PART I

Some statements in, or incorporated by reference into, this Annual Report on Form 10-K (this Report) of Citi Trends, Inc. (we , us , or the Company) may constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). All statements other than historical facts contained in this Report, including statements regarding our future financial position, business policy and plans and objectives and expectations of management for future operations, are forward-looking statements. The words believe, may, could, estimate, continue, anticipate, intend, expect, plan, project and similar expressions, as they relate to us, are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events, including, among other things: our ability to anticipate and respond to fashion trends, competition in our markets, consumer spending patterns, actions of our competitors or anchor tenants in the strip shopping centers where our stores are located, and anticipated fluctuations in our operating results.

These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in Item 1A. Risk Factors and elsewhere in this Report and the other documents we file with the Securities and Exchange Commission (SEC), including our reports on Form 8-K and Form 10-Q, and any amendments thereto. Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, you should not rely upon forward-looking statements as predictions of future events. The events and circumstances reflected in the forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. These forward-looking statements speak only as of the date of such statements. Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the SEC, we do not plan to publicly update or revise any forward-looking statements contained in this Report, whether as a result of any new information, future events or otherwise.

Information is provided herein with respect to our operations related to our fiscal years ended on January 28, 2012 (fiscal 2011), January 29, 2011 (fiscal 2010) and January 30, 2010 (fiscal 2009).

ITEM 1. BUSINESS

Overview and History

We are a value-priced retailer of urban fashion apparel and accessories for the entire family. We offer quality, branded apparel from nationally recognized brands, as well as private label apparel, accessories and a limited assortment of home décor items. Our merchandise offerings are designed to appeal to the preferences of fashion conscious consumers, particularly African-Americans. We believe that we provide merchandise at compelling values. Our goal is to provide nationally recognized branded merchandise at discounts to department and specialty stores regular prices of up to 60%. Our stores average approximately 10,700 square feet of selling space and are typically located in neighborhood shopping centers that are convenient to low- to moderate-income customers. As of January 28, 2012, we operated 511 stores in both urban and rural markets in 29 states.

Edgar Filing: Citi Trends Inc - Form 10-K

Our predecessor, Allied Department Stores, was founded in 1946 and grew into a chain of family apparel stores operating in the Southeast. In 1999, the Company, then consisting of 85 stores, was acquired by a private equity firm. Following this acquisition, management implemented several strategies to focus on the growing urban market and improve our operating and financial performance. After the successful implementation of these strategies and the successful growth of our chain from 85 stores to 212 stores, we completed an initial public offering of our common stock on May 18, 2005.

Our executive offices are located at 104 Coleman Boulevard, Savannah, Georgia 31408 and our telephone number is (912) 236-1561. Our Internet address is <http://www.cititrends.com>. The reference to our web site address in this Report does not constitute the incorporation by reference of the information contained at the web site in this Report. We make available, free of charge through publication on our web site, copies of our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, as soon as reasonably practicable after we have filed such materials with, or furnished such materials to, the SEC. In addition, you may read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 or on the SEC's web site at <http://www.sec.gov>, and you may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

Company Strengths and Strategies

Our goal is to be the leading value-priced retailer of urban fashion apparel and accessories. We believe the following business strengths differentiate us from our competitors and are important to our success:

Focus on Urban Fashion Mix. We focus our merchandise on urban fashions, which we believe appeal to our core customers. We do not attempt to dictate trends, but rather devote considerable effort to identifying emerging trends and ensuring that our apparel assortment is considered timely and fashionable in the urban market. Our merchandising staff tests new emerging merchandise trends

Table of Contents

before reordering and actively manages the mix of brands and fashion products in the stores to keep our offering fresh and minimize markdowns.

Superior Value Proposition. As a value-priced retailer, we seek to offer top quality, fashionable merchandise at compelling prices. We seek to provide nationally recognized brands at discounts to department and specialty stores regular prices of up to 60%. We also offer products under our proprietary brands such as Diva Blue, Red Ape, Vintage Harlem, and Lil Ms Hollywood. These private brands enable us to expand our product selection, offer fashion merchandise at lower prices and enhance our product offerings.

Merchandise Mix that Appeals to the Entire Family. We merchandise our stores to create a destination environment capable of meeting the fashion needs of the entire value-conscious family. Each store offers a wide variety of products for men and women, as well as children. Our stores feature sportswear, dresses, outerwear, footwear, intimate apparel and accessories, as well as a limited assortment of home décor items. We believe that the breadth of our merchandise distinguishes our stores from many competitors that offer urban apparel primarily for women, and reduces our exposure to fashion trends and demand cycles in any single category.

Strong and Flexible Sourcing Relationships. We maintain strong sourcing relationships with a large group of suppliers. We have purchased merchandise from approximately 1,000 vendors in the past 12 months. Purchasing is controlled by a 25-plus member buying team located at our buying office in New York, New York and our Savannah, Georgia headquarters. We purchase merchandise through planned programs with vendors at reduced prices and opportunistically through close-outs, with the majority of our merchandise purchased for the current season and a limited quantity held for sale in future seasons. To foster vendor relationships, we pay vendors promptly and rarely ask for typical retail concessions, such as promotional and markdown allowances.

Attractive Fashion Presentation and Store Environment. We seek to provide a fashion-focused shopping environment that is similar to a specialty apparel retailer, rather than a typical off-price store. Products from nationally recognized brands are prominently displayed by brand, rather than by size, on dedicated, four-way fixtures featuring multiple sizes and styles. The remaining merchandise is arranged on hanging racks. The stores are carpeted and well-lit, with most featuring a sound system that plays urban adult and urban contemporary music throughout the store. Nearly all of our stores have either been opened or remodeled in the past nine years.

Cost-Effective Store Locations. We locate stores in high traffic strip shopping centers that are convenient to low- and moderate-income neighborhoods. We generally utilize previously occupied store sites which enables us to obtain attractive rents for our store sites. Similarly, advertising expenses are low as we do not rely on promotion-driven sales but rather seek to build our reputation for value through everyday low prices. At the same time, from an investment perspective, we seek to design stores that are inviting and easy to shop, while limiting startup and fixturing costs.

Product Merchandising and Pricing

Products. Our merchandising strategy is to offer high quality, branded products at attractive prices for the entire value-conscious family. We seek to maintain a diverse assortment of first quality, in-season merchandise that appeals to the distinctive tastes and preferences of our core customers. Approximately 43% of our net sales are represented by nationally recognized brands. We also offer a wide variety of products from less recognized brands and a lesser amount representing private label products under our proprietary brands such as Diva Blue, Red Ape,

Edgar Filing: Citi Trends Inc - Form 10-K

Vintage Harlem, and Lil Ms Hollywood. Our private brand products enable us to expand product selection, offer merchandise at lower prices and enhance our product offerings.

Our merchandise includes apparel, accessories and home décor. Within apparel, we offer fashion sportswear for men, women and children, including offerings for newborns, infants, toddlers, boys and girls. Accessories include handbags, jewelry, footwear, belts, intimate apparel and sleepwear.

The following table sets forth the merchandise assortment by classification as a percentage of net sales for fiscal 2011, 2010, and 2009.

	Percentage of Net Sales		
	2011	2010	2009
Women s	32%	33%	34%
Children s	28%	28%	29%
Men s	19%	20%	21%
Accessories	18%	17%	14%
Home décor	3%	2%	2%

Pricing. We purchase our merchandise at attractive prices and mark prices up less than department or specialty stores. We seek to provide nationally recognized brands at prices that are up to 60% below regular retail prices available in department stores and

Table of Contents

specialty stores, and to provide a product offering that validates both our value and fashion positioning to our consumers. We also consider the price-to-value relationships of our non-branded products to be strong. Our basic pricing strategy is everyday low prices. The discount from the suggested retail price is usually reflected on the price tag. We review each department in our stores at least monthly for possible markdowns based on sales rates and fashion seasons to promote faster turnover of inventory and to accelerate the flow of current merchandise.

Sourcing and Allocation

The merchandising department oversees the sourcing, planning and allocation of merchandise to our stores, which allows us to utilize volume purchase discounts and maintain control over our inventory. We source our merchandise from approximately 1,000 vendors, consisting of domestic manufacturers and importers. Our Chief Merchandising Officer supervises a planning and allocation team consisting of nearly 25 associates, as well as a buying team, which is comprised of more than 25 merchandise managers, buyers and assistant buyers.

The members of our buying team have on average more than 20 years of experience in the retail business and have developed long-standing relationships with many of our vendors, including those controlling the distribution of branded apparel. Our buyers, who are based in New York and Savannah, travel regularly to the major United States apparel markets, visiting major manufacturers and attending national and regional apparel trade shows, including urban-focused trade shows.

Our buyers purchase merchandise in styles, sizes and quantities to meet inventory levels developed by the planning staff. The buying staff utilizes several purchasing techniques that enable us to offer to consumers branded and non-branded fashion merchandise at everyday low prices. The majority of the nationally recognized branded products we sell are purchased in-season, and we generally purchase later in the merchandising buying cycle than department and specialty stores. This allows us to take advantage of imbalances between retailers' demands for specific merchandise and manufacturers' supply of that merchandise. We also purchase merchandise from some vendors in advance of the selling season at reduced prices and purchase merchandise on an opportunistic basis near the end of the selling season, which we then store in our distribution centers for sale three to nine months later. Where possible, we seek to purchase items based on style or color in limited quantities on a test basis with the right to reorder as needed. Finally, we purchase private brand merchandise that we source to our specifications.

We allocate merchandise across our store base according to store-level demand. The merchandising staff utilizes a centralized management system to monitor merchandise purchasing, planning and allocation in order to maximize inventory turnover, identify and respond to changing product demands and determine the timing of markdowns to our merchandise. The buyers also regularly review the age and condition of the merchandise and manage both the reordering and clearance processes. In addition, the merchandising team communicates with regional, district and store managers to ascertain regional and store-level conditions and to better ensure that our product mix meets our consumers' demands in terms of quality, fashion, price and availability.

We accept payment from our customers for merchandise at time of sale. Payments are made to us by cash, check, Visa, Mastercard or Discover. We do not extend credit terms to our customers; however, we do offer a layaway service.

