Note 3 Recent Accounting Pronouncements

ASU 2011-03 In April 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-03, *Reconsideration of Effective Control for Repurchase Agreements* (ASU 2011-03). ASU 2011-03 provides amendments to Accounting Standards Codification (ASC) No. 860 *Transfers and Servicing* , which remove from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the collateral maintenance implementation guidance related to that criterion. The amendments in this update are effective prospectively for transactions or modifications of existing transactions that occur on or after the beginning of the first interim or annual reporting period beginning on or after December 15, 2011, with early adoption not permitted. The Company is currently assessing the impact of the adoption of this update on the Company's financial condition, results of operations and cash flows.

ASU 2011-04 In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 provides amendments to ASC No. 820 *Fair Value Measurement* , which results in a consistent definition of fair value and common requirements for measurement of and disclosure of fair value between U.S. GAAP and IFRS. Some of the amendments clarify the Board's intent about the application of existing fair value measurement requirements, while others change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The amendments in this update are effective prospectively during interim and annual periods beginning after December 15, 2011, with early adoption not permitted. The Company is currently assessing the impact of the adoption of this update on the Company's financial condition, results of operations and cash flows.

ASU 2011-05 In June 2011, the FASB issued ASU No. 2011-05, *Presentation of Comprehensive Income* (ASU 2011-05). ASU 2011-05 provides amendments to ASC No. 220 *Comprehensive Income* , which require an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this update are effective retrospectively for fiscal years and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. The Company is currently assessing the impact of the adoption of this update on the Company's financial condition, results of operations and cash flows.

Note 8 Financial Instruments Owned and Pledged as Collateral at Fair Value, Securities Purchased Under Agreements to Resell and Securities Sold Under Agreements to Repurchase

The Company, through Protego Casa de Bolsa, S.A. de C.V. (PCB), enters into repurchase agreements with clients seeking overnight money market returns whereby PCB transfers to the clients Mexican government securities in exchange for cash and concurrently agrees to repurchase the securities at a future date for an amount equal to the cash exchanged plus a stipulated premium or interest factor. PCB deploys the cash received from, and acquires the securities deliverable to, clients under these repurchase arrangements by purchasing securities in the open market, which the Company reflects as Financial Instruments Owned and Pledged as Collateral at Fair Value on the Unaudited Condensed Consolidated Statements of Financial Condition, or by entering into reverse repurchase agreements with unrelated third parties. The Company accounts for these repurchase and reverse repurchase agreements as collateralized financing transactions, which are carried at their contract amounts, which approximate fair value given that the contracts generally mature the following business day. The Company records a liability on its Unaudited Condensed Consolidated Statements of Financial Condition in relation to repurchase transactions executed with clients as Securities Sold Under Agreements to Repurchase. The Company records as assets on its Unaudited Condensed Consolidated Statements of Financial Condition, Financial Instruments Owned and Pledged as Collateral at Fair Value (where the Company has acquired the securities deliverable to clients under these repurchase arrangements by purchasing securities in the open market) and Securities Purchased Under Agreements to Resell (where the Company has acquired the securities deliverable to clients under these repurchase agreements by entering into reverse repurchase agreements with unrelated third parties). These Mexican government securities have an estimated average time to maturity of approximately 2.7 years, as of June 30, 2011, and are pledged as collateral against repurchase agreements. Generally, collateral is posted equal to the contract value at inception and is subject to market changes. These repurchase agreements are primarily with institutional customer accounts managed by PCB which permit the counterparty to pledge the securities.

As of June 30, 2011 and December 31, 2010, a summary of the Company's assets, liabilities and collateral received or pledged related to these transactions was as follows:

In 2009, the Company invested \$1,250 in CITIC Securities International (CSIP) in exchange for a 5% noncontrolling interest in the entity. Note 10 Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is affected by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily-available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level I Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments included in Level I include listed equities and listed derivatives. As required by ASC 820, the Company does not adjust the quoted price for these investments, even in situations where Evercore holds a large position and a sale could reasonably impact the quoted price.

Level II Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. The estimated fair values of these securities are based on quoted market prices provided by external pricing services.

Level III Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation.

The following table presents the categorization of investments and certain other assets and liabilities measured at fair value on a recurring basis as of June 30, 2011 and December 31, 2010:

	June 30, 2011			Total

Financial Instruments Owned and Pledged as Collateral at Fair Value		52,217		52,217
 Total Assets Measured At Fair Value	 \$	 67,805	 \$ 90,680	 \$ 158,485

(1) Includes \$9,119 and \$13,438 of municipal bonds classified within Cash and Cash Equivalents on the Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2011 and December 31, 2010, respectively.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

The Company had no transfers between fair value levels during the three and six months ended June 30, 2011.

FINANCIAL STATEMENTS (Continued)

(dollars and share amounts in thousands, except per share amounts, unless otherwise noted)

Note 11 Issuance of Notes Payable and Warrants

On August 21, 2008, the Company entered into a Purchase Agreement with Mizuho Corporate Bank, Ltd. (Mizuho) pursuant to which Mizuho purchased from the Company \$120,000 principal amount of senior notes due 2020 with a 5.20% coupon (the Senior Notes) and warrants to purchase 5,455 shares of Evercore Class A common stock at \$22.00 per share (the Warrants) expiring in 2020. Based on their relative fair value at issuance, plus accretion, the Senior Notes and Warrants were reflected in Notes Payable and Additional Paid-In-Capital on the Unaudited Condensed Consolidated Statement of Financial Condition. The Senior Notes have an effective yield of 7.94%. At June 30, 2011, the fair value of the Company s Senior Notes exceeded their aggregate carrying value by approximately \$20,000. The fair value of the Company s Senior Notes was estimated based on a present value analysis utilizing aggregate market yields for similar financial instruments.

