Subject: **Request for information on decree**

Dear Sir,

1. I refer to Minas Gerais State Decree NE 582 of October 26, 2016, published in the *Official Gazette* of Minas Gerais State, through which there was established a supplementary credit in favor of the investment budget of the Holding Company Companhia Energética de Minas Gerais Cemig, in the amount of R\$ 650,200,000.00.

2. I request you to clarify the transaction, and comment on any other information considered to be important relating to the subject.
3. The statement should be given through the Empresas.NET system, in the category: *Market Announcement*, under the sub-category: *Responses to consultations by CVM/Bovespa*; subject heading: *Minas Gerais State Decree NE 582 of October 26, 2016*; and should include a transcription of this letter.
4. We highlight that, under Article 3 of CVM Instruction 358/02 it is the responsibility of the Chief Investor Relations Officer to disclose to and advise the CVM, and as the case may be, the stock exchange and/or any organized over-the-counter market on which securities issued by the company are traded, of any material event or fact which takes place or is related to its business, and to make best efforts for its immediate and wide dissemination, simultaneously to all the markets in which such securities are traded.
5. We notify you that the Company Relations Supervision Management may, under Sub-item II of Article 9 of Law 6385/1976 and CVM Instruction 452/2007, apply a coercive fine of **R\$ 1,000** (one thousand Reais), without prejudice to other administrative sanctions, in the event of non-compliance with the demand made in this Official Letter within **24 hours** from becoming aware of the content of this communication, now sent by fax and by e-mail.

Reply by CEMIG

Dear Madam,

In response to Official Letter N° 517/2016-CVM/SEP/GEA-1, of November 1, 2016, we inform you that the budget supplementation decree published in the newspaper *Minas Gerais* complies with a legal procedural requirement. The publication obeys the legal requirements included in the following state laws: Law 21736 of August 4, 2015 (the Budget Directives Law, or LDO), Law 21971 of January 18, 2016 (the Annual Budget Law, or 2016 LOA), and Federal Law 4320 of March 17, 1964, in particular its Article 42.

Basically, Cemig is part of the investment budget of the companies controlled by Minas Gerais State, as specified in State Law 21736 of August 4, 2015. Due to this, following the orientations of Law 21971, Cemig prepared the annual budget proposal for the 2016 business year during July and August 2015. Considering that the dividends for the 2015 business year would be approved only after calculation of the net profit for the business year at the Annual General Meeting, which would take place in April 2016, the budget proposal referred to above was prepared with symbolic amounts for the distribution of dividends. Subsequently, to make the adjustments, Cemig asked the Central Corporate Governance Support Directorate of the State Finance Department for a supplementary budget decree, under Article 42 of Law 4320 of March 17, 1964.

We would point out that this budget process is carried out publicly and with transparency the principles followed by the public sector, as can be seen in the following links:

Cemig takes this opportunity of reiterating its commitment to opportune and timely disclosure of all and any facts that are of interest to its stockholders, in accordance with Article 2 of CVM Instruction 358/2002.

Companhia Energética de Minas Gerais CEMIG

At.: Mr. Fabiano Maia Pereira

Investor Relations Director

Subject: **Request for information on media news report**

Dear Sirs,

A news item published by the newspaper *Valor Econômico* on November 17, 2016 contains, among other information, the following statement:

Companhia Energética de Minas Gerais (Cemig) is seeking a partner in the private sector in an attempt to keep control of three hydroelectric plants: Jaguará, Miranda and São Simão;

it intends, together with a private-sector partner, to pay the federal government the Concession Grant Fee for the plants which would total R\$ 10 billion.

We have not seen this information in the documents sent by your Company through the Empresas.NET System. If this is not the case, please state the document, the pages on which the information is to be found, and the date and time it was sent.

We would note that your Company should publish periodic or one-off information and other information of interest to the market, through the Empresas.NET System, ensuring it receives wide and immediate dissemination and equitable

treatment of investors and other market participants.

Having said this, we request explanation on the items indicated, by November 18, 2016, without prejudice to the provisions of the sole sub-paragraph of Article 6 of CVM Instruction 358/02, with your confirmation or otherwise, and any other information deemed to be important.

Your response should be given through the IPE Module, selecting the category *Material Announcement*, or the category *Market Announcement*; the Type: *Responses to consultations by CVM/Bovespa*; and Subject heading: *Media News Reports*. This will result in simultaneous transmission of the file to the BM&FBovespa and to the CVM.

We note the obligation, stated in the sole sub-paragraph of Article 4 of CVM Instruction 358/02, to question managers and controlling stockholders of the Company to ascertain whether they may have knowledge of information that should be disclosed to the market.

The file to be sent should contain the question that is asked above, preceding your company's reply.

This request is made under the Cooperation Working Agreement made between the CVM and BM&FBovespa on December 13, 2011. Non-compliance with the request may make your company subject to an incentive fine by the Company Relations Management Unit (SEP) of the CVM, subject to CVM Instruction 452/07.

Reply by CEMIG

In reply to Official Letter N° 3261/2016-SAE/GAE 2, of November 17, 2016, we inform you that it is the Company's intention to renew the concessions of the *Jaguara*, *Miranda* and *São Simão* plants, specified in concession contracts 007/1997, as has been widely publicized to the market, since 2013, through various Market Notices and Material Announcements.

In a dispatch of the Federal Supreme Court (STF) published on October 28, 2015 (Action for Provisional Remedy AC 3980), Supreme Court Justice Dias Toffoli made the following recommendation: In view of the complexity and importance of the debate raised by this case, and the need to encourage self-resolution within the judiciary, the Parties shall state whether they have interest in the holding of a conciliation hearing. Since then, the Company has been seeking courses of action to resolve the case.

During the conference call for publication of its results for the third quarter 2016, held on November 16, 2016, the Company informed the market that it continues to negotiate with the federal government, believing that it will find a positive solution for both parties.

The news report published in the newspaper *Valor Econômico*, which is the subject of the question asked in the above-mentioned official letter, reflects one of the alternatives for a solution that might make an agreement possible for maintaining the concessions referred to. It is only a course of action that the Company is considering an intention. No transaction has been agreed, nor does it constitute a Material Event, in the terms of Article 2 of CVM Instruction 358/2002.

Cemig takes this opportunity of reiterating its commitment to opportune and timely disclosure of all and any facts that are of interest to its stockholders, in the terms of Article 2 of CVM Instruction 358/2002.

Subject: request for information on news report

Dear Sir,

1. We refer to the report published on the G1 Portal on November 9, under the headline:
TCU sees indications of over-invoicing of R\$ 3.4bn in construction of Belo Monte ,

which contains the following statements:

The Federal Audit Court (TCU) has found indications of overinvoicing of R\$ 3.384 billion in the works on construction of the Belo Monte hydroelectric plant, in Pará. The Audit Court has given Norte Energia, the consortium responsible for the plant and for the Belo Monte Construction Consortium, which was contracted by Norte Energia to build it, 15 days to make a statement on the irregularities.

According to the Audit Court, of the total overinvoicing found, R\$ 2.893 billion is overpricing found in the civil engineering works, and a further R\$ 490 million relates to issues in the Second Amendment signed between Norte Energia and the Belo Monte Construction Consortium.

Av. Barbacena 1200 Santo Agostinho 30190-131 Belo Horizonte, MG Brazil Tel.: +55 31 3506-5024 Fax +55 31 3506-5025

This text is a translation, provided for information only. The original text in Portuguese is the legally valid version.

At the time of the last update of this report the offices of Norte Energia had not responded to calls from GI.

Belo Monte is the world's third largest hydroelectric plant, after Three Gorges, in China, and Itaipu, built on the frontier between Brazil and Paraguay.

In view of the above, and the equity interest that Cemig holds in Norte Energia, we require you to make a statement in relation to this report and the possible impact on Cemig's financial statements, and to comment on any other information considered to be important on the subject.

3. This statement should be given through the Empresas.NET system, in the category: Market Announcement, under the sub-category: Responses to consultations by CVM/Bovespa; subject heading: Media News Reports, and should include a transcription of this letter.

4. We warn you that, by order of our Company Relations Supervision Management, using its legal powers under Sub-item II of Article 9 of Law 6385/1976 and CVM Instruction 452/07, a coercive fine of R\$ 1,000 (one thousand Reais) is applicable, without prejudice to other administrative sanctions, for non-compliance with the requirement contained in this Official Letter, within 24 hours from becoming aware of the content of this communication, which is sent exclusively by e-mail, notwithstanding the provisions of §1 of Article 6 of CVM Instruction 358/02.

Reply by CEMIG

Dear Ms. Nilza Maria Silva de Oliveira,

In response to Official Letter 554/2016-CVM/SEP/GEA-1, of December 6, 2016, we inform you that the reports of the Federal Audit Board are public documents, and that we are not aware of any consequences arising from the matters stated in the above report.

Cemig (the Company) has an indirectly-held equity interest of 12.5% in Norte Energia S.A. (Norte Energia), the company that is the holder of the concession for commercial operation of the Belo Monte Hydroelectric Plant.

In relation to this indirect investment that the Company holds in Norte Energia, we inform you that as a result of the conclusions and results found by the independent investigation contracted by Eletrobras in projects and companies in which it has a stockholding interest, it was found to be necessary to adjust the financial statements of Norte Energia at December 31, 2015. The resulting effects for the Company were recognized by the equity method in proportion to the Company's stockholding interest.

This information is given in detail in the Company's financial statements for the year ended December 31, 2015, which were re-presented on November 12, 2016.

PROPOSAL
BY THE BOARD OF DIRECTORS
TO THE
EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS
TO BE HELD ON DECEMBER 20, 2016

Dear Stockholders:

The Board of Directors of Companhia Energética de Minas Gerais - Cemig:

Whereas

- a) the Company's financial statements for the business year ended December 31, 2015 were made available to the CVM (*Comissão de Valores Mobiliários*) on March 30, 2016 and approved by the Ordinary and Extraordinary General Meetings of Stockholders held concurrently on April 29, 2016;
- b) those financial statements were filed at the CVM with the following qualification by the external auditors:
Absence of sufficient auditing evidence in relation to the investment, and the equity method gain (or loss) arising, in Amazônia Energia S.A., and Aliança Norte Energia Participações S.A., on December 31, 2015 and for the business year end on that date.

As mentioned in Notes 1 and 14 to the financial statements, the Company has an indirect investment in Norte Energia S.A. (Norte Energia), which is the subject of an investigation carried out by the stockholder Centrais Elétricas Brasileiras S.A. (Eletrobras). Due to that investigation not having been finalized, the audit examinations of the financial statements of Amazônia Energia S.A. and Aliança Norte Energia Participações S.A. (which have investments in Norte Energia S.A.), for the business year ended December 31, 2015, have not been concluded at today's date. Consequently, we have not obtained sufficient auditing evidence in relation to the investment held by the Company in Amazônia Energia S.A. and Aliança Norte Energia Participações S.A., valued by the equity method at R\$ 871,442,000 on December 31, 2015, and in relation to the equity loss reported by the equity method corresponding to R\$ 10,261,000 for the period ending on that date. ;

c)

those Meetings of Stockholders approved the following allocation of the Net profit for 2015, of R\$ 2,491,375,000, and of the balance of Retained earnings of R\$ 59,536,000:

- 1) R\$ 633,968,000 as minimum mandatory dividends, as follows:

R\$ 200,000,000 in the form of Interest on Equity, under Board Spending Decisions CRCA 088/2015 of December 17, 2015, and CRD 432/2015, of January 4, 2016, to be paid in two equal installments, by June 30, 2016 and December 30, 2016, to stockholders on the Company's Nominal Share Registry on December 30, 2015, the Executive Board to obey the periods and to decide the places and processes of payment and to allocate the amount of the Interest on Equity against the minimum mandatory dividend (the shares began to trade exercise these rights on January 4, 2016); and

R\$ 433,968,000 in the form of dividends for the 2015 business year, to stockholders of record on the date on which the Ordinary General Meeting is held.

- 2) R\$ 633,967,000 to be held in Equity in the Reserve for mandatory dividend not distributed, to be paid as and when the Company's financial situation permits;
- 3) R\$ 1,262,280,000 to be held in Stockholders' equity in the Retained earnings reserve, to provide funding for the Company's planned investments in 2016, in accordance with a capital budget; and
- 4) R\$ 20,696,000 to be held in Stockholders' equity in the Tax incentives reserve, for tax incentive gains obtained in 2015 as a result of investments in the region of Sudene

payments of the dividends to be made by December 30, 2016, in accordance with the availability of cash and at the decision of the Executive Board;

- d) Cemig owns 100% of the share capital of Cemig Geração e Transmissão S.A. (Cemig GT), which in turn holds an equity interest of 74.50% in the total share capital of Amazônia Energia Participações S.A. (Amazônia Energia), which in turn holds 9.77% of the share capital of Norte Energia S.A. (Norte Energia);
- e) Cemig GT further holds 49.00% of the share capital of Aliança Norte Energia Participações S.A. (Aliança Norte), which in turn holds 9.00% of the share capital of Norte Energia;
- f) as a result of conclusion of investigations into Norte Energia, Cemig has adjusted the results of the said financial statements by the amount of R\$ 22,875,000, so that the Net profit for 2015 is adjusted from R\$ 2,491,375,000 to R\$ 2,468,500,000;
- g) due to this adjustment, it is necessary to re-ratify the allocation of the Company's net profit for 2015 (the impacts of this are restricted to the Retained earnings reserve, and the Reserve for mandatory dividends not distributed);
- h) Cemig GT is a wholly-owned subsidiary of the Company and will hold an Extraordinary General Meeting of Stockholders by December 20, 2016 to re-ratify the allocation of Net profit for the 2015 business year; and
- i) Clause 21, Paragraph 4, Subclause g of the by-laws of Cemig states:

Clause 21 .

§4 The following matters shall require a decision by the Executive Board: .

- g) approval, upon proposal by the Chief Executive Officer, prepared jointly with the Chief Business Development Officer and the Chief Finance and Investor Relations Officer, of the statements of vote in the General Meetings of the wholly-owned and other subsidiaries, affiliated companies and in the consortia in which the Company participates, except in the case of the wholly-owned subsidiaries Cemig Distribuição S.A. and Cemig Geração e Transmissão S.A., for which the competency to decide on these matters shall be that of the General Meeting of Stockholders, and decisions must obey the provisions of these Bylaws, the decisions of the Board of Directors, the Long-term Strategic Plan and the Multi-year Strategic Implementation Plan. ;

Proposal:

I) Re-ratification of the allocation of the Net profit for the business year 2015, approved in the Ordinary and Extraordinary General Meetings of Stockholders held concurrently on April 29, 2016, the amount being adjusted from R\$ 2,491,375,000 to R\$ 2,468,500,000, the balance of Retained earnings remaining the same (R\$ 59,536,000), as follows:

a) R\$ 633,968,000 to be paid to the stockholders as mandatory minimum dividend, as follows:

R\$ 200,000,000 as Interest on Equity, under Board Spending Decisions CRCA 088/2015 of December 17, 2015, and CRD 432/2015, of January 4, 2016, to be paid in two equal installments, by June 30, 2016 and December 30, 2016 to stockholders on the Company's Nominal Share Registry on December 30, 2015, and allocated as part of the mandatory minimum dividend, the Executive Board to obey the periods and to decide the places and processes of payment (the shares began to trade ex these rights on January 4, 2016); and

R\$ 433,968,000 as dividends for the 2015 business year, to stockholders on the Company's nominal share registry on April 29, 2016, the date on which the Ordinary and Extraordinary General Meetings were held this year;

b) R\$ 622,529,000 to be held in Stockholders' equity in the Reserve for mandatory dividends not distributed, to be paid as and when the Company's financial situation permits;

c) R\$ 1,250,853,000 to be held in Stockholders' equity in the Retained earnings reserve, to provide funding for the Company's planned investments for 2016, in accordance with a capital budget; and

d) R\$ 20,696,000 to be held in Stockholders' equity in the Tax incentives reserve, for tax incentives gains obtained in 2015 as a result of investments in the region of Sudene;

the other terms related to the payment of dividends decided in the Ordinary and Extraordinary General meetings of stockholders held, concurrently, on April 29, 2016 being unchanged.

II) Orientation of the representative(s) of Cemig at the General Meeting of Stockholders of Cemig Geração e Transmissão S.A. to be held, also, on December 20, 2016, to vote in favor of the Report of Management and the Adjusted Financial Statements for the year ended December 31, 2015, and the related complementary documents also adjusted;

III) Orientation of the representative(s) of Cemig at the General Meeting of Stockholders of Cemig Geração e Transmissão S.A. to be held, also, on December 20, 2016, to vote in favor of re-ratification of the allocation of the Net profit for 2015, approved in the Ordinary Annual General Meetings of Stockholders held on April 29, 2016, the amount being adjusted from R\$ 2,337,663,000 to R\$ 2,316,273,000, the balance of Retained earnings remaining the same (at R\$ 47,761,000).

As can be seen, the objective of this proposal is to meet legitimate interests of the stockholders and of the Company, and as a result Board of Directors hope that it will be approved by the Stockholders.

Trading volume in Cemig's preferred shares (CMIG4) totaled R\$ 10.93 billion in full-year 2015, a daily average of R\$ 44.46 million. At this level, Cemig continues to be one of the most liquid companies in the Brazilian electricity sector, and one of the most traded in the Brazilian capital markets.

On the New York Stock Exchange, the volume traded in ADRs for Cemig's preferred shares (CIG) in full-year 2015 was US\$ 3.11 billion. We see this as reflecting recognition by the investor market of Cemig as a global investment option.

