MUNICIPAL MORTGAGE & EQUITY, LLC  
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
(unaudited)

NOTE 1 - BASIS OF PRESENTATION

Municipal Mortgage & Equity, LLC ("MuniMae" and, together with its subsidiaries, the "Company") provides debt and equity financing to developers of multifamily housing. The Company invests in tax-exempt bonds, or interests in bonds, issued by state and local governments or their agencies or authorities to

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

finance multifamily housing developments. Interest income derived from the majority of these bond investments is exempt income for federal income tax purposes. Multifamily housing developments, as well as the rents paid by the tenants, secure these investments.

The Company is also a mortgage banker. Mortgage banking activities include the origination, investment in and servicing of investments in multifamily housing, both for its own account and on behalf of third parties. These investments generate taxable income.

The Company also invests in (1) other housing-related debt and equity investments, including equity investments in income-producing real estate operating partnerships and tax-exempt bonds, or interests in bonds, secured by student housing or assisted living developments, and (2) tax-exempt community development bonds, typically secured by special taxes imposed on single-family or other community development districts or by assessments imposed on the residents or other lot owners of those developments.

The Company also acquires and sells interests in partnerships that provide low-income housing tax credits for investors. The Company earns syndication fees on the placement of these interests with investors, including the Federal National Mortgage Association ("Fannie Mae") and a number of corporate investors. The Company also earns asset management fees for managing the low-income housing tax credit funds syndicated.

MuniMae is a Delaware limited liability company. As a limited liability company, MuniMae combines the limited liability, governance and management characteristics of a corporation with the pass-through income features of a partnership. Since MuniMae is classified as a partnership for federal income tax purposes, no recognition of income taxes is made at the corporate level (except for income earned through subsidiaries of the Company organized as corporations). Instead, the distributive share of MuniMae's income, deductions and credits is included in each shareholder's income tax return.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and in the opinion of management contain all adjustments (consisting of only normal recurring accruals) necessary to present a fair statement of the results for the periods presented. These results have been determined on the basis of accounting principles and policies discussed in Note 1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2002 (the "Company's 2002 Form 10-K"). Certain information and footnote disclosures normally included in financial statements presented in accordance with generally accepted accounting principles ("GAAP") have been condensed or omitted. The accompanying financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's 2002 Form 10-K. Certain 2002 amounts have been reclassified to conform to the 2003 presentation.

The Company posts all Securities and Exchange Commission reports on their website at <http://www.mmafin.com>. These reports are available free of charge.

### New Accounting Pronouncements

In May 2003, the Financial Accounting Standards Board approved Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("FAS 150"). FAS 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify those financial instruments with certain debt-like characteristics as liabilities. The scope of FAS 150 includes financial instruments issued in the form of mandatorily redeemable shares. These

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

types of shares embody an unconditional obligation requiring the issuer to redeem them by transferring assets at a specified date. Management has determined that the Company's preferred shareholders' equity in a subsidiary company appears to fall within the scope of FAS 150. Therefore, the Company will be required to reclassify its preferred shareholders' equity of \$160.5 million to the liability section of the consolidated balance sheets. In addition, amounts currently classified as distributions paid to the preferred shareholders will be recorded as interest expense. FAS 150 is effective for instruments held by the Company at the beginning of the first interim period beginning after June 15, 2003.

In January 2003, the Financial Accounting Standards Board approved Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"). FIN 46 requires the consolidation of a Company's equity investment in a variable interest entity ("VIE") if the Company is the primary beneficiary of the VIE and if risks are not effectively dispersed among the owners of the VIE. The Company is considered to be the primary beneficiary of the VIE if the Company absorbs the majority of the losses of the VIE. FIN 46 is effective for VIEs created after January 31, 2003. For any VIE in which the Company held an interest that it acquired before February 1, 2003, FIN 46 is effective for the first interim reporting period beginning after June 15, 2003. The Company is currently reviewing the impact of FIN 46 on the tax credit syndication funds that a wholly owned subsidiary of the Company sponsors and asset manages, as well as investments accounted for under the equity method of accounting. The Company will continue to review new investments in order to determine if they should be accounted for in accordance with FIN 46.

### NOTE 2 - INVESTMENT IN TAX-EXEMPT BONDS

The Company originates investments in tax-exempt bonds and taxable loans primarily to the affordable multifamily housing industry. Tax-exempt bonds are issued by state and local government authorities to finance multifamily housing developments or other real estate financings. The bonds are typically secured by nonrecourse mortgage loans or tax levies on the underlying properties. The Company's sources of capital to fund these lending activities include proceeds from equity offerings, securitizations, and lines of credit. The Company earns interest income from its investment in tax-exempt bonds and taxable loans. The Company also earns origination and construction administration fees from originating the bonds and servicing the bonds during the construction period. For further discussion of the general terms of tax-exempt bonds see Note 1 to the Company's 2002 Form 10-K.

As of June 30, 2003 and December 31, 2002, the Company held \$775.8 million and \$770.3 million of tax-exempt bonds, respectively. The following table summarizes tax-exempt bonds by type.

	June 30, 2003		
(000s)	Face Amount	Amortized Cost	Unrealized Gain (Loss)

	-----	-----	-----	-----
Total	\$ 812,518	\$ 757,049	\$ 13,296	\$
	=====	=====	=====	=====

During the second quarter of 2003, the Company invested in tax-exempt bonds with a face amount of \$4.6 million for \$4.4 million. These investments represent new primary investments (bonds which the Company originated).

The Company invested an additional \$14.0 million in existing tax-exempt draw down bonds with a face amount of \$14.0 million. Since the end of 2002, the Company has structured tax-exempt bonds that allow the borrower to make draws on the bonds throughout the construction period. The initial draws on these bonds have been reported as new primary investments in prior quarters.

In order to facilitate the securitization (see Note 1 to the Company's 2002 Form 10-K) of certain assets at higher leverage ratios than otherwise available, the Company has pledged additional bonds as collateral for senior interests in certain securitization trusts and credit enhancement facilities. At June 30, 2003 and December 31, 2002, the total carrying amount of the tax-exempt bonds pledged as collateral for such trusts and facilities was \$360.7 million and \$372.9 million, respectively.

