RENTRAK REPORTS FISCAL 2016 SECOND QUARTER FINANCIAL RESULTS

Significant Operating Leverage Drives Improved Profitability

PORTLAND, OR (November 4, 2015) - Rentrak Corporation (Nasdaq: RENT), the leader in precisely measuring movies and TV everywhere, today announced financial results for its second fiscal quarter ended September 30, 2015.

Revenue for Rentrak's TV Everywhere product line increased 53 percent for the second quarter of fiscal 2016 to \$20.4 million, up from \$13.3 million for the same period last year. Total company revenue increased 30 percent to \$32.8 million for the fiscal 2016 second quarter, up from \$25.2 million for the same period last year.

(revenue in millions)	2Q FY16	2Q FY15	As Reported	Percent Change Constant Currency*
TV Everywhere	\$ 20.4	\$ 13.3	53%	53%
Movies Everywhere	\$ 7.7	\$ 7.4	5%	9%
OnDemand Everywhere®	\$ 3.9	\$ 3.3	15%	15%
Other Services**	\$ 0.8	\$ 1.2	(32)%	(32)%
Total Revenue	\$ 32.8	\$ 25.2	30%	31%

Numbers may not sum due to rounding.

- * Constant currency growth assumes foreign exchange rates were held constant with exchange rates for fiscal 2015.
- ** Other Services includes the company's Studio Revenue Share Essentials and Home Entertainment Essentials information product lines.

We had a great quarter, generating 30 percent total company revenue growth and 53 percent growth in our TV product line, while driving considerable profitability. We remain on target to achieve our full year guidance as Rentrak continues to demonstrate its value throughout the media ecosystem, said Bill Livek, Rentrak's Vice Chairman and Chief Executive Officer. Our proposed merger with comScore adds even more excitement as we will work together to accelerate the pace of innovation, and offer new and improved solutions for cross-platform TV measurement, not available anywhere else.

Gross margin was 69 percent of revenue for the second quarter of fiscal 2016, compared with 68 percent for the second quarter of fiscal 2015. The increase related to the relatively fixed cost nature of the company's product lines and revenue growth that outpaced growth in data costs.

Operating expenses for the second quarter of fiscal 2016 totaled \$21.1 million, versus \$17.6 million for the second quarter of fiscal 2015.

Operating income for the second quarter of fiscal 2016 was \$1.7 million, which included \$2.1 million in stock-based compensation costs, \$1.3 million in acquisition and reorganization costs, and \$46,000 related to the settlement of the earn-out associated with the company's acquisition of iTVX in August 2013. Operating loss for the second quarter of fiscal 2015 was \$416,000, which included \$2.1 million in stock-based compensation costs, \$600,000 related to the iTVX earn-out, and \$270,000 in acquisition costs. Excluding these amounts for both periods, operating income would have more than doubled to \$5.1 million for the second quarter of fiscal 2016, from \$2.5 million for last year's fiscal second quarter.

Income from continuing operations, net of income taxes, totaled \$1.2 million, or \$0.08 per diluted share, for the second quarter of fiscal 2016, versus a loss of \$733,000, or \$0.06 per share, for the same period last year. Excluding the costs mentioned above for both periods, as well as the net loss attributable to noncontrolling interest, income from continuing operations, net of income taxes, for the second quarter of fiscal 2016 would have been \$4.7 million, or \$0.29 per diluted share, compared with \$2.2 million, or \$0.17 per diluted share, for the same period last year.

Net income was \$1.3 million, or \$0.08 per diluted share, for the second quarter of fiscal 2016, compared with a net loss, including discontinued operations, of \$374,000, or \$0.03 per share, for the second quarter of fiscal 2015. Excluding the costs mentioned above for both periods, the company's net income would have been \$4.7 million, or \$0.29 per share, for the second quarter of fiscal 2016, compared with \$2.6 million, or \$0.19 per diluted share, for the same period last year.

Adjusted EBITDA (a non-GAAP measure) grew substantially to \$7.6 million for the second quarter of fiscal 2016, up from \$4.3 million for the same period last year. A reconciliation of adjusted EBITDA to net income, the most comparable financial measure based upon GAAP, as well as a further explanation of adjusted EBITDA, is included in the financial tables at the end of this press release.

Rentrak generated \$5.8 million in cash from operating activities for the second quarter of fiscal 2016, compared with \$6.7 million, including discontinued operations, for the second quarter of fiscal 2015.

Rentrak's cash, cash equivalents and marketable securities balance was \$77.9 million at September 30, 2015, compared with \$84.0 million at March 31, 2015.

Rentrak's recent milestones include:

Agreeing to merge with comScore to build state-of-the-art cross-platform measurement services of the future.

Adding 15 CBS-owned television stations as subscribers. Rentrak now provides all 27 CBS-owned stations with access to its ratings services and full suite of Advanced Demographics for automotive purchase behaviors and political behavioral segments.

Expanding its relationship with Turner, which is now making guarantees with Rentrak on its Audience Now and Targeting Now products for major advertisers.

Acquiring SponsorHub to add social media measurement to Rentrak's TV Everywhere products, providing additional transparency and purchasing flexibility for brands.

Partnering with Gower Street Analytics to build new analytics products for the global movie market to improve the movie industry's efficiency and profitability.

About Adjusted EBITDA and Non-GAAP Diluted EPS

From time to time, Rentrak may refer to Adjusted EBITDA (Earnings Before Interest, Taxes, Depreciation, Amortization and Stock-based Compensation) and non-GAAP diluted EPS in its conference calls and discussions with investors and analysts in connection with the company's reported historical financial results. Adjusted EBITDA does not represent cash flows from operations as defined by generally accepted accounting principles (GAAP), is not derived in accordance with GAAP and should not be considered by the reader as an alternative to net income (the most comparable GAAP financial measure to Adjusted EBITDA). Non-GAAP diluted EPS does not measure diluted EPS as defined by GAAP, is not derived in accordance with GAAP and should not be considered by the reader as an alternative to reported diluted EPS. The reconciliation of GAAP and non-GAAP financial measures for the three and six month periods ended September 30, 2015 and 2014 are included in the above table. Rentrak's management believes that Adjusted EBITDA is helpful as an indicator of the current financial performance of the company and its capacity to operationally fund capital expenditures and working capital requirements. Due to the nature of the company's internally-developed software policies and its use of stock-based compensation, Rentrak incurs significant non-cash charges for depreciation, amortization and stock-based compensation expense that may not be indicative of its operating performance from a cash perspective. Rentrak also adjusts for non-cash items, such as stock-based compensation, as well as cash-settled items, such as acquisition and non-recurring costs, as we believe these are not representative of our ongoing operating performance and we believe excluding these costs provide a useful metric by which to compare performance from period to period. In addition, Rentrak's management believes that these costs as well as stock-based compensation should be factored out of reported EPS in order to provide a more useful indicator of the current financial performance of the company. No tax rate was applied to these adjustments because the company has established a valuation reserve against its deferred tax assets. Due to the nature of the company's equity and stock-based compensation plans and arrangements, costs associated with acquisitions and items which are considered nonrecurring in nature, the company's diluted EPS, which includes these items, may not be indicative of its on-going operating performance.
