Part I

Item 1. Business

Western Sizzlin Corporation is a holding company owning subsidiaries engaged in number of diverse business activities. Our primary business activities are conducted through Western Sizzlin Franchise Corporation and Western Sizzlin Stores, Inc., which franchise and operate 122 restaurants in 20 states, including five Company-owned, 116 franchise restaurants, and one joint venture restaurant. We currently operate and/or franchise the following concepts: Western Sizzlin, Western Sizzlin Wood Grill, Western Sizzlin Express, Great American Steak & Buffet, and Quincy Steakhouses.

Financial decisions are centralized at the holding company level, and management of operating businesses is decentralized at the business unit level. Investment and all other capital allocation decisions are made for us and our subsidiaries by Mr. Sardar Biglari, Chairman and Chief Executive Officer. Our primary objective centers on achieving above-average returns on capital in pursuit of maximizing the eventual net worth of our stockholders.

Effective January 1, 2007, we restructured our operations into a holding company/subsidiary format whereby all operations are now conducted through wholly-owned subsidiaries. This restructuring is not anticipated to have any tax impact and will have no impact on our financial reporting as we will continue to report consolidated financial statements.

In April 2007, we formed Western Investments, Inc., a Delaware corporation and wholly-owned subsidiary to serve as the general partner of Western Acquisitions, L.P., a Delaware limited partnership that operates as a private investment fund. Through Western Investments, Mr. Biglari operates as the portfolio manager to the fund.

We seek to invest, at the holding company and through subsidiaries, including Western Acquisitions, L.P, in stocks of businesses at prices below their intrinsic business value. Our preferred strategy is to allocate a meaningful amount of capital in each investee, resulting in

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

concentration. The carrying values of these investments are exposed to market price fluctuations, which may be accentuated by a concentrated equity portfolio. A significant decline in the price of major investments may produce a large decrease in our net earnings and our stockholders equity (See Note 6).

Western Investments, Inc. is the majority investor in Western Acquisitions, L.P., at December 31, 2007. During the third quarter ended September 30, 2007, we contributed cash along with holdings in the common stock of The Steak n Shake Company to Western Investments, Inc., which in turn contributed these assets to Western Acquisitions, L.P.

Western Investments' role as the general partner of Western Acquisitions, L.P. carries with it the obligation to manage the operations of the fund, and in this regard it will be assisted by a professional fund administrator. For serving as the fund's general partner, Western Investments may receive a monthly management fee equal to one-twelfth of 1% of the value of the capital account of each limited partner. It also may receive an annual incentive allocation equal to 20% of the portion of each limited partner's pro rata share of the fund's net profits for each fiscal year in excess of net losses allocated to each limited partner and carried forward from prior years. All or part of these fees may be waived by Western Investments. Limited partnership interests in the fund are either Class A or Class B. The classes are identical except that Class A interests must be held for two years, whereas Class B interests are locked-up for five years. Additionally, Western Investments will at the end of the five year period reimburse the holders of Class B interests for the first 30% of any

cumulative net losses they may suffer. This commitment carries significant risk. See Item 1.A. Risk Factors. As of December 31, 2007, Western Acquisitions, L.P. did not have any limited partners holding Class B interests.

Restaurant and Franchise Operations Overview

Restaurant Operations and Support

Our aim is to deliver a dining experience that exceeds customer expectations. Consistently providing high quality, flavorful food products with both a full line of entree offerings and an enhanced buffet bar offering can be a challenge. Our goal is not only to meet this challenge, but to exceed the guest expectation of both quality and service, and to offer a price point that the guest will perceive as an exceptional value.

There are several factors necessary for achieving our goal:

- Food Quality:
 - Our restaurants use high quality ingredients in all menu offerings. Additionally, all food preparation is done on premises, by either small batch or large batch cooking procedures. Guest flow determines which type will be used.
 - We strive to ensure that each recipe is prepared and served promptly to guarantee maximum freshness, appeal and that proper serving temperatures are maintained. We believe that our food preparation and delivery system enables us to produce higher quality and more flavorful food than is possible in other steak and buffet or cafeteria style restaurants.
- Menu Selection:

Our restaurants emphasize two traditional American style offerings:

- The first is the traditional family style steakhouse, which became popular during the 1960 s. Since that time, the primary red meat offering has grown extensively and now includes a vast array of chicken, pork, seafood and many other protein dishes.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

- The second is a full line of both hot & cold food buffet, which has become a very appealing option for our guests. Our rotating daily menu offerings, displayed on one of our many scatter bars in the buffet area, clearly demonstrate our home cooking flavor profile.

We believe that our extensive food offering provides the guest with delicious variety and a flavorful dining experience that will encourage them to visit our restaurants time after time.

- Price/Value Relationship:

We are committed to providing our guests with excellent price to value alternatives in the full-service casual dining restaurant sector and traditional steak and buffet restaurants. At our restaurants, the guests are provided with a choice of many different entree offerings and they can also choose to enjoy our all-you-care-to-eat unlimited food or buffet bar offerings. We believe the perceived price value is excellent, with lunch ranging between \$5.00 and \$9.75 and dinner ranging between \$7.00 and \$15.50. Additionally, our restaurants normally offer special reduced prices for senior citizens and children under 12 and other special promotions from time to time.

- Efficient Food Service and Delivery System:

The scatter bar format, food preparation methods and restaurant layout are all designed to efficiently serve a large number of guests, while enhancing the overall quality of the dining experience. In addition, preparing food in the proper amounts, serving it in several easily accessible areas (scatter bars) and closely monitoring consumption will shorten guest lines, increase frequency of table turns, improve over-all quality and reduce waste; thereby increasing guest satisfaction and

restaurant level profitability. Our restaurants range in size from approximately 5,200 square feet to 12,000 square feet. A description of these properties is provided in Item 2.

Site Selection and Construction

In selecting new restaurant locations, we consider target population density, local competition, household income levels and trade area demographics, as well as specific characteristics, including visibility, accessibility, parking capacity and traffic volume. An important factor in site selection is the convenience of the potential location to both lunch and dinner guests and the occupancy cost of the proposed site. We also take into account the success of other chain restaurants operating in the area.

Potential site locations are identified by a potential franchisee and/or corporate personnel, consultants and independent real estate brokers. Our executive management team will approve or disapprove any proposed restaurant site. The majority of restaurants are free-standing but some restaurants are developed in other formats such as strip centers.

Historically when a restaurant has been built in an existing facility, renovation and construction has taken approximately 60 to 120 days after the required construction permits have been obtained. New construction of free-standing restaurants requires a longer period of time and can range from 120 to 180 days. Also, when obtaining a construction permit, we have generally experienced a waiting period ranging from approximately 20 to 90 days.

Restaurants are constructed by outside general contractors. We expect to continue this practice for the foreseeable future.

Restaurant Management and Employees

The management staff of a typical restaurant consists of one General Manager, one Assistant General Manager and one or two Associate Managers. Individual restaurants typically employ between 40 and 80 non-management hourly employees (a mix of both part-time and full-time workers), depending on restaurant size and sales volume.

The General Manager of a restaurant has responsibility for the day-to-day operation of a restaurant, acts independently to maximize restaurant performance, and follows company-established management policies. The General Manager makes personnel decisions and determines orders for produce and dairy products, as well as, centrally contracted food items and other supplies.

Recruiting

We attempt to attract and train high quality employees at all levels of restaurant operations. Generally, restaurant management is either recruited from outside the company and has had significant prior restaurant experience or has been promoted through the system as experience levels increased. As we continue to grow, our management will continue to recruit restaurant management personnel from among non-management employees within our system and supplement these resources through outside hiring.

Management Training

We have implemented strict operating standards. We maintain a strong standardized training process which plays a critical role in maintaining operational propriety. All management employees, including Assistant Managers, regardless of former experience, participate in a six to eight week formal course of training. Periodically, additional training is provided during each calendar year through a series of two to three day seminars, to provide the most current information on a variety of topics including sales building techniques, labor controls and food cost management. Non-management employees are generally trained at the local restaurant site.

Purchasing

In 2004, we negotiated a national, five-year contract with a broadline distributor and one to twelve month agreements with other vendors, as well. This allows us to maximize our buying power based on volume and also works towards our goals of system-wide consistency. We utilize velocity reports supplied by our various distributors to look for opportunities to consolidate our purchases resulting in cost of food savings. Our stores are divided into areas based on

geographical location. While each store places their own orders with the various distributors, the most successful stores are the ones who support the areas and use the volume of the combined buying power to be as economically efficient as possible.

Hours of Operation

Our restaurants are open seven days a week, typically from 11:00 a.m. to 10:00 p.m.

Franchise Operations

Our standard franchise agreement has a 20-year term, with one ten-year renewal option. It generally provides for a one-time payment to us of an initial franchise fee and a continuing royalty fee based on gross sales. We collect weekly and monthly sales reports from our franchisees as well as periodic and annual financial statements.

Each franchisee is responsible for selecting the location for its restaurant, subject to our approval. We consider such factors as demographics, competition, traffic volume and patterns, parking, site layout, size and other physical characteristics in approving proposed sites.

Franchisees must operate their restaurants in compliance with our operating and recipe manuals. Franchisees are not required to purchase food products or other supplies through our suppliers, but are required to purchase proprietary products from us. Each franchised restaurant must have a designated General Manager and Assistant Manager who have completed our six-week manager training program or who have been otherwise approved by us. For the opening of a restaurant, we provide consultation and make our personnel generally available to a franchisee. In addition, we send a team of personnel to the restaurant for up to two weeks to assist the franchisee and its managers in the opening, the initial marketing and training effort, as well as the overall operation of the restaurant.

We may terminate a franchise agreement for a number of reasons, including a franchisee's failure to pay royalty fees when due, failure to comply with applicable laws, or repeated failure to comply with one or more requirements of the franchise agreement. Many state franchise laws limit our ability to terminate or refuse to renew a franchise. A franchisee may terminate a franchise agreement and continue to operate the restaurant as a competitive concept by paying liquidated damages to us. We do not anticipate that the termination of any single franchise agreement would have a materially adverse effect on our operations. Termination by a multiple-unit franchisee of several franchise agreements for various locations could, however, have a materially adverse effect on our operations.

Our franchise agreement contains provisions that prohibit franchisees from disclosing proprietary information about our restaurant operating system. Our standard franchise agreement also contains non-competition provisions that, for the duration of the agreement and for one or two years following termination, prohibit a franchisee from directly or indirectly competing with us or soliciting employees to leave us. There is no assurance that these contractual provisions will effectively prevent the appropriation by franchisees of business opportunities and proprietary information. More discussion is contained in the caption Government Regulation.

Marketing and Promotion

Marketing and operations work hand-in-hand for all of our company concepts where a shared mutual vision provides value to the guest through hard work, quality and high standards. We know that communication plays a strong role in the fulfillment of our goals.

The Advertising Development and Research Fund or ADRF, financed through vendor support and member dues, is our franchisee-controlled graphic art design/marketing agency. It is incorporated under the name WSI ADRF, Inc.

ADRF creates, designs and produces each marketing campaign for the company and our franchisees. Production includes several major marketing campaigns annually in addition to menus, table tents, posters, indoor and outdoor signage, gift certificates and other marketing tools.

The marketing effort is communicated through a vast system of printed materials such as a corporate newsletter, internet webpages, training manuals, tapes and videos.

The marketing department is primarily self-sufficient in production capabilities with some of the most sophisticated

computer and graphic equipment available. ADRF is staffed by professionals experienced in all phases of marketing, graphics / design, and communications. Their efforts have produced and coordinated promotions that include national sweepstakes campaigns, television commercials, national convention materials and training videos.

The coordinated efforts of ADRF, area field consultants, training instructors, corporate personnel, franchise owners, managers and the entire system of operators share in the ongoing success of marketing programs. Our programs utilize virtually all types of media including billboards, newspapers, television and radio.

Restaurant Industry and Competition

The restaurant industry is extremely competitive. We compete on the basis of the quality and value of food products offered, price, service, ambiance and overall dining experience. Our competitors include a large and diverse group of restaurant chains and individually owned restaurants. The number of restaurants with operations generally similar to ours has grown considerably in the last several years. We believe competition among this style of restaurant is increasing.

In addition, our business is affected by changes in consumer tastes, national, regional and local economic conditions and market trends. The performance of individual restaurants may be affected by factors such as traffic patterns, demographic considerations and the type, number and location of competing restaurants. Our significant investment in, and long-term commitment to, each of our restaurant sites limits our ability to respond quickly or effectively to changes in local competitive conditions or other changes that could affect our operations. Our continued success is dependent to a substantial extent on our reputation for providing high quality and value and this reputation may be affected not only by the performance of company-owned restaurants but also by the performance of franchisee-owned restaurants over which we have limited control.

Government Regulation

Our business is subject to and affected by various federal, state and local laws. Each restaurant must comply with state, county and municipal licensing and regulation requirements relating to health, safety, sanitation, building construction and fire prevention. Difficulties in obtaining or failure to obtain required licenses or approvals could delay or prevent the development of additional restaurants. We have not experienced significant difficulties in obtaining such licenses and approvals to date.

We are subject to Federal Trade Commission (FTC) regulation and various state laws that regulate the offer and sale of franchises. The FTC requires us to provide prospective franchisees with a franchise offering circular containing prescribed information about us and our franchise operations. Some states in which we have existing franchises and a number of states in which we might consider franchising regulate the sale of franchises. Several states require the registration of franchise offering circulars. Beyond state registration requirements, several states regulate the substance of the franchisor-franchisee relationship and, from time to time, bills are introduced in Congress aimed at imposing federal registration on franchisors. Many of the state franchise laws limit, among other things, the duration and scope of noncompetition and termination provisions of franchise agreements.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

Our restaurants are subject to federal and state laws governing wages, working conditions, citizenship requirements and overtime. From time-to-time, federal and state legislatures increase minimum wages or mandate other work-place changes that involve additional costs for our restaurants. There is no assurance that we will be able to pass such increased costs on to our guests or that, if we were able to do so, we could do so in a short period of time.

Trademarks

We believe our rights in our trademarks and service marks are important to our marketing efforts and a valuable part of our business. Following are marks that are registered for restaurant services on the Principal Register of the U.S. Patent and Trademark Office: Western Sizzlin , Western Sizzlin Steak House , Western , Sizzlin , Western Sizzlin Cow , Western Sizzlin Steak & More , Western Sizzlin County Fair Buffet and Bakery , Flamekist , Marshall , Gun Smoke , Six Shooter , Big Tex , Dude , Trailblazer , Ranger , Cheyenne , Colt 45 , Cookin' What Amn , American Steak and Buffet Company , Great American Buffet , Western Sizzlin Wood Grill and Buffet , and Western Sizzlin Wood Grill .

