See Item 2.05 below.

Item 2.05 Costs Associated with Exit or Disposal Activities

On February 21, 2007, the Board of Directors of Millennium Chemicals Inc. (Millennium Chemicals) approved a plan to sell Millennium Chemicals worldwide inorganic chemicals business, which is conducted through two subsidiaries of Millennium Chemicals, Millennium Worldwide Holdings I Inc. and Millennium US Op Co, LLC (both referred to as the Sellers). On February 23, 2007, the Sellers entered into a Sale and Purchase Agreement (the Agreement) with The National Titanium Dioxide Co. Ltd. (Cristal) and, for the limited purposes set forth in the Agreement, Lyondell Chemical Company, which wholly owns Millennium Chemicals. Upon consummation of the transactions contemplated by the Agreement, Cristal will purchase from Sellers all of Millennium Chemicals worldwide inorganic chemicals business for \$1.050 billion, in cash, plus the assumption of specified liabilities. The purchase price will be adjusted up or down depending on the change in value of net working capital, cash and specified indebtedness as of the closing date.

The transaction is conditioned upon, among other things, receipt of necessary approvals under applicable antitrust laws and labor and employment regulations and other customary closing conditions. In addition, as a condition to closing, Millennium Chemicals and Millennium Holdings LLC, a subsidiary of Millennium Chemicals, will be providing an indemnity to Cristal with respect to legacy liabilities retained by Millennium Holdings. The transaction is expected to close in the first half of 2007.

Millennium Chemicals does not expect to incur costs associated with one-time termination benefits, contract termination costs and other associated costs resulting from this disposition. However, Millennium Chemicals does expect the sale to result in additional tax payments of approximately \$70 million.

The Agreement is incorporated by reference into this Current Report on Form 8-K as Exhibit 99.1.