NOTE 3 - LOANS RECEIVABLE

The Company's loans receivable consist primarily of construction loans, permanent loans, supplemental loans and other taxable loans. For further discussion of the general terms of loans held by the Company and the allowance for loan losses see the description of mortgage banking activities in Note 1 to the Company's 2002 Form 10-K. The following table summarizes loans receivable by loan type at June 30, 2003 and December 31, 2002.

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

The Company has loans receivable held for sale of \$11.0 million and \$39.1 million at June 30, 2003 and December 31, 2002, respectively. These loans are sold to Fannie Mae and third party conduit lenders. Due to the short time the Company holds these loans, carrying value approximates fair value.

The Company pledges its construction loans, permanent loans and supplemental loans as collateral for the Company's notes payable and line of credit borrowings. In addition, in order to facilitate the securitization of certain assets at higher leverage ratios than otherwise available, the Company has pledged additional taxable loans to a pool that acts as collateral for senior interests in certain securitization trusts and credit enhancement facilities. At June 30, 2003 and December 31, 2002, the total carrying amount of the loans receivable pledged as collateral was \$407.2 million and \$417.1 million, respectively.

NOTE 4 - RESIDUAL INTERESTS IN BOND SECURITIZATIONS

At June 30, 2003 and December 31, 2002, the Company's residual interests in bond securitizations are investments in Residual Interest Tax-Exempt Securities Receipts ("RITESM"). For further discussion of the Company's securitization programs see Note 1 to the Company's 2002 Form 10-K. The following table provides certain information with respect to the residual interests in bond securitizations held by the Company at June 30, 2003 and December 31, 2002.

(1) The amounts disclosed represent the fair values of all the Company's investments in residual interests in bond securitizations at the reporting date.

(2) The aggregate negative fair value of the investments is included in liabilities for financial reporting purposes. The negative fair value of these investments is considered temporary and is not indicative of the future earnings on these investments.

(3) The amount of outstanding Puttable Floating Option Tax-Exempt Receipts ("P-FloatsSM"), which are senior to the Company's RITESM investments and which

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

are not reflected in the Company's balance sheet, was \$190.2 million and \$177.8 million at June 30, 2003 and December 31, 2002, respectively.

The Company purchased \$13,000 of RITESM for \$0.8 million in the second quarter of 2003. The Company also collapsed a \$5,000 RITESM position and placed the related \$27.3 million bond in the MBIA securitization program.

### RITESM Valuation Analysis

The fair value of a RITESM investment is derived from the quote on the underlying bond reduced by the outstanding corresponding P-FLOATsSM face amount. The Company bases the fair value of the underlying bond, which has a limited market, on quotes from external sources, such as brokers, for these or similar bonds. The fair value of the underlying bond includes a prepayment risk factor. The prepayment risk factor is reflected in the fair value of the bond by assuming the bond will prepay at the most adverse time to the Company given current market rates and estimates of future market rates. Based on this, an adverse change in prepayment risk would not have an effect on the fair value of the Company's RITESM investments. In addition, the RITESM investments are not subject to prepayment risk as the term of the securitization trusts is only for a period during which the underlying bond cannot be prepaid. Based on historical experience, credit losses were estimated to be zero.

At June 30, 2003 and December 31, 2002, a 10% and 20% adverse change in key assumptions used to estimate the fair value of the Company's RITESM would have the following impact.

(000s)	June 30, 2003 -----	December 31, 2002 -----
Fair value of retained interests, net	\$11,756	\$9,592
Residual cash flows discount rate (annual rate)	3.1% - 8.5%	3.8% - 8.1%
Impact on fair value of 10% adverse change	(\$8,406)	(\$9,108)
Impact on fair value of 20% adverse change	(\$16,109)	(\$17,444)

The sensitivity analysis presented above is hypothetical in nature and presented for information purposes only. The analysis shows the effect on fair value of a variation in one assumption and is calculated without considering the effect of changes in any other assumption. In reality, changes in one assumption may affect the others, which may magnify or offset the sensitivities.

### NOTE 5 - INVESTMENT IN DERIVATIVE FINANCIAL INSTRUMENTS

At June 30, 2003 and December 31, 2002, the Company's investments in derivative financial instruments consisted of interest rate swaps and put option contracts. For further discussion of the Company's investment in derivative financial instruments see Note 6 to the Company's 2002 Form 10-K. The Company terminated swap contracts with a total notional amount of \$105.7 million (\$319.4 million in swap contracts and \$213.6 million in reverse swap contracts). In addition, a swap contract with a notional amount of \$13.1 million expired in the second quarter of 2003. The following table provides certain information with respect to the derivative financial instruments held by the Company at June 30, 2003 and December 31, 2002.

(000s)	June 30, 2003 -----			Notional Amount (1)
	Notional Amount (1)	Fair Value (2) Assets	Liabilities (3)	Notional Amount (1)

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

Interest rate swap agreements	\$ 230,975	\$ 3,170	\$ (21,792)	\$ 349,8
Put option agreements	97,314	-	-	98,5
Total investment in derivative financial instruments		\$ 3,170	\$ (21,792)	

(1) For the interest rate swap agreements, notional amount represents total amount of the Company's interest rate swap contracts (\$265,935 as of June 30, 2003 and \$598,415 as of December 31, 2002) less the total amount of the Company's reverse interest rate swap contracts (\$34,960 as of June 30, 2003 and \$248,605 as of December 31, 2002). For put option agreements, the notional amount represents the Company's aggregate obligation under the put option agreements.

(2) The amounts disclosed represent the net fair values of all the Company's derivatives at the reporting date.

(3) The aggregate negative fair value of the investments is included in liabilities for financial reporting purposes. The negative fair value of these investments is considered temporary and is not indicative of the future earnings on these investments.

