FINANCIAL STATEMENTS (Continued)

(dollars in thousands, except per share amounts, unless otherwise noted)

Basis of Presentation The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with the instructions to Form 10-Q. As permitted by the rules and regulations of the United States Securities and Exchange Commission (SEC), the unaudited condensed consolidated financial statements contain certain condensed financial information and exclude certain footnote disclosures normally included in audited consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP). The accompanying condensed consolidated financial statements are unaudited and are prepared in accordance with U.S. GAAP. In the opinion of the Company's management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, including normal recurring accruals, necessary to fairly present the accompanying unaudited condensed consolidated financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with the audited combined/consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2007. The December 31, 2007 Unaudited Condensed Consolidated Statement of Financial Condition data was derived from audited consolidated financial statements, but does not include all disclosures required by U.S. GAAP. Operating results for the interim period are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2008.

The Company's policy is to consolidate all subsidiaries in which it has a controlling financial interest as well as variable interest entities where the Company is deemed to be the primary beneficiary. All intercompany balances and transactions with the Company's subsidiaries have been eliminated upon consolidation.

Reclassifications During the three and nine months ended September 30, 2008, certain balances for prior periods have been reclassified to conform to their current presentation. These reclassifications include the reclassification of \$398 and \$607 of certain fees within Evercore's Institutional Asset Management and Other business from Interest Income and Other Revenue to Investment Management Revenue and the reclassification of \$227 and \$514 of certain expenses from Other Operating Expenses to Occupancy and Equipment Rental and Travel and Related Expenses on the Unaudited Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2007, respectively, as well as the reclassification of \$700 of interest receivable from Accounts Receivable to Other Current Assets and \$145 of Board of Director fees from Accounts Payable and Accrued Expenses to Payable to Employees and Related Parties on the Unaudited Condensed Consolidated Statement of Financial Condition as of December 31, 2007.

Fair Value of Financial Instruments The majority of the Company's assets and liabilities are recorded at fair value or at amounts that approximate fair value. Such assets and liabilities include cash and cash equivalents, investments, securities, financial instruments, receivables and payables, and accruals.

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS 157), which among other things requires enhanced disclosures about financial instruments carried at fair value. See Note 9 for further information.

Note 3 Special Charges

Fund raising for Evercore Capital Partners III L.P. (ECP III) was deferred in the first half of 2008. As a result, the Company consolidated its private equity operations in New York resulting in Special Charges of \$1,695 and \$4,132 for the three and nine months end September 30, 2008. These charges were in connection with the write-off of certain capitalized costs associated with ECP III, employee severance, accelerated share-based vesting and other costs related to the closing of the Los Angeles office.

Note 4 Recent Accounting Pronouncements

SFAS 141(R) In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 141(R), *Business Combinations* (SFAS 141(R)). SFAS 141(R) requires the acquiring entity in a business combination to recognize the full fair value of assets acquired and liabilities assumed in the transaction (whether a full or partial acquisition); establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; requires expensing of most transaction and restructuring costs; and requires the acquirer to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. SFAS 141(R) is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

SFAS 160 In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51* (SFAS 160), which amends ARB 51. SFAS 160 requires reporting entities to present noncontrolling (minority) interests as equity (as opposed to as a liability or mezzanine equity) and provides guidance on the accounting for transactions between an entity and noncontrolling interests. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The adoption of SFAS 160 will effect the presentation of the Condensed Consolidated Financial Statements, primarily by including non-controlling interest as a separate component of stockholders' equity on the Condensed Consolidated Statements of Financial Condition.

FSP FAS 157-3 In October 2008, the FASB issued FSP No. FAS 157-3, *Determining the Fair Value of a Financial Asset in a Market That Is Not Active* (FSP FAS 157-3), which clarifies the application of SFAS 157 in an inactive market and provides an illustrative example to demonstrate how the fair value of a financial asset is determined when the market for that financial asset is inactive. FSP FAS 157-3 was effective upon issuance and did not have a material impact on the Company's financial condition, results of operations and cash flows.

SFAS 162 In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). SFAS 162 identifies, within the accounting literature established by the FASB, the sources and hierarchy of the accounting principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with GAAP. SFAS 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The adoption is not expected to have an impact on the Company's financial condition, results of operations and cash flows.

Note 5 Related Parties

Pursuant to the acquisition of Braveheart, the Company issued \$3,000 of interest-bearing notes to the former shareholders of Braveheart, which were paid-in-full on April 3, 2008.

Investment Management Revenue includes income from related parties earned from the Company's Private Equity Funds for portfolio company fees, management fees, expense reimbursements and realized and unrealized gains and losses of private equity fund investments. Total Investment Management revenues from related parties amounted to \$3,564 and \$9,242 for the three and nine months ended September 30, 2008, respectively, and \$4,007 and \$15,042 for the three and nine months ended September 30, 2007, respectively.

Income from related parties includes advisory fees earned from clients that have Senior Managing Directors as a member of their Board of Directors of \$0 for the three and nine months ended September 30, 2008, and \$14,010 and \$18,130 for the three and nine months ended September 30, 2007, respectively.

Note 6 Trading Securities

The Company had \$3,201 and \$3,890 of securities managed by Evercore Asset Management L.L.C. (EAM) as of September 30, 2008 and December 31, 2007, respectively. These investments are reflected as Trading Securities on the Unaudited Condensed Consolidated Statements of Financial Condition and are stated at quoted market value. Also included in Trading Securities on the Unaudited Condensed Consolidated Statements of Financial Condition are \$0 and \$3,757 of EAM Fund Investments as of September 30, 2008 and December 31, 2007, respectively. Proceeds from the EAM hedge fund have been reallocated into cash positions and alternative EAM products. These investments principally consisted of readily-marketable securities. Note 7 Financial Instruments Owned and Pledged as Collateral at Fair Value, Securities Purchased Under Agreements to Resell and Securities Sold Under Agreements to Repurchase

The Company, through PCB, enters into repurchase agreements with clients seeking overnight money market returns whereby PCB transfers to the clients Mexican government securities in exchange for cash and concurrently agrees to repurchase the securities at a future date for an amount equal to the cash exchanged plus a stipulated premium or interest factor. PCB deploys the cash received from, and acquires the securities deliverable to, clients under these repurchase arrangements by purchasing securities in the open market, which the Company reflects as Financial Instruments Owned and Pledged as Collateral at Fair Value on the Unaudited Condensed Consolidated Statements of Financial Condition, or by entering into reverse repurchase agreements with unrelated third parties. The Company accounts for these repurchase and reverse repurchase agreements as collateralized financing transactions. The Company records a liability on its Unaudited Condensed Consolidated Statements of Financial Condition in relation to repurchase transactions executed with clients as Securities Sold Under Agreements to Repurchase. The Company records as assets on its Unaudited Condensed Consolidated Statements of Financial Condition, Financial Instruments Owned and Pledged as Collateral at Fair Value (where the Company has acquired the securities deliverable to clients under these repurchase arrangements by purchasing securities in the open market) and Securities Purchased Under Agreements to Resell (where the Company has acquired the securities deliverable to clients under these repurchase agreements by entering into reverse repurchase agreements with unrelated third parties). These Mexican government securities have an estimated average time to maturity of approximately 3.5 years and are pledged as collateral against repurchase agreements which are collateralized financing agreements. Generally, collateral is posted equal to the contract value at inception and is subject to market changes. These repurchase agreements are primarily with institutional customer accounts managed by PCB, are generally in overnight maturities and permit the counterparty to pledge the securities.

Note 8 Investments

The Company's investments reported in the Unaudited Condensed Consolidated Statements of Financial Condition consist of investments in Private Equity Funds and the Company's equity interest in EAM and Evercore Pan-Asset Capital Management Limited (Pan).

A summary of the Company's investment in the Private Equity Funds as of September 30, 2008 and December 31, 2007 is as follows:

	September 30, 2008	December 31, 2007
ECP II	\$ 14,123	\$ 12,507
Discovery Americas I, L.P. (Discovery Fund)	2,691	2,308
Evercore Mexico Capital Partners II (EMCP II)	2,048	
Total Private Equity Funds	\$ 18,862	\$ 14,815

Net realized and unrealized gains on Private Equity Fund investments, including incentive fees, were \$779 and \$2,457 for the three and nine months ended September 30, 2008, respectively, and \$368 and \$4,290 for the three and nine months ended September 30, 2007, respectively, and are included on the Unaudited Condensed Consolidated Statements of Operations in Investment Management Revenue. The Company may be obligated to repay certain carried interest previously recorded in the event that the investments perform poorly on both a realized and unrealized basis. As of September 30, 2008, the Company had approximately \$4,366 of previously recognized carried interest that may be subject to repayment.

