Item 2.05. Costs Associated with Exit or Disposal Activities.

On November 13, 2008, Epicor Software Corporation (the Company) issued a press release announcing that it had undertaken a series of cost reduction initiatives including a reduction in its workforce, stricter controls on discretionary spending, and technology initiatives designed to improve efficiencies and reduce operating expenses. As part of the Company's ongoing comprehensive review of its operations and business plan, the Company determined to go forward with certain cost reduction initiatives beginning on November 12, 2008 and commenced notification of employees affected by the workforce reduction on that date. The reduction of workforce described above has been substantially completed as of November 13, 2008. The Company has begun implementing the other cost reduction initiatives described above and expects to continue their implementation through the fourth quarter of 2008 and into 2009.

The Company announced that as a result of such actions it expects to achieve annual savings of between \$16 million and \$20 million. The Company also announced that it expected to incur restructuring charges of approximately \$4 million during the fourth quarter of 2008 related to these actions, almost all of which are related to one-time costs estimated to be incurred in connection with the above described reduction in workforce. Actual results could differ from these estimates. A copy of the press release is being filed as Exhibit 99.1 to this Current Report on Form 8-K.
