NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2003

(UNAUDITED)

Note 1 Basis of presentation

The accompanying unaudited consolidated financial statements have been prepared from the books and records of Element 21 Golf Company (formerly BRL Holdings, Inc.) (the "Company") or "Element 21") in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Rule 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements and should be read in conjunction with the Company's audited consolidated financial statements at and for the fiscal year ended June 30, 2003. In the opinion of management, all adjustments (consisting only of normal recurring accruals and adjustments associated with the Element 21 Technologies, Inc. acquisition) considered necessary for a fair presentation have been included. Operating results for the six months ended December 31, 2003 are not necessarily indicative of the results that may be expected for the year ended June 30, 2004.

Note 2 Investment in related parted securities

On April 1, 2002 we divested our majority interest in the AssureTec Systems, Inc. subsidiary by exchanging with AssureTec founders and consultants shares in AssureTec Systems, Inc. held by the Company. After divesting these shares previously held, the Company currently holds as an investment through its Assuretec Holdings, Inc. (formerly Tech Ventures, Inc.) subsidiary of 2,716,900 shares of AssureTec stock carried at a nominal value equal to the par value of the stock. (See our 8-K Current Report dated April 1, 2002, which has been previously filed with the Securities and Exchange Commission and which is incorporated herein by reference.)

Table of Contents

Note 3 Consolidation of financial statements

The consolidated statements as at June 30, 2003 include the company's wholly owned subsidiaries Assuretec Holdings, Inc. Element 21 Technologies, Inc. and Assuretec Holdings Inc.'s wholly owned inactive subsidiaries IJAM Entertainment, Inc. and Advanced Conductor Technologies, Inc. For the three month period ended December 31, 2001 and prior to the formation of Assuretec Holdings, Inc., the Company was consolidated with AssureTec Systems, Inc., which consolidation commenced on November 9, 2001 being the date the company purchased its 100% interest in Systems. Prior to November 9, 2001, from January 1 2001 through October 2001 the Company had no business activities other than administrative costs necessary for remaining a publicly reporting entity. On April 1, 2002 the Company divested itself of its controlling interest in AssureTec Systems, Inc. retaining an investment interest carried at nominal value (see Item 2).

Note 4 Stock-Based Compensation

Statements of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" (SFAS No. 123) establishes a fair value method of accounting for stock-based compensation plans and for transactions in which an entity acquires goods or services from non-employees in exchange for equity instruments. SFAS 123 also encourages, but does not require companies to record compensation cost for stock-based employee compensation. The Company has chosen to continue to account for stock-based compensation utilizing the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees". Accordingly, compensation cost for stock options is measured as the excess, if any, of the fair market price of the Company's stock at the date of grant over the amount an employee must pay to acquire the stock.

Note 5 Future Operations/Going Concern

These interim financial statements have been presented on the basis that the Company is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has no business operations of its own and has no sources of revenue. Its investment in its subsidiaries is not expected to produce a significant amount of cash or revenue for the Company.

8

Table of Contents

Key financial ratios are as follows:

	<i>December 31, 2003</i>	<i>June 30, 2003</i>
<i>Negative Working capital</i>	\$ (445,235)	\$ (812,059)
<i>Accumulated deficit</i>	(9,266,435)	(9,134,359)
<i>Net loss</i>	(131,896)	(1,096,720)

All of which raise substantial doubt about the Company's ability to continue as a going concern.

Managements' plans for the Company include securing a merger or acquisition, raising additional capital and other strategies designed to optimize shareholder values. Those plans are described below, however, no assurance can be made that management will be successful in fulfilling all elements of its plan. The failure to achieve these plans will have a material adverse effect on the Company's financial position, results of operations and ability to continue as a going concern.