A summary of the Company's equity investments as of September 30, 2008 and December 31, 2007 is as follows:

	September 30, 2008	December 31, 2007
EAM	\$ 2,752	\$ 1,468
Pan	7,199	
Total Equity Investments	\$ 9,951	\$ 1,468

Pursuant to the Amended and Restated Limited Liability Company Agreement, as of April 1, 2008, the Company holds a 32.7% interest in EAM that is accounted for under the equity method. The investment resulted in unrealized losses of \$40 and \$315 for the three and nine months ended September 30, 2008, respectively, and \$247 and \$802 for the three and nine months ended September 30, 2007, respectively. Pursuant to the terms of the Company's investment in EAM, if the Company were to engage in similar asset management businesses as EAM, EAM's management has the right to acquire the Company's interest in EAM at a discounted price after a six month grace period. In September, EAM's management asserted that circumstances triggering such repurchase right had occurred and that the six month grace period had commenced. While the Company has not concluded such repurchase right has been triggered, the Company and EAM's management are in discussions concerning such right and other matters related to EAM.

In the third quarter of 2008, the Company made an equity method investment in Pan and maintains a 50% interest in the investment at September 30, 2008. This investment resulted in unrealized losses of \$163 for the three months ended September 30, 2008. Realized and unrealized gains and losses on equity investments are included on the Unaudited Condensed Consolidated Statements of Operations in Investment Management Revenue.

The Company's investments in Private Equity Funds, which consist of general partner interests and the Company's equity interests in EAM and Pan, are relatively high-risk and illiquid assets.

Note 9 Fair Value Measurements

The Company adopted SFAS 157 as of January 1, 2008, which among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. The adoption did not have a material impact on the results of the Company. SFAS 157 establishes a hierarchical disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is affected by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level I Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments included in Level I include listed equities and listed derivatives. As required by SFAS 157, the Company does not adjust the quoted price for these investments, even in situations where Evercore holds a large position and a sale could reasonably impact the quoted price. Level I investments include financial instruments owned and pledged as collateral and trading securities managed by EAM of \$246,283 and \$3,201, respectively, as of September 30, 2008.

(dollars in thousands, except per share amounts, unless otherwise noted)

Level II Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. The Company did not have any Level II investments as of September 30, 2008.

Level III Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. The Company did not have any Level III investments as of September 30, 2008.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

Note 10 Issuance of Notes Payable and Warrants

On August 21, 2008, the Company entered into a Purchase Agreement with Mizuho Corporate Bank, Ltd. (Mizuho) pursuant to which Mizuho purchased from the Company \$120,000 principal amount of senior unsecured notes due 2020 with a 5.20% coupon (the Senior Notes) and warrants to purchase 5,454,545 shares of Evercore Class A Common Stock at \$22.00 per share (the Warrants) expiring in 2020. Based on their relative fair value at September 30, 2008, the Senior Notes and Warrants were reflected in Notes Payable and Additional Paid-In-Capital on the Condensed Consolidated Statement of Financial Condition at \$94,832 and \$23,708, respectively. The Senior Notes have an effective yield of 7.94%.

The holder of the Senior Notes may require the Company to purchase, for cash, all or any portion of the holder's Senior Notes upon a change of control of the Company for a price equal to the aggregate accreted amount of such Senior Notes, (the Accreted Amount), plus accrued and unpaid interest. Senior Notes held by Mizuho will be redeemable at the Accreted Amount at the option of the Company at any time within 90 days following the date on which Mizuho notifies the Company that it is terminating their new strategic alliance agreement (Strategic Alliance Agreement). Senior Notes held by any other holder than Mizuho will be redeemable at the Accreted Amount (plus accrued and unpaid interest) at the option of the Company at any time beginning on the third anniversary of closing. In the event of a default under the indenture, the trustee or holders of 33 1/3% of the Senior Notes may declare that the Accreted Amount is immediately due and payable.

Pursuant to the agreement, Mizuho may not transfer the Senior Notes or Warrants until August 16, 2012 or, if the Strategic Alliance Agreement is terminated, the later of one year following such termination and the third anniversary of the closing of the purchase of the Senior Notes and Warrants. The Company has a right of first offer on any proposed transfer by Mizuho of the Warrants, Common Stock purchased in the open market or acquired by exercise of the Warrants and associated Common Stock issued as dividends.

The exercise price for the Warrants is payable, at the option of the holder of the Warrants, either in cash or by tender of Senior Notes at the Accreted Amount, at any point in time.

Note 11 Stockholders Equity

During the first nine months of 2008, the Company purchased 375,246 Class A common shares from employees and the former shareholders of Braveheart at market values ranging from \$9.70 to \$18.44 per share. The result was an increase in Treasury Stock of \$6,280 on the Company's Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2008. No repurchases took place pursuant to the Company's share repurchase program during 2008.

The former shareholders of Braveheart also received 431,607 Class A common shares during the first quarter of 2008 in conjunction with the Braveheart sale and purchase agreement, resulting in compensation expense of \$7,452 and an increase to Common Stock and Additional Paid-In-Capital of \$4 and \$7,448, respectively, on the Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2008.

During the first nine months of 2008, 89,864 Evercore LP partnership units were gifted to various charities and converted into Class A common shares, resulting in an increase to Common Stock and Additional Paid-In-Capital of \$1 and \$512, respectively, on the Unaudited Condensed Consolidated Statement of Financial Condition as of September 30, 2008.

During the three and nine months ended September 30, 2008, the Company declared and paid dividends of \$0.12 and \$0.36 per share, respectively, totaling \$1,575 and \$4,617. The Company's Board of Directors declared on October 28, 2008, a quarterly cash dividend of \$0.12 per share, to the holders of Class A common stock as of November 28, 2008, which will be paid on December 12, 2008.

Note 12 Minority Interest

Minority Interest recorded in the unaudited condensed consolidated financial statements of the Company relates to a 55% interest of the limited partners (Members) in Evercore LP and a 30% interest in PCB not owned by the Company.

Minority interest ownership was \$35,113 and \$46,339 as of September 30, 2008 and December 31, 2007, respectively. Changes in the minority ownership during the nine months ended September 30, 2008 were as follows:

	Amount
Balance at January 1, 2008	\$ 46,339
Operating Income	2,872
Distributions to partners	(14,789)
Exchange of Evercore LP partnership units for Class A common shares	(247)

(dollars in thousands, except per share amounts, unless otherwise noted)

consequently the effect of their exchange into shares of Class A common stock has been excluded from the calculation of diluted net income (loss) per share of Class A common stock. The units that would have been included in the computation of diluted net income (loss) per share of Class A common stock if the effect would have been dilutive were 15,146 and 15,188 for the three and nine months ended September 30, 2008, respectively and 15,258 and 14,362 for the three and nine months ended September 30, 2007, respectively. Antidilution is the result of vested RSUs impacting both basic and diluted EPS but not impacting the minority interest ownership calculation.

- (b) During the three and nine months ended September 30, 2008, the Warrants were antidilutive and consequently the additional shares have been excluded from the calculation of diluted net income per share of Class A common stock. The additional shares that would have been included in the computation of diluted net income per share of Class A common stock if the effect would have been dilutive were 5,454,545 for the three and nine months ended September 30, 2008 reduced for the impact of the Treasury Stock Method, if applicable. FASB 128, *Earnings per Share*, requires that the dilutive effect of warrants with multiple conversion alternatives be determined based on the alternative which is most advantageous to the holder of the exchangeable Senior Notes and Warrants. This will generally occur when the market value of the Company's stock exceeds the exercise price of the Warrants, requiring dilution to be determined using the Treasury Stock Method. In certain limited circumstances the dilutive effect of conversion would be calculated using the If-Converted Method.
- (c) During the three months ended September 30, 2008 and the nine months ended September 30, 2007, the additional shares of the Company's common stock assumed to be issued pursuant to non-vested restricted stock, RSUs and certain Evercore LP partnership units as calculated using the treasury stock method were antidilutive and consequently the additional shares have been excluded from the calculation of diluted net loss per share of Class A common stock. The additional shares that would have been included in the computation of diluted net loss per share of Class A common stock if the effect would have been dilutive were 262 and 78 for the three months ended September 30, 2008 and the nine months ended September 30, 2007, respectively. Antidilution is the result of the Company having a loss for the three months ended September 30, 2008 and the nine months ended September 30, 2007.

The shares of Class B common stock have no right to receive dividends or a distribution on liquidation or winding up of Evercore Partners Inc. The shares of Class B common stock do not share in the earnings of Evercore Partners Inc. and no earnings are allocable to such class. Accordingly, basic and diluted net income (loss) per share of Class B common stock have not been presented.

Note 14 Stock-Based Compensation

Subsequent to the IPO, the Company granted new and existing employees RSUs and shares of restricted stock. Certain of these awards vest upon the same terms as the RSUs issued at the time of the IPO (Event-based Awards) and certain of these awards vest from one to five years (Service-based Awards).

During the nine months ended September 30, 2008, pursuant to the Evercore Partners Inc. 2006 Stock Incentive Plan, the Company granted to certain employees 1,705,304 RSUs and 75,000 shares of restricted stock. Of these awards, 287,301 are fully-vested, 22,540 have been forfeited and 1,410,270 are unvested and will vest over one to five years and 60,193 are unvested and will vest subject to event-based vesting criteria comparable to the Evercore LP partnership units.

