QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2016,

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-15827

VISTEON CORPORATION

(Exact name of registrant as specified in its charter)

State of Delaware 38-3519512

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

One Village Center Drive, Van Buren Township, Michigan 48111

(Address of principal executive offices) (Zip code)

Registrant's telephone number, including area code: (800)-VISTEON

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant: has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

As of July 21, 2016, the registrant had outstanding 34,012,831 shares of common stock.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Description of Business

Visteon Corporation (the "Company" or "Visteon") is a global automotive supplier that designs, engineers and manufactures innovative electronics products for nearly every original equipment vehicle manufacturer ("OEM") worldwide including Ford, Nissan, Renault, Mazda, BMW, General Motors and Honda. Visteon is headquartered in Van Buren Township, Michigan and has an international network of manufacturing operations, technical centers and joint venture operations, supported by approximately 11,000 employees, dedicated to the design, development, manufacture and support of its product offerings and its global customers. The Company's manufacturing and engineering footprint is principally located outside of the U.S., with a heavy concentration in low-cost geographic regions. Visteon delivers value for its customers and stockholders through its technology-focused core vehicle cockpit electronics business. The Company's cockpit electronics product portfolio includes audio systems, information displays, instrument clusters, head up displays, infotainment systems, and telematics solutions. The Company's vehicle cockpit electronics business is comprised of and reported under the Electronics segment. In addition to the Electronics segment, the Company has residual operations in South America and Europe previously associated with the former Interiors and Climate businesses, not subject to discontinued operations classification, that comprise Other. A summary of transactions impacting the Company's businesses is provided below.

Exit of Climate Business

On June 9, 2015, Visteon Corporation and its wholly owned subsidiary, VIHI, LLC (collectively, "Visteon") completed the sale to Hahn & Co. Auto Holdings Co., Ltd. and Hankook Tire Co., Ltd. (together, the "Purchasers") of all of its shares of Halla Visteon Climate Control Corporation, a Korean corporation ("HVCC"), for approximately \$3.4 billion, or KRW 52,000 per share, after adjusting for the 2014 dividend paid by HVCC to Visteon (the "Climate Transaction"), pursuant to and in accordance with the Share Purchase Agreement, dated as of December 17, 2014, among Visteon and the Purchasers. See Note 3 "Discontinued Operations" for additional disclosures. The Company received net cash proceeds of approximately \$2.7 billion and recognized a pretax gain of approximately \$2.3 billion in connection with the closing of the Climate Transaction in the second quarter 2015. The results of operations for the Climate business have been classified as (loss) income from discontinued operations, net of tax in the consolidated statements of comprehensive income for the three and six month periods ended June 30, 2015.

On July 18, 2016, the Company reached an agreement to sell its South Africa climate operations, with 2015 annual sales of \$9 million as reported in the Company's Other product line. The sale is expected to close during the third quarter of 2016 for proceeds of approximately \$2 million. The Company expects to record a loss of approximately \$12 million primarily related to foreign currency translation amounts recorded in accumulated other comprehensive loss.

Exit of Interiors Business

On December 1, 2015, Visteon completed the sale and transfer of its equity ownership in Visteon Deutschland GmbH, which operated the Berlin, Germany interiors plant ("Germany Interiors Divestiture"). The Company contributed cash, of approximately \$141 million, assets of \$27 million, and liabilities of \$198 million including pension related liabilities. The Company will make a final contribution payment of approximately \$33 million by November 2016 which is included in the Company's consolidated balance sheet as "Other current liabilities" as of June 30, 2016.

During 2014, the Company divested the majority of its global Interiors business (the "Interiors Divestiture"). Subsequently, Visteon completed the sale of its Interiors operations in Thailand on February 2, 2015. Remaining

operations subject to the Interiors Divestiture are located in Argentina and Brazil and are expected to close during 2016. Assets and liabilities associated with these operations continue to meet the "held for sale" criteria at June 30, 2016 and are classified as "Other current assets" or "Other current liabilities" in the consolidated balance sheets. These remaining transactions are subject to various conditions, including regulatory and antitrust approvals, receipt of other third party consents and approvals and other customary closing conditions, and may be subject to further cash impacts based on purchase price adjustments at the time of closing. See Note 3 "Discontinued Operations" for additional disclosures. The Company expects to record losses in connection with the Argentina and Brazil portions of the Interiors Divestiture in future periods upon closing, which are estimated to be approximately \$20 million.

NOTE 2. Summary of Significant Accounting Policies

The unaudited consolidated financial statements of the Company have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") have been condensed or omitted pursuant to such rules and regulations. These interim consolidated financial statements include all adjustments

Table of Contents

(consisting of normal recurring adjustments, except as otherwise disclosed) that management believes are necessary for a fair presentation of the results of operations, financial position and cash flows of the Company for the interim periods presented. Interim results are not necessarily indicative of full-year results.

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and all subsidiaries that are more than 50% owned and over which the Company exercises control. Investments in affiliates of greater than 20% and for which the Company exercises significant influence but does not exercise control are accounted for using the equity method. All other investments in non-consolidated affiliates are accounted for using the cost method.

The Company determines whether joint ventures in which it has invested is a Variable Interest Entity (“VIE”) at the start of each new venture and when a reconsideration event has occurred. An enterprise must consolidate a VIE if it is determined to be the primary beneficiary of the VIE. The primary beneficiary has both the power to direct the activities of the VIE that most significantly impact the entity’s economic performance and the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company determined that Yanfeng Visteon Electronics (China) Investment Co., Ltd. (“YFVIC”), is a VIE. The Company holds a variable interest in YFVIC primarily related to its ownership interests and subordinated financial support. The Company and Yanfeng Automotive Trim Systems Co., Ltd. (an unrelated party) each own 50% of YFVIC. YFVIC is not consolidated since the Company is not the primary beneficiary.

At June 30, 2016, the Company’s investment in YFVIC is \$24 million. In addition, at June 30, 2016, the Company has receivables due from YFVIC, including trade receivables and other advances of \$18 million, subordinated loans receivable of \$22 million and payables due to YFVIC of \$13 million. At December 31, 2015, the Company’s investment in YFVIC was \$23 million and it had receivables due from YFVIC, including trade receivables and other advances of \$36 million, a subordinated loan receivable of \$10 million and payables due to YFVIC of \$17 million. At June 30, 2016, the Company’s maximum exposure to loss in YFVIC is \$90 million, which includes assets described above and a \$26 million loan guarantee. During the three and six months ended June 30, 2016, Visteon loaned YFVIC and affiliates approximately \$4 million and \$12 million, respectively, expected to be repaid within five years.

On July 22, 2016, the Company sold a cost method investment to a third party for proceeds of approximately \$11 million. The Company will record a gain on sale of approximately \$5 million during the third quarter of 2016.

Use of Estimates: The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates, judgments and assumptions that affect amounts reported herein. Management believes that such estimates, judgments and assumptions are reasonable and appropriate. However, due to the inherent uncertainty involved, actual results may differ from those provided in the Company's consolidated financial statements.

Reclassifications: Certain prior period amounts have been reclassified to conform to the current period presentation.

Other (Income) Expense, Net: Other (income) expense, net includes transformation initiatives, transaction hedging and exchange, and integration costs.

Other (income) expense, net consists of the following:

Three	Six
Months	Months
Ended	Ended
June 30	June 30
2016	2015
2015	2015

Edgar Filing: VISTEON CORP - Form 10-Q

	(Dollars in Millions)			
Transformation initiatives	\$1	\$13	\$3	\$18
Transaction hedging and exchange (gains) losses	—	(22)	1	(19)
Integration costs	—	5	1	9
Recoverable taxes	(1)	—	(1)	—
	\$—	\$(4)	\$4	\$8

Transformation initiatives include information technology separation costs and financial and advisory services incurred in connection with execution of the Company's comprehensive value creation plan. Transaction hedging and exchange losses of \$1 million for the six months ended June 30, 2016, relate to the Climate Transaction Korean withholding tax refund exchange impacts.

7

Table of Contents

Transaction hedging and exchange gains for the three and six months ended June, 30 2015 of \$22 million and \$19 million, respectively, relate to Climate Transaction proceeds hedging and exchange impacts.

Integration costs include costs associated with re-branding, facility modification, information technology readiness and related professional services necessary to integrate businesses associated with the Electronics Acquisition.

Cash and Equivalents: The Company considers all highly liquid investments purchased with a maturity of three months or less, including short-term time deposits, commercial paper, repurchase agreements and money market funds to be cash equivalents. As of June 30, 2016 the Company's cash balances are invested in a diversified portfolio of cash and cash equivalents including money market funds, commercial paper rated A2/P2 and above with maturity under three months, time deposits and other short-term cash investments, which mature under three months with highly rated banking institutions. The cost of such funds approximates fair value based on the nature of the investment.

Short-term Investments: Short-term investments of \$47 million as of December 31, 2015 included corporate bonds, asset backed securities, and commercial paper with maturities between three and twelve months held as part of the Company's separately managed accounts. The cost of these Level 1 investments approximated fair value. These investments were liquidated during the first quarter of 2016.

Restricted Cash: Restricted cash represents amounts designated for uses other than current operations and includes \$5 million related to the Letter of Credit Facility, and \$1 million related to cash collateral for other corporate purposes at June 30, 2016.

Investments in Affiliates: The Company recorded equity in the net income of affiliates of \$3 million and \$12 million for the three month periods ended June 30, 2016 and 2015 respectively. For the six month periods ended June 30, 2016 and 2015, the Company recorded \$3 million and \$11 million, respectively. Investments in affiliates were \$58 million and \$56 million at June 30, 2016 and December 31, 2015, respectively. At June 30, 2016 and December 31, 2015, investments in affiliates accounted for under the equity method totaled \$47 million and \$45 million, respectively, while investments in affiliates accounted for under the cost method were \$11 million at June 30, 2016 and December 31, 2015. The Company monitors its investments in affiliates for indicators of other-than-temporary declines in value on an ongoing basis. If the Company determines that such a decline has occurred, an impairment loss is recorded, which is measured as the difference between carrying value and fair value.

Product Warranty and Recall: Amounts accrued for product warranty and recall claims are based on management's best estimates of the amounts that will ultimately be required to settle such items. The Company's estimates for product warranty and recall obligations are developed with support from its sales, engineering, quality and legal functions and include due consideration of contractual arrangements, past experience, current claims and related information, production changes, industry and regulatory developments and various other considerations. The Company can provide no assurances that it will not experience material claims in the future or that it will not incur significant costs to defend or settle such claims beyond the amounts accrued or beyond what the Company may recover from its suppliers. The following table provides a reconciliation of changes in the product warranty and recall claims liability:

Six

Ending balance	\$37	\$35

Recently Issued Accounting Pronouncements: In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-9, "Revenue from Contracts with Customers", which is the new comprehensive revenue recognition standard that will supersede existing revenue recognition guidance under U.S. GAAP. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to a customer in an amount that reflects the consideration to which the

8

Table of Contents

company expects to be entitled in exchange for those goods and services. To achieve this principle, an entity identifies the contract with a customer, identifies the separate performance obligations in the contract, determines the transaction price, allocates the transaction price to the separate performance obligations and recognizes revenue when each separate performance obligation is satisfied. This ASU allows for both retrospective and prospective methods of adoption. In July 2015, the FASB approved a one-year deferral of the effective date of the standard. As such, the new standard will become effective for annual and interim periods beginning after December 15, 2017 with early adoption on the original effective date permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements and anticipates changes to the revenue recognition of customer owned tooling and engineering recoveries. The Company expects to adopt this standard during the first quarter 2018.

In April 2015, the FASB issued ASU No. 2015-3, "Simplifying the Presentation of Debt Issuance Cost". The ASU requires debt issuance costs associated with a recognized debt liability to be presented on the balance sheet as a direct deduction from the carrying amount of the corresponding debt liability. This new guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The Company adopted the guidance on a retrospective basis during the three months ending March 31, 2016 and accordingly, previously issued debt issuance costs in the amount of \$1 million as of December 31, 2015 have been reclassified as a reduction of the corresponding debt liability.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)": The amendments supersede current lease requirements in Topic 840 which require lessees to recognize most leases on their balance sheets as lease liabilities with corresponding right-of-use assets. The objective of Topic 842 is to establish the principles that lessees and lessors shall apply to report useful information to users of financial statements about the amount, timing, and uncertainty of cash flows arising from a lease. This new guidance is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, "Compensation Stock Compensation (Topic 718)": Improvements to Employee Share-Based Payment Accounting. The ASU includes multiple provisions intended to simplify various aspects of the accounting for share-based payments. While aimed at reducing the cost and complexity of the accounting for share-based payments, the amendments are expected to significantly impact net income, earnings per share, and the statement of cash flows. This new guidance is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

NOTE 3. Discontinued Operations

The operations subject to the Interiors Divestiture and Climate Transaction met conditions required to qualify for discontinued operations reporting. Accordingly, the results of operations for Interiors business subject to the Interiors Divestiture have been reclassified to (loss) income from discontinued operations, net of tax in the consolidated statements of comprehensive income for the three and six month periods ended June 30, 2016 and 2015. The three and six month periods ended June 30, 2015 also included the results of operations for the Climate business, sold during the second quarter of 2015.

Table of Contents

Discontinued operations are summarized as follows:

	Three Months Ended		Six Months Ended	
	June 30		June 30

During the six months ended June 30, 2016, the Company recorded currency impacts of \$8 million in connection with the Korean capital gains withholding tax recovered during the first quarter of 2016.

During the three month period ended June 30, 2015, the Company received \$3.4 billion of gross proceeds and recorded a \$2.3 billion in pre-tax gain associated with the Climate Transaction. A summary of the gain is summarized below (dollars in millions):

Gross proceeds	(1)\$3,423
Korea withholding tax	(2)(377)
Professional fees	(3)(20)
Korea security transaction tax	(4)(17)
Divested cash balances	(5)(345)
Net cash provided from investing activities	2,664
Net assets divested, excluding cash balances	(5)(557)
Information technology separation and service obligations	(6)(53)
Employee related charges	(7)(45)
Electronics business repurchase obligation	(8)(50)
Professional fees	(3)(4)
Korea withholding tax recoverable	(2)377
Net gain on Climate Transaction	\$2,332

(1) Gross proceeds of \$3,423 million were received in connection with the Climate Transaction, translated at a spot rate of 1121.5 KRW to USD on June 9, 2015. Impacts of related hedging activities and exchange on proceeds conversion into USD are included in the Company's consolidated statements of comprehensive income as "Other (income) expense, net" for the three and six month periods ended June 30, 2015.

(2) In connection with the transaction, the Company recorded a tax recoverable of \$377 million for Korean capital gains tax withheld by the Purchasers and paid to the Korean government. This amount reduced proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015. In January 2016, the Company recovered the entire amount of the Korean capital gains withholding tax, adjusted for currency and exchange impacts, of \$356 million.

Table of Contents

- (3) Professional fees of \$24 million, representing fees paid to financial advisors, were based on a percentage of the gross proceeds, partially offset by previously paid retainer fees of \$4 million, for a net payment of \$20 million reducing proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.
- (4) Security transaction taxes of \$17 million were remitted to the Korean government as of the transaction close, reducing proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.
- (5) Net assets of \$902 million, including assets, liabilities, accumulated other comprehensive income and non-controlling interests, were divested in connection with the Climate Transaction. Divested assets included \$345 million of cash balances, reflected as a reduction of transaction proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.
- (6) In connection with the Climate Transaction, the Company has entered an agreement pursuant to which Visteon will provide information technology ongoing and separation services for HVCC to fully operate as an independent entity with estimated costs of approximately \$53 million. The information technology liability is included in the Company's consolidated balance sheets as "Other current liabilities" as of June 30, 2016 and December 31, 2015.
- (7) Employee related charges of \$45 million include bonus payments, the Company's assumption of incentive plan liabilities, and impacts of employment change in control provisions. Bonus payments of \$30 million are classified in the Company's net cash provided from operating activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015. Amounts remaining to be paid are included in the Company's consolidated balance sheets as "Accrued employee liabilities" as of June 30, 2016 and December 31, 2015.
- (8) In connection with the Climate Transaction, the Company has entered an agreement to purchase certain electronics operations located in India, expected to close in 2016 after legal separation and regulatory approvals are met. The Company has recorded a repurchase obligation of \$50 million, representing the estimated purchase price of the subject business. The Company continues to consolidate the business, with net assets of approximately \$22 million as of June 30, 2016, based on the Company's continued controlling financial interest. The Company's controlling financial interest was evaluated based on continued operating control and obligation to fund losses or benefit from earnings. The business is included in a legal entity currently owned by HVCC and therefore the Electronics business assets are not available for general corporate purposes. The repurchase obligation is included in the Company's consolidated balance sheets as "Other current liabilities" as of June 30, 2016 and December 31, 2015.

Table of Contents

As of June 30, 2016 and December 31, 2015, held for sale balances include assets and liabilities associated with operations subject to the Interiors Divestiture located in Argentina and Brazil.

