SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

Form 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended September 30, 2014

OR

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____

Commission File Number 1-8524

Myers Industries, Inc.

(Exact name of registrant as specified in its charter)

Ohio 34-0778636
(State or other jurisdiction of (IRS Employer Identification
incorporation or organization) Number)

1293 South Main Street
Akron, Ohio 44301
(Address of principal executive offices) (Zip code)

(330) 253-5592
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No .

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No .

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding as of October 24, 2014
Common Stock, without par value	31,511,839 shares

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except where otherwise indicated)

1. Statement of Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Myers Industries, Inc. and all wholly owned subsidiaries (collectively, the "Company"), and have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures are adequate to make the information not misleading. These interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2013.

In the opinion of the Company, the accompanying financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of September 30, 2014, and the results of operations and cash flows for the periods presented. The results of operations for the nine months ended September 30, 2014 are not necessarily indicative of the results of operations that will occur for the year ending December 31, 2014.

Segment Realignment and Discontinued Operations

During the second quarter of 2014, the Company realigned its reportable segments as a result of organizational changes to better align its resources to support its ongoing business strategy. The realignment is consistent with the manner in which our Chief Operating Decision Maker evaluates performance and makes resource allocation decisions. Historical segment information has been adjusted to reflect the effect of this change. Our segment information is more fully described in Note 15. Historical information also reflects discontinued operations presentation for businesses disposed of or meeting the held for sale criteria as described in Note 3. Reclassifications of prior year amounts have been made in conformity with generally accepted accounting principles to conform to current year's reporting presentation.

Recent Accounting Pronouncements Not Yet Adopted

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This guidance states that the disposal of a component of an entity is to be reported in discontinued operations only if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. The pronouncement also requires additional disclosures regarding individually significant disposals of components that do not meet the criteria to be recognized as a discontinued operation as well as additional and expanded disclosures. The guidance is effective for the Company on January 1, 2015 and is to be applied prospectively. While early adoption is permitted, the Company plans to adopt this guidance on January 1, 2015. The Company is currently evaluating the impact the adoption of this guidance will have on its financial position, results of operations, cash flows and related disclosures.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, to clarify the principles used to recognize revenue for all entities. Under ASU 2014-09, a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The new guidance is effective for the Company on January 1, 2017. The Company is currently evaluating the impact the adoption of this guidance will have on its financial position, results of operations, cash flows and related disclosures.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern. The new standard provides guidance on determining when and how to disclose going-concern uncertainties in the financial statements. Under ASU 2014-15, management will be required to perform interim and annual assessments of the Company's ability to continue as a going concern within one year of the date the financial statements are issued. ASU 2014-15 is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. The adoption of this standard is not expected to have an impact on the Company's financial statement disclosures.

Table of Contents

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements - (Continued)

(Dollar amounts in thousands, except where otherwise indicated)

Translation of Foreign Currencies

All asset and liability accounts of consolidated foreign subsidiaries are translated at the current exchange rate as of the end of the accounting period and income statement items are translated monthly at an average currency exchange rate for the period. The resulting translation adjustment is recorded in other comprehensive income (loss) as a separate component of shareholders' equity.

Fair Value Measurement

The Company follows guidance included in ASC 820, Fair Value Measurements and Disclosures ("ASC 820"), for its financial assets and liabilities, as required. The guidance established a common definition for fair value to be applied to U.S. GAAP requiring the use of fair value, established a framework for measuring fair value, and expanded disclosure requirements about such fair value measurements. The guidance did not require any new fair value measurements, but rather applied to all other accounting pronouncements that require or permit fair value measurements. Under ASC 820, the hierarchy that prioritizes the inputs to valuation techniques used to measure fair value is divided into three levels:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs that are observable either directly or indirectly.

Level 3: Unobservable inputs for which there is little or no market data or which reflect the entity's own assumptions. The fair value of the Company's cash, accounts receivable, accounts payable and accrued expenses are considered to have a fair value which approximates carrying value due to the nature and relative short maturity of these assets and liabilities.

The fair value of debt under the Company's Loan Agreement approximates carrying value due to the floating rates and relative short maturity (less than 90 days) of the revolving borrowings under this agreement. The fair value of the Company's fixed rate senior unsecured notes was estimated using market observable inputs for the Company's comparable peers with public debt, including quoted prices in active markets and interest rate measurements which are considered level 2 inputs. At September 30, 2014, the fair value of the Company's \$100.0 million fixed rate senior unsecured notes was estimated at \$103.8 million. At December 31, 2013, the fair value of the Company's \$11.0 million fixed rate senior unsecured notes was estimated at \$10.8 million.

Revenue Recognition

The Company recognizes revenues from the sale of products, net of actual and estimated returns, at the point of passage of title and risk of loss, which is generally at time of shipment, and collectability of the fixed or determinable sales price is reasonably assured.

Table of Contents

Myers Industries, Inc. and Subsidiaries

Balance at September 30, 2014	\$(3,287)	\$(1,066)	\$(4,353)
Cash and Cash Equivalents			

The Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents. Cash equivalents are stated at cost, which approximates market value. The Company maintains operating cash and reserves for replacement balances in financial institutions which, from time to time, may exceed federally insured limits. The Company periodically assesses the financial condition of these institutions and believes that the risk of loss is minimal.

2. Acquisition

On July 2, 2014, CA Acquisition Inc., now known as Scepter Canada Inc., and a wholly-owned subsidiary of Myers Industries, Inc., completed the purchase of substantially all of the assets and assumption of certain liabilities of Scepter Corporation and certain real property of SHI Properties Inc., both located in Scarborough, Ontario, Canada. Contemporaneously with the asset acquisition, Crown US Acquisition Company, now known as Scepter US Holding Company, and another wholly-owned subsidiary of Myers Industries, Inc., completed the purchase of all of the issued and outstanding membership interests of Eco One Leasing, LLC and Scepter Manufacturing, LLC, both located in Miami, Oklahoma. Eco One Leasing, LLC was subsequently merged into Scepter Manufacturing, LLC. The total purchase price for these acquisitions (collectively, "Scepter") was approximately \$157.8 million in cash, which includes an estimated working capital adjustment of \$0.8 million subject to further adjustment based on the final working capital and other specified items. The acquisition of Scepter was funded from net proceeds from additional borrowings

of approximately \$135.3 million under the Fourth Amended and Restated Loan Agreement and cash on hand of \$22.5 million.

9

Table of Contents

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements - (Continued)

(Dollar amounts in thousands, except where otherwise indicated)

The acquisition of Scepter strengthens and expands the Company's position as an industry leading producer of portable marine fuel containers, portable fuel and water containers and accessories, ammunition containers, storage totes and environmental bins for the marine, military, consumer and industrial markets. The acquisition of Scepter is consistent with the Company's business strategy and the products fit well with the Company's overall portfolio. The operating results of Scepter have been included within our Condensed Consolidated Statement of Income (Unaudited) and within the Company's Material Handling Segment since the date of acquisition. The Condensed Consolidated Statements of Income (Unaudited) for the Company for the three and nine months ended September 30, 2014 include net sales of \$21.6 million and an operating loss of \$5.2 million related to Scepter. Included in Scepter's operating results for the three months ended September 30, 2014 were approximately \$3.0 million in transactional costs and \$2.3 million of inventory purchase accounting fair value adjustments charged to cost of sales as the inventory was sold. Total transactional costs incurred relating to the Scepter acquisition were approximately \$3.6 million for the nine months ended September 30, 2014 and are included in general and administrative expenses in the Condensed Consolidated Statements of Income (Unaudited).

The Company accounted for the acquisition of Scepter using the acquisition method of accounting, which requires among other things, the assets acquired and liabilities assumed be recognized at their respective fair values as of the acquisition date. As of September 30, 2014, the entire purchase price allocation is preliminary. The Company has received a preliminary third-party valuation of certain tangible and intangible assets of Scepter and, therefore, the values attributed to those acquired assets in the condensed consolidated financial statements are subject to adjustment. As the Company finalizes the fair value of assets acquired and liabilities assumed, additional adjustments will be recorded during the measurement period.

