The Company

General

We are a leading global producer of industrial shipping containers with manufacturing facilities located in 41 countries. We offer a comprehensive line of industrial shipping container products, such as steel, fibre and plastic drums, intermediate bulk containers, closure systems for industrial shipping containers, and polycarbonate water bottles, which we complement with a variety of value-added services. Our global presence and full range of products uniquely position this business to offer our customers a single source for their packaging needs and to be responsive to global market changes. We also produce containerboard and value-added corrugated products for niche markets in the United States and Canada. We own timberland in the southeastern United States which we cut and sell to third parties, as well as manage to maximize long-term value. Our customers range from Fortune 500 companies to medium and small-sized companies in a cross section of industries. Our manufacturing facilities are strategically located near many of our customers, reducing transportation costs.

For the twelve months ended July 31, 2002, we had consolidated net sales of $1.64 billion and Adjusted EBITDA (as defined on page 13) of $202.3 million, including the results of our unrestricted timber subsidiary. During this same period, we generated approximately 39% of our consolidated net sales from markets outside North America. For the twelve months ended July 31, 2002, our Industrial Shipping Containers segment represented 77% of consolidated net sales, our Containerboard & Corrugated Products segment represented 20% of consolidated net sales and our Timber segment represented 3% of consolidated net sales.

Industrial Shipping Containers

Our acquisition of Van Leer Industrial Packaging in March 2001 transformed us into a global provider with a full range of industrial shipping container products and services. The successful integration of this business allowed us to realize significant synergies by improving operating efficiencies from the consolidation of facilities and personnel, achieving economies of scale in purchasing, sales and marketing efforts, and enhancing manufacturing flexibility.

Based on our internal estimates, we believe that we have the following market positions for our industrial shipping container products:

Market Position

Product	United States	Global
Steel drums	#1	#1
Fibre drums	#1	#1
Closure systems	#1	#1
Plastic drums	#2	#3
Intermediate bulk containers	#3	#4

We seek to provide complete packaging solutions to our customers by offering a comprehensive range of products and services on a global basis. Our full range of shipping container products and numerous manufacturing facilities uniquely position us to offer our customers a single source for their packaging needs, respond to global market changes, and capitalize on faster growing markets such as Eastern Europe and Asia. With increasing customer demand for container life-cycle management, we also offer packaging services that include cleaning, recycling, disposal, trip leasing, filling, warehousing, outgoing logistics, onsite packaging and vendor management. We sell our products globally to customers in industries such as chemicals, paints and pigments, food and beverage, petroleum, industrial coatings, agricultural, pharmaceutical and mineral, among others.

Our Industrial Shipping Containers segment generated net sales of $1,268.9 million and EBITDA of $123.3 million for the twelve months ended July 31, 2002.

Containerboard & Corrugated Products

We concentrate on providing value-added, higher-margin corrugated products to niche markets complemented by a comprehensive range of packaging services, in comparison to many large paper companies which focus on high-volume, commodity production. We are also a regional producer of containerboard and corrugated sheets. Our highly integrated operations help stabilize the results of this business. In fiscal 2001, our corrugated sheet, multiwall and fibre drum operations, including our CorrChoice, Inc. joint venture, consumed an amount of containerboard equal to approximately 70% of the containerboard tons produced by our two mills. We believe the cost positions of our containerboard mills are among the lowest in North America.

We sell our containerboard, corrugated sheets and other corrugated products and multiwall bags to customers in North America in the packaging, automotive, food, and building products industries, among others. We also have an approximate 63% ownership interest in CorrChoice, Inc., an unconsolidated joint venture which manufactures corrugated sheets. Our corrugated container products are used to ship such diverse products as home appliances, small machinery, grocery products, building products, automotive components and books and furniture. Our industrial and consumer multiwall bags are used to ship a wide range of industrial and consumer products primarily for the agricultural, chemical, building products and food industries.

Our Containerboard & Corrugated Products segment generated net sales of $333.9 million and EBITDA of $53.3 million for the twelve months ended July 31, 2002.

Timber

As of July 31, 2002, we owned approximately 272,500 acres of timberland in the southeastern United States. We manage our timber properties to generate maximum revenue and earnings for the long term. We focus on optimizing our

annual yields by maintaining consistent cutting schedules and enhancing future growth through intensive management and regeneration. Because we believe pine timberland will provide the best long-term sustainable yields, in recent years we have entered into transactions to sell substantially all of our hardwood timberlands and subsequently acquire pine timberlands.

Our Timber segment generated net sales of $39.3 million and EBITDA of $44.2 million for the twelve months ended July 31, 2002. EBITDA, but not net sales, included a $10.1 million gain on timberland sales which occurred during that period. Soterra LLC, our subsidiary that owns and operates our timber business in the United States ("Soterra"), is an unrestricted subsidiary under the indenture governing the notes. See "Risk Factors--The subsidiary that conducts our timber operations in the United States is an unrestricted subsidiary" and "Description of Notes."

Competitive Strengths

Leading Market Position. We are a leading global producer of a comprehensive line of industrial shipping container products. Based on our internal estimates, we believe that we are the largest global and United States producer of steel drums, fibre drums, and closure systems, and we hold leading global and United States market positions in the production of plastic drums and intermediate bulk containers.

Global Presence. We have facilities in 41 countries and generated approximately 39% of our consolidated net sales from markets outside North America for the twelve months ended July 31, 2002. Our global presence provides us with access to faster growing foreign markets; insulates us from economic downturns in any one country or region; enables us to respond to our customers' changing needs; offers us the flexibility to shift resources in response to changes in global or regional conditions; and allows us to effectively service multinational customers. Our size and global reach enable us to realize economies of scale and cost savings by consolidating our purchasing, sales and marketing efforts.

Comprehensive Portfolio of Product Lines. We offer a comprehensive portfolio of product lines in our industrial shipping container segment, which enables us to offer our customers a single source for their packaging needs and to be responsive to global market changes. We have also developed numerous specialty products and applications for our corrugated products customers. Our ability to tailor our products and services to our customers' needs allows us to develop strong, long-term customer relationships and enhances profitability.

Diverse and Multinational Customer Base. We have developed longstanding relationships with prominent customers such as BASF Corporation, Bayer Corporation, BP p.l.c., The Dow Chemical Company, Exxon Mobil Corporation, Imperial Chemical Industries PLC, International Paper Company, Kraft Foods Inc., PPG Industries, Inc., Temple-Inland Inc., Total Fina Elf S.A. and Weyerhaeuser Company. These large multinational corporations represent a range of industries, which we believe creates a strong, stable revenue source for our products and services. Moreover, we do not depend upon any one particular customer, as our ten largest customers accounted for less than 20% of our net sales in fiscal 2001.

Significant Operating Leverage. We believe our existing facilities have sufficient capacity to meet future growth in market demand for our products without significant capital expenditures. We believe we are positioned to profitably capitalize on an increase in demand which would result from an

economic recovery.

Experienced Management Team. We have an experienced management team that has managed our operations during various industry cycles. This experience facilitated the acquisition of Van Leer Industrial Packaging and other recent acquisitions and joint ventures and their successful integration into our existing operations.

Business Strategy

We plan to build on our strengths by continuing to develop products and services that represent comprehensive packaging solutions for our customers. In addition, we intend to enhance our profitability by continuing to rationalize our operations, capitalize on our global resources and focus on high-margin products and services, as well as making targeted acquisitions when the opportunity is presented.

Our business segment strategies are as follows:

Industrial Shipping Containers

- Further extend our product and service offerings
- Leverage our full product line and global resources to serve our multinational customers
- Strategically implement packaging solutions
- Optimize manufacturing operations

Containerboard & Corrugated Products

- Continue to provide distinctive, value-added corrugated packaging and services
- Extend product expertise into specialty product offerings
- Expand sales in multiwall bag business in targeted industry segments
- Maintain cost-effectiveness and reliability of our containerboard mills and corrugated operations

Timber

- Maintain long-term focus on pine timberland
- Grow future value through intensive management and regeneration
- Increase timberland holdings by selling timberland with a higher and better use, or limited management potential, and reinvesting the sale proceeds to acquire additional timberland with a lower cost per acre

Recent Events

On August 23, 2002, we amended and restated our senior credit facility. As amended, the senior credit facility consists of a $250.0 million revolving multicurrency credit facility (the prior revolving credit facility was $150.0 million) maturing in February 2006, and a $300.0 million term loan maturing in August 2009.

The Exchange Offer

The Initial Offering of Notes	On July 31, 2002, we issued in a private placement 8 7/8% Senior Subordinated Notes due 2012 (the "original notes") to the initial purchasers. The initial purchasers subsequently resold the original notes to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act") and to persons outside the United States under Regulation S.
Registration Rights Agreement	Contemporaneously with the initial sale of the original notes, we entered into a registration rights agreement with the initial purchasers in which we agreed, among other things, to file a registration statement with the SEC and to complete an exchange offer as promptly as possible. This exchange offer is intended to satisfy those rights set forth in the registration rights agreement. After the exchange offer is complete, you will not have any further rights under the registration rights agreement, including the right to require us to register any outstanding notes that you do not exchange or to pay you liquidated damages.
The Exchange Offer	We are offering to exchange the $250.0 million aggregate principal amount of 8 7/8% Senior Subordinated Notes due 2012 (the "exchange notes"), which have been registered under the Securities Act, for the same aggregate principal amount of the original notes. The terms of the exchange notes are identical in all material respects to the terms of the original notes for which they are being exchanged. The original notes may be tendered only in $1,000 increments. We will exchange the applicable exchange notes for all original notes that are validly tendered and not withdrawn prior to the expiration of the

exchange offer. We will cause the exchange to be effected promptly after the expiration of the exchange offer.

The new registered exchange notes will evidence the same debt as the old original notes and will be issued under and entitled to the benefits of the same indenture that governs the old original notes. Holders of the original notes do not have any appraisal or dissenter rights in connection with the exchange offer. Because we have registered the exchange notes, the exchange notes will not be subject to transfer restrictions and holders of original notes will have no registration rights.

If You Fail to Exchange Your Outstanding Notes .... If you do not exchange your outstanding notes for exchange notes in the exchange offer, you will continue to be subject to the restrictions on transfer provided in the outstanding original notes and indenture governing those notes. In general, you may not offer or sell your outstanding notes unless they are registered under the federal securities laws or are sold in a transaction exempt

from or not subject to the registration requirements of the federal securities laws and applicable state securities laws.

Procedures for Tendering Notes ...... If you wish to tender your outstanding notes for exchange notes, you must:

. complete and sign the enclosed letter of transmittal by following the related instructions, and

. send the letter of transmittal, as directed in the instructions, together with any other required documents, to the exchange agent either (1) with the outstanding notes to be tendered, or (2) in compliance with the specified procedures for guaranteed delivery of the outstanding notes.

Brokers, dealers, commercial banks, trust companies and other nominees may also effect tenders by book-entry transfer.

Please do not send your letter of transmittal or certificates representing your outstanding notes to us. Those

documents should be sent only to the exchange agent. Questions regarding how to tender and requests for information should be directed to the exchange agent. See "The Exchange Offer - Exchange Agent."

Resale of the Exchange Notes .... Except as provided below, we believe that the exchange notes may be offered for resale, resold and otherwise transferred by you without compliance with the registration and prospectus delivery provisions of the Securities Act provided that:

- the exchange notes are being acquired in the ordinary course of business,
- you are not participating, do not intend to participate, and have no arrangement or understanding with any person to participate in the distribution of the exchange notes issued to you in the exchange offer,
- you are not an affiliate of ours,
- you are not a broker-dealer tendering outstanding notes acquired directly from us for your account, and
- you are not prohibited by law or any policy of the SEC from participating in the exchange offer.

Our belief is based on interpretations by the Staff of the SEC, as set forth in no-action letters issued to third parties unrelated to us. The Staff has not considered this exchange offer in the context of a no-action letter, and we cannot assure you that the Staff would make similar determinations with respect to this exchange offer. If any of these conditions are not satisfied (or if our belief is not accurate) and you transfer any exchange notes issued to you in the exchange offer without delivering a resale prospectus meeting the requirements of the Securities Act or without an exemption from registration of your exchange notes from those requirements, you may incur liability under the Securities Act. We will not assume, nor will we indemnify you against, any such liability.

Each broker-dealer that receives exchange notes for its own account in exchange for original notes, where the original notes were acquired by such broker-dealer as a result of market-making or other trading activities, must acknowledge that it will deliver a prospectus in connection with

	any resale of such exchange notes. See "Plan of Distribution."
Record Date	We mailed this prospectus and the related offer documents to the registered holders of the original notes on ___________, 2002.
Expiration Date	The exchange offer will expire at 5:00 p.m., New York City time, on

	_________________, 2002, unless we decide to extend the expiration date; provided, however, that the latest time and date to which the exchange offer may be extended is at 5:00 p.m., New York City time, on ________, 2002.
Conditions to the Exchange Offer	The exchange offer is subject to customary conditions, including that the exchange offer not violate applicable law or any applicable interpretation of the staff of the SEC. This exchange offer is not conditioned upon any minimum principal amount of the outstanding notes being tendered.
Exchange Agent	J.P. Morgan Trust Company, National Association, is serving as exchange agent for the exchange offer.
Special Procedures for Beneficial Owners	If your outstanding notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee, we urge you to contact that person promptly if you wish to tender your outstanding notes pursuant to this exchange offer. See "The Exchange Offer - Procedures for Tendering."
Withdrawal Rights	You may withdraw the tender of your outstanding notes at any time before the expiration date of the exchange offer by delivering a written notice of your withdrawal to the exchange agent. You must follow the withdrawal procedures as described under the heading "The Exchange Offer - Withdrawal of Tenders."
Federal Income Tax Considerations ...	The exchange of outstanding notes for the exchange notes in the exchange offer should not be a taxable event for U.S. federal income tax purposes.
Use of Proceeds	We will not receive any proceeds from the issuance of the exchange notes pursuant to the exchange offer. We will pay all of our

expenses incident to the exchange offer.

The Exchange Notes

The form and terms of the exchange notes are the same as the form and terms of the original notes for which they are being exchanged, except that the exchange notes will be registered under the Securities Act. As a result, the exchange notes will not bear legends restricting their transfer and will not have the benefit of the registration rights and liquidated damage provisions contained in the original notes. The exchange notes represent the same debt as the original notes for which they are being exchanged. Both the original notes and the exchange notes are governed by the same indenture. We use the term "notes" in this prospectus to collectively refer to the original notes and the exchange notes.

Issuer .... Greif Bros. Corporation

Notes Offered .... $250.0 million aggregate principal amount of 8 7/8% Senior Subordinated Notes due 2012.

Maturity .... August 1, 2012.

Interest Payment Dates .... February 1 and August 1 of each year, beginning on February 1, 2003.

Ranking .... The notes will be:

- our senior subordinated, unsecured obligations;
- subordinate in right of payment to all of our existing and future senior debt;
- pari passu in right of payment with all of our existing and future senior subordinated debt; and
- senior in right of payment to all of our future subordinated obligations.

As of July 31, 2002, after giving effect to the amended and restated senior credit facility, the notes would have been subordinated to $403.5 million of senior debt and the related guarantees of the senior subordinated guarantors would have been subordinated to the same amount of senior debt. In addition, $129.5 million of additional senior debt would have been available for borrowing under our amended and restated senior credit facility. The indenture governing the notes and our senior credit facility also permit us, subject to specified limitations, to incur additional debt, some or all of which may be senior debt.

Guarantees	The notes will be fully guaranteed on a senior subordinated, unsecured basis, jointly and severally, by all of our domestic subsidiaries. The guarantees will be: . subordinate in right of payment to all of the existing and future senior debt of the guarantors; . pari passu in right of payment with all of the existing and future senior subordinated debt of the guarantors; and . senior in right of payment to all of the existing and future subordinated obligations of the guarantors. While Soterra, the subsidiary that owns and operates our timber business in the United States, will guarantee the notes, it is an unrestricted subsidiary under the indenture governing the notes. See "Risk Factors--The subsidiary that conducts our timber operations in the United States is an unrestricted subsidiary."
Optional Redemption	Prior to August 1, 2007, we may redeem all or part of the notes by paying a "make-whole" premium based on U.S. Treasury rates as specified in this prospectus under "Description of the Notes--Optional Redemption." At any time on or after August 1, 2007, we may redeem all or a part of the notes at the redemption prices specified in this prospectus under "Description of the Notes--Optional Redemption." At any time prior to August 1, 2005, we may redeem up to 35% of the notes with the net proceeds of certain equity offerings, at a price equal to 108.875% of the principal amount thereof, plus accrued and unpaid interest, if any, to the redemption date, provided that at least 65% of the aggregate principal amount of the notes remains outstanding after the redemption.
Certain Covenants	We will issue the notes under an indenture among us, the guarantors and J.P. Morgan Trust Company, National Association, as trustee. The indenture will include covenants that limit our ability and the ability of our restricted subsidiaries to: . incur additional indebtedness;

- pay dividends or make other restricted payments;
- create or permit certain liens;
- sell assets;
- create or permit restrictions on the ability of our restricted subsidiaries to pay dividends or make other distributions to us;
- engage in transactions with affiliates;
- incur layered indebtedness; and
- consolidate or merge with or into other companies or sell all or substantially all of our assets.

-10-

Soterra is an unrestricted subsidiary under the indenture governing the notes and, therefore, will not be subject to the foregoing restrictions. See "Risk Factors--The subsidiary that conducts our timber operations in the United States is an unrestricted subsidiary."

The covenants in the indenture are subject to a number of important exceptions and qualifications.

Change of Control .... Following a change of control, we will be required to make an offer to purchase all of the notes at a purchase price of 101% of their principal amount, plus accrued and unpaid interest to the date of the repurchase. However, our ability to repurchase your notes upon a change in control may be limited by the terms of our senior credit facility.

(1) Assumes that the Van Leer Industrial Packaging acquisition had occurred on November 1, 2000. The pro forma information, as presented above, is not necessarily indicative of the results which would have been obtained had the transaction occurred on November 1, 2000, nor are they necessarily indicative of our future results. See "Unaudited Pro Forma Condensed Combined Financial Data" contained elsewhere in this prospectus.

(2) Other income, net, primarily includes gain (loss) on sale of facilities, foreign exchange gain (loss) and rental income.

(3) In the second quarter of 2001, we recorded a restructuring charge related to the consolidation of certain duplicate facilities caused by the Van Leer Industrial Packaging acquisition and to improve operating efficiencies and capabilities. In addition, certain redundant administrative functions were eliminated.

(4) EBITDA is defined as earnings before interest, income taxes, depreciation, depletion, amortization, minority interest in income of consolidated subsidiaries, equity in earnings of affiliates and debt extinguishment charge. EBITDA is included in this table because it is a basis on which we assess our financial performance and debt service capabilities. However, EBITDA should not be considered in isolation or viewed as a substitute for cash flow from operations, net income or other measures of performance as defined by accounting principles generally accepted in the United States or as a measure of our

company's profitability or liquidity. While EBITDA is frequently used by securities analysts, lenders and others in their evaluation of companies, EBITDA as used herein is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation. For information regarding EBITDA by business segment, see "Management's Discussion and Analysis of Financial Condition and Results of Operations--Results of Operations."

(5) Excluding the operations of Soterra, which is an unrestricted subsidiary under the indenture governing the notes, EBITDA would have been $157.5 million for the twelve months ended July 31, 2002. See "Risk Factors--The subsidiary that conducts our timber operations in the United States is an unrestricted subsidiary."

(6) Adjusted EBITDA excludes gain on sale of timberland, restructuring charges, and additional non-recurring costs related to the relocation of machinery, employees and other reorganization costs associated with the integration of the Van Leer Industrial Packaging acquisition, as follows:

RISK FACTORS

Prospective participants in the exchange offer should carefully consider all of the information contained in this prospectus, including the risks and uncertainties described below. The risk factors set forth below (with the exception of the first risk factor) are generally applicable to the original notes as well as the exchange notes.

Risk Factors Associated with the Exchange Offer

If you fail to follow the exchange offer procedures, your notes will not be accepted for exchange.

We will not accept your notes for exchange if you do not follow the exchange offer procedures. We will issue exchange notes as part of this exchange offer only after timely receipt of your original notes, properly completed and duly executed letter of transmittal and all other required documents. Therefore, if you want to tender your original notes, please allow sufficient time to ensure timely delivery. If we do not receive your original notes, letter of transmittal, and all other required documents by the expiration date of the exchange offer, or you do not otherwise comply with the guaranteed delivery procedures for tendering your notes, we will not accept your outstanding notes for exchange. We are under no duty to give notification of defects or irregularities with respect to the tenders of outstanding notes for exchange. If there are defects or irregularities with respect to your tender of outstanding notes, we will not accept your outstanding notes for exchange unless we decide in our sole discretion to waive such defects or irregularities.

If you fail to exchange your original notes for exchange notes, they will continue to be subject to the existing transfer restrictions and you may not be able to sell them.

We did not register the original notes, nor do we intend to do so following the exchange offer. Original notes that are not tendered will therefore continue to be subject to the existing transfer restrictions and may be transferred only in limited circumstances under the securities laws. As a result, if you hold original notes after the exchange offer, you may not be able to sell them. To the extent any original notes are tendered and accepted in the exchange offer, the trading market, if any, for the original notes that remain outstanding after the exchange offer may be adversely affected due to a reduction in market liquidity.

Because there is no public market for the exchange notes, you may not be able to resell them.

The exchange notes will be registered under the Securities Act but will constitute a new issue of securities with no established trading market, and there can be no assurance as to the liquidity of any trading market that may develop; the ability of holders to sell their exchange notes; or the price at which the holders will be able to sell their exchange notes.

We understand that certain of the initial purchasers presently intend to make a market in the exchange notes. However, they are not obligated to do so, and any market-making activity with respect to the exchange notes may be discontinued at any time without notice. In addition, any market-making activity will be subject to the limits imposed by the Securities Act and the Securities Exchange Act of 1934 and may be limited during the exchange offer or the pendency of an applicable shelf registration statement. There can be no assurance that an active market will exist for the exchange notes or that any trading market that does develop will be liquid.

Risk Factors Related to Investment in the Exchange Notes

Our substantial debt could adversely affect our financial condition and prevent us from fulfilling our obligations under the exchange notes. This debt could also adversely affect our operating flexibility and put us at a competitive disadvantage.

We have a substantial amount of debt. As of July 31, 2002, on a pro forma basis, after giving effect to the amended and restated senior credit facility, we would have had approximately $676.9 million of indebtedness.

Our substantial level of debt could have important consequences to you. These consequences may include:

- making it more difficult for us to satisfy our obligations with respect to the notes and our other debt;
- making it more difficult for us to obtain additional financing for working capital, capital expenditures, strategic acquisitions or other general corporate purposes;
- requiring a substantial portion of our cash flow to be dedicated to debt service payments instead of other purposes;
- increasing our vulnerability to general adverse economic and industry conditions;
- limiting our financial flexibility in planning for and reacting to changes in the industries in which we compete;
- placing us at a disadvantage compared to less leveraged competitors;
- exposing us to interest rate fluctuations because the interest on the debt under our amended and restated senior credit facility will be at variable rates; and
- having a material adverse affect on us if we fail to comply with the covenants in the indenture governing the notes or in the instruments governing our other debt.

We may not be able to generate a sufficient amount of cash flow to meet our debt service obligations, including the notes.

Our ability to make scheduled payments or to refinance our obligations with respect to the notes and our other debt will depend on our financial and operating performance, which, in turn, is subject to prevailing economic conditions and to certain financial, business and other factors beyond our control. If our cash flow and capital resources are insufficient to fund our

debt service obligations, we could face substantial liquidity problems and may be forced to reduce or delay scheduled expansions and capital expenditures, sell material assets or operations, obtain additional capital or restructure our debt. We cannot assure you that our operating performance, cash flow and capital resources will be sufficient for payment of our debt in the future. In the event that we are required to dispose of material assets or operations or restructure our debt to meet our debt service and other obligations, we cannot assure you as to the terms of any such transaction or how quickly any such transaction could be completed.

If we cannot make scheduled payments on our debt, we will be in default and, as a result:

- our debt holders could declare all outstanding principal and interest to be due and payable;
- our senior secured debt lenders could terminate their commitments and commence foreclosure proceedings against our assets; and
- we could be forced into bankruptcy or liquidation.

If our operating performance declines in the future, we may need to obtain waivers from the required lenders under our senior credit facility to avoid being in default. If we breach our covenants under the senior credit facility and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under the senior credit facility and the lenders could exercise their rights, as described above, and we could be forced into bankruptcy or liquidation. See "Description of Senior Credit Facility" and "Description of Notes."

Our operations are substantially restricted by the terms of our debt, which could adversely affect us and increase your credit risk.

The indenture governing the notes and our senior credit facility include a number of significant restrictive covenants. These covenants restrict, among other things, our ability to:

- incur additional indebtedness;
- pay dividends or make other restricted payments;
- create or permit certain liens;
- sell assets;
- create or permit restrictions on the ability of our restricted subsidiaries to pay dividends or make other distributions to us;
- engage in transactions with affiliates;
- incur layered indebtedness; and
- consolidate or merge with or into other companies or sell all or substantially all of our assets.

As a result, these covenants could limit our ability to plan for or react to market conditions or to meet our capital needs.

In addition, our senior credit facility requires us to maintain certain financial ratios and meet other financial tests. Our failure to comply with these covenants could result in an event of default which, if not cured or waived, could result in lenders not being required to advance any more funds to us, as well as our being required to repay the borrowings under our senior credit facility before their due date. If we were unable to make this repayment

or otherwise refinance these borrowings, the lenders under our senior credit facility could foreclose on our assets. If we were able to refinance these borrowings on less favorable terms, our results of operations and financial condition could be adversely affected by increased costs and rates.

Despite our debt levels, we may incur additional debt.

Despite the restrictions and limitations described above, we may be able to incur significant additional indebtedness. Our amended and restated senior credit facility and the indenture governing the notes permit additional borrowings under certain circumstances. See "Description of Senior Credit Facility" and "Description of Notes." As of July 31, 2002, on a pro forma basis, after giving effect to the amended and restated senior credit facility, we would have had approximately $129.5 million of additional borrowings available to us under the senior credit facility, subject to compliance with our financial and other covenants under the terms of our loan agreements.

The notes and guarantees will rank behind all of our and our guarantors' existing and future senior indebtedness. There may not be sufficient assets to make full payment on the notes after all senior indebtedness is paid.

The notes and the guarantees will be subordinated to the prior payment in full of our and the guarantors' existing and future senior indebtedness and equal in right of payment of all other existing and future senior subordinated indebtedness. As of July 31, 2002, on a pro forma basis, after giving effect to the amended and restated senior credit facility, we would have had $403.5 million of senior indebtedness and the guarantors would have had the same amount of senior indebtedness. All of the senior indebtedness of the guarantors will consist of their respective guarantees of senior indebtedness under the senior credit facility. Our and the guarantors' obligations under the notes are unsecured, while our and the guarantors' obligations under the senior credit facility are secured. Because of the subordination provisions of the notes, in the event of bankruptcy, liquidation or dissolution of our company or any guarantor, our assets or the assets of the guarantors would be available to pay obligations under the notes only after all payments have been made on our or the guarantor's senior indebtedness. We cannot assure you that sufficient assets will remain after all such payments have been made to make any payments on the notes. In addition, certain events of default under our senior indebtedness would prohibit us from making any payments on the notes, including payments of interest when due. The term "senior debt" is defined in the "Description of Notes-- Certain Definitions" section of this prospectus.

The subsidiary that conducts our timber operations in the United States is an unrestricted subsidiary.

Soterra, the subsidiary that owns and manages our timber operations in the United States, is an unrestricted subsidiary under the indenture governing the notes. For the twelve months ended July 31, 2002, Soterra generated net sales of $39.3 million and EBITDA of $44.2 million (EBITDA, but not net sales, included a $10.1 million gain on timberland sales which occurred during that period).

As an unrestricted subsidiary, Soterra will not be subject to the restrictive covenants in the indenture governing the notes and at any time will have the ability to, among other things, dispose of its assets or incur additional indebtedness, including secured and layered indebtedness. In the event that Soterra takes any of these actions, the holders of Soterra's indebtedness or liens will be entitled to payment on their claims from the assets of Soterra before any of those assets are made available to us, and we

cannot assure you that any assets of Soterra will be available to us. We will also have the ability to dispose of our ownership interest in Soterra, including by way of dividends or distributions to our stockholders whereupon Soterra's guarantee of the notes would be released, and we cannot assure you that there will be any proceeds from a disposition of our ownership interest in Soterra.

Not all of our subsidiaries will guarantee the notes, and assets of our non-guarantor subsidiaries may not be available to make payments on the notes.

None of our foreign subsidiaries will guarantee the notes. These entities generate a significant portion of our consolidated revenues and cashflow. In the event that any non-guarantor subsidiary becomes insolvent, liquidates, reorganizes, dissolves or otherwise winds up, holders of its indebtedness and its trade creditors will generally be entitled to payment on their claims from the assets of that subsidiary before any of those assets are made available to us. Consequently, your claims in respect of the notes will be effectively subordinated to all of the liabilities of our non-guarantor subsidiaries. If we enter into an asset securitization transaction in the future, the securitization subsidiary used in the transaction will not be a guarantor of the notes.

For information concerning the assets and results of operations of guarantor and non-guarantor subsidiaries, see Note 16 of the Notes to the Consolidated Financial Statements for the Years Ended October 31, 2001, 2000 and 1999 and Note 14 of the Notes to the Consolidated Interim Financial Statements for the Nine Months Ended July 31, 2002 and 2001 included elsewhere in the prospectus.

Our ability to meet our obligations under our indebtedness depends on the earnings and cash flows of our subsidiaries and the ability of our subsidiaries to pay dividends or advance or repay funds to us.

We conduct a significant portion of our operations through our subsidiaries. Consequently, our ability to service our debt and pay dividends is dependent, in part, upon the earnings from the businesses conducted by our subsidiaries. Our subsidiaries are separate and distinct legal entities and have no obligation to pay any amounts to us, whether by dividends, loans, advances or other payments. Additionally, some of our subsidiaries are not wholly-owned by us, and thus, may not be subject to our control. The ability of our subsidiaries to pay dividends and make other payments to us depends on their earnings, capital requirements and general financial conditions and is restricted by, among other things, applicable corporate and other laws and regulations as well as, in the future, agreements to which our subsidiaries may be a party.

A court may void the guarantees of the notes or subordinate the guarantees to other obligations of our subsidiary guarantors.

