Compensation Discussion and Analysis

Through the following questions and answers, we explain the material elements of our compensation program in place for our Chief Executive Officer, Chief Financial Officer and the three most highly-compensated executive officers other than the Chief Executive Officer and Chief Financial Officer as of March 31, 2014 (collectively referred to as our “named executive officers”).

What are the objectives of our executive compensation programs?

Measurement Specialties, Inc. is a leader in the design, development and manufacture of sensors and sensor-based systems for original equipment manufacturers and end users, based on a broad portfolio of proprietary technologies. We operate in highly fragmented markets that are characterized by high levels of competition. We believe that we need qualified executive officers who are capable of independent thinking and responsible decision making in order to compete in the markets we serve. Under the direction of the Compensation Committee of our Board of Directors, we seek to compensate our named executive officers at levels that are competitive so that we may attract, retain and motivate highly capable executive officers. We also seek to design our compensation programs to align our named executive officers’ interests with those of our shareholders and, in doing so, build long-term value for our shareholders.

Table of Contents

Our fiscal 2014 executive compensation, including base compensation and cash and equity incentive awards, reflect our efforts to realize the objectives of our executive compensation programs.

What are the principal components of our executive compensation programs?

Overview: The Company's policy for compensating our named executive officers is intended to support the Company's short-term and long-term goals by providing an appropriate mix of compensation elements to effectively balance short-term annual incentives that reward executives for current performance and the achievement of near-term goals with long-term incentives that reward executives for performance over a sustained period. To support this policy, our executive compensation programs consist of three principal components:

a base salary;
annual incentives; and
long-term equity incentive compensation.

We have selected programs that we believe are commonly used by public companies, both within and outside of our industry, because we believe commonly used programs are well understood by our shareholders, employees and analysts. We describe each of these principal components below.

Relationship of the principal components: The Compensation Committee exercises its judgment in making executive compensation decisions, and considers various factors within the overall framework of our executive compensation program. While we review each element of compensation individually and in the aggregate, we do not have a specific policy on the percentage of a named executive officer's total compensation that should be "short-term" versus "long-term" nor do we have a specific policy on the percentage of total compensation that should be "cash" versus "equity." We allocate the three principal components of our executive compensation programs in a manner that we believe optimizes each named executive officer's contribution to the Company.

Base Salary: We believe base salaries provide basic compensation at a level that allows us to recruit and retain key executive talent. Base salaries are based on a combination of factors, primarily the performance of the executive, relative level of responsibility and experience, salaries of similarly situated executive officers at peer companies and, with respect to the base salaries of named executive officers other than our Chief Executive Officer, the recommendations of our Chief Executive Officer. Although our Compensation Committee annually reviews salaries of our named executive officers, our Compensation Committee does not automatically adjust base salaries if it concludes that adjustments to other components of the executive's compensation would be more appropriate. In addition, the employment agreements that we have with certain of our named executive officers provide for fixed annual base salaries or minimum annual base salaries.

Annual Incentives: We have provided annual incentive opportunities to our named executive officers to motivate their performance in achieving our current year business goals. In setting the potential bonus level of a named executive officer, the Compensation Committee considers such factors as the executive officer's individual performance and relative level of responsibility. Typically, we adopt an annual incentive compensation plan each year that establishes specifically identified payout opportunities dependent upon achieving pre-determined financial performance targets and personal performance objectives. When payments are made under our annual incentive compensation plan, they are made after the fiscal year-end results are finalized. Our Compensation Committee retains discretion to determine the portion of an actual accrued aggregate bonus amount that will be paid to our named executive officers, or to pay a bonus to our named executive officers notwithstanding that no amount was accrued in any year.

Long-Term Incentive Compensation: The Compensation Committee uses stock options and restricted stock units ("RSUs") as an important part of the long-term incentive compensation program and believes such awards continue to be an effective way to link a named executive officer's compensation to the performance of the Company and strengthen the alignment of management and shareholder interests. Awards are intended to encourage each of the named executive officers to achieve established performance goals, to continue in the employ of the Company, to enhance their incentive to perform at the highest level, and in general, to further the best interests of the Company and its shareholders.

Table of Contents

Long-term incentive awards granted by the Compensation Committee consist of stock options and RSUs with time-based and, in fiscal year 2014, performance-based vesting criteria. The Compensation Committee believes that stock options and RSUs promote the objectives of our executive compensation program in the following ways:

- Encourages officers to take a long-term view of our performance and promote stability within our executive ranks, facilitating realization of our long-term objectives to create shareholder value;
- Given the long tenure of our named executive officers, each holds significant unexercised stock options and unvested RSUs that are expected to have significant value over the long term; and
- Stock options and RSUs have been effective tools in overall compensation in recruiting, motivating and retaining skilled officers, and we believe they will continue to be effective tools over the long-term.

The number of stock options and RSUs subject to an award has been computed by taking into account the Company's performance, the named executive officer's individual performance, our retention objectives, and other factors. Additionally, a portion of the RSUs awarded to our named executive officers in June 2013 are subject to Company performance criteria as further described below under "*Fiscal 2014 Executive Compensation – Long-Term Incentive Compensation.*"

Stock options and RSUs are generally granted on the first day of the month following the day on which they are approved by the Compensation Committee. Stock options are priced at 100% of fair market value on the date of grant, which under our equity incentive plans is the closing market price of our common stock on the date of the grant. Named executive officers benefit from stock option grants only to the extent the price of our common stock appreciates above the exercise price of the stock options.