Scepter's assets and liabilities are recorded at fair value as of the date of acquisition using primarily level 3 fair value inputs. The purchase consideration, related preliminary estimated allocations, and resulting excess over fair value of net assets acquired are as follows:

Assets acquired:

Current assets	\$34,572
Property, plant and equipment	44,613
Intangible assets	66,500
Assets acquired	\$145,685

Liabilities assumed:

Current liabilities	\$8,877
Total liabilities assumed	8,877

Goodwill	21,003
Total consideration	\$157,811

Goodwill is calculated as the excess of the consideration transferred over the assets acquired and liabilities assumed and represents the future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. The Company expects that approximately \$21.0 million of goodwill recognized for the acquisition will be deductible for tax purposes.

Identifiable intangible assets acquired in connection with the acquisition of Scepter are as follows:

	Fair Value	Estimated Useful Life	Valuation Method
Intangible assets not subject to amortization:			

Edgar Filing: MYERS INDUSTRIES INC - Form 10-Q

Trademarks and trade names	\$8,900		Relief from royalty
Intangible assets subject to amortization:			
Technology	22,300	10 years	Relief from royalty
Customer relationships	35,300	6 years	Multi-period excess earnings
	57,600		
Total	\$66,500

The following unaudited pro forma information presents a summary of the consolidated results of operations for the Company as if the acquisition of Scepter had occurred on January 1, 2013.

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2014	September 30, 2013	September 30, 2014	September 30, 2013
Net sales	\$162,109	\$165,642	\$516,774	\$515,605
Income from continuing operations	\$357	\$7,688	\$14,717	\$19,679
Income per share from continuing operations:				
Basic	\$0.01	\$0.23	\$0.45	\$0.59
Diluted	\$0.01	\$0.22	\$0.45	\$0.58

The unaudited pro forma consolidated results are based on the Company's historical financial statements and those of Scepter and do not necessarily indicate the results of operations that would have resulted had the acquisition actually been completed at the beginning of the applicable period presented. The pro forma financial information assumes that the companies were combined as of January 1, 2013. The pro forma results reflect the business combination accounting effects from the acquisition including amortization charges from the acquired intangible assets, inventory purchase accounting adjustments charged to cost of sales as the inventory is sold and increased interest expense associated with debt incurred to fund the acquisition. The unaudited pro forma consolidated results do not give effect to the synergies of the acquisition and are not indicative of the results of operations in future periods.

3. Discontinued Operations

On June 20, 2014, the Company completed the sale of the assets and associated liabilities of its wholly-owned subsidiaries WEK Industries, Inc. and Whiteridge Plastics LLC (collectively "WEK") for approximately \$19.9 million, which includes a working capital adjustment of approximately \$0.4 million based on the estimated level of working capital as of the closing date of the sale. Of the total proceeds from the sale of WEK, approximately \$1.0 million are held in escrow to be received in December 2015. The Company recorded a gain on the sale of WEK of approximately \$2.4 million, net of tax of \$1.3 million. WEK is a premier blow molder of custom engineered plastic components for the heavy truck, recreational vehicle, marine, appliance and consumer products industries. WEK was previously reported as part of our former Engineered Products Segment.

In addition, during the second quarter of 2014, the Company's Board of Directors approved the commencement of the sale process to divest its Lawn and Garden Segment to allow it to focus resources on its core growth platforms. The Lawn and Garden Segment serves the North American horticulture market with plastic products such as seedling trays, nursery products, hanging baskets, custom print containers as well as decorative resin planters. The business is available for sale in its present condition and it is anticipated that a sale will be completed by the end of the second quarter of 2015.

Table of contents

Myers Industries, Inc. and Subsidiaries
 Notes to Unaudited Condensed Consolidated Financial Statements
 (Dollar amounts in thousands, except where otherwise indicated)

The Lawn and Garden Segment meets the held-for sale criteria under the requirements of ASC 360. The Company performed a fair value assessment in accordance with ASC 820 for its financial assets and liabilities included in discontinued operations. The Company's assessment focused on whether it is more likely than not that the fair value of the Lawn and Garden Segment at September 30, 2014 was less than its carrying value. The Company used a combination of valuation techniques primarily using discounted cash flows to determine the fair value of its Lawn and Garden Segment and market based multiples as supporting evidence. The variables and assumptions used, all of which are level 3 fair value inputs, included the projections of future revenues and expenses, working capital, terminal values, discount rates and long term growth rates. The market multiples observed in sale transactions were determined separately based on the weighted average cost of capital determined for the Company's Lawn and Garden Segment. In addition, we made certain judgments about the selection of comparable companies used in determining market multiples in valuing our Lawn and Garden Segment, as well as certain assumptions to allocate shared assets and liabilities to calculate values for that business. The underlying assumptions used were based on historical actual experience and future expectations that are consistent with those used in the Company's strategic plan. The Company compared the fair value of the Lawn and Garden Segment to its respective carrying value, including related goodwill. Our estimate of the fair value of the Lawn and Garden Segment could change over time based on a variety of factors, including actual operating performance of the underlying businesses or the impact of future events on the cost of capital and the related discount rates used. Since the estimated fair value less cost to sell for the Lawn and Garden Segment exceeded its carrying value as of September 30, 2014, no adjustments were made to its carrying value.

The Company has classified and accounted for the assets and liabilities of the Lawn and Garden Segment and WEK, for periods prior to the sale, as held for sale in the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and their operating results, net of tax, as discontinued operations in the accompanying Condensed Consolidated Statements of Income (Unaudited) for all periods presented.

Summarized selected financial information for the Lawn and Garden Segment and WEK for the three and nine months ended September 30, 2014 and 2013, are presented in the following table.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014*	2013
Net sales	\$44,957	\$53,478	\$149,634	\$173,916
Income (loss) from discontinued operations before income taxes	\$758	\$(188)	\$(9,908)	\$3,430
Income tax expense (benefit)	(117)) 183	(3,694)) 807
Income (loss) from discontinued operations	875	(371)	(6,214)) 2,623
Net gain on sale of discontinued operations, net of tax of \$1.3 million	—	—	2,428	—
Income (loss) from discontinued operations	\$875	\$(371)	\$(3,786)) \$2,623

* Includes WEK operating results through June 20, 2014.

Table of contents

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except where otherwise indicated)

The assets and liabilities of discontinued operations are stated separately as of September 30, 2014 and December 31, 2013, in the Condensed Consolidated Statements of Financial Position (Unaudited) and are comprised of the following items:

	September 30, 2014	December 31, 2013
Assets		
Accounts receivable-net	\$26,256	\$37,527
Inventories	56,809	53,401
Prepaid expenses and other current assets	1,417	1,832
Income taxes refundable	1,889	—
Goodwill	9,220	9,567
Patents and other intangible assets, net	6,262	6,860
Property, plant and equipment, net	38,219	51,028
Other	743	353
Total Assets Held for Sale	\$140,815	\$160,568
Liabilities		
Accounts payable	\$22,658	\$29,366
Accrued expenses and other liabilities	12,331	18,503
Total Liabilities Held for Sale	\$34,989	\$47,869

The Lawn and Garden Segment restructuring plan, announced in July 2013, detailed the closure of two manufacturing plants: one in Brantford, Ontario and the second in Waco, Texas. The restructuring actions include closure, relocation and employee related costs. Through September 30, 2014, the Lawn and Garden Segment has incurred approximately \$14 million of charges under its restructuring plan. Restructuring actions under the plan have been completed.