Seasonality

Edgar Filing: Citi Trends Inc - Form 10-K

The nature of our business is seasonal. Historically, sales in the first and fourth quarters have been higher than sales achieved in the second and third quarters of the fiscal year. Expenses and, to a greater extent, operating income, vary by quarter. Results of a period shorter than a full year may not be indicative of results expected for the entire year. Furthermore, the seasonal nature of our business may affect comparisons between periods.

Store Operations

Store Format. The average selling space of our existing 511 stores is approximately 10,700 square feet, which allows us the space and flexibility to departmentalize our stores and provide directed traffic patterns. We arrange most of our stores in a racetrack format with women's sportswear, our most attractive and fashion current merchandise, in the center of each store and complementary categories adjacent to those items. Men's and boy's apparel is displayed on one side of the store, while dresses, footwear and accessories are displayed on the other side. Merchandise for infants, toddlers and girls is displayed along the back of the store. Impulse items, such as jewelry and sunglasses, are featured near the checkout area. Products from nationally recognized brands are prominently displayed on four-way racks at the front of each department. The remaining merchandise is displayed on hanging racks and occasionally on table displays. Large hanging signs identify each category location. The unobstructed floor plan allows the customer to see virtually all of the different product areas from the store entrance and provides us the flexibility to easily expand and contract departments in response to consumer demand, seasonality and merchandise availability. Virtually all of our inventory is displayed on the selling floor. Prices are clearly marked and often have the comparative retail-selling price noted on the price tag.

In 2010, with the assistance of a retail design consulting firm, we began to test a new store format which we refer to as Citi Lights . We opened our first new prototype store in Savannah in July 2010 and have since opened 60 more new stores with the prototype

Table of Contents

design. Also, we have converted 25 of our existing stores to the new format and implemented the new format in connection with the relocation or expansion of 14 other stores in 2011, resulting in a total of 100 stores in the new format as of the end of fiscal 2011. The stores feature a new color palette and logo, a new layout, new fixturing, dressing room, graphics and lighting, a redesigned checkout area stocked with impulse items and an expanded footwear department. They typically have a main center drive aisle rather than the racetrack design utilized in our traditional stores. We plan to continue evaluating the performance of the Citi Lights stores before converting more of our stores to this format.

Store Management. Store operations are managed by our Senior Vice President of Store Operations, four regional vice presidents and 44 district managers, each of whom manages seven to nineteen stores. The typical store is staffed with a store manager, two or three assistant managers and seven to eight part-time sales associates, all of whom rotate work days on a shift basis. Store managers and assistant store managers participate in a bonus program based on achieving predetermined levels of sales and inventory shrinkage. District managers participate in bonus programs based on achieving targeted levels of sales, profits, inventory shrinkage and payroll costs. Regional vice presidents participate in a bonus program based partly on a roll-up of the district managers' bonuses and partly on the Company's profit performance in relation to budget. Sales associates are compensated on an hourly basis with incentives. Moreover, we recognize individual performance through internal promotions and provide opportunities for advancement.

We place significant emphasis on loss prevention in order to control inventory shrinkage. Initiatives include electronic tags on most of our products, training and education of store personnel on loss prevention issues, digital video camera systems, alarm systems and motion detectors in the stores. In certain stores, we use an outside service to visually monitor the stores throughout the day using sophisticated camera systems. We also capture extensive point-of-sale data and maintain systems that monitor returns, voids and employee sales, and produce trend and exception reports to assist in identifying shrinkage issues. We have a centralized loss prevention team that focuses exclusively on implementation of these initiatives and specifically on stores that have experienced above average levels of shrinkage. We also maintain an independent, third party administered, toll-free line for reporting shrinkage concerns and any other employee concerns.

Employee Training. Our employees are critical to achieving our goals, and we strive to hire employees with high energy levels and motivation. We have well-established store operating policies and procedures and an extensive 90-day in-store training program for new store managers and assistant managers. Sales associates also participate in a 30-day customer service and store procedures training program, which is designed to enable them to assist customers in a friendly, helpful manner.

Layaway Program. We offer a layaway program that allows customers to purchase merchandise by initially paying a 20% deposit and a \$2 service charge, although at various times in 2011, we reduced the deposit requirement to 10% and waived the service charge in connection with promotional events. The customer then makes additional payments every two weeks and has 60 days within which to complete the purchase. If the purchase is not completed, the customer receives a merchandise credit for amounts paid less a re-stocking and layaway service fee.

Site Selection. Cost-effective store locations are an important part of our store profitability model. Accordingly, we look for second and third use store locations that offer attractive rents, but also meet our demographic and economic criteria. We have a dedicated real estate management team responsible for new store site selection. In selecting a location, we target both urban and rural markets. Demographic criteria used in site selection include concentrations of our core consumers. In addition, we require convenient site accessibility, as well as strong co-tenants, such as food stores, dollar stores, rent-to-own stores and other apparel stores.

Shortly after we sign a new store lease and complete the necessary leasehold improvements to the building, we prepare the store over a three to four week period by installing fixtures, signs, dressing rooms, checkout counters and cash register systems and merchandising the initial inventory.

Advertising and Marketing

Our marketing goals are to build the Citi Trends brand, promote consumers' association of the Citi Trends brand with value, quality, fashion and everyday low prices, and drive traffic into our stores. We generally focus our advertising efforts during the first quarter (Spring/Easter), back-to-school and Christmas through the use of commercials played on national television, such as BET and VH1, and on hip-hop radio stations, both local and syndicated. We also utilize online advertising on websites that are relevant to our customer. In 2011, we started a Facebook page which has grown to over 200,000 fans in less than a year. In addition, we promote new seasons and events in our window signage and through in-store announcements on our Muzak system. For store grand openings and significant remodels, we typically seek to create community awareness and consumer excitement through local radio remotes with local radio personalities broadcasting from the new location. We also distribute promotional items such as gift cards in connection with our grand openings and significant remodels.

Distribution

All merchandise sold in our stores is shipped directly from our distribution centers in Darlington, South Carolina and Roland, Oklahoma. We generally ship merchandise from our distribution centers to our stores daily, utilizing various express package

Table of Contents

distributors. The Darlington distribution center has 550,000 square feet of space, while the Roland distribution center has 460,000 square feet. The Company closed its distribution center in Savannah, Georgia in June 2011. A real estate broker has been engaged to sell the Savannah land and building.

Information Technology and Systems

We have information systems in place to support our core business functions, using an IBM iSeries as the computer platform, with enterprise software from Island Pacific, a software provider to the retail industry. This software supports purchase order management, price and markdown management, merchandise allocation, general ledger, accounts payable and sales audit functions. Our distribution centers are supported by software from Manhattan Associates.

Our stores use point-of-sale software from DataVantage, a division of MICROS Systems, Inc., to run the stores' cash registers. The system uses bar code scanners at checkout to capture item sales and is supplemented by external pinpad/signature capture devices for the processing of charge card transactions. It also supports end-of-day processing and automatically transmits sales and transaction data to the corporate office soon after the close of business. Additionally, the software supports store time clock functions. To facilitate the marking down and re-ticketing of merchandise, employees in the stores use hand-held scanners that read UPC barcodes and prepare new price tickets for merchandise. The DataVantage software also enables us to sort, review and analyze store transaction data to assist with loss prevention activities. Software services from Workday are utilized to process our payroll and to facilitate various human capital management processes.

We believe that our information systems, with upgrades and updates over time, are adequate to support our operations for the foreseeable future.

Growth Strategy

Due to a difficult sales environment, we have decided to take a more conservative approach to opening new stores. After opening 60 new stores in fiscal 2010, we opened 55 in fiscal 2011 and plan to open approximately 5 in fiscal 2012. We will continue to evaluate our growth strategy as we monitor operating results in fiscal 2012.

Competition

The markets we serve are highly competitive. The principal methods of competition in the retail business are fashion, assortment, pricing and presentation. We believe we have a competitive advantage in our offering of fashionable brands at everyday low prices. We compete against a diverse group of retailers, including national off-price retailers, mass merchants, smaller specialty retailers and dollar stores. The off-price retail companies with which we compete include TJX Companies, Inc. (TJX Companies), Ross Stores, Inc. (Ross Stores), The Cato Corporation (Cato), and Burlington Coat Factory Warehouse Corp. (Burlington Coat Factory). In particular, Ross Stores' dd's DISCOUNTS stores, and Cato's Fashion Metro stores target lower to moderate income consumers. We believe our strategy of appealing to African-American consumers and offering urban apparel products allows us to compete successfully with these retailers. We also believe we offer a more inviting store format than the off-price retailers, including our use of carpeted floors and more prominently displayed brands. In addition, we compete with a group of

Edgar Filing: Citi Trends Inc - Form 10-K

smaller specialty retailers that sell only women's products, such as Rainbow, Dots, It's Fashion! and Simply Fashions. Our mass merchant competitors include Wal-Mart, Target and Kmart. These chains do not focus on fashion apparel and, within their apparel offering, lack the urban focus that we believe differentiates our offering and appeals to our core customers. Similarly, while some of the dollar store chains offer apparel, they typically offer a more limited selection focused on basic apparel needs. As a result, we believe there is significant demand for a value retailer that addresses the market of low to moderate income consumers generally and, particularly, African-American and other minority consumers who seek value-priced, urban fashion apparel and accessories. See Item 1A. Risk Factors in this Report for additional information.

Intellectual Property

We regard our trademarks and service marks as having significant value and as being important to our marketing efforts. We have registered Citi Trends as a trademark with the U.S. Patent and Trademark Office on the Principal Register for retail department store services. We have also registered the following trademarks with the U.S. Patent and Trademark Office on the Principal Register for various apparel: Citi Club, Citi Steps, Citi Trends Fashion for Less, Diva Blue, Lil Citi Man, Lil Ms Hollywood, Urban Sophistication, Red Ape, Satin in The Hood, Scrubs, and Vintage Harlem. Our policy is to pursue registration of our marks and to oppose vigorously infringement of our marks.

Employees

As of January 28, 2012, we had approximately 2,500 full-time and approximately 2,800 part-time employees. Of these employees, approximately 4,700 are employed in our stores and the remainder are employed in our distribution centers and corporate office. We are not a party to any collective bargaining agreements, and none of our employees is represented by a labor union.

Table of Contents

ITEM 1A. RISK FACTORS

You should carefully consider the following risk factors, together with the other information contained or incorporated by reference into this Report. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us or that we deem to be currently immaterial also may impair our business operations. The occurrence of any of the following risks could have a material adverse effect on our business, financial condition and results of operations.