Other Benefits: In addition to the components of compensation discussed above, we also provide certain other benefits to our named executive officers to ensure that our executive compensation program remains competitive. These other benefits include 401(k) matching, and health, life and long-term disability insurance premiums. Our Compensation Committee reviews annually the dollar value of these other benefits to the named executive officers and the cost of providing these other benefits to the Company. However, such review does not influence the Compensation Committee's decisions regarding the determination of the principal elements of a named executive officer's current level of compensation.

What do we seek to reward and accomplish through our executive compensation programs?

We provide annual incentive opportunities primarily to provide performance incentives to our key employees to meet annual performance objectives. Our annual corporate objectives are measured by sales increases, net income, Adjusted EBITDA margins (defined as earnings before deduction of interest, taxes, depreciation, amortization, share-based compensation, foreign currency exchange gains and losses, and certain non-recurring items to sales) and other

financial metrics of performance, such as working capital reductions. In the case of our Chief Executive Officer, our Compensation Committee has also taken into account the strategic direction he has provided the Company and his stewardship of the Company since the beginning of his involvement with the Company. We provide long-term incentive awards primarily to motivate and reward key employees over longer periods. Through vesting and forfeiture provisions that we include in awards of stock options and RSUs, we provide an additional incentive to executives to act in furtherance of our longer-term interests. An executive whose employment with us terminates before equity-based awards have vested because the executive chooses to leave, will generally forfeit the unvested portion of the award. As a result, the Compensation Committee believes that providing the named executive officers with compensation in the form of stock options and RSUs serves to encourage retention of the named executive officers.

How do we determine the amount of each principal component of compensation to our executives?

Our Compensation Committee exercises judgment and discretion in setting compensation for our named executive officers. The Compensation Committee exercises its judgment and discretion after it has reviewed peer company practices, evaluated the recommendations of our Chief Executive Officer with respect to named executive officers other than our Chief Executive Officer, and evaluated our corporate performance. *See “To what extent do we benchmark and what are the benchmarks that we use?”* below.

Table of Contents

Our named executive officers (other than Steve Smith) each have an employment agreement with us that provides for, among other things, an annual base salary and an annual target bonus, thereby limiting the discretion of the Compensation Committee with respect to certain of their compensation, as well as certain post-employment severance payments. Mr. Smith announced his retirement as our Chief Operating Officer, effective as of April 1, 2014, and therefore, ceased to be an executive officer of the Company as of that date and his employment agreement with the Company terminated as of that date.

What is the role of our executive officers in the compensation process?

Our Compensation Committee meets periodically with our Chief Executive Officer to address executive compensation, including the rationale for our compensation programs and the efficacy of the programs in achieving our compensation objectives. The Compensation Committee also relies on our executive officers to evaluate compensation programs to assure that they are designed and implemented in compliance with laws and regulations, including SEC reporting requirements. The Compensation Committee relies on the recommendations of our Chief Executive Officer regarding the performance of individual named executive officers, other than the Chief Executive Officer. At meetings in fiscal 2014, the Compensation Committee received recommendations from our Chief Executive Officer regarding salary adjustments, annual incentive, and stock option and RSU awards for our named executive officers. The Compensation Committee believes that it is important for it to receive the input of the Chief Executive Officer on compensation matters since he is knowledgeable about the activities of our named executive officers and the performance of their duties and responsibilities, as well as their contributions to the growth of the Company and its business.

To what extent do we benchmark and what are the benchmarks that we use?

The Compensation Committee compares each element of total compensation and total compensation in the aggregate to compensation provided by peer groups of publicly-traded companies in the sensory devices and similar industries in evaluating the compensation of our named executive officers. The Compensation Committee typically uses peer group comparisons to assess the reasonableness of its executive compensation decisions in an effort to ensure that our compensation program remains competitive.

To assist the Compensation Committee in evaluating the competitiveness of the Company's executive compensation program for fiscal year 2013, the Compensation Committee engaged Compensation Consulting Consortium, LLC ("3C Consulting") to complete a market compensation analysis of total compensation for the positions held by our named executive officers as compared to a peer group of eighteen companies. The peer company group was limited by industry and based on annual revenue ranging from approximately one-half to 2.5 times that of the Company and market capitalization ranging from approximately one-third to 4.5 times that of the Company. The companies comprising the peer group were Nanometrics Incorporated, Faro Technologies, Inc., Vishay Precision Group, Inc., Mercury Computer Systems, Inc., X Rite Inc., IPG Photonics Corp., Cognex Corp., American Science & Engineering,

Inc., Badger Meter, MTS Systems Corp., II-VI Inc., Analogic Corporation, Newport Corp., Park Electrochemical Corp., CTS Corporation, ESCO Technologies, Inc., OSI Systems, Inc., and Stoneridge, Inc. 3C Consulting's analyses included the following data collected from the proxy statements of the peer group companies: (i) base salary, (ii) annual incentive compensation and (iii) long-term incentive compensation including expected value of stock options. In May 2013, 3C Consulting completed a second market compensation analysis of total compensation for the positions held by our named executive officers that was used to set executive compensation levels for fiscal 2014. The May 2013 analysis included a peer group of nineteen companies, removing from the list above X Rite, Inc., which was acquired by a larger company, and adding MKS Instruments, Inc. and Multi-Fineline Electronics, Inc., based on these companies fitting within the peer group definition.