Employees

As of December 31, 2007, we employed approximately 260 persons, of whom approximately 227 were restaurant employees, 19 were restaurant management and supervisory personnel, and 14 were corporate personnel. Restaurant employees include both full-time and part-time workers and all are paid on an hourly basis. None of our employees is covered by a collective bargaining agreement and we consider our employee relations to be good.

Item 1A. Risk Factors

We are dependent on key personnel.

We believe that our success depends in part on the services of Sardar Biglari, our Chairman, President and Chief Executive Officer, and Robyn B. Mabe, Vice President and Chief Financial Officer. The loss of the services of Mr. Biglari or Mrs. Mabe could have a material adverse effect upon our business, financial condition and results of operations. Qualified replacements may not be available in a timely manner, if at all. Our continued growth will also depend on our ability to attract and retain additional skilled management personnel.

Our stock price could be volatile.

Fluctuations in our stock price may result from general market conditions, perceived changes in the underlying characteristics of our business, and the relative price of competing investments. The volume of trading in the market for our common stock is typically very limited. As a consequence, liquidating your investment could cause a decline in our stock price. Because of changes in the balance of buy and sell orders, notwithstanding other relevant factors, the price of our common stock can fluctuate for reasons unrelated to the performance of our business.

We are controlled by a few stockholders.

Two stockholders, Sardar Biglari, our Chairman and Chief Executive Officer, and Jonathan Dash, a director, beneficially own or exercise voting power over approximately 61% of our total common stock. In particular, Mr. Biglari controls approximately 35% and Mr. Dash approximately 26% of our outstanding common stock. Further details on their respective holdings are reflected in their Schedules 13D, as amended, which are filed with the SEC. Were these stockholders to agree to act in concert, they would have the ability to control or significantly influence all matters requiring the approval of our stockholders, including the election of its directors. Sale of a substantial number of shares of our common stock by these principal stockholders in the public market could substantially reduce the prevailing market price of the common stock.

Our Board of Directors has recently undergone significant change.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

In November 2005, we added three new members to its Board of Directors, namely Sardar Biglari, Philip L. Cooley and Paul D. Sonkin. Subsequently, in March 2006, six of the incumbent directors, Paul C. Schorr, III (former Chairman), A. Jones Yorke, J. Alan Cowart, Jr., Pat Vezertzis, Jesse M. Harrington and Roger D. Sack, resigned from the Board. At that same time Mr. Sonkin indicated that he would not stand for reelection at the 2006 annual meeting of stockholders. He ultimately resigned prior to the annual meeting. Jonathan Dash was elected to the Board in March 2006. Thomas M. Hontzas resigned from the Board in August 2006. Kenneth R. Cooper was elected to the Board in February 2007 and Martin S. Fridson was elected to the Board in November 2007. While we believe that the Board of Directors as presently constituted with Sardar Biglari as Chairman, Philip L. Cooley as Vice Chairman and Directors Titus W. Greene, Jonathan Dash, Kenneth R. Cooper and Martin S. Fridson, will function at least as well as the Board had done previously, there is no guarantee this will be the case. The failure of the Board to function adequately together would have a material adverse effect on our business. This could result in an adverse impact on our financial condition, results of operations and stock price.

We recently formed a new wholly-owned subsidiary, Western Investments, Inc., to serve as the general partner of a private investment limited partnership, Western Acquisitions, L.P. Western Investments will bear the first 30% of any cumulative net losses otherwise allocable to the capital accounts of certain limited partners.

In April 2007, we formed Western Investments, Inc., a Delaware corporation, as a wholly-owned subsidiary. Western Investments, Inc. is the general partner of Western Acquisitions, L.P., a Delaware limited partnership also formed in April 2007. The purpose of Western Acquisitions, L.P. is to invest primarily in equity securities of U.S. publicly traded companies. Sardar Biglari, our Chairman, Chief Executive Officer and President, will manage the portfolio. Western

Investments, Inc. will bear the first 30% of any cumulative net losses otherwise allocable to the capital accounts of limited partners holding Class B interests of Western Acquisitions, L.P. In the event that Western Investments, Inc. has insufficient resources to fund this commitment, it may be necessary for us to make a capital contribution to keep that company from defaulting on its obligation. Such an event could potentially have a material adverse effect on our financial position and prevents us from using the funds provided to Western Investments, Inc. in other areas. As of the date of this filing, Western Acquisitions, L.P. did not have any limited partners holding Class B interests.

We recently formed a new wholly-owned subsidiary, Western Properties, Inc. to serve as the general partner of a private investment limited partnership, Western Real Estate, L.P., which had no limited partners in 2007 but intends to operate as a private real estate investment partnership.

In December 2007, we formed Western Properties, Inc., a Delaware corporation, as a wholly-owned subsidiary. Western Properties is the general partner of Western Real Estate, L.P., a Delaware limited partnership also formed in December 2007. There were no limited partners in the partnership at December 31, 2007 and the sole activity of these entities in 2007 was the purchase by the limited partnership of 23 acres of real property in Bexar County, Texas from an unaffiliated third party. It is the intention of Western Real Estate, L.P., to operate as a private limited partnership investing in real estate however this venture is in the formative stages and there is no guarantee that it will be successful.

We are dependent on one key person for investment and capital allocation decisions.

Investment decisions and all major capital allocation decisions are made for us and our subsidiaries, including Western Acquisitions, by Sardar Biglari, our Chairman of the Board of Directors, Chief Executive Officer and President. Although there are limitations on Mr. Biglari's authority at the parent company level and our Board of Directors monitors his investment and capital allocation decisions, there is risk in having concentrated decision-making authority. Mr. Biglari's decisions could either independently or in the aggregate involve amounts that are material to our business. Additionally, if for any reason the services of Mr. Biglari were to become unavailable, there could be a material adverse effect on our business, since he is singularly responsible for these decisions.

Our investments in marketable securities, including through Western Acquisitions L.P., are highly concentrated.

Our investments in marketable securities, including through Western Acquisitions, L.P., are highly concentrated. A decline in the market value of these investments may result in a decrease in our stock price.

Our investment activities, including through Western Acquisitions, L.P., may involve the purchase of securities on margin.

We may purchase securities on margin in connection with our investment activities, including through Western Acquisitions, L.P. If we do so, a significant decrease in the value of the securities that collateralize the margin line of credit could result in a margin call. If we do not have sufficient cash available from other sources in the event of a margin call, we may be required to sell those securities at a time when we would prefer not to sell them.

Our investment activities could require registration as an Investment Company.

While we have historically been principally engaged in franchising and operating restaurants, our recent investment activities could bring us within the definition of an investment company and require us to register as an investment company under the Investment Company Act of 1940. The Board of Directors has adopted a policy requiring management to restrict the Company's operations and investment activities to avoid becoming an investment company, until and unless the Board approves otherwise. We do not intend to change our principal business and the Board has not approved otherwise. Although we do not presently intend to change its principal business, and the Board has not approved any such change, we have expanded our investment activities, and may decide in the future to register as an investment company under the Investment Company Act. Also, under certain circumstances, if we are successful in investment activities, then we may inadvertently fall within the definition of an investment company, in which event we may be required to register as an investment company.

Notwithstanding our Board policy, if our investment activities inadvertently result in our being determined to be an investment company and we fail to register as an investment company, we might be unable to enforce contracts with third parties, and third parties could seek rescission of transactions with us undertaken during the period that we were an

unregistered investment company, subject to equitable considerations set forth in the Investment Company Act. In addition, we might be subject to monetary penalties or injunctive relief, or both, in an action brought against us by the SEC.

If we decide to register as an investment company, then we would become subject to various provisions of the Investment Company Act and the regulations adopted under such Act, which are very extensive and could adversely affect our operations. For example, we might be prohibited from entering into or continuing transactions with certain of our affiliates.

We are experiencing a decline in our franchise base.

We have experienced steady declines in our existing franchise base for the past several years. Since January 1, 2005, we had a total of 35 closures and currently have a total of 116 franchised restaurants. Of the 35 closed restaurants the majority were Western Sizzlin brand restaurants. The average annual sales of our franchised restaurants are approximately \$1.6 million. The average annual sales of the closed restaurants were \$1.0 million or less. The closures of franchised restaurants were caused by their operating at a competitive disadvantage which stemmed from such factors as location, facility, lack of reinvestment and mismanagement, among others factors. There is no guarantee that these reasons will be eliminated. Moreover, these closures occurred during generally favorable economic conditions and it is possible that this trend could accelerate in the event of an economic downturn or recession. While we are striving to reverse this trend by revitalizing our franchise models, there is no assurance that we will be successful in doing so and as a result our franchise base may continue to decline regardless of the economic environment.

Our restaurants operate in a highly competitive environment.

Our restaurants, both franchised and Company-owned, operate in a highly competitive industry comprised of a large number of restaurants, including national and regional restaurant chains and franchised restaurant operations, as well as locally-owned, independent restaurants. Price, restaurant location, food quality, service and attractiveness of facilities are important aspects of competition. The competitive environment is often affected by factors beyond a particular restaurant management's control, including changes in the public's taste and eating habits, population and traffic patterns and economic conditions. New competitors may emerge at any time. We may not be able to compete successfully against our competitors in the future. Competition may have a material adverse effect on our operations or earnings.

We are highly dependent on attracting and retaining qualified employees while also controlling labor costs.

We are extremely dependent upon the availability of qualified restaurant personnel. Availability of staff varies widely from location to location. If restaurant management and staff turnover trends increase, we would suffer higher direct costs associated with recruiting and retaining replacement personnel. We could suffer from significant indirect costs, including restaurant disruptions due to management changeover and potential delays in new store openings due to staff shortages. Competition for qualified employees exerts upward pressure on wages paid to attract personnel, resulting in higher labor costs, together with greater expense to recruit and train them. Many of our employees are hourly workers whose wages are likely to be impacted by an increase in the federal or state minimum wage. An increase in the minimum wage may require an increase or create pressure to increase the pay scale for our employees. A shortage in the labor pool or other general inflationary pressures or changes could also increase our labor costs.

We are dependent upon the timely delivery of fresh ingredients.

Our restaurant operations are dependent on timely deliveries of fresh ingredients, including fresh produce, dairy products and meat. The cost, availability and quality of the ingredients we use to prepare our food are subject to a range of factors, many of which are beyond our control. Fluctuations in weather, supply and demand and economic and political conditions could adversely affect the cost, availability and quality of our ingredients. Historically, when operating expenses increased due to inflation or increases in food costs, we generally have been able to offset these higher costs by increasing our menu prices. We may not be able to recover increased costs in the future because competition may limit or even prohibit such future increases. If the variety or quality of our food products declines due to the lack or lower quality of our ingredients or due to interruptions in the flow of fresh ingredients and similar factors, customer traffic may decline and negatively affect our sales.

General economic factors may adversely affect our results of operations.

National, regional, and local economic conditions, such as recessionary economic cycles or a worsening economy, could adversely affect disposable consumer income and consumer confidence. Unfavorable changes in these factors or in other business and economic conditions affecting our customers could reduce customer traffic in some or all of our restaurants, impose practical limits on our pricing and increase our costs. Any of these factors could lower our profit margins and have a material adverse affect on our results of operations. The impact of inflation on food, beverages, labor, utilities and other aspects of our business can negatively affect our results of operations. Although we attempt to offset inflation through periodic menu price increases, cost controls and incremental improvement in operating margins, we may not be able to completely do so. This may negatively affect our results of operations.

We face the risk of adverse publicity and litigation relating to food-borne illness, employment and other matters that could have a material adverse affect on our business and financial performance.

We may be the subject of complaints or litigation from customers alleging illness, injury or other food quality, health or operational concerns. While the risk of food-borne illness is real, whether it results from improper operations, new diseases or from chemicals in certain food products, the risk would generally only affect a limited number of our restaurants. As soon as any food issues became known to us, those food items that were potentially at risk would be no longer served to customers.

While the risk of food-borne illness or injury would likely be localized, the risk of the adverse publicity that might result from such an incident is more generalized and accordingly much greater. The general public's response to adverse publicity relating to our restaurant brands could materially adversely affect a significant number of our restaurants. This could be true whether the allegations underlying the adverse publicity are valid or whether we are liable.

Furthermore, more generalized health concerns about the consumption of beef or chicken due to reported incidents of diseases such as Bovine Spongiform Encephalopathy (mad cow disease) or Avian Influenza (bird flu) could lead to changes in customer preferences, reduce consumption of our products and adversely affect our financial performance. These events could also reduce the available supply of beef or chicken or significantly raise the prices of beef or chicken.

In addition, we are subject to employee claims alleging injuries, wage and hour violations, discrimination, harassment or wrongful termination. In recent years, a number of restaurant companies have been subject to lawsuits, including class action lawsuits, alleging violations of federal and state law regarding workplace, employment and similar matters. A number of these lawsuits have resulted in the payment of substantial damages by the defendants. Regardless of whether any claims against us are valid or whether we are ultimately determined to be liable, claims may be expensive to defend and may divert time and money away from our operations and hurt our financial performance. A significant judgment for any claim(s) could materially adversely affect our financial condition or results of operations.

We are regulated by the federal and state government.

The restaurant industry is subject to extensive federal, state and local laws and regulations. The development and operation of restaurants depend to a significant extent on the selection and acquisition of suitable sites. Those are subject to zoning, land use, environmental, traffic and other

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

regulations and requirements. We are also subject to licensing and regulation by state and local authorities relating to health, sanitation, safety and fire standards and building codes. Federal and state laws govern our relationships with employees, including the Fair Labor Standards Act and applicable minimum wage requirements, overtime, employment tax rates, family leave, tip credits, working conditions, safety standards and citizenship requirements. Federal and state laws prohibit discrimination and other laws regulating the design and operation of facilities, such as the American with Disabilities Act of 1990. In addition, we are subject to a variety of federal, state and local laws and regulations relating to the use, storage, discharge, emission and disposal of hazardous materials. The impact of current laws and regulations, the effect of future changes in laws or regulations that impose additional requirements and the consequences of litigation relating to current or future laws and regulations could increase our compliance and other costs of doing business. These could adversely affect our results of operations. Failure to comply with the laws and regulatory requirements of federal, state and local authorities could result in revocation of required licenses, administrative enforcement actions, fines and civil and criminal liability.

Adverse weather conditions or losses due to casualties such as fire could negatively impact our financial performance.

Although we maintain, and require our franchisees to maintain, property and casualty insurance to protect against property damage caused by casualties and natural disasters, inclement weather, flooding, hurricanes, fire and other acts of God can adversely impact our sales in several ways. For example, severe weather typically discourages potential customers from dining out. In addition, a restaurant that is damaged by a natural disaster can be inoperable for a significant amount of time due to either physical damage or to a shortage of employees resulting from a relocation of the general population.

Litigation could have a material adverse effect on our financial position, cash flows and results of operations.