NOTE 6 - OTHER ASSETS

The Company's investment in other assets includes prepaid expenses, other receivables, debt issue costs, property and equipment, and certain investments in interest-only securities. Included in the other asset balance at June 30, 2003 and December 31, 2002 is \$9.5 million and \$23.3 million, respectively, of receivables due from various syndicated low-income housing tax credit funds (for further discussion of syndicated low-income housing tax credit funds, see Note 1 to the Company's 2002 Form 10-K). The decrease in this receivable from December 31, 2002 to June 30, 2003 is due to certain funds repaying the Company after obtaining an alternative source of financing.

NOTE 7 - NOTES PAYABLE AND DEBT

The Company's notes payable consist primarily of notes payable and advances under line of credit arrangements, which are used to: (1) finance construction lending needs; (2) finance working capital needs; (3) warehouse real estate operating partnerships before they are placed into tax credit equity funds; and (4) warehouse permanent loans before they are sold. The Company's short- and long-term debt relates to securitization transactions that the Company has recorded as borrowings (see Notes 1 and 9 to the Company's 2002 Form 10-K). The following table summarizes notes payable and debt at June 30, 2003 and December 31, 2002.

Covenant Compliance

Under the terms of the various credit facilities, the Company is required to comply with covenants including net worth, interest coverage, collateral and other terms and conditions. The Company was in compliance with its debt covenants at June 30, 2003.

NOTE 8 - GUARANTEES, COMMITMENTS AND CONTINGENCIES

For discussion of the Company's commitments and contingencies see Note 11 to the Company's 2002 Form 10-K. Since December 31, 2002, there has been no material change to the information related to commitments and contingencies.

Guarantees

The Company's maximum exposure under its guarantee obligations is not indicative of the likelihood of the expected loss under the guarantees. The Company recognizes contingent liabilities on guarantees when the losses are probable and can be reasonably estimated.

The following table summarizes the Company's guarantees by type at June 30, 2003.

Notes:

- (1) As a Fannie Mae DUS lender and Government National Mortgage Association ("GNMA") loan servicer, the Company may share in losses relating to underperforming real estate mortgage loans delivered to Fannie Mae and GNMA. More specifically, if the borrower fails to make a payment on a DUS

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

loan originated by the Company and sold to Fannie Mae, of principal, interest, taxes or insurance premiums, the Company may be required to make servicing advances to Fannie Mae. Also, the Company may participate in a deficiency after foreclosure on DUS and GNMA loans. As a DUS lender, the Company must maintain a minimum net worth and collateral with a custodian. The term of the loss sharing agreement is based on the contractual requirements of the underlying loans delivered to Fannie Mae and GNMA, which varies to a maximum of 40 years.

- (2) The Company provides payment or performance guarantees for certain borrowings under line of credit facilities with a term of 1 year or less.
- (3) The Company acquires and sells interests in partnerships that provide low-income housing tax credits for investors. In conjunction with the sale of these partnership interests, the Company may provide performance guarantees on the underlying properties owned by the partnerships or guarantees to the fund investors. These guarantees have various expirations to a maximum term of 18 years.
- (4) The Company has entered into arrangements that require the Company to make payment in the event a specified third party fails to perform on its financial obligation. The Company typically provides these guarantees in conjunction with the sale of an asset to a third party or the Company's investment in equity ventures. The term of the guarantee varies based on loan payoff schedules or Company divestitures.
- (5) The Company has entered into put option agreements with counterparties whereby the counterparty has the right to sell to the Company, and the Company has the obligation to buy, an underlying investment at a specified price. These put option agreements expire at various dates between February 1, 2006 and April 1, 2007.
- (6) The Company provides a guarantee of the repayment on losses incurred under letters of credit issued by third parties or provide a guarantee to provide substitute letters of credit at a predetermined future date. In addition, the Company may provide a payment guarantee for certain assets in securitization programs. These guarantees expire at various dates between March 1, 2004 and September 1, 2017.
- (7) The Company has entered into indemnification contracts, which require the guarantor to make payments to the guaranteed party based on changes in an underlying investment that is related to an asset or liability of the guaranteed party. These agreements typically require the Company to reimburse the guaranteed party for legal and other costs in the event of an adverse judgment in a lawsuit or the imposition of additional taxes due to a change in the tax law or an adverse interpretation of the tax law. The term of the indemnification varies based on the underlying program life, loan payoffs, or Company divestitures. Based on the terms of the underlying contracts, the maximum exposure amount only includes amounts that can be reasonably estimated at this time; the actual exposure amount could vary significantly.

### NOTE 9 - DISCONTINUED OPERATIONS

In April 2003, the Company acquired a property by deed in lieu of foreclosure. This property previously served as collateral for a tax-exempt bond held by the Company. In June 2003, the Company sold the property for net proceeds of \$38.1 million. The Company used the proceeds to terminate interest rate swaps (see Note 5 for further discussion) and to purchase third party P-FloatsSM. The P-FloatsSM replaced the tax-exempt bond as collateral with

### NOTE 10 - EARNINGS PER SHARE

The following table reconciles the numerators and denominators in the basic and diluted earnings per share ("EPS") calculations for common shares for the three and six months ended June 30, 2003 and 2002. The effect of all potentially dilutive securities was included in the calculation. The Company did not have any options to purchase common shares that were not included in the computation of diluted EPS at June 30, 2003 or 2002 due to options' exercise prices being greater than the average price of the common shares for the period.

### NOTE 11 - DISTRIBUTIONS

On July 17, 2003, the Board of Directors declared a distribution of \$0.4475 for the three months ended June 30, 2003, to common shareholders of record on July 28, 2003. The payment date was August 8, 2003.