The Board of Directors has adopted a written charter setting forth the functions of the Compensation Committee. This charter is available to shareholders in the "Investor Relations" section of our website at www.meas-spec.com. Under its charter, our Compensation Committee has the sole authority to retain third party compensation consultants or other advisors to assist the Compensation Committee in evaluating director, chief executive officer or senior executive compensation, and the sole authority to approve the fees and other retention terms, and oversee the work of, such consultants or other advisors. As discussed above, 3C Consulting prepared a market compensation analysis that was used by the Compensation Committee in setting executive compensation for fiscal 2014. The Compensation Committee considered the independence of 3C Consulting and determined that 3C Consulting is independent based on the independence factors listed in Nasdaq Rule 5605(d)(3) and that the work performed by 3C Consulting does not raise any conflicts of interest.

Table of Contents

We aim to provide total target compensation for our Chief Executive Officer that approximates the 65th percentile compared to total target compensation for chief executive officers at companies in our industry and of similar size based on data from published surveys. The Board of Directors believes that providing our Chief Executive Officer with total target compensation that approximates the 65th percentile of the peer group is appropriate given his leadership and role in the growth in sales and profitability that we have experienced over the past several fiscal years.

What specific items of corporate performance do we take into account in setting compensation policies and making compensation decisions?

Our corporate performance primarily impacts the annual incentives and long-term incentive compensation that we provide our named executive officers. We use or weight items of corporate performance differently in our annual incentive awards and long-term compensation awards and some items are more determinative than others.

Goals for named executive officers in fiscal 2014 varied because the scope of responsibility and authority of named executive officers differ. Goals are generally developed around metrics tied to our growth, profitability and cash flow, including increases in revenue, decreases in expenses, completion of developments in accordance with budgets and timelines, execution of acquisitions in accordance with targets, enhanced operational efficiencies and development of additional opportunities for our long-term growth.

How do we determine when awards are granted, including awards of equity-based compensation?

Historically, our Compensation Committee has awarded annual bonuses in the quarter following the fiscal year end. The Compensation Committee makes an annual grant of stock options and/or RSUs following review of pertinent financial information and industry data. In addition, the Compensation Committee conducts a thorough review of stock option and RSU awards and grant procedures annually. In the case of newly-hired executive officers or promotions, the Compensation Committee has made awards simultaneous with the executive's hire or promotion date. The date on which the Compensation Committee has met has varied from year to year, primarily based on the schedules of Compensation Committee members and the timing of compilation of data requested by the Compensation Committee.

What factors do we consider in decisions to increase or decrease compensation materially?

Historically, we have generally not decreased the base salaries of our named executive officers or materially reduced their annual incentive compensation targets. Annual incentive compensation may vary since the amount awarded to a

named executive officer depends in part upon his individual performance. As a result, total compensation is effectively decreased if individual or Company performance falls short of expectations. The factors that we consider in decisions to increase compensation include the individual performance of the executive and our corporate performance, as discussed above. In recent years, annual incentive compensation has generally been tied to achievement of Adjusted EBITDA margin as a percentage of sales. For additional discussion of the terms of our fiscal 2014 bonus plan, see below under “*Fiscal 2014 Executive Compensation – Annual Incentive Compensation.*”

To what extent does our Compensation Committee consider amounts accumulated or potentially realizable from prior compensation in setting current compensation?

The primary focus of our Compensation Committee in setting executive compensation is the named executive officer’s current level of compensation. Although the Compensation Committee reviews accumulated or potentially realizable compensation, including from previously granted equity awards, such review generally does not influence the Compensation Committee’s decisions regarding the determination of a named executive officer’s current level of compensation. This reflects the Compensation Committee’s view that a named executive officer’s compensation level should reflect the executive’s performance, the Company’s performance and the executive’s contribution to the Company’s performance. The Compensation Committee further believes that reducing a named executive officer’s annual direct compensation based on the value of accumulated or potentially realizable compensation would weaken the competitiveness of the Company’s compensation program and make it more difficult to attract and retain key executive talent.

What are our equity or other security ownership requirements for executives?

We provide our named executive officers with a commensurate portion of their total compensation in the form of stock options and RSUs, which are intended to reward performance that enhances value for all of our shareholders and strengthen the alignment of management and shareholder interests. We generally believe that our named executive officers should be able to share in the value they create for all of our shareholders throughout their careers with us. Therefore, we do not maintain minimum share ownership requirements for our named executive officers.

Stock options and RSUs granted by the Compensation Committee generally include time-based vesting criteria. Additionally, a portion of the RSUs awarded to our named executive officers in June 2013 are subject to Company performance criteria as further described below under “*Fiscal 2014 Executive Compensation – Long –Term Incentive Compensation.*”

Why have we entered into agreements with executive officers that provide for post-employment payments, including following a change-in-control?

The employment agreements with our named executive officers (other than Mr. Smith, whose employment agreement with us terminated as of April 1, 2014) provide for post-employment severance if we terminate the applicable executive prior to the expiration of the stated employment term without “cause” or if the executive terminates for “good reason” (in each case as defined in the executive’s employment agreement and summarized below). We believe this approach provides us with the flexibility to terminate the applicable executive at any time and for any reason while providing the executive with the benefit of his or her bargained for compensation. The Company’s obligations under these agreements would be assumed by a successor to the Company following a “change in control” (as defined in the executive’s employment agreement and summarized below). We believe it is in our best interest to have agreements with our named executive officers that maintain their focus on, and commitment to, us notwithstanding a potential merger or other change of control. The terms of these employment agreements, including the compensation payable thereunder, were based on our review of the market for key executive talent at the time of hiring and negotiations with the named executive officer. Additionally, these agreements contain confidentiality and non-competition provisions. For further details on the post-employment severance payable to our named executive officers, see “—*Potential Payments on Termination or Change in Control*” below.

