CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

1. Ownership and Organization

Cumberland Technologies, Inc. ("CTI" or "the Company") f/k/a Cumberland Holdings, Inc., a Florida Corporation, was formed on November 18, 1991, to be a Holding Company and a wholly-owned subsidiary of Kimmins Corp. ("KC"). Effective October 1, 1992, KC contributed all of the outstanding common stock of two of its other wholly-owned subsidiaries, Cumberland Casualty & Surety Company ("CCS") and Surety Specialists, Inc. ("SSI") to CTI. KC then distributed to its stockholders CTI's common stock on the basis of one share of common stock of CTI for each five shares of KC common stock and Class B common stock owned (the "Distribution".) Effective January 30, 1997, Cumberland Holdings, Inc. changed its name to Cumberland Technologies, Inc. CTI conducts its business through five wholly-owned subsidiaries. CCS, a Florida corporation formed in May 1988, provides underwriting for specialty surety and performance and payment bonds for contractors. The surety services provided include direct surety and to a lesser extent, assumed reinsurance. SSI, a Florida corporation formed in August 1988, is a general lines agency which operates as an independent agent. Surety Group ("SG"), a Georgia corporation, and Associates Acquisition Corp. d/b/a Surety Associates ("SA"), a South Carolina corporation, purchased in February and July 1995, respectively, are general lines agencies which operate as independent agencies. Qualex Consulting Group, Inc. ("Qualex"), a Florida corporation formed in November 1994, provides claim and contracting consulting services.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of CTI and its wholly-owned subsidiaries. All material intercompany transactions and balances have been eliminated in consolidation.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for three months ended March 31, 2002 are not necessarily indicative of the results that may be expected for any future quarters or

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

the year ending December 31, 2002. For further information, refer to consolidated financial statements as of and for the years ended December 31, 2001 and 2000, included in the Company's Form 10-K for the year ended December 31, 2001 as filed with the United States Securities and Exchange Commission on March 31, 2002.

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

2. Summary of Significant Accounting Policies (continued)

Investments

The Company accounts for marketable securities in accordance with Statement No. 115, Accounting for Certain Investments in Debt and Equity Securities.

Debt securities that the Company has both the positive intent and ability to hold to maturity are classified as "held-to-maturity" securities and are reported at amortized cost. The amortized cost of debt securities is adjusted for amortization of premiums and accretion of discounts from the date of purchase to maturity. Such amortization and accretion, which is calculated under the interest method, is included in investment income.

Marketable equity securities and debt securities not classified as "held-to-maturity" or "trading" are classified as "available-for-sale." Available-for-sale securities are reported at estimated fair value, with the unrealized gains and losses, net of any related income taxes, reported as a separate component of stockholders' equity and of other comprehensive income (loss). Realized gains and losses and declines in value judged to be other-than-temporary are included in income. The cost of securities sold is based on the specific identification method. Interest and dividends on securities are included in investment income.

Short-term investments primarily include certificates of deposit having maturities of more than three months when purchased. These investments are reported at cost, which approximates fair value.

Cash Equivalents

The Company considers all highly liquid investments having a maturity of three months or less when purchased to be cash equivalents.

Deferred Policy Acquisition Costs

To the extent recoverable from future policy revenues, the costs of acquiring new surety business, principally commissions, are deferred and amortized in a manner which charges each year's operations in direct proportion to the premium revenue recognized.

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

2. Summary of Significant Accounting Policies (continued)

Intangibles

Intangible assets are stated at cost and principally represent purchased customer accounts and the excess of costs over the fair value of identifiable net assets acquired ("Goodwill"). Purchased customer accounts, noncompete agreements, and purchased contract agreements are being amortized on a straight-line basis over the related estimated lives and contract periods, which range from 3 to 15 years. Goodwill was being amortized on a straight-line basis over 15 years. Purchased customer accounts are records and files obtained from acquired businesses that contain information on insurance policies and the related insured parties that is essential to policy renewals.

The carrying value of Goodwill and other intangible assets will be reviewed if circumstances suggest that they may be impaired. If this review indicates that the intangible assets will not be recoverable, as determined based on the fair value of the entity acquired over the remaining amortization period, the Company's carrying value of the Goodwill and intangibles is reduced to fair value. The amount of Goodwill impairment, if any, is measured based on projected discounted future results using a discount rate reflecting the Company's average cost of funds.

