ALTERA CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 — Organization and Basis of Presentation

The accompanying unaudited consolidated financial statements of Altera Corporation and its subsidiaries, collectively referred to herein as “Altera”, “we”, “us”, or “our”, have been prepared by us in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information. This financial information reflects all adjustments which are, in the opinion of our management, of a normal recurring nature and necessary for a fair statement of the results for the periods presented. The December 31, 2011 consolidated balance sheet data was derived from our audited consolidated financial statements included in our 2011 Annual Report on Form 10-K, as filed with the Securities and Exchange Commission (“SEC”), but does not include all disclosures required by U.S. GAAP. The consolidated financial statements include our accounts as well as those of our wholly-owned subsidiaries after elimination of all significant inter-company balances and transactions.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in our consolidated financial statements and accompanying notes. Actual results could differ materially from those estimates.

These consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2011 included in our Annual Report on Form 10-K. The consolidated operating results for the three months ended March 30, 2012 are not necessarily indicative of the results to be expected for any future period.

Note 2 — Recent Accounting Pronouncements

Accounting Standards Adopted

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820), Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. Many of the amendments in this update change the wording used in the existing guidance to better align U.S. generally accepted accounting principles with International Financial Reporting Standards and to clarify the FASB's intent on various aspects of the fair value guidance. This update also requires increased disclosure of quantitative information about unobservable inputs used in a fair value measurement that is categorized within Level 3 of the fair value hierarchy. We adopted the guidance in our first quarter of 2012 and there was no material impact on our consolidated financial statements or related footnotes.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220), Presentation of Comprehensive Income, which requires companies to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This update eliminates the option to present the components of other comprehensive income as part of the statement of equity. In December 2011, the FASB issued ASU 2011-12, Comprehensive Income (Topic 220), Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05, to defer the effective date of the specific requirement to present items that are reclassified out of accumulated other comprehensive income to net income alongside their respective components of net income and other comprehensive income. We adopted the guidance in our first quarter of 2012 with no significant impact on our consolidated financial statements or related footnotes.

(1) Included in Deferred compensation plan - marketable securities and Deferred compensation plan - restricted cash equivalents in the accompanying consolidated balance sheets as of March 30, 2012 and December 31, 2011.

Table of Contents

The adjusted cost and estimated fair value of marketable debt securities (corporate bonds, municipal bonds, U.S. and foreign government securities, and U.S. treasury securities) as of March 30, 2012, by contractual maturity, are shown below. Actual maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations without call or prepayment penalties.

(In thousands)	March 30, 2012	
	Adjusted Cost	Estimated Fair Value
Due in one year or less	\$ 112,104	\$ 112,104
Due after one year through five years	79,135	79,321
	\$ 191,239	\$ 191,425

Derivative Financial Instruments

We use derivative financial instruments primarily to manage foreign currency exchange rate risk. Substantially all of our operational expenditures are transacted in U.S. dollars. However, operating expenditures of our subsidiaries are incurred in or exposed to other currencies, primarily the Malaysian Ringgit. We hedge portions of the forecasted foreign currency exposure associated with operational expenditures in Malaysia generally up to three months in advance. We record all derivatives at fair value. These forward foreign currency exchange contracts were designated and qualified as cash flow hedges and the effective portion of the gain or loss on the forward contracts was reported as a component of other comprehensive income and reclassified into net income in the same period during which the hedged transaction affects earnings.

The notional amount of our outstanding foreign exchange contracts was \$8.5 million as of March 30, 2012. The outstanding forward currency exchange contracts expire at various dates between April 2012 and June 2012. We did not have any hedging activities as of December 31, 2011.

Note 4 — Accounts Receivable, Net and Significant Customers

Accounts receivable, net was comprised of the following:

(In thousands)	March 30, 2012	December 31, 2011
Gross accounts receivable	\$271,993	\$232,838
Allowance for doubtful accounts	(500)	(500)
Allowance for sales returns	(101)	(65)
Accounts receivable, net	\$271,392	\$232,273

Table of Contents

We sell our products to original equipment manufacturers, or OEMs, and to electronic components distributors who resell these products to OEMs, or their subcontract manufacturers. Net sales by customer type and net sales to significant customers were as follows:

(Percentage of Net Sales)	Three Months Ended			
	March 30, 2012		April 1, 2011	
Sales to distributors	73	%	77	%
Sales to OEMs	27	%	23	%
	100	%	100	%
Significant Distributors ⁽¹⁾ :				
Arrow Electronics, Inc. (“Arrow”)	39	%	41	%
Macnica, Inc. (“Macnica”)	22	%	20	%

(1) Except as presented above, no other distributor accounted for greater than 10% of our net sales for the three months ended March 30, 2012 or April 1, 2011.

For the quarterly periods ended March 30, 2012 and April 1, 2011, one OEM accounted for 18% and 13%, respectively of our net sales.

As of March 30, 2012, accounts receivable from Arrow and Macnica individually accounted for approximately 32% and 50%, respectively, of our gross accounts receivable. As of December 31, 2011, accounts receivable from Arrow, Macnica and Avnet, Inc. including its affiliates, individually accounted for approximately 30%, 43% and 11%, respectively, of our gross accounts receivable. No other distributor or OEM accounted for more than 10% of our accounts receivable as of March 30, 2012 or December 31, 2011. Accounts receivable from distributors may not be proportionate to net sales and may fluctuate on a quarterly basis due to varying factors, including inventory levels held by distributors and timing of price concessions and payments.

Note 5 — Inventories

Inventories were comprised of the following:

(In thousands)	March 30, 2012	December 31, 2011
Raw materials	\$8,400	\$9,293
Work in process	65,528	71,696
Finished goods	35,523	41,290
Total inventories	\$109,451	\$122,279

Table of Contents

Note 6 — Property and Equipment

Property and equipment, net was comprised of the following:

(In thousands)	March 30, 2012	December 31, 2011
Land and land rights	\$23,157	\$23,157
Buildings	148,892	148,323
Equipment and software	221,525	232,793
Office furniture and fixtures	23,373	23,440
Leasehold improvements	8,591	7,652
Construction in progress	8,269	5,836
Property and equipment, at cost	433,807	441,201
Accumulated depreciation and amortization	(247,269)	(269,480)
Property and equipment, net	\$186,538	\$171,721

Depreciation expense was \$7.4 million and \$6.8 million for the three months ended March 30, 2012 and April 1, 2011 respectively. Depreciation and amortization expense as presented in our consolidated statements of cash flows includes the above amounts, together with amortization expense on our intangible assets. Intangible asset amortization expense was not significant for any period presented in our consolidated statements of comprehensive income.

