GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of Operations and Summary of Significant Accounting Policies

Background

GameStop Corp. (“GameStop,” “we,” “us,” “our,” or the “Company”) is a global family of specialty retail brands that makes the most popular technologies affordable and simple. As the world’s largest multichannel video game retailer, we sell new and pre-owned video game hardware, physical and digital video game software, video game accessories, as well as new and pre-owned mobile and consumer electronics products and other merchandise primarily through our GameStop, EB Games and Micromania stores. We sell consumer electronics, mobile products and wireless services primarily through our Simply Mac, Spring Mobile and Cricket Wireless stores. As of November 1, 2014, we operated 6,664 stores, in the United States, Australia, Canada and Europe, which are primarily located in major shopping malls and strip centers. We also operate electronic commerce Web sites www.gamestop.com, www.ebgames.com.au, www.ebgames.co.nz, www.gamestop.ca, www.gamestop.it, www.gamestop.ie, www.gamestop.de, www.gamestop.co.uk and www.micromania.fr. The network also includes: www.kongregate.com, our leading browser-based game site; Game Informer magazine, the world’s leading print and digital video game publication; a digital PC game distribution platform available at www.gamestop.com/pcgames; iOS and Android mobile applications; and our online consumer electronics marketplace available at www.buymytronics.com. We also own and operate a certified Apple reseller selling Apple consumer electronic products in the United States under the name Simply Mac; Spring Mobile, an authorized AT&T reseller operating AT&T branded wireless retail stores in the United States; and pre-paid wireless stores under the name Cricket Wireless (an AT&T brand) as part of our expanding relationship with AT&T. We operate our business in four Video Game Brands segments: United States, Canada, Australia and Europe; and a Technology Brands segment, which was added in the fourth quarter of the fiscal year comprised of the 52 weeks ended February 1, 2014 (“fiscal 2013”) and includes the operations of our Simply Mac, Spring Mobile and Cricket Wireless businesses.

Basis of Presentation and Consolidation

The unaudited condensed consolidated financial statements include our accounts and the accounts of our subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. The unaudited condensed consolidated financial statements included herein reflect all adjustments (consisting only of normal, recurring adjustments) which are, in our opinion, necessary for a fair presentation of the information for the periods presented. These unaudited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the instructions to Quarterly Report on Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all disclosures required under GAAP for complete consolidated financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with our annual report on Form 10-K for the 52 weeks ended February 1, 2014 (the “2013 Annual Report on Form 10-K”). The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these financial statements, we have made our best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results. Actual results could differ from those estimates. Due to the seasonal nature of our business, the results of operations for the 13 and 39 weeks ended November 1, 2014 are not indicative of the results to be expected for the 52 weeks ending January 31, 2015 (“fiscal 2014”).

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

We have revised the presentation of outstanding checks in our prior period financial statements as indicated in the tables below. Previously, we reduced cash and liabilities when the checks were presented for payment and cleared our bank accounts. We now reduce cash and liabilities when the checks are released for payment. The impacts of revising our financial statements for the specified prior periods are as follows:

Consolidated Balance Sheet as of November 2, 2013:	As Previously Reported (In millions)	Revision	As Revised
Cash and cash equivalents	\$649.1	\$(177.2)) \$471.9
Total current assets	2,634.7	(177.2)) 2,457.5
Total assets	4,742.2	(177.2)) 4,565.0
Accounts payable	1,501.8	(145.2)) 1,356.6
Accrued liabilities	991.0	(32.0)) 959.0
Total current liabilities	2,492.8	(177.2)) 2,315.6
Total liabilities	2,594.9	(177.2)) 2,417.7
Consolidated Statement of Cash Flows for the 39 weeks ended November 2, 2013:	As Previously Reported (In millions)	Revision	As Revised
Changes in operating assets and liabilities:			
Accounts payable and accrued liabilities	\$889.3	\$84.2	\$973.5
Net cash flows provided by operating activities	406.0	84.2	490.2
Cash and cash equivalents at beginning of period	635.8	(261.4)) 374.4
Cash and cash equivalents at end of period	649.1	(177.2)) 471.9

Restricted Cash

Restricted cash of \$13.4 million, \$10.6 million and \$16.4 million as of November 1, 2014, November 2, 2013 and February 1, 2014, respectively, consists primarily of bank deposits serving as collateral for bank guarantees issued on behalf of our foreign subsidiaries and is included in other noncurrent assets in our unaudited condensed consolidated balance sheets.

Revenue Recognition

Revenue from the sales of our products is recognized at the time of sale, net of sales discounts and net of an estimated sales return reserve, based on historical return rates, with a corresponding reduction in cost of sales. Our sales return policy is generally limited to less than 30 days and as such our sales returns are, and have historically been, immaterial.

Recently Issued Accounting Pronouncements

In May 2014, as part of its ongoing efforts to assist in the convergence of U.S. GAAP and International Financial Reporting Standards (“IFRS”), the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09 related to revenue recognition. The new guidance sets forth a new five-step revenue recognition model which replaces the prior revenue recognition guidance in its entirety and is intended to eliminate numerous industry-specific pieces of revenue recognition guidance that have historically existed in U.S. GAAP. The underlying principle of the new standard is that a business or other organization will recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. The standard also requires more detailed disclosures and provides additional guidance for transactions that were not addressed completely in the prior accounting guidance. The ASU provides alternative methods of initial adoption and is effective for annual periods beginning after December 15, 2016 and interim periods within those annual periods. Early adoption is not permitted. We are currently evaluating the impact that this standard will have on our consolidated financial statements as well as the appropriate method of adoption.

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In April 2014, the FASB issued ASU 2014-08 related to reporting discontinued operations and disclosures of disposals of components of an entity. Specifically, the ASU amends the definition of a discontinued operation, expands disclosure requirements for transactions that meet the definition of a discontinued operation and requires entities to disclose additional information about individually significant components that are disposed of or held for sale and do not qualify as discontinued operations. Additionally, entities will be required to reclassify assets and liabilities of a discontinued operation for all comparative periods presented in the statement of financial position and to separately present certain information related to the operating and investing cash flows of the discontinued operation, for all comparative periods, in the statement of cash flows. The ASU is effective for us beginning in the first quarter of our fiscal year ending January 30, 2016 and will be adopted on a prospective basis for all disposals (except disposals classified as held for sale prior to the adoption date) or components initially classified as held for sale in periods beginning on or after the adoption date, with early adoption permitted. We are currently evaluating the impact that this standard will have on our consolidated financial statements.

2. Acquisitions and Divestitures

Acquisitions

Technology Brands. During the 39 weeks ended November 1, 2014, in connection with the continued expansion of our Technology Brands business, Spring Mobile completed acquisitions of certain AT&T resellers and Simply Mac completed an acquisition of an authorized Apple retailer for total consideration of \$72.9 million (\$70.4 million net of cash acquired). We recorded an immaterial amount of goodwill related to these acquisitions. We continue to believe that our Spring Mobile and Simply Mac businesses represent important strategic growth opportunities for us within the specialty retail marketplace and also provide avenues for diversification relative to our core operations in the video game retail marketplace.

Divestitures

GameStop Iberia. In October 2014, we entered into a sale and purchase agreement to transfer certain retail locations and most of the inventory owned by our Spain subsidiary, GameStop Iberia, to a local video game specialty retailer. We made the decision to exit these operations, which were part of our Europe segment, due to continued operating losses and limited market share. These operations were considered immaterial for discontinued operations accounting treatment.

As a result of the divestiture, we recorded a net pre-tax loss in continuing operations of \$13.9 million during the 13 weeks ended November 1, 2014, primarily related to inventory write-downs, involuntary termination benefits and lease obligations, of which \$7.0 million was recorded in cost of sales and \$6.9 million was recorded in selling, general and administrative expenses in our unaudited condensed consolidated statements of operations. As of November 1, 2014, we had transferred or otherwise ceased daily operations in all of our stores in Spain. We may incur additional charges related to the final shutdown of these operations, which we expect to be complete by the end of the fiscal year. As of November 1, 2014, our unaudited condensed consolidated balance sheet included approximately \$11.9 million in receivables, net, \$3.8 million in accounts payable and \$6.2 million in accrued liabilities primarily comprised of severance, lease obligations and certain customer liabilities associated with the exit of our Spain operations.

3. Accounting for Stock-Based Compensation

The following is a summary of the stock-based awards granted during the periods indicated:

	39 Weeks Ended November 1, 2014		39 Weeks Ended November 2, 2013	
	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
	(In thousands, except per share data)			
Stock options – time-vested	283	\$ 12.37	457	\$ 7.10

Edgar Filing: GameStop Corp. - Form 10-Q

Restricted stock awards – time-vested	437	38.64	916	24.82
Restricted stock awards – performance-based	182	38.52	262	24.82
Total stock-based awards	902		1,635	

For stock options granted, we record stock-based compensation expense in earnings based on the grant-date fair value. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model. This valuation model requires the use of subjective assumptions, including expected option life, expected volatility, expected dividend yield and expected

8

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

employee forfeiture rate. We use historical data to estimate the option life, dividend yield and the employee forfeiture rate, and use historical volatility when estimating the stock price volatility. The following assumptions were used with respect to the stock options granted:

	39 Weeks Ended			
	November 1, 2014	November 2, 2013		
Volatility	46.5	% 46.4	%	
Risk-free interest rate	1.7	% 1.0	%	
Expected life (years)	5.5	5.6		
Expected dividend yield	3.4	% 4.3	%	

Total stock-based compensation recognized in selling, general and administrative expenses was as follows for the periods indicated:

	13 Weeks Ended		39 Weeks Ended	
	November 1, 2014	November 2, 2013	November 1, 2014	November 2, 2013
Stock-based compensation expense	\$1.5	\$5.2	\$14.2	\$16.7

As of November 1, 2014, the unrecognized compensation expense related to the unvested portion of our stock-based awards was \$35.3 million, which is expected to be recognized over a weighted average period of 1.8 years. The total intrinsic value of options exercised during the 13 weeks ended November 1, 2014 and the 13 weeks ended November 2, 2013 was \$3.6 million and \$27.6 million, respectively. The total intrinsic value of options exercised during the 39 weeks ended November 1, 2014 and the 39 weeks ended November 2, 2013 was \$9.9 million and \$48.7 million, respectively.

4. Computation of Net Income per Common Share

Basic net income per common share is computed by dividing the net income available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing the net income available to common stockholders by the weighted average number of common shares outstanding and potentially dilutive securities outstanding during the period. Under the treasury stock method, potentially dilutive securities include stock options and unvested restricted stock outstanding during the period. Potentially dilutive securities are excluded from the computations of diluted earnings per share if their effect would be antidilutive.