Do we have a policy regarding the recovery of awards or payments if corporate performance measures upon which awards or payments are based are restated or adjusted in a manner that would reduce the size of an award or payment?

Historically, we did not have a policy that provided for recovery of an award if a performance measure used to calculate the award was subsequently adjusted in a manner that would have reduced the size of the award. However, in July 2013 the Company's Board of Directors adopted, and our shareholders approved at the Company's 2013 Annual Meeting, the Performance Incentive Plan (the "Performance Incentive Plan"). The Performance Incentive Plan provides that in the event our Board of Directors determines that a material restatement of the Company's financial results for any of the three prior fiscal years for which audited financial statements have been prepared is required due to material noncompliance by the Company with any financial reporting requirement under applicable securities laws and a participant's award amount would have been lower had the results been properly calculated, the Compensation Committee will consider such factors related to the restatement as it deems appropriate and has the authority, at its discretion, to obtain reimbursement from the participant. In addition, the Compensation Committee would take such other actions as it believes appropriate relating to any such restatement, including potentially seeking recovery of other compensation paid based on the incorrect results.

How do accounting considerations impact our compensation practices?

Accounting consequences are not a material consideration in designing our compensation practices. Under FASB ASC Topic 718, the compensation cost recognized for an award classified as an equity award is fixed for the particular award and, absent modification, is not revised with subsequent changes in market prices of our common shares or other assumptions used for purposes of the valuation.

How do tax considerations impact our compensation practices?

Prior to implementation of a compensation program and awards under the program, we evaluate the federal income tax consequences, both to us and to our executives, of the program and awards. In certain cases, we have adjusted the form or manner of some of our compensation programs in light of tax planning considerations.

Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”) limits our tax deduction each year for compensation to each of our Chief Executive Officer and our three other highest paid executive officers (excluding the Chief Financial Officer) to \$1 million unless, in general, the compensation is paid under a plan that is performance-related, non-discretionary and has been approved by our shareholders (such as stock options and RSUs that are subject to certain performance criteria). Previously, Section 162(m) has not had a significant impact on our compensation programs. Going forward, Section 162(m) may impact the Company and the Performance Incentive Plan will permit the Company to potentially avoid application of certain Section 162(m) tax deduction limitations pursuant to a qualified performance-based compensation exception under Section 162(m). In any event, we will generally continue to seek to maximize the tax deductibility of compensation payments to our named executive officers. We may, however, authorize payments that may not be fully tax deductible, and we reserve the flexibility to do so.

We also seek to structure compensation in a manner intended to avoid the incurrence of any additional tax, interest or penalties under Section 409A of the Code. We make no representations or warranty, however, that recipients of any payments, compensation or other benefits will not incur additional tax, interest or penalties under Section 409A of the Code.

How do risk considerations impact our compensation practices?

While risk-taking is a necessary part of growing a business, the Compensation Committee believes that the Company’s executive compensation program supports the objectives described above without encouraging inappropriate or

excessive risk-taking. In reaching this conclusion, the Compensation Committee considered in particular the following attributes and risk-mitigation features of our program:

- Our program's emphasis on long-term, equity-based compensation, which discourages risk-taking that produces positive short-term results at the expense of building long-term shareholder value;
- The balance between stock options and RSUs, which on a combined basis results in what we believe is an appropriate degree of leverage;
- Our program's use of a time horizon over which our executives realize their compensation consistent with achieving long-term shareholder value; and
- Our annual cash incentive plan, which encourages annual performance that sustains rather than detracts from future performance.

Non-Binding Advisory Say on Pay Proposal and Recent Changes in Compensation Practices

In September 2013, our shareholders overwhelmingly approved the compensation of the Company's named executive officers, with 13,126,645 shares voted in favor of approving such compensation, 99,993 shares voted against and 117,414 shares abstaining. In addition, 1,410,063 shares held by brokers were not voted with respect to this proposal. The Compensation Committee interpreted these results as a validation of the structure of our pay-for-performance compensation program and determined to retain our general approach to executive compensation.

Fiscal 2014 Executive Compensation

Base Salaries

In making base salary decisions for fiscal 2014 for our named executive officers, the Compensation Committee considered (1) the terms of the named executive officer's employment agreement, (2) the performance of the named executive officer, (3) his level of responsibility and experience, (4) overall Company performance levels, and (5) compensation levels of executives of peer companies. The relative weight given to each of these factors varied by position and individual and was within the sole discretion of the Compensation Committee. As noted above, although the Compensation Committee reviews base salaries annually, it does not automatically adjust base salaries on an annual basis.

In June 2013, our Compensation Committee reviewed the base salaries of Messrs. Guidone, Thomson, MacGibbon, Thompson and Smith and, based on this review, increased their base salaries to \$550,000, \$320,000, \$260,000, \$220,000 and \$250,000, respectively, effective November 1, 2013. Mr. Thompson's base salary was increased to \$237,600 effective July 21, 2014.