### NOTE 12 - NON-EMPLOYEE DIRECTORS' SHARE PLANS AND EMPLOYEE SHARE INCENTIVE PLANS

The Company accounts for both the non-employee director share plans and the employee share incentive plans (see Note 1 and Note 15 to the Company's 2002 Form 10-K) under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees." Accordingly, no compensation expense has been recognized for the options issued under the plans during the second quarter of 2003. The Company issued 7,000 options in the first quarter of 2003 and 30,000 options in the second quarter of 2003. The Company issued 30,000 options in the second quarter of 2002. The

### NOTE 13 - BUSINESS SEGMENT REPORTING

The Company has two reportable business segments: (1) an operating segment consisting of subsidiaries that primarily generate taxable fee income by providing loan servicing, loan origination and other related services and (2) an investing segment consisting primarily of subsidiaries holding investments producing tax-exempt interest income. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in Note 1 to the Company's 2002 Form 10-K. A complete description of the Company's reporting segments is included in Note 18 to the Company's 2002 Form 10-K.

### NOTE 14 - RELATED PARTY TRANSACTIONS

See Note 14 of the Company's 2002 Form 10-K for a detailed description of the Company's related party transactions. Except as disclosed below, there has been no material change since December 31, 2002 to the information related to related party transactions.

In June 2003, the Company received approximately \$0.8 million in cash and a 34.1% limited partnership interest in SCA Associates 86-II Limited Partnership ("SCA86-II") from SCA Custodial Co., Inc. ("SCAC"). The general partner of SCA86-II is Shelter Development Holdings, Inc. ("Shelter Holdings"). Mr. Mark K. Joseph, the Company's Chief Executive Officer and Chairman of its Board of Directors, controls and is an officer of Shelter Holdings. Mr. Joseph also owns a 20.8% limited partnership interest in SCA86-II. In addition, Mr. Michael L. Falcone, the Company's President and Chief Operating Officer, owns a 3% limited partnership interest in SCA86-II. SCAC is indirectly wholly owned by The Shelter Policy Institute, Inc., which is controlled by Mr. Joseph.

The cash received by the Company was recorded as other income in the consolidated statements of income and is an accumulation of distributions from the 34.1% limited partnership interest in SCA86-II. SCA86-II's sole asset is shares of the Company. Therefore, the shares allocated to the Company's interest in SCA86-II are classified as treasury shares on the consolidated balance sheets. The partnership interest was held by SCAC as collateral for guaranteed obligations related to a tax-exempt bond held by the Company. In April 2003, the Company acquired the property that collateralized this bond by deed in lieu of foreclosure and subsequently sold the property to a third party (See Note 9). The sale of the property fulfilled all remaining guaranteed obligations and allowed the release of the collateral held by SCAC.

The Company no longer leases office space from an affiliate due to the sale of the building to a third party in February 2003.

### NOTE 15 - SUBSEQUENT EVENTS

On July 1, 2003, the Company acquired Housing and Community Investment ("HCI"), the tax credit equity unit of Lend Lease Real Estate Investments, for \$102 million in cash. The acquisition was financed by a \$120 million secured term credit facility provided by a syndicate of banks led by the Royal Bank of Canada. HCI is a market leading syndicator of low income tax credit equity investments. In connection with this acquisition, the Company's operating subsidiary, MuniMae Midland, LLC, has been renamed MMA Financial, LLC.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results ----- of Operations -----

#### General Business

The Company provides debt and equity financing to developers of multifamily housing. The Company invests in tax-exempt bonds, or interests in bonds, issued by state and local governments or their agencies or authorities to finance multifamily housing developments. Interest income derived from the majority of these bond investments is exempt income for federal income tax purposes. Multifamily housing developments, as well as the rents paid by the tenants, secure these investments.

The Company is also a mortgage banker. Mortgage banking activities include the origination, investment in and servicing of investments in multifamily housing, both for its own account and on behalf of third parties. These investments generate taxable income.

The Company also invests in (1) other housing-related debt and equity investments, including equity investments in income-producing real estate operating partnerships and tax-exempt bonds, or interests in bonds, secured by student housing or assisted living developments, and (2) tax-exempt community development bonds, typically secured by special taxes imposed on single-family or other community development districts or by assessments imposed on the residents or other lot owners of those developments.

The Company also acquires and sells interests in partnerships that provide low-income housing tax credits for investors. The Company earns syndication fees on the placement of these interests with investors, including Fannie Mae and a number of corporate investors. The Company also earns asset management fees for managing the low-income housing tax credit funds syndicated.

#### Liquidity and Capital Resources

The Company's sources of capital to fund its tax-exempt bond lending activities include proceeds from equity offerings, securitizations, and draws on lines of credit. The Company's sources of capital to fund its mortgage banking activities include (1) warehousing facilities and short-term lines of credit with commercial banks and pension funds, (2) debt and equity financings, either through the Midland Affordable Housing Group Trust or the Midland Multifamily Equity REIT ("MMER"), and (3) working capital.

The Company relies on the regular availability of capital from pension funds, government sponsored entities ("GSEs"), equity offerings, bank lines of credit and securitization transactions to finance its growth. The Company expects to meet its cash needs in the short-term, which consist primarily of funding of new investments, payment of distributions to shareholders and funding

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

of mortgage banking activities, from equity offering proceeds, cash on hand and bank lines of credit. To continue to grow these activities, the Company will need to increase its access to capital in 2003 and future years. The Company expects it will need \$100 to \$200 million in new capital to meet its 2003 production targets for its lending and tax credit equity businesses. The Company's February 2003 equity offering generated net proceeds of \$71.9 million to satisfy a portion of the new capital needed. The Company has also increased its borrowing capacity on two existing lines of credit by a total of \$126 million. In addition, the Company is seeking to establish relationships with additional pension funds and to expand its relationships with GSEs. If the Company is unable to secure the remaining additional capital needed during 2003, its production targets may decrease by \$130 to \$225 million.

For the three months ended June 30, 2003, the Company structured \$65.7 million in tax-exempt bond transactions. This includes both construction and permanent transactions because, although they relate to the same loans, the Company counts them as separate loans for consistency with tracking of taxable lending, where construction and permanent loans are legally distinct loans. In addition, the Company originated \$94.0 million of construction loans, \$118.4 million of permanent loans and \$7.7 million of supplemental loans. The Company also closed \$38.1 million for investment in syndicated tax credit equity funds and originated \$46.9 million of conventional market rate equity transactions.

