INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Shareholders and Management of

Telecomunicações de São Paulo S.A. - Telesp

São Paulo - SP - Brazil

1. We have made a special review of the accompanying quarterly information, Company and consolidated, of Telecomunicações de São Paulo S.A. - Telesp and subsidiaries, consisting of the balance sheets as of June 30, 2003, the statements of operations for the quarter and six-month period then ended, management's comments on consolidated performance and other relevant information, all expressed in Brazilian reais and prepared in conformity with Brazilian accounting practices under the responsibility of the Companies' managements.
2. Our review was conducted in accordance with specific standards established by the IBRACON - Brazilian Institute of Independent Auditors, together with the Federal Accounting Council, and consisted principally of: (a) inquiries of and discussions with management personnel responsible for the accounting, financial and operating areas of the Companies as to the principal criteria adopted in the preparation of the quarterly information, and (b) review of the information and subsequent events that had or might have had significant effects on the financial position and operations of the Companies.
3. Based on our special review, we are not aware of any significant change that should be made to the quarterly information referred to in paragraph 1 for it to be in conformity with Brazilian accounting practices and with standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of such mandatory quarterly information.
4. The balance sheets, Company and consolidated, as of March 31, 2003, and the statements of operations, Company and consolidated, for the quarter and six-month period ended June 30, 2002, presented for comparative purposes, were reviewed by us and our special review reports, dated April 30, 2003 and July 24, 2002, respectively, were issued without qualification.
5. These interim financial statements have been translated into English for the convenience of readers outside Brazil.

TELECOMUNICAÇÕES DE SÃO PAULO S.A. - TELESP

NOTES TO THE FINANCIAL STATEMENTS AS OF JUNE 30, 2003

(Amounts in thousands of Brazilian reais - R\$, unless otherwise indicated)

1. OPERATIONS AND BACKGROUND

- a) Formation of the Company, its controlling shareholders and corporate restructuring

Telecomunicações de São Paulo S.A. - Telesp (formerly Telesp Participações S.A. - TelespPar), hereafter denominated as the Company or Telesp , was formed pursuant to article 189 of Law No. 9,472/97 of the General Telecommunications Law based on Decree No. 2,546 of April 14, 1998, as part of the spin-off of Telebrás.

On July 29, 1998, the Federal Government sold, in a public auction held at the Rio de Janeiro Stock Exchange (BOVERJ), the TelespPar (holding company of Telecomunicações de São Paulo S.A. - Telesp and Companhia Telefônica da Borda do Campo - CTBC) controlling shares which were purchased by Tele Brasil Sul Participações S.A. - TBS, a consortium controlled by Telefônica Internacional S.A. - TISA (controlled by Telefônica S.A.). As a result of subsequent mergers in this consortium, on January 10, 1999, SPT Participações S.A. now holds TelespPar s controlling shares. On November 30, 1999, as previously approved by the National Telecommunications Agency (ANATEL), the Brazilian telecommunication regulatory authority, TelespPar s restructuring was completed, through successive mergers, as follows: (i) merger of CTBC into Telesp, (ii) merger of Telesp into TelespPar, and (iii) merger of SPT into TelespPar. After these mergers, SP Telecomunicações Holding S.A. (controlled by TISA) became the controlling shareholder of TelespPar. The name of TelespPar was changed to Telecomunicações de São Paulo S.A. - Telesp.

On June 30, 2000, the public offering for the exchange of all outstanding shares of the Company for Brazilian Depositary Receipts - BDRs, representing shares of Telefônica S.A., was concluded. As a result of this public offering and subsequent changes, as of June 30, 2003, Telefônica S.A. holds, directly and indirectly, 84.34% of the common shares and 88.87% of the preferred shares of the Company.

The Company is registered with the Brazilian Securities Commission (CVM) as a publicly-held company and its shares are traded on the principal stock exchanges in Brazil. The Company is also registered with the Securities and Exchange Commission - SEC, in the United States of America, and its American Depositary Shares - ADSs, level II, are traded on the New York Stock Exchange - NYSE.

- b) The telecommunications services subsidiaries

Up to November 30, 1999, the subsidiaries Telesp and CTBC were the principal providers of local fixed line telecommunications services in the State of São Paulo, under a Federal Government concession which will expire on December 31, 2005, renewable for another period of 20 years.

Telecomunicações de São Paulo S.A. - Telesp

Due to the corporate restructuring mentioned above and the extinction of Telesp and CTBC, after November 30, 1999, their operations were assumed by the Company from that date.

On October 29, 1999, the subsidiary Assist Telefônica S.A. was formed as a closely-held corporation; it is principally engaged in providing technical assistance services for the installation, operation, and maintenance of telephone, data and IT networks, value-added services, including content services, internet connection and access services, as well as web-based technological services and related support, and the installation, operation and maintenance of internet, intranet and extranet solutions, and the sale, rental and maintenance of IT and telecommunications equipment.

On December 22, 1999, the Company acquired from the municipality of Ribeirão Preto, in a public auction, the controlling shares of Ceterp - Centrais Telefônicas de Ribeirão Preto S.A. (Ceterp), and its subsidiary Ceterp Celular S.A. On October 4, 2000, in accordance with the rules established in the privatization process, the Company concluded the acquisition, through a public offering, of the common and preferred shares from minority shareholders. After these acquisitions, the Company then held 96.97% of the preferred shares and 99.85% of the common shares of Ceterp. On November 27, 2000, in accordance with the rules applicable to the Brazilian telecommunications market, Ceterp sold its subsidiary Ceterp Celular S.A. Additionally, on November 30, 2000, Ceterp was merged into the Company.