The São Paulo stock exchange Ibovespa index was down 13.31% in 2015, closing the year at 43,349 points. The negative result directly reflects Brazil's current adverse economic phase.

Cemig's shares underperformed the Ibovespa. Over the year the price of Cemig's common shares (Cemig ON) declined 51.84%, and the preferred stock (Cemig PN) was down 51.86%. A major factor adversely affecting Cemig's stock price was the conclusion, with a judgment against Cemig, of the legal action on the *Jaguara* Hydroelectric Plant in the Higher Appeal Court (STJ), even though the case has now been taken to the Federal Supreme Court on an appeal. Other factors affecting the stock price in the year included: designation by the Mining and Energy Ministry (published September 15), of Cemig GT as responsible for operation of the *São Simão* hydroelectric plant under the quota regime; the fall in electricity consumption; the water supply crisis affecting the country; and the country's macroeconomic situation.

Cemig: long term ratings

This table shows credit risk ratings and outlook for Cemig's companies as provided by the principal rating agencies:

Brazilian ratings:

Agency	Cemig		Cemig D		Cemig GT	
	Rating	Outlook	Rating	Outlook	Rating	Outlook
Fitch	AA (bra)	Negative	AA (bra)	Negative	AA (bra)	Negative

S&P	BB	Negative	BB	Negative	BB	Negative
Moody's	Ba3	Negative	Ba3	Negative	Ba3	Negative

(Fitch gives only Brazilian not global ratings.)

On February 25, 2016, Moody's downgraded its Brazilian ratings for Cemig, its wholly-owned subsidiaries Cemig D and Cemig GT, and their debenture issues from Aa2.br to A2.br; and their global ratings from Ba1 to Ba3, changing the outlook to negative.

Impact on the financial statements arising from the conclusions of the independent investigation into Belo Monte

Based on the conclusions and results identified by the internal independent investigation, which resulted in an adjustment reported in Nesa of R\$ 183 million, on December 31, 2015 Cemig recorded an adjustment of R\$ 23 million in the account line Investments, with counterpart in the Profit and loss account in the line Equity gain (loss) from subsidiaries, comprising: R\$ 21 million arising from the adjustment made by Cemig GT, and R\$ 2 million from the adjustment made by Light S.A. in accordance with the requirements of IAS-8 *Accounting Policies, Changes in Accounting Estimates and Errors*.

Considering that the independent internal investigation was concluded on a date subsequent to the approval of issuance of the financial statements for the year ended December 31, 2015 and the interim accounting information for the periods ended March 31 and June 30, 2016, the Management of Cemig and Cemig GT concluded that it was necessary to re-present the financial statements referred to and the Earnings Release.

Adoption of IFRS

The results presented below are prepared in accordance with the new Brazilian accounting rules, which embody a process of harmonization between Brazilian accounting rules and IFRS (International Financial Reporting Standards).

Cemig's consolidated electricity market

The **Cemig Group** sells electricity through its distribution company, Cemig Distribuição (**Cemig D**), its generation and transmission company Cemig Geração e Transmissão (Cemig Generation and Transmission , or **Cemig GT**), and the wholly-owned subsidiaries Horizontes Energia, Termelétrica Ipatinga (up to January 2015), Sá Carvalho, Termelétrica de Barreiro, Cemig PCH, Rosal Energia and Cemig Capim Branco Energia (up to March 2015).

Total sales reported for Cemig's consolidated electricity market comprises sales to:

- (I) captive consumers in Cemig's concession area in the State of Minas Gerais;
- (II) Free Consumers in both the State of Minas Gerais and other States of Brazil, in the Free Market (*Ambiente de Contratação Livre*, or ACL);
- (III) other agents of the electricity sector – traders, generators and independent power producers, also in the ACL;
- (IV) Distributors, in the Regulated Market (*Ambiente de Contratação Regulada*, or ACR); and
- (V) the Wholesale Trading Chamber (*Câmara de Comercialização de Energia Elétrica*, or CCEE) (eliminating transactions between companies of the Cemig Group).

In 2015 this Cemig group sold a total volume of 56,903,594 MWh, which was 10.3% less than in 2014.

Overall, electricity consumption in 2015 was affected by adverse Brazilian political and economic circumstances; and, in the captive market, by the successive increases in electricity rates charged to consumers, associated with application of the Tariff Flag system resulting in significant increases in consumers' electricity invoices.

Sales to distributors, traders, other generating companies and independent power producers totaled 10,831,194 MWh or 23.4% less than in 2014.

In December 2015 the Cemig Group invoiced 8,079,771 customers a growth of 0.9% in the customer base in the year since December 2014. Of these, 8,079,719 were final consumers (including Cemig's own consumption); and 52 were other agents of the Brazilian electricity sector.

This chart shows the breakdown of sales to final consumers of the Cemig Group in the quarter, by consumer category:

Total consumption of electricity (GWh)

The volume of electricity sold to final consumers of Cemig in 2015 was 10.35% lower than in 2014.

The electricity market of Cemig D

Electricity billed to captive clients and electricity transported for Free Clients and distributors with access to Cemig D's networks totaled 42,124 GWh in 2015, or 5.3% less than in 2014.

There are two components of this reduction: Consumption by the captive market 2.1% lower in the year; and use of the network by Free Clients 10.2% lower by volume.

Overall, consumption of electricity in 2015 was affected by adverse Brazilian political and economic circumstances; and, in the captive market, by the successive increases in electricity rates charged to consumers, associated with application of the Tariff Flag system, resulting in significant increases in consumers' electricity invoices.

In December 2015 Cemig billed 8,079,645 consumers, or 0.9% more than in December 2014. Of this total, 422 are Free Consumers using Cemig D's distribution network.

Comments on the various consumer categories:

Residential

Residential consumption was 17.27% of the total volume of electricity transacted by Cemig, and totaled 9,830 GWh, or 1.84% less than in 2014.

Average monthly consumption per consumer in 2015 was 126.5 KWh/month, or 3.6% less than the average in 2014 (131.2 KWh/month) this is the first year-on-year reduction in this variable since 2008.

Industrial

Electricity used by captive industrial clients was 7.84% lower in total volume than in 2014, and the total of electricity transported for Free Clients was 10.0% lower.

The main Brazilian and international macroeconomic factors that could have influenced consumption by the industrial sector are:

In Brazil: Retraction of domestic demand, accumulation of inventories, idle manufacturing capacity, loss of competitiveness, reduction of the number of employees and/or reduction of the use of labor (e.g. forced vacations, shorter work shifts), lack of entrepreneur confidence, low levels of public and private investment, uncertainties in the Brazilian political and economic situation, high cost of corporate credit due to high interest rates, and banks being more selective in granting loans.

International: Lower exports due to lower external demand.

In manufacturing there was a reduction in consumption across all sectors led by: steel (2.0%), non-metallic minerals (7.7%), chemicals (9.6%), ferroalloys (44.6%), non-ferrous metals (10.8%), auto industry (16.1%), and textiles (11.9%).

The year-on-year comparison is affected by two factors in 2014: (i) a group of Free Clients migrated to the national grid; and (ii) some Free Clients stopped using the Cemig D network.

The electricity market of Cemig GT

One factor in Cemig GT's total sales volume in 2015 was termination of concession of plants. Following this change, payment for the output from these plants was redirected to the Physical Guarantee Quota regime, and to settlement on the spot market.

Cemig GT's market comprises sales of power as follows:

- (I) sales in the Free Market, to Free Clients, in Minas Gerais or other States;
- (II) sales in the Free Market to other agents in the electricity sector – traders, generators and independent power producers ;
- (III) sales to electricity distributors (in the Regulated Market); and
- (IV) sales in the CCEE (Electricity Trading Chamber).

The total supply billed by Cemig GT in 2015 was 29,966 GWh, or 15.6% less than in 2014.

Free Clients consumed 18,832 GWh in 2015, 11.8%% less than in 2014, reflecting:

termination of contracts with clients at the end of 2014 that were not renewed with Cemig GT; and

reduction of consumption by clients due to weak demand in the Brazilian economy, with lower domestic demand for goods and services, also affected by the speed of recovery of the international market.

Cemig GT added 28 new free market clients in 2015, mainly outside Minas Gerais.

Trading of electricity to other agents in the electricity sector in the Free Market totaled 6,443 GWh in 2015, 24.5% less than in 2014; and the total sold in the Regulated Market was 4,690 GWh, 16.9% less than in 2014.

QUALITY INDICATORS SAIDI AND SAIFI

Cemig is continuously taking action to improve operational management, organization of the logistics of its emergency services, and its permanent regime of preventive inspection and maintenance of substations, lines and distribution networks. It also invests in training of its staff for improvement of qualifications, state-of-the-art technologies, and standardization of work processes, aiming to uphold the quality of electricity supply, and as a result maintain the satisfaction of clients and consumers.

The charts below show Cemig's indicators for duration and frequency of outages – SAIDI (System Average Interruption Duration Index, in hours), and SAIFI (System Average Interruption Frequency Index, in number of outages), since January 2014. These results reflect the investments made by the company in preventive maintenance, such as cleaning of power line pathways, tree pruning, replacement of cross-arms, maintenance of structures, replacement of poles, transformers and cables, and other work such as network shielding, and overhaul and interconnection of circuits. Another important initiative is the change of technological level, with systematic investment in automation of the electricity system, which will enable automatic remote re-establishment of supply after outages.

Consolidated operational revenue

Revenue from supply of electricity:

Total revenue from supply of electricity to final consumers in 2015 was R\$ 22.526 billion, or 30.72% *more* than the total revenue of R\$ 17.232 billion in 2014.

Final consumers

Total revenue from electricity sold to final consumers, excluding Cemig's own consumption, was R\$ 20.319 billion in 2015 or 36.17% more than the total of R\$ 14.922 billion in 2014.

The main factors affecting revenue were:

The Annual Tariff Adjustment for Cemig D, with average effect of 14.76% on consumer tariffs, effective from April 8, 2014 (full effect in 2015).

The Extraordinary Tariff Adjustment for Cemig D, which resulted in an average impact on consumers' tariffs of 28.76%, applicable from March 2, 2015.

The Annual Tariff Adjustment effective from April 8, 2015, with average effect on consumer tariffs of 7.07%.

Creation, in 2015, of the Tariff Flag mechanism at the following rates per 100 kWh consumed: (i) as from January 2015, R\$ 1.50 per 100kWh for the *Yellow Flag* tariff, and R\$ 3.00 for the *Red Flag* tariff; (ii) as from March 2015, R\$ 2.50 per 100kWh for the Yellow Flag tariff and R\$ 5.50 for the Red Flag tariff; and finally (iii) from September 2015, R\$ 2.50 for the Yellow Flag tariff and R\$ 4.50 for the Red Flag tariff. In practice, the Red Flag rates were in effect for the whole of 2015.

Total volume of electricity sold in 2015 was 10.35% lower than in 2014.

Revenue from Use of Distribution Systems (the TUSD charge)

The revenue of Cemig D (Distribution) from the TUSD in 2015 was R\$ 1.465 billion, or 71.35% higher than in 2014 (R\$ 855 million). This reflects the impact of the tariff adjustments in 2015 – an increase of 96.21% for Free Consumers. The 2015 increases were mainly due to passing through of the CDE (Energy Development Account) amounts to the tariffs paid by consumers. The effect of the increase in tariffs was partially offset by the effect of lower activity in the industrial sector – which consumed 11.74% less electricity, year-on-year, in the period.

Revenue from transactions in the Wholesale Trading Chamber (CCEE)

Revenue from transactions in electricity on the CCEE was R\$ 2.425 billion in 2015, compared to R\$ 2.348 billion in 2014 – an increase of 3.28%. The components of this figure were: Higher total volume sold, at 7,157,641 MWh in 2015 compared to 3,354,224 MWh in 2014; and the Spot Price (*Preço de Liquidação de Diferenças* – PLD) in the wholesale market 58.31% lower (at R\$ 287.20/MWh in 2015, vs. R\$ 688.89/MWh in 2014).

CVA and Other financial components in the tariff adjustment calculation

Due to the alteration in the concession contracts of the distributors, Cemig started to recognize certain balances of non-controllable costs to be passed through to Cemig D's next tariff adjustment – these represented an operational revenue of R\$ 1.704 billion in 2015, compared to R\$ 1.107 billion in 2014.

Revenue from supply of gas

Cemig reports revenue from supply of gas totaling R\$ 1.667 billion in 2015, compared to R\$ 422 million in 2014 – an increase of 295.02%. The variation basically reflects the fact that figures for Gasmig began to be consolidated into Cemig's results in October 2014.

Taxes and charges applied to Revenue

The sector charges that are effectively deductions from reported revenue were 105.28% higher in 2015, at R\$ 11.549 billion – compared to R\$ 5.626 billion in 2014. The increase mainly reflects the higher charges under the Energy Development Account (CDE), and also the Tariff Flag charges.

The Energy Development Account – CDE

Payments to the Energy Development Account (CDE) are decided by an Aneel Resolution. The expenses included are: concession indemnities, tariff subsidies, the subsidy for balanced tariff reduction, the low-income consumer subsidy, the coal consumption subsidy, and the Fuels Consumption Account (CCC).

Charges for the CDE in 2015 were R\$ 2.870 billion, compared to R\$ 211 million in 2014. This is the result of the new budget for the CDE in 2015, in which Aneel increased the annual amount to be paid by Cemig D, which is passed through to the consumer in the Sector Charges component of tariffs.

Consumer charges the Tariff Flag system

In 2015, with the Tariff Flag mechanism coming into force, Cemig had an account under Consumer Charges related to the Tariff Flag payments, totaling R\$ 1.067 billion.

The Flag Account (*Conta Bandeira*) was created on February 5, 2015, to manage the funds collected from captive customers of utilities holding electricity distribution concessions and permissions these funds are paid, on account of the CDE, directly to the Flag Account. The Wholesale Trading Chamber (CCEE) passes the proceeds through to distribution agents, based on the difference between the realized amounts of costs of thermal generation and the exposure to spot prices, and the amount covered by the tariff.

The other deductions from revenue are taxes, calculated as a percentage of amounts invoiced. Thus their variations are, substantially, proportional to the changes in revenue.

Operational costs and expenses

Operational costs and expenses, excluding Financial revenue (expenses), totaled R\$ 18.318 billion in 2015, compared to R\$ 14.451 billion in 2014 an increase of 26.76%.

The following paragraphs comment on the main variations:

Electricity purchased for resale

The expense on electricity bought for resale in 2015 was R\$ 9.542 billion, or 28.46% more than in 2014 (R\$ 7.428 billion). Over the course of 2015, this cost has been more than 50% of the Company's total costs. The main factors in the higher figure are:

Cemig D:

Expense on electricity acquired in auctions 20.74% higher, at R\$ 4.098 billion, in 2015, compared to R\$ 3.394 billion in 2014 arising mainly from availability contracts, due to the expenditure on fuel for generation by the thermal plants.

Expense on electricity from Itaipu Binacional was 108.92% higher. This amount is indexed to the US dollar, and was R\$ 1.734 billion in 2015, compared to R\$ 830 million in 2014. This reflects both an increase in the tariff which was US\$ 26.05/kW-month in 2014, and rose to US\$ 38.07/kW-month as from January 2015 and also the increase in the dollar exchange rate against the Real from 2014 to 2015. The average exchange rate used for the dollar in invoices in 2015 was R\$ 3.38, compared to R\$ 2.35 in 2014 an increase of 43.83%.

Purchases of supply in the short-term market were 24.67% lower at R\$ 849 million in 2015, compared to R\$ 1.127 billion in 2014, due to the lower cost of electricity in the wholesale market in 2015.

Cemig GT:

The expense on electricity bought for resale in 2015 was R\$ 2.601 billion, or 53.72% more than in 2014 (R\$ 1.692 billion). The difference mainly reflects electricity bought for resale 48.10% higher in 2015 (at 15,273,685 MWh), than in 2014 (10,313,226 MWh) reflecting lower generation capacity, with the termination of the concessions of some plants.

Operational provisions

Operational provisions in 2014 totaled R\$ 1.401 billion, compared to R\$ 581 million in 2014, an increase of 141.14%. This change mainly reflected a provision of R\$ 1.079 billion made in 2015 for losses relating to the put options for the equity interests in Parati and a provision of R\$ 119 million for SAAG Santo Antonio Investment.

a) Put options for Units in FIP Melbourne

Option contracts for sale of Units (put options) were signed between Cemig GT and the pension plan entities that participate in the investment structure of SAAG, which those entities may exercise in the 84th month from June 2014. The exercise price of the put options will correspond to the amount invested by each pension plan company in the Investment Structure, updated *pro rata temporis* by the IPCA inflation index (*Índice Nacional de Preços ao Consumidor Amplo*, published by the Brazilian Geography and Statistics Institute - IBGE), plus 7% per year, less such dividends and Interest on Equity as have been paid by SAAG to the pension plan entities.

To decide the method to be used for measuring the fair value of the put options, since Madeira Energia is an unlisted company, the Company adopted the discounted cash flow method to measure the fair value of those options. The fair value of this option has been calculated on the basis of the estimated exercise price on the day of exercise of the option, less the fair value of the shares that are the subject of the put option, also estimated for the date of exercise, brought to present value at the interim reporting date, at the effective rate of 8% p.a. (discounting inflation effects). Based on the studies made, the amount of R\$ 148 million is recorded in Cemig GT as the best estimate of the loss on these options.

b) FIP Redentor

Cemig has granted to Fundo de Participações Redentor, which is a stockholder of Parati, an option to sell the totality of the shares which that fund holds in Parati, exercisable in May 2016. The price of the option is calculated using the sum of the value of the injections of capital by the fund into Parati, plus the running expenses of the fund, less any Interest on Equity, and dividends, distributed by Parati. The exercise price is subject to monetary updating by the CDI (Interbank CD) Rate plus financial remuneration at 0.9% per year.