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

A reconciliation of shares used in the computation of basic and diluted net income per common share is as follows:

	13 Weeks Ended		39 Weeks Ended	
	November 1, 2014	November 2, 2013	November 1, 2014	November 2, 2013
	(In millions, except per share data)			
Net income	\$56.4	\$68.6	\$149.0	\$133.7
Weighted average common shares outstanding	111.9	116.8	113.5	117.7
Dilutive effect of options and restricted shares on common stock ⁽¹⁾	1.0	1.3	0.9	1.2
Common shares and dilutive potential common shares	112.9	118.1	114.4	118.9
Net income per common share:				
Basic	\$0.50	\$0.59	\$1.31	\$1.14
Diluted	\$0.50	\$0.58	\$1.30	\$1.12

Excludes 1.6 million and 1.1 million share-based awards for the 13 weeks ended November 1, 2014 and the 13⁽¹⁾ weeks ended November 2, 2013, respectively, and 1.6 million share-based awards for each of the 39 weeks ended November 1, 2014 and 39 weeks ended November 2, 2013, because their effects were antidilutive.

5. Fair Value Measurements and Financial Instruments

Recurring Fair Value Measurements and Derivative Financial Instruments

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value accounting guidance applies to our foreign currency contracts, which include forward exchange contracts, foreign currency options and cross-currency swaps, our Company-owned life insurance policies with a cash surrender value and certain nonqualified deferred compensation liabilities that are measured at fair value on a recurring basis in periods subsequent to initial recognition.

Fair value accounting guidance requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly through market-corroborated inputs. Level 3 inputs are unobservable inputs for the asset or liability reflecting our assumptions about pricing by market participants.

We value our foreign currency contracts, Company-owned life insurance policies with cash surrender values and certain nonqualified deferred compensation liabilities based on Level 2 inputs using quotations provided by major market news services, such as Bloomberg, and industry-standard models that consider various assumptions, including quoted forward prices, time value, volatility factors, and contractual prices for the underlying instruments, as well as other relevant economic measures. When appropriate, valuations are adjusted to reflect credit considerations, generally based on available market evidence.

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The following table provides the fair value of our assets and liabilities measured at fair value on a recurring basis and recorded in our unaudited condensed consolidated balance sheets (in millions):

	November 1, 2014	November 2, 2013	February 1, 2014
Assets			
Foreign currency contracts			
Other current assets	\$14.1	\$2.6	\$0.9
Other noncurrent assets	11.8	—	0.5
Company-owned life insurance ⁽¹⁾	7.3	5.5	7.1
Total assets	\$33.2	\$8.1	\$8.5
Liabilities			
Foreign currency contracts			
Accrued liabilities	\$10.2	\$12.7	\$21.3
Other long-term liabilities	4.7	3.5	2.2
Nonqualified deferred compensation ⁽²⁾	1.2	1.1	1.1
Total liabilities	\$16.1	\$17.3	\$24.6

(1) Recognized in other non-current assets in our unaudited condensed consolidated balance sheets.

(2) Recognized in accrued liabilities in our unaudited condensed consolidated balance sheets.

We use foreign currency contracts to manage currency risk primarily related to intercompany loans denominated in non-functional currencies and certain foreign currency assets and liabilities. These foreign currency contracts are not designated as hedges and, therefore, changes in the fair values of these derivatives are recognized in earnings, thereby offsetting the current earnings effect of the re-measurement of related intercompany loans and foreign currency assets and liabilities. The total gross notional value of derivatives related to our foreign currency contracts was \$777.7 million, \$653.4 million and \$640.6 million as of November 1, 2014, November 2, 2013 and February 1, 2014, respectively.

Activity related to derivative instruments and the offsetting impact of related intercompany loans and foreign currency assets and liabilities recognized in selling, general and administrative expense is as follows (in millions):

	13 Weeks Ended		39 Weeks Ended	
	November 1, 2014	November 2, 2013	November 1, 2014	November 2, 2013
Gains (losses) on the change in fair value of derivative instruments	\$12.2	\$2.5	\$22.6	\$(7.8)
Gains (losses) on the re-measurement of related intercompany loans and foreign currency assets and liabilities	(12.4)	(2.6)	(21.5)	10.8
Total	\$(0.2)	\$(0.1)	\$1.1	\$3.0

We do not use derivative financial instruments for trading or speculative purposes. We are exposed to counterparty credit risk on all of our derivative financial instruments and cash equivalent investments. We manage counterparty risk according to the guidelines and controls established under our comprehensive risk management and investment policies. We continuously monitor our counterparty credit risk and utilize a number of different counterparties to minimize our exposure to potential defaults. We do not require collateral under derivative or investment agreements.

Nonrecurring Fair Value Measurements

In addition to assets and liabilities that are recorded at fair value on a recurring basis, we record certain assets and liabilities at fair value on a nonrecurring basis as required by GAAP. Generally, assets are recorded at fair value on a nonrecurring basis as a result of impairment charges. We did not record any significant impairment charges related to

assets measured at fair value on a nonrecurring basis during the 13 and 39 weeks ended November 1, 2014 or November 2, 2013, respectively.

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Other Fair Value Disclosures

The carrying values of our cash equivalents, receivables, net and accounts payable approximate the fair value due to their short-term maturities.

As of November 1, 2014, our Senior Notes had a carrying value of \$350.0 million and a fair value of \$353.9 million. The fair value of the Senior Notes was determined based on quoted market prices obtained through an external pricing source which derives its price valuations from daily marketplace transactions, with adjustments to reflect the spreads of benchmark bonds, credit risk and certain other variables. We have determined this to be a Level 2 measurement as all significant inputs into the quote provided by our pricing source are observable in active markets.

6. Debt

Issuance of 5.50% Senior Notes due 2019. On September 24, 2014, we issued \$350.0 million aggregate principal amount of unsecured 5.50% senior notes due October 1, 2019 (the "Senior Notes"). The Senior Notes bear interest at the rate of 5.50% per annum with interest payable semi-annually in arrears on April 1 and October 1 of each year beginning on April 1, 2015. The Senior Notes were sold in a private placement and will not be registered under the U.S. Securities Act of 1933. The Senior Notes were offered in the U.S. to "qualified institutional buyers" pursuant to the exemption from registration under Rule 144A of the Securities Act and in exempted offshore transactions pursuant to Regulation S under the Securities Act.

The Senior Notes were issued pursuant to an indenture dated as of September 24, 2014, by and among the Company, certain subsidiary guarantors named therein and U.S. Bank National Association, as trustee and will mature on October 1, 2019. The net proceeds from the offering of \$343.7 million were used to pay down the remaining outstanding balance of our revolving credit facility, which is described more fully below, and will be used for general corporate purposes, which may include acquisitions, dividends and stock buybacks. The outstanding balance of the Senior Notes at November 1, 2014 was \$350.0 million. We incurred fees and expenses related to the Senior Notes offering of \$6.3 million, which were capitalized during the third quarter of fiscal 2014 and will be amortized as interest expense over the term of the notes.

The indenture governing the Senior Notes does not contain financial covenants but does contain covenants which place certain restrictions on us and our subsidiaries, including limitations on asset sales, additional liens, investments, stock repurchases, dividends, distributions, the incurrence of additional debt and the repurchase debt that is junior to the Senior Notes. These covenants are subject to certain exceptions and qualifications.

The indenture contains customary events of default, including payment defaults, breaches of covenants, failure to pay certain judgments and certain events of bankruptcy, insolvency and reorganization. If an event of default occurs and is continuing, the principal amount of the Senior Notes, plus accrued and unpaid interest, if any, may be declared immediately due and payable. These amounts automatically become due and payable if an event of default relating to certain events of bankruptcy, insolvency or reorganization occurs.

Revolving Credit Facility. On January 4, 2011, we entered into a \$400 million credit agreement, which we amended and restated on March 25, 2014 and further amended on September 15, 2014 (the "Revolver"). The Revolver is a five-year, asset-based facility that is secured by substantially all of our assets and the assets of our domestic subsidiaries. Availability under the Revolver is subject to a monthly borrowing base calculation. The Revolver includes a \$50 million letter of credit sublimit. Prior to the March 2014 amendments, the Revolver was scheduled to mature in January 2016. The amendments extended the maturity date to March 25, 2019; increased the expansion feature under the Revolver from \$150 million to \$200 million, subject to certain conditions; and revised certain other terms, including a reduction of the fee we are required to pay on the unused portion of the total commitment amount. We believe the extension of the maturity date of the Revolver to March 2019 helps to limit our exposure to potential tightening or other adverse changes in the credit markets. The September 15, 2014 amendment amended certain covenants to permit the issuance of the Senior Notes.

Borrowing availability under the Revolver is limited to a borrowing base which allows us to borrow up to 90% of the appraisal value of the inventory, in each case plus 90% of eligible credit card receivables, net of certain reserves. The

borrowing base provides for borrowing up to 92.5% of the appraisal value during the fiscal months of August through October. Letters of credit reduce the amount available to borrow under the Revolver by an amount equal to the face value of the letters of credit. Our ability to pay cash dividends, redeem options and repurchase shares is generally permitted, except under certain circumstances, including if either 1) excess availability under the Revolver is less than 30%, or is projected to be within 12 months after such payment or 2) if excess availability under the Revolver is less than 15%, or is projected to be within 12 months after such payment, and the fixed charge coverage ratio, as calculated on a pro-forma basis for the prior 12 months is 1.1:1.0 or less. In the event that excess availability

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

under the Revolver is at any time less than the greater of (1) \$30 million or (2) 10% of the lesser of the total commitment or the borrowing base, we will be subject to a fixed charge coverage ratio covenant of 1.0:1.0.

The Revolver places certain restrictions on us and our subsidiaries, including limitations on asset sales, additional liens, investments, loans, guarantees, acquisitions and the incurrence of additional indebtedness. Absent consent from our lenders, we may not incur more than \$1 billion of senior secured debt and \$750 million of additional unsecured indebtedness to be limited to \$250 million in general unsecured obligations and \$500 million in unsecured obligations to finance acquisitions valued at \$500 million or more.

The per annum interest rate under the Revolver is variable and is calculated by applying a margin (1) for prime rate loans of 0.25% to 0.75% above the highest of (a) the prime rate of the administrative agent, (b) the federal funds effective rate plus 0.50% or (c) the London Interbank Offered (“LIBO”) rate for a 30-day interest period as determined on such day plus 1.00%, and (2) for LIBO rate loans of 1.25% to 1.75% above the LIBO rate. The applicable margin is determined quarterly as a function of our average daily excess availability under the facility. In addition, we are required to pay a commitment fee of 0.25% for any unused portion of the total commitment under the Revolver. As of November 1, 2014, the applicable margin was 0.5% for prime rate loans and 1.5% for LIBO rate loans.

