Changes in Tax Laws

On December 22, 2017, the Tax Cuts and Jobs Act (the Act) was enacted in the United States which significantly changes US income tax law, including reducing the US federal corporate income tax rate to 21%, broadening the US tax base, introducing a territorial tax system and one time repatriation tax on US entities for previously deferred earnings of non-US investees, allowing full expensing of certain property assets and imposing certain additional taxes on payments made from US entities to foreign related parties.

Nomura has recognized a reduction of 2.8 billion yen in deferred tax liabilities and deferred tax expense as a result of the reduction in the corporate income tax rate which is effective for US entities from January 1, 2018.

Nomura continues to evaluate and assess the other impacts of the Act on our US entities and may recognize further adjustments to deferred tax assets and liabilities, and therefore to income tax expense (benefit), during the fiscal year ending March 31, 2019 depending on, among other things, finalizing of calculations for all impacted entities, changes in certain assumptions and interpretations made by Nomura, certain actions to be taken by Nomura in the future and whether additional guidance is released by the US tax authorities and other bodies.