During the nine months ended September 30, 2007, the Company recorded \$127,627 in compensation expense representing the value of 5,987,683 Event-based Awards that vested, primarily relating to the May 2007 follow-on offering of Evercore Partners Inc. Class A common stock (the Follow-On Offering). For further discussion of the Follow-On Offering, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

No Event-based Awards vested during the nine months ended September 30, 2008. Management has concluded that at the current time it is not probable that the conditions relating to the vesting of unvested Event-based Awards will be achieved or satisfied. The Company had 26,898 and 138,718 forfeited Service-based and Event-based Awards during the first nine months of 2008. Compensation expense related to Service-based Awards was \$7,888 and \$21,054 for the three and nine months ended September 30, 2008, respectively, and \$2,991 and \$4,662 for the three and nine months ended September 30, 2007, respectively.

Note 15 Commitments and Contingencies

Operating Leases The Company leases office space under non-cancelable lease agreements, which expire on various dates through 2023. Occupancy and Equipment Rental on the Unaudited Condensed Consolidated Statements of Operations includes occupancy rental expense relating to operating leases of \$2,269 and \$7,056 for the three and nine months ended September 30, 2008, respectively, and \$2,725 and \$7,257 for the three and nine months ended September 30, 2007, respectively.

In conjunction with the leases of office space in New York and San Francisco, the Company has entered into unsecured letters of credit of \$4,880.

The Company has entered into various operating leases for the use of certain office equipment. Rental expense for office equipment totaled \$84 and \$273 for the three and nine months ended September 30, 2008, respectively, and \$134 and \$337 for the three and nine months ended September 30, 2007, respectively. Rental expense for office equipment is included in Occupancy and Equipment Rental on the Unaudited Condensed Consolidated Statements of Operations.

Other Commitments As of September 30, 2008, the Company has unfunded commitments for capital contributions of \$8,703 to the Private Equity Funds. These commitments will be funded as required through the end of each Private Equity Fund's investment period, subject to certain conditions. Such commitments are satisfied in cash and are generally required to be made as investment opportunities are consummated by the Private Equity Funds.

PCB maintains a line of credit with BBVA Bancomer to fund its trading activities on an intra-day and overnight basis. The intra-day facility is approximately \$10,000 and secured with trading securities. No interest is charged on the intra-day facility. The overnight facility is charged the Inter-Bank Balance Interest Rate plus 10 basis points and is secured with trading securities. There have been no draw downs on PCB's line of credit since August 10, 2006.

As of September 30, 2008, the Company estimates the contractual obligations related to the Tax Receivable Agreements (as noted the Company's Annual Report on Form 10-K for the year ended December 31, 2007) to be \$39,350. The Company expects to pay to the counterparties to the Tax Receivable Agreement \$1,237 within one year or less, \$8,168 in one to three years, \$7,687 in three to five years and \$22,258 after five years.

As of September 30, 2008, the Company estimates the contractual obligations related to the Senior Notes to be \$194,880. Pursuant to the Senior Notes, we expect to make payments to the notes holder of \$6,240 within one year or less, \$18,720 in one to three years, \$12,480 in three to five years and \$157,440 after five years.

On July 21, 2008, the Company committed capital of approximately \$8,900 to Pan, a newly-created asset management firm. The Capital is expected to be drawn down as needed over a period of seven years, subject to the Board's approval for the first five years.

On September 8, 2008, the Company committed capital, subject to certain conditions, of \$150,000 to HighView Investment Group SAC Ltd. (HighView), a newly-created asset management firm. The Capital is expected to be drawn down as needed over a period of four to five years.

Legal

In the normal course of business, from time to time the Company and its affiliates may be involved in judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its businesses. In addition, Mexican, United Kingdom and United States government agencies and self-regulatory organizations, as well as state securities commissions in the United States, conduct periodic examinations and initiate administrative proceedings regarding the Company's business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer or its directors, officers or employees.

The Company contests liability and/or the amount of damages as appropriate in each pending matter. In view of the inherent difficulty of predicting the outcome of such matters, particularly in cases where claimants seek substantial or indeterminate damages or where investigations and proceedings are in the early stages, the Company cannot predict with certainty the loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, the Company believes, based on current knowledge and after consultation with counsel, that the outcome of the pending matters will not have a material adverse effect on the consolidated financial condition of the Company, although the outcome of such matters could be material to the Company's operating results and cash flows for a particular future period, depending on, among other things, the level of the Company's revenues or income for such period. Legal reserves are established in accordance with SFAS No. 5, *Accounting for Contingencies* (SFAS 5). Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change.

Additionally, in the past, the Company or its present personnel have been named as a defendant in civil litigation matters involving present or former clients.

Note 16 Regulatory Authorities

EGL is a U.S. registered broker-dealer and is subject to the net capital requirements of Rule 15c3-1 under the Exchange Act. Rule 15c3-1 requires the maintenance of net capital, as defined, which shall be the greater of \$5 or 6²/₃% of aggregate indebtedness, as defined. EGL's regulatory net capital as of September 30, 2008 and December 31, 2007 was \$26,946 and \$16,937, respectively, which exceeded the minimum net capital requirement by \$25,978 and \$15,718, respectively. Certain other non-U.S. subsidiaries are subject to various securities and banking regulations and capital adequacy requirements promulgated by the regulatory and exchange authorities of the countries in which they operate. These subsidiaries have consistently operated in excess of their local capital adequacy requirements.

Note 17 Income Taxes

The Company's Provision for Income Taxes was \$1,475 and \$3,642 for the three and nine months ended September 30, 2008, respectively, and \$3,217 and \$8,795 for the three and nine months ended September 30, 2007, respectively. The effective tax rate was 78.9% and 51.0% for the three and nine months ended September 30, 2008, respectively, and 31.1% and (12.7%) for the three and nine months ended September 30, 2007, respectively. The effective tax rate for 2008 reflects the impact of the result of the realized tax deduction, for certain share-based compensation awards, being lower than the deferred tax benefit recognized at the time of expensing such awards due to a decrease in the Company's share price. The effective tax rate for the nine months ended September 30, 2007 was impacted by discrete items, including the Follow-On Offering, which relates to stock compensation expense that is non-deductible for future periods.

Included in the balance of unrecognized tax benefits as of September 30, 2008, are \$1,676 of tax benefits that, if recognized, would affect the effective tax rate. The Company recognizes interest accrued related to unrecognized tax benefits and penalties as income tax expense. Related to the unrecognized tax benefit, the Company accrued interest of \$126 during the first nine months of 2008 and in total, as of September 30, 2008, had recognized a liability for penalties of \$510 and interest of \$607.

Note 18 Segment Operating Results

The Company's business results are categorized into the following two segments: Advisory and Investment Management. Advisory includes providing advice on mergers, acquisitions, divestitures, leveraged buyouts, restructurings, and similar corporate finance matters. Investment Management includes the management of outside capital invested and the Company's principal investments.

The Company's segment information for the three and nine months ended September 30, 2008 and 2007 is prepared using the following methodology:

Revenue and expenses directly associated with each segment are included in determining operating income.

Expenses not directly associated with specific segments are allocated based on the most relevant measures applicable, including headcount and other factors.

Segment assets are based on those directly associated with each segment, or for certain assets shared across segments, these assets are allocated based on the most relevant measures applicable, including headcount and other factors.

Investment gains and losses, interest income and interest expense are allocated between the segments based on the segment in which the underlying asset or liability is held.

Each segment's Operating Expenses include: a) employee compensation and benefits expenses that are incurred directly in support of the segment and b) non-compensation expenses, which include expenses for premises and occupancy, professional fees, travel and entertainment, communications and information services, equipment and indirect support costs (including compensation and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, legal, facilities management and senior management activities. Other Expenses include stock-based compensation costs associated with the May 2007 Follow-On Offering, a

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with Evercore Partners Inc.'s unaudited condensed consolidated financial statements and the related notes included elsewhere in this Form 10-Q.

Forward-Looking Statements

This report contains or incorporates by reference forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act, which reflect our current views with respect to, among other things, our operations and financial performance. In some cases, you can identify these forward-looking statements by the use of words such as "outlook," "believes," "expects," "potential," "continues," "may," "should," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates" or the negative version of these and comparable words. Such forward-looking statements are subject to various risks and uncertainties.

Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. All statements other than statements of historical fact are forward-looking statements and are based on various underlying assumptions and expectations and are subject to known and unknown risks, uncertainties and assumptions, and may include projections of our future financial performance based on our growth strategies and anticipated trends in Evercore's business. We believe these factors include, but are not limited to, those described under "Risk Factors" discussed in the Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on March 14, 2008. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included or incorporated by reference in this report. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for our management to predict all risks and uncertainties, nor can management assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Follow-On Offering of Evercore Partners Inc. Class A Common Stock

On May 23, 2007, we completed a follow-on offering of 1,581,778 shares of Class A common stock. For a complete discussion of the Follow-On Offering, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Key Financial Measures

Revenue

Total revenues reflect revenues from Advisory and Investment Management that includes transaction-related client reimbursements plus interest income and other revenue. Net revenues reflect total revenues less interest expense related to repurchase agreements, Senior Notes and other borrowings.