Note 7 — Deferred Income and Allowances on Sales to Distributors

Deferred income and allowances on sales to distributors was comprised of the following:

(In thousands)	March 30, 2012	December 31, 2011
Deferred revenue on shipment to distributors	\$301,062	\$302,815
Deferred cost of sales on shipment to distributors	(28,890)	(30,536)
Deferred income on shipment to distributors	272,172	272,279
Advances to distributors	—	(648)
Other deferred revenue ⁽¹⁾	7,834	8,245
Total	\$280,006	\$279,876

(1) Principally represents revenue deferred on our software and intellectual property licenses.

Table of Contents

The Deferred income and allowances on sales to distributors activity for the three months ended March 30, 2012 and April 1, 2011 was as follows:

(In thousands)	Three Months Ended	
	March 30, 2012	April 1, 2011
Balance at beginning of period	\$279,876	\$428,711
Deferred revenue recognized upon shipment to distributors	1,107,685	1,363,295
Deferred costs of sales recognized upon shipment to distributors	(53,238) (88,717
Decrease in advances to distributors	648	48,811
Revenue recognized upon sell-through to end customers	(231,645) (340,538
Costs of sales recognized upon sell-through to end customers	53,887	86,058
Earned distributor price concessions ⁽¹⁾	(857,188) (1,010,974
Returns	(20,179) (57,624
Other	160	757
Balance at end of period	\$280,006	\$429,779

Average aggregate price concessions typically range from 65% to 80% of our list price on an annual basis, (1)depending upon the composition of our sales, volumes, and factors associated with timing of shipments to distributors.

We sell the majority of our products to distributors worldwide at a list price. However, distributors resell our products to end customers at a very broad range of individually negotiated prices based on a variety of factors, including customer, product, quantity, geography and competitive differentiation. The majority of our distributors' sales to their customers are priced at a discount from our list price. Under these circumstances, we remit back to the distributor a portion of its original purchase price after the resale transaction is completed and we validate the distributor's resale information, including end customer, device, quantity and price, against the distributor price concession that we have approved in advance. To receive price concessions, distributors must submit the price concession claims to us for approval within 60 days of the resale of the product to an end customer. It is our practice to apply these negotiated price discounts to future purchases, requiring the distributor to settle receivable balances, on a current basis, generally within 30 days, for amounts originally invoiced.

Table of Contents

Note 8 — Income Per Share

A reconciliation of basic and diluted income per share is presented below:

(In thousands, except per share amounts)	Three Months Ended	
	March 30, 2012	April 1, 2011
Basic:		
Net income	\$115,834	\$224,069
Basic weighted shares outstanding	322,586	321,020
Net income per share	\$0.36	\$0.70
Diluted:		
Net income	\$115,834	\$224,069
Weighted shares outstanding	322,586	321,020
Effect of dilutive securities:		
Stock options, ESPP, and restricted stock unit shares	4,475	6,823
Diluted weighted shares outstanding	327,061	327,843
Net income per share	\$0.35	\$0.68

In applying the treasury stock method, we excluded 0.9 million and 0.3 million stock option shares and restricted stock units for the three months ended March 30, 2012 and April 1, 2011, respectively, because their effect was anti-dilutive. While these shares have been anti-dilutive, they could be dilutive in the future.

Note 9 — Credit Facility

Our total borrowings under our \$750 million unsecured revolving credit facility (the “Facility”) as of March 30, 2012 and December 31, 2011 were \$500 million. Borrowings under the Facility bear interest at either a Eurodollar rate (“LIBOR”) or a Prime rate, at our option, plus an applicable margin based upon certain financial ratios. The interest rate as of March 30, 2012 was LIBOR plus 0.35%. In addition, we pay a facility fee on the entire Facility. This facility fee varies with certain financial ratios and was 0.10% as of March 30, 2012. The principal amount of borrowings, together with accrued interest, is due on the maturity date in August 2012. As of March 30, 2012, \$250 million was available under the Facility.

The terms of the Facility require compliance with certain financial covenants that require us to maintain specified financial ratios related to interest coverage and financial leverage. As of March 30, 2012, we were in compliance with all such covenants.

Note 10 — Commitments and Contingencies

Indemnification and Product Warranty

We indemnify certain customers, distributors, suppliers, and subcontractors for attorney's fees and damages and costs awarded against these parties in certain circumstances in which our products are alleged to infringe third party intellectual property rights, including patents, trade secrets, trademarks, or copyrights. We cannot estimate the amount of potential future payments, if any, that we might be required to make as a result of these agreements. To date, we have not paid any claim or been required to defend any action related to our indemnification obligations, and accordingly, we have not accrued any amounts for such indemnification obligations. However, we may record charges in the future as a result of these indemnification obligations.

Table of Contents

We generally warrant our devices for one year against defects in materials, workmanship and material non-conformance to our specifications. We accrue for known warranty issues if a loss is probable and can be reasonably estimated, and accrue for estimated but unidentified issues based on historical activity. If there is a material increase in customer claims compared with our historical experience or if the costs of servicing warranty claims are greater than expected, we may record a charge against cost of sales. Warranty expense was not significant for any period presented in our consolidated statements of comprehensive income.

Purchase Obligations

We depend entirely upon subcontractors to manufacture our silicon wafers and provide assembly and test services. Due to lengthy subcontractor lead times, we must order these materials and services from these subcontractors well in advance, and we are obligated to pay for the materials and services once they are completed. As of March 30, 2012, we had approximately \$205.9 million of outstanding purchase commitments to such subcontractors. We expect to receive and pay for these materials and services over the next six months.

Operating Leases

We lease facilities under non-cancelable lease agreements expiring at various times through 2021. There have been no significant changes to our operating lease obligations since December 31, 2011.

Legal Proceedings

On December 8, 2010, Intellectual Ventures I LLC and Intellectual Ventures II LLC ("Intellectual Ventures") filed a lawsuit in the United States District Court for the District of Delaware against Altera, Microsemi Corporation, and Lattice Semiconductor Corporation alleging that Altera is infringing five patents. The complaint requests unspecified monetary damages including enhanced damages for willful infringement. In February 2011, Intellectual Ventures filed a First Amended Complaint adding Xilinx, Inc. as a defendant. In March 2011, Altera answered the complaint and asserted counterclaims against Intellectual Ventures for non-infringement and invalidity of the asserted patents. The defendants filed motions in the District of Delaware to transfer the case to the United States District Court for the Northern District of California and to stay the action pending re-examination proceedings in the United States Patent and Trademark Office. Intellectual Ventures opposed the motions. In January 2012, the United States District Court for the District of Delaware denied the defendants' motion to transfer the case to the Northern District of California, and in February, 2012, the court denied the defendants' motion to stay. Three of the four defendants, including Altera, have filed a writ of mandamus in the Court of Appeals for the Federal Circuit requesting that the case be transferred to the Northern District of California. Because the case is at a very early stage, it is not possible for us to determine whether there is a reasonable possibility that a loss has been incurred nor can we estimate the range of potential loss.