On August 3, 2000, the wholly-owned subsidiary Telefônica Empresas S.A. was formed, with operations related to packet-switched data network service. On November 24, 2000, the Company increased the capital of the subsidiary with cash and through property items related to the packet-switched data network service, including the transfer of the authorization to explore this service.

On January 30, 2001, Telefônica Data Brasil Holding S.A. was formed, resulting from a partial spin-off of the Company's net assets. These assets were represented by the investment in the wholly-owned subsidiary Telefônica Empresas S.A. and accounts receivable. The objective of the formation of Telefônica Data Brasil Holding S.A. is to segregate operating activities related to packet-switched data network services, due to the operating and administrative restructuring in 2000.

2. PRESENTATION OF THE INTERIM FINANCIAL STATEMENTS

The individual (Company) and consolidated interim financial statements were prepared in accordance with Brazilian accounting practices, rules applicable to concessionaires of public telecommunications services, and standards and accounting procedures established by the CVM.

The consolidated statements include the balances and transactions of the subsidiaries Assist Telefônica S.A. and Aliança Atlântica Holding B.V.

All assets, liabilities, revenues and expenses from transactions between the consolidated companies were eliminated in consolidation.

Telecomunicações de São Paulo S.A. - Telesp

The financial statements as of June 30, 2002 were reclassified, when applicable, for comparative purposes.

3. SUMMARY OF PRINCIPAL ACCOUNTING PRACTICES

The accounting practices applied in the preparation of the financial statements as of June 30, 2003 of the Company and its subsidiaries are consistent with those described in the notes to the financial statements for the year ended December 31, 2002.

On June 26, 2003, through Notices No. 37,166 and No. 37,167, ANATEL approved tariff adjustments for fixed-switch telephone service (STFC), based on criteria established in the local and domestic long-distance concession contracts, effective June 30, 2003, except for the former Ceterp's Region which is July 3, 2003. The local basic plan had an average increase of 28.75%, including a productivity gain of 1%, while the maximum net tariffs for

Telecomunicações de São Paulo S.A. - Telesp

the long-distance services basic plan had an average increase of 24.84%, including a productivity gain of 4%, as established in the concession contract. The net charges for other STFC services and products were increased by 30.05% on average. However, due to a court injunction, tariff adjustments are temporarily limited to the Consumer Price Index (IPC). This decision is still pending appeal and final judgment, when the adjustment index to be applied will be known.

On June 25, 2002, through Notices No. 26,687 and No. 26,660, ANATEL approved tariff adjustments for fixed-switch telephone service (STFC), based on criteria established in the local and domestic long-distance concession contracts, effective July 28, 2002. The local basic plan had an average increase of 8.27%, including a productivity gain of 1%, while the maximum net tariffs for the long-distance services basic plan had an average increase of 5.02%, including a productivity gain of 4%, as established in the concession contract. The net charges for other STFC services and products were increased by 9.40% on average.

(*) Refers to credits on the acquisition of property, plant and equipment items; recovery occurs in 48 months.

Deferred income and social contribution tax credits

The Company has assets of R\$130,889, representing income and social contribution tax loss carryforwards of R\$385,264 and R\$384,144 (remaining balances from December 31, 1999), respectively. According to the tax legislation in force, tax losses can be offset against future taxable income, up to the annual limit of 30% of these future profits. Accordingly, to utilize the existing income and social contribution tax loss carryforwards, it will be necessary to generate taxable income of R\$1,284,213 and R\$1,280,480, respectively.

Telecomunicações de São Paulo S.A. - Telesp

Considering the existence of taxable income in four out of the last five fiscal years and the expected generation of taxable income discounted to present value, based on a technical feasibility study, as provided for in CVM Instruction No. 371/02, the Company estimates the realization of such deferred tax credits as of June 30, 2003, as follows:

Year	Company	Consolidated
2003(*)	351,384	359,041
2004	458,465	465,400
2005	92,971	92,971
2006	91,080	91,080
Total	993,899	1,008,491

(*) Expected to be realized from July to December 2003.

The recoverable amounts above are based on projections that are subject to future changes.

Merged tax credit

The corporate restructuring in 1999 was carried out so as to avoid that the amortization of the merged goodwill would adversely affect the Company's future results and the payment of dividends to its shareholders, and to ensure the realization of the tax credit used to increase capital.

The accounting records maintained by the Company for corporate and tax purposes include specific accounts related to merged goodwill and the related reserve, as well as the corresponding amortization, reversal of reserve and tax credit. The balances are as follows:

	Company/Consolidated	
	Jun./2003	Mar./2003
Goodwill	1,065,117	1,264,826
Reserve	(713,629)	(847,434)
Net	351,488	417,392
Goodwill amortization	(399,419)	(199,709)
Reversal of reserve	267,611	133,805
Tax credit	135,802	67,901
Effect on income	3,994	1,997

For purposes of calculation of the tax credit arising from the merger, the tax rates applied were 25% for income tax and 8% for social contribution tax, in accordance with the tax legislation in force on the merger date. Due to the change introduced by Law No. 10,637/02, effective in 2003, the social contribution tax rate is 9%.

Due to this change, as shown above, the amortization of goodwill, net of reversal of the related reserve and the corresponding tax credit, in 2003, resulted in an increase in net income and, consequently, in the calculation basis for mandatory minimum dividends.