Although standards may vary depending upon the applicable law, generally under U.S. federal bankruptcy law and comparable provisions of state fraudulent transfer laws, a court could void all or a portion of the guarantees of the notes or subordinate the guarantees to other obligations of our subsidiary guarantors. If the claims of the holders of the notes against any guarantor were held to be subordinated in favor of other creditors of that guarantor, the other creditors would be entitled to be paid in full before any payment could be made on the notes. If one or more of the

guarantees is voided or subordinated, we cannot assure you that after providing for all prior claims, there would be sufficient assets remaining to satisfy the claims of the holders of the notes.

We may not have sufficient funds or be permitted by our senior credit facility to purchase notes upon a change of control.

Upon a change of control, we will be required to make an offer to purchase all outstanding notes. However, we cannot assure you that we will have or will be able to borrow sufficient funds at the time of any change of control to make any required repurchases of notes, or that restrictions in our senior credit facility or other senior secured indebtedness we may incur in the future would permit us to make the required repurchases. For the foreseeable future, the covenants in our amended and restated senior credit facility will not permit us to make the required repurchases.

Risk Factors Related to Our Business

Our business is sensitive to general economic conditions. The cyclicality of our customers' industries could negatively impact our sales volume and revenues and our ability to respond to competition or take advantage of business opportunities.

Our revenues are derived from many customers in industries and businesses that are cyclical in nature and subject to changes in general economic conditions, which can cause our operating results to reflect this general cyclical pattern. In addition, because we conduct our operations in a variety of markets, we are subject to economic conditions in each of these markets. Accordingly, general economic downturns or localized downturns in markets where we have operations could have a material adverse effect on us and our business, results of operations and financial condition.

The majority of our products are commodities. Some of the industries in which we compete have had substantial overcapacity for several years. In addition, the industries in which we compete are capital intensive, which leads to high fixed costs and generally results in continued production as long as prices are sufficient to cover marginal costs. Historically, these conditions have contributed to substantial price competition and volatility in our industries. In the event of a recession, demand and prices are likely to drop substantially. Increased production by our competitors will also depress prices for our products.

Our sales and profitability have historically been more sensitive to price changes than changes in volume. Future decreases in prices for our products would adversely affect our operating results. These factors, coupled with our highly leveraged financial position, may adversely impact our ability to respond to competition and to other market conditions or to otherwise take advantage of business opportunities.

Our industries are highly competitive and price fluctuations could diminish our sales volume and revenues.

The industrial shipping containers and containerboard and corrugated products industries are highly competitive. Our competitors include large, vertically integrated industrial shipping containers and containerboard and corrugated products companies and numerous smaller companies. Because the majority of our products are commodities, the industries in which we compete are particularly sensitive to price fluctuations, as well as other factors including innovation, design, quality and service, with varying emphasis on these factors depending on the product line. To the extent that one or more of our competitors become more successful with respect to any key competitive factor, we could lose customers and our sales could decline. In addition, due to the tendency of certain customers to diversify their suppliers, we could be unable to increase or maintain sales volumes with particular customers.

Many of our competitors are less leveraged and have financial and other resources greater than ours and are able to better withstand adverse business cycles. If our facilities and processes are not as cost effective as those of

our competitors, we may need to temporarily or permanently close such facilities and suffer a consequent reduction in our revenues.

The continuing consolidation of our customer base for our containerboard and corrugated products may intensify pricing pressures and have a material adverse effect on operations.

Over the last few years, many of our large customers for our containerboard and corrugated products have acquired companies with similar or complementary product lines. This consolidation has increased the concentration of this segment of our business with our largest customers. In many cases, this consolidation has been accompanied by pressure from customers for lower prices, reflecting the increase in the total volume of product purchased or the elimination of a price differential between the acquiring customer and the company acquired. Increased pricing pressures from our customers may have a material adverse effect on our profitability and results of operations.

Our foreign operations are subject to currency exchange, political, investment and other risks that could hinder us from making our debt service payments, increase our operating costs and adversely affect our results of operations.

We have operations in 41 countries. For the twelve months ended July 31, 2002, consolidated net sales from operations outside North America were approximately $635.7 million, which represented approximately 39% of our consolidated net sales. As a result of our foreign operations, we are subject to certain risks which could disrupt our operations or force us to incur unanticipated costs and have an adverse effect on our ability to make payments on our debt obligations, including our ability to make payments on the notes. Our operating performance is affected by devaluations and fluctuations in currency exchange rates by:

- translations into U.S. dollars for financial reporting purposes of the assets and liabilities of our foreign operations conducted in local currencies; and
- gains or losses from foreign operations conducted in currencies other than their functional currency.

We are subject to various other risks associated with operating in foreign countries, such as the following:

- political, social and economic instability;
- war, civil disturbance or acts of terrorism;
- taking of property by nationalization or expropriation without fair compensation;
- changes in government policies and regulations;
- imposition of limitations on conversions of foreign currencies into dollars or remittance of dividends and other payments by foreign subsidiaries.
- imposition or increase of withholding and other taxes on remittances and other payments by foreign subsidiaries;
- hyperinflation in certain foreign countries; and
- impositions or increase of investment and other restrictions or requirements by foreign governments.

Price fluctuations in raw materials and energy costs could adversely affect our ability to obtain the materials needed to manufacture our products and could adversely affect our manufacturing costs.

The principal raw materials used in the manufacture of our products are steel, resins, pulpwood, waste paper for recycling, and paper, which we purchase in highly competitive, price sensitive markets. These raw materials have historically exhibited price and demand cyclicality. Some of these materials have been, and in the future may be, in short supply. While we have not recently experienced any significant difficulty in obtaining our principal raw materials, we cannot assure you that this will continue to be the case in the future for any or all of our mills. We do not have long-term supply contracts or hedging arrangements in place for obtaining our principal raw materials.

The cost of producing our products is sensitive to the price of energy. Energy prices, in particular oil and natural gas, have increased significantly over the past year, with a corresponding effect on our production costs. We cannot assure you that energy prices will not remain at current rates or rise to even higher levels, or that our production costs, competitive position and results of operations will not be adversely affected thereby.

We are subject to environmental regulations and liabilities that could weaken our operating results.

Complying with existing and future environmental laws and regulations, particularly those relating to air and water quality, is a significant factor in our business and could impose material costs and liabilities on us. Our operations are subject to extensive federal, state, local and foreign laws, regulations, rules and ordinances relating to pollution, the protection of the environment, the generation, storage, handling, transportation, treatment, disposal and remediation of hazardous substances and waste materials and numerous other environmental laws and regulations. In the ordinary course of business, we are subject to periodic environmental inspections and monitoring by governmental enforcement authorities. In addition, our production facilities require environmental permits that are subject to revocation, modification and renewal.

We have incurred, and in the future may face, environmental liability for the costs of remediating soil or groundwater that is or was contaminated by us or a third party at various sites which are now or were previously owned or operated by us. There also may be similar liability at sites with respect to which either we have received, or in the future may receive, notice that we may be a potentially responsible party and which are the subject to cleanup activity under the Comprehensive Environmental Response, Compensation and Liability Act, analogous state laws and other laws concerning hazardous substance contamination. We have incurred in the past, and may incur in the future, civil and criminal fines and sanctions relating to environmental matters, including violations of environmental permits.

In the past we have made, and in the future may need to make, significant expenditures to comply with environmental laws and regulations. We have reserves based on current information to address environmental liabilities. However, we could incur additional significant expenditures due to changes in law or discovery of new information, and those expenditures could have a material adverse effect on our financial condition. The ultimate costs under environmental laws and the timing of such costs are difficult to predict and potentially significant expenditures could be required in order to comply with environmental laws that may be adopted or imposed in the future.

Our business may be adversely impacted by work stoppages and other labor relations matters.

We are subject to risk of work stoppages and other labor relations matters because approximately 58% of our domestic employees are represented by collective bargaining units. We have experienced work stoppages and strikes in the past, and there may be work stoppages and strikes in the future. Any prolonged work stoppage or strike at any one of our principal manufacturing facilities could have a negative impact on our business, financial condition or results of operations.

Various Dempsey family members and trusts own a significant interest in us and may exercise their control in a manner detrimental to your interests.

Various members of the Dempsey family and their trusts currently control approximately 66% of the voting power of our company. Therefore, the Dempsey family has the power to direct our affairs and is able to determine the outcome of substantially all matters required to be submitted to stockholders for approval, including the election of all our directors. In addition, Naomi C. Dempsey and Michael H. Dempsey, members of the Dempsey family, are directors of our company. We cannot assure you that members of the Dempsey family will not exercise their control over us in a manner detrimental to your interests.

We may incur material product liability costs.

We are subject to the risk of exposure to product liability claims in the event that the failure of any of our products results in personal injury or death, and we cannot assure you that we will not experience material product liability losses in the future. We maintain insurance against product liability claims, but we cannot assure you that such coverage will be adequate for liabilities ultimately incurred or that, due to escalating costs, it will continue to be available on terms acceptable to us. A successful claim brought against us that exceeds available insurance coverage could have a negative impact on our business, financial condition or results of operations.

We may encounter difficulties arising from acquisitions or consolidation efforts.

During the past several years, we have invested, and in the future we may invest, a substantial amount of capital in acquisitions. Acquisitions involve numerous risks, including:

- difficulty in assimilating the operations and personnel of the acquired company with our existing operations and realizing anticipated synergies;
- the loss of key employees of the acquired company;
- difficulty in maintaining uniform standards, controls, procedures and policies; and
- unrecorded liabilities of acquired companies that we failed to discover during our due diligence investigations.

We cannot assure you that we will realize the expected benefits from future acquisitions or that our existing operations will not be harmed as a result of any such acquisitions. In addition, the cost of unsuccessful acquisition efforts could adversely affect our financial performance.

We have undertaken consolidation efforts in the past in connection with our

acquisitions, and in connection with future acquisitions, we may need to undertake consolidation plans to eliminate duplicate facilities and to otherwise improve operating efficiencies. These future consolidation efforts may divert the attention of management, disrupt our ordinary operations or those of our subsidiaries or otherwise adversely affect our financial performance.

We may be subject to losses that might not be covered in whole or in part by existing insurance coverage. These uninsured losses could aversely affect our business, financial condition and results of operations.

We carry comprehensive liability, fire and extended coverage insurance on most of our facilities, with policy specifications and insured limits customarily carried for similar properties. However, there are certain types of losses, such as losses resulting from wars, acts of terrorism, or natural disasters, that generally are not insured because they are either uninsurable or not economically insurable. Should an uninsured loss or a loss in excess of insured limits occur, we could lose capital invested in that property, as well as the anticipated future revenues derived from the manufacturing activities conducted at that property, while remaining obligated for any mortgage indebtedness or other financial obligations related to the property. Any such loss would adversely impact our business, financial condition and results of operations.

We are dependent on key personnel.

Our continued success will depend largely on the efforts and abilities of our executive officers and certain other key employees, some of whom have employment agreements with us. If, for any reason, these officers or key employees do not remain with us, our operations could be adversely affected until suitable replacements with appropriate experience can be found.

The frequency and volume of our timber and timberland sales will impact our financial performance.

We have a significant inventory of standing timber and timberlands. The decisions we make concerning the frequency and volume of sales of timber and timberlands will impact our financial performance.

USE OF PROCEEDS

The exchange offer is intended to satisfy our obligations under the Registration Rights Agreement that we entered into in connection with the private offering of the original notes. We will not receive any cash proceeds from the issuance of the exchange notes. The original notes that are surrendered in exchange for the exchange notes will be retired and cancelled and cannot be reissued. As a result, the issuance of the exchange notes will not result in any increase or decrease in our indebtedness.

Our net proceeds from the private offering of the original notes, after deducting initial purchaser discounts and our expenses, were approximately $242.0 million. We used the proceeds from the private offering of the original notes to repay borrowings under our senior credit facility. As of July 31, 2002, our senior credit facility consisted of a $31.5 million outstanding U.S. Dollar Term Loan A, a $47.7 million outstanding Euro Term Loan A, a $293.3 million

outstanding U.S. Dollar Term Loan B, and a $150 million revolving multicurrency credit facility, with $27.0 million outstanding, all of which accrued interest at either a LIBOR rate or an alternative base rate plus a calculated margin amount and reset on a periodic basis. On August 23, 2002, we amended and restated our senior credit facility. As amended, the senior credit facility consists of a $250.0 million revolving multicurrency credit facility maturing in February 2006, and a $300.0 million term loan maturing in August 2009.

CAPITALIZATION

The following table sets forth our unaudited historical capitalization as of July 31, 2002, which includes the effect of the offering of the original notes, and our unaudited pro forma capitalization as of such date after giving effect to the amended and restated senior credit facility. You should read this table in conjunction with the consolidated financial statements and the notes thereto and other financial data included elsewhere in this prospectus. SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA

In the following table, we have provided the selected historical consolidated financial data for each of the five years in the period ended October 31, 2001, which are derived from our audited consolidated financial statements. The following table also sets forth the selected consolidated financial data for the nine-month periods ended July 31, 2002 and 2001, which are derived from our unaudited consolidated financial statements. The unaudited financial statements include all adjustments, consisting of normal recurring accruals which we consider necessary for a fair presentation of the financial position and the results of operations for these periods. The operating results for the nine months ended July 31, 2002 are not necessarily indicative of the results that may be expected for the entire year ending October 31, 2002. You should read the consolidated financial data below in conjunction with the consolidated financial statements and related notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations," contained elsewhere in this prospectus. The results of the operations of Van Leer Industrial Packaging are included in our consolidated financial statements from March 2, 2001, the date of acquisition, and thereby are included for five months of the nine months ended July 31, 2001, for eight months of the fiscal year ended October 31, 2001, for the entire period of the nine months ended July 31, 2002, and for the entire period of the twelve months ended July 31, 2002, but are not otherwise included in the consolidated financial statements for any other period. See also "Unaudited Pro Forma Condensed Combined Financial Data" contained elsewhere in this prospectus for the pro forma effects of the Van Leer Industrial Packaging acquisition as if that transaction had occurred as of November 1, 2000.

(1) Other income, net, primarily includes gain (loss) on sale of facilities, foreign exchange gain (loss) and rental income.

(2) In the second quarter of 2001, we recorded a restructuring charge related to the consolidation of certain duplicate facilities caused by the Van Leer Industrial Packaging acquisition and to improve operating efficiencies and capabilities. In addition, certain redundant administrative functions were eliminated. A similar restructuring plan was undertaken in relation to our acquisition of the industrial container division of Sonoco Products Company in 1998, and there was a restructuring charge related to the consolidation of certain administrative facilities in 1997.

(3) EBITDA is defined as earnings before interest, income taxes, depreciation, depletion, amortization, minority interest in income of consolidated subsidiaries, equity in earnings of affiliates and debt extinguishment charge. EBITDA is included in this table because it is a basis on which we assess our financial performance and debt service capabilities. However, EBITDA should not be considered in isolation or viewed as a substitute for cash flow from operations, net income or other measures of performance as defined by accounting principles generally accepted in the United States or as a measure of our company's profitability or liquidity. While EBITDA is frequently used by securities analysts, lenders and others in their evaluation of companies, EBITDA as used herein is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation. For information regarding EBITDA by business segment, see "Management's Discussion and Analysis of Financial Condition and Results of Operations--Results of Operations."

(4) Adjusted EBITDA excludes gain on sale of timberland, restructuring charges, and additional non-recurring costs related to the relocation of machinery, employees and other reorganization costs associated with the integration of the Van Leer Industrial Packaging acquisition, as follows:

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The purpose of this section is to discuss and analyze our consolidated financial condition, liquidity and capital resources and results of operations. This analysis should be read in conjunction with the consolidated financial statements and notes which appear elsewhere in this prospectus. This section contains certain "forward-looking statements" within the meaning of federal securities laws that involve risks and uncertainties, including statements regarding our plans, objectives, goals, strategies and financial performance. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of factors set forth under "Disclosure Regarding Forward-Looking Statements" and "Risk Factors" and elsewhere in this prospectus. Our fiscal year begins on November 1 and ends on October 31 of the following year. Any references in this prospectus to the years 2002, 2001, 2000 or 1999, or to any quarter of those years relates to the fiscal year ending in that year.

General

Business Segments

We operate in three business segments: Industrial Shipping Containers; Containerboard & Corrugated Products; and Timber.

We are a leading global provider of industrial shipping container products such as steel, fibre and plastic drums, intermediate bulk containers ("IBCs"), closure systems for industrial shipping containers, and polycarbonate water bottles. We seek to provide complete packaging solutions to our customers by offering a comprehensive range of products and services on a global basis. We sell our products to customers in industries such as chemicals, paints and

pigments, food and beverage, petroleum, industrial coatings, agricultural, pharmaceutical and mineral, among others.

We sell our containerboard, corrugated sheets and other corrugated products and multiwall bags to customers in North America in industries such as packaging, automotive, food, and building products. Our corrugated container products are used to ship such diverse products as home appliances, small machinery, grocery products, building products, automotive components, books and furniture, as well as numerous other applications. Our full line of industrial and consumer multiwall bag products is used to ship a wide range of industrial and consumer products, such as fertilizers, chemicals, concrete, flour, sugar, feed, seed, pet foods, popcorn, charcoal, and salt, primarily for the agricultural, chemical, building products and food industries.

We also provide our customers with a variety of value-added packaging services to complement our industrial shipping and corrugated container products, such as total supply chain management services (including on-site packaging, warehousing, outgoing logistics, inventory management, vendor management, on-site labor management and contract filling), as well as research and development, engineering and design and testing services.

As of July 31, 2002, we owned approximately 272,500 acres of timberland in the southeastern United States. Our timber management is focused on the active harvesting and regeneration of our timber properties to achieve sustainable long-term yields on our timberland. While timber sales are subject to fluctuations, we seek to maintain a consistent cutting schedule, within the limits of market and weather conditions. Soterra, our subsidiary that owns and manages our timber operations in the United States, is an unrestricted subsidiary under the indenture governing the notes. See "Risk Factors--The subsidiary that conducts our timber operations in the United States is an unrestricted subsidiary."

Recent Acquisitions and Joint Ventures

Van Leer Industrial Packaging. In March 2001, we acquired Royal Packaging Industries Van Leer N.V., a Dutch company, Huhtamaki Holdings do Brasil Ltda., a Brazilian company, Van Leer France Holding S.A.S., a

French company, Van Leer Containers, Inc., a U.S. company, and American Flange and Manufacturing Co., Inc., a U.S. company, which are collectively referred to as "Van Leer Industrial Packaging." We acquired Van Leer Industrial Packaging for $555.0 million less the amount of certain of its debt and other obligations ($206.4 million) as of the closing date. Van Leer Industrial Packaging was a worldwide provider of industrial packaging and components, including steel, fibre and plastic drums, polycarbonate water bottles, IBCs and closure systems for industrial shipping containers.

In connection with the Van Leer Industrial Packaging acquisition, we acquired a 25% interest in Socer-Embalagens, Lda. and a 40.06% interest in Balmer Lawrie-Van Leer. Socer-Embalagens reconditions used drums at its facility in Brazil and resells them to customers. Balmer Lawrie-Van Leer manufactures closure systems for industrial shipping containers and plastic drums at its two facilities in India.

The results of the operations of Van Leer Industrial Packaging are included in the consolidated financial statements for eight months of 2001 and for the entire period of 2002, but are not included in the consolidated financial statements for 1999 or 2000, or for the first four months of 2001. See also

"Unaudited Pro Forma Condensed Combined Financial Data" contained elsewhere in this prospectus for the pro forma effects of the Van Leer Industrial Packaging acquisition as if that transaction had occurred as of November 1, 2000.

Great Lakes and Trend Pak. In April 1999, we purchased Great Lakes Corrugated Corp. ("Great Lakes") and Trend Pak, Inc. ("Trend Pak") for $20.8 million. Great Lakes manufactures corrugated containers in Toledo, Ohio. Trend Pak adds foam and other packaging materials to corrugated containers manufactured by Great Lakes.

Intermediate Bulk Container Business. In January 1999, we purchased the assets constituting the IBC business of Sonoco Products Company for $38.0 million. This business included one location in Lavonia, Georgia.

CorrChoice Joint Venture. In November 1998, we entered into a joint venture agreement to form CorrChoice, Inc. ("CorrChoice") with the then two shareholders of RDJ Holdings Inc. ("RDJ"), which owned one-half of the outstanding stock of Ohio Packaging Corporation ("OPC"), and the then minority shareholder (the "Minority Shareholder") of a subsidiary of OPC. CorrChoice manufactures corrugated sheets at seven locations in Georgia, Kentucky, Michigan, North Carolina and Ohio. We sell containerboard to CorrChoice, which it uses to produce corrugated sheets, and we purchase corrugated sheets from CorrChoice, with all transactions effected at prevailing market prices. Under the terms of the joint venture agreement, we contributed to CorrChoice all of our stock of Michigan Packaging Company and OPC in exchange for 63.24% of the outstanding stock of CorrChoice. In addition, under the terms of that joint venture agreement, the two shareholders of RDJ contributed all of their stock of RDJ and the Minority Shareholder contributed his stock in the subsidiary of OPC in exchange for an aggregate 36.76% of the outstanding stock of CorrChoice. In connection with the joint venture agreement, we entered into a voting agreement under which we can elect one-half of CorrChoice's board of directors, and therefore, we do not control CorrChoice. CorrChoice has been, and is expected to continue to be, self-supporting. Under certain circumstances, we may purchase, or be required to purchase, the other parties' interest in CorrChoice, or we may be required to sell our interest to the other parties, at a price determined in the manner described in the relevant agreement.

The joint venture agreement and related agreements contain certain covenants and restrictions on certain business activities. These restrictions have not affected our business or operations in any material respect and have not prevented us from pursuing any business opportunities that we desired to pursue.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements, in accordance with these principles, require us to make estimates and assumptions that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of our financial statements.

A summary of our significant accounting policies is included in the Notes to Consolidated Financial Statements included in this prospectus. We believe that the consistent application of these policies enable us to provide readers of the financial statements with useful and reliable information about our

operating results and financial condition. The following are the accounting policies that we believe are most important to the portrayal of our financial condition and results and require our most difficult, subjective or complex judgments.

- Allowance for Accounts Receivable--We evaluate the collectibility of our accounts receivable based on a combination of factors. In circumstances where we are aware of a specific customer's inability to meet its financial obligations to us, we record a specific allowance for bad debts against amounts due to reduce the net recognized receivable to the amount we reasonably believe will be collected. For all other customers, we recognize allowances for bad debts based on the length of time receivables are past due with allowance percentages, based on our historical experiences, applied on a graduated scale relative to the age of the receivable amounts. If circumstances change (i.e., higher than expected bad debt experience or an unexpected material adverse change in a major customer's ability to meet its financial obligations to us), our estimates of the recoverability of amounts due to us could be reduced by a material amount.

- Inventory Reserves--Reserves for slow moving and obsolete inventories are provided based on historical experience and product demand. We continuously evaluate the adequacy of these reserves, and make adjustments to these reserves as required.

- Net Assets Held for Sale--Net assets held for sale represent land, buildings and land improvements less accumulated depreciation for locations that have been closed, primarily as a result of the consolidation plans in the Industrial Shipping Containers segment. We record net assets held for sale in accordance with Statement of Financial Accounting Standards ("SFAS") No. 121 at the lower of carrying value or fair value less cost to sale. Fair value is based on the estimated proceeds from the sale of the facility utilizing recent buy offers, market comparables and/or data obtained from our commercial real estate broker. Our estimate as to fair value is regularly reviewed and subject to changes in the commercial real estate markets and our continuing evaluation as to the facility's acceptable sale price.

- Properties, Plants and Equipment--Depreciation on properties, plants and equipment is provided on the straight-line method over the estimated useful lives of our assets. Depletion on timber properties is computed on the basis of cost and the estimated recoverable timber acquired. We believe that the lives and methods of determining depreciation and depletion are reasonable; however, using other lives and methods could provide materially different results.

- Derivative Financial Instruments--We enter into interest rate swap agreements for the purpose of hedging our exposure to fluctuations in interest rates. Our interest rate swap contracts are considered cash flow hedges. We entered into interest rate swap contracts to assist us in managing our exposure to variable rate debt. The differentials payable or receivable under these agreements are recorded as adjustments to interest expense and are included in interest receivable or payable. An asset or liability is recorded on our balance sheet for the fair value of the interest rate swap agreements. A corresponding charge or credit is reflected, net of tax, in other comprehensive income (loss).

  We enter into foreign currency forward contracts to hedge certain short-term intercompany loan transactions with our foreign businesses.

Such contracts limit our exposure to both favorable and unfavorable currency fluctuations. These contracts are adjusted to reflect market value as of each balance sheet date, with the resulting changes in fair value being recognized in other income, net.

- Restructuring Liabilities--Restructuring liabilities are determined in accordance with appropriate accounting guidance, including Emerging Issues Task Force ("EITF") No. 94-3, EITF No. 95-3 and Staff Accounting Bulletin No. 100 depending upon the facts and circumstances surrounding the situation. Restructuring liabilities recorded in connection with existing and acquired businesses are further discussed in the Notes to Consolidated Financial Statements included in this prospectus.

-30-

- Pension and Postretirement Benefits--Pension and postretirement benefit expenses are determined by our actuaries using assumptions about the discount rate, expected return on plan assets, rate of compensation increase and health care cost trend rates. Further discussion of our pension and postretirement benefit plans and related assumptions is included in the Notes to Consolidated Financial Statements included in this prospectus. The actual results would be different using other assumptions.

- Income Taxes--Our effective tax rate, taxes payable and the tax bases of our assets and liabilities reflect current tax rates in our domestic and foreign tax jurisdictions and our best estimate of the ultimate outcome of on-going and potential future tax audits. Valuation allowances are established where expected future taxable income does not support the realization of the deferred tax assets.

- Environmental Cleanup Costs--We expense environmental expenditures related to existing conditions caused by past or current operations and from which no current or future benefit is discernable. Our estimates of environmental remediation costs are based upon an evaluation of currently available facts with respect to each individual site, including the results of environmental studies and testing, and considering existing technology, presently enacted laws and regulations, and prior experience in remediation of contaminated sites. Expenditures that extend the life of the related property, or mitigate or prevent future environmental contamination are capitalized. We determine our liability on a site-by-site basis and record a liability at the time when it is probable and can be reasonably estimated. Our estimated liability is reduced to reflect insurance coverage that is in place for environmental contingencies assumed in our acquisition of Van Leer Industrial Packaging and the anticipated participation of other potentially responsible parties in those instances where it is probable that such parties are legally responsible and financially capable of paying their respective shares of the relevant costs. Actual costs to be incurred in future periods at the identified sites may vary from the estimates, given the inherent uncertainties in evaluating environmental exposures. Future information and developments will require us to continually reassess the expected impact of these environmental matters.

- Contingencies--Various lawsuits, claims and proceedings have been or may be instituted or asserted against us, including those pertaining to environmental, product liability, safety and health matters. We are continually consulting legal counsel and evaluating requirements to

reserve for contingencies in accordance with SFAS No. 5. While the amounts claimed may be substantial, the ultimate liability cannot currently be determined because of the considerable uncertainties that exist. Based on the facts currently available, we believe the disposition of matters that are pending will not have a material effect on the consolidated financial statements.

- Goodwill, Other Intangible Assets and Other Long-Lived Assets--Goodwill is amortized on a straight-line basis over 15 or 25 year periods based on consideration regarding the age of the acquired businesses, their customers and the risk of obsolescence of their products. The costs of acquired intangible assets are amortized on a straight-line basis over their estimated economic lives of 2 to 25 years. Our policy is to periodically review goodwill, other intangible assets and other long-lived assets based upon the evaluation of such factors as the occurrence of a significant adverse event or change in the environment in which the business operates, or if the expected future net cash flows (undiscounted and without interest) would become less than the carrying amount of the asset. An impairment loss would be recorded in the period such determination is made based on the fair value of the related assets.

  In June 2001, the Financial Accounting Standards Board ("FASB") issued SFAS No. 142, "Goodwill and Other Intangible Assets," which requires that goodwill no longer be amortized, but instead be periodically reviewed for impairment. The provisions of SFAS No. 142 will be effective for fiscal years beginning after December 15, 2001. As such, we will adopt SFAS No. 142 at the beginning of our 2003 fiscal year.

  We anticipate that the application of the non-amortization provisions of SFAS No. 142 will increase our net income upon adoption. Amortization expense related to our goodwill and indefinite-lived assets was $6.5 million and $8.4 million for our nine-month period ended July 31, 2002 and 2001, respectively, and $9.2 million for the fiscal year ended October 31, 2001.

  At this time, the effect of the impairment provisions provided by SFAS No. 142 is not known.

Other items that could have a significant impact on the financial statements include the risks and uncertainties listed in this prospectus under "Disclosure Regarding Forward-Looking Statements" and "Risk Factors." Actual results could differ materially using different estimates and assumptions, or if conditions are significantly different in the future.

Results of Operations

Historically, revenues and earnings may or may not be representative of future operating results due to various economic and other factors. Our year-to-year and period-to-period comparisons have been significantly effected by our acquisition of Van Leer Industrial Packaging in March 2001.

We define EBITDA as earnings from continuing operations before interest, income taxes, depreciation, depletion, amortization, minority interest in income of consolidated subsidiaries, equity in earnings of affiliates and debt extinguishment charge. EBITDA is included in this section because it is a basis on which we assess our financial performance and debt service capabilities. However, EBITDA should not be considered in isolation or viewed as a substitute

for cash flow from operations, net income or other measures of performance as defined by accounting principles generally accepted in the United States or as a measure of our company's profitability or liquidity. While EBITDA is frequently used by securities analysts, lenders and others in their evaluation of companies, EBITDA as used herein is not necessarily comparable to other similarly titled captions of other companies due to potential inconsistencies in the method of calculation.

The following table sets forth the net sales and EBITDA for each business segment for 2001, 2000 and 1999, and for the first nine months of 2002 and 2001.

Nine Months Ended July 31, 2002 Compared to Nine Months Ended July 31, 2001

Overview

Net sales increased to $1,197.3 million, an increase of 18.4%, in the first nine months of 2002 from $1,011.2 million in the first nine months of 2001. This increase resulted from a $189.5 million increase in net sales from

outside North America, partially offset by a $3.5 million decrease in net sales from the North American operations. The decrease in the North American operations was due to lower net sales in the Containerboard & Corrugated Products segment ($45.4 million decrease), which were partially offset by the Industrial Shipping Containers segment ($40.4 million increase) and the Timber segment ($1.5 million increase). The higher net sales in the North American operations of the Industrial Shipping Containers segment, as well as the higher net sales outside North America, were primarily due to the inclusion of Van Leer Industrial Packaging sales volume for nine months in 2002 compared to five months in 2001.