In 2008, the Internal Revenue Service ("IRS") completed field examinations of our tax returns for 2002 through 2004 and assessed \$34.5 million in additional taxes (excluding interest). We appealed the IRS notice and resolved a number of issues. On December 8, 2011, the IRS issued a Statutory Notice of Deficiency, revising the assessment of additional taxes for those years to \$19.8 million, excluding interest and penalties. The Statutory Notice of Deficiency relates primarily to proposed inter-company adjustments between related companies, computational adjustments to the R&D credit and reductions to the benefits of tax credit carrybacks and carryforwards to subsequent years. We paid \$18.0 million to the IRS in 2008, representing a payment on bond for items associated with the IRS field examinations for 2002 through 2004. On March 6, 2012, we filed a petition to the U.S. Tax Court requesting a redetermination of the tax deficiencies regarding certain proposed IRS adjustments regarding tax year 2004 and are evaluating our course of action regarding our 2002 and 2003.

In addition, the IRS completed field examinations of our tax returns for 2005 through 2007 and assessed \$34.2 million in additional taxes (excluding interest). On January 23, 2012, the IRS issued a Statutory Notice of Deficiency, revising the assessment of additional taxes for those years to \$21.4 million, excluding interest and penalties. The Statutory Notice of Deficiency relates primarily to proposed intercompany adjustments between related companies, computational adjustments to the R&D credit and reductions to the benefits of tax credit carrybacks and carryforwards to subsequent years. On April 20, 2012, we filed a petition to the U.S. Tax Court requesting a redetermination of the tax deficiencies regarding certain proposed IRS adjustments regarding 2005 through 2007.

Note 11 — Stock-Based Compensation

Our stock-based compensation plans include the 2005 Equity Incentive Plan (the “2005 Plan”) and the 1987 Employee Stock Purchase Plan (the “ESPP”).

Table of Contents

2005 Plan

Our equity incentive program is a broad-based, long-term retention program intended to attract, motivate, and retain talented employees as well as align stockholder and employee interests. The 2005 Plan provides stock-based incentive compensation (“awards”) to both our eligible employees and non-employee directors. Awards that may be granted under the 2005 Plan include non-qualified and incentive stock options, restricted stock units (“RSU”s), performance-based restricted stock units (“PRSU”s), restricted stock awards, stock appreciation rights, and stock bonus awards. To date, awards granted under the 2005 Plan consist of stock options, RSUs and PRSUs. The majority of stock-based awards granted under the 2005 Plan vest over four years. Stock options granted under the 2005 Plan have a maximum contractual term of ten years. As of March 30, 2012, the 2005 Plan had a total of 29.1 million shares reserved for future issuance, of which 19.1 million shares were available for future grants.

A summary of activity for our RSUs and PRSUs for the three months ended March 30, 2012 and information regarding RSUs and PRSUs outstanding and expected to vest as of March 30, 2012 is as follows:

(In thousands, except per share amounts and terms)	Number of Shares	Weighted-Average Grant-Date Fair Market Value Per Share	Weighted-Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value ⁽¹⁾
Outstanding, December 31, 2011	8,176	\$31.62		
Grants	166	\$39.76		
Vested	(380)	\$28.05		
Forfeited	(215)	\$30.66		
Outstanding, March 30, 2012	7,747	\$32.00	1.4	\$308,486
Vested and expected to vest, March 30, 2012	6,896	\$32.00	1.4	\$274,611

(1) Aggregate intrinsic value represents the closing price per share of our stock on March 30, 2012, multiplied by the number of RSUs and PRSUs outstanding or vested and expected to vest as of March 30, 2012.

A summary of stock option activity for the three months ended March 30, 2012 and information regarding stock options outstanding, exercisable, and vested and expected to vest as of March 30, 2012 is as follows:

(In thousands, except per share amounts and terms)	Number of Shares	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value ⁽¹⁾
Outstanding, December 31, 2011	6,138	\$22.96		
Grants	74	\$40.10		
Exercises	(687)	\$19.58		
Forfeited/Cancelled/Expired	(4)	\$14.65		
Outstanding, March 30, 2012	5,521	\$23.62	3.7	\$91,618
Exercisable, March 30, 2012	4,662	\$20.92	2.8	\$88,485
Vested and expected to vest, March 30, 2012	5,401	\$23.25	3.6	\$91,412

(1) For those stock options with an exercise price below the closing price per share on March 30, 2012, aggregate intrinsic value represents the difference between the exercise price and the closing price per share of our common stock on March 30, 2012, multiplied by the number of stock options outstanding, exercisable, or vested and expected to vest as of March 30, 2012.

For the three months ended March 30, 2012, 0.7 million non-qualified stock option shares were exercised. The total intrinsic value of stock options exercised for the three months ended March 30, 2012 was \$13.9 million. The

aggregate intrinsic value represents the difference between the exercise price and the selling price received by option holders upon the exercise of stock options during the period. The total cash received from employees as a result of employee stock option exercises during the three months ended March 30, 2012 was \$12.9 million.

Table of Contents

ESPP

Our ESPP has two consecutive, overlapping twelve-month offering periods, with a new period commencing on the first trading day on or after May 1 and November 1 of each year and terminating on the last trading day on or before April 30 and October 31. Each twelve-month offering period generally includes two six-month purchase periods. The purchase price at which shares are sold under the ESPP is 85% of the lower of the fair market value of a share of our common stock on (1) the first day of the offering period, or (2) the last trading day of the purchase period. If the fair market value at the end of any purchase period is less than the fair market value at the beginning of the offering period, each participant is automatically withdrawn from the current offering period following the purchase of shares on the purchase date and is automatically re-enrolled in the immediately following offering period.

There were no shares sold to the employees under the ESPP during the three months ended March 30, 2012, or April 1, 2011. As of March 30, 2012, 2.6 million shares were available for future issuance under the ESPP.