Our success depends on our ability to anticipate, identify and respond rapidly to changes in consumers' fashion tastes, and our failure to adequately evaluate fashion trends could have an adverse effect on our business, financial condition and results of operations.

The apparel industry in general and our core customer market in particular are subject to rapidly evolving fashion trends and shifting consumer demands. Accordingly, our success is heavily dependent on our ability to anticipate, identify and capitalize on emerging fashion trends, including products, styles and materials that will appeal to our target consumers. As reflected in our fiscal 2011 results, our failure to anticipate, identify or react appropriately and timely to changes in styles, trends, brand preferences or desired image preferences is likely to lead to lower demand for our merchandise, which could cause, among other things, sales declines, excess inventories and higher markdowns.

If we are unsuccessful in competing with our retail apparel competitors, our market share could decline or our growth could be impaired and, as a result, our financial results could suffer.

The retail apparel market is highly competitive with few barriers to entry. We compete against a diverse group of retailers, including national off-price apparel chains such as TJX Companies, Ross Stores, Cato, and Burlington Coat Factory; mass merchants such as Wal-Mart, Target and Kmart; smaller discount retail chains that sell only women's products, such as Rainbow, Dots, It's Fashion!, and Simply Fashions; and general merchandise discount stores and dollar stores, which offer a variety of products, including apparel, for the value-conscious consumer. We also compete against local off-price and specialty retail stores, regional retail chains, traditional department stores, web-based retail stores and other direct retailers.

The level of competition we face from these retailers varies depending on the product segment, as many of our competitors do not offer apparel for the entire family. Our greatest competition is generally in women's apparel. Many of our competitors are larger than us and have substantially greater resources than us and, as a result, may be able to adapt better to changing market conditions, exploit new opportunities and exert greater pricing pressures on suppliers than us. Many of these retailers have better name recognition among consumers than us and purchase significantly more merchandise from vendors. These retailers may be able to purchase branded merchandise that we cannot purchase because of their name recognition and relationships with suppliers, or they may be able to purchase branded merchandise with better pricing concessions than us. Our local and regional competitors have extensive knowledge of the consumer base and may be able to garner more loyalty from customers than us. If the consumer base we serve is satisfied with the selection, quality and price of our competitors' products, consumers may decide not to shop in our stores. Additionally, if our existing competitors or other retailers decide to focus more on our core customers, particularly African-American consumers, we may have greater difficulty in competing effectively, our business and results of operations could be adversely affected, and the market price of our common stock could suffer.

Our ability to attract consumers to our stores depends on the success of the strip shopping centers where our stores are located.

We locate our stores primarily in strip shopping centers where we believe our consumers and potential consumers shop. The success of an individual store can depend on favorable placement within a given strip shopping center. We cannot control the development of alternative shopping destinations near our existing stores or the availability or cost of real estate within existing or new shopping destinations. If our store locations fail to attract sufficient consumer traffic or we are unable to locate replacement locations on terms acceptable to us, our business could suffer. If one or more of the anchor tenants located in the strip shopping centers where our stores are located close or leave, or if there is significant deterioration of the surrounding areas in which our stores are located, our business may be adversely affected.

We could experience a reduction in sales if we are unable to fulfill our current and future merchandising needs.

We depend on our suppliers for the continued availability and satisfactory quality of our merchandise. Most of our suppliers could discontinue selling to us at any time. Additionally, if the manufacturers or other owners of brands or trademarks terminate the license agreements under which some of our suppliers sell our products, we may be unable to obtain replacement merchandise of comparable fashion appeal or quality, in the same quantities or at the same prices. In addition, a number of our suppliers are smaller, less capitalized companies and are more likely to be impacted by unfavorable general economic and market conditions than larger and better capitalized companies. These smaller suppliers may not have sufficient liquidity during economic downturns to properly fund their businesses, and their ability to supply their products to us could be negatively impacted. If we lose the services of one or more of

Table of Contents

our significant suppliers or one or more of them fail to meet our merchandising needs, we may be unable to obtain replacement merchandise in a timely manner, which could negatively impact our sales and results of operations.

Our sales could decline as a result of general economic and other factors outside of our control, such as changes in consumer spending patterns and declines in employment levels.

Downturns, or the expectation of a downturn, in general economic conditions, including the effects of unemployment levels, interest rates, levels of consumer debt, inflation in food and energy prices, taxation, government stimulus, consumer confidence, and other macroeconomic factors, could adversely affect consumer spending patterns, our sales and our results of operations. Consumer confidence may also be affected by domestic and international political unrest, acts of war or terrorism, natural disasters or other significant events outside of our control, any of which could lead to a decrease in spending by consumers. Because apparel generally is a discretionary purchase, declines in consumer spending patterns may have a more negative effect on apparel retailers than some other retailers. In addition, since many of our stores are located in the southeastern United States, our operations are more susceptible to regional factors than the operations of our more geographically diversified competitors. Therefore, any adverse economic conditions that have a disproportionate effect on the southeastern United States could have a greater negative effect on our sales and results of operations than on retailers with a more geographically diversified store base.

Adverse trade restrictions may disrupt our supply of merchandise. We also face various risks because much of our merchandise is imported from abroad.

We purchase the products we sell directly from approximately 1,000 vendors, and a substantial portion of this merchandise is manufactured outside of the United States and imported by our vendors from countries such as China and other areas of the Far East. The countries in which our merchandise currently is manufactured or may be manufactured in the future could become subject to new trade restrictions imposed by the United States or other foreign governments. Trade restrictions, including increased customs restrictions and tariffs or quotas against apparel items, as well as United States or foreign labor strikes, work stoppages or boycotts, could increase the cost or reduce the supply of apparel available to us and have an adverse effect on our business. In addition, our merchandise supply could be impacted if our vendors' imports become subject to existing or future duties and quotas, or if our vendors face increased competition from other companies for production facilities, import quota capacity and shipping capacity.

We also face a variety of other risks generally associated with relying on vendors that do business in foreign markets and import merchandise from abroad, such as:

- political instability, natural disasters, or the threat of terrorism, in particular in countries where our vendors source merchandise;
- increases in merchandise costs due to raw material price inflation or changes in purchasing power caused by fluctuations in currency exchange rates;

Edgar Filing: Citi Trends Inc - Form 10-K

- enhanced security measures at United States and foreign ports, which could delay delivery of imports;
- imposition of new or supplemental duties, taxes, and other charges on imports;
- delayed receipt or non-delivery of goods due to the failure of foreign-source suppliers to comply with import regulations, organized labor strikes or congestion at United States ports; and
- local business practice and political issues, including issues relating to compliance with domestic or international labor standards.

Table of Contents

As an apparel retailer, we rely on numerous third parties in the supply chain to produce and deliver the products that we sell, and our business may be negatively impacted by their failure to comply with applicable law.

We rely on numerous third parties to supply the products that we sell. Violations of law by our importers, manufacturers or distributors could result in delays in shipments and receipt of goods or damage our reputation, thus causing our sales to decline. In addition, merchandise we sell in our stores is subject to regulatory standards set by various governmental authorities with respect to quality and safety. Regulations in this area may change from time to time. Issues with the quality and safety of merchandise we sell in our stores, regardless of our fault, or customer concerns about such issues, could result in damage to our reputation, lost sales, uninsured product liability claims or losses, merchandise recalls and increased costs. Further, we are susceptible to the receipt of counterfeit brands or unlicensed goods. We could incur liability with manufacturers or other owners of the brands or trademarked products if we inadvertently receive and sell counterfeit brands or unlicensed goods and, therefore, it is important that we establish relationships with reputable vendors to prevent the possibility that we inadvertently receive counterfeit brands or unlicensed goods. Although we have a quality assurance team to check merchandise in an effort to assure that we purchase only authentic brands and licensed goods and are careful in selecting our vendors, we may receive products that we are prohibited from selling or incur liability for selling counterfeit brands or unlicensed goods, which could adversely impact our results of operations.

A significant disruption to our distribution process or southeastern retail locations could have an adverse effect on our business, financial condition and results of operations.

Our ability to distribute our merchandise to our store locations in a timely manner is essential to the efficient and profitable operation of our business. We have distribution centers located in Darlington, South Carolina and Roland, Oklahoma. Any natural disaster or other disruption to the operation of either of these facilities due to fire, accidents, weather conditions or any other cause could damage a significant portion of our inventory and impair our ability to stock our stores adequately.

In addition, the southeastern United States, where the Darlington distribution center and many of our stores are located, is vulnerable to significant damage or destruction from hurricanes and tropical storms. Although we maintain insurance on our stores and other facilities, the economic effects of a natural disaster that affects our distribution centers and/or a significant number of our stores could increase our operating expenses, impair our cash flows and reduce our sales.

If we fail to protect our trademarks, there could be a negative effect on our brand image and limitations on our ability to penetrate new markets.

We believe that our Citi Trends trademark is integral to our store design and our success in building consumer loyalty to our brand. We have registered this trademark with the U.S. Patent and Trademark Office. We have also registered, or applied for registration of, additional trademarks with the U.S. Patent and Trademark Office that we believe are important to our business. We cannot assure you that these registrations will prevent imitation of our name, merchandising concept, store design or private label merchandise or the infringement of our other intellectual property rights by others. Imitation of our name, concept, store design or merchandise in a manner that projects lesser quality or carries a negative connotation of our brand image could have an adverse effect on our business, financial condition and results of operations.

Edgar Filing: Citi Trends Inc - Form 10-K

In addition, we cannot assure you that others will not try to block the manufacture or sale of our private label merchandise by claiming that our merchandise violates their trademarks or other proprietary rights since other entities may have rights to trademarks that contain the word "Citi" or may have rights in similar or competing marks for apparel and/or accessories. Although we cannot currently estimate the likelihood of success of any such lawsuit or ultimate resolution of such a conflict, such a controversy could have an adverse effect on our business, financial condition and results of operations.

If we fail to implement and maintain effective internal controls in our business, there could be an adverse effect on our business, financial condition, results of operations and stock price.