Held for sale balances, classified as "Other current assets" and "Other current liabilities" on the consolidated balance sheets are summarized as follows:

	June 30 2016	December 31 2015
	(Dollars in Millions)	
ASSETS HELD FOR SALE		
Cash and equivalents	\$ 1	\$ 1
Accounts receivable, net	12	9
Inventories, net	5	4
Other current assets	3	3
Total current assets held for sale	21	17
Total assets held for sale	\$ 21	\$ 17
LIABILITIES HELD FOR SALE		
Accounts payable	\$ 8	\$ 6
Employee benefits	3	2
Other current liabilities	—	1
Total current liabilities held for sale	11	9
Total liabilities held for sale	\$ 11	\$ 9

The Company has combined cash flows from discontinued operations with cash flows from continuing operations within the operating, investing and financing categories within the consolidated statements of cash flows. Cash and non-cash items for certain operating and investing activities related to discontinued operations for the six months ended June 30, 2016 and 2015 are as follows:

	Six Months Ended June 30 2016	2015
	(Dollars in Millions)	
Depreciation and amortization	\$ —	\$ 85
Asset impairments and losses on divestiture	\$ 2	\$ 16
Capital expenditures	\$ 2	\$ 81

Note 4. Restructuring Activities

During the three and six months ended June 30, 2016, the Company recorded \$7 million and \$17 million of restructuring expenses, net of reversals of \$1 million and \$2 million, respectively. Given the economically-sensitive and highly competitive nature of the automotive electronics industry, the Company continues to closely monitor current market factors and industry trends taking action as necessary, including but not limited to, additional

restructuring actions. However, there can be no assurance that any such actions will be sufficient to fully offset the impact of adverse factors on the Company or its results of operations, financial position and cash flows.

Electronics

During the first quarter of 2016, the Company announced a restructuring program to transform the Company's engineering organization and supporting functional areas to focus on execution and technology. The organization will be comprised of regional engineering, product management and advanced technologies, and global centers of competence. During the three and six months

12

Table of Contents

ended June 30, 2016, the Company has recorded approximately \$1 million and \$12 million, respectively, of restructuring expenses under this program, associated with approximately 100 employees, of which \$10 million remains accrued as of June 30, 2016. The Company expects to record additional restructuring costs related to this program as the underlying plan is finalized.

During the fourth quarter of 2015, the Company announced a restructuring program designed to reduce the workforce at a European Electronics facility. The Company recorded \$12 million of severance and termination benefits under this program associated with approximately 100 employees, of which \$9 million remains accrued as of June 30, 2016. The Company expects to record additional restructuring costs related to this program as the underlying plan is finalized.

In connection with the Electronics Acquisition, the Company commenced a restructuring program designed to achieve annual cost savings through transaction synergies. During the three and six months ended June 30, 2015, the Company recorded \$9 million and \$12 million, respectively, of severance and termination benefits under this program associated with approximately 420 employees. As of June 30, 2016, \$6 million remains accrued for this program and charges are considered substantially complete.

The Company previously announced a restructuring program designed to reduce fixed costs and to improve operational efficiency by addressing certain under-performing operations. In connection with that program, the Company announced plans to realign its corporate and administrative functions directly to their corresponding operational beneficiary. The Company recorded \$3 million for restructuring expenses during the three and six months ended June 30, 2015, primarily related to severance and termination benefits. As of June 30, 2016, this program is considered substantially complete.

Other

During the three and six months ended June 30, 2016, the Company recorded \$7 million of restructuring expenses, related to severance and termination benefits, in connection with the wind-down of certain operations in South America, which remains accrued as of June 30, 2016. The Company expects to record additional restructuring costs related to this program as the underlying plan is finalized.

During the three and six months ended June 30, 2015, the Company recorded \$1 million and \$2 million respectively, of restructuring expenses, classified as discontinued operations, related to severance and termination benefits in connection with the reorganization of the Company's Climate operations in France.

Restructuring Reserves

Restructuring reserve balances of \$37 million and \$38 million at June 30, 2016 and December 31, 2015, respectively, are classified as "Other current liabilities" on the consolidated balance sheets. The Company anticipates that the activities associated with the restructuring reserve balance will be substantially completed by June 30, 2017. The Company's consolidated restructuring reserves and related activity are summarized below, including amounts associated with discontinued operations.

	Electronics	Other	Total
	(Dollars in Millions)		
December 31, 2015	\$33	\$ 5	\$38
Expense	11	—	11
Utilization	(13)	—	(13)
Reversals	(1)	—	(1)
Foreign currency	1	—	1

March 31, 2016	31	5	36
Expense	1	7	8
Utilization	(5)	—	(5)
Reversals	(1)	—	(1)

June 30, 2016	\$25	\$ 12	\$37

Utilization represents payments for severance and other employee termination benefits and special termination benefits reclassified to pension and other postretirement employee benefit liabilities, where such payments are made from the Company's benefit plans.

Table of Contents

NOTE 5. Inventories

Inventories consist of the following components:

	June	December
	30	31
	2016	2015
	(Dollars in Millions)	
Raw materials	\$97	\$ 90
Work-in-process	45	53
Finished products	45	44
	\$187	\$ 187

NOTE 6. Other Assets

Other current assets are comprised of the following components:

	June	December
	30	31
	2016	2015
	(Dollars in Millions)	
Recoverable taxes	\$59	\$ 425
Prepaid assets and deposits	33	28
Joint venture receivables	25	44
Notes receivable	23	21
Assets held for sale	21	17
Contractually reimbursable engineering costs	17	34
Foreign currency hedges	7	6
Other	4	6
	\$189	\$ 581

Recoverable taxes as of December 31, 2015 included Korean capital gains tax withheld by the Purchasers and paid to the Korean government in connection with the Climate Transaction of \$364 million adjusted for currency and interest impacts. In January 2016, the Company recovered the entire amount of the Korean capital gains withholding tax, adjusted for currency impacts, of \$356 million.

As of June 30, 2016 and December 31, 2015 assets held for sale of \$21 million and \$17 million, respectively, represent assets associated with operations subject to the Interiors Divestiture located in Argentina and Brazil. See Note 3 "Discontinued Operations" for additional disclosures.

Other non-current assets are comprised of the following components:

	June	December
	30	31
	2016	2015
	(Dollars in Millions)	
Deferred tax assets	\$36	\$ 34
Long term notes receivable	25	13
Recoverable taxes	24	20
Contractually reimbursable engineering costs	4	4

Other	21	17
	\$110	\$ 88

Current and non-current contractually reimbursable engineering costs of \$17 million and \$4 million, respectively, at June 30, 2016 and \$34 million and \$4 million, respectively, at December 31, 2015, are related to pre-production design and development costs incurred pursuant to long-term supply arrangements that are contractually guaranteed for reimbursement by customers. The Company expects to receive cash reimbursement payments of approximately \$12 million during the remainder of 2016, \$5 million in 2017, and \$4 million 2018 and thereafter.

14

Table of Contents

NOTE 7. Property and Equipment, net

Property and equipment, net consists of the following:

	June 30 2016	December 31 2015
	(Dollars in Millions)	
Land	\$17	\$ 15
Buildings and improvements	66	64
Machinery, equipment and other	407	353
Construction in progress	37	75
	527	507
Accumulated depreciation	(201)	(170)
	326	337
Product tooling, net of amortization	16	14
	\$342	\$ 351

Property and equipment is depreciated principally using the straight-line method of depreciation over the related asset's estimated useful life. Generally, buildings and improvements are depreciated over a 40-year estimated useful life, leasehold improvements are depreciated on a straight-line basis over the initial lease term period, and machinery, equipment and other are depreciated over estimated useful lives ranging from 3 to 15 years. Product tooling is amortized using the straight-line method over the estimated life of the tool, generally not exceeding six years. Depreciation and amortization expenses for property and equipment, excluding discontinued operations, are summarized as follows:

	Three Months Ended June 30 2016	Six Months Ended June 30 2015	Three Months Ended June 30 2016	Six Months Ended June 30 2015
	(Dollars in Millions)			
Depreciation	\$17	\$ 17	\$33	\$ 32
Amortization	—	1	1	2
	\$17	\$ 18	\$34	\$ 34

NOTE 8. Intangible Assets, net

Intangible assets, net at June 30, 2016 and December 31, 2015, are comprised of the following:

	Estimated Weighted Average Useful Life (years)	June 30, 2016			December 31, 2015		
		Gross Carrying Value	Accumulated Amortization	Net Carrying Value	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
(Dollars in Millions)							
Definite-Lived:							
Developed technology	7	\$39	\$ 22	\$ 17	\$39	\$ 20	\$ 19

Indefinite-Lived:

Goodwill	39	—	39	40	—	40
Total	\$168	\$ 45	\$ 123	\$171	\$ 38	\$ 133

The Company recorded approximately \$3 million and \$7 million of amortization expense related to definite-lived intangible assets for the three and six months ended June 30, 2016. The Company currently estimates annual amortization expense to be \$14 million

Table of Contents

for 2016, \$12 million each year from 2017 through 2019, and \$10 million for 2020. Indefinite-lived intangible assets are not amortized but are tested for impairment at least annually, or earlier when events and circumstances indicate that it is more likely than not that such assets have been impaired.

A roll-forward of the carrying amounts of intangible assets is presented below:

	Definite-lived intangibles		Indefinite-lived intangibles		
	Develop- ment	Customer Related	Other	Goodwill	Total
	(Dollars in Millions)				
December 31, 2015	\$19	\$ 67	\$ 7	\$ 40	\$133
Foreign currency	—	(2)	—	(1)	(3)
Amortization	(2)	(5)	—	—	(7)
June 30, 2016	\$17	\$ 60	\$ 7	\$ 39	\$123

NOTE 9. Other Liabilities

Other current liabilities are summarized as follows:

	June 30 2016	December 31 2015
	(Dollars in Millions)	
Electronics operations repurchase commitment	\$50	\$ 50
Restructuring reserves	37	38
Contribution payable	33	33
Rent and royalties	25	33
Product warranty and recall accruals	23	26
Joint venture payables	17	18
Information technology separation and service obligations	14	36
Deferred income	13	11
Liabilities held for sale	11	9
Income taxes payable	9	63
Non-income taxes payable	8	20
Foreign currency hedges	5	1
Other	34	32
	\$279	\$ 370

In connection with the Climate Transaction, the Company entered into an agreement to purchase certain electronics operations located in India, expected to close in 2016 after legal separation and regulatory approvals are met. The Company has recorded a repurchase commitment of \$50 million during 2015, representing the estimated purchase price of the subject business.

In connection with the Germany Interiors Divestiture, the Company will make a final contribution payment of approximately \$33 million by November 2016.

Information technology separation and service obligations were established in connection with the Climate Transaction and Interiors Divestiture, representing ongoing and separation services for the divested businesses to operate as independent entities. As of June 30, 2016 and December 31, 2015 remaining obligations totaled \$14 million

and \$36 million, respectively.

As of June 30, 2016 and December 31, 2015 liabilities held for sale of \$11 million and \$9 million, respectively, represent liabilities associated with operations subject to the Interiors Divestiture located in Argentina and Brazil. See Note 3 "Discontinued Operations" for additional disclosures.

16

Table of Contents

Other non-current liabilities are summarized as follows:

	June	December
	30	31
	2016	2015
	(Dollars in Millions)	
Income tax reserves	\$27	\$ 25
Deferred income	16	15
Product warranty and recall accruals	14	12
Non-income tax reserves	10	10
Other	14	13
	\$81	\$ 75

NOTE 10. Debt

The Company's short and long-term debt consists of the following:

	June	December
	30	31
	2016	2015
	(Dollars in Millions)	
Short-Term Debt:		
Current portion of long-term debt	\$1	\$ 3
Short-term borrowings	24	34
	\$25	\$ 37
Long-Term Debt:		
Term debt facility	\$345	\$ 345
Other	2	1
	\$347	\$ 346

As of December 31, 2015 previously issued debt issuance costs were reclassified as a reduction of the corresponding debt liability in accordance with ASU No. 2015-3, "Simplifying the Presentation of Debt Issuance Cost". These costs approximated \$1 million as of June 30, 2016 and December 31, 2015.

Short-Term Debt

Short-term borrowings are primarily related to the Company's non-U.S. joint ventures and are payable in USD, Chinese Yuan and Thai Baht. The Company had international affiliate short-term borrowings of \$24 million and \$34 million as of June 30, 2016 and December 31, 2015 respectively. Availability under outstanding affiliate credit facilities as of June 30, 2016 is approximately \$30 million.

Long-Term Debt

The Credit Agreement, dated as of April 9, 2014 and as amended by Waiver and Amendment No. 1 dated as of March 25, 2015 (the "Credit Agreement"), by and among the Company, as borrower, each lender from time to time party thereto, each letter of credit issuer from time to time party thereto and Citibank, N.A., as administrative agent, provides for (i) an aggregate principal of \$350 million (the "Term Facility") and (ii) a \$200 million revolving credit facility (the "Revolving Facility"). The Term Facility matures on April 9, 2021 and the Revolving Facility matures on April 9, 2019. The Credit Agreement requires the Company and its subsidiaries to comply with customary affirmative

and negative covenants, including financial covenants and contains customary events of default. The Company was in compliance with such covenants as of June 30, 2016.

Other Long-Term Debt

The Company had \$2 million and \$1 million of other long-term debt outstanding as of June 30, 2016 and December 31, 2015, respectively, primarily related to information technology software leases.

Table of Contents

NOTE 11. Employee Benefit Plans

Defined Benefit Plans

The Company's net periodic benefit costs for all defined benefit plans for the three month periods ended June 30, 2016 and 2015 were as follows:

	U.S. Plans		Non-U.S. Plans	
	2016	2015	2016	2015
	(Dollars in Millions)			
Costs Recognized in Income:				
Service cost	\$—	\$—	\$1	\$1
Interest cost	7	9	3	4
Expected return on plan assets	(11)	(10)	(3)	(4)
Settlements and curtailments	—	—	1	—
Amortization of losses and other	—	—	—	3
Net pension (income) expense	\$(4)	\$(1)	\$2	\$4

The Company's net periodic benefit costs for all defined benefit plans for the six month periods ended June 30, 2016 and 2015 were as follows:

	U.S. Plans		Non-U.S. Plans	
	2016	2015	2016	2015
	(Dollars in Millions)			
Costs Recognized in Income:				
Service cost	\$—	\$—	\$2	\$3
Interest cost	14	17	5	9
Expected return on plan assets	(21)	(21)	(5)	(9)
Settlements and curtailments	—	—	1	—
Amortization of losses and other	—	—	—	4
Net pension (income) expense	\$(7)	\$(4)	\$3	\$7

During the six months ended June 30, 2016, cash contributions to the Company's U.S. and non-U.S. defined benefit pension plan were \$3 million each. The Company expects to make cash contributions to its defined benefit pension plans of \$14 million in 2016. The Company's expected 2016 contributions may be revised.

On April 28, 2016, the Company purchased a non-participating annuity contract for all participants of the Canada non-represented plan. The annuity purchase covered 52 participants and resulted in the use of \$5 million of plan assets for pension benefit obligation settlements of approximately \$5 million. In connection with the annuity purchase, the Company recorded a settlement loss of approximately \$1 million during the the three months ended June 30, 2016.

2016 Discount Rate for Estimated Service and Interest Cost: Through December 31, 2015, the Company recognized service and interest cost components of pension expense using a single weighted average discount method representing the constant annual rate required to discount all future benefit payments related to past service. During the fourth quarter of 2015, the Company changed the method used to estimate the service and interest components of net periodic benefit cost for pension benefits for its U.S. and certain non-U.S. plans. The Company has elected to utilize a disaggregated discount rate approach resulting in different amounts of interest cost compared to the traditional single weighted-average discount rate approach because of different weightings given to each subset of payments.

This change does not affect the measurement of the total benefit obligation, but resulted in a decrease in the service and interest components of benefit cost beginning in 2016. Based on current economic conditions, the Company estimates that the service cost and interest cost for the affected plans will be reduced by approximately \$7 million in 2016 as a result of the change in method. The Company has accounted for this as a change in accounting estimate that is inseparable from a change in accounting principle, and accordingly has accounted for it on a prospective basis.

Table of Contents

Defined Contribution Plans

Most U.S. salaried employees and certain non-U.S. employees are eligible to participate in defined contribution plans by contributing a portion of their compensation, which is partially matched by the Company. For the U.S. defined contribution plan, the Company matches 100% of contributions on the first 6% of pay contributed. The expense related to matching contributions was approximately \$2 million and \$2 million for the three months ended June 30, 2016 and 2015, respectively. The expense related to matching contributions was approximately \$4 million and \$7 million for the six months ended June 30, 2016 and 2015, respectively.

NOTE 12. Income Taxes

During the three and six month periods ended June 30, 2016, the Company recorded a provision for income tax on continuing operations of \$9 million and \$22 million, respectively, which includes income tax expense in countries where the Company is profitable, withholding taxes, changes in uncertain tax benefits, and the inability to record a tax benefit for pretax losses and/or recognize tax expense for pretax income in certain jurisdictions (including the U.S.) due to valuation allowances. Pretax losses from continuing operations in jurisdictions where valuation allowances are maintained and no income tax benefits are recognized totaled \$12 million and \$14 million, for the six months ended June 30, 2016 and 2015, respectively, resulting in an increase in the Company's effective tax rate in those years.

The Company provides for U.S. and non-U.S. income taxes and non-U.S. withholding taxes on the projected future repatriations of the earnings from its non-U.S. operations that are not considered permanently reinvested at each tier of the legal entity structure.

During the six month period ended June 30, 2016 and 2015, the Company recognized expense primarily related to non-U.S. withholding taxes, of \$2 million and \$3 million, respectively, reflecting the Company's forecasts which contemplate numerous financial and operational considerations that impact future repatriations.