For the purposes of determining the method to be used to measure the fair value of this option, the Company observed the daily trading volume of the shares of Light, and also the fact that such option, if exercised by the Fund, will require the sale to the Company, in a single transaction, of shares in Light in a quantity higher than the daily exchange trading averages. Thus, the Company has adopted the discounted cash flow method for measurement of the fair values of the option. The fair value of this option has been calculated on the basis of the estimated exercise price on the day of exercise of the option, less the fair value of the underlying shares, also estimated for the date of exercise, brought to present value at the interim reporting date, at the effective rate of 7.5% p.a. (discounting inflation effects).

Based on the studies carried out, a liability in the amount of R\$ 1.245 billion has been recorded in the financial statements, for the best estimate of the loss on this option.

Personnel

Personnel expenses were R\$ 1.435 billion in 2015, compared to R\$ 1.252 billion in 2014, an increase of 14.62%. This arises mainly from the following items:

Salary increases, under the Collective Agreement, of 6.34%, coming into effect in November 2014 (full effect in 2015).

Salary increases of 3% from March 2015, as a result of the collective negotiation decided by the courts on application from organizations representing the employees.

Salary adjustments applied at the 10.33%, from November 2015, under the Collective Agreement.

Cemig: number of employees

Gas bought for resale

The expense that Cemig reports for *Gas bought for resale* was R\$ 1.051 billion in 2015, vs. R\$ 254 million in 2014. Cemig started consolidating the results of Gasmig in October 2014, after Cemig acquired the 40% interest in Gasmig held by Petrobras.

Raw materials and inputs for production of electricity

The expense on raw material and inputs for production of electricity in 2015 was R\$ 84 million, compared to R\$ 282 million in 2014 – a reduction of 70.21%. This reflects the temporary stoppage of the Igarapé thermal plant in 2015, due to the need for maintenance and installation of new equipment, and the federal government's decision to stop generation by thermal plants that have the highest Variable Unit Cost (CVU).

Financial revenue (expenses)

Cemig reports net financial expenses of R\$ 735million in 2015, compared to net financial expenses of R\$ 1.101 billion in 2014. The main factors are:

Recognition, as from 2015, of the foreign exchange variation and monetary updating on the balances of the CVA and the *Other financial components* elements of tariff adjustments, representing and increase in financial revenue of R\$ 68 million in 2015.

A higher gain on updating of financial assets of the Remuneration Base of Assets (*Base Regulatória de Remuneração*, or BRR): R\$ 606 million in 2015, vs. R\$ 58 million in 2014. In November 2015 Aneel ordered an alteration of the index of the BRR, from the IGP-M inflation index to the IPCA inflation index. This change generated an updating adjustment backdated to January 2013. The effect of this change in financial revenue recorded in December 2015 was R\$ 143 million. This difference also arises from the higher variation in the

present index of the BRR the IPCA index which was 10.67% in 2015, compared to variation of 3.69% in the IGP-M index in 2014. Additionally, in June 2014 there was a reversal in the monetary updating of the BRR, totaling R\$ 110 million, due to the final, definitive, homologation of the value of the BRR of Cemig D.

Recognition, starting in 2015, of monetary updating on deposits linked to legal actions, representing a gain in financial revenue of R\$ 212 million in 2015.

Higher expenses of exchange rate variations on loans and financings, and on Itaipu Binacional, which totaled R\$ 172 million in 2015, vs. R\$ 26 million in 2014. This mainly reflects the effects on Cemig D of the higher variation of the US dollar in 2015 (47.01% in full-year 2015, compared to 13.39% in 2014);

Charges for loans and financings 48.44% higher, at R\$ 1.382 billion in 2015, compared to R\$ 931 million in 2014. This mainly reflects higher debt indexed to the CDI Rate; and also the higher CDI rate itself, in 2015 representing 13.23% in the year, compared to 10.81% in 2014.

Expense on monetary updating of loans and financings 42.80% higher, at R\$ 387 million in 2015, compared to R\$ 271 million in 2014. This is mainly the effect of higher variation in the IPCA inflation index in the period (10.67% in 2015, compared to 6.41% in 2014).

Ebitda

Cemig's consolidated Ebitda in 2015 was 22.36% lower than in 2014. This mainly reflects operational costs and expenses (excluding depreciation and amortization) 28.08% higher in 2015 an outstanding element of this expense being provisions totaling R\$ 1.198 billion for losses on investments.

Generation plants: Concession contract expiry periods

In November 2015 Cemig was the winner of Lot D in the first auction of concessions held by Aneel with a new structure: placement of concessions for hydroelectric plants under a regime of allocation of generating capacity and physical offtake guarantees.

Number of generation plants: 18 (eighteen).

Total installed generation capacity: 699.57 MW.

Percentage of the guaranteed physical power offtake allocated to the Regulated Market: 100% (one hundred per cent), from January 1 to December 31, 2016; and 70% (seventy per cent), on and after January 1, 2017.

Payment: R\$ 2.216 billion in Concession Grant Fee (Bonificação pela Outorga), of which R\$ 1.4 billion (65%) was paid on January 5, 2016 and R\$ 770 million is to be paid within 180 days.

Revenue received by Cemig GT for provision of the service: R\$ 498.6 million/year.

Under that contract, as from this termination the assets of each plant that had not been fully depreciated are to be returned to the concession-granting power, and the company is to be indemnified for them, on terms specified in the contract. The accounting balances corresponding to these assets, including the Deemed Cost, were transferred from Fixed assets to Financial assets on the date of termination of the concession in July 2015, and total R\$ 546 million.

As specified in Aneel Normative Resolution 615/2014, the Valuation Opinions proposing the amounts of the indemnification of the assets were delivered to Aneel on December 31, 2015. The company is in the process of preparation of these Opinions. Based on the discussions and valuations currently in progress, management believes that there is no indication that the amounts to be indemnified by the Grantor Power will be lower than those recognized in its interim financial statements at December 31, 2015

Electricity losses 4Q15

Control of electricity losses is one of Cemig D's strategic objectives, and the Company has a structure dedicated to this its *Distribution Losses Measurement and Control Management Unit*. Compliance with the objective is monitored monthly through the Total Distribution Losses Index (*Índice de Perdas Totais da Distribuição*, or IPTD): the result at December 31, 2015 was 11.52% compared to a regulatory target of 10.48% by the end of 2017. In the decision on the regulatory target, taken during the 3rd Tariff Review Cycle, the regulator, Aneel, made significant changes in the method of calculation of technical losses, imposing extremely challenging limits for Cemig D. Total losses are composed of technical losses plus non-technical losses. The indicators for measurement are the PPTD (Distribution Technical Losses Percentage *percentual de perdas técnicas da distribuição*), and the PPNT (Distribution Non-technical Losses Percentage *or percentual de perdas não técnicas da distribuição*). The projected result for the PPTD on December 31, 2015 was 9.46%, for a regulatory target of 7.84 %, and the projected result for the PPNT was 3.06%, for a regulatory target of 2.64%.

Aneel measures non-technical losses with reference to the low-voltage market. Taking this into account, the result for the PPNT in relation to the low voltage market as invoiced at December 31, 2015 was 7.85%, for a regulatory target of 7.63% (2.88% above the limit set by the Regulator).

Trading volume in Cemig's preferred shares (CMIG4) totaled R\$ 2.84 billion in 1Q16, a daily average of R\$ 47.40 million. They handle in both its common (ON) and preferred (PN) shares, Cemig was the Brazilian electricity company with the highest trading liquidity, and one of the most traded Brazilian stock market.

On the New York Stock Exchange the volume traded in ADRs for Cemig's preferred shares (CIG) in 1Q16 was US\$ 442.3 million: we see this as reflecting recognition by the investor market of Cemig as a global investment option.

The São Paulo stock exchange (Bovespa) index the Ibovespa rose 15.47% in the quarter, closing the quarter at 50,055 points. Cemig's shares outperformed the principal Brazilian stock index and also the electricity sector index: the common (ON) shares rose 24.18% in the quarter, and the preferred (PN) shares rose 35.49%. The strengthening of both the Bovespa index and Cemig's share prices reflected the change in market expectations.

Cemig's long-term ratings

Cemig's consolidated electricity market

The **Cemig Group** sells electricity through its distribution company, *Cemig Distribuição S.A.* (**Cemig D**), its generation and transmission company *Cemig Geração e Transmissão S.A.* (**Cemig GT**), and other wholly-owned subsidiaries: *Horizontes Energia*, *Termelétrica Ipatinga* (up to January 2015), *Sá Carvalho*, *Termelétrica de Barreiro*,

Cemig PCH, Rosal Energia and Cemig Capim Branco Energia (up to March 2015).

The total for sales in Cemig's consolidated electricity market comprises sales to:

- (I) Captive consumers in Cemig's concession area in the State of Minas Gerais;
- (II) Free Consumers in both the State of Minas Gerais and other States of Brazil, in the Free Market (*Ambiente de Contratação Livre*, or ACL);
- (III) other agents of the electricity sector – traders, generators and independent power producers, also in the ACL;
- (IV) Distributors, in the Regulated Market (*Ambiente de Contratação Regulada*, or ACR); and
- (V) the wholesale trading chamber (*Câmara de Comercialização de Energia Elétrica*, or CCEE) (eliminating transactions between companies of the Cemig Group).

In 1Q16 the Cemig group sold a total volume of 13,284 GWh. This volume was 15.8% less than its total sales volume in 1Q15.

Sales of electricity to final consumers plus Cemig's own consumption totaled 10,587 GWh, or 9.9% less than in 1Q15.

Overall, electricity consumption has been affected since 1Q15 by adverse Brazilian political and economic circumstances; and, in the captive market, by the successive increases in electricity rates charged to consumers, associated with application of the Tariff Flag system, resulting in significant increases in consumers' electricity bills.

Sales to distributors, traders, other generating companies and independent power producers totaled 2,697 GWh – or 33.2% less than in 1Q16.

In March 2016 the Cemig group invoiced 8,120,322 clients – a growth of 1.9% in the consumer base in the year since March 2015. Of these, 8,120,262 are final consumers, including Cemig's own consumption; and 60 are other agents in the Brazilian electricity sector.

This chart shows the breakdown of the Cemig Group's sales to final consumers in the quarter, by consumer category:

The electricity market of Cemig D

Electricity billed to captive clients and electricity transported for Free Clients and distributors with access to Cemig D's networks in 1Q16 totaled 10,460 GWh, or 3.3% less than in 1Q15.

There are two components of this reduction: Consumption by the captive market 5.5% lower year-on-year, and use of the network by Free Clients 0.5% lower.

In March 2016 Cemig billed 8,120,073 consumers, or 1.9% more consumers than in March 2015. Of this total, 445 are Free Consumers using the distribution network of Cemig D.

Comments on the various consumer categories:

Residential

Residential consumption was 2,491 GWh of the electricity transacted by Cemig, or 2.83% less than in 1Q15.

The lower level of residential consumption is due to:

Increases in rates, and application of the Tariff Flag rates as from January 2015.

Reduction in families' disposable income over the year 2015 and in the first quarter of 2016.

Deterioration in family confidence.

Fewer calendar days in first quarter 2016 (90.2 days) than in first quarter 2015 (91.8 days).

Lower temperatures in 1Q16 than 1Q15, resulting in less use by consumers of air conditioners and ventilators in their homes.

Average monthly consumption per consumer in 1Q16 was 126.4 KWh/month, or 4.6% lower than the average for 2015 (132.4 KWh/month).

Industrial

Electricity used by captive clients was 7.9% of the volume of electricity distributed by Cemig, totaling 831 GWh in 1Q16, 12.6% less than 1Q15.

This is in line with the continuing retraction of economic activity both in Minas Gerais and in the whole of Brazil, and the performance of the international market:

lower physical production, reflecting undesired inventory levels and less demand, leading to idle manufacturing capacity and lower use of labor;

lack of entrepreneur confidence, and low levels of public and private investment;

uncertainties in the Brazilian political and economic situation; and

high cost of corporate credit due to high interest rates, and banks being more selective in granting loans.

The decline in consumption is seen in most areas of economic activity: food products (-3.9%), nonmetallic minerals (- 17.0%), mining (- 8.6%), chemicals (- 11.6%), metallurgy/pig-iron (- 30.1%) and metal products (- 13.8%).

The electricity market of Cemig GT

Cemig GT's sales volume in 1Q16 was affected by termination of concession of plants. As from the termination, Cemig GT received payment for this output was under the Physical Guarantee Quota regime, and via settlement on the spot market.

Cemig GT's market comprises sales of power as follows:

- (I) in the Free Market (*Ambiente de Contratação Livre* - ACL) to Free Clients, either located in Minas Gerais or in other States;
- (II) to other agents in the electricity sector - traders, generators and independent power producers (in the Free Market);
- (III) to electricity distributors (in the Regulated Market - ACR); and
- (IV) sales in the CCEE (Wholesale Electricity Trading Chamber).

The total supply billed by Cemig GT in 1Q16 was 6,703 GWh, or 24.6% less than in 1Q15.

The number of clients billed by Cemig GT was 28.6% higher than at the end of March 2015, totaling 684. Of these: 623 were industrial and commercial clients, 47 were distribution companies, and 14 were companies in the category of traders, generators and independent power producers.

Free clients consumed 3,975 GWh in 1Q16, or 59.3% of the total electricity provided by Cemig GT, and 16.9% less than in 1Q15 - on the following main factors:

reduction of consumption by industrial clients due to the continuous retraction in economic activity at state and national level in Brazil, and the performance of the international economy;

lower availability of power for sale due to the conditions for renewal of concessions, as per Law 1303/2050 this supply was redirected to the Physical Guarantee Quota regime; and

shutdown of a mining operation in Minas Gerais state.

In 1Q16 Cemig GT added 113 new clients in the *Commercial* category, mainly outside the state of Minas Gerais.

Sales and trading transactions in electricity with other agents of the electricity sector in the Free Market lead to selling opportunities, which lead to short-term sales contracts. In 1Q16 total sales of electricity were 2,049 GWh, or 18.7% less than in 1Q15.

Sales in the Regulated Market, including sales to Cemig D, were 57.3% lower than in 1Q15, for several reasons:

Cessation of contracts entered into as a result of the corporate reorganization of the Cemig group, with the transfer of assets from Cemig GT to Aliança Energia; and

Termination of contracts made at the 18th Adjustment Auction, held in the first half of 2015, and the second Existing Supply Auction, held in 2005 at governing the period 2005-2015.

Since September 15, 2015 the *São Simão* Plant has been serving the Regulated Market under the quota regime, in accordance with Ministerial Order 432/2015. The company now recognizes only the revenue from provision of the services of operation and maintenance of the plant.

QUALITY INDICATORS SAIDI AND SAIFI

Cemig is continuously taking action to improve operational management, organization of the logistics of its emergency services, and its permanent regime of preventive inspection and maintenance of substations, lines and distribution networks. It also invests in training of its staff for improved qualifications, state-of-the-art technologies, and standardization of work processes, aiming to uphold the quality of electricity supply, and as a result maintain the satisfaction of clients and consumers.

The charts below show Cemig's indicators for duration and frequency of outages – SAIDI (System Average Interruption Duration Index, in hours), and SAIFI (System Average Interruption Frequency Index, in number of outages), since January 2015.

Consolidated operational revenueRevenue from supply of electricity:

Total revenue from supply of electricity to final consumers in 1Q16 was R\$ 5.915 billion, or 15.10% more than the total revenue of R\$ 5.139 billion in 2015.

Final consumers

Total revenue from electricity sold to final consumers, excluding Cemig's own consumption, in 1Q16 was R\$ 5.307 billion, or 23.65% more than the figure for 1Q15, of R\$ 4.292 billion.

The main factors affecting revenue in 1Q16 were:

The Extraordinary Tariff Adjustment (RTE) for Cemig D (Distribution), which resulted in an average impact on consumers' tariffs of 28.76%, applicable from March 2, 2015.

An annual tariff adjustment, with average effect on consumer tariffs of 7.07%, effective from April 8, 2015.

Volume of electricity sold 15.83% lower.

Revenue from Use of Distribution Systems (the TUSD charge)

The revenue of Cemig D (Distribution) from the TUSD in 1Q16 was R\$ 409 million, or 94.76% higher than in 1Q15 (R\$ 210 million). This reflects the impact of the tariff adjustments in 2015 – an increase of 96.21% for Free Consumers. The 2015 increases were mainly due to passing through of the CDE (Energy Development Account) amounts to the tariffs paid by consumers.

Revenue from transactions in the Wholesale Trading Chamber (CCEE)

Revenue from transactions in electricity on the CCEE in 1Q16 was R\$ 3 million, compared to R\$ 1.01 billion – a reduction of 99.7% year-on-year. This is mainly due to the spot price (*Preço de Liquidação de Diferenças*, or PLD) being 91.07% lower year-on-year in the wholesale market (at R\$ 34.69/MWh in 2016 compared to R\$ 388.48/MWh in 2015); and the lower quantity of electricity available for settlement in the wholesale market in 2016.

CVA and Other financial components in tariff adjustment

Due to the alteration in the concession contracts of the distributors, Cemig started to recognize balances of non-controllable costs to be passed through to Cemig D's next tariff adjustment. These comprised a reversal of R\$ 132 million in operational revenue in 1Q16. This compares with operational revenue of R\$ 550 million in 2015. This variation is principally due to the reduction of the costs of electricity acquired in auctions.