EBITDA was $142.2 million for the first nine months of 2002 as compared to $206.7 million, before the $11.5 million second quarter restructuring charge, for the first nine months of 2001. The $64.5 million decrease in EBITDA was attributable to lower gains on the sale of timberland ($69.0 million decrease) and the Containerboard & Corrugated Products segment ($29.1 million decrease), which were partially offset by the inclusion of the Van Leer Industrial Packaging operations and higher timber sales.

Segment Review

Industrial Shipping Containers

The Industrial Shipping Containers segment had an increase in net sales of $229.9 million, or 33.0%, for the first nine months of 2002 as compared to the first nine months of 2001. This increase was primarily due to an increase of $189.5 million in net sales outside North America and an increase of $40.4 million in net sales in North America due to additional sales volume from the inclusion of nine months of the Van Leer Industrial Packaging operating results in 2002 compared to five months in 2001. A decrease in customer demand, particularly in the chemical industry, partially offset this increase in net sales.

EBITDA for Industrial Shipping Containers increased to $89.7 million for the first nine months of 2002 as compared to $54.9 million, before the $11.5 million second quarter restructuring charge, for the first nine months of 2001. The primary reasons for this increase relate to improved sales volumes as a result of the Van Leer Industrial Packaging acquisition, lower raw materials as a percentage of net sales, and positive contributions from the prior year consolidation plan.

Containerboard & Corrugated Products

The Containerboard & Corrugated Products segment had a decrease in net sales of $45.4 million, or 15.9%, for the first nine months of 2002 as compared to the first nine months of 2001. This decrease in net sales was primarily due to lower customer demand, consistent with the industry, for corrugated containers and containerboard due to continued weakness in the U.S. economy. Lower average sales price for linerboard and medium also affected net sales during the first nine months of 2002 as compared to the first nine months of 2001.

EBITDA for the Containerboard & Corrugated Products segment decreased to $32.3 million for the first nine months of 2002 as compared to $61.4 million for the first nine months of 2001. Improved operating efficiencies partially offset the decline caused by lower net sales for this segment.

Timber

The Timber segment had an increase in net sales of $1.5 million, or 5.3%,

for the first nine months of 2002 as compared to the first nine months of 2001. While timber sales are subject to fluctuations, we seek to maintain a consistent cutting schedule, within the limits of market and weather conditions.

The sales of timber are recorded as net sales, while timberland sales are included in gain on sale of timberland. The gain on sale of timberland was $9.5 million for the first nine months of 2002 as compared to $78.4 million for the first nine months of 2001. See "Timberland Transactions" below.

EBITDA for the Timber segment decreased to $35.7 million for the first nine months of 2002 as compared to $103.0 million for the first nine months of 2001. The decrease in EBITDA was primarily the result of the significant gain on sale of timberland in the prior period slightly offset by higher timber sales.

Other Income Statement Changes

Gain on Sale of Timberland

Gain on sale of timberland decreased $69.0 million in the first nine months of 2002 as compared to the first nine months of 2001 primarily due to the timberland sales described in the "Timberland Transactions" section below.

Other Income, Net

Other income, net increased $0.4 million in the first nine months of 2002 as compared to the first nine months of 2001. The change in other income was primarily due to additional gains on the sale of facilities.

Cost of Products Sold

The cost of products sold, as a percentage of net sales, increased to 80.0% in the first nine months of 2002 from 79.4% in the first nine months of 2001. The increase was primarily due to weakening in the Containerboard & Corrugated Products segment, which was affected by increased raw material costs, especially old corrugated containers ("OCC"), without a corresponding increase in sales prices. The increase was partially offset by an overall improvement in the Industrial Shipping Containers segment, which resulted from improved operating efficiencies and lower raw material costs, and higher Timber segment sales, which had very low cost associated with them.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses increased to $187.8 million (15.7% of net sales) in the first nine months of 2002 as compared to $141.7 million (14.0% of net sales) in the first nine months of 2001. The $46.1 million increase was primarily due to additional SG&A expenses related to Van Leer Industrial Packaging, including $2.8 million of additional amortization expense related to the goodwill and other intangible assets. SG&A expenses, as a percentage of net sales, primarily increased as a result of lower sales volumes, on a comparable structure basis, for Industrial Shipping Containers and lower net sales in the Containerboard & Corrugated Products segment. In addition, the year-to-date results were impacted by higher employee benefit costs and certain non-recurring costs related to our organizational improvement initiatives and on-going reorganization activities.

Debt Extinguishment Charge

During the third quarter of 2002, we recorded a debt extinguishment charge

of $4.4 million related to the partial extinguishment of the $900 million Senior Secured Credit Agreement.

Restructuring Charge

As further described in the "Restructuring Charge" section below, we recognized a restructuring charge of $11.5 million during the second quarter of 2001.

Interest Expense, Net

Interest expense, net increased to $40.9 million during the first nine months of 2002 as compared to $29.3 million in the first nine months of 2001. The increase was primarily due to higher average debt outstanding of $689.7 million during the first nine months of 2002 as compared to $500.0 million during the first nine months of 2001. The increase in average debt outstanding was primarily the result of borrowings made in connection with the Van Leer Industrial Packaging acquisition. Because the acquisition occurred on March 2, 2001, the acquisition related debt was outstanding for only five months in 2001 as compared to nine months in 2002.

Income Taxes

The effective tax rate decreased to 36.0% for the first nine months of 2002 as compared to 37.9% in the first nine months of 2001, primarily as a result of a change in the mix of income outside North America.

Minority Interest in Income of Consolidated Subsidiaries

As part of the Van Leer Industrial Packaging acquisition, we acquired majority holdings in various companies. The operating results of these companies have been included in the consolidated results following the acquisition on March 2, 2001, and the minority interest of other persons in the respective net income of these companies has been reflected as an expense.

Equity in Earnings of Affiliates

Equity in earnings of affiliates decreased to $5.8 million for the first nine months of 2002 as compared to $7.1 million in the first nine months of 2001. This income represents our equity interest in the net income of CorrChoice, Inc. and, to a lesser extent, Abzac-Greif, Socer-Embalagens, Lda. and Balmer Lawrie-Van Leer.

Net Income

Based on the foregoing, net income decreased $55.8 million, or 74.9%, to $18.7 million for the first nine months of 2002 from $74.4 million in the first nine months of 2001.

Fiscal Year 2001 Compared to Fiscal Year 2000 and
Fiscal Year 2000 Compared to Fiscal Year 1999

Overview

Net sales increased to $1,456.0 million, an increase of 51.0%, in 2001 from $964.0 million in 2000. This increase resulted from a $446.2 million increase in net sales from outside North America and a $45.8 million increase in net sales from the North American operations. The increase in net sales from the

North American operations was due to the Industrial Shipping Containers segment ($101.8 million increase), which was partially offset by lower net sales in the Containerboard & Corrugated Products segment ($49.1 million decrease) and the Timber segment ($6.9 million decrease). The higher net sales in the North American operations of the Industrial Shipping Containers segment was primarily due to the inclusion of additional sales volume from the operations of Van Leer Industrial Packaging. The weaker economic conditions in the United States that prevailed throughout 2001 compared to 2000 caused lower sales volumes and increased competitive pricing in both the Industrial Shipping Containers and Containerboard & Corrugated Products segments.

EBITDA was $266.4 million, before the $11.5 million second quarter restructuring charge, for 2001 as compared to $157.5 million for 2000. The $108.9 million increase in EBITDA was attributable to higher gains on the sale of timberland ($70.4 million increase) and the inclusion of the operations of Van Leer Industrial Packaging. The factors that caused a reduction in EBITDA included weaker economic conditions in the United States for both the Industrial Shipping Containers and Containerboard & Corrugated Products segments. In addition, lower timber sales partially offset the improvement in EBITDA.

Segment Review

Industrial Shipping Containers

2001 Compared to 2000

The Industrial Shipping Containers segment had an increase in net sales of $548.0 million, or 111.6%, for 2001 as compared to 2000. This increase was primarily due to the inclusion of $446.2 million of net sales outside

North America resulting from the operations of Van Leer Industrial Packaging. Net sales for the North American operations increased $101.8 million for 2001 as compared to 2000 due to additional sales volume from the operations of Van Leer Industrial Packaging during the eight months included in that year. A decrease in customer demand caused by weaknesses in the U.S. economy, particularly in the chemical industry, partially offset this increase in net sales. In addition, net sales to the agricultural sector were lower in the first quarter of 2001 compared to 2000, which benefited from a late harvest of certain crops during 1999 that extended into the first quarter of 2000.

EBITDA for the Industrial Shipping Containers segment increased to $88.5 million, before the $11.5 million second quarter restructuring charge, for 2001 as compared to $46.2 million for 2000. The primary reason for this increase relates to $48.8 million in EBITDA from outside North America related to the inclusion of the operations of Van Leer Industrial Packaging.

2000 Compared to 1999

The Industrial Shipping Containers segment had an increase in net sales of $13.5 million, or 2.8%, in 2000 as compared to 1999. This increase was due to an improvement in general market conditions, especially in the chemical industry, improved pricing to offset higher raw material prices and regained sales volumes lost as a result of the 1998 and 1999 plant closings and consolidation efforts. In addition, there was an increase in activities related to container leasing and reconditioning.

EBITDA for the Industrial Shipping Containers segment decreased to $46.2 million for 2000 as compared to $53.7 million for 1999. The primary reason for

this decrease was due to a larger corporate allocation, caused by improvements in our infrastructure, during 2000.

Containerboard & Corrugated Products

2001 Compared to 2000

The Containerboard & Corrugated Products segment had a decrease in net sales of $49.1 million, or 11.5%, for 2001 as compared to 2000. This reduction in net sales was caused by lower customer demand for corrugated containers and containerboard due to continued weaknesses in the U.S. economy. Lower average sales price for linerboard and medium also affected net sales during 2001 as compared to 2000.

EBITDA for the Containerboard & Corrugated Products segment increased to $82.4 million for 2001 as compared to $80.5 million for 2000. Lower raw material prices, especially for old corrugated containers, a higher containerboard integration percentage and improved operating efficiencies more than offset the decline caused by lower net sales for this segment.

2000 Compared to 1999

The Containerboard & Corrugated Products segment had an increase in net sales of $76.5 million, or 21.7%, for 2000 as compared to 1999. This increase was primarily due to a 32.5% increase in the average sales price of containerboard. In addition, there were $16.0 million of additional net sales from the Great Lakes and Trend Pak operations, which were acquired in 1999.

EBITDA for the Containerboard & Corrugated Products segment increased to $80.5 million for 2000 as compared to $51.6 million for 1999. This increase resulted from improved gross margins resulting from the higher sales prices of this segment's products without a corresponding increase in its costs. The increase was partially offset by higher costs allocated from corporate to support improvements in our infrastructure.

Timber

2001 Compared to 2000

The Timber segment had a decrease in net sales of $6.9 million, or 15.4%, for 2001 as compared to 2000. While timber sales are subject to fluctuations, we seek to maintain a consistent cutting schedule within the limits of market and weather conditions.

The sales of timber are recorded as net sales, while timberland sales are included in gain on sale of timberland. The gain on sale of timberland was $79.7 million for 2001 as compared to $9.2 million for 2000. See "Timberland Transactions" below.

EBITDA for the Timber segment increased to $111.5 million for 2001 as compared to $46.7 million for 2000. The increase was primarily the result of significant gains on the sale of timberland which were partially offset by lower timber sales.

2000 Compared to 1999

The Timber segment had an increase in net sales of $20.6 million, or 85.5%, for 2000 as compared to 1999. This increase was primarily due to a full

year of net sales resulting from the timber marketing agreement with Bennett & Peters, Inc. initiated in May 1999. Our timber marketing strategy is focused on the active harvesting and regeneration of our timber properties in the United States to achieve sustainable long-term yields on our timberland. We seek to maintain a consistent cutting schedule for the sale of timber within the limits of market and weather conditions.

EBITDA for the Timber segment increased to $46.7 million for 2000 as compared to $25.3 million in 1999. This increase was due to the significant improvement in net sales as well as $4.7 million of additional gains on the sale of timberland.

Other Income Statement Changes

Gain on Sale of Timberland

Gain on sale of timberland increased $70.5 million in 2001 as compared to 2000 primarily due to the timber property sales described in the "Timberland Transactions" section below.

The gain on sale of timberland increased $4.6 million in 2000 as compared to 1999.

Other Income, Net

Other income, net increased $1.4 million in 2001 as compared to 2000. The increase in other income was primarily due to an increase from gains on the sale of facilities in comparison to 2000. See "Restructuring Charge" below.

Other income, net decreased $5.5 million in 2000 as compared to 1999. This decrease was primarily due to a decrease of $7.5 million from gains on the sale of facilities in comparison to 1999.

Cost of Products Sold

The cost of products sold, as a percentage of net sales, increased to 79.2% in 2001 from 76.5% in 2000. The increase was primarily due to the inclusion of the operations of Van Leer Industrial Packaging, which contributed to a higher cost of products sold as a percentage of net sales because products from those operations have lower gross margins than our other products. In addition, Timber segment sales, which have a much lower cost associated with

them, were below those in 2000. This increase was partially offset by lower raw material costs, which more than offset the lower sales volume, in the Containerboard & Corrugated Products segment.

Cost of products sold, as a percentage of net sales, decreased to 76.5% for 2000 as compared to 79.1% for 1999. The improvement was primarily due to the higher Timber segment net sales in 2000. Our timber sales have a very low cost associated with them. In addition, the cost of products sold, as a percentage of net sales, for the Containerboard & Corrugated Products segment decreased as a result of the higher sales prices of its products without a corresponding increase in the cost of products sold. The cost of products sold, as a percentage of net sales, decreased slightly for the Industrial Shipping Containers segment.

Selling, General and Administrative Expenses

SG&A expenses increased to $204.7 million (14.1% of net sales) for 2001 as compared to $128.3 million (13.3% of net sales) for 2000. The $76.4 million increase was primarily due to additional SG&A expenses related to the operations of Van Leer Industrial Packaging. In addition, there was $5.3 million of amortization expense related to the goodwill and other intangible assets acquired in the Van Leer Industrial Packaging transaction included in the 2001 results.

Despite increasing to $128.3 million in 2000 from $113.0 million in 1999, SG&A expenses only increased slightly to 13.3% of net sales in 2000 from 13.2% of net sales in 1999. The increased expenditures primarily represented higher costs to support infrastructure improvements for current and future growth initiatives at that time. In addition, $3.2 million of additional commission expense resulted from the sale of timber and timberland in 2000. The increase was partially offset by a $2.9 million reduction in Year 2000 remediation expenses.

Restructuring Charges

As further described in the "Restructuring Charge" section below, we recognized a pretax restructuring charge of $11.5 million during the second quarter of 2001.

Interest Expense, Net

Interest expense, net increased to $45.2 million in 2001 as compared to $11.8 million in 2000. This increase was primarily due to higher average debt outstanding in 2001 as compared to 2000 as a result of the Van Leer Industrial Packaging acquisition.

Interest expense, net decreased to $11.8 million in 2000 as compared to $13.0 million in 1999. This decrease was primarily due to $2.5 million of capitalized interest in 2000 compared to $0.4 million in 1999. The increase in capitalized interest related to several large capital projects, including our management information system, a new steel drum line in LaPorte, Texas, and a new corrugated container plant in Louisville, Kentucky. This decrease was partially offset by higher interest rates that prevailed throughout 2000 as compared to 1999.

Income Taxes

The effective tax rate remained at 37.9% for 2001 and 2000.

The effective tax rate decreased to 37.9% for 2000 as compared to 39.7% for 1999. The decrease, which was due to lower state and local taxes, had a positive effect on net income in 2000.

Minority Interest in Income of Consolidated Subsidiaries

As part of the Van Leer Industrial Packaging acquisition, we assumed minority holdings in various companies. From the date of acquisition, these companies have been included in the consolidated results for 2001, and the minority interests in their respective net incomes have been eliminated.

Equity in Earnings of Affiliates

Equity in earnings of affiliates decreased to $9.9 million for 2001 as compared to $13.3 million in 2000. This income represents our equity interest in

the net income of CorrChoice and, to a lesser extent, Abzac-Greif, Socer-Embalagens, Lda. and Balmer Lawrie-Van Leer.

Equity in earnings of affiliates increased to $13.3 million in 2000 as compared to $10.8 million in 1999.

Net Income

Based on the foregoing, net income increased $13.0 million, or 17.1%, to $88.8 million in 2001 from $75.8 million in 2000.

Based on the foregoing, net income increased $24.4 million, or 47.5%, to $75.8 million in 2000 from $51.4 million in 1999.

Restructuring Charge

During the second quarter of 2001, we approved a plan to consolidate some of our locations in order to eliminate duplicate facilities caused by the Van Leer Industrial Packaging acquisition and to improve operating efficiencies and capabilities (see Note 5 to the Consolidated Financial Statements for the year ended October 31, 2001 and Note 3 to the Consolidated Interim Financial Statements for the nine months ended July 31, 2002, contained elsewhere in this prospectus). The plan was the result of an in-depth study to determine whether certain locations, either existing or newly acquired, should be closed and the sales and manufacturing volume associated with such plants relocated to a different facility. Six existing company-owned plastic drum and steel drum plants were identified to be closed. These plants are located in North America. In addition, certain redundant administrative functions were identified to be eliminated. As a result of this plan, during the second quarter of 2001, we recognized a pretax restructuring charge of $11.5 million, consisting of $8.0 million in employee separation costs (approximately 250 employees) and a $3.5 million loss on disposal of equipment and facilities. We have sold or are in the process of selling these six company-owned facilities.

In addition, in connection with the March 2001 acquisition of Van Leer Industrial Packaging and the consolidation plan described in the preceding paragraph, five facilities purchased as part of that acquisition have been or will be closed. These facilities are owned by our subsidiaries. The facilities are located in North America, South America, United Kingdom and Asia Pacific. In addition, certain redundant administrative functions have been or will be eliminated. Accordingly, we recognized a $19.7 million restructuring liability in our purchase price allocation related to these locations. This liability was accounted for under EITF No. 95-3, "Recognition of Liabilities in Connection with a Purchase Business Combination." The liability consisted of $16.5 million in employee separation costs (approximately 300 employees) and $3.2 million in other exit costs. We have sold or are in the process of selling these company-owned facilities.

We expect to complete these restructuring activities during 2002. We have incurred additional costs of $5.9 million in 2001, $4.3 million for the nine months ended July 31, 2002, and will continue to incur additional costs during the remainder of 2002 related to the relocation of machinery, employees and other reorganization activities, all of which have been or will be charged to the results of operations. We believe that upon the completion of the consolidation plan, positive contributions to earnings on an annualized basis from these actions will be approximately $27.5 million.

Timberland Transactions

In December 2000, we sold certain hardwood timberland for $44.4 million. As such, we recognized a gain of $43.0 million during the first quarter of 2001 related to this transaction. In a related agreement, we sold other hardwood

timberland for $30.0 million in March 2001, and we recognized a gain of $27.7 million during the second

quarter of 2001. A total of approximately 65,000 acres of timber properties situated in Arkansas, Mississippi and Louisiana were sold as a result of these transactions.

In a separate transaction in December 2000, we purchased certain pine timberland for $42.8 million. In a related agreement, we purchased other pine timberland for $43.1 million in March 2001. A total of approximately 63,000 acres of timber properties situated in Louisiana were purchased as a result of these transactions.

For tax purposes, these sale and purchase transactions were treated as like-kind exchanges pursuant to Section 1031 of the Internal Revenue Code, which resulted in a deferral of the tax gain on the sale transactions.

Liquidity and Capital Resources

Our primary sources of liquidity are operating cash flows and borrowings under our senior credit facility, discussed below. We have used these sources to fund our working capital needs, capital expenditures, cash dividends, common stock repurchases and acquisitions. We anticipate continuing to fund these items in a like manner. We currently expect that operating cash flows, the proceeds from the original notes offering, and borrowings under our amended and restated senior credit facility will be sufficient to fund our working capital, capital expenditure, debt repayment and other liquidity needs for the foreseeable future.

Capital Expenditures and Business Acquisitions

During 2001, we invested $42.7 million in capital expenditures, excluding the purchase of timberland properties ($89.5 million), and we invested $29.9 million in capital expenditures, excluding the purchase of timberland properties ($8.9 million), during the nine months ended July 31, 2002. During the last three years, we have invested $170.8 million in capital expenditures, $89.5 million in timberland purchases and $387.1 million in acquisitions of businesses, net of cash acquired. See "--Recent Acquisitions" for a description of the businesses acquired since the beginning of our 1999 fiscal year.

We have approved future capital expenditures of approximately $21 million through July 31, 2003. These expenditures are primarily to replace and improve equipment and to continue implementation of a new management information system.

Balance Sheet Changes

July 31, 2002 Compared to October 31, 2001

The reduction in trade accounts receivable was due to lower net sales in the third quarter of 2002 compared to the fourth quarter of 2001.

Inventories were higher primarily due to the increases in our raw material costs and the build up of inventory related to our agricultural markets.

The increase in accounts payable was due to higher raw material costs and the timing of payments made to our suppliers.

Accrued payrolls and employee benefits were higher at July 31, 2002 as

compared to October 31, 2001 as a result of the increase in these costs as well as timing of our payments.

The restructuring reserves decreased as a result of plant closings and other reorganization costs. See "Restructuring Charge" section above.

The reduction in total debt was due to the repayment of amounts borrowed under our existing $900 million Senior Secured Credit Agreement, partially offset by the issuance of $250 million Senior Subordinated Notes. See "Borrowing Arrangements" section below.

The decrease in other long-term liabilities was primarily due to a lower liability related to the swap contracts on our existing $900 million Senior Secured Credit Agreement, the timing of payments on workers' compensation, and other changes not individually significant.

October 31, 2001 Compared to October 31, 2000

In general, the increases in our assets and liabilities were primarily due to the acquisition of Van Leer Industrial Packaging in March 2001. In addition, our timberland assets increased due to our purchase of 63,000 acres of pine timber property in Louisiana in 2001. See "Timberland Transactions" above.

The increase in restructuring reserves was due to our 2001 consolidation plan, which has been reduced due to payments of severance and restructuring costs. See "Restructuring Charge" above.

The increase in long-term debt was the result of borrowings under our existing senior credit facility, which was used to fund the Van Leer Industrial Packaging acquisition and to refinance amounts outstanding under our then existing credit facility. This increase was partially offset by debt repayments.

The increase in deferred tax liability was primarily due to our timberland sales in 2001 and the Van Leer Industrial Packaging acquisition. See "Timberland Transactions" above.

Borrowing Arrangements

See "Description of Senior Credit Facility" for a description of our amended and restated credit facility. Prior to its amendment, the senior credit facility consisted of three terms loans and a $150 million revolving multicurrency credit facility. The proceeds from this senior credit facility were used to fund the Van Leer Industrial Packaging acquisition and to refinance amounts outstanding under a prior revolving credit facility. As of July 31, 2002, there was a total of $399.5 million outstanding under the senior credit facility and $248.0 million of Senior Subordinated Notes.

Contractual Obligations

As of July 31, 2002, we had the following contractual obligations (U.S. dollars in millions):

		Payments Due By Per	
	Total	Less than 1 Year	1-3 Years

Long-term debt	$650	$18	$50
Short-term borrowings	25	25	--
Non-cancelable operating leases	32	4	12
Total contractual cash obligations	$707	$47	$62

Share Repurchase Program

In February 1999, our Board of Directors authorized a one million share stock repurchase program. During 2001, we repurchased 34,500 shares, including 10,000 shares of Class A Common Stock and 24,500 shares of Class B Common Stock, and during the first nine months of 2002 we repurchased 50,000 shares of Class B Common Stock. As of July 31, 2002, we had repurchased 644,410 shares, including 415,476 shares of Class A Common Stock and 228,934 shares of Class B Common Stock. The total cost of the shares repurchased during 1999 through July 31, 2002 was $18.7 million. Future share repurchases will be limited under our amended and restated senior credit facility and the indenture governing the notes.

Effects of Inflation

The effects of inflation did not have a material impact on our operations during 2001, 2000 or 1999, or during the nine months ended July 31, 2002.

Recent Accounting Standards

Goodwill and Other Intangible Assets

In June 2001, FASB issued SFAS No. 142, "Goodwill and Other Intangible Assets," which requires that goodwill no longer be amortized, but instead be periodically reviewed for impairment. The provisions of SFAS No. 142 are required for fiscal years beginning after December 15, 2001. As such, we will adopt SFAS No. 142 at the beginning of our 2003 fiscal year.

The application of the non-amortization provisions of SFAS No. 142 will increase our net income upon adoption. Amortization expense related to our goodwill and indefinite-lived assets was $8.4 million and $6.5 million for the nine months ended July 31, 2002 and 2001, respectively, and $9.2 million for the fiscal year ended October 31, 2001.

At this time, the effect of the impairment provisions provided by SFAS No. 142 is not known.

Impairment or Disposal of Long-Lived Assets

In August 2001, FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets and supersedes FASB Statement No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed of" and Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations--Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently

Occurring Events and Transactions." SFAS No. 144 establishes a single accounting model for long-lived assets to be disposed of by sale and resolves implementation issues related to Statement No. 121.

SFAS No. 144 is effective for financial statements issued for fiscal years beginning after December 15, 2001, or November 1, 2002 for us. We do not expect the adoption of this Statement to have a material impact on our results of operations or financial position.

Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

We are subject to interest rate risk related to our financial instruments that include borrowings under our amended and restated senior credit facility and interest rate swap agreements with an aggregate notional amount of $280.0 million as of July 31, 2002. We do not enter into financial instruments for trading or speculative purposes. The interest rate swap agreements have been entered into to manage our interest rate exposure.

The table below provides information about our derivative financial instruments and other financial instruments that are sensitive to changes in interest rates. For the existing senior credit facility, the table presents scheduled amortizations of principal and the current weighted average interest rate by contractual maturity dates. For interest rate swaps, the table presents annual amortizations of notional amounts and weighted average interest rates by contractual maturity dates. Under the swap agreements, we receive interest quarterly from the counterparties and pay interest quarterly to the counterparties. The fair value of the existing senior credit facility is based on current

-42-

rates available to us for debt of the same remaining maturity. The fair value of the interest rate swap agreements have been determined based upon the current market settlement prices of comparable contracts.

(2) The average receive rate is based upon the LIBOR rates we were scheduled to receive at July 31, 2002. The rates presented are not intended to project our expectations for the future.

Based on a sensitivity analysis performed by the counterparties at July 31, 2002, a 100 basis point increase in interest rates would improve the fair value of the swap agreements to a liability of $8.1 million. Conversely, a 100 basis point decrease in interest rates would result in a fair value liability of $8.1 million.

Foreign Currency Risk

As a result of our acquisition of Van Leer Industrial Packaging, our operating income is subject to fluctuations in foreign currency exchange rates. The geographic presence of our operations mitigates this exposure to some degree. Additionally, our transaction exposure is somewhat limited because we produce and sell a majority of our products within each country in which we operate.

We have entered into foreign currency forward contracts to hedge certain short-term intercompany loan balances among our foreign businesses. At July 31, 2002, we had contracts outstanding of $23.8 million. The fair value of these contracts at July 31, 2002, was $0.2 million. Each of these contracts hedges the exposure of the euro against the fluctuation of various other currencies. A sensitivity analysis to changes in the euro against these other currencies indicates that if the euro uniformly weakened by 10% against all of the hedged currency exposures, the fair value of these instruments would increase by $0.9 million. Conversely, if the euro uniformly strengthened by 10% against all of the hedged currency exposures, the fair value of these instruments would decrease by $1.1 million. Any resulting changes in fair value would be offset by changes in the underlying hedged balance sheet position. The sensitivity analysis assumes a parallel shift in foreign currency exchange rates. The assumption that exchange rates change in parallel fashion may overstate the impact of changing exchange rates on assets and liabilities denominated in a foreign currency.

Commodity Price Risk

Our operating income is potentially affected to a significant degree by fluctuations in the cost of our raw materials and energy. See "Risk Factors." We do not have long-term supply contracts or hedging arrangements in place for obtaining our principal raw materials. In general, we do not use derivative instruments to hedge against fluctuations in commodity prices, although we have entered into forward purchase contracts related to the supply of natural gas at one of our containerboard mills.

BUSINESS

General

We are a leading global producer of industrial shipping containers with manufacturing facilities located in 41 countries. We offer a comprehensive line of industrial shipping container products, such as steel, fibre and plastic drums, intermediate bulk containers, closure systems for industrial shipping containers, and polycarbonate water bottles, which we complement with a variety

of value-added services. Our global presence and full range of products uniquely position this business to offer our customers a single source for their packaging needs and to be responsive to global market changes. We also produce containerboard and value-added corrugated products for niche markets in the United States and Canada. We own timberland in the southeastern United States which we cut and sell to third parties, as well as manage to maximize long-term value. Our customers range from Fortune 500 companies to medium and small-sized companies in a cross section of industries. Our manufacturing facilities are strategically located near many of our customers, reducing transportation costs.

For the twelve months ended July 31, 2002, we had consolidated net sales of $1.64 billion and Adjusted EBITDA of $202.3 million (including the results of our unrestricted timber subsidiary). During this same period, we generated approximately 39% of our consolidated net sales from markets outside North America. For the twelve months ended July 31, 2002, our Industrial Shipping Containers segment represented 77% of consolidated net sales, our Containerboard & Corrugated Products segment represented 20% of consolidated net sales and our Timber segment represented 3% of our consolidated net sales.

Our company's history goes back to 1877 when our predecessor manufactured wooden barrels, casks and kegs to transport post-Civil War U.S. goods nationally and internationally. We were incorporated as a Delaware corporation in 1926.

Competitive Strengths

Leading Market Position. We are a leading global producer of a comprehensive line of industrial shipping container products. Based on our internal estimates, we believe that we are the largest global and United States producer of steel drums, fibre drums, and closure systems, and we hold leading global and United States market positions in the production of plastic drums and intermediate bulk containers.

Global Presence. We have facilities in 41 countries and generated approximately 39% of our consolidated net sales from markets outside North America for the twelve months ended July 31, 2002. Our global presence provides us with access to faster growing foreign markets; insulates us from economic downturns in any one country or region; enables us to respond to our customers' changing needs; offers us the flexibility to shift resources in response to changes in global or regional conditions; and allows us to effectively service multinational customers. Our size and global reach enable us to realize economies of scale and cost savings by consolidating our purchasing, sales and marketing efforts.

Comprehensive Portfolio of Product Lines. We offer a comprehensive portfolio of product lines in our industrial shipping container segment, which enables us to offer our customers a single source for their packaging needs and to be responsive to global market changes. We have also developed numerous specialty products and applications for our corrugated products customers. Our ability to tailor our products and services to our customers' needs allows us to develop strong, long-term customer relationships and enhances profitability.