The Company's provision for income taxes in interim periods is computed by applying an estimated annual effective tax rate against income before income taxes, excluding equity in net income of non-consolidated affiliates for the period. Effective tax rates vary from period to period as separate calculations are performed for those countries where the Company's operations are profitable and whose results continue to be tax-effected and for those countries where full deferred tax valuation allowances exist and are maintained. In determining the estimated annual effective tax rate, the Company analyzes various factors, including forecasts of projected annual earnings, taxing jurisdictions in which the pretax income and/or pretax losses will be generated, the ability to use tax credits and net operating loss carryforwards, and available tax planning strategies. The Company's estimated annual effective tax rate is updated each quarter and may be significantly impacted by changes to the mix of forecasted earnings by tax jurisdiction. The tax impact of adjustments to the estimated annual effective tax rate are recorded in the period such estimates are revised. The Company is also required to record the tax impact of certain other non-recurring tax items, including changes in judgments about valuation allowances and uncertain tax positions, and changes in tax laws or rates, in the interim period in which they occur, rather than included in the estimated annual effective tax rate.

The need to maintain valuation allowances against deferred tax assets in the U.S. and other affected countries will cause variability in the Company's quarterly and annual effective tax rates. Full valuation allowances against deferred tax assets in the U.S. and applicable foreign countries will be maintained until sufficient positive evidence exists to reduce or eliminate them. The factors considered by management in its determination of the probability of the realization of the deferred tax assets include, but are not limited to, recent historical financial results, historical taxable income, projected future taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies. If, based upon the weight of available evidence, it is more likely than not the deferred tax assets will not be realized, a valuation allowance is recorded. The weight given to the positive and negative evidence is commensurate with the extent to which the evidence may be objectively verified. As such, it is generally difficult for positive evidence regarding projected future taxable income exclusive of reversing taxable temporary differences

to outweigh objective negative evidence of recent financial reporting losses. In regards to the full valuation allowance recorded against the U.S. net deferred tax assets, significant judgment is applied in determining whether a carryback opportunity related to the 2015 tax year provides an incremental source of taxable income to support partial realization of the U.S. net deferred tax assets, which includes estimating the amount of future tax losses that would be available to carryback.

Unrecognized Tax Benefits

Gross unrecognized tax benefits at June 30, 2016 and December 31, 2015, including amounts attributable to discontinued operations, were \$32 million and \$37 million, respectively. Of these amounts approximately \$23 million and \$29 million at June 30, 2016 and December 31, 2015, respectively, represent the amount of unrecognized benefits that, if recognized, would impact the effective tax rate. The gross unrecognized tax benefit differs from that which would impact the effective tax rate due to uncertain tax positions embedded in other deferred tax attributes carrying a full valuation allowance. Since the uncertainty is expected to be

Table of Contents

resolved while a full valuation allowance is maintained, these uncertain tax positions should not impact the effective tax rate in current or future periods. The Company records interest and penalties related to uncertain tax positions as a component of income tax expense and related amounts accrued at June 30, 2016 and December 31, 2015 were \$4 million and \$3 million, respectively.

The \$5 million net decrease in gross unrecognized tax benefits reflects \$7 million in decreases primarily related to settling tax assessments from the Korean tax authorities related to underpayment of withholding taxes, and favorable developments in connection with an ongoing audit in Hungary. These decreases were partially offset by increases for audit developments in Mexico and anticipated transfer pricing-related exposures worldwide totaling \$2 million. With few exceptions, the Company is no longer subject to U.S. federal tax examinations for years before 2012 or state and local, or non-U.S. income tax examinations for years before 2003 although U.S. net operating losses carried forward into open tax years technically remain open to adjustment. Although it is not possible to predict the timing of the resolution of all ongoing tax audits with accuracy, it is reasonably possible that certain tax proceedings in Europe, Asia, Mexico and the U.S. could conclude within the next twelve months and result in a significant increase or decrease in the balance of gross unrecognized tax benefits. Given the number of years, jurisdictions and positions subject to examination, the Company is unable to estimate the full range of possible adjustments to the balance of unrecognized tax benefits. The long-term portion of uncertain income tax positions (including interest) in the amount of \$27 million is included in Other non-current liabilities on the consolidated balance sheet.

A reconciliation of the beginning and ending amount of unrecognized tax benefits including amounts attributable to discontinued operations is as follows:

	Six Months Ended June 30, 2016 (Dollars in Millions)
Beginning balance	\$ 37
Tax positions related to current period:	
Additions	1
Tax positions related to prior periods:	
Additions	1
Settlements with tax authorities	(7)
Ending balance	\$ 32

During 2012, Brazil tax authorities issued tax assessment notices to Visteon Sistemas Automotivos (“Sistemas”) related to the sale of its chassis business to a third party, which required a deposit in the amount of \$15 million during 2013 necessary to open a judicial proceeding against the government in order to suspend the debt and allow Sistemas to operate regularly before the tax authorities after attempts to reopen an appeal of the administrative decision failed. Adjusted for currency impacts and accrued interest, the deposit amount is approximately \$14 million, as of June 30, 2016. The Company believes that the risk of a negative outcome is remote once the matter is fully litigated at the highest judicial level. These appeal payments, as well as income tax refund claims associated with other jurisdictions, total \$15 million as of June 30, 2016, and are included in Other non-current assets on the consolidated balance sheet.

Share Repurchase Program

On June 16, 2015, the Company announced an accelerated stock buyback ("ASB") program with a third-party financial institution to purchase shares of common stock for an aggregate purchase price of \$500 million, as the first of announced shareholder return actions. Under the program, the Company paid the financial institution \$500 million and received an initial delivery of 3,712,297 shares of common stock using a reference price of \$107.75. The program

concluded in December 2015 and the Company received

21

Table of Contents

an additional 1,058,965 shares. The final settlement price for all shares delivered under this 2015 ASB program was \$104.79.

During the fourth quarter of 2015, the Company entered into an agreement with a third party financial institution to purchase up to \$150 million of Visteon common stock in accordance with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934 ("10b5-1 Share Repurchase Program"). During the period of the program, which concluded on March 1, 2016, the Company paid approximately \$105 million to repurchase 1,607,849 shares at an average price of \$65.05.

On March 1, 2016, the Company entered into another ASB program with a third-party financial institution to purchase shares of common stock for an aggregate purchase price of \$395 million. Under the program, the Company paid the financial institution \$395 million and received an initial delivery of 4,370,678 shares of common stock using a reference price of \$72.30. The final number of shares to be repurchased will be based on the average of the daily volume-weighted average prices of the Company's common stock during the term of the transaction, less an agreed discount and subject to adjustments pursuant to the terms and conditions of the ASB Agreement. The final settlement of this ASB Agreement is expected to occur by the end of 2016, but may be accelerated at the option of the third-party financial institution.

The Company anticipates that additional repurchases of common stock, if any, would occur from time to time in open market transactions or in privately negotiated transactions depending on market and economic conditions, share price, trading volume, alternative uses of capital and other factors.

Distribution

On December 9, 2015, the Company declared a special distribution of \$43.40 per share of its common stock outstanding as of January 15, 2016, or approximately \$1.75 billion in the aggregate. On January 22, 2016 approximately \$1.74 billion was paid, the remaining \$15 million will be paid over a two-year period upon vesting and settlement of restricted stock units and performance-based share units previously granted to the Company's employees. These amounts were classified as "Distribution payable" on the Consolidated Balance Sheets as of June 30, 2016 and December 31, 2015. The special cash distribution was funded from Climate Transaction proceeds.

Non-Controlling Interests

Non-controlling interests in the Visteon Corporation economic entity are as follows:

	June	December
	30	31

(a) There were no income tax effects for the three and six month periods ending June 30, 2016 and 2015, due to the recording of valuation allowance.

(b) Amounts are included in (Loss)income from discontinued operations, net of tax, on the consolidated statements of comprehensive income.

(c) Amount included in the computation of net periodic pension cost. (See Note 11, "Employee Benefit Plans" for additional details.)

(d) Net tax expense of \$1 million and tax benefit of \$1 million are related to unrealized hedging (loss) gain for the three months ended June 30, 2016 and 2015, respectively. Net tax expense of \$0 million and \$2 million are related to unrealized hedging gain for the six months ended June 30, 2016 and 2015, respectively.

(e) Amount is included in Cost of sales in the consolidated statements of comprehensive income.

Stock Warrants

During the three and six months ended June 30, 2015, the Company received payments of \$5 million and \$15 million related to approximately 139,000 and 303,000 warrants, respectively, converted to shares of common stock at an

exercise price of \$58.80 per share.

NOTE 14. Earnings Per Share

Basic earnings per share is calculated by dividing net income attributable to Visteon by the weighted average number of shares of common stock outstanding. Diluted earnings per share is computed by dividing net income by the weighted average number of common and potential dilutive common shares outstanding. Performance based share units are considered contingently issuable

23

Table of Contents

shares, and are included in the computation of diluted earnings per share based on the number of shares that would be issuable if the reporting date were the end of the contingency period and if the result would be dilutive.

The table below provides details underlying the calculations of basic and diluted earnings (loss) per share:

	Three Months Ended June 30 2016		Six Months Ended June 30 2016	
	2015	2016	2015	2016
	(In Millions, Except Per Share Amounts)

	\$0.76	\$49.73	\$1.23	\$50.29

NOTE 15. Fair Value Measurements and Financial Instruments

The Company is exposed to various market risks including, but not limited to, changes in foreign currency exchange rates and market interest rates. The Company manages these risks, in part, through the use of derivative financial instruments. The maximum length of time over which the Company hedges the variability in the future cash flows for forecast transactions excluding those forecast transactions related to the payment of variable interest on existing debt is up to eighteen months from the date of the forecast transaction. The maximum length of time over which the Company hedges forecast transactions related to the payment of variable interest on existing debt is the term of the underlying debt. The use of derivative financial instruments creates exposure to credit loss in the event of nonperformance by the counter-party to the derivative financial instruments.

The Company uses a three-level fair value hierarchy that categorizes assets and liabilities measured at fair value based on the observability of the inputs utilized in the valuation. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs.

- Level 1 – Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.
- Level 2 – Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.
- Level 3 – Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Fair Value of Debt

The Company's fair value of debt was approximately \$376 million and \$385 million at June 30, 2016 and December 31, 2015, respectively. Fair value estimates were based on the current rates offered to the Company for debt of the same remaining maturities. Accordingly, the Company's debt fair value disclosures are classified as Level 2, "Other Observable Inputs" in the fair value hierarchy.

24

Table of Contents

Financial Instruments

Foreign Exchange Risk: The Company's net cash inflows and outflows exposed to the risk of changes in foreign currency exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends and investments in subsidiaries. The Company utilizes derivative financial instruments, including forward and option contracts, to protect the Company's cash flow from changes in exchange rates. Foreign currency exposures are reviewed periodically and any natural offsets are considered prior to entering into a derivative financial instrument. The Company's current primary hedged foreign currency exposures include the Euro, Japanese Yen and Mexican Peso. Where possible, the Company utilizes a strategy of partial coverage for transactions in these currencies.

Foreign currency hedge instruments are measured at fair value on a recurring basis under an income approach using industry-standard models that consider various assumptions, including time value, volatility factors, current market and contractual prices for the underlying and non-performance risk. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data, or are supported by observable levels at which transactions are executed in the marketplace. Accordingly, the Company's foreign currency instruments are classified as Level 2, "Other Observable Inputs" in the fair value hierarchy.

As of June 30, 2016 and December 31, 2015, the Company had derivative instruments that consisted primarily of option and forward contracts to hedge changes in foreign currency exchange rates with notional amounts of approximately \$140 million and \$147 million, respectively. Fair value estimates of these contracts are based on quoted market prices and other observable inputs. As of June 30, 2016 and December 31, 2015, respectively, approximately \$107 million and \$114 million of the instruments have been designated as cash flow hedges with the effective portion of the gain or loss reported in the "Accumulated other comprehensive loss" component of Stockholders' equity in the Company's consolidated balance sheet. There was no ineffectiveness associated with these derivatives as of June 30, 2016 and the fair value of such derivatives was an asset of \$5 million.

During 2015, the Company entered into currency exchange derivatives with a notional amount of \$150 million to manage foreign currency exposure on certain non-U.S. denominated foreign entities. These derivatives have been designated as hedges of the Company's net investments in European affiliates with the effective portion of the gain or loss reported in the "Accumulated other comprehensive loss" component of Stockholder's equity in the Company's consolidated balance sheet. There was no ineffectiveness associated with these derivatives as of June 30, 2016 and the fair value of such derivatives was an asset of \$2 million.

In December 2014, the Company entered into a foreign currency option contract with a notional amount of \$2,229 million to manage foreign currency exposure on anticipated KRW denominated proceeds in connection with the Climate Transaction. During the six months ended June 30, 2015, the Company entered into offsetting foreign currency option contracts and non-deliverable forwards with notional amounts of \$2,229 million each to lower related premium expenses. Final settlement of these hedges occurred during the second quarter of 2015 in connection with the closing of the Climate Transaction. The Company recorded gains of \$6 million and \$3 million for the three and six months ended June 30, 2015, respectively, reflecting the change in the fair value of the foreign currency option and forward contracts, which was classified as "Other (income) expense, net" in the Company's consolidated statements of comprehensive income.

Interest Rate Risk: The Company is subject to interest rate risk principally in relation to variable-rate debt. The Company uses derivative financial instruments to manage exposure to fluctuations in interest rates in connection with its risk management policies. During 2015, the Company entered into interest rate swaps with a notional amount of \$150 million that effectively convert designated cash flows associated with underlying interest payments on the Term Facility from a variable interest rate to a fixed interest rate, the maturities of these swaps will not exceed the

underlying Term Facility. The instruments have been designated as cash flow hedges with the effective portion of the gain or loss reported in "Accumulated other comprehensive loss" component of Stockholders' equity in the Company's consolidated balance sheets and such gains and losses will be reclassified at the time the underlying hedged transactions are realized. The ineffective portion of these swaps is assessed based on the hypothetical derivative method and is recorded as interest expense in the Company's consolidated statements of comprehensive income. As of June 30, 2016 there was no ineffectiveness associated with these derivatives and the fair value was a liability of \$5 million.

The interest rate swaps are valued under an income approach using industry-standard models that consider various assumptions, including time value, volatility factors, current market and contractual prices for the underlying and non-performance risk. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, and can be derived from observable data or supported by observable levels at which transactions are executed in the marketplace. Accordingly, the Company's interest rate swaps are classified as Level 2, "Other Observable Inputs" in the fair value hierarchy.

Table of Contents

Financial Statement Presentation

The Company presents its derivative positions and any related material collateral under master netting arrangements that provide for the net settlement of contracts, by counterparty, in the event of default or termination. Derivative financial instruments designated and non-designated as hedging instruments are included in the Company's consolidated balance sheets at June 30, 2016 and December 31, 2015, as follows:

	Gross Amounts Recognized		Gross Offsets in the Statement of Financial Position		Net Amounts Presented in the Statement of Financial Position	
	June 30 2016	December 31 2015	June 30 2016	December 31 2015	June 30 2016	December 31 2015

Table of Contents

Concentrations of Credit Risk

Financial instruments including cash equivalents, derivative contracts, and accounts receivable, expose the Company to counter-party credit risk for non-performance. The Company's counterparties for cash equivalents and derivative contracts are banks and financial institutions that meet the Company's requirement of high credit standing. The Company's counterparties for derivative contracts are substantial investment and commercial banks with significant experience using such derivatives. The Company manages its credit risk through policies requiring minimum credit standing and limiting credit exposure to any one counter-party and through monitoring counter-party credit risks.

The Company's credit risk with any individual customer does not exceed ten percent of total accounts receivables except for Ford and its affiliates which represents 24% and 18% at June 30, 2016 and December 31, 2015, respectively, Mazda which represents 10% of the Company's accounts receivables at June 30, 2016 and December 31, 2015, respectively, and Nissan/Renault which represents 11% of the Company's accounts receivables at June 30, 2016 and December 31, 2015, respectively.

NOTE 16. Commitments and Contingencies

Litigation and Claims

In 2003, the Local Development Finance Authority of the Charter Township of Van Buren, Michigan (the "Township") issued approximately \$28 million in bonds finally maturing in 2032, the proceeds of which were used at least in part to assist in the development of the Company's U.S. headquarters located in the Township. During January 2010, the Company and the Township entered into a settlement agreement (the "Settlement Agreement") that, among other things, reduced the taxable value of the headquarters property to current market value and facilitated certain claims of the Township in the Company's chapter 11 proceedings. The Settlement Agreement also provided that the Company would continue to negotiate in good faith with the Township in the event that property tax payments was inadequate to permit the Township to meet its payment obligations with respect to the bonds. In September 2013, the Township notified the Company in writing that it is estimating a shortfall in tax revenues of between \$25 million and \$36 million, which could render it unable to satisfy its payment obligations under the bonds. On May 12, 2015, the Township commenced a proceeding against the Company in the U. S. Bankruptcy Court for the District of Delaware in connection with the foregoing. Upon the Company's motion to dismiss, the Township dismissed the proceeding before the Delaware Bankruptcy Court and re-commenced the proceeding against the Company in the Michigan Wayne County Circuit Court for the State of Michigan on July 2, 2015. The Township sought damages or, alternatively, declaratory judgment that, among other things, the Company is responsible under the Settlement Agreement for payment of any shortfall in the bond debt service payments. On February 2, 2016 the Wayne County Circuit Court dismissed the Township's lawsuit without prejudice on the basis that the Township's claims were not ripe for adjudication and the Township has appealed this decision to the Michigan Court of Appeals. The Company disputes the factual and legal assertions made by the Township and intends to vigorously defend the matter. The Company is not able to estimate the possible loss or range of loss in connection with this matter.

