QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2010

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 1-11411

Polaris Industries Inc.

(Exact name of registrant as specified in its charter)

Minnesota

41-1790959

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

2100 Highway 55, Medina, MN

55340

(Address of principal executive offices)

(Zip Code)

(763) 542-0500

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Edgar Filing: POLARIS INDUSTRIES INC/MN - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of July 30, 2010, 33,252,230 shares of Common Stock of the issuer were outstanding.

Table of Contents**POLARIS INDUSTRIES INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS****NOTE 1. Significant Accounting Policies***Basis of Presentation*

The accompanying unaudited consolidated financial statements for Polaris Industries Inc (Polaris or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial statements and, therefore, do not include all information and disclosures of results of operations, financial position and changes in cash flow in conformity with accounting principles generally accepted in the United States for complete financial statements. Accordingly, such statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2009 previously filed with the Securities and Exchange Commission. In the opinion of management, such statements reflect all adjustments (which include only normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. Due to the seasonality of the snowmobile; off-road vehicles (ORV), which includes all terrain vehicles (ATV) and side by side vehicles; on-road vehicles, which is primarily comprised of motorcycles and neighborhood electric vehicles; and parts, garments and accessories (PG&A) businesses, and to certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year.

New Accounting Pronouncements

Consolidation (ASC Topic 810), Improvements to Financial Reporting by Enterprises Involved With Variable Interest Entities (ASU 2009-17). In December 2009, the FASB issued ASU No. 2009-17, Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities, which amends ASC 810, Consolidation (FASB Statement No. 167, Amendments to FASB Interpretation No. 46(R)). ASU 2009-17 requires the enterprise to qualitatively assess if it is the primary beneficiary of a variable-interest entity (VIE), and, if so, the VIE must be consolidated. The ASU also requires additional disclosures about an enterprise's involvement in a VIE. ASU 2009-17 was effective for the Company beginning with its quarter ended March 31, 2010. The impact of adopting the new guidance was not material to the Company.

Transfers and Servicing: In December 2009, the FASB issued ASC Topic 860, Transfers and Servicing: Accounting for Transfers of Financial Assets. This Accounting Standards Update amends the FASB Accounting Standards Codification for Statement 166, *Accounting for Transfers of Financial Assets – an amendment of FASB Statement No. 140*. ASC 860 provides guidance on how to account for transfers of financial assets including establishing conditions for reporting transfers of a portion of a financial asset as opposed to an entire asset and requires enhanced disclosures about a transferor's continuing involvement with transfers. The impact of adoption of this topic was not material to the Company.

Improving Disclosure about Fair Value Measurements: In January 2010, the FASB issued ASU 2010-06, *Improving Disclosure about Fair Value Measurements*. ASU 2010-06 revises two disclosure requirements concerning fair value measurements and clarifies two others. It requires separate presentation of significant transfers into and out of Levels 1 and 2 of the fair value hierarchy and disclosure of the reasons for such transfers. It also requires the presentation of purchases, sales, issuances and settlements within Level 3 on a gross basis rather than a net basis. The amendments also clarify that disclosures should be disaggregated by class of asset or liability and that disclosures about inputs and valuation techniques should be provided for both recurring and non-recurring fair value measurements. The ASU is effective for interim and annual reporting periods beginning after December 15, 2009, except for certain Level 3 activity disclosure requirements that will be effective for reporting periods beginning after December 15, 2010. The Company has included the additional disclosure required by ASU 2010-06 in its footnotes for the quarters beginning with the 2010 first quarter.

Product Warranties

Polaris provides a limited warranty for ORVs for a period of six months and for a period of one year for its snowmobiles and motorcycles. Polaris may provide longer warranties related to certain promotional programs, as well as longer warranties in certain geographical markets as determined by local regulations and market conditions. Polaris standard warranties require the Company or its dealers to repair or replace defective product during such warranty

period at no cost to the consumer. The warranty reserve is established at the time of sale to the dealer or distributor based on management's best estimate using historical rates and trends. Adjustments to the warranty reserve are made from time to time as actual claims become known in order to properly estimate the amounts necessary to settle future and existing claims on products sold as of the balance sheet date. Factors that could have an

Table of Contents

impact on the warranty accrual in any given period include the following: improved manufacturing quality, shifts in product mix, changes in warranty coverage periods, snowfall and its impact on snowmobile usage, product recalls and any significant changes in sales volume.

The activity in Polaris accrued warranty reserve for the periods presented is as follows (in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Accrued warranty reserve, beginning	\$ 22,344	\$ 24,244	\$ 25,520	\$ 28,631
Additions charged to expense	10,930	9,593	20,878	18,150
Warranty claims paid	(8,613)	(8,465)	(21,737)	(21,409)
Accrued warranty reserve, ending	\$ 24,661	\$ 25,372	\$ 24,661	\$ 25,372

NOTE 2. Share-Based Employee Compensation

The amount of compensation cost for share-based awards to be recognized during a period is based on the portion of the awards that are ultimately expected to vest. The Company estimates option forfeitures at the time of grant and revises those estimates in subsequent periods if actual forfeitures differ from those estimates. The Company analyzes historical data to estimate pre-vesting forfeitures and records share compensation expense for those awards expected to vest.

Total share-based compensation expenses are as follows (in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Option plan	\$ 1,285	\$ 1,125	\$ 2,569	\$ 2,166
Other share-based awards	10,859	3,277	17,450	4,580
Total share-based compensation before tax	12,144	4,402	20,019	6,746
Tax benefit	4,823	1,696	7,859	2,600
Total share-based compensation expense included in net income	\$ 7,321	\$ 2,706	\$ 12,160	\$ 4,146

In addition to the above share-based compensation expense, Polaris sponsors a qualified non-leveraged employee stock ownership plan (ESOP). Shares allocated to eligible participants accounts vest at various percentage rates based on years of service and require no cash payments from the recipient.

At June 30, 2010 there was \$12,944,000 of total unrecognized share-based compensation expense related to unvested share-based awards. Unrecognized share-based compensation expense is expected to be recognized over a weighted-average period of 1.75 years. Included in unrecognized share-based compensation is \$9,642,000 related to stock options and \$3,302,000 related to restricted stock.

NOTE 3. Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market. The major components of inventories are as follows (in thousands):

	June 30, 2010	December 31, 2009
Raw materials and purchased components	\$ 33,482	\$ 19,777

Service parts, garments and accessories	58,630	58,556
Finished goods	147,070	116,575
Less: reserves	(16,574)	(15,593)
Total Inventories	\$ 222,608	\$ 179,315

NOTE 4. Financing Agreement

Polaris is a party to an unsecured bank agreement comprised of a \$250,000,000 revolving loan facility for working capital needs and a \$200,000,000 term loan. The entire amount of the \$200,000,000 term loan was utilized in December 2006 principally to fund an accelerated share repurchase transaction. The agreement expires on December 2, 2011. Interest is charged at rates based on LIBOR or prime (effective rate was 0.83 percent at June 30, 2010).

Table of Contents

As of June 30, 2010, total borrowings under the bank arrangement were \$200,000,000 and have been classified as long-term in the accompanying consolidated balance sheets.

Polaris has entered into the following interest rate swap agreements to manage exposures to fluctuations in interest rates by fixing the LIBOR interest rate as follows:

Year Swap

entered into	Fixed Rate	Notional Amount	Expiration Date
2008	2.69%	\$ 25,000,000	October 2010
2009	1.34%	\$ 25,000,000	April 2011
2009	0.64%	\$ 25,000,000	October 2010
2009	0.98%	\$ 25,000,000	April 2011

Each of these interest rate swaps were designated as and met the criteria of cash flow hedges. The fair value of the interest rate swap agreements on June 30, 2010 was a liability of \$414,000.