Advisory. Our Advisory business earns fees from our clients for providing advice on mergers, acquisitions, restructurings, leveraged buy-outs, recapitalizations and other corporate transactions. The amount and timing of the fees paid vary by the type of engagement. In general, fees are paid at the time we sign an engagement letter, during the course of the engagement or when an engagement is completed. The majority of our advisory revenue comes from fees that are dependent on the successful completion of a transaction. A transaction can fail to be completed for many reasons, including failure to agree upon final terms with the counterparty, to secure necessary board or shareholder approvals, to secure necessary financing or to achieve necessary regulatory approvals.

Table of Contents

Investment Management. Our Investment Management business includes operations related to the management of the Private Equity Funds, Institutional Asset Management and other business activities that include wealth management. Revenue sources primarily include management fees, performance fees (including carried interest), fees earned from portfolio company fees and gains (or losses) on our principal investments.

Management fees are generally a percentage of committed capital or invested capital at rates agreed with the investment funds we manage or with the individual client. Performance fees are earned when specified benchmarks are exceeded. In certain circumstances, such fees are subject to claw-back provisions. Portfolio Company fees include monitoring, director and transaction fees associated with services provided to the portfolio companies of the Private Equity Funds we manage. Gains and losses include both realized and unrealized gains and losses on principal investments, including those arising from our equity interest in investment partnerships.

Net Interest Revenue. Net interest revenue is derived from investing customer funds in financing transactions by PCB. These transactions are primarily repurchases and resales of Mexican government securities. Revenue and expenses associated with these transactions are recognized over the term of the repurchase or resale transaction. Net interest revenue also includes interest expense associated with the Senior Notes as well as income earned on cash deposited with financial institutions.

Transaction-Related Client Reimbursements. In both our Advisory and Investment Management segments we make various transaction-related expenditures, such as travel and professional fees, on behalf of our clients. Pursuant to the engagement letters with our clients or the contracts with the limited partners in the Private Equity Funds we manage, these expenditures may be reimbursable. We define these expenses as transaction-related expenses and record such expenditures as incurred and record revenue when it is determined that clients have an obligation to reimburse us for such transaction-related expenses. Generally, client expense reimbursements are recorded as revenue on the Unaudited Condensed Consolidated Statements of Operations on the later of the date an engagement letter is executed or the date we pay or accrue the expense.

Operating Expenses

Employee Compensation and Benefits Expense. The Company maintains compensation programs, including base salary, cash and equity bonus awards and benefits programs and manages compensation to estimates of competitive levels based on market conditions. Our level of compensation for the current period reflects our plan to maintain competitive compensation levels to retain key personnel during market down cycles, as well as the impact of new Senior Managing Directors, hired in 2007, on 2008 compensation expense, including grants of equity awards valued at 2007 stock prices.

We changed our annual compensation program during the second quarter of 2007 to include stock-based compensation awards as a component of the annual bonus awards for certain U.S. Senior Managing Directors. These equity awards are subject to annual vesting requirements over a four-year period beginning at the date of grant, which occurred in early 2008; accordingly, the expense is being amortized over the vesting period.

Non-Compensation Expenses. The balance of our operating expenses includes costs for occupancy and equipment rental, professional fees, travel and related expenses, communications and information services, depreciation and amortization and other operating expenses. We refer to all of these expenses as non-compensation expenses. We incurred significant additional non-compensation expenses in 2007 associated with compliance with Section 404 of the Sarbanes-Oxley Act of 2002.

Other Expenses

Other Expenses include stock-based compensation costs associated with the May 2007 Follow-On Offering, a 2007 stock-based compensation charge related to a severance agreement, a charge associated with deferred consideration pursuant to the Braveheart Sale and Purchase Agreement in 2008, amortization of intangibles

Table of Contents

associated with the acquisitions of Protego and Braveheart and Special Charges in connection with the 2008 write-off of certain capitalized costs associated with ECP III and employee severance, accelerated share-based vesting and other costs related to the closing of the Los Angeles office.

Provision for Income Taxes

We account for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes*, which requires the recognition of tax benefits or expenses on temporary differences between the financial reporting and tax bases of its assets and liabilities.

Minority Interest

We record significant minority interest relating to the ownership interest of our Senior Managing Directors and their estate planning vehicles in Evercore LP as well as the portion of PCB not owned by Evercore. Evercore Partners Inc. is the sole general partner of Evercore LP. Accordingly, although Evercore Partners Inc. has a minority economic interest in Evercore LP, it has a majority voting interest and controls the management of Evercore LP. As a result, Evercore Partners Inc. consolidates Evercore LP and records a minority interest for the economic interest in Evercore LP held by the Members.

During the nine months ended September 30, 2007, the vesting of additional Evercore LP partnership units in concurrence with the Follow-On Offering resulted in an increase in the minority interest relating to the ownership interest of our Senior Managing Directors and their estate planning vehicles in Evercore LP. This was offset by the exchange of our Class A common stock for Evercore LP partnership units and the purchase of additional Evercore LP partnership units by us in conjunction with the Follow-On Offering.

Results of Operations

Following is a discussion of our results of operations for the three and nine months ended September 30, 2008 and 2007. For a more detailed discussion of the factors that affected the revenue and operating expenses of our Advisory and Investment Management business segments in these periods, see the discussion in **Business Segments** below.

Table of Contents

Three Months Ended September 30, 2008 versus September 30, 2007

Net revenue was \$56.8 million in the three months ended September 30, 2008; a decrease of \$15.6 million, or 22%, versus net revenue of \$72.4 million in the three months ended September 30, 2007.

Total Operating Expenses were \$52.8 million in the three months ended September 30, 2008 as compared to \$56.1 million in the same period in 2007, a 6% decrease. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$40.3 million in the three months ended September 30, 2008 versus expense of \$40.5 million in the same period in 2007. Non-compensation expenses as a component of Operating Expenses were \$12.5 million in the three months ended September 30, 2008, a decrease of \$3.1 million, or 20% over non-compensation operating expenses of \$15.6 million in the three months ended September 30, 2007. Non-compensation operating expenses decreased in the three months ended September 30, 2008 as compared to the same period in 2007 primarily as a result of decreases in Professional Fees and Occupancy and Equipment Rental. The decrease was partially offset by an increase in Travel and Related Expenses and Communications and Information Services as a result of increase travel and research costs. The decrease in Professional Fees is primarily related to the completion of projects associated with Sarbanes-Oxley compliance as well as renegotiated contracts with vendors. The decrease in Occupancy and Equipment Rental is primarily related to excess office space which existed during the third quarter of last year.

Total Other Expenses of \$2.2 million in the three months ended September 30, 2008, relate to Special Charges of \$1.7 million in connection with employee severance, accelerated share-based vesting and other costs related to the closing of the Los Angeles office and \$0.5 million of charges related to the amortization of intangibles associated with the acquisitions of Protego and Braveheart. Total Other Expenses of \$5.9 million for the three months ended September 30, 2007 included a stock-based compensation charge related to a severance agreement of \$2.2 million and costs related to the amortization of intangible assets of \$3.7 million.

The provision for income taxes in the three months ended September 30, 2008 was \$1.5 million, a decrease of \$1.7 million versus \$3.2 million in the three months ended September 30, 2007. The decrease was primarily due to a decrease of \$8.5 million in operating income resulting in operating income of \$1.9 million for the three months ended September 30, 2008 compared to operating income of \$10.4 million for the three months ended September 30, 2007. The effective tax rate was 78.9% for the three months ended September 30, 2008 and 31.1% for the three months ended September 30, 2007. The effective tax rate for 2008 is higher than normal primarily as a result of the realized tax deduction, for certain share-based compensation awards, being lower than the deferred tax benefit recognized at the time of expensing such awards due to a decrease in the Company's share price.

Minority interest was \$0.9 million in the three months ended September 30, 2008 compared to \$4.8 million in the same period in 2007, reflecting lower net income before minority interest for the three months ended September 30, 2008.

Nine Months Ended September 30, 2008 versus September 30, 2007

Net revenue was \$161.4 million in the nine months ended September 30, 2008; a decrease of \$66.4 million, or 29%, versus net revenue of \$227.8 million in the nine months ended September 30, 2007.

Total Operating Expenses were \$141.3 million in the nine months ended September 30, 2008 as compared to \$157.3 million in the same period in 2007, a 10% decrease. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$104.6 million in the nine months ended September 30, 2008, a decrease of \$8.8 million, or 8%, versus expense of \$113.4 million in the same period in 2007. The decrease is primarily due to lower amounts of discretionary compensation reflecting lower revenues in the first nine months of 2008. Non-compensation expenses as a component of Operating Expenses were \$36.7 million in the nine months ended September 30, 2008, a decrease of \$7.2 million, or 16% over non-compensation operating expenses of \$43.9 million in the nine months ended September 30, 2007. Non-compensation operating expenses

Table of Contents

decreased in the nine months ended September 30, 2008 as compared to the same period in 2007 primarily as a result of decreases in Professional Fees. The decrease was partially offset by an increase in Travel and Related Expenses and Communications and Information Services as a result of increased travel and research costs. The decrease in Professional Fees is primarily related to the completion of projects associated with Sarbanes-Oxley compliance as well as renegotiated contracts with vendors.