In accordance with Statement of Financial Accounting Standard 121 ("SFAS 121"), Goodwill and other long-lived assets that were capitalized in conjunction with the purchase of Associates Acquisition Corp., d/b/a Surety Associates were deemed impaired as of December 31, 2001 and an asset impairment charge of \$437,418 was recorded.

Loss and Loss Adjustment Expenses

The liability for loss and loss adjustment expenses including incurred but not reported losses is based on the estimated ultimate cost of settling the claim using traditional paid and incurred loss development methods. These estimates are subject to the effects of trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management believes that the liabilities for loss and loss adjustment expenses are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known. Such adjustments are included in current operations. A liability for all costs expected to be incurred in connection with the settlement of unpaid loss and loss adjustment expenses are accrued when the related liability for unpaid losses is accrued. Loss adjustment expenses include costs associated directly with specific claims paid or in the process of settlement, such as legal and adjusters' fees. Loss adjustment expenses also include other costs that cannot be associated with specific claims but are related to

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

losses paid or in the process of settlement, such as internal costs of the claims function.

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

2. Summary of Significant Accounting Policies (continued)

The Company does not discount its reserves for losses and loss adjustment expenses. The Company writes primarily surety contracts which are of short duration.

The Company does not consider investment income in determining if a premium deficiency relating to short duration contracts exists.

Unearned Premiums

Unearned premiums are deferred and amortized on a pro-rata basis.

Reinsurance

The Company assumes and cedes reinsurance and participates in various pools. The accompanying consolidated financial statements reflect premiums, benefits and settlement expenses, and deferred policy acquisition costs, net of reinsurance ceded. Amounts recoverable from reinsurers for unpaid losses are estimated in a manner consistent with the claim liability associated with the reinsured policies.

Revenue Recognition

Premiums earned on direct insurance and assumed reinsurance are recognized on a pro-rata basis over the period of risk. Commission income, which is earned on ceded premiums and premiums written for other third party insurance carriers, is recognized at the effective date of the bonds issued. Other income, consisting primarily of consulting fees, is recognized when the negotiated services are provided.

Stock-Based Compensation

The Company has adopted only the pro forma disclosure provisions of Statement No. 123, Accounting for Stock-Based Compensation ("SFAS No. 123"). SFAS No. 123 encourages, but does not require companies to record at fair value compensation cost for stock-based employee compensation plans. The Company accounts for equity-based compensation arrangements in accordance with the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. Intrinsic value is the amount by which the market price of the underlying stock exceeds the exercise price of the stock option or award on the measurement date, generally the date of grant.

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

2. Summary of Significant Accounting Policies (continued)

Income Taxes

Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company has recorded a deferred income tax asset of \$562,184 and \$499,145 at March 31, 2002 and December 31, 2001, respectively. Realization of the asset is dependent on generating sufficient taxable income in future years. Although realization is not assured, management believes it is more likely than not that all of the deferred income tax asset will be realized.

The Company files a consolidated tax return that includes all of its subsidiaries.

Earnings Per Share

The Company computes and discloses earnings (loss) per share in accordance with the provisions of Statement of Financial Accounting Standards No. 128, Earnings Per Share. The inclusion of 54,700 and 45,300 outstanding stock options at March 31, 2002 and 2001, respectively, resulted in diluted earnings per share that was the same as basic earnings per share.

Business Concentration

The majority of the Company's business relates to surety and performance bonds for contractors. Accordingly, the occurrence of adverse economic conditions in the contracting business could have a material adverse effect on the Company's business although no such conditions have been encountered in the past. The Company only requires collateral from surety bond customers if the customer meets between 80 percent to 99 percent of the Company's underwriting criteria. Customers that fail to meet at least 80 percent of the requirements are denied surety bonding.

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

amounts reported in the consolidated financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known which would affect the amounts reported and disclosed herein.

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

2. Summary of Significant Accounting Policies (continued)

New Accounting Standards

In July 2001, Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations" was approved by the Financial Accounting Standards Board (FASB). SFAS No.141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001.