Section 404 of the Sarbanes Oxley Act of 2002 requires annual management assessments of the effectiveness of our internal controls over financial reporting and an audit of such controls by our independent registered public accounting firm. If we fail to maintain the adequacy of our internal controls, we may be unable to conclude on an ongoing basis that we have effective internal controls over financial reporting. Moreover, effective internal controls, particularly those related to revenue recognition and accounting for inventory/cost of sales, are necessary for us to produce reliable financial reports and are important in our effort to prevent financial fraud. If we cannot produce reliable financial reports or prevent fraud, our business, financial condition and results of operations could be harmed, investors could lose confidence in our reported financial information, the market price of our stock could decline significantly and we may be unable to obtain additional financing to operate and expand our business.

Failure to attract, train, assimilate and retain skilled personnel could have an adverse effect on our financial condition.

Like most retailers, we experience significant employee turnover rates, particularly among store sales associates and managers. We therefore must continually attract, hire and train new personnel to meet our staffing needs. We constantly compete for qualified

Table of Contents

personnel with companies in our industry and in other industries. A significant increase in the turnover rate among our store sales associates and managers would increase our recruiting and training costs and could cause us to be unable to service our customers effectively, thus reducing our ability to operate our stores as profitably as we have in the past.

In addition, we rely heavily on the experience and expertise of our senior management team and other key management associates, and accordingly, the loss of their services could have a material adverse effect on our business strategy and results of operations.

Changes in government regulations could have an adverse effect on our financial condition and results of operations.

New legal requirements, including health care legislation, could result in higher compliance costs. For instance, Congress enacted health care reform legislation in 2010 which, among other things, includes guaranteed coverage requirements, eliminates exclusions for pre-existing conditions and maximum benefits, restricts the extent to which policies can be rescinded, and imposes new taxes on health insurers and health care benefits. Such significant changes in government regulations could have a material adverse effect on our business and results of operations.

Increases in the minimum wage could have an adverse effect on our financial condition and results of operations.

Wage rates for many of our employees are at or slightly above the minimum wage. As federal and/or state minimum wage rates increase, we may need to increase not only our employees' wage rates that are under the new minimum, but also the wages paid to our other hourly employees. Any increase in the cost of our labor could have a material adverse effect on our operating costs, financial condition and results of operations.

Any failure of our management information systems or the inability of third parties to continue to upgrade and maintain our systems could have an adverse effect on our business, financial condition and results of operations.

We depend on the accuracy, reliability and proper functioning of our management information systems, including the systems used to track our sales and facilitate inventory management. We also rely on our management information systems for merchandise planning, replenishment and markdowns, as well as other key business functions. These functions enhance our ability to optimize sales while limiting markdowns and reducing inventory risk through properly marking down slow-selling styles, reordering existing styles and effectively distributing new inventory to our stores. We do not currently have redundant systems for all functions performed by our management information systems. Any interruption in these systems could impair our ability to manage our inventory effectively, which could have an adverse effect on our business.

We depend on third-party suppliers to maintain and periodically upgrade our management information systems, including the software programs supporting our inventory management functions. If any of these suppliers is unable to continue to maintain and upgrade these software programs and/or if we are unable to convert to alternate systems in an efficient and timely manner, it could result in an adverse effect on our business.

Failure to secure our customers' charge card information, or the private data relating to our associates or the Company could subject us to negative publicity, government enforcement actions, or private litigation.

We have procedures and technology in place to safeguard our customers' debit and credit card information, our associates' private data, and the Company's records and intellectual property. However, if we experience a data security breach, we could be exposed to costly negative publicity, governmental enforcement actions, and private litigation. In addition, our sales could be negatively impacted if our customers have security concerns and are not willing to purchase our merchandise using charge cards.

Our sales, inventory levels and earnings fluctuate on a seasonal basis, which makes our business more susceptible to adverse events that occur during the first and fourth quarters.

Our sales and earnings are significantly higher during the first and fourth quarters each year due to the importance of the spring selling season, which includes Easter, and the fall selling season, which includes Christmas. Factors negatively affecting us during the first and fourth quarters, including adverse weather, unfavorable economic conditions, reduced governmental assistance, and tax refund patterns for our customers, will have a greater adverse effect on our financial condition than if our business was less seasonal.

In order to prepare for the spring and fall selling seasons, we must order and keep in stock significantly more merchandise than during other parts of the year. This seasonality makes our business more susceptible to the risk that our inventory will not satisfy actual consumer demand. In addition, any unanticipated demand imbalances during these peak shopping seasons could require us to sell excess inventory at a substantial markdown or fail to satisfy our consumers. In either event, our sales and gross margins may be lower than historical levels, which could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

We experience fluctuations and variability in our comparable store sales and quarterly results of operations and, as a result, the market price of our common stock may fluctuate substantially.

Our comparable store sales and quarterly results have fluctuated significantly in the past based on a number of economic, seasonal and competitive factors, and we expect them to continue to fluctuate in the future. Since the beginning of fiscal 2005, our quarter-to-quarter comparable store sales have ranged from a decrease of 12.4% to an increase of 25.0%. This variability could cause our comparable store sales and quarterly results to fall below the expectations of securities analysts or investors, which could result in a decline in the market price of our common stock.

Our stock price is subject to volatility.

Our stock price is volatile. From our initial public offering in May 2005 through January 28, 2012, the trading price of our common stock has ranged from \$7.01 to \$57.85 per share. As a result of this volatility, investors may not be able to sell their common stock at or above their respective purchase prices. The market price for our common stock may be influenced by many factors, including:

- actual or anticipated fluctuations in our operating results;
- changes in securities analysts' recommendations or estimates of our financial performance;
- changes in market valuations or operating performance of our competitors or companies similar to ours;
- announcements by us, our competitors or other retailers;
- additions and departures of key personnel;
- changes in accounting principles;
- the passage of legislation or other developments affecting us;

Edgar Filing: Citi Trends Inc - Form 10-K

- the trading volume of our common stock in the public market;
- changes in economic or financial market conditions;
- natural disasters, terrorist acts, acts of war or periods of civil unrest; and
- the realization of some or all of the risks described in this section entitled Risk Factors.

In addition, the stock markets have experienced significant price and trading volume fluctuations from time to time, and the market prices of the equity securities of retailers have been extremely volatile and have recently experienced sharp price and trading volume changes. These broad market fluctuations may adversely affect the market price of our common stock.

We do not currently intend to pay dividends on our common stock.

We have never declared or paid any cash dividends on our common stock and do not currently intend to do so for the foreseeable future.

Provisions in our certificate of incorporation and by-laws and Delaware law may delay or prevent our acquisition by a third party.

Our second amended and restated certificate of incorporation and our amended and restated by-laws contain several provisions that may make it more difficult for a third party to acquire control of us without the approval of our board of directors. These provisions include, among other things, a classified board of directors, advance notice for raising business or making nominations at stockholder meetings and blank check preferred stock. Blank check preferred stock enables our board of directors, without stockholder approval, to designate and issue additional series of preferred stock with such dividend, liquidation, conversion, voting or other rights, including convertible securities with no limitations on conversion, as our board of directors may determine, including rights to dividends and proceeds in a liquidation that are senior to the common stock.

We are also subject to several provisions of the Delaware General Corporation Law that could delay, prevent or deter a merger, acquisition, tender offer, proxy contest or other transaction that might otherwise result in our stockholders receiving a premium over the market price for their common stock or may otherwise be in the best interests of our stockholders.

ITEM 2. PROPERTIES

Store Locations

As of January 28, 2012, we operated 511 stores located in 29 states. Our stores average approximately 10,700 square feet of selling space and are typically located in neighborhood strip shopping centers that are convenient to low to moderate income customers.

We have no franchising relationships, and all of the stores are company operated. All existing 511 stores, totaling 6.7 million total square feet and 5.5 million selling square feet, are leased under operating leases. The typical store lease is for five years with options to extend the lease term for three additional five-year periods. Nearly all store leases provide us the right to cancel following an initial three-year period in the event the store does not meet pre-determined sales levels. The table below sets forth the number of stores in each of the 29 states in which we operated as of January 28, 2012:

Alabama 29

Arkansas 8

California 9

Delaware 1

Florida 46

Georgia 63

Illinois 18

Indiana 11

Iowa 2

Kansas 1

Kentucky 6

Louisiana	33
Maryland	4
Michigan	21
Minnesota	1
Mississippi	25
Missouri	6
Nebraska	1
Nevada	2
New York	4
North Carolina	44
Ohio	25
Oklahoma	5
Pennsylvania	6
South Carolina	47
Tennessee	18
Texas	49
Virginia	20
Wisconsin	6

Support Center Facilities

We own a facility in Savannah, Georgia totaling approximately 70,000 square feet, which serves as our headquarters and, to a lesser extent, as a merchandise storage facility. We also own an approximately 550,000 square-foot distribution center in Darlington, South Carolina and a 460,000 square-foot distribution center in Roland, Oklahoma. In addition, we currently lease a 7,600 square-foot office in New York City which is used for buyer operations and meetings with vendors. The Company closed its 170,000 square foot distribution center in Savannah, Georgia in June 2011. A real estate broker has been engaged to sell the Savannah land and building.

Table of Contents

ITEM 3. LEGAL PROCEEDINGS

On August 12, 2011, we received a letter of determination from the U.S. Equal Employment Opportunity Commission (the EEOC) commencing a conciliation process regarding alleged discrimination against males by us in our hiring and promotion practices during the years 2004 through 2006. In its letter of determination, the EEOC seeks recovery in the amount of \$0.2 million on behalf of a former male employee and in the additional amount of \$3.8 million in a settlement fund for a class of unidentified males who sought or considered seeking manager or assistant manager positions in our stores. The EEOC also seeks certain undertakings by us with regard to our employment policies and procedures and a reporting obligation to the EEOC with respect to our compliance with these undertakings.

We have not received documentation or other information from the EEOC in support of its letter of determination, but have undertaken our own preliminary internal analysis of the EEOC's claims and defenses to such claims and have had initial discussions with the EEOC in that regard. We anticipate further discussions with the EEOC and will continue to evaluate the claim as well as potential defenses. We have considered the possibility of reaching a satisfactory conciliation agreement with the EEOC and the individual claimant, and have proposed economic and non-economic terms that might form the basis of such an agreement, including a total economic settlement offer of up to \$0.4 million. We are also evaluating other aspects of the conciliation process established by the EEOC. On March 29, 2012, we received a letter from the EEOC responding to our settlement offer, proposing a counter offer for settlement of \$3.1 million and requesting certain additional information from us. We are evaluating this counter proposal from the EEOC and our possible responses to it.