Sector / Regulatory charges – deductions from revenue

The sector charges that are effectively deductions from reported revenue totaled R\$ 2.903 billion in 1Q16, compared to R\$ 2.092 billion in 2015 – an increase of 38.77%. This principally results from the increase in the charges under the Energy Development Account (CDE), and the Tariff Flag charges.

The Energy Development Account – CDE

Payments to the Energy Development Account (CDE) are decided by an Aneel Resolution. The expenses included in the CDE are: concession indemnities, tariff subsidies, subsidy for balanced tariff reduction, low-income consumer subsidy, coal consumption subsidy, and the Fuels Consumption Account (CCC).

Charges for the CDE in 1Q16 were R\$ 600 million, compared to R\$ 298 million in 1Q15. This is the result of the new budget for the CDE since March 2015, in which Aneel increased the annual amount to be paid by Cemig D (which is passed through to the consumer in the Sector Charges component of tariffs).

Consumer charges – the Tariff Flag system

With the creation of the *Tariff Flag* mechanism, Cemig had an account under Consumer Charges related to the Tariff Flag payments, totaling R\$ 273 million in 1Q16, compared to R\$ 87 million in 1Q15.

The Flag Account (*Conta Bandeira*) was created on February 5, 2015, to manage the funds collected from captive customers of utilities of the national grid holding electricity distribution concessions and permissions – these were paid, on behalf of the CDE, directly to the Flag Account. The resulting funds are passed through by the Wholesale Trading Chamber (CCEE) to distribution agents, based on the differences between:

- (i) realized costs of thermal generation and exposure to short term market prices, and
- (ii) the amounts covered by the tariff.

The other deductions from revenue are taxes, calculated as a percentage of amounts invoiced. Thus their variations are, substantially, proportional to the changes in revenue.

Operational costs and expenses

Operational costs and expenses, excluding Financial revenue (expenses), totaled R\$ 3.949 billion in 1Q16, or 9.05% more than in 1Q15 (R\$ 4.342 billion).

The following paragraphs comment on the main variations:

Electricity purchased for resale

The expense on electricity bought for resale in 1Q16 was R\$ 1.931 billion, or 20.24% more than in 1Q15 (R\$ 2.421 billion). The main factors in the higher figure are:

Cemig D:

Expense on electricity acquired in auctions 42.57% lower, at R\$ 665 million in 1Q16, compared to R\$ 1.159 billion in 1H15, mainly on on lower expenditure on fuel for generation by the thermal plants.

Expense on electricity from Itaipu Binacional 14.36% lower, at R\$ 316mn in 1Q16, compared to R\$ 370mn in 1Q15. This is mainly due to (i) the lower tariff, which was US\$38.07/kw/month in 1Q15, but US\$25.78/kw/month as from January 2016; and (ii) the volume of electricity bought being 5.25% lower.

The cost of purchases of supply in the short-term market was lower by 64.74% at R\$ 86 million in 1Q16, vs. R\$ 245 million in 1Q15) reflecting the lower cost of electricity in the wholesale market in 2015.

Cemig GT:

The expense on electricity bought for resale in 1Q16 was R\$ 660 million, or 8.55% more than in 1Q15 (R\$ 608 million). This reflects a higher average price per MWh (R\$ 134.74 in 2016, vs. R\$ 179.94 in 2015), with an offsetting effect from volume of electricity purchased in 1Q16 25.12% lower (4,510,660 MWh), compared to 1Q15 (3,669,685 MWh).

Operating provisions

Operational Provisions 486.05% higher year-on-year in the quarter an expense of R\$ 252mn in 1Q16, compared to R\$ 43mn in 1Q15. The main factors in this result are:

Higher provisions for doubtful receivables: R\$ 76 million in 1Q16, compared to R\$ 27 million in 1Q15 mainly reflecting a higher level of default, influenced by the significant increase in consumer electricity rates put in place in 2015, and also the Brazilian macroeconomic context.

Higher provisions for contingencies: in particular for employment-law litigation totaling R\$ 50 million in 1Q16, compared to R\$ 16 million in 1Q15. There was also an increase in regulatory provisions at R\$ 21 million in 1Q16, compared to R\$ 3 million in 2015, reflecting an infringement claim issued by Aneel, in the administrative sphere, related to assessment of electricity distribution services.

This change mainly reflected provisions for the put options on equity interests in Parati (R\$ 79 million), and SAAG R\$ 9 million), respectively.

a) Put options for Units in FIP Melbourne

Option Contracts for sale of Units (the Put Options) were signed between Cemig GT and the pension plan entities that participate in the investment structure of SAAG, which those entities may exercise in the 84th month from June 2014. The exercise price of the Put Options will correspond to the amount invested by each pension plan company in the Investment Structure, updated *pro rata temporis* by the IPCA inflation index (*Índice Nacional de Preços ao Consumidor Amplo*, published by the Brazilian Geography and Statistics Institute - IBGE), plus 7% per year, less such dividends and Interest on Equity as have been paid by SAAG to the pension plan entities.

To decide the method to be used for measuring the fair value of that option, since Madeira Energia is an unlisted company, the Company adopted the discounted cash flow method to measure the fair value of the options. The fair value of this option has been calculated on the basis of the estimated exercise price on the day of exercise of the option, less the fair value of the shares that are the subject of the put option, also estimated for the date of exercise, brought to present value at the interim reporting date, at the effective rate of 8% p.a. (discounting inflation effects). Based on the studies made, a liability of R\$ 157 million is recorded in Cemig GT, for the difference between the the exercise price and the estimated fair value of the assets.

b) FIP Redentor

Cemig granted to Fundo de Participações Redentor, which is a stockholder of Parati, an option to sell the totality of the shares which that fund holds in Parati, exercisable in May 2016. The exercise price of the option is calculated from the sum of the value of the amounts injected by the Fund into Parati, plus the running expenses of the fund, less Interest on Equity, and dividends, distributed by Parati. The exercise price is subject to monetary updating by the CDI (Interbank CD) Rate plus financial remuneration at 0.9% per year.

To decide the method to be used in measuring the fair value of this option, the Company observed the daily trading volume of the shares of Light, and also the fact that such option, if exercised by the Fund, will require the sale to the Company, in a single transaction, of shares in Light in a quantity higher than the daily exchange trading averages. Thus, the Company has adopted the discounted cash flow method for measurement of the fair values of the options. The fair value of that option was calculated as the amount of the exercise price estimated on the date of exercise, less the fair value of the shares subject of the put option, also estimated on the date of the exercise of the option, brought to present value on the reporting date, at an effective rate of 7.5% p.a. (discounting inflation effects).

Based on the studies made, a liability of R\$ 1.324 billion is recorded in Cemig itself (the holding company), for the difference between the the exercise price and the estimated fair value of the assets.

On May 27, 2016, there will be an Extraordinary General Meeting of Stockholders to decide on changes in the agreement with FIP Redentor, including postponement of the date of exercise of the put option. For more details see the Convocation Notice:

Personnel

Personnel expenses were R\$ 413 million in 1Q16, compared to R\$ 336 million in 1Q15, an increase of 22.92%. This arises mainly from the following items:

Salary increases of 3% from March 2015, as a result of the collective negotiation decided by the courts on application from organizations representing the employees;

Salary increases, under the Collective Agreement, of 10.33%, as from November 2015.

Number of employees

Gas bought for resale

The expense Cemig reports for Gas bought for resale was R\$ 238 million in 1Q16, vs. R\$ 262 million in 1Q15. This is basically due to a lower quantity of gas purchased (287,594m³ in 1Q16, compared to 380,666m³ in 1Q15) reflecting Brazil's economic downturn, which affected the industrial market, and also led to gas-fired thermoelectric generation plants being de-activated.

Market (000 m ³ /day)	2012	2013	2014	2015	1Q16
Residential		0.17	0.72	1.04	1.57
Commercial	24.73	20.38	23.15	22.42	20.63
Industrial	2,740.00	2,734.95	2,849.24	2,422.78	2,116.84
Other	114.09	106.33	99.64	119.87	118.13
Total market excluding thermal plants	2,878.82	2,861.83	2,972.75	2,566.11	2,257.17
Thermal plants	746.09	1,214.50	1,223.99	1,309.13	918.21
Total	3,624.91	4,076.33	4,196.74	3,875.24	3,175.38

In the industrial market, the lower daily average of sales reflects reductions in economic activity in many of the industries served by Gasmig. Examples are:

Metallurgy (32%);

Manufacture of machines and equipment (26%); and

Textiles and textile products (16%).

The thermoelectric generation plants, which had been operating uninterruptedly since 2012, and now less in demand due to the lower demand for electricity, and also the higher levels of rainfall in the current rainy period.

Supply of gas for the residential market, which began in 2013, was connected to 4,645 homes in March 2016 (3,820 homes at December 31, 2015).

Fair value gain (loss) on stockholding transaction

In 2015 the Company posted a gain of R\$ 735 million arising from the constitution of *Aliança Geração de Energia*. On February 27, 2015, the transaction of association between Vale S.A. and Cemig GT by subscription of shares in Aliança Geração de Energia S.A. was completed. The two companies subscribed their shares in Aliança by transfer to it of their interests in the following generation assets: *Porto Estrela, Igarapava, Funil, Capim Branco I, Capim Branco II, Aimorés* and *Candongá*. Aliança has installed hydroelectric generation capacity of 1,158 MW in operation (assured offtake level 652 MW), as well as other generation projects.

Since its creation, Aliança Geração de Energia has made a positive contribution to Cemig GT. In 1Q16 this interest provided Cemig GT with a gain of R\$ 24 million.

Equity gain (loss) in subsidiaries

In 1Q16 Cemig posted a net equity method gain of R\$ 58 million, which compares with a net gain of R\$ 90 million in 1Q15. This is mainly due to a loss of R\$ 152 million in 1Q16 in the jointly-controlled entity Renova Energia.

Investment in Renova Loss due to impairment of assets available for sale

Option contract

A contract was signed on September 18, 2015 giving Renova the option to sell to SunEdison up to 7,000,000 shares in TerraForm Global, which Renova had received under the agreement in the first phase of the related asset exchange transaction.

The exercise price of this option was set at R\$ 50.48 or US\$15.00, at the exchange rate of the day, at SunEdison's choice. The contract also gave SunEdison an option to buy the same 7 million shares on the same terms.

Renova priced the option using the Black-Scholes mathematical model, the future expectation for the exchange rate, and the credit risk. Based on this valuation, a loss of R\$ 217 million has been recognized in 1Q16. Cemig's impact is R\$ 59 million, according to its 27.35% interest in Renova's stake.

Investment in TerraForm - pricing of the shares

The company also posted a loss in 1Q16, of R\$ 272 million, resulting from the fall in the stock price of TerraForm, in which Renova holds an equity interest of 11.42%, valued on the basis of the market price of the shares.

The figures above refer to the full impact on the financial statements of Renova. The effect for Cemig was proportional to its interest in the investee, valued by the equity method.

Financial revenue (expenses)

Cemig reports net financial expenses of R\$ 413 mn in 1Q16, compared to net financial expenses of R\$ 273mn in 1Q15. The main factors are:

Lower gain on updating of financial assets reported for the Remuneration Assets Base (BRR): R\$ 2mn in 1Q16, vs. R\$ 92mn in 1Q15. This is due to the BRR being lower, following the renewal of the concession contract in December 2015: on March 31, 2016 the amount of R\$ 164 million was classified in Financial assets (compared to R\$ 6.21 billion on March 31, 2015).

Recognition of monetary updating on deposits linked to legal actions, representing a gain in Financial revenue of R\$ 31mn in 1Q16.

Charges for loans and financings 46.08% higher, at R\$ 428 million in 1Q16, compared to R\$ 293mn in 1Q15. This mainly reflects higher debt indexed to the

CDI Rate; and also the higher variation provided by the CDI rate, itself, at 3,25% in 1Q16 compared to 2.81% in 1Q15.

EBITDA

Cemig's consolidated Ebitda in 1Q16 was 24.95% of its value in 1Q15 – a reduction of 75.05%. This mainly reflects: (i) recognition in 1Q15 of a gain of R\$ 735 million from calculation of fair value in a stockholding transaction; and (ii) much lower revenue from wholesale transactions on the CCEE – at R\$ 3 million in 1Q16, compared to R\$ 1.01 billion in 1Q15, due to the lower volume of supply de-contracted.

Ebitda R\$ 000	1Q16	1Q15	Change, %
Profit (loss) for the quarter	5,207	1,484,627	(99.65)
+ Income tax and Social Contribution tax	26,533	573,695	(95.38)

DEBT

The Company's consolidated total debt on March 31, 2016 was R\$ 15.300 billion, 0.88% less than at December 31, 2015.

Cemig D has rolled over the greater part of its short-term debt: the balance payable in 2016 is R\$ 918 million. On March 22, 2016, Cemig D contracted with Caixa Econômica Federal a debt of R\$ 750 million at 132.14% of the CDI rate for a total of 48 months, with grace period of 18 months. On March 28, 2016, Cemig D concluded its fourth issue of non-convertible debentures, for a total of R\$ 1.615 billion, with maturity at three years. These funds were used to settle its eighth issue of Notes. Both these contracts allow for early payment without penalty.

On April 22, 2016 Cemig D rolled over debt of R\$ 600 million with Banco do Brasil, for interest of 128.00% of the CPI rate, and final maturity in April 2018.

Cemig GT has loans of R\$ 2.919 billion maturing in 2016, most of it in December.

Mining and Energy Ministry Ministerial Order 120

The Mining and Energy Ministry, through its Ministerial Order 120, of April 20, 2016, has set the criteria for indemnity of transmission assets. It states that the amounts that are approved shall be received in a period of eight years as from the 2017 tariff adjustment, and will be updated by the variation in the IPCA inflation index, and remunerated on the basis of the specific cost of capital of the transmission segment as defined by Aneel in the processes of periodic Tariff Review, estimated at 10.44% p.a. The Companies in the sector are in the process of obtaining more detailed explanations from the regulator on the criteria related to monetary updating and receipt of the indemnity.

The Valuation Opinion delivered to Aneel on July 31, 2014 represented an indemnity to the Company of R\$ 1.169 billion, at the base date of December 31, 2012.

On February 23, 2015, Aneel sent the Company the Report of Inspection with the preliminary review of the Opinion sent by the Company, corresponding to a price of R\$ 1.157 billion, of which R\$ 285 million was received in the first quarter of 2013 – the remaining balance being R\$ 872 million. Updating of this amount by the IGP M inflation index to March 31, 2016 results in the amount of R\$ 1.085 billion (R\$ 1.054 billion at December 31, 2015).

Cemig GT is still in process of assessing the effects of the Ministerial Order, and has an estimate of an impact of approximately R\$ 500 million in financial revenue – which will be posted in the second quarter of 2016.

DEFAULT

In 2015, to achieve economic and financial equilibrium for the companies of the sector, and synchronization between tariffs and the real variable costs of electricity, Aneel implemented the system of Tariff Flags , and also enacted an Extraordinary Tariff Increase, in March. These measures had an impact on electricity rates, involving as it did a pass-through of costs to final consumers.

In this context of an exceptional increase in electricity rates, Cemig has seen an increase in amounts invoiced that are not paid by final consumers, and this has resulted in growth in the stock of debt to levels higher than the average of recent months.

The average level of default during the month of January 2016 was 25% higher than in January 2015. This increased percentage of default has had a negative effect on the Company's cash flow.

Due to the present economic context, default has remained at a level that is high for the Company. The rate of default in January was 3.91%.

The Company uses various tools of communication and collection to prevent increase in default. These include telephone contact, sending of e-mails, use of text messages, and collection letters. We are also making efforts with the credit protection services Serasa (*Serviço de Proteção ao Crédito*) and CDL (*Câmara de Dirigentes Lojistas*) to register these arrears on their records for defaulting clients; and we are also applying disconnection of supply. Aneel Resolution 414 allows supply to be cut off after 15 days from receipt of a notice to the defaulting consumer.

Cemig's consolidated electricity market

The Cemig Group sells electricity through its distribution company, **Cemig Distribuição** (**Cemig D**), its generation and transmission company **Cemig Geração e Transmissão** (Cemig Generation and Transmission, or **Cemig GT**), and wholly-owned subsidiaries: **Horizontes Energia**, **Termelétrica Ipatinga** (up to January 2015), **Sá Carvalho**,

Termelétrica de Barreiro, Cemig PCH, Rosal Energia and Cemig Capim Branco Energia (up to March 2015).

The total for sales in Cemig's consolidated electricity market comprises sales to:

- (I) Captive consumers in Cemig's concession area in the State of Minas Gerais;
- (II) Free Consumers in both the State of Minas Gerais and other States of Brazil, in the Free Market (*Ambiente de Contratação Livre*, or ACL);
- (III) other agents of the electricity sector – traders, generators and independent power producers, also in the Free Market;
- (IV) Distributors, in the Regulated Market (*Ambiente de Contratação Regulada*, or ACR); and
- (V) the wholesale trading market (*Câmara de Comercialização de Energia Elétrica*, or CCEE) (eliminating transactions between companies of the Cemig Group).

In 2Q16 the Cemig group sold a total volume of 13,874 GWh, which was 2.28% less than in 2Q15.

Sales of electricity to final consumers plus Cemig's own consumption totaled 10,755 GWh, or 4.9% less than in 2Q15.

Overall, electricity consumption has been affected since 1Q15 by adverse Brazilian political and economic circumstances; and, in the captive market, by the successive increases in electricity rates charged to consumers, associated with application of the Tariff Flag system, resulting in significant increases in consumers' electricity bills.