Total Other Expenses of \$13.0 million in the nine months ended September 30, 2008 relate to Special Charges of \$4.1 million in connection with the write-off of certain capitalized costs associated with ECP III and employee severance, accelerated share-based vesting and other costs related to the closing of the Los Angeles office, \$7.5 million of deferred consideration pursuant to the Braveheart Sale and Purchase Agreement and amortization of intangibles associated with the acquisitions of Protego and Braveheart of \$1.4 million. Total Other Expenses of \$139.7 million for the nine months ended September 30, 2007 include costs incurred for the vesting of Evercore LP Units and stock-based awards associated with the completion of the Follow-On Offering in May 2007 of \$125.9 million, a stock-based compensation component of a severance agreement of \$2.2 million and the amortization of intangible assets of \$11.6 million.

The provision for income taxes in the nine months ended September 30, 2008 was \$3.6 million, a decrease of \$5.2 million versus \$8.8 million in the nine months ended September 30, 2007. The decrease was primarily due to the fact that there were non-deductible compensation items related to the Follow-On Offering in 2007. The effective tax rate was 51.0% for the first nine months of 2008 as a result of certain adjustments; however, the effective tax rate excluding these adjustments would have been approximately 33.7%. The normalized 33.7% effective tax rate increased from the normalized 27.8% effective tax rate in the first nine months of 2007 primarily as a result of the fact that the public company increased its ownership interest in Evercore LP over the period; therefore a higher percentage of income was subject to corporate level federal, state and city taxes in 2008. For the full year ended December 31, 2008, the effective tax rate is expected to be approximately 48%.

Minority interest was \$2.9 million in the nine months ended September 30, 2008 compared to \$(40.3) million in the same period in 2007, reflecting higher net income before minority interest for the first nine months of 2008.

Business Segments

The following data presents revenue, expenses and contributions by business segment. Each segment's Operating Expenses include: (1) compensation and benefits expense incurred directly in support of the businesses of the segment (2) non-compensation expenses, which include directly incurred expenses for premises and occupancy, professional fees, travel and entertainment, communications and information services and equipment and (3) an allocation of indirect support costs (including compensation and other operating expenses related thereto) for administrative services. These administrative services include certain accounting, tax, legal, facilities management and senior management activities. Such support costs are allocated to the relevant segments based on various statistics such as headcount, square footage, transactional volume and revenue. Corporate level Operating Expenses for prior periods have been allocated to their appropriate business segments to conform to the current presentation. Other Expenses include stock-based compensation costs associated with the May 2007 Follow-On Offering, a 2007 stock-based compensation charge related to a severance agreement, a charge associated with deferred consideration pursuant to the Braveheart Sale and Purchase Agreement in 2008, amortization of intangibles associated with the acquisitions of Protego and Braveheart and Special Charges in connection with the 2008 write-off of certain capitalized costs associated with ECP III and employee severance, accelerated share-based vesting and other costs related to the closing of the Los Angeles office.

Table of Contents*Advisory Results of Operations****Three Months Ended September 30, 2008 versus September 30, 2007***

Advisory Revenue, including Interest Income and Other Revenue, net, allocated to this segment, was \$52.5 million in the three months ended September 30, 2008 compared to \$69.0 million in the same period in 2007, which represents a decrease of 24%. Our U.S. and European Advisory business earned Advisory Revenue from 39 different clients during the three months ended September 30, 2008, compared to 31 different clients during the three months ended September 30, 2007. Our Mexican Advisory business earned Advisory Revenue from 40 different clients during the three months ended September 30, 2008, compared to 37 different clients during the three months ended September 30, 2007. There has been a decrease in the number of large transactions on which Evercore has advised, which has resulted in fewer large transaction fees earned during the quarter. The dollar value of North American and Global M&A completed transactions decreased 38% and 27%, respectively, compared to the third quarter of 2007, which is consistent with the decrease in Advisory Revenue for the quarter.

Advisory Operating Expenses were \$45.7 million in the three months ended September 30, 2008, a decrease of \$0.5 million, versus expenses of \$46.2 million in the same period for 2007. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$35.2 million as compared to \$34.0 million in the same period for 2007. The increase from the three months ended September 30, 2007, reflects increased headcount as well as our plan to maintain competitive compensation levels to retain key personnel. The increase in headcount relates to significant hires for restructuring and Europe, both of which are part of our Advisory growth plan. It also reflects the impact of new Senior Managing Directors, hired last year, on 2008 compensation expense, including grants of equity awards at 2007 stock prices which vest over time. Advisory non-compensation expenses, as a component of Operating Expenses, for the three months ended September 30, 2008, were \$10.5 million as compared to \$12.2 million for the three months ended September 30, 2007. Non-compensation operating expenses decreased in the three months ended September 30, 2008 as compared to the same period in 2007 primarily as a result of decreases in Professional Fees and Occupancy and Equipment Rental. The decrease was partially offset by an increase in Travel and Related Expenses and Communications and Information Services as a result of increased travel and research costs. The decrease in Professional Fees is primarily related to the completion of projects associated with Sarbanes-Oxley compliance as well as renegotiated contracts with vendors. The decrease in Occupancy and Equipment Rental is primarily related to excess office space which existed during the third quarter of last year.

Other Expenses of \$0.5 million in the three months ended September 30, 2008 relate to amortization of intangibles associated with the acquisitions of Protego and Braveheart. Other Expenses of \$4.8 million for the three months ended September 30, 2007 include a stock-based component of a severance agreement of \$1.1 million and the amortization of intangible assets of \$3.7 million.

Nine Months Ended September 30, 2008 versus September 30, 2007

Advisory Revenue, including Interest Income and Other Revenue, net, allocated to this segment, was \$152.5 million in the nine months ended September 30, 2008 compared to \$211.2 million in the same period in 2007, which represents a decrease of 28%. U.S. and European Advisory business earned Advisory Revenue from 68 different clients during the nine months ended September 30, 2008, compared to 60 different clients during the nine months ended September 30, 2007. Our Mexican Advisory business earned Advisory Revenue from 54 different clients during the nine months ended September 30, 2008, compared to 59 different clients during the nine months ended September 30, 2007. There has been a decrease in the number of large transactions, which has resulted in fewer large transaction fees earned by us in the nine months ended September 30, 2008. The dollar value of North American and Global M&A completed transactions decreased 46% and 26%, respectively, compared to the first nine months of 2007, which is consistent with the decrease in Advisory Revenue for the nine months ended September 30, 2008.

In the nine months ended September 30, 2008, Operating Expenses were \$120.4 million as compared to \$131.2 million in the same period for 2007, a decrease of \$10.9 million, or 8%. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$90.4 million as compared to \$98.6 million in the

Table of Contents

same period for 2007. The decrease is primarily due to lower incentive compensation due to lower revenues in the first nine months of 2008, offset in part by increased headcount. Advisory non-compensation expenses, as a component of Operating Expenses, for the nine months ended September 30, 2008, were \$30.0 million as compared to \$32.6 million for the nine months ended September 30, 2007. Non-compensation operating expenses decreased in the nine months ended September 30, 2008 as compared to the same period in 2007 primarily as a result of decreases in Professional Fees. The decrease was partially offset by an increase in Travel and Related Expenses and Communications and Information Services as a result of increased travel and research costs. The decrease in Professional Fees is primarily related to the completion of projects associated with Sarbanes-Oxley compliance as well as renegotiated contracts with vendors.

Other Expenses of \$8.9 million in the nine months ended September 30, 2008 relate to a charge associated with deferred consideration pursuant to the Braveheart Sale and Purchase Agreement of \$7.5 million, as well as amortization of intangibles associated with the acquisitions of Protego and Braveheart of \$1.4 million. Other Expenses of \$110.2 million for the nine months ended September 30, 2007 include costs incurred for the vesting of Evercore LP Units and stock-based awards associated with the completion of the Follow-On Offering in May 2007 of \$97.6 million, a stock-based component of a severance agreement of \$1.1 million and the amortization of intangible assets of \$11.6 million.

Our private equity funds earn management fees of 2% on Committed Capital during their investment period and 1% of Invested Capital thereafter. By January 2008, all of our U.S. funds completed their investment period, causing the step-down in fees, resulting in a 37% decline in management fees earned for the nine months ended September 30, 2008. For the nine months ended September 30, 2008, management fee calculations for U.S. Funds were based on \$519.9 million of Invested Capital at 1%. For the nine months ended September 30, 2007, the management fee for U.S. Funds was based on \$653.1 million of committed capital at 2%. We expect management fees to decline over the remaining life of the funds as the funds continue to exit their portfolio company holdings. However, as the Company raises or sponsors new funds in the future, we would expect to earn fees on any future committed capital.