In November 2013, the Company and HVCC, jointly filed an Initial Notice of Voluntary Self-Disclosure statement with the U.S. Treasury Department's Office of Foreign Assets Control ("OFAC") regarding certain sales of automotive HVAC components by a minority-owned, Chinese joint venture of HVCC into Iran. The Company updated that notice in December 2013, and subsequently filed a voluntary self-disclosure regarding these sales with OFAC in March 2014. In May 2014, the Company voluntarily filed a supplementary self-disclosure identifying additional sales of automotive HVAC components by the Chinese joint venture, as well as similar sales involving an HVCC subsidiary in China, totaling approximately \$12 million, and filed a final voluntary-self disclosure with OFAC on October 17, 2014. OFAC is currently reviewing the results of the Company's investigation. Following that review, OFAC may conclude that the disclosed sales resulted in violations of U.S. economic sanctions laws and warrant the imposition of civil penalties, such as fines, limitations on the Company's ability to export products from the United States, and/or referral

for further investigation by the U.S. Department of Justice. Any such fines or restrictions may be material to the Company's financial results in the period in which they are imposed, but at this time is not able to estimate the possible loss or range of loss in connection with this matter. Additionally, disclosure of this conduct and any fines or other action relating to this conduct could harm the Company's reputation and have a material adverse effect on our business, operating results and financial condition. The Company cannot predict when OFAC will conclude its own review of our voluntary self-disclosures or whether it may impose any of the potential penalties described above.

The Company's operations in Brazil are subject to highly complex labor, tax, customs and other laws. While the Company believes that it is in compliance with such laws, it is periodically engaged in litigation regarding the application of these laws. As of June 30, 2016, the Company maintained accruals of approximately \$10 million for claims aggregating approximately \$83 million. The amounts accrued represent claims that are deemed probable of loss and are reasonably estimable based on the Company's assessment of the claims and prior experience with similar matters.

Table of Contents

While the Company believes its accruals for litigation and claims are adequate, the final amounts required to resolve such matters could differ materially from recorded estimates and the Company's results of operations and cash flows could be materially affected.

Guarantees and Commitments

On July 8, 2016, Visteon completed the acquisition of the shares of AllGo Systems, Inc., USA ("AllGo Systems") in exchange for the payment of \$15 million. Future contingent consideration of \$7 million may be paid over the next two years if certain technology and key employee milestones are achieved. AllGo Systems is a leading developer of embedded multimedia system solutions to global vehicle manufacturers.

The Company provided a \$26 million loan guarantee to YFVIC, a 50% owned joint venture, in connection with the October 2014 YFVIC acquisition of a 49% direct ownership interest in YFVE. The guarantee contains standard non-payment provisions to cover the borrowers in event of non-payment of principal, accrued interest, and other fees for its five year tenor.

As part of the agreements of the Climate Transaction and Interiors Divestiture, the Company continues to provide lease guarantees to divested Climate and Interiors entities. As of June 30, 2016, the Company has approximately \$10 million and \$8 million outstanding guarantees respectively related to divested Climate and Interiors entities. These guarantees will generally cease upon expiration of current lease agreements.

As part of the Interiors Divestiture the Company agreed to provide a \$56 million revolving credit facility in connection with the Master Closing, representing the shortfall to the targeted amount of \$90 million in external financing. The seller-backed facility was reduced as buyer credit facilities ramped up and the seller-backed facility will be reduced further if the buyer adds working capital facilities in Russia and Thailand. Draws under the seller-backed facility are only be available to the extent buyer external credit facilities are fully drawn and any draws on the seller-backed facility generally must be repaid prior amounts outstanding on any external credit facilities. The seller-backed facility matures on November 1, 2017, at an interest rate of Libor plus 5% and a default rate of interest for any interest and/or principal payment defaults. As of April 6, 2016, this revolving credit facility to the buyer was reduced to \$35 million as additional receivable financing became available to the buyer. As of June 30, 2016, there were no draws on this facility. Five days before the Argentina and Brazil closing, the buyer has the option to request replacement of the existing revolving credit facility with a three year term loan of between \$5 million and \$10 million.

Environmental Matters

The Company is subject to the requirements of federal, state, local and foreign environmental and occupational safety and health laws and regulations and ordinances. These include laws regulating air emissions, water discharge and waste management. The Company is also subject to environmental laws requiring the investigation and cleanup of environmental contamination at properties it presently owns or operates and at third-party disposal or treatment facilities to which these sites send or arranged to send hazardous waste. The Company is aware of contamination at some of its properties. These sites are in various stages of investigation and cleanup. The Company currently is, has been, and in the future may become the subject of formal or informal enforcement actions or procedures.

Costs related to environmental assessments and remediation efforts at operating facilities, previously owned or operated facilities, or other waste site locations are accrued when it is probable that a liability has been incurred and the amount of that liability can be reasonably estimated. Estimated costs are recorded at undiscounted amounts, based on experience and assessments, and are regularly evaluated. The liabilities are recorded in Other current liabilities and Other non-current liabilities in the consolidated balance sheets. At June 30, 2016, and December 31, 2015, the Company had recorded a reserve of less than \$1 million for environmental matters. However, estimating liabilities for

environmental investigation and cleanup is complex and dependent upon a number of factors beyond the Company's control and which may change dramatically. Accordingly, although the Company believes its reserve is adequate based on current information, the Company cannot provide any assurance that its ultimate environmental investigation and cleanup costs and liabilities will not exceed the amount of its current reserve.

Other Contingent Matters

Various legal actions, governmental investigations and proceedings and claims are pending or may be instituted or asserted in the future against the Company, including those arising out of alleged defects in the Company's products; governmental regulations relating to safety; employment-related matters; customer, supplier and other contractual relationships; intellectual property rights; product warranties; product recalls; and environmental matters. Some of the foregoing matters may involve compensatory, punitive or antitrust or other treble damage claims in very large amounts, or demands for recall campaigns, environmental remediation programs, sanctions, or other relief which, if granted, would require very large expenditures. The Company enters into agreements

Table of Contents

that contain indemnification provisions in the normal course of business for which the risks are considered nominal and impracticable to estimate.

Contingencies are subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Reserves have been established by the Company for matters discussed in the immediately foregoing paragraph where losses are deemed probable and reasonably estimable. It is possible, however, that some of the matters discussed in the foregoing paragraph could be decided unfavorably to the Company and could require the Company to pay damages or make other expenditures in amounts, or a range of amounts, that cannot be estimated at June 30, 2016 and that are in excess of established reserves. The Company does not reasonably expect, except as otherwise described herein, based on its analysis, that any adverse outcome from such matters would have a material effect on the Company's financial condition, results of operations or cash flows, although such an outcome is possible.

NOTE 17. Segment Information

Financial results for the Company's reportable segments have been prepared using a management approach, which is consistent with the basis and manner in which financial information is evaluated by the Company's chief operating decision-making group in allocating resources and in assessing performance. The Company's chief operating decision making group, comprised of the Chief Executive Officer and Chief Financial Officer, evaluates the performance of the Company's segments primarily based on net sales, before elimination of inter-company shipments, Adjusted EBITDA (non-GAAP financial measure) and operating assets.

The Company's current reportable segments are as follows:

Electronics - The Company's Electronics segment provides vehicle cockpit electronics products to customers, including audio systems, information displays, instrument clusters, head up displays, infotainment systems, and telematics solutions.

Other - Other includes entities in South America and South Africa previously associated with the Climate business but not subject to the Climate Transaction. During 2015, other also included the Berlin, Germany operations previously associated with the Interiors business and sold during the fourth quarter of 2015.

Segment Sales

	Three Months Ended June 30		Six Months Ended June 30	
	2016	2015	2016	2015
	(Dollars in Millions)			
Electronics	\$762	\$780	\$1,555	\$1,561
Other	11	42	20	86
Eliminations	—	(10)	—	(19)
Total consolidated sales	\$773	\$812	\$1,575	\$1,628

Segment Adjusted EBITDA

The Company defines Adjusted EBITDA as net income attributable to the Company adjusted to eliminate the impact of depreciation and amortization, restructuring expense, net interest expense, loss on debt extinguishment, equity in net income of non-consolidated affiliates, loss on divestiture, gain on non-consolidated affiliate transactions, other net expense, provision for income taxes, discontinued operations, net income attributable to non-controlling interests, non-cash stock-based compensation expense, pension settlement gains and other non-operating gains and losses.

Adjusted EBITDA is presented as a supplemental measure of the Company's financial performance that management believes is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. Not all companies use identical calculations and, accordingly, the Company's presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is not a recognized term under accounting principles generally accepted in the United States and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses Adjusted EBITDA (i) as a factor in incentive compensation

29

Table of Contents

decisions, (ii) to evaluate the effectiveness of the Company's business strategies and (iii) because the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants. Adjusted EBITDA, as determined and measured by the Company should not be compared to similarly titled measures reported by other companies.

Segment Adjusted EBITDA is summarized below:

	Three Months Ended June 30 2016		Six Months Ended June 30 2015	
	2016	2015	2016	2015
	(Dollars in Millions)			
Electronics	\$79	\$60	\$173	\$144
Other	(2)	—	(7)	(6)
Adjusted EBITDA	\$77	\$60	\$166	\$138

During the first quarter of 2016, the Company changed its corporate cost allocation methodology for management reporting purposes. Accordingly, costs associated with the Company's corporate headquarters and other administrative support functions for the three and six months ended June 30, 2015, have been reclassified to the Electronics operating segment, representing ongoing business costs.

The reconciliation of Adjusted EBITDA to net income attributable to Visteon is as follows:

	Three Months Ended June 30 2016		Six Months Ended June 30 2015	
	2016	2015	2016	2015
	(Dollars in Millions)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis ("MD&A") is intended to help the reader understand the results of operations, financial condition and cash flows of Visteon Corporation ("Visteon" or the "Company"). MD&A is provided as a supplement to, and should be read in conjunction with, the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015 filed with the Securities and Exchange Commission on February 25, 2016, and the financial statements and accompanying notes to the financial statements included elsewhere herein.

Description of Business

Visteon Corporation (the "Company" or "Visteon") is a global automotive supplier that designs, engineers and manufactures innovative electronics products for nearly every original equipment vehicle manufacturer ("OEM") worldwide including Ford, Nissan, Renault, Mazda, BMW, General Motors and Honda. Visteon is headquartered in Van Buren Township, Michigan and has an international network of manufacturing operations, technical centers and joint venture operations, supported by approximately 11,000 employees, dedicated to the design, development, manufacture and support of its product offerings and its global customers. The Company's manufacturing and engineering footprint is principally located outside of the U.S., with a heavy concentration in low-cost geographic regions. Visteon delivers value for its customers and stockholders through its technology-focused core vehicle cockpit electronics business. The Company's cockpit electronics product portfolio includes audio systems, information displays, instrument clusters, head up displays, infotainment systems, and telematics solutions. The Company's vehicle cockpit electronics business is comprised of and reported under the Electronics segment. In addition to the Electronics segment, the Company has residual operations in South America and Europe previously associated with the former Interiors and Climate businesses, not subject to discontinued operations classification, that comprise Other.

Strategic Initiatives

Visteon is a technology-focused, pure-play supplier of automotive cockpit electronics and connected car solutions. The Company has laid out the following three strategic initiatives for 2016 and beyond:

Strengthen the Core - Visteon offers technology and related manufacturing operations for audio, head-up displays, information displays, infotainment, instrument clusters and telematics products. The Company's backlog, defined as cumulative remaining life of program booked sales, is approximately \$15.9 billion as of June 30, 2016, or 5.1 times the last twelve months of sales, reflecting a strong booked sales base on which to launch future growth.

Move Selectively to Adjacent Products - As consumer demand continues to evolve with an increase of electronics content per vehicle, the Company strives to further develop expertise in the areas of cockpit domain controllers, next generation safety applications, and vehicle cyber security. These areas require assessment as consumer needs shift and related products complement Visteon's core products.

On July 8, 2016, Visteon completed the acquisition of the shares of AllGo Systems, Inc., USA ("AllGo Systems") in exchange for the payment of \$15 million. Future contingent consideration of \$7 million may be paid over the next two years if certain technology and key employee milestones are achieved. AllGo Systems is a leading developer of embedded multimedia system solutions to global vehicle manufacturers.

Deliver Cost Efficiencies - Visteon core business financial results continue to improve with Adjusted EBITDA margin for electronics of 10.4% in the second quarter of 2016 compared with 7.7% in the second quarter of 2015. The Company expects to deliver cost efficiencies by achieving selling, general and administrative and engineering efficiencies, improving free cash flow, optimizing its capital structure and driving savings benefits as revenues grow.

During the first quarter of 2016, the Company announced a restructuring program to remodel the Company's engineering organization to focus on execution and technology. The future organization will be comprised of customer regional engineering, product management and advanced technologies, and global centers of competence.

Table of Contents

Transformation Milestones

The Company has achieved the milestones which transformed the Company's business operations into a pure-play supplier of automotive cockpit electronics and connected car solutions.

A summary of the most recent milestones completing the transformation are summarized below:

Exit of Climate Business - On June 9, 2015, Visteon Corporation and its wholly owned subsidiary, VIHI, LLC (collectively, "Visteon") completed the sale to Hahn & Co. Auto Holdings Co., Ltd. and Hankook Tire Co., Ltd. (together, the "Purchasers") of all of its shares of Halla Visteon Climate Control Corporation, a Korean corporation ("HVCC"), for approximately \$3.4 billion, or KRW 52,000 per share, after adjusting for the 2014 dividend paid by HVCC to Visteon (the "Climate Transaction"), pursuant to and in accordance with the Share Purchase Agreement, dated as of December 17, 2014, among Visteon and the Purchasers. The Company received net cash proceeds of approximately \$2.7 billion and recognized a pre-tax gain of approximately \$2.3 billion in connection with the closing of the Climate Transaction in the second quarter 2015.

On July 18, 2016, the Company reached an agreement to sell its South Africa climate operations, with 2015 annual sales of \$9 million as reported in the Company's Other product line. The sale is expected to close during the third quarter of 2016 for proceeds of approximately \$2 million. The Company expects to record a related loss of approximately \$12 million primarily related to foreign currency translation amounts recorded in accumulated other comprehensive loss.

Exit of Interiors Business - On December 1, 2015, Visteon completed the sale and transfer of its equity ownership in Visteon Deutschland GmbH, which operated the Berlin, Germany interiors plant ("Germany Interiors Divestiture"). The Company contributed cash, of approximately \$141 million, assets of \$27 million, and liabilities of \$198 million including pension related liabilities. The Company will make a final contribution payment of approximately \$33 million by November 2016 included in the Company's consolidated balance sheet as "Other current liabilities" as of June 30, 2016.

During 2014, the Company divested the majority of its global Interiors business (the "Interiors Divestiture"). Subsequently, Visteon completed the sale of its Interiors operations in Thailand on February 2, 2015. Remaining operations subject to the Interiors Divestiture are located in Argentina and Brazil and are expected to close during 2016. Assets and liabilities associated with these operations continue to meet the "held for sale" criteria at June 30, 2016 and classified as "Other current assets" or "Other current liabilities" in the consolidated balance sheets. These remaining transactions are subject to various conditions, including regulatory and antitrust approvals, receipt of other third party consents and approvals and other customary closing conditions, and may be subject to further cash impacts based on purchase price adjustments at the time of closing. The Company expects to record losses in connection with the Argentina and Brazil portions of the Interiors Divestiture in future periods upon closing, which are estimated to be approximately \$20 million.

Enhance Shareholder Returns - In connection with the Climate Transaction, the Company expects to return approximately \$2.75 billion of cash to shareholders through 2016 via a series of actions including share buybacks and special distributions.

On June 16, 2015, the Company announced an accelerated stock buyback ("ASB") program with a third-party financial institution to purchase shares of Visteon common stock for an aggregate purchase price of \$500 million, as the first of these shareholder return actions. Under the program, the Company paid the financial institution \$500 million and received an initial delivery of 3,712,297 shares of common stock using a reference price of \$107.75. The program concluded in December 2015 and the Company received an additional 1,058,965 shares. The final settlement price for all shares delivered under this 2015 ASB program was \$104.79.

During the fourth quarter of 2015, the Company entered into an agreement with a third party financial institution to purchase up to \$150 million of Visteon common stock in accordance with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934 ("10b5-1 Share Repurchase Program"). During the period of the program, which concluded on March 1, 2016, the Company paid approximately \$105 million to repurchase 1,607,849 shares at an average price of \$65.05.

On December 9, 2015, the Company declared a special distribution of \$43.40 per share of its common stock outstanding as of January 15, 2016, or approximately \$1.75 billion in the aggregate. On January 22, 2016 approximately \$1.74 billion was distributed to shareholders. An additional amount of approximately \$15 million will be paid over a two-year period as related to the vesting and settlement of restricted stock units and performance-based share units previously granted to the Company's employees. These amounts were classified as "Distribution payable" on the Consolidated Balance Sheets as of June 30, 2016 and December 31, 2015.

Table of Contents

On March 1, 2016, the Company entered into another ASB program with a third-party financial institution to purchase shares of Visteon common stock for an aggregate purchase price of \$395 million. Under the program, the Company paid the financial institution \$395 million and received an initial delivery of 4,370,678 shares of common stock using a reference price of \$72.30. The final number of shares to be repurchased will be based on the average of the daily volume-weighted average prices of the Company's common stock during the term of the transaction, less an agreed discount and subject to adjustments pursuant to the terms and conditions of the ASB Agreement. The final settlement of this ASB Agreement is set to occur by the end of 2016 and may be accelerated after August 2, 2016 at the option of the third-party financial institution.

Executive Summary

The Company's Electronics sales for the three months ended June 30, 2016 totaled \$762 million, the pie charts below highlight the sales breakdown for Visteon's Electronics segment for the three and six months ended June 30, 2016.

Three Months Ended June 30, 2016

Six Months Ended June 30, 2016

During the second quarter of 2016, the global automotive industry continued to experience modest growth driven by Europe. North America and Asia Pacific also grew although at a rate lower than the global average, while production volumes in South America continued to contract.

