NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

The condensed consolidated financial statements include the results of Wausau Paper Corp. and our consolidated subsidiaries. All significant intercompany transactions have been eliminated. The accompanying condensed financial statements, in the opinion of management, reflect all adjustments, which are normal, and recurring in nature and

which are necessary for a fair statement of the results for the periods presented. Results for the interim period are not necessarily indicative of future results. In all regards, the financial statements have been presented in accordance with accounting principles generally accepted in the United States of America. Refer to notes to the financial statements, which appear in the Annual Report on Form 10-K for the year ended December 31, 2005, for our accounting policies and other

disclosures, which are pertinent to these statements.

NOTE 2. EARNINGS PER SHARE

The following table reconciles basic weighted average outstanding shares to diluted weighted average outstanding shares:

(all amounts in thousands, except per share da	ta)		ee Mon d March	
		2006		2005
Net (loss) earnings	\$	(1,343)	\$	1,936
Basic weighted average common shares outstandi Effect of dilutive securities:	ng	51,041		51,690

Net (loss) earnings per share:				
Basic	\$	(0.03)	\$	0.04
Diluted	\$	(0.03)	\$	0.04

Share-based compensation awards for which the exercise price exceeds the average market price over the applicable period have an antidilutive effect on EPS, and accordingly, are excluded from the calculation of diluted EPS. Due to the loss reported in the quarter ended March 31, 2006, all share-based compensation award shares are considered to be antidilutive. As a result, for the three months ended March 31, 2006 and March 31, 2005, 2,180,942 shares and 567,911 shares, respectively, issued under share-based compensation plans were excluded from the diluted EPS calculation because the shares were antidilutive.

NOTE 3. SHARE-BASED COMPENSATION

Effective January 1, 2006, Wausau Paper adopted Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123R"), using the modified prospective application transition method. This accounting standard requires compensation cost related to share-based payment transactions to be recognized as an operating expense in the statement of operations over the requisite service period based on the grant-date fair value of the award.

Prior to adopting SFAS 123R, we measured compensation cost for stock-based compensation plans using the "intrinsic value based method" prescribed under Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to

4

Employees." As a result, compensation expense for restricted stock was recognized ratably over the service period based upon the grant-date market value and compensation expense for performance stock awards was recognized ratably over the performance period based on changes in quoted market prices of Wausau Paper common stock and the likelihood of achieving performance goals. The exercise price of all employee stock options was at least equal to their grant-date market value. Accordingly, no compensation expense was recorded for stock options granted to employees.

Under SFAS 123R, share-based payment awards that are settled in cash continue to be classified as a liability; however, rather than remeasuring the award at the intrinsic value each reporting period, the award is remeasured at its fair value each reporting period until final settlement. The difference between the liability as previously computed (i.e., intrinsic value) and the fair value of the liability award on

January 1, 2006, net of any related tax effects, was recorded as a cumulative effect of a change in accounting principle in the Condensed Consolidated Statement of Operations.

The impact of accounting for share-based compensation to our reported net loss for the three months ended March 31, 2006 under the provisions of SFAS 123R using the "fair value based method" compared to the "intrinsic based method" was an after-tax expense of \$0.3 million, or approximately \$0.01 per share.

SFAS 123R also requires us to report the tax benefit from the tax deduction that is in excess of recognized compensation costs (excess tax benefits) as a financing cash flow rather than an operating cash flow. Before the adoption on January 1, 2006, we reported the entire tax benefit related to the exercise of stock options as an operating cash flow.

STOCK OPTIONS, RESTRICTED STOCK AWARDS, AND PERFORMANCE UNITS During the three months ended March 31, 2006, we recognized approximately \$0.1 million in share-based compensation expense which included fixed option grants and performance unit awards. We recognize compensation expense on grants of stock options, restricted stock and performance unit share-based compensation awards on a straight-line basis over the requisite service period of each award. As of March 31, 2006, total unrecognized compensation cost related to share-based compensation awards was approximately \$0.1 million which will be recognized ratably through December 31, 2006.

We are authorized to deliver up to 3.7 million shares of our common stock upon exercise of non-qualified stock options or incentive stock options, or upon grant or in payment of performance shares, performance units and restricted stock under various incentive plans. Wausau Paper has one stock incentive plan, the "2000 Stock Incentive Plan" under which awards to grantees are available for future grant. Approximately 1.4 million shares were available under the 2000 Stock Incentive Plan for future grant at March 31, 2006. We use treasury stock to deliver common stock shares under these plans. Non-qualified stock options expire twenty years from the grant date.