VALUATION AND EXPENSE INFORMATION

The assumptions used to estimate the fair value of ESPP, RSUs and PRSUs were as follows:

	Three Months Ended			
	March 30, 2012		April 1, 2011	
RSUs and PRSUs:				
Risk-free interest rate	0.3	%	0.9	%
Dividend yield	0.8	%	0.6	%
Weighted-average estimated fair value	\$38.96		\$40.78	

In addition, we apply an expected forfeiture rate when amortizing stock-based compensation expense. Our stock-based compensation expense included in the consolidated statements of comprehensive income for the three months ended March 30, 2012 and April 1, 2011 was as follows:

(In thousands)	Three Months Ended			
	March 30, 2012		April 1, 2011	
Cost of sales	\$448		\$346	
Research and development	9,853		7,582	
Selling, general, and administrative	12,092		9,305	
Pre-tax stock-based compensation expense	22,393		17,233	
Less: income tax benefit	(5,704)	(4,668)
Net stock-based compensation expense	\$16,689		\$12,565	

No stock-based compensation was capitalized during any period presented above. As of March 30, 2012, unrecognized stock-based compensation cost related to outstanding unvested stock options, RSUs, PRSUs and ESPP shares that are expected to vest was approximately \$167.5 million. This unrecognized stock-based compensation cost is expected to be recognized over a weighted average period of approximately 2.4 years. To the extent the actual forfeiture rate is different from what we have anticipated, stock-based compensation related to these awards will be different from that presented.

Table of Contents

Note 12 — Income Taxes

Our effective tax rate reflects the impact of a significant amount of our earnings being taxed in foreign jurisdictions at rates below the U.S. statutory tax rate. Our effective tax rate for the three months ended March 30, 2012 was 1.7%, compared with 8.7% for the three months ended April 1, 2011. The net decrease in our effective tax rate was primarily due to higher one-time tax benefits in 2012 compared to 2011, partially offset by the absence of a U.S. Federal Research and Development Tax Credit in 2012, due to its expiration in 2011. During the three months ended March 30, 2012, we reversed \$6.9 million of liabilities for uncertain tax positions as a result of a Statutory Notice of Deficiency received from the Internal Revenue Service (“IRS”) for 2005 to 2007. In addition, we reversed \$5.2 million of liabilities for uncertain tax positions upon expiration of the statutes of limitations for certain foreign jurisdictions.

We file income tax returns with the IRS and in various states and foreign jurisdictions. In 2008, the IRS completed field examinations of our tax returns for 2002 through 2004 and assessed \$34.5 million in additional taxes (excluding interest). We appealed the IRS notice and resolved a number of issues. On December 8, 2011, the IRS issued a Statutory Notice of Deficiency, revising the assessment of additional taxes for those years to \$19.8 million, excluding interest and penalties. The Statutory Notice of Deficiency relates primarily to proposed inter-company adjustments between related companies, computational adjustments to the R&D Credit and reductions to the benefits of tax credit carrybacks and carryforwards to subsequent years. We paid \$18.0 million to the IRS in 2008, representing a payment on bond for items associated with the IRS field examinations for 2002 through 2004. On March 6, 2012, we filed a petition to the U.S. Tax Court requesting a redetermination of the tax deficiencies regarding certain proposed IRS adjustments regarding 2004 and are evaluating our course of action regarding 2002 and 2003.

In addition, the IRS completed field examinations of our tax returns for 2005 through 2007 and assessed \$34.2 million in additional taxes (excluding interest). On January 23, 2012, the IRS issued a Statutory Notice of Deficiency, revising the assessment of additional taxes for those years to \$21.4 million, excluding interest and penalties. The Statutory Notice of Deficiency relates primarily to proposed intercompany adjustments between related companies, computational adjustments to the R&D credit and reductions to the benefits of tax credit carrybacks and carryforwards to subsequent years. On April 20, 2012, we filed a petition to the U.S. Tax Court requesting a redetermination of the tax deficiencies regarding certain proposed IRS adjustments regarding 2005 through 2007.

We believe we have made adequate tax payments and/or accrued adequate amounts for our tax liabilities for 2002 through 2007. It is reasonably possible over the next twelve months that events will occur in connection with our 2002 through 2007 tax years that could materially affect our consolidated operating results, cash flows or financial position. However, we are unable to make a reasonable estimate of the range of potential adjustments.

Other significant jurisdictions in which we are or may be subject to examination for fiscal years 2002 forward include China (including Hong Kong), Ireland, Malaysia, Japan, United Kingdom and the state of California. We believe we have made adequate tax payments and/or accrued adequate amounts such that the outcome of these audits will have no material adverse effect on our consolidated operating results. Due to the potential resolution of various tax examinations, and the expiration of various statutes of limitations, it is possible that our gross unrecognized tax benefits may change within the next twelve months. However, given the number of years remaining subject to examination and the number of matters being examined, we are unable to estimate the full range of possible adjustments to the balance of gross unrecognized tax benefits.

As of March 30, 2012 we had \$280.6 million of unrecognized tax benefits that, if recognized, would impact our effective tax rate. On December 31, 2011, we had \$284.9 million of unrecognized tax benefits. We are unable to make a reasonable estimate as to when cash settlements with the relevant taxing authorities will occur.

We recognize interest and penalties related to uncertain tax positions in our income tax provision. We had accrued approximately \$50.6 million and \$54.8 million for the payment of interest and penalties related to uncertain tax positions as of March 30, 2012 and December 31, 2011, respectively.

Table of Contents

Note 13 — Non-Qualified Deferred Compensation Plan

We allow our U.S.-based officers and director-level employees to defer a portion of their compensation under the Altera Corporation Non-Qualified Deferred Compensation Plan (“NQDC Plan”). Our Retirement Plans Committee administers the NQDC Plan. As of March 30, 2012, there were 126 participants in the NQDC Plan who self-direct their investments, subject to certain limitations. In the event we become insolvent, the NQDC Plan assets are subject to the claims of our general creditors. Since the inception of the NQDC Plan, we have not made any contributions to the NQDC Plan and we have no commitments to do so in the future. There are no NQDC Plan provisions that provide for any guarantees or minimum return on investments. NQDC Plan participants are prohibited from investing NQDC Plan contributions in Altera common stock. The balance of the NQDC Plan assets and related obligations was \$80.5 million and \$72.0 million as of March 30, 2012 and December 31, 2011, respectively.

Investment income or loss earned by the NQDC Plan is recorded as Loss (Gain) on deferred compensation plan securities in our consolidated statements of comprehensive income. The investment loss (gain) also represents a decrease (increase) in the future payout to participants and is recorded as Compensation (benefit) expense — deferred compensation plan in our consolidated statements of comprehensive income. Compensation (benefit) expense associated with our NQDC Plan obligations is offset by loss (gain) from related securities. The net effect of investment income or loss and related compensation expense or benefit has no impact on our income before income taxes, net income, or cash balances.

Note 14 — Declaration of Dividend Subsequent to March 30, 2012

On April 17, 2012 our board of directors declared a quarterly cash dividend of \$0.08 per common share, payable on June 1, 2012 to stockholders of record on May 10, 2012.

