At June 30, 2001, common shares reserved for issuance in connection with the Company's stock plans were 80,865,863 shares for the Stockholder Rights Plan, 2,063,772 shares for the Dividend Reinvestment and Stock Purchase Plan, 565,493 shares for the Employees' Stock Ownership Plan and 532,381 shares for the Savings Plan for Employees. Up to 4,254,367 shares of common stock may be issued under the 2000 Stock Award and Incentive Plan, of which approximately 3,300,000 shares were available to be granted at June 30, 2001.

AMERICAN WATER WORKS COMPANY, INC. AND SUBSIDIARY COMPANIES

-----  
Notes to Consolidated Financial Statements (Unaudited)

NOTE 1 -- Financial Statement Presentation

The information presented in this Form 10-Q is unaudited. In the opinion of management the information reported reflects all adjustments, consisting of normal recurring adjustments, which were necessary to a fair statement of the results for the periods reported. Certain reclassifications have been made to conform previously reported data to the current presentation.

NOTE 2 -- Acquisitions

CITY OF COATESVILLE PENNSYLVANIA WATER AND WASTEWATER SYSTEMS

On March 22, 2001 the Company's subsidiary in Pennsylvania completed the purchase of the City of Coatesville Authority's water and wastewater utility systems for \$48.225 million. These systems provide water service to 8,600 customers and wastewater service to 6,500 customers.

Note 3 -- Pending Acquisitions

WATER AND WASTEWATER ASSETS OF CITIZENS COMMUNICATIONS

On October 15, 1999, the Company entered into an agreement to acquire all of the water and wastewater utility assets of Citizens Communications Company (formerly Citizens Utilities Company) (NYSE:CZN) for \$835 million in cash and debt. Citizens provides water and wastewater service to 305,000 customers in Arizona, California, Illinois, Indiana, Ohio and Pennsylvania. For the latest fiscal year ended December 31, 2000, the operations being acquired had revenues of approximately \$110 million.

Regulatory agencies in Pennsylvania, Indiana, Illinois, Ohio, and Arizona have approved the acquisition of Citizen's water and wastewater assets in those states and on August 7, 2001 an Administrative Law Judge issued a proposed order approving the acquisition in California. A decision from the California Public Utilities Commission is anticipated during the third quarter of 2001.

AZURIX NORTH AMERICA AND AZURIX INDUSTRIALS

On August 2, 2001 the Company entered into an agreement to acquire Azurix North America Corp. and Azurix Industrials Corp. for approximately \$150 million in cash and debt. Closing is expected to occur during the fourth quarter of 2001.

Azurix North America and Azurix Industrials are wholly-owned subsidiaries of Azurix Corp. and provide a range of water and wastewater services, including operations and maintenance, engineering, carbon regeneration, underground infrastructure rehabilitation and residuals management.

Azurix North America and Azurix Industrials, which had revenues totaling approximately \$160 million in 2000, have approximately 1,050 employees and operate facilities serving an end-user population of approximately 2 million people across North America.

NOTE 4 -- New Accounting Standards

On January 1, 2001, the Company adopted Statement of Financial Accounting Standards No. 133 "Accounting for Derivative Instruments and Hedging Activities" (SFAS 133), as amended. The statement establishes accounting and reporting standards for derivative instruments and hedging activities. SFAS

## Edgar Filing: AMERICAN WATER WORKS CO INC - Form 10-Q

133 was issued by the Financial Accounting Standards Board in June of 1998 and requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value.

Page 12

FORM 10-Q

This new accounting standard did not have any effect on the Company's financial position or results of operations. The Company's contracts that meet the definition of a derivative are for normal purchases and normal sales, are expected to result in a physical delivery, and are of quantities expected to be used or sold over a reasonable period in the normal course of business. The Company has no hedging activities.

On July 20, 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141, "Business Combinations" (SFAS 141) and No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). SFAS 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Under SFAS 142, goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed annually (or more frequently if impairment indicators arise) for impairment. Separable intangible assets that are not deemed to have indefinite lives will continue to be amortized over their useful lives (but not to exceed 40 years). The amortization provisions of SFAS 142 apply to goodwill and intangible assets acquired after June 30, 2001. With respect to goodwill and intangible assets acquired prior to July 1, 2001, the Company is required to adopt SFAS 142 effective January 1, 2002. The Company is currently evaluating the effect that adoption of the provisions of SFAS 142 that are effective January 1, 2002 will have on its results of operations and financial position.