On April 16, 2016 there was an earthquake in Kyushu Japan which has the potential to directly or indirectly disrupt material supply and electronic competent production of various automotive suppliers, including Visteon, and corresponding vehicle manufacturers. Visteon is assessing the situation and working with its suppliers and customers to minimize disruption but at this time cannot quantify potential adverse impacts on the Company's financial condition, results of operations and cash flows, if any.

Table of Contents

Light vehicle production levels for the three and six months ended June 30, 2016 and 2015, by geographic region are provided below:

	Three Months Ended June 30			Six Months Ended June 30			
	2016	2015	Change	2016	2015	Change	
	(Units in Millions)

Source: IHS Automotive

Significant aspects of the Company's financial results during the three and six month periods ended June 30, 2016 include the following:

The Company recorded sales of \$773 million for the three months ended June 30, 2016, representing a decrease of \$39 million when compared with the same period of 2015. The decrease was primarily due to the Germany Interiors Divestiture, the wind down of Other South America business and customer pricing net of design savings. The decrease was partially offset by favorable volumes, product mix, net new business and favorable currency.

The Company recorded sales of \$1,575 million for the six months ended June 30, 2016, representing a decrease of \$53 million when compared with the same period of 2015. The decrease was primarily due to the Germany Interiors Divestiture, the wind down of Other South America business, Euro and Chinese Yuan currency impacts, and customer pricing net of design changes. The decrease was partially offset by higher production volumes and new business.

Gross margin was \$109 million or 14.1% of sales for the three months ended June 30, 2016, compared to \$99 million or 12.2% of sales for the same period of 2015. The increase was primarily attributable to the non-recurrence of 2015 warranty costs and improved cost performance partially offset by customer pricing.

Gross margin was \$230 million or 14.6% of sales for the six months ended June 30, 2016, compared to \$211 million or 13.0% of sales for the same period of 2015. The increase was primarily attributable to favorable volumes, net new business and product mix, improved cost performance and lower warranty expense, partially offset by unfavorable currency and the wind down of Other South America business.

Net income attributable to Visteon was \$26 million for the three months ended June 30, 2016, compared to net income of \$2,208 million for the same period of 2015. The decrease of \$2,182 million includes lower income from discontinued operations of \$2,168 million primarily resulting from the 2015 gain on the Climate Transaction, tax impacts and decreased results from climate operations. Net income also decreased during 2016 due to the 2015 gain on sale of non-consolidated affiliates of \$62 million, partially offset by improved gross margin for continuing operations of \$10 million, lower selling, general and administrative expenses of \$11 million, lower restructuring expenses of \$5 million, the non-recurrence of loss on debt extinguishment of \$5 million and lower provision for income taxes of \$15 million.

Net income attributable to Visteon was \$45 million for the six months ended June 30, 2016, compared to net income of \$2,258 million for the same period of 2015. The decrease of \$2,213 million includes lower income from discontinued operations of \$2,227 million primarily resulting from the 2015 gain on the Climate Transaction, tax impacts and decreased results from climate operations. Net income also decreased during 2016 due to the 2015 gain on sale of non-consolidated affiliates of \$62 million, partially offset by lower net income attributable to non-controlling interests of \$28 million, improved gross margin for continuing operations of \$19 million, lower selling, general and administrative expenses of \$13 million, the non-recurrence of loss on debt extinguishment of \$5 million, and lower provision for income taxes of \$11 million.

Including discontinued operations, cash provided by operating activities was \$14 million for the six months ended June 30, 2016, a decrease of \$190 million compared with the same period of 2015. The reduction is primarily related to the exit of the Climate business, and higher tax and restructuring payments.

- Total cash and short-term investments, including amounts held for sale, were \$847 million as of June 30, 2016, \$1,882 million lower than \$2,729 million as of December 31, 2015, primarily attributable to the special distribution of approximately \$1,736 million and share repurchases of \$500 million, partially offset by the Climate Transaction withholding tax refund of \$356 million.

Table of Contents

Consolidated Results of Operations - Three Months Ended June 30, 2016 and 2015

The Company's consolidated results of operations for the three months ended June 30, 2016 and 2015 were as follows:

	Three Months Ended June 30		
	2016	2015	Change
	(Dollars in Millions)		
Sales	\$773	\$812	\$(39)
Cost of sales	664	713	(49)

Selling, general and administrative expenses	54	65	(11)
Restructuring expense	7	12	(5)
Interest expense, net	3	6	(3)
Equity in net income of non-consolidated affiliates	3	12	(9)
Loss on debt extinguishment	—	5	(5)
Gain on sale of non-consolidated affiliates	—	62	(62)
Other income, net	—	(4)	4
Provision for income taxes	9	24	(15)
Net income from continuing operations	39	65	(26)
(Loss) income from discontinued operations	(9)	2,159	(2,168)
Net income	30	2,224	(2,194)
Net income attributable to non-controlling interests	4	16	(12)
Net income attributable to Visteon Corporation	\$26	\$2,208	\$(2,182)
Adjusted EBITDA*	\$77	\$60	\$17

* Adjusted EBITDA is a Non-GAAP financial measure, as further discussed below.

Sales

Sales for the three months ended June 30, 2016 totaled \$773 million, which represents a decrease of \$39 million compared with the same period of 2015. Favorable volumes, product mix, and net new business increased sales by \$8 million. Favorable currency further increased sales by \$3 million, primarily attributable to the strengthening Euro partially offset by the Chinese Yuan. These increases were offset by the sale of an Interiors facility in Germany on December 1, 2015 which decreased sales by \$24 million. Other reductions were associated with customer pricing, net of design savings.

Cost of Sales

Cost of sales decreased \$49 million for the three months ended June 30, 2016 when compared with the same period in 2015. Increased volumes, product mix, and net new business increased cost of sales by \$8 million. Foreign currency increased cost of sales by \$3 million primarily attributable to the Japanese Yen and Euro, offset by the Mexican Peso and Chinese Yuan. These increases were offset by the sale of the German Interiors facility which decreased cost of sales by \$23 million. Lower warranty expense reduced cost of sales by \$6 million as the second quarter of 2015 included estimate changes for customer actions. Net efficiencies, including material, design and usage economics and manufacturing efficiencies, decreased cost of sales by \$31 million.

Gross Margin

Gross margin was \$109 million or 14.1% of sales for the three months ended June 30, 2016 compared to \$99 million or 12.2% of sales for the same period of 2015. The \$10 million increase in gross margin was primarily attributable to improved cost performance. Volume impacts were consistent as product mix offset lower sales. Currency was also consistent when compared with the same period in 2015 as the impact of Mexican Peso and Chinese Yuan offset the Japanese Yen and Euro. The sale of the German Interiors facility decreased gross margin by \$1 million. Lower warranty expense increased gross margin by \$6 million as the second quarter of 2015 included estimate changes for customer actions. Gross margin also included \$5 million of favorable net cost performance, driven by material and manufacturing cost efficiencies which more than offset customer pricing.

Table of Contents

Selling, General and Administrative Expenses

Selling, general, and administrative expenses were \$54 million and \$65 million during the three months ended June 30, 2016 and 2015, respectively. The decrease is primarily related to net efficiencies and lower incentive compensation costs.

Restructuring Expense

Electronics: During the first quarter of 2016, the Company announced a restructuring program associated with approximately 100 employees, to transform the Company's engineering organization and supporting functional areas to focus on execution and technology. The organization will be comprised of regional engineering, product management and advanced technologies, and global centers of competence. During the three months ended June 30, 2016, the Company has recorded approximately \$1 million of restructuring expenses under this program.

During the fourth quarter of 2015, the Company announced a restructuring program designed to reduce the workforce at a European Electronics facility. The Company recorded \$12 million of severance and termination benefits under this program associated with approximately 100 employees.

In connection with the Electronics Acquisition, the Company commenced a restructuring program designed to achieve annual cost savings through transaction synergies. During the three months ended June 30, 2015, the Company recorded \$9 million of severance and termination benefits under this program associated with approximately 420 employees.

The Company previously announced a restructuring program designed to reduce fixed costs and to improve operational efficiency by addressing certain under-performing operations. In connection with that program, the Company announced plans to realign its corporate and administrative functions directly to their corresponding operational beneficiary. During the three months ended June 30, 2015, the Company recorded \$3 million for restructuring expenses, primarily related to severance and termination benefits.

Other: During the three months ended June 30, 2016, the Company recorded \$7 million of restructuring expenses, related to severance and termination benefits, in connection with the wind down of certain operations in South America.

During the three months ended June 30, 2015, the Company recorded \$1 million of restructuring expenses, classified as discontinued operations, related to severance and termination benefits in connection with the reorganization of the Company's Climate operations in France.

Restructuring Reserves

Restructuring reserve balances of \$37 million at June 30, 2016 are classified as "Other current liabilities" on the consolidated balance sheets. The Company anticipates that the activities associated with the restructuring reserve balances will be substantially completed by June 30, 2017.

Interest Expense, Net

Interest expense, net, was \$3 million and \$6 million for the three months ended June 30, 2016 and 2015, respectively. Interest expense for the three months ended June 30, 2016 and 2015 is primarily related to the Company's Term Facility with original principal of \$600 million and paid down to \$350 million following the Climate Transaction in June 2015.

Equity in Net Income of Non-Consolidated Affiliates

Equity in net income of non-consolidated affiliates was \$3 million and \$12 million for the three month periods ended June 30, 2016 and 2015 respectively. The income in 2016 is primarily attributable to the Company's equity interest in Yanfeng Visteon Investment Company. The income in 2015 was primarily attributable to dividend recognition for a cost basis investment.

Table of Contents

Other (Income) Expense, Net

Other (income) expense, net consists of the following:

	Three Months Ended June 30 2016	2015
	(Dollars in Millions)	
Transformation initiatives	\$1	\$13
Transaction hedging and exchange	—	(22)
Integration costs	—	5
Recoverable taxes	(1)	—
	\$—	\$(4)

Other (income) expense, net includes transformation initiatives, transaction hedging and exchange, and integration costs. Transformation initiatives include information technology separation costs and financial and advisory services incurred in connection with execution of the Company's comprehensive value creation plan. Transaction hedging and exchange losses of \$22 million for the three months ended June 30, 2015 relate to Climate Transaction proceeds hedging impacts.

Integration costs include costs associated with re-branding, facility modification, information technology readiness and related professional services necessary to integrate businesses associated with the Electronics Acquisition.

Income Taxes

The Company's provision for income taxes of \$9 million for the three months ended June 30, 2016, represents a decrease of \$15 million when compared with \$24 million in the same period of 2015. The decrease in tax expense is primarily attributable to the year-over-year decrease in earnings, as well as changes in the mix of earnings and differing tax rates between jurisdictions, and also reflects the non-recurrence of \$8 million related to the withholding tax associated with the sale of its non-consolidated affiliate located in China during the second quarter of 2015.

These decreases were partially offset by unfavorable adjustments in the amount of \$3 million to record under withheld taxes in connection with intercompany transactions between the U.S. and non-U.S. taxing jurisdictions related to previous years.

Discontinued Operations

The operations subject to the Interiors Divestiture and Climate Transaction met conditions required to qualify for discontinued operations reporting. Accordingly, the results of operations for the Interiors business have been reclassified to (loss) income from discontinued operations, net of tax in the consolidated statements of comprehensive income for the three month periods ended June 30, 2016 and 2015. The three month period ended June 30, 2015 also included the results of operations for the Climate business, sold during the second quarter of 2015.

Table of Contents

Discontinued operations are summarized as follows:

	Three Months Ended June 30 2016 2015 (Dollars in Millions)	
Sales	\$11	\$933
Cost of sales	15	862
Gross margin	(4)	71
Selling, general and administrative expenses	2	35
Loss and impairment on Interiors Divestiture	1	2
Loss (gain) on Climate Transaction	2	(2,332)
Restructuring expense	—	1
Interest expense, net	—	1
Equity in net income of non-consolidated affiliates	—	3
Other (income) expense, net	1	(1)
(Loss) income from discontinued operations before income taxes	(10)	2,368
(Benefit) provision for income taxes	(1)	209
(Loss) income from discontinued operations, net of tax	\$(9)	\$2,159

During the three month period ended June 30, 2015, the Company received \$3.4 billion of gross proceeds and recorded a \$2.3 billion pre-tax gain associated with the Climate Transaction. A summary of the gain is summarized below (dollars in millions):

Gross proceeds	(1)\$3,423
Korea withholding tax	(2)(377)
Professional fees	(3)(20)
Korea security transaction tax	(4)(17)
Divested cash balances	(5)(345)
Net cash provided from investing activities	2,664
Net assets divested, excluding cash balances	(5)(557)
Information technology separation and service obligations	(6)(53)
Employee related charges	(7)(45)
Electronics business repurchase obligation	(8)(50)
Professional fees	(3)(4)
Korea withholding tax recoverable	(2)377
Net gain on Climate Transaction	\$2,332

(1) Gross proceeds of \$3.423 billion were received in connection with the Climate Transaction, translated at a spot rate of 1,121.5 KRW to USD on June 9, 2015. Impacts of related hedging activities and exchange on proceeds conversion into USD are included in the Company's consolidated statements of comprehensive income as "Other (income) expense, net" for the three months ended June 30, 2015.

(2) In connection with the transaction, the Company recorded a tax recoverable of \$377 million for Korean capital gains tax withheld by the Purchasers and paid to the Korean government. This amount reduced proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015. The Company received the entire amount of the expected capital gains withholding tax

in January 2016, amounting to \$356 million as adjusted for interest and exchange as the refund was denominated in Korean won. Net exchange and interest impacts are recorded as provision for income taxes within discontinued operations.

(3) Professional fees of \$24 million, representing fees paid to financial advisors, were based on a percentage of the gross proceeds, partially offset by previously paid retainer fees of \$4 million, for a net payment of \$20 million reducing proceeds classified

38

Table of Contents

as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.

(4) Security transaction taxes of \$17 million were remitted to the Korean government as of the transaction close, reducing proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.

(5) Net assets of \$902 million, including assets, liabilities, accumulated other comprehensive income and non-controlling interests, were divested in connection with the Climate Transaction. Divested assets included \$345 million of cash balances, reflected as a reduction of transaction proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.

(6) In connection with the Climate Transaction, the Company has entered an agreement pursuant to which Visteon will provide information technology ongoing and separation services for HVCC to fully operate as an independent entity with estimated costs of approximately \$53 million. The information technology liability is included in the Company's consolidated balance sheets as "Other current liabilities" as of June 30, 2016.

(7) Employee related charges of \$45 million include bonus payments, the Company's assumption of incentive plan liabilities, and impacts of employment change in control provisions. Bonus payments of \$30 million are classified in the Company's net cash provided from operating activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015. Amounts remaining to be paid are included in the Company's consolidated balance sheets as "Accrued employee liabilities" as of June 30, 2016.

(8) In connection with the Climate Transaction, the Company has entered an agreement to purchase certain electronics operations located in India, expected to close in 2016 after legal separation and regulatory approvals are met. The Company has recorded a repurchase obligation of \$50 million, representing the estimated purchase price of the subject business. The Company continues to consolidate the business, with net assets of approximately \$22 million as of June 30, 2016, based on the Company's continued controlling financial interest. The Company's controlling financial interest was evaluated based on continued operating control and obligation to fund losses or benefit from earnings. The business is included in a legal entity currently owned by HVCC and therefore the Electronics business assets are not available for general corporate purposes. The repurchase obligation is included in the Company's consolidated balance sheets as "other current liabilities" as of June 30, 2016 and December 31, 2015.

Net Income

Net income attributable to Visteon was \$26 million for the three months ended June 30, 2016, compared to net income of \$2,208 million for the same period of 2015. The decrease of \$2,182 million includes lower income from discontinued operations of \$2,168 million primarily resulting from the 2015 gain on the Climate Transaction, tax impacts and decreased results from climate operations. Net income also decreased during 2016 due to the 2015 gain on sale of non-consolidated affiliates of \$62 million, partially offset by improved gross margin for continuing operations of \$10 million, lower selling, general and administrative expenses of \$11 million, lower restructuring expenses of \$5 million, the non-recurrence of loss on debt extinguishment of \$5 million and lower provision for income taxes of \$15 million.

Adjusted EBITDA (a non-GAAP financial measure, as defined below) was \$77 million for the three months ended June 30, 2016, representing an increase of \$17 million when compared with Adjusted EBITDA of \$60 million for the same period of 2015. The increase included \$14 million from favorable net cost performance, driven by material and manufacturing cost efficiencies which more than offset customary pricing productivity given to customers. Adjusted EBITDA also increased due to lower warranty expense of \$6 million as the second quarter of 2015 included estimate

changes for customer actions. The increases in Adjusted EBITDA were partially offset by higher engineering costs, net of recoveries of \$2 million and the divestiture of the Germany Interiors facility in 2015 of \$1 million.

The Company defines Adjusted EBITDA as net income attributable to the Company adjusted to eliminate the impact of depreciation and amortization, restructuring expense, net interest expense, loss on debt extinguishment, equity in net income of non-consolidated affiliates, loss on divestiture, gain on non-consolidated affiliate transactions, other net expense, provision for income taxes, discontinued operations, net income attributable to non-controlling interests, non-cash stock-based compensation expense, pension settlement gains and other non-operating gains and losses.

Table of Contents

Adjusted EBITDA is presented as a supplemental measure of the Company's financial performance that management believes is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. Not all companies use identical calculations

and, accordingly, the Company's presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is not a recognized term under accounting principles generally accepted in the United States and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses Adjusted EBITDA (i) as a factor in incentive compensation decisions, (ii) to evaluate the effectiveness of the Company's business strategies and (iii) because the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants. Adjusted EBITDA, as determined and measured by the Company should not be compared to similarly titled measures reported by other companies.