Table of Contents

ITEM 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as information contained in the risk factors described in Item 1A of this report and elsewhere in this report, contains forward-looking statements, which are provided under the "safe harbor" protection of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are generally written in the future tense and/or are preceded by words such as "will," "may," "should," "could," "expect," "suggest," "believe," "anticipate," "intend," "plan," or other similar. Examples of forward-looking statements include statements regarding (1) our gross margins and factors that affect gross margins; (2) trends in our future sales; (3) our research and development expenditures and efforts; (4) our capital expenditures; (5) our provision for tax liabilities and other critical accounting estimates; and (6) our exposure to market risks related to changes in interest rates, equity prices and foreign currency exchange rates.

Forward-looking statements are not guarantees of future performance and involve risks and uncertainties. The forward-looking statements contained in this report are based on information that is currently available to us and expectations and assumptions that we deemed reasonable at the time the statements were made. We do not undertake any obligation to update any forward-looking statements in this report or in any of our other communications, except as required by law. All such forward-looking statements should be read as of the time the statements were made and with the recognition that these forward-looking statements may not be complete or accurate at a later date.

Many factors may cause actual results to differ materially from those expressed or implied by the forward-looking statements contained in this report. These factors include, but are not limited to, those risks described in Part II Item 1A of this report and those risks described under "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2011.

CRITICAL ACCOUNTING ESTIMATES

The preparation of our consolidated financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires our management to make judgments and estimates that affect the amounts reported in our consolidated financial statements and accompanying notes. Our management believes that we consistently apply these judgments and estimates and the consolidated financial statements and accompanying notes fairly represent all periods presented. However, any differences between these judgments and estimates and actual results could have a material impact on our consolidated statements of comprehensive income and financial position. Critical accounting estimates, as defined by the Securities and Exchange Commission ("SEC"), are those that are most important to the portrayal of our consolidated financial condition and results of operations and require our management's most difficult and subjective judgments and estimates of matters that are inherently uncertain. Our critical accounting estimates include those regarding (1) revenue recognition, (2) valuation of inventories, and (3) income taxes. For a discussion of our critical accounting estimates, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Estimates" in our Annual Report on Form 10-K for the year ended December 31, 2011.

RESULTS OF OPERATIONS

Sales Overview

We design, manufacture, and market high-performance, high-density programmable logic devices, or PLDs; HardCopy® ASIC devices; pre-defined software design building blocks known as intellectual property cores, or IP cores; and associated development tools.

Our net sales of \$383.8 million for the three months ended March 30, 2012 decreased by \$152.1 million, or 28%, from our net sales of \$535.8 million for the three months ended April 1, 2011. The decrease was primarily due to continued customer reaction to the changing global macroeconomic conditions, which reduced demand across the industry. Revenue slightly increased in the new product category but declined in all other categories. In addition, we experienced declines across all markets and a majority of our large customers. Despite this temporary interruption of our growth trends, we continue to see evidence of a “tipping point” with respect to our opportunity to displace ASICs and ASSPs, as our newest products are several process generations ahead of mainstream ASICs and ASSPs, and the resulting FPGA cost advantage is accelerating ASIC and ASSP displacement.

Table of Contents

Sales by Product Category

We classify our products into three categories: New, Mainstream, and Mature and Other Products. The composition of each product category is as follows:

New Products include the Stratix® V (including GS, GT and GX), Stratix IV (including E, GX and GT), Arria® V, Arria II (including GX and GZ), Cyclone® V, Cyclone IV (including E and GX), MAX® V, and HardCopy® IV devices.

Mainstream Products include the Stratix III, Cyclone III, MAX II, and HardCopy III devices.

Mature and Other Products include the Stratix II (and GX), Stratix (and GX), Arria GX, Cyclone II, Cyclone, Classic™, MAX 3000A, MAX 7000, MAX 7000A, MAX 7000B, MAX 7000S, MAX 9000, HardCopy II, HardCopy, FLEX® series, APEX™ series, Mercury™, and Excalibur™ devices, configuration and other devices, intellectual property cores, and software and other tools.

Net sales by product category were as follows:

	Three Months Ended			Year-Over-Year Change	Sequential Change	
	March 30, 2012	April 1, 2011	December 31, 2011			
New	26	% 18	% 27	% 1	% (20)%
Mainstream	32	% 33	% 33	% (30)% (20)%
Mature and Other	42	% 49	% 40	% (38)% (11)%
Net Sales	100	% 100	% 100	% (28)% (16)%

Sales by Vertical Market

The following vertical market data is derived from data that is provided to us by our distributors and end customers. With a broad base of customers, who in some cases manufacture end products spanning multiple market segments, the assignment of net sales to a vertical market requires the use of estimates, judgment, and extrapolation. As such, actual results may differ from those reported.

	Three Months Ended			Year-Over-Year Change	Sequential Change	
	March 30, 2012	April 1, 2011	December 31, 2011			
Telecom & Wireless	41	% 42	% 43	% (30)% (20)%
Industrial Automation, Military & Automotive	22	% 24	% 24	% (33)% (21)%
Networking, Computer & Storage	17	% 15	% 16	% (18)% (14)%
Other	20	% 19	% 17	% (28)% (2)%
Net Sales	100	% 100	% 100	% (28)% (16)%

Table of Contents

Sales of FPGAs and CPLDs

Our PLDs consist of field-programmable gate arrays, or FPGAs, and complex programmable logic devices, or CPLDs. FPGAs consist of our Stratix, Cyclone, Arria, APEX, FLEX, and ACEX 1K, as well as our Excalibur and Mercury families. CPLDs consist of our MAX, MAX II, MAX V and Classic families. Other Products consist of our HardCopy series and other masked programmed logic devices, configuration devices, software and other tools and IP cores.

Our net sales of FPGAs, CPLDs, and Other Products were as follows:

	Three Months Ended			Year-Over-Year Change	Sequential Change	
	March 30, 2012	April 1, 2011	December 31, 2011			
FPGA	83	% 81	% 82	% (26)% (16)%
CPLD	10	% 11	% 9	% (35)% (11)%
Other Products	7	% 8	% 9	% (39)% (28)%
Net Sales	100	% 100	% 100	% (28)% (16)%

Sales by Geography

The following table is based on the geographic location of the original equipment manufacturers or the distributors who purchased our products. The geographic location of distributors may be different from the geographic location of the ultimate end users.