The holder of the Senior Notes may require the Company to purchase, for cash, all or any portion of the holder s Senior Notes upon a change of control of the Company for a price equal to the aggregate accreted amount of such Senior Notes, (the Accreted Amount), plus accrued and unpaid interest. Senior Notes held by Mizuho will be redeemable at the Accreted Amount at the option of the Company at any time within 90 days following the date on which Mizuho notifies the Company that it is terminating their strategic alliance agreement (Strategic Alliance Agreement). Senior Notes held by any other holder than Mizuho will be redeemable at the Accreted Amount (plus accrued and unpaid interest) at the option of the Company at any time beginning on the third anniversary of the closing of the Senior Notes and Warrants. In the event of a default under the indenture, the trustee or holders of 33 1/3% of the Senior Notes may declare that the Accreted Amount is immediately due and payable.

Pursuant to the agreement, Mizuho may not transfer the Senior Notes or Warrants until August 16, 2012 or, if the Strategic Alliance Agreement is terminated, the later of one year following such termination and the third anniversary of the closing of the purchase of the Senior Notes and Warrants. The Company has a right of first offer on any proposed transfer by Mizuho of the Warrants, Common Stock purchased in the open market or acquired by exercise of the Warrants and associated Common Stock issued as dividends.

The exercise price for the Warrants is payable, at the option of the holder of the Warrants, either in cash or by tender of Senior Notes at the Accreted Amount, at any point in time.

Note 12 Evercore Partners Inc. Stockholders Equity

Offerings During the second quarter of 2011, the Company had an offering of 5,365 shares of Class A common stock. A portion of the proceeds were used to purchase from certain holders, including members of the Company s senior management, a number of outstanding Evercore LP partnership units (LP Units). The Company intends to use a portion of the remainder of the proceeds to fund the initial cash payments associated with the Company s pending acquisition of Lexicon. See Note 4.

The offering resulted in an increase to Common Stock and Additional Paid-In-Capital of \$54 and \$167,597, respectively, on the Company s Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2011. The purchase of outstanding LP Units resulted in a decrease to Additional Paid-In-Capital of \$84,195 on the Company s Unaudited Condensed Consolidated Statements of Financial Condition as of June 30, 2011. See Note 13 for the impact of this transaction on Noncontrolling Interest. Additionally, the above transaction resulted in an increase in the tax basis of the tangible and intangible assets of Evercore LP, which triggered an additional liability under the tax receivable agreement that was entered into in 2006 between the Company and the LP Unit holders. The agreement provides for a payment to the LP Unit holders of 85% of the cash tax savings (if any), resulting from the increased tax benefits from the exchange and for the Company to retain 15% of such benefits. Accordingly, Deferred Tax Assets Non-Current, Amounts Due Pursuant to Tax Receivable Agreements and Additional Paid-In-Capital increased \$47,481, \$40,360 and \$7,122, respectively, on the Company s Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2011.

- (a) During the three and six months ended June 30, 2011 and 2010, the LP Units (which represent the right to receive shares of Class A common stock upon exchange) were antidilutive and consequently the effect of their exchange into shares of Class A common stock has been excluded from the calculation of diluted net income per share attributable to Evercore Partners Inc. common shareholders. The units that would have been included in the computation of diluted net income per share attributable to Evercore Partners Inc. common shareholders if the effect would have been dilutive were 11,664 and 11,789 for the three and six months ended June 30, 2011, respectively, and 14,637 and 14,478 for the three and six months ended June 30, 2010, respectively.

The shares of Class B common stock have no right to receive dividends or a distribution on liquidation or winding up of Evercore Partners Inc. The shares of Class B common stock do not share in the earnings of Evercore Partners Inc. and no earnings are allocable to such class. Accordingly, basic and diluted net income per share of Class B common stock have not been presented.

Contingencies

In the normal course of business, from time to time the Company and its affiliates may be involved in judicial, regulatory, arbitration and other proceedings concerning matters arising in connection with the conduct of its businesses, including contractual and employment matters. In the past, the Company and its affiliates have been named as a defendant in civil litigation matters involving present or former clients or competitors. In addition, Mexican, United Kingdom, Hong Kong and United States government agencies and self-regulatory organizations, as well as state securities commissions in the United States, conduct periodic examinations and initiate administrative proceedings regarding the Company's business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer, investment advisor, or its directors, officers or employees. In view of the inherent difficulty of predicting the outcome of such matters, particularly in cases where claimants seek substantial or indeterminate damages or where investigations and proceedings are in the early stages, the Company cannot predict the loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, the Company believes, based on current knowledge and after consultation with counsel, that it is not currently party to any material pending proceedings, individually or in the aggregate, the resolution of which would have a material effect on the Company. Legal reserves are established in accordance with ASC 450, *Accounting for Contingencies* when warranted. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change.

Note 17 Regulatory Authorities

EGL is a U.S. registered broker-dealer and is subject to the net capital requirements of Rule 15c3-1 under the Securities Exchange Act of 1934 as amended (the Exchange Act). Rule 15c3-1 requires the maintenance of net capital, as defined, which shall be the greater of \$100 or 6 2/3% of aggregate indebtedness, as defined. EGL's regulatory net capital as of June 30, 2011 and December 31, 2010 was \$65,617 and \$62,583, respectively, which exceeded the minimum net capital requirement by \$64,357 and \$60,738, respectively. Certain other non-U.S. subsidiaries are subject to various securities and banking regulations and capital adequacy requirements promulgated by the regulatory and exchange authorities of the countries in which they operate. These subsidiaries have consistently operated in excess of their local capital adequacy requirements.

ETC, which is limited to fiduciary activities, is regulated by the Office of the Comptroller of the Currency (OCC) and is a member bank of the Federal Reserve System. The Company, Evercore LP and ETC are subject to written agreements with the OCC that, among other things, require the Company and Evercore LP to (1) maintain at least \$5,000 in Tier 1 capital in ETC (or such other amount as the OCC may require), (2) maintain liquid assets in ETC in an amount at least equal to the greater of \$3,500 or 90 days coverage of ETC's operating expenses and (3) provide at least \$10,000 of certain collateral held in a segregated account at a third-party depository institution. The collateral is included in Assets Segregated for Bank Regulatory Requirements on the Unaudited Condensed Consolidated Statements of Financial Condition. The Company was in compliance with the aforementioned agreements as of June 30, 2011.

