THE SHERWIN-WILLIAMS COMPANY AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
Periods ended June 30, 2015 and 2014

NOTE 1—BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

There have been no significant changes in critical accounting policies since December 31, 2014. Accounting estimates were revised as necessary during the first six months of 2015 based on new information and changes in facts and circumstances. Certain amounts in the 2014 condensed consolidated financial statements have been reclassified to conform to the 2015 presentation.

The Company primarily uses the last-in, first-out (LIFO) method of valuing inventory. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management’s estimates of expected year-end inventory levels and costs are subject to the final year-end LIFO inventory valuation. In addition, interim inventory levels include management’s estimates of annual inventory losses due to shrinkage and other factors. The final year-end valuation of inventory is based on an annual physical inventory count performed during the fourth quarter. For further information on inventory valuations and other matters, refer to the consolidated financial statements and footnotes thereto included in the Company’s Form 10-K for the year ended December 31, 2014.

The consolidated results for the three and six months ended June 30, 2015 are not necessarily indicative of the results to be expected for the year ending December 31, 2015.

NOTE 2—IMPACT OF RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

On April 1, 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which requires companies to present debt issuance costs associated with a debt liability as a deduction from the carrying amount of that debt liability on the balance sheet rather than being capitalized as an asset. The standard is effective for interim and annual periods beginning after December 15, 2015, and retrospective presentation is required. The Company will adopt ASU No. 2015-03 as required. The ASU will not have a material effect on the Company's results of operations, financial condition or liquidity.

Effective January 1, 2015, the Company adopted ASU No. 2014-01, "Accounting for Investments in Qualified Affordable Housing Projects," which allows companies to elect to use the proportional amortization method to account for investments in qualified affordable housing projects if certain conditions are met. Under the proportional amortization method, which replaces the effective yield method, the cost of the investment is amortized in proportion to the tax credits and other tax benefits received to income tax expense. The adoption of ASU No. 2014-01 did not have a material effect on the Company's results of operations, financial condition or liquidity.

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-09, "Revenue Recognition - Revenue from Contracts with Customers," which is a comprehensive revenue recognition standard that will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The standard is effective for interim and annual periods beginning after December 15, 2017. Either full retrospective adoption or modified retrospective adoption is permitted. The Company is in the process of evaluating the impact of the standard.

NOTE 3—DIVIDENDS

Dividends paid on common stock during each of the first two quarters of 2015 and 2014 were $.67 per common share and $.55 per common share, respectively.

NOTE 5—PRODUCT WARRANTIES

Changes in the Company's accrual for product warranty claims during the first six months of 2015 and 2014, including customer satisfaction settlements, were as follows:

(Thousands of dollars)

| | 2015 | 2014 |
|---|---|---|
| Balance at January 1 | $27,723 | $26,755 |
| Charges to expense | 14,470 | 14,446 |
| Settlements | (14,955) | (16,351) |
| Balance at June 30 | $27,238 | $24,850 |

For further details on the Company's accrual for product warranty claims, see Note 1 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

NOTE 6—EXIT OR DISPOSAL ACTIVITIES

Liabilities associated with exit or disposal activities are recognized as incurred in accordance with the Exit or Disposal Cost Obligations Topic of the ASC. Qualified exit costs primarily include post-closure rent expenses, incremental post-closure costs and costs of employee terminations. Adjustments may be made to liabilities accrued for qualified exit costs if information becomes available upon which more accurate amounts can be reasonably estimated. Concurrently, property, plant and equipment is tested for impairment in accordance with the Property, Plant and Equipment Topic of the ASC, and if impairment exists, the carrying value of the related assets is reduced to estimated fair value. Additional impairment may be recorded for subsequent revisions in estimated fair value.

In the six months ended June 30, 2015, nineteen stores in the Paint Stores Group, two stores in the Global Finishes Group and one store in the Latin America Coatings Group were closed due to lower demand or redundancy. No provisions were incurred for the 2015 store shutdowns due to the timing of lease cancellations and movement of employees to other locations.

The following table summarizes the activity and remaining liabilities associated with qualified exit costs at June 30, 2015:

(Thousands of dollars)

| Exit Plan | Balance at December 31, 2014 | Provisions in Cost of goods sold or SG&A | Actual expenditures charged to accrual | Balance at June 30, 2015 |

NOTE 8—OTHER LONG-TERM LIABILITIES

The Company initially provides for estimated costs of environmental-related activities relating to its past operations and third party sites for which commitments or clean-up plans have been developed and when such costs can be reasonably estimated based on industry standards and professional judgment. These estimated costs are determined based on currently available facts regarding each site. If the best estimate of costs can only be identified as a range and no specific amount within that range can be determined more likely than any other amount within the range, the minimum of the range is provided. At June 30, 2015, the unaccrued maximum of the estimated range of possible outcomes is $90.6 million higher than the minimum.

The Company continuously assesses its potential liability for investigation and remediation-related activities and adjusts its environmental-related accruals as information becomes available upon which more accurate costs can be reasonably estimated and as additional accounting guidelines are issued. Actual costs incurred may vary from these estimates due to the inherent uncertainties involved including, among others, the number and financial condition of parties involved with respect to any given site, the volumetric contribution which may be attributed to the Company relative to that attributed to other parties, the nature and magnitude of the wastes involved, the various technologies that can be used for remediation and the determination of acceptable remediation with respect to a particular site.

Included in Other long-term liabilities at June 30, 2015 and 2014 were accruals for extended environmental-related activities of $121.2 million and $82.7 million, respectively. Estimated costs of current investigation and remediation activities of $16.9 million and $15.4 million are included in Other accruals at June 30, 2015 and 2014, respectively.

Two of the Company's currently and formerly owned manufacturing sites account for the majority of the accrual for environmental-related activities and the unaccrued maximum of the estimated range of possible outcomes at June 30, 2015. At June 30, 2015, $87.2 million, or 63.2 percent of the total accrual, related directly to these two sites. In the

aggregate unaccrued maximum of $90.6 million at June 30, 2015, $59.0 million, or 65.1 percent, related to the two manufacturing sites. While

environmental investigations and remedial actions are in different stages at these sites, additional investigations, remedial actions and monitoring will likely be required at each site.

Management cannot presently estimate the ultimate potential loss contingencies related to these sites or other less significant sites until such time as a substantial portion of the investigation at the sites is completed and remedial action plans are developed. In the event any future loss contingency significantly exceeds the current amount accrued, the recording of the ultimate liability may result in a material impact on net income for the annual or interim period during which the additional costs are accrued. Management does not believe that any potential liability ultimately attributed to the Company for its environmental-related matters will have a material adverse effect on the Company's financial condition, liquidity, or cash flow due to the extended period of time during which environmental investigation and remediation takes place. An estimate of the potential impact on the Company's operations cannot be made due to the aforementioned uncertainties.

Management expects these contingent environmental-related liabilities to be resolved over an extended period of time. Management is unable to provide a more specific time frame due to the indefinite amount of time to conduct investigation activities at any site, the indefinite amount of time to obtain environmental agency approval, as necessary, with respect to investigation and remediation activities, and the indefinite amount of time necessary to conduct remediation activities.