Net sales by geography were as follows:

	Three Months Ended			Year-Over-Year Change	Sequential Change	
	March 30, 2012	April 1, 2011	December 31, 2011			
Americas	18	% 21	% 21	% (39)% (29)%
Asia Pacific	43	% 38	% 40	% (20)% (10)%
EMEA	23	% 26	% 22	% (36)% (13)%
Japan	16	% 15	% 17	% (22)% (19)%
Net Sales	100	% 100	% 100	% (28)% (16)%

Price Concessions and Product Returns from Distributors

We sell the majority of our products to distributors worldwide at a list price. However, distributors resell our products to end customers at a very broad range of individually negotiated prices based on a variety of factors, including customer, product, quantity, geography and competitive differentiation. The majority of our distributors' sales to their customers are priced at a discount from our list price. Under these circumstances, we remit back to the distributor a portion of its original purchase price after the resale transaction is completed and we validate the distributor's resale information, including end customer, device, quantity and price, against the distributor price concession that we have approved in advance. To receive price concessions, distributors must submit the price concession claims to us for approval within 60 days of the resale of the product to an end customer. Primarily because of the uncertainty related to the final price, we defer revenue recognition on sales to distributors until our products are sold from the distributor to the end customer, which is when our price is fixed or determinable. Accordingly, these pricing uncertainties impact

our results of operations, liquidity and capital resources. Average aggregate price concessions typically range from 65% to 80% of our list price on an annual basis, depending upon the composition of our sales, volume and factors associated with timing of shipments to distributors.

Table of Contents

Our distributors have certain rights under our contracts to return defective, overstocked, obsolete or discontinued products. Our stock rotation program generally allows distributors to return unsold product to Altera, subject to certain contract limits, based on a percentage of sales occurring over various periods prior to the stock rotation. Products resold by the distributor to end customers are no longer eligible for return, unless specifically authorized by us. In addition, we generally warrant our products against defects in material, workmanship and non-conformance to our specifications. Returns from distributors totaled \$20.2 million and \$57.6 million for the three months ended March 30, 2012 and April 1, 2011, respectively. The decrease in returns when compared to the same period in the prior year was primarily driven by 2011 arrangements with certain distributors to re-balance inventory levels to support near-term end customer demand.

Gross Margin

	Three Months Ended			
	March 30, 2012	April 1, 2011	December 31, 2011	
Gross Margin Percentage	70.1	% 72.6	% 70.1	%

Gross margin rates are heavily influenced by both vertical market mix and the timing of material cost improvements. While these variables will continue to fluctuate on a quarterly basis, our gross margin target over the long term is 67%. We believe that the 67% gross margin target will enable us to achieve our desired level of balance between growth and profitability. Our gross margin percentage for the three months ended March 30, 2012 decreased by 2.5% compared with the three months ended April 1, 2011. The decrease resulted from an unfavorable vertical market mix, with a higher proportion of net sales in the Networking, Computer & Storage vertical market and a lower proportion of net sales in the Industrial Automation, Military & Automotive vertical market, when compared with the same period of 2011.

Research and Development Expense

Research and development expense includes costs for compensation and benefits, development masks, prototype wafers, and depreciation and amortization. These expenditures are for the design of new PLD and ASIC families, the development of process technologies, new package technology, software to support new products and design environments, and IP cores.

We will continue to make significant investments in the development of new products and focus our efforts on the development of new programmable logic devices that use advanced semiconductor wafer fabrication processes, as well as related development software. We are currently investing in the development of future silicon products, as well as our Quartus® II software, our library of IP cores, and other future products.

(In millions)	Three Months Ended			Year-Over-Year Change	Sequential Change
	March 30, 2012	April 1, 2011	December 31, 2011		
Research and Development Expense	\$82.3	\$74.4	\$90.3	11	% (9)%
Percentage of Net Sales	21.4	% 13.9	% 19.7	%	

Research and development expense for the three months ended March 30, 2012 increased by \$7.9 million, or 11%, when compared with the three months ended April 1, 2011. The increase was primarily attributable to a \$4.7 million

increase in personnel-related costs due to increased head count to support our product development efforts, a \$2.3 million increase in stock-based compensation driven by an increase in our stock price and a \$6.1 million increase in external costs for product development activities. These increases were partially offset by a \$5.7 million decrease in variable compensation expense.

Table of Contents

Selling, General, and Administrative Expense

Selling, general, and administrative expense includes costs for compensation and benefits related to sales, marketing, and administrative employees, commissions and incentives, depreciation, legal, advertising, facilities, and travel expenses.

(In millions)	Three Months Ended			Year-Over-Year Change	Sequential Change
	March 30, 2012	April 1, 2011	December 31, 2011		
Selling, General and Administrative Expense	\$69.8	\$69.0	\$70.7	1	% (1)%
Percentage of Net Sales	18.2	% 12.9	% 15.4	%	

Selling, general, and administrative expense for the three months ended March 30, 2012 increased \$0.8 million, or 1%, when compared with the three months ended April 1, 2011. The increase was primarily attributable to a \$1.6 million increase in personnel-related costs, a \$2.6 million increase in stock-based compensation driven by an increase in our stock price and a \$1.4 million increase in consulting services. These increases were partially offset by a \$4.3 million decrease in variable compensation expense.

Deferred Compensation Plan

We allow our U.S.-based officers and director-level employees to defer a portion of their compensation under the Altera Corporation Non-Qualified Deferred Compensation Plan (“NQDC Plan”). Since the inception of the NQDC Plan, we have not made any contributions to the NQDC Plan and we have no commitments to do so in the future. There are no NQDC Plan provisions that provide for any guarantees or minimum return on investments. Investment income or loss earned by the NQDC Plan is recorded as (Gain)/loss on deferred compensation plan securities in our consolidated statements of comprehensive income. We reported net investment gains of \$5.7 million and \$1.7 million on NQDC Plan assets for the three months ended March 30, 2012 and April 1, 2011, respectively. These amounts resulted from the overall market performance of the underlying securities. The investment (gain)/loss also represents an (increase)/decrease in the future payout to employees and is recorded as Compensation expense/(benefit) — deferred compensation plan in our consolidated statements of comprehensive income. The compensation expense (benefit) associated with our deferred compensation plan obligations is offset by (gains) losses from related securities. The net effect of the investment income or loss and related compensation expense or benefit has no impact on our income before income taxes, net income, or cash balances.

Interest Income and Other

Interest income and other, consisting mainly of interest income generated from investments in high-quality fixed income securities, increased by \$0.9 million for the three months ended March 30, 2012 when compared with the same period in 2011, primarily due to higher cash and investments in 2012.

Interest Expense

The year-over-year decrease in Interest expense was due primarily to the slight decrease of the LIBOR rate, which represents the principal basis of our interest rate on the outstanding borrowings under our credit facility. See Note 9 - Credit Facility to our consolidated financial statements.