In addition, the General Partner of ECP II earns carried interest of 20% based on the Fund's performance, provided it generates an 8% preferred return to its limited partners. The Company owns 8%-9% of the carried interest earned by the General Partner of ECP II. As of September 30, 2008, ECP II generated \$2.5 million of Realized and Unrealized Gains Including Carried Interest.

Three Months Ended September 30, 2008 versus September 30, 2007

Net Investment Management Revenue was \$4.3 million in the three months ended September 30, 2008, an increase of \$0.9 million, or 26%, as compared to \$3.4 million in the same period of 2007. Private Equity revenue, as a component of Investment Management Revenue, was \$3.6 million in the three months ended September 30, 2008, a decrease of \$0.4 million, or 11%, compared to Private Equity revenue of \$4.0 million in the same period in 2007. Private equity revenues declined in the three months ended September 30, 2008 compared to those in the three months ended September 30, 2007 primarily due to the step-down in management fees in 2008 from 2% of committed capital to 1% of invested capital in accordance with the ECP II partnership agreement. Realized and unrealized gains have increased compared to the third quarter of 2007 due to the partial realization of five portfolio companies as a result of a direct secondary sale. Institutional Asset Management and Other revenue generated \$0.7 million of revenue in the three months ended September 30, 2008, compared to a loss of \$0.7 million the same period in 2007. The increase is attributable to smaller losses in EAM's business and on our seed capital investments in EAM's funds, as well as by increases in fees related to the growth of assets under management in Mexico. Net Interest Income and Other Revenue remained flat versus the same period in 2007.

Investment Management Operating Expenses were \$7.1 million in the three months ended September 30, 2008, a decrease of \$2.9 million, versus expenses of \$10.0 million in the same period for 2007. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$5.1 million in the three months ended September 30, 2008, a \$1.4 million, or 21% decrease compared to the same period in 2007. The decrease in Employee Compensation and Benefits Expense is primarily the result of decreased headcount. Non-compensation expenses as a component of Operating Expenses in the three months ended September 30, 2008 decreased by \$1.5 million, or 43%, compared to the same period in 2007 as a result of decreases in Professional Fees and Occupancy and Equipment Rental. The decrease in Professional Fees is primarily related to the completion of projects associated with Sarbanes-Oxley compliance as well as renegotiated contracts with vendors. The decrease in Occupancy and Equipment Rental is primarily related to excess office space which existed during the third quarter of last year.

Total Other Expenses of \$1.7 million in the three months ended September 30, 2008, primarily related to accelerated share-based vesting. Other Expenses of \$1.1 million for the three months ended September 30, 2007 relate to a stock-based component of a severance agreement.

Nine Months Ended September 30, 2008 versus September 30, 2007

Net Investment Management Revenue was \$9.0 million in the nine months ended September 30, 2008, a decrease of \$7.7 million, or 46%, as compared to \$16.6 million in the same period of 2007. Private Equity revenue, as a component of Investment Management Revenue, was \$9.2 million in the nine months ended

Table of Contents

September 30, 2008, a decrease of \$5.8 million, or 39%, compared to Private Equity revenue of \$15.0 million in the same period in 2007. Private equity revenues declined in the nine months ended September 30, 2008 compared to those in the nine months ended September 30, 2007 primarily due to the step-down in management fees in 2008 from 2% of committed capital to 1% of invested capital in accordance with the ECP II partnership agreement in addition to smaller realized and unrealized gains, including carried interest. Institutional Asset Management and Other revenue generated \$0.6 million of losses in the nine months ended September 30, 2008, compared to revenue of \$0.8 million in the same period in 2007. The decrease is attributable to losses in EAM's business and losses on our direct investment in some of EAM's funds, partially offset by increases in fees related to the growth of assets under management in Mexico. Net Interest Income and Other Revenue was \$0.3 million for the nine months ended September 30, 2008, a decrease of \$0.5 million versus the same period in 2007.

Investment Management Operating Expenses were \$20.9 million in the nine months ended September 30, 2008, a decrease of \$5.1 million, versus expenses of \$26.0 million in the same period for 2007. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$14.2 million in the nine months ended September 30, 2008, a \$0.5 million, or 4% decrease compared to the same period in 2007. Non-compensation expenses as a component of Operating Expenses in the nine months ended September 30, 2008 decreased by \$4.6 million, or 41%, compared to the same period in 2007 as a result of decreases in Professional Fees. The decrease in Professional Fees is primarily related to the completion of projects associated with Sarbanes-Oxley compliance as well as renegotiated contracts with vendors.

Total Other Expenses of \$4.1 million in the nine months ended September 30, 2008 relate to Special Charges in connection with the write-off of certain capitalized costs associated with ECP III and employee severance, accelerated share-based vesting and other costs related to the closing of the Los Angeles office. Other Expenses of \$29.5 million for the nine months ended September 30, 2007 include costs incurred for the vesting of Evercore LP Units and stock-based awards associated with the completion of the Follow-On Offering in May 2007 of \$28.4 million and a stock-based component of a severance agreement of \$1.1 million.

Table of Contents**Cash Flows**

Our operating cash flows are primarily influenced by the timing and receipt of advisory and investment management fees, and the payment of operating expenses, including bonuses to our Senior Managing Directors and employees. Our investing and financing cash flows are primarily influenced by activities to deploy capital to fund investments, raise capital through the issuance of stock or debt, payment of dividends and other periodic distributions to our stakeholders. Advisory fees are generally collected within 90 days of billing. Fees from our private equity investment management activities are generally collected over a half year period from billing. The Company traditionally pays a substantial portion of incentive compensation during the first three months of each calendar year with respect to the prior year's results. The Company generally makes dividend payments and other distributions on a quarterly basis. A summary of the Company's operating, investing and financing cash flows is as follows:

Nine months ended September 30, 2008

Cash and Cash Equivalents were \$284.4 million at September 30, 2008, an increase of \$90.9 million versus Cash and Cash Equivalents of \$193.5 million at December 31, 2007. Operating activities during the nine months ended September 30, 2008 resulted in a net inflow of \$9.5 million, principally driven by cash earnings and an increase in accounts receivable. Cash of \$11.0 million was used in investing activities primarily to meet the Company's commitment to contribute capital to the Private Equity Funds and Pan. Financing activities during the period provided cash of \$95.1 million, primarily due to \$120.0 million of cash inflows from the Senior Notes and Warrants issued, offset by \$14.8 million of distributions to Evercore LP Limited partners, \$6.3 million in Treasury Stock Purchased and dividends paid of \$4.6 million.

Nine months ended September 30, 2007

Cash and cash equivalents were \$184.9 million at September 30, 2007, an increase of \$119.5 million versus cash and cash equivalents of \$65.4 million at December 31, 2006. Operating activities during the nine months ended September 30, 2007 resulted in a net inflow of \$125.9 million. The net inflow from operating activities was principally driven by cash earnings and the decrease in Accounts Receivable of \$40.0 million. Cash of \$7.2 million was used in investing activities, principally for the purchase of furniture, equipment and leasehold improvements and investments. Financing activities during the period used cash of \$0.6 million driven principally by \$39.7 million used for distributions to Evercore LP Limited partners and dividends paid of \$2.9 million, which was offset by the inflow of \$42.1 million provided by the Follow-On Offering.

Table of Contents

Liquidity and Capital Resources

General

Our current assets include Cash and Cash Equivalents and Accounts Receivable in relation to earned advisory fees. Our current liabilities include accrued expenses and employee compensation. We traditionally have made payments for employee bonuses and year-end distributions to partners in the first quarter of the year with respect to the prior year's results. Cash distributions related to partnership tax allocations are made to the partners of Evercore LP in accordance with the Company's corporate estimated payment calendar; these payments are made prior the end of each calendar quarter. In addition, dividends on Class A common shares are paid when and if declared by the Board of Directors, which is generally quarterly.

We regularly monitor our liquidity position, including cash, other significant working capital current assets and liabilities, long-term liabilities, lease commitments, principal investment commitments related to our Investment Management business, dividends on Class A Common shares, partnership distributions and other matters relating to liquidity and compliance with regulatory requirements. Our liquidity is highly dependent on our revenue stream from our operations, principally from our advisory business, which is a function of closing transactions and earning success fees, the timing and realization of which is irregular and dependent upon factors which are not subject to our control. Our revenue stream funds the payment of our expenses, including annual bonus payments and income taxes. Payments made for income taxes may be reduced by deductions taken for the increase in tax basis of the Company's investment in Evercore LP. These tax deductions, when realized, require payment under our long-term liability, Amounts Due Pursuant to Tax Receivable Agreements. The Company intends to fund these payments from cash and cash equivalents on hand, principally derived from cash flows from the operations of the Company. These tax deductions, when realized, will result in cash otherwise required to satisfy tax obligations becoming available for other purposes. Our Management Committee meets regularly to monitor our liquidity and cash positions against our short and long-term obligations as well as our capital commitments. The result of this review contributes to management's recommendation to the Board of Directors as to the level of quarterly dividend payments, if any.