In August 2001, the FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations ("SFAS 143"). SFAS 143 provides accounting and reporting standards related to obligations associated with the retirement of tangible long-lived assets. SFAS 143 is effective on January 1, 2003, however, earlier application is encouraged. The Company has not evaluated the effect, if any, that the adoption of SFAS 143 will have on the Company's consolidated financial statements.

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets ("SFAS 144"). SFAS 144 provides accounting and reporting standards for the impairment or disposal of long-lived assets. SFAS 144 supersedes SFAS 121 but retains SFAS 121's fundamental provisions for (a) recognition/measurement of impairment of long-lived assets to be held and used and (b) measurement of long-lived assets to be disposed of by sale. SFAS 144 also supersedes the accounting/reporting provisions of Accounting Principles Board Opinion No. 30 ("APB 30") for segments of a business to be disposed of but retains APB 30's requirement to report discontinued operations separately from continuing operations and extends that reporting to a component of an entity that either has been disposed of or is classified as held for sale. SFAS 144 is effective January 1, 2002. The Company adopted SFAS 144 effective January 1, 2002, and the adoption of this statement had no impact on the financial condition, results of operations, or cash flows of the Company.

Reclassifications

Certain amounts in the 2001 consolidated financial statements have been reclassified to conform to the 2002 consolidated financial statement presentation.

3. Related Party Transactions

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

In 1988, CCS issued a surplus debenture to KC in exchange for \$3,000,000 which bears interest at 10 percent per annum. Interest and principal payments are subject to approval by the Florida Department of Insurance. On April 1, 1997, CTI forgave \$375,000 of its \$3,000,000 surplus debenture due to CCS. As a result, CCS increased paid in capital by \$375,000. On June 30, 1999, CTI forgave \$576,266 of its \$2,625,000 surplus debenture due from CCS. As a result, CCS increased paid-in capital to \$1,000,000. As of March 31, 2002 and December 31, 2001, no payments could be made under the terms of the debenture.

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

3. Related Party Transactions (continued)

On March 8, 2002, Cumberland purchased a residential mortgage from Francis M. Williams. Mr. Williams is Chairman of the Board of the Company. The principal balance on the loan was \$36,906. Interest accrued through the date of sale was \$129 at an annual interest rate of 7.5%. No prior liens exist related to taxes, assessments or other similar charges.

4. Investments

The components of unrealized (depreciation) appreciation of investments recorded in stockholders' equity are as follows:

	March 31, 2002	December 31, 2001
Fixed maturities, net of income tax	\$(8,254)	\$70,729
	=====	

5. Income Taxes

The Company's provision for income taxes for the quarters ended March 31, 2002 and 2001 has been calculated using an effective rate of approximately 34%.

6. Debt

Affiliate

Effective November 10, 1998, CTI entered into a \$1,000,000 convertible term note agreement with TransCor Waste Services, Inc., a subsidiary of KC. The note is due November 10, 2002 and bears interest equal to one half of one percent per annum in excess of the stated interest rate established by the Bank of America. On December 26, 2001, the Company made a principal note payment of \$395,495 reducing the note to \$604,055. The lender may convert

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

the principal amount of the note or a portion thereof into common stock at \$3.00 per share subsequent to a six-month anniversary and prior to the maturity date.

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

6. Debt (continued)

Nonaffiliate

In connection with the acquisition of certain agencies during 1995, the Company entered into two notes payable with the agencies' previous owners. One note is due March 1, 2002 and bears interest at 8% through February 28, 2001 and 10% thereafter. Principal payments of \$125,000 are due annually beginning March 1, 2000. The other note is due June 30, 2010 and bears interest 9%. Principal payments of \$40,000 were due annually for three years beginning January 5, 1996. Payments of \$11,104 including principal and interest were paid monthly from April 1, 1997 through March 31, 2001. On December 3, 2001, SA reached an agreement with the holder on this note payable, whereby the terms of the note were modified, such that the effective interest rate was 6%, and principal payments became payable at \$6,000 per month. On March 1, 2002, a final payment of \$125,000 was made on the note due March 1, 2002.