In October of 2002, the Company acquired Element 21 Golf Company ("Element 21"), a development stage company recently formed to design, develop and market scandium alloy golf clubs. This acquisition will be accounted for as a reverse acquisition using the purchase method of accounting, as the shareholders of Element 21 will control the Company immediately following the acquisition. Consequently, as of the acquisition date the reporting entity will consist of the operations of Element 21. Element 21 has not yet commenced its principal operations.

9

Table of Contents*Note 6 Income taxes*

The Company has not filed federal or state tax returns for any of the calendar years subsequent to December 31, 1993. Management expects there will be no federal tax liability for these years then ended.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

The following discussion includes the business of Element 21 Technologies, Inc. (Formerly Element 21 Golf Company) (the "Subsidiary"), since the Company, prior to its acquisition of the Subsidiary, had recently divested its majority interest in AssureTec Systems, Inc., retaining only an investment interest carried at a nominal value through a newly formed subsidiary Assuretec Holdings, Inc. (formerly Tech Ventures, Inc.). Otherwise the Company had no operations other than raising capital and searching for an acquisition candidate (i.e., the Subsidiary). Where relevant, all numbers retroactively take into account the operations of both Assuretec Holdings and Element 21. The Company has announced its plans to spin off Tech Ventures as an independent company, but such is still pending.

Three Months Ended December 31, 2003 and 2002

For the three months ended December 31, 2003 the Company, including the Subsidiaries had no revenues, purchased technology costs of \$0, general and administrative costs of \$338,894 loss from investments of \$0 and miscellaneous income of \$0 resulting in a loss of \$338,894 as compared with the three months ended December 31, 2002, the Company, including the Subsidiary had no revenues, purchased technology costs of \$2,445, general and administrative expenses of \$511,973, a loss from decline in value of investments of \$288,585 and other income of \$90,017 resulting in a net loss of \$712,986.

Six Months Ended December 31, 2003 and 2002

For the six months ended December 31, 2003 the Company, including the subsidiaries had no revenues, no purchased technology costs, administrative costs of \$493,858, gain on settlement of liabilities of \$361,962 resulting in a net loss of \$131,896 as compared with the six months ended December 31, 2002 the Company, including the subsidiaries had no revenues, \$2,445 of purchased technology costs, administrative costs of \$550,795, loss on investment of \$288,585, other income of \$90,017 resulting in a net loss of \$751,808.

Inception to December 31, 2003

From inception of the consolidation of the Company with Element 21 Golf Technologies, Inc. (October 4, 2002), through December 31, 2003, the Company, including the Subsidiary, had revenues of \$0, cost of goods sold of \$0, purchased technology costs of \$2,445, administrative costs of \$1,351,257, gain on settlement of liabilities of \$361,962, loss from investments of \$294,103 and other income of \$210,017 yielding an accumulated net loss of \$1,075,826.

Liquidity and Capital Resources

The Company including its subsidiaries has a negative working capital. It's liquidity from inception until the closing of the Reorganization was primarily the funds of the Company and funds from stockholders of the Company. The Company retains consultants who are also significant stockholders of the Company to perform development and public company reporting activities in exchange for stock in the Company. Absent continued stock for services by these consultants and continued advances by stockholders of the Company, the Company cannot manufacture its golf shaft product line or market golf products based on its technologies. The Company is actively searching for capital to implement its business plans, supply the Company with product for distribution and develop collateral materials for its potential customer base. There can be no assurance such capital will be raised on terms acceptable to the Company and if raised, may cause significant dilution to the Company's stockholders.

Dividend Policy

The Company has not declared or paid any cash dividends on its common stock since its inception and does not anticipate the declaration or payment of cash dividends in the foreseeable future. The Company intends to retain earnings, if any, to finance the development and expansion of its subsidiary's business. Future dividend policy will be subject to the discretion of the Board of Directors and will be contingent upon future earnings, if any, the Company's financial condition, capital requirements, general business conditions and other factors. Therefore, there can be no assurance that dividends of any kind will ever be paid.

Effect of Inflation

Management believes that inflation has not had a material effect on its operations for the periods presented.