For further details on the Company's Other long-term liabilities, see Note 8 to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

NOTE 9 – LITIGATION

In the course of its business, the Company is subject to a variety of claims and lawsuits, including, but not limited to, litigation relating to product liability and warranty, personal injury, environmental, intellectual property, commercial, contractual and antitrust claims that are inherently subject to many uncertainties regarding the possibility of a loss to the Company. These uncertainties will ultimately be resolved when one or more future events occur or fail to occur confirming the incurrence of a liability or the reduction of a liability. In accordance with the Contingencies Topic of the ASC, the Company accrues for these contingencies by a charge to income when it is both probable that one or more future events will occur confirming the fact of a loss and the amount of the loss can be reasonably estimated. In the event that the Company's loss contingency is ultimately determined to be significantly higher than currently accrued, the recording of the additional liability may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such additional liability is accrued. In those cases where no accrual is recorded because it is not probable that a liability has been incurred and the amount of any such loss cannot be reasonably estimated, any potential liability ultimately determined to be attributable to the Company may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such liability is accrued. In those cases where no accrual is recorded or exposure to loss exists in excess of the amount accrued, the Contingencies Topic of the ASC requires disclosure of the contingency when there is a reasonable possibility that a loss or additional loss may have been incurred.

Lead pigment and lead-based paint litigation. The Company's past operations included the manufacture and sale of lead pigments and lead-based paints. The Company, along with other companies, is and has been a defendant in a number of legal proceedings, including individual personal injury actions, purported class actions, and actions brought by various counties, cities, school districts and other government-related entities, arising from the manufacture and sale of lead pigments and lead-based paints. The plaintiffs' claims have been based upon various legal theories, including negligence, strict liability, breach of warranty, negligent misrepresentations and omissions, fraudulent misrepresentations and omissions, concert of action, civil conspiracy, violations of unfair trade practice and consumer protection laws, enterprise liability, market share liability, public nuisance, unjust enrichment and other theories. The plaintiffs seek various damages and relief, including personal injury and property damage, costs relating to the detection and abatement of lead-based paint from buildings, costs associated with a public education campaign, medical monitoring costs and others. The Company has also been a defendant in legal proceedings arising from the manufacture and sale of non-lead-based paints that seek recovery based upon various legal theories, including the failure to adequately warn of potential exposure to lead during surface preparation when using non-lead-based paint

on surfaces previously painted with lead-based paint. The Company believes that the litigation brought to date is without merit or subject to meritorious defenses and is vigorously defending such litigation. The Company has not settled any material lead pigment or lead-based paint litigation. The Company expects that additional lead pigment and lead-based paint litigation may be filed against the Company in the future asserting similar or different legal theories and seeking similar or different types of damages and relief.

Notwithstanding the Company's views on the merits, litigation is inherently subject to many uncertainties, and the Company ultimately may not prevail. Adverse court rulings or determinations of liability, among other factors, could affect the lead pigment and lead-based paint litigation against the Company and encourage an increase in the number and nature of future claims and proceedings. In addition, from time to time, various legislation and administrative regulations have been enacted,

promulgated or proposed to impose obligations on present and former manufacturers of lead pigments and lead-based paints respecting asserted health concerns associated with such products or to overturn the effect of court decisions in which the Company and other manufacturers have been successful.

Due to the uncertainties involved, management is unable to predict the outcome of the lead pigment and lead-based paint litigation, the number or nature of possible future claims and proceedings or the effect that any legislation and/or administrative regulations may have on the litigation or against the Company. In addition, management cannot reasonably determine the scope or amount of the potential costs and liabilities related to such litigation, or resulting from any such legislation and regulations. The Company has not accrued any amounts for such litigation. With respect to such litigation, including the public nuisance litigation, the Company does not believe that it is probable that a loss has occurred, and it is not possible to estimate the range of potential losses as there is no prior history of a loss of this nature and there is no substantive information upon which an estimate could be based. In addition, any potential liability that may result from any changes to legislation and regulations cannot reasonably be estimated. In the event any significant liability is determined to be attributable to the Company relating to such litigation, the recording of the liability may result in a material impact on net income for the annual or interim period during which such liability is accrued. Additionally, due to the uncertainties associated with the amount of any such liability and/or the nature of any other remedy which may be imposed in such litigation, any potential liability determined to be attributable to the Company arising out of such litigation may have a material adverse effect on the Company's results of operations, liquidity or financial condition. An estimate of the potential impact on the Company's results of operations, liquidity or financial condition cannot be made due to the aforementioned uncertainties.

Public nuisance claim litigation. The Company and other companies are or were defendants in legal proceedings seeking recovery based on public nuisance liability theories, among other theories, brought by the State of Rhode Island, the City of St. Louis, Missouri, various cities and counties in the State of New Jersey, various cities in the State of Ohio and the State of Ohio, the City of Chicago, Illinois, the City of Milwaukee, Wisconsin and the County of Santa Clara, California and other public entities in the State of California. Except for the Santa Clara County, California proceeding, all of these legal proceedings have been concluded in favor of the Company and other defendants at various stages in the proceedings.

The proceedings initiated by the State of Rhode Island included two jury trials. At the conclusion of the second trial, the jury returned a verdict finding that (i) the cumulative presence of lead pigment in paints and coatings on buildings in the State of Rhode Island constitutes a public nuisance, (ii) the Company, along with two other defendants, caused or substantially contributed to the creation of the public nuisance and (iii) the Company and two other defendants should be ordered to abate the public nuisance. The Company and two other defendants appealed and, on July 1, 2008, the Rhode Island Supreme Court, among other determinations, reversed the judgment of abatement with respect to the Company and two other defendants. The Rhode Island Supreme Court's decision reversed the public nuisance liability judgment against the Company on the basis that the complaint failed to state a public nuisance claim as a matter of law.

The Santa Clara County, California proceeding was initiated in March 2000 in the Superior Court of the State of California, County of Santa Clara. In the original complaint, the plaintiffs asserted various claims including fraud and concealment, strict product liability/failure to warn, strict product liability/design defect, negligence, negligent breach of a special duty, public nuisance, private nuisance, and violations of California's Business and Professions Code. A number of the asserted claims were resolved in favor of the defendants through pre-trial proceedings. The named plaintiffs in the Fourth Amended Complaint, filed on March 16, 2011, are the Counties of Santa Clara, Alameda, Los Angeles, Monterey, San Mateo, Solano and Ventura, the Cities of Oakland and San Diego and the City and County of San Francisco. The Fourth Amended Complaint asserted a sole claim for public nuisance, alleging that the presence of lead pigments for use in paint and coatings in, on and around residences in the plaintiffs' jurisdictions constitutes a public nuisance. The plaintiffs sought the abatement of the alleged public nuisance that exists within the plaintiffs' jurisdictions. A trial commenced on July 15, 2013 and ended on August 22, 2013. The court entered final judgment on January 27, 2014, finding in favor of the plaintiffs and against the Company and two other defendants (ConAgra Grocery Products Company and NL Industries, Inc.). The final judgment held the Company jointly and severally liable with the other two defendants to pay $1.15 billion into a fund to abate the public nuisance. The Company

strongly disagrees with the judgment. On February 18, 2014, the Company filed a motion for new trial and a motion to vacate the judgment. The court denied these motions on March 24, 2014. On March 28, 2014, the Company filed a notice of appeal to the Sixth District Court of Appeal for the State of California. The filing of the notice of appeal effects an automatic stay of the judgment without the requirement to post a bond. The appeal is fully briefed, and the parties are waiting for the Sixth District Court of Appeal to set a date for oral argument. The date for oral argument is at the discretion of the Sixth District Court of Appeal. The Company expects the Sixth District Court of Appeal to issue its ruling within 90 days following oral argument. The Company believes that the judgment conflicts with established principles of law and is unsupported by the evidence. The Company has had a favorable history with respect to lead pigment and lead-based paint litigation, particularly other public nuisance litigation, and accordingly, the Company believes that it is not probable that a loss has occurred and it is not possible to estimate the range of potential loss with respect to the case.