The Revolver provides for customary events of default with corresponding grace periods, including failure to pay any principal or interest when due, failure to comply with covenants, any material representation or warranty made by us or the borrowers proving to be false in any material respect, certain bankruptcy, insolvency or receivership events affecting us or our subsidiaries, defaults relating to certain other indebtedness, imposition of certain judgments and mergers or the liquidation of the Company or certain of its subsidiaries. During the 39 weeks ended November 1, 2014, we borrowed \$626 million and subsequently repaid \$626 million under the Revolver. Average borrowings under the Revolver for the 39 weeks ended November 1, 2014 were \$94.9 million. Our average interest rate on those outstanding borrowings for the 39 weeks ended November 1, 2014 was 1.8%. As of November 1, 2014, total availability under the Revolver was \$391.6 million, with no outstanding borrowings and outstanding standby letters of credit of \$8.3 million. We are currently in compliance with the requirements of the Revolver.

In September 2007, our Luxembourg subsidiary entered into a discretionary \$20 million Uncommitted Line of Credit (the “Line of Credit”) with Bank of America. There is no term associated with the Line of Credit and Bank of America may withdraw the facility at any time without notice. The Line of Credit is available to our foreign subsidiaries for use primarily as a bank overdraft facility for short-term liquidity needs and for the issuance of bank guarantees and letters of credit to support operations. As of November 1, 2014, there were no cash overdrafts outstanding under the Line of Credit and bank guarantees outstanding totaled \$3.8 million.

7. Commitments and Contingencies

In the ordinary course of business, we are, from time to time, subject to various legal proceedings, including matters involving wage and hour employee class actions and consumer class actions. We may enter into discussions regarding settlement of these and other types of lawsuits, and may enter into settlement agreements, if we believe settlement is in the best interest of our stockholders. We do not believe that any such existing legal proceedings or settlements, individually or in the aggregate, will have a material effect on our financial condition, results of operations or liquidity.

8. Significant Products

Beginning with our 2013 Annual Report on Form 10-K, we expanded the categories included in our disclosures on sales and gross profit by category to reflect recent changes in our business, the expansion of categories previously included in Other and our management emphasis as we operate in the future. Our previous categories of New Video Game Hardware and New Video Game Software remain unchanged.

We have expanded our previous category of Pre-owned Video Game Products to include value-priced, or closeout, products and this category is now referred to as the Pre-owned and Value Video Game Products category. We believe

there is an opportunity to purchase closeout and overstocked inventory from publishers, distributors and other retailers which is older new product but can be acquired for less than typical new release product costs. This product can then be resold in our Video Game Brands stores and on our websites as value-priced product. Our sales of this product in the past have yielded significantly higher margins than new video game products, yet lower margins than pre-owned video game products.

Table of Contents

GAMESTOP CORP.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In the past, all other products we sold were categorized into "Other," which included video game accessories, digital products, new and pre-owned mobile products, consumer electronics, revenues from our PowerUp Rewards program and Game Informer subscription sales, strategy guides, toys and PC entertainment software. We are separating our historical Other category into the following new categories:

• Video Game Accessories, which includes new accessories for use with video game consoles and hand-held devices and software, such as controllers, gaming headsets and memory cards;

• Digital, which includes revenues from the sale of DLC, full game downloads, Xbox Live, PlayStation Plus and Nintendo network points and subscription cards, other prepaid digital currencies and time cards, Kongregate, Game Informer digital subscriptions and PC digital downloads;

• Mobile and Consumer Electronics, which includes revenues from selling new and pre-owned mobile devices and consumer electronics in Video Game Brands stores and all revenues from our Technology Brands stores;

• Other, which includes revenues from the sales of PC entertainment software, toys, strategy guides and revenues from PowerUp Pro loyalty members receiving Game Informer magazine in physical form.

The following tables set forth net sales and gross profit (in millions) and gross profit percentages by significant product category for the periods indicated:

9. Segment Information

We operate our business in four Video Game Brands segments: United States, Canada, Australia and Europe; and a Technology Brands segment, which was added in the fourth quarter of fiscal 2013 and includes the operations of our Simply Mac, Spring Mobile and Cricket Wireless businesses. We identify segments based on a combination of geographic areas and management responsibility. Each of the segments includes significant retail operations with all Video Game Brands stores engaged in the sale of new and pre-owned video game systems and software and related accessories and Technology Brands stores engaged in the sale of consumer electronics and wireless products and services. Segment results for the United States include retail operations in 50 states, the District of Columbia, Guam and Puerto Rico; our electronic commerce Web site www.gamestop.com; Game Informer magazine; our leading browser-based game site www.kongregate.com; a digital PC game distribution platform available at www.gamestop.com/pcgames; and our online consumer electronics marketplace available at www.buymytronics.com. Segment results for Canada include retail and e-commerce operations in Canada and segment results for Australia include retail and e-commerce operations in Australia and New Zealand. Segment results for Europe include retail operations in 10 European countries and e-commerce operations in five countries. The Technology Brands segment includes retail operations in the United States. We measure segment profit using operating earnings, which is defined as income from continuing operations before intercompany royalty fees, net interest expense and income taxes. Transactions between reportable segments consist primarily of royalties, management fees, intersegment loans and related interest. There were no intersegment sales during the 13 weeks ended November 1, 2014 and November 2, 2013 or the 39 weeks ended November 1, 2014 and November 2, 2013.

The reconciliation of segment profit to earnings before income taxes for the 13 weeks ended November 1, 2014 and November 2, 2013, respectively, is as follows (in millions):

13 weeks ended November 1, 2014	United States	Canada	Australia	Europe	Technology Brands	Consolidated

10. Subsequent Events

Dividend

On November 11, 2014, our Board of Directors approved a quarterly cash dividend to our stockholders of \$0.33 per share of Class A Common Stock payable on December 16, 2014 to stockholders of record at the close of business on November 25, 2014. Future dividends will be subject to approval by our Board of Directors.

Share Repurchases

On November 11, 2014, our Board of Directors authorized \$500.0 million of funds to be used to repurchase shares of our Class A Common Stock. This new authorization replaces the \$500.0 million stock repurchase plan announced in November 2013, which had approximately \$176.4 million remaining at the time of the new authorization.

As of December 3, 2014, we have purchased an additional 0.8 million shares of our Class A Common Stock for an average price per share of \$41.15 since November 1, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the information contained in our unaudited condensed consolidated financial statements, including the notes thereto. Statements regarding future economic performance, management's plans and objectives, and any statements concerning assumptions related to the foregoing contained in Management's Discussion and Analysis of Financial Condition and Results of Operations constitute forward-looking statements. See our Annual Report on Form 10-K for the fiscal year ended February 1, 2014 filed with the Securities and Exchange Commission (the "SEC") on April 2, 2014 (the "2013 Annual Report on Form 10-K"), including the factors disclosed under "Item 1A. Risk Factors," as well as "Disclosure Regarding Forward-looking Statements" and "Item 1A. Risk Factors" below, for certain factors which may cause actual results to vary materially from these forward-looking statements.

General

GameStop Corp. ("GameStop," "we," "us," "our," or the "Company") is a global family of specialty retail brands that makes the most popular technologies affordable and simple. As the world's largest multichannel video game retailer, we sell new and pre-owned video game hardware, physical and digital video game software, video game accessories, as well as new and pre-owned mobile and consumer electronics products and other merchandise primarily through our GameStop, EB Games and Micromania stores. We sell consumer electronics, mobile products and wireless services primarily through our Simply Mac, Spring Mobile and Cricket Wireless stores. As of November 1, 2014, we operated 6,664 stores in the United States, Australia, Canada and Europe, which are primarily located in major shopping malls and strip centers. We also operate electronic commerce Web sites www.gamestop.com, www.ebgames.com.au, www.ebgames.co.nz, www.gamestop.ca, www.gamestop.it, www.gamestop.ie, www.gamestop.de, www.gamestop.co.uk and www.micromania.fr. The network also includes: www.kongregate.com, a leading browser-based game site; Game Informer magazine, the world's leading print and digital video game publication; a digital PC game distribution platform available at www.gamestop.com/pgames; iOS and Android mobile applications; and an online consumer electronics marketplace available at www.buymytronics.com. We also own and operate a certified Apple reseller selling Apple consumer electronic products in the United States under the name Simply Mac; Spring Mobile, an authorized AT&T reseller operating AT&T branded wireless retail stores in the United States; and pre-paid wireless stores under the name Cricket Wireless (an AT&T brand) as part of our expanding relationship with AT&T. We operate our business in four Video Game Brands segments: United States, Canada, Australia and Europe; and a Technology Brands segment, which includes the operations of our Simply Mac, Spring Mobile and Cricket Wireless businesses.

Our fiscal year is composed of 52 or 53 weeks ending on the Saturday closest to January 31. The fiscal year ending January 31, 2015 ("fiscal 2014") and the fiscal year ended February 1, 2014 ("fiscal 2013") each consists of 52 weeks. Growth in the electronic game industry is generally driven by the introduction of new technology. Gaming consoles are typically launched in cycles as technological developments provide significant improvements in graphics, audio quality, game play, Internet connectivity and other entertainment capabilities beyond video gaming. The current generation of consoles (the Sony PlayStation 4, the Microsoft Xbox One and the Nintendo Wii U) was introduced between November 2012 and November 2013. The previous generation of consoles (the Sony PlayStation 3, the Microsoft Xbox 360 and the Nintendo Wii) were introduced between 2005 and 2007. The Nintendo 3DS was introduced in March 2011, the Sony PlayStation Vita was introduced in February 2012 and the Nintendo 2DS was introduced in October 2013. Typically, following the introduction of new video game platforms, sales of new video game hardware increase as a percentage of total sales in the first full year following introduction. As video game platforms mature, the sales mix attributable to complementary video game software and accessories, which generate higher gross margins, generally increases in the subsequent years. The net effect is generally a decline in gross margin percent in the first full year following new platform releases and an increase in gross margin percent in the years subsequent to the first full year following the launch period. Sales of the current generation Sony PlayStation 4 and the Microsoft Xbox One have negatively impacted our gross margin percentage in fiscal 2014. Unit sales of maturing video game platforms, like the Sony PlayStation 3 and the Microsoft Xbox 360, are typically also driven by manufacturer-funded retail price reductions, further driving sales of related software and accessories. With the introduction of the new consoles in the fourth quarter of fiscal 2013, sales of new hardware have increased.