2010, respectively. The effective tax rate for 2011 and 2010 reflects the effect of certain compensation transactions as well as the noncontrolling interest associated with LP Units. The effective tax rate for 2010 also reflected the effect of losses in certain foreign jurisdictions for which no income tax benefits are anticipated.

The Company reported a decrease in deferred tax assets of (\$1,508) associated with changes in Accumulated Other Comprehensive Income (Loss) for the six months ended June 30, 2011.

As of June 30, 2011, there was \$1,981 of unrecognized tax benefits that, if recognized, would affect the effective tax rate. The Company does not anticipate a significant change in unrecognized tax positions as a result of the settlement of income tax audits for examining the Company's income tax returns during the upcoming year.

The Company classifies interest relating to tax matters and tax penalties as a component of income tax expense in its Unaudited Condensed Consolidated Statements of Operations. Related to the unrecognized tax benefits, the Company accrued interest of \$36 and \$72 during the three and six months ended June 30, 2011, respectively, and had recognized a liability for penalties of \$561 and interest of \$789 at June 30, 2011.

As a result of the Company's offering of common stock which occurred during the second quarter of 2011, Deferred Tax Assets - Non-Current and Amounts Due Pursuant to Tax Receivable Agreements increased \$47,481 and \$40,360, respectively, on the Company's Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2011. See Note 12 for further information.

Business Segments The Company's business results are categorized into the following two segments: Investment Banking and Investment Management. Investment Banking includes providing advice to clients on significant mergers, acquisitions, divestitures and other strategic corporate transactions. During 2010, the Investment Banking segment (formerly called the Advisory segment) expanded to include services related to securities underwriting, private fund placement services and commissions for agency-based equity trading services and equity research. Expenses not directly associated with specific segments are allocated based on the most relevant measures applicable, including headcount and other factors.

Segment assets are based on those directly associated with each segment, or for certain assets shared across segments, those assets are allocated based on the most relevant measures applicable, including headcount and other factors.

Edgar Filing: Evercore Partners Inc. - Form 10-Q

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with Evercore Partners Inc.'s unaudited condensed consolidated financial statements and the related notes included elsewhere in this Form 10-Q.

Forward-Looking Statements

This report contains or incorporates by reference forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act, which reflect our current views with respect to, among other things, our operations and financial performance. In some cases, you can identify these forward-looking statements by the use of words such as "outlook," "believes," "expects," "potential," "continues," "may," "should," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates" or the negative version of these and comparable words. Such forward-looking statements are subject to various risks and uncertainties.

Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these forward-looking statements. All statements other than statements of historical fact are forward-looking statements and are based on various underlying assumptions and expectations and are subject to known and unknown risks, uncertainties and assumptions, and may include projections of our future financial performance based on our growth strategies and anticipated trends in Evercore's business. We believe these factors include, but are not limited to, those described under "Risk Factors" discussed in the Annual Report on Form 10-K for the year ended December 31, 2010 and subsequent quarterly reports on Form 10-Q. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included or incorporated by reference in this report. We undertake no obligation to publicly update or review any forward-looking statement. We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for our management to predict all risks and uncertainties, nor can management assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Key Financial Measures

Revenue

Total revenues reflect revenues from our Investment Banking (formerly called Advisory) and Investment Management business segments that include transaction-related client reimbursements plus other revenue. Net revenues reflect total revenues less interest expense related to repurchase agreements, the Senior Notes and other borrowings.

Investment Banking. Our Investment Banking business earns fees from our clients for providing advice on mergers, acquisitions, divestitures, leveraged buyouts, restructurings and similar corporate finance matters, and from underwriting and private fund placement activities, as well as commissions from our agency trading activities. The amount and timing of the fees paid vary by the type of engagement. In general, advisory fees are paid at the time we sign an engagement letter, during the course of the engagement or when an engagement is completed. The majority of our investment banking revenue comes from advisory fees that are dependent on the successful completion of a transaction. A transaction can fail to be completed for many reasons, including failure of parties to agree upon final terms with the counterparty, to secure necessary board or shareholder approvals, to secure necessary financing or to achieve necessary regulatory approvals. In the case of bankruptcy engagements, fees are subject to approval of the court. Underwriting revenues are recognized when the offering has been deemed to be completed, placement fees are recognized at the time of the client's acceptance of capital or capital commitments and commissions are recorded on a trade-date basis.

Revenue trends in our advisory business generally are correlated to the volume of M&A activity and/or restructuring activity, which tends to be counter-cyclical to M&A. However, deviations from this trend can occur in any given year or quarter for a number of reasons. For example, changes in our market share or the ability of our clients to close certain large transactions can cause our revenue results to diverge from the level of overall M&A or restructuring activity.

We operate in a highly competitive environment and each revenue-generating engagement is separately awarded and negotiated. Our list of clients, including our list of clients with whom there is a currently active revenue-generating engagement, changes continually. We gain new clients through our business development initiatives, through recruiting additional senior investment banking professionals, and through referrals from executives, directors, attorneys and other parties with whom we have relationships. We may also lose clients as a result of the sale or merger of a client, a change in a client's senior management, competition from other investment banks and other causes.

Investment Management. Our Investment Management business includes operations related to the management of the Institutional Asset Management, Wealth Management and Private Equity businesses. Revenue sources primarily include management fees, which

Table of Contents

include fees earned from portfolio companies, fiduciary and consulting fees, performance fees (including carried interest) and gains (or losses) on our investments.

Management fees for third party clients generally represent a percentage of assets under management (AUM). Fiduciary and consulting fees, which are generally a function of the size and complexity of each engagement, are individually negotiated. Management fees from private equity operations are generally a percentage of committed capital or invested capital at rates agreed with the investment funds we manage or with the individual client. Performance fees from private equity funds are earned when specified benchmarks are exceeded. In certain circumstances, such fees are subject to claw-back provisions. Portfolio company fees include monitoring, director and transaction fees associated with services provided to the portfolio companies of the private equity funds we manage. Gains and losses include both realized and unrealized gains and losses on principal investments, including those arising from our equity interest in investment partnerships.