Litigation seeking damages from alleged personal injury. The Company and other companies are defendants in a number of legal proceedings seeking monetary damages and other relief from alleged personal injuries. These proceedings include claims by children allegedly injured from ingestion of lead pigment or lead-containing paint and claims for damages allegedly incurred by the children's parents or guardians. These proceedings generally seek compensatory and punitive damages, and seek other relief including medical monitoring costs. These proceedings include purported claims by individuals, groups of individuals and class actions.

The plaintiff in Thomas v. Lead Industries Association, et al., initiated an action in state court against the Company, other alleged former lead pigment manufacturers and the Lead Industries Association in September 1999. The claims against the Company and the other defendants included strict liability, negligence, negligent misrepresentation and omissions, fraudulent misrepresentation and omissions, concert of action, civil conspiracy and enterprise liability. Implicit within these claims is the theory of "risk contribution" liability (Wisconsin's theory which is similar to market share liability, except that liability can be joint and several) due to the plaintiff's inability to identify the manufacturer of any product that allegedly injured the plaintiff. The case ultimately proceeded to trial and, on November 5, 2007, the jury returned a defense verdict, finding that the plaintiff had ingested white lead carbonate, but was not brain damaged or injured as a result. The plaintiff appealed and, on December 16, 2010, the Wisconsin Court of Appeals affirmed the final judgment in favor of the Company and other defendants.

Wisconsin is the only jurisdiction to date to apply a theory of liability with respect to alleged personal injury (i.e., risk contribution/market share liability) that does not require the plaintiff to identify the manufacturer of the product that allegedly injured the plaintiff in the lead pigment and lead-based paint litigation. Although the risk contribution liability theory was applied during the Thomas trial, the constitutionality of this theory as applied to the lead pigment cases has not been judicially determined by the Wisconsin state courts. However, in an unrelated action filed in the United States District Court for the Eastern District of Wisconsin, Gibson v. American Cyanamid, et al., on November 15, 2010, the District Court held that Wisconsin's risk contribution theory as applied in that case violated the defendants' right to substantive due process and is unconstitutionally retroactive. The District Court's decision in Gibson v. American Cyanamid, et al., was appealed by the plaintiff to the United States Court of Appeals for the Seventh Circuit. On July 24, 2014, the United States Court of Appeals for the Seventh Circuit reversed the judgment and remanded the case back to the District Court for further proceedings. On January 16, 2015, the defendants filed a petition for certiorari in the United States Supreme Court seeking that Court's review of the Seventh Circuit's decision, and on May 18, 2015, the United States Supreme Court denied the defendants' petition. Also, in Yasmine Clark v. The Sherwin-Williams Company, et al., the Wisconsin Circuit Court, Milwaukee County, on March 25, 2014, held that the application to a pending case of Section 895.046 of the Wisconsin Statutes (which clarifies the application of the risk contribution theory) is unconstitutional as a violation of the plaintiff's right to due process of law under the Wisconsin Constitution. On April 8, 2014, defendants filed a petition requesting the Wisconsin Court of Appeal to hear the issue as an interlocutory appeal. On August 21, 2014, the Wisconsin Court of Appeal granted defendants' petition.

Insurance coverage litigation. The Company and its liability insurers, including certain underwriters at Lloyd's of London, initiated legal proceedings against each other to primarily determine, among other things, whether the costs and liabilities associated with the abatement of lead pigment are covered under certain insurance policies issued to the Company. The Company's action, filed on March 3, 2006 in the Common Pleas Court, Cuyahoga County, Ohio, is currently stayed and inactive. The liability insurers' action, which was filed on February 23, 2006 in the Supreme Court of the State of New York, County of New York, has been dismissed. An ultimate loss in the insurance coverage litigation would mean that insurance proceeds could be unavailable under the policies at issue to mitigate any ultimate abatement related costs and liabilities. The Company has not recorded any assets related to these insurance policies or otherwise assumed that proceeds from these insurance policies would be received in estimating any contingent liability accrual. Therefore, an ultimate loss in the insurance coverage litigation without a determination of liability against the Company in the lead pigment or lead-based paint litigation will have no impact on the Company's results of operation, liquidity or financial condition. As previously stated, however, the Company has not accrued any amounts for the lead pigment or lead-based paint litigation and any significant liability ultimately determined to be attributable to the Company relating to such litigation may result in a material impact on the Company's results of operations, liquidity or financial condition for the annual or interim period during which such liability is accrued.

Litigation related to Consorcio Comex. As previously disclosed, the Company entered into a definitive Stock Purchase Agreement (as subsequently amended and restated, the “Purchase Agreement”), with Avisep, S.A. de C.V. (“Avisep”) and Bevisep, S.A. de C.V. (“Bevisep”) to, among other things, acquire the Mexico business of Consorcio Comex, S.A. de C.V. (the "Acquisition"). Under the terms of the Purchase Agreement, either the Company or Avisep and Bevisep had the right to terminate the Purchase Agreement in the event that the closing of the Acquisition did not occur on or prior to March 31, 2014 and such party was not in material breach of the Purchase Agreement.

On April 3, 2014, the Company sent notice to Avisep and Bevisep that the Company was terminating the Purchase Agreement. On April 3, 2014, the Company filed a complaint for declaratory judgment in the Supreme Court of the State of New York, New York County, requesting the court to declare that the Company had used commercially reasonable efforts as required under the Purchase Agreement and has not breached the Purchase Agreement. On August 7, 2014, the case was removed by Avisep and Bevisep to the United States District Court for the Southern District of New York. On April 11, 2014, Avisep and Bevisep initiated an arbitration proceeding against the Company in the International Court of Arbitration contending that the Company breached the Purchase Agreement by terminating the Purchase Agreement and not utilizing commercially reasonable efforts under the Purchase Agreement, which allegedly caused Avisep and Bevisep to incur damages. On June 1, 2015, Avisep and Bevisep filed their statement of claim in the arbitration alleging damages of approximately $85 million. The Company continues to believe that the claims are without merit and will continue to vigorously defend against such claims.

Titanium dioxide suppliers antitrust class action lawsuit. The Company is a member of the plaintiff class related to Titanium Dioxide Antitrust Litigation that was initiated in 2010 against certain suppliers alleging various theories of relief arising from purchases of titanium dioxide made from 2003 through 2012. The Court approved a settlement less attorney fees and expense, and the Company timely submitted claims to recover its pro-rata portion of the settlement. There was no specified deadline for the claims administrator to complete the review of all claims submitted. In October 2014, the Company was notified that it would receive a disbursement of settlement funds, and the Company received a pro-rata disbursement net of all fees of approximately $21.4 million. The Company recorded this settlement gain in the fourth quarter of 2014.

NOTE 10—OTHER

Other general expense - net

Included in Other general expense - net were the following:

| (Thousands of dollars) | Three Months Ended June 30, | | Six Months Ended June 30, | |

| (Gain) loss on disposition of assets | (539) | 511 | (3,262) | 373 |
| Total | $9,971 | $770 | $8,298 | $198 |

Provisions for environmental matters - net represent site-specific increases or decreases to environmental-related accruals as information becomes available upon which more accurate costs can be reasonably estimated and as additional accounting guidelines are issued. Environmental-related accruals are not recorded net of insurance proceeds in accordance with the Offsetting Subtopic of the Balance Sheet Topic of the ASC. See Note 8 for further details on the Company’s environmental-related activities.

The (gain) loss on disposition of assets represents net realized (gains) losses associated with the disposal of fixed assets previously used in the conduct of the primary business of the Company.