Sales to distributors, traders, other generating companies and independent power producers in 2Q16 totaled 3,110 GWh – or 7.85% less than in 2Q15.

In June 2016 the Cemig group invoiced 8,204,884 clients – a growth of 2.4% in the consumer base in the year since June 2015. Of these, 8,204,818 are final consumers, including Cemig's own consumption; and 66 are other agents in the Brazilian electricity sector.

This chart shows the breakdown of the Cemig Group's sales to final consumers in the quarter, by consumer category:

The electricity market of Cemig D

Electricity billed to captive clients and electricity transported for Free Clients and distributors with access to Cemig D's networks in 2Q16 totaled 11,227 GWh, or 1.75% more than in 2Q15.

This result is the joint effect of consumption in the captive market 5.6% higher year-on-year, and use of the network by Free Clients 15.41% higher by volume than in 2015.

In June 2016 Cemig D was invoicing 8,203,327 captive clients.

Comments on the various consumer categories:

Residential

Consumption by *residential* consumers totaled 2,526 GWh, or 5.86% more than in 2Q15.

The higher level of residential consumption is due to:

the invoicing calendar a larger number of days invoiced;

higher temperatures in 2Q16 than 2Q15, causing more use by consumers of air conditioners and ventilators in their homes.

Industrial

Electricity used by captive clients was 12.6% of the volume of electricity distributed by Cemig, totaling 852 GWh in 2Q16, 8.8% less than in 2Q15.

This is in line with the continuing retraction of economic activity both in Minas Gerais and in the whole of Brazil, and the performance of the international market.

Electricity transported for Free Clients was 38.0% of the volume of electricity distributed by Cemig D, totaling 4,270,854 MWh in 2Q16, or 15.4% more than in 2Q15 as a result of resumption of activity in the Metallurgy and Ferro-alloys sectors.

The electricity market of Cemig G T

Cemig GT's sales volume in 2Q16 was affected by termination of concession of plants. As from the termination, the output of these plants was redirected to the Physical Guarantee Quota regime, and to settlement on the spot market.

Cemig GT's market comprises sales of power as follows:

- (I) In the Free Market (*Ambiente de Contratação Livre*, or ACL) to Free Clients, either located in Minas Gerais or in other States;
- (II) to other agents in the electricity sector – traders, generators and independent power producers (in the Free Market); and
- (III) to electricity distributors (in the Regulated Market); and
- (IV) sales in the CCEE (Wholesale Electricity Market).

The total supply billed by Cemig GT in 2Q16 was 6,946 GWh, or 10.5% less than in 2Q15.

	MWh		Change,

Regulated Market – Cemig D	34,905	171,942	(79.70)
Total	6,946,367	7,756,621	(10.45)

The number of clients billed by Cemig GT was 48.8% higher than at the end of June 2015, totaling 793. Of these: 728 were industrial and commercial clients, 47 were distribution companies, and 18 were companies in the category of traders, generators and independent power producers.

Free Clients in the *industrial* and *commercial* categories consumed 3,810 GWh in 2Q16, down 19.7%, due to:

reduction of consumption by industrial clients due to the continuous retraction in economic activity at state and national level in Brazil, and the performance of the international economy;

lower availability of power for sale due to the conditions for renewal of concessions, as per Law 13.203/2015 this supply was redirected to the Physical Guarantee Quota regime; and

temporary shutdown of activity at a mining plant in Minas Gerais state.

Free Market sales and trading transactions in electricity with other agents of the sector lead to selling opportunities, which lead to short-term sales contracts. In 2Q16 total sales of electricity were 2,488 GWh, or 58.37% more than in 2Q15.

Sales in the Regulated Market, including sales to Cemig D, were 55.01% lower than in 2Q15, for several reasons:

Cessation of contracts entered into as a result of the corporate reorganization of the Cemig group, with the transfer of assets from Cemig GT to Aliança Energia; and

Termination of contracts made at the 18th Adjustment Auction, held in the first half of 2015, and the second Existing Supply Auction, held in 2005 and in effect for the period 2008-2015.

Since September 15, 2015 the *São Simão* Plant has been serving the Regulated Market (ACR), but under the quota regime, in accordance with the requirements of Ministerial Order 432/2015. The company now recognizes only the revenue from provision of the services of operation and maintenance of the plant.

Revenue from supply of electricity:

Total revenue from supply of electricity to final consumers in 2Q16 was R\$ 5.613 billion, or 3.53% less than the revenue of R\$ 5.819 billion in 2Q15.

Final consumers

Total revenue from electricity sold to final consumers, excluding Cemig's own consumption, in 2Q16 was R\$ 4.972 billion, or 5.79% less than the figure for 2Q15, of R\$ 5.278 billion.

The main factors affecting revenue in 2Q16 were:

The annual tariff adjustment, with average effect on consumer tariffs of 3.78%, effective from May 28, 2016.

Volume of electricity sold to final consumers was 4.86% lower year-on-year.

The revenue from the Tariff Flag system was lower, due to the alteration of the flag in effect: the Green Flag was in force in 1Q16, whereas the Red Flag was in force in 2Q15. As a result the amount received in 2016 was only R\$ 29 million, compared to R\$ 387 million in 2015 – a reduction of 92.60%.

Revenue from Use of Distribution Systems (the TUSD charge)

The revenue of Cemig D (Distribution) from the TUSD in 2Q16 was R\$ 427 million, or 17.91% less than in the same period of 2015 (R\$ 521 million). In the second quarter of 2015, Aneel decided the new CDE charges, in compliance with a court injunction that suspended part of the payment of the CDE charge for members of the Brazilian Association of Large Industrial Consumers and Free Consumers of Electricity (*Associação Brasileira de Grandes Consumidores Industriais de Energia e de Consumidores Livres*, or Abrace). This suspension resulted in the company's Revenue from Use of the Network in the second quarter 2016 being lower than in second quarter 2015.

Revenue from transactions in the Wholesale Trading Market (CCEE)

Revenue from Transactions in the Wholesale Electricity Market (CCEE) was R\$ 49 million in 2Q16, compared to R\$ 701 million in 2Q15 – a reduction of 93.01% year-on-year. This is mainly due to (a) the spot price (*Preço de Liquidação de Diferenças*, or PLD) being 82.52% lower year-on-year in the wholesale market (at R\$ 62.37/MWh in 2016 compared to R\$ 356.81/MWh in 2015); and (b) the lower quantity of electricity available for settlement in the wholesale market in 2016, mainly because of the output from the São Simão Plant being allocated to serve the Regulated Market under the quota regime, as from September 16, 2015. The company now recognizes only the revenue from provision of the services of operation and maintenance of that plant.

Supply of gas

The Company reported revenue from supply of gas 25.02% lower, at R\$ 319 million in 2Q16, compared to R\$ 425 million in 2Q15, mainly due to a lower volume of gas sold (216,135m³) in 2Q16, compared to 2Q15 (380,536m³).

Total	3,624.91	4,076.33	4,196.74	3,875.24	2,775.25

Demand for electricity from the thermoelectric generation plants, which had been operating uninterruptedly since 2012, was lower due to lower demand for electricity, and also due to the stronger rainfall in the current rainy season.

Supply of gas to the residential market, which began in 2013, totaled 6,190 households invoiced in June 2016 (vs. 3,820 at December 31, 2015).

Transmission indemnity revenue

In the 2Q16 Cemig recognized revenue of R\$ 561 million, as follows:

R\$ 12 million for monetary updating by the IGP-M index, up to May 2016, of the balance of indemnity receivable;

R\$ 20 million relating to the difference between the amount of the preliminary Revision made by Aneel of the Opinion sent by the Company, on February 23, 2015, of R\$1.157 billion, and the final Revision;

R\$ 90 million difference between the results of the IGP-M and the IPCA indices the Company had updated the balance receivable, to May 2016, by the IGP-M;

R\$ 438 million, cost of own capital, calculated on the basis of 10.44% p.a.

Aneel Normative Resolution 589, of December 10, 2013 set the criteria for calculation of the New Replacement Value (*Valor Novo de Reposição*, or VNR) of the transmission facilities, for the purposes of indemnity.

The Valuation Opinion delivered to Aneel on July 31, 2014 represented an indemnity to the Company of R\$ 1.169 billion, at the base date of December 31, 2012.

On July 12, 2016, Aneel sent to the Company the Report of Inspection with final Review of the Opinion sent by the Company, deciding the value of the indemnity at R\$ 1.177 billion. Of this amount, R\$ 285 million was received in the first quarter of 2013.

On April 22, 2016 the Mining and Energy Ministry published its Ministerial Order 120, setting the deadline and method of payment of the remaining amount of the indemnity. This Order determined that the amounts homologated by Aneel should become part of the Regulatory Asset Base for Remuneration (*Base de Remuneração Regulatória*, or BRR) and that the cost of capital should be added to the respective Permitted Annual Revenues. The updating of the amount will be by application of the IPCA (Expanded National Consumer Price) Index, and the cost of capital will not be incorporated for the period from the extensions of the concessions up to the tariff-setting process of 2017. The latter is to be updated and remunerated at the real cost of own capital, currently 10.44% per year, to be paid over eight years. The Ministerial Order still depends on decisions that will be the subject of Public Hearings held by Aneel, which are listed in Aneel's Regulatory Agenda for the second half of 2016 and the first half of 2017.

For the new assets consisting of improvements and strengthening of facilities implemented by the transmission concession holders, Aneel calculates an additional portion of Permitted Annual Revenue (RAP) in accordance with methodology specified in the Tariff Regulation Procedures (*Procedimentos de Regulação Tarifária*, or Proret).

Sector / Regulatory charges deductions from revenue

The sector charges that are effectively deductions from reported revenue totaled R\$ 2.521 billion in 2Q16, or 17.38% less than their total of R\$ 3.052 billion in 2Q15. This was mainly due to the lower values of the Energy Development Account (*Conta de Desenvolvimento Energético*, or CDE) and the Tariff Flag charges (the Green Flag was in effect in 2Q16, whereas the Red Flag was in effect in 2Q15).

Operational costs and expenses

Operational costs and expenses, excluding Financial revenue (expenses), totaled R\$ 4.349 billion in 2Q16, or only 0.05% more than in 2Q15 (R\$ 4.347 billion).

The following paragraphs comment on the main variations:

Electricity purchased for resale

The expense on electricity bought for resale in 2Q16 was R\$ 2.025 billion, or 12.41% less than in 2Q15 (R\$ 2.312 billion). The main factors in the higher figure are:

Cemig D:

Expenses on electricity acquired at auctions 46.06% lower, at R\$ 561 million in 2Q16, vs. R\$ 1.040 billion in 2Q15, mainly due to some of the thermoelectric plants being deactivated in 2016 due to the improvement in the level of the reservoirs of the hydroelectric plants in the system, with a resulting reduction in the expense on combustion fuel for those plants.

Expense on electricity from Itaipu Binacional 27.43% lower year-on-year, at R\$ 291mn in 2Q16, compared to R\$ 401mn in 2Q15. This change basically reflects the reduction of the tariff, which was US\$ 38.07/kW-month in 2Q15, and was US\$ 25.78/kW-month from January 2016.

The cost of purchases of supply in the short-term market was 19.9% lower at R\$ 161 million in 2Q16, vs. R\$ 201 million in 2Q15) reflecting the lower cost of electricity in the wholesale market in 2016.

Cemig GT:

The expense on electricity bought for resale in 2Q16 was R\$ 808 million, or 29.28% more than in 2Q15 (R\$ 625 million). This reflects an average price per MWh 5.27% higher in 2Q16 (R\$ 164.15, vs. R\$ 155.93 in 2Q15), and the volume of electricity purchased in 2Q16 being 22.78% higher (at 4,921,224 MWh), compared to 4,008,140 MWh in 2Q15.

Operating provisions

Operational Provisions 109.57% higher year-on-year in the quarter an expense of R\$ 482mn in 2Q16, compared to R\$ 230mn in 2Q15. The main factors in this change are:

Provisions, of R\$ 355 million and R\$ 16 million, respectively, made for the put options on the investments in Parati and SAAG.

The Equity Fund owns common and preferred shares in **Light**, and at present exercises joint control, with Cemig, over the activities of that company. This being so, this option has been considered to be a derivative instrument which should be accounted at fair value through profit or loss.

For the purposes of determination of the method to be used in measuring the fair value of this option, the Company, up to the first quarter of 2016, observed the daily trading volume of the shares of Light, and also the fact that such option, if exercised by the Fund, will require the sale to the Company, in a single transaction, of shares in Light in a quantity higher than the daily exchange trading averages. Thus, the Company had adopted the discounted cash flow method for measurement of the fair values of the options. The fair value of this option has been calculated on the basis of the estimated exercise price on the day of exercise of the option, less the fair value of the shares that are the subject of the put option, also estimated for the date of exercise, brought to present value at the interim reporting date, at the effective rate of 7.5% p.a. (discounting inflation effects). As a result of the changes in the Stockholders Agreement of Parati in the second quarter of 2016, described below, with consequences for the conditions and periods for exercise of the put option, the Company then began to use the Black Scholes method for measurement of the fair value of the options, which resulted in the provision being higher in 2Q16.

a) FIP Redentor

Changes in the Stockholders Agreement of Parati

In the second quarter of 2016 Amendments were signed to the Stockholders Agreement of Parati. The principal changes arising from these amendments are:

1. The maturity of the Put Option granted in 2011 by Cemig in favor of the unit holders of FIP Redentor, initially specified to be May 31, 2016, was postponed, to two separate exercise dates:

o First option exercise window: The intention to exercise may be stated by any direct stockholders who decide to do so, independently of the exercise of the Put Option by the other direct stockholders, up to September 23, 2016, inclusive, and shall cover only preferred shares in Parati, up to a limit of 153,634,195 preferred shares in Parati, representing 14.30% of the total shares in Parati held by the other direct stockholders. Cemig must make payment by November 30, 2016.

o Second payment window: The intention to exercise may be stated by any direct stockholders who decide to do so, independently of the exercise of the Put Option by the other direct stockholders, up to September 23, 2017, inclusive, And may cover the totality of the shares in Parati, being independent of any exercise, or not, of the Put Option in the first payment window. Cemig must make payment by November 30, 2017.

2. The Put Option may now be exercised not only by FIP Redentor, but by any person who becomes a direct stockholder of Parati, including but not limited to the unit holders of FIP Redentor, and/or their affiliates, who shall become holders of a Put Option and/or of the rights arising therefrom, under which each one of the direct stockholders shall individually have the right to sell any shares in Parati that they own; and

3. Inclusion of conditions for bringing forward the date of exercise of the put option: in the event of any occurrence resulting in bringing forward of the option referred to, any direct stockholder may present to Cemig the notice of bringing forward of the option, at which moment the option shall be considered exercised by all the direct stockholders, over the totality of their shares. Cemig Does not have the expectation that any of the events resulting in bringing forward of the option will occur.

4. As guarantee for the full payment of the Put Option, on May 31, 2016 Cemig offered to the holders of the Put Option:

55,234,637 common shares and 110,469,274 preferred shares that Cemig directly holds in Transmissora Aliança de Energia S.A. (Taesa),

and as further guarantee, 53,152,298 shares that Cemig directly holds in Light.

Higher provisions for doubtful receivables: R\$ 98 million in 2Q16, compared to R\$ 31 million in 2Q15 mainly reflecting a higher level of default, influenced by the significant increase in electricity tariffs put in place in 2015, and also the Brazilian macroeconomic context;

Personnel

Personnel expenses were R\$ 430 million in 2Q16, compared to R\$ 333 million in 2Q15, an increase of 29.13%. This arises mainly from the following factors:

Salary increases, under the Collective Work Agreement, of 10.33%, as from November 2015.

Recognition, in 2Q16, of an expense of R\$ 64 million on the voluntary retirement plan.

The PDVP Programmed Voluntary Retirement Plan

Cemig created the PDVP to apply in the period April 18 to May 31, 2016. Those eligible to take part were any employees who will have worked with Cemig for 25 years or more by December 31, 2016. The PDVP offers the normal severance payments specified by law, including payment for the period of notice, deposit of the penalty payment of 40% of the FGTS Base Value to the employee's FGTS fund, further to the payments specified by the legislation. Severance of the employees will take place over the period from June 2 to October 20, 2016, in accordance with guidelines set by the Company. A total of 621 employees have signed up for the program. The amounts of the severance payments have been 100% provisioned.

Gas bought for resale

The expense on gas bought for resale in 2Q16 was R\$ 189 million, or 27.86% less than in 2Q15 (R\$ 262 million). This is basically due to a lower quantity of gas purchased (215,901m³ in 2Q16, compared to 377,681m³ in 2Q15), reflecting Brazil's economic downturn, which affected Cemig's *industrial* market, and also led to gas-fired thermoelectric generation plants being taken out of production.

Equity method gain

In 2Q16 Cemig posted a net equity method gain of R\$ 72 million, which compares with a net gain of R\$ 6 million in 2Q15. The variation mainly comprises equity method gains of:

R\$ 86 million in the subsidiary Taesa;

R\$ 41 million in the subsidiary Aliança Geração; and

R\$ 8 million in Madeira Energia, in 2Q16.

Financial revenue (expenses)

Cemig reports net financial expenses of R\$ 212mn in 2Q16, compared to net financial expenses of R\$ 252mn in 2Q15. The main factors are:

Higher revenue from monetary variation on the CVA balances and *Other financial components* of tariffs as a result of the higher balance of these assets in 2016: R\$ 168 million in 2Q16, vs. R\$ 8 million in 2Q15.

Higher revenue from financial investments, of R\$ 77 million in 2Q16, compared to R\$ 54 million in 2Q15, primarily due to a higher level of financial investments in 2016, and a higher variation from the CDI rate in the period (3.31% in 2Q16, vs. 2.98% in 2Q15).