The reconciliation of Adjusted EBITDA to net income attributable to Visteon for the three months ended June 30, 2016 and 2015, is as follows:

	Three Months Ended		
	June 30		
	2016	2015	Change
	(Dollars in Millions)		
Adjusted EBITDA	\$77	\$60	\$17

Segment Results of Operations - Three Months Ended June 30, 2016 and 2015

The Company's operating structure is organized into two global product groups, including Electronics and Other. These global product groups have financial and operating responsibility over the design, development and manufacture of the Company's product portfolio. Certain functions such as procurement, information technology and other administrative activities are managed on a global basis with regional deployment. The Company's product groups are as follows:

⌘ Electronics - The Company's Electronics segment provides vehicle cockpit electronics products to customers, including audio systems, information displays, instrument clusters, head up displays, infotainment systems, and

telematics solutions.

Other - Other includes entities in South America and South Africa previously associated with the Climate business but not subject to the Climate Transaction. On July 18, 2016, the Company reached an agreement to sell its South Africa climate operations, with 2015 annual sales of \$9 million as reported in the Company's Other product line. The sale is expected to close during the third quarter of 2016. During 2015, Other also included the Berlin, Germany operations previously associated with the Interiors business and sold during the fourth quarter of 2015.

Table of Contents

Sales by Segment

	Electronics	Other	Eliminations	Total
	(Dollars in Millions)			
Three months ended June 30, 2015	\$780	\$42	\$ (10)	\$812
Volume, mix, and net new business	5	(7)	10	8
Currency	2	1	—	3
Germany Interiors Divestiture	—	(24)	—	(24)
Price productivity and other	(25)	(1)	—	(26)
Three months ended June 30, 2016	\$762	\$11	\$ —	\$773

Electronics sales decreased during the three months ended June 30, 2016 by \$18 million. Higher production volumes and new business increased sales by \$5 million. Volume, mix, and net new business were favorable in Europe, and North America. These increases were partially offset by lower volumes in Asia Pacific and South America. Favorable currency, primarily related to the Euro, partially offset by the Chinese Yuan, increased sales by \$2 million. Other reductions reflected customer pricing net of design changes.

Other sales decreased during the three months ended June 30, 2016 by \$31 million. The Germany Interiors Divestiture, effective December 1, 2015 decreased sales by \$24 million. Lower production volumes related to the wind down of certain South America businesses reduced sales by \$7 million.

Cost of Sales by Segment

	Electronics	Other	Eliminations	Total
	(Dollars in Millions)			
Three months ended June 30, 2015	\$682	\$41	\$ (10)	\$713
Currency	2	1	—	3
Volume, mix, and net new business	4	(6)	10	8
Germany Interiors Divestiture	—	(23)	—	(23)
Other	(37)	—	—	(37)
Three months ended June 30, 2016	\$651	\$13	\$ —	\$664

Electronics cost of sales decreased during the three months ended June 30, 2016 by \$31 million when compared with the same period in 2015. Cost of sales increased \$4 million attributable to increased volumes as well as changes in product mix, representing the variable nature of material and labor costs. Foreign currency also increased cost of sales by \$2 million primarily attributable to the Japanese Yen and Euro, partially offset by the Mexican Peso and Chinese Yuan. These increases were partially offset by \$37 million of net efficiencies related to material and manufacturing costs as well as lower warranty expense.

Cost of sales for Other decreased approximately \$28 million, primarily reflecting the Germany Interiors Divestiture and the wind down of certain South America businesses.

Cost of sales includes net engineering costs comprised of gross engineering expenses related to forward model program development and advanced engineering activities, partially offset by engineering cost recoveries from customers. Electronics gross engineering expenses were \$99 million for the three months ended June 30, 2016, \$9 million higher than the same period of 2015. Engineering recoveries were \$17 million for the three months ended June 30, 2016, \$7 million higher than the same period of 2015. Engineering cost recoveries can fluctuate period to period depending on underlying contractual terms and conditions and achievement of related development milestones.

Table of Contents

Adjusted EBITDA by Segment

Adjusted EBITDA by segment for the three months ended June 30, 2016 and 2015 is presented in the table below.

	Three Months Ended June 30		
	2016	2015	Change
	(Dollars in Millions)		
Electronics	\$79	\$60	\$19
Other	(2)	—	(2)
Adjusted EBITDA	\$77	\$60	\$17

Changes in Adjusted EBITDA by segment are presented in the table below.

	Electronics	Other	Total
	(Dollars in Millions)		
Three months ended June 30, 2015	\$60	\$—	\$60
Volume, mix, and net new business	1	(1)	—
Germany Interiors Divestiture	—	(1)	(1)
Other	18	—	18
Three months ended June 30, 2016	\$79	\$(2)	\$77

Electronics Adjusted EBITDA increased \$19 million for the three months ended June 30, 2016 when compared to the same period of 2015. Cost performance net of customer price productivity increased adjusted EBITDA by \$18 million. Cost performance for the three months ended June 30, 2016 included lower warranty and selling, general and administrative expenses. Favorable volumes, mix and new business, increased Adjusted EBITDA by \$1 million while currency was consistent compared to the same period in 2015.

Other Adjusted EBITDA for the three months ended June 30, 2016 decreased by \$2 million compared to the same period of 2015 primarily related to the sale of the Germany Interiors facility and and the wind down of certain South America businesses.

Table of Contents

Consolidated Results of Operations - Six Months Ended June 30, 2016 and 2015

The Company's consolidated results of operations for the six months ended June 30, 2016 and 2015 were as follows:

	Six Months Ended June		
	2016	2015	Change
	(Dollars in Millions)		
Sales	\$1,575	\$1,628	\$(53)
Cost of sales	1,345	1,417	(72)

Net income	53	2,294	(2,241)
Net income attributable to non-controlling interests	8	36	(28)
Net income attributable to Visteon Corporation	\$45	\$2,258	\$(2,213)
Adjusted EBITDA*	\$166	\$138	\$28

* Adjusted EBITDA is a Non-GAAP financial measure, as further discussed below.

Sales

Sales for the six months ended June 30, 2016 totaled \$1,575 million, which represents a decrease of \$53 million compared with the same period of 2015. Favorable volumes, product mix, and net new business increased sales by \$62 million. The sale of the German Interiors facility on December 1, 2015 decreased sales for the six months by \$50 million. Unfavorable currency further decreased sales by \$21 million, primarily attributable to the Chinese Yuan and Euro. Other reductions were associated with customer pricing, net of design savings.

Cost of Sales

Cost of sales decreased \$72 million for the six months ended June 30, 2016 when compared with the same period in 2015. Increased volumes, product mix, and net new business increased cost of sales by \$51 million. The sale of the German Interiors facility decreased cost of sales by \$50 million. Foreign currency decreased cost of sales by \$17 million primarily attributable to the Euro, Chinese Yuan, and Mexican Peso partially offset by the Japanese Yen. Warranty expense, which included changes in estimates for customer actions in the second quarter of 2015 and a supplier recovery in the first quarter of 2016, decreased costs of sales by \$9 million. Net efficiencies, including material, design and usage economics and manufacturing efficiencies, decreased cost of sales by \$47 million.

Gross Margin

Gross margin was \$230 million or 14.6% of sales for the six months ended June 30, 2016 compared to \$211 million or 13.0% of sales for the same period of 2015. The \$19 million increase in gross margin included \$11 million from favorable volumes, net new business and product mix. The impact of the sale of the German Interiors facility was neutral for the first six months. Gross margin also included \$12 million of favorable net cost performance, driven by material and manufacturing cost efficiencies and lower warranty expense, which more than offset customer pricing reductions. The increases in gross margin were partially offset by unfavorable currency of \$4 million primarily attributable to the Japanese Yen partially offset by the Mexican Peso and Chinese Yuan.

Table of Contents

Selling, General and Administrative Expenses

Selling, general, and administrative expenses were \$110 million and \$123 million during the six months ended June 30, 2016 and 2015, respectively. The decrease is primarily related to net efficiencies and lower incentive compensation expense.

Restructuring Expense

Electronics: During the first quarter of 2016, the Company announced a restructuring program to transform the Company's engineering organization and supporting functional areas to focus on execution and technology. The organization will be comprised of regional engineering, product management and advanced technologies, and global centers of competence. Through the first six months of 2016, the Company has recorded approximately \$12 million of restructuring expenses under this program, associated with approximately 100 employees.

During the fourth quarter of 2015, the Company announced a restructuring program designed to reduce the workforce at a European Electronics facility. The Company recorded \$12 million of severance and termination benefits under this program associated with approximately 100 employees.

In connection with the Electronics Acquisition, the Company commenced a restructuring program designed to achieve annual cost savings through transaction synergies. During the six months ended June 30, 2015, the Company recorded \$12 million primarily related to severance and termination benefits under this program associated with approximately 420 employees.

The Company previously announced a restructuring program designed to reduce fixed costs and to improve operational efficiency by addressing certain under-performing operations. In connection with that program, the Company announced plans to realign its corporate and administrative functions directly to their corresponding operational beneficiary. During the six months ended June 30, 2015, the Company recorded \$3 million for restructuring expenses, primarily related to severance and termination benefits.

Other: During the six months ended June 30, 2016, the Company recorded \$7 million of restructuring expenses, related to severance and termination benefits, in connection with the wind-down of certain operations in South America.

During the six months ended June 30, 2015, the Company recorded \$2 million of restructuring expenses, classified as discontinued operations, related to severance and termination benefits, in connection with the reorganization of the Company's Climate operations in France.

Restructuring Reserves

Restructuring reserve balances of \$37 million at June 30, 2016 are classified as "Other current liabilities" on the consolidated balance sheets. The Company anticipates that the activities associated with the restructuring reserve balances will be substantially completed by June 30, 2017.

Interest Expense, Net

Interest expense, net, of \$5 million and \$11 million, for the six months ended June 30, 2016 and June 30, 2015, is primarily associated with the Company's Term Facility due April 9, 2021 with original principal of \$600 million and paid down to \$350 million following the Climate Transaction in June 2015. The net interest expense decrease of \$6 million includes \$4 million related to lower term loan principal for the six months ended June 30, 2016.

Equity in Net Income of Non-Consolidated Affiliates

Equity in net income of non-consolidated affiliates was \$3 million and \$11 million for the three month periods ended June 30, 2016 and 2015 respectively. The income in 2016 is primarily attributable to the Company's equity interest in Yanfeng Visteon Investment Company. The income in 2015 was primarily attributable to dividend recognition for a cost basis investment.

Table of Contents

Other (Income) Expense, Net

Other (income) expense, net consists of the following:

	Six	
	Months	
	Ended	
	June 30	
	2016	2015
	(Dollars	
	in	
	Millions)	
Transformation initiatives	\$3	\$18
Transaction hedging and exchange (gains) losses	1	(19)
Integration costs	1	9
Recoverable taxes	(1)	—
	\$4	\$8

Other (income) expense, net includes transformation initiatives, transaction hedging and exchange, and integration costs. The Company recorded transformation initiatives of \$3 million and \$18 million for the six months ended June 30, 2016 and 2015, respectively. Transformation initiatives include information technology separation costs and financial and advisory services incurred in connection with execution of the Company's comprehensive value creation plan. Transaction hedging and exchange losses of \$1 million for the six months ended June 30, 2016 relate to the Climate Transaction Korean withholding tax refund exchange impacts and \$19 million for the six months ended June 30, 2015 relate to Climate Transaction proceeds hedging impacts.

Integration costs include costs associated with re-branding, facility modification, information technology readiness and related professional services necessary to integrate businesses associated with the Electronics Acquisition.

Income Taxes

The Company's provision for income taxes of \$22 million for the six months ended June 30, 2016 represents a decrease of \$11 million when compared with \$33 million in the same period of 2015. The decrease in tax expense is attributable to several items including the year-over-year decrease in earnings, as well as changes in the mix of earnings and differing tax rates between jurisdictions, the non-recurrence of \$8 million related to the withholding tax associated with the sale of its non-consolidated affiliate located in China during the second quarter of 2015, and favorable developments in connection with certain income tax incentives formally approved by the Portuguese tax authorities during the first quarter of 2016 resulting in a discrete income tax benefit of \$3 million.

These decreases were partially offset by several items including the non-recurrence of an \$8 million benefit, including interest and penalties, primarily attributable to favorable audit developments in Asia leading to changes in judgment during the first quarter of 2015, and \$2 million related to ongoing interest accruals for uncertain tax positions and unfavorable developments associated with an ongoing audit in Mexico during the first quarter of 2016, and \$3 million to record under withheld taxes in connection with intercompany transactions between the U.S. and non-U.S. taxing jurisdictions related to previous years.

Discontinued Operations

The operations subject to the Interiors Divestiture and Climate Transaction met conditions required to qualify for discontinued operations reporting. Accordingly, the results of operations for the Interiors business have been

reclassified to (loss) income from discontinued operations, net of tax in the consolidated statements of comprehensive income for the six month periods ended June 30, 2016 and 2015. The six month period ended June 30, 2015 also included the results of operations for the Climate business, sold during the second quarter of 2015.

Table of Contents

Discontinued operations are summarized as follows:

	Six Months Ended June 30 2016 2015 (Dollars in Millions)	
Sales	\$20	\$2,168
Cost of sales	28	2,000
Gross margin	(8)	168
Selling, general and administrative expenses	2	75
Loss and impairments on Interiors Divestiture	2	16
Loss (gain) on Climate Transaction	2	(2,332)
Restructuring expense	—	2
Interest expense, net	—	2
Equity in net income of non-consolidated affiliates	—	6
Other (income) expense, net	1	5
(Loss) income from discontinued operations before income taxes	(15)	2,406
Provision for income taxes	7	201
(Loss) income from discontinued operations, net of tax	\$(22)	\$2,205

During the six months ended June 30, 2016, the Company recorded currency impacts of \$8 million in connection with the Korean capital gains withholding tax recovered during the first quarter of 2016.

During the six-month period ended June 30, 2015, the Company received \$3.4 billion of gross proceeds and recorded a pre-tax gain of \$2.3 billion associated with the Climate Transaction. A summary of the gain is summarized below (dollars in millions):

Gross proceeds	(1)\$3,423
Korea withholding tax	(2)(377)
Professional fees	(3)(20)
Korea security transaction tax	(4)(17)
Divested cash balances	(5)(345)
Net cash provided from investing activities	2,664
Net assets divested, excluding cash balances	(5)(557)
Information technology separation and service obligations	(6)(53)
Employee related charges	(7)(45)
Electronics business repurchase obligation	(8)(50)
Professional fees	(3)(4)
Korea withholding tax recoverable	(2)377
Net gain on Climate Transaction	\$2,332

(1) Gross proceeds of \$3.423 billion were received in connection with the Climate Transaction, translated at a spot rate of 1,121.5 KRW to USD on June 9, 2015. Impacts of related hedging activities and exchange on proceeds conversion into USD are included in the Company's consolidated statements of comprehensive income as "Other (income) expense, net" for the six months ended June 30, 2015.

(2) In connection with the transaction, the Company recorded a tax recoverable of \$377 million for Korean capital gains tax withheld by the Purchasers and paid to the Korean government. This amount reduced proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015. The Company received the entire amount of the expected capital gains withholding tax in January 2016, amounting to \$356

46

Table of Contents

million as adjusted for interest and exchange as the refund was denominated in Korean won. Net exchange and interest impacts are recorded as provision for income taxes within discontinued operations.

(3) Professional fees of \$24 million, representing fees paid to financial advisors, were based on a percentage of the gross proceeds, partially offset by previously paid retainer fees of \$4 million, for a net payment of \$20 million reducing proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.

(4) Security transaction taxes of \$17 million were remitted to the Korean government as of the transaction close, reducing proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.

(5) Net assets of \$902 million, including assets, liabilities, accumulated other comprehensive income and non-controlling interests, were divested in connection with the Climate Transaction. Divested assets included \$345 million of cash balances, reflected as a reduction of transaction proceeds classified as net cash provided from investing activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015.

(6) In connection with the Climate Transaction, the Company has entered an agreement pursuant to which Visteon will provide information technology ongoing and separation services for HVCC to fully operate as an independent entity with estimated costs of approximately \$53 million. The information technology liability is included in the Company's consolidated balance sheets as "Other current liabilities" as of June 30, 2016 and December 31, 2015.

(7) Employee related charges of \$45 million include bonus payments, the Company's assumption of incentive plan liabilities, and impacts of employment change in control provisions. Bonus payments of \$30 million are classified in the Company's net cash provided from operating activities within the Company's consolidated statements of cash flows for the six months ended June 30, 2015. Amounts remaining to be paid are included in the Company's consolidated balance sheets as "Accrued employee liabilities" as of June 30, 2016 and December 31, 2015.

(8) In connection with the Climate Transaction, the Company has entered an agreement to purchase certain electronics operations located in India, expected to close in 2016 after legal separation and regulatory approvals are met. The Company has recorded a repurchase obligation of \$50 million, representing the estimated purchase price of the subject business. The Company continues to consolidate the business, with net assets of approximately \$22 million as of June 30, 2016, based on the Company's continued controlling financial interest. The Company's controlling financial interest was evaluated based on continued operating control and obligation to fund losses or benefit from earnings. The business is included in a legal entity currently owned by HVCC and therefore the Electronics business assets are not available for general corporate purposes. The repurchase obligation is included in the Company's consolidated balance sheets as "Other current liabilities" as of June 30, 2016 and December 31, 2015.