Telecomunicações de São Paulo S.A. - Telesp

For a better presentation of the Company's financial position and results of operations in the interim statements, the net amount of R\$351,488 (R\$417,292 as of March 31, 2003) which, in essence, represents the merged tax credit, was recorded in the balance sheet as current assets (R\$263,616 as of June 30, 2003 and March 31, 2003) and noncurrent assets (R\$87,872 as of June 30, 2003 and R\$153,776 as of March 31, 2003), under the caption "Deferred and recoverable taxes". Amortization of goodwill, reversal of the reserve and the corresponding tax credit are included as operating income and expense in the statements of income.

(*) Balance as of May 31, 2003. Total unpaid capital of R\$20 refers to the other controlling shareholders. For the Company's investment purposes, total shareholders' equity includes unpaid capital.

Aliança Atlântica Holding B.V., a company headquartered in Amsterdam, Netherlands, is a joint venture formed in 1997 by Telebrás and Portugal Telecom, where each company had a 50% interest. As a result of the spin-off of Telebrás in February 1998, its interest in Aliança Atlântica was transferred to the Company. Currently, the Company has a 50% interest in Aliança Atlântica and Telefônica S.A. the other 50%. This company is proportionally consolidated by the Company.

Companhia AIX de Participações was formed in 2001 to explore, directly and indirectly, activities related to the execution, conclusion and commercial exploration of underground fiber optic cables. As of June 30, 2003, the Company holds a 32% in the capital of Companhia AIX. This investment is carried under the equity method.

The equity method pick-up for the Company is as follows:

	Jun./2003	Jun./2002
Aliança Atlântica (exchange variation)	(6,638)	15,852
Assist Telefônica	(863)	1,351
Companhia AIX de Participações	3,473	(7,852)

Total	(4,028)	9,351
-------	---------	-------

Telecomunicações de São Paulo S.A. - Telesp

As of June 30, 2001, the property accounts included amounts related to advances to Barramar S.A. for cable rights of way. In August 2001, a Private Instrument for Assignment of Credits and Other Covenants was entered into, under which credits amounting to R\$94,505 of the Company became due from Companhia AIX, payable with shares to be issued by that company. On November 20, 2001, a capital increase of R\$30,000 was authorized, of which R\$9,600 represented the Company's portion. On April 29, 2002, a new capital increase in the amount of R\$44,000 was authorized, in conformity with the Minutes of the 6th Extraordinary Shareholders' Meeting; the Company's share was R\$14,080.

As a result, a net R\$84,905 is recorded as Amounts for capitalization in noncurrent assets, increased by the Long-term Interest Rate (TJLP) disclosed by the Brazilian Central Bank (BACEN), totaling R\$101,867 as of June 30, 2003; also, an allowance for losses of R\$48,800 was recognized, leaving a net balance of R\$53,067.

22. DEFERRED CHARGES

Deferred charges as of June 30 and March 31, 2003 are comprised as follows:

	<u>Company/Consolidated</u>	
	<u>Jun./2003</u>	<u>Mar./2003</u>
Preoperating expenses	42,771	45,560
Cost	55,788	55,788
Accumulated amortization	(13,017)	(10,228)
Merged goodwill - Ceterp S.A.	77,362	85,373
Cost	187,951	187,951
Accumulated amortization	(110,589)	(102,578)
Goodwill on acquisition of IP network	68,933	70,747
Cost	72,561	72,561
Accumulated amortization	(3,628)	(1,814)
Total	189,066	201,680

Preoperating expenses refer to costs incurred during the preoperating stage for long-distance services; amortization began in May 2002, being recognized over a period of 60 months.

The goodwill paid on the acquisition of Ceterp S.A. is presented in deferred charges due to that company's subsequent merger. The period for amortization of the goodwill, based on the expectation of future profitability, is 60 months.

The goodwill on acquisition of the IP network refers to the acquisition of the assets and customer portfolio for the IP Comutado and Speedy Link services of Telefônica Empresas S.A. The portion of the acquired business which refers to the customer portfolio was treated as goodwill and recorded in deferred charges. According to the appraisal report, this goodwill, the economic basis of which is the expected future profitability, is amortizable over 120 months.

Loans and financing with Comtel are guaranteed by Telebrás and those with Mediocrédito are guaranteed by the Federal Government.

As of June 30, 2003, four of the Company's loan and financing agreements contain restrictive clauses (financial covenants), typically applied to such agreements, relating to cash generation, debt ratios and other. These restrictive clauses have been fully complied with by the Company and do not restrict its capacity to conduct its regular business.

26. RESERVE FOR CONTINGENCIES

The Company, as an entity and also as the successor to the companies merged, and its subsidiaries are involved in labor, tax and civil proceedings filed with different courts. Company management, based on the opinion of its legal counsel, has recognized reserves for those cases in which an unfavorable outcome is considered probable, as follows:

Nature	Company		Consolidated	
	Jun./2003	Mar./2003	Jun./2003	Mar./2003
Labor	142,565	126,911	142,663	126,987
Tax	309,541	272,660	309,541	272,660
Civil	55,178	51,179	55,185	51,185
Total	507,284	450,750	507,389	450,832
Current	41,034	38,902	41,040	38,908
Long term	466,250	411,848	466,349	411,924

26.1. Labor contingencies

The Company has various labor contingencies, with R\$142,565 (R\$142,663 - consolidated) reserved to cover probable losses. The amounts involved and respective degree of risk are as follows:

Risk	Amount
Telesp:	
Remote	1,246,439
Possible	70,607
Probable	142,565
Assist Telefônica:	
Remote	2,645
Possible	55
Probable	98
Total	1,462,409

- (i) These contingencies involve various actions, principally related to wage differences, wage equivalence, overtime, employment relationship of employees of an outsourced company and job hazard premium, among others.