Restructuring charges related to discontinued operations for the three and nine months ended September 30, 2014 and 2013 are presented in the following table:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Severance and personnel	\$428	\$50	\$1,596	\$310
Other exit costs	187	943	3,461	1,822
Total	\$615	\$993	\$5,057	\$2,132

4. Accounts Receivable Factoring

During the third quarter of 2014, the Company's wholly-owned subsidiaries Plasticos Novel Do Nordeste S.A. and Plasticos Novel Do Parana S.A. (collectively, "Novel") entered into a factoring agreement to sell, without recourse, certain of their Brazilian real -based trade accounts receivables to an unrelated third party financial institution as part of its working capital management. The sale of these receivables accelerated the collection of the Company's cash and reduced credit exposure. Under the terms of the factoring agreement, the Company retains no rights or interest, has no

obligations with respect to the sold receivables, and does not service the receivables after the sale. As such, the factoring of trade receivables under this agreement is accounted for as a sale. The Company accounts for its trade accounts receivable factoring program as required under ASC 860, Transfers and Servicing. During the quarter, \$8.1 million of trade accounts receivables had been sold under the terms of the factoring agreement for cash proceeds of \$7.9 million. The receivables sold pursuant to the factoring agreement have been

Table of contents

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except where otherwise indicated)

recorded as a reduction of trade accounts receivable and as cash provided by operating activities in the Condensed Consolidated Statement of Cash Flows. The Company pays an administrative fee based on the dollar value of receivables sold. Administrative fees related to this program for the period ended September 30, 2014 were \$0.2 million and are included in selling, general and administrative expenses in the Condensed Consolidated Statements of Income (Unaudited).

5. Inventories

Inventories are stated at the lower of cost or market. Approximately forty percent of the Company's inventories use the last-in, first-out (LIFO) method of determining cost. All other inventories are valued at the first-in, first-out ("FIFO") method of determining cost. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations must necessarily be based on management's estimates of expected year-end inventory levels and costs. Because these are subject to many factors beyond management's control, estimated interim results, which were immaterial, are subject to change in the final year-end LIFO inventory valuation and therefore, no adjustment was recorded as of September 30, 2014.

6. Other Accrued Expenses

Other accrued expenses consisted of the following:

	September 30, 2014	December 31, 2013
Deposits and amounts due to customers	\$5,295	\$7,664
Dividends payable	4,268	3,174
Accrued legal and professional fees	500	289
Other accrued expenses	8,881	5,307
	\$18,944	\$16,434

7. Goodwill and Intangible Assets

The Company is required to test for impairment on at least an annual basis. In addition, the Company tests for impairment whenever events or circumstances indicate that it is more likely than not that the fair value of a reporting unit is below its carrying amount. Such events may include, but are not limited to, significant changes in economic and competitive conditions, the impact of the economic environment on the Company's customer base or its businesses, or a material negative change in its relationships with significant customers. The Company conducts its annual impairment assessment as of October 1. Refer to Note 3 regarding assessment of fair value of our Lawn and Garden Segment as of September 30, 2014.

The carrying amount of goodwill at January 1, 2014 reflects our new reportable segments, more fully described in Note 15. The change in goodwill for the nine months ended September 30, 2014 was as follows:

Segment	Balance at January 1, 2014	Acquisitions	Foreign Currency Translation	Balance at September 30, 2014
Material Handling	\$50,570	\$21,003	\$(1,875)) \$69,698
Distribution	505	—	—	505

\$51,075 \$21,003 \$(1,875) \$70,203

Intangible assets other than goodwill primarily consist of trade names, customer relationships, patents, and technology assets established in connection with acquisitions. These intangible assets, other than certain trade names, are amortized over their estimated useful lives. The Company has indefinite lived trade names which had a carrying value of \$11.4 million and \$2.5 million at September 30, 2014 and December 31, 2013, respectively. The estimated annual amortization expense for intangible assets with finite lives is \$6.6 million for 2014, \$10.6 million in 2015; \$10.5 million in 2016; \$9.5 million in 2017, \$9.0 million in 2018 and \$8.6 million in 2019.

Table of contents

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except where otherwise indicated)

Intangible assets at September 30, 2014 and December 31, 2013 consisted of the following:

	Weighted Average Useful Life (years)	September 30, 2014			December 31, 2013		
		Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Trade Names	5.6	\$ 11,640	\$ (102)	\$ 11,538	\$ 2,789	\$ (78)	\$ 2,711
Customer Relationships	5.4	42,290	(6,479)	35,811	7,968	(4,515)	3,453
Technology	9.3	27,746	(1,885)	25,861	5,502	(918)	4,584
Patents	2.4	10,900	(8,266)	2,634	10,900	(7,448)	3,452
Non-Compete	1.4	150	(148)	2	150	(95)	55
		\$ 92,726	\$ (16,880)	\$ 75,846	\$ 27,309	\$ (13,054)	\$ 14,255

8. Net Income (Loss) Per Common Share

Net income (loss) per common share, as shown on the Condensed Consolidated Statements of Income (Unaudited), is determined on the basis of the weighted average number of common shares outstanding during the period as follows:

	Three Months Ended September 30,		Nine Month Ended September 30,	
	2014	2013	2014	2013
Weighted average common shares outstanding				
Basic	31,641,680	33,670,639	32,510,415	33,574,801
Dilutive effect of stock options and restricted stock	—	538,170	488,967	416,220
Weighted average common shares outstanding diluted	31,641,680	34,208,809	32,999,382	33,991,021

Options to purchase 198,500 shares of common stock that were outstanding for the nine month period ended September 30, 2014, were not included in the computation of diluted earnings per share as the exercise prices of these options were greater than the average market price of common shares. There were 435,559 dilutive common shares excluded from the computation of loss per common share for three months ended September 30, 2014 due to the Company's net loss for the period. Options to purchase 123,900 shares of common stock that were outstanding for the nine month period ended September 30, 2013, were not included in the computation of diluted earnings per share as the exercise prices of these options were greater than the average market price of common shares.

(Dollar amounts in thousands, except where otherwise indicated)

9. Restructuring

The charges related to various restructuring programs implemented by the Company are included in selling, general and administrative ("SG&A") expenses and cost of sales depending on the type of cost incurred. The restructuring charges for the three and nine months ended September 30, 2014 and 2013 are presented in the following tables.

Segment	Three Months Ended September 30, 2014			2013		
	Cost of sales	Selling, general and administrative	Total	Cost of sales	Selling, general and administrative	Total
Distribution	\$—	\$4	\$4	\$—	\$25	\$25
Material Handling	112	230	342	—	—	—
Total	\$112	\$234	\$346	\$—	\$25	\$25
Segment	Nine Months Ended September 30, 2014			2013		
	Cost of sales	Selling, general and administrative	Total	Cost of sales	Selling, general and administrative	Total
Distribution	\$—	\$764	\$764	\$—	\$117	\$117
Material Handling	189	260	449	177	48	225
Corporate	—	—	—	—	17	17
Total	\$189	\$1,024	\$1,213	\$177	\$182	\$359

The accrued liability balance for severance and other exit costs associated with restructuring are presented in the following table.

	Severance and Personnel	Other Exit Costs	Total
Balance at January 1, 2013	\$318	\$—	\$318
Provision	284	75	359
Less: Payments	(602)	(75)	(677)
Balance at September 30, 2013	\$—	\$—	\$—
Balance at January 1, 2014	\$—	\$—	\$—
Provision	1,139	74	1,213
Less: Payments	(1,139)	(74)	(1,213)
Balance at September 30, 2014	\$—	\$—	\$—

In January 2014, the Distribution Segment announced the closing of its Canadian branches which operated under the name Myers Tire Supply International. The restructuring actions included closure, lease cancellation and employee related costs. The aggregate restructuring charges related to this plan through September 30, 2014 were approximately \$0.8 million. Restructuring actions under the plan have been completed.

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements - (Continued)

(Dollar amounts in thousands, except where otherwise indicated)

10. Stock Compensation

The Company's 2008 Incentive Stock Plan (the "2008 Plan") authorizes the Compensation Committee of the Board of Directors to issue up to 3,000,000 shares of various types of stock based awards including stock options, restricted stock and stock appreciation rights to key employees and directors. In general, options granted and outstanding vest over a three year period and expire ten years from the date of grant.

Stock compensation expense reduced income from continuing operations before taxes approximately \$0.8 million for both the three months ended September 30, 2014 and 2013. Stock compensation expense reduced income from continuing operations before taxes approximately \$2.4 million and \$2.1 million for the nine months ended September 30, 2014 and 2013, respectively. These expenses are included in SG&A expenses in the accompanying Condensed Consolidated Statements of Income (Unaudited). Total unrecognized compensation cost related to non-vested share based compensation arrangements at September 30, 2014 was approximately \$4.8 million which will be recognized over the next three years, as such compensation is earned.