Since December 31, 2002, there has been no material change to the information related to the Company's liquidity and capital resources except as discussed below.

### Pension Funds

MMER is a Maryland real estate investment trust established by a group of pension funds that the Company has had relationships with for over twenty-five years. During the second quarter of 2003, MMER received an additional \$7 million in share subscriptions. Of this additional subscription amount, \$2 million was from a pension fund that the Company had not had a relationship with in the past, which brought the total number of investors in MMER to five.

### Lines of Credit

During the second quarter of 2003, the Company expanded the capacity of a general bank line of credit used to fund supplemental loans from \$4 million to \$30 million. In addition, the Company expanded a loan warehousing line from \$100 million to \$200 million. The uses of this line were also expanded to include warehousing of tax-exempt bonds, new construction loans and pre-development loans. In addition, the Company's mortgage servicing rights have been added as a source of collateral.

### Leverage

The Company's leverage ratio was 51.7% and 55.8% at June 30, 2003 and December 31, 2002, respectively. This leverage ratio is based on total debt (notes payable, short- and long-term debt) divided by the Company's total capitalization (notes payable, short- and long-term debt, preferred shareholders' and minority interests' equity in subsidiary companies, and shareholders' equity). Management includes short-term debt in this calculation because of the importance of short-term debt to the Company's management of its overall cost of capital. It should be noted that this leverage ratio is one of many ways to measure leverage. For example, as of June 30, 2003, this ratio excludes \$257.5 million of securitization interests that are senior to the Company's investments that were previously accounted for as sales and includes \$183.5 million of construction loans where the economic risk belongs to a third party.

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

The Company will continue to try to maintain overall leverage ratios in the 50% to 65% range, with certain assets at significantly higher ratios, up to approximately 99%, and other assets not leveraged at all.

### Factors that Could Affect Future Results

The Company's 2002 Form 10-K contains a detailed description of the Company's factors that could affect future results. There has been no material change since December 31, 2002 to the information related to factors that could affect future results.

### Acquisition of Housing and Community Investment Unit of Lend Lease Real Estate Investments

On July 1, 2003, the Company acquired Housing and Community Investment ("HCI"), the tax credit equity unit of Lend Lease Real Estate Investments, for \$102 million in cash. The acquisition was financed by a \$120 million secured term credit facility provided by a syndicate of banks led by the Royal Bank of Canada. HCI is a market leading syndicator of low income tax credit equity investments. In connection with this acquisition, the Company's operating subsidiary, MuniMae Midland, LLC, has been renamed MMA Financial, LLC.

### Contractual Obligations

The Company's 2002 Form 10-K contains a description of the Company's material contractual obligations. Except as disclosed below, there has been no material change since December 31, 2002 to the information related to contractual obligations.

During the second quarter of 2003, the Company entered into an operating lease for 21,283 square feet of new office space. The initial term of the lease is ten years commencing October 1, 2003. Rent will be charged at the rate of \$25.20 per square foot with an escalation of 3% per year.

### Guarantees and Off-Balance Sheet Arrangements

The Company's 2002 Form 10-K contains a summary of the Company's guarantees and off-balance sheet arrangements. Since December 31, 2002, there has been no material change to the information related to guarantees and off-balance sheet obligations. See Note 8 for a table that summarizes the Company's guarantees by type as of June 30, 2003.

### Dividend Policy and Cash Available for Distribution

Consistent with its strategy of maximizing shareholder value through steady increases in cash distributions to shareholders, the Company uses cash available for distribution ("CAD") as a primary measure of its ability to pay distributions. The Company believes CAD is the most relevant measure of its ability to pay distributions, as CAD is a measure of current earnings. The Company uses this measure of current earnings as a basis for declaring its quarterly distributions.

CAD differs from net income because of variations between GAAP income and actual cash received. There are three primary differences between CAD and GAAP income. The first is the treatment of loan origination fees, which for CAD purposes are recognized as income when received but for GAAP purposes are amortized into income over the life of the associated investment. The second difference is the non-cash gain and loss recognized for GAAP associated with valuations, sales of investments and capitalization and amortization of mortgage servicing rights, which are not included in the calculation of CAD. The third difference is the treatment of the Company's investments in partnerships. For

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

GAAP, the Company records its allocable share of the income (loss) from the partnership as income, while for CAD reporting, the Company records the cash distributions it receives from the partnership as income.

Since the first quarter of 2002, when the Company completed the redemption of preferred shares and term growth shares, the Company's entire net cash flow has been available for distribution to the common shares. The Company's current policy is to distribute to common shareholders at least 80% of its annual CAD to common shares. The table below shows the Company's CAD available to common shares, CAD per common share, dividend per common share and payout ratio for the three and six months ended June 30, 2003 and 2002.

	For the three months ended June 30,		For
	2003	2002

CAD per common share (1)	0.52	0.49	
Dividend per common share	0.4475	0.4375	
Payout ratio	85.3%	89.4%	

(1) CAD per common share is calculated based on the number of shares outstanding at the end of each fiscal quarter.

The following table reconciles the Company's GAAP net income to CAD for the three and six months ended June 30, 2003 and 2002.

(7) Discontinued operations	(25,748)	-
(8) Interest income	10,793	-
Cash Available for Distribution (CAD)	\$ 15,121	\$ 12,385

### Notes

(1) For GAAP reporting, the Company records the non-cash change in fair value of its investment in interest rate swaps and other derivative financial instruments through net income. These non-cash gains and losses are not included in the Company's calculation of CAD.

(2) For GAAP reporting, the Company accounts for various investments in partnerships using the equity accounting method. As a result, the Company's allocable share of the income or loss from the partnerships is reported in

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

income (losses) from equity investments in partnerships. The income from these partnerships includes depreciation expense and changes in the fair value of investments in derivatives. For GAAP reporting, distributions are treated as a return of capital. For CAD reporting, the Company records the cash distributions it receives from the partnerships as other income. In addition, a portion of the income or loss from partnerships is reduced by a minority interest for both GAAP and CAD.