NOTE 5. Investment in Finance Affiliate and Financial Services

In 1996, a wholly-owned subsidiary of Polaris entered into a partnership agreement with an entity that is now a subsidiary of GE Commercial Distribution Finance Corporation (GECDF) to form Polaris Acceptance. Polaris subsidiary has a 50 percent equity interest in Polaris Acceptance. In November 2006, Polaris Acceptance sold a majority of its receivable portfolio (the Securitized Receivables) to a securitization facility (Securitization Facility) arranged by General Electric Capital Corporation, a GECDF affiliate, and the partnership agreement was amended to provide that Polaris Acceptance would continue to sell portions of its receivable portfolio to the Securitization Facility from time to time on an ongoing basis. The sale of receivables from Polaris Acceptance to the Securitization Facility is accounted for in Polaris Acceptance s financial statements as a true-sale under ASC Topic 860, (originally issued as SFAS No. 140 Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities). Substantially all of Polaris U.S. sales are financed through Polaris Acceptance and the Securitization Facility whereby Polaris receives payment within a few days of shipment of the product. The net amount financed for dealers under this arrangement at June 30, 2010, including both the portfolio balance in Polaris Acceptance and the Securitized Receivables, was \$425,432,000 which includes \$137,088,000 in the Polaris Acceptance portfolio and \$288,344,000 of Securitized Receivables. Polaris has agreed to repurchase products repossessed by Polaris Acceptance or the Securitization Facility up to an annual maximum of 15 percent of the aggregate average month-end balances outstanding during the prior calendar year with respect to receivables retained by Polaris Acceptance and Securitized Receivables. For calendar year 2010, the potential 15 percent aggregate repurchase obligation is approximately \$89,252,000. Polaris financial exposure under this arrangement is limited to the difference between the amount paid to the finance company for repurchases and the amount received on the resale of the repossessed product. No material losses have been incurred under this agreement. Polaris total investment in Polaris Acceptance at June 30, 2010 of \$31,857,000 is accounted for under the equity method, and is recorded as Investments in finance affiliate in the accompanying consolidated balance sheets. Polaris allocable share of the income of Polaris Acceptance and the Securitization Facility has been included as a component of Income from financial services in the accompanying consolidated statements of income.

In August 2005, a wholly owned subsidiary of Polaris entered into a multi-year contract with HSBC under which HSBC manages the Polaris private label revolving credit card program under the StarCard label which makes available revolving consumer credit to customer of Polaris dealers for Polaris products. Polaris currently has no credit, interest rate or funding risk under the agreement and Polaris no longer receives any fee income. During the 2010 second quarter Polaris and HSBC extended the term of the agreement on similar terms to October 31, 2013.

In April 2006, a wholly-owned subsidiary of Polaris entered into a multi-year contract with GE Money Bank (GE Bank) under which GE Bank makes available closed-end installment consumer and commercial credit to customers of Polaris dealers for both Polaris and non-Polaris products. In January 2009, a wholly-owned subsidiary of Polaris entered into a multi-year contract with Sheffield Financial (Sheffield) pursuant to which Sheffield agreed to make available closed-end installment consumer and commercial credit to customers of Polaris dealers for Polaris products.

Polaris income generated from the GE Bank and Sheffield agreements has been included as a component of Income from financial services in the accompanying consolidated statements of income.

Table of Contents

Polaris also provides extended service contracts to consumers and certain insurance contracts to dealers and consumers through various third-party suppliers. Polaris does not retain any warranty, insurance or financial risk in any of these arrangements. Polaris' service fee income generated from these arrangements has been included as a component of Income from financial services in the accompanying consolidated statements of income.

NOTE 6. Investment in Manufacturing Affiliates

The caption Investments in manufacturing affiliates in the consolidated balance sheets represents Polaris' equity investment in Robin Manufacturing, U.S.A. (Robin), which builds engines in the United States for recreational and industrial products, and its equity investment in the Austrian motorcycle company, KTM Power Sports AG (KTM), which manufactures off-road and on-road motorcycles. At June 30, 2010, Polaris has a 40 percent ownership interest in Robin and owns less than 5 percent of KTM's outstanding shares. The KTM shares have been classified as available for sale securities under ASC Topic 320, (originally issued as FASB Statement 115, Accounting for Certain Investments in Debt and Equity Securities) and have a fair value equal to the trading price of KTM shares on the Vienna stock exchange, (19.00 Euros as of June 30, 2010). The total fair value of these shares as of June 30, 2010 is \$7,993,000 which is below the Company's cost basis for this investment. During the second quarter 2010, the Company determined that the decline in the fair value of the KTM shares owned by the Company as of June 30, 2010 was other than temporary and therefore recorded in the income statement a non-cash impairment charge on securities held for sale of \$769,000. During the first quarter 2009, the Company determined that the decline in the fair value of the KTM shares owned by the Company as of March 31, 2009 was other than temporary and therefore recorded in the income statement a non-cash impairment charge on securities held for sale of \$8,952,000.

NOTE 7. Shareholders' Equity

During the first six months of 2010, Polaris paid \$27,398,000 to repurchase and retire approximately 599,000 shares of its common stock related to employee stock plan exercises. There were no open market share repurchases during the first six months of 2010. As of June 30, 2010, the Company has authorization from its Board of Directors to repurchase up to an additional 3,120,000 shares of Polaris stock. The repurchase of any or all such shares authorized for repurchase will be governed by applicable SEC rules and dependent on management's assessment of market conditions.

Polaris paid a regular cash dividend of \$0.40 per share on May 17, 2010 to holders of record on May 3, 2010.

On July 22, 2010, the Polaris Board of Directors declared a regular cash dividend of \$0.40 per share payable on or about August 16, 2010 to holders of record of such shares at the close of business on August 2, 2010.

Net Income per Share

Basic earnings per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during each period, including shares earned under the nonqualified deferred compensation plan (Director Plan), the qualified non-leveraged employee stock ownership plan (ESOP) and deferred stock units under the 2007 Omnibus Incentive Plan (Omnibus Plan). Diluted earnings per share is computed under the treasury stock method and is calculated to compute the dilutive effect of outstanding stock options issued under the 1995 Stock Option Plan and the 2003 Non-Employee Director Stock Option Plan (collectively, the Option Plans) and the Omnibus Plan and certain shares issued under the Restricted Stock Plan (Restricted Plan).

A reconciliation of these amounts is as follows (in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Weighted average number of common shares outstanding	32,956	32,229	32,851	32,182
Director Plan and Deferred stock units	161	152	168	142
ESOP	138		143	
Common shares outstanding - basic	33,255	32,381	33,162	32,324
Dilutive effect of Restricted Plan and Omnibus Plan	66	256	62	254

Edgar Filing: POLARIS INDUSTRIES INC/MN - Form 10-Q

Common and potential common shares outstanding diluted	34,248	32,990	33,999	32,775

Table of Contents

During the second quarter and year-to-date periods ending June 30, 2010, the number of options that could potentially dilute earnings per share on a fully diluted basis that were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive were 291,000 and 578,000, respectively, compared to 2,701,000 and 3,545,000, respectively, for the same periods in 2009.

Comprehensive Income

Comprehensive income represents net income adjusted for foreign currency translation adjustments, unrealized gains or losses on available for sale securities and the deferred gains or losses on derivative instruments utilized to hedge Polaris' interest and foreign exchange exposures. Comprehensive income is as follows (in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Net income	\$ 25,624	\$ 17,478	\$ 45,395	\$ 25,936
Other comprehensive income:				
Foreign currency translation adjustments, net of tax	(3,979)	4,222	(4,311)	(1,475)
Reclassification of unrealized loss on available for sale securities to the income statement, net of tax	769		769	6,675
Unrealized loss on available for sale securities, net of tax	(57)	(423)	(387)	(423)
Unrealized gain on derivative instruments, net of tax	4,472	164	3,761	444
Comprehensive income	\$ 26,829	\$ 21,441	\$ 45,227	\$ 31,157

Changes in the Accumulated other comprehensive income (loss) balances is as follows (in thousands):

	Foreign currency items	Available for sale equity securities	Cash flow hedging derivatives	Accumulated other comprehensive income (loss)
Balance at December 31, 2009	\$ 3,861	\$ (382)	\$ (655)	\$ 2,824
Reclassification to the income statement		769	(7)	762
Change in fair value, net of tax	(4,311)	(387)	3,768	(930)
Balance at June 30, 2010	\$ (450)	\$	\$ 3,106	\$ 2,656

The \$769,000 unrealized loss as of June 30, 2010 on available for sale equity securities was reclassified to the income statement and relates to the decline in the market value of the Company's KTM investment which was deemed other than temporary during the 2010 second quarter. See Note 6 for additional details.