We expect that future growth in the electronic game industry will also be driven by the sale of video games delivered in digital form and the expansion of other forms of gaming. We currently sell various types of products that relate to the digital category, including digitally downloadable content (“DLC”), full game downloads, Xbox LIVE, PlayStation Plus and Nintendo network points cards, as well as prepaid digital and online timecards. We have made significant investments in e-commerce and in-store and Web site functionality to enable our customers to access digital content easily and facilitate the digital sales and delivery process. We plan to continue to invest in these types of processes and channels to grow our digital sales base and enhance our market leadership position in the electronic game industry and in the digital aggregation and distribution category.

Table of Contents

We continue to diversify our business by seeking out opportunities to extend our core competencies to other products and retail categories in order to continue to grow and to help mitigate the financial impact from the cyclical nature of the video game console cycle. Over the last year, we have acquired two authorized Apple resellers selling Apple products and services currently operating in 46 stores. Additionally, we acquired Spring Mobile, an authorized AT&T reseller currently operating 311 stores selling wireless services and products. We also operate 51 stores under the Cricket Wireless brand (formerly operated under the Aio Wireless name prior to AT&T's acquisition of Leap Wireless). Cricket Wireless is an AT&T brand selling pre-paid wireless services and products. Collectively these businesses comprise our Technology Brands segment. We expect to expand the number of Technology Brands stores which we operate in future years. We currently sell tablets and accessories in most of our video game stores. We also sell and accept trades of pre-owned mobile devices in our stores. In addition, we intend to continue to invest in customer loyalty programs designed to attract and retain customers.

Recent Developments

Acquisition activity. During the 39 weeks ended November 1, 2014, in connection with the continued expansion of our Technology Brands business, Spring Mobile and Simply Mac completed acquisitions of certain AT&T resellers and authorized Apple retailers for total consideration of \$72.9 million (\$70.4 million net of cash acquired). As a result of our acquisition activity in the Technology Brands segment over the past three fiscal quarters, we are currently experiencing higher gross margins in that segment in comparison to the margins in our Video Game Brands segments, which has had the impact of offsetting potential margin erosion associated with the recent launch of the current generation video game consoles. We continue to seek avenues for growth in our Technology Brands business, and we expect to pursue similar acquisitions moving forward.

Divestiture activity. In October 2014, we entered into a sale and purchase agreement to transfer certain retail locations and most of the inventory owned by our Spain subsidiary, GameStop Iberia, to a local video game specialty retailer. We made the decision to exit these operations, which were part of our Europe segment, due to continued operating losses and limited market share. These operations were considered immaterial for discontinued operations accounting treatment. As a result of the divestiture, we recorded a net pre-tax loss in continuing operations of \$13.9 million during the 13 weeks ended November 1, 2014, primarily related to inventory write-downs, involuntary termination benefits and lease obligations, of which \$7.0 million was recorded in cost of sales and \$6.9 million was recorded in selling, general and administrative expenses in our unaudited condensed consolidated statements of operations. As of November 1, 2014, we had transferred or otherwise ceased daily operations in all of our stores in Spain. We may incur additional charges related to the final shutdown of these operations, which we expect to be complete by the end of the fiscal year.

Issuance of 5.50% Senior Notes due 2019. On September 24, 2014, we issued \$350.0 million aggregate principal amount of unsecured 5.50% senior notes due October 1, 2019 (the "Senior Notes"). The Senior Notes bear interest at the rate of 5.50% per annum with interest payable semi-annually in arrears on April 1 and October 1 of each year beginning on April 1, 2015. The Senior Notes were sold in a private placement and will not be registered under the U.S. Securities Act of 1933. The net proceeds from the offering were used to pay down the remaining outstanding balance of our revolving credit facility and will be used for general corporate purposes, which may include acquisitions, dividends and stock buybacks. See "Liquidity and Capital Resources" below regarding our outstanding indebtedness and Note 6, "Debt," of the Notes to Unaudited Condensed Consolidated Financial Statements for a more complete description of the Senior Notes offering.

Additionally, as part of our efforts to drive long-term shareholder value, we have accomplished the following return of capital activities in fiscal 2014:

Quarterly cash dividend. On March 4, 2014, our Board of Directors authorized an increase in our annual cash dividend from \$1.10 to \$1.32 per share of Class A Common Stock, which represents an increase of 20%. On March 25, June 17 and September 16, 2014, we made quarterly dividend payments of \$0.33 per share of Class A Common Stock to stockholders of record on March 17, June 4 and September 3, 2014, respectively. Additionally, on November 11, 2014, our Board of Directors declared a quarterly cash dividend of \$0.33 per common share payable on December 16, 2014, to shareholders of record as of the close of business on November 25, 2014.

Share repurchase activity. During the first three quarters of fiscal 2014, we repurchased 6.8 million shares of our Class A Common Stock at an average price per share of \$39.90 for a total of \$271.7 million. Additionally, on November 11, 2014, our Board of Directors authorized \$500.0 million of funds to be used to repurchase shares of our Class A Common Stock. This new authorization replaces the \$500.0 million stock repurchase plan announced in November 2013, which had approximately \$176.4 million remaining at the time of the new authorization. Between November 2 and December 3, 2014, we repurchased an additional 0.8 million shares of our Class A Common Stock for an average price per share of \$41.15.

Table of Contents

Critical Accounting Policies

Our unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and do not include all disclosures required under GAAP for complete financial statements. Preparation of these statements requires us to make judgments and estimates. Some accounting policies have a significant impact on amounts reported in these financial statements. For a summary of significant accounting policies and the means by which we develop estimates thereon, see “Part 2 - Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2013 Annual Report on Form 10-K. There have been no material changes to our critical accounting policies from those included in our 2013 Annual Report on Form 10-K.

Consolidated Results of Operations

The following table sets forth certain statement of operations items as a percentage of net sales for the periods indicated:

	13 Weeks Ended				39 Weeks Ended				
	November 1, 2014		November 2, 2013		November 1, 2014		November 2, 2013		
	Dollars	Percent	Dollars	Percent	Dollars	Percent	Dollars	Percent	
Statement of Operations Data:									
Net sales	\$2,092.2	100.0	% \$2,106.7	100.0	% \$5,819.9	100.0	% \$5,355.7	100.0	%
Cost of sales	1,470.0	70.3	1,508.3	71.6	4,020.4	69.1	3,697.6	69.0	
Gross profit	622.2	29.7	598.4	28.4	1,799.5	30.9	1,658.1	31.0	
Selling, general and administrative expenses	494.3	23.6	448.5	21.3	1,450.7	24.9	1,319.3	24.6	
Depreciation and amortization	38.1	1.8	40.8	1.9	116.4	2.0	123.7	2.3	
Operating earnings	89.8	4.3	109.1	5.2	232.4	4.0	215.1	4.1

Income tax expense	30.3	1.4	39.8	1.9	78.6	1.3	78.5	1.5	
Net income	\$56.4	2.7	% \$68.6	3.3	% \$149.0	2.6	% \$133.7	2.5	%

We include purchasing, receiving and distribution costs in selling, general and administrative expenses, rather than in cost of sales, in the statement of operations. We include processing fees associated with purchases made by credit cards in cost of sales, rather than selling, general and administrative expenses, in the statement of operations. As a result of these classifications, our gross margins are not comparable to those of retailers that include purchasing, receiving and distribution costs in cost of sales and include processing fees associated with purchases made by credit cards in selling, general and administrative expenses. The net effect of these classifications as a percentage of net sales has not historically been material.

Beginning with our 2013 Annual Report on Form 10-K, we expanded the categories included in our disclosures on sales and gross profit by category to reflect recent changes in our business, the expansion of categories previously included in Other and our management emphasis as we operate in the future. Our previous categories of New Video Game Hardware and New Video Game Software remain unchanged.

We have expanded our previous category of Pre-owned Video Game Products to include value-priced, or closeout, products and this category is now referred to as the Pre-owned and Value Video Game Products category. We believe

there is an opportunity to purchase closeout and overstocked inventory from publishers, distributors and other retailers which is older new product but can be acquired for less than typical new release product costs. This product can then be resold in our Video Game Brands stores and on our Web sites as value-priced product. Our limited sales of this product in the past have yielded significantly higher margins than new video game products, yet slightly lower margins than pre-owned video game products.

In the past, all other products we sold were categorized into “Other,” which included video game accessories, digital products, new and pre-owned mobile products, consumer electronics, revenues from our PowerUp Rewards program and Game Informer subscription sales, strategy guides, toys and PC entertainment software. We are separating our historical Other category into the following new categories:

Table of Contents

• Video Game Accessories, which includes new accessories for use with video game consoles and hand-held devices and software, such as controllers, gaming headsets and memory cards;

• Digital, which includes revenues from the sale of DLC, full game downloads, Xbox Live, PlayStation Plus and Nintendo network points and subscription cards, other prepaid digital currencies and time cards, Kongregate, Game Informer digital subscriptions and PC digital downloads;

• Mobile and Consumer Electronics, which includes revenues from selling new and pre-owned mobile devices and consumer electronics in Video Game Brands stores and all revenues from our Technology Brands stores;

• Other, which includes revenues from the sales of PC entertainment software, toys, strategy guides and revenues from PowerUp Pro loyalty members receiving Game Informer magazine in physical form.