Diverse and Multinational Customer Base. We have developed longstanding relationships with prominent customers such as BASF Corporation, Bayer Corporation, BP p.l.c., The Dow Chemical Company, Exxon Mobil Corporation, Imperial Chemical Industries PLC, International Paper Company, Kraft Foods Inc., PPG Industries Inc., Temple-Inland Inc., Total Fina Elf S.A. and Weyerhaeuser Company. These large multinational corporations represent a range of industries, which we believe creates a strong, stable revenue source for our products and services. Moreover, we do not depend upon any one particular customer, as our ten largest customers accounted for less than 20% of our net sales in fiscal 2001.

Significant Operating Leverage. We believe our existing facilities have sufficient capacity to meet future growth in market demand for our products without significant capital expenditures. We believe we are positioned to profitably capitalize on an increase in demand which would result from an economic recovery.

Experienced Management Team. We have an experienced management team that has managed our operations during various industry cycles. This experience facilitated the acquisition of Van Leer Industrial Packaging and other recent acquisitions and joint ventures and their successful integration into our existing operations.

Business Strategy

We plan to build on our strengths by continuing to develop products and services that represent comprehensive packaging solutions for our customers. In addition, we intend to enhance our profitability by continuing to rationalize our operations, capitalize on our global resources and focus on high-margin products and services, as well as making targeted acquisitions when the opportunity is presented.

Our business segment strategies are as follows:

Industrial Shipping Containers

- Further extend our product and service offerings
- Leverage our full product line and global resources to serve our multinational customers
- Strategically implement packaging solutions
- Optimize manufacturing operations

Containerboard & Corrugated Products

- Continue to provide distinctive, value-added corrugated packaging and services
- Extend product expertise into specialty product offerings
- Expand sales in multiwall bag business in targeted industry segments
- Maintain cost-effectiveness and reliability of our containerboard mills and corrugated operations

Timber

- Maintain long-term focus on pine timberland
- Grow future value through intensive management and regeneration
- Increase timberland holdings by selling timberland with a higher and better use, or limited management potential, and reinvesting the sale proceeds to acquire additional timberland with a lower cost per acre

Products and Services

Our products are divided into three business segments: Industrial Shipping Containers; Containerboard & Corrugated Products; and Timber.

Industrial Shipping Containers

Our acquisition of Van Leer Industrial Packaging in March 2001 transformed us into a global provider with a full range of industrial shipping container products and services. The successful integration of this business allowed us to realize significant synergies by improving operating efficiencies from the consolidation of facilities and personnel, achieving economies of scale in purchasing, sales and marketing efforts, and enhancing manufacturing flexibility. Our Industrial Shipping Containers segment generated net sales of $1,268.9 million and EBITDA of $123.3 million for the twelve months ended July 31, 2002.

We seek to provide complete packaging solutions to our customers by offering a comprehensive range of products and services on a global basis. Our full range of shipping container products and numerous manufacturing facilities uniquely position us to offer our customers a single source for their packaging needs, respond to global market changes, and capitalize on faster growing markets such as Eastern Europe and Asia. With increasing customer demand for container life-cycle management, we also offer packaging services that include cleaning, recycling, disposal, trip leasing, filling, warehousing, outgoing logistics, onsite packaging and vendor management. We sell our products globally to customers in industries such as chemicals, paints and pigments, food and beverage, petroleum, industrial coatings, agricultural, pharmaceutical and mineral, among others.

The primary products of our Industrial Shipping Containers segment are steel drums, plastic drums and polycarbonate water bottles, fibre drums, IBCs and closure systems (caps on industrial packaging containers).

Steel Drums. We offer customers an extensive steel drum product line, with drums ranging in size from eight to 85 gallons. Our steel drums are sold to customers in the chemical, petroleum, food/juice, pharmaceutical and hazard waste industries. We manufacture several types of steel drums, including open head drums, tight head drums, and drums that are sold internally coated or uncoated. Open head drums are used primarily for granules and pastes while tight head drums are used mainly for liquids. Internally coated drums are sold to the chemicals industry since the coating prevents contact between the contents (i.e., chemical to be transported) and the steel body of the drum, preventing corrosion inside the drum. Uncoated drums are most often used to store petroleum-based oil and other non water-based materials. We also manufacture one of the industry's latest technologies--collapsible steel drums.

Plastic Drums. We manufacture a variety of tight-head and open-head drums ranging from one to 65 gallons. In addition, we manufacture plastic pails and small 250 ml. plastic bottles for the lube and oil industry. Our global presence allows us to service detergent, lubricant, pharmaceutical and agrochemical companies worldwide. Since plastic technologies are changing more rapidly than in any other segments of the industrial packaging products industry, we maintain a comprehensive research and development facility for plastic drums.

Fibre Drums. We sell fibre drums in various sizes ranging from 2 1/2 gallons to 55 gallons, which are used primarily in the fine chemical, pharmaceutical, paint and food industries. Relatively high valued, dry, granulated products are the most common filling goods of these drums. Fibre drums are attractive to customers as an inexpensive, safe and reliable storage and shipping medium. We manufacture fibre drums using high quality raw materials designed for product performance and durability. We also make specialty drums such as cheese drums, meat drums, a feedpak (tapered drum) and a harvestpak that transports certain food items.

Intermediate Bulk Containers. An IBC is a high-density polyethylene bottle contained in a steel reinforced cage attached to a pallet designed for greater efficiencies in shipping large quantities of liquid or viscous products. We sell

IBCs to companies in the chemical, pharmaceutical and food industries. We provide a wide array of products, including rigid single and multiple trip use containers and customized IBCs.

Closure Systems. Closure systems are the caps on industrial shipping containers and are manufactured for both metal and plastic containers. Closures are marketed and sold under the Tri-Sure(R) brand name.

Other Services. We offer our industrial shipping container customers a variety of value-added packaging services that include cleaning, recycling, disposal, trip leasing, filling, warehousing, outgoing logistics, onsite packaging and vendor management. We also offer research and development, engineering and design and testing services.

Containerboard & Corrugated Products

We concentrate on providing value-added, higher-margin corrugated products to niche markets complemented by a comprehensive range of packaging services, in comparison to many large paper companies which focus on high-volume, commodity production. We sell containerboard, corrugated sheets and other corrugated products and multiwall bags to customers in North America in industries such as the packaging, automotive, food, and building products, among others. Our corrugated container products are used to ship such diverse products as home appliances, small machinery, grocery products, building products, automotive components and books and furniture. Our full line of industrial and consumer multiwall bags is used to ship a wide range of industrial and consumer products primarily for the agricultural, chemical, building products and food industries. Our Containerboard & Corrugated Products segment generated net sales of $333.9 million and EBITDA of $53.3 million for the twelve months ended July 31, 2002.

The primary products of our Containerboard & Corrugated Products segment are containerboard, corrugated sheets and other corrugated products and multiwall bags.

Containerboard. Our two containerboard mills produce both semi-chemical and 100% recycled medium and 100% recycled linerboard. We produced approximately 531,292, 541,413, and 558,837 tons of linerboard and medium in 2001, 2000, and 1999, respectively, and have the capacity to produce approximately 570,000 tons per year of linerboard and medium at our two mills. We believe the cost positions of our containerboard mills are among the lowest in North America. Our capacity utilization rates are consistent with or slightly exceed typical industry rates.

Our containerboard mills and corrugated container operations are highly integrated. In fiscal 2001, our corrugated sheet, multiwall and fibre drum operations, including our CorrChoice, Inc. joint venture, consumed an amount of containerboard equal to approximately 70% of the containerboard tons produced by our two mills, which helps stabilize the results of this business. Our converting facilities have the capacity to produce approximately 4.0 billion square feet a year of corrugated products.

Corrugated Products. We manufacture corrugated sheets and other corrugated products in value-added shapes, sizes and designs. Our specialty corrugated products include honeycomb, airbag/void fillers, and promotional and storage packages. Our packaging specialists design and construct corrugated products to meet the specific packaging, point-of-purchase display, handling, transportation and protection needs of our customers' products. One of our products is a corrugated pallet packet which is collapsible, weighs less than ten pounds and

is recyclable. This corrugated product eliminates the need to store or dispose of wooden pallets. Our corrugated container products are used by manufacturers of consumer goods to ship such diverse products as home appliances, small machinery, grocery products, building products, automotive products, books, and furniture, as well as numerous other applications.

We have developed numerous specialty products and applications for particular customers, which utilize processes such as die-cutting, folding, gluing and color printing. We offer our customers total supply chain management services that include on-site packaging, warehousing and outgoing logistics of our customers' products, inventory management, vendor management, on-site labor management and contract filling.

Multiwall Bags. We manufacture a full line of industrial and consumer multiwall bags, ranging in size from one to 100 pounds. These products are designed to ship a wide range of industrial and consumer products, including fertilizers, chemicals, concrete, flour, sugar, feed, seed and pet foods, primarily for the agricultural, chemical, building products and food industries.

Timber

We purchased approximately 300,000 acres of timberland in the late 1800's and the early 1900's to provide raw materials for our wooden barrel plants. While no longer used as a source of raw materials, we still owned approximately 272,500 acres of timberland in the southeastern United States as of July 31, 2002. Our timber

management is focused on the active harvesting and regeneration of our timber properties to achieve sustainable long-term yields on our timberland. We seek to maintain a consistent cutting schedule for the sale of timber within the limits of market and weather conditions.

This segment includes both the sale of timber, which is recorded as net sales, and the sale of timberland, which is recorded in gain on sale of timberland. The Timber segment generated net sales of $39.3 million and EBITDA of $44.2 million for the twelve months ended July 31, 2002, including a $10.1 million gain on sale of timberland.

Marketing

Our marketing strategy is to sell a broad range of industrial shipping container and corrugated packaging products to marketers of industrial and consumer products. In managing the marketing activities of our containerboard mills, we seek to meet the quality and service needs of the customers of our package converting plants at the most efficient cost, while balancing those needs against the demands of our open market customers. Our converting plants focus on supplying both specialized packaging with high value graphics that enhance a product's market appeal and high-volume sales of commodity products.

We seek to serve a broad customer base for each of our segments and as a result serve thousands of accounts. Each plant has a sales force, and many have product design engineers and other service professionals who are in close contact with customers to respond to their specific needs. We complement the local plants' marketing and service capabilities with regional and national design and service capabilities. We also maintain national and, with respect to industrial shipping containers, global sales offices. National account business may be allocated to more than one plant because of production capability and equipment requirements.

Raw Materials

Steel, resin and paper are the principal raw materials for our Industrial Shipping Container segment, and pulpwood, waste paper for recycling, and paper are the principal raw materials for our Containerboard & Corrugated Products segment. We satisfy virtually all of our need for these raw materials through purchases on the open market or under short-term supply agreements. All of these raw materials are purchased in highly competitive, price-sensitive markets, which have historically exhibited price and demand cyclicality. From time to time, some of these raw materials have been in short supply, but to date these shortages have not had a significant effect on our operations. However, we cannot assure you that this situation will continue to be the case for any or all raw materials.

Competition

The markets in which we sell our products are highly competitive and comprised of many participants. Although no single company dominates, we face significant competitors in each of our businesses. Our competitors include large vertically integrated companies as well as numerous smaller companies. The industries in which we compete are particularly sensitive to price fluctuations caused by shifts in industry capacity and other cyclical industry conditions. Other competitive factors include design, quality and service, with varying emphasis depending on product line.

In the industrial container shipping industry, we compete by offering a comprehensive line of products on a global basis. In the containerboard and corrugated products industry, we compete by concentrating on providing value-added, higher-margin corrugated products to niche markets. In addition, over the past several years we have closed higher cost facilities and otherwise restructured our operations, which we believe has significantly improved our cost competitiveness.

Backlog

Seasonal fluctuations in marketing, production, shipments and inventories of our products are not significant. Because we supply a cross-section of industries and must make spot deliveries on a day-to-day basis as our products are required by our customers, we do not operate on a backlog to any significant degree and maintain only a limited level of finished goods. Many customers place their orders weekly for delivery during the week.

Research and Development

Our research and development centers use state-of-the-art technology to assist all levels of the manufacturing and sales processes, from raw materials supply through finished packaging performance. Research programs have provided improvements in many areas of our products, such as nestable plastic drums, transportation protection products and other specialty corrugated products and ro-con fibre drums. The technical staff conducts basic, applied and diagnostic research, develops processes and products and provides a wide range of other technical services.

We actively pursue applications for patents on new inventions and designs and attempt to protect our patents against infringement. Nevertheless, we believe that our success and growth are more dependent on the quality of our products and our relationships with our customers than on the extent of our

patent protection. We hold or are licensed to use certain patents, licenses, trademarks and trade names on products. However, we do not consider that the successful continuation of any material aspect of our business depends on such intellectual property.

Employees

We had approximately 10,000 employees as of July 31, 2002, of whom approximately 4,000 were employees of our North American operations and the remainder of whom were employees outside of North America. Of the North American employees, approximately 58% are represented by collective bargaining units. We believe that our employee relations are generally good. From time to time we are in the process of bargaining with unions representing production employees at a number of our operations. While the terms of these agreements may vary, we believe that the material terms of our collective bargaining agreements are customary for the industry and the type of facility, the classification of the employees and the geographic location covered by such agreements.

Properties

We maintain manufacturing, warehouse, and research and development facilities and sales offices in 41 countries throughout the world. Our facilities are properly maintained and equipped with machinery suitable for their use. Our manufacturing, warehouse, and research and development facilities as of May 31, 2002, are summarized below:

	Number of Facilities		
	Total	Owned	Leased
North America			
Industrial shipping container facilities	55	40	15

Corrugated container facilities	21	19	2

Litigation

We are a defendant in a number of lawsuits and claims arising out of the conduct of our business. While we cannot predict with certainty the ultimate results of such suits or proceedings, our management believes that the resolution of these matters will not have a material adverse effect on our consolidated financial results or results of operations.

Environmental Compliance

Our operations are subject to extensive federal, state, local and foreign laws, regulations, rules and ordinances relating to pollution, the protection of

the environment, the generation, storage, handling, transportation, treatment, disposal and remediation of hazardous substances and waste materials and numerous other environmental laws and regulations. In the ordinary course of business, we are subject to periodic environmental inspections and monitoring by governmental enforcement authorities. In addition, our production facilities require environmental permits that are subject to revocation, modification and renewal.

In the past we have made significant capital expenditures to comply with environmental matters, such as environmental control facilities, and from time to time we have been cited for violations of environmental regulations. However, none of these violations have involved sanctions of $100,000 or more. Furthermore, we do not currently anticipate material capital expenditures for environmental control facilities or for compliance with any other environmental matters for the remainder of this year. However, we could incur significant expenditures due to changes in environmental laws or regulations or the discovery of new information, and in that case expenditures could have a material adverse effect on our financial condition. It is difficult to predict with certainty the amount of capital expenditures that will be required to comply with future environmental laws and regulations.

We are currently investigating and, in some cases, remediating soil and/or groundwater that is or was contaminated by us or a third party at various sites owned by us. We believe that the total costs to bring all of our company-owned sites into compliance with applicable environmental laws will not be material to the results of our operations. Furthermore, we have established reserves for these environmental cleanup costs which, based on current information, we believe will be sufficient to cover our potential liability.

We also face potential liability as a result of releases, or threatened releases, of hazardous substances into the environment from various sites owned and operated by third parties at which company-generated wastes have allegedly been deposited. Generators of hazardous substances sent to off-site disposal locations at which environmental problems exist, as well as the owners of those sites and certain other classes of persons (generally referred to as "potentially responsible parties" or "PRPs"), are, in most instances, subject to joint and several liability for response costs for the investigation and remediation of such sites under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 ("CERCLA") and analogous state laws, regardless of fault or the lawfulness of the original disposal. We have received notice that we are or may be a PRP at a number of federal and/or state sites where response action may be required, and as a result may have joint and several liability for cleanup costs at such sites. However, liability for CERCLA sites is typically shared with other PRPs and costs are commonly allocated according to relative amounts of waste deposited. Our relative percentage of waste deposited at a majority of these sites is quite small. In addition to participating in remediation of sites owned by third parties, we have entered into consent orders for investigation and/or remediation of certain company-owned properties. Except with respect to our steel drum plant in Winfield, Kansas, to date we have been classified only as a "de minimus" PRP. At the CERCLA site in Winfield, Kansas, we are responsible for approximately one-third of the environmental cleanup costs. We believe our environmental cleanup costs at this site will be approximately $750,000, which was fully reserved on our financial statements as of July 31, 2002. To date, we have not been subject, in any instance, to sanctions of $100,000 or more.

Based on current information, we believe that the probable costs of the remediation of company-owned property and response costs under CERCLA and similar state laws will not have a material adverse effect on our financial condition or results of operations. We believe that our liability for these matters was adequately reserved as of July 31, 2002.

(1) Defined benefit pension plan of Greif Bros. Riverville Mill.
(2) Individual supplemental employee retirement benefits.

Our pension plan is a defined benefit pension plan with benefits based upon the average of the three consecutive highest-paying years of salary and bonus and upon years of credited service up to 30 years.

Supplementing the pension benefits of our pension plan, a supplemental retirement benefit agreement has been entered into with a select group of management and highly compensated employees to replace any benefits that the executive would otherwise receive if not for limitations imposed by the Internal Revenue Code of 1986.

The annual retirement benefits under the defined benefit pension plan of Greif Bros. Riverville Mill are calculated at 1% per year based upon the average of the five highest out of the last ten years of salary compensation.

None of the pension benefits described in this item is subject to offset because of the receipt of Social Security benefits or otherwise.

Director Compensation Matters

No directors fees are paid to directors who are full-time employees of our company or our subsidiary companies. Directors who are not our employees receive a retainer of $30,000 per year, plus $1,500 for each board meeting and $1,250 for each committee meeting attended. Committee chairs also receive an additional fee of $4,000 per year. Directors may defer all or a portion of their fees pursuant to a deferred compensation plan.

Under our Directors' Stock Option Plan, each outside director is granted an annual option to purchase 2,000 shares of our Class A Common Stock immediately following each annual meeting of stockholders. Options are granted at an exercise price equal to the market value of the Class A Common Stock on the date the options are granted. Options are immediately exercisable. In 2001, options to purchase a total of 10,000 shares of Class A Common Stock were granted to outside directors at an exercise price of $27.375 per share. Options expire ten years after the date of grant.

Compensation Committee Interlocks and Insider Participation

John C. Kane, David J. Olderman, Michael H. Dempsey and Daniel J. Gunsett served as members of our Compensation Committee for the 2001 fiscal year. During fiscal 2001, as well as in the current year, we retained the law firm of Baker &

Hostetler LLP to perform legal services on our behalf, including representing us on certain legal matters regarding the issuance of the notes. Mr. Gunsett is a partner of Baker & Hostetler LLP. See "Legal Matters."

None of our executive officers served during the 2001 fiscal year as a member of a compensation committee or as a director of any entity of which any of our directors served as an executive officer.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

During our 2001 fiscal year, as well as the current fiscal year, we retained the law firm of Baker & Hostetler LLP to perform legal services on our behalf, including representing us on certain legal matters regarding the issuance of the notes. Daniel J. Gunsett, a partner of that firm, is one of our directors and a member of the Audit, Compensation, Executive, Nominating, Stock Option, and Stock Repurchase Committees. See "Legal Matters."

In February 1999, our Board of Directors authorized a stock repurchase program which provides for both open-market and privately negotiated stock repurchases of our Class A and Class B Common Stock. In accordance with this program, during our 2001 fiscal year we repurchased 24,500 shares of Class B Common Stock at a total purchase price of $672,000 from the John C. Dempsey Trust, and during the current fiscal year we have repurchased 50,000 shares of Class B Common Stock at a total purchase price of $1,608,800 from this trust. Michael H. Dempsey, a director of our company, is the trustee and a beneficiary of this trust. The purchase prices for these repurchases were determined by a formula based upon the average of the high and low sale prices for the Class B Common Stock on the Nasdaq Market during the 30 calendar days immediately preceding the date of each respective sale.

Prior to the enactment of the Sarbanes-Oxley Act of 2002, from time to time we made loans to employees, including our executive officers. The following table summarizes the activity related to loans to our executive officers during the period from November 1, 2000 to August 31, 2002.

DESCRIPTION OF SENIOR CREDIT FACILITY

Amended and Restated Senior Credit Facility

General

On August 23, 2002, we entered into an amended and restated senior secured credit agreement with a syndicate of financial institutions, as lenders, Salomon Smith Barney Inc., as joint lead arranger and sole book-runner, Citicorp North America, Inc., as administrative agent, Deutsche Bank Trust Company Americas and KeyBank National Bank Association, as co-syndication agents, Sun Trust Bank, as documentation agent, and Deutsche Bank Securities, Inc. as joint lead arranger. Certain of our foreign subsidiaries are also borrowers under the amended and restated senior credit facility.

The amended and restated senior credit facility consists of a $300 million term loan and a $250 million revolving multicurrency credit facility. The term loan periodically reduces through its maturity date of August 23, 2009. In addition, we are required to make mandatory prepayments under certain conditions. The revolving credit facility matures on February 28, 2006. The interest component of this facility has three base rates, a Eurocurrency rate, an alternate base rate and an overnight rate, depending on the type of loan, plus a margin which depends on the type of loan. The Eurocurrency rate is determined by the currency in which the loan is denominated (i.e., U.S. $, Euros, Australian Dollars, etc.). We are required to pay a commitment fee each quarter based upon the total unused commitment amount and upon our leverage ratio.

The amended and restated senior credit facility is guaranteed by our domestic subsidiaries. The repayment of this facility is secured by a first priority lien (subject to permitted encumbrances) on substantially all of our and each guarantor's personal property and certain of our and each guarantor's real property, all capital stock of the guarantors and, in part, the capital stock of the foreign subsidiary borrowers and any intercompany notes payable to them.

Covenants

The amended and restated senior credit facility requires us to meet certain financial tests, including, but not limited to, maximum leverage and minimum interest coverage ratios. In addition, the amended and restated senior credit facility contains certain covenants which, among other things, limit the incurrence of additional debt, guarantees, liens, investments, asset sales, dividends, restricted payments, acquisitions, mergers and consolidations, change of business, transactions with affiliates, prepayments, repurchases and redemptions of certain other indebtedness and other matters customarily restricted in such agreements.

Events of Default

The amended and restated senior credit facility contains events of default, including nonpayment of principal, interest and fees, violation of covenants, inaccuracy of representations or warranties in any material respect, cross default and cross acceleration to certain other indebtedness, bankruptcy, ERISA, environmental matters, material judgments and material liabilities and change of control.

THE EXCHANGE OFFER

Purpose and Effect of the Exchange Offer

On July 31, 2002, we sold $250.0 million in aggregate principal amount at maturity of the outstanding original notes (the "original notes" or the "outstanding notes") in a private placement. The original notes were sold to the initial purchasers who in turn resold the notes to a limited number of "Qualified Institutional Buyers," as defined under the Securities Act. In connection with the sale of the outstanding notes, we and the initial purchasers entered into a registration rights agreement. Under the registration rights agreement, we have agreed to file a registration statement regarding the exchange of the outstanding notes for new exchange notes which are registered under the Securities Act. We have also agreed to use our best efforts to cause the registration statement to become effective with the SEC, and we have agreed to conduct this exchange offer after the registration statement is declared effective. We will use our best efforts to keep this registration statement continuously effective during the one-year period following the closing of the exchange offer. You are a holder with respect to the exchange offer if you are a person in whose name any outstanding notes are registered on our books or any person who has obtained a properly completed assignment of outstanding notes from the registered holder.

We are making the exchange offer to comply with our obligations under the registration rights agreement. A copy of the registration rights agreement has been filed as an exhibit to the registration statement of which this prospectus is a part.

In order to participate in the exchange offer, you must represent to us, among other things, that:

- you are acquiring the exchange notes under the exchange offer in the ordinary course of your business;
- you are not engaged in, and do not intend to engage in, a distribution of the exchange notes;

- you do not have any arrangement or understanding with any person to participate in the distribution of the exchange notes;
- you are not a broker-dealer tendering outstanding notes acquired directly from us for your own account;
- you are not one of our "affiliates," as defined in Rule 405 of the Securities Act; and
- you are not prohibited by law or any policy of the SEC from participating in the exchange offer.

Resale of the Exchange Notes

Based on a previous interpretation by the Staff of the SEC set forth in no-action letters issued to third parties, including Exxon Capital Holdings Corporation (available May 13, 1988) and Morgan Stanley & Co. Incorporated (available June 5, 1991), we believe that the exchange notes issued in the exchange offer may be offered for resale, resold and otherwise transferred by you, except if you are an affiliate of us, without compliance with the registration and prospectus delivery provisions of the Securities Act, provided that the representations set forth in "-Purpose and Effect of the Exchange Offer" apply to you.

If you tender in the exchange offer with the intention of participating in a distribution of the exchange notes, you cannot rely on the interpretation by the Staff of the SEC as set forth in the Morgan Stanley & Co. Incorporated no-action letter and other similar letters, and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with a secondary resale transaction. If our belief regarding resale is inaccurate, those who transfer exchange notes in violation of the prospectus delivery provisions of the Securities Act and without an exemption from registration under the federal securities laws may incur liability under these laws. We do not assume or indemnify you against this liability.

The exchange offer is not being made to, nor will we accept surrenders for exchange from, holders of outstanding notes in any jurisdiction in which the exchange offer or the acceptance thereof would not be in compliance with the securities or blue sky laws of the particular jurisdiction. Each broker-dealer that receives exchange notes for its own account in exchange for outstanding notes, where the outstanding notes were acquired by that broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of the exchange notes. See "Plan of Distribution." In order to

facilitate the disposition of exchange notes by broker-dealers participating in the exchange offer, we have agreed, subject to specific conditions, to make this prospectus, as it may be amended or supplemented from time to time, available for delivery by those broker-dealers to satisfy their prospectus delivery obligations under the Securities Act. Any holder that is a broker-dealer participating in the exchange offer must notify the exchange agent at the telephone number set forth in the enclosed letter of transmittal and must comply with the procedures for broker-dealers participating in the exchange offer. We have not entered into any arrangement or understanding with any person to distribute the exchange notes to be received in the exchange offer.

Terms of the Exchange Offer

This prospectus and the accompanying letter of transmittal together constitute the exchange offer. Upon the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal, we will accept for exchange outstanding notes which are properly tendered on or before the expiration date and are not withdrawn as permitted below. The expiration date for this exchange offer is 5:00 p.m., New York City time, on __________, 2002, or such later date and time to which we, in our sole discretion, extend the exchange offer; provided, however, that the latest time and date to which we can extend the exchange offer is 5:00 p.m., New York City time, on _______, 2002.

As of the date of this prospectus, $250.0 million in aggregate principal amount at maturity of the original notes are outstanding. This prospectus, together with the letter of transmittal, is being sent to all registered holders of the original notes on this date. There will be no fixed record date for determining registered holders of the original notes entitled to participate in the exchange offer; however, holders of the original notes must tender their certificates therefor or cause their original notes to be tendered by book-entry transfer before the expiration date of the exchange offer to participate.

The form and terms of the new notes being issued in the exchange offer are the same as the form and terms of the old securities, except that:

- the exchange notes being issued in the exchange offer will have been registered under the Securities Act;

- the exchange notes being issued in the exchange offer will not bear the restrictive legends restricting their transfer under the Securities Act; and

- the exchange notes being issued in the exchange offer will not contain the registration rights and liquidated damages provisions contained in the old securities.

Outstanding capital securities being tendered in the exchange offer must be in denominations of the principal amount of $1,000 and integral multiples of that amount.

We intend to conduct the exchange offer in accordance with the provisions of the registration rights agreement and applicable federal securities laws. Original notes that are not tendered for exchange under the exchange offer will remain outstanding and will be entitled to the rights under the related indenture. Any original notes not tendered for exchange will not retain any rights under the registration rights agreement and will remain subject to transfer restrictions. See " - Consequences of Failure to Exchange."

We will be deemed to have accepted validly tendered outstanding notes when, as and if we will have given oral or written notice of its acceptance to the exchange agent. The exchange agent will act as agent for the tendering holders for the purposes of receiving the exchange notes from us. If any tendered outstanding notes are not accepted for exchange because of an invalid tender, the occurrence of other events set forth in this prospectus, or otherwise, certificates for any unaccepted outstanding notes will be returned, or, in the case of outstanding notes tendered by book-entry transfer, those unaccepted outstanding notes will be credited to an account maintained with The Depository Trust Company, without expense to the tendering holder of those outstanding notes as promptly as practicable after the expiration date of the exchange offer. See " - Procedures for Tendering."

Those who tender outstanding notes in the exchange offer will not be required to pay brokerage commission or fees or, subject to the instruction in the letter of transmittal, transfer taxes with respect to the exchange under the

exchange offer. We will pay all charges and expenses, other than applicable taxes described below, in connection with the exchange offer. See " - Fees and Expenses."

Expiration Date; Extensions, Amendments

The expiration date is 5:00 p.m., New York City time on ___________, 2002, unless we, in our sole discretion, extend the expiration date of the exchange offer, in which case, the expiration date will be the latest date and time to which the exchange offer may be extended; provided, however, that the latest time and date to which we can extend the exchange offer is 5:00 p.m., New York City time, on _______, 2002. We may, in our sole discretion, terminate the exchange offer.

To extend the expiration date, we will notify the exchange agent of any extension by oral or written notice prior to 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date, and we will notify the holders of outstanding notes, or cause them to be notified, by making a public announcement of the extension, as promptly as practicable thereafter. Such notification may state that we are extending this exchange offer for a specified period of time, but in no event later than _________, 2002.

We reserve the right (1) to refuse to accept any outstanding notes, to extend the expiration date of this exchange offer or to terminate this exchange offer and not accept any outstanding notes for exchange if any of the conditions set forth herein under "-Conditions to the Exchange Offer" shall not have been satisfied or waived by us prior to the expiration date, by giving oral or written notice of such delay, extension or termination to the exchange agent; or (2) to amend the terms of this exchange offer in any manner deemed by us to be advantageous to the holders of the outstanding notes. Any such refusal in acceptance, extension, termination or amendment will be followed as promptly as practicable by oral or written notice thereof to the exchange agent. If this exchange offer is amended in a manner determined by us to constitute a material change, we will promptly disclose such amendment in a manner reasonably calculated to inform the holders of the outstanding notes of such amendment.

Without limiting the manner in which we may choose to make a public announcement of any delay, extension, amendment or termination of the exchange offer, we will have no obligation to publish, advertise or otherwise communicate that public announcement, other than by making a timely release to an appropriate news agency.