Also on June 30, 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 143, "Accounting for Asset Retirement Obligations," (SFAS 143) on the accounting for obligations associated with the retirement of long-lived assets. SFAS 143 requires a liability to be recognized in the financial statements for retirement obligations meeting specific criteria. Measurement of the initial obligation is to approximate fair value with an equivalent amount recorded as an increase in the value of the capitalized asset. The asset will be depreciable in accordance with normal depreciation policy and the liability will be increased, with a charge to the income statement, until the obligation is settled. SFAS 143 is effective for fiscal years beginning after June 15, 2002. The Company is currently evaluating the effect that adoption of the provisions of SFAS 143 will have on its results of operations and financial position.

PART I - FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition  
and Results of Operations

---

Results of Operations

---

Operating revenues for the second quarter and the first six months of 2001 were higher than for the same periods of 2000 by 5% and 4%, respectively. Increased revenues were the result of increased water sales to 44,000 new customers added since June 30, 2000 and authorized increases in charges for water service.

Water sales volume during the second quarter of 2001 increased 1% to 83.3 billion gallons from 82.5 billion gallons in the second quarter of 2000. The 158.7 billion gallons of sales volume for the first six months of 2001 was slightly greater than the 158.5 billion gallons sold in the same period of 2000.

During 2001, eight utility subsidiaries have received rate orders which are expected to provide approximately \$16.9 million in additional annual revenues. Five subsidiaries have rate increase applications on file before regulatory agencies which, if granted in full, would provide approximately \$57 million in additional annual revenues. The largest portion of this total is from two separate requests filed by Pennsylvania-American and West Virginia-American at \$39 million and \$12 million, respectively.

A decision in the West Virginia case is expected in the fourth quarter of this year. The Pennsylvania case should be decided in the first quarter of 2002.

Operating expenses in the second quarter and the first six months of 2001 were 5% higher compared to the same periods in 2000. Operation and maintenance expenses increased by 4% in the second quarter and the first six months when compared to the same periods in 2000. A portion of the expense increase was associated with customer growth. The increases in depreciation expense for the quarter and first six months were related to the Company's ongoing program of utility plant construction.

Interest expense rose by 2% in the second quarter and 3% in the first six months of 2001 compared to the same periods in 2000, due to an increase in total debt to fund construction of new water service assets. The total allowance for funds used (equity and borrowed) during construction ("AFUDC") recorded in the second quarter of 2001 was \$2.3 million, compared to \$3.2 million in the second quarter of 2000. AFUDC for the first six months of 2001 was \$4.3 million compared to \$7.8 million for the same period in 2000. The utility subsidiaries record AFUDC to the extent permitted by the regulatory authorities. During the second quarter of 2001 the Company sold a portion of its telecommunication company investments and realized a pre-tax gain of \$3.4 million in other income.

Income taxes increased in the second quarter and first six months of 2001 when compared to the comparable periods in 2000, as a result of increased earnings in 2001.

Net income to common stock was \$49.2 million for the second quarter of 2001 compared with \$44.1 million for the same period in 2000. Net income to common stock for the first six months of 2001 was \$72.6 million compared with \$70.2 million for the first six months of 2000.

Other comprehensive loss was \$4.5 million and \$6.5 million in the second quarter and first six months of 2001, respectively, compared to other comprehensive loss of \$31.0 million and \$23.2 million in the same periods in 2000. The Company's other comprehensive income or loss represents the unrealized gain or loss on passive investments in publicly traded securities.

#### Capital Resources and Liquidity

-----

During the first six months of 2001, 732,324 shares of common stock were issued in connection with the Dividend Reinvestment and Stock Purchase Plan, and 22,184 shares were issued for non-qualified stock options that were exercised. Also, 159,692 non-qualified stock options were granted in connection with the 2000 Stock Award and Incentive Plan during the first six months of 2001.