Transaction-Related Client Reimbursements. In both our Investment Banking and Investment Management segments, we make various transaction-related expenditures, such as travel and professional fees, on behalf of our clients. Pursuant to the engagement letters with our advisory clients or the contracts with the limited partners in the private equity funds we manage, these expenditures may be reimbursable. We define these expenses as transaction-related expenses and record such expenditures as incurred and record revenue when it is determined that clients have an obligation to reimburse us for such transaction-related expenses. Client expense reimbursements are recorded as revenue on the Unaudited Condensed Consolidated Statements of Operations on the later of the date an engagement letter is executed or the date we pay or accrue the expense.

Other Revenue and Interest Expense. Other Revenue and Interest Expense is derived primarily from investing customer funds in financing transactions. These transactions are principally repurchases and resales of Mexican government and government agency securities. Revenue and expenses associated with these transactions are recognized over the term of the repurchase or resale transaction. Other Revenue includes income earned on marketable securities, cash and cash equivalents and assets segregated for regulatory purposes. Interest Expense includes interest expense associated with the Senior Notes.

Operating Expenses

Employee Compensation and Benefits Expense. We include all payments for services rendered by our employees, as well as profits interests in our businesses that have been accounted for as compensation, in employee compensation and benefits expense.

We maintain compensation programs, including base salary, cash, deferred cash and equity bonus awards and benefits programs and manage compensation to estimates of competitive levels based on market conditions. Our level of compensation reflects our plan to maintain competitive compensation levels to retain key personnel, and it reflects the impact of newly-hired senior professionals, including related grants of equity awards which are generally valued at their grant date.

Increasing the number of high-caliber, experienced senior level employees is critical to our growth efforts. In our advisory businesses, these hires generally do not begin to generate significant revenue in the year they are hired.

Our annual compensation program includes stock-based compensation awards and deferred cash awards as a component of the annual bonus awards for certain employees. These awards are generally subject to annual vesting requirements over a four-year period beginning at the date of grant, which generally occurs in the first quarter of each year; accordingly, the expense is amortized over the vesting period.

Non-Compensation Expenses. The balance of our operating expenses includes costs for occupancy and equipment rental, professional fees, travel and related expenses, communications and information services, depreciation and amortization, acquisition and transition costs and other operating expenses. We refer to all of these expenses as non-compensation expenses.

Other Expenses

Other Expenses include compensation costs associated with the modification of unvested LP Units and certain other awards, charges associated with the vesting of Event-based Awards and amortization of intangibles associated with certain acquisitions.

Income from Equity Method Investments

Our share of the income (loss) from our equity interests in Pan and G5 are included within Income (Loss) from Equity Method Investments, as a component of Income Before Income Taxes, on the Unaudited Condensed Consolidated Statements of Operations.

Edgar Filing: Evercore Partners Inc. - Form 10-Q

Provision for Income Taxes

We account for income taxes in accordance with ASC 740, *Accounting for Income Taxes* (ASC 740), which requires the recognition of tax benefits or expenses on temporary differences between the financial reporting and tax basis of our assets and liabilities.

Table of Contents*Noncontrolling Interest*

We record noncontrolling interest relating to the ownership interests of our current and former Senior Managing Directors, their estate planning vehicles and Trilantic in Evercore LP, as well as the portions of our operating subsidiaries not owned by Evercore. As described in Note 13 to our unaudited condensed consolidated financial statements herein, Evercore Partners Inc. is the sole general partner of Evercore LP and has a majority economic interest in Evercore LP. As a result, Evercore Partners Inc. consolidates Evercore LP and records a noncontrolling interest for the economic interest in Evercore LP held by the limited partners.

We generally allocate net income or loss to noncontrolling interests held at Evercore LP and at the operating entity level, where required, by multiplying the vested equity ownership percentage of the noncontrolling interest holders for the period by the net income or loss of the entity to which the noncontrolling interest relates. In circumstances where the governing documents of the entity to which the noncontrolling interest relates require special allocations of profits or losses to the controlling and noncontrolling interest holders, then the net income or loss of these entities will be allocated based on these special allocations.

Results of Operations

The following is a discussion of our results of operations for the three and six months ended June 30, 2011 and 2010. For a more detailed discussion of the factors that affected the revenue and operating expenses of our Investment Banking and Investment Management business segments in these periods, see the discussion in *Business Segments* below.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for us to predict all risks and uncertainties, nor can we assess the impact of all potentially applicable factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Investment Management Results of Operations

Our Wealth Management business includes the results of EWM and our acquisition of Morse Williams during the second quarter of 2010. Our Institutional Asset Management business includes the results of Atalanta Sosnoff, which was acquired during the second quarter of 2010. Fee-based revenues from EWM and Atalanta Sosnoff are primarily earned on a percentage of AUM, while ETC primarily earns fees from negotiated trust services and fiduciary consulting arrangements.

Edgar Filing: Evercore Partners Inc. - Form 10-Q

Our U.S. private equity funds, with the exception of Evercore Capital Partners L.P. and its affiliated entities (ECP I), earn management fees of 1% of invested capital. Starting January 1, 2010, pursuant to an amendment to the ECP I Partnership Agreement, no management fees were earned. Our Mexican private equity fund, EMCP II, earns management fees of 2.25% on committed capital during its investment period and 2.25% on net funded committed capital thereafter.

In addition, the general partner of the private equity funds earns carried interest of 20% based on the fund's performance, provided it exceeds preferred return hurdles to its limited partners. We own 8%-9% of the carried interest earned by the general partner of ECP II and 100% of Carried Interest in EMCP II. A significant portion of any gains recognized related to ECP II are distributed to certain of our U.S. private equity professionals.

In the event the fund performs poorly we may be obligated to repay certain carried interest previously distributed. As of June 30, 2011, we had \$2.7 million of previously received carried interest that may be subject to repayment.