Lower gain from updating of the Remuneration Base of Assets (BRR): R\$ 3mn in 2Q16, compared to R\$ 102mn in 2Q15. This reflects the reduction in the BRR after the renewal of the concession contract in December 2015.

Expense on monetary updating of loans and financings 24.18% lower, at R\$ 69mn in 2Q16, compared to R\$ 92mn in 2Q15. This is due to the lower variation in the IPCA index in the period (1.75% in 2Q16, compared to 2.26% in 2Q15).

Charges for loans and financings 51.10% higher, at R\$ 479 million in 2Q16, compared to R\$ 317mn in 2Q15. This mainly reflects higher debt indexed to the CDI rate; and also the higher variation provided by the CDI rate, itself, at 3.31% in 2Q16 compared to 2.98% in 2Q15.

EBITDA

Cemig's consolidated Ebitda in 2Q16 was 45.09% lower than in 2Q15. This was mainly due to: lower volume of electricity available for sale in the wholesale market in 2016; and increased provisions; partially offset by recognition of transmission indemnity revenue.

Ebitda R\$ 000	2Q16	2Q15	Change, %
Profit (loss) for the period	202,124	534,264	(62.17)
+ Income tax and Social Contribution tax	62,833	264,840	(76.28)
+ Net financial revenue (expenses)	212,029	251,581	(15.72)
+ Depreciation and amortization	199,684	181,587	9.97
= EBITDA	676,670	1,232,272	(45.09)

DEBT

The Company's consolidated total debt on June 30, 2016 was R\$ 15.448 billion, 1.85% more than at December 31, 2015.

On April 22, 2016 Cemig D rolled over debt of R\$ 600 million with Banco do Brasil, for interest of 128.00% of the CPI rate, and final maturity in April 2018.

On July 1, 2016 Cemig GT concluded its 7th issue of promissory notes, for a total of R\$ 620 million. The net proceeds will be allocated to payment of the second portion of the Concession Grant Fee for the hydroelectric plants in Lot D of Aneel Auction 12/2015, and to strengthen working capital. The Promissory Notes have maturity at 360 days, on June 26, 2017, and pay remuneratory interest equal to 128% of the average one-day *over extra-grupo* DI rate for interbank deposits, to be paid on the maturity date. This issue has a surety guarantee from the controlling stockholder, Cemig.

Cemig GT has loans of R\$ 2.919 billion maturing in 2016, most of this total maturing in December:

Cemig GT	Expiration	Annual financial cost %	Total R\$ mn
Promissory Notes 6th Issue	Dec. 2016	120% of CDI rate	1,472
Debentures 4th Issue, 1st Series	Dec. 2016	CDI Rate + 0.85%	519

Taesá: Removal of shares from controlling block; monetization of shares and Units

Cemig and *Fundo de Investimento em Participações Coliseu* (**FIP Coliseu**), as direct stockholders and controlling stockholders of the Cemig affiliated company Transmissora Aliança de Energia Elétrica S.A. (**Taesá**), signed a Commitment Undertaking on May 31, 2016, changing some of the terms of the Stockholders Agreement of the company, previously signed by the parties on December 28, 2009 and amended on April 20, 2010. One of the changes was to remove from the condition of being bound by the Stockholders Agreement, as from May 31, 2016:

(a) 77,525,322 common shares and 155,050,644 preferred shares in **Taesá** owned by **Cemig**; and (b) 75,000,000 common shares in **Taesá** held by **Coliseu**.

This agreement changed the numbers of shares bound by the Stockholders Agreement to the following:

(a) 215,546,907 common shares owned by Cemig, and (b) 153,775,790 common shares owned by Coliseu; together comprising a total of 57.64% of the Company's common shares on May 31, 2016.

On August 3, 2016 the Executive Board of Cemig decided to submit to the Board of Directors a proposal for monetization of 22,273,452 Units comprising 22,273,452 common shares and 44,546,904 preferred shares in Taesá, owned by Cemig. All these shares are outside the controlling stockholding block.

Highlights of 2Q16**Santo Antônio Hydroelectric Plant**

In June, generation unit 43 of the Santo Antônio Hydroelectric Plant, with capacity for 73.29 MW, started operating, bringing the total number of rotors operating to 43, with total installed generation capacity of 3,077.49 MW. There are only seven rotors yet to start operation, to complete the total of 50 generation units. The plant, on the Madeira River, will have total installed capacity of 3,568 MW.

The Belo Monte Hydroelectric Plant

The first rotor started commercial operation in April, with generating capacity of 611 MW. The plant s total generating capacity will be 11,233 MW.

DEFAULT

In 2015, to achieve economic and financial equilibrium for the companies of the sector, and synchronization between tariffs and the real variable costs of electricity, Aneel implemented the system of Tariff Flags , and also ruled an Extraordinary Tariff Increase, in March. These measures had an impact on electricity rates, since they involved a pass-through of costs to final consumers.

In this context of an exceptional increase in electricity rates, Cemig has seen an increase in amounts invoiced that are not paid by final consumers, and this has resulted in growth in the stock of debt to levels higher than the average of recent months.

The situation has been further complicated by Brazil's entering a period of financial stress, and its most significant consequence, increase in the rate of unemployment.

In this context, the average level of default during the month of June 2016 was more than 15% higher than in June 2015. This increased percentage of default has had a negative effect on Cemig's cash flow.

Due to the present economic context, default has remained at a level that is high for the Company. The rate of default in January was 4.05%.

The Company uses various tools of communication and collection to prevent increase in default. These include telephone contact, sending of e-mails, use of text messages, and collection letters. We are also making efforts with the credit protection services Serasa and the Store Operators Association (*Câmara de Dirigentes Lojistas*, or CDL) to register these arrears on their records for defaulting clients; and we are also using disconnection of supply. Aneel Resolution 414 allows supply to be cut off after 15 days from receipt of a notice to the defaulting consumer.

A campaign of negotiation is planned for the month of August which will use differentiated rules for negotiation of the debits owed by low voltage clients. This aims to recover revenue, and contain the occurrence of default, and fraud.

Trading volume in Cemig's preferred shares (CMIG4) totaled R\$ 10.17 billion in the first nine months of 2016, a daily average of R\$ 54.08 million. Adding the volume traded in its common (ON) and preferred (PN) shares, Cemig was the company with the highest stock trading liquidity in the Brazilian electricity sector in the period, and among the most traded in the Brazilian market as a whole.

On the New York Stock Exchange the volume traded in ADRs for Cemig's preferred shares (CIG) in first nine months of 2016 was US\$ 1.83 billion: we see this as reflecting recognition by the investor market and maintaining Cemig's position as a global investment option.

The São Paulo stock exchange (Bovespa) index – the *Ibovespa* – was up 13.28% in the third quarter, closing the quarter at 58,367 points. The price of Cemig's preferred shares outperformed the principal Brazilian stock index with a rise of 17.86% in the quarter, and was in line with the index for the Brazilian electricity sector, which rose 17.93%. The common shares rose 20.56%.

Cemig's consolidated electricity market

The Cemig Group sells electricity through its distribution company, **Cemig Distribuição** (**Cemig D**), its generation and transmission company **Cemig Geração e Transmissão** (Cemig Generation and Transmission, or **Cemig GT**), and wholly-owned subsidiaries: **Horizontes Energia**, **Termelétrica Ipatinga** (up to January 2015), **Sá Carvalho**, **Termelétrica de Barreiro**, **Cemig PCH**, **Rosal Energia** and **Cemig Capim Branco Energia** (up to March 2015),

The total for sales in Cemig's consolidated electricity market comprises sales to:

(I) Captive consumers in Cemig's concession area in the State of Minas Gerais;

(II) Free Consumers in both the State of Minas Gerais and other States of Brazil, in the Free Market (*Ambiente de Contratação Livre*, or ACL);

(III) other agents of the electricity sector – traders, generators and independent power producers, also in the Free Market;

(IV) Distributors, in the Regulated Market (*Ambiente de Contratação Regulada*, or ACR); and

(V) and sales made in the wholesale trading market (*Câmara de Comercialização de Energia Elétrica*, or CCEE) (– eliminating transactions between companies of the Cemig Group);:

In 3Q16 the Cemig group sold a total volume of 13,841 GWh, which was 3.63% more than in 3Q15.

Sales of electricity to final consumers (excluding Cemig’s own consumption) totaled 10,826 GWh, or 4.32% less than in 3Q15.

Overall, electricity consumption has been affected since 1Q15 by adverse Brazilian political and economic circumstances; and, in the captive market, by the successive increases in electricity rates charged to consumers, associated with application of the Tariff Flag system, resulting in significant increases in consumers’ electricity bills.

Sales to distributors, traders, other generating companies and independent power producers in 3Q16 totaled 3,007 GWh – 47.92% more than in 3Q15.

In September 2016 the Cemig group invoiced 8,228,889 clients – a growth of 2.1% in the consumer base since the end of September 2015. Of these, 8,228,062 are final consumers, including Cemig’s own consumption; and 74 are other agents in the Brazilian electricity sector.

This chart shows the breakdown of the Cemig Group’s sales to final consumers in the quarter, by consumer category:

The electricity market of Cemig D

Electricity billed to captive clients by Cemig D, and electricity transported for Free Clients and distributors with access to Cemig D's networks, totaled 10,797 GWh in 3Q16, or 5,09 more than in 3Q15.

This result reflects higher use of the network by Free Clients – an increase of 16,30% compared to 3Q15.

In September 2016 Cemig D was invoicing 8,227,191 captive clients.

Comments on the various consumer categories:

Residential

Consumption by *residential* consumers totaled 2,389 GWh, or 1.08% more than in 3Q15.

Industrial

Electricity used by captive *industrial* clients was 7.33% of the volume of electricity distributed by Cemig D, and totaled 791 GWh in 3Q16 – a reduction of 15.94% when compared to 3Q15.

This is in line with the continuing retraction of economic activity both in Minas Gerais and in the whole of Brazil, and the performance of the international market,

Electricity transported for Free Clients was 40.97% of the volume of electricity distributed by Cemig D, totaling 4,423,552 MWh in 3Q16, or 16.30% more than in 3Q15 – as a result of resumption of activity in the Metallurgy and Ferro-alloys sector.

The electricity market of Cemig GT

Cemig GT's sales volume was affected by the termination of concessions of some plants. As from this termination, the output of these plants was redirected to the Physical Guarantee Quota regime, with settlement on the spot market.

Since September 15, 2015 the *São Simão* Plant has been serving the Regulated Market in accordance with the quota regime, under the requirements of Ministerial Order 432/2015. The revenues that the company recognizes from that plant are, currently, only the revenues from provision of the services of operation and maintenance of the plant.

Cemig GT's market comprises sales of power as follows:

- (I) In the Free Market (*Ambiente de Contratação Livre*, or ACL) to Free Clients, either located in Minas Gerais or in other States;
 - (II) to other agents in the electricity sector – traders, generators and independent power producers (in the Free Market); and
 - (III) to electricity distributors (in the Regulated Market);
 - (IV) and sales in the CCEE (Wholesale Electricity Market).
- The total supply billed by Cemig GT in 3Q16 was 7,281 GWh, which was 8.09% less than in 3Q15.

Regulated Market – Cemig D	35,441	85,271	(58.44)
Total	7,281,194	6,736,335	(5.36)

The number of clients billed by Cemig GT was 74.91% higher than in September 2015, totaling 934. Of these: 861 were industrial and commercial clients; 46 were distribution companies; and 27 were companies in the category of traders, generators and independent power producers.

Free Clients in the *industrial* and *commercial* categories consumed 4,252 GWh in 3Q16 down 8.46% year-on-year, due to the contraction of economic activity.

Sales and trading transactions in electricity with other agents of the electricity sector in the Free Market lead to selling opportunities, which lead to short-term sales contracts, In 3Q16 total sales of electricity were 2,427 GWh, or 110.36% more than in 3Q15.

Revenue from supply of electricity

Total revenue from supply of electricity to final consumers in 3Q16 was R\$ 5,788 million, or 2.60% more than the total revenue of R\$5,641 million in 3Q15.

Final consumers

Total revenue from electricity sold to final consumers, excluding Cemig's own consumption, in 3Q16 was R\$ 5,026 million, or 4.90% less than the figure for 3Q15, of R\$ 5,285 million.

The main factors affecting revenue in 3Q16 were:

the Annual Tariff Adjustment, with average effect on consumer tariffs of 3.78%, effective from May 28, 2016;

volume of electricity sold to final consumers 4.32% lower year-on-year; and

lower revenue received under the flag tariff system: a negative amount (i.e. a reversal) of R\$ 429,000 in 2016, compared to a total revenue of R\$ 348 million in 2015. This reflected the change in the applicable flag it was red in 3Q15, and green in 3Q16 i.e. the amount received was higher in the previous year.

Revenue from Use of Distribution Systems (the TUSD charge)

The revenue of Cemig D (Distribution) from the TUSD in 3Q16 was R\$ 552 million, compared to R\$ 446 million in 3Q15. This difference mainly reflected volume of electricity transported 16.30% higher which was in turn mainly due to resumption of production by the *ferro-alloys* sector in 2016.

Revenue from transactions in the Wholesale Trading Market (CCEE)

Revenues from Transactions in the Wholesale Electricity Market (CCEE) in 3Q16 was R\$ 87 million, compared to R\$ 174 million in 3Q15 a reduction of 49.83% year-on-year. This is mainly due to (a) the spot price (*Preço de Liquidação de Diferenças*, or PLD) being 43.57% lower year-on-year in the wholesale market (at R\$ 115.01/MWh in 2016 compared to R\$ 203.82/MWh in 2015); and (b) the lower volume of electricity available for settlement in the wholesale market in 2016, mainly because of the output from the *São Simão* Plant being allocated to serve the Regulated Market under the *quota* regime, as from September 16, 2015. The revenues that the company recognizes

from that plant are, currently, only the revenues from provision of the services of operation and maintenance of the plant.

Supply of gas

The Company reported revenue from supply of gas 18.20% lower year-on-year in 3Q16, at R\$ 340 million, compared to R\$ 415 million in 3Q15, mainly due to the lower volume of gas sold (238,440m³ in 3Q16, compared to 330.557m³ in 3Q15).

Total	3,624.91	4,076.33	4,196.74	3,875.24	2,713.62

Thermal plants: Due to the lower demand for electric power and the higher level of the reservoirs than in previous years (especially 2014 and 2015), demand for supply from the thermoelectric plants which had been dispatched uninterruptedly since 2012 is now lower.

The industrial sector, which is the most important client for Gasmig, was another contributor to lower total volume in the first nine months of the year at 15% less than in 9M15. In the comparison between 3Q15 and 3Q16, the reduction was 4%.

Supply of gas to the residential market, which began in 2013, totaled 10,064 households invoiced in June 2016 compared to 3,820 on December 31, 2015.

Transmission indemnity revenue

In 3Q16, the Company recognized revenue of R\$ 100,000 million, compared to R\$ 6 million in 3Q15.

One factor affecting the amounts recorded in 2016 was Mining and Energy Ministry (MME) Ministerial Order 120, which laid down that the amount of the indemnity owed should be made up of (i) a portion of Remuneration, and (ii) a portion of Depreciation (known as QRR *Quota de Reintegração Regulatória*, or Regulatory Reintegration Quotient), updated by the IPCA inflation index and taking into account the cost of own capital. Up to May 2016, monetary updating was by the IGP-M index, based on the value of the indemnity.

The Ministerial Order still requires certain decisions and definitions, and as a result Public Hearing 068/2016 was opened on October 14, 2016 to obtain input proposals for improvement of the regulations for calculation of cost of capital to be added to the RAP (Permitted Annual Revenue) of the transmission concession holders. The period for sending of contributions runs from October 14, 2016 to November 14, 2016.

Considering that Ministerial Order 120 specifies that cost of capital is to comprise two portions Remuneration and Depreciation (QRR), the Company, based on the best information available, made the necessary adjustments, arriving at the following values for indemnity:

	R\$ 000
Regulatory Remuneration Base (BRR) Dispatch 2181 or 2016	1,177,488
Amount of the indemnity received so far	(285,438)
Net value of the assets for purposes of indemnity	892,050
Updating in accordance with MME Order 120/16	
IPCA index/cost of own capital Jan. 2013 to Sep. 2016	854,290
Total indemnity	1,746,340

For new assets improvements, and strengthening of facilities implemented by the transmission concession holders, Aneel calculates an additional portion of Permitted Annual Revenue (RAP) in accordance with a methodology specified in the Tariff Regulation Procedures (*Procedimentos de Regulação Tarifária*, or Proret).

CVA and Other financial components in tariff adjustment

The balance of the difference between (i) actual non-manageable costs in which CDE and energy purchased are important components and (ii) the costs that were used as the basis for deciding the tariffs represents the amounts that will be passed through in the next following tariff adjustments of Cemig D. Cemig D accounted realization of R\$ 273 million in 3Q16, compared to accrual of R\$ 544 million in 3Q15. This variation is mainly due to the lower costs of electricity acquired in auctions in 2016, in relation to the costs used as a basis for tariffs.

Sector / Regulatory charges deductions from revenue

The sector charges that are reported as deductions from revenue totaled R\$ 2,510 million in 3Q16, or 20.64% less than their total of R\$ 3,163 million in 3Q15.