NOTE 8. Commitments and Contingencies

Polaris is subject to product liability claims in the normal course of business. Polaris is currently self-insured for all product liability claims. The estimated costs resulting from any losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably determinable. The Company utilizes historical trends and actuarial analysis tools to assist in determining the appropriate loss reserve levels.

Polaris is a defendant in lawsuits and subject to claims arising in the normal course of business. In the opinion of management, it is not probable that any legal proceedings pending against or involving Polaris will have a material adverse effect on Polaris' financial position or results of operations.

NOTE 9. Derivative Instruments and Hedging Activities

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed by using derivative instruments are foreign currency risk, interest rate risk and commodity price fluctuations. Forward

exchange contracts on various currencies are entered into in order to manage foreign currency exposures associated with certain product sourcing activities and intercompany sales. Interest rate swaps are entered into in order to manage interest rate risk associated with the Company's variable-rate borrowings. Commodity hedging contracts are entered into in order to manage fluctuating market prices of certain purchased commodities and raw materials that are integrated into the Company's end products.

Table of Contents

The Company's foreign currency management objective is to mitigate the potential impact of currency fluctuations on the value of its U.S. dollar cash flows and to reduce the variability of certain cash flows at the subsidiary level. The Company actively manages certain forecasted foreign currency exposures and uses a centralized currency management operation to take advantage of potential opportunities to naturally offset foreign currency exposures against each other. The decision of whether and when to execute derivative instruments, along with the duration of the instrument, can vary from period to period depending on market conditions, the relative costs of the instruments and capacity to hedge. The duration is linked to the timing of the underlying exposure, with the connection between the two being regularly monitored. Polaris does not use any financial contracts for trading purposes. At June 30, 2010, Polaris had the following open contracts (in thousands):

Foreign Currency	Notional Amounts (in US Dollars)	Unrealized Gain
Australian Dollar	\$ 2,015	\$ 95
Canadian Dollar	95,787	5,296
Total	\$ 97,802	\$ 5,391

These contracts, with maturities through December 2010, met the criteria for cash flow hedges and the unrealized gains or losses, after tax, are recorded as a component of Accumulated other comprehensive income (loss) in Shareholders' Equity. The Company had no open Euro or other foreign currency derivative contracts in place at June 30, 2010.

Polaris has entered into derivative contracts to hedge a portion of the exposure related to diesel fuel and aluminum for 2010 and 2011. These diesel fuel and aluminum derivative contracts did not meet the criteria for hedge accounting. The table below summarizes the carrying values of derivative instruments as of June 30, 2010 (in thousands):

	Fair Value -	Fair Value -	Derivative Net Carrying Value
	Assets	(Liabilities)	Value
Derivatives designated as hedging instruments under SFAS 133			
Interest rate contracts (1)		\$ (414)	\$ (414)
Foreign exchange contracts (2)	5,391		5,391
Total derivatives designated as hedging instruments under SFAS 133	\$ 5,391	\$ (414)	\$ 4,977
Commodity contracts (2)	\$ 1,353	\$ (306)	\$ 1,047
Total derivatives not designated as hedging instruments under SFAS 133	\$ 1,353	\$ (306)	\$ 1,047
Total Derivatives	\$ 6,744	\$ (720)	\$ 6,024

For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of Accumulated other comprehensive income (loss) and reclassified into the income statement in the same period or periods during which the hedged transaction affects the income statement. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in the current income statement. The table below provides data about the amount of gains and losses, net of tax, related to derivative instruments designated as cash flow hedges included in the other comprehensive income (loss) for the three and six months ended June 30, 2010 (in thousands):

Table of Contents

Derivatives in SFAS 133 Cash Flow Hedging Relationships	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Interest rate contracts	\$ 179	\$ 199	\$ 178	\$ 255
Foreign currency contracts	4,293	(35)	3,583	189
Total	\$ 4,472	\$ 164	\$ 3,761	\$ 444

The table below provides data about the amount of gains and losses, net of tax, reclassified from Accumulated other comprehensive income into income on derivative instruments designated as hedging instruments for the three and six month periods ended June 30, 2010 (in thousands):

Derivatives in SFAS 133 Cash Flow Hedging Relationships	Location of Gain (Loss)	For the Three Months		For the Six Months	
		Ended June 30, 2010	2009	Ended June 30, 2010	2009
	Reclassified from Accumulated OCI				
	Into Income				
Interest rate contracts	Interest Expense	\$ (291)	\$ (405)	\$ (588)	\$ (732)
Foreign currency contracts	Other income, net	623	369	557	369
Foreign currency contracts	Cost of Sales	49	(116)	24	(116)
Total		\$ 381	\$ (152)	\$ (7)	\$ (479)

The net amount of the existing gains or losses at June 30, 2010 that is expected to be reclassified into the income statement within the next 12 months is expected to not be material. The ineffective portion of foreign currency contracts was not material for the three and six months ended June 30, 2010.

The Company recognized losses of \$2,544,000 and \$2,438,000 in cost of sales on commodity contracts not designated as hedging instruments for the three and six month periods ended June 30, 2010, respectively, versus gains of \$996,000 and \$1,135,000 for the three and six month periods ended June 30, 2009.

NOTE 10. Fair Value Measurements

ASC Topic 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy which requires classification based on observable and unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company utilizes the market approach to measure fair value for its investment in KTM and non-qualified deferred compensation assets, and the income approach for the interest rate swap agreements, foreign currency contracts and commodity contracts. The market approach uses prices and other relevant information generated by

market transactions involving identical or comparable assets or liabilities and for the income approach the Company uses significant other observable inputs such as quotations from third parties, to value its derivative instruments used to hedge interest rate volatility and foreign currency and commodity transactions (see Note 9 for additional details). Assets and liabilities measured at fair value on a recurring basis are summarized below (in thousands):

Table of Contents

	Fair Value Measurements as of June 30, 2010			
	Total	Level 1	Level 2	Level 3
Asset (Liability), net Investment in KTM	\$ 7,993	\$ 7,993	\$	\$
Non-qualified deferred compensation assets	1,589	1,589		
Interest rate swap agreements	(414)		(414)	
Foreign exchange contracts, net	5,391		5,391	
Commodity contracts, net	1,047		1,047	
Total	\$ 15,606	\$ 9,582	\$ 6,024	\$

The carrying value of cash, trade receivables and borrowings under the credit agreement approximates fair value.

NOTE 11. Manufacturing Realignment

In May 2010 the Company announced that it was realigning its manufacturing operations. The realignment will consolidate operations into existing operations in Roseau, MN and Spirit Lake, IA as well as establish a new facility in Mexico. The realignment will lead to the sale or closure of the Osceola, WI manufacturing operation by 2012. The Company expects to record transition charges, including both exit costs and startup costs, over the next few years. The exit costs pertaining to the realignment are expected to total approximately \$10,000,000 over that time period. The exit costs are classified within cost of sales in the consolidated statements of income. A summary of these exit costs follows (in thousands):

	Total Amount Expected to be Incurred	Amount Incurred during the Three Months Ended June 30, 2010	Cumulative Amounts Incurred through June 30, 2010
Termination benefits	\$ 7,500	\$ 997	\$ 997
Other associated costs	2,500		
Total Exit Costs	\$ 10,000	\$ 997	\$ 997

Utilization of components of the accrued exit costs during the three months ended June 30, 2010 is as follows (in thousands):

	Balance March 31, 2010	Amount provided for the Three Months Ended June 30, 2010	Amount Utilized for the Three Months Ended June 30, 2010	Balance June 30, 2010
Termination benefits	\$	\$ 997	\$	\$ 997
Other associated costs				
Total Exit Costs	\$	\$ 997	\$	\$ 997

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**Executive-Level Overview**

The following discussion pertains to the results of operations and financial position of Polaris Industries Inc., a Minnesota corporation (Polaris or the Company), for the quarter and year-to-date periods ended June 30, 2010. Due to the seasonality of the snowmobile; off-road vehicle (ORV), which includes all terrain vehicles (ATV) and side-by-side vehicles; on-road vehicles, which is primarily comprised of motorcycles; and parts, garments and accessories (PG&A) businesses, and to certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year.