26.2 Tax contingencies

Regarding tax issues, the following aspects should be considered:

- (ii) The possible existence of differences as regards the interpretation of the application of taxes to certain types of revenue.
- (iii) Recognition of the principal taxes, pending future approval by the tax authorities, is subject to the full extinguishment of the tax obligation after the five-year expiration period from the date of such recognition.

Telecomunicações de São Paulo S.A. - Telesp

- (iv) The lack of agreement in the interpretation of tax legislation may lead to litigation which, if concluded by the judiciary in favor of the taxpayer, may result in amounts receivable for the Company.

<u>Risk</u>	<u>Amount</u>
Telesp:	
Remote	816,076
Possible	1,524,187
Probable (*)	309,541
Assist Telefônica:	
Remote	8,789
Possible	3,615
Probable	
Total	2,662,208

- (*) The Company, in spite of the opinion of its legal counsel, elected to reserve on a conservative basis certain contingencies for which the degree of risk was considered, by the attorneys, as remote and possible. See items g), j) and m).

The Company has reserved R\$309,541 to cover probable losses. The principal legal proceedings for which the risk is considered as remote, possible or probable by Company management and its legal counsel are:

Claims by the National Social Security Agency (INSS), amounting to R\$492,190, referring to:

- a) Collection of Work Accident Insurance (SAT) and the assessment of joint liability for social security contributions allegedly not paid by contracted third parties, for which the risk is considered possible but not probable, amounting to approximately R\$336,031, not reserved by the Company.
- b) Social security contributions on the payment of compensation arising from the replacement of salary losses originating from the government's economic stabilization plans, Plano Verão and Plano Bresser, amounting to approximately R\$104,686, for which the risk is considered possible but not probable.
- c) Notification demanding social security contributions, SAT and amounts for third parties (National Institute for Agrarian Reform and Colonization (INCRA) and Brazilian Mini and Small Business Support Agency (SEBRAE)) on the payment of various salary amounts for the period from January 1999 to December 2000, amounting to approximately R\$51,473, for which the risk is considered possible but not probable.

Telecomunicações de São Paulo S.A. - Telesp

Claims by the Finance Secretary of the State of São Paulo, totaling R\$597,809, referring to:

- d) Assessments on October 31 and December 13, 2001, related to ICMS (State VAT) allegedly due on international long-distance calls amounting to approximately R\$140,570 for the period from November to December 1996 and from January 1997 to March 1998, considered as a possible, but not probable, risk, and to R\$149,650 for the period from April 1998 to December 1999, considered as a remote risk.
- e) Assessment, on February 29, 2000, demanding payment of the ICMS allegedly due on cell phone activation in the period from January 1995 to December 1997, plus fines and interest, amounting to approximately R\$238,693, considered as a remote risk, not reserved by the Company.
- f) Assessment, on July 2, 2001, demanding the difference in ICMS paid without late-payment penalty, amounting to R\$4,839, considered as a possible but not probable risk, not reserved by the Company.
- g) Judicial proceeding, referring to the anticipated benefit of VAT credits related to the acquisition of merchandise for consumption and of permanent assets, in the amount of R\$29,670, for which the risk is considered possible but not probable; however, the Company has maintained the reserve previously recognized by Ceterp.
- h) Assessment notice referring to the use of tax credits from January to April 2002, in the amount of R\$25,025, for which the risk is considered remote; no reserve was recognized.
- i) Assessment notice, referring to the use of ICMS credits related to the acquisition of materials and supplies in the amount of R\$9,362, for which the risk is considered possible but not probable; no reserve was recognized.

Litigation at the Federal and Municipal levels in the amount of R\$294,497:

- j) The Company filed an action challenging, through November 2002, the expansion of the calculation basis for taxes on revenue (COFINS) and (PIS - until November 2002) for the inclusion of financial income, securitization, and exchange variation, instead of only on operating revenues. Although there is a preliminary injunction suspending the change in the calculation basis, the Company considers this issue as a probable loss and has recognized a reserve in the amount of R\$190,557, in case the initial judicial interpretation does not prevail.
- k) FINSOCIAL, now COFINS, was a tax on gross operating revenues, originally established at a rate of 0.5% and gradually and subsequently raised to 2.0%. Such rate increases were judicially challenged with success by several companies, as they led to the creation of taxable credits, caused by higher payments, which were offset by CTBC (company merged into the Company in November 1999) against

Telecomunicações de São Paulo S.A. - Telesp

current payments of related taxes, the COFINS. Claiming that those offsets made by CTBC were improper, the Federal Government made an assessment in the amount of R\$19,778, which was considered as a possible, but not probable, loss, not reserved by the Company.

- l) Litigation contesting the incidence of taxation for corporate income tax, social contribution tax, PASEP and COFINS on telecommunication services of Ceterp, merged in November 2000, based on paragraph 3 of article 155 of the Federal Constitution, according to which, with the exception of VAT and taxes on exports and imports, no other taxation applies to services. The Company considers this case as a probable loss, and has reserved the amount of R\$68,314.
- m) Lawsuit filed to obtain a court decision declaring the nonexistence of a legal tax relationship between Telesp and the Federal Government, the defendant, that would require the Company to pay the Economic Domain Intervention Contribution Tax (CIDE) on remittances to be made based on contracts with foreign residents, since the unconstitutionality of the referred tax is clear. The lawsuit also requests approval to offset, against other taxes payable, the amount of R\$2,190, monetarily restated, related to the CIDE payment made in March 2002. The Company made an escrow deposit of R\$2,178 related to the remittance made on October 18, 2002. Although the risk of loss is considered as remote, the Company recognized a reserve for the unpaid amounts, in the amount of R\$6,965.
- n) In addition to the aforementioned contingencies, the Company has, at the municipal level, reserves related to the real estate tax (IPTU) in the amount of R\$562.
- o) The City of São Paulo assessed the Company, alleging differences in the payment of the municipal tax on services (ISS), by the imputation of fines of 20% not paid by the Company, in the amount of R\$8,311. The Company did not reserve for this contingency, since the lawyers responsible for this case believe that the risk is possible but not probable.