(3) For GAAP reporting, the Company recognizes non-cash gains and losses associated with the sale of assets or capitalization of mortgage servicing rights. The capitalized mortgage servicing rights are amortized into expense over the estimated life of the serviced loans. The non-cash gains and the associated amortization expense are not included in CAD.

(4) Origination fees and certain other income amounts are recognized as income when received for CAD purposes, but for GAAP reporting these items are deferred and amortized into income over the life of the associated investment. This adjustment represents the net difference, for the relevant period, between fees taken into income when received for CAD and the amortization of fees recorded for GAAP.

(5) For GAAP reporting, the Company records valuation allowances and other-than-temporary impairments on its investments in loans, bonds and other bond-related investments. Such non-cash charges do not affect the cash flow generated from the operation of the underlying properties, distributions to shareholders, or the tax-exempt status of the income of the financial obligation under the bonds. Therefore, these items are not included in the calculation of CAD.

(6) For GAAP reporting, the Company's income tax expense contains both a current and a deferred component. Only the Company's current income tax expense is reflected in CAD.

(7) For GAAP reporting, the Company recognized a gain upon the sale of a property. This gain was required to be classified as discontinued operations because the Company owned the property prior to the sale. For CAD reporting, the gain was significantly less due to recording a portion of the proceeds as interest income. In addition, the carrying value of the tax-exempt bond associated with the property was significantly more for CAD due to an impairment of \$12.4 million previously recognized for GAAP.

The calculation of CAD is the basis for the determination of the Company's quarterly distributions to common shares, is used by securities analysts, and is presented as a supplemental measure of the Company's performance. The calculation is not approved by the Securities and Exchange Commission nor is it required by GAAP and should not be considered as an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flows as a measure of liquidity. The Company believes that CAD provides relevant information about its operations and is necessary, along with net income, for understanding its operating results.

to: (1) a \$2.7 million increase in salaries and benefits resulting from a \$0.8 million increase in salaries and other compensation and a \$2.0 million increase in bonus expense; (2) a \$0.4 million increase in general and administrative expenses due primarily to: (i) increases totaling \$0.3 million due to telephone, bank fees, memberships and dues and costs related to the integration of HCI; and (ii) a \$0.1 million increase in travel and entertainment; and (3) a \$1.1 million decrease in professional fees due primarily to: (i) a \$0.5 million decrease in commission expense; and (ii) a \$0.4 million decrease in legal fees due to information systems and other corporate initiatives in the prior year. Commission expense is no longer incurred by the Company because the pass-through of commission income and expense has been transferred to the syndicated tax credit equity funds.

Total operating expenses and amortization for the six months ended June 30, 2003 increased \$3.8 million compared to the same period last year due primarily to: (1) a \$3.9 million increase in salaries and benefits resulting from a \$1.0 million increase in salaries and other compensation and a \$2.9 million increase in bonus expense; (2) a \$0.5 million increase in general and administrative expenses due primarily to: (i) increases totaling \$0.4 million due to telephone, bank fees, letter of credit fees, memberships and dues and costs related to the integration of HCI; and (ii) a \$0.1 million increase in investment acquisition expenses; and (3) a \$0.7 million decrease in professional fees due primarily to: (i) a \$1.0 million decrease in commission expense; and (ii) a \$0.3 million increase in consulting fees due to an internal controls project and the acquisition of HCI.

### Net Holding Gains on Derivatives

The Company recorded net holding losses for mark-to-market adjustments on derivative financial instruments of \$2.4 million and \$7.7 million for the quarters ended June 30, 2003 and 2002, respectively. This \$5.3 million decrease is due primarily to the termination of interest rate swaps with a total notional amount of \$105.7 million.

The Company recorded net holding gains of \$0.4 million for the six months ended June 30, 2003 for mark-to-market adjustments on derivative financial instruments, which was a \$5.0 million decrease from the \$4.6 million of losses recorded in 2002. This \$5.0 million decrease is due primarily to the termination of interest rate swaps with a total notional amount of \$105.7 million.

### Impairments and Valuation Allowances Related to Investments

In accordance with the Company's valuation and impairment policies, the Company recorded other-than-temporary impairments and valuation allowances totaling \$1.1 million during the quarter ended June 30, 2003. The impairments included a \$0.7 million impairment on a bond with a face amount of \$19.5 million and \$0.4 million of impairments on three taxable loans with total face amounts of \$7.0 million. During the quarter ended June 30, 2002, the Company did not record any other-than-temporary impairments.

The Company recorded other-than-temporary impairments totaling \$1.1 million during the six months ended June 30, 2003. The impairments included a \$0.7 million impairment on a bond with a face amount of \$19.5 million and \$0.4 million of impairments on three taxable loans with total face amounts of \$7.0 million. During the six months ended June 30, 2002, the Company recorded impairments totaling \$0.1 million on a bond with a face amount of \$0.7 million.

### Net Losses from Equity Investments in Partnerships

Net losses from equity investments in partnerships increased by \$1.7

million for the quarter ended June 30, 2003 compared to the same period last year due primarily to: (1) \$0.4 million in losses generated from investments in real estate operating partnerships that are being warehoused before transfer to syndicated tax credit equity funds; and (2) a \$1.3 million increase in losses from an investment in income-producing real estate operating partnerships and related swap partnerships. While these investments generate cash flow to the Company in the form of quarterly distributions, on a GAAP basis they generate a net loss due to non-cash adjustments for depreciation and mark-to-market adjustments related to the swap partnerships. The mark-to-market adjustments cause volatility in the losses that are recorded.

Net losses from equity investments in partnerships increased by \$2.1 million for the six months ended June 30, 2003 compared to the same period last year due primarily to: (1) \$0.9 million in losses generated from investments in real estate operating partnerships that are being warehoused before transfer to syndicated tax credit equity funds; and (2) a \$1.2 million increase in losses from an investment in income-producing real estate operating partnerships and related swap partnerships.

### Income Tax Expense

Income tax expense for the quarter ended June 30, 2003 decreased \$1.4 million compared to the same period last year. This decrease is due primarily to a decrease in net income within the operating segment, which contains corporations that are subject to income taxes.