Other expense (income) - net

Included in Other expense (income) - net were the following:

| (Thousands of dollars) | Three Months Ended June 30, | | Six Months Ended June 30, | |
|---|---|---|---|---|
| | 2015 | 2014 | 2015 | 2014 |

| Other expense | 2,640 | 2,304 | 4,868 | 4,384 |
| Total | $677 | $(5,147) | $432 | $(4,644) |

The net expense from financing activities includes the net expense relating to the change in the Company’s financing fees.

Foreign currency transaction related losses (gains) represent net realized losses (gains) on U.S. dollar-denominated liabilities of foreign subsidiaries and net realized and unrealized losses (gains) from foreign currency option and forward contracts. There were no foreign currency option and forward contracts outstanding at June 30, 2015 and 2014.

Other income and Other expense included items of revenue, gains, expenses and losses that were unrelated to the primary business purpose of the Company. There were no other items within the other income or other expense caption that were individually significant.

NOTE 11—INCOME TAXES

The effective tax rate was 31.1 percent and 31.3 percent for the second quarter and first six months of 2015, respectively, compared to 32.1 percent and 31.6 percent for the second quarter and first six months of 2014, respectively. The decrease in the effective tax rate for the second quarter of 2015 compared to 2014 was primarily due to the recognition of previously unrecognized tax benefits.

At December 31, 2014, the Company had $31.6 million in unrecognized tax benefits, the recognition of which would have had an effect of $28.2 million on the current provision for income taxes. Included in the balance of unrecognized tax benefits at December 31, 2014 was $4.4 million related to tax positions for which it was reasonably possible that the total amounts could significantly change during the next twelve months. During the first six months of 2015, the Company recognized tax benefits related to partnership investments and the completion of IRS audits of the Company's U.S. income tax returns for the 2010, 2011 and 2012 tax years. At June 30, 2015, the Company had $25.3 million in unrecognized tax benefits, the recognition of which would have an effect of $22.2 million on the current provision for income taxes. Included in the balance of unrecognized tax benefits at June 30, 2015 was $1.0 million related to tax positions for which it is reasonably possible that the total amounts could significantly change during the next twelve months. This amount primarily relates to expiring statutes in federal, foreign and state jurisdictions.

The Company classifies all income tax related interest and penalties as income tax expense. At December 31, 2014, the Company had accrued $5.7 million for the potential payment of income tax interest and penalties. There were no significant changes to these balances during the first six months of 2015.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. As of June 30, 2015, there are no examinations being conducted by the IRS, however, the Company is still open for examination for the 2013 and 2014 tax years.

As of June 30, 2015, the Company is subject to non-U.S. income tax examinations for the tax years of 2007 through 2014. In addition, the Company is subject to state and local income tax examinations for the tax years 2004 through 2014.

Stock options and other contingently issuable shares excluded 2,932 shares for the six months ended June 30, 2014. There were no options excluded due to their anti-dilutive effect for the three months ended June 30, 2014.

The Company has two classes of participating securities: common shares and restricted shares, representing 99% and 1% of outstanding shares, respectively. The restricted shares are shares of unvested restricted stock granted under the Company's restricted stock award program. Time-based restricted shares receive non-forfeitable dividends, while dividends on performance-based restricted shares are deferred and payment is contingent upon the awards vesting. The time-based restricted shares are considered a participating security, therefore, basic and diluted earnings per share are calculated using the two-class method in accordance with the Earnings Per Share Topic of the ASC.

NOTE 13—REPORTABLE SEGMENT INFORMATION

The Company reports segment information in the same way that management internally organizes its business for assessing performance and making decisions regarding allocation of resources in accordance with the Segment Disclosures Topic of the ASC. The Company has determined that it has four reportable operating segments: Paint Stores Group, Consumer Group, Global Finishes Group and Latin America Coatings Group (individually, a "Reportable Segment" and collectively, the “Reportable Segments”).

In the reportable segment financial information, Segment profit was total net sales and intersegment transfers less operating costs and expenses. Domestic intersegment transfers were accounted for at the approximate fully absorbed manufactured cost, based on normal capacity volumes, plus customary distribution costs. International intersegment transfers were accounted for at values comparable to normal unaffiliated customer sales. The Administrative segment includes the administrative expenses of the Company’s corporate headquarters site. Also included in the Administrative segment was interest expense, interest and investment income, certain expenses related to closed facilities and environmental-related matters, and other expenses which were not directly associated with the Reportable Segments. The Administrative segment did not include any significant foreign operations. Also included in the Administrative segment was a real estate management unit that is responsible for the ownership, management and leasing of non-retail properties held primarily for use by the Company, including the Company’s headquarters site, and disposal of idle facilities. Sales of this segment represented external leasing revenue of excess headquarters space or leasing of facilities no longer used by the Company in its primary businesses. Gains and losses from the sale of property were not a significant operating factor in determining the performance of the Administrative segment.

Net external sales and segment profit of all consolidated foreign subsidiaries were $476.8 million and $22.4 million, respectively, for the second quarter of 2015, and $576.7 million and $39.9 million, respectively, for the second quarter of 2014. Net external sales and segment profit of these subsidiaries were $933.3 million and $40.7 million, respectively, for the first six months of 2015, and $1.106 billion and $72.6 million, respectively, for the first six months of 2014. Long-lived assets of these subsidiaries totaled $521.0 million and $614.6 million at June 30, 2015 and June 30, 2014, respectively. Domestic operations accounted for the remaining net external sales, segment profits and long-lived assets. No single geographic area outside the United States was significant relative to consolidated net external sales, income before taxes, or consolidated long-lived assets.

Export sales and sales to any individual customer were each less than 10 percent of consolidated sales to unaffiliated customers during all periods presented.

NOTE 14—FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the ASC applies to the Company's financial and non-financial assets and liabilities. The guidance applies when other standards require or permit the fair value measurement of assets and liabilities. It does not expand the use of fair value measurements. The Company did not have any fair value measurements for its non-financial assets and liabilities during the second quarter. The following table presents the Company's financial assets and liabilities that are measured at fair value on a recurring basis, categorized using the fair value hierarchy:

(Thousands of dollars)

| | Fair Value at June 30, 2015 | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
|---|---|---|---|---|
| Assets: | | | | |
| Deferred compensation plan asset [1] | $24,749 | $1,733 | $23,016 | |
| Liabilities: | | | | |
| Deferred compensation plan liability [2] | $34,074 | $34,074 | | |

(1) The deferred compensation plan asset consists of the investment funds maintained for the future payments under the Company's executive deferred compensation plan, which is structured as a rabbi trust. The investments are marketable securities accounted for under the Debt and Equity Securities Topic of the ASC. The level 1 investments are valued using quoted market prices multiplied by the number of shares. The level 2 investments are valued based on vendor or broker models. The cost basis of the investment funds is $24,590.

(2) The deferred compensation plan liability is the Company's liability under its executive deferred compensation plan. The liability represents the fair value of the participant shadow accounts, and the value is based on quoted market prices.