On March 7, 2014, stock options for 209,500 shares were granted with a three year vesting period. The fair value of options granted is estimated using a binomial lattice option pricing model based on assumptions set forth in the following table. The Company uses historical data to estimate employee exercise and departure behavior. The risk free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant and through the expected term. The dividend yield rate is based on the Company's historical dividend yield. The expected volatility is derived from historical volatility of the Company's shares and those of similar companies measured against the market as a whole.

Model

Risk free interest rate	2.80	%
Expected dividend yield	2.50	%
Expected life of award (years)	7.0	
Expected volatility	50.00	%
Fair value per option share	\$7.05	

The following table provides a summary of stock option activity for the period ended September 30, 2014:

	Shares	Average Exercise Price	Weighted Average Life
Outstanding at January 1, 2014	1,574,572	\$12.14	
Options granted	209,500	20.93	
Options exercised	(196,541)) 12.27	
Canceled or forfeited	(35,752)) 15.48	
Outstanding at September 30, 2014	1,551,779	\$13.23	5.90 years
Exercisable at September 30, 2014	1,105,242	\$11.62	4.76 years

The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option. The total intrinsic value of all stock options exercised during the three months ended September 30, 2014 and 2013 was approximately \$0.2 million and \$1.2 million, respectively. The total intrinsic value of all stock options exercised during the nine months ended September 30, 2014 and 2013 was approximately \$1.6 million and \$2.6 million, respectively.

On March 7, 2014, 104,100 Restricted Stock Unit ("RSU") Awards were granted with a three year vesting period. The RSUs had a grant date fair value of \$20.93 per share, which was the closing price of the common stock on the date of grant.

Table of Contents

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements - (Continued)

(Dollar amounts in thousands, except where otherwise indicated)

The following table provides a summary of combined RSU and restricted stock activity for the period ended September 30, 2014:

	Awards	Average Grant-Date Fair Value
Unvested at January 1, 2014	275,525	
Granted	104,100	\$20.93
Released	(123,829) 11.75
Canceled or forfeited	(19,600) 17.34
Unvested at September 30, 2014	236,196	\$16.78

Restricted stock units are rights to receive shares of common stock, subject to forfeiture and other restrictions, which vest over a three year period. Restricted shares are considered to be non-vested shares under the accounting guidance for share-based payment and are not reflected as issued and outstanding shares until the restrictions lapse. At that time, the shares are released to the grantee and the Company records the issuance of the shares. Restricted stock awards are valued based on the market price of the underlying shares on the grant date. Compensation expense is recognized on a straight-line basis over the requisite service period. At September 30, 2014, restricted stock awards had vesting periods up through March 2017.

11. Contingencies

The Company is a defendant in various lawsuits and a party to various other legal proceedings, in the ordinary course of business, some of which are covered in whole or in part by insurance.

New Idria Mercury Mine

Effective October 2011, the U.S. Environmental Protection Agency ("EPA") added the New Idria Mercury Mine site located near Hollister, California to the Superfund National Priorities List because of alleged contaminants discharged to California waterways. The New Idria Quicksilver Mining Company, founded in 1936, and later renamed the New Idria Mining & Chemical Company ("NIMCC") owned and/or operated the New Idria Mine through 1976. In 1981 NIMCC was merged into Buckhorn Metal Products Inc. which was subsequently acquired by Myers Industries in 1987. The EPA contends that past mining operations have resulted in mercury contamination and acid mine drainage at the mine site, in the San Carlos Creek, Silver Creek and a portion of Panoche Creek and that other downstream locations may also be impacted.

As of the date of this disclosure, no formal claim or allegation relating to the New Idria Mine Site against the Company or its subsidiary Buckhorn Inc. ("Buckhorn") has been received. However, since Buckhorn may be a potentially responsible party ("PRP") at the New Idria Mercury Mine, the Company recognized an expense of \$1.9 million, on an undiscounted basis, in 2011 related to performing a remedial investigation and feasibility study to determine the extent of remediation and the screening of alternatives. Payments of approximately \$0.7 million have been incurred and charged against the reserve classified in Other Liabilities on the Condensed Consolidated Statements of Financial Position as of September 30, 2014. As investigation and remediation proceed, it is likely that adjustments to the reserved expense will be necessary to reflect new information. Estimates of the Company's liability are based on current facts, laws, regulations and technology. Estimates of the Company's environmental liabilities are further subject to uncertainties regarding the nature and extent of site contamination, the range of remediation alternatives available, evolving remediation standards, imprecise engineering evaluation and cost estimates, the extent of corrective actions that may be required, the number and financial condition of other PRPs as well as the extent of their responsibility for the remediation, and the availability of insurance coverage for these expenses. At this time, further remediation cost estimates are not known and have not been prepared.

In November 2011 the EPA completed an interim removal project at the New Idria Mercury Mine site. It is expected this removal action will be part of the final remediation strategy for the site. According to informal reports, EPA's interim removal project costs were approximately \$0.5 million. It is possible that at some future date the EPA will seek recovery of the costs of this work and other past costs from PRPs.

Myers Industries, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements - (Continued)

(Dollar amounts in thousands, except where otherwise indicated)

California Regional Water Quality Control Board

A number of parties, including the Company and its subsidiary, Buckhorn, were identified in a planning document adopted in October 2008 by the California Regional Water Quality Control Board, San Francisco Bay Region ("RWQCB"). The planning document relates to the presence of mercury, including amounts contained in mining wastes, in and around the Guadalupe River Watershed ("Watershed") region in Santa Clara County, California and specifically to the development of a "total maximum daily load" for mercury deposits into the Watershed. Buckhorn has previously been alleged to be a successor in interest to NIMCC, which owned property and performed mining operations in a portion of the Watershed area. The Company has not been contacted by the RWQCB or by other parties who have been involved in Watershed clean-up efforts that have been initiated as a result of the adoption of this planning document. Although assertion of a claim by the RWQCB or another party involved in this clean up effort is reasonably possible, it is not possible at this time to estimate the amount of any obligation the Company may incur for these cleanup efforts within the Watershed region, or whether such cost would be material to the Company's financial statements.

When management believes that a loss arising from these matters is probable and can reasonably be estimated, we record the amount of the estimated loss, or the minimum estimated liability when the loss is estimated using a range, and no point within the range is more probable of occurrence than another. As additional information becomes available, any potential liability related to these matters will be assessed and the estimates will be revised, if necessary.

Based on current available information, management believes that the ultimate outcome of these matters will not have a material adverse effect on our financial position, cash flows or overall trends in our results of operations. However, these matters are subject to inherent uncertainties, and unfavorable rulings could occur. If an unfavorable ruling were to occur, there exists the possibility of a material adverse impact on the financial position and results of operations of the period in which the ruling occurs, or in future periods.

Other

Buckhorn and Schoeller Arca Systems, Inc. ("SAS") were plaintiffs in a patent infringement lawsuit against Orbis Corp. and Orbis Material Handling, Inc. ("Orbis") for alleged breach by Orbis of an exclusive patent license agreement from SAS to Buckhorn. SAS is an affiliate of Schoeller Arca Systems Services B.V. ("SASS B.V."), a Dutch company. SAS manufactures and sells plastic returnable packaging systems for material handling. In the course of the litigation, it was discovered that SAS had given a patent license agreement to a predecessor of Orbis that pre-dated the one that SAS sold to Buckhorn. As a result, judgment was entered in favor of Orbis, and the court awarded attorney fees and costs to Orbis in the amount of \$3.1 million, plus interest and costs. In May 2014, Orbis made demand to SAS that SAS pay the judgment in full, and subsequently in July 2014, Orbis made the same demand to Buckhorn. Although the range of exposure is \$0 - \$3.1 million, plus interest, Buckhorn's responsibility as a co-judgment debtor is not specified. Buckhorn believes it is not responsible for any of the legal fee award because it is not a party to the Orbis license and will continue to aggressively pursue any and all legal actions both with respect to appealing the award requesting SAS be named solely responsible for payment of the judgment, as well as pursuing SAS and SASS B.V. for fraudulently selling an exclusive patent license they could not sell. In August 2014, SASS B.V. informed Buckhorn that SAS may not have the financial ability to pay the judgment and provided financial statements to Buckhorn indicating SAS is in financial distress and while SASS B.V. is financially stable, the award is against SAS, not SASS B.V. Given the uncertainty of SAS's financial ability to meet the obligation and the judgment is joint and several, Myers has recorded an expense in the quarter for the entire amount of the unpaid judgment, despite the belief we will ultimately be successful in the appeal and suing SAS and SASS B.V. The matter is presently under appeal and

Buckhorn is also suing SAS and SASS B.V.