On February 24, 2012, a suit was filed in the United States District Court for the Northern District of Alabama, Middle Division, by certain individuals as a purported collective action on behalf of current and former employees of the Company holding store managerial positions. The plaintiffs allege that store managers have been improperly classified as exempt from the obligation to pay overtime in violation of the Fair Labor Standards Act. We intend to vigorously defend the claims that have been asserted in this lawsuit. Because of the early stage of this action and the fact that no discovery has been conducted to date, it is not reasonably possible to estimate a range of loss with respect to this matter. Accordingly, no accrual for costs has been recorded, and the potential impact of this matter on our financial position, results of operations and cash flows cannot be determined at this time.

We are from time to time also involved in various other legal proceedings incidental to the conduct of our business, including claims by customers, employees or former employees. Once it becomes probable that we will incur costs in connection with a legal proceeding and such costs can be reasonably estimated, we establish appropriate reserves. While legal proceedings are subject to uncertainties and the outcome of any such matter is not predictable, we are not aware of any legal proceedings pending or threatened against us that we expect to have a material adverse effect on our financial condition, results of operations or liquidity.

Table of Contents

- (1) Our fiscal year ends on the Saturday closest to January 31 of each year. The years ended January 28, 2012, January 29, 2011, January 30, 2010, January 31, 2009, and February 2, 2008 are referred to as fiscal 2011, 2010, 2009, 2008, and 2007, respectively. Each of these five fiscal years is comprised of 52 weeks.
- (2) Stores included in the comparable store sales calculation for any period are those stores that were opened prior to the beginning of the preceding fiscal year and were still open at the end of such period. Relocated stores and expanded stores are included in the comparable store sales results.
- (3) The Company is reporting comparable store sales on a comparable store and comparable weeks basis; for fiscal 2007, the 52 weeks ended February 2, 2008 were compared to the 52 weeks ended February 3, 2007 (fiscal 2006 was comprised of the 53 weeks ended February 3, 2007).
- (4) Average sales per store is defined as net sales divided by the average of stores open at the end of the prior fiscal year and stores open at the end of the current fiscal year.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the section entitled "Selected Financial and Operating Data" and our audited consolidated financial statements and the respective related notes included elsewhere in this Annual Report on Form 10-K. This discussion may contain forward-looking statements that involve risks and uncertainties. As a result of many factors, such as those set forth under the section entitled "Risk Factors" and elsewhere in this Report, our actual results may differ materially from those anticipated in these forward-looking statements.

Overview

We are a value-priced retailer of urban fashion apparel and accessories for the entire family. Our merchandise offerings are designed to appeal to the preferences of fashion conscious consumers, particularly African-Americans. We operate 511 stores in both urban and rural markets in 29 states.

Prior to encountering a challenging sales environment, we were pursuing an aggressive store growth strategy that included opening 60 new stores in fiscal 2010 and 55 new stores in fiscal 2011. We expect to take a more conservative approach to growth in fiscal 2012 with plans to open approximately 5 new stores. We will continue to evaluate our growth strategy as we monitor operating results in fiscal 2012.

We measure performance using key operating statistics. One of the main performance measures we use is comparable store sales growth. We define a comparable store as a store that has been opened for an entire fiscal year. Therefore, a store will not be considered a comparable store until its 13th month of operation at the earliest or until its 24th month at the latest. As an example, stores opened in fiscal 2010 and fiscal 2011 were not considered comparable stores in fiscal 2011. Relocated and expanded stores are included in the comparable store sales results. We also use other operating statistics, most notably average sales per store, to measure our performance. As we typically occupy existing space in established shopping centers rather than sites built specifically for our stores, store square footage (and therefore sales per square foot) varies by store. We focus on overall store sales volume as the critical driver of profitability. The average sales per store has increased over the years, as we have increased comparable store sales and opened new stores that are generally larger than our historical store base. Average sales per store have increased from \$0.8 million in fiscal 2000 to \$1.3 million in fiscal 2011. In addition to sales, we measure gross profit as a percentage of sales

Edgar Filing: Citi Trends Inc - Form 10-K

and store operating expenses, with a particular focus on labor, as a percentage of sales. These results translate into store level contribution, which we use to evaluate overall performance of each individual store. Finally, we monitor corporate expenses against budgeted amounts. All of the statistics discussed above are critical components of earnings before interest, taxes, depreciation and amortization (EBITDA) and Adjusted EBITDA (comprised of EBITDA plus non-cash asset impairment expense), which are considered our most important operating statistics. Although EBITDA and Adjusted EBITDA provide useful information on an operating cash flow basis, they are limited measures in that they exclude the impact of cash requirements for capital expenditures, income taxes and interest expense. Therefore, EBITDA and Adjusted EBITDA should be used as supplements to results of operations and cash flows as reported under GAAP and should not be used as a singular measure of operating performance or as a substitute for GAAP results. Provided below is a reconciliation of net (loss) income to EBITDA and to Adjusted EBITDA for fiscal years ended January 28, 2012, January 29, 2011 and January 30, 2010:

Table of Contents

	January 28, 2012	Fiscal Year Ended January 29, 2011	January 30, 2010
Net (loss) income	\$ (10,014)	\$ 20,852	\$ 19,717
Plus:			
Interest expense	79	24	92
Income tax expense		10,742	9,969
Depreciation and amortization	24,958	20,324	18,319
Less:			
Interest income	(243)	(174)	(404)
Income tax benefit	(7,816)		
EBITDA	6,964	51,768	47,693
Asset impairment	6,514	211	112
Adjusted EBITDA	\$ 13,478	\$ 51,979	\$ 47,805

Basis of the Presentation

Net sales consist of store sales and layaway fees, net of returns by customers. Cost of sales consists of the cost of products we sell and associated freight costs. Selling, general and administrative expenses are comprised of store costs, including payroll and occupancy costs, corporate and distribution center costs and advertising costs. We operate on a 52- or 53-week fiscal year, which ends on the Saturday closest to January 31. Each of our fiscal quarters consists of four 13-week periods, with an extra week added to the fourth quarter every five to six years. The years ended January 28, 2012, January 29, 2011, January 30, 2010, January 31, 2009, and February 2, 2008 are referred to as fiscal 2011, 2010, 2009, 2008 and 2007, respectively. Each of these five fiscal years is comprised of 52 weeks.

Fiscal 2012 will be a 53-week year ending on February 2, 2013. Based on historical sales results in late January and early February, the 53rd week is expected to reflect sales that are higher than our annual weekly average; however, incremental profits for such week may be negligible because that week has historically had high levels of markdowns.

Results of Operations

The following discussion of our financial performance is based on the consolidated financial statements set forth in the financial pages of this Report. The nature of our business is seasonal. Historically, sales in the first and fourth quarters have been higher than sales achieved in the second and third quarters of the fiscal year. Expenses and, to a greater extent, operating income, vary by quarter. Results of a period shorter than a full year may not be indicative of results expected for the entire year. Furthermore, the seasonal nature of our business may affect comparisons between periods.

Table of Contents**Net Sales and Additional Operating Data**

The following table sets forth, for the periods indicated, selected consolidated statement of operations data expressed both in dollars and as a percentage of net sales:

	January 28, 2012		Fiscal Year Ended January 29, 2011 (dollars in thousands)		January 30, 2010				
Statement of Operations Data									
Net sales	\$	640,824	100.0%	\$	622,528	100.0%	\$	551,869	100.0%
Cost of sales		420,321	65.6%		383,318	61.6%		338,898	61.4%
Gross profit		220,503	34.4%		239,210	38.4%		212,971	38.6%
Selling, general and administrative expenses		207,025	32.3%		187,231	30.1%		165,166	29.9%
Depreciation and amortization		24,958	3.9%		20,324	3.3%		18,319	3.3%
Asset impairment		6,514	1.0%		211	0.0%		112	0.0%
(Loss) income from operations		(17,994)	(2.8)%		31,444	5.1%		29,374	5.3%
Interest income		243	0.0%		174	0.0%		404	0.1%
Interest expense		(79)	(0.0)%		(24)	(0.0)%		(92)	(0.0)%
(Loss) income before income taxes		(17,830)	(2.8)%		31,594	5.1%		29,686	5.4%
Income tax (benefit) expense		(7,816)	(1.2)%		10,742	1.7%		9,969	1.8%
Net (loss) income	\$	(10,014)	(1.6)%	\$	20,852	3.4%	\$	19,717	3.6%

The following table provides information, for the years indicated, about the number of total stores open at the beginning of the year, stores opened and closed during each year, total stores open at the end of each year and comparable store sales for the years:

	January 28, 2012	Fiscal Year Ended January 29, 2011	January 30, 2010
Total stores open, beginning of year	461	403	357
New stores	55	60	49
Closed stores	(5)	(2)	(3)
Total stores open, end of year	511	461	403
Comparable store sales (decrease) increase (1)	(8.3)%	(1.8)%	0.6%

(1)

Edgar Filing: Citi Trends Inc - Form 10-K

Stores included in the comparable store sales calculation for any year are those stores that were opened prior to the beginning of the preceding fiscal year and were still open at the end of such year. Relocated stores and expanded stores are included in the comparable store sales results.

Table of Contents

Fiscal 2011 Compared to Fiscal 2010

Net Sales. Net sales increased \$18.3 million, or 2.9%, to \$640.8 million in fiscal 2011 from \$622.5 million in fiscal 2010. The increase in net sales was due primarily to 55 new store openings in fiscal 2011 and 60 new store openings in fiscal 2010 for which there was not a full year of sales in fiscal 2010, partially offset by an 8.3% decrease in comparable store sales and the closing of five stores in fiscal 2011 and two stores in fiscal 2010. The 55 stores opened in fiscal 2011 accounted for \$39.7 million of the increase in sales and the 60 stores opened in fiscal 2010 accounted for \$28.3 million of the increase, while the sales decrease in the 396 comparable stores totaled \$47.4 million and the closed stores had the effect of reducing sales by \$2.3 million. Comparable stores include locations that have been relocated or expanded. There were 14 stores relocated or expanded in fiscal 2011 and 13 stores relocated or expanded in fiscal 2010. Sales in these comparable relocated and expanded stores increased 1.4% in fiscal 2011, while sales in all other comparable stores decreased 9.1%.