In September 2006, we were served with a lawsuit filed in the Circuit Court of Pulaski County, Arkansas, captioned *Parks Land Company, LLLP, et al. v. Western Sizzlin Corporation, et al.* The plaintiffs are owners/landlords of four restaurant premises located in the Little Rock, Arkansas metropolitan area which had been leased pursuant to a single lease agreement and previously occupied by the us. Most recently, each of these premises has been subleased to various operators. The lease agreement expired pursuant to its terms on June 30, 2006. The plaintiffs claimed in their lawsuit unspecified damages allegedly owing for certain repair and maintenance expenses on the premises, for the replacement of certain equipment, for diminution of property value, and for loss of rental income, as well as interest and costs. On February 12, 2008, this case came before the Court for trial. On February 20, 2008, a 12 member jury returned a plaintiffs' verdict in the amount of \$689,526. On February 29, 2008, the Circuit Court of Pulaski County Arkansas entered judgment in the case captioned *Parks Land Company, et al. v. Western Sizzlin Corporation, et al.* against the us in the amount of \$689,666 plus plaintiff's legal costs. We have currently added to the reserve as a result of the verdict and as of December 31, 2007 have accrued \$900,000. Of this amount, \$275,000 had been accrued in 2006. We disagree with the result of the trial and have filed post-trial motions, seeking new trial or judgment notwithstanding the verdict. In the event the court denies the post-judgment relief, we will consider an appeal. There can be no assurance that ultimate settlement of this case will not be more than \$900,000.

We are also from time to time a party to various other legal actions which are ordinary routine matters incidental to our business. While we believe that the ultimate outcome of these matters individually and in the aggregate will not have a material impact on our financial position, we cannot assure that an adverse outcome on any of these matters would not, in fact, materially impact our financial position, cash flows and results of operations.

We are involved in an unsolicited tender offer to acquire approximately 2,700,000 of the outstanding shares of ITEX Corporation.

We are seeking to acquire up to 2,700,000 shares of ITEX common stock in the offer for investment purposes. Following the consummation of the offer, we intend to evaluate our investment in the ITEX common stock on a continual basis and may, from time to time, communicate with ITEX management, members of ITEX's board of directors and other stockholders of ITEX. Following the consummation of the offer, we may, from time to time, acquire additional shares of ITEX common stock, dispose of shares of ITEX common stock or formulate other purposes, plans or proposals regarding ITEX or the ITEX common stock, to the extent deemed advisable in light of its general investment policies, market conditions or other factors.

The market price of our common stock may decline as a result of the offer. In particular, we estimate that we will issue approximately 178,821 shares of our common stock in connection with the offer. The increase in the number of shares of our common stock issued may lead to sales of such shares or the perception that such sales may occur, either of which may adversely affect the market for, and the market price of, our common stock.

Please refer to the Risk Factors section of the prospectus portion of the registration statement on Form S-4 (as amended), Registration No. 333-148349 filed with the Securities and Exchange Commission, for the details on the risks associated with this tender offer. The pertinent pages of the prospectus are filed as Exhibit 99.1 to this report.

Item 2. Properties

At December 31, 2007, our five (5) Company-owned restaurants are located in leased space ranging from 8,000 square feet to 10,000 square feet. Leases are negotiated with initial terms of five to twenty years, with multiple renewal options. All of our leases provide for a minimum annual rent, with certain locations subject to additional rent based on sales volume at the particular locations over specified minimum levels. Generally, the leases are net leases which require us to pay the costs of insurance, taxes, and a pro rata portion of lessors' common area costs.

We currently lease our executive office, approximately 4,800 square feet, which is located at 416 S. Jefferson St., Suite 600, Roanoke, Virginia 24011.

Item 3. Legal Proceedings

We accrue for an obligation in all known contingencies, including estimated legal costs, when a loss is probable and the amount is reasonably estimable. As facts concerning contingencies become known to us, we reassess our position with respect to accrued liabilities and other expenses. These estimates are subject to change as events evolve and as additional information becomes available during the litigation process.

Little Rock, Arkansas Lease

In September 2006, the Company was served with a lawsuit filed in the Circuit Court of Pulaski County, Arkansas, captioned *Parks Land Company, LLLP, et al. v. Western Sizzlin Corporation, et al.* The plaintiffs are owners/landlords of four restaurant premises located in the Little Rock, Arkansas metropolitan area which had been leased pursuant to a single lease agreement and previously occupied by the Company. Western Sizzlin Corporation, et al.* against the Company in the amount of \$689,666 plus plaintiff's legal costs. As of December 31, 2007, the Company has accrued a loss contingency reserve of \$900,000 as a result of the verdict. Of this amount, \$275,000 had been accrued in 2006. The Company disagrees with the result of the trial and has filed post-trial motions, seeking new trial of Judgment Notwithstanding the Verdict. In the event the Court denies the post-judgment relief, the Company will consider an appeal. There can be no assurance that ultimate settlement of this case will not be more than \$900,000.

Other

We are involved in various other claims and legal actions arising in the ordinary course of business. In the opinion of our management, the ultimate disposition of these matters will not have a material adverse effect on our financial condition, results of operations or liquidity.

As of March 31, 2008 there were approximately 618 stockholders of record of our common stock.

Our Board of Directors has not declared a dividend in either of the two most recent fiscal years. Our last dividend was paid in 2003 and we do not anticipate paying a dividend in the foreseeable future.

Purchases of Equity Securities by the Issuer

Marketable equity securities held by Western Sizzlin Corporation are held for an indefinite period and thus are classified as available-for-sale. Available-for-sale securities are recorded at fair value in Investments in Marketable Securities on the consolidated balance sheet, with the change in fair value during the period excluded from earnings and recorded net of tax as a component of other comprehensive income.

Following is a summary of marketable securities held by Western Sizzlin Corporation as of December 31, 2007 and 2006:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2007	\$ 605,689	\$ 128,846	\$	\$ 734,534
December 31, 2006:	\$ 4,543,768	\$ 1,964,877	\$	\$ 6,508,645

We realized a net gain on sale of marketable securities held by Western Sizzlin Corporation of \$1,923,379 in 2007.

We determined cost on marketable securities sold based on the specific identification method.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

In April 2007, we formed Western Investments, Inc., a Delaware corporation and wholly-owned subsidiary to serve as the general partner of Western Acquisitions, L.P., a Delaware limited partnership that operates as a private investment fund. Through Western Investments, Inc., Mr. Biglari operates as the portfolio manager to the fund. During the third quarter of 2007, we contributed cash along with our holdings in the common stock of The Steak n Shake Company to Western Investments, Inc., which in turn contributed these assets to Western Acquisitions, L.P. Also during 2007, cash contributions from outside investors of \$2,225,000 were made to the limited partnership.

As of December 31, 2007, Western Investments, Inc. owned 87.57% of Western Acquisitions, L.P. As such, Western Acquisitions, L.P. has been consolidated into the accompanying financial statements with the 12.43% ownership by minority limited partners presented as minority interest on the accompanying consolidated balance sheet as of December 31, 2007.

Western Acquisitions, L.P. is, for generally accepted accounting principles (GAAP) purposes, an investment company under the AICPA Audit and Accounting Guide *Investment Companies*. We have retained the specialized accounting for Western Acquisitions, L.P. pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investments in Consolidation*. As such, marketable equity securities held by Western Acquisitions, L.P. are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from the change in fair value

reflected in the Statement of Operations.

Following is a summary of marketable securities held by Western Acquisitions, L.P. as of December 31, 2007:

	Cost	Fair Value
Steak n Shake Co.	\$ 17,902,714	\$ 15,046,851
Other	138,660	115,480
Total Marketable Securities	\$ 18,041,374	\$ 15,162,331

We realized a net gain on sale of marketable securities held by Western Acquisitions, L.P. of \$48,873 in 2007.

As of March 31, 2008, the fair value of our investment in Steak n Shake has declined approximately 28%.

Securities Authorized for Issuance under Equity Compensation Plans

The following table provides information on securities authorized for issuance under our equity compensation plans as of December 31, 2007:

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	57,000	\$ 7.10	36,000

We have three stock option plans: the 2005 Stock Option Plan, the 2004 Non-Employee Directors Stock Option Plan, and the 1994 Incentive and Non-qualified Stock Option Plan. Both the 2005 and 1994 Plans were adopted with the approval of our stockholders. Under the 2004 Plan, our Non-Employee Directors are granted options to purchase 1,000 shares of common stock, priced at fair market value on the date of the option grant. Options are granted automatically each year on the date of the Annual Meeting of Stockholders, or in the case of new Directors, on the first business day following their election to the Board. All options are exercisable immediately upon grant. All options outstanding at December 31, 2007 are exercisable. At December 31, 2007, there were 36,000 shares available for future grants under the plans; however, on April 25, 2007, our Board of Directors elected to indefinitely suspend future grants under all plans.

Item 6. Selected Financial Data.

October 2003 Merger, Name Change and Format Restructuring

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

Effective October 21, 2003, we merged our wholly-owned subsidiary, The Western Sizzlin Corporation, a Delaware corporation, into Austins Steak and Saloon, Inc., with Austins being the surviving entity. At the same time, we changed our name to Western Sizzlin Corporation by amending our Certificate of Incorporation. The amendment was approved by solicitation of written stockholder consents without a meeting pursuant to Section 288 of the General Corporation Law of Delaware. On September 30, 2003, the 60th day following the date of the first consent received, stockholders voting 6,495,149 shares or 53.4% of the outstanding common stock submitted written consents to the action.

Effective January 1, 2007, we restructured our operations into a holding company/subsidiary format whereby all of our operations are now conducted through wholly-owned subsidiaries. This restructuring is not anticipated to have any tax impact and will have no impact on our financial reporting as we will continue to report consolidated financial statements.

Overview

Please refer to the discussion under Item 1. Business on page 1 of this report for a detailed description of the different facets of our business.

While we have historically been principally engaged, and intend at this time to remain principally engaged, in franchising and operating restaurants, the recent investment activities could bring us within the definition of an investment company and require us to register as an investment company under the Investment Company Act of 1940. Our Board of Directors have adopted a policy requiring management to restrict the Company's operations and investment activities to avoid becoming an investment company, until and unless the Board approves otherwise. Although we do not presently intend to change its principal business, and the Board has not approved any such change, we have expanded our investment activities, and may decide in the future to register as an investment company under the Investment Company Act. Under certain circumstances, if we are successful in investment activities, then we may inadvertently fall within the definition of an investment company, in which event it may be required to register as an investment company. If we decide or we are required to register as an investment company, then we would become subject to various provisions of the Investment Company Act and the regulations adopted under such Act, which are very extensive and could adversely affect our operations.

Western Acquisitions, L.P. has an ownership interest in The Steak n Shake Company and has filed a Schedule 13D (as amended) with the SEC as a member of a group that also includes us, Western Investments, Inc., The Lion Fund, L.P., Biglari Capital Corp., Mr. Biglari and Philip L. Cooley, our Vice Chairman of the Board. This group collectively beneficially owned approximately 8.5 % of Steak n Shake. We initially purchased Steak n Shake shares utilizing funds from working capital and, during the third quarter ended September 30, 2007, contributed those shares to Western Acquisitions, L.P., through Western Investments, Inc. Our Board of Directors determined that seeking two positions on the Board of Directors of Steak n Shake was in the best interests of our stockholders. We engaged in a proxy solicitation to get our nominees elected and agreed to share the expenses of this effort pro rata with Western Acquisitions, L.P. and The Lion Fund, L.P. At Steak n Shake's annual meeting of stockholders held on March 7, 2008, Steak n Shake's stockholders elected Mr. Biglari and Dr. Cooley to the Board of Directors.

Western Acquisitions, L.P. is, for generally accepted accounting principles (GAAP) purposes, an investment company under the American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guide *Investment Companies*. We have retained the specialized accounting for Western Acquisitions, L.P. pursuant to FITF Issue No. 85-12, *Retention of Specialized Accounting for Investments in Consolidation*. As such, marketable equity securities held by Western Acquisitions, L.P. are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from the change in fair value reflected in the Statement of Operations.

On August 29, 2007, the stockholders of Friendly Ice Cream Corporation approved the previously announced agreement for that company's acquisition by an affiliate of Sun Capital Corp. We, along with Mr. Biglari, Dr. Cooley and The Lion Fund, L.P., voted in favor of the merger agreement. In accordance with the terms of the merger agreement, we received \$15.50 per share for our Friendly stock held as of August 29, 2007. We had previously been engaged in a proxy solicitation for Mr. Biglari and Dr. Cooley to be elected to the Board of Directors of Friendly's.

On October 17, 2007, we commenced a rights offering, distributing to stockholders, at no charge, one transferable subscription right for each share of our common stock held on that date. Every two rights entitled a stockholder to purchase one share of our common stock for \$8.50 in cash. A total of 1,797,750 rights were issued entitling stockholders to purchase an aggregate of 898,875 shares. The rights offering expired on November 16, 2007 with 898,875 shares being purchased through both basic and oversubscription rights, generating total proceeds to us of approximately \$7.6 million.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

On December 13, 2007, Western Real Estate, L.P., a newly formed Delaware limited partnership managed by Western Properties, Inc., a newly formed Delaware corporation and our wholly-owned subsidiary, purchased approximately 23 acres of real property located in Bexar County, Texas from unaffiliated third parties. Western Properties, Inc. serves as the general partner (and currently the sole partner) of Western Real Estate, L.P., which intends to operate as a private real estate investment fund. The land purchase was the only activity for 2007, and was funded solely by our investment in Western Real Estate, L.P.

We are seeking to acquire up to 2,700,000 shares of ITEX common stock in an unsolicited tender offer for investment purposes. Following the consummation of the offer, we intend to evaluate our investment in the ITEX common

stock on a continual basis and may, from time to time, communicate with ITEX management, members of ITEX's Board of Directors and other stockholders of ITEX. Following the consummation of the offer, we may, from time to time, acquire additional shares of ITEX common stock, dispose of shares of ITEX common stock or formulate other purposes, plans or proposals regarding ITEX or the ITEX common stock, to the extent deemed advisable in light of its general investment policies, market conditions or other factors.

In September 2006, we were served with a lawsuit filed in the Circuit Court of Pulaski County, Arkansas, captioned *Parks Land Company, LLLP, et al. v. Western Sizzlin Corporation, et al.* On February 12, 2008, this case came before the Court for trial. On February 29, 2008, the Circuit Court of Pulaski County, Arkansas entered judgment in the case captioned *Parks Land Company, et al. v. Western Sizzlin Corporation, et al.* against us in the amount of \$689,666 plus plaintiff's legal costs. We have currently added to the reserve as a result of the verdict and as of December 31, 2007 have \$900,000 accrued. Of this amount, \$275,000 had been accrued in 2006. We disagree with the result of the trial and are evaluating our options. (See Note 16.) There can be no assurance that ultimate settlement of this case will not be more than \$900,000.

