Chairman's statement

Group

In the 26 weeks to 31 July 2004 profit before tax at constant exchange rates rose by 27.1%*. A weakening of some 14% in the US dollar compared to the same period last year impacted on reported results. Notwithstanding this, profit before tax as reported at actual exchange rates increased by 13.7% to £53.9 million (H1 2003/04: £47.4 million restated; see prior year adjustment for details of new accounting policy). The results also reflect a non-recurring restructuring charge of £1.7 million in the UK.

Like for like sales increased by 7.4%. Total sales at constant exchange rates were up by 10.2%; at actual exchange rates the increase was 0.8% to £671.7 million (H1 2003/04: £666.2 million restated).

Operating profit at constant exchange rates rose by 22.9%. On a reported basis the increase was 9.5% at £58.6 million (H1 2003/04: £53.5 million restated). Operating margin improved to 8.7% (H1 2003/04: 8.0% restated). Earnings per share were up by 11.1% to 2.0p (H1 2003/04: 1.8p restated), the tax rate being reduced to 34.5% (H1 2003/04: 35.7% restated). The Board has declared an interim dividend of 0.375p per ordinary share (H1 2003/04: 0.341p), an increase of 10.0%.

Operating review

US (circa 70% of Group sales)

Operating profit increased by 28.1% at constant exchange rates. The division again outperformed its main competition and gained further market share. On a reported basis operating profit rose by 12.8% to £54.7 million (H1 2003/04: £48.5 million restated). This reflected strong like for like sales growth of 8.2%, resulting in further leverage of the cost base. Sales rose by 13.1% at constant exchange rates but were down 0.5% on a reported basis at £471.4 million (H1 2003/04: £473.7 million restated). The period was marked by an exceptionally good Valentine's Day performance. Subsequent trading in the period was strong, reflecting consistent execution of the division's growth strategy as well as benefit from soft sales comparatives in the first half of last year. The mall stores achieved a solid like for like sales increase and Jared, the off-mall destination superstore, performed particularly well. The average unit selling price rose by 9.9% reflecting price increases, further growth of Jared, and changes in product mix.

Gross margin was broadly maintained at a level comparable to the same period last year; a range of management initiatives, including price increases, offset the higher cost of gold and planned mix changes. Operating margin increased to 11.6%

(H1 2003/04: 10.2% restated). Bad debt charges were 2.5% of total sales (H1 2003/04: 2.6%), this being a further improvement on the average of the previous five years.

The bridal and diamond categories continued to perform well and the gold category benefited from programmes conducted in collaboration with the World Gold Council. The development of the luxury watch category in Jared again made excellent progress. The period also benefited from increased marketing activity, particularly over Valentine's Day, with more television advertising supporting Kay and Jared. A further shift to television advertising for both divisions is planned for the Christmas period although it is expected that the overall annual advertising cost to sales ratio will be broadly maintained at last year's level. Staff recruitment and training remains a priority, and other customer service initiatives include improved special order and repair procedures.

During the period there were 24 mall store openings and four closures. It is expected that 21 mall stores will be opened in the second half and, in line with the normal seasonal pattern, 16 closed. 34 mall stores were refurbished or relocated in the first half, with a further 51 scheduled for the second half. The development of Kay stores in off-mall centres, which started last year, continues with a further 10 sites being opened this year and additional locations planned for 2005. Three Jared stores opened in the period, with a further 12 scheduled for the second half. It is expected that approximately 8% will have been added to total US selling space by the end of the current year, at the top end of the strategic space growth target. The store complement will then consist of 1,039 mall stores, 20 off-mall Kay stores and 94 Jared stores.

UK (circa 30% of Group sales)

Like for like sales increased by 5.5% and total sales by 4.1% to £200.3 million (H1 2003/04: £192.5 million). UK operating profit rose by 11.5% prior to a non-recurring restructuring charge of £1.7 million. After accounting for the restructuring charge operating profit was £7.0 million (H1 2003/04: £7.8 million). The restructuring charge reflects the relocation and consolidation of central administration functions to enhance efficiency and should result in future cost savings of about £0.6 million per annum. The division again outperformed the general retail sector. H.Samuel (18% of Group sales) and Ernest Jones (12% of Group sales) achieved like

Edgar Filing: SIGNET GROUP PLC - Form 6-K

for like sales increases of 3.6% and 7.9% respectively; the performance over Valentine's Day was particularly strong. Gross margin was above last year's level and the operating margin, excluding the non-recurring charge, increased to 4.3% (H1 2003/04: 4.1%), reflecting improved store productivity.

* See note 10 for a reconciliation between published GAAP results and figures quoted at constant exchange rates.

Diamond participation in the sales mix again showed a further encouraging increase of about 1.65 percentage points in both H.Samuel and Ernest Jones. Compared to the same period last year the average unit selling price increased by 4.7% in H.Samuel and by 2.0% in Ernest Jones. Improvements took place in the diamond range, in-store merchandising presentation, staff training, marketing and store design.

The more open store design intended to enable greater interaction between the sales person and the customer, which has been developed and tested over the last three years, was rolled out to 53 stores in the first half (including one new store opening), bringing the total up to 105 (2 August 2003: 20 stores). By Christmas 147 stores, predominantly H.Samuel, are expected to be trading in the revised format, accounting for about 30% of the division's sales. A further two H.Samuel stores and seven Ernest Jones stores are planned to be opened by the end of the year, and it is anticipated that, net of six store closures, there will then be 399 H.Samuel and 203 Ernest Jones stores.

Group costs, net interest and taxation

Group central costs were £3.1 million (H1 2003/04: £2.8 million). Net interest payable fell to £4.7 million (H1 2003/04: £6.1 million), primarily as a result of the lower level of net debt. The tax charge was £18.6 million (H1 2003/04: £16.9 million restated).