As a financial services firm, our businesses are materially affected by conditions in the global financial markets and economic conditions throughout the world. The domestic and global markets and economic conditions have been disruptive and volatile throughout 2008. In particular, the cost and availability of funding have been and may continue to be adversely affected by illiquid credit markets and wider credit spreads. In addition, global equity prices have declined significantly. As a result of concern about the stability of markets and the strength of counterparties, many lenders and institutional investors have materially reduced funding to many borrowers. Revenue generated by our Advisory business is directly related to the number and value of the transactions in which we are involved. During periods of unfavorable market or economic conditions, the number and value of M&A transactions generally has decreased, thereby reducing the demand for our advisory services and increasing price competition among financial services companies seeking such engagements. Our operating results would be adversely affected by any such reduction in the number or value of mergers and acquisitions transactions. In addition, in the event of a market or general economic downturn, the private equity funds that our Investment Management business manages also may be impacted by reduced valuations and opportunities to exit and realize value from their investments and our institutional asset management business would be expected to generate lower revenue because investment advisory fees we receive typically are in part based on the market value of underlying publicly traded securities. Our profitability may also be adversely affected by our fixed costs and the possibility that we would be unable to scale back other costs within a time frame sufficient to match any decreases in revenue relating to changes in market and economic conditions.

During the second quarter of 2008, our Board of Directors authorized the repurchase of up to \$25.0 million of Evercore Class A Common Stock and/or Evercore LP partnership units. Under this share repurchase program, shares may be repurchased from time to time in open market transactions, in privately-negotiated transactions or otherwise. The timing and the actual number of shares repurchased will depend on a variety of factors, including legal requirements, price and economic and market conditions. This program may be suspended or discontinued

at any time and does not have a specified expiration date. In addition, periodically, we buy shares into treasury from our employees in order to fund the minimum tax requirements for share deliveries under our share equity plan. During the nine months ended September 30, 2008, we repurchased 375,246 shares for \$6.3 million related to share deliveries.

On August 21, 2008, we entered into a Purchase Agreement with Mizuho pursuant to which Mizuho purchased from the Company \$120.0 million principal amount of Senior Notes and Warrants. The holder of the Senior Notes may require us to purchase, for cash, all of any portion of the holder's Senior Notes upon a change of control of the Company for a price equal the Accreted Amount, plus accrued and unpaid interest. Senior Notes held by Mizuho will be redeemable at the Accreted Amount at the option of the Company at any time within 90 days following the date on which Mizuho notifies the Company that it is terminating their Strategic Alliance Agreement. Senior Notes held by any other holder than Mizuho will be redeemable at the Accreted Amount (plus accrued and unpaid interest) at the option of the Company at any time beginning on the third anniversary of closing. In the event of a default under the indenture, the trustee or holders of 33 1/3% of the Senior Notes may declare that the Accreted Amount is immediately due and payable.

Pursuant to the agreement, Mizuho may not transfer the Senior Notes or Warrants until either (a) after August 16, 2012 or (b) if the Strategic Alliance Agreement is terminated, the later of the third anniversary of the closing of the purchase of the Senior Notes and Warrants or one year following such termination. We have a right of first offer on any proposed transfer by Mizuho of the Warrants, Common Stock purchased in the open market or acquired by exercise of the Warrants and associated Common Stock issued as dividends.

The exercise price for the Warrants is payable, at the option of the holder of the Warrants, either in cash or by tender of Senior Notes at the Accreted Amount, at any point in time.

We have made certain capital commitments, with respect to our investment activities, which are included in the Contractual Obligations section of Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A).

PCB maintains a line of credit with BBVA Bancomer to fund its trading activities on an intra-day and overnight basis. The intra-day facility is approximately \$10.0 million and secured with trading securities. No interest is charged on the intra-day facility. The overnight facility is charged the Inter-Bank Balance Interest Rate plus 10 basis points and is secured with trading securities. There have been no draw downs on PCB's line of credit since August 10, 2006.

Certain of the Company's subsidiaries are registered entities and are subject to capital requirements. For further information see Note 16 Regulatory Authorities.

Collateralized Financing Activity at PCB

PCB enters into repurchase agreements with clients seeking overnight money market returns whereby PCB transfers to the clients Mexican government securities in exchange for cash and concurrently agrees to repurchase the securities at a future date for an amount equal to the cash exchanged plus a stipulated premium or interest factor. PCB deploys the cash received from, and acquires the securities deliverable to, clients under these repurchase arrangements by purchasing securities in the open market or by entering into reverse repurchase agreements with unrelated third parties. We account for these repurchase and reverse repurchase agreements as collateralized financing transactions. We record a liability on our Unaudited Condensed Consolidated Statements of Financial Condition in relation to repurchase transactions executed with clients as Securities Sold Under Agreements to Repurchase. We record as assets on our Unaudited Condensed Consolidated Statements of Financial Condition, Financial Instruments Owned and Pledged as Collateral at Fair Value (where we have acquired the securities deliverable to clients under these repurchase arrangements by purchasing securities in the open market) and Securities Purchased Under Agreements to Resell (where we have acquired the securities deliverable to clients under these repurchase agreements by entering into reverse repurchase agreements with

Table of Contents

unrelated third parties). These Mexican government securities included in Financial Instruments Owned and Pledged as Collateral at Fair Value on the Condensed Consolidated Statements of Financial Condition have an estimated average time to maturity of approximately 3.5 years and are pledged as collateral against repurchase agreements which are collateralized financing agreements. Generally, collateral is posted equal to the contract value at inception and is subject to market changes. These repurchase agreements are primarily with institutional customer accounts managed by PCB, are generally in overnight maturities and permit the counterparty to pledge the securities. Increases and decreases in asset and liability levels related to these transactions are a function of growth in PCB's assets under management as well as clients' investment allocations requiring positioning in repurchase transactions.

PCB has procedures in place to monitor the daily risk limits for positions taken, as well as the credit risk based on the collateral pledged under these agreements against their contract value from inception to maturity date. The daily risk measure is Value at Risk, which is a statistical measure, at a 98% confidence level, of the potential losses from adverse market movements in an ordinary market environment based on a historical simulation using the prior year's historical data. PCB's Risk Management Committee meets monthly to analyze the overall market risk exposure based on positions taken, as well as the credit risk based on the collateral pledged under these agreements against the contract value from inception to maturity date.

As of September 30, 2008 and December 31, 2007, a summary of PCB's assets, liabilities and risk measures related to its collateralized financing activities is as follows:

Contractual Obligations

In conjunction with the lease of office space in New York and San Francisco, the Company has entered into unsecured letters of credit in the amounts of \$4.9 million.

As of September 30, 2008, we are unable to make reasonably reliable estimates of the period of cash settlement with the respective taxing authority, hence, per FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109*, unrecognized tax benefits have been excluded from the above commitment and contractual obligations.

As of September 30, 2008, we estimate the contractual obligations related to the Tax Receivable Agreements (as noted the Company's Annual Report on Form 10-K for the year ended December 31, 2007) to be \$39.4 million. We expect to pay to the counterparties to the Tax Receivable Agreement \$1.2 million within one year or less, \$8.2 million in one to three years, \$7.7 million in three to five years and \$22.3 million after five years.

As of September 30, 2008, we estimate the contractual obligations related to the Senior Notes to be \$194.9 million. Pursuant to the Senior Notes, we expect to make payments to the notes' holder of \$6.2 million within one year or less, \$18.7 million in one to three years, \$12.5 million in three to five years and \$157.5 million after five years.

We had total commitments (not reflected on our Unaudited Condensed Consolidated Statements of Financial Condition) relating to future principal investments of \$8.7 million and \$9.1 million as of September 30, 2008 and December 31, 2007, respectively. We expect to fund these commitments with cash flows from operations. We may be required to fund these commitments at any time through December 2017, depending on the timing and level of investments by our Private Equity Funds.

On July 21, 2008, we committed capital of approximately \$8.9 million to Pan, a newly-created asset management firm. The Capital is expected to be drawn down as needed over a period of seven years, subject to the Board's approval for the first five years.

On September 8, 2008, we committed, subject to certain conditions, to a capital investment of \$150.0 million to HighView, a newly-created asset management firm. The Capital is expected to be drawn down as needed over a period of four to five years.

Off-Balance Sheet Arrangements

We do not invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support, or engage in any leasing activities that expose us to any liability that is not reflected in our unaudited condensed consolidated financial statements.

Market Risk and Credit Risk

The Company, in general, is not a capital-intensive organization and as such, is not subject to significant market or credit risks. Nevertheless, we have established procedures to assess both the market and credit risk, as well as specific investment risk, exchange rate risk and credit risk related to receivables.