The 8.3% overall decrease in comparable store sales was reflected primarily in a 6.9% decline in customer transactions, with the remainder being due to a lower average customer purchase. Sales were impacted by a challenging economic environment for our core customer, stiff price competition and a fashion cycle where many of the urban brands that have historically been strong performers for us fell out of favor. In addition, we believe we did not react to these challenges as well or as quickly as we could have. Ultimately, we commenced a process of reducing our prices and rebalancing our merchandise mix more towards non-branded merchandise in order to better serve our customers. While we started to see an improvement in customer traffic late in the year, albeit at a lower average ticket, it was not enough to turn comparable store sales positive. Comparable store sales changes by major merchandise class were as follows: Home +8%; Accessories +1%; Children's -8%; Women's -11% and Men's -13%.

Gross Profit. Gross profit decreased \$18.7 million, or 7.8%, to \$220.5 million in fiscal 2011 from \$239.2 million in fiscal 2010. The decrease in gross profit is the result of a decline in the gross margin to 34.4% in fiscal 2011 from 38.4% in fiscal 2010, partially offset by the effect of the increase in total sales discussed above. The decrease in gross margin was due primarily to a decline in the core merchandise margin (initial mark-up, net of markdowns) of 350 basis points, resulting from the need to reduce prices for competitive reasons and to take clearance markdowns necessitated by the negative comparable store sales, particularly in the very slow-moving branded categories.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$19.8 million, or 10.6%, to \$207.0 million in fiscal 2011 from \$187.2 million in fiscal 2010. The increase in these expenses was due primarily to additional store level, distribution and corporate costs arising from the opening of 55 new stores in fiscal 2011 and 60 new stores in fiscal 2010. Selling, general and administrative expenses as a percentage of net sales increased to 32.3% in fiscal 2011 from 30.1% in fiscal 2010 due primarily to the deleveraging effect on expenses as a percentage of sales when comparable store sales decline 8.3%. In particular, rent, utilities and other occupancy expenses, which tend to be highly fixed in nature, increased 100 basis points as a percentage of sales, and payroll expenses, which have a sizable fixed component associated with store management and corporate overhead, increased 50 basis points as a percentage of sales. Almost 30 of the remaining 70 basis points of increase related to \$1.9 million of severance expense, incurred in connection with the elimination of 40 positions in our corporate office, distribution centers and store organization and the departure of two executives. In addition, there was deleverage in the expense ratio of 10 basis points (\$0.6 million) related to expenses incurred to close the Savannah, Georgia distribution center and 30 basis points spread over numerous other categories of expense as a result of the comparable store sales deleverage described above.

Depreciation and Amortization. Depreciation and amortization expense increased \$4.7 million, or 22.8%, to \$25.0 million in fiscal 2011 from \$20.3 million in fiscal 2010, as a result of capital expenditures incurred in opening the new distribution center in Roland, Oklahoma and for stores that are new or were relocated, expanded, or converted to the new Citi Lights format.

Edgar Filing: Citi Trends Inc - Form 10-K

Asset Impairment. Impairment charges for property and equipment at certain underperforming stores totaled \$5.1 million and \$0.2 million in fiscal 2011 and 2010, respectively. The increase was a result of the decline in sales and gross margin as discussed above. In addition, goodwill of \$1.4 million was fully impaired in 2011 due to a decrease in the Company's stock price.

Income Tax (Benefit) Expense. Income tax benefit was \$7.8 million in fiscal 2011, while income tax expense was \$10.7 million in fiscal 2010, with the change due to having a pretax loss this year and pretax income last year. The effective income tax rate was 43.8% in fiscal 2011 compared with 34.0% in fiscal 2010 because income tax credits have the effect of increasing income tax benefit and decreasing income tax expense. The benefit's effective rate in 2011 would have been even higher from such credits if not for a \$0.8 million charge related to the establishment of a valuation allowance for certain state tax credits that are no longer more likely than not to be utilized.

Net (Loss) Income. Net loss was \$10.0 million in fiscal 2011, while net income was \$20.9 million in fiscal 2010, due to the factors discussed above.

Table of Contents

Fiscal 2010 Compared to Fiscal 2009

Net Sales. Net sales increased \$70.6 million, or 12.8%, to \$622.5 million in fiscal 2010 from \$551.9 million in fiscal 2009. The increase in net sales was due primarily to 60 new store openings in fiscal 2010 and 49 new store openings in fiscal 2009 for which there was not a full year of sales in fiscal 2009, partially offset by a 1.8% decrease in comparable store sales and the closing of two stores in fiscal 2010 and three stores in fiscal 2009. The 60 stores opened in fiscal 2010 accounted for \$48.0 million of the increase in sales and the 49 stores opened in fiscal 2009 accounted for \$33.6 million of the increase, while the sales decrease in the 352 comparable stores totaled \$9.0 million and the closed stores had the effect of reducing sales by \$2.0 million. Comparable stores include locations that have been relocated or expanded. There were 13 stores relocated or expanded in fiscal 2010 and 11 stores relocated or expanded in fiscal 2009. Sales in these comparable relocated and expanded stores increased 1.8% in fiscal 2010, while sales in all other comparable stores decreased 2.1%.

The 1.8% overall decrease in comparable store sales was reflected in a 2.0% reduction in the average customer purchase, partially offset by a slight increase in the number of customer transactions. Comparable store sales changes by major merchandise class were as follows: Accessories +13%; Home +8%; Men's -4%; Children's -5%; and Women's -5%.

Gross Profit. Gross profit increased \$26.2 million, or 12.3%, to \$239.2 million in fiscal 2010 from \$213.0 million in fiscal 2009. The increase in gross profit is a result of the increase in sales, partially offset by a slight decline in the gross margin to 38.4% in fiscal 2010 from 38.6% in fiscal 2009.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$22.0 million, or 13.4%, to \$187.2 million in fiscal 2010 from \$165.2 million in fiscal 2009. The increase in these expenses was due primarily to additional store level, distribution and corporate costs arising from the opening of 60 new stores in fiscal 2010 and 49 new stores in fiscal 2009. Selling, general and administrative expenses as a percentage of net sales increased to 30.1% in fiscal 2010 from 29.9% in fiscal 2009. The 1.8% decline in comparable store sales pressured expenses as a percentage of sales due to the deleveraging effect on fixed expenses, particularly rent and other occupancy costs. However, the extent of the expense deleverage was limited to 20 basis points through tight control of costs in light of the sales environment and because incentive compensation as a percentage of sales was 40 basis points less in 2010 due to missing profitability and sales targets used to compute such compensation. As a result, the 13.4% increase in expenses was less than the 16.3% increase in store selling square footage.

Depreciation and Amortization. Depreciation and amortization expense increased \$2.0 million, or 10.9%, to \$20.3 million in fiscal 2010 from \$18.3 million in fiscal 2009, as the result of capital expenditures incurred for new and relocated/expanded stores.

Income Tax Expense. Income tax expense increased \$0.7 million, or 7.8%, to \$10.7 million in fiscal 2010 from \$10.0 million in fiscal 2009 due to higher pretax earnings in fiscal 2010 and an increase in the effective income tax rate to 34.0% in fiscal 2010 from 33.6% in fiscal 2009. The increase in the tax rate was due to having less tax-free interest income in fiscal 2010.

Net Income. Net income increased 5.8% to \$20.9 million in fiscal 2010 from \$19.7 million in fiscal 2009 due to the factors discussed above.

Liquidity and Capital Resources

Our cash requirements are primarily for working capital and for capital expenditures for our stores, distribution infrastructure and information systems. Historically, we have met these cash requirements from cash flow from operations, short-term trade credit, borrowings under our revolving lines of credit, long-term debt and capital leases, and cash proceeds from our initial public offering. We expect to be able to meet future cash requirements with cash flow from operations, short-term trade credit, existing cash balances and, if necessary, borrowings under our revolving credit facility (described below). In fiscal 2011, there was no need to borrow under the credit facility, including during the seasonal build of inventory in advance of the Christmas season. Due to our strong cash and cash equivalents position as of January 28, 2012 (\$42.0 million), we believe that we will likely not have to borrow under the credit facility during fiscal 2012.

Cash Flows

Fiscal 2011 Compared to Fiscal 2010

As of January 28, 2012, we had total cash and cash equivalents of \$42.0 million, compared with \$69.2 million as of January 29, 2011. The most significant factors in the decrease in our cash and cash equivalents position during fiscal 2011 were capital expenditures and purchases of investment securities, partially offset by positive cash flow from operating activities.

Inventory represented 41.8% of our total assets as of January 28, 2012, compared with 39.6% as of January 29, 2011. Management's ability to manage our inventory can have a significant impact on our cash flows from operations during a given interim period or fiscal

Table of Contents

year. In addition, inventory purchases can be seasonal in nature, such as the purchase of warm-weather or Christmas-related merchandise.

Cash Flows Provided by Operating Activities. Net cash provided by operating activities was \$22.1 million in fiscal 2011 compared with \$24.3 million in fiscal 2010. Net loss, adjusted for noncash expenses such as depreciation and amortization, asset impairment, deferred income taxes, loss on disposal of property and equipment, and stock-based compensation expense, provided cash of \$24.2 million (compared with \$44.7 million in fiscal 2010 from net income, adjusted for noncash expenses). Other significant sources of cash provided by operating activities included an increase in accounts payable, accrued expenses and other long-term liabilities, and accrued compensation. Accounts payable increased \$11.0 million (compared with \$5.2 million in fiscal 2010). The increase in accounts payable was due to an increase in inventory and as a result of inventory at the end of fiscal 2010 including a higher-than-normal level of opportunistic purchases of next-season-buy merchandise made in the second half of 2010 in an effort to lock-in costs in advance of anticipated 2011 merchandise cost inflation. Many of the payments to trade vendors for the higher level of next-season-buys had been made prior to the end of the year, therefore, accounts payable was lower as a percentage of inventory at the end of fiscal 2010 than fiscal 2011. Accrued expenses and other long-term liabilities increased \$5.2 million (compared with \$0.4 million in fiscal 2010) due primarily to the Company's store growth and our increasing tendency to take responsibility for the leasehold improvements in new stores in return for tenant improvement reimbursements from landlords. Accrued compensation increased \$1.7 million (compared with a decrease of \$0.9 million in fiscal 2010) as a result of severance accruals for two former officers and for employees laid off in connection with a reduction-in-force. Significant uses of cash included: (1) income tax receivable increased \$10.9 million (compared with \$3.2 million in fiscal 2010) due to a pretax loss in fiscal 2011, including losses incurred after first quarter estimated tax payments had already been made; and (2) inventory increased \$10.1 million (compared with \$20.6 million in fiscal 2010) due primarily to the growth in new stores. The new store inventory was partially offset by a \$6.4 million reduction in next-season-buy merchandise, as discussed above.