Table of Contents

Income Tax Expense

Our effective tax rate reflects the impact of a significant amount of our earnings being taxed in foreign jurisdictions at rates below the U.S. statutory tax rate. Our effective tax rate for the three months ended March 30, 2012 was 1.7%, compared with 8.7% for the three months ended April 1, 2011. The net decrease in our effective tax rate was primarily due to higher one-time tax benefits in 2012 compared to 2011, partially offset by the absence of a U.S. Federal Research and Development Tax Credit in 2012, due to its expiration in 2011. During the three months ended March 30, 2012, we reversed \$6.9 million of liabilities for uncertain tax positions as a result of a Statutory Notice of Deficiency received from the Internal Revenue Service for 2005 to 2007. In addition, we reversed \$5.2 million of liabilities for uncertain tax positions upon expiration of the statutes of limitations for certain foreign jurisdictions.

As of March 30, 2012 we had \$280.6 million of unrecognized tax benefits that, if recognized, would impact our effective tax rate. On December 31, 2011, we had \$284.9 million of unrecognized tax benefits. We are unable to make a reasonable estimate as to when cash settlements with the relevant taxing authorities will occur.

See Note 12 - Income Taxes to our consolidated financial statements for further discussion.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

We derive our liquidity and capital resources primarily from our cash flows from operations. We have a \$750 million unsecured revolving credit facility (the "Facility"), which has been used primarily to fund common stock repurchases and to realign our capital structure. As of March 30, 2012, we had borrowed \$500 million under the Facility. The remaining capacity of \$250 million available under the Facility also represents a source of liquidity. The terms of the Facility require compliance with certain financial and non-financial covenants. Financial covenants require us to maintain certain financial ratios related to interest coverage and financial leverage. As of March 30, 2012, we were in compliance with all such covenants. See Note 9 — Credit Facility to our consolidated financial statements for further discussion of the Facility. We are currently evaluating long-term financing alternatives for our outstanding borrowings of \$500 million under the Facility, as well as the \$250 million of available capacity under the Facility.

We use cash from operations and available amounts under the Facility to fund cash dividends, capital expenditures and for repurchases of our common stock. Based on past performance and current expectations, we believe that our current available sources of funds (including cash, cash equivalents, short-term investments and the Facility, plus anticipated cash generated from operations) will be adequate to finance our operations, cash dividends, capital expenditures and stock repurchases for at least the next year.

Our cash and cash equivalents balance during the three months ended March 30, 2012 increased by \$48.2 million. The change in cash and cash equivalents during the three months ended March 30, 2012 and April 1, 2011 was as follows:

(In thousands)	Three Months Ended	
	March 30, 2012	April 1, 2011
Net cash provided by operating activities	\$89,763	\$297,009
Net cash used in investing activities	(25,502)	(3,831)
Net cash (used in) provided by financing activities	(16,012)	39,607
Net increase in cash and cash equivalents	\$48,249	\$332,785

Operating Activities

Edgar Filing: ALTERA CORP - Form 10-Q

For the three months ended March 30, 2012, our operating activities provided \$89.8 million in cash, primarily attributable to net income of \$115.8 million, adjusted for non-cash stock-based compensation expense of \$22.9 million (net of related tax effects), depreciation and amortization of \$8.2 million, and deferred income tax benefit of \$7.1 million. The net change in working capital accounts (excluding cash and cash equivalents) was primarily due to a \$39.1 million increase in Accounts receivable, net, a \$12.8 million decrease in Inventories, a \$6.4 million decrease in Other assets, a \$28.5 million decrease in Accounts payable and other liabilities, and a \$4.7 million decrease in Income taxes payable.

Table of Contents

Our sales to distributors are primarily made under agreements allowing for subsequent price adjustments and returns, and we defer recognition of revenue until the products are resold by the distributor. At the time of shipment to distributors, we (1) record a trade receivable at the list selling price since there is a legally enforceable obligation from the distributor to pay us currently for product delivered, (2) relieve inventory for the carrying value of goods shipped since legal title has passed to the distributor, and (3) record deferred revenue and deferred cost of sales in Deferred income and allowances on sales to distributors in the liability section of our consolidated balance sheets. Accordingly, increases in Accounts receivable, net associated with higher billings are generally offset by corresponding increases in Deferred income and allowances on sales to distributors. However, timing differences between gross billings, advances to distributors, discounts earned, collections, revenue recognition and changes in the mix of sales to OEMs and distributors may result in a temporary interruption to the normal relationship between these two accounts.

The \$39.1 million increase in Accounts receivable, net, principally related to increased gross billings to distributors and OEMs at the end of the first quarter of 2012.

The \$12.8 million decrease in Inventories was a result of management of our inventory levels to meet the needs of the forecast plan for production.

The \$6.4 million decrease in Other assets primarily resulted from returns of advances from distributors.

The \$28.5 million decrease in Accounts payable and other liabilities was attributable to the decrease in inventory purchased as a result of the previously mentioned management of our inventory levels and a decrease in the accrual for variable compensation when compared to the same period in 2011.

The \$4.7 million decrease in Income tax payable was related to the timing of the payment of taxes.

Investing Activities

Cash used in investing activities in the three months ended March 30, 2012 primarily consisted of purchases of available for sale securities of \$47.2 million and purchases of property and equipment of \$23.9 million, partially offset by net sale and maturities of available for sale securities of \$48.4 million.

Financing Activities

Cash used in financing activities in the three months ended March 30, 2012 primarily consisted of repurchases of common stock of \$8.2 million, cash dividend payments of \$25.8 million and minimum statutory withholding for vested restricted stock units of \$4.9 million. These items were partially offset by proceeds of \$12.9 million from the issuance of common stock to employees through our employee stock plans.

Our dividend policy could be impacted in the future by, among other items, future changes in our cash flows from operations and our capital spending needs such as those relating to research and development, investments and acquisitions, common stock repurchases, and other strategic investments.

CONTRACTUAL OBLIGATIONS

We depend entirely upon subcontractors to manufacture our silicon wafers and provide assembly and test services. Due to lengthy subcontractor lead times, we must order these materials and services from these subcontractors well in advance, and we are obligated to pay for the materials and services once they are completed. As of March 30, 2012, we had approximately \$205.9 million of outstanding purchase commitments to such subcontractors. We expect to receive and pay for these materials and services over the next six months.

As of March 30, 2012, we had \$7.9 million of non-cancelable license obligations to providers of electronic design automation software and maintenance expiring at various dates throughout December 2014.

We lease facilities under non-cancelable lease agreements expiring at various times through 2021. There have been no significant changes to our operating lease obligations since December 31, 2011.