For the second quarter ended June 30, 2010, Polaris reported net income of \$25.6 million, or \$0.75 per diluted share. By comparison, 2009 second quarter net income was \$17.5 million, or \$0.53 per diluted share. Sales for the second quarter 2010 totaled \$430.9 million, an increase of 25 percent from second quarter 2009 sales of \$345.9 million. For the year-to-date period ended June 30, 2010, Polaris reported net income of \$45.4 million, or \$1.34 per diluted share, compared to net income of \$25.9 million, or \$0.79 per diluted share for the same period last year. Sales for the 2010 year-to-date period totaled \$792.6 million, an increase of 20 percent from sales of \$657.9 million during the same period last year.

Driven by market share gains, sales growth and a 210 basis point increase in the gross profit margin, Polaris generated strong operating results during the second quarter in an overall economic and powersports industry environment that remained sluggish. The Company's continued focus on execution of its growth strategy helped extend the sales and earnings increase the Company reported in the 2010 first quarter. In addition, the success of the Max Velocity Program, which is the go-to-market retail strategy in North America, coupled with the demand for the Company's innovative products, allowed the Company to outpace the overall industry resulting in market share gains in ORV, Victory motorcycles and in its international operations. The operational excellence initiatives also continued to deliver improvements during the second quarter in both product costs and production efficiencies.

During the quarter the Company announced the realignment and began the transition of its manufacturing footprint in an effort to improve its long-term competitive positioning, increase operational efficiencies and position the Company for future growth. The project is underway. The realignment will entail the creation of three manufacturing centers of excellence for Polaris Products by enhancing the existing Roseau, Minnesota and Spirit Lake, Iowa, production facilities and establishing a new facility in Mexico. When the manufacturing realignment is completed in 2012, the Company will have capabilities to manufacture ORVs (both ATVs and side-by-side vehicles), which represents more than two-thirds of the Company's sales, in multiple locations depending on customer demand and proximity to the Company's manufacturing facilities.

Results of Operations**Sales:**

Sales were \$430.9 million in the second quarter 2010, a 25 percent increase from \$345.9 million in sales for the same period in 2009. Sales for the year-to-date period ended June 30, 2010 were \$792.6 million, a 20 percent increase from \$657.9 million in sales for the same period in 2009.

The following table is an analysis of the percentage change in total Company sales for the 2010 second quarter and year-to-date periods compared to the same periods of 2009:

Percent Change in Total Company Sales Compared to 2009 periods	
Three Months Ended June 30, 2010	Six Months Ended June 30, 2010

Volume	21%	13%
Product mix and price	2%	4%
Currency	2%	3%
Total	25%	20%

Volume for the 2010 second quarter and year-to-date periods increased 21 percent and 13 percent, respectively, compared to the same periods last year, as the Company shipped significantly more ORVs, and Victory motorcycles to dealers given the strength in

Table of Contents

consumer retail sales for Polaris in North America and internationally. Product mix and price increased for the second quarter and year-to-date periods in 2010 compared to the same periods in 2009 primarily due to the positive benefit of a greater number of higher priced side-by-side vehicles sold to dealers relative to the Company's other businesses, and select selling price increases on several of the new model year 2010 products. Favorable movements in currency rates for both the 2010 second quarter and year-to-date periods increased sales two percent and three percent, respectively, compared to the same periods in 2009 due to the change in the currency rates and their effect on the Company's Canadian and other foreign subsidiaries when translated to U.S. dollars.

Total Company sales by product line are as follows:

(in millions)	Three Months Ended June 30,					Six Months Ended June 30,				
	2010	Percent of Total Sales	2009	Percent of Total Sales	Dollar Percent Change	2010	Percent of Total Sales	2009	Percent of Total Sales	Dollar Percent Change
Off-Road										
Vehicles	\$ 342.0	79%	\$ 261.7	76%	31%	\$ 592.5	75%	\$ 477.2	73%	24%
Snowmobile	2.0	0%	7.4	2%	-73%	7.5	1%	15.6	2%	-52%
Victory										
Motorcycles	15.5	4%	10.5	3%	48%	40.8	5%	24.3	4%	68%
PG&A	71.4	17%	66.3	19%	8%	151.8	19%	140.8	21%	8%
Total Sales	\$ 430.9	100%	\$ 345.9	100%	25%	\$ 792.6	100%	\$ 657.9	100%	20%

Off-Road vehicles (ORV) sales during the second quarter 2010, which includes sales of both ATVs (all-terrain vehicles) and *RANGER* side-by-side vehicles, increased 31 percent to \$342.0 million from the second quarter 2009. Year-to-date 2010 ORV sales increased 24 percent from the same period in 2009 to a total of \$592.5 million. This increase for the quarter and year-to-date periods reflects significant market share gains for both ATVs and side-by-sides driven by new product offerings and the retail go-to-market process call Max Velocity Program (MVP). North American retail sales to consumers for ORVs increased in the mid-teens percent for the 2010 second quarter from the second quarter last year, with side-by-side vehicle retail sales increasing significantly while core ATV retail sales were down in the high single digit percent range. In addition, The Company began shipping the first units of the differentiated sourced utility vehicle to Bobcat late in the second quarter of 2010. North American dealer inventories of ORVs declined 37 percent during the 2010 second quarter compared to 2009 second quarter levels. Sales of ORVs to customers outside of North America increased 33 percent in the second quarter 2010 when compared to the second quarter 2009, due to market share gains in both ATVs and side-by-side vehicles, positive mix benefit as more higher priced side-by-side vehicles were sold and higher selling prices. For the second quarter ended June 30, 2010, the average ORV per unit sales price increased five percent over last year's comparable period primarily as a result of the increased sales of the higher priced *RANGER* models and the impact of currency movements.

Snowmobile sales totaled \$2.0 million for the 2010 second quarter compared to \$7.4 million for the second quarter of 2009. For the year-to-date 2010 period, snowmobile sales were \$7.5 million, a 52 percent decrease compared to the same period last year. The decrease in sales was primarily the result of timing of shipments in the 2010 second quarter and year-to-date periods compared to the same periods last year. The first half of the calendar year is historically a seasonally low period for snowmobile shipments, as deliveries to dealers ramp up in the second half of the calendar year. For the full year 2010, the Company expects snowmobile sales to be approximately equal to the full year 2009. The average snowmobile per unit sales price for the second quarter of 2010 decreased significantly compared to the same period last year primarily due to the impact of sales promotion program provisioning in the current period. Sales of the on-road division, which primarily consists of Victory motorcycles, increased 48 percent to \$15.5 million during the second quarter of 2010 when compared to the same period in 2009. Year-to-date 2010 On-road sales increased 68 percent compared to the comparable period of 2009, to a total of \$40.8 million. During the 2010 second

quarter and year-to-date periods Victory continued to benefit from the actions implemented over the past nine months to accelerate growth. Victory motorcycles had strong retail sales during the 2010 second quarter, increasing more than 10 percent in North America compared to the second quarter last year, resulting in market share gains for the quarter. This is the third consecutive quarter of market share gains and retail sales growth for Victory and reflects the acceptance of the new model year 2010 motorcycles. North American dealer inventory of Victory motorcycles declined 32 percent in the 2010 second quarter compared to 2009 comparable levels. The sale of Victory motorcycles in markets outside of North America continues to increase, with sales reaching 25 percent of total On-road/Victory sales for the year-to-date period ended June 30, 2010. The Company's LEV Electric On-Road vehicle business continued to focus on adding new dealers and penetrating new markets during the 2010 second quarter and year-to-date periods.

Table of Contents

The average per unit sales price for Victory motorcycles in the 2010 second quarter was approximately flat with the same period in 2009.

PG&A (parts, garments, and accessories) sales increased eight percent during the 2010 second quarter and year-to-date periods to \$71.4 million and \$151.8 million, respectively, compared to the same periods of last year. The increase for the 2010 second quarter and year-to-date periods was driven primarily by increased *RANGER* side-by-side vehicle and Victory motorcycle related PG&A sales.