Conditions to the Exchange Offer

Without regard to other terms of the exchange offer, we are not required to accept for exchange, or to issue exchange notes in the exchange offer for, any outstanding notes and we may terminate or amend the exchange offer, if at any time before the acceptance of outstanding notes for exchange, if:

- any federal law, statute, rule or regulation is proposed, adopted or enacted which, in our judgment, might reasonably be expected to impair our ability to proceed with the exchange offer;

- any action or proceeding is instituted or threatened in any court or by or before any governmental agency with respect to the exchange offer that, in our judgment, might impair our ability to proceed with the exchange offer;

- any stop order is threatened or in effect with respect to the registration statement of which this prospectus constitutes a part or the qualification of the indenture under the Trust Indenture Act of 1939;

- any governmental approval or approval by holders of the outstanding notes has not been obtained if we, in our reasonable judgment, deem this approval necessary for the consummation of the exchange offer; or

- there occurs a change in the current interpretation by the Staff of the SEC which permits the exchange notes to be issued in the exchange offer to be offered for resale, resold and otherwise transferred by the holders of the exchange notes, other than broker-dealers and any holder which is an "affiliate" of ours within the meaning of Rule 405 under the Securities Act, without compliance with the registration and prospectus delivery provisions of the Securities Act, provided that the exchange notes acquired in the exchange offer are acquired in the ordinary course of that holder's business and that holder has no arrangement or understanding with any person to participate in the distribution of the exchange notes to be issued in the exchange offer.

-61-

The preceding conditions are for our sole benefit and we may assert them regardless of the circumstances giving rise to any such condition. The failure by us at any time to exercise any of the foregoing rights shall not be deemed a waiver of any such right, and each such right shall be deemed an ongoing right which may be asserted any time and from time to time by us. If we determine that any of these conditions is not satisfied, we may:

- refuse to accept any outstanding notes and return all tendered outstanding notes to the tendering holders, or, in the case of outstanding notes tendered by book-entry transfer, credit those outstanding notes to an account maintained with The Depository Trust Company ("DTC");
- extend the expiration date of the exchange offer and retain all outstanding notes tendered before the expiration date of the exchange offer, subject, however, to the rights of the holders who have tendered the outstanding notes to withdraw their outstanding notes; or
- waive unsatisfied conditions with respect to the exchange offer and accept all properly tendered outstanding notes that have not been withdrawn. If the waiver constitutes a material change to the exchange offer, we will promptly disclose the waiver by means of a prospectus supplement that will be distributed to the registered holders of the outstanding notes, and we will extend the exchange offer for a period of up to ten business days, depending on the significance of the waiver and the manner of disclosure of the registered holders of the outstanding notes, if the exchange offer would otherwise expire during this period.

Procedures for Tendering

To effectively tender outstanding notes held in physical form, a holder of the outstanding notes must complete, sign and date the letter of transmittal, or a facsimile thereof, have the signatures thereon guaranteed if required by the letter of transmittal, and mail or otherwise deliver such letter of transmittal or a facsimile thereof, together with the certificates

representing such outstanding notes and any other required documents, to the exchange agent prior to 5:00 p.m., New York City time, on the expiration date.

A holder may also, in lieu of the above, deposit outstanding notes held in physical form with DTC and make a book-entry transfer as set forth below.

To effectively tender outstanding notes by book-entry transfer to the account maintained by the exchange agent at DTC, holders of outstanding notes may request a DTC participant to, on their behalf, in lieu of physically completing and signing the letter of transmittal and delivering it to the exchange agent, electronically transmit their acceptance through DTC's Automated Tender Offer Program ("ATOP"), and DTC will then edit and verify the acceptance and send an agent's message (an "Agent's Message") to the exchange agent for its acceptance. An Agent's Message is a message transmitted by DTC to, and received by, the exchange agent and forming a part of the Book-Entry Confirmation (as defined below), which states that DTC has received an express acknowledgment from the DTC participant tendering outstanding notes on behalf of the holder of such outstanding notes that such DTC participant has received and agrees to bound by the terms and conditions of the exchange offer as set forth in this prospectus and the related letter of transmittal and that we may enforce such agreement against such participant. Certificates representing outstanding notes, or a timely confirmation of a book-entry transfer of the outstanding notes into the exchange agent's account at DTC (a "Book-Entry Confirmation"), pursuant to the book-entry transfer procedures described below, as well as either a properly completed and duly executed consent and letter of transmittal (or manually signed facsimile thereof), or an Agent's Message pursuant to DTC's ATOP system, and any other documents required by the letter of transmittal, must be mailed or delivered to the exchange agent on or prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer.

Holders of outstanding notes whose certificates for outstanding notes are not lost but are not immediately available or who cannot deliver their certificates and all other documents required by the letter of transmittal to the exchange agent on or prior to the expiration date, or who cannot complete the procedures for book-entry transfer on or prior to the expiration date, may tender their outstanding notes according to the guaranteed delivery procedures set forth in "--The Exchange Offer-Guaranteed Delivery Procedures" section of this prospectus.

The method of delivery of the letter of transmittal, any required signature guarantees, the outstanding notes and all other required documents, including delivery of outstanding notes through DTC, and transmission of an Agent's Message through DTC's ATOP system, is at the election and risk of the tendering holders, and the delivery will be deemed made only when actually received or confirmed by the exchange agent. If outstanding notes are sent by mail, it is suggested that the mailing be registered mail, properly insured, with return receipt requested, made sufficiently in advance of the expiration date, as desired, to permit delivery to the exchange agent prior to 5:00 p.m. on the expiration date. Holders tendering outstanding notes through DTC's ATOP system must allow sufficient time for completion of the ATOP procedures during the normal business hours of DTC on such respective date.

No outstanding notes, letters of transmittal, Agent's Messages or other required documents should be sent to us. Delivery of all outstanding notes, letters of transmittal, Agent's Messages and other documents must be made to the exchange agent. Holders may also request their respective brokers, dealers, commercial banks, trust companies or nominees to effect such tender for such

holders.

The tender by a holder of outstanding notes will constitute an agreement between such holder and us in accordance with the terms and subject to the conditions set forth herein and in the letter of transmittal. Holders of outstanding notes registered in the name of a broker, dealer, commercial bank, trust company or other nominee who wish to tender must contact such registered holder promptly and instruct such registered holder how to act on such non-registered holder's behalf.

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by a member firm of a registered national securities exchange or of the National Association of Securities Dealers, Inc., a commercial bank or trust company having an office or correspondent in the United States or an "eligible guarantor institution" within the meaning of Rule 17Ad-15 under the Exchange Act (each an "Eligible Institution") unless the outstanding notes tendered pursuant thereto are tendered (1) by a registered holder of outstanding notes who has not completed the box entitled "Special Issuance Instructions" or "Special Delivery Instructions" on the letter of transmittal or (2) for the account of an Eligible Institution.

If a letter of transmittal is signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such person should so indicate when signing, and, unless waived by us, evidence satisfactory to us of their authority to so act must be submitted with such letter of transmittal.

All questions as to the validity, form, eligibility, time of receipt and withdrawal of the tendered outstanding notes will be determined by us in our sole discretion, which determination will be final and binding. We reserve the absolute right to reject any and all outstanding notes not validly tendered or any outstanding notes which, if accepted, would, in the opinion of our counsel, be unlawful. We also reserve the absolute right to waive any irregularities or conditions of tender as to particular outstanding notes. Our interpretation of the terms and conditions of this exchange offer, including the instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of outstanding notes must be cured within such time as we shall determine. None of us, the exchange agent, or any other person shall be under any duty to give notification of defects or irregularities with respect to tenders of outstanding notes, nor shall any of them incur any liability for failure to give such notification. Tenders of outstanding notes will not be deemed to have been made until such irregularities have been cured or waived. Any outstanding notes received by the exchange agent that are not validly tendered and as to which the defects or irregularities have not been cured or waived will be returned without cost to such holder by the exchange agent, unless otherwise provided in the letter of transmittal, as soon as practicable following the expiration date of the exchange offer.

We reserve the right, in our sole discretion, to purchase or make offers for any outstanding notes after the expiration date of the exchange offer, from time to time, through open market or privately negotiated transactions, one or more additional exchange or tender offers, or otherwise, as permitted by law, the indenture and our other debt agreements. Following consummation of this exchange offer, the terms of any such purchases or offers could differ materially from the terms of this exchange offer.

By tendering, each holder will represent to us that, among other things,

the person acquiring the exchange notes in the exchange offer is obtaining them in the ordinary course of its business, whether or not such person is the holder, and that neither the holder nor such other person has any arrangement or understanding with any person to participate in the distribution of the exchange notes issued in the exchange offer. If any holder or any such other person is an "affiliate," as defined under Rule 405 of the Securities Act, of us, or is engaged in or intends to engage in or has an arrangement or understanding with any person to participate in a distribution of exchange notes to be acquired in the exchange offer, that holder or any such other person:

- may not rely on the applicable interpretations of the staff of the SEC; and
- must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer who acquired its outstanding notes as a result of market-making activities or other trading activities and thereafter receives exchange notes issued for its own account in the exchange offer, must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes issued in the exchange offer. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act. See "Plan of Distribution" for a discussion of the exchange and resale obligations of broker-dealers in connection with the exchange offer.

Acceptance of Outstanding Notes for Exchange; Delivery of Exchange Notes Issued in the Exchange Offer

Upon satisfaction or waiver of all of the conditions to the exchange offer, we will accept, promptly after the expiration date, all outstanding notes properly tendered and will issue exchange notes registered under the Securities Act. For purposes of the exchange offer, we will be deemed to have accepted properly tendered outstanding notes for exchange when, as and if we have given oral or written notice to the exchange agent, with written confirmation of any oral notice to be given promptly thereafter. See " - Conditions to the Exchange Offer" for a discussion of the conditions that must be satisfied before we accept any outstanding notes for exchange.

For each outstanding note accepted for exchange, the holder will receive an exchange note registered under the Securities Act having a principal amount equal to that of the surrendered outstanding note. Accordingly, registered holders of exchange notes issued in the exchange offer on the relevant record date for the first interest payment date following the completion of the exchange offer will receive interest accruing from the most recent date to which interest has been paid or, if no interest has been paid on the outstanding notes, from July 31, 2002. Outstanding notes that we accept for exchange will cease to accrue interest from and after the date of completion of the exchange offer. Under the registration rights agreement, we may be required to make additional payments in the form of liquidated damages to the holders of the outstanding notes under circumstances relating to the timing of the exchange offer.

In all cases, we will issue exchange notes in the exchange offer for outstanding notes that are accepted for exchange only after the exchange agent timely receives:

- certificates for such outstanding notes or a timely book-entry confirmation of such outstanding notes into the exchange agent's account at DTC;
- a properly completed and duly executed letter of transmittal or an agent's message; and
- all other required documents.

If for any reason set forth in the terms and conditions of the exchange offer we do not accept any tendered outstanding notes, or if a holder submits outstanding notes for a greater principal amount than the holder desires to exchange, we will return such unaccepted or non-exchanged outstanding note without cost to the tendering holder. In the case of outstanding notes tendered by book-entry transfer into the exchange agent's account at DTC, such non-exchanged outstanding notes will be credited to an account maintained with DTC. We will return the outstanding notes or have them credited to the DTC account as promptly as practicable after the expiration or termination of the exchange offer.

Book-Entry Transfer

The exchange agent will make a request to establish an account with respect to the outstanding notes at DTC for purposes of this exchange offer within two business days after the date of this prospectus. Any financial institution that is a participant in DTC's ATOP systems may use DTC's ATOP procedures to tender outstanding notes. Such participant may make book-entry delivery of outstanding notes by causing DTC to transfer such outstanding notes into the exchange agent's account at DTC in accordance with DTC's procedures for transfer. However, although delivery of outstanding notes may be effected through book-entry transfer at DTC, the letter of transmittal, or facsimile thereof, with any required signature guarantees, or an Agent's Message pursuant to the ATOP procedures and any other required documents must, in any case, be transmitted to and received by the exchange agent at the address set forth in this prospectus on or prior to the expiration date of the exchange offer, or the guaranteed delivery procedures described below must be complied with. Delivery of documents to DTC will not constitute valid delivery to the exchange agent.

Guaranteed Delivery Procedures

Holders whose certificates for outstanding notes are not lost but are not immediately available or who cannot deliver their certificates and all other required documents to the exchange agent on or prior to the expiration date, or who cannot complete the procedures for book-entry transfer on or prior to the expiration date, may nevertheless effect a tender of their outstanding notes if:

- the tender is made through an eligible institution;
- prior to the expiration date of the exchange offer, the exchange agent receives by facsimile transmission, mail or hand delivery from such eligible institution a validly completed and duly executed letter of transmittal (or facsimile thereof) or an Agent's Message pursuant to DTC's ATOP system, and a notice of guaranteed delivery, substantially in the form provided with this prospectus, which
  - sets forth the name and address of the holder of the outstanding notes and the amount of outstanding notes tendered;
  - states that the tender is being made thereby; and
  - guarantees that within three NYSE trading days after the date of execution of the notice of guaranteed delivery, the certificates for all physically tendered outstanding notes, in proper form for transfer, or a Book-Entry Confirmation, as the case may be, and any other documents required by the letter of transmittal will be deposited by the eligible institution with

the exchange agent; and

- the certificates for all physically tendered outstanding notes, in proper form for transfer, or a Book-Entry Confirmation, as the case may be, and all other documents required by the letter of transmittal are received by the exchange agent within three NYSE trading days after the date of execution of the notice of guaranteed delivery.

Withdrawal of Tenders

Tenders of outstanding notes may be properly withdrawn at any time prior 5:00 p.m., New York City time, on the expiration date of the exchange offer.

For a withdrawal of a tender to be effective, a written notice of withdrawal delivered by hand, overnight by courier or by mail, or a manually signed facsimile transmission, or a properly transmitted "Request Message" through DTC's ATOP system, must be received by the exchange agent prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer. Any such notice of withdrawal must:

- specify the name of the person that tendered the outstanding notes to be properly withdrawn;

- identify the outstanding notes to be properly withdrawn, including the principal amount of such outstanding notes;
- in the case of outstanding notes tendered by book-entry transfer, specify the number of the account at DTC from which the outstanding notes were tendered and specify the name and number of the account at DTC to be credited with the properly withdrawn outstanding notes and otherwise comply with the procedures of such facility;
- contain a statement that such holder is withdrawing its election to have such outstanding notes exchanged for exchange notes;
- other than a notice transmitted through DTC's ATOP system, be signed by the holder in the same manner as the original signature on the letter of transmittal by which such outstanding notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer to have the Trustee with respect to the outstanding notes register the transfer of such outstanding notes in the name of the person withdrawing the tender; and
- specify the name in which such outstanding notes are registered, if different from the person who tendered such outstanding notes.

All questions as to the validity, form, eligibility and time of receipt of such notice will be determined by us, and our determination shall be final and binding on all parties. Any outstanding notes so properly withdrawn will be deemed not to have been validly tendered for exchange for purposes of this exchange offer and no exchange notes will be issued with respect thereto unless the outstanding notes so withdrawn are validly retendered thereafter. Any outstanding notes that have been tendered for exchange but are not exchanged for any reason will be returned to the tendering holder thereof without cost to such holder, or, in the case of outstanding notes tendered by book-entry transfer into the exchange agent's account at DTC pursuant to the book-entry transfer procedures described above, such outstanding notes will be credited to an account maintained with DTC for the outstanding notes as soon as practicable after withdrawal, rejection of tender or termination of the exchange offer.

Properly withdrawn outstanding notes may be retendered by following the procedures described above at any time on or prior to the expiration date of the exchange offer.

Termination of Certain Rights

All rights given to holders of outstanding notes under the registration rights agreement will terminate upon the consummation of the exchange offer except with respect to our duty:

- to use our best efforts to keep the registration statement continuously effective during the one-year period following the closing of the exchange offer; and
- to provide copies of the latest version of this prospectus to any broker-dealer that requests copies of this prospectus for use in connection with any resale by that broker-dealer of exchange notes received for its own account pursuant to the exchange offer in exchange for outstanding notes acquired for its own account as a result of market-making or other trading activities, subject to the conditions described above under " - Resale of the Exchange Notes."

Exchange Agent

J.P. Morgan Trust Company, National Association, has been appointed as exchange agent for this exchange offer. Letters of transmittal, Agent's or Request Messages through DTC's ATOP system, notices of guaranteed delivery and all correspondence in connection with this exchange offer should be sent or delivered by each holder of outstanding notes or a beneficial owner's broker, dealer, commercial bank, trust company or other nominee to the exchange agent at the addresses set forth in the letter of transmittal. We will pay the exchange agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses in connection therewith.

Fees and Expenses

The expenses of soliciting tenders pursuant to this exchange offer will be paid by us.

Except as described above, we will not make any payments to brokers, dealers or other persons soliciting acceptances of this exchange offer. We will, however, pay the reasonable and customary fees and out-of-pocket expenses of the exchange agent, the Trustee, and legal, accounting, and related fees and expenses. We may also pay brokerage houses and other custodians, nominees and fiduciaries their reasonable out-of-pocket expenses incurred in forwarding copies of this prospectus and related documents to the beneficial owners of the outstanding notes, and in handling or forwarding tenders for exchange.

We will also pay all transfer taxes, if any, applicable to the exchange of outstanding notes pursuant to this exchange offer. If, however, outstanding notes are to be issued for principal amounts not tendered or accepted for exchange in the name of any person other than the registered holder of the outstanding notes tendered or if tendered outstanding notes are registered in the name of any person other than the person signing the letter of transmittal, or if a transfer tax is imposed for any reason other than the exchange of outstanding notes pursuant to this exchange offer, then the amount of any such transfer taxes, whether imposed on the registered holder or any other persons, will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exemption therefrom is not submitted with the

consent and letter of transmittal, the amount of such transfer taxes will be billed directly to such tendering holder.

The estimated cash expenses to be incurred in connection with the exchange offer are estimated in the aggregate to be approximately $75,000. These expenses include registration fees, fees and expenses of the exchange agent, accounting and legal fees, and printing costs, among others.

Consequences of Failure of Exchange Outstanding Securities

Holders who desire to tender their outstanding notes in exchange for exchange notes registered under the Securities Act should allow sufficient time to ensure timely delivery. Neither the exchange agent nor us is under any duty to give notification of defects or irregularities with respect to the tenders of outstanding notes for exchange.

Outstanding notes that are not tendered or are tendered but not accepted will, following the completion of the exchange offer, continue to be subject to the provisions in the indenture regarding the transfer and exchange of the outstanding notes and the existing restrictions on transfer set forth in the legend on the outstanding notes and in the offering memorandum dated July 25, 2002, relating to the outstanding notes. Except in limited circumstances with respect to specific types of holders of outstanding notes, we will have no further obligation to provide for the registration under the Securities Act of such outstanding notes. In general, outstanding notes, unless registered under the Securities Act, may not be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws.

We do not currently anticipate that we will take any action to register the outstanding notes under the Securities Act or under any state securities laws. Upon completion of the exchange offer, holders of the outstanding notes will not be entitled to any further registration rights under the registration rights agreement, except under limited circumstances.

Holders of the exchange notes issued in the exchange offer and any outstanding notes which remain outstanding after completion of the exchange offer will vote together as a single class for purposes of determining whether holders of the requisite percentage of the class have taken certain actions or exercised certain rights under the indenture.

DESCRIPTION OF NOTES

You can find the definitions of certain terms used in this description under the subheading "Certain Definitions." In this description, the words "Company" and "we" refer only to Greif Bros. Corporation and not to any of its subsidiaries.

The original notes were, and the exchange notes will be, issued under an indenture dated as of July 31, 2002 (the "indenture"), among the Company, the Subsidiary Guarantors and J.P. Morgan Trust Company, National Association, as trustee (the "trustee"). We can issue up to $300.0 million of additional notes at later dates under the same indenture. We can issue additional notes as part of the same series or as an additional series. Any additional notes that we issue in the future will be identical in all respects to the original notes and exchange notes, except that the notes issued in the future will have different issuance prices and issuance dates.

We urge you to read the indenture because it, and not this description, defines your rights as a holder of these notes. A copy of the indenture is available upon request to the Company at the address indicated under "Where You Can Find More Information."

Principal, Maturity and Interest

We have issued $250 million principal amount of original notes in the private offering. The notes will mature on August 1, 2012. We will issue notes only in fully registered form without coupons, in denominations of $1,000 and integral multiples of $1,000.

Interest on the notes will accrue at a rate of 8.875% per annum and will be payable semi-annually in arrears on February 1 and August 1, commencing on February 1, 2003. We will pay interest to those persons who were holders of record on the January 15 and July 15, respectively, immediately preceding each interest payment date.

Interest on the notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

The interest rate on the notes we are offering now will increase if:

(1) we do not file on a timely basis:

(A) a registration statement to allow for an exchange offer or

(B) a resale shelf registration statement for those notes;

(2) the registration statement referred to above is not declared effective on a timely basis; or

(3) certain other conditions are not satisfied.

Any interest payable as a result of any such increase in the interest rate is referred to as "Special Interest." You should refer to the description under the heading "Exchange Offer; Registration Rights" for a more detailed description of the circumstances under which the interest rate will increase.

Subordination

The notes will be:

. senior subordinated, unsecured obligations of the Company;

. guaranteed on a senior subordinated, unsecured basis by the Subsidiary Guarantors;

. equal in ranking ("pari passu") in right of payment with each other and with all other existing and future Senior Subordinated Debt of the Company and the Subsidiary Guarantors; and

. senior to all existing and future Subordinated Obligations of the Company and the Subsidiary Guarantors.

The payment of principal of, premium, if any, and interest on and all other amounts payable in respect of the notes, and payment under any Subsidiary Guaranty, will be subordinated in right of payment to the payment in cash when due of all Senior Debt of the Company or the relevant Subsidiary Guarantor, as the case may be. As a result of this subordination, holders of Senior Debt will be entitled, in any of the following situations, to receive full payment in cash on all obligations owed to them before any kind of payment can be made to holders of the notes:

- liquidation or dissolution of the Company;
- bankruptcy, reorganization, receivership or similar proceedings;
- assignments for the benefit of the Company's creditors; or
- any marshaling of the Company's assets and liabilities.

As of July 31, 2002, on a pro forma basis, after giving effect to the amended and restated senior credit facility, the notes would have been subordinated to $403.5 million of Senior Debt and the Subsidiary Guaranties would have been subordinated to $403.5 million of Senior Debt, excluding unused commitments made by lenders under the Senior Credit Facility.

A significant portion of our operations are conducted through our subsidiaries, including our foreign subsidiaries. Therefore, the Company's ability to service its debt, including the notes, is dependent in part upon the earnings of these subsidiaries, and their ability to distribute those earnings as dividends, loans or other payments to the Company. Certain laws restrict the ability of the Company's subsidiaries to pay it dividends or make loans and advances to it. If these restrictions are applied to subsidiaries that are not Subsidiary Guarantors, then the Company would not be able to use the earnings of those subsidiaries to make payments on the notes. Furthermore, under certain circumstances, bankruptcy "fraudulent conveyance" laws or other similar laws could invalidate the Subsidiary Guaranties. If this were to occur, the Company would also be unable to use the earnings of these Subsidiary Guarantors to the extent they face restrictions on distributing funds to the Company. Any of the situations described above could make it more difficult for the Company to service its debt.

In addition, the Company has only a stockholder's claim on the assets of its subsidiaries. This stockholder's claim is junior to the claims that creditors of the Company's subsidiaries have against those subsidiaries. Holders of the notes will be creditors only of the Company and of those subsidiaries that are Subsidiary Guarantors. In the case of subsidiaries that are not Subsidiary Guarantors, all the existing and future liabilities of such subsidiaries, including any claims of trade creditors and preferred stockholders, will be effectively senior to the notes. In addition, while the Company's foreign subsidiaries will not guarantee the notes or borrowings by the Company under the Senior Credit Facility, certain foreign subsidiaries will guarantee any amounts that are borrowed by other foreign subsidiaries under the Senior Credit Facility, and the claims of the lenders under the Senior Credit Facility under such guaranties will be effectively senior to the notes.

The total balance sheet liabilities of the Subsidiary Guarantors and the Company's other subsidiaries, after giving effect to the amended and restated senior credit facility, as of July 31, 2002, excluding unused commitments made by lenders, would have been as follows:

- $107.6 million--approximate total balance sheet liabilities of the Subsidiary Guarantors
- $228.0 million--approximate total balance sheet liabilities of our other subsidiaries (none of which will guarantee the notes)

The indenture contains limitations on the amount of additional Debt that the Company and the Restricted Subsidiaries may Incur. However, the amounts of such Debt could nevertheless be substantial and may be Incurred either by Subsidiary Guarantors or by the Company's other subsidiaries. In addition, as an unrestricted subsidiary,

Soterra, one of the Subsidiary Guarantors, is not subject to the restrictive covenants in the indenture. See "Risk Factors--Risk Factors Related to Investment in the Notes--The subsidiary that conducts our timber operations in the United States is an unrestricted subsidiary."

The notes are unsecured obligations of the Company and the Subsidiary Guarantors. Secured Debt of the Company and the Subsidiary Guarantors will be effectively senior to the notes to the extent of the value of the assets securing such Debt. As of July 31, 2002, on a proforma basis, after giving effect to the amended and restated senior credit facility, the outstanding secured Debt of the Company and the Subsidiary Guarantors (excluding Senior Debt) would have been $403.5 million.

The Company may not pay principal of, or premium, if any, interest or Special Interest, if any, on, or any other amounts payable in respect of, the notes, or make any deposit pursuant to the provisions described under "--Defeasance", and may not repurchase, redeem or otherwise retire any notes (collectively, "pay the notes"), if:

(a) any principal, premium, interest or any other obligation in respect of any Senior Debt is not paid within any applicable grace period (including at maturity), or

(b) any other default on Senior Debt occurs and the maturity of such Senior Debt is accelerated in accordance with its terms,

unless, in either case,

(1) the default has been cured or waived and any such acceleration has been rescinded, or

(2) such Senior Debt has been paid in full in cash;

provided, however, that the Company may pay the notes without regard to the foregoing if the Company and the trustee receive written notice approving such payment from the Representative of such issue of Senior Debt.

During the continuance of any default (other than a default described in clause (a) or (b) above) with respect to any Designated Senior Debt pursuant to which the maturity thereof may be accelerated immediately without further notice (except any notice required to effect the acceleration) or the expiration of any applicable grace period, the Company may not pay the notes for a period (a "Payment Blockage Period") commencing upon the receipt by the Company and the trustee of written notice of such default from the Representative of the holders of such Designated Senior Debt specifying an election to effect a Payment Blockage Period (a "Payment Blockage Notice") and ending 179 days thereafter (unless such Payment Blockage Period is earlier terminated

(a) by written notice to the trustee and the Company from the Representative that gave such Payment Blockage Notice,

(b) because such default is no longer continuing, or

(c) because such Designated Senior Debt has been repaid in full in cash).

Unless the holders of such Designated Senior Debt or the Representative of such holders have accelerated the maturity of such Designated Senior Debt and not rescinded such acceleration, the Company may (unless otherwise prohibited as described in the first sentence of this paragraph) resume payments on the notes after the end of such Payment Blockage Period.

Not more than one Payment Blockage Notice with respect to all issues of Designated Senior Debt may be given in any consecutive 360-day period, irrespective of the number of defaults with respect to one or more issues of Designated Senior Debt during such period.

Upon any payment or distribution of the assets of the Company upon a total or partial liquidation, dissolution or winding up of the Company or in a bankruptcy, reorganization, insolvency, receivership or similar proceeding relating to the Company or its Property:

(a) the holders of Senior Debt will be entitled to receive payment in full in cash before the holders of the notes are entitled to receive any payment of principal of or interest on, or any other amount payable in respect of, the notes, except that holders of notes may receive and retain Permitted Junior Securities; and

(b) until the Senior Debt is paid in full in cash, any distribution to which holders of the notes would be entitled but for the subordination provisions of the indenture will be made to holders of the Senior Debt. If a payment or distribution is made to holders of notes that, due to the subordination provisions, should not have been made to them, the trustee or such holders are required to hold it in trust for the holders of Senior Debt and pay it over to them as their interests may appear.

If payment of the notes is accelerated when any Designated Senior Debt is outstanding, the Company may not pay the notes until three business days after the Representatives of all issues of Designated Senior Debt receive notice of such acceleration and, thereafter, may pay the notes only if the indenture otherwise permits payment at that time.

The Subsidiary Guaranty of each Subsidiary Guarantor will be subordinated to Senior Debt of such Subsidiary Guarantor to the same extent and in the same manner as the notes are subordinated to Senior Debt of the Company.

Because of the indenture's subordination provisions, holders of Senior Debt and other creditors (including trade creditors) of the Company or the Subsidiary Guarantors may recover disproportionately more than the holders of the notes recover in a bankruptcy or similar proceeding relating to the Company or a Subsidiary Guarantor. This could apply even if the notes or the applicable Subsidiary Guaranty ranked evenly ("pari passu") with the other creditors' claims. In such a case, there may be insufficient assets, or no assets, remaining to pay the principal of or interest on the notes.

Payment from the money or the proceeds of U.S. Government Obligations held in any defeasance trust pursuant to the provisions described under "--Defeasance" will not be subject to the subordination provisions described above.

See "Risk Factors--Risk Factors Related to Investment in the Notes--The notes and guarantees will rank behind all of our guarantors' existing and future senior indebtedness. There may not be sufficient assets to make full payment on the notes after all senior indebtedness is paid," "--Not all of our subsidiaries will guarantee the notes, and assets of our non-guarantor subsidiaries may not be available to make payments on the notes," "--A court may void the guarantees of the notes or subordinate the guarantees to other obligations of our subsidiary guarantors" and "Description of Senior Credit Facility."

Subsidiary Guaranties

The obligations of the Company under the indenture, including the repurchase obligation resulting from a Change of Control, will be fully and unconditionally guaranteed, jointly and severally, on a senior subordinated, unsecured basis, by all existing and any future Domestic Restricted Subsidiaries of the Company, excluding any Special Purpose Vehicle, and by Soterra, the subsidiary that owns the Company's United States timber operations, which will be an Unrestricted Subsidiary.

While the Subsidiary Guarantors currently generate a significant portion of the Company's revenue, the Company's non-guarantor Subsidiaries (principally its foreign subsidiaries) also represent a significant portion of the Company's assets and make significant contributions to the Company's consolidated results. As of and for the 12-month period ended July 31, 2002, on a pro forma basis after giving effect to the amended and restated senior credit facility, the subsidiaries of the Company that were not Subsidiary Guarantors represented approximately 38% of the assets and generated approximately 47% of the net sales of the Company, respectively, on a consolidated basis. See Note 16 of Notes to Consolidated Financial Statements and Note 14 of Notes to Consolidated Interim Financial Statements included in this prospectus. In addition, Soterra LLC is an Unrestricted Subsidiary under the indenture and therefore will not be subject to the covenants contained therein. See "Risk Factors--Risk Factors Related to Investment in the Notes--The subsidiary that conducts our timber operations in the United States is an unrestricted subsidiary."