Table of Contents*Assets Under Management*

AUM for our Investment Management business of \$16.8 billion at June 30, 2011, decreased from \$17.4 billion at December 31, 2010. The amounts of AUM presented in the table below reflect the assets for which we charge a management fee. These assets reflect the fair value of assets managed on behalf of Institutional Asset Management and Wealth Management clients, and the amount of either invested or committed capital to the Private Equity funds. As defined in ASC 820, valuations performed for Level I investments are based on quoted prices obtained from active markets generated by third parties and Level II investments are valued through the use of models based on either direct or indirect observable inputs in the use of models or other valuation methodologies performed by third parties to determine fair value. For both the Level I and Level II investments, we obtain both active quotes from nationally recognized exchanges and third-party pricing services to determine market or fair value quotes, respectively. Wealth Management maintained 50% and 48% of Level I investments and 50% and 52% of Level II investments as of June 30, 2011 and December 31, 2010, respectively, and Institutional Asset Management maintained 95% and 95% of Level I investments and 5% and 5% of Level II investments as of June 30, 2011 and December 31, 2010, respectively. As noted above, Private Equity AUM is not presented at fair market value, but reported at either invested or committed capital in line with fee arrangements; notwithstanding, these assets represent primarily Level III investments. The following table summarizes AUM activity for the six months ended June 30, 2011:

The increase in Operating Expenses was primarily a result of the acquisition and expansion of new businesses added during the second quarter of 2010.

Other Expenses of \$3.4 million for the three months ended June 30, 2011 included \$0.8 million related to compensation costs associated with unvested LP Units and certain other awards, \$2.5 million of charges related to the vesting of Event-based Awards and amortization of intangibles of \$0.1 million. Other Expenses of \$0.9 million for the three months ended June 30, 2010 included \$0.8 million related to costs associated with unvested LP Units and certain other awards and amortization of intangibles of \$0.1 million.

advisory services increased 92% from the six months ended June 30, 2010 primarily as a result of the full quarter's impact of the acquisition of new businesses within Institutional Asset Management and Wealth Management, as well as year-over-year growth in AUM. Fee-based revenues included \$0.1 million of revenues from performance fees during the six months ended June 30, 2011 compared to \$0.2 million for the six months ended June 30, 2010. Realized and Unrealized Gains (Losses) increased from the prior year primarily resulting from gains in our private equity funds, which were principally driven by carried interest from Trilantic.

Operating Expenses were \$48.7 million for the six months ended June 30, 2011, as compared to \$32.7 million for the six months ended June 30, 2010, an increase of \$15.9 million, or 49%. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$32.2 million for the six months ended June 30, 2011, as compared to \$20.8 million for the six months ended June 30, 2010, an increase of \$11.4 million, or 55%. Cash Flows

Our operating cash flows are primarily influenced by the timing and receipt of investment banking and investment management fees, and the payment of operating expenses, including bonuses to our employees and interest expense on our Senior Notes. Investment Banking advisory fees are generally collected within 90 days of billing. Management fees from our private equity investment management activities are generally billed in advance but collected at the end of a half year period from billing. Fees from our wealth management and institutional asset management businesses are generally billed and collected within 90 days. We traditionally pay a substantial portion of incentive compensation to personnel in the Investment Banking business and to executive officers during the first three months of each calendar year with respect to the prior year's results. Our investing and financing cash flows are primarily influenced by activities to deploy capital to fund investments and acquisitions, raise capital through the issuance of stock or debt, repurchase of outstanding Class A shares, payment of dividends and other periodic distributions to our stakeholders. We generally make dividend payments and other distributions on a quarterly basis. A summary of our operating, investing and financing cash flows is as follows:

Operating activities resulted in a net inflow of \$7.7 million, primarily related to earnings offset by an increase in accounts receivable and a decrease in accrued compensation and benefits. Cash of \$19.6 million was provided

Edgar Filing: Evercore Partners Inc. - Form 10-Q

by investing activities primarily related to proceeds from maturities and sales of our marketable securities. Financing activities during the period provided cash of \$35.8 million, primarily from our June 2011 offering, offset by the payment of dividends, distributions to Partners and treasury stock purchases.

Six Months Ended June 30, 2010. Cash and Cash Equivalents were \$144.8 million at June 30, 2010, a decrease of \$61.9 million versus Cash and Cash Equivalents of \$206.7 million at December 31, 2009. Operating activities resulted in a net outflow of \$15.3 million, primarily related to the payment of 2009 bonus awards, offset by an increase in equity-based and other deferred compensation and deferred revenue. Cash of \$6.7 million was used in investing activities primarily due to cash paid for acquisitions, offset by net proceeds from sales of Marketable Securities. Financing activities during the period used cash of \$38.3 million, primarily for the purchase of treasury stock, as well as distributions to Evercore LP members and payment of dividends.

Liquidity and Capital Resources

General

Our current assets include Cash and Cash Equivalents, Marketable Securities and Accounts Receivable in relation to Investment Banking and Investment Management revenues. Our current liabilities include accrued expenses and accrued employee compensation. We traditionally have made payments for employee bonuses and year-end distributions to partners in the first quarter of the year with respect to the prior year's results. Cash distributions related to partnership tax allocations are made to the partners of Evercore LP in accordance with our corporate estimated payment calendar; these payments are made prior to the end of each calendar quarter. In addition, dividends on Class A common shares are paid when and if declared by the Board of Directors, which is generally quarterly.

We regularly monitor our liquidity position, including cash, other significant working capital, current assets and liabilities, long-term liabilities, lease commitments, principal investment commitments related to our Investment Management business, dividends on Class A common shares, partnership distributions and other matters relating to liquidity and compliance with regulatory requirements. Our liquidity is highly dependent on our revenue stream from our operations, principally from our Investment Banking business, which is a function of closing transactions and earning success fees, the timing and realization of which is irregular and dependent upon factors that are not subject to our control. Our revenue stream funds the payment of our expenses, including annual bonus payments, a portion of which are guaranteed, interest expense on our Senior Notes and income taxes. Payments made for income taxes may be reduced by deductions taken for the increase in tax basis of our investment in Evercore LP. These tax deductions, when realized, require payment under our long-term liability, Amounts Due Pursuant to Tax Receivable Agreements. We intend to fund these payments from cash and cash equivalents on hand, principally derived from cash flows from operations. These tax deductions, when realized, will result in cash otherwise required to satisfy tax obligations becoming available for other purposes. Our Management Committee meets regularly to monitor our liquidity and cash positions against our short and long-term obligations, as well as our capital commitments. The result of this review contributes to management's recommendation to the Board of Directors as to the level of quarterly dividend payments, if any.