Sales by geographic region for the second quarter and year-to-date periods were as follows:

(\$ in millions)	Three Months Ended June 30,					Six Months Ended June 30,				
	2010	Percent of Total Sales	2009	Percent of Total Sales	Dollar Percent Change	2010	Percent of Total Sales	2009	Percent of Total Sales	Dollar Percent Change
United States	\$ 301.3	70%	\$ 232.6	67%	30%	\$ 539.6	68%	\$ 455.4	69%	19%
Canada	52.1	12%	54.6	16%	-5%	100.4	13%	90.4	14%	11%
Other foreign countries	77.5	18%	58.7	17%	32%	152.6	19%	112.1	17%	36%
Total Sales	\$ 430.9	100%	\$ 345.9	100%	25%	\$ 792.6	100%	\$ 657.9	100%	20%

Significant regional trends were as follows:

United States:

Net sales in the United States for the second quarter 2010 increased 30 percent compared to the second quarter of 2009. Net sales in the United States during the six months ended June 30, 2010 increased 19 percent compared to the same period in 2009. An increase in shipments for ORV vehicles and Victory motorcycles accounted for the increase for the 2010 second quarter and year-to-date periods. The United States represented 70 percent and 68 percent of total Company sales, respectively, in the 2010 second quarter and year-to-date periods compared to 67 percent and 69 percent, respectively, in the same periods in 2009.

Canada:

Canadian sales decreased 5 percent for the 2010 second quarter with favorable currency rates accounting for a 13 percent increase in sales which was more than offset by lower shipments of ORVs during the quarter. Year-to-date, sales increased 11 percent compared to the same period last year with favorable currency rates accounting for a 16 percent increase offset by lower shipments.

Other Foreign Countries:

Sales in other foreign countries, primarily in Europe, increased 32 percent and 36 percent for the 2010 second quarter and year-to-date periods, respectively, as compared to the same periods in 2009. Currency rates accounted for 1 percent of the change for the 2010 second quarter and 6 percent for the year-to-period as compared to the same periods in 2009. The primary portion of the increase in sales was driven by volume increases for ORVs and Victory motorcycles.

Gross Profit:

The following table reflects the Company's gross profits in dollars and as a percentage of sales for the second quarter and year-to-date periods:

(\$ in millions)	Three Months Ended			Six Months Ended		
	2010	2009	Change	2010	2009	Change
Gross profit dollars	\$ 113.1	\$ 83.3	36%	\$ 208.0	\$ 159.7	30%

Percentage of sales	26.2%	24.1%	+210 basis points	26.2%	24.3%	+190 basis points
---------------------	-------	-------	----------------------	-------	-------	----------------------

Gross profit, as a percentage of sales, was 26.2 percent for both the 2010 second quarter and year-to-date periods, an increase of 210 basis points and 190 basis points from the same periods last year. Gross profit dollars increased 36 percent and 30 percent to

Table of Contents

\$113.1 million and \$208.0 million for the 2010 second quarter and year-to-date periods compared to the same periods in 2009, respectively. The increase in the gross profit dollars and margin percentage during the 2010 second quarter and year-to-date periods resulted primarily from continued product cost reduction efforts, favorable currency rates, favorable product mix and significant production volume increases compared to the second quarter of last year.

Operating expenses:

The following table reflects the Company's operating expenses in dollars and as a percentage of sales for the second quarter and year-to-date periods:

(\$ in millions)	Three Months Ended			Six Months Ended		
	2010	June 30, 2009	Change	2010	June 30, 2009	Change
Selling and marketing	\$ 34.2	\$ 28.7	19%	\$ 64.3	\$ 56.0	15%
Research and development	18.5	15.2	22%	37.2	31.8	17%
General and administrative	21.7	16.3	34%	40.1	30.4	32%
Total operating expenses	\$ 74.4	\$ 60.2	24%	\$ 141.6	\$ 118.2	20%
Percentage of sales	17.3%	17.4%	-10 basis points	17.9%	18.0%	-10 basis points

Operating expenses for the 2010 second quarter and year-to-date periods increased 24 percent and 20 percent to \$74.4 million and \$141.6 million, respectively, compared to \$60.2 million and \$118.2 million for the same periods in 2009. Operating expenses in absolute dollars for the 2010 second quarter and year-to-date periods increased primarily due to higher incentive compensation plan expenses due to plan costs that were temporarily reduced last year during the uncertain economic environment, the higher expected profitability for the full year 2010 compared to 2009 and the current higher stock price. Operating expenses as a percentage of sales decreased to 17.3 percent and 17.9 percent for the 2010 second quarter and year to date periods, respectively, a 10 basis point decrease from the same periods in 2009 due primarily to higher sales volume during the 2010 second quarter and year-to-date periods.

Income from financial services:

(\$ in millions)	Three Months Ended			Six Months Ended		
	2010	June 30, 2009	Change	2010	June 30, 2009	Change
Equity in earnings of Polaris Acceptance	\$ 1.1	\$ 0.9	22%	\$ 2.4	\$ 2.1	14%
Income from Securitization Facility	2.0	2.2	-9%	4.1	4.7	-13%
Income from retail credit agreements	0.7	0.3	133%	1.1	0.4	175%
Income from other financial services activities	0.4	0.6	-33%	0.9	1.2	-25%
Total income from financial services	\$ 4.2	\$ 4.0	5%	\$ 8.5	\$ 8.4	1%

Income from financial services increased 5 percent to \$4.2 million in the 2010 second quarter compared to \$4.0 million in the 2009 second quarter. Income from financial services increased 1 percent to \$8.5 million for the six months ended June 30, 2010 from \$8.4 million for the same period of 2009. Further discussion can be found in the *Liquidity and Capital Resources* section below.

Interest expense

Interest expense decreased to \$0.7 million and \$1.4 million for the three and six months ended June 30, 2010, respectively, compared to \$1.1 million and \$2.1 million for the same periods of 2009, due to lower interest rates and lower bank borrowings during the 2010 periods.

Noncash Impairment charge on securities available for sale

The noncash Impairment charge on securities available for sale recorded in the second quarter 2010 was \$0.8 million. The securities available for sale relate to the Company's KTM investment which had a fair value equal to the trading price of KTM shares on the Vienna stock exchange (19.00 Euros at June 30, 2010). The total fair value of these securities as of June 30, 2010

Table of Contents

was \$8.0 million which was below the Company's cost basis for this investment at that time. During the second quarter 2010, the Company determined that the decline in the fair value of the KTM shares was other than temporary and therefore recorded the unrealized non-cash impairment charge of \$0.8 million in the income statement.

Other expense/income, net

Non-operating other expense/income was \$2.3 million of expense in the second quarter of 2010 compared to \$0.7 million of income for the same period in 2009. Year-to-date non-operating other expense/income was \$2.5 million of expense compared to \$0.7 million of income for the same period in 2009. The change for the quarter and year-to-date periods was primarily due foreign currency exchange rate movements and the resulting effects of foreign currency transactions related to the international subsidiaries.

Provision for income taxes

The income tax provision for the second quarter 2010 was recorded at a rate of 34.5 percent of pretax income compared to 34.4 percent of pretax income for the second quarter 2009. Year-to-date the income tax provision for 2010 was recorded at a rate of 35.3 percent of pretax income compared to 34.2 percent of pretax income for the 2009 year-to-date period. The higher income tax rate for the 2010 year-to-date period resulted from not providing for the federal research and development tax credit, which had not been extended by the U.S. Congress as of June 30, 2010.

Reported Net Income

(\$ in millions except per share data)	Three Months Ended			Six Months Ended		
	2010	2009	Change	2010	2009	Change
Net Income	\$ 25.6	\$ 17.5	47%	\$ 45.4	\$ 25.9	75%
Diluted net income per share	\$ 0.75	\$ 0.53	42%	\$ 1.34	\$ 0.79	70%

Reported net income for the second quarter 2010 was \$25.6 million, or \$0.75 per diluted share, compared to \$17.5 million or \$0.53 per diluted share for the second quarter 2009. Year-to-date 2010 reported net income was \$45.4 million, or \$1.34 per diluted share, compared to \$25.9 million or \$0.79 per diluted share for the 2009 period. The increase for the 2010 second quarter and year-to-date periods is primarily due to higher sales volume and higher gross margins.