Income tax expense for the six months ended June 30, 2003 decreased \$2.3 million compared to the same period last year. This decrease is due primarily to a decrease in net income within the operating segment, which contains corporations that are subject to income taxes.

### Income Allocable to Preferred Shareholders and Minority Interests in Subsidiary Companies

Income allocable to preferred shareholders in a subsidiary company remained the same for the quarter ended and six months ended June 30, 2003 as compared to the same periods last year. There have not been any new series of preferred shares issued since October 2001.

Expense allocable to minority interests in subsidiary companies increased by \$0.1 million and \$0.3 million for the quarter ended and six months ended June 30, 2003, respectively. This expense was not present during 2002.

### Discontinued Operations

During the quarter ended June 30, 2003, the Company acquired a property by deed in lieu of foreclosure. This property previously served as collateral for a tax-exempt bond held by the Company. The Company sold the property for net proceeds of \$38.1 million, which resulted in a \$26.8 million gain. The \$26.8 million gain and \$1.0 million of losses from operations of the property were classified as discontinued operations in the consolidated statements of income.

### Net Income

Net income for the quarter ended June 30, 2003 increased by \$28.2 million compared to the same period last year due primarily to: (1) a \$25.7 million increase from discontinued operations; (2) a \$5.3 million decrease in net holding losses on derivatives; (3) a \$2.1 million increase in other income; (4) a \$1.4 million decrease in income tax expense; offset by (5) a \$2.7 million

increase in salaries and benefits; (6) a \$2.5 million decrease in the accrual of interest on bonds, residual interests in bond securitizations and loans; and (7) a \$1.7 million increase in net losses from equity investments in partnerships.

Net income for the six months ended June 30, 2003 increased by \$27.1 million compared to the same period last year due primarily to: (1) a \$25.7 million increase from discontinued operations; (2) a \$5.0 million decrease in net holding losses on derivatives; (3) a \$3.1 million increase in other income; (4) a \$2.3 million decrease in income tax expense; offset by (5) a \$3.9 million increase in salaries and benefits; (6) a \$2.1 million increase in net losses from equity investments in partnerships; (7) a \$1.6 million increase in interest expense; and (8) a \$1.0 million increase in other-than-temporary impairments recorded in 2003.

### Other Comprehensive Income (Loss)

For the quarter ended June 30, 2003, the net adjustment to other comprehensive income for unrealized holding gains on tax-exempt bonds and residual interests in bond securitizations available for sale was \$16.5 million. After a reclassification adjustment for gains of \$24.7 million included in net income, other comprehensive loss for the quarter ended June 30, 2003 was \$8.2 million and total comprehensive income was \$22.9 million.

For the quarter ended June 30, 2002, the net adjustment to other comprehensive income for unrealized holding gains on tax-exempt bonds and residual interests in bond securitizations available for sale was \$2.9 million, and total comprehensive income was \$5.8 million.

For the six months ended June 30, 2003, the net adjustment to other comprehensive income for unrealized holding gains on tax-exempt bonds and residual interests in bond securitizations available for sale was \$21.1 million. After a reclassification adjustment for gains of \$24.7 million included in net income, other comprehensive loss for the six months ended June 30, 2003 was \$3.6 million and total comprehensive income was \$41.4 million.

For the six months ended June 30, 2002, the net adjustment to other comprehensive income for unrealized holding losses on tax-exempt bonds and residual interests in bond securitizations available for sale was \$1.2 million. After a reclassification adjustment for gains of \$1.0 million included in net income, other comprehensive loss for the six months ended June 30, 2002 was \$2.2 million and total comprehensive income was \$15.8 million.

### Critical Accounting Policies and Estimates

The Company's 2002 Form 10-K contains a detailed description of the Company's critical accounting policies and estimates. Since December 31, 2002, there has been no material change to the information related to critical accounting policies and estimates.

### New Accounting Pronouncements

In May 2003, the Financial Accounting Standards Board approved Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("FAS 150"). FAS 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify those financial instruments with certain debt-like characteristics as liabilities. The scope of FAS 150 includes financial instruments issued in the form of mandatorily redeemable shares. These types of shares embody an unconditional obligation requiring the issuer to redeem them by transferring assets at a specified date. Management has

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

determined that the Company's preferred shareholders' equity in a subsidiary company appears to fall within the scope of FAS 150. Therefore, the Company will be required to reclassify its preferred shareholders' equity of \$160.5 million to the liability section of the consolidated balance sheets. In addition, amounts currently classified as distributions paid to the preferred shareholders will be recorded as interest expense. FAS 150 is effective for instruments held by the Company at the beginning of the first interim period beginning after June 15, 2003.

In January 2003, the Financial Accounting Standards Board approved Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"). FIN 46 requires the consolidation of a Company's equity investment in a variable interest entity ("VIE") if the Company is the primary beneficiary of the VIE and if risks are not effectively dispersed among the owners of the VIE. The Company is considered to be the primary beneficiary of the VIE if the Company absorbs the majority of the losses of the VIE. FIN 46 is effective for VIEs created after January 31, 2003. For any VIE in which the Company held an interest that it acquired before February 1, 2003, FIN 46 is effective for the first interim reporting period beginning after June 15, 2003. The Company is currently reviewing the impact of FIN 46 on the tax credit syndication funds that a wholly owned subsidiary of the Company sponsors and asset manages, as well as investments accounted for under the equity method of accounting. The Company will continue to review new investments in order to determine if they should be accounted for in accordance with FIN 46.

### Related Party Transactions

The Company's 2002 Form 10-K contains a detailed description of the Company's related party transactions. Except as disclosed below, there has been no material change since December 31, 2002 to the information related to related party transactions.