If (a) the Company sells or otherwise disposes of either:

(1) its entire ownership interest in a Subsidiary Guarantor, or

(2) all or substantially all the Property of a Subsidiary Guarantor, or

(b) a Subsidiary Guarantor sells or otherwise disposes of either:

(1) its entire ownership interest in another Subsidiary Guarantor, or

(2) all or substantially all the Property of another Subsidiary Guarantor,

in any such case in accordance with the provisions of the indenture, then in any such case, such Subsidiary Guarantor will be released from all its obligations under its Subsidiary Guaranty. In addition, if the Company redesignates a Subsidiary Guarantor as an Unrestricted Subsidiary or exercises either its legal defeasance option or its covenant defeasance option, which the Company can do under certain circumstances, the redesignated Subsidiary Guarantor will be

released from all its obligations under its Subsidiary Guaranty. See "--Certain Covenants--Designation of Restricted and Unrestricted Subsidiaries", "--Limitation on Issuance or Sale of Capital Stock of Restricted Subsidiaries", "--Merger, Consolidation and Sale of Property" and "--Defeasance."

If any Subsidiary Guarantor makes payments under its Subsidiary Guaranty, each of the Company and the other Subsidiary Guarantors must contribute their share of such payments. The Company's and the other Subsidiary Guarantors' shares of such payment will be computed based on the proportion that the net worth of the Company or the relevant Subsidiary Guarantor represents relative to the aggregate net worth of the Company and all the Subsidiary Guarantors combined.

Optional Redemption

Except as set forth in the following paragraph, the notes will not be redeemable at the option of the Company prior to August 1, 2007. Starting on that date, the Company may redeem all or any portion of the notes, at once or over time, after giving the required notice under the indenture. The notes may be redeemed at the redemption prices set forth below, plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date). The following prices are for notes redeemed during the 12-month period commencing on August 1 of the years set forth below, and are expressed as percentages of principal amount:

Year	Redemption Price
2007	104.438%
2008	102.958%
2009	101.479%
2010 and thereafter	100.000%

In addition, at any time prior to August 1, 2007, the Company may choose to redeem all or any portion of the notes, after giving the required notice under the indenture, at a redemption price equal to the greater of:

(a) 100% of the principal amount of the notes to be redeemed, and

(b) the sum of the present values of (1) the redemption price of the notes to be redeemed at August 1, 2007 (as set forth in the prior paragraph), and (2) the remaining scheduled payments of interest from the redemption date to August 1, 2007, but excluding accrued and unpaid interest to the redemption date, discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 50 basis points,

plus, in either case, accrued and unpaid interest, including Special Interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Any notice to holders of notes of such a redemption needs to include the appropriate calculation of the redemption price, but does not need to include the redemption price itself. The actual redemption price, calculated as described above, must be set forth in an Officers' Certificate delivered to the trustee no later than two business days prior to the redemption date (unless

clause (b) of the definition of "Comparable Treasury Price" is applicable, in which case such Officer's Certificate will be delivered on the redemption date).

At any time and from time to time, prior to August 1, 2005, the Company may redeem up to a maximum of 35% of the original aggregate principal amount of the notes (including any additional notes) that have been issued on or after the Issue Date with the proceeds of one or more Public Equity Offerings, at a redemption price equal to 108.875% of the principal amount thereof, plus accrued and unpaid interest, including Special Interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided, however, that after giving effect to any such redemption, at least 65% of the original aggregate principal amount of the notes (including any additional notes) that have been issued on or after the Issue Date remains outstanding. Any such redemption shall be made within 90 days of such Public Equity Offering upon not less than 30 nor more than 60 days' prior notice.

Any notice required to be given in connection with an optional redemption shall be given in accordance with the provisions set forth under "--Notices".

Sinking Fund

There will be no mandatory sinking fund payments for the notes.

Repurchase at the Option of Holders Upon a Change of Control

Upon the occurrence of a Change of Control, each holder of notes shall have the right to require the Company to repurchase all or any part of such holder's notes pursuant to the offer described below (the "Change of Control Offer") at a purchase price (the "Change of Control Purchase Price") equal to 101% of the principal amount thereof, plus accrued and unpaid interest, including Special Interest, if any, to the purchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Within 30 days following any Change of Control, the Company shall:

(a) cause a notice of the Change of Control Offer to be sent at least once to the Dow Jones News Service or similar business news service in the United States, and

(b) send, by first-class mail, with a copy to the trustee, to each holder of notes, at such holder's address appearing in the security register for the notes, a notice stating:

(1) that a Change of Control has occurred and a Change of Control Offer is being made pursuant to the covenant entitled "Repurchase at the Option of Holders Upon a Change of Control" and that all notes timely tendered will be accepted for payment;

(2) the Change of Control Purchase Price and the purchase date, which shall be, subject to any contrary requirements of applicable law, a business day no earlier than 30 days nor later than 60 days from the date such notice is mailed;

(3) the circumstances and relevant facts regarding the Change of Control (including information with respect to pro forma historical income, cash flow and capitalization after giving effect to the Change of Control); and

(4) the procedures that holders of notes must follow in order to tender their notes (or portions thereof) for payment, and the procedures that holders of notes must follow in order to withdraw an election to tender notes (or portions thereof) for payment.

The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the covenant described hereunder, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the covenant described hereunder by virtue of such compliance.

We will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements of the indenture and purchases all notes validly tendered and not withdrawn or if the Company has exercised its option to redeem all the notes pursuant to the provisions described under "--Optional Redemption."

The Change of Control repurchase feature is a result of negotiations between the Company and the initial purchasers. Management has no present intention to engage in a transaction involving a Change of Control, although it is possible that the Company would decide to do so in the future. Subject to certain covenants described below, the Company could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the indenture, but that could increase the amount of debt outstanding at such time or otherwise affect the Company's capital structure or credit ratings.

The definition of Change of Control includes a phrase relating to the sale, transfer, assignment, lease, conveyance or other disposition of "all or substantially all" the Company's assets. Although there is a developing body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, if the Company disposes of less than all its assets by any of the means described above, the ability of a holder of notes to require the Company to repurchase its notes may be uncertain. In such a case, holders of the notes may not be able to resolve this uncertainty without resorting to legal action.

The Senior Credit Facility will prohibit the Company from purchasing any notes at any time before the notes become due and payable or are otherwise required to be repaid or repurchased under the terms of the indenture. The Senior Credit Facility will also provide that the occurrence of a Change of Control would constitute a default under the Senior Credit Facility. Thus, the Company will, in effect, be unable to repurchase the notes upon a Change of Control unless the lenders under the Senior Credit Facility waive the resulting default thereunder. Other future debt of the Company may contain prohibitions of certain events which would constitute a Change of Control or require such debt to be repurchased upon a Change of Control. To the extent other debt of the Company is both subject to similar repurchase obligations in the event of a Change of Control and ranks senior in right of payment to the notes, all available funds will first be expended for the repurchase of such debt. Moreover, the exercise by holders of notes of their right to require the Company to repurchase such notes could cause a default under existing or future debt of the Company, even if the Change of Control itself does not, due to the financial effect of such repurchase on the Company. Finally, the Company's ability to pay cash to holders of notes upon a repurchase may be limited by the Company's then existing financial resources. There can be no assurance that sufficient funds

will be available when necessary to make any required repurchases. The Company's failure to purchase notes in connection with a Change of Control would result in a default under the indenture. Such a default would, in turn, constitute a default under existing debt of the Company, and may constitute a default under future debt as well. If such debt constitutes Designated Senior Debt, the subordination provisions in the indenture would likely restrict payment to holders of notes. The Company's obligation to make an offer to repurchase the notes as a result of a Change of Control may be waived or modified at any time prior to the occurrence of such Change of Control with the written consent of the holders of a majority in principal amount of the notes. See "--Amendments and Waivers."

Any notice required to be given in connection with an optional redemption shall be given in accordance with the provisions set forth under "--Notices".

Certain Covenants

Limitation on Debt. The Company shall not, and shall not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Debt unless, after giving effect to the application of the proceeds thereof, no Default or Event of Default would occur as a consequence of such Incurrence or be continuing following such Incurrence and either:

(1) after giving effect to the Incurrence of such Debt and the application of the proceeds thereof, the Consolidated Interest Coverage Ratio would be greater than 2.00 to 1.00 (in which case such Debt may be incurred by the Company or any Restricted Subsidiary that is a Subsidiary Guarantor, but not by a Restricted Subsidiary that is not a Subsidiary Guarantor), or

(2) such Debt is Permitted Debt.

No Debt Incurred pursuant to the test in clause (1) of the preceding paragraph shall reduce the amount of Debt that may be incurred pursuant to any clause of the definition of Permitted Debt (including, without limitation, Debt under the Senior Credit Facility pursuant to clause (b) of the definition of Permitted Debt below).

The term "Permitted Debt" is defined to include the following:

(a) (i) Debt of the Company evidenced by the notes we are issuing in this offering and the Exchange Notes issued in exchange for those notes in exchange for any additional notes and (ii) Debt of Subsidiary Guarantors evidenced by Subsidiary Guaranties relating to the notes;

(b) Debt of the Company or a Restricted Subsidiary under the Credit Facilities or a Qualified Securitization Transaction, provided that the aggregate principal amount of all such Debt under the Credit Facilities or a Qualified Securitization Transaction at any one time outstanding shall not exceed the greater of (i) $550.0 million, which amount shall be permanently reduced by the amount of Net Available Cash used to Repay Debt under the Credit Facilities and not subsequently reinvested in Additional Assets or used to purchase notes or Repay other Debt, pursuant to the covenant described under "--Limitation on Asset Sales" or (ii) the sum of (A) 80% of the book value of the accounts receivable of the Company and its Restricted Subsidiaries, plus (B) 50% of the book value of the inventory of the Company and its Restricted Subsidiaries, in each case determined on a consolidated basis;

(c) Debt of the Company or a Restricted Subsidiary in respect of Capital Lease Obligations and Purchase Money Debt, provided that:

(1) the aggregate principal amount of such Debt does not exceed the Fair Market Value (on the date of the Incurrence thereof) of the Property acquired, constructed or leased, and

(2) the aggregate principal amount of all Debt Incurred and then outstanding pursuant to this clause (c) (together with all Permitted Refinancing Debt Incurred and then outstanding in respect of Debt previously Incurred pursuant to this clause (c)) does not exceed 5% of the Company's Consolidated Net Tangible Assets;

(d) Debt of the Company owing to and held by any Restricted Subsidiary and Debt of a Restricted Subsidiary owing to and held by the Company or any Restricted Subsidiary; provided, however, that any subsequent issue or transfer of Capital Stock or other event that results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of any such Debt (except to the Company or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Debt by the issuer thereof;

(e) Debt of a Restricted Subsidiary outstanding on the date on which such Restricted Subsidiary was acquired by the Company or otherwise became a Restricted Subsidiary (other than Debt Incurred as consideration in, or to provide all or any portion of the funds or credit support utilized to consummate, the transaction or series of transactions pursuant to which such Restricted Subsidiary became a Subsidiary of the

Company or was otherwise acquired by the Company), provided that at the time such Restricted Subsidiary was acquired by the Company or otherwise became a Restricted Subsidiary and after giving effect to the Incurrence of such Debt, the Company would have been able to Incur $1.00 of additional Debt pursuant to clause (1) of the first paragraph of this covenant;

(f) Debt under Interest Rate Agreements entered into by the Company or a Restricted Subsidiary for the purpose of limiting, or otherwise managing, interest rate risk and not for speculative purposes, provided that the obligations under such agreements are directly related to payment obligations on Debt otherwise permitted by the terms of this covenant;

(g) Debt under Currency Exchange Protection Agreements entered into by the Company or a Restricted Subsidiary for the purpose of limiting currency exchange rate risks directly related to transactions entered into by the Company or such Restricted Subsidiary and not for speculative purposes;

(h) Debt under Commodity Price Protection Agreements entered into by the Company or a Restricted Subsidiary for the purpose of limiting risk in connection with certain commodity transactions of the Company or such Restricted Subsidiary and not for speculative purposes;

(i) Debt in connection with one or more standby letters of credit or performance or surety bonds or completion guaranties issued by the Company or a Restricted Subsidiary in the ordinary course of business or pursuant to self-insurance obligations, workmen's compensation and similar

arrangements and not in connection with the borrowing of money or the obtaining of advances or credit;

(j) Debt of the Company or any Restricted Subsidiary in an aggregate principal amount outstanding at any one time not to exceed $40.0 million, provided that of that amount not more than $25.0 million may be Incurred by Restricted Subsidiaries that are not Subsidiary Guarantors;

(k) Debt arising from agreements of the Company or a Restricted Subsidiary of the Company providing for indemnification, adjustment of purchase price, earn-out or other similar obligations, in each case, Incurred or assumed in connection with the disposition of any business, assets or a Subsidiary of the Company;

(l) Guarantees by the Company or any of its Restricted Subsidiaries of Debt of the Company or any Restricted Subsidiary otherwise permitted to be Incurred under the provisions of this covenant;

(m) Debt consisting of take-or-pay obligations contained in supply agreements entered into by the Company or its Restricted Subsidiaries in the ordinary course of business;

(n) Preferred Stock of Restricted Subsidiaries issued to the Company or any of its Restricted Subsidiaries;

(o) Debt outstanding on the Issue Date not otherwise described in clauses (a) through (o) above; and

(p) Permitted Refinancing Debt Incurred in of Debt Incurred pursuant to clause (1) of the first paragraph of this covenant and clauses (a), (c), (e), (j) and (o) above.

For purposes of determining compliance with this covenant, in the event that an item of Debt meets the criteria of more than one of the categories of Permitted Debt described in clauses (a) through (q) above or is entitled to be incurred pursuant to clause (1) of the first paragraph of this covenant, the Company shall, in its sole discretion, classify such item of Debt on the date of its Incurrence, or later reclassify all or a portion of such item of Debt, in any manner that complies with this covenant and such item of Debt will be treated as having been incurred pursuant to one or more of such clauses or pursuant to clause (1) of the first paragraph of this covenant.

For purposes of determining compliance with any U.S. dollar-denominated restriction or amount, the U.S. dollar-equivalent principal amount thereof denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date the Debt or other transaction was incurred or entered into, or

first committed, in the case of revolving credit Debt; provided that if any Permitted Refinancing Debt is incurred to refinance Debt denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Permitted Refinancing Debt does not exceed the principal amount of such Debt being refinanced. Notwithstanding any other provision in the indenture, no restriction or amount shall be deemed to be exceeded solely as a result of fluctuations in the exchange rate of currencies.

Limitation on Restricted Payments. The Company shall not make, and shall not permit any Restricted Subsidiary to make, directly or indirectly, any Restricted Payment if at the time of, and after giving effect to, such proposed Restricted Payment,

(a) a Default or Event of Default shall have occurred and be continuing,

(b) the Company could not Incur at least $1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under "--Limitation on Debt" or

(c) the aggregate amount of such Restricted Payment and all other Restricted Payments declared or made since the Issue Date (the amount of any Restricted Payment, if made other than in cash, to be based upon Fair Market Value) would exceed an amount equal to the sum of:

(1) 50% of the aggregate amount of Consolidated Net Income accrued during the period (treated as one accounting period) from the beginning of the fiscal quarter ending July 31, 2002 to the end of the most recent fiscal quarter ending at least 45 days prior to the date of such Restricted Payment (or if the aggregate amount of Consolidated Net Income for such period shall be a deficit, minus 100% of such deficit), plus

(2) 100% of the Capital Stock Sale Proceeds, plus

(3) the sum of:

(A) the aggregate net cash proceeds received by the Company or any Restricted Subsidiary from the issuance or sale after the Issue Date of convertible or exchangeable Debt that has been converted into or exchanged for Capital Stock (other than Disqualified Stock) of the Company, and

(B) the aggregate amount by which Debt (other than Subordinated Obligations) of the Company or any Restricted Subsidiary is reduced on the Company's consolidated balance sheet on or after the Issue Date upon the conversion or exchange of any Debt issued or sold on or prior to the Issue Date that is convertible or exchangeable for Capital Stock (other than Disqualified Stock) of the Company,

excluding, in the case of clause (A) or (B):

(x) any such Debt issued or sold to the Company or a Subsidiary of the Company or an employee stock ownership plan or trust established by the Company or any such Subsidiary for the benefit of their employees, and

(y) the aggregate amount of any cash or other Property distributed by the Company or any Restricted Subsidiary upon any such conversion or exchange,

plus

(4) an amount equal to the sum of:

(A) the net reduction in Investments in any Person other than the Company or a Restricted Subsidiary resulting from dividends, repayments of loans or advances or other transfers of Property, in each case to the Company or any Restricted Subsidiary from such Person,

(B) the portion (proportionate to the Company's equity interest in such Unrestricted Subsidiary) of the Fair Market Value of the net assets of an Unrestricted Subsidiary at the time such Unrestricted Subsidiary is designated a Restricted Subsidiary; provided, however, that the foregoing sum shall not exceed, in the case of any Person, the amount of Investments previously made (and treated as a Restricted Payment) by the Company or any Restricted Subsidiary in such Person,

(C) without duplication of any amounts included in clause (2) above, 100% of the Fair Market Value of the net proceeds of any contribution to the common equity capital of the Company received by the Company from a holder of the Company's Capital Stock (excluding any Capital Stock Sale Proceeds to the extent used to redeem the notes) subsequent to the Issue Date,

(D) to the extent that any Investment (other than a Permitted Investment) that was made after the Issue Date is sold for cash or otherwise liquidated or repaid for cash, the lesser of (i) the cash return of capital with respect to such Investment (less the cost of disposition, if any) and (ii) the initial amount of such Investment, and

(E) $10.0 million.

Notwithstanding the foregoing limitation, the Company may:

(a) make Restricted Payments as described in clauses (a) and (b) of the definition of Restricted Payment in an aggregate amount of up to $25.0 million in any fiscal year; provided, however, that at the time of such Restricted Payment, no Event of Default under clauses (1), (2) or (7) under "Events of Default" shall have occurred and be continuing, and provided further, however, that such Restricted Payments paid pursuant to this clause (a) shall be included in the calculation of the amount of Restricted Payments pursuant to clause (c) above;

(b) pay dividends on its Class A Common Stock of up to the lesser of (1) $0.01 per share of Class A Common Stock for each of four consecutive fiscal quarters and (2) $250,000 for each consecutive fiscal quarter provided, however, that such dividends paid pursuant to this clause (b) shall be included in the calculation of the amount of Restricted Payments pursuant to clause (c) above;

(c) pay dividends on its Capital Stock within 60 days of the declaration thereof if, on said declaration date, such dividends could have been paid in compliance with the indenture; provided, however, that such dividends paid pursuant to this clause (c) shall be included in the calculation of the amount of Restricted Payments pursuant to clause (c) above;

(d) purchase, repurchase, redeem, legally defease, acquire or retire for value Capital Stock of the Company or Subordinated Obligations in exchange for, or out of the proceeds of the

substantially concurrent sale of, Capital Stock of the Company (other than Disqualified Stock and other than Capital Stock issued or sold to a Subsidiary of the Company or an employee stock ownership plan or trust established by the Company or any such Subsidiary for the benefit of their employees); provided, however, that

(1) such purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments and

(2) the Capital Stock Sale Proceeds from such exchange or sale shall be excluded from the calculation pursuant to clause (c)(2) above; and

(e) purchase, repurchase, redeem, legally defease, acquire or retire for value any Subordinated Obligations in exchange for, or out of the proceeds of the substantially concurrent sale of, Permitted Refinancing Debt; provided, however, that such purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments;

(f) repurchase shares of, or options to purchase shares of, common stock of the Company or any of its Subsidiaries from current or former officers, directors or employees of the Company or any of its Subsidiaries (or permitted transferees of such current or former officers, directors or employees), pursuant to the terms of agreements (including employment agreements, management agreements and employee stock options or restricted stock agreements) or plans (or amendments thereto) approved by the Board of Directors under which such individuals purchase or sell, or are granted the option to purchase or sell, shares of such common stock; provided, however, that:

(1) the aggregate amount of such repurchases shall not exceed $2.5 million in any calendar year and

(2) at the time of such repurchase, no Default or Event of Default shall have occurred and be continuing (or result therefrom);

provided further, however, that such repurchases shall be included in the calculation of the amount of Restricted Payments pursuant to clause (c);

(g) acquire its Capital Stock in connection with the exercise of stock options and stock appreciation rights by way of cashless exercise; and

(h) distribute the Capital Stock of any Unrestricted Subsidiary to the Company's shareholders as dividends or other distributions.

Limitation on Liens. The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, Incur or suffer to exist, any Lien (other than Permitted Liens or Liens securing Senior Debt) upon any of its Property (including Capital Stock of a Restricted Subsidiary), whether owned at the Issue Date or thereafter acquired, or any interest therein or any income or profits therefrom, unless:

(a) if such Lien secures Senior Subordinated Debt, the notes or the applicable Subsidiary Guaranty are secured on an equal and ratable basis with such Debt and

(b) if such Lien secures Subordinated Obligations, such Lien shall be subordinated to a Lien securing the notes or the applicable Subsidiary Guaranty in the same Property as that securing such Lien to the same extent as such Subordinated Obligations are subordinated to the notes and the Subsidiary Guaranties.

Limitation on Issuance or Sale of Capital Stock of Restricted Subsidiaries. The Company shall not:

(a) sell, or otherwise dispose of any shares of Capital Stock of a Restricted Subsidiary, or

(b) permit any Restricted Subsidiary to, directly or indirectly, issue or sell or otherwise dispose of any shares of its Capital Stock,

other than, in the case of either (a) or (b):

(1) directors' qualifying shares, and shares issued to non-U.S. persons required by applicable law,

(2) pledges of Capital Stock of Subsidiaries of the Company that constitute Permitted Liens or Liens securing Senior Debt,

(3) to the Company or a Wholly Owned Restricted Subsidiary, or

(4) a disposition of 100% of the shares of Capital Stock of such Restricted Subsidiary; provided, however, that, in the case of this clause (4),

(A) such disposition is effected in compliance with the covenant described under "--Limitation on Asset Sales", and

(B) upon consummation of such disposition and execution and delivery of a supplemental indenture in form satisfactory to the trustee, such Restricted Subsidiary shall be released from any Subsidiary Guaranty previously made by such Restricted Subsidiary, or

(5) issuances of Capital Stock of a Restricted Subsidiary if, immediately after giving effect thereto, (i) neither the Company nor any Restricted Subsidiary owns any Capital Stock of such Restricted Subsidiary or (ii) such Restricted Subsidiary would no longer be a Restricted Subsidiary and any Investment in such Person remaining after giving effect thereto would have been permitted and shall be deemed to have been made under the covenant captioned "Limitation on Restricted Payments" if made on the date of such issuance provided, however, that, in the case of this clause (5),

(A) if applicable, such disposition is effected in compliance with the covenant described under "--Limitation on Asset Sales", and

(B) upon consummation of such disposition and execution and delivery of a supplemental indenture, such Restricted Subsidiary shall be released from any Subsidiary Guaranty previously made by such Restricted Subsidiary.

Limitation on Asset Sales. The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, consummate any Asset Sale unless:

(a) the Company or such Restricted Subsidiary receives consideration at the time of such Asset Sale at least equal to the Fair Market Value of the Property subject to such Asset Sale;

(b) at least 75% of the consideration paid to the Company or such Restricted Subsidiary in connection with such Asset Sale is in the form of cash or Cash Equivalents or the assumption by the purchaser of liabilities of the Company or any Restricted Subsidiary (other than liabilities that are by their terms subordinated to the notes or the applicable Subsidiary Guaranty) as a result of which the Company and the Restricted Subsidiaries are no longer obligated with respect to such liabilities; and

(c) if the Fair Market Value of the Property is greater than $2,500,000, the Company delivers an Officers' Certificate to the trustee certifying that such Asset Sale complies with the foregoing clauses (a) and (b).

Notwithstanding the foregoing, clauses (a), (b) and (c) above shall not apply to a split-off or spin-off of any Unrestricted Subsidiary by the Company or a Restricted Subsidiary.

The Net Available Cash (or any portion thereof) from Asset Sales may be applied by the Company or a Restricted Subsidiary, to the extent the Company or such Restricted Subsidiary elects (or is required by the terms of any Debt):

(a) to Repay Senior Debt of the Company or any Subsidiary Guarantor (including Debt under the Senior Credit Facility) or Debt of any Restricted Subsidiary that is not a Subsidiary Guarantor (excluding, in any such case, any Debt owed to the Company or an Affiliate of the Company); or

-80-

(b) to reinvest in Additional Assets (including by means of an Investment in Additional Assets by a Restricted Subsidiary with Net Available Cash received by the Company or another Restricted Subsidiary).

Any Net Available Cash from an Asset Sale not applied in accordance with the preceding paragraph within 360 days from the date of the receipt of such Net Available Cash or that is not segregated from the general funds of the Company for investment in identified Additional Assets in respect of a project that shall have been commenced, and for which binding contractual commitments have been entered into, prior to the end of such 360-day period and that shall not have been completed or abandoned shall constitute "Excess Proceeds"; provided, however, that the amount of any Net Available Cash that ceases to be so segregated as contemplated above and any Net Available Cash that is segregated in respect of a project that is abandoned or completed shall also constitute "Excess Proceeds" at the time any such Net Available Cash ceases to be so segregated or at the time the relevant project is so abandoned or completed, as applicable; provided further, however, that the amount of any Net Available Cash that continues to be segregated for investment and that is not actually reinvested within twenty-four months from the date of the receipt of such Net Available Cash shall also constitute "Excess Proceeds." Notwithstanding the foregoing provision, the Company and its Restricted Subsidiaries will not be required to apply any Net Available Cash in accordance with this covenant except

to the extent that the aggregate Net Available Cash from all Asset Sales in each fiscal year that are not applied in accordance with this covenant exceeds $5.0 million.

When the aggregate amount of Excess Proceeds exceeds $15.0 million (taking into account income earned on such Excess Proceeds, if any), the Company will be required to make an offer to purchase (the "Prepayment Offer") the notes, together with any other Debt that ranks pari passu in right of payment with the notes (so long as such payment is permitted by the terms of any instrument evidencing Senior Debt), which offer shall be in the amount of the Allocable Excess Proceeds, on a pro rata basis according to principal amount, at a purchase price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to the purchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), in accordance with the procedures (including prorating in the event of oversubscription) set forth in the indenture. To the extent that any portion of the amount of Net Available Cash remains after compliance with the preceding sentence and provided that all holders of notes have been given the opportunity to tender their notes for purchase in accordance with the indenture, the Company or such Restricted Subsidiary may use such remaining amount for any purpose permitted by the indenture and the amount of Excess Proceeds will be reset to zero.

The term "Allocable Excess Proceeds" will mean the product of:

(a) the Excess Proceeds and

(b) a fraction,

(1) the numerator of which is the aggregate principal amount of the notes outstanding on the date of the Prepayment Offer, and

(2) the denominator of which is the sum of the aggregate principal amount of the notes outstanding on the date of the Prepayment Offer and the aggregate principal amount of other Debt of the Company outstanding on the date of the Prepayment Offer that is pari passu in right of payment with the notes and subject to terms and conditions in respect of Asset Sales similar in all material respects to the covenant described hereunder and requiring the Company to make an offer to purchase such Debt at substantially the same time as the Prepayment Offer.

Within five business days after the Company is obligated to make a Prepayment Offer as described in the preceding paragraph, the Company shall send a written notice, by first-class mail, to the holders of notes, accompanied by such information regarding the Company and its Subsidiaries as the Company in good faith believes will enable such holders to make an informed decision with respect to such Prepayment Offer. Such notice shall state, among other things, the purchase price and the purchase date, which shall be, subject to any contrary requirements of applicable law, a business day no earlier than 30 days nor later than 60 days from the date such notice is mailed.

-81-

The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to the covenant described hereunder. To the extent that the provisions of any securities laws or regulations conflict with provisions of the covenant described hereunder, the Company will comply with the applicable securities laws and regulations and will

not be deemed to have breached its obligations under the covenant described hereunder by virtue thereof.

Limitation on Restrictions on Distributions from Restricted Subsidiaries. The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, create or otherwise cause or suffer to exist any consensual restriction on the right of any Restricted Subsidiary to:

(a) pay dividends, in cash or otherwise, or make any other distributions on or in respect of its Capital Stock, or pay any Debt or other obligation owed, to the Company or any other Restricted Subsidiary,

(b) make any loans or advances to the Company or any other Restricted Subsidiary or

(c) transfer any of its Property to the Company or any other Restricted Subsidiary.

The foregoing limitations will not apply:

(1) with respect to clauses (a), (b) and (c), to restrictions:

(A) in effect on the Issue Date (including, without limitation, restrictions pursuant to the Senior Credit Facility and the indenture),

(B) relating to Debt of a Restricted Subsidiary and existing at the time it became a Restricted Subsidiary if such restriction was not created in connection with or in anticipation of the transaction or series of transactions pursuant to which such Restricted Subsidiary became a Restricted Subsidiary or was acquired by the Company, or

(C) that result from the Refinancing of Debt Incurred pursuant to an agreement referred to in clause (1)(A) or (B) above or this clause (C) or in clause (2)(A) or (B) below, provided such restriction is no less favorable to the holders of notes than those under the agreement evidencing the Debt so Refinanced,

(D) under applicable laws or orders,

(E) arising in connection with a Qualified Securitization Transaction (including limitations set forth in the governing documents of a Special Purpose Vehicle),

(F) that are customary on the transfer of any Property arising under a security agreement or similar agreement or instrument governing a Lien permitted under the indenture, and

(2) with respect to clause (c) only, to restrictions:

(A) relating to Debt that is permitted to be Incurred and secured without also securing the notes or the applicable Subsidiary Guaranty pursuant to the covenants described under "--Limitation on Debt" and "--Limitation on Liens" that limit the right of the debtor to dispose of the Property securing such Debt,

(B) encumbering Property at the time such Property was acquired by the Company or any Restricted Subsidiary, so long as such restriction relates solely to the Property so acquired and was not created in connection with or in anticipation of such acquisition,

(C) resulting from customary provisions restricting subletting or assignment of leases or customary provisions in licenses or other agreements that restrict assignment of such agreements, Property or rights thereunder,

(D) that constitute customary restrictions contained in sale agreements limiting the transfer of Capital Stock or Property pending the closing of such sale,

(E) that constitute customary restrictions contained in joint venture agreements entered into in the ordinary course of business and in good faith, or

(F) existing by virtue of any transfer of, agreement to transfer, option or right with respect to, or Lien on, any Property of the Company or any Restricted Subsidiary not otherwise prohibited by the indenture.