Net Income

Net income attributable to Visteon was \$45 million for the six months ended June 30, 2016, compared to net income of \$2,258 million for the same period of 2015. The decrease of \$2,213 million includes lower income from discontinued operations of \$2,227 million primarily resulting from the 2015 gain on the Climate Transaction, tax impacts and decreased results from climate operations. Net income also decreased during 2016 due to the 2015 gain on sale of non-consolidated affiliates of \$62 million, partially offset by lower net income attributable to non-controlling interests of \$28 million, improved gross margin for continuing operations of \$19 million, lower selling, general and administrative expenses of \$13 million, the non-recurrence of loss on debt extinguishment of \$5 million, and lower provision for income taxes of \$11 million.

Adjusted EBITDA (a non-GAAP financial measure, as defined below) was \$166 million for the six months ended June 30, 2016, representing an increase of \$28 million when compared with Adjusted EBITDA of \$138 million for the same period of 2015. The increase included \$11 million from favorable volumes, net new business and product mix and \$17 million of favorable net cost performance, driven by material and manufacturing cost efficiencies which more than offset customary pricing productivity given to customers.

The Company defines Adjusted EBITDA as net income attributable to the Company adjusted to eliminate the impact of depreciation and amortization, restructuring expense, net interest expense, loss on debt extinguishment, equity in net income of non-consolidated affiliates, loss on divestiture, gain on non-consolidated affiliate transactions, other net expense, provision for income taxes, discontinued operations, net income attributable to non-controlling interests, non-cash stock-based compensation expense, pension settlement gains and other non-operating gains and losses.

Table of Contents

Adjusted EBITDA is presented as a supplemental measure of the Company's financial performance that management believes is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. Not all companies use identical calculations

and, accordingly, the Company's presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is not a recognized term under accounting principles generally accepted in the United States and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses Adjusted EBITDA (i) as a factor in incentive compensation decisions, (ii) to evaluate the effectiveness of the Company's business strategies and (iii) because the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants. Adjusted EBITDA, as determined and measured by the Company should not be compared to similarly titled measures reported by other companies.

The reconciliation of Adjusted EBITDA to net income attributable to Visteon for the six months ended June 30, 2016 and 2015, is as follows:

	Six Months Ended June 30		
	2016	2015	Change
	(Dollars in Millions)		
Adjusted EBITDA	\$166	\$138	\$28
Depreciation and amortization	41	42	(1)

Segment Results of Operations - Six Months Ended June 30, 2016 and 2015

The Company's operating structure is organized into two global product groups - Electronics and Other. These global product groups have financial and operating responsibility over the design, development and manufacture of the Company's product portfolio. Certain functions such as procurement, information technology and other administrative activities are managed on a global basis with regional deployment. The Company's two reportable segments are as follows:

Electronics - The Company's Electronics segment provides vehicle cockpit electronics products to customers, including audio systems, information displays, instrument clusters, head up displays, infotainment systems, and

telematics solutions.

Other - Other includes entities in South America and South Africa previously associated with the Climate business but not subject to the Climate Transaction. On July 18, 2016, the Company reached an agreement to sell its South Africa Climate operations, with 2015 annual sales of \$9 million as reported in the Company's Other product line. The sale is expected to close during the third quarter of 2016. During 2015, Other also included the Berlin, Germany operations previously associated with the Interiors business and sold during the fourth quarter of 2015.

Sales by Segment

	Electronics	Other	Eliminations	Total
	(Dollars in Millions)			
Six months ended June 30, 2015	\$1,561	\$ 86	\$ (19)	\$ 1,628
Volume, mix, and net new business	57	(14)	19	62
Currency	(20)	(1)	—	(21)
Germany Interiors Divestiture	—	(50)	—	(50)
Price productivity and other	(43)	(1)	—	(44)
Six months ended June 30, 2016	\$1,555	\$ 20	\$ —	\$ 1,575

Electronics sales decreased during the six months ended June 30, 2016 by \$6 million. Higher production volumes and new business increased sales by \$57 million. Volume, mix, and net new business improved in Asia Pacific, Europe, and North America, while South America deteriorated. Unfavorable currency, primarily related to the Chinese Yuan and Euro, decreased sales by \$20 million. Other reductions reflected customer pricing net of design changes.

Other sales decreased during the six months end June 30, 2016 by \$66 million. The Germany Interiors Divestiture, effective December 1, 2015, resulted in a decrease in sales of \$50 million. Lower production volumes related to the wind down of certain South America businesses reduced sales by \$14 million.

Cost of Sales by Segment

	Electronics	Other	Eliminations	Total
	(Dollars in Millions)			
Six months ended June 30, 2015	\$1,345	\$ 91	\$ (19)	\$ 1,417

Germany Interiors Divestiture	—	(50)	—	(50)
Other	(55)	(1)	—	(56)
Six months ended June 30, 2016	\$1,318	\$ 27	\$ —	\$ 1,345

Electronics cost of sales decreased during the six months ended June 30, 2016 by \$27 million when compared with the same period in 2015. Cost of sales increased \$44 million attributable to higher volumes as well as changes in product mix, representing the variable nature of material and labor costs. These increases were partially offset by \$16 million of unfavorable impacts of foreign currency, primarily related to the Euro, Chinese Yuan, and Mexican Peso, partially offset by the Japanese Yen. Additionally, the Company recognized \$55 million of net efficiencies related to material, manufacturing, and warranty costs.

Cost of sales for Other decreased \$64 million, reflecting the impacts of the Germany Interiors Divestiture during the fourth quarter of 2015, and lower production volumes related to the wind down for certain businesses in South America.

Cost of sales includes net engineering costs, comprised of gross engineering expenses related to forward model program development and advanced engineering activities, partially offset by engineering cost recoveries from customers. Electronics gross engineering expenses were \$192 million for the six months ended June 30, 2016, an increase of \$10 million compared to the same period of 2015. Engineering recoveries were \$36 million for the six months ended June 30, 2016, an increase of \$5 million compared to the same period of 2015. Engineering cost recoveries can fluctuate period to period depending on underlying contractual terms and conditions and achievement of related development milestones.

Table of Contents

Adjusted EBITDA by Segment

Adjusted EBITDA by segment for the six months ended June 30, 2016 and 2015 is presented in the table below.

	Six Months Ended		
	June 30		
	2016	2015	Change
	(Dollars in Millions)		
Electronics	\$ 173	\$ 144	\$ 29
Other	(7)	(6)	(1)
Adjusted EBITDA	\$ 166	\$ 138	\$ 28

Changes in Adjusted EBITDA by segment are presented in the table below.

	Electronics	Other	Total
	(Dollars in Millions)		
Six months ended June 30, 2015	\$ 144	\$ (6)	\$ 138
Volume, mix, and net new business	13	(2)	11
Currency	(2)	—	(2)
Other	18	1	19
Six months ended June 30, 2016	\$ 173	\$ (7)	\$ 166

Electronics Adjusted EBITDA increased \$29 million for the six months ended June 30, 2016 when compared to the same period of 2015. Higher volumes and new business, increased Adjusted EBITDA by \$13 million. Currency decreased adjusted EBITDA by \$2 million primarily related to the Japanese Yen. Net cost performance increased adjusted EBITDA by \$18 million primarily reflecting lower warranty and selling, general and administrative expenses. Material and manufacturing efficiencies were offset by customer pricing and higher engineering expense.

Other Adjusted EBITDA for the six months ended June 30, 2016 decreased by \$1 million compared to the same period of 2015 primarily related to lower South America volumes.

Liquidity

The Company's primary liquidity needs are related to the funding of general business requirements, including working capital, capital expenditures, debt service, employee retirement benefits and restructuring actions. The Company's primary sources of liquidity are cash flows from operations, existing cash balances, and borrowings under available credit facilities, if necessary. To the extent the Company generates discretionary cash flow, management determines the portion used for optional prepayments of existing indebtedness, strategic acquisitions, additional share repurchases, and/or general corporate purposes.

As of June 30, 2016, the Company had total cash balances of \$853 million, including \$1 million of cash held for sale and \$6 million of restricted cash. Cash balances totaling \$608 million were located in jurisdictions outside of the United States, of which approximately \$265 million is considered permanently reinvested for funding ongoing operations outside of the U.S. If such permanently reinvested funds are repatriated to operations in the U.S., the Company would be required to accrue additional tax expense, primarily related to foreign withholding taxes.

The Company's ability to fund its liquidity needs is dependent on the level, variability and timing of its customers' worldwide vehicle production, which may be affected by many factors including, but not limited to, general economic conditions, specific industry conditions, financial markets, competitive factors and legislative and regulatory changes.

The Company monitors the macroeconomic environment and its impact on vehicle production volumes in relation to the Company's specific cash needs. The Company's intra-year needs are impacted by seasonal effects in the industry, such as mid-year shutdowns, the subsequent ramp-up of new model production and the additional year-end shutdowns by primary customers.

Significant Cash Sources and Availability

To the extent that the Company's liquidity needs exceed cash provided by its operating activities, the Company would look to cash balances on hand, including funds from its existing \$350 million Term Facility due April 9, 2021 ("Term Facility"), or additional cash available on undrawn financing facilities such as its \$200 million revolving credit facility due April 9, 2019 ("Revolving

Table of Contents

Facility"), or other affiliate working capital lines of credit, other contractual arrangements, and potential additional capital through debt or equity markets.

Access to capital markets is influenced by the Company's credit ratings. In March 2016, the Company's credit rating was upgraded by S&P to BB- from B+ and Moody's upgraded the Company's credit rating to Ba3 from B1.

The Company executed an Amendment to the Credit Agreement on March 25, 2015. The Amendment, among other things, provides for certain modifications to the Credit Agreement to permit Visteon's sale of its ownership interest in HVCC and otherwise to update the Credit Agreement to account for HVCC no longer being a subsidiary of Visteon following the Climate Transaction. Under the Amendment, Term Lenders agreed to waive that 100% of the Net Cash Proceeds received by the Borrower or any of its Restricted Subsidiaries from the Climate Transaction be used to prepay the Term Loans so long as such Net Cash Proceeds are used to prepay the Term Loans within five Business Days of the receipt of such Net Cash Proceeds in an amount sufficient to reduce the aggregate principal amount of the Term Loans outstanding after giving effect to such prepayment to no more than \$350 million. In connection with the Amendment, the facilities were upgraded to BB and Ba3 by S&P and Moody's, respectively. In March 2016, the facilities were further upgraded to BB+ and Ba2 by S&P and Moody's, respectively.

As of June 30, 2016, \$350 million face value was outstanding under the Term Facility, and there were no outstanding borrowings under the Revolving Facility. Availability under outstanding affiliate credit facilities as of June 30, 2016 is approximately \$30 million.

Interiors Divestiture

In connection with the Interiors Divestiture and November 1, 2014 Master Closing, the Company agreed to provide a \$56 million revolving credit facility to the buyer, which was to be reduced as transactions related to customer purchase order changes were effected increasing the backing of the buyer implemented factoring facility, the seller backed facility was subsequently reduced. The seller-backed facility obligation can also be reduced if the buyer adds working capital facilities in Russia and Thailand. Draws under this seller-backed facility will only be available if certain of the external credit facilities are fully drawn, and any draws on the seller-backed facility generally must be repaid prior to the repayment of the external credit facilities. The seller-backed facility has a maturity of three years, an interest rate of Libor plus 5% and a default rate of interest for any interest and/or principal payment defaults. As of April 6, 2016, this revolving credit facility to the buyer was reduced to \$35 million as additional receivable financing became available to the buyer. As of June 30, 2016, there were no draws on this facility. Five days before the Argentina and Brazil closing, the buyer has the option to request replacement of the existing revolving credit facility with a three year term loan of between \$5 million and \$10 million.

The Company expects that the Argentina and Brazil portions of the Interiors Divestiture, which have been delayed due to the difficulty in obtaining local regulatory permits, will close during 2016. These remaining transactions are subject to various conditions, including regulatory and antitrust approvals, receipt of other third party consents and approvals and other customary closing conditions. The Company expects to record losses in connection with the Argentina and Brazil portions of the Interiors Divestiture in future periods upon closing, which are estimated to be approximately \$20 million.

Distribution

On December 9, 2015, the Company approved a special distribution of \$43.40 per share of its common stock outstanding as of January 15, 2016, or approximately \$1.75 billion in the aggregate, consistent with its previously announced plans to return a portion of the Climate Transaction proceeds to stockholders, ranging from approximately \$2.5 billion to \$2.75 billion, through a structured series of actions including repurchases of common stock and/or a

special distribution. On January 22, 2016 approximately \$1.74 billion was distributed to shareholders. An additional amount of approximately \$15 million will be paid over a two-year period related to the vesting and settlement of restricted stock units and performance-based share units previously granted to the Company's employees.

Approximately \$1.74 billion of the Company's cash equivalents and short-term investments, including the separately managed accounts, were liquidated on or about January 19, 2016 to fund the special distribution paid on January 22, 2016.

Share Repurchase Program

Since July 2012, the Company's board of directors has cumulatively authorized a total of \$1.8 billion in share repurchases. On June 16, 2015, the Company announced an accelerated stock buyback ("ASB") program with a third-party financial institution to purchase shares of Visteon common stock for an aggregate purchase price of \$500 million. Under the program, the Company paid the financial institution \$500 million and received an initial delivery of 3,712,297 shares of common stock using a reference price

Table of Contents

of \$107.75. The program concluded in December 2015 and the Company received an additional 1,058,965 shares. The final settlement price for all shares delivered under this 2015 ASB program was \$104.79.

In December 2015, the Company entered into an agreement with a third party financial institution to purchase up to \$150 million of Visteon common stock in accordance with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934 ("10b5-1 Share Repurchase Program"). Under this program, the third-party financial institution repurchased the Company's shares at the prevailing market prices pursuant to a pre-specified matrix of various share price levels and corresponding daily purchase amounts. During the period of the program, which concluded on March 1, 2016, the Company paid approximately \$105 million to repurchase 1,607,849 shares at an average price of \$65.05.

On March 1, 2016, the Company entered into another ASB program with a third-party financial institution to purchase shares of Visteon common stock for an aggregate purchase price of \$395 million. Under the program, the Company paid the financial institution \$395 million and received an initial delivery of 4,370,678 shares of common stock using a reference price of \$72.30. The final number of shares to be repurchased will be based on the average of the daily volume-weighted average prices of the Company's common stock during the term of the transaction, less an agreed discount and subject to adjustments pursuant to the terms and conditions of the ASB Agreement. The final settlement of this ASB Agreement is expected to occur by the end of 2016, but may be accelerated after August 2, 2016 at the option of the third-party financial institution.

The Company anticipates that additional repurchases of common stock, if any, would occur from time to time in open market transactions or in privately negotiated transactions depending on market and economic conditions, share price, trading volume, alternative uses of capital and other factors.

Restructuring

During the three and six months ended June 30, 2016, the Company recorded \$7 million and \$17 million of restructuring expenses, net of reversals of \$1 million and \$2 million, respectively.

During the first quarter of 2016, the Company announced a restructuring program to transform the Company's engineering organization and supporting functional areas to focus on execution and technology. The organization will be comprised of regional engineering, product management and advanced technologies, and global centers of competence. During the three and six months ended June 30, 2016, the Company has recorded approximately \$1 million and \$12 million, respectively, of restructuring expenses under this program, associated with approximately 100 employees.

During the fourth quarter of 2015, the Company announced a restructuring program designed to reduce the workforce at a European Electronics facility. The Company recorded \$12 million of severance and termination benefits under this program associated with approximately 100 employees.

In connection with the Electronics Acquisition, the Company commenced a restructuring program designed to achieve annual cost savings through transaction synergies. During the three and six months ended June 30, 2015, the Company recorded \$9 million and \$12 million, respectively, of severance and termination benefits under this program associated with approximately 420 employees.

The Company previously announced a restructuring program designed to reduce fixed costs and to improve operational efficiency by addressing certain under-performing operations. In connection with that program, the Company announced plans to realign its corporate and administrative functions directly to their corresponding operational beneficiary. The Company recorded \$3 million for restructuring expenses during the three and six months

ended June 30, 2015, primarily related to severance and termination benefits.

During the three and six months ended June 30, 2016, the Company recorded \$7 million of restructuring expenses, related to severance and termination benefits, in connection with the wind-down of certain operations in South America.

During the three and six months ended June 30, 2015, the Company recorded \$1 million and \$2 million respectively, of restructuring expenses, classified as discontinued operations, related to severance and termination benefits in connection with the reorganization of the Company's Climate operations in France.

Restructuring reserve balances of \$37 million and \$38 million at June 30, 2016 and December 31, 2015, respectively, are classified as "Other current liabilities" on the consolidated balance sheets. The Company anticipates that the activities associated with the restructuring reserve balance will be substantially completed by the end of 2016. The Company's consolidated restructuring reserves and related activity are summarized below, including amounts associated with discontinued operations.

52

Table of Contents

Given the economically-sensitive and highly competitive nature of the automotive electronics industry, the Company continues to closely monitor current market factors and industry trends taking action as necessary, including but not limited to, additional restructuring actions. However, there can be no assurance that any such actions will be sufficient to fully offset the impact of adverse factors on the Company or its results of operations, financial position and cash flows.

Other

On July 8, 2016, Visteon completed the acquisition of the shares of AllGo Systems, Inc., USA ("AllGo Systems") in exchange for the payment of \$15 million. Future contingent consideration of \$7 million may be paid over the next two years if certain technology and key employee milestones are achieved. AllGo Systems is a leading developer of embedded multimedia system solutions to global vehicle manufacturers.

On July 22, 2016, the Company sold a cost-method investment to a third party for proceeds of approximately \$11 million. The Company will record a gain on sale of approximately \$5 million during the third quarter of 2016.