26.3 Civil contingencies

<u>Risk</u>	<u>Amount</u>
Telesp:	
Remote	394,401
Possible	782,552
Probable	55,178
Assist:	
Remote	1,459
Possible	35
Probable	7
Total	1,233,632

Telecomunicações de São Paulo S.A. - Telesp

The Company is involved in public class action lawsuits related to the Community Telephony Plan (PCT), claiming the possible right for indemnity for purchasers of the expansion plans who did not receive shares for their financial investment, in the municipalities of Santo André, Diadema, São Caetano do Sul, São Bernardo do Campo, Ribeirão Pires and Mauá, involving a total amount of approximately R\$525,343.

These contingencies were considered as a possible, but not probable, risk by Company management and its legal counsel. No amount has been attributed to the possible risk in the table above, because for these public civil class actions, in the event of loss, there is no way to estimate the loss for the Company; also, an amount equivalent to the amount of the litigation cannot be considered. In this situation, there are also possessory actions and court injunctions, actions ordinarily made against administrative or judicial actions without an intrinsic amount, but that can have favorable or unfavorable effects that would unlikely be calculated or specified. Also in this situation, there are demands in which the Company is the plaintiff.

30. SHAREHOLDERS EQUITY

Capital

Capital as of June 30 and March 31, 2003 is R\$5,978,074. Subscribed and paid-up capital is represented by shares without par value, distributed as follows:

Outstanding shares:	
Common shares	165,320,206,602
Preferred shares	328,272,072,739
Total outstanding shares	493,592,279,341
Treasury shares:	
Common shares	721,629,917
Preferred shares	81,817,382
Total treasury shares	803,447,299
Total shares:	
Common shares	166,041,836,519
Preferred shares	328,353,890,121
Total	494,395,726,640
Book value per thousand shares outstanding - R\$	28.44

Preferred shares are nonvoting but have priority in the redemption of capital and to dividends 10% higher than those attributable to common shareholders, as prescribed by Law No. 6,404/76, amended by Law No. 10,303/01.

Telecomunicações de São Paulo S.A. - Telesp

31. POST-RETIREMENT BENEFIT PLANS

Telesp, together with other companies of the former Telebrás System, sponsors private pension benefit plans and health care plans for retirees, managed by Fundação Sistel de Seguridade Social (Sistel). Until December 1999, all sponsors of the plans managed by Sistel were unified as to all plans then existent. On December 28, 1999, the sponsors of the plans managed by Sistel negotiated the conditions for the creation of plans separated by sponsor (PBS Telesp Plan) and the continuation of participation in the unified plans only for participants who were already retired on January 31, 2000 (PBS-A), resulting in a proposal for restructuring the statutes and regulations of Sistel, which was approved by the Supplementary Pension Plan Secretariat on January 13, 2000.

Due to the end of unification in December 1999, Telesp individually sponsors a defined retirement benefit plan (PBS Telesp Plan) which covers approximately 1% of the Company's employees. In addition to the supplemental pension benefit, health care (PAMA) is provided to retired employees and their dependents, at shared costs.

Contributions for the PBS Telesp Plan are determined based on actuarial valuations prepared by independent actuaries, in accordance with the rules in force in Brazil. The method used to determine costing is the capitalization method and the contribution by the sponsoring entity is 41.4% of payroll of employees covered by the plan, of which 39.9% is allocated to costing of the PBS Telesp Plan and 1.5% to costing of the PAMA Plan.

For the other 99% of Telesp's employees, there is an individual defined contribution plan - Visão Telesp Benefit Plan, established by Sistel in August 2000, to which 86% of the employees have adhered. The Visão Telesp Plan is supported by contributions made by the participants (employees) and by the sponsor which are credited to participants' individual accounts. Telesp is responsible for the costs of all administrative expenses and plan maintenance, including participant's death and disability risks. The employees participating in the defined benefit plan (PBS Telesp Plan) were granted the option of migrating to the Visão Telesp Plan. The new Plan was also offered to the other employees who did not participate in the PBS Telesp Plan, as well as to new hires. The Company's contributions to the Visão Telesp Plan are equal to those of the employees, varying from 2% to 9% of salary, based on the percentage chosen by the participant.

Additionally, the Company supplements the retirement benefits of certain employees of the former CTB - Companhia Telefônica Brasileira.

In the first half of 2003, the Company made contributions to the PBS Telesp Plan in the amount of R\$117 (R\$122 in the same period of 2002) and to the Visão Telesp Plan in the amount of R\$10,138 (R\$9,890 in the same period of 2002).

Assist individually sponsors a defined contribution plan similar to that of Telesp, the Visão Assist Benefit Plan, which covers about 21% of its employees. Assist's contributions to that plan for the period totaled R\$40 (R\$15 in 2002).

Telecomunicações de São Paulo S.A. - Telesp

As of December 31, 2001, the Company recognized in income the effect of actuarial liabilities in accordance with CVM Resolution No. 371 of December 13, 2000. For the actuarial valuation of the plans, the projected unit credit method was adopted, with the plan asset positions as of November 30, 2002. For multi-sponsored plans (PAMA and PBS-A), plan asset apportionment was based on the Company's actuarial liabilities in relation to the plan's total actuarial liabilities.