Nothing contained in this covenant shall prevent the Company or any Restricted Subsidiary from (1) Incurring or assuming any Lien otherwise permitted by the indenture, or (2) restricting the sale or other disposition of Property of the Company or any of its Restricted Subsidiaries that secure Debt of the Company or any of its Restricted Subsidiaries.

Limitation on Transactions with Affiliates. The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, conduct any business or enter into or suffer to exist any transaction or series of transactions (including the purchase, sale, transfer, assignment, lease, conveyance or exchange of any Property or the rendering of any service) with, or for the benefit of, any Affiliate of the Company (an "Affiliate Transaction"), unless:

(a) the terms of such Affiliate Transaction are:

(1) set forth in writing, and

(2) no less favorable to the Company or such Restricted Subsidiary, as the case may be, than those that could be obtained in a comparable arm's-length transaction with a Person that is not an Affiliate of the Company,

(b) if such Affiliate Transaction involves aggregate payments or value in excess of $5.0 million, the Board of Directors (including a majority of the disinterested members of the Board of Directors) approves such Affiliate Transaction and, in its good faith judgment, believes that such Affiliate Transaction complies with clauses (a)(2) of this paragraph as evidenced by a Board Resolution promptly delivered to the trustee, and

(c) if such Affiliate Transaction involves aggregate payments or value in excess of $20.0 million, the Company obtains a written opinion from an Independent Financial Advisor to the effect that the consideration to be paid or received in connection with such Affiliate Transaction is fair, from a financial point of view, to the Company and the Restricted Subsidiaries.

Notwithstanding the foregoing limitation, the Company or any Restricted Subsidiary may enter into or suffer to exist the following:

(a) any transaction or series of transactions between the Company and one or more Restricted Subsidiaries or between two or more Restricted Subsidiaries in the ordinary course of business;

(b) any Restricted Payment permitted to be made pursuant to the covenant described under "--Limitation on Restricted Payments" or any Permitted Investment;

(c) the payment of compensation and fees (including amounts paid pursuant to employee benefit plans or other arrangements, whether in cash, securities or other property) for the services of officers, directors and employees of the Company or any of the Restricted Subsidiaries who are Affiliates of the Company, so long

as the Board of Directors in good faith shall have approved the terms thereof and deemed the services theretofore or thereafter to be performed for such compensation to be fair consideration therefor;

(d) loans and advances to employees made in the ordinary course of business and consistent with the past practices of the Company or such Restricted Subsidiary, as the case may be; and

(e) agreements in existence on the Issue Date and listed on a schedule to the indenture,

(f) the disposition or transfer of Soterra or any Unrestricted Subsidiary in a transaction that satisfies the applicable requirements contained within the covenant below captioned "--Limitation on Asset Sales",

(g) any payments or other transactions pursuant to any tax-sharing agreement between the Company and any other Person approved by the Board of Directors with which the Company files a consolidated tax return or with which the Company is a part of a consolidated group for tax purposes;

(h) the issuance or sale of any Capital Stock of the Company other than Disqualified Stock; and

(i) any sale, conveyance or other transfer of Receivables and other related assets customarily transferred in a Qualified Securitization Transaction.

Limitation on Layered Debt. The Company shall not, and shall not permit any Restricted Subsidiary that is a Subsidiary Guarantor to, Incur, directly or indirectly, any Debt that is subordinate or junior in right of payment to any Senior Debt unless such Debt is Senior Subordinated Debt or is expressly subordinated in right of payment to Senior Subordinated Debt. In addition, no Restricted Subsidiary that is a Subsidiary Guarantor shall Guarantee, directly or indirectly, any Debt of the Company that is subordinate or junior in right of payment to any Senior Debt unless such Guarantee is expressly subordinate in right of payment to, or ranks pari passu with, the Subsidiary Guaranty of such Subsidiary Guarantor.

Designation of Restricted and Unrestricted Subsidiaries.

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if that designation (which would constitute an Investment in such Subsidiary) would not result in a breach of the covenant described under "--Limitation on Restricted Payments" or otherwise cause a Default. If a Restricted Subsidiary is designated as an Unrestricted Subsidiary, the aggregate fair market value of all outstanding Investments owned by the Company and its Restricted Subsidiaries in the Subsidiary properly designated will be deemed to be an Investment made as of the time of the designation and will reduce the amount available for Restricted Payments under the first paragraph of the "--Restricted Payments" covenant or Permitted Investments, as determined by the Company. That designation will only be permitted if the Investment would be permitted at that time and if the Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary.

The Board of Directors also may designate any Subsidiary of the Company to be an Unrestricted Subsidiary if:

(a) the Subsidiary to be so designated does not own any Capital Stock or Debt of, or own or hold any Lien on any Property of, the Company or any other Restricted Subsidiary, and

(b) either:

(1) the Subsidiary to be so designated has total assets of $5,000 or less, or

(2) such designation is effective immediately upon such entity becoming a Subsidiary of the Company.

Unless so designated as an Unrestricted Subsidiary, any Person that becomes a Subsidiary of the Company will be classified as a Restricted Subsidiary; provided, however, that such Subsidiary shall not be designated a Restricted Subsidiary and shall be automatically classified as an Unrestricted Subsidiary if either of the requirements set forth in clauses (x) and (y) of the immediately following paragraph will not be satisfied after giving pro forma effect to such classification or if such Person is a Subsidiary of an Unrestricted Subsidiary.

Our Board of Directors may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary if, immediately after giving pro forma effect to such designation,

(x) the Company could Incur at least $1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under "--Limitation on Debt", and

(y) no Default or Event of Default shall have occurred and be continuing or would result therefrom.

Any such designation or redesignation by the Board of Directors will be evidenced to the trustee by filing with the trustee a Board Resolution giving effect to such designation or redesignation and an Officers' Certificate that:

(a) certifies that such designation or redesignation complies with the foregoing provisions, and

(b) gives the effective date of such designation or redesignation, such filing with the trustee to occur within 45 days after the end of the

fiscal quarter of the Company in which such designation or redesignation is made (or, in the case of a designation or redesignation made during the last fiscal quarter of the Company's fiscal year, within 90 days after the end of such fiscal year).

Future Subsidiary Guarantors. The Company shall cause (a) each Person that becomes a Domestic Restricted Subsidiary following the Issue Date to execute and deliver to the trustee a Subsidiary Guaranty at the time such Person becomes a Domestic Restricted Subsidiary, excluding any Special Purpose Vehicle, and (b) any Foreign Restricted Subsidiary that Guarantees any Debt of the Company or of any Domestic Restricted Subsidiary following the Issue Date to execute and deliver to the trustee a Subsidiary Guaranty at the time of such guaranty.

Payments for Consents. The Company will not, and will not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any holder of any notes for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the indentures or the notes unless such consideration is offered to be paid or is paid all holders of the notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

Merger, Consolidation and Sale of Property

The Company shall not merge, consolidate or amalgamate with or into any other Person (other than a merger of a Wholly Owned Restricted Subsidiary into the Company) or sell, transfer, assign, lease, convey or otherwise dispose of all or substantially all its Property in any one transaction or series of transactions unless:

(a) the Company shall be the surviving Person (the "Surviving Person") or the Surviving Person (if other than the Company) formed by such merger, consolidation or amalgamation or to which such sale, transfer, assignment, lease, conveyance or disposition is made shall be a corporation organized and existing under the laws of the United States of America, any State thereof or the District of Columbia;

(b) the Surviving Person (if other than the Company) expressly assumes, by supplemental indenture, executed and delivered to the trustee by such Surviving Person, the due and punctual payment of the principal of, and premium, if any, and interest on, all the notes, according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of the indenture to be performed by the Company;

(c) in the case of a sale, transfer, assignment, lease, conveyance or other disposition of all or substantially all the Property of the Company, such Property shall have been transferred as an entirety or virtually as an entirety to one Person;

(d) immediately after giving effect to such transaction or series of transactions on a pro forma basis (and treating, for purposes of this clause (d) and clauses (e) and (f) below, any Debt that becomes, or is anticipated to become, an obligation of the Surviving Person or any Restricted Subsidiary as a result of such transaction or series of transactions as having been Incurred by the Surviving Person or such

Restricted Subsidiary at the time of such transaction or series of transactions), no Default or Event of Default shall have occurred and be continuing;

(e) immediately after giving effect to such transaction or series of transactions on a pro forma basis, the Company or the Surviving Person, as the case may be, would be able to Incur at least $1.00 of additional Debt under clause (1) of the first paragraph of the covenant described under "--Certain Covenants--Limitation on Debt"; and

(f) the Company shall deliver, or cause to be delivered, to the trustee, in form and substance reasonably satisfactory to the trustee, an Officers' Certificate and an Opinion of Counsel, each stating that such transaction and the supplemental indenture, if any, in respect thereto comply with this covenant and that all conditions precedent herein provided for relating to such transaction have been satisfied.

The Company shall not permit any Restricted Subsidiary that is a Subsidiary Guarantor to merge, consolidate or amalgamate with or into any other Person (other than a merger of a Wholly Owned Restricted Subsidiary into such Subsidiary Guarantor) or sell, transfer, assign, lease, convey or otherwise dispose of all or substantially all its Property in any one transaction or series of transactions unless:

(a) in the case of the Subsidiary Guarantor that is a Domestic Restricted Subsidiary, the Surviving Person (if not such Subsidiary Guarantor) formed by such merger, consolidation or amalgamation or to which such sale, transfer, assignment, lease, conveyance or disposition is made shall be a corporation organized and existing under the laws of the United States of America, any State thereof or the District of Columbia;

(b) the Surviving Person (if other than such Subsidiary Guarantor) expressly assumes, by Subsidiary Guaranty, executed and delivered to the trustee by such Surviving Person, the due and punctual performance and observance of all the obligations of such Subsidiary Guarantor under its Subsidiary Guaranty;

(c) in the case of a sale, transfer, assignment, lease, conveyance or other disposition of all or substantially all the Property of such Subsidiary Guarantor, such Property shall have been transferred as an entirety or virtually as an entirety to one Person;

(d) immediately after giving effect to such transaction or series of transactions on a pro forma basis (and treating, for purposes of this clause (d) and clauses (e) and (f) below, any Debt that becomes, or is anticipated to become, an obligation of the Surviving Person, the Company or any Restricted Subsidiary as a result of such transaction or series of transactions as having been Incurred by the Surviving Person, the Company or such Restricted Subsidiary at the time of such transaction or series of transactions), no Default or Event of Default shall have occurred and be continuing;

(e) immediately after giving effect to such transaction or series of transactions on a pro forma basis, the Company would be able to Incur at least $1.00 of additional Debt under clause (1) of the first paragraph of the covenant described under "--Certain Covenants--Limitation on Debt"; and

(f) the Company shall deliver, or cause to be delivered, to the trustee, in form and substance reasonably satisfactory to the trustee, an Officers' Certificate and an Opinion of Counsel, each stating that such transaction and such Subsidiary Guaranty, if any, in respect thereto comply with this covenant and that all conditions precedent herein provided for

relating to such transaction have been satisfied.

The foregoing provisions (other than clause (d)) shall not apply to any transactions which constitute an Asset Sale if the Company has complied with the covenant described under "--Certain Covenants--Limitation on Asset Sales."

The Surviving Person shall succeed to, and be substituted for, and may exercise every right and power of the Company under the indenture (or of the Subsidiary Guarantor under the Subsidiary Guaranty, as the case may be), but the predecessor Company in the case of:

(a) a sale, transfer, assignment, conveyance or other disposition (unless such sale, transfer, assignment, conveyance or other disposition is of all or substantially all of the assets of the Company as an entirety or virtually as an entirety), or

(b) a lease,

shall not be released from any of the obligations or covenants under the indenture, including with respect to the payment of the notes.

SEC Reports

Notwithstanding that the Company or the Guarantors may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act and so long as any notes remain outstanding, the Company shall file with the SEC and provide the trustee and holders of notes with such annual reports and such information, documents and other reports as are specified in Sections 13 and 15(d) of the Exchange Act and applicable to a U.S. corporation subject to such Sections, such information, documents and reports to be so filed and provided at the times specified for the filing of such information, documents and reports under such Sections; provided, however, that the Company shall not be so obligated to file such information, documents and reports with the SEC if the SEC does not permit such filings.

Events of Default

Events of Default in respect of the notes include:

(1) failure to make the payment of any interest or Special Interest, if any, on the notes when the same becomes due and payable, and such failure continues for a period of 30 days;

(2) failure to make the payment of any principal of, or premium, if any, on, any of the notes when the same becomes due and payable at its Stated Maturity, upon acceleration, redemption, optional redemption, required repurchase or otherwise;

(3) failure to comply with the covenant described under "--Merger, Consolidation and Sale of Property";

(4) failure to comply with any other covenant or agreement in the notes or in the indenture (other than a failure that is the subject of the foregoing clause (1), (2) or (3)) and such failure continues for 30 days after written notice is given to the Company as provided below;

(5) a default under any Debt by the Company or any Restricted Subsidiary that results in acceleration of the maturity of such Debt, or

failure to pay any such Debt at maturity, in an aggregate amount greater than $20.0 million or its foreign currency equivalent at the time (the "cross acceleration provisions");

(6) any judgment or judgments for the payment of money in an aggregate amount in excess of $20.0 million (or its foreign currency equivalent at the time) (net of applicable insurance coverage) that shall be rendered against the Company or any Restricted Subsidiary by a court of competent jurisdiction and that judgment shall not be vacated, waived, satisfied or discharged for any period of 60 consecutive days during which a stay of enforcement shall not be in effect (the "judgment default provisions");

(7) certain events involving bankruptcy, insolvency or reorganization of the Company or any Restricted Subsidiary that is a Significant Subsidiary (the "bankruptcy provisions"); and

(8) any Subsidiary Guaranty of one or more Restricted Subsidiaries that are Subsidiary Guarantors which by themselves or taken together would constitute a Significant Subsidiary ceases to be in full force and effect (other than in accordance with the terms of such Subsidiary Guaranty or the indenture) or any Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guaranty (the "guaranty provisions").

A Default under clause (4) is not an Event of Default until the trustee or the holders of not less than 25% in aggregate principal amount of the notes then outstanding, as applicable, notify the Company of the Default and the Company does not cure such Default within the time specified after receipt of such notice. Such notice must specify the Default, demand that it be remedied and state that such notice is a "Notice of Default."

The Company shall deliver to the trustee, within 30 days after the occurrence thereof, written notice in the form of an Officers' Certificate of any event that with the giving of notice and the lapse of time would become an Event of Default, its status and what action the Company is taking or proposes to take with respect thereto.

If an Event of Default with respect to the notes (other than an Event of Default resulting from certain events involving bankruptcy, insolvency or reorganization with respect to the Company) shall have occurred and be continuing, the trustee or the registered holders of not less than 25% in aggregate principal amount of the notes then outstanding may declare to be immediately due and payable the principal amount of all the applicable notes then outstanding, plus accrued but unpaid interest to the date of acceleration. In case an Event of Default resulting from certain events of bankruptcy, insolvency or reorganization with respect to the Company shall occur, such amount with respect to all the applicable notes shall be due and payable immediately without any declaration or other act on the part of the trustee or the holders of those notes. After any such acceleration, but before a judgment or decree based on acceleration is obtained by the trustee, the registered holders of a majority in aggregate principal amount of the notes then outstanding may, under certain circumstances, rescind and annul such acceleration if all Events of Default, other than the nonpayment of accelerated principal, premium or interest, have been cured or waived as provided in the indenture.

Subject to the provisions of the indenture relating to the duties of the trustee, in case an Event of Default shall occur and be continuing, the trustee

will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of the notes, unless such holders shall have offered to the trustee reasonable indemnity. Subject to such provisions for the indemnification of the trustee, the holders of a majority in aggregate principal amount of the applicable notes then outstanding will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the notes.

No holder of notes will have any right to institute any proceeding with respect to the indenture, or for the appointment of a receiver or trustee, or for any remedy thereunder, unless:

(a) such holder has previously given to the trustee written notice of a continuing Event of Default,

(b) the registered holders of at least 25% in aggregate principal amount of the notes then outstanding, as applicable, have made written request and offered reasonable indemnity to the trustee to institute such proceeding as trustee, and

(c) the trustee shall not have received from the registered holders of a majority in aggregate principal amount of the notes then outstanding a direction inconsistent with such request and shall have failed to institute such proceeding within 60 days.

However, such limitations do not apply to a suit instituted by a holder of any note for enforcement of payment of the principal of, and premium, if any, or interest on, such note on or after the respective due dates expressed in such note.

Amendments and Waivers

Subject to certain exceptions, the indenture may be amended with the consent of the registered holders of a majority in aggregate principal amount of the notes then outstanding (including consents obtained in connection with a tender offer or exchange offer for the notes) and any past default or compliance with any provisions may also be waived (except a default in the payment of principal, premium, interest or Special Interest, if any, and certain covenants and provisions of the indenture which cannot be amended without the consent of each holder of an outstanding note) with the consent of the registered holders of at least a majority in aggregate principal amount of the notes then outstanding. However, without the consent of each holder of an outstanding note, no amendment may, among other things,

(1) reduce the amount of notes whose holders must consent to an amendment or waiver,

(2) reduce the rate of or extend the time for payment of interest or Special Interest, if any, on any note,

(3) reduce the principal of or extend the Stated Maturity of any note,

(4) make any note payable in money other than that stated in the note,

(5) impair the right of any holder of the notes to receive payment

of principal of and interest on such holder's notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such holder's notes or any Subsidiary Guaranty,

(6) release any security interest that may have been granted in favor of the holders of the notes other than pursuant to the terms of such security interest,

(7) reduce the premium payable upon the redemption of any note nor change the time at which any note may be redeemed, as described under "--Optional Redemption",

(8) reduce the premium payable upon a Change of Control or, at any time after a Change of Control has occurred, change the time at which the Change of Control Offer relating thereto must be made or at which the notes must be repurchased pursuant to such Change of Control Offer,

(9) at any time after the Company is obligated to make a Prepayment Offer with the Excess Proceeds from Asset Sales, change the time at which such Prepayment Offer must be made or at which the notes must be repurchased pursuant thereto,

(10) make any change to the subordination provisions of the indenture that would adversely affect the holders of the applicable notes, or

(11) make any change in any Subsidiary Guaranty that would adversely affect the holders of the notes.

Without the consent of any holder of the notes, the Company and the trustee may amend the indenture to:

(1) cure any ambiguity, omission, defect or inconsistency,

(2) provide for the assumption by a successor corporation of the obligations of the Company under the indenture,

(3) provide for uncertificated notes in addition to or in place of certificated notes (provided that the uncertificated notes are issued in registered form for purposes of Section 163(f) of the Code, or in a manner such that the uncertificated notes are described in Section 163(f)(2)(B) of the Code),

(4) add additional Guarantees with respect to the notes or to release Subsidiary Guarantors from Subsidiary Guaranties as provided by the terms of the indenture,

(5) secure the notes, to add to the covenants of the Company for the benefit of the holders of the notes or to surrender any right or power conferred upon the Company,

(6) make any change that does not adversely affect the rights of any holder of the notes,

(7) make any change to the subordination provisions of the indenture that would limit or terminate the benefits available to any holder of Senior Debt under such provisions,

(8) to comply with any requirement of the Commission in connection with the qualification of the indenture under the Trust Indenture Act, or

(9) provide for the issuance of additional notes in accordance with the indenture.

No amendment may be made to the subordination provisions of the indenture that adversely affects the rights of any holder of Senior Debt then outstanding unless the holders of such Senior Debt (or their Representative) consent to such change. The consent of the holders of the notes is not necessary to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment. After an amendment becomes effective, the Company is required to mail to each registered holder of the notes at such holder's address appearing in the Security Register a notice briefly describing such amendment. However, the failure to give such notice to all holders of the notes, or any defect therein, will not impair or affect the validity of the amendment.

Defeasance

The Company at any time may terminate all its obligations under the notes and the indenture ("legal defeasance"), except for certain obligations, including those respecting the defeasance trust and obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes and to maintain a registrar and paying agent in respect of the notes. The Company at any time may terminate:

(1) its obligations under the covenants described under "--Repurchase at the Option of Holders Upon a Change of Control" and "--Certain Covenants",

(2) the operation of the cross acceleration provisions, the judgment default provisions, the bankruptcy provisions with respect to Significant Subsidiaries and the guaranty provisions described under "--Events of Default" above, and

(3) the limitations contained in clause (e) under the first paragraph of, and in the second paragraph of, "--Merger, Consolidation and Sale of Property" above ("covenant defeasance").

The Company may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option.

If the Company exercises its legal defeasance option, payment of the notes may not be accelerated because of an Event of Default with respect thereto. If the Company exercises its covenant defeasance option, payment of the notes may not be accelerated because of an Event of Default specified in clause (4) (with respect to the covenants described under "--Certain Covenants"), (5), (6), (7) (with respect only to Restricted Subsidiaries that are Significant Subsidiaries) or (8) under "--Events of Default" above or because of the failure of the Company to comply with clauses (e) and (f) under the first paragraph of, or with the second paragraph of, "--Merger, Consolidation and Sale of Property" above. If the Company exercises its legal defeasance option or its covenant defeasance option, each Subsidiary Guarantor will be released from all its obligations under its Subsidiary Guaranty.

The legal defeasance option or the covenant defeasance option may be exercised only if:

(a) the Company irrevocably deposits in trust with the trustee money or U.S. Government Obligations for the payment of principal of and interest or Special Interest, if any, on the notes to maturity or redemption, as the case may be;

(b) the Company delivers to the trustee a certificate from a nationally recognized firm of independent certified public accountants expressing their opinion that the payments of principal and interest when due and without reinvestment on the deposited U.S. Government Obligations plus any deposited money without investment will provide cash at such times and in such amounts as will be sufficient to pay principal and interest when due on all the notes to maturity or redemption, as the case may be;

(c) no Default or Event of Default has occurred and is continuing on the date of such deposit and after giving effect thereto;

(d) such deposit does not constitute a default under any other agreement or instrument binding on the Company;

(e) the Company delivers to the trustee an Opinion of Counsel to the effect that the trust resulting from the deposit does not constitute, or is qualified as, a regulated investment company under the Investment Company Act of 1940;

(f) in the case of the legal defeasance option, the Company delivers to the trustee an Opinion of Counsel stating that:

(1) the Company has received from the Internal Revenue Service a ruling, or

(2) since the date of the indenture there has been a change in the applicable Federal income tax law, to the effect, in either case, that, and based thereon such Opinion of Counsel shall confirm that, the holders of the notes will not recognize income, gain or loss for federal income tax purposes as a result of such defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same time as would have been the case if such defeasance has not occurred;

(h) in the case of the covenant defeasance option, the Company delivers to the trustee an Opinion of Counsel to the effect that the holders of the notes will not recognize income, gain or loss for federal income tax purposes as a result of such covenant defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such covenant defeasance had not occurred; and

(i) the Company delivers to the trustee an Officers' Certificate and an Opinion of Counsel, each stating that all conditions precedent to the defeasance and discharge of the notes have been complied with as required by the indenture.

Governing Law

The indenture and the notes are governed by the internal laws of the State of New York without reference to principles of conflicts of law.

the rights and powers vested in it under the indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

BOOK-ENTRY, DELIVERY AND FORMS

The Global Notes

We will initially issue the exchange notes in the form of one or more registered notes in global form, without interest coupons (collectively, the "Global Notes"). The Global Notes will be deposited with, or on behalf of, The Depository Trust Company ("DTC") and registered in the name of Cede & Co as nominee of DTC, or will remain in the custody of the Trustee pursuant to the FAST Balance Certificate between DTC and the Trustee. Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. You may hold your beneficial interests in a Global Note directly through DTC if you have an account with DTC or indirectly through organizations which have accounts with DTC. Beneficial interest in a Global Note may not be exchanged for notes in physical, certificated form ("Certificated Notes") except in the limited circumstances described below. All interests in a Global Note may be subject to the procedures and requirements of DTC.

Exchange Among the Global Notes

Any beneficial interest in one of the Global Notes that is transferred to a person who takes delivery in the form of an interest on another Global Note will, upon transfer, cease to be an interest in such Global Notes and become an interest on the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to beneficial interests in such other Global Note for as long as it remains such an interest.

Certain Book-Entry Procedures for the Global Notes

The descriptions of the operations and procedures of DTC set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to change by them from time to time. We do not take any responsibility for these operations or procedures, and investors are urged to contact the system or its participants directly to discuss these matter.

DTC has advised us that it is:

. a limited-purpose trust company organized under the laws of the State

of New York;
- a "banking organization" within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a "clearing corporation" within the meaning of the Uniform Commercial Code, as amended; and
- "a clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act.

DTC was created to hold securities of institutions that have accounts with the DTC (collectively, the "participants") and to facilitate the clearance and settlement of securities transactions amongst its participants in such securities through electronic book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers (including the initial purchasers), banks, trust companies, clearing corporations and certain other organizations. Indirect access to DTC's book-entry system is also available to others such as banks, brokers, dealers and trust companies (collectively, the "indirect participants") that clear through or maintain a custodial relationship with a participant, whether directly or indirectly. Investors who are not participants may beneficial own securities held by or on behalf of DTC only through participants or indirect participants.

We expect that pursuant to procedures established by DTC, upon the deposit of a Global Note with DTC, DTC will credit, on its book-entry registration and transfer system, the amount represented by such Global Note to the accounts of participants. The accounts to be credited shall be designated by the purchasers. Ownership of beneficial interests in a Global Note will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in a Global Note will be shown on, and the transfer of those

ownership interests will be effected only through, records maintained by DTC (with respect to participant's interests), the participants and the indirect participants (with respect to the owners of beneficial interests in the Global Note other than participants).

The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. Accordingly, the ability to transfer interests in the exchange notes represented by a Global Note to such persons may be limited. In addition, because DTC can act on behalf of its participants, who in turn act on behalf of persons who hold interest through participants, the ability of a person having an interest in exchange notes represented by a Global Note to pledge or transfer such interest to persons or entities that do not participate in DTC's system, or to otherwise take actions in respect of such interest, may be affected by the lack of a physical definitive security in respect of such interest.

So long as DTC, or its nominee, is the registered holder and owner of the Global Notes, DTC or such nominee, as the case may be, will be considered the sole legal owner and holder of the exchange notes evidenced by the Global Note for all purposes under the indenture. Except as set forth below, as an owner of a beneficial interest in a Global Note, you will not be entitled to have the exchange note represented by such Global Note registered in your name, will not receive or be entitled to receive physical delivery of Certificated Notes and will not be considered to be the owner or holder thereof under the indenture for any purpose, including with respect to giving direction,

instruction or approval to the Trustee thereunder. Accordingly, each holder owning a beneficial interest in a Global Note must rely on the procedures of DTC and, if such holder is not a participant or indirect participant, on the procedures of the participant through which such holder owns its interest, to exercise any rights of a holder of exchange notes under the indenture or such Global Note. We understand that under existing industry practice, in the event an owner of a beneficial interest in a Global Note desires to take any action that DTC, as the holder of such Global Note, is entitled to take, DTC would authorize the participants to take such action, and the participants would authorize beneficial owners owning through such participants to take such action or would otherwise act upon the instructions of beneficial owners owning through them. Neither we nor the trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of exchange notes by DTC, or for maintaining, supervising or reviewing any records of DTC relating to such notes.

We will make payments of principal of, premium, if any, and interest on exchange notes represented by a Global Note registered in the name of and held by DTC or its nominee on the applicable record date to or at the direction of DTC or its nominee, as the case may be, as the registered owner and holder of the Global Notes representing such exchange notes under the indenture. Under the terms of the indenture, we and the trustee may treat the persons in whose names the exchange notes, including the Global Notes, are registered as the owners thereof for the purpose of receiving payment thereon and for any and all other purposes whatsoever. We expect that DTC or its nominee, upon receipt of any payment of principal of, premium, if any, or interest on the exchange notes will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such exchange notes, as shown on the records of DTC or its nominee. We also expect that payments by participants or indirect participants to owners of beneficial interests in a Global Note held through such participants or indirect participants be governed by standing instructions and customary practices and will be the responsibility of such participants or indirect participants. We will not have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Global Notes or for other aspects of the relationship between DTC and its participants or indirect participants or the participants or indirect participants and the owners of beneficial interests in a Global Note owning through such participants.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds.

Certificated Notes

Subject to certain conditions, the exchange notes represented by the Global Note are exchangeable for Certificated Notes in definitive form of like tenor only if:

- DTC notifies us that it is unwilling or unable to continue to act as a depositary or DTC ceases to be a clearing agency registered under the Exchange Act for the Global Notes and, in either case, a qualified successor depositary for the Global Notes is not appointed within 90 days of such notice or cessation;

- we, in our discretion, at any time notify the trustee that we elect to cause the issuance of the Certificated Notes in exchange for all or any part of the notes represented by a Global Note of Global

Notes; or

- a default entitling the holders of the notes to accelerate the maturity thereof has occurred and is continuing and the registrar has received a request from DTC.

In the event of any of the foregoing, DTC shall surrender such Global Note or Global Notes to the trustee for cancellation and we shall execute, and the trustee shall authenticate and deliver, Certificated Notes in exchange for such Global Note or Global Notes. Upon any such issuance, the trustee is required to register such Certificate Notes in the name of such person or persons (or nominees of any thereof) and cause the same to be delivered thereto.

Neither we nor the trustee shall be liable for any delay by DTC or any participant or indirect participant in identifying the beneficial owners of the related exchange notes and each such person may conclusively rely on, and shall be protected in relying on, instructions from DTC for all purposes (including with respect to the registration and delivery, and the respective principal amounts, of the exchange notes to be issued).

CERTAIN UNITED STATES FEDERAL TAX CONSIDERATIONS

The following general discussion summarizes certain material U.S. federal income tax aspects of the acquisition, ownership and disposition of the notes. This discussion is a summary for general information only and does not consider all aspects of U.S. federal income taxation that may be relevant to the acquisition, ownership and disposition of the notes by a prospective investor in light of his, her or its personal circumstances. This discussion is limited to the U.S. federal income tax consequences to persons who are beneficial owners of the notes and who hold the notes as capital assets within the meaning of Section 1221 of the U.S. Internal Revenue Code of 1986, as amended (the "Code"). This discussion does not address the U.S. federal income tax consequences to investors subject to special treatment under the federal income tax laws, such as dealers in securities or foreign currency, tax-exempt entities, banks, thrifts, insurance companies, persons that hold the notes as part of a "straddle," as part of a "hedge" against currency risk, or as part of a "conversion transaction," persons that have a "functional currency" other than the U.S. dollar, and investors in pass-through entities that hold the notes. In addition, this discussion is generally limited to the tax consequences to initial holders that purchase the notes at the "issue price," which for this purpose is the first price at which a substantial amount of the notes are sold to the public for money, excluding sales to bond houses, brokers or similar persons acting in the capacity of underwriters, placement agents or wholesalers. This discussion does not describe any tax consequences arising out of the tax laws of any state, local or foreign jurisdiction, or, except to a limited extent under the caption "Non-U.S. Holders," any possible applicability of U.S. federal gift or estate tax.