Less unamortized deferred financing fees	723	853
	\$276,867	\$44,347

On May 30, 2014, the Company entered into a First Amendment to the Fourth Amended and Restated Loan Agreement (the "Loan Amendment"). The Loan Amendment increased the senior revolving credit facility from \$200 million to \$300 million through December 2018 and provides for an additional subsidiary of the Company as a borrower and another subsidiary of the Company as a guarantor of the credit facility. On July 2, 2014, the Company borrowed approximately \$135.3 million under the Loan Agreement to fund the acquisition of Scepter as described in Note 2.

As of September 30, 2014, the Company had \$117.8 million available, reduced for letters of credit issued, under the Loan Agreement. The Company also had \$4.6 million of letters of credit issued related to insurance and other financing contracts in the ordinary course of business at September 30, 2014.

Long-term debt at September 30, 2014 and December 31, 2013 includes \$0.7 million and \$0.9 million, respectively, of unamortized deferred financing costs, which are accounted for as debt valuation accounts.

On October 22, 2013, the Company entered into a note purchase agreement for the private placement of Senior Unsecured Notes totaling \$100.0 million with a group of investors. The four series of notes are payable semiannually. Proceeds of \$11.0 million under the note purchase agreement were received in December 2013, and the remaining proceeds of \$89.0 million were received in January 2014.

13. Retirement Plans

The Company and certain of its subsidiaries have pension and profit sharing plans covering substantially all of their employees. The Company's frozen defined benefit pension plan ("The Pension Agreement between Akro-Mils and United Steelworkers of America Local No. 1761-02") provides benefits primarily based upon a fixed amount for each year of service as of the date the plan was frozen.

Net periodic pension cost are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Interest cost	\$70	\$64	\$210	\$194
Expected return on assets	(93) (84) (278) (250
Amortization of actuarial net loss	11	28	34	84
Net periodic pension (benefit) cost	\$(12) \$8	\$(34) \$28
Company contributions	\$84	\$81	\$237	\$284

The Company anticipates contributions totaling \$0.3 million to its pension plan for the full year of 2014.

Notes to Unaudited Condensed Consolidated Financial Statements - (Continued)

(Dollar amounts in thousands, except where otherwise indicated)

14. Income Taxes

The total amount of gross unrecognized tax benefit that would reduce the Company's effective tax rates at September 30, 2014 and September 30, 2013, was \$0.7 million and \$1.2 million, respectively. Accrued interest expense included within accrued income taxes in the Company's Condensed Consolidated Statements of Financial Position (Unaudited) was less than \$0.1 million at both September 30, 2014 and December 31, 2013. The September 30, 2014 balance of unrecognized tax benefits includes approximately \$0.6 million of unrecognized tax benefits for which it is reasonably possible that they will be recognized within the next twelve months.

As of September 30, 2014, the Company is no longer subject to U.S. Federal examination by tax authorities for tax years before 2011. The Company is subject to state and local examinations for tax years of 2010 through 2013. In addition, the Company is subject to non-U.S. income tax examinations for tax years of 2010 through 2013.

15. Segment Information

During the second quarter of 2014, the Company realigned its reportable segments as a result of organizational changes to better support its ongoing business strategy. The realignment is consistent with the manner in which our Chief Operating Decision Maker evaluates performance and makes resource allocation decisions. Using the criteria of ASC 280, Segment Reporting, the Company currently manages its business under two operating segments: Material Handling and Distribution. Certain business units that formerly reported in the Engineered Products Segment are now part of the Material Handling and Distribution Segments. Historical segment information has been adjusted to reflect the effect of these changes. Each of these operating segments is also a reportable segment under the ASC 280 criteria.

None of the reportable segments include operating segments that have been aggregated. Some of these segments contain individual business components that have been aggregated on the basis of common management, customers, products, production processes and other economic characteristics. The Company accounts for intersegment sales and transfers at cost plus a specified mark-up.

Income before income taxes for each business segment is based on net sales less cost of products sold, and the related selling, administrative and general expenses. In computing business segment operating income, general corporate overhead expenses and interest expenses are not included.

Material Handling

The Material Handling Segment includes a broad selection of plastic reusable containers, pallets, small parts bins, bulk shipping containers, storage and organization products and rotationally-molded plastic tanks for water, fuel and waste handling. This segment conducts its primary operations in the United States, but also operates in Brazil and Canada. Markets served encompass various niches of industrial manufacturing, food processing, retail/wholesale products distribution, agriculture, automotive, recreational vehicles, marine vehicles, healthcare, appliance, bakery, electronics, textiles, consumer, and others. Products are sold both directly to end-users and through distributors.

Distribution

The Distribution Segment is engaged in the distribution of equipment, tools, and supplies used for tire servicing and automotive undervehicle repair and the manufacture of tire repair and retreading products. The product line includes categories such as tire valves and accessories, tire changing and balancing equipment, lifts and alignment equipment, service equipment and tools, and tire repair/retread supplies. The Distribution Segment operates domestically through sales offices, and four regional distribution centers in the United States and in foreign countries through export sales. In addition, the Distribution Segment operates directly in certain foreign markets, principally Central America, through foreign branch operations. Markets served include retail and truck tire dealers, commercial auto and truck fleets, auto dealers, general service and repair centers, tire retreaders, and government agencies.

(Dollar amounts in thousands, except where otherwise indicated)

Discontinued Operations

During the quarter ended June 30, 2014, the Company's Board of Directors approved the commencement of the sale process to divest its Lawn and Garden Segment. As a result, the Company has classified and accounted for its assets and liabilities as held for sale and its operating results, net of tax, as discontinued operations for all periods presented.

In addition, on June 20, 2014 the Company completed the sale of the assets and associated liabilities of WEK. As a result, the Company has classified and accounted for its assets and liabilities as held for sale and its operating results, net of tax, as discontinued operations for all periods presented through the date of sale. WEK was previously reported as part of our former Engineered Products Segment.

Table of contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

During the second quarter of 2014, the Company realigned its reportable segments as a result of organizational changes to better align its resources to support its ongoing business strategy. The realignment is consistent with the manner in which our Chief Operating Decision Maker evaluates performance and makes resource allocation decisions. Historical segment information has been adjusted to reflect the effect of this change. Historical information also reflects discontinued operations presentation for businesses disposed of or meeting the held for sale criteria.

Comparison of the Third Quarter of 2014 to the Third Quarter of 2013

Net Sales from Continuing Operations:

(dollars in millions)	Quarter Ended September 30,		Change	% Change	
	2014	2013			
Segment					
Material Handling	\$112.3	\$89.9	\$22.4	25.0	%
Distribution	49.9	51.7	(1.8)	(3.4)	%)
Inter-company Sales	(0.1)	(0.1)	—	—	%)
	\$162.1	\$141.4	\$20.7	14.6	%)

Net sales for the quarter ended September 30, 2014 were \$162.1 million, an increase of \$20.7 million or 14.6% compared to the same period in the prior year. Net sales increased \$21.6 million due to the inclusion of Scepter Corporation and Scepter Manufacturing, LLC (collectively, "Scepter") acquired on July 2, 2014. The increase in net sales between periods was also impacted by improved pricing of \$1.5 million to mitigate rising raw material costs. Net sales were negatively impact by lower sales volumes of \$1.7 million primarily in our Distribution Segment and the effect of unfavorable foreign currency translation of \$0.7 million.

Net sales in the Material Handling Segment increased \$22.4 million or 25.0% in the third quarter of 2014 compared to the same period in the prior year. Net sales increased \$21.6 million due to the addition of Scepter from its acquisition in the third quarter of 2014. The increase in net sales between periods was also attributable to improved pricing of \$1.8 million in order to help mitigate higher raw material costs. Excluding net sales related to Scepter, although third quarter 2014 sales volumes for the segment were just \$0.2 million behind third quarter of 2013 volumes, sales in the agricultural markets were substantially down in the third quarter of 2014 versus the same period in 2013, as a result of weakened crop prices. Net sales for the 2014 quarter continued to be negatively impacted by the economic slowdown in Brazil and the effect of unfavorable currency translation of \$0.8 million.