Weighted Average Shares Outstanding

The weighted average diluted shares outstanding for the second quarter ended June 30, 2010 of 34.2 million shares is four percent higher compared to the same period in 2009. For the year-to-date 2010 period, the weighted average diluted shares outstanding of 34.0 million shares is up four percent compared to the same period in 2009. The increase for both periods is due principally to the issuances of shares under employee compensation plans and the higher dilutive effect of stock options outstanding due to a higher stock price in 2010.

Cash Dividends

Polaris paid a \$0.40 per share dividend on May 17, 2010 to shareholders of record on May 3, 2010. On July 22, 2010, the Polaris Board of Directors declared a regular cash dividend of \$0.40 per share payable on or about August 16, 2010 to holders of record of such shares at the close of business on August 2, 2010.

Manufacturing Realignment:

During May 2010 the company announced that it was realigning its manufacturing operations. The realignment will consolidate manufacturing operations into existing facilities in Roseau, MN and Spirit Lake, IA as well as establish a new facility in Mexico. The realignment will lead to the sale or closure of the Osceola, WI manufacturing operation by 2012. The Company expects to record pretax transition charges, including both exit costs and startup costs, to its income statement in the range of \$20.0 million to \$25.0 million and incur capital expenditures up to \$35.0 million over the next few years related to the implementation of the manufacturing realignment. The Company expects to realize savings in excess of \$30.0 million annually when the transition is completed. The exit costs and startup costs pertaining to the realignment for the full year 2010 are expected to be in the range of a

Table of Contents

total of \$8.0 to \$10.0 million. During the year-to-date period ended June 30, 2010, \$1.0 million of exit costs and \$1.0 million of startup costs were incurred, the vast majority of which are reflected in cost of sales on the income statement.

Liquidity and Capital Resources

Polaris primary sources of funds have been cash provided by operating activities and borrowings under its credit arrangements. Polaris primary uses of funds have been for repayments under the credit agreement, repurchase and retirement of common stock, capital investments, cash dividends to shareholders and new product development. The following chart summarizes the cash flows from operating, investing and financing activities for the six months ended June 30, 2010 (\$ in millions):

	For the Six Months Ended June 30,		
	2010	2009	Change
Total cash provided by (used for):			
Operating activities	\$ 57.0	\$ (8.7)	65.7
Investing activities	(11.7)	(14.9)	3.2
Financing activities	(19.3)	26.5	(45.8)
Increase/(Decrease) in cash and cash equivalents	\$ 26.0	\$ 2.9	\$ 23.1

Net cash provided by operating activities totaled \$57.0 million for the six months ended June 30, 2010, compared to \$8.7 million of cash used in the same period of 2009. The \$65.7 million increase in net cash provided by operating activities for the six months ended June 30, 2010 compared to the same period in 2009 is primarily due to a \$19.5 million increase in net income and the following changes in working capital:

Trade receivables: Trade receivables were a use of cash totaling \$6.2 million for the six months ended June 30, 2010 compared to a source of cash totaling \$44.6 million in the same period of 2009. The decrease in cash provided of \$50.8 million was due to the timing of collections of the trade receivables and higher international sales in the first six months of 2010 compared to the first six months of 2009.

Inventories: Inventories were a use of cash for the six months ended June 30, 2010 of \$43.3 million compared to a source of cash of \$2.7 million in the same period of 2009. The decrease in the net use of cash of \$46.0 million was due to higher factory inventory levels to support higher sales volumes.

Accounts payable: Accounts payable were a source of cash totaling \$26.4 million for the six months ended June 30, 2010 compared to a use of cash of \$58.7 million in the same period of 2009. The decrease in cash used of \$85.1 million resulted from the timing of payments made for accounts payable as production increased during the first six months of 2010 compared to the same period last year.

Accrued expenses: Accrued expenses were a use of cash for the six months ended June 30, 2010 totaling \$4.7 million compared to cash used totaling \$74.5 million in the same period of 2009. The decrease in the net cash used of \$69.8 million resulted primarily from higher provisioning primarily for incentive compensation plans due in part to the improved profitability in the first six months of 2010.

Investing activities:

Net cash used for investing activities was \$11.7 million for the six months ended June 30, 2010 compared to cash used of \$14.9 million for the same period in 2009. The primary use of cash for the first six months of 2010 and 2009 was the investment of \$20.9 million and \$25.2 million, respectively, for the purchase of property and equipment, including new product tooling.

Financing activities:

Net cash used for financing activities was \$19.3 million for the first six months of 2010 compared to \$26.5 million of net cash provided from financing activities in the same period in 2009. The Company had no borrowings under the

credit agreement in the first six months of 2010, and borrowed net cash of \$50.0 million through the first six months of 2009. The Company paid cash dividends of \$26.3 million and \$25.0 million through the second quarter of 2010 and 2009, respectively. Common stock repurchased for the first six months of 2010 and 2009 totaled \$27.4 million and \$0.3 million, respectively.

Table of Contents

The seasonality of production and shipments causes working capital requirements to fluctuate during the year. Polaris is party to an unsecured bank variable interest rate lending agreement that matures on December 2, 2011, comprised of a \$250 million revolving loan facility for working capital needs and a \$200 million term loan. The \$200 million term loan was utilized in its entirety in December 2006 principally to fund an accelerated share repurchase transaction. Borrowings under the agreement bear interest based on LIBOR or prime rates (effective rate was 0.83 percent at June 30, 2010). At June 30, 2010, Polaris had total outstanding borrowings under the agreement of \$200.0 million. The Company's debt to total capital ratio was 45 percent and 63 percent at June 30, 2010 and 2009, respectively. Polaris has entered into the following interest rate swap agreements to manage exposures to fluctuations in interest rates by fixing the LIBOR interest rate as follows:

Year Swap Entered into	Fixed Rate (LIBOR)	Notional Amount	Expiration Date
2008	2.69%	\$25,000,000	October 2010
2009	1.34%	\$25,000,000	April 2011
2009	0.64%	\$25,000,000	October 2010
2009	0.98%	\$25,000,000	April 2011

Each of these interest rate swaps were designated as and met the criteria of cash flow hedges. The fair value of the swaps on June 30, 2010 was a liability of \$.4 million.

Additionally, at June 30, 2010, Polaris had letters of credit outstanding of \$4.4 million related to purchase obligations for raw materials.

The Polaris Board of Directors has authorized the cumulative repurchase of up to 37.5 million shares of the Company's common stock. Of that total, approximately 34.4 million shares have been repurchased cumulatively from 1996 through June 30, 2010. Polaris repurchased \$27.4 million of stock related to employee stock plan exercises in the first six months of 2010. There were no open market share repurchases during the first six months of 2010. The Company has authorization from its Board of Directors to repurchase up to an additional 3.1 million shares of Polaris stock as of June 30, 2010; however, the Company will continue to take a prudent and conservative approach to the stock repurchase program in 2010 until more clarity emerges for the longer term economic outlook. The repurchase of any or all such shares authorized remaining for repurchase will be governed by applicable SEC rules.

Management believes that existing cash balances and bank borrowings, cash flow to be generated from operating activities and available borrowing capacity under the line of credit arrangement will be sufficient to fund operations, regular dividends, share repurchases, and capital requirements for the foreseeable future. At this time, management is not aware of any adverse factors that would have a material impact on cash flow.

In 1996, a wholly owned subsidiary of Polaris entered into a partnership agreement with an entity that is now a subsidiary of GE Commercial Distribution Finance Corporation (GECDF) to form Polaris Acceptance. Polaris Acceptance provides floor plan financing to Polaris dealers in the United States. Polaris subsidiary has a 50 percent equity interest in Polaris Acceptance. In November 2006, Polaris Acceptance sold a majority of its receivable portfolio (the Securitized Receivables) to a securitization facility (Securitization Facility) arranged by General Electric Capital Corporation, a GECDF affiliate, and the partnership agreement was amended to provide that Polaris Acceptance would continue to sell portions of its receivable portfolio to the Securitization Facility from time to time on an ongoing basis. The sale of receivables from Polaris Acceptance to the Securitization Facility is accounted for in Polaris Acceptance's financial statements as a true-sale under ASC Topic 860, (originally issued as SFAS No. 140 Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities). Polaris Acceptance is not responsible for any continuing servicing costs or obligations with respect to the Securitized Receivables. The remaining portion of the receivable portfolio is recorded on Polaris Acceptance's books, and is funded to the extent of 85 percent through a loan from an affiliate of GECDF.