7. Intangibles

As of January 1, 2002, the Company adopted SFAS No. 142, "Goodwill and Other Intangible Assets," which addresses the financial accounting and reporting standards for the acquisition of intangible assets outside of a business combination and for goodwill and other intangible assets subsequent to their acquisition. This accounting standard requires that goodwill be separately disclosed from other intangible assets in the statement of financial position, and no longer be amortized but tested for impairment on a periodic basis. The provisions of this accounting standard also require the completion of a transitional impairment test within six months of adoption, with any impairments identified treated as a cumulative effect of a change in accounting principle.

In accordance with SFAS No. 142, the Company discontinued the amortization of goodwill effective January 1, 2002. A reconciliation of previously reported net income and earnings per share to the amounts adjusted for the exclusion of goodwill amortization net of the related income tax effect follows:

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

MARCH 31, 2002 (UNAUDITED)

7. Intangibles (continued)

	Three Months Ended March 31,	
	2002	2001
Reported net earnings	\$ (265,722)	\$ 222,017
Add: Goodwill amortization, net of tax ...	--	13,953
Adjusted net earnings	\$ (265,722)	\$ 235,970
Basic earnings per common share:		
Reported net earnings	\$ (0.05)	\$ 0.04
Goodwill amortization, net of tax	--	--
Adjusted net earnings	\$ (0.05)	\$ 0.04
Diluted earnings per common share:		
Reported tax earnings	\$ (0.05)	\$ 0.04
Goodwill amortization, net of tax	--	--
Adjusted net earnings	\$ (0.05)	\$ 0.04

The Company will complete and report the results of the transitional impairment tests in the Company's June 30, 2002 financial statements.

Intangible assets are stated at cost and principally represent purchased customer accounts, noncompete agreements, purchased contract agreements, and the excess of costs over the fair value of identifiable net assets acquired ("Goodwill"). Prior to the implementation of SFAS No. 142, Goodwill was amortized on a straight-line basis over 15 years. All other intangible assets are amortized on a straight-line basis over the related estimated lives and contract periods, which range from 3 to 15 years. Purchased customer accounts are records and files obtained from acquired businesses that contain information on insurance policies and the related insured parties that is essential to policy renewals.

The carrying value of Goodwill and other intangible assets are reviewed periodically for impairment. If this review indicates that the intangible assets will not be recoverable, as determined based on the fair value of the entity acquired over the remaining amortization period, the Company's carrying value of the Goodwill and other intangible assets will be reduced by the estimated shortfall of cash flows.

In accordance with Statement of Financial Accounting Standard 121 ("SFAS 121"), Goodwill and other long-lived assets that were capitalized in conjunction with the purchase of Associates Acquisition Corp., d/b/a Surety Associates were deemed impaired as of December 31, 2001 and an asset impairment charge of \$437,418 was recorded.

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

8. Reinsurance

The Company assumes and cedes reinsurance and participates in various pools. The financial statements reflect premiums, benefits and settlement expenses, and deferred policy acquisition costs, net of reinsurance ceded. Amounts recoverable from reinsurers are estimated in a manner consistent with the future policy benefit and claim liability associated with the reinsured policies.

Accounts recoverable from reinsurers for unpaid losses are presented as an asset in the accompanying consolidated financial statements.

9. Accounting for Derivative Instruments

SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities is effective for all fiscal years beginning after June 15, 2000. SFAS No. 133, as amended, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. Under SFAS No. 133, certain contracts that were not formerly considered derivatives may now meet the definition of a derivative. The Company adopted SFAS No. 133 effective January 1, 2001. The Company identified one product that meets the definition of a derivative instrument as defined in SFAS No. 133. The policy is issued to registered investment advisors ("Advisors"), and insures losses suffered by the Advisors as a result of market declines on covered investment principal, provided that the Advisors have followed the investment guidelines required by the policy. The identified derivative was formerly accounted for as an insurance contract within the policy liabilities for loss and loss adjustment expenses account in the consolidated balance sheet prior to January 1, 2001. There was no cumulative effect of change in accounting principal due to the fact that the policy liability recorded for this policy at December 31, 2000 approximated the fair value of the derivative instrument at January 1, 2001. The fair value of the derivative instrument at March 31, 2002 and December 31, 2001 is \$2,024,654 and \$1,978,891, respectively. The Company is not involved in any hedging activities. At March 31, 2002 the fair value of the derivative instrument has been determined by using a financial model that incorporates market data and other assumptions. Due to the volatility in the marketplace, the Company has suspended marketing of this product effective September 2001.