The following tables set forth net sales and gross profit (in millions) and gross profit percentages by significant product category for the periods indicated:

	13 Weeks Ended				39 Weeks Ended					
	November 1, 2014		November 2, 2013		November 1, 2014		November 2, 2013			
	Net Sales	Percent of Total	Net Sales	Percent of Total	Net Sales	Percent of Total	Net Sales	Percent of Total

13 weeks ended November 1, 2014 compared with the 13 weeks ended November 2, 2013

Net Sales

Net sales decreased by \$14.5 million, or 0.7%, from \$2,106.7 million in the 13 weeks ended November 2, 2013 to \$2,092.2 million in the 13 weeks ended November 1, 2014. The decrease in net sales was primarily attributable to a decrease in comparable

20

Table of Contents

store sales of 2.3% for the 13 weeks ended November 1, 2014 when compared to the 13 weeks ended November 2, 2013, as well as the impact of unfavorable exchange rate fluctuations, which decreased net sales by \$32.0 million. New video game hardware sales increased \$267.9 million, or 147.4%, from \$181.8 million in the 13 weeks ended November 2, 2013 to \$449.7 million in the 13 weeks ended November 1, 2014. The increase in new video game hardware sales is primarily attributable to an increase in hardware unit sell-through as a result of the launches of the Microsoft Xbox One and the Sony PlayStation 4 in November 2013. This increase was partially offset by declines in sales of previous generation hardware. New video game software sales decreased by \$389.4 million, or 34.4%, from \$1,133.1 million in the 13 weeks ended November 2, 2013 to \$743.7 million in the 13 weeks ended November 1, 2014, due to a stronger lineup of new releases in the prior year, including Grand Theft Auto V, which drove a 47.2% increase in new software sales in the prior year quarter. Pre-owned and value video game product sales increased \$12.7 million, or 2.6%, from \$486.6 million in the 13 weeks ended November 2, 2013 to \$499.3 million in the 13 weeks ended November 1, 2014. This increase was primarily attributable to trade growth and an increase in pre-owned hardware sales resulting from the release of Microsoft Xbox One and the Sony PlayStation 4 in November 2013. Sales of video game accessories increased \$34.6 million, or 35.3%, from the 13 weeks ended November 2, 2013 to the 13 weeks ended November 1, 2014 due to sales of accessories for use with the recently launched consoles. Digital revenues increased \$8.9 million, or 19.3%, when comparing the 13 weeks ended November 2, 2013 to the 13 weeks ended November 1, 2014, primarily due to increased sales of console digital products including downloadable content ("DLC") and Point of Sale Activation ("POSA") cards. Mobile and consumer electronics sales increased \$70.0 million, or 125.0%, from the 13 weeks ended November 2, 2013 to the 13 weeks ended November 1, 2014, due to the Simply Mac and Spring Mobile acquisitions in the fourth quarter of 2013. Sales of other product categories decreased by \$19.2 million, or 18.3%, from the 13 weeks ended November 2, 2013 to the 13 weeks ended November 1, 2014, primarily due to lower sales of strategy guides and fewer new titles of PC entertainment software released during the current year period.

As a percentage of net sales, there was a shift in new video game hardware and new video game software sales mix in the 13 weeks ended November 1, 2014 from the 13 weeks ended November 2, 2013 due to the release of the next-generation consoles in November 2013 and the weaker lineup of new title releases in the third quarter of fiscal 2014 when compared with the prior year quarter.

Cost of Sales

Cost of sales decreased by \$38.3 million, or 2.5%, from \$1,508.3 million in the 13 weeks ended November 2, 2013 to \$1,470.0 million in the 13 weeks ended November 1, 2014, primarily as a result of the decrease in sales and the changes in gross profit discussed below.

Gross Profit

Gross profit increased by \$23.8 million, or 4.0%, from \$598.4 million in the 13 weeks ended November 2, 2013 to \$622.2 million in the 13 weeks ended November 1, 2014, and gross profit as a percentage of net sales increased from 28.4% in the 13 weeks ended November 2, 2013 to 29.7% in the 13 weeks ended November 1, 2014. The gross profit percentage increase was primarily driven by the sales and gross profit percentage growth in the mobile and consumer electronics category related to our Technology Brands segment. Additionally, gross profit as a percentage of sales on pre-owned and value video game products increased from 44.5% in the 13 weeks ended November 2, 2013 to 47.6% in the 13 weeks ended November 1, 2014, primarily due to a higher level of promotional activity associated with the next-generation consoles during the 13 weeks ended November 2, 2013. These increases were offset in part by decreases in our digital gross profit percentage due to the mix of underlying products and our gross profit percentage on video game accessories, primarily due to the mix of current generation accessories sales, which carry lower gross margins relative to the total video game accessories category.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by \$45.8 million, from \$448.5 million in the 13 weeks ended November 2, 2013 to \$494.3 million in the 13 weeks ended November 1, 2014. This increase was primarily due to \$33.9 million of additional costs associated with our Technology Brands segment as well as \$6.9 million related to severance and lease liabilities associated with the divestiture of our business in Spain. Selling, general and administrative expenses as a percentage of net sales increased from 21.3% in the 13 weeks ended November 2, 2013

to 23.6% in the 13 weeks ended November 1, 2014 due mainly to our Spain divestiture as well as the growth of the Technology Brands segment, which generally has higher selling, general and administrative expenses as a percentage of net sales. Included in selling, general and administrative expenses is \$1.5 million and \$5.2 million of stock-based compensation expense for the 13 weeks ended November 1, 2014 and 13 weeks ended November 2, 2013, respectively. The decrease in stock-based compensation expense in the third quarter of fiscal 2014 in comparison to the third quarter of fiscal 2013 is primarily related to the reversal of expense related to certain performance-based restricted stock awards for which we no longer expect the performance target to be met.

Table of Contents

Depreciation and Amortization

Depreciation and amortization expense decreased \$2.7 million, or 6.6%, from \$40.8 million in the 13 weeks ended November 2, 2013 to \$38.1 million in the 13 weeks ended November 1, 2014. This decrease was primarily due to a decrease in new store openings and lower overall store count in our Video Game Brands segments.

Interest Income and Expense

Interest income, primarily from the investment of excess cash balances, decreased from \$0.3 million for the 13 weeks ended November 2, 2013 to \$0.1 million for the 13 weeks ended November 1, 2014. Interest expense increased from \$1.0 million in the 13 weeks ended November 2, 2013 to \$3.2 million in the 13 weeks ended November 1, 2014 due to the \$350.0 million issuance of Senior Notes in September 2014, which is discussed more fully in Note 6, "Debt," of the Notes to Unaudited Condensed Consolidated Financial Statements.

Income Tax

Income tax expense for the 13 weeks ended November 2, 2013 and the 13 weeks ended November 1, 2014 was based upon an estimate of our annualized effective income tax rate plus the impact of discrete items, if any. Income tax expense was \$39.8 million, or 36.7% of pre-tax earnings, compared to \$30.3 million, or 34.9% of pre-tax earnings, for the 13 weeks ended November 2, 2013 and November 1, 2014, respectively. The decrease in our effective tax rate was primarily related to our profitability level and the relative mix of earnings across the jurisdictions within which we operate.

Operating Earnings and Net Income

The factors described above led to a decrease in operating earnings of \$19.3 million from \$109.1 million in the 13 weeks ended November 2, 2013 to \$89.8 million in the 13 weeks ended November 1, 2014, and a decrease in net income of \$12.2 million from \$68.6 million in the 13 weeks ended November 2, 2013 to \$56.4 million in the 13 weeks ended November 1, 2014. The decrease in operating earnings and net income is primarily attributable to the divestiture of our Spain operations, which resulted in a \$13.9 million charge in the 13 weeks ended November 1, 2014. Additionally, a weaker lineup of software titles, which carry higher margins than new video game hardware, contributed to the decrease in operating earnings and net income. These decreases were offset in part by the growth of the Technology Brands segment, which contributed \$9.9 million in operating earnings in the current year period. 39 weeks ended November 1, 2014 compared with the 39 weeks ended November 2, 2013

Net Sales

Net sales increased by \$464.2 million, or 8.7%, from \$5,355.7 million in the 39 weeks ended November 2, 2013 to \$5,819.9 million in the 39 weeks ended November 1, 2014. The increase in net sales was primarily attributable to an increase in comparable store sales of 6.8% for the 39 weeks ended November 1, 2014 over the prior year period, due to strong sales performance in the current year period associated with the new video game console launches and related video game accessories. In addition, our Technology Brands segment added \$215.5 million in net sales in the 39 weeks ended November 1, 2014. These increases were partially offset by the impact of unfavorable foreign exchange rate fluctuations, which had the effect of decreasing net sales by \$36.1 million for the 39 weeks ended November 1, 2014 over the prior year period.

New video game hardware sales increased \$648.5 million, or 113.5%, from \$571.4 million in the 39 weeks ended November 2, 2013 to \$1,219.9 million in the 39 weeks ended November 1, 2014. The increase in new video game hardware sales is primarily attributable to an increase in hardware unit sell-through as a result of the launches of the Microsoft Xbox One and the Sony PlayStation 4 in November 2013. This increase was partially offset by declines in sales of previous generation hardware. New video game software sales decreased \$465.6 million, or 20.5%, from \$2,266.1 million in the 39 weeks ended November 2, 2013 to \$1,800.5 million in the 39 weeks ended November 1, 2014, primarily due to fewer new titles that were released during the 39 weeks ended November 1, 2014 versus the comparable prior year period and the decline in prior generation software sales as a result of the new console cycle. Pre-owned and value video game product sales increased \$72.4 million, or 4.6%, from \$1,587.9 million in the 39 weeks ended November 2, 2013 to \$1,660.3 million in the 39 weeks ended November 1, 2014. The increase in pre-owned and value video game product sales was primarily attributable to trade growth and an increase in pre-owned hardware sales resulting from the release of Microsoft Xbox One and the Sony PlayStation 4 in November 2013. Sales of video game accessories increased \$68.7 million, or 21.7% from the 39 weeks ended November 2, 2013

to the 39 weeks ended November 1, 2014 due to sales of accessories for use with the recently launched consoles. Digital revenues in the 39 weeks ended November 1, 2014 increased \$11.7 million, or 7.7%, as compared to the 39 weeks ended November 2, 2013, driven primarily by growth in PC digital sales. Mobile and consumer electronics sales increased \$172.7 million, or 103.0%, from the 39 weeks ended November

Table of Contents

2, 2013 to the 39 weeks ended November 1, 2014, due to the acquisitions of stores within the Technology Brands segment. Sales of other product categories decreased \$44.2 million, or 15.0%, from the 39 weeks ended November 2, 2013 to the 39 weeks ended November 1, 2014, primarily due to lower sales of strategy guides, fewer new titles of PC entertainment software released during the current year period and lower revenues associated with Game Informer physical subscriptions as a result of the shift to digital subscriptions, which are reflected in the digital product category.

As a percentage of net sales, there was a shift in new video game hardware and new video game software sales mix in the 39 weeks ended November 1, 2014 from the 39 weeks ended November 2, 2013 due to the release of the next-generation consoles in November 2013 and fewer new titles released in the current year period.

Cost of Sales

Cost of sales increased by \$322.8 million, or 8.7%, from \$3,697.6 million in the 39 weeks ended November 2, 2013 to \$4,020.4 million in the 39 weeks ended November 1, 2014, primarily as a result of the increase in sales and the changes in gross profit discussed below.

Gross Profit

Gross profit increased by \$141.4 million, or 8.5%, from \$1,658.1 million in the 39 weeks ended November 2, 2013 to \$1,799.5 million in the 39 weeks ended November 1, 2014, and gross profit as a percentage of net sales declined slightly from 31.0% in the 39 weeks ended November 2, 2013 to 30.9% in the 39 weeks ended November 1, 2014.