NOTE 15—DEBT

The table below summarizes the carrying amount and fair value of the Company's publicly traded debt and non-publicly traded debt in accordance with the Fair Value Measurements and Disclosures Topic of the ASC. The fair values of the Company's publicly traded debt are based on quoted market prices. The fair values of the Company's non-traded debt are estimated using discounted cash flow analyses, based on the Company's current incremental borrowing rates for similar types of borrowing arrangements. The Company's publicly traded debt and non-traded debt are classified as level 1 and level 2, respectively, in the fair value hierarchy.

| (Thousands of dollars) | June 30, 2015 | | June 30, 2014 | |
|---|---|---|---|---|
| | Carrying Amount | Fair Value | Carrying Amount | Fair Value |
| Publicly traded debt | $1,121,041 | $1,129,742 | $1,620,784 | $1,654,524 |
| Non-traded debt | 4,894 | 4,659 | 3,761 | 3,558 |

On July 16, 2015, the Company and three of its wholly-owned subsidiaries, Sherwin-Williams Canada, Inc. (SW Canada), Sherwin-Williams Luxembourg S.à r.l. (SW Lux) and Sherwin-Williams UK Holding Limited, entered into a new five-year $1.35 billion credit agreement. The credit agreement will be used for general corporate purposes, including the financing of working capital requirements. The credit agreement replaces the existing credit agreements for each of the Company, SW Canada and SW Lux, dated July 8, 2011, June 29, 2012 and September 19, 2012, as amended, respectively. The credit agreement allows the Company to extend the maturity of the facility with two one-year extension options and to increase the aggregate amount of the facility to $1.85 billion, both of which are

subject to the discretion of each lender.

NOTE 16—NON-TRADED INVESTMENTS

The Company has invested in the U.S. affordable housing and historic renovation real estate markets. These non-traded investments have been identified as variable interest entities. However, because the Company does not have the power to direct the day-to-day operations of the investments and the risk of loss is limited to the amount of contributed capital, the Company is not considered the primary beneficiary. In accordance with the Consolidation Topic of the ASC, the investments are not consolidated. For affordable housing investments entered into prior to the January 1, 2015 adoption of ASU No. 2014-01, the

Company uses the effective yield method to determine the carrying value of the investments. Under the effective yield method, the initial cost of the investments is amortized to income tax expense over the period that the tax credits are recognized. For affordable housing investments entered into on or after the January 1, 2015 adoption of ASU No. 2014-01, the Company uses the proportional amortization method. Under the proportional amortization method, the initial cost of the investments is amortized to income tax expense in proportion to the tax credits and other tax benefits received. The carrying amount of the affordable housing and historic renovation investments, included in Other assets, was $227.0 million and $245.3 million at June 30, 2015 and 2014, respectively. The liability for estimated future capital contributions to the investments was $191.5 million and $217.7 million at June 30, 2015 and 2014, respectively.

Item 2. MANAGEMENT'S DISCUSSION AND
ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

SUMMARY

The Sherwin-Williams Company, founded in 1866, and its consolidated wholly owned subsidiaries (collectively, the "Company") are engaged in the development, manufacture, distribution and sale of paint, coatings and related products to professional, industrial, commercial and retail customers primarily in North and South America with additional operations in the Caribbean region, Europe and Asia. The Company is structured into four reportable segments—Paint Stores Group, Consumer Group, Global Finishes Group and Latin America Coatings Group (collectively, the "Reportable Segments")—and an Administrative segment in the same way it is internally organized for assessing performance and making decisions regarding allocation of resources. See pages 6 through 15 and Note 18, on pages 71 through 73, in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 for more information concerning the Reportable Segments.

The Company's financial condition, liquidity and cash flow continued to be strong through the first six months of 2015 primarily due to improved operating results in our Paint Stores and Consumer Groups. Net working capital decreased $734.9 million at June 30, 2015 compared to the end of the second quarter of 2014 due to a significant increase in current liabilities and a decrease in current assets. Short-term borrowings increased $1.095 billion, Current portion of long-term debt decreased $498.9 million resulting from the 3.125% Senior Notes becoming due in 2014, and cash and cash equivalents decreased $192.1 million. The Company has been able to arrange sufficient short-term borrowing capacity at reasonable rates, and the Company has sufficient total available borrowing capacity to fund its current operating needs. Net operating cash improved $17.4 million in the first six months of 2015 to a cash source of $349.0 million from a cash source of $331.6 million in 2014 primarily due to improved operating results in the core business. Consolidated net sales increased 2.9 percent in the second quarter of 2015 to $3.132 billion from $3.043 billion in the second quarter of 2014 and increased 3.2 percent in the first six months of 2015 to $5.582 billion from $5.410 billion in the first six months of 2014 due primarily to higher paint sales volume in our Paint Stores and Consumer Groups. Consolidated gross profit as a percent of consolidated net sales increased in the second quarter to 48.8 percent from 46.3 percent in 2014 and increased to 47.7 percent from 45.8 percent in the first six months due primarily to increased paint volume and improved operating efficiency. Selling, general and administrative expenses (SG&A) increased slightly as a percent of consolidated net sales to 31.9 percent from 31.8 percent in the second quarter of 2014 and increased slightly to 34.5 percent from 34.3 percent in the first six months primarily due to timing of net new store openings and expenses related to the launch of a new paint program at a national retailer. Interest expense decreased $3.5 million in the second quarter and decreased $7.5 million in the first six months of 2015 due to lower short-term borrowing rates versus long-term borrowing rates. The effective income tax rate for the second quarter of 2015 was 31.1 percent compared to 32.1 percent in 2014 and the rate for the first six months of 2015 was 31.3 percent compared to 31.6 percent in 2014. Diluted net income per common share increased to $3.70 per share for the second quarter of 2015 from $2.94 per share a year ago and increased to $5.08 per share from $4.06 per share in the first six months.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation and fair presentation of the consolidated unaudited interim financial statements and accompanying notes included in this report are the responsibility of management. The financial statements and footnotes have been prepared in accordance with U.S. generally accepted accounting principles for interim financial statements and contain certain amounts that were based upon management's best estimates, judgments and assumptions that were believed to be reasonable under the circumstances. Management considered the impact of the uncertain economic environment and utilized certain outside sources of economic information when developing the basis for their estimates and assumptions. The impact of the global economic conditions on the estimates and assumptions used by management was believed to be reasonable under the circumstances. Management used assumptions based on historical results, considering the current economic trends, and other assumptions to form the basis for determining appropriate carrying values of assets and liabilities that were not readily available from other sources. Actual results could differ from those estimates. Also, materially different amounts may result under materially different conditions, materially different economic trends or from using materially different assumptions. However, management believes that any materially

different amounts resulting from materially different conditions or material changes in facts or circumstances are unlikely to significantly impact the current valuation of assets and liabilities that were not readily available from other sources.

A comprehensive discussion of the Company's critical accounting policies and management estimates and significant accounting policies followed in the preparation of the financial statements is included in Management's Discussion and Analysis of Financial Condition and Results of Operations and in Note 1, on pages 44 through 47, in the Company's Annual

Report on Form 10-K for the year ended December 31, 2014. There have been no significant changes in critical accounting policies, management estimates or accounting policies followed since the year ended December 31, 2014.