Restricted Stock

We may also grant restricted stock awards to certain employees. No grants of restricted stock were made during the three months ended March $31,\ 2006.$

Performance Units

Under the 2000 Stock Incentive Plan, performance unit awards may be granted to certain employees and directors of Wausau Paper. The vesting of certain performance awards may be subject to (1) achieving certain operating profit levels and (2) completion of a service requirement. Service condition vesting ranges from zero to two years. We value performance unit awards at the average of the high and low sales price of our common stock on the date of grant.

STOCK APPRECIATION RIGHTS AND DIVIDEND EQUIVALENTS

Wausau Paper maintains various stock appreciation rights plans that entitle certain management employees to receive settlement in cash equal to the sum of the appreciation in the value of the stock and the hypothetical value of cash dividends which would have been paid on the stock covered by the grant assuming reinvestment in Wausau Paper common stock.

We also maintain a dividend equivalent plan. Under the plan, upon termination of employment, or at the time of exercise of options granted in tandem with the dividend equivalents, participants are entitled to receive the cash value of the grant. The cash value is determined by the sum of the value of cash dividends that would have been paid on the stock covered by the grant had it been actual stock and assuming all such hypothetical dividends had been reinvested in Wausau Paper common stock.

All outstanding stock appreciation rights and dividend equivalents were fully vested as of January 1, 2006. During the three months ended March 31, 2006, \$8,827 was paid to a participant in settlement of dividend equivalents.

During the three months ended March 31, 2006, we recognized approximately \$0.8 million in share-based compensation expense related to stock appreciation rights and dividend equivalents as these awards were remeasured to their fair value as of March 31, 2006, in accordance with the provisions of SFAS 123R.

Wausau Paper previously disclosed in our consolidated financial statements for the year ended December 31, 2005, that although we do not have a minimum funding requirement for defined benefit pension plans in 2006, we may elect to make contributions of up to \$17.6 million directly to pension plans. As of March 31, 2006, we have made payments of approximately \$3.7 million to our pension plans. In addition, as previously reported, we expect to contribute \$4.4 million directly to other post-retirement plans in 2006. As of March 31, 2006, we have contributed \$1.6 million to our post-retirement plans.

NOTE 8. DEBT

During the first quarter of 2006, Wausau Paper issued \$9.5 million of commercial paper under an existing unrated commercial paper placement agreement with a bank. This agreement requires unused credit availability under our \$100 million unsecured revolving-credit agreement that expires August 31, 2008 equal to the amount of outstanding commercial paper. The amount of commercial paper outstanding at March 31, 2006 has been classified as long-term as we intend and have the ability to refinance the obligations under the revolving credit agreement.

In February 2006, we entered into a capital lease to finance certain equipment. As a result, we recorded a capital lease obligation and related asset in the amount of \$0.4 million.

NOTE 9. PULP MILL CLOSURE

In July 2005, Wausau Paper announced plans to permanently close the sulfite pulp mill at our Brokaw, Wisconsin, facility. The pulp mill was closed in November 2005 and the related long-lived assets were abandoned. Pre-tax restructuring expenses were \$0.1 million for the three months ended March 31, 2006.

NOTE 10. INTERIM SEGMENT INFORMATION

FACTORS USED TO IDENTIFY REPORTABLE SEGMENTS

Wausau Paper's operations are classified into three principal reportable segments: Specialty Products, Printing & Writing, and Towel & Tissue, each providing different products. Separate management of each segment

is required because each business unit is subject to different marketing, production, and technology strategies.

PRODUCTS FROM WHICH REVENUE IS DERIVED

Specialty Products produces specialty papers at its manufacturing facilities in Rhinelander, Wisconsin; Mosinee, Wisconsin; and Jay, Maine. Specialty Products also includes two converting facilities that produce laminated roll wrap and related specialty finishing and packaging products. Printing & Writing produces a broad line of premium printing and writing grades at manufacturing facilities in Brokaw, Wisconsin; Groveton, New Hampshire; and Brainerd, Minnesota. Printing & Writing also includes a converting facility which converts printing and writing grades. Towel & Tissue produces a complete line of towel and tissue products that are marketed along with soap and dispensing systems for the "away-from-home" market. Towel & Tissue operates a paper mill in Middletown, Ohio, and a converting facility in Harrodsburg, Kentucky.