Based on actuarial reports, the Company increased the liability by R\$7,964, equivalent to 6/12 of the total estimated plan expenses for 2003.

The accrual for the plans as of June 30 and March 31, 2003 is as follows:

Plan	Jun./2003	Mar./2003
PBS/Visão Telesp/CTB	52,446	50,626
PAMA (i)	100,603	98,441
Total Company (note 29)	153,049	149,067
Visão Assist (ii)	(13)	(13)
Total consolidated	153,036	149,054

(i) Based on the opinion of legal counsel and its actuaries, the Company, on a conservative basis, elected to recognize this potential liability in other long-term liabilities.

(ii) Actuarial asset.

Expenses estimated for 2003, based on actuarial reports, are as follows:

Plan	Amounts
PBS/Visão Telesp/CTB:	
Cost of current service	2,679
Cost of interest	11,505
Expected return on plan assets	(6,632)
Employee contributions	(272)
Total PBS/Visão Telesp/CTB	7,280
PAMA:	
Cost of current service	99
Interest on actuarial liabilities	19,220
Expected return on plan assets	(10,671)

Total PAMA	8,648
Total plans	15,928

32. TRANSACTIONS AND BALANCES WITH RELATED COMPANIES

The principal balances of assets and liabilities with related parties originate from transactions within the controlling group, made under usual market conditions for this type of operation:

Telecomunicações de São Paulo S.A. - Telesp

Accounts receivable refer to receivables for telecommunications services, principally from Telefônica Empresas S.A. and Telesp Celular S.A., and to receivables for international long-distance services, principally from Telefónica de Argentina S.A. and Telefónica de España S.A.

Other recoverable amounts in current assets refer to advances to Telefônica Gestão de Serviços Compartilhados do Brasil Ltda.

Other current and noncurrent assets are composed of receivables from Telefônica Empresas S.A., Telefónica Internacional S.A., Tele Sudeste Celular Participações S.A., Telefônica Publicidade e Informação Ltda., Telefônica Gestão de Serviços Compartilhados do Brasil Ltda., Atento Brasil S.A., Telefónica Data do Brasil Ltda., Terra Networks Brasil S.A. and other companies of the Group, for services rendered, consulting fees, salaries, travel and other expenses paid by the Company, to be reimbursed by the respective companies.

Amounts for capitalization comprise an advance for a future capital increase in Companhia AIX de Participações, net of an allowance for losses.

Accounts payable comprise services rendered principally by Atento Brasil S.A., Telesp Celular S.A. and Telefônica Factoring do Brasil Ltda., and for international long-distance services, principally by Compañía de Telecomunicaciones de Chile Transmisiones Regionales S.A., Telefónica de Argentina S.A. and Telefónica de España S.A.

Payables to related parties in current and long-term liabilities are composed principally of consulting fees and agency commissions payable to Telefónica Internacional S.A., management services related to the accounting, financial, human resources, asset protection, logistics and IT areas payable to Telefônica Gestão de Serviços Compartilhados do Brasil Ltda., voice and data communication services payable to Telefônica Empresas S.A., and amounts payable to Atento Brasil S.A. for customer services, and to Terra Networks Brasil S.A. for the purchase of software related to the providing of internet access services in the State of São Paulo, called itelefonica.com.br.

Telecommunication services income comprises billings, principally to Telefônica Empresas S.A., Atento Brasil S.A. and Terra Networks Brasil S.A.

Financial income is represented principally by the TJLP applied to amounts for capitalization with Companhia AIX de Participações.

In other operating income, the principal amount refers to income from Switched IP Network and Speedy Link equipment leased to Telefônica Empresas S.A.

The cost of services provided and selling expenses refer to customer service provided by Atento Brasil S.A., and administrative services rendered by Telefônica Gestão de Serviços Compartilhados do Brasil Ltda. Cost of services provided also comprises network interconnection, provided by Compañía de Telecomunicaciones de Chile Transmisiones Regionales S.A., Telefónica de Argentina S.A., Telefónica del Peru and Telefónica de España S.A.

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

General and administrative expenses refer principally to administrative services rendered by Telefônica Gestão de Serviços Compartilhados do Brasil Ltda. and to management fees to Telefónica Internacional S.A.

Telecomunicações de São Paulo S.A. - Telesp

Other operating expenses refers to commissions on voice product and data communication services provided by Telefônica Empresas S.A.

33. COMMITMENTS

a) Capital expenditures

The Company submitted the capital expenditure budget for 2003 to the Board of Directors, in the amount of R\$1,445,000, which was approved at the Annual Shareholders Meeting on March 27, 2003.

Through June 30, 2003, the Company had invested the consolidated amount of R\$597,799, and in the first half of 2003, new commitments for consolidated capital expenditures are as follows:

<u>Year of disbursement</u>	<u>Total contracted</u>	<u>Total budgeted</u>
2003	438,965	500,487

b) ANATEL commitments

Quality and universalization targets for fixed-switch telephone service are available to monitor the Company's performance at ANATEL's website: www.anatel.gov.br.

34. INSURANCE

TGP Brasil Corretora de Seguros e Resseguros Ltda., the Group's in-house broker in Brazil, and a branch of Pleyade Peninsular Correduria de Seguros Y Reaseguros del Grupo Telefónica S.A., both directly responsible to Subdirección General de Riesgos y Seguros Corporativos, presently analyzes insurance coverage needs, performs research, contracts and manages all the insurance coverage for the Company, also performing risk and loss management.

The principal coverages are:

Operating risks, covering physical damages and business interruption for the entire plant.