The gross profit increase was primarily driven by the sales growth in the mobile and consumer electronics category related to our Technology Brands segment. Additionally, gross profit as a percentage of net sales on pre-owned and value video game products increased from 46.5% in the 39 weeks ended November 2, 2013 to 48.1% in the 39 weeks ended November 1, 2014, primarily due to promotional activity associated with the next-generation consoles in the 39 weeks ended November 2, 2013 and the increase in gross profit percentage that occurs as prior generation hardware and software matures. The gross profit percentage decrease was driven by the growth in sales of new video game hardware associated with the new consoles, which carry lower margins relative to our other product categories, as a percentage of total net sales.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by \$131.4 million, from \$1,319.3 million in the 39 weeks ended November 2, 2013 to \$1,450.7 million in the 39 weeks ended November 1, 2014. This increase was primarily due to \$81.5 million of additional costs associated with our Technology Brands segment, \$6.9 million of costs related to the divestiture of our Spain operations, and higher variable costs associated with the increase in comparable store sales in our Video Game Brands segments during the 39 weeks ended November 1, 2014. Selling, general and administrative expenses as a percentage of net sales increased from 24.6% for the 39 weeks ended November 2, 2013 to 24.9% in the 39 weeks ended November 1, 2014 due mainly to the growth of the Technology Brands segment, which generally has higher selling, general and administrative expenses as a percentage of net sales. Included in selling, general and administrative expenses is \$14.2 million and \$16.7 million of stock-based compensation expense for the 39 weeks ended November 1, 2014 and November 2, 2013, respectively.

Depreciation and Amortization

Depreciation and amortization expense decreased \$7.3 million, or 5.9%, from \$123.7 million in the 39 weeks ended November 2, 2013 to \$116.4 million in the 39 weeks ended November 1, 2014. This decrease was primarily due to a decrease in new store openings and lower overall store count in our Video Game Brands segments.

Interest Income and Expense

Interest income, primarily from the investment of excess cash balances, decreased from \$0.5 million in the 39 weeks ended November 2, 2013 to \$0.4 million in the 39 weeks ended November 1, 2014. Interest expense increased from \$3.4 million in the 39 weeks ended November 2, 2013 to \$5.2 million in the 39 weeks ended November 1, 2014 due to higher borrowings, including the \$350.0 million issuance of Senior Notes in September 2014, which is discussed more fully in Note 6, "Debt," of the Notes to Unaudited Condensed Consolidated Financial Statements.

Income Tax

Income tax expense for the 39 weeks ended November 2, 2013 and the 39 weeks ended November 1, 2014 was based upon an estimate of our annualized effective income tax rate plus the impact of discrete items, if any. Income tax

expense was \$78.5 million, or 37.0% of pre-tax earnings, compared to \$78.6 million, or 34.5% of pre-tax earnings, for the 39 weeks ended November

23

Table of Contents

2, 2013 and November 1, 2014, respectively. The decrease in our effective tax rate was primarily related to our profitability level and the relative mix of earnings across the jurisdictions within which we operate.

Operating Earnings and Net Income

The factors described above led to an increase in operating earnings of \$17.3 million from \$215.1 million in the 39 weeks ended November 2, 2013 to \$232.4 million in the 39 weeks ended November 1, 2014, and an increase in net income of \$15.3 million from \$133.7 million in the 39 weeks ended November 2, 2013 to \$149.0 million in the 39 weeks ended November 1, 2014. The increase in operating earnings and net income is primarily attributable to the launch of the new console systems, which has driven year-over-year gross profit growth in our new video game hardware, as well as continued growth in our pre-owned and value category. Additionally, our Technology Brands segment contributed operating earnings of \$23.0 million in the 39 weeks ended November 1, 2014.

Segment Performance

We operate our business in the following segments: Video Game Brands, which consists of four segments in the United States, Australia, Canada and Europe, and Technology Brands. The following tables provide a summary of our net sales and operating earnings (loss) by reportable segment:

Net sales by operating segment are as follows (in millions):

	13 Weeks Ended		39 Weeks Ended	
	November 1, 2014	November 2, 2013	November 1, 2014	November 2, 2013
Video Game Brands:				
United States	\$1,349.5	\$1,434.8	\$3,848.2	\$3,730.1
Canada	113.1	125.4	286.3	281.1
Australia	145.8	137.3	404.4	363.8
Europe	398.5	409.2	1,065.5	980.7
Technology Brands	85.3	—	215.5	—
Total	\$2,092.2	\$2,106.7	\$5,819.9	\$5,355.7

Operating earnings (loss) by segment are as follows (in millions):

	13 Weeks Ended		39 Weeks Ended	
	November 1, 2014	November 2, 2013	November 1, 2014	November 2, 2013
Video Game Brands:				
United States	\$70.3	\$70.3	\$212.4	\$206.5
Canada	7.9	11.2	11.5	13.0
Australia	6.4	10.1	13.0	12.7
Europe	(4.7) 17.5	(27.5) (17.1
Technology Brands	9.9	—	23.0	—
Total	\$89.8	\$109.1	\$232.4	\$215.1

Video Game Brands**United States**

Results for the United States Video Game Brands segment include retail operations in all 50 states, the District of Columbia, Puerto Rico and Guam, the electronic commerce Web site www.gamestop.com, Game Informer magazine, www.kongregate.com, a digital PC game distribution platform available at www.gamestop.com/pcgames and our online consumer electronics marketplace available at www.buymytronics.com. As of November 1, 2014, the United States Video Game Brands segment included 4,183 stores, compared to 4,272 stores on November 2, 2013.

Net sales for the 13 weeks ended November 1, 2014 decreased \$85.3 million, or 5.9%, compared to the 13 weeks ended November 2, 2013 due primarily to a 4.8% decrease in comparable store sales. The decrease in comparable store sales was primarily

Table of Contents

due to a weaker lineup of new software titles compared to the comparable prior year period, partially offset by the increase in sales associated with the launch of the Microsoft Xbox One and Sony PlayStation 4 in the fourth quarter of fiscal 2013. Net sales for the 39 weeks ended November 1, 2014 increased \$118.1 million, or 3.2%, compared to the 39 weeks ended November 2, 2013 due primarily to a 5.1% increase in comparable store sales. The increase in comparable store sales was primarily due to the launch of the new consoles in the fourth quarter of fiscal 2013. Segment operating earnings for the 13 weeks ended November 1, 2014 were flat compared to the 13 weeks ended November 2, 2013. Segment operating earnings for the 39 weeks ended November 1, 2014 increased by \$5.9 million in comparison to the 39 weeks ended November 2, 2013, driven primarily by the current year increase in net sales and our ability to effectively leverage the increase in net sales relative to the selling, general and administrative expenses for this segment.

Canada

Results for the Canadian segment include retail operations in Canada and their e-commerce site. As of November 1, 2014, the Canadian segment had 331 stores, compared to 334 stores at November 2, 2013. Net sales in the Canadian segment in the 13 weeks ended November 1, 2014 decreased 9.8% compared to the 13 weeks ended November 2, 2013, primarily due to the unfavorable impact of changes in the Canadian exchange rate, which decreased sales by \$13.8 million. Additionally, comparable store sales decreased 4.1% in the current year period, primarily due to fewer new software releases compared to the prior period. Net sales in the Canadian segment in the 39 weeks ended November 1, 2014 increased 1.8% compared to the 39 weeks ended November 2, 2013. The increase in net sales was primarily due to an increase in comparable store sales of 8.7% over the prior year period, partially offset by the impact of changes in the exchange rate, which lowered net sales by \$29.2 million. The increase in comparable store sales was primarily due to the launch of the Microsoft Xbox One and the Sony PlayStation 4 in the fourth quarter of fiscal 2013. Net sales were also positively impacted by an increase in pre-owned sales, driven by an increase in the number of trades and higher in-store traffic associated with the new console launch. Segment operating earnings for Canada decreased by \$3.3 million and \$1.5 million in the 13 weeks ended November 1, 2014 and the 39 weeks ended November 1, 2014, respectively, when compared to the same periods in fiscal 2013, due to a change in the sales mix resulting in greater new video game hardware sales, which carry lower margins than new video game software.

Australia

Results for the Australian segment include retail operations and e-commerce sites in Australia and New Zealand. As of November 1, 2014, the Australian segment included 420 stores, compared to 416 stores at November 2, 2013. Net sales for the 13 and 39 weeks ended November 1, 2014 increased by 6.2% and 11.2%, respectively, compared to the 13 and 39 weeks ended November 2, 2013. The increase in net sales for the 13 and 39 weeks ended November 1, 2014 was primarily due to an increase in comparable store sales of 8.4% and 15.7%, respectively, for the current quarter and year-to-date periods versus the prior year, partially offset by the impact of changes in exchange rates, which had the effect of decreasing sales by \$20.6 million and \$46.5 million, respectively, in the 13 and 39 week periods ended November 1, 2014 when compared to the same periods in fiscal 2013. The increase in comparable store sales was primarily due to the launch of the Microsoft Xbox One and the Sony PlayStation 4 in the fourth quarter of fiscal 2013. Net sales were also positively impacted by an increase in pre-owned sales, driven by an increase in the number of trades and higher in-store traffic associated with the new console launch. Segment operating earnings for Australia decreased by \$3.7 million and increased by \$0.3 million in the 13 weeks ended November 1, 2014 and the 39 weeks ended November 1, 2014, respectively, when compared to the same periods in fiscal 2013, driven by the impact of changes in exchange rates.

Europe

Results for the European segment include retail store operations in 10 European countries and e-commerce sites in five countries. As of November 1, 2014, the European segment operated 1,322 stores compared to 1,466 stores as of November 2, 2013. Net sales in the European segment in the 13 weeks ended November 1, 2014 decreased 2.6% compared to the 13 weeks ended November 2, 2013, and net sales in the European segment in the 39 weeks ended November 1, 2014 increased 8.6% compared to the 39 weeks ended November 2, 2013. The increase in net sales for the 39 weeks ended November 1, 2014 was primarily due to an increase in comparable store sales of 9.2% over the prior year period. The increase in comparable store sales was primarily due to the launch of the Microsoft Xbox One

and the Sony PlayStation 4 in the fourth quarter of fiscal 2013 as well as an increase in pre-owned sales, driven by an increase in the number of trades and higher in-store traffic associated with the new console launch. Additionally, net sales were favorably impacted by changes in European exchange rates, which had the effect of increasing sales by \$39.6 million in the 39 week period ended November 1, 2014 when compared to the same period in fiscal 2013. The segment operating losses in Europe were \$4.7 million and \$27.5 million in the 13 weeks ended November 1, 2014 and 39 weeks ended November 1, 2014, attributable in part to a \$13.9 million charge related to the divestiture of our Spain operations during the 13 weeks ended November 2, 2014.