Global Reversion Reserve (RGR)

Cemig GT applied to Aneel for a review of the amounts paid as quota for the RGR for the business years 2010, 2011 and 2012, due to undue accounting of the deemed cost in Fixed assets in service. In its Technical Note No. 162/2016 of September 23, Aneel accepted the Company's request for recalculation of the amounts, and the result was a total of R\$ 119 million returnable. Since part of this amount has already been accounted, the gross effect, in September, was a recovery of expense in the amount of R\$ 50 million.

Consumer charges the Flag Tariff system

Lower expenses under the Flag Tariff system: the Green Flag was in force in 3Q16, while the Red Flag was in force in 3Q15. In 3Q16 there was a reversal of R\$ 430,000 in Consumer Charges relating to the Flag Tariff, which compares with a deduction from revenue of R\$ 348 million in 3Q15.

Operational costs and expenses

Operational costs and expenses, excluding Financial revenue (expenses), totaled R\$ 3,937 million in 3Q16, or 12.43% less than in 3Q15 (R\$ 4,496 million).

The following paragraphs comment on the main variations:

Electricity purchased for resale

The expense on electricity bought for resale in 3Q16 was R\$ 2,170 million, or 14.37% less than in 3Q15 (R\$ 2,535 million). The main factors in the higher figure are:

Cemig D:

Expenses on electricity acquired at auctions 32.91% lower, at R\$ 672 million in 3Q16, vs. R\$ 1,002 million in 3Q15, mainly due to some of the thermoelectric plants being deactivated in 2016 due to the improvement in the level of the reservoirs of the hydroelectric plants in the system, with a resulting reduction in the expense on fuel for those plants.

Expense on electricity from Itaipu Binacional 43.41% lower year-on-year, at R\$ 273 million in 3Q16, compared to R\$ 483 million in 3Q15. This change basically reflects the lower tariff: this tariff was US\$38.07/kW-month in 2015, and US\$ 25.78/kW-month from January 2016.

The cost of purchases of supply in the spot market was 27.46% lower at R\$ 192 million in 3Q16, vs. R\$ 264 million in 3Q15) reflecting the lower cost of electricity in the wholesale market in 2016.

Cemig GT:

The expense on electricity bought for resale in 3Q16 was R\$ 824 million, or 10.16% more than in 3Q15 (R\$ 748 million). This mainly reflects electricity purchased for resale 27.99% higher in 2016 (5,103 GWh) than in 2015 (3,987 GWh), partially offset by average price per MWh 13.92% lower in 2016 (R\$ 161.39, compared to R\$ 187.49 in 2015).

Operating provisions

Operational provisions in 3Q16 comprised a reversal of R\$ 19 million vs. an expense of R\$ 151 million in 3Q15. The change mainly arises from reversal, of R\$ 167 million, in the provision for options on the investment in Parati S.A. Participações em Ativos de Energia Elétrica S.A. (Parati).

Provision for loss on investments Put option in Parati

For the purposes of determination of the method to be used in measuring the fair value of this option, the Company, up to the first quarter of 2016, observed the daily trading volume of the shares of Light, and also the fact that such option, if exercised by the Fund, will require the sale to the Company, in a single transaction, of shares in Light in a quantity higher than daily exchange trading averages. Thus, the Company had adopted the discounted cash flow method for measurement of the fair values of the options. The fair value of this option has been calculated on the basis of the estimated exercise price on the day of exercise of the option, less the fair value of the shares that are the subject of the put option, also estimated for the date of exercise, brought to present value at the interim reporting date, at the effective rate of 7.5% p.a. (discounting inflation effects). As a result of the changes in the Stockholders Agreement of Parati in the second quarter of 2016, with consequences for the conditions and periods for exercise of the put option, the Company then began to use the Black & Scholes method for measurement of the fair value of the options, which resulted in a larger provision in 2Q16 and a reversal of R\$ 167 million in 3Q16.

Notice of intention to exercise put option

On September 6, 2016 Cemig received from Banco BTG Pactual (BTG Pactual) a Notice of Intention to Exercise a Put Option, giving irrevocable notice of exercise of BTG Pactual 's right to sell to Cemig 153,634,195 preferred shares held by Pactual in Parati (Shares subject of the Put Option). This exercise of option was under the First Exercise Window specified in Clauses 6.1 and 6.2 of the Stockholders Agreement of Parati, signed on April 11, 2011 between Cemig, Banco Santander (Brasil) S.A., BV Financeira S.A. Crédito, Financiamento e Investimento, BB Banco de Investimento S.A., and Banco BTG Pactual S.A., with Parati as consenting party (the Parati Stockholders Agreement), as amended. Cemig has until November 30, 2016 to effect the acquisition of the shares or indicate a third party which will do so.

Exercise of BTG Pactual's put option

Amount of the Company's exposure

Based on the studies made, a liability of R\$ 1,513 million is recorded in the holding company (Companhia Energética de Minas Gerais), for the difference between the exercise price and the estimated fair value of the assets.

In the calculation of the fair value of the option based on the Black-Scholes-Merton model the following variables are taken into account: the exercise price; the market closing price of the stock of *Light* on September 30, 2016 (as a proxy for the value of the indirect interest held by the direct stockholders of Parati in *Light*); the risk-free interest rate; the volatility of the price of the subject asset; and the time to maturity of the option.

The Company has made an analysis of the sensitivity of the exercise price of the option, varying the risk-free interest rate and the volatility, keeping the other variables of the model unchanged. In this context, scenarios for the risk-free interest rate at 7.9% p.a. and 17.6% p.a., and for volatility between 15% and 60% p.a., were used, resulting in estimates of minimum and maximum price for the put option of R\$ 1,497 million and R\$ 1,531, respectively.

Personnel

Personnel expenses were R\$ 374 million in 3Q16, compared to R\$ 318 million in 3Q15, an increase of 17.58%. This arises mainly from the following factors:

Salary increases, under the Collective Work Agreement, of 10.33%, as from November 2015.

Recognition, in 3Q16, of an expense of R\$ 29 million on the voluntary retirement plan.

Gas purchased for resale

The expense on gas bought for resale in 3Q16 was R\$ 196 million, or 26.04% less than in 3Q15 (R\$ 265 million). This is basically due to a lower quantity of gas purchased (234,926m³ in 3Q16, compared to 330,606m³ in 3Q15) reflecting Brazil's economic recession, which affected the industrial market, and also led to gas-fired thermoelectric generation plants being taken out of production.

Equity gain (loss) in subsidiaries

In 3Q16 the Company posted a net equity method gain of R\$ 33 million, which compares with a net gain of R\$ 164 million in 3Q15. The difference mainly reflects the interest in Renova which had an equity method result of R\$ 26 million negative in 3Q16, compared to a gain of R\$ 119 million in 3Q15.

Renova Energia:

On September 30, 2016 Renova had consolidated current liabilities over current assets of R\$ 1.451 billion; and it has continued to present operational losses and negative cash flow. The main reasons for this situation are:

- (i) transactions to purchase supply of electricity, to honor commitments related to the delays in wind farms coming into operation;

(ii) significant investments that are being allocated in construction of the Alto Sertão III wind farm complex; and

(iii) delay in release of a long-term financing agreement with the BNDES.

The management of Renova is taking a range of measures to rebalance its liquidity structure and cash flow. These actions and the Company's plan are as follows: significant restructuring of administrative expenditure is in progress, with reduction of the Company's administrative and operational structure, and a long-term financing contract with the BNDES; the Company is finalizing understandings for signature of a long-term financing contract for approximately R\$ 930 million.

Financial revenue (expenses)

Cemig reports net financial expenses of R\$ 422 million in 3Q16, compared to net financial expenses of R\$ 281 million in 3Q15. The main factors are:

Lower gain from updating of the Remuneration Base of Assets (BRR): R\$ 1 million in 3Q16, compared to R\$ 89 million in 3Q15. This reflects the reduction in the BRR of Cemig D after the renewal of the concession contract in December 2015.

Charges for loans and financings were 39.17% higher, at R\$ 525 million in 3Q16, compared to R\$ 377 million in 3Q15. This is mainly due to the higher debt indexed to the CDI rate in 2016.

EBITDA

Cemig's consolidated Ebitda was 84.27% higher in 3Q16 than 3Q15. This was mainly due to: lower expenses with energy purchased and the reversal, of R\$ 167 million, in the provision for options on the investment in Parati.

Ebitda R\$ 000	3Q16	3Q15	Change, %
Results for the first half of 2016 (1H16)	433,501	166,954	159.65

DEBT

The Company's consolidated total debt on September 30, 2016 was R\$ 16,269 million, or 7.88% higher than at December 31, 2015.

Settlement of loans - Cemig D

On October 21, 2016 Cemig D settled two Commercial Credit Notes (and their amendments) contracted with Banco do Brasil S.A. with final maturities in April 2018, paying a total of: R\$ 600 million of principal, plus interest of R\$ 25 million calculated up to the date of settlement. The payment was made from the Company's own funds.

Debt position on October 5, 2016

The balance of debt becoming due up to December 31, 2016 will be paid using the Company's own funds.

Payment of loans - Cemig GT

On October 24, 2016 Cemig GT made payment, to Banco do Brasil S.A., of the installments of two Fixed Credit Contracts, in the amount of R\$ 286 million, and Bank Credit Notes in the amount of R\$ 430 million, totaling R\$ 716 million. The payments were made with funds from a new lending transaction, also with Banco do Brasil S.A., and complemented with the Company's own funds.

Issue of Bank Credit Note

On October 24, 2016 Cemig GT issued a Bank Credit Note in favor of Banco do Brasil, in the total amount of R\$ 600 million, for the purpose of making payments and/or amortization of transactions entered into with Banco do Brasil itself. This loan has an annual interest rate of 132.90% of the CDI rate, and will be paid in four half-yearly

Monetization of units in Taesa

On May 31, 2016 Cemig and Fundo de Investimento em Participações Coliseu, as direct (controlling) stockholders of the Cemig affiliated company Transmissora Aliança de Energia Elétrica S.A. (Taesa), signed a Commitment Undertaking, changing some of the terms of the Stockholders Agreement of the company (which they signed on December 28, 2009 and amended on April 20, 2010), removing the condition of being bound by the Agreement from the following shares as from May 31, 2016:

(a) 77,525,322 common and 155,050,644 preferred shares in Taesa owned by Cemig;

(b) 75,000,000 common shares in Taesa owned by Coliseu.

This agreement changed the numbers of shares bound by the Stockholders Agreement to the following:

(a) 215,546,907 common shares owned by Cemig, and

(b) 153,775,790 common shares owned by Coliseu,
together comprising a total of 57.64% of the common stock of Taesa on May 31, 2016.

The Board of Directors approved a proposal for monetization of 40,702,230 Units comprising 40,703,230 common shares and 81,404,460 preferred shares owned by Cemig in Taesa. All these shares are outside the controlling stockholding block.

On October 24, 2016 the Public Offering was settled, at a price of R\$ 19.65 per unit.

Following the settlement, Cemig is the owner of 252,369,999 (two hundred fifty two million three hundred sixty nine thousand nine hundred ninety nine) common shares in the Company, (forty-two point seven two per cent of the Company's voting stock), and 73,646,184 (seventy three million six hundred forty six thousand one hundred eighty four) preferred shares in Taesa, which with the common shares jointly represents an aggregate 31.54% (thirty-one point five four per cent) of the Company's share capital. The Units in circulation (other than those held by FIP Coliseu, by Cemig, by the Company's managers and the shares held in treasury) are now 53.58% (fifty three point five eight per cent) of the Company's total share capital, and 31.24% (thirty-one point two four per cent) of the Company's total voting stock.

DEFAULT

In 2015, to achieve economic and financial equilibrium for the companies of the sector, and synchronization between tariffs and the real variable costs of electricity, Aneel implemented the system of Tariff Flags , and also ruled an Extraordinary Tariff Increase, in March. These measures had an impact on electricity rates, since they involved a pass-through of costs to final consumers.

In this context of an exceptional increase in electricity rates, Cemig has seen an increase in amounts invoiced that are not paid by final consumers, and this has resulted in growth in the stock of debt to levels higher than the average of recent months.

The situation has been further complicated by Brazil s entering a period of financial stress, and its most significant consequence, increase in the rate of unemployment.

In this context, the average level of default during the month of September 2016 was more than 27% higher than in September 2015. This increased percentage of default has had a negative effect on Cemig's cash flow.

Due to the present economic context, default has remained at a level that is high for the Company. The rate of default in September was 4.37%.

The Company uses various tools of communication and collection to prevent increase in default. These include telephone contact, sending of e-mails, use of text messages, and collection letters. We are also making efforts with the credit protection services Serasa and the Store Operators Association (*Câmara de Dirigentes Lojistas*, or CDL) to register these arrears on their records for defaulting clients; and we are also using disconnection of supply. Aneel Resolution 414 allows supply to be cut off after 15 days from receipt of a notice to the defaulting consumer.

A campaign of negotiation is planned for the month of August which will use differentiated rules for negotiation of the debits owed by low voltage clients. This aims to recover revenue, and contain the occurrence of default, and fraud.

Electricity losses 3Q16

Control of electricity losses is one of Cemig D's strategic objectives, and the Company has a structure dedicated to this its Distribution Losses Measurement and Control Management Unit. Compliance with the objective is monitored monthly through the Total Distribution Losses Index (Índice de Perdas Totais da Distribuição, or IPTD): the result at September 30, 2016 was 13.52% compared to a regulatory target of 10.48% by the end of 2017. In the decision on the regulatory target, taken during the 3rd Tariff Review Cycle, the regulator, Aneel, made significant changes in the method of calculation of technical losses, imposing extremely challenging limits for Cemig D. Total losses are composed of technical losses plus non-technical losses. The indicators for measurement are the PPTD (Distribution Technical Losses Percentage - *percentual de perdas técnicas da distribuição*), and the PPNT (Distribution Non-technical Losses Percentage - *or percentual de perdas não técnicas da distribuição*). The projected result for the PPTD on September 30, 2016 was 9.56%, for a regulatory target of 7.84 %, and the projected result for the PPNT was 3.96%, for a regulatory target of 2.64%.

Aneel measures non-technical losses with reference to the low-voltage market. Taking this into account, the result for the PPNT in relation to the low voltage market as invoiced at September 30, 2016 was 10.46%, for a regulatory target of 7.63% (2.83% above the limit set by the Regulator).

Sale of stockholding interest relating to Transchile

On September 12, 2016, Cemig signed a share purchase agreement for sale of the whole of its stockholding interest relating to Transchile Charrúa Transmisión S.A. corresponding to 49% of the share capital to Ferrovial Transco Chile SpA., a company controlled by Ferrovial S.A., for US\$56.6 million. On October 6, 2016, all of the shares

in Transchile Charrúa Transmisión S.A. held by Cemig, corresponding to 49% (forty nine percent) of the total capital, were transferred to Ferrovial Transco Chile SpA., a company controlled by Ferrovial S.A., and the sale completed R\$ 180 million representing a gross gain of R\$ 132 million.

MINUTES

OF THE

EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS

HELD ON DECEMBER 20, 2016

At 11 a.m. on the twentieth of December 2016, at the head office of Companhia Energética de Minas Gerais Cemig, Av. Barbacena 1200, 21st Floor, Santo Agostinho, Belo Horizonte, Minas Gerais, Brazil, stockholders representing more than two thirds of the voting stock of the Company met in Extraordinary General Meeting, on first convocation, as verified in the Stockholders Attendance Book, where all placed their signatures and made the required statements.

The stockholder **The State of Minas Gerais** was represented by Mr. Danilo Antônio de Souza Castro, Procurator of the State of Minas Gerais, in accordance with the current legislation.

Also present were:

Mr. Marcos Túlio de Melo, member of the Audit Board;

Deloitte Touche Tohmatsu Auditores Independentes, represented by Mr. Marcelo Salvador, CRC-1MG 089422/O-0; and

the Chief Trading Officer, Mr. Dimas Costa.

Initially, Ms. Anamaria Pugedo Frade Barros, General Manager of Cemig's Corporate Executive Office, stated that there was a quorum for an Extraordinary General Meeting of Stockholders, and that the stockholders present should choose the Chair of this Meeting, in accordance with Clause 10 of the Company's by-laws.

Asking for the floor, the representative of the Stockholder **The State of Minas Gerais** put forward the name of the stockholder **João Alan Haddad** to chair the Meeting. The proposal of the representative of the stockholder **The State of Minas Gerais** was put to debate, and to the vote, and approved unanimously.

The Chair then declared the Meeting open, and invited me, **Anamaria Pugedo Frade Barros**, a stockholder, to be Secretary of the meeting, asking me to read the convocation notice, published on November 18, 19 and 22, 2016, in *Minas Gerais*, official publication of the powers of the State, on pages 36, 47 and 39 respectively, and in the newspaper *O Tempo*, on pages 28, 30 and 20, respectively.

- 1 Examination, debate and voting on the Report of Management and the Adjusted Financial Statements for the year ended December 31, 2015, and the related complementary documents also adjusted.
- 2 Re-ratification of the allocation of the Net profit for the business year 2015, approved in the Ordinary and Extraordinary General Meetings of Stockholders held concurrently on April 29, 2016, the amount being adjusted from R\$ 2,491,375,000 to R\$ 2,468,500,000, the balance of Retained earnings remaining the same (R\$ 59,536,000).
- 3 Orientation of vote by the representative(s) of the Company in the Extraordinary General Meeting of Stockholders of Cemig Geração e Transmissão S.A., also to be held on December 20, 2016, in favor of the following:

Examination, debate and voting on the Report of Management and the Adjusted Financial Statements for the year ended December 31, 2015, and the related complementary documents also adjusted; and

Re-ratification of the allocation of the Net profit for 2015, approved in the Ordinary Annual General Meetings of Stockholders held on April 29, 2016, the amount being adjusted from R\$ 2,337,663,000 to R\$ 2,316,273,000, the balance of Retained earnings remaining the same (at R\$ 47,761,000).