Polaris has not guaranteed the outstanding indebtedness of Polaris Acceptance or the Securitized Receivables. In addition, the two partners of Polaris Acceptance share equally an equity cash investment equal to 15 percent of the sum of the portfolio balance in Polaris Acceptance plus the Securitized Receivables. Polaris total investment in Polaris Acceptance at June 30, 2010 was \$31.9

Table of Contents

million. Substantially all of Polaris' U.S. sales are financed through Polaris Acceptance and the Securitization Facility whereby Polaris receives payment within a few days of shipment of the product. The partnership agreement provides that all income and losses of the Polaris Acceptance portfolio and income and losses realized by GECDF's affiliates with respect to the Securitized Receivables are shared 50 percent by Polaris' wholly-owned subsidiary and 50 percent by GECDF's subsidiary. Polaris' exposure to losses associated with respect to the Polaris Acceptance Portfolio and the Securitized Receivables is limited to its equity in its wholly-owned subsidiary that is a partner in Polaris Acceptance. Polaris has agreed to repurchase products repossessed by Polaris Acceptance or the Securitization Facility up to an annual maximum of 15 percent of the aggregate average month-end balances outstanding during the prior calendar year with respect to receivables retained by Polaris Acceptance and Securitized Receivables. For calendar year 2010, the potential 15 percent aggregate repurchase obligation is approximately \$89.3 million. Polaris' financial exposure under this arrangement is limited to the difference between the amount paid to the finance company for repurchases and the amount received on the resale of the repossessed product. No material losses have been incurred under this agreement.

Polaris' investment in Polaris Acceptance is accounted for under the equity method, and is recorded as Investments in finance affiliate in the accompanying consolidated balance sheets. Polaris' allocable share of the income of Polaris Acceptance and the Securitized Receivables has been included as a component of Income from financial services in the accompanying consolidated statements of income. At June 30, 2010, Polaris Acceptance's wholesale portfolio receivables from dealers in the United States (including the Securitized Receivables) was \$425.4 million, a 26 percent decrease from \$574.0 million at June 30, 2009. Credit losses in the Polaris Acceptance portfolio have been modest, averaging less than one percent of the portfolio.

In April 2006, a wholly owned subsidiary of Polaris entered into a multi-year contract with GE Money Bank (GE Bank) under which GE Bank currently makes available closed-end installment consumer and commercial credit to customers of Polaris dealers for Polaris products.

In January 2009, a wholly owned subsidiary of Polaris entered into a multi-year contract with Sheffield Financial (Sheffield) pursuant to which Sheffield agreed to make available closed-end installment consumer and commercial credit to customers of Polaris dealers for Polaris products in the United States.

In August 2005, a wholly owned subsidiary of Polaris entered into a multi-year contract with HSBC under which HSBC manages the Polaris private label revolving credit card program under the StarCard label which makes available revolving consumer credit to customer of Polaris dealers for Polaris products. Polaris currently has no credit, interest rate or funding risk under the agreement and Polaris no longer receives any fee income. During the 2010 second quarter Polaris and HSBC extended the term of the agreement on similar terms to October 31, 2013.

Polaris owns approximately 0.34 million shares of KTM stock, representing less than 5 percent of KTM's outstanding shares. The KTM investment has a fair value equal to the trading price of KTM shares on the Vienna stock exchange, (19.00 Euros as of June 30, 2010). The total fair value of these securities as of June 30, 2010 was \$8.0 million. During the second quarter 2010, the Company determined that the decline in the fair value of the KTM shares owned by the Company as of June 30, 2010 was other than temporary and therefore recorded in the income statement a non-cash impairment charge on securities held for sale of \$0.8 million. During the first quarter 2009, the Company determined that the decline in the fair value of the KTM shares owned by the Company as of March 31, 2009 was other than temporary and therefore recorded in the income statement a non-cash impairment charge on securities held for sale of \$9.0 million.

Inflation and Foreign Exchange Rates

Commodity inflation has had an impact on the results of Polaris' recent operations. The changing relationships of the U.S. dollar to the Japanese yen, the Canadian dollar, the Euro and other foreign currencies have also had a material impact from time to time.

During calendar year 2009, purchases totaling seven percent of Polaris' cost of sales were from yen-denominated suppliers. Polaris' cost of sales in the second quarter and year-to-date periods ended June 30, 2010 were negatively impacted by the Japanese yen-U.S. dollar exchange rate fluctuation when compared to the same periods in 2009. At June 30, 2010 Polaris had no Japanese yen foreign exchange hedging contracts in place. In view of current exchange rates and the foreign exchange hedging contracts currently in place, Polaris anticipates that the Japanese yen-U.S.

dollar exchange rate will have a negative impact on cost of sales for the second half of 2010 when compared to the prior year period.

Polaris operates in Canada through a wholly owned subsidiary. The strengthening of the U.S. dollar in relation to the Canadian dollar has resulted in higher sales and gross margin levels in the second quarter and year-to-date periods ended June 30, 2010 when

Table of Contents

compared to the same periods in 2009. At June 30, 2010, Polaris had open Canadian dollar foreign exchange hedging contracts in place through 2010 with notional amounts totaling \$95.8 million with an average exchange rate of approximately 0.97 U.S. dollar to Canadian dollar. In view of current exchange rates and the foreign exchange hedging contracts currently in place, Polaris anticipates that the Canadian dollar-U.S. dollar exchange rate will have a positive impact on sales and net income for the second half of 2010 when compared to the same period in the prior year.

Polaris operates in various countries, principally in Europe, through wholly owned subsidiaries and also sells to certain distributors in other countries and purchases components from certain suppliers directly for its U.S. operations in transactions denominated in Euros and other foreign currencies. The fluctuation of the U.S. dollar in relation to the Euro has resulted in an approximately neutral impact on gross margins for the second quarter and year-to-date periods of 2010 when compared to the same periods in 2009. Polaris had no foreign exchange hedging contracts in place for the Euro, the Norwegian krone or the Swedish krona as of June 30, 2010. Polaris had open Australian Dollar foreign exchange hedging contracts in place through December 2010 with notional amounts totaling \$2.0 million with an average exchange rate of approximately .88 U.S. dollar to the Australian Dollar. In view of the current exchange rates and the foreign exchange hedging contracts currently in place, Polaris anticipates that the exchange rates for other foreign currencies will have a slightly negative impact on sales and net income for the remainder of 2010 when compared to the same periods in the prior year.

The assets and liabilities in all Polaris foreign entities are translated at the foreign exchange rate in effect at the balance sheet date. Translation gains and losses are reflected as a component of Accumulated other comprehensive income (loss), net in the Shareholders' Equity section of the accompanying consolidated balance sheets. Revenues and expenses in all Polaris foreign entities are translated at the average foreign exchange rate in effect for each month of the quarter.

Polaris is subject to market risk from fluctuating market prices of certain purchased commodities and raw materials including steel, aluminum, diesel fuel, natural gas, and petroleum-based resins. In addition, the Company is a purchaser of components and parts containing various commodities, including steel, aluminum, rubber and others, which are integrated into the Company's end products. While such materials are typically available from numerous suppliers, commodity raw materials are subject to price fluctuations. The Company generally buys these commodities and components based upon market prices that are established with the vendor as part of the purchase process and from time to time will enter into derivative contracts to hedge a portion of the exposure to commodity risk. At June 30, 2010, there were derivative contracts in place to hedge a portion of the Company's aluminum exposures through June 2011 and diesel fuel exposures through December 2010. Based on Polaris' current outlook for commodity prices, the total impact of commodities is expected to have a negative impact on the gross margins for the remainder of 2010 when compared to the same periods in the prior year.

Adoption of New Accounting Policies

See Polaris' most recent Annual Report on Form 10-K for the year ended December 31, 2009 for a discussion of its critical accounting policies.