FINANCIAL CONDITION, LIQUIDITY AND CASH FLOW

Overview

The Company's financial condition, liquidity and cash flow remained strong through the first six months of 2015 primarily due to improved operating results in our Paint Stores and Consumer Groups. Net working capital decreased $734.9 million at June 30, 2015 compared to the end of the second quarter of 2014 due to a significant increase in current liabilities and a significant decrease in current assets. Cash and cash equivalents decreased $192.1 million, primarily due to treasury stock purchases, partially offset by an increase in accounts receivable of $51.2 million and an increase in inventories of $40.8 million. Short-term borrowings increased $1.095 billion, primarily due to the retirement of long-term debt and increased cash needed to fund working capital requirements for the first half of the year. Accounts payable increased $9.3 million and all other current liabilities increased $27.0 million from June 30, 2014 while current portion of long-term debt decreased $498.9 million resulting from the 3.125% Senior Notes becoming due in 2014. The Company continues to maintain sufficient short-term borrowing capacity at reasonable rates, and the Company has sufficient cash on hand and total available borrowing capacity to fund its current operating needs. In the first six months of 2015, accounts receivable increased $323.5 million when normal seasonal trends typically require significant growth in this category and inventories increased $98.4 million. Accounts payable increased $211.7 million, primarily due to the seasonal increase in need for working capital, and all other current liabilities decreased $15.0 million, primarily due to timing of tax payments, while short-term borrowings increased $479.8 million, primarily due to treasury stock purchases. The Company's current ratio was 0.90 at June 30, 2015 compared to 1.14 at June 30, 2014 and 0.96 at December 31, 2014. Total debt at June 30, 2015 increased $595.9 million to $2.285 billion from $1.689 billion at June 30, 2014 and increased as a percentage of total capitalization to 75.1 percent from 52.6 percent at the end of the second quarter last year. Total debt increased $479.8 million from December 31, 2014 and increased as a percentage of total capitalization from 64.4 percent to 75.1 percent. At June 30, 2015, the Company had remaining borrowing ability of $1,128.4 million. Net operating cash improved $17.4 million in the first six months of 2015 to a cash source of $349.0 million from a cash source of $331.6 million in 2014. In the twelve month period from July 1, 2014 through June 30, 2015, the Company generated net operating cash of $1.099 billion, used $307.1 million in investing activities, and used $965.6 million in financing activities. In that same period, the Company invested $221.2 million in capital additions and improvements, increased total debt by $609.5 million, purchased $1.503 billion in treasury stock and paid $231.7 million in cash dividends to its shareholders of common stock.

Net Working Capital, Debt and Other Long-Term Assets and Liabilities

Cash and cash equivalents increased $34.3 million during the first six months of 2015. Cash and cash equivalents on hand and increased short-term borrowings funded cash requirements for increased sales and normal seasonal increases in working capital, capital expenditures of $87.5 million, payments of cash dividends of $125.3 million, and treasury stock purchases of $679.4 million. At June 30, 2015, the Company's current ratio was 0.90 compared to 0.96 at December 31, 2014 and 1.14 a year ago. The decrease resulted primarily from the increase in short-term debt.

Goodwill and intangible assets decreased $21.9 million from December 31, 2014 and decreased $56.0 million from June 30, 2014. The net decrease during the first six months of 2015 was due to amortization of $13.7 million and foreign currency translation of $9.9 million partially offset by capitalization of software of $1.8 million. The net decrease over the twelve month period from June 30, 2014 resulted from amortization of $28.4 million and foreign currency translation of $33.6 million partially offset by capitalization of software of $6.0 million. See Note 4, on pages 48 and 49, in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 for more information concerning goodwill and intangible assets.

Deferred pension assets increased $1.5 million during the first six months of 2015 and decreased $52.9 million from June 30, 2014. The decrease in the last twelve months was due primarily to increased projected benefit obligations resulting from changes in actuarial assumptions partially offset by increases in the fair market value of equity securities held by the Company's defined benefit pension plans. See Note 6, on pages 52 through 57, in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 for more information concerning the Company's

benefit plan assets.

Other assets at June 30, 2015 increased $26.3 million in the first six months of 2015 and increased $6.6 million from a year ago. The net increase during the first six months of 2015 was primarily related to long-term deposits and increased other investments.

Net property, plant and equipment decreased $15.7 million in the first six months of 2015 and decreased $1.0 million in the twelve months since June 30, 2014. The decrease in the first six months was primarily due to depreciation expense of $84.6 million, sale or disposition of fixed assets of $4.8 million and changes in currency translation rates of $13.8 million partially

offset by capital expenditures of $87.5 million. Since June 30, 2014, depreciation expense of $170.2 million, changes in currency translation rates of $39.8 million and dispositions or sale of assets with remaining net book value of $8.2 million were partially offset by capital expenditures of $221.2 million. Capital expenditures during the first six months of 2015 primarily represented expenditures associated with improvements and normal equipment replacement in manufacturing and distribution facilities in the Consumer Group, normal equipment replacement in the Paint Stores and Global Finishes Groups, and information systems hardware in the Administrative Segment.

There were $725.2 million in borrowings outstanding under the Company's domestic commercial paper program at June 30, 2015 with a weighted-average interest rate of 0.3 percent. Borrowings outstanding under short-term revolving and letter of credit agreements at June 30, 2015 were $400.0 million with a weighted-average interest rate of 0.9 percent. Short-term borrowings outstanding under various foreign programs at June 30, 2015 were $34.1 million with a weighted average interest rate of 4.9 percent. The Company had unused capacity of $324.8 million at June 30, 2015 under the commercial paper program that is backed by the Company’s revolving credit agreement. There were no significant changes in long-term debt during the second quarter of 2015. See Note 7, on page 58, in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014 for more information concerning the Company’s debt.

Long-term liabilities for postretirement benefits other than pensions did not change significantly from December 31, 2014 and increased $7.6 million from June 30, 2014. The increase in the liability was due to the increase in the actuarially determined postretirement benefit obligation resulting from changes in actuarial assumptions partially offset by favorable claims experience. See Note 6, on pages 52 through 57, in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014 for more information concerning the Company’s benefit plan obligations.

Other long-term liabilities at June 30, 2015 decreased $10.6 million in the first six months of 2015 primarily due to a decrease in non-current deferred tax liabilities, and decreased $78.6 million from a year ago primarily due to a decrease in long-term commitments related to affordable housing and historic renovation real estate properties and non-current deferred tax liabilities, partially offset by an increase in accruals for extended environmental-related liabilities.

Environmental-Related Liabilities

The operations of the Company, like those of other companies in the same industry, are subject to various federal, state and local environmental laws and regulations. These laws and regulations not only govern current operations and products, but also impose potential liability on the Company for past operations. Management expects environmental laws and regulations to impose increasingly stringent requirements upon the Company and the industry in the future. Management believes that the Company conducts its operations in compliance with applicable environmental laws and regulations and has implemented various programs designed to protect the environment and promote continued compliance.

Depreciation of capital expenditures and other expenses related to ongoing environmental compliance measures were included in the normal operating expenses of conducting business. The Company’s capital expenditures, depreciation and other expenses related to ongoing environmental compliance measures were not material to the Company’s financial condition, liquidity, cash flow or results of operations during the first six months of 2015. Management does not expect that such capital expenditures, depreciation and other expenses will be material to the Company’s financial condition, liquidity, cash flow or results of operations in 2015. See Note 8 for further information on environmental-related long-term liabilities.

Contractual Obligations, Commercial Commitments and Warranties

Short-term borrowings increased $479.8 million to $1.159 billion at June 30, 2015 from $679.4 million at December 31, 2014. Total long-term debt was $1.126 billion at June 30, 2015 and December 31, 2014 and decreased $498.6 million from $1.625 billion at June 30, 2014. See the Financial Condition, Liquidity and Cash Flow section of this report for more information. There have been no other significant changes to the Company’s contractual obligations and commercial commitments in the second quarter of 2015 as summarized in Management’s Discussion and Analysis of Financial Condition and Results of Operations in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014.

Changes to the Company’s accrual for product warranty claims in the first six months of 2015 are disclosed in Note 5.

Litigation
See Note 9 for information concerning litigation.