10. Statutory Accounting Practices

CCS is domiciled in Florida and prepares its statutory-basis consolidated financial statements in accordance with accounting practices prescribed or permitted by the Florida Insurance Department. "Prescribed" statutory accounting practices include state laws, regulations, and general administrative rules, as well as a variety of publications of the National Association of Insurance Commissioners ("NAIC"). "Permitted" statutory accounting practices encompass all accounting practices that are not prescribed; such practices may differ from state to state, may differ from company to company within a state, and may change in the future. In 1998, the National Association of Insurance Commissioner adopted the Codification of Statutory Accounting Principles (Codification) for insurance companies. Codification, which is intended to standardize regulatory accounting and reporting for the insurance industry, is effective January 1, 2001. The Company implemented codification at January 1, 2001. On a statutory accounting basis, CCS reported losses net of taxes of (\$518,600) for the three months ended March 31, 2002. Statutory surplus (shareholders' equity) of these operations was \$6,651,603 and \$6,503,218 as of March 31, 2002 and December 31, 2001, respectively.

11. Comprehensive Income

Comprehensive income is defined as any change in equity from transactions and other events originating from nonowner sources. In the Company's case, those changes are principally comprised of reported net income and changes in the unrealized appreciation and depreciation of the Company's available-for-sale securities. SFAS No. 130 requires that the Company report all components of comprehensive income. The following summaries present the components of comprehensive income, other than net income, for the three months ended March 31, 2002 and March 31, 2001, respectively.

	Consolidated Statements of Comprehensive Income	
	Three Months Ended March 31,	
	2002	2001
Net (loss) income	\$ (265,722)	\$ 222,017
Other comprehensive (loss) income:		
Unrealized (depreciation) of available- for-sale securities arising during period, net of income tax.....	(89,123)	(95,579)
Reclassification adjustment for losses included in net income, net of income tax	10,140	--
Comprehensive (loss) income	\$ (344,705)	\$ 126,438

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

12. Contingencies

CCS has been named in a class action lawsuit. The plaintiffs are clients of a registered investment advisor (the "Advisor") and have alleged that the Advisor, a registered broker-dealer, and certain other defendants (excluding CCS) were negligent or otherwise responsible for losses suffered by the plaintiffs resulting from embezzlement of the plaintiffs' investments by a third party. As a separate count in the lawsuit, the plaintiffs have also asserted claims against CCS based on a policy of insurance issued by CCS to the Advisor. The policy does not provide coverage for embezzlement, rather it insures losses caused by market declines, providing that the Advisor has followed the investment guidelines required by the policy. CCS denies the plaintiffs' allegations, however, it cannot predict the outcome or the impact this action could have on CCS. CCS is vigorously defending this lawsuit and intends to move for summary judgment.

CUMBERLAND TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002 (UNAUDITED)

Forward-looking Statement Disclosure

All statements, other than statements of historical facts, included or incorporated by reference in this Form 10-Q which address activities, events or developments which the Company expects or anticipates will or may occur in the future, including statements regarding the Company's competitive position, changes in business strategy or plans, the availability and price of reinsurance, the Company's ability to pass on price increases, plans to install the Bond-Pro(R) program in independent insurance agencies, the impact of insurance laws and regulation, the availability of financing, reliance on-key management personnel, ability to manage growth, the Company's expectations regarding the adequacy of current financing arrangements, product demand and market growth, and other statements regarding future plans and strategies, anticipated events or trends similar expressions concerning matters that are not historical facts are forward-looking statements. These statements are based on certain assumptions and analysis made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments as well as factors it believes are appropriate in the circumstances. However, whether actual results and developments will conform with the Company's expectations and predictions is subject to a number of risks and uncertainties which could cause actual results to differ significantly and materially from past results and from the Company's expectations. These risks and uncertainties include, but are not limited to, changes in the market value of the Company's investments, increases in the Company's liability under derivative securities, losses on claims in excess of the Company's reserves, competition in the insurance industry, inability to recover from reinsurers for unpaid losses, unanticipated losses from litigation, the effects of new or existing government regulations, and the impact of new accounting pronouncements. All of the forward-looking statements made in this Form 10-Q are qualified by these cautionary statements and there can be no assurance that the actual results or development anticipated by the Company will be realized or,