During the six months ended June 30, 2016, cash contributions to the Company's U.S. and non-U.S. defined benefit pension plan were \$3 million each. The Company expects to make cash contributions to its defined benefit pension plans of \$14 million in 2016. Estimated cash contributions for 2017 through 2019, under current regulations and market assumptions are approximately \$39 million.

During 2012, Brazil tax authorities issued tax assessment notices to Visteon Sistemas Automotivos ("Sistemas") related to the sale of its chassis business to a third party, which required a deposit in the amount of \$15 million during 2013 necessary to open a judicial proceeding against the government in order to suspend the debt and allow Sistemas to operate regularly before the tax authorities after attempts to reopen an appeal of the administrative decision failed. Adjusted for currency impacts and accrued interest, the deposit amount is approximately \$14 million, as of June 30, 2016. The Company believes that the risk of a negative outcome is remote once the matter is fully litigated at the highest judicial level. These appeal payments, as well as income tax refund claims associated with other jurisdictions, total \$15 million as of June 30, 2016, and are included in Other non-current assets on the consolidated balance sheet.

Table of Contents

Cash Flows

The Company has combined cash flows from discontinued operations with cash flows from continuing operations within the operating, investing and financing categories in the Consolidated Statements of Cash Flows of the Company's consolidated financial statements in this Quarterly Report on Form 10-Q for all periods presented. As such, the discussion below includes both continuing and discontinued operations.

Operating Activities

Including discontinued operations, the Company generated \$14 million of cash in operating activities during the six months ended June 30, 2016, compared to cash provided by operations of \$204 million during the same period of 2015.

The decrease in cash provided by operating activities is primarily attributable to the divestiture of climate operations which provided \$186 million in operating cash flows for the six months ended June 30, 2015. The decrease in operating cash also reflects higher income tax payments of approximately \$40 million primarily in Japan as well as higher information technology transition service payments supporting divested businesses of \$20 million and higher restructuring payments of \$12 million. These decreases were partially offset by working capital improvements of approximately \$29 million primarily due to past due receivable collections. Cash from operations benefited from the non-recurrence of 2015 Climate Transaction related labor and incentive payments of \$46 million partially offset by the non-recurrence of a 2015 non-consolidated affiliate dividend of \$12 million.

Investing Activities

Cash provided from investing activities during the six months ended June 30, 2016 totaled \$358 million, compared to net cash provided by investing activities of \$2,604 million in the same period in 2015 for a decrease of \$2,246 million. Net cash provided by investing activities during the the six months ended June 30, 2016, includes the Climate Transaction withholding tax recovery of \$356 million, liquidation of short-investments of \$47 million, and proceeds from asset sales of \$4 million, partially offset by capital expenditures of \$37 million and loans to non-consolidated affiliates of \$12 million.

Net cash flow provided by investing activities for the six months ended June 30, 2015 includes Climate Transaction proceeds net of tax, transaction costs and divested cash balances of \$2,664 million, proceeds from the sale of the Company's 12.5% ownership in Yanfeng Visteon Jinqiao Automotive Trim Systems Company, Limited of \$91 million, offset by capital expenditures of \$122 million, Interiors Divestiture working capital settlement of \$15 million, a loan to a non-consolidated affiliate of \$10 million and a payment in connection with the Thailand closing of the Interiors Divestiture of \$5 million.

Capital expenditures for the six months ended June 30, 2016 were \$37 million, a decrease of \$85 million when compared to the same period in 2015, primarily due to the divestiture of climate operations.

Financing Activities

Cash used by financing activities during the six months ended June 30, 2016 totaled \$2,258 million, compared to \$769 million used by financing activities for the same period in 2015, for an increase in cash used by financing activities of \$1,489 million. Cash used by financing activities during the six months ended June 30, 2016 included a distribution payment of \$1,736 million, share repurchases of \$500 million, stock based compensation tax withholding payments of \$11 million and net affiliate debt paid of \$11 million.

Cash used by financing activities during the six months ended June 30, 2015 of \$769 million consisted of accelerated share repurchases of \$500 million, prepayment of the Company's Term Facility including fees of \$250 million,

dividends paid to non-controlling interests of \$31 million, and short term debt payments of \$6 million, partially offset by cash received from option and warrant exercises of \$19 million.

Table of Contents

Debt and Capital Structure

Additional information related to the Company's debt is set forth in Note 10, "Debt" to the consolidated financial statements included herein under Item 1. For additional information, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2015, for specific debt agreements and additional information related to covenants and restrictions.

Off-Balance Sheet Arrangements

The Company renewed its \$15 million Letter of Credit ("LOC") Facility with U.S. Bank National Association for two years on September 30, 2015. Under the terms of the LOC facility, the Company must maintain a collateral account with U.S. Bank equal to 103% of the aggregated stated amount of the issued LOCs (or 110% for non-U.S. currencies) with reimbursement for any draws. As of June 30, 2016, the Company had \$5 million of outstanding letters of credit issued under this facility and secured by restricted cash. In addition, the Company had \$17 million of locally issued letters of credit to support various customs arrangements and other obligations at its local affiliates.

In connection with the Interiors Divestiture and November 1, 2014 Master Closing, the Company agreed to provide a \$56 revolving credit facility to the buyer. The seller-backed facility matures on November 1, 2017, an interest rate of Libor plus 5% and a default rate of interest for any interest and/or principal payment defaults. As of April 6, 2016, this revolving credit facility to the buyer was reduced to \$35 million as additional receivable financing became available to the buyer. As of June 30, 2016, there were no draws on this facility. Five days before the Argentina and Brazil closing, the buyer has the option to request replacement of the existing revolving credit facility with a three year term loan of between \$5 million and \$10 million.

Fair Value Measurement

Additional information related to the Company's assets and liabilities measured at fair value is set forth in Note 15, "Fair Value Measurements and Financial Instruments" to the consolidated financial statements included herein under Item 1. For additional information, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-9, "Revenue from Contracts with Customers", which is the new comprehensive revenue recognition standard that will supersede existing revenue recognition guidance under U.S. GAAP. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to a customer in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services. To achieve this principle, an entity identifies the contract with a customer, identifies the separate performance obligations in the contract, determines the transaction price, allocates the transaction price to the separate performance obligations and recognizes revenue when each separate performance obligation is satisfied. This ASU allows for both retrospective and prospective methods of adoption. In July 2015, the FASB approved a one-year deferral of the effective date of the standard. As such, the new standard will become effective for annual and interim periods beginning after December 15, 2017 with early adoption on the original effective date permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements and anticipates changes to the revenue recognition of customer owned tooling and engineering recoveries. The Company expects to adopt this standard during the first quarter 2018.

See Note 2 "Summary of Significant Accounting Policies" to the accompanying consolidated financial statements under Item 1 "Financial Statements" of this Quarterly Report on Form 10-Q for further discussion of recent accounting

pronouncements.

Forward-Looking Statements

Certain statements contained or incorporated in this Quarterly Report on Form 10-Q which are not statements of historical fact constitute “Forward-Looking Statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (the “Reform Act”). Forward-looking statements give current expectations or forecasts of future events. Words such as “anticipate”, “expect”, “intend”, “plan”, “believe”, “seek”, “estimate” and other words and terms of similar meaning in connection with discussions of future operating or financial performance signify forward-looking statements. These statements reflect the Company’s current views with respect to future events and are based on assumptions and estimates, which are subject to risks and uncertainties including those discussed in Item 1A under the heading “Risk Factors” and elsewhere in this report. Accordingly, undue reliance should not be placed on these forward-looking statements. Also, these forward-looking statements represent the Company’s estimates and assumptions only as of the date of this report. The Company does not intend to update any of these forward-looking statements to reflect circumstances or events that occur after the statement is made and qualifies all of its forward-looking statements by these cautionary statements.

You should understand that various factors, in addition to those discussed elsewhere in this document, could affect the Company’s future results and could cause results to differ materially from those expressed in such forward-looking statements, including:

- Visteon’s ability to satisfy its future capital and liquidity requirements; Visteon’s ability to access the credit and capital markets at the times and in the amounts needed and on terms acceptable to Visteon; Visteon’s ability to comply with covenants applicable to it; and the continuation of acceptable supplier payment terms.
- Visteon’s ability to satisfy its pension and other postretirement employee benefit obligations, and to retire outstanding debt and satisfy other contractual commitments, all at the levels and times planned by management.
- Visteon’s ability to access funds generated by its foreign subsidiaries and joint ventures on a timely and cost effective basis.
- Changes in the operations (including products, product planning and part sourcing), financial condition, results of operations or market share of Visteon’s customers.
- Changes in vehicle production volume of Visteon’s customers in the markets where it operates, and in particular changes in Ford’s vehicle production volumes and platform mix.
- Increases in commodity costs or disruptions in the supply of commodities, including aluminum, copper, fuel and natural gas.
- Visteon’s ability to generate cost savings to offset or exceed agreed upon price reductions or price reductions to win additional business and, in general, improve its operating performance; to achieve the benefits of its restructuring actions; and to recover engineering and tooling costs and capital investments.
- Visteon’s ability to compete favorably with automotive parts suppliers with lower cost structures and greater ability to rationalize operations; and to exit non-performing businesses on satisfactory terms, particularly due to limited flexibility under existing labor agreements.
- Restrictions in labor contracts with unions that restrict Visteon’s ability to close plants, divest unprofitable, noncompetitive businesses, change local work rules and practices at a number of facilities and implement cost-saving measures.
- The costs and timing of facility closures or dispositions, business or product realignments, or similar restructuring actions, including potential asset impairment or other charges related to the implementation of these actions or other adverse industry conditions and contingent liabilities.
- Significant changes in the competitive environment in the major markets where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.
- Legal and administrative proceedings, investigations and claims, including shareholder class actions, inquiries by regulatory agencies, product liability, warranty, employee-related, environmental and safety claims and any recalls of products manufactured or sold by Visteon.

Changes in economic conditions, currency exchange rates, changes in foreign laws, regulations or trade policies or political stability in foreign countries where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.

Shortages of materials or interruptions in transportation systems, labor strikes, work stoppages or other interruptions to or difficulties in the employment of labor in the major markets where Visteon purchases materials, components or supplies to manufacture its products or where its products are manufactured, distributed or sold.

Changes in laws, regulations, policies or other activities of governments, agencies and similar organizations, domestic and foreign, that may tax or otherwise increase the cost of, or otherwise affect, the manufacture, licensing, distribution, sale, ownership or use of Visteon's products or assets.

Possible terrorist attacks or acts of war, which could exacerbate other risks such as slowed vehicle production, interruptions in the transportation system or fuel prices and supply.

Table of Contents

- The cyclical and seasonal nature of the automotive industry.
- Visteon's ability to comply with environmental, safety and other regulations applicable to it and any increase in the requirements, responsibilities and associated expenses and expenditures of these regulations.
- Visteon's ability to protect its intellectual property rights, and to respond to changes in technology and technological risks and to claims by others that Visteon infringes their intellectual property rights.
- Visteon's ability to quickly and adequately remediate control deficiencies in its internal control over financial reporting.
- Other factors, risks and uncertainties detailed from time to time in Visteon's Securities and Exchange Commission filings.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The primary market risks to which the Company is exposed include changes in foreign currency exchange rates, interest rates and certain commodity prices. The Company manages these risks through derivative instruments and various operating actions including fixed price contracts with suppliers and cost sourcing arrangements with customers. The Company's use of derivative instruments is limited to mitigation of market risks, including hedging activities. However, derivative instruments are not used for speculative or trading purposes, as per clearly defined risk management policies. Additionally, the Company's use of derivative instruments creates exposure to credit loss in the event of non-performance by the counter-party to the derivative financial instruments. The Company limits this exposure by entering into agreements directly with a variety of major financial institutions with high credit standards and that are expected to fully satisfy their obligations under the contracts. Additionally, the Company's ability to utilize derivatives to manage market risk is dependent on credit conditions and market conditions given the current economic environment.

Foreign Currency Risk

The Company's net cash inflows and outflows exposed to the risk of changes in exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends, investments in subsidiaries and anticipated foreign currency denominated transaction proceeds. Where possible, the Company utilizes derivative financial instruments to manage foreign currency exchange rate risks. Foreign currency exposures are reviewed periodically and any natural offsets are considered prior to entering into a derivative financial instrument. The Company's primary hedged foreign currency exposures include the Euro, Japanese Yen, and Mexican Peso. Where possible, the Company utilizes a strategy of partial coverage for transactions in these currencies. In addition, during 2015, the Company entered into currency exchange derivatives with a notional amount of \$150 million to manage foreign currency exposure on certain non-U.S. denominated foreign entities. These derivatives have been designated as hedges of the Company's net investments in European affiliates with the effective portion of the gain or loss reported in the Accumulated other comprehensive loss component of Stockholder's equity in the Company's consolidated balance sheet. There was no ineffectiveness associated with these derivatives as of June 30, 2016. Forward and option contracts may be utilized to reduce the impact to the Company's cash flow from adverse movements in exchange rates. As of June 30, 2016, the net fair value of such currency exchange derivatives, foreign currency forward and option contracts was an asset of \$7 million while at December 31, 2015, the net fair value of such currency exchange derivatives, foreign currency forward and option contracts was an asset of \$6 million, maturities of these instruments generally do not exceed eighteen months.

The hypothetical pre-tax gain or loss in fair value from a 10% favorable or adverse change in quoted currency exchange rates would be approximately \$29 million and \$26 million for foreign currency derivative financial instruments as of June 30, 2016 and December 31, 2015, respectively. These estimated changes assume a parallel shift in all currency exchange rates and include the gain or loss on financial instruments used to hedge loans to subsidiaries. Because exchange rates typically do not all move in the same direction, the estimate may overstate the impact of changing exchange rates on the net fair value of the Company's financial derivatives. It is also important to note that gains and losses indicated in the sensitivity analysis would generally be offset by gains and losses on the underlying exposures being hedged.

In addition to the transactional exposure described above, the Company's operating results are impacted by the translation of its foreign operating income into U.S. dollars.

Interest Rate Risk

The Company is subject to interest rate risk, principally in relation to variable rate debt. The Company may use derivative financial instruments to manage exposure to fluctuations in interest rates.

During 2015, the Company entered into interest rate swaps with a notional amount of \$150 million that effectively convert designated cash flows associated with underlying interest payments on the Term Facility from a variable interest rate to a fixed interest rate, the maturities of these swaps will not exceed the underlying Term Facility. The instruments have been designated as cash flow hedges with the effective portion of the gain or loss reported in the Accumulated other comprehensive income component of Stockholders' equity in the Company's consolidated balance sheets and such gains and losses will be reclassified at the time the underlying hedged transactions are realized. The ineffective portion of these swaps is assessed based on the hypothetical derivative method and is recorded as interest expense in the Company's consolidated statements of comprehensive income. As of June 30, 2016 and December 31, 2015 there was no ineffectiveness associated with these derivatives and the fair value was a liability of \$5 million and \$1 million, respectively.

Table of Contents

The Company significantly reduced interest rate exposure after entering the swap transactions in 2015. The variable rate basis of debt is approximately 58% and 59% respectively as of June 30, 2016 and December 31, 2015.

Commodity Risk

The Company's exposures to market risk from changes in the price of production material are managed primarily through negotiations with suppliers and customers, although there can be no assurance that the Company will recover all such costs. The Company continues to evaluate derivatives available in the marketplace and may decide to utilize derivatives in the future to manage select commodity risks if an acceptable hedging instrument is identified for the Company's exposure level at that time, as well as the effectiveness of the financial hedge among other factors.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in periodic reports filed with the SEC under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and the Vice President, Corporate Controller and Interim Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of June 30, 2016, an evaluation was performed under the supervision and with the participation of the Company's management, including its Chief Executive and Financial Officers, of the effectiveness of the design and operation of disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and the Vice President, Corporate Controller and Interim Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of June 30, 2016.

Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the three months ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Other Information

Item 1. Legal Proceedings

See the information above under Note 16, "Commitments and Contingencies," to the consolidated financial statements which is incorporated herein by reference.

Item 1A. Risk Factors

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors discussed in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. See also, "Forward-Looking Statements" included in Part I, Item 2 of this Quarterly Report on Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes information relating to purchases made by or on behalf of the Company, or an affiliated purchaser, of shares of the Company's common stock during the second quarter of 2016.

Period	Total Number of Shares (or Units) Purchased (1)	Average Price Paid per Share (or Unit)	Total Number of Shares (or units) Purchased Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (2) (in millions)
Jun. 1, 2016 to Jun. 30, 2016	1,378	\$66.95	—	\$0
Total	1,378	\$66.95	—	\$0

This column includes 1,378 shares surrendered to the Company by employees to satisfy tax withholding obligations in connection with the vesting of restricted share and stock unit awards made pursuant to the Visteon Corporation 2010 Incentive Plan.

On December 9, 2015, the board of directors authorized a \$500 million share repurchase program through December 31, 2016. In December 2015, the Company entered into a 10b5-1 program with a third-party financial institution to purchase up to \$150 million of Visteon common stock. Under the 10b5-1 program which concluded on March 1, 2016, the company repurchased 1,607,849 shares at average price of \$65.05, for a total of \$105 million. Subsequently, the Company entered into an accelerated stock buyback ("ASB") program with a third-party financial institution to repurchase shares of common stock for an aggregate purchase price of \$395 million. Under this ASB program, the Company paid \$395 million and received an initial delivery of 4,370,678 shares of common stock using a reference price of \$72.30. This ASB program is expected to be concluded no later than December 15, 2016, but may be accelerated after August 2, 2016 at the option of the counterparty bank. The final settlement will be determined by the volume weighted average price over the program less an agreed discount.