As a financial services firm, our businesses are materially affected by conditions in the global financial markets and economic conditions throughout the world. Revenue generated by our advisory activities is directly related to the number and value of the transactions in which we are involved. During periods of unfavorable market or economic conditions, the number and value of M&A transactions generally decrease, and they increase during periods of favorable market or economic conditions. Restructuring activity generally is counter-cyclical to M&A activity. In addition, our Investment Management business may be impacted by reduced equity valuations and generate relatively lower revenue because fees we receive typically are in part based on the market value of underlying publicly-traded securities. Our profitability may also be adversely affected by our fixed costs and the possibility that we would be unable to scale back other costs within a time frame sufficient to match any decreases in revenue relating to changes in market and economic conditions. Reduced equity valuations resulting from future adverse economic events and/or market conditions may impact our performance, which could result in future impairment charges related to our goodwill and/or intangibles assets. For a further discussion of risks related to our business, refer to Risk Factors in our Form 10-K for the year ended December 31, 2010.

In October 2010, our Board of Directors authorized the repurchase of up to 2 million shares of Evercore Class A Common Stock and/or LP Units for up to \$85.0 million. Under this share repurchase program, shares may be repurchased from time to time in open market transactions, in privately-negotiated transactions or otherwise. The timing and the actual amount of shares repurchased will depend on a variety of factors, including legal requirements, price and economic and market conditions. This program may be suspended or discontinued at any time and does not have a specified expiration date.

In addition, periodically, we buy shares into treasury from our employees in order to fund the minimum tax requirements for share deliveries under our share equity plan. During the six months ended June 30, 2011, we repurchased 488,579 shares for \$16.8 million related to funding the minimum tax withholding requirements of share deliveries.

On August 21, 2008, we entered into a Purchase Agreement with Mizuho pursuant to which Mizuho purchased from us \$120.0 million principal amount of Senior Notes and the Warrants to purchase 5,454,545 shares of Evercore Class A common stock at \$22.00 per share expiring in 2020. The holder of the Senior Notes may require us to purchase, for cash, all or any portion of the holder's Senior Notes upon a change of control of

Edgar Filing: Evercore Partners Inc. - Form 10-Q

the Company for a price equal to the Accreted Amount, plus accrued and unpaid interest. Senior Notes held by Mizuho will be redeemable at the Accreted Amount at our option at any time within 90 days following the date on which Mizuho notifies us that it is terminating their Strategic Alliance Agreement. Senior Notes held by any holder other than

Table of Contents

Mizuho will be redeemable at the Accreted Amount (plus accrued and unpaid interest) at our option at any time beginning on the third anniversary of closing. In the event of a default under the indenture, the trustee or holders of 33 1/3% of the Senior Notes may declare that the Accreted Amount is immediately due and payable.

Pursuant to the agreement, Mizuho may not transfer the Senior Notes or Warrants until either (a) after August 16, 2012 or (b) if the Strategic Alliance Agreement is terminated, the later of the third anniversary of the closing of the purchase of the Senior Notes and Warrants or one year following such termination. We have a right of first offer on any proposed transfer by Mizuho of the Warrants, Common Stock purchased by Mizuho in the open market or acquired by Mizuho upon exercise of the Warrants and associated Common Stock issued as dividends.

The exercise price for the Warrants is payable, at the option of the holder of the Warrants, either in cash or by tender of Senior Notes at the Accreted Amount, at any point in time.

Pursuant to the agreement with Mizuho, Evercore is subject to certain nonfinancial covenants. As of June 30, 2011, we were in compliance with all of these covenants.

During the second quarter of 2011, we had an offering of 5,364,991 shares of Class A common stock. A portion of the proceeds were used to purchase from certain holders, including members of the Company's senior management, a number of outstanding LP Units that was equal to the number of newly-issued shares of Class A common stock sold in the offering. See Note 12 to our unaudited condensed consolidated financial statements.

This offering resulted in an increase to Common Stock and Additional Paid-In-Capital of \$0.1 million and \$167.6 million, respectively, on the Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2011. The purchase of outstanding LP Units resulted in a decrease to Additional Paid-In-Capital of \$84.2 million on the Unaudited Condensed Consolidated Statements of Financial Condition as of June 30, 2011. See Note 13 to our unaudited condensed consolidated financial statements for the impact of this transaction on Noncontrolling Interest. Additionally, the above transaction resulted in an increase in the tax basis of the tangible and intangible assets of Evercore LP, which triggered an additional liability under the tax receivable agreement that was entered into in 2006 between the Company and the LP Unit holders. The agreement provides for a payment to the LP Unit holders of 85% of the cash tax savings (if any), resulting from the increased tax benefits from the exchange and for the Company to retain 15% of such benefits. Accordingly, Deferred Tax Assets - Non-Current, Amounts Due Pursuant to Tax Receivable Agreements and Additional Paid-In-Capital increased \$47.5 million, \$40.4 million and \$7.1 million, respectively, on the Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2011. For a complete discussion of the Company's Tax Receivable Agreement, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2010. See Contractual Obligations for future payments related to the Tax Receivable Agreement.

Upon completion of the offering, Messrs. Altman, Beutner and Aspe (and trusts benefiting their families and permitted transferees) beneficially owned less than 50% of the aggregate LP Units owned by them at the time of our IPO. Accordingly, the IPO related Event-based Awards vested upon completion of the offering. In August 2011, we are expecting to deliver 2,027,340 shares directly and indirectly related to awards granted in conjunction with the Company's IPO.

We have made certain capital commitments, with respect to our investment activities, as well as commitments related to redeemable noncontrolling interest and contingent consideration from our acquisitions, which are included in the Contractual Obligations section below.