Annual Incentive Compensation

2014 Bonus Plan

For fiscal 2014, we adopted the fiscal year 2014 Bonus Plan (the "2014 Bonus Plan"). The 2014 Bonus Plan determined the amount of annual incentive compensation to be awarded to the named executive officers and certain other eligible employees of the Company. The 2014 Bonus Plan established an aggregate target bonus amount for fiscal year 2014 of \$5.0 million (the "2014 Aggregate Target Bonus"). Pursuant to the 2014 Bonus Plan, the Company would accrue an aggregate bonus amount only if the Company's fiscal 2014 EBITDA margin as a percentage of sales (excluding the bonus accrual) ("2014 EBITDA Margin") exceeded 18.5%. The actual aggregate bonus amount would be based on the amount by which the Company's fiscal 2014 EBITDA (excluding the bonus accrual) exceeded the EBITDA (excluding the bonus accrual) that would have resulted if 2014 EBITDA Margin at such level of sales were equal to 18.5% (the "2014 Excess Amount"). Under the 2014 Bonus Plan, the following amounts would be accrued to the aggregate bonus amount: (i) 50% of the 2014 Excess Amount up to a maximum accrual equal to the 2014 Aggregate Target Bonus, plus (ii) 20% of the 2014 Excess Amount above the Aggregate Target Bonus. The actual aggregate bonus amount accrued by the Company under the 2014 Bonus Plan would be subject to adjustment by the Compensation Committee following the end of the Company's 2014 fiscal year to determine the amount (if any) that would actually be paid.

The Compensation Committee determined the portion of an actual accrued aggregate bonus amount under the 2014 Bonus Plan that would be paid to the Company's Chief Executive Officer, and determined, in consultation with the Company's Chief Executive Officer, the amount that will be paid to the other named executive officers and other eligible employees of the Company. For fiscal 2014, the Company's 2014 EBITDA Margin as a percentage of sales exceeded 18.5% and a total of \$4.1 million was earned based on the Company's performance. For the Company's named executive officers, the Compensation Committee determined that 30% of the total bonus award earned would be paid in the common stock of the Company and 70% would be paid in cash.

Long-Term Incentive Compensation

For fiscal 2014, the Compensation Committee considered the following factors in determining the size of each RSU grant awarded to each named executive officer:

- the executive officer's individual performance;
- the executive officer's potential future contributions to the Company and level of responsibility;
- retention issues and concerns; and
- the cost of the awards to the Company.

Based on the foregoing, in June 2013, the Compensation Committee approved awards of time-based restricted stock units ("Time-based Awards") and performance-based restricted stock units ("Performance-based Awards") in accordance with the Company's 2010 Equity Incentive Plan (the "2010 Equity Incentive Plan") to certain executives. The purpose of these awards was to provide members of management the opportunity for additional stock compensation in recognition of the positive performance of the Company and its stock price and as an important retention tool in light of actual compensation levels in recent years in comparison to the Company's executive compensation peer group. The Performance-based Awards also are intended to link a portion of equity compensation to the continued achievement of operating cash flow performance, a criterion the Compensation Committee believes has a strong potential to impact longer-term shareholder value creation. Each award, in addition to being subject to customary terms and conditions as set forth in the 2010 Equity Incentive Plan, is subject to specified vesting conditions summarized below and represents a contingent right to receive an amount of the Company's common stock at a future date.

Table of Contents

The Time-based Awards are scheduled to vest based solely on service over a 4-year period, with one-fourth (1/4) of the number of Time-based Awards granted to each recipient vesting on each of July 1, 2014, 2015, 2016, and 2017. The Performance-based Awards will vest, if at all, on July 1, 2018 if the Company's Net Cash Provided by Operating Activities, as reported in the Company's consolidated statement of cash flows filed with the SEC or, if such financial statements are not available at the time of determination, as otherwise disclosed in a press release by the Company (the "Net Cash Provided by Operating Activities") for at least one of the fiscal years ending March 31, 2014, 2015, 2016, 2017 or 2018, exceeds the Company's Net Cash Provided by Operating Activities for the fiscal year ended March 31, 2013. Following March 31, 2014 the Compensation Committee certified that the performance condition applicable to the Performance-based Awards had been attained. See the "*Grants of Plan-Based Awards in Fiscal Year 2014*" table below for information on the equity awards granted to the named executive officers in fiscal 2014.

Subsequent Events

Our Merger with TE Connectivity Ltd.

On June 18, 2014, the Company and TE Connectivity Ltd. ("TE") entered into an agreement and plan of merger (the "Merger Agreement") pursuant to which TE agreed to acquire the Company through a merger of an indirect wholly owned subsidiary of TE with and into the Company (the "Merger"). The Merger Agreement provides for payment to the Company's shareholders of consideration at a price of \$86.00 in cash per share of Company common stock (the "Merger Consideration"). For further information regarding the Merger, see "*Background to the Merger*" in the Definitive Proxy Statement filed by the Company on July 24, 2014.

Treatment of Our Equity Awards in the Merger

The Merger Agreement provides that our named executive officers' equity-based awards (and those of our directors and other employees) will be treated as set forth below in connection with the Merger. For further information regarding the treatment of our equity awards in the Merger, see "*Summary—Treatment of Options, Restricted Share Units and Other Equity-Based Awards*" in the Definitive Proxy Statement filed by the Company on July 24, 2014.

