensation

Table of Contents

related to the international integration (described more fully in Item 1, Note 8). Absent these charges, our operating expense to sales ratio improved at both of the business platforms.

- The vesting of our long-term performance-based stock awards is contingent upon the creation of shareholder value as measured by the cumulative cash returns and final period net operating profit after tax compared to the established hurdle rate over a three-year period. As such, the tax benefit from the international integration created \$2.2 of additional expense related to performance-based stock awards.
- Other income and expense decreased \$3.5 largely due to the full collection of the Forethought Note in April 2011.
- A tax benefit of \$10.4 was recognized due to the determination that certain international earnings that were previously expected to be repatriated will now be permanently reinvested. This resulted in a 4.5% tax benefit compared to 35.9% tax expense in the prior year. (See Item 1, Note 8 for details.)

Batesville

	Three Months Ended December 31,			
	2011		2010	
	Amount	% of Revenue	Amount	% of Revenue
Net revenue	\$ 145.9	100.0	\$ 159.9	100.0
Gross profit	57.8	39.6	68.4	42.8
Operating expenses	23.5	16.1	25.8	16.1
Operating profit	34.3	23.5	42.6	26.6

- Revenue decreased by \$14.0 (9%) largely due to an 11% decline (\$14.6) in burial unit volume. We believe this volume decrease was largely attributable to lower total deaths and an above average increase in cremation rates resulting in fewer burials year over year. Additionally, many customers chose to buy in advance of the annual price increase that became effective in October. This volume decrease was partially offset by a modest increase in the average selling price that contributed \$0.7 to revenue.
- Gross profit decreased \$10.6 (15%) primarily due to volume (12%) and to a lesser extent by higher commodity costs (3%), particularly fuel and steel.
- Batesville's ratio of operating expenses to sales was flat on a GAAP basis. On an adjusted basis, the ratio improved by 100 basis points, from 16.3% in the prior year to 15.3%, given the impact of the long-term incentive compensation related to the international integration, sales tax recoveries in the prior year, and a modest increase in antitrust litigation expense. Management continues to challenge its cost structure to offset declining volumes and effectively reduced compensation and benefit expenses by over \$4 in the first quarter.

Process Equipment Group

	Three Months Ended December 31,			
	2011		2010	
	Amount	% of Revenue	Amount	% of Revenue

Edgar Filing: Hillenbrand, Inc. - Form 10-Q

Net revenue	\$	85.7	100.0	\$	51.1	100.0
Gross profit		35.9	41.9		22.8	44.6
Operating expenses		27.8	32.4		15.9	31.1
Operating profit		8.1	9.5		6.9	13.5

- Revenue increased by 68% (\$34.6) and 65% (\$33.4) on a constant currency basis. Revenue was positively impacted by the Rotex acquisition in August 2011, as well as growth in existing Process Equipment Group revenue.
- Future revenue associated with Process Equipment Group is influenced by order backlog. There is a lead time involved in manufacturing specialized equipment and parts for customers. Backlog can be an indicator of future revenue; however, it may not include many projects and parts orders that are booked and shipped within the same quarter. The timing of order placement, size, and customer delivery dates can create unusual fluctuations in backlog and revenue. Backlog is also affected by foreign exchange fluctuations for orders

Table of Contents

denominated in currencies other than U.S. dollars. Based upon new orders accepted, less orders completed and shipped during the first quarter of 2012, Process Equipment Group's backlog increased from \$119.0 on September 30, 2011, to \$128.5 on December 31, 2011.

- Process Equipment Group's gross profit margin was 41.9%, a 270 basis point decline. The decline was primarily due to higher large systems sales in the quarter, which typically include more outsourced components. Additionally, the prior year's quarter included a number of equipment upgrades as customers invested to improve efficiencies coming out of the economic downturn. For the balance of the year, we expect gross profit margins to be slightly below the prior year as revenue associated with systems sales continues to grow.
- Operating expenses as a percentage of sales increased by 130 basis points primarily due to \$2.5 of backlog amortization and \$1.2 of intangible amortization related to the Rotex acquisition. The value of the backlog was recorded as an asset at the time of acquisition and subsequently expensed when the related revenue was recognized. No further backlog amortization will be recognized related to the Rotex acquisition. On an adjusted basis (excluding the impact of long-term incentive compensation related to the international integration and backlog amortization), the operating expense to sales ratio was 29.3%, a 160 basis point improvement over the prior year.

Corporate

	2011		Three Months Ended December 31,		2010	
	Amount	% of Revenue	Amount	% of Revenue	Amount	% of Revenue
Operating expenses, excluding business acquisition costs and long-term incentive compensation related to the international integration	\$ 7.3	3.2	\$ 7.2	3.4		
Long-term incentive compensation related to the international integration	1.2	0.5				
Business acquisition costs	0.5	0.2	0.2	0.1		
Operating expenses	\$ 9.0	3.9	\$ 7.4	3.5		

Operating expenses excluding business acquisition costs and long-term incentive compensation related to the international integration increased \$0.1 (1%) over the prior year. Total corporate operating expenses as a percentage of sales increased from 3.5% to 3.9%. Excluding the impact of business acquisition costs and long-term incentive compensation related to the international integration, the operating expense to sales ratio improved by 20 basis points to 3.2% from 3.4% in the prior year.