PCB maintains a line of credit with BBVA Bancomer to fund its trading activities on an intra-day and overnight basis. The intra-day facility is approximately \$8.5 million and secured with trading securities. No interest is charged on the intra-day facility. The overnight facility is charged the Inter-Bank Balance Interest Rate plus 10 basis points and is secured with trading securities. There have been no significant draw downs on PCB's line of credit since August 10, 2006. The line of credit is renewable annually.

Pursuant to deferred compensation arrangements, we are obligated to make cash payments in future periods. For further information see Note 15 to our unaudited condensed consolidated financial statements.

Certain of our subsidiaries are regulated entities and are subject to capital requirements. For further information see Note 17 to our unaudited condensed consolidated financial statements.

Collateralized Financing Activity at PCB

PCB enters into repurchase agreements with clients seeking overnight money market returns whereby PCB transfers to the clients Mexican government securities in exchange for cash and concurrently agrees to repurchase the securities at a future date for an amount equal to the cash

Edgar Filing: Evercore Partners Inc. - Form 10-Q

exchanged plus a stipulated premium or interest factor. PCB deploys the cash received from, and acquires the securities deliverable to, clients under these repurchase arrangements by purchasing securities in the open market or by entering into reverse repurchase agreements with unrelated third parties. We account for these repurchase and reverse repurchase agreements as

Table of Contents

collateralized financing transactions. We record a liability on our Unaudited Condensed Consolidated Statements of Financial Condition in relation to repurchase transactions executed with clients as Securities Sold Under Agreements to Repurchase. We record as assets on our Unaudited Condensed Consolidated Statements of Financial Condition, Financial Instruments Owned and Pledged as Collateral at Fair Value (where we have acquired the securities deliverable to clients under these repurchase arrangements by purchasing securities in the open market) and Securities Purchased Under Agreements to Resell (where we have acquired the securities deliverable to clients under these repurchase agreements by entering into reverse repurchase agreements with unrelated third parties). These Mexican government securities included in Financial Instruments Owned and Pledged as Collateral at Fair Value on the Unaudited Condensed Consolidated Statements of Financial Condition have an estimated average time to maturity of approximately 2.7 years, as of June 30, 2011, and are pledged as collateral against repurchase agreements, which are collateralized financing agreements. Generally, collateral is posted equal to the contract value at inception and is subject to market changes. These repurchase agreements are primarily with institutional customer accounts managed by PCB, generally mature within one business day and permit the counterparty to pledge the securities. Increases and decreases in asset and liability levels related to these transactions are a function of growth in PCB's AUM, as well as clients' investment allocations requiring positioning in repurchase transactions.

PCB has procedures in place to monitor the daily risk limits for positions taken, as well as the credit risk based on the collateral pledged under these agreements against their contract value from inception to maturity date. The daily risk measure is Value at Risk, which is a statistical measure, at a 98% confidence level, of the potential losses from adverse market movements in an ordinary market environment based on a historical simulation using the prior year's historical data. PCB's Risk Management Committee meets monthly to analyze the overall market risk exposure based on positions taken, as well as the credit risk, based on the collateral pledged under these agreements against the contract value from inception to maturity date.

We periodically assess the collectability or credit quality related to securities purchased under agreements to resell; as of June 30, 2011, the Company believes it maintains a sufficient level of cash or collateral.

As of June 30, 2011 and December 31, 2010, a summary of PCB's assets, liabilities and risk measures related to its collateralized financing activities is as follows:

Contractual Obligations

For a complete discussion of our contractual obligations, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Edgar Filing: Evercore Partners Inc. - Form 10-Q

As of June 30, 2011, we were unable to make reasonably reliable estimates of the period of cash settlement with the respective taxing authority, hence, per ASC 740, unrecognized tax benefits have been excluded from this disclosure.

As a result of the offering of common stock which occurred during the second quarter of 2011, the Amounts Due Pursuant to Tax Receivable Agreements increased to \$142.4 million. As of June 30, 2011, we estimated the contractual obligations related to the Tax Receivable Agreements to be \$146.4 million. We expect to pay to the counterparties to the Tax Receivable Agreement \$4.0 million within one year or less, \$20.5 million in one to three years, \$23.5 million in three to five years and \$98.5 million after five years.

On June 7, 2011, we entered into a definitive sale and purchase agreement to acquire all of the outstanding partnership interests in Lexicon. See Note 4 to our unaudited condensed consolidated financial statements for information related to our commitment in this transaction.

Table of Contents

We had total commitments (not reflected on our Unaudited Condensed Consolidated Statements of Financial Condition) relating to future principal investments of \$7.4 million and \$8.1 million as of June 30, 2011 and December 31, 2010, respectively. We expect to fund these commitments with cash flows from operations. We may be required to fund these commitments at any time through December 2017, depending on the timing and level of investments by our private equity funds.

We also have commitments related to our redeemable noncontrolling interests. See Note 13 of our unaudited condensed consolidated financial statements for further information.

Off-Balance Sheet Arrangements

We do not invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support, or engage in any leasing activities that expose us to any liability that is not reflected in our unaudited condensed consolidated financial statements.

Market Risk and Credit Risk

We, in general, are not a capital-intensive organization and as such, are not subject to significant market or credit risks. Nevertheless, we have established procedures to assess both the market and credit risk, as well as specific investment risk, exchange rate risk and credit risk related to receivables.

Market and Investment Risk

Institutional Asset Management

We invest in funds managed by EAM, EWM and G5. These funds principally hold readily-marketable investment securities. As of June 30, 2011, the fair value of our investments with these products, based on closing prices, was \$17.6 million.

We estimate that a hypothetical 10% adverse change in the market value of the investments would have resulted in a decrease in pre-tax income of approximately \$1.8 million for the three months ended June 30, 2011.

See **Liquidity and Capital Resources** above for a discussion of collateralized financing transactions at PCB.