Our common stock commenced trading on the Nasdaq Capital Market under the symbol WEST on February 25, 2008, and was previously quoted on the OTC Bulletin Board under the symbol WSZL.OB.

Recent Developments

Subsequent to December 31, 2007, we signed a term sheet to purchase a controlling interest in Mustang Capital Advisors, LP and Mustang Capital Management, LLC. Under the proposed transaction which we announced in a press release on March 28, 2008, we will purchase a 50.5% limited partnership interest in Mustang Capital Advisors and a 51% membership interest in Mustang Capital Management, which owns a 1% interest in Mustang Capital Advisors as its general partner. The total purchase price for these interests will be \$1,173,000, consisting of \$300,000 in cash and \$873,000 in shares of our common stock. The transaction is subject to definitive documentation. As of March 28, 2008, Mustang, through its funds and managed accounts, holds a total of 7.4% of our common stock which will be distributed to its limited partners prior to the closing of the proposed transaction.

2007 COMPARED TO 2006

Revenues

Total revenues decreased 0.8% to \$17.3 million in 2007, from \$17.4 million in 2006. Company-operated restaurant sales decreased 0.6% to \$12.9 million in 2007, from \$13.0 million in 2006. Customer traffic decreased 2.2% over 2006. Price increases were implemented at certain Company-operated restaurants in 2007 and 2006.

Franchise and other revenues decreased 1.6% to \$4.3 million in 2007, from \$4.4 million in 2006. The decrease is primarily attributable to 8 less franchised restaurants during 2007. Same store sales for 2007 experienced an overall decrease of 0.87% over 2006.

Costs and Expenses Restaurant and Franchise Operations

Cost of Company-operated restaurants, consisting primarily of food, beverage, and labor costs increased \$13,000 (0.1%) to \$9.3 million for the year ended December 31, 2007 from \$9.3 million for the year ended December 31, 2006. These costs for both years stayed the same as a percentage of Company-operated restaurants revenue of 72% in 2006 and 2007. The increase in the costs was largely attributable to increased costs in commodities in 2007 over 2006.

Restaurant occupancy and other, which include utilities, insurance, maintenance, rent and other such costs of the Company-operated restaurants, decreased by \$92,500 (3.8%) for the year ended December 31, 2007 versus the prior year's comparable period. These costs for the year decreased slightly as a percentage of Company-operated restaurant revenues from 18.9% in 2006 to 18.3% in 2007.

Cost of franchise operations direct support expense decreased \$184,000 (14.9%) to \$1.1 million for the year ended December 31, 2007 from \$1.2 million for the year ended December 31, 2006. The decreases are attributable to personnel reductions and targeted expense reductions during 2006.

Subleased restaurant expenses include net costs associated with subleasing former Company operations and

maintenance of vacant premises. These expenses increased by \$37,000 versus the prior year's comparable period, due to increased costs associated with vacant properties. All sublease arrangements expire during the fourth of 2008 and no further sublease expenses are anticipated.

Unallocated corporate expenses consist of certain expenses not allocated to any business segment. These expenses include legal, accounting, stockholder relations, personnel not directly related to a segment, information systems, and other headquarter activities. These expenses increased by \$51,000 for the year ended December 31, 2007 versus the prior year's comparable period. The increases are attributable to additional accounting and legal expenses in 2007.

Depreciation and amortization for 2007 were comparable to 2006.

Impairment and other charges of \$46,284 in 2006 included impairments associated with subleased properties related to an expiring lease as of June 30, 2006. No such charges were experienced in 2007.

Claims settlement and legal fees associated with a lawsuit, increased \$452,000 versus the prior year's comparable period, due to increases in accrual of loss contingency associated with a lawsuit involving leased properties. (See Note 16)

Equity in income (loss) of Joint Venture

Equity in income (loss) of joint venture increased \$318,000 versus the prior year's comparable period, due to losses incurred in 2006 of \$161,000 associated with the cost of opening the restaurant on December 14, 2006. (See Note 17)

Income (Loss) from Investment Activities

Investment activities include net realized gains on sales of marketable securities of \$2 million and net unrealized losses on marketable securities held by limited partnership, Western Acquisitions, L.P., of \$2.8 million. Expenses associated with investment activities were \$348,000 and \$105,000 for the years ended December 31, 2007 and 2006, respectively. (See Note 6) The increase in expenses for 2007 versus the prior year's comparable period is attributable to expenses associated with Steak n Shake proxy during 2007. There were no management fees charged or collected by the limited partnership in 2007. Future management fees will depend on portfolio performance and the extent of outside investors.

Other Income (Expense)

Other income (expense) increased from (\$7,000) in 2006 to \$12,000 in 2007. Interest expense decreased \$53,000 (33.4%) comparing 2007 to 2006. The decrease is due to a lower average principal outstanding balance. Loss on early extinguishment of long-term debt of \$92,535 associated with payoff of certain loans was recorded in 2006. Interest income increased \$37,000 comparing 2007 to 2006. Included in 2006 is

termination fee income of \$163,000 associated with a negotiated settlement of certain franchise agreements.

Income Tax Expense

Income tax expense is directly affected by levels of pretax income and changes in valuation allowances on deferred tax assets. The Company's effective tax rate was (7.62%) and 40.4% for the years ended December 31, 2007 and 2006, respectively. (See Note 9)

2006 COMPARED TO 2005

Revenues

Total revenues decreased 10.2% to \$17.4 million in 2006, from \$19.4 million in 2005. Company-operated restaurant sales decreased 11.6% to \$13.0 million in 2006, from \$14.7 million in 2005. This decrease was due to the closing of a Company-operated location in February 2005 and a closing of a Company-operated location in July 2005 due to a total loss by fire casualty. Same store sales for 2006 experienced an overall decrease of 2.45% over 2005. Customer traffic decreased 8.24% over 2005. Price increases were implemented at certain Company-operated restaurants in 2006.

Franchise and other revenues decreased 5.7% to \$4.4 million in 2006, from \$4.7 million in 2005. The decrease is primarily attributable to 12 less franchised restaurants during 2006. Same store sales for 2006 experienced an overall increase of 1.10% over 2005.

Costs and Expenses Restaurant and Franchise Operations

Cost of Company-operated restaurants, consisting primarily of food, beverage, and labor costs decreased \$1.2 million (11.5%) to \$9.3 million for the year ended December 31, 2006 from \$10.5 million for the year ended December 31, 2005. These costs for both years stayed the same as a percentage of Company-operated restaurants revenue of 71.5% in 2005 and 2006. The decrease in the costs was largely attributable to the closing of a Company-operated location in February 2005 and the closing due to fire of a Company-operated location in July, 2005.

Restaurant occupancy and other, which include utilities, insurance, maintenance, rent and other such costs of the Company-operated restaurants, decreased by \$155,100 (5.9%) for the year ended December 31, 2006 versus the prior year's comparable period. These costs for the year increased as a percentage of Company-operated restaurant revenues from 17.8% in 2005 to 18.9% in 2006. The decreases were attributable to the closings of two Company-operated locations in 2005.

Cost of franchise operations direct support expense decreased \$175,000 (12.4%) to \$1.2 million for the year ended December 31, 2006 from \$1.4 million for the year ended December 31, 2005. The decreases are attributable to personnel reductions and targeted expense reductions during 2006 and additional spending in 2005 on consumer research and prototype plans.

Subleased restaurant expenses include net costs associated with subleasing former Company operations and maintenance of vacant premises. These expenses decreased by \$120,000 versus the prior year's comparable period. The decreases were largely attributable to additional expenses incurred on repair and maintenance of the facilities and uncollectible rents during 2005.

Unallocated corporate expenses consist of certain expenses not allocated to any business segment. These expenses include legal, accounting, stockholder relations, personnel not directly related to a segment, information systems, and other headquarter activities. These expenses decreased by \$433,000 for the year ended December 31, 2006 versus the prior year's comparable period. The decreases are attributable to certain reductions in general and administrative expenses during 2006.

Depreciation and amortization for 2006 were comparable to 2005.

Closed restaurants expense of \$350,279 in 2005 included impairment of \$128,000 associated with the end of a subleased property due to a buyout of the lease and impairments related to the closing of a company-operated restaurant of \$222,000 in February, 2005. No such charges were experienced in 2006.

Impairment and other charges of \$319,830 in 2005 included impairments associated with a subleased property consisting of a write down of assets deemed non-recoverable of \$236,330 and \$83,500 of related rent payments deemed non-collectible as of December 31, 2005. Impairment and other charges of \$46,284 in 2006 included impairments associated with subleased properties related to an expiring lease as of June 30, 2006.

Gain on settlement of insurance claims of \$1,166,683 in 2005 included a gain of \$220,351 attributable to insurance proceeds received on the Lawrenceville, Georgia casualty and a gain of \$946,332 attributable to insurance proceeds received on the Waldorf, Maryland casualty. No such

items were recorded in 2006.

Claims settlement and legal fees associated with a lawsuit, increased \$289,000 versus the prior year's comparable period, due to accruals of loss contingency associated with a lawsuit involving leased properties. (See Note 16)

Equity in income (loss) of Joint Venture

Equity in income (loss) of joint venture had increased losses of \$139,000 versus the prior year's comparable period, due to losses associated with the cost of opening the restaurant on December 14, 2006. (See Note 17)

Income (Loss) from Investment Activities

Investment activities included expenses associated with investment activities of \$105,000 and \$0 for the years ended

December 31, 2006 and 2005, respectively. (See Note 6)

Other Income (Expense)

Other income (expense) decreased from (\$178,000) in 2005 to (\$7,000) in 2006. Interest expense decreased \$120,000 (44.5%) comparing 2006 to 2005. The decrease is due to a lower average principal outstanding balance. Loss on early extinguishment of long term debt of \$92,535 associated with payoff of certain loans was recorded in 2006. Included in 2006 is termination fee income of \$163,000 associated with a negotiated settlement of certain franchise agreements.

Income Tax Expense

Income tax expense is directly affected by levels of pretax income. The Company's effective tax rate was 40.4% and 44.5% for the years ended December 31, 2006 and 2005, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Cash and Cash Equivalents

As of December 31, 2007, we had \$727,000 of cash and cash equivalents as compared to \$2.3 million as of December 31, 2006. The decrease in cash and cash equivalents was largely attributable to additional investments in marketable securities in 2007.

Investment of Available Capital

Our cash flows have exceeded working capital, financing and capital investment requirements. Management expects that our cash flows will continue to exceed our operating cash needs for the foreseeable future. We regularly evaluate how best to use available capital to increase stockholder value. We may pursue investments in the form of acquisitions, joint ventures and partnerships where we believe attractive returns can be obtained. Further, we may determine under certain market conditions that available capital is best utilized to fund investments that we believe offer attractive returns, whether or not related to our ongoing business activities.

As previously disclosed, our Board of Directors has delegated authority to direct investment of surplus cash to our Chairman and Chief Executive Officer, Sardar Biglari, subject to Board reporting requirements and various limitations that have been or may be from time to time adopted by the Board of Directors. We are using, and may in the future use, a portion of its available capital to invest in other securities. These

investments may include significant and highly concentrated direct investments with respect to the equity securities of public companies. Any such investments will involve risks, and stockholders should recognize that our balance sheet may change depending on the extent of excess funds and the timing, magnitude and performance of such investments. Furthermore, such investments could be subject to volatility that may affect both the recorded value of the investments as well as our periodic earnings and liquidity. See Risk Factors, page 6.

Operating Activities and Cash Flows

We generated (used) approximately \$(9.5) million, \$1.8 million, and \$1.1 million in operating cash flows for the years ended December 31, 2007, 2006 and 2005, respectively. Our primary source of operating cash flows is the operating profits generated from Company restaurant and franchise operations. Adjustments to reconcile net income (loss) to net cash provided by restaurant and franchise activities were approximately \$2.6 million, \$1.5 million and \$400,000 for the years ended December 31, 2007, 2006 and 2005, respectively. Adjustments to reconcile net income (loss) to net cash provided by (used in) investment activities were approximately \$(11.9) for the year ended December 31, 2007, with no such activity in 2006 and 2005.

Investing Activities

Our investing activities on our statements of cash flows primarily represent cash received and paid related to our operating properties. Prior to 2007, we considered purchases and sales of marketable securities to be investing activities; however, during 2007 with the expanded investment activities of the Company, and more specifically the organization of Western Acquisitions L.P. and the investment of minority interests, we began to

consider such activities to be operating activities of the Company. This presentation is consistent with the guidance in the AICPA's Audit and Accounting Guide, *Investment Companies*.

During the year ended December 31, 2007, we spent approximately \$34,000 on capital expenditures on Company restaurants compared to \$492,000 and \$313,000 during the equivalent period in the year ended December 31, 2006 and 2005 respectively. Capital expenditures for 2006 of \$425,000 included the remodel of two Company-operated stores in Northern Virginia. A total of \$803,000 has been spent on these two remodels since 2005. Also during 2007, land was purchased for investment purposes for \$3.7 million. Offsetting uses of cash for investing activities were proceeds from fire casualties of \$785,000 and \$695,000 for the years ended December 31, 2006 and 2005, respectively. Also included in investing activities for 2006 are proceeds of \$300,000 from the sale of land in Lawrenceville, Georgia.

Financing Activities

We made payments of long-term debt of \$163,000, \$1.5 million and \$1.2 million for the years ended December 31, 2007, 2006 and 2005, respectively. Proceeds of \$2 million were received from a line of credit in 2007. Also during 2007 and 2006, financing activities included cash received from rights offerings of \$7.6 million and \$4.2 million, respectively, offset by costs of the rights offerings of \$97,000 and \$123,000, respectively, and cash received from exercise of stock options of \$85,000 and \$28,000, respectively.

Liquidity

Our primary sources of liquidity are cash generated from operations and, if needed, borrowings under our existing line of credit. Subsequent to year end, in February 2008, the line of credit was paid down and has no borrowings as of the date of the filing. We continually review available financing alternatives. In addition, we may consider, on an opportunistic basis, strategic decisions to create value and improve operational performance.

Total capital expenditures for 2008 are presently expected to approximate \$50,000, and will be primarily used for necessary replacement of certain restaurant equipment.

We believe that cash flows generated by operations will be adequate to fund our restaurant and franchise operations and required debt repayments for at least the next twelve months.