In December 2009, the FASB issued ASU No. 2009-17, *Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*, which amends ASC 810, Consolidation (FASB Statement No. 167, Amendments to FASB Interpretation No. 46(R)). ASU 2009-17 requires the enterprise to qualitatively assess if it is the primary beneficiary of a variable-interest entity (VIE), and, if so, the VIE must be consolidated. The ASU also requires additional disclosures about an enterprise's involvement in a VIE. ASU 2009-17 was effective for the Company beginning with its quarter ended March 31, 2010. The impact of adopting the new guidance was not material to the Company.

In December 2009, the FASB issued ASC Topic 860, *Transfers and Servicing: Accounting for Transfers of Financial Assets*. This Accounting Standards Update amends the FASB Accounting Standards Codification for Statement 166, *Accounting for Transfers of Financial Assets - an amendment of FASB Statement No. 140*). ASC 860 provides guidance on how to account for transfers of financial assets including establishing conditions for reporting transfers of a portion of a financial asset as opposed to an entire asset and requires enhanced disclosures about a transferor's continuing involvement with transfers. The impact of adoption of this topic was not material to the Company.

In January 2010, the FASB issued ASU 2010-06, Improving Disclosure about Fair Value Measurements. ASU 2010-06 revises two disclosure requirements concerning fair value measurements and clarifies two others. It requires separate presentation of significant transfers into and out of Levels 1 and 2 of the fair value hierarchy and disclosure of the reasons for such transfers. It also requires the presentation of purchases, sales, issuances and settlements within Level 3 on a gross basis rather than a net basis.

Table of Contents

The amendments also clarify that disclosures should be disaggregated by class of asset or liability and that disclosures about inputs and valuation techniques should be provided for both recurring and non-recurring fair value measurements. The ASU is effective for interim and annual reporting periods beginning after December 15, 2009, except for certain Level 3 activity disclosure requirements that will be effective for reporting periods beginning after December 15, 2010. The Company has included the additional disclosure required by ASU 2010-06 in its footnotes for the quarters beginning with the 2010 first quarter.

Note Regarding Forward Looking Statements

Certain matters discussed in this report are forward-looking statements intended to qualify for the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements including but not limited to the Company's expectations regarding its manufacturing realignment, the Company's expectations regarding its share repurchase program, management's belief in the sufficiency of existing liquidity to fund future obligations, the impact of foreign exchange rate movements on sales and net income, and commodity price changes on gross margins, can generally be identified as such because the context of the statement will include words such as the Company or management believes, anticipates, expects, estimates or words of similar import. Similarly, statements that describe the Company's future plans, objectives or goals are also forward-looking. Forward-looking statements may also be made from time to time in oral presentations, including telephone, conferences and/or webcasts open to the public. Shareholders, potential investors and others are cautioned that all forward-looking statements involve risks and uncertainties that could cause results in future periods to differ materially from those anticipated by some of the statements made in this report, including the risks and uncertainties described under the heading entitled "Item 1A-Risk Factors" appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2009 and other periodic reports. In addition to the factors discussed above, among the other factors that could cause actual results to differ materially are the following: product offerings, promotional activities and pricing strategies by competitors; future conduct of litigation processes; warranty expenses; foreign currency exchange rate fluctuations; effects of the KTM relationship and related agreements; commodity and transportation costs; implementation of manufacturing realignment initiatives, environmental and product safety regulatory activity; effects of weather; uninsured product liability claims; uncertainty in the retail and wholesale credit markets and relationships with HSBC, GE and Sheffield Financial; changes in tax policy; and overall economic conditions, including inflation and consumer confidence and spending. The Company does not undertake any duty to any person to provide updates to its forward-looking statements.

Item 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2009 for a complete discussion on the Company's market risk. There have been no material changes in market risk from those disclosed in the Company's Form 10-K for the year ended December 31, 2009.

Item 4

CONTROLS AND PROCEDURES

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and its Vice President-Finance and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15) as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this Quarterly Report on Form 10-Q the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure. There have been no changes in the Company's internal control over financial reporting during the period covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1 Legal Proceedings

As we reported in our quarterly report for first quarter 2010, on November 13, 2009, Erik Braswell and Josh Alexander (Plaintiffs) sued Polaris in Colorado State District Court in Garfield County, Colorado for breach of warranty and other claims of certain of our snowmobile products and seek certification of a class. Plaintiffs were seeking consequential and incidental damages, a refund of their purchase price, attorneys' fees, and other legal and equitable relief. Please refer to our Form 10-Q for first quarter 2010 for details of the proceeding. On April 20, 2010, Polaris and Plaintiffs reached a Confidential Settlement Agreement and Release on confidential terms that are acceptable to all parties. The action was dismissed with prejudice pursuant to the terms of the Confidential Settlement Agreement and Release on April 27, 2010. No class was or will be certified in connection with the settlement, and the terms of the settlement will not have a material impact on Polaris' financial status.

Item 1A Risk Factors

In addition to the risk factor set forth below and the other information set forth in this report, please consider the factors discussed in Part I, Item 1A. Risk Factors in Polaris' fiscal year 2009 Annual Report filed on Form 10-K, which could materially affect the Company's business, financial condition, or future results.

The Company may encounter difficulties in the manufacturing realignment initiatives, which could adversely affect its operating results or financial condition.

Polaris announced its plans to realign its operations footprint by creating manufacturing centers of excellence to enhance its Roseau, Minnesota and Spirit Lake, Iowa production facilities and establish a new facility in Mexico. The realignment will lead to the eventual sale or closure of our Osceola, Wisconsin facility over time. There are significant risks inherent in the realignment initiatives. Such actions may not be accomplished as quickly as anticipated and the expected cost reductions may not fully materialize. As disclosed in this report, Polaris is incurring substantial costs in connection with the realignment efforts, including severance obligations, moving costs, advisor fees and lease obligations. Even though Polaris anticipates that the realignment will ultimately result in reduced transportation and logistical expenses and increased operational efficiencies, the Company gives no assurance that it will be successful in implementing the realignment efforts. Other risks and uncertainties in connection with the realignment initiatives include, but are not limited to, failing to ensure that there is no decrease in product quality as a result of shifting capacity; adequate raw material and other service providers are available to meet the needs at the new production location; equipment can be successfully removed, transported and re-installed; and adequate supervisory, production and support personnel are available to accommodate the shifted production. In the event the manufacturing realignment initiatives are not successfully implemented, Polaris may not recoup its investment, and it could experience lost future sales and increased operating costs as well as customer relations problems, which could have a material adverse effect on its results of operations.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares That May Yet Be Purchased Under the Program (1)
April 1 - 30, 2010	0	0	0	3,124,000
May 1 - 31, 2010	4,000	57.70	4,000	3,120,000
June 1 - 30, 2010	0	0	0	3,120,000

Total	4,000	57.70	4,000	3,120,000
-------	-------	-------	-------	-----------

(1) Polaris Board of Directors has approved the repurchase of up to an aggregate of 37.5 million shares of the Company's common stock pursuant to the share repurchase program (the Program) of which 34.4 million shares have been repurchased through June 30, 2010. This Program does not have an expiration date.

Exhibit 31.b	Certification of Chief Financial Officer Section 302
Exhibit 32.a	Certification of Chief Executive Officer Section 906
Exhibit 32.b	Certification of Chief Financial Officer Section 906
Exhibit 101	The following financial information from Polaris Industries Inc.'s Quarterly Report on Form 10-Q for the period ended June 30, 2010, filed with the SEC on August 5, 2010, formatted in Extensible Business Reporting Language (XBRL): (i) the Consolidated Balance Sheets at June 30, 2010 and December 31, 2009, (ii) the Consolidated Statements of Income for the three and six month periods ended June 30, 2010 and 2009, (iii) the Consolidated Statements of Cash Flows for the six month periods ended June 30, 2010 and 2009, and (iv) Notes to Consolidated Financial Statements (tagged as blocks of text).*

* Pursuant to Rule 406T of Regulation S-T, the XBRL related information in Exhibit 101 to this Quarterly Report on Form 10-Q shall not be deemed to be filed for purposes of Section 18 of the Exchange Act, or otherwise subject to the liability of that section, and shall not be deemed part of a registration statement, prospectus or other document filed under the Securities Act or

the Exchange
Act, except as
shall be
expressly set
forth by specific
reference in
such filings.