Table of Contents

Technology Brands

Segment results for the Technology Brands segment include our Simply Mac, Spring Mobile and Cricket Wireless stores. As of November 1, 2014, the Technology Brands segment operated 408 stores. For the 13 and 39 weeks ended November 1, 2014, Technology Brands net sales totaled \$85.3 million and \$215.5 million, respectively, with operating earnings of \$9.9 million and \$23.0 million, respectively.

Seasonality

Our business, like that of many retailers, is seasonal, with the major portion of the net sales and operating profit realized during the fourth fiscal quarter which includes the holiday selling season.

Liquidity and Capital Resources

Overview

Based on our current operating plans, we believe that available cash balances, cash generated from our operating activities, the proceeds from the September 24, 2014 issuance of \$350.0 million aggregate principal amount of 5.50% Senior Notes and funds available under our \$400 million asset-based revolving credit facility (the “Revolver”) together will provide sufficient liquidity to fund our operations, store openings and remodeling activities and corporate capital allocation programs, including acquisitions, share repurchases and the payment of dividends declared by the Board of Directors, for at least the next 12 months. As of November 1, 2014, we had total cash on hand of \$374.0 million and an additional \$391.6 million of available borrowing capacity under the Revolver. As we continue to pursue acquisitions, divestitures and other strategic transactions to expand and grow our business, while also enhancing shareholder value through share repurchases and dividend payments, we regularly monitor capital market conditions and may raise additional funds through borrowings or public or private sales of debt or equity securities. The amount, nature and timing of any borrowings or sales of debt or equity securities will depend on our operating performance and other circumstances; our then-current commitments and obligations; the amount, nature and timing of our capital requirements; any limitations imposed by our current credit arrangements; and overall market conditions.

We have revised the presentation of outstanding checks in our prior period financial statements. Previously, we reduced cash and liabilities when the checks were presented for payment and cleared our bank accounts. We now reduce cash and liabilities when the checks are released for payment. The impact of this revision to our consolidated statement of cash flows for the 39 weeks ended November 2, 2013 is as follows:

	As Previously Reported (In millions)	Revision	As Revised
Changes in operating assets and liabilities:			
Accounts payable and accrued liabilities	\$889.3	\$84.2	\$973.5
Net cash flows provided by operating activities	406.0	84.2	490.2
Cash and cash equivalents at beginning of period	635.8	(261.4) 374.4
Cash and cash equivalents at end of period	649.1	(177.2) 471.9

Cash Flows

During the 39 weeks ended November 1, 2014, cash provided by operations was \$36.6 million, compared to cash provided by operations of \$490.2 million during the 39 weeks ended November 2, 2013. The decrease in cash flow provided by operations of \$453.6 million was primarily due to an increase in cash used in operations for working capital purposes, which increased \$504.6 million from a source of \$243.0 million in the 39 weeks ended November 2, 2013 to a use of \$261.6 million in the 39 weeks ended November 1, 2014. The decrease in cash flow provided by operations for working capital was due primarily to the change in cash related to accounts payable and accrued liabilities. The change in accounts payable was greater in the 39 weeks ended November 2, 2013 due to timing of payments and inventory purchases for the launch of the new consoles in November 2013, and the change in accrued liabilities was greater in the prior year period due to an increase in reservations related to the release of the new consoles. These changes were partially offset by consolidated net income, which was \$15.3 million greater in the 39 weeks ended November 1, 2014 versus the comparable prior year period.

Cash used in investing activities was \$175.7 million and \$137.3 million during the 39 weeks ended November 1, 2014 and the 39 weeks ended November 2, 2013, respectively. The \$38.4 million increase in cash used for investing activities is primarily attributable to an increase in capital expenditures of \$30.5 million to support growth as well as an increase of \$7.8 million in cash

Table of Contents

used to fund our Technology Brands acquisitions during the 39 weeks ended November 1, 2014 as compared to the prior year period.

Cash used in financing activities was \$22.7 million and \$237.7 million during the 39 weeks ended November 1, 2014 and the 39 weeks ended November 2, 2013, respectively. The \$215.0 million decrease in the cash used in financing activities is due to the \$350.0 million issuance of Senior Notes in September 2014, partially offset by an increase of \$53.0 million used in the repurchase of common stock and an increase of \$14.2 million in cash payments for dividends. Additionally, cash provided by the issuance of shares related to stock option exercises decreased \$54.6 million during the 39 weeks ended November 1, 2014 in comparison to the 39 weeks ended November 2, 2013, which is primarily a function of fewer stock option exercises during the 39 weeks ended November 1, 2014 as compared to the 39 weeks ended November 2, 2013.

Sources of Liquidity

We utilize cash generated from operations and have funds available to us under our Revolver, as well as the proceeds from the September 24, 2014 issuance of our Senior Notes, to cover seasonal fluctuations in cash flows and to support our various growth initiatives. Our cash and cash equivalents are carried at cost and consist primarily of time deposits with commercial banks.

Issuance of 5.50% Senior Notes due 2019. On September 24, 2014, we issued \$350.0 million aggregate principal amount of unsecured 5.50% Senior Notes due October 1, 2019. The Senior Notes bear interest at the rate of 5.50% per annum with interest payable semi-annually in arrears on April 1 and October 1 of each year beginning on April 1, 2015. The Senior Notes were sold in a private placement and will not be registered under the U.S. Securities Act of 1933. The Senior Notes were offered in the U.S. to “qualified institutional buyers” pursuant to the exemption from registration under Rule 144A of the Securities Act and in exempted offshore transactions pursuant to Regulation S under the Securities Act.

The Senior Notes were issued pursuant to an indenture dated as of September 24, 2014, by and among the Company, certain subsidiary guarantors named therein and U.S. Bank National Association, as trustee and will mature on October 1, 2019. The net proceeds from the offering of \$343.7 million were used to pay down the remaining outstanding balance of our revolving credit facility, which is described more fully below, and will be used for general corporate purposes, which may include acquisitions, dividends and stock buybacks. The outstanding balance of the Senior Notes at November 1, 2014 was \$350.0 million. We incurred fees and expenses related to the Senior Notes offering of \$6.3 million, which were capitalized during the third quarter of fiscal 2014 and will be amortized as interest expense over the term of the notes.

The indenture governing the Senior Notes does not contain financial covenants but does contain covenants which place certain restrictions on us and our subsidiaries, including limitations on asset sales, additional liens, investments, stock repurchases, dividends, distributions, the incurrence of additional debt and the repurchase debt that is junior to the Senior Notes. These covenants are subject to certain exceptions and qualifications.

The indenture contains customary events of default, including payment defaults, breaches of covenants, failure to pay certain judgments and certain events of bankruptcy, insolvency and reorganization. If an event of default occurs and is continuing, the principal amount of the Senior Notes, plus accrued and unpaid interest, if any, may be declared immediately due and payable. These amounts automatically become due and payable if an event of default relating to certain events of bankruptcy, insolvency or reorganization occurs.

Revolving Credit Facility. On January 4, 2011, we entered into a \$400 million credit agreement, which we amended and restated on March 25, 2014 and further amended on September 15, 2014 (the “Revolver”). The Revolver is a five-year, asset-based facility that is secured by substantially all of our assets and the assets of our domestic subsidiaries. Availability under the Revolver is subject to a monthly borrowing base calculation. The Revolver includes a \$50 million letter of credit sublimit. Prior to the March 2014 amendments, the Revolver was scheduled to mature in January 2016. The amendments extended the maturity date to March 25, 2019; increased the expansion feature under the Revolver from \$150 million to \$200 million, subject to certain conditions; and revised certain other terms, including a reduction of the fee we are required to pay on the unused portion of the total commitment amount. We believe the extension of the maturity date of the Revolver to March 2019 helps to limit our exposure to potential tightening or other adverse changes in the credit markets. The September 15, 2014 amendment amended certain

covenants to permit the issuance of the Senior Notes.

Borrowing availability under the Revolver is limited to a borrowing base which allows us to borrow up to 90% of the appraisal value of the inventory, in each case plus 90% of eligible credit card receivables, net of certain reserves. The borrowing base provides for borrowing up to 92.5% of the appraisal value during the fiscal months of August through October. Letters of credit reduce the amount available to borrow under the Revolver by an amount equal to the face value of the letters of credit. Our ability to pay cash dividends, redeem options and repurchase shares is generally permitted, except under certain circumstances, including if either 1) excess availability under the Revolver is less than 30%, or is projected to be within 12 months after such payment or 2) if excess availability under the Revolver is less than 15%, or is projected to be within 12 months after such payment,

Table of Contents

and the fixed charge coverage ratio, as calculated on a pro-forma basis for the prior 12 months is 1.1:1.0 or less. In the event that excess availability under the Revolver is at any time less than the greater of (1) \$30 million or (2) 10% of the lesser of the total commitment or the borrowing base, we will be subject to a fixed charge coverage ratio covenant of 1.0:1.0.

The Revolver places certain restrictions on us and our subsidiaries, including limitations on asset sales, additional liens, investments, loans, guarantees, acquisitions and the incurrence of additional indebtedness. Absent consent from our lenders, we may not incur more than \$1 billion of senior secured debt and \$750 million of additional unsecured indebtedness to be limited to \$250 million in general unsecured obligations and \$500 million in unsecured obligations to finance acquisitions valued at \$500 million or more.

The per annum interest rate under the Revolver is variable and is calculated by applying a margin (1) for prime rate loans of 0.25% to 0.75% above the highest of (a) the prime rate of the administrative agent, (b) the federal funds effective rate plus 0.50% or (c) the London Interbank Offered (“LIBO”) rate for a 30-day interest period as determined on such day plus 1.00%, and (2) for LIBO rate loans of 1.25% to 1.75% above the LIBO rate. The applicable margin is determined quarterly as a function of our average daily excess availability under the facility. In addition, we are required to pay a commitment fee of 0.25% for any unused portion of the total commitment under the Revolver. As of November 1, 2014, the applicable margin was 0.5% for prime rate loans and 1.5% for LIBO rate loans.

The Revolver provides for customary events of default with corresponding grace periods, including failure to pay any principal or interest when due, failure to comply with covenants, any material representation or warranty made by us or the borrowers proving to be false in any material respect, certain bankruptcy, insolvency or receivership events affecting us or our subsidiaries, defaults relating to certain other indebtedness, imposition of certain judgments and mergers or the liquidation of the Company or certain of its subsidiaries. During the 39 weeks ended November 1, 2014, we borrowed \$626 million and subsequently repaid \$626 million under the Revolver. Average borrowings under the Revolver for the 39 weeks ended November 1, 2014 were \$94.9 million. Our average interest rate on those outstanding borrowings for the 39 weeks ended November 1, 2014 was 1.8%. As of November 1, 2014, total availability under the Revolver was \$391.6 million, with no outstanding borrowings and standby letters of credit outstanding of \$8.3 million. We are currently in compliance with the requirements of the Revolver.