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

even if substantially realized that they will have the expected consequences to or effects on the Company or its business or operations.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
----- FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES

The capacity of a surety company to underwrite insurance and reinsurance is based on maintaining liquidity and capital resources sufficient to pay claims and expenses as they become due. Based on standards established by the National Association of Insurance Commissioners (NAIC) and promulgated by the Florida Department of Insurance, the Company is permitted to write net premiums up to an amount equal to three times its statutory surplus, or approximately \$19,800,000 at December 31, 2002. Statutory guidelines impose an additional limitation on increasing net written premiums to no more than 33% of prior year's net written premiums. Under these guidelines, the Company could increase net written premiums by approximately \$4,500,000 in the year 2002 subject to risk-based capital limitations.

At March 31, 2002, \$24,718,211 of the Company's total assets calculated based on generally accepted accounting principles were comprised as follows: 52 percent in cash and investments (including accrued investment income), 32 percent in receivables and reinsurance recoverables, 10 percent in intangibles and deferred policy acquisition costs and 6 percent in other assets.

The Company follows investment guidelines that are intended to provide an acceptable return on investment while maintaining sufficient liquidity to meet its obligations.

Net cash (used in) provided by operating activities was (\$617,515) and \$1,129,582 for the three months ended March 31, 2002 and 2001, respectively. Net cash used in operating activities during the first quarter of 2002 is attributed to loss from operations, increases in accounts payable and reinsurance recoverable offset by decreases in reinsurance payable and accounts receivable. Net cash provided by operating activities for the quarter ended March 31, 2001 is primarily attributed to a decrease in reinsurance recoverable and an increase in derivative liability, which are offset by an increase in accounts receivable and a decrease in policy liabilities and accruals.

Net cash used in investing activities was \$1,911,583 and \$494,076 for the three months ended March 31, 2002, and 2001, respectively. Investing activities consist of purchases, sales, and maturities of investments.

As of March 31, 2002 the Company had sufficient capital resources to fund foreseeable future requirements.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
----- FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

RESULTS OF OPERATIONS

COMPARISON OF THREE MONTHS ENDED MARCH 31, 2002 AND 2001

Direct, assumed and ceded premiums for the first quarter of 2002 was consistent with the first three months of 2001. Net premium income for the period ended March 31, 2002 and 2001, was \$3,085,161 and \$3,084,697, respectively.

Net investment income for the period ending March 31, 2002 decreased by \$27,449 when compared to the same period in 2001. The decrease is attributed to an overall decrease in interest rates earned on the bond and money market portfolio. Other income increased slightly (\$3,126) when compared to the same period of 2001.

During the three months ended March 31, 2002, loss and loss adjustment expenses increased by \$978,867 when compared to the same period in 2001. The increase is primarily attributed to incurred losses and loss adjustment expenses on assumed business, net of reinsurance of \$889,268. The large volume of assumed losses recognized in the first quarter of 2002 is due to a change in estimates based on information received from the Company's reinsurers. As a result of the large volume of paid losses in the first quarter (\$1,976,420 for the first three months of 2002 as compared to \$432,223 for the same period in 2001) reserves were strengthened.

During the three months ended March 31, 2002, derivative expense decreased by \$135,509 when compared to the same period in 2001. The change is attributed to the change in market values netted with the increase in the reserve for derivative valuation.

During the three months ended March 31, 2002, amortization of deferred policy acquisition costs was \$1,010,652 as compared to \$1,096,621 for the same period in 2001. The amortization of deferred policy acquisition costs is 46% and 47% of written premiums for the three months ended March 31, 2002 and 2001, respectively.

Operating expenses for the three months ended March 31, 2002 when compared to the same period in 2001 decreased by less than 1%. The Company's largest operating expense is salary and related expenses representing 53% and 51% of the total operating expense at March 31, 2002 and 2001, respectively. The Company goal for 2002 is maintaining consistency with prior year operating expenses without disruption of its marketing goals.

Interest expense represents payment to two subsidiary agencies previous owners. The decrease in interest expense at March 31, 2002 is due to a decrease in the principal amount of the long-term debt.