Cash Flows Used in Investing Activities. Cash used in investing activities was \$48.4 million in fiscal 2011 compared with \$17.5 million in fiscal 2010. Cash used for the purchase of property and equipment was \$38.4 million in fiscal 2011 and \$40.8 million in fiscal 2010, including capital expenditures for 55 new stores in fiscal 2011 and 60 new stores in 2010. Capital expenditures related to the new distribution center in Roland, Oklahoma totaled \$5.6 million in fiscal 2011 and \$11.2 million in 2010. Purchases of investment securities, net of sales/redemptions, used cash of \$10.0 million in fiscal 2011. Sales/redemptions of investment securities, net of purchases, provided cash of \$23.3 million in fiscal 2010.

Cash Flows Used in Financing Activities. Cash used in financing activities was insignificant in both fiscal 2011 and 2010.

Until required for other purposes, we maintain cash and cash equivalents in deposit or money market accounts.

Fiscal 2010 Compared to Fiscal 2009

As of January 29, 2011, we had total cash and cash equivalents of \$69.2 million, compared with \$63.0 million as of January 30, 2010. The most significant factors in the increase in our cash and cash equivalents position during fiscal 2010 were positive cash flow from operating activities and sales/redemptions of investment securities, partially offset by capital expenditures and purchases of investment securities.

Inventory represented 39.6% of our total assets as of January 29, 2011, compared with 36.0% as of January 30, 2010. Management's ability to manage our inventory can have a significant impact on our cash flows from operations during a given interim period or fiscal year. In addition,

Edgar Filing: Citi Trends Inc - Form 10-K

inventory purchases can be seasonal in nature, such as the purchase of warm-weather or Christmas-related merchandise.

Cash Flows Provided by Operating Activities. Net cash provided by operating activities was \$24.3 million in fiscal 2010 compared with \$41.3 million in fiscal 2009. The main source of cash during fiscal 2010 was net income, adjusted for noncash expenses such as depreciation and amortization, asset impairment, deferred income taxes, loss on disposal of property and equipment, and stock-based compensation expense, totaling \$44.7 million (compared with \$39.8 million in fiscal 2009). In addition, cash provided by operating activities benefited from accounts payable increasing \$5.2 million (compared with \$10.4 million in fiscal 2009) due to an increase in inventory. The increase in accounts payable was not as high as would typically be expected on an inventory increase of \$20.6 million, because much of the increase in inventory was due to more opportunistic purchases of next-season-buy merchandise in the second half of 2010 in an effort to lock-in costs in advance of anticipated 2011 merchandise cost inflation. Many of the payments to trade vendors for the higher level of next-season-buys had been made prior to the end of the year, therefore, accounts payable was lower as a percentage of inventory at the end of fiscal 2010 than fiscal 2009. Significant uses of cash included (1) inventory which increased \$20.6 million (compared with \$14.6 million in fiscal 2009) due to the growth in new stores and the efforts to make more opportunistic purchases of next-season-buy merchandise, as discussed above, and (2) a shift from an income tax payable to an income tax receivable totaling \$3.2 million (compared with an increase in the income tax payable in fiscal 2009 of \$2.9 million). The existence of an income tax receivable at the end of fiscal 2010 compared with a payable at the end of fiscal 2009 was due to a 16.3% decrease in year-over-year pretax income in the fourth quarter. Since estimated tax payments for the first three quarters of fiscal 2010 had assumed

Table of Contents

continued growth in profitability in the fourth quarter, a receivable existed at year end equal to the estimated payments in excess of the income tax expense recorded for financial statement purposes.

Cash Flows Used in Investing Activities. Cash used in investing activities was \$17.5 million in fiscal 2010 compared with \$11.3 million in fiscal 2009. Cash used for the purchase of property and equipment was \$40.8 million during fiscal 2010 and \$22.1 million in fiscal 2009, with fiscal 2010 including capital expenditures for more new stores (60 vs. 49) and \$11.2 million related to the purchase and equipping of the new distribution center in Roland, Oklahoma. Sales/redemptions of investment securities, net of purchases, provided cash of \$23.3 million and \$10.8 million in fiscal 2010 and 2009, respectively.

Cash Flows Used in Financing Activities. Cash used in financing activities was insignificant in both fiscal 2010 and fiscal 2009.

Liquidity Sources and Requirements and Contractual Cash Requirements and Commitments

Our principal sources of liquidity consist of: (i) cash and cash equivalents (which equaled \$42.0 million as of January 28, 2012); (ii) short-term trade credit; (iii) cash generated from operations on an ongoing basis as we sell our merchandise inventory; and (iv) a \$50 million revolving credit facility. Trade credit represents a significant source of financing for inventory purchases and arises from customary payment terms and trade practices with our vendors. Historically, our principal liquidity requirements have been for working capital and capital expenditure needs.

We believe that our existing sources of liquidity will be sufficient to fund our operations and anticipated capital expenditures for at least the next 12 months.

We anticipate that capital expenditures will be approximately \$5 million to \$6 million in fiscal 2012, including amounts related to approximately 5 new stores that we plan to open in fiscal 2012. We plan to finance these capital expenditures with cash flow from operations and existing cash balances.

The following table discloses aggregate information about our contractual obligations as of January 28, 2012 and the periods in which payments are due:

	Total	Less than 1 Year	Payments Due by Period		
			1-3 Years	3-5 Years	More than 5 Years
(in thousands)					
Contractual obligations:					
Operating leases (1)	\$ 128,855	\$ 36,884	\$ 59,260	\$ 27,327	\$ 5,384
Purchase obligations	78,838	78,838			
Total contractual cash obligations	\$ 207,693	\$ 115,722	\$ 59,260	\$ 27,327	\$ 5,384

(1) Represents fixed minimum rents in stores and does not include incremental rents which are computed as a percentage of net sales. For example, in fiscal 2011 incremental percentage rent was approximately \$0.9 million, which represented 2.3% of total rent expense.

Indebtedness. On October 27, 2011, we entered into a new, five-year, \$50 million credit facility with Bank of America to replace our prior \$20 million credit facility. The new facility includes a \$25 million uncommitted accordion feature that under certain circumstances could allow us to increase the size of the facility to \$75 million. Borrowings, if any, under the new facility will bear interest (a) for LIBOR Rate Loans, at LIBOR plus 1.5%, or (b) for Base Rate Loans, at a rate equal to the highest of (i) the prime rate plus 0.5%, (ii) the Federal Funds Rate plus 1.0%, or (iii) LIBOR plus 1.5%. The new facility is secured by our inventory, accounts receivable and related assets, but not our real estate, fixtures and equipment, and it contains one financial covenant, a fixed charge coverage ratio, which is applicable and tested only in certain circumstances. The facility has an unused commitment fee of 0.25% and permits the payment of cash dividends subject to certain limitations. We have had no borrowings under either the new or prior facility.

Operating Leases. We lease our stores under operating leases, which generally have an initial term of five years with renewal options. The typical store lease requires a combination of both fixed monthly rents and contingent rents computed as a percentage of net sales after a certain sales threshold has been met. For fiscal 2011, rent expense was \$39.8 million compared with \$33.7 million in fiscal 2010 (including \$0.9 million and \$1.3 million of percentage rent, respectively, in fiscal 2011 and 2010).

Table of Contents

Purchase Obligations. As of January 28, 2012, we had purchase obligations of \$78.8 million, all of which were for less than one year. These purchase obligations consist of outstanding merchandise orders.

Off-Balance Sheet Arrangements

Other than the store operating leases described above, we do not have any off-balance sheet arrangements.

Outstanding Stock Options

As of January 28, 2012, we had outstanding vested options to purchase 54,875 shares of common stock at a weighted average exercise price of \$32.22 per share. There were no unvested options to purchase shares of common stock as of January 28, 2012. Based on the closing price of our common stock of \$9.27 per share on January 27, 2012, the intrinsic value of the options outstanding on January 28, 2012 was \$19,000.

Critical Accounting Policies and Estimates

The preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. We believe the following critical accounting policies describe the more significant judgments and estimates used in the preparation of the consolidated financial statements:

Inventory

Inventory is stated at the lower of cost (first-in, first-out basis) or market as determined by the retail inventory method for store inventory and the average cost method for distribution center inventory. Under the retail inventory method, the cost of inventory is determined by calculating a cost-to-retail ratio and applying it to the retail value of inventory. Inherent in the retail inventory calculation are certain significant management judgments and estimates, including, among others, merchandise markups, markdowns and shrinkage, which impact the ending inventory valuation at cost as well as resulting gross margins. Merchandise markdowns are reflected in the inventory valuation when the price of an item is lowered in the stores. As a result, we believe the retail inventory method results in a more conservative inventory valuation than other accounting methods. We estimate and record an allowance for shrinkage for the period between the last physical count and the balance sheet date. The estimate of shrinkage can be affected by changes in actual shrinkage trends. Inventory shrinkage as a percentage of sales has ranged from 0.9% to 1.1% during fiscal years 2009 through 2011. The allowance for estimated inventory shrinkage was \$2.0 million and \$1.9 million as of January 28, 2012 and January 29, 2011, respectively. Many retailers have arrangements with vendors that provide for rebates and allowances under certain conditions, which ultimately affect the value of the inventory. We do not generally enter into such arrangements with our vendors. There were no material changes in the estimates or assumptions related to the valuation of inventory during fiscal 2011.

Property and Equipment, net

We have a significant investment in property and equipment stated at cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the lesser of the estimated useful lives (primarily three to five years for computer equipment and furniture, fixtures and equipment, five years for leasehold improvements, seven years for major purchased software systems, and fifteen to twenty years for buildings and building improvements) of the related assets or the relevant lease term. Any reduction in these estimated useful lives would result in a higher annual depreciation expense for the related assets. There were no material changes in the estimates or assumptions related to the valuation and classification of property and equipment during fiscal 2011.