Non-GAAP Operating Performance Measures

The following are reconciliations from our GAAP net income, diluted earnings per share, and EBITDA to our non-GAAP adjusted net income, adjusted earnings per share, and adjusted EBITDA as well as a reconciliation from GAAP net income to EBITDA. These non-GAAP measures exclude the tax benefit of the international integration, long-term incentive compensation related to the international integration, backlog amortization, antitrust litigation, business acquisition costs, and sales tax adjustments, as well as the related income tax.

Three Months Ended

Table of Contents**Liquidity and Capital Resources**

We believe the ability to generate cash is critical to the value of the Company. In this section, we tell you about the ability to generate and access cash to meet business needs. We will describe actual results in generating and utilizing cash by comparing the first three months of fiscal year 2012 to the same period last year. We will also talk about any significant trends to help you understand how this could impact us going forward.

We will tell you about how we see operating, investing, and financing cash flow being affected for the next 12 months. While it is not a certainty, we will tell you where we think the cash will come from and how we intend to use it. We will also talk about significant risks or possible changes that could change those expectations. Finally, we will tell you about other significant matters that could affect liquidity on an ongoing basis.

	Three Months Ended December 31,	
	2011	2010
Cash flow provided by (used in):		
Operating activities	\$ 27.0	\$ 27.8
Investing activities	(4.2)	(1.8)
Financing activities	(13.6)	8.3
Effect of exchange rate changes on cash and cash equivalents	(2.2)	3.3
Increase in cash and cash equivalents	\$ 7.0	\$ 37.6

Cash used in investing activities increased \$2.4 due to a decrease in return of investment capital from our limited partnership investments. Cash used in financing activities increased \$21.9 as a result of a draw on the revolving credit facility in fiscal year 2011.

We increased our quarterly dividend to \$0.1925 per common share from \$0.1900 paid during fiscal year 2011. We plan to continue to pay quarterly cash dividends at this rate throughout fiscal year 2012, which will require about \$11.9 each quarter.

Table of Contents

12-Month Outlook

We believe that our cash on hand, cash generated from operations, and cash available under our revolving credit facility will be sufficient to fund operations, working capital needs, capital expenditure requirements, and financing obligations. We may use additional cash generated by the business to pay down our revolving credit facility, depending on our working capital needs.

The cash at our foreign subsidiaries totaled \$88.2 at December 31, 2011. The majority of these funds (\$84.7) represent earnings that are considered to be permanently reinvested to support the growth strategies of our foreign subsidiaries. We expect that our available borrowing capacity combined with cash flow expected from existing business will be sufficient to fund operating requirements in the U.S.

Other Liquidity Matters

As of December 31, 2011, we: (i) had \$6.7 in outstanding letters of credit under our revolving credit facility, (ii) were in compliance with all covenants set forth in the credit agreement, and (iii) had complete access to the remaining \$110.3 of borrowing capacity available under the revolving credit facility. In addition, we have approximately \$18.6 of available credit under our Swiss facilities. We have no other significant changes to report to the discussion included in our previously filed Form 10-K for the year ended September 30, 2011.

We are currently authorized by our Board of Directors to purchase additional shares of our common stock, and may elect to do so, depending on market conditions and other needs for cash consistent with our growth strategy.

Under the Distribution Agreement with Hill-Rom, the ability to borrow against the revolving credit facility for certain strategic transactions such as acquisitions may be limited.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements.

Contractual Obligations or Contingent Liabilities and Commitments

There were no significant changes to our contractual obligations or contingent liabilities and commitments during the three months ended December 31, 2011.

Critical Accounting Estimates

There were no significant changes to this information during the three months ended December 31, 2011, as outlined in our Annual Report on Form 10-K for the year ended September 30, 2011.

Recently Adopted and Issued Accounting Standards

For a summary of recently issued and adopted accounting standards applicable to us, see Note 2 to our condensed consolidated financial statements included in Part I, Item 1, of this Form 10-Q.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

There have been no material changes from the information provided in our Annual Report on Form 10-K for the year ended September 30, 2011.

Item 4. CONTROLS AND PROCEDURES

Our management, with the participation of our President and Chief Executive Officer and our Senior Vice President and Chief Financial Officer (the Certifying Officers), has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this report. Based upon that evaluation, the Certifying Officers concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report for the information required to be disclosed in the reports we file or submit under the Exchange Act to be recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure. There were no changes in our internal control over financial reporting during the quarter ended December 31, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

Information pertaining to legal proceedings can be found in Note 13 to the interim consolidated financial statements included in Part I of this report.

Item 1A. RISK FACTORS

For information regarding the risks we face, see the discussion under Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended September 30, 2011. There have been no other material changes to the risk factors described in that report.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no unregistered sales of equity securities in the three months ended December 31, 2011.

Item 6. EXHIBITS

The exhibits filed with this report are listed on the Exhibit Index, which is incorporated herein by reference. In reviewing any agreements included as exhibits to this report, please remember that they are included to provide you with information regarding their terms and are not intended to provide any other factual or disclosure information about us or the other parties to the agreements. The agreements may contain representations and warranties by the parties to the agreements, including us. These representations and warranties have been made solely for the benefit of the other parties to the applicable agreement and:

- should not in all instances be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate;
- may have been qualified by disclosures that were made to the other party in connection with the negotiation of the applicable agreement, which disclosures are not necessarily reflected in the agreement;
- may apply standards of materiality in a way that is different from what may be viewed as material to you or other investors; and
- were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement and are subject to more recent developments.

Accordingly, these representations and warranties may not describe the actual state of affairs as of the date they were made or at any other time.