The Company issued 96,136 shares of common stock out of treasury during the first six months of 2001 in connection with the Employees' Stock Ownership Plan, the Savings Plan for Employees and the 2000 Stock Award and Incentive Plan.

On March 29, 2001 the Company's financing subsidiary, American Water Capital Corp. (AWCC) closed on its inaugural long-term debt financing of \$140 million. The securities issued are senior unsecured notes carrying an interest rate of 6.87% maturing on March 29, 2011. The proceeds were loaned to nine utility subsidiaries to repay short-term debt. In the first six months of 2001, the Company invested \$7.2 million in the common stock of two subsidiaries.

The Company and its subsidiaries plan to fund construction programs, continue acquisitions, and repay short-term debt and maturing bonds with cash from operations and from the issuance of approximately \$100 million of long-term debt during the remainder of 2001. In addition, during 2001 the Company plans to arrange financing of approximately \$1 billion to fund the acquisition of the Citizens Communications water and wastewater assets, and the acquisition of Azurix North America and Azurix Industrials. Management intends to fund these transactions permanently through a combination of long-term debt and equity or hybrid equity securities. Excluding any short-term debt incurred in connection with the pending transactions, the combined amount of short-term debt and bonds maturing within one year is expected to decline to approximately \$420 million in 2001.

## New Accounting Standards

-----  
On January 1, 2001, the Company adopted Statement of Financial Accounting Standards No. 133 "Accounting for Derivative Instruments and Hedging Activities" (SFAS 133), as amended. The statement establishes accounting and reporting standards for derivative instruments and hedging activities. SFAS 133 was issued by the Financial Accounting Standards Board in June of 1998 and requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value.

This new accounting standard did not have any effect on the Company's financial position or results of operations. The Company's contracts that meet the definition of a derivative are for normal purchases and normal sales, are expected to result in a physical delivery, and are of quantities expected to be used or sold over a reasonable period in the normal course of business. The Company has no hedging activities.

On July 20, 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141, "Business Combinations" (SFAS 141) and No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). SFAS 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Under SFAS 142, goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed annually (or more frequently if impairment indicators arise) for impairment. Separable intangible assets that are not deemed to have indefinite lives will continue to be amortized over their useful lives (but not to exceed 40 years). The amortization provisions of SFAS 142 apply to goodwill and intangible assets acquired after June 30, 2001. With respect to goodwill and intangible assets acquired prior to July 1, 2001, the Company is required to adopt SFAS 142 effective January 1, 2002. The Company is currently evaluating the effect that adoption of the provisions of SFAS 142 that are effective January 1, 2002 will have on its results of operations and financial position.

Also on June 30, 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 143, "Accounting for Asset Retirement Obligations," (SFAS 143) on the accounting for obligations associated with the retirement of long-lived assets. SFAS 143 requires a liability to be recognized in the financial statements for retirement obligations meeting specific criteria. Measurement of the initial obligation is to approximate fair value with an equivalent amount recorded as an increase in the value of the capitalized asset. The asset will be depreciable in accordance with normal depreciation policy and the liability will be increased, with a charge to the income statement, until the obligation is settled. SFAS 143 is effective for fiscal years beginning after June 15, 2002. The Company is currently evaluating the effect that adoption of the provisions of SFAS 143 will have on its results of operations and financial position.

Forward Looking Information

-----

Forward looking statements in this report, including, without limitation, statements relating to the Company's plans, strategies, objectives, expectations, intentions and adequacy of resources, are made pursuant to the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward looking statements. These factors include, among others, the following: the success of pending applications for rate increases; inability to obtain, or to meet conditions imposed for, regulatory approval of pending acquisitions; weather conditions that tend to extremes of temperature or duration; availability, terms and development of capital; business abilities and judgment of personnel; changes in, or the failure to comply with governmental regulations, particularly those affecting the environment and water quality; competition; success of operating initiatives, advertising and promotional efforts; existence of adverse publicity or litigation; changes in business strategy or plans; quality of management; general economic and business conditions; and other factors described in filings of the Company with the SEC. The Company undertakes no obligation to publicly update or revise any forward looking statement, whether as a result of new information, future events or otherwise.