INVESTMENT IN UNCONSOLIDATED JOINT VENTURE

We are a partner in a 50/50 joint venture with a franchisee, for a new restaurant in Harrisonburg, Virginia. During October 2005, the joint venture entered into a loan agreement for \$3.05 million and we guaranteed 50% of the loan obligation. We estimate the fair value of the

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

guarantee to be approximately \$30,000 and recorded the amount in other long-term liabilities and in investments in unconsolidated joint venture on the accompanying balance sheet at December 31, 2007. The term of the guarantee extends through July 1, 2026 and we would be required to perform under the guarantee should the joint venture not be able to meet its scheduled principal and interest payments. Pursuant to the joint venture agreement, a cash contribution of \$300,000 from each 50/50 partner was also made at the closing of this financing. We are accounting for the investment using the equity method and the Company's share of the net income (loss) for the joint venture of \$157,515, (\$160,902) and (\$21,679) for the years ended December 31, 2007, 2006 and 2005, respectively, is included in equity in earnings of unconsolidated joint venture. The restaurant opened for business on December 14, 2006.

(2) Reflects future interest payments through scheduled maturity dates based upon average borrowing rates, outstanding debt balances and scheduled principal payments on long-term debt.

(3) Reflects recognized liabilities for uncertain tax positions under the provisions of FIN 48. (See Note 9.)

Bank Line of Credit

At December 31, 2007 there was \$2 million outstanding on a \$2 million line of credit with a bank. The line is payable on demand, subject to annual renewal by the bank with an automatic renewal at May 31, 2008, interest rate of prime minus 0.5% and collateralized by accounts receivable and the assignment of franchise royalty contracts. Subsequent to year end, the line of credit borrowing was completely paid in February 2008 and remains available for future borrowings, and a note payable for \$2,461,000 was issued, secured by land held for investment.

Operating Leases

Operating lease commitments are presented net of sublease rentals. Gross operating lease commitments for the periods above aggregate to approximately \$3.9 million, offset by sublease rentals for the same periods of approximately \$40,500.

Revenue Recognition

Revenue at Company-operated restaurants is recognized as customers pay for products at the time of sale. Franchise operations revenue consists of royalties and franchise fees. Royalties are recognized in the month earned at estimated realizable amounts. Franchise fees are recognized when the related services have been performed, which is generally upon opening of the store, and do not include significant contingencies. Other revenues consist of sales of seasonings and marinades to franchisees and are recognized when the products are shipped to the franchisee. In the future, the Company may earn management fees based on a percentage of assets managed and on the performance of assets under management, but no such fees were earned in 2007.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of financial condition and results of operations is based on the consolidated financial statements and accompanying notes that have been prepared in accordance with United States generally accepted accounting principles. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 1 to the consolidated financial statements provides a summary of our significant accounting policies. The following are areas requiring significant judgments and estimates due to uncertainties as of the reporting date: trade accounts and notes receivables and the allowance for doubtful accounts, investments, determination of useful lives and the evaluation of any impairment of long-lived assets (including franchise royalty contracts, goodwill and property and equipment), commitments and contingencies, and income taxes.

Application of the critical accounting policies discussed below requires significant judgments by management, often as a result of the need to make estimates of matters that are inherently uncertain. If actual results were to differ materially from the estimates made, the reported results could be materially affected. We are not currently aware of any reasonably likely events or circumstance that would result in materially different results. Our senior management has reviewed the critical accounting policies and estimates and the Management's Discussion and Analysis regarding them with the Audit and Finance Committee of the Board of Directors.

Trade Accounts and Notes Receivable and the Allowance for Doubtful Accounts

We collect royalties, and in some cases rent, from franchisees. We view trade accounts and notes receivable and the related allowance for doubtful accounts as a critical accounting estimate since the allowance for doubtful accounts is based on judgments and estimates concerning the

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

likelihood that individual franchisees will pay the amounts included as receivables from them. In determining the amount of allowance for doubtful accounts to be recorded for individual franchisees, we consider the age of the receivable, the financial stability of the franchisee, discussions that may have occurred with the franchisee and our judgment as to the overall collectibility of the receivable from the franchisee. In addition, we establish an allowance for all other receivables for which no specific allowances are deemed necessary. If average sales or the financial health of franchisees were to deteriorate, we might have to increase the allowance for doubtful accounts.

Investments

Marketable equity securities held by Western Sizzlin Corporation are held for an indefinite period and thus are classified as available-for-sale. Available-for-sale securities are recorded at fair value in Investments in Marketable Securities on the consolidated balance sheet, with the change in fair value during the period excluded from earnings and recorded net of tax as a component of other comprehensive income.

Western Acquisitions, L.P. is, for GAAP purposes, an investment company under the AICPA Audit and Accounting

Guide Investment Companies. The Company has retained the specialized accounting for Western Acquisitions, L.P. pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investments in Consolidation.* As such, marketable equity securities held by Western Acquisitions, L.P. are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from the change in fair value reflected in the Statement of Operations.

Long-lived Assets, Franchise Royalty Contracts and Goodwill

We view the determination of the carrying value of long-lived assets, franchise royalty contracts and goodwill as critical accounting estimates since we must evaluate the estimated economic useful life in order to properly depreciate or amortize our long-lived assets and franchise royalty contracts and because we must consider if the value of any of our long-lived assets have been impaired, requiring adjustments to the carrying value. Goodwill is not subject to amortization but is subject to at least an annual impairment test to determine if the carrying amount exceeds its fair value.

Economic useful life is the duration of time the asset is expected to be productively employed, which may be less than its physical life. The estimated economic useful lives of long-lived assets are monitored to determine if they continue to be appropriate in light of changes in business circumstances.

We must also consider whether long-lived assets (including property and equipment and intangible assets) have been impaired to the extent that we must recognize a loss on such impairment, including goodwill impairment. We evaluate our long-lived assets for impairment at the restaurant and franchise levels on an annual basis or whenever changes or events indicate that the carrying value may not be recoverable. We assess impairment of each level of assets based on the operating cash flows of the restaurant and franchise operations and our plans for each restaurant unit or franchisee contract. Generally, all units with negative cash flows from operations for the most recent twelve months at each quarter end are included in our assessment. In performing our assessment, we must make assumptions regarding estimated future cash flows, including estimated proceeds from similar asset sales, and other factors to determine both the recoverability and the estimated fair value of the respective assets. If the long-lived assets of a restaurant are not recoverable based upon estimated future, undiscounted cash flows, we write the assets down to their fair value. If these estimates or their related assumptions change in the future, we may be required to record additional impairment charges. In 2006 and 2005, we recorded impairment of \$46,284 and \$319,830, respectively, related to leasehold improvements for which no future cash flows are anticipated associated with subleased properties. In 2007 there were no such expenses (see Notes 13 and 14).

We evaluate goodwill for impairment on an annual basis during the fourth quarter of each year, or more frequently if an event occurs that triggers an interim impairment test. We determine the fair values of our reporting units using the discounted cash flow method. This method uses projections of cash flows from each of the reporting units. Several of the key assumptions in estimating future cash flows include periods of operations, projections of operating profits, and weighted average cost of capital. These assumptions are derived from our internal budgets and consideration of available market data. The factors which contribute the greatest variability in our estimates of fair values are the weighted average cost of capital and estimates of future operating profits. We currently have goodwill of \$770,000 related to our franchising reporting unit and \$3.5 million allocated to our restaurant reporting unit.

Commitments and Contingencies

We view accounting for contingencies as a critical accounting estimate since loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources require judgment as to any probable liabilities incurred. In considering estimates, we consult with legal counsel and consider precedent in similar cases. Actual results could differ from the expected results determined based on such estimates.

Income Taxes

We record valuation allowances against our deferred tax assets, when necessary, in accordance with SFAS No. 109, *Accounting for Income Taxes*. Realization of deferred tax assets is dependent on future taxable earnings and is therefore uncertain. We assess the likelihood that our deferred tax assets in each of the jurisdictions in which we operate will be recovered from future taxable income. Deferred tax assets do not include future tax benefits that we deem likely not to be realized.

In July 2006, the FASB issued FASB Interpretation Number 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attributes

for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the more-likely-than-not recognition threshold, the position is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, *Accounting for Income Taxes*. The requirements of FIN 48 were adopted during the first quarter of 2007.

For additional information regarding the adoption of FIN 48, see Note 9 of Notes to Consolidated Financial Statements in Part I, Item 1 of this Form 10-K.

IMPACT OF INFLATION

The impact of inflation on the costs of food and beverage products, labor and real estate can affect our operations. Over the past few years, inflation has had a lesser impact on our operations due to the lower rates of inflation in the nation's economy and economic conditions in our market areas. We believe that we have historically been able to pass on increased costs through certain selected menu price increases and have offset increased costs by increased productivity and purchasing efficiencies, but there can be no assurance that we will be able to do so in the future. We anticipate that the average cost of restaurant real estate leases and construction cost could increase in the future which could affect our ability to expand. In addition, mandated health care or additional increases in the federal or state minimum wages could significantly increase our costs of doing business.

RECENTLY ISSUED ACCOUNTING STANDARDS

In March 2006, the FASB Emerging Issues Task Force issued Issue 06-3 (EITF 06-3), *How Sales Taxes Collected From Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement*. This standard requires that a company disclose its accounting policy (i.e., gross or net presentation) regarding presentation of taxes within the scope of EITF 06-3. If taxes are significant and reported on a gross basis, a company should disclose the amount of such taxes for each period for which an income statement is presented. The guidance was effective for the Company beginning January 1, 2007. The Company presents revenues net of sales taxes in its consolidated statements of operations.

In July 2006, the FASB issued FASB Interpretation Number 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken in a tax return. We must determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the more-likely-than-not recognition threshold, the position is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, *Accounting for Income Taxes*. We adopted the provisions in this statement beginning in the first quarter of 2007, resulting in a charge to retained earnings upon adoption of \$118,000. Refer to Note 9 for further discussion.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 (SFAS 157), *Fair Value Measurements*. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, SFAS 157 does not require any new fair value

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

measurements. The provisions of SFAS 157 for financial assets and liabilities, as well as any other assets and liabilities that are carried at fair value on a recurring basis in financial statements, are effective for the first fiscal period beginning after November 15, 2007. The provisions for nonfinancial assets and liabilities are effective for the first fiscal period beginning after November 15, 2008. We are required to adopt SFAS 157 for financial assets and liabilities in the first quarter of fiscal 2008 and do not expect adoption to have a material impact on our Consolidated Financial Statements.

In February 2007, the FASB issued SFAS No. 159 *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115*, (SFAS 159), which is effective January 1, 2008. This Standard permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. We are currently evaluating the effect, if any, that the

adoption of SFAS 159 will have on our consolidated financial statements on the adoption date of January 1, 2008.

In May 2007, the FASB issued FASB Staff Position No. FIN 46(R)-7, *Application of FASB Interpretation No. 46(R) to Investment Companies* (FSP FIN 46(R)-7) which provides clarification on the applicability of FIN 46(R), as revised, to the accounting for investments by entities that apply the accounting guidance in the AICPA Audit and Accounting Guide, *Investment Companies*. FSP FIN 46(R)-7 amends FIN 46(R), as revised, to make permanent the temporary deferral of the application of FIN 46(R), as revised, to entities within the scope of the guide under Statement of Position (SOP) No. 07-1, *Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies* (SOP 07-1). FSP FIN 46(R)-7 is effective upon adoption of SOP 07-1. The adoption of FSP FIN 46(R)-7 is not expected to have a material impact on the Company and the Company has not determined the impact of adoption.

SOP 07-1, issued in June 2007, addresses whether the accounting principles of the AICPA Audit and Accounting Guide *Investment Companies* may be applied to an entity by clarifying the definition of an investment company and whether those accounting principles may be retained by a parent company in consolidation or by an investor in the application of the equity method of accounting. SOP 07-1, as originally issued, was to be effective for fiscal years beginning on or after December 15, 2007 with earlier adoption encouraged. In February 2008, the FASB issued FSP SOP 07-1-1, *Effective Date of AICPA Statement of Position 07-01*, to indefinitely defer the effective date of SOP 07-01. The Company's majority-owned subsidiary, Western Acquisitions, L.P., is an investment company as currently defined in the AICPA Audit and Accounting Guide, *Investment Companies*. The Company has retained the specialized accounting for Western Acquisitions, L.P. pursuant to EITF 85-12, *Retention of Specialized Accounting for Investments in Consolidation*. As such, marketable equity securities held by Western Acquisitions, L.P. are recorded at fair value in Investments in Marketable Securities in the consolidated financial statements, with unrealized gains and losses resulting from the change in fair value reflected in the Consolidated Statement of Operations. The Company intends to monitor future developments associated with this Statement in order to assess the impact, if any that may result.

In December 2007, the FASB issued FASB Statement No. 141(R), Business Combinations (SFAS 141R), and FASB Statement No. 160, *Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS 160). These new standards will significantly change the accounting for and reporting for business combinations and noncontrolling (minority) interests in consolidated financial statements. SFAS 141(R) and SFAS 160 are required to be adopted simultaneously and are effective for the first annual reporting period beginning on or after December 15, 2008. These standards will impact us if we complete an acquisition or obtain minority interests after the effective date.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 (SFAS 160), *Noncontrolling Interests in Consolidated Financial Statements* an amendment of ARB No. 51. SFAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as equity in our Consolidated Financial Statements. Among other requirements, this statement requires that the consolidated net income attributable to the parent and the noncontrolling interest be clearly identified and presented on the face of the consolidated income statement. SFAS 160 is effective for the first fiscal period beginning on or after December 15, 2008. We are required to adopt SFAS 160 in the first quarter of 2009. We are currently evaluating the impact of adopting SFAS 160 on our Consolidated Financial Statements.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

As of December 31, 2007, our financial instruments are not exposed to significant market risk due to foreign currency exchange risk or commodity price risk. However, we are exposed to market risk related to changes in market prices of our marketable security and to interest rates related to our debt obligations.

The table below provides information about our debt obligations that are sensitive to changes in interest rates. The table presents principal cash flows and related weighted average interest rates by expected maturity dates.

Debt obligations held for other than trading purposes at December 31, 2007 (dollars in thousands):

The information required by this item is set forth on pages F-1 through F-25 of this report.

Item 9. Changes In and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A (T). Controls and Procedures**(a) *Disclosure Controls and Procedures:***

We maintain disclosure controls and procedures, as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act), that are designed to ensure that information required to be disclosed in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is collected and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that no matter how well conceived and operated, disclosure controls and procedures can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. As a result of the material weakness described below, the Chief Executive Officer and the Chief Financial Officer have concluded that as of December 31, 2007, the end of the period covered by this report, our disclosure controls and procedures were not effective.

(b) *Management's Report on Internal Control Over Financial Reporting*

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) under the Securities Exchange Act of 1934.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

Our internal control over financial reporting is a process designed by, or under the supervision of, the our Chief Executive Officer and Chief Financial Officer, and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Our internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with general accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of management and board of directors; and, (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements.

Because of our inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management, under the supervision and the participation of our Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of our internal control over financial reporting as of December 31, 2007. In making this assessment, management used the criteria set forth in *Internal Control - Integrated Framework*, issued by the Committee of Sponsoring Organizations (COSO) of the Treadway Commission.