Vested Stock Options and Restricted Share Units

Stock options and RSUs that are already vested prior to the effective time of the Merger or are not yet vested prior to the effective time of the Merger but the vesting of which will fully accelerate at such time will be treated as follows:

Each outstanding stock option to acquire Company common stock that is vested and exercisable as of the effective time of the Merger will be cancelled and converted into a right to receive the Merger Consideration less the applicable exercise price of such vested option; and

Each award of RSUs that is outstanding and vested immediately prior to the effective time of the Merger will automatically convert into a right to receive the Merger Consideration.

Unvested Stock Options and Restricted Share Units

Stock options and RSUs that are not vested prior to the effective time of the Merger and the vesting of which will not accelerate at such time will be treated as follows:

Table of Contents

Each outstanding stock option to acquire Company common stock that is not vested or exercisable as of the effective time of the Merger will be canceled in exchange for the opportunity to receive the Merger Consideration less the applicable exercise price of such unvested option; and

Each award of RSUs that is outstanding and not vested immediately prior to the effective time of the Merger will be cancelled in exchange for the opportunity to receive the Merger Consideration.

The cash amounts for each unvested option or RSU will be payable to the applicable holder on the date(s) on which such award was scheduled to become vested pursuant to the terms of the applicable award agreement in effect as of the date of the Merger Agreement, subject to such holder's continued employment with the Company or any of its affiliates until such award becomes vested. However, if at any time prior to the final scheduled vesting date of such award, the employment of such holder is terminated by the Company or any of its affiliates without "cause" (as defined in the Merger Agreement), the remaining unpaid cash amount will be paid to such holder within 30 days after such termination. If the employment of such holder terminates for any other reason prior to such final scheduled vesting date, any unpaid portion of such amount will be forfeited.

Treatment of Our Bonus Plans in the Merger

For fiscal 2015, we adopted the fiscal year 2015 Incentive Program (the "2015 Bonus Plan") under the Performance Incentive Plan. Subject to the terms and conditions of the Merger Agreement as noted below, the 2015 Bonus Plan determines the amount of annual incentive compensation to be awarded to the Company's named executive officers and certain other eligible employees of the Company. The 2015 Bonus Plan establishes an aggregate target bonus amount for fiscal year 2015 of \$5.0 million (the "2015 Aggregate Target Bonus"). Pursuant to the 2015 Bonus Plan, the Company will accrue an aggregate bonus amount only if the Company's fiscal 2015 Adjusted EBITDA margin as a percentage of net sales (excluding the bonus accrual) ("2015 Adjusted EBITDA Margin") exceeds 18.5%. The actual aggregate bonus amount will be based on the amount by which the Company's fiscal 2015 Adjusted EBITDA (as defined under the Performance Incentive Plan and excluding the bonus accrual) exceeds the Adjusted EBITDA (excluding the bonus accrual) that would have resulted if the 2015 Adjusted EBITDA Margin at such level of net sales were equal to 18.5% (the "2015 Excess Amount"). Under the 2015 Bonus Plan, the following amounts will be accrued to the aggregate bonus amount: (i) 50% of the 2015 Excess Amount up to a maximum accrual equal to the 2015 Aggregate Target Bonus, plus (ii) 20% of the 2015 Excess Amount above the 2015 Aggregate Target Bonus. The foregoing summary of the 2015 Bonus Plan reflects the Compensation Committee's decision in April 2014.

Under the terms of the Merger Agreement, the performance period for all our annual cash bonus plans (including the 2015 Bonus Plan) will end on the later of September 30, 2014 or the date of the closing of the Merger, and following such time, TE will pay to each employee of the Company who participates in such plans and who continues employment with the surviving corporation a cash bonus for such shortened performance period. For further information regarding the payment of annual cash bonuses in connection with the Merger, see "*The Merger Agreement—Employee Benefits and Service Credit*" in the Definitive Proxy Statement filed by the Company on July 24, 2014.

Reflects the aggregate grant date fair value of stock options and restricted stock units granted during the fiscal year calculated in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures. The actual value, if any, realized by our named executive officers for these awards is a function of the value of the underlying shares if and when these awards vest and, in the case of the Performance-based Awards, the attainment of the applicable performance condition. The amounts for the Performance-based Awards granted in June 2013 were (2) calculated based on the probable outcome of the performance condition as of the grant date, consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures. Following March 31, 2014 the Compensation Committee certified that the performance condition applicable to the Performance-based Awards had been attained. For a more detailed discussion on assumptions used to calculate the fair value of our awards, refer to Notes 2 and 12 of the Notes to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2014.

Reflects the aggregate grant date fair value of restricted stock units granted during the 2014 fiscal year, and the awards granted during the 2015 fiscal year related to annual incentive compensation earned in the 2014 fiscal year, calculated in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures. The amounts in this column for Performance-based Awards were calculated based on the probable outcome of the Net Cash Provided by Operating Activities performance condition as of the grant date, consistent with the estimate of (1) aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the effect of estimated forfeitures. The actual value, if any, realized by our named executive officers for these awards is a function of the value of the underlying shares if and when these awards vest and, in the case of the Performance-based Awards, the attainment of the applicable performance condition. Following March 31, 2014 the Compensation Committee certified that the performance condition applicable to the Performance-based Awards had been attained.