Impairment of Long-Lived Assets

We continually evaluate whether events and changes in circumstances warrant revised estimates of the useful lives or recognition of an impairment loss for long-lived assets. If facts and circumstances indicate that a long-lived asset may be impaired, the carrying value is reviewed. If this review indicates that the carrying value of the asset will not be recovered as determined based on projected undiscounted cash flows related to the asset over its remaining life, the carrying value of the asset is reduced to its estimated fair value. Non-cash impairment losses related to leasehold improvements and fixtures and equipment at underperforming stores totaled \$5.1 million, \$0.2 million and \$0.1 million in fiscal 2011, 2010 and 2009, respectively. There were no changes in our impairment loss methodology in fiscal 2011; however, impairment losses were significantly higher in the year due to changes in estimates of future store cash flows resulting from declining comparable store sales and gross margin. As of January 28, 2012 there are an additional 31 stores with asset carrying values totaling \$5.1 million that will require close monitoring in the future. Impairment losses in the future are dependent on a number of factors such as site selection and general economic trends on a localized, regional, or national basis, and

Table of Contents

thus could be significantly different from historical results. To the extent our estimates for net sales, gross profit and store expenses are not realized, future assessments of recoverability could result in impairment charges.

Insurance Liabilities

We are largely self-insured for workers' compensation costs and employee medical claims. Our self-insurance liabilities are based on the total estimated costs of claims filed and estimates of claims incurred but not reported, less amounts paid against such claims. We use current and historical claims data, together with information from actuarial studies, in developing our estimates. The insurance liabilities we record are primarily influenced by the frequency and severity of claims and the Company's growth. If the underlying facts and circumstances related to the claims change, then we may be required to record more or less expense which could be material in relation to our results of operations. Our self-insurance liabilities totaled \$2.2 million (\$1.7 million current and \$0.5 million noncurrent) as of January 28, 2012 and \$1.9 million (\$1.3 million current and \$0.6 million noncurrent) as of January 29, 2011. There were no material changes in the estimates or assumptions related to insurance liabilities during fiscal 2011.

Operating Leases

We lease all of our store properties and account for the leases as operating leases. Many lease agreements contain tenant improvement allowances, rent holidays, rent escalation clauses and/or contingent rent provisions. For purposes of recognizing incentives and minimum rent expense on a straight-line basis over the terms of the leases, we use the date of initial possession to begin amortization, which is generally when we enter the space and begin to make improvements in preparation of intended use.

For scheduled rent escalation clauses during the lease terms or for rental payments commencing rent holidays at a date other than the date of initial occupancy, we record minimum rent expense on a straight-line basis over the terms of the leases. Tenant improvement allowances are included in accrued expenses (current portion) and other long-term liabilities (noncurrent portion) and are amortized over the lease term. Changes in the balances of tenant improvement allowances are included as a component of operating activities in the consolidated statements of cash flows.

Certain leases provide for contingent rents that are not measurable at inception. These contingent rents are primarily based on a percentage of net sales that are in excess of a predetermined level. These amounts are excluded from minimum rent and are included in the determination of total rent expense when it is probable that the expense has been incurred and the amount is reasonably estimable. There were no material changes in the estimates or assumptions related to operating leases during fiscal 2011.

Accounting for Income Taxes

We account for income taxes under the asset and liability method. The computation of income taxes is subject to estimation due to the judgment required and the uncertainty related to the recoverability of deferred tax assets or the outcome of tax audits. We adjust our income tax provision in the period it is determined that actual results will differ from our estimates. Tax law and rate changes are reflected in the income tax provision

Edgar Filing: Citi Trends Inc - Form 10-K

in the year in which such changes are enacted. There were no material changes in the estimates or assumptions related to income taxes during fiscal 2011, except that losses incurred in fiscal 2011 caused us to conclude that our future ability to utilize certain tax credits in one state was no longer more likely than not, necessitating a charge to income tax expense and a reduction in deferred tax assets of \$0.8 million in connection with the establishment of a valuation allowance.

The above listing is not intended to be a comprehensive list of all our accounting policies. In many cases the accounting treatment of a particular transaction is specifically dictated by U.S. generally accepted accounting principles, with no need for management's judgment in their application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result.

Recent Accounting Pronouncements

See note 2 to our consolidated financial statements included in this Report for recently issued accounting standards, including the expected dates of adoption and estimated effects on our consolidated financial statements.

Table of Contents

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

We are exposed to financial market risks related to changes in interest rates earned on our investments. We cannot predict market fluctuations in interest rates. As a result, future results may differ materially from estimated results due to changes in interest rates. A hypothetical 100 basis point change in prevailing market interest rates would not have materially impacted our financial position, results of operations or cash flows for fiscal 2011. We do not engage in financial transactions for trading or speculative purposes and have not entered into any interest rate hedging contracts. Interest rates on our credit facility did not impact us in fiscal 2011 because we did not borrow during the year.

We source all of our product from apparel markets in the United States in U.S. Dollars and, therefore, are not directly subject to fluctuations in foreign currency exchange rates. However, fluctuations in currency exchange rates could affect our purchasing power with vendors that import merchandise to sell to us. We have not entered into forward contracts to hedge against fluctuations in foreign currency prices.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements required by this item and the report of the independent accountant thereon required by Item 14(a)(2) appear beginning on page F-2 of this Report. See accompanying Index to the consolidated financial statements on page F-1. The supplementary financial data required by Item 302 of Regulation S-K appears in note 13 to the consolidated financial statements.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation under the supervision and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Report pursuant to Rules 13a-15 and 15d-15 of the Exchange Act. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer each concluded that our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information has been accumulated and communicated to our management, including the officers who certify our financial reports, as appropriate, to allow timely decisions regarding the required

disclosures.

Our disclosure controls and procedures are designed to provide reasonable assurance that the controls and procedures will meet their objectives. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the fiscal quarter ended January 28, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

For the Report of Management on Internal Control over Financial Reporting and the report of our independent registered public accounting firm on Internal Control over Financial Reporting, see Item 8, Financial Statements and Supplementary Data.

ITEM 9B. OTHER INFORMATION

None.

Table of Contents**PART III****ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE**

The information required by this Item with respect to our executive officers and directors, compliance by our directors, executive officers and certain beneficial owners of our common stock with Section 16(a) of the Exchange Act, the committees of our Board of Directors, our Audit Committee Financial Expert and our Code of Ethics is incorporated herein by reference to information under the captions entitled Board of Directors and Committees of the Board of Directors, Executive Officers, and Section 16(a) Beneficial Ownership Reporting Compliance in our definitive proxy statement (to be filed hereafter) in connection with our 2012 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

ITEM 11. EXECUTIVE COMPENSATION

The information required by this Item is incorporated herein by reference to information under the captions entitled Executive Compensation, Board of Directors and Committees of the Board of Directors and Compensation Committee Report in our definitive proxy statement (to be filed hereafter) in connection with our 2012 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this Item with respect to ownership of our common stock is incorporated herein by reference to the information under the caption entitled Security Ownership of Certain Beneficial Owners and Management in our definitive proxy statement (to be filed hereafter) in connection with our 2012 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

Equity Compensation Plan Information. The following table represents those securities authorized for issuance as of January 28, 2012 under our existing equity compensation plans.

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (1) (a)	Weighted average exercise price of outstanding options, warrants and rights (2) (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (3) (c)
	54,875	\$ 32.22	641,201

Equity compensation plans approved by security holders			
Equity compensation plans not approved by security holders			
Total	54,875	\$	32.22 641,201

(1) Includes 3,900 outstanding options issued under the 1999 Allied Fashion Stock Option Plan. This plan was replaced in May 2005 by the Citi Trends, Inc. 2005 Long-Term Incentive Plan (the Incentive Plan), which provides for the issuance of up to 1,300,000 shares of common stock upon the exercise of stock options or as awards of nonvested restricted stock and other performance awards. Also, includes 50,975 outstanding options issued under the Incentive Plan. Does not include 285,609 nonvested restricted stock grants issued under the Incentive Plan.

(2) The weighted average exercise price is for options only and does not include nonvested restricted stock.

(3) Consists of shares available for awards of options, nonvested restricted stock and other performance awards under the Incentive Plan.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this Item is incorporated herein by reference to the information under the captions entitled Certain Relationships and Related Party Transactions and Board of Directors and Committees of the Board of Directors in our definitive proxy statement (to be filed hereafter) in connection with our 2012 Annual Meeting of Stockholders and possibly elsewhere in the proxy statement (or will be filed by amendment to this Report).

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that:

- pertain to maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are made only in accordance with authorizations of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Under the supervision and with the participation of management, including our chief executive officer and chief financial officer, we assessed the effectiveness of our internal control over financial reporting as of January 28, 2012, based on the criteria described in *Internal Control - Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, our management concluded that our internal control over financial reporting was effective based on those criteria as of January 28, 2012.

Our independent registered public accounting firm, KPMG LLP, audited the effectiveness of our internal control over financial reporting as of January 28, 2012, as stated in their report which is included herein.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Citi Trends, Inc.:

We have audited the accompanying consolidated balance sheets of Citi Trends, Inc. and subsidiary (the Company) as of January 28, 2012 and January 29, 2011, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years ended January 28, 2012, January 29, 2011, and January 30, 2010. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Citi Trends, Inc. and subsidiary as of January 28, 2012 and January 29, 2011, and the results of their operations and their cash flows for each of the years ended January 28, 2012, January 29, 2011, and January 30, 2010, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Citi Trends, Inc.'s internal control over financial reporting as of January 28, 2012, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated April 11, 2012 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Citi Trends, Inc.:

We have audited Citi Trends Inc. and subsidiary s (the Company) internal control over financial reporting as of January 28, 2012, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management s Annual Report On Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 28, 2012, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of the Company and subsidiary as of January 28, 2012 and January 29, 2011, and the related consolidated statements of

Edgar Filing: Citi Trends Inc - Form 10-K

operations, stockholders' equity, and cash flows for each of the years in the fiscal years ended January 28, 2012, January 29, 2011, and January 30, 2010, our report dated April 11, 2012, expressed an unqualified opinion on those consolidated financial statements.