Shareholders' Equity

Shareholders' equity decreased $239.1 million to $757.3 million at June 30, 2015 from $996.5 million at December 31, 2014 and decreased $767.6 million from $1.525 billion at June 30, 2014. The decrease in Shareholders' equity for the first six months of 2015 resulted primarily from purchases of treasury stock of $679.4 million, cash dividends paid on common stock of $125.3 million, and an increase in Cumulative other comprehensive loss of $44.7 million partially offset by net income of $481.3 million and an increase in Other capital of $161.6 million, resulting primarily from stock option exercises. Since June 30, 2014, purchases of treasury stock for $1.503 billion, cash dividends paid on common stock of $231.7 million, and an increase in Cumulative other comprehensive loss of $201.1 million more than offset increases from net income of $940.3 million and an increase in Other capital of $260.4 million in twelve months. During the first six months of 2015, the Company purchased 2.25 million shares of its common stock for treasury purposes through open market purchases. The Company purchased 5.85 million shares of its common stock since June 30, 2014 for treasury. The Company acquires its common stock for general corporate purposes, and depending on its cash position and market conditions, it may acquire additional shares in the future. The Company had remaining authorization at June 30, 2015 to purchase 2.98 million shares of its common stock. At a meeting held on February 18, 2015, the Board of Directors increased the quarterly cash dividend from $.55 per common share to $.67 per common share. This quarterly dividend will result in an annual dividend for 2015 of $2.68 per common share or a 30.5 percent payout of 2014 diluted net income per common share.

Cash Flow

Net operating cash improved $17.4 million in the first six months of 2015 to a cash source of $349.0 million from a cash source of $331.6 million in 2014 primarily due to an increase in net income of $74.4 million partially offset by increases in cash used for working capital. Net investing cash usage decreased $3.0 million in the first six months of 2015 to a usage of $81.0 million from a usage of $84.0 million in 2014 primarily due to decreased cash used for other investments and increased proceeds from sale of long-term assets partially offset by higher capital expenditures. Net financing cash usage decreased $501.5 million to a usage of $224.2 million in the first six months of 2015 from a usage of $725.7 million in 2014 primarily due to net increases in short-term borrowings of $516.6 million partially offset by increases in treasury stock purchases of $14.0 million in the first six months of 2015. In the twelve month period from July 1, 2014 through June 30, 2015, the Company generated net operating cash of $1.099 billion, used $307.1 million in investing activities and used $965.6 million in financing activities. In that same period, the Company invested $221.2 million in capital additions and improvements, made payments on total debt of $499.9 million, increased short-term borrowings by $1.108 billion, purchased $1.503 billion in treasury stock and paid $231.7 million in cash dividends to its shareholders of common stock.

Market Risk

The Company is exposed to market risk associated with interest rate, foreign currency and commodity fluctuations. The Company occasionally utilizes derivative instruments as part of its overall financial risk management policy, but does not use derivative instruments for speculative or trading purposes. In the first six months of 2015, the Company entered into forward currency exchange contracts with maturity dates of less than twelve months to hedge against value changes in foreign currency. The Company believes it may be exposed to continuing market risk from foreign currency exchange rate and commodity price fluctuations. However, the Company does not expect that foreign currency exchange rate and commodity price fluctuations or hedging contract losses will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Financial Covenant

Certain borrowings contain a consolidated leverage covenant. The covenant states the Company's leverage ratio is not to exceed 3.25 to 1.00. The leverage ratio is defined as the ratio of total indebtedness (the sum of Short-term borrowings, Current portion of long-term debt and Long-term debt) at the reporting date to consolidated "Earnings Before Interest, Taxes, Depreciation, and Amortization" (EBITDA) for the twelve month period ended on the same date. Refer to the "Results of Operations" caption below for a reconciliation of EBITDA to Net income. At June 30, 2015, the Company was in compliance with the covenant. The Company's Notes, Debentures and revolving credit agreements contain various default and cross-default provisions. In the event of default under any one of these arrangements, acceleration of the maturity of any one or more of these borrowings may result. See Note 7, on page 58,

in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 for more information concerning the Company's debt and related covenant.

Consolidated net sales increased in the second quarter and first six months of 2015 due primarily to higher paint sales volume in our Paint Stores and Consumer Groups, partially offset by unfavorable currency translation rate changes that decreased consolidated net sales 3.0 percent in the quarter and first six months.

Net sales of all consolidated foreign subsidiaries were down 17.3 percent to $476.8 million in the quarter and down 15.6 percent to $933.3 million in the first six months versus $576.7 million and $1.106 billion in the same periods last year. The decrease in net sales for all consolidated foreign subsidiaries in the quarter and first six months was due primarily to a 14.6 percent negative impact and a 13.8 percent negative impact of foreign translation rate changes, respectively. Net sales of all operations other than consolidated foreign subsidiaries were up 7.7 percent to $2.655 billion in the quarter and up 8.0 percent to $4.649 billion in the first six months as compared to $2.466 billion and $4.304 billion in the same periods last year.

Net sales in the Paint Stores Group increased in the second quarter and first six months due primarily to higher architectural paint sales volume. Net sales from stores open for more than twelve calendar months increased 3.9 percent in the quarter and increased 5.0 percent in the first six months compared to last year’s comparable periods. Sales of non-paint products increased by 8.3 percent over last year's second quarter and increased by 8.8 percent over last year's first six months. A discussion of changes in volume versus pricing for sales of products other than paint is not pertinent due to the wide assortment of general merchandise sold. Net sales of the Consumer Group increased in the second quarter and first six months due primarily to the new paint program launch at a national retailer. Net sales in the Global Finishes Group stated in U.S. dollars decreased in the second quarter and first six months due primarily to unfavorable currency translation rate changes, which decreased net sales by 7.7 percent in the quarter and 7.3 percent in the first six months. Net sales in the Latin America Coatings Group stated in U.S. dollars decreased in the second quarter and first six months, which can primarily be attributed to unfavorable currency translation rate changes partially offset by selling price increases. Currency translation rate changes decreased net sales by 17.4 percent in the quarter and decreased net sales by 15.6 percent in the first six months. Net sales in the Administrative segment, which primarily consist of external leasing revenue of excess headquarters space and leasing of facilities no longer used by the Company in its primary business, were essentially flat in the second quarter and first six months.

Consolidated gross profit increased $120.3 million in the second quarter and increased $186.9 million in the first six months of 2015 compared to the same periods in 2014. As a percent of sales, consolidated gross profit increased to 48.8 percent in the quarter from 46.3 percent in the second quarter of 2014 and improved to 47.7 percent in the first six months of 2015 from 45.8 percent last year. The percent to sales and dollar increases were primarily due to increased paint sales volume.

The Paint Stores Group’s gross profit was higher than last year by $85.8 million in the second quarter and was higher than last year by $142.3 million in the first six months due to higher paint sales volume. The Paint Stores Group’s gross profit margins increased in the quarter and first six months compared to the same periods last year for that same reason. The Consumer Group’s gross profit increased by $45.5 million in the quarter and increased by $71.8 million in the first six months compared to the same periods last year primarily due to increased sales volume and improved manufacturing volumes and operating efficiency. The Consumer Group's gross profit margins increased as a percent of sales for the second quarter and first six months compared to the same periods last year for those same reasons. The Global Finishes Group’s gross profit decreased $5.4 million in the second quarter and decreased $18.7 million in the first six months compared to the same periods last year, when stated in U.S. dollars, primarily due to unfavorable currency translation rate changes and decreased international sales. The Global Finishes Group’s gross profit margins were up as a percent of sales in the quarter and up as a percent of sales in the first six months compared to the same periods last year due primarily to increased domestic sales. The Latin America Coatings Group’s gross profit decreased by $5.8 million in the second quarter and decreased by $11.0 million in the first six months from the same periods in the prior year, when stated in U.S. dollars, primarily due to unfavorable currency translation rate changes. The Administrative segment’s gross profit increased by $0.3 million in the second quarter and increased by $2.5 million in the first six months compared to the same periods last year.