These amounts reflect the number of shares of the Company's common stock underlying Time-based Awards and Performance-based Awards granted during fiscal 2014. For the Performance-based Awards, the amounts reflect the number of shares that will vest, if at all, on July 1, 2018 if the Company's Net Cash Provided by Operating (2) Activities for at least one of the fiscal years ending March 31, 2014, 2015, 2016, 2017 or 2018, exceeds the Company's Net Cash Provided by Operating Activities for the fiscal year ended March 31, 2013. For a discussion of the vesting of these awards, see above under "*Fiscal 2014 Executive Compensation – Long –Term Incentive Compensation.*"

Represents annual incentive compensation earned for fiscal year 2014 awarded in shares of the Company's common (3) stock in June 2014. For a discussion of the performance incentive opportunity available to our named executive officers and other employees, see above under "*Fiscal 2014 Executive Compensation – Annual Incentive Compensation.*"

Potential Payments on Termination or Change in Control

The Company maintains employment agreements with Messrs. Guidone, Thomson, MacGibbon, Thompson and Smith that generally set forth the terms and conditions of the named executive officer's employment with us and provide for certain payments and benefits upon the named executive officer's termination of employment with us under certain circumstances. Pursuant to the terms of these agreements, Messrs. Guidone, Thomson, MacGibbon and Thompson are each entitled to compensation and vesting of equity awards in the case of (i) termination of employment by death or disability, (ii) termination by the Company other than for "cause" or by the executive for "good reason", and (iii) termination by the Company within two years after a "change in control" other than for "cause" or by the executive for "good reason". A summary of the terms "cause", "good reason", and "change in control" is below.

Potential Payments on Termination by Death or Disability. The employment agreements with Messrs. Guidone, Thomson, MacGibbon and Thompson provide that, in the event of such executive's death or permanent disability prior to the termination of his employment with the Company, the estate of such executive or the executive, as applicable, will be entitled to:

- a pro rata portion of his target annual bonus for the fiscal year in which such termination occurs;
- reimbursement of the employer portion of the applicable premium for 12 months of continued health and dental coverage; and

- full vesting of all outstanding unvested equity awards.

Potential Payments on Termination Other Than for Cause or for Good Reason. In the event of termination by the Company other than for "cause" or by the executive for "good reason", each of Messrs. Guidone, Thomson, MacGibbon

and Thompson would receive the following payments and benefits (subject to the executive's execution and non-revocation of a release of claims in favor of the Company):

an amount equal to 100% (150% for Mr. Guidone) of his base salary in effect as of the date of such termination, payable in equal installments over 12 months (or for Mr. Guidone, in a lump sum within 20 days) following the effective date of the release;

a pro rata portion of his target annual bonus for the fiscal year in which such termination occurs; reimbursement of the employer portion of the applicable premium for 12 months of continued health and dental coverage; and

full vesting of all outstanding unvested equity awards.

Potential Payments on Termination Following a Change In Control. In the event of termination by the Company coincidental with or within two years after a "change in control" other than for "cause" or by the executive for "good reason", each of Messrs. Guidone, Thomson, MacGibbon and Thompson would receive the following payments and benefits (subject to the executive's execution and non-revocation of a release of claims in favor of the Company):

Table of Contents

an amount equal to 150% (200% for Mr. Guidone) of the sum of (i) his base salary in effect as of the date of such termination and (ii) his target annual bonus for the fiscal year in which such termination occurs, payable in equal installments over 18 months (or for Mr. Guidone, in a lump sum within 20 days) following the effective date of the release;

a pro rata portion of his target annual bonus for the fiscal year in which such termination occurs; reimbursement of the employer portion of the applicable premium for 18 months of continued health and dental coverage; and

full vesting of all outstanding unvested equity awards.

If such payments and benefits would result in the executive's being subject to the 20% excise tax imposed on "excess" transaction-related payments and benefits under Section 4999 of the Code, the total amount of such payments and benefits would be reduced if and to the extent that such reduction would result in a greater after-tax payment to the executive.

"Cause" is defined as follows in each executive's employment agreement:

any act or omission that constitutes a material breach by the executive of any of his obligations under the agreement or any material written policy of the Company or any of its affiliates, assuming such obligations are lawful; the failure by the executive to follow any lawful reasonable direction of the Board (or the Chief Executive Officer, for each executive other than Mr. Guidone) that is material and is consistent with the executive's obligations under his employment agreement; or the executive's refusal to discharge his duties pursuant to the agreement, assuming such duties are lawful; the conviction of the executive of a felony or a crime involving fraud, moral turpitude, misappropriation or dishonesty.

In each case (other than in the case of conviction of a felony or a crime described above), the executive has the right to cure the event alleged to constitute cause for 30 days after he receives written notice from the Board (or the Chief Executive Officer, in the case of each executive other than Mr. Guidone).

"Good Reason" is defined as follows in each executive's employment agreement:

the Company is in default of any material obligations under the agreement; any material diminution in title, job responsibilities, power, authority, or duties of the executive (other than a change in the executive's reporting structure); without the executive's consent, the executive's principal place of employment is relocated beyond 40 miles from his current office location; or any reduction of the executive's target annual bonus percentage.

In each case (i) the executive must provide written notice to the Company of such action, (ii) such action must exist for 30 days after the executive provides notice, (iii) the executive must provide the Company at least ten days to cure such action after the Company's receipt of notice and (iv) the executive must resign within 30 days following the

occurrence of such action.