Our independent registered public accounting firm recommended to management to change the presentation and reporting of marketable

securities held by a limited partnership. Using the guidance in AICPA Audit and Accounting Guide, Investment Companies, and pursuant to EITF 85-12, Retention of Specialized Accounting for Investments in Consolidation, we concluded that the Company should retain this same accounting when preparing its consolidated financial statements. Adjustments were made in the process of preparing the 2007 consolidated financial statements to present this subsidiary's financial statements in accordance with the provisions of EITF 85-12. Solely as a result of this material weakness in internal controls we identified in accounting for the consolidation of the investment partnership, we have concluded that the Company did not maintain effective internal control over financial reporting as of December 31, 2007 based on criteria established in *Internal Control - Integrated Framework* issued by COSO.

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the our independent registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the us to provide only management's report in this annual report.

(c) Changes in Internal Control Over Financial Reporting

As of the quarter ended December 31, 2007, there were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to affect, our internal control over financial reporting, except for the material weakness described above.

Subsequent to year end, we are implementing several important changes in our internal controls, including additional procedures over the identification of issues, consultation with an outside accounting firm, and review and evaluation of the accounting for significant transactions.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders

Western Sizzlin Corporation

We have audited the accompanying consolidated balance sheet of Western Sizzlin Corporation and subsidiaries as of December 31, 2007 and the related consolidated statements of operations, stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2007 consolidated financial statements referred to above present fairly, in all material respects, the financial position of Western Sizzlin Corporation and subsidiaries as of December 31, 2007 and the results of their operations and their cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Notes 1 and 9, on January 1, 2007, the Company adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

EXPECTED MATURITY DATE

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

The Board of Directors and Shareholders

Western Sizzlin Corporation:

We have audited the accompanying consolidated balance sheet of **Western Sizzlin Corporation and Subsidiaries** as of December 31, 2006, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the two years in the period then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Western Sizzlin Corporation and subsidiaries as of December 31, 2006, and the results of their operations and their cash flows for each of the two years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the consolidated financial statements, the Company adopted Financial Accounting Standards Board Statement No. 123 (R), *Share-Based Payment*, on January 1, 2006.

WESTERN SIZZLIN CORPORATION
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2007, 2006 and 2005

(1) Summary of Significant Accounting Policies

(a) Description of Business and Principles of Consolidation

Western Sizzlin Corporation is a holding company which owns a number of subsidiaries, with its primary business activities conducted through Western Sizzlin Franchise Corporation and Western Sizzlin Stores, Inc, which franchise and operate restaurants. Financial decisions are centralized at the holding company level, and management of operating businesses is decentralized at the business unit level. The Company's prime objective centers on achieving above-average returns on capital in pursuit of maximizing the eventual net worth of its stockholders. While the Company has historically been principally engaged, and intends at this time to remain principally engaged, in franchising and operating restaurants, it has recently made selective investments in other companies. At December 31, 2007, the Company had 116 franchised, 5 Company-operated and 1 joint venture restaurant operating in 20 states.

The consolidated financial statements include the accounts of Western Sizzlin Corporation and its wholly-owned subsidiaries, Western Sizzlin Franchise Corporation, The Western Sizzlin Stores, Inc., Western Sizzlin Stores of Little Rock, Inc., Austins of Omaha, Inc., Western Investments, Inc., Western Properties, Inc., a majority-owned limited partnership, Western Acquisitions, L.P., and a solely-owned limited partnership, Western Real Estate, L.P. (collectively the Company). All significant intercompany accounts and transactions have been eliminated in consolidation.

(b) Stock Option Plans

Effective January 1, 2006, the Company began recording compensation expense associated with stock options in accordance with Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment as interpreted by SEC Staff Accounting Bulletin No. 107. Previously the Company had accounted for stock options according to the provisions of Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees, and as allowed by SFAS No. 123, Accounting for Stock-Based Compensation, therefore, no related compensation expense was recorded in periods prior to January 1, 2006 for awards granted with no intrinsic value. The Company adopted the modified prospective transition method provided for under SFAS No. 123R, and consequently has not retroactively adjusted results from prior periods.

The following table illustrates the effect on net income if the fair-value-based method of SFAS No. 123R had been applied to all outstanding and unvested awards in the year ended December 31, 2005:

(c) ***Cash Equivalents***

Cash equivalents include money market investments at December 31, 2007 and 2006, respectively. The Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

(d) ***Trade Accounts Receivable***

Trade accounts receivable are recorded at the invoiced amounts, which generally are due thirty days after the invoice date and are considered past due after thirty days. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable. The Company reviews its allowance for doubtful accounts monthly. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company does not have any off-balance-sheet credit exposure related to its franchisees.

(e) ***Notes Receivable***

Notes receivable are recorded at cost, less an allowance for impaired notes receivable. Management, considering current information and events regarding the borrowers' ability to repay their obligations, considers a note receivable to be impaired when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the note agreement. When a note receivable is considered to be impaired, the amount of the impairment is measured based on the present value of expected future cash flows discounted at the note's effective interest rate. Impairment losses are included in the allowance for impaired notes receivable through a charge to provision for bad debts. Interest income on impaired notes is recognized on the cash basis and is not material.

(f) ***Inventories***

Inventories are stated at the lower of cost (first-in, first-out method) or market and consist primarily of food, beverages, and restaurant supplies.

(g) ***Property and Equipment***

Property and equipment are stated at cost and depreciated on the straight-line basis over useful lives of 3 to 10 years. Leasehold improvements are amortized over the shorter of the asset's estimated useful life or the lease term. If the estimated useful life of a leasehold improvement exceeds the lease term and the lease allows for a renewable term and renewal is reasonably assured, the estimated useful life of the leasehold improvement is used for amortization purposes. Gains or losses are recognized upon the disposal of property and equipment and the cost and the related accumulated depreciation and amortization are removed from the accounts. Maintenance, repairs, and betterments which do not enhance the value of or increase the life of the assets are expensed as incurred.

Land held for investment is recorded at cost and is being held for future sale or development.

(h) *Marketable Securities*

Marketable equity securities held by Western Sizzlin Corporation are held for an indefinite period and thus are classified as available-for-sale. Available-for-sale securities are recorded at fair value in Investments in Marketable Securities on the consolidated balance sheet, with the change in fair value during the period excluded from earnings and recorded net of tax as a component of other comprehensive income.

Western Acquisitions, L.P. is, for GAAP purposes, an investment company under the AICPA Audit and Accounting Guide *Investment Companies*. The Company has retained the specialized accounting for Western Acquisitions, L.P. pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investments in Consolidation*. As such, marketable equity securities held by Western Acquisitions, L.P. are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from the change in fair value reflected in the consolidated Statement of Operations.

The Company determines cost on marketable securities sold based on the specific identification method.

(i) ***Franchise Royalty Contracts***

Franchise royalty contracts are amortized on a straight-line basis over fifteen years, the estimated average life of the franchise agreements. The Company assesses the recoverability of this intangible asset by determining whether the amortization of the franchise royalty contracts balance over their remaining life can be recovered through undiscounted future operating cash flows of the acquired operation. The amount of impairment, if any, is measured based on projected discounted future operating cash flows using a discount rate reflecting the Company's average cost of funds.

(j) ***Goodwill***

Goodwill represents the excess of costs over fair value of assets of businesses acquired. Goodwill determined to have an indefinite useful life is not amortized, but instead tested for impairment at least annually in accordance with the provisions of SFAS No. 142, *Goodwill and Intangible Assets*.

Goodwill is tested annually for impairment, and is tested for impairment more frequently if events and circumstances indicate that the asset might be impaired. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value. No impairments to goodwill were recognized in 2007, 2006 or 2005.

(k) ***Impairment of Long-lived Assets and Long-lived Assets to Be Disposed Of***

Long-lived assets, such as property and equipment, land held for investment, and franchise royalty contracts are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset.

(l) ***Income Taxes***

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records a valuation allowance to reduce net deferred tax assets to the amount that is more-likely-than-not to be realized. While the Company has

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

considered ongoing, prudent and feasible tax planning strategies in assessing the need for a valuation allowance, in the event the Company was to determine that it would be able to realize deferred tax assets in the future in an amount in excess of the net recorded amount, the Company would make an adjustment to the valuation allowance.

In July 2006, the FASB issued FASB Interpretation Number 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the more-likely-than-not recognition threshold, the position is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, *Accounting for Income Taxes*. The requirements of FIN 48 were adopted during the first quarter of 2007. The impact of adoption was a reduction to retained earnings on January 1, 2007, of \$118,375.

(m) Revenue Recognition

Revenue at Company-operated restaurants is recognized as customers pay for products at the time of sale. Initial franchise fees are recognized when all material services have been substantially performed by the Company and the restaurant has opened for business. Franchise royalties, which are based on a percentage of monthly sales, are recognized as income on the accrual basis and are typically collected within a month after a period ends. Other revenues consist primarily of sales of seasonings and marinades to franchisees. Revenues from these sales are recognized when the product is shipped to the franchisee. Revenues were reported net of related sales taxes.

(n) Cost of Sales

Cost of sales of the Company contains components from each reportable segment. Cost of Company-operated restaurants consists of food, beverage and employee costs. Restaurant occupancy and other include utilities, insurance, maintenance, rent and other such costs of the Company-operated stores. Cost of franchise operations includes direct costs associated with servicing the franchisees including personnel providing direct support, training materials and opening costs. Rebates and discounts from suppliers are recorded as the related purchases are made and are recognized as a reduction to cost of sales as the related inventory is sold.

Costs incurred for communicating advertising are expensed when incurred. Advertising costs totaled approximately \$169,000, \$137,000, and \$116,000 for 2007, 2006, and 2005, respectively, and are included in costs and expenses in the accompanying consolidated statement of operations.

(o) Leases and Subleases

The Company's policy requires the use of a consistent lease term for (i) calculating the maximum depreciation period for related buildings and leasehold improvements; (ii) classifying the lease; and (iii) computing periodic rent expense increases where the lease terms include escalations in rent over the lease term. The lease term commences on the date when the Company becomes legally obligated for the rent payments. The Company accounts for rent escalations in leases on a straight-line basis over the expected lease term. Any rent holidays after lease commencement are recognized on a straight-line basis over the expected lease term, which includes the rent holiday period. Leasehold improvements that have been funded by lessors have historically been insignificant. Any leasehold improvements the Company makes that are funded by lessor incentives or allowances under operating leases are recorded as leasehold improvement assets and amortized over the expected lease term. Such incentives are also recorded as deferred rent and amortized as reductions to lease expense over the expected lease term. The Company records contingent rent expense based on estimated sales for respective units over the contingency period.

(p) Earnings Per Share

Basic earnings per share excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company.

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the years indicated:

F-10

	Income (loss) (numerator)	Weighted average shares (denominator)	Earnings (loss) per share amount
Year ended December 31, 2007:			
Net loss basic	\$ (243,629)	1,904,885	\$ (0.13)
Net loss diluted	\$ (243,629)	1,904,885	\$ (0.13)
Year ended December 31, 2006:			
Net income basic	\$ 274,339	1,215,103	\$ 0.23
Net income diluted	\$ 274,339	1,224,582	\$ 0.23
Year ended December 31, 2005:			
Net income basic	\$ 681,360	1,188,857	\$ 0.57
Net income diluted	\$ 681,360	1,190,428	\$ 0.57

Options to purchase 0 shares in 2007, 50,000 shares in 2006 and 3,000 shares in 2005 were antidilutive and were not included in the diluted EPS calculation. For the year ended December 31, 2007, the Company excluded from the loss per share calculations all common stock equivalents because the effect on earnings per share was anti-dilutive.

(q) *Reclassifications*

Certain reclassifications have been made to the 2006 and 2005 consolidated statements of operations to place them on a basis comparable with the 2007 information. Beginning in 2007, the Company considered all investment activities to be operating activities. In addition, claims settlements and legal fees associated with lawsuit have been reclassified as a line item on the Consolidated Statements of Operations.

(r) *Use of Estimates*

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management of the Company to make a number of estimates and assumptions relating to the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(s) *Variable Interests*

The Company has a voting interest in WSI ADRF, Inc. (ADRF), an entity formed to develop national, regional and local advertising campaigns and materials for the benefit of the Company's franchised and company-owned restaurants. The Company-owned restaurants and substantially all of its franchisees are members of ADRF and therefore are required to remit a monthly payment to ADRF. These fees, along with contributions received from certain of the Company's vendors, are used by ADRF to develop and produce advertising and related materials for the company-owned restaurants and the franchisees. Total revenues of ADRF were approximately \$426,000, \$532,000 and \$569,000 for the years ended December 31, 2007, 2006 and 2005, respectively.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

The Company determined that ADRF is a variable interest entity but that neither the Company nor its Company-owned stores are the primary beneficiary of ADRF and that the Company is not obligated to absorb the losses of ADRF, if any. Accordingly, the results of ADRF are not consolidated with the Company. The Company's maximum exposure to loss as a result of its involvement with ADRF is limited to reimbursement of the costs of providing certain personnel and space to ADRF. The reimbursement from ADRF for these services was \$177,600 for the year ended December 31, 2007 and \$144,000 for the years ended December 31, 2006 and 2005.

(t) Recent Accounting Pronouncements

In March 2006, the FASB Emerging Issues Task Force issued Issue 06-3 (EITF 06-3), *How Sales Taxes Collected From Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement*. This standard requires that a company disclose its accounting policy (i.e., gross or net presentation) regarding presentation of taxes within the scope of EITF 06-3. If taxes are significant and reported on a gross basis, a company should disclose the amount of such taxes for each period for which an income statement is presented. The guidance was effective for the Company beginning January 1, 2007. The Company presents revenues net of sales taxes in its consolidated statements of operations.

In July 2006, the FASB issued FASB Interpretation Number 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken in a tax return. We must determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the more-likely-than-not recognition threshold, the position is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, *Accounting for Income Taxes*. We adopted the provisions in this statement beginning in the first quarter of 2007. Refer to Note 9 for further discussion.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years, with early adoption permitted. We have not yet determined the impact, if any, that the implementation of SFAS No. 157 will have on our results of operations or financial condition.

In February 2007, the FASB issued SFAS No. 159 *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115*, (SFAS 159), which is effective January 1, 2008. This Standard permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. We are currently evaluating the effect, if any, that the adoption of SFAS 159 will have on our consolidated financial statements on the adoption date of January 1, 2008.

In May 2007, the FASB issued FASB Staff Position No. FIN 46(R)-7, *Application of FASB Interpretation No. 46(R) to Investment Companies* (FSP FIN 46(R)-7) which provides clarification on the applicability of FIN 46(R), as revised, to the accounting for investments by entities that apply the accounting guidance in the AICPA Audit and Accounting Guide, *Investment Companies*. FSP FIN 46(R)-7 amends FIN 46(R), as revised, to make permanent the temporary deferral of the application of FIN 46(R), as revised, to entities within the scope of the guide under Statement of Position (SOP) No. 07-1, *Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies* (SOP 07-1). FSP FIN 46(R)-7 is effective upon adoption of SOP 07-1. The adoption of FSP FIN 46(R)-7 is not expected to have a material impact on the Company.