General civil liability (RCG).

Car fleet liability (RCF-V).

ANATEL guarantee insurance.

Other risks.

Domestic and international freight.

Group life insurance.

Health insurance.

Telecomunicações de São Paulo S.A. - Telesp

The policy of the Company and its subsidiaries, as well as that of the Telefónica Group, includes the maintenance of insurance coverage for all assets and liabilities involving significant amounts and high risks based on management's judgment, following Telefónica S.A.'s corporate program guidelines.

35. FINANCIAL INSTRUMENTS

In compliance with the terms of CVM Instruction No. 235/95, the Company and its wholly-owned subsidiary made an evaluation of the book values of their assets and liabilities in relation to market values, based on available information and appropriate valuation methodologies. However, the interpretation of market information, as well as the selection of methodologies, requires considerable judgment and reasonable estimates in order to produce adequate realization values. As a result, the estimates presented do not necessarily indicate the amounts which might be realized in the current market. The use of different market approaches and/or methodologies for the estimates may have a significant effect on the estimated realizable values.

The Company has investments carried under both the cost and equity methods. The net assets of the subsidiary, Aliança Atlântica, are represented principally by an equity interest of 0.42% in Portugal Telecom.

The Company has a direct interest of 0.64% and an indirect interest of 0.21% in Portugal Telecom, carried at cost. The investment, at market value, is based on the last quotation of June 2003 on the Lisbon Stock Exchange for Portugal Telecom, equivalent to 6.24 euros (6.35 euros as of March 31, 2003):

	Consolidated			
	Jun./2003		Mar./2003	
	Book value	Market value	Book value	Market value
Portugal Telecom - direct interest	75,362	165,170	75,362	186,122
Portugal Telecom - indirect interest through Aliança Atlântica	64,920	55,057	71,888	62,041
Total	140,282	220,227	147,250	248,163

The principal market risk factors that affect the Company's business are detailed below:

a) Exchange rate risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the balances of loans and financing denominated in foreign currency and the related financial expenses. To reduce this risk, the Company enters into hedge

contracts (swaps) with financial institutions.

The Company's indebtedness and the results of operations are significantly affected by the foreign exchange rate risk. On June 30, 2003, 100% of the debt was denominated in foreign currency (U.S. dollar, Canadian dollar and yen); 100% of this debt was covered by asset positions on currency hedge transactions (swap for CDI). Swap operations were

Telecomunicações de São Paulo S.A. - Telesp

made to cover the future maturities of the debt in foreign currency, subject to Libor, at fixed or variable interest. Gains or losses on these operations are recorded in income. Through June 2003, these transactions generated a net loss of R\$1,118,747 (consolidated). The Company has recorded a liability of R\$414,593 as of June 30, 2003 (asset of R\$356,164 as of March 31, 2003) to reflect the unrealized temporary loss.

The book value and market value of the Company's net excess/(exposure) (a) to the exchange rate risk as of June 30 and March 31, 2003 are as follows:

	Consolidated			
	Jun./2003		Mar./2003	
	Book value	Market value	Book value	Market value
Liabilities:				
Loans and financing	3,095,399	3,071,569	4,397,356	4,222,111
Suppliers	15,629	15,629	63,745	63,745
Asset position on swaps	3,121,290	3,106,643	4,416,974	4,242,118
Net excess (exposure) (a)	10,262	19,445	(44,127)	(43,738)

The valuation method used to calculate the market value of loans, financing and hedge instruments (foreign exchange swaps) was the discounted cash flow method, considering settlement or realization expectations of liabilities and assets, at market rates prevailing on the balance sheet date.

b) Interest rate risk

This risk arises from the possibility that the Company may incur losses due to internal and external interest rate fluctuations affecting the Company's results. As of June 30, 2003, the Company did not have swap transactions to hedge against local interest rate fluctuations. In relation to variable external rates, these transactions were only made to hedge the financing from JBIC - Japan Bank for International Cooperation. The Company continues monitoring market interest rates in order to evaluate the need of contracting other derivatives to hedge against interest rate fluctuation.

On June 30, 2003, the Company had R\$3,095,399 (R\$4,397,356 as of March 31, 2003) in foreign currency loans and financing, of which R\$2,190,310 (R\$3,306,450 as of March 31, 2003) bore interest at fixed rates and R\$905,089 (R\$1,090,906 as of March 31, 2003) bore interest at floating rates (Libor). Although part of the debt was contracted at fixed rates, the entire debt was effectively converted to floating rates, as a result of swap contracts based on the CDI. Accordingly, the Company's financial results are affected by CDI fluctuations. On the other hand, the Company invests its excess cash as temporary cash investments of R\$356,734 (R\$1,904,459 as of March 31, 2003), mainly in short-term instruments, based on the CDI. The book value of these instruments approximates market value, due to their short-term maturity.

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

Another risk to which the Company is exposed is the nonmatching of the monetary restatement indices for its debt and for accounts receivable. Telephone tariff adjustments do not necessarily follow increases in local interest rates which affect the Company's debt.

Telecomunicações de São Paulo S.A. - Telesp

c) Debt acceleration risk

As of June 30, 2003, most of the Company's loan and financing agreements contain restrictive clauses (covenants), typically applied to such agreements, relating to cash generation, debt ratios and other. These restrictive clauses have been complied with by the Company in full and do not restrict its capacity to conduct its regular business.

d) Credit risk

This risk arises from the possibility that the Company may incur losses due to the difficulty of receiving amounts billed to its customers. The credit risk on accounts receivable is dispersed. The Company constantly monitors the level of accounts receivable and limits the risk of past-due accounts, interrupting access to telephone lines in case the customer does not pay the related bills in 30 days. Exceptions are made for telecommunications services that must be maintained for security or national defense reasons.