Net debt

Net debt at 31 July 2004 was £131.1 million (2 August 2003: £164.7 million). Group gearing (that is the ratio of net debt to shareholders' funds) at 31 July 2004 was 18.3% (2 August 2003: 23.9% restated). Since the beginning of this financial year net debt has increased by £51.2 million before translation differences (H1 2003/04: up £25.0 million), reflecting seasonal factors, higher levels of capital expenditure and dividend payments together with the market purchase of shares to satisfy the exercise of share options. Fixed capital investment in the current year is expected to be about £80 million (2003/04: £50.9 million), reflecting additional space growth in the US and the increased store investment programme in the UK.

Prior year adjustment

Following an amendment to FRS 5 'Reporting The Substance Of Transactions' in the form of Application Note G - Revenue Recognition, the Group, for financial year 2004/05, has changed its accounting policy in respect of extended service agreements in the US. The Group now spreads the revenue arising from the sale of such agreements over the anticipated period of claims.

Previously the Group recognised the revenue from such plans at the date of sale with provision being made for the estimated cost of future claims arising.

As a result of the change the Group has restated prior years. Therefore the previously reported full year 2003/04 results now reflect a decrease in sales of £7.4 million and a non-cash reduction in profit before tax of £7.2 million. Consequently, restated profit before tax for the 52 weeks ended 31 January 2004 is £204.7 million. It is anticipated that the impact on results for the 52 weeks ending 29 January 2005 will be a decrease in sales of circa £6.5 million and in profit before tax of circa £5.8 million. The effect on reserves brought forward at 31 January 2004 is a reduction of £35.1 million net of deferred tax, with shareholders' funds at 31 January 2004 therefore restated to £692.5 million. There is no impact on the like for like sales figures. The restatement of 26 weeks to 2 August 2003 resulted in a reduction of £0.4 million in profit before tax.

Prospects

While there has been some softening of the trading environment in August on both sides of the Atlantic, this is not necessarily indicative of trading prospects for the balance of the year. Our businesses continue to implement a range of initiatives and are well positioned to compete during the important Christmas season.

Notes to the unaudited interim financial statements

for the periods ended 31 July 2004

1. Basis of preparation

These interim financial statements are unaudited and do not constitute statutory accounts within the meaning of Section 240 of the Companies Act 1985. They have been prepared on a basis which is consistent with the financial statements for the 52 weeks ended 31 January 2004. The comparative figures for the 52 weeks ended 31 January 2004 are not the Company's statutory accounts for that period. Those accounts have been reported on by the Company's auditors under Section 235 of the Companies Act 1985 and have been delivered to the Registrar of Companies. The report of the auditors was unqualified and did not contain a statement under Section 237(2) or Section 237(3) of the Companies Act 1985.

Notes to the unaudited interim financial statements (continued)

5. Translation differences

The exchange rates used for the translation of US dollar transactions and balances in these interim financial statements are as follows:

	31 July 2004	2 August 2003	31 January 2004
Profit and loss account (average rate)	1.83	1.61	1.68
Balance sheet (closing rate)	1.82	1.60	1.82

The effect of restating the balance sheet at 2 August 2003 to the exchange rates ruling at 31 July 2004 would be to decrease net debt by £19.9 million to £144.8 million. Restating the profit and loss account would decrease the operating profit for the 26 weeks ended 2 August 2003 by £5.8 million to £47.7 million and the profit before taxation for the 26 weeks ended 2 August 2003 by £5.0 million to £42.4 million.

[Back to Contents](#)**9. Prior year adjustment**

The accounting policy in respect of extended service agreements in the US was changed following an amendment to FRS 5

Reporting The Substance Of Transactions in the form of Application Note G Revenue Recognition . The Group now spreads the revenue arising from the sale of such agreements over the anticipated period of claims. Previously the Group recognised the revenue from such plans at the date of sale with provision being made for the estimated cost of future claims arising.

As a result of the change the Group has restated prior years. Therefore the previously reported 2003/04 results now reflect a decrease in sales of £7.4 million and a non-cash reduction in profit before tax of £7.2 million. Consequently, restated profit before tax for the 52 weeks ended 31 January 2004 is £204.7 million. The effect on brought forward reserves at 31 January 2004 is a reduction of £35.1 million net of deferred tax, with shareholders funds at 31 January 2004 therefore restated to £692.5 million.

The previously reported results for the 26 weeks ended 2 August 2003 now reflect a decrease in sales of £1.2 million and a non-cash reduction in profit before tax of £0.4 million. Consequently, restated profit before tax for the 26 weeks ended 2 August 2003 is £47.4 million.

10. Impact of constant exchange rates

The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as at constant exchange rates throughout this report. The Group considers this to be a useful measure for analysing and explaining changes and trends in the Group s results. The impact of the re-calculation of sales, operating profit, profit before tax, earnings per share and net debt at constant exchange rates, including a reconciliation to the Group s GAAP results, is analysed below.

Independent review report by KPMG Audit Plc to Signet Group plc

Introduction

We have been engaged by the Company to review the financial information set out on pages 4 to 9 and we have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information. This report is made solely to the Company in accordance with the terms of our engagement to assist the Company in meeting the requirements of the Listing Rules of the Financial Services Authority. Our review has been undertaken so that we might state to the Company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company for our review work, for this report, or for the conclusions we have reached.

Directors responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where they are to be changed in the next annual accounts in which case any changes, and the reasons for them, are to be disclosed.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4: *Review of interim financial information* issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of Group management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review is substantially less in scope than an audit performed in accordance with Auditing Standards and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the 13 weeks and 26 weeks ended 31 July 2004.