SOP 07-1, issued in June 2007, addresses whether the accounting principles of the AICPA Audit and Accounting Guide *Investment Companies* may be applied to an entity by clarifying the definition of an investment company and whether those accounting principles may be retained by a parent company in consolidation or by an investor in the application of the equity method of accounting. SOP 07-1, as originally issued, was to be effective for fiscal years beginning on or after December 15, 2007 with earlier adoption encouraged. In February 2008, the FASB issued FSP

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

SOP 07-1-1, *Effective Date of AICPA Statement of Position 07-01*, to indefinitely defer the effective date of SOP 07-01. The Company's majority-owned subsidiary, Western Acquisitions, L.P., is an investment company as currently defined in the AICPA Audit and Accounting Guide, *Investment Companies*. The Company has retained the specialized accounting for Western

F-12

Acquisitions, L.P. pursuant to EITF 85-12, *Retention of Specialized Accounting for Investments in Consolidation*. As such, marketable equity securities held by Western Acquisitions, L.P. are recorded at fair value in Investments in Marketable Securities in the consolidated financial statements, with unrealized gains and losses resulting from the change in fair value reflected in the consolidated statement of operations. The Company intends to monitor future developments associated with this statement in order to assess the impact, if any, that may result.

In December 2007, the FASB issued FASB Statement No. 141(R), Business Combinations (SFAS 141R), and FASB Statement No. 160, *Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS 160). These new standards will significantly change the accounting for and reporting for business combinations and noncontrolling (minority) interests in consolidated financial statements. SFAS 141(R) and SFAS 160 are required to be adopted simultaneously and are effective for the first annual reporting period beginning on or after December 15, 2008. These standards will impact us if we complete an acquisition or obtain minority interests after the effective date. We are currently evaluating the effect, if any, that the adoption of SFAS 160 will have on our consolidated financial statements on the adoption date of January 1, 2008.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 (SFAS 160), *Noncontrolling Interests in Consolidated Financial Statements* an amendment of ARB No. 51. SFAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as equity in our Consolidated Financial Statements. Among other requirements, this statement requires that the consolidated net income attributable to the parent and the noncontrolling interest be clearly identified and presented on the face of the consolidated income statement. SFAS 160 is effective for the first fiscal period beginning on or after December 15, 2008. We are required to adopt SFAS 160 in the first quarter of 2009. We are currently evaluating the impact of adopting SFAS 160 on our Consolidated Financial Statements.

(2) Reverse Stock Split and Rights Offering

On July 31, 2006, the Board of Directors approved a 1-for-10 reverse stock split. The record date of the transaction was August 10, 2006. No fractional shares were issued in connection with the reverse stock split. The par value of the common stock remained at \$0.01 per share after the reverse stock split. Unless otherwise indicated, the capital stock accounts and all share and earnings per share data in this report give effect to the reverse stock split, applied retroactively to all periods presented.

The Company conducted a rights offering during the fourth quarter of 2006. The Company's Form S-3 Registration Statement (as amended) became effective as of November 7, 2006. The record date for the offering was November 9, 2006 and the offering expired December 8, 2006. The Company distributed, at no charge to stockholders, one transferable right for each share of common stock held on the record date. For every two rights held, a stockholder was entitled to purchase one share of the Company's common stock for \$7.00. The net cash proceeds from the sale of the common stock offered, after payment of fees and expenses, were approximately \$4 million. The Company used approximately \$2.5 million of the net proceeds to pay off the balance of the line of credit of \$695,000 and to pay off margin debt of \$1.8 million on the investment in marketable security.

The Company conducted a rights offering during the fourth quarter of 2007. The Company's Form S-3 Registration Statement (as amended) became effective as of October 17, 2007. The record date for the offering was October 10, 2007 and the offering expired November 16, 2007. The Company distributed, at no charge to stockholders, one transferable right for each share of common stock held on the record date. For every two rights held, a stockholder was entitled to purchase one share of the Company's common stock for \$8.50. The net cash proceeds from the sale of the common stock offered, after payment of fees and expenses, were approximately \$7.6 million. The Company used proceeds for purchases of marketable securities and the purchase of land held for investment. The balance of the proceeds are expected to be used for general corporate purposes, working capital and to make acquisitions of, or investments in, related or unrelated lines of business, as described in the offering

prospectus.

(3) Accounts and Notes Receivable

Activity in the allowance for doubtful accounts was as follows:

	Years Ended December 31,		
	2007	2006	2005
Allowance for doubtful accounts:			
Beginning of year	\$ 652,563	\$ 573,584	\$ 470,399
Provision for bad debts	124,659	110,000	129,940
Recoveries			
Accounts and notes receivable written off	(512,091)	(31,021)	(26,755)
End of year	\$ 264,831	\$ 652,563	\$ 573,584
Allowance for doubtful accounts allocated to:			
Accounts receivable	\$ 198,425	\$ 470,758	\$ 454,458
Notes receivable	66,406	181,805	119,126
	\$ 264,831	\$ 652,563	\$ 573,584

The Company has various notes receivable from franchisees for amounts due under franchise agreements. The recorded investment in notes receivable for which an impairment has been recognized and the related allowance for doubtful accounts were \$66,406 and \$181,805, at December 31, 2007 and 2006, respectively. The average recorded investment in impaired notes was approximately \$124,000, \$150,000, and \$142,000 during 2007, 2006 and 2005, respectively.

The Company's franchisees and Company-operated restaurants are not concentrated in any specific geographic region, but are concentrated in the family steak house business. A multi-unit franchisee in Mississippi with twelve Western Sizzlin restaurants represents 12.17% and 12.37% of the Company's franchise accounts receivables at December 31, 2007 and 2006, respectively.

Other than this franchisee, no single franchisee accounts for a significant amount of the Company's franchise revenue. The Company establishes an allowance for doubtful accounts based upon factors surrounding the credit risk of specific franchisees, historical collection trends and other information. Generally, the Company does not require collateral to support receivables.

(4) Property and Equipment

Property and equipment at December 31, 2007 and 2006 consists of the following:

	2007	2006
Furniture, fixtures, and equipment	2,479,834	2,457,027
Leasehold improvements	3,712,619	3,699,932

Less accumulated depreciation and amortization	4,314,759	3,886,659
	\$ 1,877,694	\$ 2,270,300

(5) Investment in Real Estate

On December 13, 2007, Western Real Estate, L.P., a newly-formed Delaware limited partnership, managed by Western Properties, Inc., a newly-formed Delaware corporation and wholly-owned subsidiary of the Company, purchased approximately 23 acres of real property located in Bexar County, Texas, from unaffiliated third parties. Western Properties, Inc., serves as the general partner of Western Real Estate, L.P., which intends to operate as a private real estate investment fund. Land held for investment by Western Real Estate, L.P. at December 31, 2007 of \$3,745,152 is recorded at cost.

(6) Investments in Marketable Securities

All investments and capital allocation decisions are made by Mr. Sardar Biglari, the Company's Chairman, President and Chief Executive Officer, under limited authority delegated by the Board of Directors. The delegated authority includes the authority to borrow funds in connection with making investments in marketable securities or derivative securities, subject to Board reporting requirements and various limitations. As of the date of this filing, Mr. Biglari has authority to manage surplus cash up to \$10 million, and in addition, has authority to borrow a maximum of \$5 million. The Company has a margin securities account with a brokerage firm. The margin account bears interest at the Federal Funds Target Rate quoted by the Wall Street Journal, plus .5%, or approximately 4.25% as of the date of this report, with the minimum and maximum amount of any particular loan to be determined by the brokerage firm, in its discretion, from time to time. The collateral securing the margin loans would be the Company's holdings in marketable securities. The minimum and maximum amount of any particular margin may be established by the brokerage firm, in its discretion, regardless of the amount of collateral delivered to the brokerage firm, and the brokerage firm may change such minimum and maximum amounts from time to time. As of December 31, 2007, the Company had cash equivalents of \$258,967 held by a broker. These funds are designated by the Company for future long-term investments which will be purchased once they are identified.

Following is a summary of marketable equity securities held by Western Sizzlin Corporation as of December 31, 2007 and 2006:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2007:	\$ 605,690	\$ 128,846	\$	\$ 734,534
December 31, 2006:	\$ 4,543,768	\$ 1,964,877	\$	\$ 6,508,645

The Company realized net gains on sale of marketable equity securities held by Western Sizzlin Corporation of \$1,923,379 in 2007. Net realized gains are comprised of gross gains of \$3,692,662 and gross losses of \$1,769,483.

The Company is seeking to acquire, in an unsolicited tender offer, up to 2,700,000 shares of ITEX Corporation common stock for investment purposes. If successful the company currently estimates it will issue 178,821 shares of its common stock in connection with the offer.

In April 2007, the Company formed Western Investments, Inc., a Delaware corporation and wholly-owned subsidiary to serve as the general partner of Western Acquisitions, L.P., a Delaware limited partnership that operates as a private investment fund. Through Western Investments Inc., Mr. Biglari operates as the portfolio manager to the fund. During the third quarter of 2007, the Company contributed cash along with its holdings in the common stock of The Steak n Shake Company to Western Investments, Inc., which in turn contributed these assets to Western Acquisitions, L.P. Also during 2007, cash contributions from outside investors of \$2,225,000 were made to the limited partnership.

As of December 31, 2007, Western Investments, Inc. owned 87.57% of Western Acquisitions, L.P. As such, Western Acquisitions, L.P. has been consolidated into the accompanying financial statements with the 12.43% ownership by minority limited partners presented as minority interest on the accompanying consolidated balance sheet as of December 31, 2007. As discussed in Note 1, Western Acquisitions, L.P. is, for GAAP purposes, an investment company under the AICPA Audit and Accounting Guide *Investment Companies*. The Company has retained the

specialized accounting for Western Acquisitions, L.P. pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investment in Consolidation*. As such marketable equity securities held by Western Acquisitions, L.P. are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from changes in fair value reflected in the Consolidated Statements of Operations.

Following is a summary of marketable equity securities held by Western Acquisitions, L.P. as of December 31, 2007, of which all are in the United States:

	Cost	Fair Value
The Steak n Shake Co.	\$17,902,714	\$15,046,851
Other	138,660	115,480
Total Marketable Equity Securities	\$18,041,374	\$15,162,331

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

Reported realized gains, net, and net change in unrealized losses from marketable equity securities held by Western Acquisitions, L.P. for the year ended December 31, 2007 were as follows:

Realized gains	\$	83,867
Realized losses		(34,994)
Net change in unrealized losses		(2,787,876)
	\$	(2,739,003)

As of March 31, 2008, the Company's fair value of its investment in Steak n Shake has declined approximately 28%.

(7) Debt

At December 31, 2007, there was \$2,000,000 outstanding on a \$2,000,000 line of credit with a bank. The line is payable on demand, subject to annual renewal by the bank with an automatic renewal at May 31, 2008, interest rate of prime minus 0.50% (6.75% at December 31, 2007) and collateralized by accounts receivable and the assignment of all franchise royalty contracts.

As of December 31, 2007, the Company had amounts due to a broker of \$342,022. Due to broker represents cash borrowed on margin from a custodian broker for investment.

Subsequent to year end, the line of credit borrowing was completely paid in February 2008 and is available for future borrowings and a note payable for \$2,461,000 was issued, secured by land held for investment.

Long-term debt at December 31, 2007 and 2006 consists of the following:

	2007	2006
Notes payable to finance company with interest rates ranging from 9.82% to 10.07% due in equal monthly installments, including principal and interest, ranging from \$6,591 to \$13,487, with final payments due through April 1, 2013	\$ 685,055	\$ 848,125
Less current installments	118,783	163,089
Long-term debt, excluding current installments	\$ 566,272	\$ 685,036

The aggregate maturities of long-term debt for each of the five years subsequent to December 31, 2007 and years thereafter are as follows: 2008, \$118,783; 2009, \$109,803; 2010, \$121,385; 2011, \$134,189; 2012 \$148,342 and years thereafter, \$52,553. The notes payable to finance company are collateralized by accounts receivable, inventory and property and equipment of the respective notes at December 31, 2007.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

The notes payable to finance company require pre-payment premiums in certain circumstances. In addition, the notes payable to finance company contain certain restrictive covenants including debt coverage ratios, periodic reporting requirements and maintenance of operations at certain Company-operated restaurants that collateralize the notes payable. At December 31, 2007 the Company was in compliance with all covenants on the notes payable.

(8) Leases

The Company is obligated under various leases through 2015 for equipment, offices, Company-operated restaurants and restaurants which are subleased to franchisees. Initial terms for facility leases are typically 5 to 10 years, followed by additional terms containing renewal options at 5 year intervals, and may include rent escalation clauses. In addition, certain of the leases require the payment of contingent rentals based on a percentage of sales above stipulated levels.

At December 31, 2007, minimum rental payments due under operating leases and sublease rentals to be received by the Company are as follows:

F-16

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

	Operating leases	Sublease rentals	Net
2008	\$ 745,839	\$ 40,500	\$ 705,339
2009	634,425		634,425
2010	623,880		623,880
2011	367,611		367,611
2012	399,171		399,171
Subsequent years	1,171,994		1,171,994
Total minimum lease payments	\$ 3,942,920	\$ 40,500	\$ 3,902,420

Total rent expense (net of sublease rentals of \$54,000, \$377,000, and \$551,000, under operating leases for 2007, 2006 and 2005, respectively) approximated \$787,000, \$878,000 and \$1,100,000 for 2007, 2006 and 2005, respectively. Contingent rentals approximated \$0, \$109,000 and \$189,000 in 2007, 2006 and 2005, respectively. Taxes, insurance and maintenance expenses relating to all leases are obligations of the Company.

Certain of the Company's sublease arrangements are with franchisees. Sublease income received from franchisees amounted to \$54,000 in 2007, \$208,000 in 2006 and \$308,000 in 2005.