In June 2003, the Company received approximately \$0.8 million in cash and a 34.1% limited partnership interest in SCA Associates 86-II Limited Partnership ("SCA86-II") from SCA Custodial Co., Inc. ("SCAC"). The general partner of SCA86-II is Shelter Development Holdings, Inc. ("Shelter Holdings"). Mr. Mark K. Joseph, the Company's Chief Executive Officer and Chairman of its Board of Directors, controls and is an officer of Shelter Holdings. Mr. Joseph also owns a 20.8% limited partnership interest in SCA86-II. In addition, Mr. Michael L. Falcone, the Company's President and Chief Operating Officer, owns a 3% limited partnership interest in SCA86-II. SCAC is indirectly wholly owned by The Shelter Policy Institute, Inc., which is controlled by Mr. Joseph.

The cash received by the Company was recorded as other income in the consolidated statements of income and is an accumulation of distributions from the 34.1% limited partnership interest in SCA86-II. SCA86-II's sole asset is shares of the Company. Therefore, the shares allocated to the Company's interest in SCA86-II are classified as treasury shares on the consolidated balance sheets. The partnership interest was held by SCAC as collateral for guaranteed obligations related to a tax-exempt bond held by the Company. In April 2003, the Company acquired the property that collateralized this bond by deed in lieu of foreclosure and subsequently sold the property to a third party (See Note 9). The sale of the property fulfilled all remaining guaranteed obligations and allowed the release of the collateral held by SCAC.

The Company no longer leases office space from an affiliate due to the sale of the building to a third party in February 2003.

### Income Tax Considerations

MuniMae is organized as a limited liability company. This structure allows MuniMae to combine the limited liability, governance and management

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

characteristics of a corporation with the pass-through income features of a partnership. Therefore, the distributive share of MuniMae's income, deductions and credits is included in each shareholder's income tax return. In addition, the tax-exempt income derived from certain investments remains tax-exempt when it is passed through to the shareholders. MuniMae records cash dividends received from subsidiaries organized as corporations as dividend income for tax purposes. Shareholders' distributive share of MuniMae's income, deductions and credits are reported to shareholders on Internal Revenue Service Schedule K-1.

While the bulk of the Company's recurring interest income is tax-exempt, from time to time the Company may sell or securitize various assets, which may result in capital gains and losses for tax purposes. Since the Company is taxed as a partnership, these capital gains and losses are passed through to shareholders and are reported on each shareholder's Schedule K-1. Until January 1, 2003, the Company had elected under Section 754 of the Internal Revenue Code to adjust the tax basis of the Company's property on the transfer of shares to reflect the price each shareholder paid for its shares. As a result, for shares purchased prior to January 1, 2003, the capital gain and loss allocated to those shares may be different for each shareholder due to the Company's Section 754 election and will depend on, among other things, the timing of the shareholder's purchase of the shares, the timing of transactions that generate gains or losses for the Company and the difference (the "Basis Difference") between the Company's tax basis in its property and a shareholder's tax basis in the shares. This means that for assets purchased by the Company prior to a shareholder's purchase of shares, the shareholder's basis in the assets may be significantly different than the Company's basis in those same assets. Although the procedure for allocating the basis adjustment is complex, the result of the election is that each share is homogeneous, while each shareholder's basis in the assets of the Company may be different. Consequently, the capital gains and losses allocated to individual shareholders may be significantly different than the capital gains and losses recorded by the Company.

In January 2003, the Company applied to have its election under Section 754 of the Internal Revenue Code revoked. The Company applied for this revocation due to the increasing administrative burden attributable to this election resulting from the increased numbers of common shareholders and the increasing frequency both of events generating capital gain or loss and of purchases and sales of common shares.

In May 2003, the Internal Revenue Service approved the Company's application to revoke its election under Section 754 for the Company's tax year ending December 31, 2003. As a result, for common shares purchased on or after January 1, 2003, the capital gain and loss allocated from the Company will be based on their pro-rata share of the Company's gain and loss allocated without regard to the Basis Difference. In other words, for shares purchased prior to January 1, 2003, portions of the Basis Difference may from time to time be recognized and reported on the shareholder's Schedule K-1 as and when the Company's assets are sold. While for shares purchased on or after January 1, 2003, the Basis Difference will be eliminated when the shareholder sells the shares.

This change in the method of calculating the Company's tax basis in its assets could result in the shareholder being allocated more or less income in any given year than he or she would have received if the Section 754 election remained in place; however, it is difficult to predict the precise impact of the change for individual shareholders. The revocation of the Company's 754 election may result in shareholders who purchase shares on or after January 1, 2003, experiencing a difference in the overall character of income allocated or recognized.

A portion of the Company's interest income is derived from private activity bonds that for income tax purposes are considered tax preference items for

purposes of alternative minimum tax ("AMT"). AMT is a mechanism within the Internal Revenue Code to ensure that all taxpayers pay at least a minimum amount of taxes. All taxpayers are subject to the AMT calculation requirements although the majority of taxpayers will not actually pay AMT. As a result of AMT, the percentage of the Company's income that is exempt from federal income tax may be different for each shareholder depending on that shareholder's individual tax situation.

The Company has numerous corporate subsidiaries that are subject to income taxes. The Company provides for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("FAS 109"). FAS 109 requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax basis of assets and liabilities.

### Item 3. Quantitative and Qualitative Disclosures about Market Risk

-----

Since December 31, 2002 there has been no material change to the information included in Item 7A of the Company's 2002 Form 10-K.

### Item 4. Controls and Procedures

-----

#### (a) Evaluation of disclosure controls and procedures

The term "disclosure controls and procedures" is defined in Rules 13a-14(c) and 15d-14(c) of the Securities and Exchange Act of 1934 (the "Exchange Act"). These rules refer to the controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required time periods. Our Chief Executive Officer and our Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures as of a date within 90 days before the filing of this quarterly report (the "Evaluation Date"), and they have concluded that, as of the Evaluation Date, such controls and procedures were effective at ensuring that required information will be disclosed on a timely basis in our reports filed under the Exchange Act.

#### (b) Changes in internal controls

We maintain a system of internal accounting controls that are designed to provide reasonable assurance that our books and records accurately reflect our transactions and that our established policies and procedures are followed. For the quarter ended June 30, 2003, there were no significant changes to our internal controls or in other factors that could significantly affect our internal controls.