In September 2007, our Luxembourg subsidiary entered into a discretionary \$20 million Uncommitted Line of Credit (the “Line of Credit”) with Bank of America. There is no term associated with the Line of Credit and Bank of America may withdraw the facility at any time without notice. The Line of Credit is available to our foreign subsidiaries for use primarily as a bank overdraft facility for short-term liquidity needs and for the issuance of bank guarantees and letters of credit to support operations. As of November 1, 2014, there were no cash overdrafts outstanding under the Line of Credit and bank guarantees outstanding totaled \$3.8 million.

Uses of Capital

Our future capital requirements will depend on the number of new stores we open and the timing of those openings within a given fiscal year, as well as the continued investments we will make in our Technology Brands businesses, in e-commerce, digital and other strategic initiatives. We opened 37 Video Game Brands stores and opened or acquired 190 Technology Brands stores in the 39 weeks ended November 1, 2014, and we expect to open or acquire approximately 300 to 350 stores in total for fiscal 2014, including investments in our Technology Brands business. Capital expenditures for fiscal 2014 are projected to be approximately \$150 million to \$160 million, to be used primarily to fund continued digital initiatives, new store openings and store remodels and invest in distribution and information systems in support of operations.

Since January 2010, our Board of Directors has provided several authorizations for management to repurchase our common stock. During the 39 weeks ended November 1, 2014, we repurchased 6.8 million shares at an average price per share of \$39.90 for a total of \$271.7 million. As discussed above, on November 11, 2014, our Board of Directors authorized \$500.0 million of funds to be used in our share repurchase plan to repurchase shares of our Class A Common Stock. This new authorization replaces the \$500.0 million stock repurchase plan announced in November 2013, which had approximately \$176.4 million remaining at the time of the new authorization. Between November 2 and December 3, 2014, we have repurchased 0.8 million shares at an average price per share of \$41.15 for a total of \$32.5 million and we have \$476.5 million remaining under our latest authorization from November 2014.

Edgar Filing: GameStop Corp. - Form 10-Q

On March 4, 2014, our Board of Directors authorized an increase in our annual cash dividend from \$1.10 to \$1.32 per share of Class A Common Stock. On March 25, June 17 and September 16, 2014, we made quarterly dividend payments of \$0.33 per share of Class A Common Stock to stockholders of record on March 17, June 4 and September 3, 2014, respectively. Additionally, on November 11, 2014, our Board of Directors declared a quarterly cash dividend of \$0.33 per common share payable on December 16, 2014, to shareholders of record as of the close of business on November 25, 2014. Future dividends will be subject to approval by our Board of Directors.

28

Table of Contents

Based on our current operating plans, we believe that available cash balances, cash generated from our operating activities, proceeds from the issuance of our \$350.0 million Senior Notes and funds available under our Revolver will be sufficient to fund our operations, our continued investments in our Technology Brands businesses, digital initiatives, store openings and remodeling activities and corporate capital allocation programs, including share repurchases and the payment of dividends declared by the Board of Directors, for at least the next 12 months.

Contractual Obligations

Except for the September 24, 2014 issuance of our Senior Notes as discussed more fully above and in Note 6, "Debt," of the Notes to Unaudited Condensed Consolidated Financial Statements, there have been no material changes outside the ordinary course of business to the information provided with respect to our contractual obligations from those disclosed in our 2013 Annual Report on Form 10-K.

The table below summarizes our obligations for indebtedness, at November 1, 2014, that were impacted by the issuance of our Senior Notes.

Contractual Obligations	Payments Due by Period				
	Total	Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
	(In millions)				
Senior Notes	\$350.0	\$—	\$—	\$350.0	\$—
Interest payments	96.8	19.8	38.5	38.5	—
Total	\$446.8	\$19.8	\$38.5	\$388.5	\$—

Recently Issued Accounting Pronouncements

In May 2014, as part of its ongoing efforts to assist in the convergence of U.S. GAAP and International Financial Reporting Standards ("IFRS"), the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09 related to revenue recognition. The new guidance sets forth a new five-step revenue recognition model which replaces the prior revenue recognition guidance in its entirety and is intended to eliminate numerous industry-specific pieces of revenue recognition guidance that have historically existed in U.S. GAAP. The underlying principle of the new standard is that a business or other organization will recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. The standard also requires more detailed disclosures and provides additional guidance for transactions that were not addressed completely in the prior accounting guidance. The ASU provides alternative methods of initial adoption and is effective for annual periods beginning after December 15, 2016 and interim periods within those annual periods. Early adoption is not permitted. We are currently evaluating the impact that this standard will have on our consolidated financial statements as well as the appropriate method of adoption.

In April 2014, the FASB issued ASU 2014-08 related to reporting discontinued operations and disclosures of disposals of components of an entity. Specifically, the ASU amends the definition of a discontinued operation, expands disclosure requirements for transactions that meet the definition of a discontinued operation and requires entities to disclose additional information about individually significant components that are disposed of or held for sale and do not qualify as discontinued operations. Additionally, entities will be required to reclassify assets and liabilities of a discontinued operation for all comparative periods presented in the statement of financial position and to separately present certain information related to the operating and investing cash flows of the discontinued operation, for all comparative periods, in the statement of cash flows. The ASU is effective for us beginning in the first quarter of our fiscal year ending January 30, 2016 and will be adopted on a prospective basis for all disposals (except disposals classified as held for sale prior to the adoption date) or components initially classified as held for sale in periods beginning on or after the adoption date, with early adoption permitted. We are currently evaluating the impact that this standard will have on our consolidated financial statements.

Disclosure Regarding Forward-looking Statements

This Quarterly Report on Form 10-Q and other oral and written statements made by us to the public contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The forward-looking statements involve a number of risks and uncertainties. A number of factors could cause our actual results, performance, achievements or industry

results to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. These factors include, but are not limited to:

29

Table of Contents

the demand for next-generation consoles and other product releases which impact sales of new products and old products, the current or future features of such consoles, manufacturer-imposed or regulatory restrictions, changes or conditions that may adversely affect our pre-owned business;

our ability to respond quickly to technological changes and evolving consumer preferences;

our reliance on a limited number of suppliers and vendors for timely delivery of sufficient quantities of their products;

our dependence on the production of new, innovative and popular product releases and enhanced video game platforms and accessories by developers and manufacturers;

our dependence in large part on our relationship with AT&T for the continued growth of our Technology Brands segment and the impact that potential adverse changes to this relationship, including any restrictions on our ability to offer products and services in the United States that compete with AT&T in wireless and wireline communications and a variety of technology businesses, could have on this component of our business;

general economic conditions in the U.S. and internationally, specifically Europe, which impact consumer confidence and consumer spending;

seasonality of sales;

the proliferation of alternate sources of distribution of video game hardware, software and content, including through digital downloads;

the growth of alternate means to play video games, including mobile, social networking sites and browser gaming;

the intense competition in the video game industry;

our ability to open and operate new stores and to efficiently close underperforming stores;

our ability to attract and retain qualified personnel;

the failure to achieve the anticipated benefits from new ventures and transactions and our ability to effectively integrate and operate acquired companies, including digital gaming, technology-based, mobile, wireless or consumer electronics companies that are outside of our historical operating expertise;

the impact and costs of litigation and regulatory compliance;

the amounts, timing and prices of any share repurchases made by us under our share repurchase programs;

the risks involved with our international operations, including depressed local economic conditions, political risks, currency risks, tax rates and regulatory risks;

the efficiency of our management information systems and back-office functions;

data breaches involving customer or employee data and failure of our cyber security infrastructure which could expose us to litigation;

restrictions under our credit agreement or under the indenture governing our Senior Notes, which may impose operating and financial restrictions on us;

the availability of financing on attractive terms or at all, which may adversely impact our future interest expense and

our ability to pursue strategic acquisitions and divestitures, share repurchases, dividend declarations and other transactions to enhance shareholder value; and

other factors described in this Form 10-Q, including those set forth under the caption "Part II - Item 1A. Risk Factors."

In some cases, forward-looking statements can be identified by the use of terms such as "anticipates," "believes,"

"continues," "could," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "pro forma," "seeks," "should,"

expressions. These statements are only predictions based on current expectations and assumptions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. You should not place undue reliance on these forward-looking statements.

Although we believe that the expectations reflected in our forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this Form 10-Q. In light of these risks and uncertainties, the forward-looking events and circumstances contained in this Form 10-Q may not occur, causing actual results to differ materially from those anticipated or implied by our forward-looking statements.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our quantitative and qualitative disclosures about market risk as set forth in our 2013 Annual Report on Form 10-K.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, our management conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) at the reasonable assurance level. Based on this evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and that our disclosure controls and procedures are effective at the reasonable assurance level. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in our periodic reports.

(b) Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Due to the timing of our Spring Mobile and Simply Mac acquisitions in the fourth quarter of fiscal year 2013, these operations were excluded from our annual evaluation of and conclusion on the effectiveness of internal control over financial reporting as of February 1, 2014. We will include Spring Mobile and Simply Mac in our assessment of our internal control over financial reporting as of January 31, 2015 (the end of fiscal year 2014).

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of our business, we are, from time to time, subject to various legal proceedings, including matters involving wage and hour employee class actions and consumer class actions. We may enter into discussions regarding settlement of these and other types of lawsuits, and may enter into settlement agreements, if we believe settlement is in the best interest of our stockholders. We do not believe that any such existing legal proceedings or settlements, individually or in the aggregate, will have a material effect on our financial condition, results of operations or liquidity.

Item 1A. Risk Factors

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in “Item 1A. Risk Factors” in our 2013 Annual Report on Form 10-K. These risks could materially and adversely affect our business, financial condition and results of operations. There have been no material changes from the risk factors disclosed in our 2013 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of our equity securities during the fiscal quarter ended November 1, 2014 were as follows:

ISSUER PURCHASES OF EQUITY SECURITIES

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
				(In millions of dollars)
August 3 through August 30, 2014	130,900	\$41.48	130,900	\$ 324.0
August 31 through October 4, 2014	727,700	41.23	727,700	294.0
October 5 through November 1, 2014	2,719,706	39.93	2,719,706	185.4
Total	3,578,306	\$40.25	3,578,306	

On November 11, 2014, our Board of Directors authorized \$500.0 million of funds to be used in our share repurchase plan to repurchase shares of our Class A Common Stock. This new authorization replaces the \$500.0 million stock repurchase plan announced in November 2013, which had approximately \$176.4 million remaining at the time of the new authorization.
