Santiago, Chile, April 16, 2019 –Sociedad Química y Minera de Chile S.A. (SQM) (NYSE: SQM; Santiago Stock Exchange: SQM-B, SQM-A) informs that today the Extraordinary Board of Directors of SQM approved to amend the SQM Board Protocol for the presentation and use of sensitive information:

SQM Board Protocol for the presentation and use of sensitive information

1) Background

On July 26, 2017, the Board of Directors of Sociedad Química y Minera de Chile S.A. (respectively the "Board of a) Directors" and "the Company") approved a list of the main competitors, suppliers and customers of the Company, where Tianqi Lithium Corporation ("Tianqi") was included as a competitor of the Company.

In May 2018, Tianqi and Nutrien Ltd. announced that Tianqi agreed to acquire from Nutrien Ltd. the amount of b) 62,556,568 Series A shares of the Company, which corresponds to approximately 23.77% of the total shares issued by the Company.

On August 27, 2018, Tianqi and the Chilean National Economic Prosecutor Office (the "FNE") signed an out-of-court settlement (the "Agreement"), pursuant to which the FNE sought to implement behavioral measures in order to (i) maintain the competitive conditions of the lithium market, (ii) mitigate the risks described in the c) Agreement and (iii) limit the possibility of accessing certain information related to the Company and its subsidiaries, which is defined as sensitive under the Agreement (the "Sensitive Information")<sup>1</sup> by Tianqi (the "Purpose").

The Antitrust Court (the "TDLC") approved the Agreement by resolution of October 4, 2018, which was finalized on October 30, 2018. In Agreement approval process, the Company expressed its concerns to the TDLC regarding d) the measures described in the Agreement as (i) not effectively resolving the risks that Tianqi and the FNE wanted to mitigate, (ii) not being correctly oriented to avoid the access to Sensitive Information that, could damage the Company and the correct functioning of the market when in the possession of a competitor, and (iii) contradicting Law 18,046 on Corporations (the "Corporations Act") and other regulatory bodies applicable to the Company.

On December 5, 2018, the Company learned that Inversiones TLC SpA, a subsidiary of Tianqi Lithium Corporation, acquired 62,556,568 Series A shares of the Company, representing approximately 23.77% of the total shares issued by the Company (the "Acquisition"). Before the Acquisition, and after the approval of the Agreement e) by the TDLC, the Board of Directors had deemed it necessary to adopt measures aimed at achieving the Purpose, avoiding greater points of contact between the Sensitive Information and Tianqi, in a complementary manner, and not contradictory with the Agreement.

<sup>1</sup> Under the Agreement, "Sensitive Information" is defined as SQM's Commercially Sensitive Information in SQM's Lithium Business, specifically related to its strategic information regarding production quantities, inventory policies, investments, technologies, know how, sales contracts, pricing policies, patents, new exploitation, refining or expansion projects, new businesses, costs and other competitive strategic variables, whether communicated by any means or contained in internal summaries, minutes, presentations, agreements or other documents. In turn, SQM's Lithium Business is defined in the Agreement as present or future business related to the lithium industry, such as the current or future production, processing, marketing and/or distribution of brine, lithium carbonate, hydroxide of lithium and any other lithium compound produced by SQM and / or the companies controlled by said company or on which it exercises a Decisive Influence. Finally, a Decisive Influence is defined in the Agreement as the ability of a person or entity to determine or influence the administration and competitive decisions of another under the terms of letter b) of article 47 of Decree Law No. 211 and in accordance with terms indicated by the FNE in the Competition Guide.

In consideration of the foregoing, on January 23, 2019, the Board of Directors unanimously resolved to adopt, the following protocol on the presentation and use of information in the Board of Directors, in the committees of the Board of Directors and in the Boards of Directors of Company's subsidiaries (the "Protocol"). This information was published with the Commission for Financial Markets (*Comisión para el Mercado Financiero*, "CMF") the same day it was approved.

On March 14th, 2019, the CMF ordered the company to adopt certain measurements to adjust the Protocol to the provisions of the Corporations Act. In particular, and within other matters, the CMF expressed that (i) the restrictions by objective that the Sensitive Information can only be known by the members of the lithium committee do not meet to the established in the subsection 2° of the article 39 of the Corporations Act (ii) that the delegation made by the Board to the lithium committee, in no case, can limit the correct performance of the Board Directors' duties or limit the right to access the information on everything related to the performance of the Company and (iii) that the prior agreement of the Board set forth in the Protocol gives powers to a committee with access to information that would not be available to all Board members, which could result in generating lack of knowledge related to the Company's performance in its administration body and make it impossible to comply with its duties in accordance with the established in the article 41 of the Corporations Act. Likewise, the CMF indicated that the measures must be communicated to it as soon as they are agreed upon by the Board of Directors and prior to the date on which the next ordinary meeting of shareholders takes place.

Considering that it is publicly known that the next Annual General Shareholders' Meeting will be on April 25, 2019, and that at this meeting Tianqi will designate three Board members, the Board met to review the CMF comments, and implement the necessary measures within the required time frame, and approve a new version of the Protocol as indicated below.

The above considers that the current Board has the expectation to review the Protocol again once the new Board has been elected at the next Annual General Shareholders' Meeting when three directors are designated by Tianqi, when the new Board directors will have the opportunity to propose modifications to the Protocol, which are believed to be necessary or adequate for the protection of sensitive information.