Net sales in the Distribution Segment decreased \$1.8 million or 3.4% in the third quarter of 2014 compared to the same period in the prior year. The decrease in net sales between periods was primarily the result of lower sales volume, due primarily to the closure of our Canadian branches that was completed in the first quarter of 2014.

Cost of Sales & Gross Profit from Continuing Operations:

(dollars in millions)	Quarter Ended September 30,		
	2014	2013	
Cost of sales	\$122.1	\$98.9	
Gross profit	\$40.0	\$42.5	
Gross profit as a percentage of net sales	24.7	% 30.1	%)

Gross profit decreased in the third quarter of 2014 compared to the same period in the prior year primarily due to lower sales volumes and the mix of products sold across both of our reportable segments. Gross profit margin decreased to 24.7% in the third quarter of 2014 compared to 30.1% in the third quarter of the prior year. Contributing

to this reduction in gross margin was a \$2.3 million inventory valuation adjustment recorded as a result of the acquisition of Scepter in July 2014. In addition, \$0.3 million of expense was recorded in the third quarter of 2014 for restructuring and other unusual charges as compared to no charges recorded in the third quarter of 2013. Higher raw material costs that continued into the third quarter of 2014 were partially offset by improved pricing. In addition, higher logistics costs compared to the same period in 2013 negatively impacted gross profit margin. Continued higher raw material costs, primarily resins, were, on average, 6% higher for polypropylene and polyethylene for the three months ended September 30, 2014 compared to the same period in 2013.

Selling, General and Administrative Expenses from Continuing Operations:

(dollars in millions)	Quarter Ended September 30,		Change	% Change	
	2014	2013			
SG&A expenses	\$42.6	\$30.3	\$12.3	40.9	%
SG&A expenses as a percentage of net sales	26.3	% 21.4	%		

Selling, general and administrative ("SG&A") expenses for the quarter ended September 30, 2014 were \$42.6 million, an increase of \$12.3 million or 40.9% compared to the third quarter in the prior year. An increase in SG&A of \$6.4 million was due to the additional SG&A expenses of Scepter Group from the date of acquisition. In addition, SG&A expenses in the third quarter of 2014 included a reserve related to a patent infringement legal suit of \$3.0 million and approximately \$3.0 million in transactional costs incurred in connection with our acquisition of Scepter. Excluding the impact of Scepter, SG&A expenses were lower in the third quarter of 2014 compared to the same period in 2013 due to a decrease in selling and facility costs of approximately \$0.3 million, as well as outside consulting costs of \$0.4 million related to our information technology initiatives in the prior year. These decreases in SG&A between periods more than offset an increase in freight costs of \$0.4 million. Restructuring and other related charges of \$0.4 million, primarily severance, moving costs and lease cancellation expenses were included in SG&A for the quarter ended September 30, 2014. During the quarter ended September 30, 2013, the Company incurred less than \$0.1 million of restructuring and other related charges. Shipping and handling costs, including freight, are classified primarily as SG&A expenses.

Interest Expense from Continuing Operations:

(dollars in millions)	Quarter Ended September 30,		Change	% Change	
	2014	2013			
Net interest expense	\$2.6	\$1.1	\$1.5	136.9	%
Outstanding borrowings, net of deferred financing costs	\$276.9	\$75.5	\$201.4		
Average borrowing rate	3.55	% 5.26	%		

Net interest expense in the third quarter of 2014 was \$2.6 million compared to \$1.1 million in the third quarter of 2013. The increase in net interest expense is due to the higher average debt balance partially offset by a decrease in the average borrowing rate during the third quarter of 2014 compared to the same period in the prior year.

Income Taxes from Continuing Operations:

(dollars in millions)	Quarter Ended September 30,		
	2014	2013	
(Loss) income from continuing operations before income taxes	\$(5.3)) \$11.2	
Income tax (benefit) expense	\$(1.7)) \$4.3	
Effective tax rate	31.9	% 38.5	%

The effective tax rate was 31.9% for the quarter ended September 30, 2014 compared to 38.5% in the prior year quarter. The income tax benefit for the quarter ended September 30, 2014 was negatively impacted by \$0.4 million of non-deductible expenses and \$0.2 million of unrecognized tax benefits for foreign loss subsidiaries.

Discontinued Operations:

Income from discontinued operations, net of income taxes was \$0.9 million for the quarter ended September 30, 2014 compared to a loss from discontinued operations, net of taxes of \$0.4 million in the prior year quarter. Discontinued operations are comprised of the Lawn and Garden Segment and WEK Industries, Inc. ("WEK").

Net sales from discontinued operations decreased \$8.5 million or 15.9% for the quarter ended September 30, 2014 compared to the quarter ended September 30, 2013. The decrease in net sales was due to lower sales volume of \$9.2

million primarily attributable to the sale of WEK on June 20, 2014 and the negative impact from the effect of unfavorable currency translation of \$0.3 million. The decrease in net sales was partially offset by improved pricing of \$1.0 million to help mitigate higher raw material costs.

Lower restructuring and other related charges of \$0.6 million during the quarter ended September 30, 2014 compared to \$2.4 million in the comparable prior year quarter positively impacted the Lawn and Garden Segment.

Comparison of the Nine Months Ended September 30, 2014 to the Nine Months Ended September 30, 2013

Net Sales from Continuing Operations:

(dollars in millions)	Nine Months Ended September 30,				
	2014	2013	Change	% Change	
Segment					
Material Handling	\$322.0	\$285.0	\$37.0	13.0	%
Distribution	143.6	155.3	(11.7) (7.5	%)
Inter-company Sales	(0.2) (0.3) 0.1	—	%
	\$465.4	\$440.0	\$25.4	5.8	%

Net sales for the nine months ended September 30, 2014 were \$465.4 million, an increase of \$25.4 million or 5.8% compared to the same period in the prior year. Net sales increased \$21.6 million due to the inclusion of Scepter acquired on July 2, 2014. The increase in net sales between periods was also impacted by improved pricing of \$8.2 million to offset rising raw material costs. Net sales were negatively impact by lower sales volumes of \$0.2 million primarily in our Distribution Segment and the effect of unfavorable foreign currency translation of \$4.2 million. Net sales in the Material Handling Segment increased \$37.0 million or 13.0% for the nine months ended September 30, 2014 compared to the same period in the prior year. Net sales increased \$21.6 million due to the acquisition of Scepter. The increase in net sales between periods was also impacted by higher sales volume of \$11.0 million, driven by sales in the manufacturing and automotive end markets, as well as improved pricing of \$8.7 million to help mitigate higher raw material costs. These increases were partially offset by unfavorable currency translation of \$4.3 million.

Net sales in the Distribution Segment decreased \$11.7 million or 7.5% for the nine months ended September 30, 2014 compared to the same period in the prior year. The decrease in net sales between periods was primarily attributable to lower sales volume in custom sales, logistical issues and the Canadian branch closures that took place in the first half of 2014.

Cost of Sales & Gross Profit from Continuing Operations:

(dollars in millions)	Nine Months Ended September 30,		
	2014	2013	
Cost of sales	\$340.8	\$310.4	
Gross profit	\$124.6	\$129.6	
Gross profit as a percentage of net sales	26.8	% 29.5	%

Gross profit margin decreased to 26.8% for the nine months ended September 30, 2014 compared to 29.5% in the prior year. Higher raw material costs during the nine months ended September 30, 2014 compared to the same period in 2013 negatively impacted gross profit. Raw material costs, primarily resins, were, on average, approximately 10% higher for polypropylene and polyethylene for the nine months ended September 30, 2014 compared to the same period in 2013. Also contributing to this reduction in gross margin was a \$2.3 million inventory valuation adjustment recorded as a result of the acquisition of Scepter. Approximately \$0.4 million of expense was recorded during the nine months ended September 30, 2014 for restructuring and other unusual charges as compared to \$0.2 million recorded in the same period in 2013.