(9) Income Taxes

Income tax expense (benefit) for the years ended December 31, 2007, 2006 and 2005 consists of the following:

	Current	Deferred	Total
Year ended December 31, 2007:			
Federal	\$ 64,421	\$ (71,955)	\$ (7,534)
State	(43,108)	1,564	(41,544)

The tax effects of temporary differences that give rise to significant portions of the deferred income tax assets at December 31, 2007 and 2006 are presented below:

	2007	2006
Deferred income tax assets:		
Net operating loss carryforwards	\$ 364,096	\$ 1,059,243
Accounts receivable, principally due to allowance for doubtful accounts	96,451	237,634
Accrued expenses	394,041	142,432
AMT credit	76,285	45,123
Investment in joint venture		8,939
Unrealized gain (loss) on securities	871,138	
Stock options	9,287	14,238
Less valuation allowance	(120,000)	
Subtotal	1,691,298	1,507,609
Deferred income tax liabilities:		
Investment in joint venture	(2,975)	
Property and equipment, principally due to impairment charges	(105,869)	(81,898)
Prepaid expenses	(83,181)	(92,334)
Goodwill	(859,284)	(715,983)
Unrealized gain (loss) on securities		(715,608)
Subtotal	(1,051,309)	(1,605,823)
Net deferred income tax assets	\$ 639,989	\$ (98,214)

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods which the deferred tax assets are deductible, management believes it is more likely than not the Company will realize the benefits of these deductible differences, net of a valuation allowance of \$120,000 and \$0 at December 31, 2007 and 2006, respectively, related to the unrealized losses of marketable securities.

At December 31, 2007, the Company has net operating loss carryforwards for income tax purposes of \$999,584 available to offset future taxable income. Loss carryforwards of \$844,755 are subject to certain annual limitations of \$199,154 per year.

Expiration date:

2012	\$ 441,319
2018	403,436
2026	154,829
	\$ 999,584

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109 (FIN 48), on January 1, 2007. As a result of the implementation of FIN 48, the Company recognized a liability for uncertain tax positions in the amount of \$118,376, including interest of \$25,595, which was accounted for as an adjustment to the beginning balance of retained earnings. As of December 31, 2007, the Company has a recorded liability of \$28,456, including interest of \$19,435, for such uncertain tax positions.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. For the year ended December 31, 2007, the Company recognized approximately \$5,467 of accrued interest associated with uncertain tax positions.

F-18

The following table summarizes the changes in the Company's unrecognized tax benefits:

January 1, 2007	\$	118,375
Increase due to current tax positions		22,037
Settlements		(45,294)
Adjustment		(66,662)
December 31, 2007	\$	28,456

The Company is generally no longer subject to U.S. federal, state and local tax examinations by taxing authorities for years prior to 2004.

(10) Stock Options

The Company has three stock option plans: the 2005 Stock Option Plan, the 2004 Non-Employee Directors' Stock Option Plan, and the 1994 Incentive and Non-qualified Stock Option Plan. Options are no longer granted under the 1994 Plan and only 7,500 options granted to James C. Verney remain outstanding under that plan. Under the 2005 and 2004 Plans, employees and directors may be granted options to purchase shares of common stock at the fair market value on the date of the grant. During the year ended December 31, 2006, under the provisions of the plans, the contract terms of stock options for resigning directors were reduced and have been reflected in the computations of the weighted average contractual term of the outstanding options. Since this modification did not increase the value of the awards, the modification had no impact on compensation expense. On February 10, 2007, the Company received a letter from Sardar Biglari, Chairman, stating his desire not to receive future stock option grants under the 2004 Non-Employee Directors' Stock Option Plan and to cancel all stock options previously granted to him. The Company has complied with the request. There was no material financial statement impact in canceling previously granted stock options.

Options granted under the 2005 and 2004 Plans vest at the date of the grant. The fair value of each option award is estimated on the date of grant using the Black-Scholes option-pricing model. Assumptions utilized in the model are evaluated and revised, as necessary, to reflect market conditions and experience on the respective dates of grant. The risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of the grant. Expected volatilities are based on the historical volatility of the Company's stock for a period equal to the expected term of the options. The expected term of the options represents the period of time that options granted are outstanding and is estimated using historical exercise and termination experience.

Prior to the adoption of SFAS No. 123R, the benefit of tax deductions in excess of recognized stock compensation expense was reported as a reduction of taxes paid within operating cash flows. SFAS No. 123R requires that such benefits be recognized as a financing cash flow. The benefit of tax deductions in excess of recognized stock compensation expense for the year ended December 31, 2007 were immaterial.

The fair values of options granted during the years December 31, 2007, 2006 and 2005 were estimated on the date of grant using the Black-Scholes option pricing model based on the following weighted average assumptions in the table below:

	Years Ended December 31,		
	2007	2006	2005
Expected term (years)	5	5	9.1

There were 1,000 stock options granted during the year ended December 31, 2007, all at an estimated fair value of \$5.92. There were 6,000 stock options granted during the year ended December 31, 2006. The estimated fair value at the date of grant was \$5.10 per option for the 1,000 stock options granted during the first quarter of 2006 and \$6.80 per option for the 5,000 stock options granted during the second quarter of 2006. There were no stock options granted during the third or fourth quarters of 2006. The estimated weighted average fair value of the stock options granted during the year ended December 31, 2006 was \$6.50 per option. There were 49,500 stock options granted during year ended December 31, 2005, at a per option weighted average fair value of \$5.60. Stock option activity during the years ended December 31, 2007, 2006 and 2005 was as follows:

F-19

	Options Outstanding	Exercise Price Per Share Weighted Average	Contractual Term Weighted Average	Aggregate Intrinsic Value
Balance, December 31, 2004	17,500	8.50		
Granted	49,500	9.20

Expired	(13,000)	8.75		
Balance, December 31, 2007	36,000	7.10	5.85	\$ 374,264

All options outstanding at December 31, 2007 are fully vested and exercisable. The total fair value of shares vested during the years ended December 31, 2007, 2006, and 2005 was \$5,920, \$39,100 and \$277,700, respectively. At December 31, 2007, there were 40,000 shares available for future grants under the plans, however, on April 25, 2007, the Company's Board of Directors elected to suspend future grants under all plans indefinitely. The Company recorded \$5,920, \$39,100 and \$277,700 of compensation expense for stock options for the years ended December 31, 2007, 2006 and 2005, respectively.

(11) Employee Benefit Plan

The Company maintained a 401(k) investment plan (the Plan) for the benefit of its employees through December 31, 2006. Employees were eligible to participate in the 401(k) plan after a 12-month period of service. Under the Plan, employees elected to have up to 16% of their salary, subject to Internal Revenue Service limitations, withheld on a pretax basis and invested on their behalf. The Plan provided for discretionary contributions by the Company. For the years ended December 31, 2007, 2006 and 2004, the Company did not provide for any discretionary contribution. Effective January 1, 2007, the Company terminated the Plan.

(12) Fair Value of Financial Instruments

The following table presents the carrying amounts and estimated fair values of the Company's financial instruments at December 31, 2007 and 2006. SFAS No. 107, *Disclosures about Fair Value of Financial Instruments*, defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties:

	2007		2006	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets:				
Cash and cash equivalents	\$ 727,378	\$ 737,378	\$ 2,344,644	\$ 2,344,644

Other receivables	132,283	132,283	488,090	488,090

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

Investments in marketable securities	15,896,865	15,896,865	6,508,645	6,508,645
Financial liabilities:				
Note payable - line of credit	2,000,000	2,000,000		
Due to broker	342,022	342,022		
Long-term debt	685,055	747,354	848,125	965,041
Accounts payable	733,983	733,983	555,110	555,110
Accrued expenses and other	1,283,237	1,283,237	554,443	554,443
Other liabilities	89,039	89,039	69,370	69,370

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

- Cash and cash equivalents, trade accounts receivable, other receivables, notes payable-line of credit, due to broker, accounts payable, accrued expenses and other liabilities: The carrying amounts approximate fair value because of the short maturity of those instruments.
- Notes receivable: The fair value is determined as the present value of expected future cash flows discounted at the interest rate which approximates the rate currently offered by local lending institutions for loans of similar terms to companies with comparable credit risk.
- Long-term debt: The fair value of the Company's long-term debt is estimated by discounting the future cash flows of each instrument at rates which approximate those currently offered to the Company for similar debt instruments of comparable maturities by the Company's lenders.

(13) Impairment and Other Charges

In 2006 and 2005, we recorded impairment of \$46,284 and \$319,830, respectively, related to leasehold improvements for which no future cash flows are anticipated associated with subleased properties. In 2007 there were no such expenses.

The impairment charges relate to the Franchising operating segment as discussed in Note 14.

In 2005, the Company recorded closed restaurants expense of \$350,279, which included charges of \$128,471 associated with the buyout of a lease and impairments of \$221,808 related to leasehold improvements that will have no further use.

(14) Reportable Segments

The Company has organized segment reporting with additional information to reflect how the Company views its business activities. The Company-operated Restaurant segment consists of the operations of all Company-operated restaurants and derives its revenues from restaurant operations. This segment also includes net costs incurred from subleases of previously operated locations, which is presented separately. The Franchising segment consists primarily of franchise sales and support activities and derives its revenues from sales of franchise and development rights and collection of royalties from franchisees. The Investment Activity segment consists of investment activities and certain directly related expenses associated with legal matters. The Company does not allocate certain expenses to any business segment. These costs include expenses of the following functions: legal, accounting, stockholder relations, personnel not directly related to a segment, information systems and other headquarter activities. These unallocated expenses are designated as unallocated corporate expenses. Certain other expenses (such as sublease property expense, impairment and other charges, gains on settlement of insurance claims, and claims settlement and legal fees associated with a lawsuit) are also not allocated to any reportable segment.

The following table summarizes reportable segment information:

net losses they may suffer. As of December 31, 2007, Western Acquisitions, L.P., did not have any limited partners holding Class B interests. As of December 31, 2007, minority limited partners holding Class A interests held 12.43% ownership.

The Company has filed a registration statement on Form S-4, Amendment No. 2 on March 13, 2008 with the SEC. The Company is offering to acquire up to 2,700,000 shares of common stock of ITEX Corporation at an exchange ratio of one share of ITEX common stock for .06623 shares of Western Sizzlin Corporation common stock. As of March 13, 2008, the Company owned 700,714 shares of ITEX common stock, representing approximately 3.9% of the outstanding shares. If the Company acquires the maximum 2,700,000 shares in the offer, it would own 3,400,714 shares of ITEX common stock, representing approximately 19.0% of the outstanding shares.

The Company has a severance provision contained within the Employment Agreement with its Chief Financial Officer. The agreement provides certain termination benefits in the event that employment with the Company is terminated without cause and upon a change of control. Under the terms of the agreement, in the event of termination without cause the executive will receive termination benefits equal to six months of the executive's annual base salary in effect on the termination date and the continuation of health and welfare benefits through the termination date of the agreement. Under a change of control, the executive will receive termination benefits equal to one year of the executive's base salary in effect on the change of control date and the continuation of health and welfare benefits through the termination date of the agreement.

The Company has a severance provision contained within the Employment Agreement with the President of one of its subsidiaries, Western Sizzlin Franchise Corporation. The agreement provides for an automatic renewal of one year unless the Company or the executive provides notice of termination as specified in the agreement. Under the term of the agreement, in the event of termination without cause, the executive will receive termination benefits equal to one year of the executive's annual base salary in effect on the termination date and the continuation of health and welfare benefits through the termination date of the agreement.

Contingencies

The Company accrues for an obligation for contingencies, including estimated legal costs, when a loss is probable and the amount is reasonably estimable. As facts concerning contingencies become known to the Company, the Company reassesses its position with respect to accrued liabilities and other expenses. These estimates are subject to change as events evolve and as additional information becomes available during the litigation process.

Little Rock, Arkansas Lease

In September 2006, the Company was served with a lawsuit filed in the Circuit Court of Pulaski County, Arkansas, captioned *Parks Land Company, LLLP, et al. v. Western Sizzlin Corporation, et al.* The plaintiffs are owners/landlords of four restaurant premises located in the Little Rock, Arkansas metropolitan area which had been leased pursuant to a single lease agreement and previously occupied by the Company. Most recently, each of these premises has been subleased to various operators. The lease agreement expired pursuant to its terms on June 30, 2006. The plaintiffs claimed in their lawsuit unspecified damages allegedly owing for certain repair and maintenance expenses on the premises, for the replacement of certain equipment, for diminution of property value, and for loss of rental income, as well as interest and costs. On February 12, 2008, this case came before the Court for trial. On February 20, 2008, a 12 member jury returned a plaintiffs' verdict in the amount of \$689,526. On February 29, 2008, the Circuit Court of Pulaski County, Arkansas entered judgment in the case captioned *Parks Land Company, et al. v. Western Sizzlin Corporation, et al.* against the Company in the amount of \$689,666 plus plaintiff's legal costs. As of December 31, 2007, the Company has accrued a loss contingency reserve of \$900,000 as a result of the verdict. Of this amount, \$275,000 had been accrued in 2006. The Company disagrees with the result of the trial and has filed post-trial motions, seeking new trial or judgment notwithstanding the verdict. In

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-K

the event the Court denies the post-judgment relief, the Company will consider an appeal. There can be no assurance that ultimate settlement of this case will not be more than \$900,000.

Other

The Company is involved in various other claims and legal actions arising in the ordinary course of business. In the opinion of the management, the ultimate disposition of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

(17) Investment in Unconsolidated Joint Venture

The Company is a partner in a 50/50 joint venture with a franchisee, for a new restaurant in Harrisonburg, Virginia. During October 2005, the joint venture entered into a loan agreement for \$3.05 million and the Company guaranteed 50% of the loan obligation, with the partner guaranteeing the other 50%. The Company estimates the fair value of the guarantee to be approximately \$30,000 and recorded the amount in other long-term liabilities and in investments in unconsolidated joint venture on the accompanying balance sheet at December 31, 2007 and 2006. The term of the guarantee extends through July 1, 2026 and the Company would be required to perform under the guarantee should the joint venture not to be able to meet its scheduled principal and interest payments. Pursuant to the joint venture agreement, a cash contribution of \$300,000 from each 50/50 partner was also made at the closing of this financing. The Company is accounting for the investment using the equity method and the Company's share of the net income (loss) for the joint venture of \$157,516, (\$160,902) and (\$21,618) for the years ended December 31, 2007, 2006 and 2005, respectively, is included in equity in earnings of unconsolidated joint venture. The restaurant opened for business on December 14, 2006.

Realized gains on sales of marketable securities, net, of \$1,972,252 were recorded in the third quarter of 2007.

During the fourth quarter of 2007, the Company recorded \$2,430,000 of unrealized losses, net of minority interest, on marketable securities held by the limited partnership. In addition, the accrual for the legal loss contingency of \$600,000 (See Note 16) and additional legal expenses associated with investment activities were other major reasons for the net loss in the fourth quarter of 2007.

(19). Subsequent Event

Subsequent to December 31, 2007, the Company signed a term sheet to purchase a controlling interest in Mustang Capital Advisors, LP and Mustang Capital Management, LLC. Under the proposed transaction, the Company will purchase a 50.5% limited partnership interest in Mustang Capital Advisors and a 51% membership interest in Mustang Capital Management, which owns a 1% interest in Mustang Capital Advisors as its general partner. The total purchase price for these interests will be \$1,173,000, consisting of \$300,000 in cash and \$873,000 in shares of our common stock.