Private Equity Funds

Through our principal investments in our private equity funds and our ability to earn carried interest from these funds, we face exposure to changes in the estimated fair value of the companies in which these funds invest. Our professionals devote considerable time and resources to work closely with the portfolio company's management to assist in designing a business strategy, allocating capital and other resources and evaluating expansion or acquisition opportunities. On a quarterly basis, we perform a comprehensive analysis and valuation of all of the portfolio companies. Our analysis includes reviewing the current market conditions and valuations of each portfolio company. Valuations and analysis regarding our investments in CSI Capital and Trilantic are performed by their respective professionals.

We estimate that a hypothetical 10% adverse change in the value of the private equity funds would have resulted in a decrease in pre-tax income of approximately \$2.5 million for the three months ended June 30, 2011.

Exchange Rate Risk

We have foreign operations, through our subsidiaries and affiliates, in Mexico, the United Kingdom, Brazil and Hong Kong which creates foreign exchange rate risk. Their respective functional currencies are the Mexican peso, British pound sterling, Brazilian real and Hong Kong dollar. We have not entered into any transactions to hedge our exposure to these foreign exchange fluctuations through the use of derivative instruments or otherwise. An appreciation or depreciation of any of these currencies relative to the U.S. dollar would result in an adverse or beneficial impact to our financial results. A significant portion of our Latin American revenues have been, and will continue to be, derived from contracts denominated in Mexican pesos and Evercore Europe's revenue and expenses are denominated primarily in British pounds sterling and euro. Historically, the value of these foreign currencies has fluctuated relative to the U.S. dollar. For the six months ended June 30, 2011, the net impact of the fluctuation of foreign currencies recorded in Other Comprehensive Income and Noncontrolling Interest within the Unaudited Condensed Consolidated Statement of Equity was \$2.4 million. It is currently not our intention to hedge our foreign currency exposure, and we will reevaluate this policy from time to time.

Table of Contents

Credit Risks

We maintain cash and cash equivalents with financial institutions with high credit ratings. At times, we may maintain deposits in federally insured financial institutions in excess of federally insured (FDIC) limits. However, we believe that we are not exposed to significant credit risk due to the financial position of the depository institution in which those deposits are held.

Accounts Receivable consists primarily of advisory fees and expense reimbursements billed to our clients. Receivables are reported net of any allowance for doubtful accounts. We maintain an allowance for bad debts to provide coverage for probable losses from our customer receivables and derive the estimate through specific identification for the allowance for doubtful accounts and an assessment of the client's creditworthiness. As of June 30, 2011 and December 31, 2010, total receivables amounted to \$83.1 million and \$49.6 million, respectively, net of an allowance. The Investment Banking and Investment Management receivables collection periods generally are within 90 days of invoice. The collection period for restructuring transactions and private equity fee receivables may exceed 90 days. We recorded minimal bad debt expense for each of the six months ended June 30, 2011 and 2010.

With respect to our Marketable Securities portfolio, which is comprised primarily of highly rated corporate and municipal bonds, mutual funds and Seed Capital Investments, we manage our credit risk exposure by limiting concentration risk and maintaining minimum credit quality. As of June 30, 2011, we had Marketable Securities of \$73.5 million, of which 64% were corporate and municipal bonds and other debt securities primarily with S&P ratings ranging from AAA to BB+ and 36% were Seed Capital Investments and mutual funds.

Critical Accounting Policies and Estimates

The unaudited condensed consolidated financial statements included in this report are prepared in conformity with U.S. GAAP, which requires management to make estimates and assumptions regarding future events that affect the amounts reported in our unaudited condensed consolidated financial statements and their notes, including reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. We base these estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ materially from those estimates. For a complete discussion of our critical accounting policies and estimates, refer to our Annual Report on Form 10-K for the year ended December 31, 2010.

Recently Issued Accounting Standards

ASU 2011-03 In April 2011, the FASB issued ASU No. 2011-03, *Reconsideration of Effective Control for Repurchase Agreements* (ASU 2011-03). ASU 2011-03 provides amendments to ASC No. 860 *Transfers and Servicing*, which remove from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the collateral maintenance implementation guidance related to that criterion. The amendments in this update are effective prospectively for transactions or modifications of existing transactions that occur on or after the beginning of the first interim or annual reporting period beginning on or after December 15, 2011, with early adoption not permitted. The Company is currently assessing the impact of the adoption of this update on the Company's financial condition, results of operations and cash flows.

ASU 2011-04 In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 provides amendments to ASC No. 820 *Fair Value Measurement*, which results in a consistent definition of fair value and common requirements for measurement of and disclosure of fair value between U.S. GAAP and IFRS. Some of the amendments clarify the Board's intent about the application of existing fair value measurement requirements, while others change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The amendments in this update are effective prospectively during interim and annual periods beginning after December 15, 2011, with early adoption not permitted. The Company is currently assessing the impact of the adoption of this update on the Company's financial condition, results of operations and cash flows.

ASU 2011-05 In June 2011, the FASB issued ASU No. 2011-05, *Presentation of Comprehensive Income* (ASU 2011-05). ASU 2011-05 provides amendments to ASC No. 220 *Comprehensive Income*, which require an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this update are effective retrospectively for fiscal years and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. The Company is currently assessing the impact of the adoption of this update on the Company's financial condition, results of operations and cash flows.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

General

In the normal course of business, from time to time the Company and its affiliates may be involved in judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its businesses, and, in the past, the Company and its affiliates have been named as a defendant in civil litigation matters involving present or former clients or competitors. In addition, Mexican, United Kingdom, Hong Kong and United States government agencies and self-regulatory organizations, as well as state securities commissions in the United States, conduct periodic examinations and initiate administrative proceedings regarding the Company's business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer, investment advisor, or its directors, officers or employees. In view of the inherent difficulty of predicting the outcome of such matters, particularly in cases where claimants seek substantial or indeterminate damages or where investigations and proceedings are in the early stages, the Company cannot predict the loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, the Company believes, based on current knowledge and after consultation with counsel, that it is not currently party to any material pending legal proceedings, individually or in the aggregate, the resolution of which would have a material effect on the Company. Legal reserves are established in accordance with ASC 450, *Accounting for Contingencies* when warranted. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change.