Selling, general and administrative expenses (SG&A) increased $30.0 million in the second quarter and increased $75.2 million in the first six months of 2015 versus last year due primarily to increased expenses to support higher sales levels and net new store openings as well as the impact from a new paint program launch at a national retailer. As a percent of sales, consolidated SG&A increased slightly to 31.9 percent in the quarter and increased slightly to 34.5 percent in the first six months of 2015 from 31.8 percent in the second quarter and 34.3 percent in the first six months of 2014 primarily due to those same reasons.

The Paint Stores Group’s SG&A increased $28.6 million in the second quarter and increased $55.0 million in the first six months due primarily to net new store openings and general comparable store expenses to support higher sales levels. The Consumer Group’s SG&A was up $23.4 million in the quarter and increased $45.6 million in the first six months compared to the same periods last year primarily due to a new paint program launch at a national retailer. The Global Finishes Group’s SG&A decreased $10.2 million in the quarter and decreased $16.0 million in the first six months primarily due to currency translation rate changes and $4.3 million charged to SG&A in the second quarter 2014 related to the exit of business in Venezuela. The Latin America Coatings Group’s SG&A decreased $7.7 million in the second quarter and decreased $10.5 million in the first six months due to currency translation rate changes partially offset by timing of spending. The Administrative segment’s SG&A decreased $4.1 million in the second quarter and increased $1.0 million in the first six months primarily due to timing of spending.

Other general expense—net increased $9.2 million in the second quarter and increased $8.1 million in the first six months primarily due to increased provisions for environmental expenses in the Administrative segment.

Other expense (income) —net increased $5.8 million in the second quarter and increased $5.1 million in the first six months primarily due to increased foreign currency transaction losses and reduced miscellaneous income in both the Global Finishes and Latin America Coatings Groups.

Consolidated income before income taxes increased $78.6 million in the second quarter and increased $105.7 million in the first six months due to higher segment profits in Paint Stores and Consumer Groups. Segment profits in Global Finishes Group were slightly better for the second quarter and slightly worse for the first six months while segment profits in Latin America Coatings Group were lower for both the second quarter and first six months.

The effective income tax rate of 31.1 percent for the second quarter of 2015 was lower than the 32.1 percent effective income tax rate for the second quarter of 2014 primarily due to an increase in miscellaneous discrete tax benefits reflected in the second quarter of 2015 compared to second quarter of 2014. The effective income tax rate of 31.3 percent for the first six months of 2015 was lower than the 31.6 percent effective income tax rate for the first six months of 2014 primarily due to those same reasons.

Net income for the quarter increased $58.5 million to $349.9 million from $291.4 million in the second quarter of 2014 and increased $74.4 million to $481.3 million from $406.9 million in the first six months of 2014. Diluted net income per common share increased 25.9 percent from $2.94 per share in the second quarter of 2014 to $3.70 per

share in the second quarter of 2015. Diluted net income per common share increased 25.1 percent from $4.06 per share in the first six months of 2014 to $5.08 per share in the first six months of 2015.

Management considers a measurement that is not in accordance with U.S. generally accepted accounting principles a useful measurement of the operational profitability of the Company. Some investment professionals also utilize such a measurement as an indicator of the value of profits and cash that are generated strictly from operating activities, putting aside working capital and certain other balance sheet changes. For this measurement, management increases net income for significant non-operating

and non-cash expense items to arrive at an amount known as “Earnings Before Interest, Taxes, Depreciation and Amortization” (EBITDA). The reader is cautioned that the following value for EBITDA should not be compared to other entities unknowingly. EBITDA should not be considered an alternative to net income or cash flows from operating activities as an indicator of operating performance or as a measure of liquidity. The reader should refer to the determination of net income and cash flows from operating activities in accordance with U. S. generally accepted accounting principles disclosed in the Statements of Consolidated Income and Comprehensive Income and Statements of Consolidated Cash Flows. EBITDA as used by management is calculated as follows:

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Certain statements contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are based upon management’s current expectations, estimates, assumptions and beliefs concerning future events and conditions and may discuss, among other things, anticipated future performance (including sales and earnings), expected growth, future business plans and the costs and potential liability for environmental-related matters and the lead pigment and lead-based paint litigation. Any statement that is not historical in nature is a forward-looking statement and may be identified by the use of words and phrases such as “expects,” “anticipates,” “believes,” “will,” “will likel result,” “will continue,” “plans to” and similar expressions.

Readers are cautioned not to place undue reliance on any forward-looking statements. Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of the Company, that could cause actual results to differ materially from such statements and from the Company’s historical results and experience. These risks, uncertainties and other factors include such things as: (a) general business conditions, strengths of retail and manufacturing economies and the growth in the coatings industry; (b) competitive factors, including pricing pressures and product innovation and quality; (c) changes in raw material and energy supplies and pricing; (d) changes in the Company’s relationships with customers and suppliers; (e) the Company’s ability to attain cost savings from productivity initiatives; (f) the Company’s ability to successfully integrate past and future acquisitions into its existing operations, as well as the performance of the businesses acquired; (g) changes in general domestic economic conditions such as inflation rates, interest rates, tax rates, unemployment rates, higher labor and healthcare costs, recessions, and changing government policies, laws and regulations; (h) risks and uncertainties associated with the Company’s expansion into and its operations in Asia, Europe, South America and other foreign markets, including general economic conditions, inflation rates, recessions, foreign currency exchange rates, foreign investment and repatriation restrictions, legal and regulatory constraints, civil unrest and other external economic and political factors; (i) the achievement of growth in foreign markets, such as Asia, Europe and South America; (j) increasingly stringent domestic and foreign governmental regulations, including those affecting health, safety and the environment; (k) inherent uncertainties involved in assessing the Company’s potential liability for environmental-related activities; (l) other changes in governmental policies, laws and regulations, including changes in accounting policies and standards and taxation requirements (such as new tax laws and new or revised tax law interpretations); (m) the nature, cost, quantity and outcome of pending and future litigation and other claims, including the lead pigment and lead-based paint litigation, and the effect of any legislation and administrative regulations relating thereto; and (n) unusual weather conditions.

Readers are cautioned that it is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results and that the above list should not be considered to be a complete list. Any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk associated with interest rate, foreign currency and commodity fluctuations. The Company occasionally utilizes derivative instruments as part of its overall financial risk management policy, but does not use derivative instruments for speculative or trading purposes. The Company enters into option and forward currency exchange contracts and commodity swaps to hedge against value changes in foreign currency and commodities. The Company believes it may experience continuing losses from foreign currency translation and commodity price fluctuations. However, the Company does not expect currency translation, transaction, commodity price fluctuations or hedging contract losses to have a material adverse effect on the Company's financial condition, results of operations or cash flows. There were no material changes in the Company's exposure to market risk since the disclosure included in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Chairman and Chief Executive Officer and our Senior Vice President—Finance and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 and Rule 15d-15 of the Securities Exchange Act of 1934, as amended ("Exchange Act"). Based upon that evaluation, our Chairman and Chief Executive Officer and our Senior Vice President—Finance and Chief Financial Officer concluded that as of the end of the period covered by this report our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and accumulated and communicated to our management including our Chairman and Chief Executive Officer and our Senior Vice President—Finance and Chief Financial Officer, to allow timely decisions regarding required disclosure. There were no changes in our internal control over financial reporting identified in connection with the evaluation that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

For information with respect to certain environmental-related matters and legal proceedings, see the information included under the captions entitled “Environmental-Related Liabilities” and “Litigation” of “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and Notes 8 and 9 of the “Notes to Condensed Consolidated Financial Statements,” which is incorporated herein by reference.