Any stockholder who wishes to be represented by proxy at the said General Meeting of Stockholders should obey the precepts of Article 126 of Law 6406 of 1976, and of the sole paragraph of Clause 9 of the Company's by-laws, by exhibiting at the time, or depositing, preferably by December 16, 2016, proofs of ownership of the shares, issued by a depositary financial institution, and a power of attorney with specific powers, at Cemig's Corporate Executive Office (*Superintendência da Secretaria Geral*) at Av. Barbacena 1200 19th Floor, B1 Wing, Belo Horizonte, Minas Gerais.

Belo Horizonte, November 11, 2016

José Afonso Bicalho Beltrão da Silva

Chair of the Board of Directors

In accordance with Item 1 of the Agenda, the Chair then placed in debate the Report of Management and the Adjusted Financial Statements for the business year 2015, and the related complementary documents also adjusted. He reported that they were published, on December 15, 2016, in the newspapers *Minas Gerais*, the official publication of the Powers of the State, on pages 33 to 67; and in *O Tempo*, on pages 1 to 35 in the section *Balanço*.

He then put to the vote the Report of Management and the Adjusted Financial Statements for the year ended December 31, 2015, and the respective complementary documents, also adjusted, and they were approved unanimously.

The Chair then asked the Secretary to read the Proposal by the Board of Directors, which deals with items 2 and 3, and the Opinion of the Audit Board thereon.

PROPOSAL
BY THE BOARD OF DIRECTORS
TO THE
EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS
TO BE HELD ON DECEMBER 20, 2016

Dear Stockholders:

The Board of Directors of Companhia Energética de Minas Gerais - Cemig:

Whereas

- a) the Company's financial statements for the business year ended December 31, 2015 were made available to the CVM (*Comissão de Valores Mobiliários*) on March 30, 2016 and approved by the Ordinary and Extraordinary General Meetings of Stockholders held concurrently on April 29, 2016;
- b) those financial statements were filed at the CVM with the following qualification by the external auditors:
Absence of sufficient auditing evidence in relation to the investment, and the equity method gain (or loss) arising, in Amazônia Energia S.A., and Aliança Norte Energia Participações S.A., on December 31, 2015 and for the business year end on that date.

As mentioned in Notes 1 and 14 to the financial statements, the Company has an indirect investment in Norte Energia S.A. (Norte Energia), which is the subject of an investigation carried out by the stockholder Centrais Elétricas Brasileiras S.A. (Eletrobras). Due to that investigation not having been finalized, the audit examinations of the financial statements of Amazônia Energia S.A. and Aliança Norte Energia Participações S.A. (which have investments in Norte Energia S.A.), for the business year ended December 31, 2015, have not been concluded at today's date. Consequently, we have not obtained sufficient auditing evidence in relation to the investment held by the Company in Amazônia Energia S.A. and Aliança Norte Energia Participações S.A., valued by the equity method at R\$ 871,442,000 on December 31, 2015, and in relation to the equity loss reported by the equity method corresponding to R\$ 10,261,000 for the period ending on that date. ;

c)

those Meetings of Stockholders approved the following allocation of the Net profit for 2015, of R\$ 2,491,375,000, and of the balance of Retained earnings of R\$ 59,536,000:

- 1) R\$ 633,968,000 as minimum mandatory dividends, as follows:

R\$ 200,000,000 in the form of Interest on Equity, under Board Spending Decisions CRCA 088/2015 of December 17, 2015, and CRD 432/2015, of January 4, 2016, to be paid in two equal installments, by June 30, 2016 and December 30, 2016, to stockholders on the Company's Nominal Share Registry on December 30, 2015, the Executive Board to obey the periods and to decide the places and processes of payment and to allocate the amount of the Interest on Equity against the minimum mandatory dividend (the shares began to trade exercise these rights on January 4, 2016); and

R\$ 433,968,000 in the form of dividends for the 2015 business year, to stockholders of record on the date on which the Ordinary General Meeting is held.

- 2) R\$ 633,967,000 to be held in Equity in the Reserve for mandatory dividend not distributed, to be paid as and when the Company's financial situation permits;
- 3) R\$ 1,262,280,000 to be held in Stockholders' equity in the Retained earnings reserve, to provide funding for the Company's planned investments in 2016, in accordance with a capital budget; and
- 4) R\$ 20,696,000 to be held in Stockholders' equity in the Tax incentives reserve, for tax incentive gains obtained in 2015 as a result of investments in the region of Sudene

payments of the dividends to be made by December 30, 2016, in accordance with the availability of cash and at the decision of the Executive Board;

Av. Barbacena 1200 Santo Agostinho 30190-131 Belo Horizonte, MG Brazil Tel.: +55 31 3506-5024 Fax +55 31 3506-5025

- d) Cemig owns 100% of the share capital of Cemig Geração e Transmissão S.A. (Cemig GT), which in turn holds an equity interest of 74.50% in the total share capital of Amazônia Energia Participações S.A. (Amazônia Energia), which in turn holds 9.77% of the share capital of Norte Energia S.A. (Norte Energia);
- e) Cemig GT further holds 49.00% of the share capital of Aliança Norte Energia Participações S.A. (Aliança Norte), which in turn holds 9.00% of the share capital of Norte Energia;
- f) as a result of conclusion of investigations into Norte Energia, Cemig has adjusted the results of the said financial statements by the amount of R\$ 22,875,000, so that the Net profit for 2015 is adjusted from R\$ 2,491,375,000 to R\$ 2,468,500,000;
- g) due to this adjustment, it is necessary to re-ratify the allocation of the Company's net profit for 2015 (the impacts of this are restricted to the Retained earnings reserve, and the Reserve for mandatory dividends not distributed);
- h) Cemig GT is a wholly-owned subsidiary of the Company and will hold an Extraordinary General Meeting of Stockholders by December 20, 2016 to re-ratify the allocation of Net profit for the 2015 business year; and

do now propose to you as follows:

Proposal:

I) Re-ratification of the allocation of the Net profit for the business year 2015, approved in the Ordinary and Extraordinary General Meetings of Stockholders held concurrently on April 29, 2016, the amount being adjusted from R\$ 2,491,375,000 to R\$ 2,468,500,000, the balance of Retained earnings remaining the same (R\$ 59,536,000), as follows:

a) R\$ 633,968,000 to be paid to the stockholders as mandatory minimum dividend, as follows:

R\$ 200,000,000 as Interest on Equity, under Board Spending Decisions CRCA 088/2015 of December 17, 2015, and CRD 432/2015, of January 4, 2016, to be paid in two equal installments, by June 30, 2016 and December 30, 2016 to stockholders on the Company's Nominal Share Registry on December 30, 2015, and allocated as part of the mandatory minimum dividend, the Executive Board to obey the periods and to decide the places and processes of payment (the shares began to trade ex these rights on January 4, 2016); and

R\$ 433,968,000 as dividends for the 2015 business year, to stockholders on the Company's nominal share registry on April 29, 2016, the date on which the Ordinary and Extraordinary General Meetings were held this year;

b) R\$ 622,529,000 to be held in Stockholders' equity in the Reserve for mandatory dividends not distributed, to be paid as and when the Company's financial situation permits;

c) R\$ 1,250,853,000 to be held in Stockholders' equity in the Retained earnings reserve, to provide funding for the Company's planned investments for 2016, in accordance with a capital budget; and

d) R\$ 20,696,000 to be held in Stockholders' equity in the Tax incentives reserve, for tax incentives gains obtained in 2015 as a result of investments in the region of Sudene;

OPINION OF THE AUDIT BOARD

The undersigned members of the Audit Board of Companhia Energética de Minas Gerais - Cemig, in performance of their functions under the law and under the by-laws, have examined the Proposal made by the Board of Directors to

the Extraordinary General Meeting of Stockholders to be held on December 20, 2016, which is for the following:

Re-ratification of the allocation of the Net profit for the business year 2015, approved in the Ordinary and Extraordinary General Meetings of Stockholders held concurrently on April 29, 2016, the amount being adjusted from R\$ 2,491,375,000 to R\$ 2,468,500,000, the balance of Retained earnings remaining the same (R\$ 59,536,000), as follows;

- a) R\$ 633,968,000 to be allocated as mandatory minimum dividend, to be paid to the Company's stockholders, as follows:

R\$ 200,000,000 in the form of Interest on Equity, under Board Spending Decisions CRCA 088/2015 of December 17, 2015, and CRD 432/2015, of January 4, 2016, to be paid in two equal installments, by June 30, 2016 and December 30, 2016, to stockholders on the Company's Nominal Share Registry on December 30, 2015, and allocated as part of the mandatory minimum dividend, the Executive Board to obey the periods and to decide the places and processes of payment (the shares began to trade ex these rights on January 4, 2016); and

R\$ 433,968,000 in the form of dividends for the 2015 business year, to stockholders whose names were on the Company's nominal share registry on April 29, 2016, the date on which the Ordinary and Extraordinary General Meetings were held this year; and

- b) R\$ 622,529,000 to be held in Stockholders' equity in the Reserve for mandatory dividend not distributed, to be paid as and when the Company's financial situation permits;

Av. Barbacena 1200 Santo Agostinho 30190-131 Belo Horizonte, MG Brazil Tel.: +55 31 3506-5024 Fax +55 31 3506-5025

The above proposal was put to debate, and subsequently to a vote, and was approved unanimously.

The representative of the stockholder **BNDES Participações S.A. (BNDESPar)**, Guilherme Garcia de Freitas, recommended that the Company should:

claim, and cause its Subsidiaries also to claim, reparation for any damages caused by third parties to the Company and/or to its investees;

monitor the developing results of the investigations not yet concluded involving its investees, so as to measure any additional impacts on its financial results and/or those of its investees, and also seek reparation for the damages caused by third parties;

publicize, in a timely manner, the minutes of the meetings of the Audit Board and the Board of Directors, drawing attention to votes against items, abstentions and matters recorded in the minutes, so as to give stockholders a greater possible supply of input for their decision-making; and

comply with the commitment established in the Extraordinary General Meeting of Stockholders held on October 25, 2016 and recorded in the minutes of that Meeting, to call a General Meeting of Stockholders to rectify the number of votes recorded in the Ordinary and Extraordinary General Meetings of Stockholders held, concurrently, on April 29, 2016.

There being no further business, the Chair opened the meeting to the floor, and since no-one further wished to speak, ordered the meeting to be suspended for the time necessary for the writing of the minutes.

The session being reopened, the Chair, after putting the said minutes to debate and to the vote and verifying that they had been approved and signed, closed the meeting.

For the record, I, Anamaria Pugedo Frade Barros, Secretary, wrote these minutes and sign them together with all those present.

Subject: Request for information on news report

Dear Sir,

1. I refer to the news reports published today, December 20, 2016, in certain newspapers including the *Folha de São Paulo* and *Valor Econômico* on expectation of an imminent change of manager of Companhia Energética de Minas Gerais.

2. In view of the above, we request you to state whether the news reports are true, in particular in relation to the change of manager; and, if their truth is confirmed, you should explain for what reasons you believed that this was not a case of Material Information, and also comment on any other information considered to be important on the subject.

3. Your statement should be given through the *Empresas.net* system, in the category: *Market Announcement*, under the sub-category: *Responses to consultations by CVM/Bovespa*; subject heading: *Media News Reports*; and should include a transcription of this letter.

4. We highlight that, under Article 3 of CVM Instruction 358/2002 it is the responsibility of the Chief Investor Relations Officer to disclose to and advise the CVM, and as the case may be, the stock exchange and/or any organized over-the-counter market on which securities issued by the company are traded, of any material event or fact which takes place or is related to its business, and to make best efforts for its immediate and wide dissemination, simultaneously to all the markets in which such securities are traded.
5. Further, §1 of Article 4 of CVM Instruction 358/2002 specifies the obligation to seek information from the managers and controlling stockholders of the company, and from all the other people who have access to material facts and events, to ascertain whether they have knowledge of information that ought to be published to the market.
6. We warn you that the Company Relations Supervision Management, using its powers under law and based on Sub-item II of Article 9 of Law 6385/1976 and CVM Instruction 452/07, may decide to apply a coercive fine of R\$ 1,000 (one thousand Reais), without prejudice to other administrative sanctions, for any non-compliance with the requirement contained in this Official Letter within one business day from becoming aware of the content of this communication, sent exclusively by e-mail.

Reply by CEMIG

Dear Ms. Nilza Maria Silva de Oliveira,

In response to Official Letter 567/2016-CVM/SEP/GEA-1, of December 20, 2016, we inform you that it is the Company's understanding is that expectation of an imminent change of manager does not characterize publication of a Material Fact or Event in the terms of Article 2 of CVM Instruction 358/2002.

Since this is a matter for the Board of Directors, which has the sole competency to elect and dismiss Executive Officers of the Company, such information may be published only after a meeting of that board has been held and a change of Chief Officer confirmed. Cemig takes this opportunity of reiterating its commitment to opportune and timely disclosure of all and any facts that are of interest to its stockholders, in the terms of Article 2 of CVM Instruction 358/2002.

Subject: Request for additional explanation

Dear Sir,

1. I refer to news reports published on December 20, 21 and 22, 2016, in some newspapers such as the *Folha de São Paulo* and *Valor Econômico* mentioning, among other subjects, motivation for the change in the Executive Board of Companhia Energética de Minas Gerais, and also to the market announcement of December 12, 2016, in response to Official Letter 567/2016/CVM/SEP/GEA-1 of December 20, 2016.
2. I request you to clarify whether the reports are true, in particular in relation to the following statements:

- I In November, Mauro Borges, at the time CEO of Cemig, and Fabiano Pereira, at that time financial director, had communicated to Governor Fernando Pimentel offers to resign if necessary as a response to those pressures and against the strengthening position of the PMDB in the company.
- II Allegedly, Fernando Pimentel was being pressured to change the principal appointments in the company to please the parties in his alliance, at a delicate moment when the Judiciary is imminently to decide on consequences of a legal action in which he is accused of corruption and money laundering, allegedly while he was Minister of Development, from 2011 to 2014.
- III The new Chief Executive Officer and Deputy CEO are seen as people that are close to the PMDB, indicating an increase in the power of that party in relation to Fernando Pimentel, who would, allegedly, be opening up spaces in important positions in the company to please allies.
- IV The changes, allegedly, were not related to dissatisfaction on the part of the government with the management of Mauro Borges, but rather allegedly reflect a pressure that the parties of the governor's allied base have exercised on him to maintain their support for his government.

Subject: Request for information on news report

Dear Sir,

I refer to the report published in the newspaper *Valor Econômico* on December 22, 2016, entitled:

Cemig uses injunction to hold on to Miranda hydroelectric plant concession .

We request you to state whether the report is true, and if its truth is confirmed, the Company should explain for what reasons it believed that this was not a case of Material Information, and also comment on any other information

considered to be important on the subject.

Your statement should be given through the Empresa.net system, in the category: *Market Announcement*, under the sub-category: *Responses to consultations by CVM/Bovespa*; subject heading: *Media News Reports*; and should include a transcription of this letter.

We highlight that, under Article 3 of CVM Instruction 358/2002 it is the responsibility of the Chief Investor Relations Officer to disclose to and advise the CVM, and as the case may be, the stock exchange and/or any organized over-the-counter market on which securities issued by the company are traded, of any material event or fact which takes place or is related to its business, and to make best efforts for its immediate and wide dissemination, simultaneously to all the markets in which such securities are traded.

Further, §1 of Article 4 of CVM Instruction 358/2002 specifies the obligation to seek information from the managers and controlling stockholders of the company, and from all the other people who have access to material facts and events, to ascertain whether they have knowledge of information that ought to be published to the market.

We warn you that the Company Relations Supervision Management, using its powers under law and based on Sub-item II of Article 9 of Law 6385/1976 and CVM Instruction 452/07, may decide to apply a coercive fine of R\$ 1,000 (one thousand Reais), without prejudice to other administrative sanctions, for any non-compliance with the requirement contained in this Official Letter within one business day from becoming aware of the content of this communication, sent exclusively by e-mail.

Reply by CEMIG

Dear Ms. Nilza Maria Silva de Oliveira,

In response to Official Letter 575/2016/CVM/SEP/GEA-1, of December 22, 2016, we state as follows:

On December 21, 2016 Cemig Geração e Transmissão applied to the Higher Appeal Court (*Superior Tribunal de Justiça* - STJ) for an order of *mandamus*, requesting interim relief in the form of an injunction with the objective of maintaining the concession for the Miranda Hydroelectric Plant, which has a concession expiry date on December 23, 2016.

It is the Company's understanding that filing of a legal action is an ordinary act in the life of a Company, and the mere act of applying for interim relief, since it does not automatically generate any immediate effect for the Company, does not characterize a material event or fact, in the terms of Article 2 of CVM Instruction 358/2002.

It was only on December 22, 2016, at 19:13:01 (7.13 p.m.), with the issuance of STJ Certificate 1722447, on the granting of an interim injunction giving Cemig Geração e Transmissão, on a temporary basis, control of the Miranda Hydroelectric Plant, that a material event took place; and the related Material Announcement was filed with the CVM before the end of the same day, namely yesterday, December 22, 2016.

It is, thus, our understanding that, in accordance with the requirement which you state, the material event was communicated as soon as it came into existence, on the same day, December 22, 2016.

Cemig takes this opportunity of reiterating its commitment to opportune and timely disclosure of all and any facts that are of interest to its stockholders, in the terms of Article 2 of CVM Instruction 358/2002.

Belo Horizonte, December 23, 2016.