Market and Investment Risk

Private Equity Funds

Through our principal investments in our private equity funds and our ability to earn carried interest from these funds, we face exposure to changes in the estimated fair value of the companies in which these funds invest. The Company's professionals devote considerable time and resources to work closely with the portfolio

company's management to assist in designing a business strategy, allocating capital and other resources and evaluating expansion or acquisition opportunities. On a quarterly basis, we perform a comprehensive analysis and valuation of all of the portfolio companies. Our analysis includes reviewing the current market conditions and valuations of each portfolio company.

We estimate that a hypothetical 10% adverse change in the value of the private equity funds would result in a decrease in pre-tax income of approximately \$2.9 million.

Asset Management

The Company maintains an equity interest in EAM of 32.7% and also invests in funds managed by EAM. The funds managed by EAM principally hold readily-marketable investment securities. EAM is an institutional investment management firm that manages deep value investments in small- and mid-capitalization companies. As of September 30, 2008, the fair value of the Company's investments with EAM, based on closing prices, was \$3.2 million.

We estimate that a hypothetical 10% adverse change in the market value of the investments would have resulted in a decrease in pre-tax income of approximately \$0.3 million for the nine months ended September 30, 2008.

PCB

See the Liquidity and Capital Resources section of the MD&A for a discussion of collateralized financing transactions at PCB.

Exchange Rate Risk

We have foreign operations in Mexico and the United Kingdom; their respective functional currencies are the Mexican peso and British pound sterling. We have not entered into any transactions to hedge our exposure to these foreign exchange fluctuations through the use of derivative instruments or otherwise. An appreciation or depreciation of any of these currencies relative to the U.S. dollar would result in an adverse or beneficial impact to the Company's financial results. A significant portion of the Company's Latin American revenues have been, and will continue to be, derived from contracts denominated in Mexican pesos and Evercore Europe's revenue and expenses are denominated primarily in British pounds sterling and euro. Historically, the value of these foreign currencies has fluctuated relative to the U.S. dollar. For the nine months ended September 30, 2008, the net impact of the fluctuation of foreign currencies recorded in Accumulated Other Comprehensive Income was \$(0.9) million. It is currently not our intention to hedge our foreign currency exposure and we will reevaluate this policy from time to time. We do not believe normal fluctuations in foreign currency exchange rates will have a material effect on our financial condition, results of operations or liquidity.

Credit Risks

Accounts Receivable consists primarily of advisory fees and expense reimbursements billed to our clients. Receivables are reported net of any allowance for doubtful accounts. We maintain an allowance for bad debts to provide coverage for probable losses from our customer receivables and derive the estimate through specific identification for the allowance for doubtful accounts and an assessment of the client's creditworthiness. As of September 30, 2008 and December 31, 2007, total receivables amounted to \$21.5 million and \$47.7 million, respectively, net of an allowance. The Advisory and Investment Management receivables collection periods generally are within 90 days of invoice. The collection period for restructuring transactions and private equity fee receivables may exceed 90 days. The Company recorded minimal bad debt expense for the nine months ended September 30, 2008 and 2007, respectively.

Critical Accounting Policies and Estimates

The unaudited condensed consolidated financial statements included in this report are prepared in conformity with U.S. GAAP, which require management to make estimates and assumptions regarding future events that affect the amounts reported in our unaudited condensed consolidated financial statements and their notes, including reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. We base these estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ materially from those estimates. For a complete discussion of our critical accounting policies and estimates, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

Recently Issued Accounting Standards

SFAS 141(R) In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS 141(R). SFAS 141(R) requires the acquiring entity in a business combination to recognize the full fair value of assets acquired and liabilities assumed in the transaction (whether a full or partial acquisition); establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; requires expensing of most transaction and restructuring costs; and requires the acquirer to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. SFAS 141(R) is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

SFAS 160 In December 2007, the FASB issued SFAS 160, which amends ARB 51. SFAS 160 requires reporting entities to present noncontrolling (minority) interests as equity (as opposed to as a liability or mezzanine equity) and provides guidance on the accounting for transactions between an entity and noncontrolling interests. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The adoption of SFAS 160 will effect the presentation of the Condensed Consolidated Financial Statements, primarily by including non-controlling interest as a separate component of stockholders' equity on the Condensed Consolidated Statements of Financial Condition.

FSP FAS 157-3 In October 2008, the FASB issued FSP FAS 157-3, which clarifies the application of FASB Statement No. 157, *Fair Value Measurements*, in an inactive market and provides an illustrative example to demonstrate how the fair value of a financial asset is determined when the market for that financial asset is inactive. FSP FAS 157-3 was effective upon issuance and did not have a material impact on our financial condition, results of operations and cash flows.

SFAS 162 In May 2008, the FASB issued SFAS 162. SFAS 162 identifies, within the accounting literature established by the FASB, the sources and hierarchy of the accounting principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with GAAP. SFAS 162 is effective 60 days following the SEC's approval of the PCAOB amendments to AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The adoption is not expected to have an impact on our financial condition, results of operations and cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk Risk Management

See Management's Discussion and Analysis of Financial Condition and Results of Operations Market Risk and Credit Risk. We do not believe we face any material interest rate risk, foreign currency exchange risk, equity price risk or other market risk except as disclosed.

Item 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are effective, in all material respects, to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Controls over Financial Reporting

During the three months ended September 30, 2008, we have not made any changes that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). The statements contained in Exhibits 31.1 and 31.2 to this Form 10-Q should be considered in light of, and read together with, the information set forth in this Item 4.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings***General*

In the normal course of business, from time to time the Company and its affiliates may be involved in judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its businesses. In addition, Mexican, United Kingdom and United States government agencies and self-regulatory organizations, as well as state securities commissions in the United States, conduct periodic examinations and initiate administrative proceedings regarding the Company's business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer or its directors, officers or employees.

The Company contests liability and/or the amount of damages as appropriate in each pending matter. In view of the inherent difficulty of predicting the outcome of such matters, particularly in cases where claimants seek substantial or indeterminate damages or where investigations and proceedings are in the early stages, the Company cannot predict with certainty the loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, and except for the pending matter described in the paragraphs below, the Company believes, based on current knowledge and after consultation with counsel, that the outcome of the pending matters will not have a material adverse effect on the consolidated financial condition of the Company, although the outcome of such matters could be material to the Company's operating results and cash flows for a particular future period, depending on, among other things, the level of the Company's revenues or income for such period. Legal reserves are established in accordance with SFAS 5. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change.

Additionally, in the past, the Company or its present personnel have been named as a defendant in civil litigation matters involving present or former clients.

In re High Voltage Engineering Corp. (High Voltage) in the U.S. Bankruptcy Court for the District of Massachusetts and Stephen S. Gray, Trustee (Trustee) of The High Voltage Engineering Liquidating Trust. v. Evercore Restructuring L.P. Evercore Restructuring L.L.C (collectively, Evercore Restructuring) et al., in the United States District Court of Massachusetts.

In 2003, High Voltage engaged Evercore Restructuring to assist in its restructuring efforts. During the engagement, Evercore Restructuring assisted High Voltage in negotiating a restructuring plan and related financing. During the period of engagement, which ended in August 2004, High Voltage filed for Chapter 11 bankruptcy protection and later emerged from bankruptcy with new financing. However, in February 2005, High Voltage again filed for Chapter 11 bankruptcy protection. In July 2006, as part of the second bankruptcy proceeding, High Voltage's businesses were sold and its creditors were repaid in full out of the proceeds of the sale. In addition, the Trustee conducted an informal investigation into the causes of the second bankruptcy and the knowledge of professionals who assisted High Voltage in its first bankruptcy.

On August 15, 2006, Stephen S. Gray, as trustee of the High Voltage Engineering Liquidating Trust (the Plaintiff), filed a motion in the bankruptcy court seeking to undo an order entered in November 2004 approving \$2.34 million in fees and expenses for Evercore Restructuring's services, alleging, among other matters, that Evercore Restructuring should have known that the projections prepared by High Voltage in connection with the first bankruptcy proceedings were inaccurate. On September 8, 2006, Evercore Restructuring responded in the bankruptcy court denying the factual allegations and asserting a variety of legal bases to deny the request. In January 2007, the bankruptcy court decided in favor of Evercore Restructuring and denied the Plaintiff's motion. In September 2007, the United States District Court affirmed the decision. Plaintiff filed a notice of appeal to the Court of Appeals for the First Circuit. The parties are in the process of briefing the appeal. On October 6, 2008, the First Circuit denied the Plaintiff's appeal and the Plaintiff has requested an en banc review of the panel decision.

Table of Contents

In addition, on August 15, 2006, the same Plaintiff filed a complaint against Evercore Restructuring and Jefferies & Company, Inc. in the United States District Court of Massachusetts. The Plaintiff's complaint asserts claims against Evercore Restructuring for gross negligence and breach of fiduciary duty in connection with the High Voltage engagement. In September 2007, the District Court granted Evercore Restructuring judgment on the pleadings. Plaintiff filed a notice of appeal to the Court of Appeals for the First Circuit. The parties briefed the appeal, and the First Circuit held oral arguments on June 4, 2008. On October 6, 2008, the First Circuit denied the Plaintiff's appeal and the Plaintiff has requested an en banc review of the panel decision.