As of June 30, 2003, the Company's customer portfolio had no subscribers whose receivables were individually higher than 1% of the total accounts receivable from services.

The Company is also subject to credit risk related to temporary cash investments and receivables from swap transactions. The Company reduces this exposure by dispersing it among first line financial institutions.

(Convenience Translation into English from the Original Previously Issued in Portuguese)

TELECOMUNICAÇÕES DE SÃO PAULO S.A. - TELESP

MANAGEMENT COMMENTS ON CONSOLIDATED PERFORMANCE

FOR THE SIX MONTHS ENDED JUNE 30, 2003

(All amounts in millions of Brazilian reais)

	Jun./2003	Jun./2002	Change	
			R\$	%
Gross operating revenue	7,472.4	6,418.8	1,053.6	16.4
Net operating revenue	5,455.5	4,750.6	704.9	14.8
Cost of services provided	(3,199.5)	(2,753.8)	(445.7)	16.2
Financial expense, net	(344.6)	(403.4)	58.8	(14.6)
Operating expenses, net	(1,213.4)	(992.9)	(220.5)	22.2
Income from operations	698.0	600.5	97.5	16.2
Net income	479.9	395.3	84.6	21.4

1. Net operating revenue was R\$5,455.5 for the first half of 2003, compared to R\$4,750.6 for the same period in 2002, an increase of R\$704.9 or 14.8%. In spite of the 1.1% reduction in the average plant in service, an increase in net operating revenue occurred due to the effect of the tariff adjustments in June 2002.
2. Cost of services provided increased 16.2% due to the increase in network expense (fixed/cellular traffic) of 35% and in maintenance costs on equipment on loan to third parties (45.1%).
3. Financial expense, net, in the amount of R\$344.6 for the period, decreased by R\$58.8 compared to the same period in 2002, mainly due to the decrease in the Company's net indebtedness related to interest and losses on derivative transactions, net of exchange variation effects generated by the dollar decrease against the real.
4. Income from operations increased 16.2%, compared to the same period last year, due to the increase in gross operating revenue and, consequently, the cost increases, as previously mentioned.
5. Operating data (*)

Principal operating data:

Unit	Jun./2003	Jun./2002	Change - %
------	-----------	-----------	------------

Income tax	178.6	7.3	154.3	7.7
Social contribution tax	60.9	2.5	55.6	2.8
Other taxes and contributions	161.0	6.6	82.8	4.1
Total	2,431.1	100.0	2,007.0	100.0

7. Expansion plan and investments

Through June 30, 2003, the Company and its subsidiary have entered into agreements related to expansion and investment projects in the amount of R\$439.0 (R\$284.4 in the second quarter of 2003), of a total budget of R\$500.5 for the period (R\$315.2 in the second quarter of 2003).

7.1. Sales of telephone lines (*)

At the end of the first half of 2003, the Company had a total of 12,402,359 lines in service, of which 74% were residential, 12% non-residential and 11% business, with the remainder representing public telephones.

7.2. Public telephones (*)

The Company maintains a public telephone system of 331,044 units to meet the needs of the population of the State of São Paulo, and to meet the requirements established by the regulatory agency.

(*) Not reviewed by independent accountants.

8. ANATEL

8.1. Goals

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

The quality and universalization goals for fixed-line service (STFC) are available at ANATEL's website: www.anatel.gov.br.

8.2. Domestic and international long-distance operating authority

ANATEL, on March 1, 2002, recognized that the Company had met the universalization goals by more than two years in advance, which permitted the Company to receive the licenses to explore STFC on a local, nationwide and international long-distance basis throughout Brazil.

Telecomunicações de São Paulo S.A. - Telesp

On April 25, 2002, ANATEL announced the authorization mentioned above for the Company, which became the first fixed line telecommunications services operator permitted to provide STFC throughout Brazil.

On April 29, 2002, the authorization was suspended through a preliminary injunction against ANATEL, obtained by Empresa Brasileira de Telecomunicações S.A. - Embratel. As a result, the Company could not begin the commercial operation of national long-distance calls originating in its concession area to regions I (Telemar) and II (Brasil Telecom). However, local and domestic long-distance authorizations for regions I and II and Sector 33 of region III and international long-distance authorizations in all three regions were not subject to this lawsuit.

On June 28, 2002, ANATEL was able to reverse this preliminary injunction, permitting the Company to begin offering interregional national long-distance calls originating from its concession area.

In May 2003, the Company began offering local-call services in an additional six states, in addition to São Paulo, its original concession area.

The expansion of the Company's operations covers the cities of Duque de Caxias, Nova Iguaçu and São Gonçalo (in the State of Rio de Janeiro), Aracajú (Sergipe), Vitória (Espírito Santo), Porto Alegre (Rio Grande do Sul), Curitiba (Paraná) and Florianópolis (Santa Catarina).

Operations in these cities mark the start of the progressive achievement of the targets established by ANATEL at the time the concession was granted for providing local services in regions outside the State of São Paulo, representing an advance in the accomplishment of universalization targets, based on which the Company has become the first concessionaire to offer local telephony services outside its original area of operation.

9. iTelefônica

The Company, through its subsidiary Assist Telefônica S.A., started to provide internet access services in the State of São Paulo (the list with the cities is available on the web site itelefonica.com.br).

After several tests conducted in cities in the State of São Paulo since September 29, 2002, on July 13, 2003, Telefônica will officially launch the provider iTelefonica in the entire State.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