Selling, General and Administrative Expenses from Continuing Operations:

(dollars in millions)	Nine Months Ended September 30,				
	2014	2013	Change	% Change	
SG&A expenses	\$107.1	\$94.6	\$12.5	13.2	%
SG&A expenses as a percentage of net sales	23.0	% 21.5	%		

SG&A expenses for the nine month period ended September 30, 2014 were \$107.1 million, an increase of \$12.5 million or 13.2% compared to the prior year. The increase in SG&A includes \$6.4 million from the additional SG&A expenses of Scepter from the date of acquisition, establishment of a reserve related to a patent infringement legal suit of \$3.0 million and approximately \$3.6 million in transactional costs incurred in connection with our acquisition of Scepter during the nine months ended September 30,

2014. A decrease in outside consulting costs of \$1.1 million, lower administrative costs related to facilities and other expenses of \$0.8 million, and lower employee related costs of \$0.4 million reduced SG&A year over year. Restructuring and other related charges of \$2.0 million, primarily severance, facility closure related expenses, including impairment charges were recorded in SG&A in the first nine months of 2014 compared to \$0.2 million for the same period in the prior year. Shipping and handling costs, including freight, are classified primarily as SG&A expenses.

Interest Expense from Continuing Operations:

(dollars in millions)	Nine Months Ended September 30,				
	2014	2013	Change	% Change	
Net interest expense	\$5.9	\$3.3	\$2.6	77.9	%
Outstanding borrowings, net of deferred financing costs	\$276.9	\$75.5	\$201.4		
Average borrowing rate	4.10	% 4.62	%		

Net interest expense for the nine months ended September 30, 2014 was \$5.9 million compared to \$3.3 million in the same period in the prior year. The increase in net interest expense is due to the higher average debt balance partially offset by a decrease in the average borrowing rate during the nine months ended September 30, 2014 compared to the same period in the prior year. The increase in outstanding borrowings at September 30, 2014 compared to September 30, 2013 was primarily due to the additional borrowings outstanding related to our senior unsecured notes and higher balance outstanding under our credit facility primarily to fund the Scepter acquisition.

Income Taxes from Continuing Operations:

(dollars in millions)	Nine Months Ended September 30,			
	2014	2013		
Income from continuing operations before income taxes	\$11.6	\$31.7		
Income tax expense	\$4.1	\$11.6		
Effective tax rate	35.6	% 36.7		%

The effective tax rate was 35.6% for the nine months ended September 30, 2014 compared to 36.7% in the same period of the prior year. The lower effective tax rate is attributable to decreases in unrecognized tax benefits from expiring statutes of limitations in U.S. Federal and state jurisdictions.

Discontinued Operations:

Loss from discontinued operations, net of income taxes was \$3.8 million for the nine months ended September 30, 2014 compared to income from discontinued operations of \$2.6 million in the comparable prior year period. Discontinued operations are comprised of the Lawn and Garden Segment and WEK.

Net sales from discontinued operations decreased \$24.3 million or 14.0% for the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013. The decrease in net sales was due to lower sales volume of \$25.4 million attributable to the sale of WEK on June 20, 2014, weather conditions, transportation issues, operational start-up issues related to our rationalization plan and the negative impact from the effect of unfavorable currency translation of \$1.6 million. The decrease in net sales was partially offset by improved pricing of \$2.7 million to help mitigate higher raw material costs.

Higher restructuring and other related charges of \$10.7 million during the nine months ended September 30, 2014 compared to \$4.2 million in the comparable prior period negatively impacted the Lawn and Garden Segment.

Gain on sale of discontinued operations was \$3.7 million, net of tax of \$1.3 million, resulting in an after tax gain of \$2.4 million related to the sale of WEK on June 20, 2014.

Acquisition:

On July 2, 2014, CA Acquisition Inc., now known as Scepter Canada Inc., and a wholly-owned subsidiary of Myers Industries, Inc., completed the purchase of substantially all of the assets and assumption of certain liabilities of Scepter Corporation and certain real property of SHI Properties Inc., both located in Scarborough, Ontario, Canada. Contemporaneously with the asset acquisition, Crown US Acquisition Company, now known as Scepter US Holding Company, and another wholly-owned subsidiary of Myers Industries, Inc., completed the purchase of all of the issued and outstanding membership interests of Eco One Leasing, LLC and Scepter Manufacturing, LLC, both located in Miami, Oklahoma. Eco One Leasing, LLC was subsequently merged into Scepter Manufacturing, LLC. The total purchase price for these acquisitions was approximately \$157.8 million in cash, which includes an estimated working capital adjustment of \$0.8 million subject to further adjustment based on the final working capital and other specified items. The acquisition of Scepter was funded from net proceeds from additional borrowings of approximately \$135.3 million under the Fourth Amended and Restated Loan Agreement and cash on hand of \$22.5 million.

With the acquisition of Scepter, the Company becomes an industry leading producer of portable marine fuel containers, portable fuel and water containers and accessories, ammunition containers, storage totes and environmental bins for the marine, military, consumer and industrial markets. The acquisition of Scepter is consistent with the Company's business strategy and the products fit well with the Company's overall portfolio. The operating results of Scepter have been included in the Company's Material Handling Segment since the date of acquisition. Scepter's assets and liabilities are recorded at fair value as of the date of acquisition using primarily level 3 fair value inputs.

The Company accounted for the acquisition of Scepter using the acquisition method of accounting, which requires among other things, the assets acquired and liabilities assumed be recognized at their respective fair values as of the acquisition date. As of September 30, 2014, the entire purchase price allocation is preliminary. The Company has received a preliminary third-party valuation of certain tangible and intangible assets of Scepter and, therefore, the values attributed to those acquired assets in the condensed consolidated financial statements are subject to adjustment. As the Company finalizes the fair value of assets acquired and liabilities assumed, additional adjustments will be recorded during the measurement period.

Liquidity and Capital Resources

Cash used for operating activities from continuing operations was \$2.8 million for the nine months ended September 30, 2014 compared to cash provided by operating activities from continuing operations of \$29.3 million for the nine months ended September 30, 2013, due to the reduction in earnings and increases in working capital. The primary use of cash for operating activities from continuing operations for the nine months ended September 30, 2014 and 2013, was \$37.8 million and \$14.0 million, respectively, for working capital. The increase in cash used for continuing operations during the nine months ended September 30, 2014 was due to the timing of payments made on accounts payable and other liabilities. In addition, strong sales at the end of the third quarter of 2014 resulted in a higher accounts receivable balance at September 30, 2014 compared to the prior year. Contributing to a reduction in the use of funds for accounts receivable for the nine months ended September 30, 2014 compared to the same period in 2013 was the result of cash proceeds received from our accounts receivable factoring arrangement in Brazil, which commenced during the third quarter of 2014. Increased inventory in the third quarter of 2014 as compared to the prior year quarter also contributed to a use of cash from continuing operations. Depreciation and amortization costs from continuing operations were \$22.0 million in the nine months ended September 30, 2014, compared to \$17.7 million for the nine months ended September 30, 2013. The higher depreciation and amortization is attributable to the higher level of assets placed in service over the past several years and assets acquired in connection with the acquisition of Scepter.

Cash used for operating activities from discontinued operations was \$14.1 million for the nine months ended September 30, 2014 compared to cash provided by operating activities from discontinued operations of \$17.5 million for the nine months ended September 30, 2013. The primary use of cash for operating activities from discontinued operations for the nine months ended September 30, 2014 was \$14.6 million used for working capital compared to

\$2.0 million provided by working capital for the nine months ended September 30, 2013. Increased inventory in the third quarter of 2014 as compared to the prior year quarter and timing of payments made on accounts payable and other liabilities contributed to the use of cash from discontinued operations. Depreciation and amortization costs from discontinued operations were \$6.5 million for the nine months ended September 30, 2014 compared to \$10.9 million for the nine months ended September 30, 2013. During the nine months ended September 30, 2014, the Company recorded a pre-tax gain on sale of WEK of approximately \$3.7 million.