“Change in Control” is defined as follows in each executive’s employment agreement:

- any liquidation, dissolution or winding-up of the Company, whether voluntary or involuntary; any merger, consolidation, conversion transaction or reorganization of the Company with or into any other entity or entities that results in the conversion or exchange of outstanding common stock (or any securities into which such common stock may be converted or exchanged) of the Company for securities issued or other consideration paid or caused to be issued or paid by any such entity or affiliate thereof (other than a merger of the Company with or into another entity that does not result in the holders of common stock immediately prior to the consummation of such transaction ceasing to own a majority of the voting securities of the entity surviving or resulting from the merger); or

any sale, transfer or disposition of all or substantially all of the property or assets of the Company (the sale, transfer or disposition of substantially all of the property or assets of the Company shall mean the sale of property or assets, in a single transaction or a series of related transactions, having a value in excess of 50% of the value of assets reflected on the balance sheet of the Company immediately prior to the first such sale).

The employment agreement that was in place with Mr. Smith provided that if the Company terminated his employment other than in the event of death, unwillingness or inability to perform his duties, a criminal conviction, or acts of dishonesty, fraud or gross negligence in connection with the performance of his duties to the Company (after those acts have been disclosed and Mr. Smith was accorded an opportunity to respond to the Company), Mr. Smith would be entitled to receive, subject to his execution and non-revocation of a release of claims in favor of the Company, (i) 100% of his annual salary in effect at the time of such termination to be paid in equal installments over 12 months following the date of termination, (ii) a pro-rata portion of his accrued annual bonus for the fiscal year of termination, and (iii) an allowance for repatriation and relocation of up to a maximum of \$10,000. Mr. Smith announced his retirement as our Chief Operating Officer, effective as of April 1, 2014 and his employment agreement with the Company terminated as of that date.

The following table quantifies the payments and benefits that each of our named executive officers would have received had his employment terminated or had a change in control of the Company occurred, in each case on March 31, 2014, under the Company's compensation and benefit plans and arrangements, and under each such executive's respective employment agreement, as applicable. For summaries of the treatment of our named executive officers' equity awards under the terms of the Merger Agreement, see "*Subsequent Events—Treatment of Our Equity Awards in the Merger*" above and "*Summary—Interests of Company Directors and Executive Officers in the Merger*" in the Definitive Proxy Statement filed by the Company on July 24, 2014.

(1) The terms of stock options and restricted stock units awarded to the named executive officers provide that the vesting of such awards is accelerated upon a change in control of the Company. This acceleration occurs whether or not there is a termination of employment. The acceleration of any unvested restricted stock units at March 31, 2014 is based on the closing price of our common stock on March 31, 2014.

(2) Benefits are for health and dental coverage premium reimbursement except for Mr. Smith which is an allowance for repatriation and relocation (in each case as described above).

(3) The employment agreements for Messrs. Guidone, Thomson, MacGibbon and Thompson provide for the payment of a pro rata portion of such executive's target annual bonus for the fiscal year of termination on a termination of employment due to death, disability, by the Company other than for "cause" or by the executive for "good reason" (whether or not coincidental with or within two years following a "change in control"). Because the amounts in this column assume termination on the last day of fiscal 2014, the amounts for the executives' bonuses reflect the full amounts of their target bonuses. Pursuant to their employment agreements, our named executive officers (other than Mr. Smith) would have also been eligible for the following target annual bonuses, expressed as a percentage of their annual base salary in effect as of March 31, 2014: for Mr. Guidone, 100%, for Mr. Thomson, 55%, for Mr. MacGibbon, 55% and for Mr. Thompson, 50%. For each executive's annual base salary in effect as of March 31, 2014, see "*Fiscal 2014 Executive Compensation—Base Salaries*" above.

(4) This amount includes the payment of an amount equal to 100% (150% for Mr. Guidone) of the executive's base salary in effect as of March 31, 2014, assuming his employment was terminated by the Company other than for "cause" or by the executive for "good reason" (in each case as defined above) as of such date.

(5) This amount includes the payment of an amount equal to 150% (200% for Mr. Guidone) of the sum of (i) the executive's base salary in effect as of March 31, 2014 and (ii) the executive's target annual bonus for the fiscal year 2014, assuming his employment was terminated by the Company on March 31, 2014 other than for "cause" or by the executive for "good reason", and such termination was within two years following a "change in control" (as defined above).

(6) Mr. Smith's employment agreement provides for the payment of (i) an amount equal to 100% of Mr. Smith's annual base salary in effect as of March 31, 2014 and (ii) a pro-rata portion of his accrued annual bonus for fiscal 2014 if the Company terminated his employment other than in the event of death, unwillingness or inability to perform his duties, a criminal conviction, or acts of dishonesty, fraud or gross negligence in connection with the performance of his duties to the Company (after those acts have been disclosed and Mr. Smith was accorded an opportunity to respond to the Company). Because the amounts in this column assume termination on the last day of fiscal 2014, the amount for Mr. Smith's bonus reflects the full amount of the bonus payment. Mr. Smith retired as the Company's Chief Operating Officer effective April 1, 2014 and his employment agreement with the Company terminated as of such date.

It is the responsibility of the Compensation Committee to review and recommend to the Board of Directors the appropriate structure and amount of Board of Directors compensation. The Board of Directors makes the final determination with respect to Board of Directors compensation. The Compensation Committee will consider whether directors' independence may be jeopardized if director compensation exceeds customary levels, if the Company makes substantial charitable contributions to organizations with which a director is affiliated, or if the Company enters into consulting contracts with (or provides other indirect forms of compensation to) a director or an organization with which the director is affiliated. Under its charter, the Compensation Committee has the authority to retain third-party consultants, including compensation consultants. For fiscal 2014, the Compensation Committee did not engage a compensation consultant in connection with its recommendation of director compensation.