Income taxes in the three months ending March 31, 2002 and 2001 were calculated using effective rates of 33%, respectively.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

COMPARISON OF THREE MONTHS ENDED MARCH 31, 2002 AND 2001

Critical Accounting Policies

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results could differ from these estimates under different assumptions or conditions.

The Company believes the following accounting policies are the most critical since these policies require significant judgment or involve complex estimations that are important to the portrayal of the Company's financial condition and operating results:

The Company reviews long-lived assets, including certain identifiable intangibles, for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Upon determination that the carrying value of the asset is impaired, the Company would record an impairment charge or loss. Future adverse changes in market conditions or poor operating results of the underlying investment could result in losses or an inability to recover the carrying value of the investment that may not be reflected therein; and therefore, might require the Company to record an impairment charge in the future.

Statement of Financial Accounting Standard No. 133, Accounting for Derivative Instruments and Hedging Activities ("SFAS No.133") is effective for all fiscal years beginning after June 15, 2000. SFAS No. 133, as amended, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. Under SFAS No. 133, certain contracts that were not formerly considered derivatives may now meet the definition of a derivative. The Company adopted SFAS No. 133 effective January 1, 2001. The Company identified one product that meets the definition of a derivative instrument as defined in SFAS No. 133. The identified derivative was formerly accounted for as an insurance contract within the policy liabilities for loss and loss adjustment expenses account in the consolidated balance sheet. At December 31, 2001 the fair value of the derivative instrument has been determined by using a financial model that incorporates market data and other assumptions. Due to the volatility in the marketplace, the Company has suspended marketing of this product effective September 2001.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL

CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

COMPARISON OF THREE MONTHS ENDED MARCH 31, 2002 AND 2001

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

Critical Accounting Policies (continued)

The liability for loss and loss adjustment expenses including incurred but not reported losses is based on the estimated ultimate cost of settling the claim using traditional paid and incurred loss development methods. These estimates are subject to the effects of trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management believes that the liabilities for loss and loss adjustment expenses are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known. Such adjustments are included in current operations. A liability for all costs expected to be incurred in connection with the settlement of unpaid loss and loss adjustment expenses is accrued when the related liability for unpaid losses is accrued. Loss adjustment expenses include costs associated directly with specific claims paid or in the process of settlement, such as legal and adjusters' fees. Loss adjustment expenses also include other costs that cannot be associated with specific claims but are related to losses paid or in the process of settlement, such as internal costs of the claims function. The Company does not discount its reserves for losses and loss adjustment expenses. The Company writes primarily surety contracts which are of short duration. The Company does not consider investment income in determining if a premium deficiency relating to short duration contracts exists.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company had approximately \$12.6 million of investments as of March 31, 2002. These investments largely consist of state government obligations and have either variable rates of interest or stated interest rates ranging from 3.5% to 8.5%. The Company's investments are exposed to certain market risks inherent with such assets. These risks are mitigated by the Company's policy of investing in securities with high credit ratings and investing through major financial institutions with high credit ratings.

The Company has notes payable of approximately \$1.1 million at an average interest rate of 8.6%. The terms of the note agreements are such that pre-payment of such debt may not be advantageous to the Company in the event that funds may be available to the Company at a lower rate of interest.

PART II - OTHER INFORMATION

Item 1. Legal proceedings

CCS has been named in a class action lawsuit. The plaintiffs are clients of a registered investment advisor (the "Advisor") and have alleged that the Advisor, a registered broker-dealer, and certain other defendants (excluding CCS) were negligent or otherwise responsible for losses suffered by the plaintiffs resulting from embezzlement of the plaintiffs' investments by a third party. As a separate count in the lawsuit, the plaintiffs have also asserted claims against CCS based on a policy of insurance issued by CCS to the Advisor. The policy does not

Edgar Filing: CUMBERLAND TECHNOLOGIES INC - Form 10-Q

provide coverage for embezzlement, rather it insures losses caused by market declines, providing that the Advisor has followed the investment guidelines required by the policy. CCS denies the plaintiffs' allegations, however, it cannot predict the outcome or the impact this action could have on CCS. CCS is vigorously defending this lawsuit and intends to move for summary judgment.