Cash used for investing activities for continuing operations for the nine months ended September 30, 2014 were \$168.1 million compared to \$14.1 million for the nine months ended September 30, 2013. For the nine months ended September 30, 2014, the Company paid approximately \$157.8 million in connection with the acquisition of Scepter which is included in the Material Handling Segment. Capital expenditures related to continuing operations for the nine months ended September 30, 2014 were \$10.9 million compared to \$13.5 million for the same period in the prior year. Full year capital expenditures are expected to be between \$20 and \$25 million, the majority of which are expected to be allocated to growth and productivity projects.

Table of contents

Cash provided by investing activities from discontinued operations for the nine months ended September 30, 2014 were \$12.9 million compared to cash used by investing activities for discontinued operations of \$5.6 million for the nine months ended September 30, 2013. Capital expenditures related to discontinued operations for the nine months ended September 30, 2014 were \$6.1 million compared to \$6.5 million for the same period in the prior year. During the nine months ended September 30, 2014, the Company received cash proceeds of \$19.0 million relating to the sale of WEK on June 20, 2014. During the nine months ended September 30, 2013, the Company received approximately \$0.9 million in cash proceeds from the sale of certain equipment.

For the nine months ended September 30, 2014, the Company used cash of \$48.3 million to repurchase 2,332,506 shares of its own stock under a share repurchase plan, compared to \$5.3 million to repurchase 362,612 shares of its own stock for the nine months ended September 30, 2013. The Company used cash of \$11.6 million representing payment of three quarterly dividends during the nine months ended September 30, 2014 compared to \$6.0 million during the nine months ended September 30, 2013 for two quarterly dividends, due to timing.

Debt, net of cash and unamortized deferred financing fees at September 30, 2014 were approximately \$268.5 million compared to \$37.8 million at December 31, 2013. The increase in debt between periods was due to cash proceeds of \$89.0 million from our senior unsecured notes and net additional borrowings under our amended Loan Agreement primarily to fund the acquisition of Scepter during the nine month period ended September 30, 2014.

As of September 30, 2014, the Company was in compliance with all its debt covenants. The most restrictive financial covenants for all of the Company's debt are an interest coverage ratio (defined as earnings before interest and taxes divided by interest expense), and a leverage ratio (defined as earnings before interest, taxes, depreciation and amortization, as adjusted, compared to total debt). The ratios as of and for the period ended September 30, 2014 are shown in the following table:

	Required Level	Actual Level
Interest Coverage Ratio	3.00 to 1 (minimum)	14.03
Leverage Ratio	3.25 to 1 (maximum)	2.83

The Company believes that cash flows from operations and available borrowing under its Loan Agreement will be sufficient to meet expected business requirements including strategic initiatives, capital expenditures, dividends, working capital, debt service and to fund the stock repurchase program into the foreseeable future.

Recent Accounting Pronouncements Not Yet Adopted

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This guidance states that the disposal of a component of an entity is to be reported in discontinued operations only if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. The pronouncement also requires additional disclosures regarding individually significant disposals of components that do not meet the criteria to be recognized as a discontinued operation as well as additional and expanded disclosures. The guidance is effective for the Company on January 1, 2015 and is to be applied prospectively. While early adoption is permitted, the Company plans to adopt this guidance on January 1, 2015. The Company is currently evaluating the impact the adoption of this guidance will have on its financial position, results of operations, cash flows and related disclosures.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, to clarify the principles used to recognize revenue for all entities. Under ASU 2014-09, a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The new guidance is effective for the Company on January 1, 2017. The Company is currently evaluating the impact the adoption of this guidance will have on its financial

position, results of operations, cash flows and related disclosures.

In August 2014, the FASB issued ASU 2014-15, Disclosure of Uncertainties About an Entity's Ability to Continue as a Going Concern. The new standard provides guidance on determining when and how to disclose going-concern uncertainties in the financial statements. Under ASU 2014-15, management will be required to perform interim and annual assessments of the Company's ability to continue as a going concern within one year of the date the financial statements are issued. ASU 2014-15 is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. The adoption of this standard is not expected to have an impact on the Company's financial statement disclosures.

Table of contents

Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company has certain financing arrangements that require interest payments based on floating interest rates. The Company's financial results are subject to changes in the market rate of interest. At present, the Company has not entered into any interest rate swaps or other derivative instruments to fix the interest rate on any portion of its financing arrangements with floating rates. Accordingly, based on current debt levels at September 30, 2014, if market interest rates increase one percent, the Company's interest expense would increase approximately \$1.8 million annually.

Some of the Company's subsidiaries operate in foreign countries and their financial results are subject to exchange rate movements. The Company has operations in Canada with foreign currency exposure, primarily due to sales made from businesses in Canada to customers in the United States ("U.S."). These sales are denominated in U.S. dollars. In addition, the Company's subsidiary in Brazil has loans denominated in U.S. dollars. The Company has a systematic program to limit its exposure to fluctuations in exchange rates related to certain assets and liabilities of its operations in Canada and Brazil that are denominated in U.S. dollars. The net exposure generally ranges from \$5 to \$10 million. The foreign currency contracts and arrangements created under this program are not designated as hedged items under FASB Accounting Standard Codification ("ASC") 815, Derivatives and Hedging, and accordingly, the changes in the fair value of the foreign currency arrangements, which have been immaterial, are recorded in the income statement. The Company's foreign currency arrangements are typically three months or less and are settled before the ending of a reporting period. At September 30, 2014, the Company had no foreign currency arrangements or contracts in place. The Company uses certain commodities, primarily plastic resins, in its manufacturing processes. The cost of operations can be affected as the market for these commodities changes. The Company currently has no derivative contracts to hedge this risk; however, the Company also has no significant purchase obligations to purchase fixed quantities of such commodities in future periods. Significant future increases in the cost of plastic resin or other adverse changes in the general economic environment could have a material adverse impact on the Company's financial position, results of operations or cash flows.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. The Company carries out a variety of on-going procedures, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

On July 2, 2014, we acquired Scepter Corporation and Scepter Manufacturing, LLC (collectively "Scepter"). Scepter operated under its own set of systems and internal controls and we are currently maintaining those systems and much of that control environment until we are able to incorporate Scepter's processes into our own systems and control environment. We currently expect to complete the incorporation of Scepter's operations into our systems and control

environment in 2015.

We are also undertaking a phased approach to implementation of enterprise resource planning systems in our Material Handling Segment and at Corporate, a significant portion of which is expected to be completed by the end of 2014, with the balance to be completed in 2015. We believe we are maintaining and monitoring appropriate internal controls during the implementation period. There have been no other changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II — Other Information

Item 1. Legal Proceedings

Certain legal proceedings in which the Company is involved are discussed in the Contingencies Note of the Unaudited Condensed Consolidated Financial Statements in Part I of this report and Part I, Item 3 of the Company's Annual Report on Form 10-K for the year ended December 31, 2013. The Company is a defendant in various lawsuits and a party to various other legal proceedings, in the ordinary course of business, some of which are covered in whole or in part by insurance. We believe that the outcome of these lawsuits and other proceedings will not individually or in the aggregate have a future material adverse effect on our consolidated financial position, results of operations or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table presents information regarding the Company's stock repurchase plan during the three months ended September 30, 2014.

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of the Publicly Announced Program	Maximum number of Shares that may yet be Purchased Under the Plan (1)
7/1/14 to 7/31/14	—	\$—	2,941,304	5,058,696
8/1/14 to 8/31/14	129,442	\$19.04	3,070,746	4,929,254
9/1/14 to 9/30/14	74,540	\$19.31	3,145,286	4,854,714

On July 11, 2013, the Company authorized the repurchase of up to an additional five million shares of its common stock. This authorization was in addition to the Board authorized repurchase of up to five million shares that was announced on May 2, 2011. On February 20, 2014, the Company's Board of Directors authorized \$40 million of common stock repurchases to be completed in 2014. During the nine months ended September 30, 2014, the (1) Company repurchased a total \$48.3 million of its own stock under the share repurchase plan. The Company previously completed the repurchase of approximately five hundred thirty five thousand shares in April 2013, and two million shares in 2011 pursuant to Rule 10b5-1 plans, which were adopted pursuant to the 2011 authorized share repurchase dated June 1, 2011.