Table of Contents

In addition to these lease and purchase obligations, in the normal course of business, we enter into a variety of agreements and financial commitments. It is not possible to predict the maximum potential amount of future payments under these agreements due to the conditional nature of our obligations and the unique facts and circumstances involved in each particular agreement. Historically, payments pursuant to such agreements have not been material. We believe that any future payments required pursuant to such agreements would not be significant to our consolidated financial position or operating results.

As of March 30, 2012, we had \$258.6 million of unrecognized tax benefits. Due to the uncertainty with respect to the timing of future cash flows associated with our unrecognized tax benefits as of March 30, 2012, we are unable to make a reasonably reliable estimate as to when cash settlements with the relevant taxing authorities will occur.

OFF-BALANCE SHEET ARRANGEMENTS

As of March 30, 2012, we did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of SEC Regulation S-K.

SUBSEQUENT EVENTS

On April 17, 2012, our board of directors declared a quarterly cash dividend of \$0.08 per common share, payable on June 1, 2012 to stockholders of record on May 10, 2012.

On April 20, 2012, we filed a petition to the U.S. Tax Court requesting a redetermination of the tax deficiencies regarding certain proposed IRS adjustments regarding 2005 through 2007. We believe we have made adequate tax payments and/or accrued adequate amounts for our tax liabilities for 2002 through 2007.

RECENT ACCOUNTING PRONOUNCEMENTS

The information contained in Note 2 - Recent Accounting Pronouncements to our consolidated financial statements in Part I, Item 1 is incorporated by reference into this Part I, Item 2.

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

While we are exposed to interest rate fluctuations in many of the world's leading industrialized countries, our interest income and expense is most sensitive to fluctuations in the general level of U.S. interest rates. Our investment strategy is focused on preservation of capital while maximizing yields and supporting our liquidity requirements. Our exposure to market risk as a result of changes in interest rates relates primarily to our cash and cash equivalents, investments in debt instruments and certain interest rate sensitive assets held under the NQDC Plan and our credit facility. Our investment portfolio and NQDC Plan assets include holdings of various issuers, types and maturity dates.

The market value of these investments on any given day during the investment term may vary as a result of market interest rate fluctuations. A hypothetical 10% movement in interest rates during the investment term would not have a material impact on the fair value of the portfolio. The actual impact on the fair value of the portfolio in the future may differ materially from this analysis, depending on actual balances and changes in the timing and the amount of interest rate movements.

Our consolidated operating results are affected by, among other factors, interest income on our cash equivalents. If the interest rate declines, our consolidated operating results may be negatively impacted.

In addition to our cash flows from operations, we derive our liquidity from our credit facility (the "Facility"). Our total borrowings under the Facility as of March 30, 2012 were \$500 million. Borrowings under this Facility bear a variable interest rate at either a Eurodollar rate ("LIBOR") or a Prime rate, at our option, plus an applicable margin based upon certain financial ratios, determined and payable quarterly. The interest rate as of March 30, 2012 was LIBOR plus 0.35%. In addition, we pay a facility fee on the entire Facility. This facility fee varies with certain financial ratios and was 0.10% as of March 30, 2012.

Our consolidated operating results and cash flows are exposed to changes in interest rates that could adversely affect the amount of interest expense incurred and paid on the Facility in any given period. Due to the variable interest rate on the Facility, the fair value of the Facility would not likely be materially affected by any future changes in interest rates.

Table of Contents

Equity Price Risk

We are exposed to equity price risk inherent in the marketable equity securities held in our NQDC Plan. A hypothetical 10% adverse change in the stock prices of these equity securities would not result in a material impact on our consolidated financial position, operating results or cash flows.

Foreign Currency Risk

We have international operations and incur expenditures in currencies other than U.S. dollars. To date, our exposure to exchange rate volatility, resulting from foreign currency transaction gains and losses and remeasurement of local currency assets and liabilities into U.S. dollars, has been insignificant. If foreign currency rates were to fluctuate by 10% from rates in effect at March 30, 2012, the resulting transaction gains or losses and the effects of remeasurement would not materially affect our consolidated financial position, operating results or cash flows.

Table of Contents

ITEM 4: Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as amended, as of the end of the period covered by this Quarterly Report on Form 10-Q (the “Evaluation Date”).

The purpose of this evaluation was to determine if, as of the Evaluation Date, our disclosure controls and procedures were designed and operating effectively to provide reasonable assurance that the information relating to Altera, required to be disclosed in our Exchange Act filings (i) was recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Based on the evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as of the Evaluation Date, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a - 15(f) and 15(d) - 15(f) under the Exchange Act) that occurred during the period covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitation on Effectiveness of Controls

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. The design of any control system is based, in part, upon the benefits of the control system relative to its costs. Control systems can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. In addition, over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies and procedures may deteriorate. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events.

PART II OTHER INFORMATION

ITEM 1: Legal Proceedings

This information is included in Note 10 — Commitments and Contingencies to our consolidated financial statements in Item 1 and is incorporated herein by reference.

ITEM 1A: Risk Factors

There have been no material changes from the risk factors previously described under Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2011. For additional information regarding risk factors, please refer to the description of the risk factors associated with our business previously disclosed in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2011.

Before you decide to buy, hold, or sell our common stock, you should carefully consider the risks described in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2011 and the other information contained elsewhere in this report. These risks are not the only risks facing our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business. Our business, consolidated operating results and financial position could be seriously harmed if any of the events underlying any of these risks or uncertainties actually occurs. In that event, the market price for our common stock could decline, and you may lose all or part of your investment.

Table of Contents

ITEM 2: Unregistered Sales of Equity Securities and Use of Proceeds

Items 2(a) and 2(b) are inapplicable.

2(c) Issuer Purchases of Equity Securities

We have an ongoing authorization from our Board of Directors to repurchase up to 193.0 million shares of our common stock. As of March 30, 2012, we had repurchased 183.3 million shares for an aggregate cost of \$3.9 billion. No existing repurchase plans or programs have expired, nor have we decided to terminate any repurchase plans or programs prior to expiration.

During the three month period ended March 30, 2012, we repurchased shares of our common stock as follows:

Period (Shares presented in thousands)	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
1/1/2012 - 1/27/2012	—	—	—	9,911
1/28/2012 - 2/24/2012	—	—	—	9,911
2/25/2012 - 3/30/2012	220	37.37	220	9,691
	220		220	

(1) No shares were purchased outside of publicly announced plans or programs.

For the majority of the restricted stock units that we grant, the number of shares issued on the date the restricted stock units vest is net of the minimum statutory withholding requirements that we pay in cash to the appropriate taxing authorities on behalf of our employees. Although these withheld shares are not issued or considered common stock repurchases under our authorized plan and are not included in the common stock repurchase totals in the preceding table, they are treated as common stock repurchases in our financial statements, as they reduced the number of shares that would have been issued upon vesting.
