Item 8.01. Other Events

In December 2012, Public Service Company of Colorado (PSCo), a Colorado corporation and a wholly owned subsidiary of Xcel Energy Inc., filed a multi-year request with the Colorado Public Utilities Commission (CPUC) to increase Colorado retail natural gas rates by \$48.5 million in 2013 with subsequent step increases of \$9.9 million in 2014 and \$12.1 million in 2015. The request is based on a 2013 forecast test year (FTY), a 10.5 percent return on equity (ROE), a rate base of \$1.3 billion and an equity ratio of 56 percent. PSCo is requesting an extension of its Pipeline System Integrity Adjustment (PSIA) rider mechanism to collect the costs associated with its pipeline integrity efforts, including accelerated system renewal projects. PSCo estimates that the PSIA will increase by \$26.8 million in 2014 with a subsequent step increase of \$24.7 million in 2015 in addition to the proposed changes in base rate revenue. In conjunction with the multi-year base rate step increases, PSCo is proposing a stay-out provision and an earnings test through the end of 2015 with a commitment to file a rate case to implement revised rates on Jan. 1, 2016. Interim rates, subject to refund, went into effect in August 2013.

In April 2013, four parties filed answer testimony in the natural gas case. The CPUC Staff recommended an incremental base revenue decrease of \$1.1 million, based on a historic test year (HTY), an ROE of 9 percent and an equity ratio of 52 percent. The Office of Consumer Counsel (OCC) recommended an incremental base revenue increase of \$15.4 million based on an HTY, an ROE of 9 percent and equity ratio of 51.03 percent and other adjustments. The recommended incremental base revenues are inclusive of proposed changes to the level of integrity management costs moved from the PSIA rider to base rates.

In April 2013, PSCo filed rebuttal testimony and revised its requested annual rate increase to \$44.8 million for 2013, with subsequent step increases of \$9.0 million for 2014 and \$10.9 million for 2015, based on an ROE of 10.3 percent. This requested increase includes amounts to be transferred from the PSIA rider mechanism. The deficiency, based on an FTY, was \$30.6 million.

In October 2013, the Administrative Law Judge (ALJ) issued her recommendation. As part of this decision, she recommended the use of an HTY, an ROE of 9.72 percent and an equity ratio of 56 percent. The ALJ also recommended to reject PSCo's proposed changes to the PSIA, instead leaving the current rider in effect and suggested that changes be presented in a separate application.

On Dec. 11, 2013, the CPUC made limited changes to the ALJ's recommended decision in oral deliberations. The CPUC upheld the ALJ's recommended ROE of 9.72 percent and use of an HTY with an equity ratio of 56 percent. The CPUC overturned a portion of the ALJ's decision regarding attrition mitigation and approved the use of end of year rate base. With the changes that the CPUC made to the ALJ's recommended decision, the incremental base revenue increase is expected to be \$15.8 million. A technical conference held on Dec. 19, 2013 confirmed the base revenue increase net of changes to the PSIA.

While the CPUC rejected the filed FTY and multi-year rate plan, they made clear that they supported the benefits that such rate certainty brings to customers and PSCo and outlined a process to address the matter which could include workshops and a rulemaking. The CPUC did not reverse the ALJ's failure to approve expansion and acceleration of PSCo's pipeline integrity projects. Like the test year discussion, the CPUC discussed the importance of pipeline integrity and safety matters and extended the PSIA recovery mechanism for one year to allow for PSCo to file an application for full consideration of all new projects and acceleration.

The following table summarizes the CPUC decision:

(Millions of Dollars)	CPUC Decision
PSCo deficiency based on a FTY	\$44.8
HTY adjustment	(5.4)

Edgar Filing: XCEL ENERGY INC - Form 8-K

ROE and capital structure adjustments	(8.3)
Revenue adjustments	(1.4)
Other	(0.1)
Recommendation	\$29.6	
Neutralize PSIA - base rate transfer	(13.8)
Incremental base revenue	\$15.8	

Rates and conforming changes made to the PSIA will be effective by Jan. 1, 2014.

Except for the historical statements contained in this 8-K, the matters discussed herein, including the expected impact of rate cases, are forward-looking statements that are subject to certain risks, uncertainties and assumptions.