This summary is based upon the Code, existing and proposed regulations thereunder, and current administrative rulings and court decisions, all as in effect on the date of this prospectus. All of the foregoing are subject to change, possibly on a retroactive basis, and any such change could affect the continuing validity of this discussion.

Persons considering the purchase of notes should consult their own tax advisors concerning the application of U.S. federal income tax laws, as well as the law of any state, local or foreign taxing jurisdiction, to their particular situations.

U.S. Holders

The following discussion is limited to the U.S. federal income tax consequences to a holder of a note that is:

- a citizen or resident of the United States, including an alien resident who is a lawful permanent resident of the United States or meets the "substantial presence" test under Section 7701(b) of the Code;
- a corporation created or organized in the United States or under the laws of the United States or any political subdivision thereof;
- an estate whose income is includible in gross income for United States federal income tax purposes regardless of its source; or
- a trust, if a U.S. court is able to exercise primary supervision over administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust (each a "U.S. Holder").

Stated Interest. Interest on the notes will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with such holder's method of accounting for U.S. federal income tax purposes. The notes are not expected to be issued to investors with "original issues discount" for U.S. federal income tax purposes.

Special Interest. Our failure to cause to be declared effective an Exchange Offer Registration Statement or a Shelf Registration Statement, as described under "Exchange Offer; Registration Rights," will cause Special Interest to accrue on the notes in the manner described therein. According to the applicable Treasury Regulations, the possibility of a change in the interest rate on the notes will not affect the amount or timing of interest income recognized by a holder of notes if the likelihood of the change, as of the date the notes are issued, is remote. We intend to take the position that the likelihood of the payment of Special Interest with respect to the notes is remote

and do not intend to treat the possibility of a change in the interest rate as affecting the yield to maturity of the notes. Accordingly, any Special Interest payable to the holders of the notes in this event should be includible in gross income by a U.S. Holder at the time the payment is paid or accrues in accordance with the U.S. Holder's regular method of tax accounting. Similarly, we intend to take the position that the likelihood of a redemption or repurchase is remote under applicable Treasury regulations and similarly do not intend to treat those possibilities as affecting the yield to maturity of the notes.

Sale, Exchange or Redemption of the Notes. Unless a nonrecognition provision applies, upon the disposition of a note by sale, exchange or redemption, a U.S. Holder generally will recognize gain or loss equal to the difference between (i) the amount realized on the disposition (other than amounts attributable to accrued interest not yet taken into income) and (ii) the U.S. Holder's adjusted tax basis in the notes. A U.S. Holder's adjusted tax basis in a note generally will equal the cost of the notes (net of accrued interest) to the U.S. Holder.

Such gain or loss generally will constitute capital gain or loss and will be long-term capital gain or loss if the U.S. Holder has held the notes for longer than one year. If the U.S. Holder is an individual, any capital gain generally will be subject to U.S. federal income tax at preferential rates if

specified minimum holding periods are met. The deductibility of capital losses is subject to certain limitations. Any gain or loss recognized by a U.S. Holder on the sale, exchange or disposition of a note will generally be treated as U.S. source for purposes of computing the U.S. foreign tax credit limitation.

Exchange Offer. The exchange of the privately placed notes for publicly registered notes pursuant to the Exchange Offer should not constitute a material modification of the terms of the notes and therefore should not constitute a taxable event for U.S. federal income tax purposes. In that event, the exchange would have no U.S. federal income tax consequences to a U.S. Holder, so that the U.S. Holder's holding period and adjusted tax basis for a note would not be affected, and the U.S. Holder would continue to take into account income in respect of a note in the same manner as before the exchange.

Backup Withholding. A U.S. Holder of notes may be subject, under certain circumstances, to backup withholding at a rate (currently 30%) with respect to payments of interest on, and gross proceeds from a sale or other disposition of, the notes. These backup withholding rules apply if the U.S. Holder, among other things:

- fails to furnish a social security number or other taxpayer identification number ("TIN") certified under penalties of perjury within a reasonable time after the request therefor;

- furnishes an incorrect TIN;

- fails to properly report interest; or

- under certain circumstances, fails to provide a certified statement, signed under penalties of perjury, that the TIN furnished is the correct number and that such U.S. Holder is not subject to backup withholding.

A U.S. Holder of notes who does not provide his, her or its correct TIN may be subject to penalties imposed by the U.S. Internal Revenue Service (the "IRS"). Any amount paid as backup withholding is creditable against the U.S. Holder's federal income tax liability, provided the requisite information is provided to the IRS. Certain persons are exempt from backup withholding, including corporations and tax-exempt entities, provided their exemption from backup withholding is properly established. U.S. Holders of notes should consult their tax advisors as to their qualifications for exemption from withholding and the procedure for obtaining such exemption.

We will report to the holders of the notes and the IRS the amount of any "reportable payments" made by us and any amount withheld with respect to the notes during the calendar year.

Non-U.S. Holders

The following discussion is limited to the U.S. federal income and estate tax consequences to a holder of notes that is an individual, corporation, estate or trust other than a U.S. Holder (a "Non-U.S. Holder"). For purposes of the discussion below, interest and gain on the sale, exchange or other disposition of notes will be considered to be "U.S. trade or business income" if such income or gain is:

- effectively connected with the conduct of a U.S. trade or business or
- in the case of a treaty resident, attributable to a U.S. permanent

establishment (or, in the case of an individual, a fixed base) in the United States.

Stated Interest. Generally, interest (including Special Interest) paid to a Non-U.S. Holder of a notes will not be subject to United States federal income or withholding tax if such interest is not U.S. trade or business income and is "portfolio interest." Generally, interest on the notes will qualify as portfolio interest if the Non-U.S. Holder:

- does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock;
- is not a controlled foreign corporation with respect to which we are a "related person" within the meaning of the Code; and
- certifies, under penalties of perjury, that such holder is not a United States person and provides such holder's name and address.

The gross amount of payments of interest that do not qualify for the portfolio interest exception and that are not U.S. trade or business income will be subject to U.S. withholding tax at a rate of 30% unless a treaty applies to reduce or eliminate withholding. U.S. trade or business income will be taxed at regular graduated U.S. rates rather than the 30% gross rate. In the case of a Non-U.S. Holder that is a corporation, such U.S. trade or business income also may be subject to the branch profits tax. To claim an exemption from withholding, or to claim the benefits of a treaty, a Non-U.S. Holder must provide a properly executed Form W-8BEN or W-8ECI, as applicable, prior to the payment of interest. These forms must be periodically updated. A Non-U.S. Holder who is claiming the benefits of a treaty may be required, in certain instances, to obtain a U.S. taxpayer identification number and to provide certain documentary evidence issued by foreign governmental authorities to prove residence in the foreign country. Also, special procedures are provided under applicable regulations for payments through qualified intermediaries.

Sale, Exchange or Redemption or Notes. Except as described below and subject to the discussion concerning backup withholding, any gain realized by a Non-U.S. Holder on the sale, exchange or redemption of a notes generally will not be subject to U.S. federal income tax, unless:

- such gain is U.S. trade or business income;
- subject to certain exceptions, the Non-U.S. Holder is an individual who holds the notes as a capital asset and is present in the United States for 183 days or more in the taxable year of the disposition; or
- the Non-U.S. Holder is subject to tax pursuant to the provisions of U.S. tax law applicable to certain U.S. expatriates.

Federal Estate Tax. Notes held (or treated as held) by an individual who is a Non-U.S. Holder at the time of his death will not be subject to U.S. federal estate tax, provided that the individual does not actually or constructively own 10% or more of the total voting power of our voting stock and income on the notes was not U.S. trade or business income.

Information Reporting and Backup Withholding. We must report annually to the IRS and to each Non-U.S. Holder any interest that is paid to the Non-U.S. Holder. Copies of these information returns also may be made available under the provisions of a specific treaty or other agreement to the tax authorities of the country in which the Non-U.S. Holder resides.

Treasury regulations provide that the backup withholding tax (currently 30%)and certain information reporting will not apply to such payments of

interest with respect to which either the requisite certification, as described above, has been received or an exemption otherwise has been established, provided that neither we nor our paying agent have actual knowledge that the holder is a United States person or that the conditions of any other exemption are not, in fact, satisfied.

The payment of the proceeds from the disposition of the notes to or through the United States office of any broker, U.S. or foreign, will be subject to information reporting and possible backup withholding unless the owner certifies as to its non-U.S. status under penalties of perjury or otherwise establishes an exemption, provided that the broker does not have actual knowledge that the holder is a United States person or that the conditions of any other exemption are not, in fact, satisfied. The payment of the proceeds from the disposition of the notes to or through a non-U.S. office of a non-U.S. broker will not be subject to information reporting or backup withholding unless the non-U.S. broker has certain types of relationships with the United States (a "U.S. related person"). In the case of the payment of the proceeds from the disposition of the notes to or through a non-U.S. office of a broker that is either a U.S. person or a U.S. related person, the Treasury regulations require information reporting (but not back-up withholding) on the payment unless the broker has documentary evidence in its files that the owner is a Non-U.S. Holder and the broker has no knowledge to the contrary.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded or credited against the Non-U.S. Holder's United States federal income tax liability, provided that the required information is provided to the IRS.

THE PRECEDING DISCUSSION OF THE MATERIAL FEDERAL INCOME TAX CONSEQUENCES IS FOR GENERAL INFORMATION ONLY AND IS NOT TAX ADVICE. ACCORDINGLY, EACH INVESTOR SHOULD CONSULT HIS, HER OR ITS OWN TAX ADVISOR AS TO PARTICULAR TAX CONSEQUENCES TO IT OF PURCHASING, HOLDING AND DISPOSING OF NOTES, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL OR FOREIGN TAX LAWS, AND OF ANY PROPOSED CHANGES IN APPLICABLE LAW.

PLAN OF DISTRIBUTION

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for original notes where such original notes were acquired as a result of market-making activities or other trading activities. We have agreed that, starting on the expiration date of the exchange offer and ending on the close of business one year after the expiration date, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale. In addition, until __________, 200__, all dealers effecting transactions in the exchange notes may be required to deliver a prospectus.

We will not receive any proceeds from any sale of exchange notes by brokers-dealers. Exchange notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more

transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such exchange notes may be deemed to be an "underwriter" within the meaning of the Securities Act and any profit of any such resale of exchange notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act.

For a period of one year after the expiration date, we will promptly send additional copies of this prospectus and any amendment of the exchange offer supplement to this prospectus to any broker-dealer that requests such documents in the letter of transmittal. We have agreed to pay all expenses incident to this exchange offer (including the expenses of one counsel for the holder of the original notes) other than commissions or concessions of any brokers or dealers and will indemnify the holders of the original notes (including any broker-dealers) against certain liabilities, including liabilities under the Securities Act.

WHERE YOU CAN FIND MORE INFORMATION

Because the original notes were sold pursuant to exemptions from registration under the Securities Act, they are subject to transfer restrictions. In connection with the issuance of the original notes, we entered into a registration rights agreement with the initial purchasers in which we agreed to either: (a) file with the SEC a registration statement covering the exchange notes, use our best efforts to cause the registration statement to become effective under the Securities Act, and upon effectiveness of the registration statement, to complete the exchange offer; or (b) cause the resale of the original notes to be registered under the Securities Act pursuant to a resale shelf registration statement. Pursuant to the registration rights agreement, we have filed a registration statement on Form S-4 with the SEC under the Securities Act with respect to the exchange notes. This prospectus, which constitutes a part of the registration statement on Form S-4, does not contain all the information set forth in the registration statement, certain parts of which are omitted in accordance with the rules and regulations of the SEC. We are referring you to the registration statement and to the exhibits for further information with respect to us and the exchange notes. The statements contained in this prospectus concerning the provisions of any document are not necessarily complete, and, in each instance, we refer you to the copy of such document filed as an exhibit to the registration statement or otherwise filed with the SEC. Each such statement is qualified in its entirety by such reference.

We are subject to the informational requirements of the Exchange Act and, in accordance therewith, we file annual, quarterly and current reports, proxy statements and other information with the SEC. Such reports, proxy statements and other information may be inspected and copied at the public reference facilities maintained by the SEC at Room 1024, Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549. You may also obtain copies

of such material by mail from the Public Reference Section of the SEC at 450 Fifth Street, N.W., Washington, D.C. 20549 at prescribed rates. UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL DATA

In March 2001, we acquired Van Leer Industrial Packaging. See "Management's Discussion and Analysis of Financial Condition and Results of Operations--General-Recent Acquisitions." The following unaudited pro forma condensed combined statement of income for the year ended October 31, 2001, was prepared to illustrate the pro forma effects of the Van Leer Industrial Packaging acquisition as if that transaction had occurred as of November 1, 2000. Our historical consolidated statement of income for the year ended October 31, 2001, includes the operating results of Van Leer Industrial Packaging from March 1, 2001.

Because we consummated the Van Leer Industrial Packaging acquisition in March 2001, our October 31, 2001 historical balance sheet includes the acquired Van Leer Industrial Packaging assets and liabilities, and the financing effects of the acquisition. See Note 2 (Van Leer Industrial Packaging Acquisition) included in the Notes to Consolidated Financial Statements for the Years Ended October 31, 2001, 2000 and 1999 included elsewhere in this prospectus. See also the combined financial statements and related notes for Van Leer Industrial Packaging included elsewhere in this prospectus.

The pro forma adjustments reflect the acquisition of Van Leer Industrial Packaging and are based upon certain assumptions that we believe are reasonable. The pro forma amounts do not include anticipated synergies from the acquisition, nor do they include the anticipated savings associated with the consolidated activities of Van Leer Industrial Packaging and our other locations existing prior to the acquisition date. All of the consolidation activities result from our acquisition of Van Leer Industrial Packaging. The unaudited pro forma condensed combined statement of income and accompanying notes should be read in conjunction with the historical financial statements of Van Leer Industrial Packaging and us and the related notes thereto included elsewhere in this prospectus.

We are providing this unaudited pro forma condensed combined statement of income because we believe it provides useful information as to pro forma results, including the results of Van Leer Industrial Packaging for the 12-month period ended October 31, 2001. However, the unaudited pro forma condensed combined statement of income is provided for informational purposes only and does not purport to represent what our results of operations would actually have been if the Van Leer Industrial Packaging acquisition had in fact occurred on November 1, 2000, or to project our results of operations for any future period of time.

To the Shareholders and the
Board of Directors of Greif Bros. Corporation

We have audited the consolidated balance sheets of Greif Bros. Corporation and subsidiaries as of October 31, 2001 and 2000, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended October 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Greif Bros. GREIF BROS. CORPORATION AND SUBSIDIARY COMPANIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1--DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Business

Greif Bros. Corporation and its subsidiaries (the "Company") principally manufacture industrial shipping containers and containerboard and corrugated products that it sells to customers in many industries throughout the world. In March 2001, the Company acquired Van Leer Industrial Packaging (see Note 2), which significantly increased the operations of the Company. The Company has 185 operating locations in over 40 countries. In addition, the Company owns timber properties, primarily in the southeastern United States, which are harvested and regenerated.

Due to the variety of its products, the Company has many customers buying different types of its products and, due to the scope of the Company's sales, no one customer is considered principal in the total operation of the Company.

Because the Company supplies a cross section of industries, such as chemicals, food products, petroleum products, pharmaceuticals and metal products, and must make spot deliveries on a day-to-day basis as its products are required by its customers, the Company does not operate on a backlog to any significant extent and maintains only limited levels of finished goods. Many customers place their orders weekly for delivery during the week.

The Company's raw materials are principally pulpwood, waste paper for recycling, paper, steel and resins.

There are approximately 10,000 employees of the Company at October 31, 2001.

Basis of Consolidation

The Consolidated Financial Statements include the accounts of Greif Bros. Corporation and its subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The most significant estimates are related to the allowance for doubtful accounts, expected useful lives assigned to properties, plants and equipment, goodwill and other intangible assets, restructuring reserves, postretirement benefits, income taxes and contingencies. Actual amounts could differ from those estimates.

Revenue Recognition

In December 1999, the Securities and Exchange Commission staff issued Staff Accounting Bulletin ("SAB") No. 101, "Revenue Recognition in Financial Statements." SAB No. 101 further defines the basic principles of revenue recognition and was adopted by the Company during 2001. The Company recognizes revenue when title passes to customers or services have been rendered, with appropriate provision for returns and allowances. The adoption of SAB No. 101 did not have a material effect on the Company's financial statements.

Shipping and Handling Fees and Costs

The Emerging Issues Task Force ("EITF") reached a consensus in September 2000 that all amounts billed to a customer in a sale transaction related to shipping and handling, if any, represent revenues earned for the goods provided and should be classified as revenue. The EITF also concluded that the classification of shipping and handling costs is an accounting policy decision. In accordance with EITF No. 00-10, "Accounting for Shipping and Handling Fees and Costs," the Company includes shipping and handling costs in cost of products sold. Prior to the issuance of EITF No. 00-10, the Company's shipping and handling costs were netted in net sales. All prior period amounts have been reclassified to conform to EITF No. 00-10. The adoption of EITF No. 00-10 had no effect on reported net income.

Income Taxes

Income taxes are accounted for under Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes." In accordance with this statement, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, as measured by enacted tax rates that are expected to be in effect in the periods which the deferred tax liabilities and assets are expected to be settled or realized.

Cash and Cash Equivalents

The Company considers highly liquid investments with an original maturity of three months or less to be cash and cash equivalents. Included in these amounts are repurchase agreements of $1.9 million in 2001 ($3.6 million in 2000).

Concentration of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of trade accounts receivable. Such credit risk is considered by management to be limited due to the Company's many customers, none that are considered principal in the total operations of the Company, doing business in a variety of industries throughout the world.

Inventories

Inventories are stated at the lower of cost or market, principally on the last-in, first-out basis in the United States (approximately 30% of consolidated inventories) and on the first-in, first-out basis in other parts of the world (approximately 70% of consolidated inventories). The inventories are comprised as follows at October 31 (U.S. dollars in thousands):

	2001	2000
Finished goods	$ 40,881	$ 16,494
Raw materials and work-in-process	120,510	63,630
	161,391	80,124
Reduction to state inventories on last-in, first-out basis	(38,028)	(37,383)
	$123,363	$ 42,741

Properties, Plants and Equipment

Depreciation on properties, plants and equipment is provided on the straight-line method over the estimated useful lives of the assets as follows:

	Years
Buildings	30-45
Machinery and equipment	3-19

Depreciation expense was $63.8 million in 2001, $37.3 million in 2000 and $35.2 million in 1999. Expenditures for repairs and maintenance are charged to expense as incurred.

Depletion on timber properties is computed on the basis of cost and the estimated recoverable timber acquired.

When properties are retired or otherwise disposed of, the cost and accumulated depreciation are eliminated from the asset and related allowance accounts. Gains or losses are credited or charged to income as incurred.

Net Assets Held for Sale

Net assets held for sale represent land, buildings and land improvements less accumulated depreciation for locations that have been closed, primarily as a result of the restructuring plans in the Industrial Shipping Containers segment (see Note 5-Restructuring Reserves). As of October 31, 2001 and 2000, there were 14 and 12 locations held for sale, respectively. The net sales and loss before income tax benefit of these locations were $35.6 million and $0.8 million, respectively, during 2001. The net sales and loss before income tax benefit of these locations were $16.0 million and $2.6 million, respectively, during 2000. The effect of suspending depreciation on the facilities held for sale is immaterial to the results of operations. The net assets held for sale have been listed for sale, and it is the Company's intention to complete the sales within the upcoming year.

Internal Use Software

Internal use software is accounted for under Statement of Position 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use." Internal use software is software that is acquired, internally developed or modified solely to meet the entity's needs and for which, during the software's development or modification, a plan does not exist to market the software externally. Costs incurred to develop the software during the application development stage, upgrades and enhancements that provide additional functionality are capitalized.

Goodwill and Other Intangible Assets

Goodwill is amortized on a straight-line basis over 15- or 25-year periods. The cost of acquired intangible assets is amortized on a straight-line basis over their estimated economic lives of 2 to 25 years. The weighted average period of goodwill and intangible assets amortization is 21 years. Amortization expense was $13.1 million in 2001, $7.0 million in 2000 and $6.5 million in 1999. Accumulated amortization was $31.2 million at October 31, 2001 ($18.1 million at October 31, 2000).

The Company's policy is to periodically review its goodwill, other

intangible assets and other long-lived assets based upon the evaluation of such factors as the occurrence of a significant adverse event or change in the environment in which the business operates, or if the expected future net cash flows (undiscounted and without interest) would become less than the carrying amount of the asset. An impairment loss would be recorded in the period such determination is made based on the fair value of the related businesses.

Derivative Financial Instruments

On November 1, 2000, the Company adopted SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended by SFAS No. 137, "Accounting for Derivative Instruments and Hedging Activities--Deferral of the Effective Date of FASB Statement No. 133," and SFAS No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities." These statements require that all derivatives be recorded in the balance sheet as either assets or liabilities and measured at fair value. The accounting for changes in fair value of the derivative depends on the intended use of the derivative and the resulting designation.

The Company enters into interest rate swap agreements for the purpose of hedging its exposure to fluctuations in interest rates. Under SFAS No. 133, the Company's interest rate swap contracts are considered cash flow hedges. The interest rate swap contracts were entered into to assist the Company in its management of exposure to variable rate debt. The differentials payable or receivable under these agreements are recorded as an adjustment to interest expense and are included in interest receivable or payable. An asset or liability is recorded on the Company's balance sheet for the fair value of the interest rate swap agreements. A corresponding charge or credit is reflected, net of tax, in other comprehensive income (loss).

The Company enters into foreign currency forward contracts to hedge certain short-term intercompany loan transactions with its foreign businesses. Such contracts limit the Company's exposure to both favorable and unfavorable currency fluctuations. These contracts are adjusted to reflect market value as of each balance sheet date, with the resulting changes in fair value being recognized in other income, net.

Foreign Currency Translation

In accordance with SFAS No. 52, "Foreign Currency Translation," the assets and liabilities denominated in foreign currency are translated into U.S. dollars at the current rate of exchange existing at year-end and revenues and expenses are translated at the average monthly exchange rates.

The cumulative translation adjustments, which represent the effects of translating assets and liabilities of the Company's foreign operations, are presented in the Consolidated Statements of Changes in Shareholders' Equity in "Accumulated Other Comprehensive Income (Loss)." The transaction gains and losses included in income are immaterial.

The functional currency for foreign operations in highly inflationary economies is the U.S. dollar, and any gains or losses are credited or charged to income.

Earnings Per Share

The Company has two classes of common stock and, as such, applies the "two-class method" of computing earnings per share as prescribed in SFAS No.

128, "Earnings Per Share." In accordance with the statement, earnings are allocated first to Class A and Class B Common Stock to the extent that dividends are actually paid and the remainder allocated assuming all of the earnings for the period have been distributed in the form of dividends.

The following is a reconciliation of the shares used to calculate basic and diluted earnings per share:

	For the years ended October 3		
	2001	2000	199
Class A Common Stock:			
Basic earnings per share	10,523,476	10,557,935	10,8
Assumed conversion of stock options	26,603	41,600	
Diluted earnings per share	10,550,079	10,599,535	10,9
Class B Common Stock:			
Basic and diluted earnings per share	11,842,656	11,852,602	11,9

There are 1,172,248 options that are antidilutive for 2001 (370,090 for 2000 and 496,789 for 1999).

Environmental Cleanup Costs

The Company expenses environmental expenditures related to existing conditions resulting from past or current operations and from which no current or future benefit is discernable. Expenditures that extend the life of the related property or mitigate or prevent future environmental contamination are capitalized. The Company determines its liability on a site-by-site basis and records a liability at the time when it is probable and can be reasonably estimated. The Company's estimated liability is reduced to reflect the anticipated participation of other potentially responsible parties in those instances where it is probable that such parties are legally responsible and financially capable of paying their respective shares of the relevant costs.

Reclassifications

Certain prior year amounts have been reclassified to conform to the 2001 presentation.

Recent Accounting Standards

In June 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 requires use of the purchase method for business combinations initiated after June 30, 2001. SFAS No. 142 requires that goodwill no longer be amortized, but instead be periodically reviewed for impairment. The provisions of SFAS No. 142 will be effective for fiscal years beginning after December 15, 2001. However, earlier application is permitted for entities with fiscal years beginning after March 15, 2001, provided that the first interim financial statements have not been issued previously. In all

cases, the provisions of SFAS No. 142 shall be initially applied at the beginning of a fiscal year.

The application of the non-amortization provisions of SFAS No. 142 will increase net income of the Company upon adoption. The effect of the non-amortization provisions of SFAS No. 142 on net income is subject to finalization of the allocation of the purchase price for the Van Leer Industrial Packaging acquisition (see Note 2) including further evaluation of all intangible assets in relation to the provisions of SFAS No. 142.

At this time, the effect of the impairment provisions provided by SFAS No. 142 is not known.

NOTE 2--ACQUISITIONS AND OTHER INVESTMENTS

Van Leer Industrial Packaging Acquisition

On March 2, 2001, pursuant to the terms of a Share Purchase Agreement dated October 27, 2000, as amended on January 5 and February 28, 2001, between the Company and Huhtamaki Van Leer Oyj, a Finnish corporation ("Huhtamaki"), the Company acquired all of the issued share capital of Royal Packaging Industries Van Leer N.V., a Dutch limited liability company, Huhtamaki Holdings do Brasil Ltda., a Brazilian limited liability company, Van Leer France Holding S.A.S., a French limited liability company, Van Leer Containers, Inc., a U.S. corporation, and American Flange & Manufacturing Co., Inc., a U.S. corporation (collectively, "Van Leer Industrial Packaging"). Van Leer Industrial Packaging is a worldwide provider of industrial packaging and components, including steel, fibre and plastic drums, polycarbonate water bottles, intermediate bulk containers and closure systems, with operations in over 40 countries.

As consideration for the shares of Van Leer Industrial Packaging, the Company paid $555.0 million less the amount of Van Leer Industrial Packaging's debt and certain other obligations ($206.4 million) as of the closing date. In addition, the Company paid $15.0 million in legal and professional fees related to the acquisition. The acquisition was funded by long-term debt borrowed against a $900 million Senior Secured Credit Agreement (see Note 6).

The acquisition of Van Leer Industrial Packaging, included in operating results from the acquisition date, was accounted for using the purchase method of accounting and, accordingly, the purchase price was allocated to the

assets purchased and liabilities assumed based upon their fair values at the date of acquisition. The fair values of the assets acquired and the liabilities assumed were $642.7 million and $423.9 million, respectively. The final allocation of the purchase price may differ due to additional refinements in the fair values of the net assets acquired. Identifiable intangible assets, with a combined fair value of $34.1 million, including the Van Leer trademark, Tri-Sure Closures trademarks, patents and other proprietary information, and certain noncompete agreements, have been recorded. The excess of the purchase price over the fair values of the net tangible and intangible assets acquired of $110.7 million was recorded as goodwill.

The goodwill is being amortized on a straight-line basis over 25 years based on consideration regarding the age of the acquired companies, their customers and the risk of obsolescence of their products. The intangible assets are being amortized on a straight-line basis over their estimated economic lives of 2 to 25 years.

Abzac-Greif Investment

During June 1999, Greif Bros. Canada Inc., a wholly-owned Canadian subsidiary of the Company, exchanged its spiral core manufacturing assets with Abzac S.A., a privately held company in France ("Abzac"), for a 49% equity interest in Abzac's fibre drum business (known as "Abzac-Greif"). The effective date of the transaction was January 1, 1999. The investment in Abzac-Greif of $2.0 million has been recorded using the equity method of accounting.

Great Lakes and Trend Pak Acquisitions

On April 5, 1999, the Company purchased the common stock of Great Lakes Corrugated Corp. ("Great Lakes") and Trend Pak, Inc. ("Trend Pak") from their shareholders for $20.8 million in cash. In addition, the Company paid $0.1 million in legal and professional fees related to the acquisition.

The acquisitions of Great Lakes and Trend Pak, included in operating results from the acquisition date, were accounted for using the purchase method of accounting and, accordingly, the purchase price was allocated to the assets purchased and liabilities assumed based upon their fair values at the date of acquisition. The fair values of the assets acquired and liabilities assumed were $14.8 million and $5.9 million, respectively. The excess of the purchase price over the fair values of the net assets acquired of $12.0 million was recorded as goodwill. The goodwill is being amortized on a straight-line basis over 15 years based on consideration regarding the age of the acquired businesses, their customers and the risk of obsolescence of their products.

Intermediate Bulk Containers ("IBC") Acquisition

On January 11, 1999, the Company purchased the assets of the IBC business from Sonoco Products Company ("Sonoco") for $38.0 million in cash. In addition, the Company paid $0.2 million in legal and professional fees related to the acquisition. Prior to the acquisition date, and subsequent to March 30, 1998, the Company marketed and sold IBCs under a distributorship agreement with Sonoco.

The acquisition of the IBC business, included in operating results from the acquisition date, was accounted for using the purchase method of accounting and, accordingly, the purchase price was allocated to the assets purchased and liabilities assumed based upon their fair values at the date of acquisition. The fair values of the assets acquired and liabilities assumed were $15.7 million and $1.3 million, respectively. The excess of the purchase price over the fair values of the net assets acquired of $23.8 million was recorded as goodwill. The goodwill is being amortized on a straight-line basis over 25 years based on consideration regarding the age of the acquired business, its customers and the risk of obsolescence of its products.

CorrChoice Joint Venture

On November 1, 1998, the Company entered into a Joint Venture Agreement with RDJ Holdings Inc. ("RDJ") and a minority shareholder of a subsidiary of Ohio Packaging Corporation (the "Minority Shareholder") to form CorrChoice, Inc. ("CorrChoice"). Pursuant to the terms of the Joint Venture Agreement, the Company contributed all of its stock of Michigan Packaging Company ("Michigan Packaging") and Ohio Packaging Corporation ("Ohio Packaging") in exchange for a 63.24% ownership interest in CorrChoice. RDJ and the Minority Shareholder contributed all of their stock of Ohio Packaging and its subsidiaries in

exchange for a 36.76% ownership interest in CorrChoice. The contribution of the Michigan Packaging stock and the Ohio Packaging stock was recorded by the Company at book value with no gain or loss recognized in accordance with EITF No. 86-29, "Nonmonetary Transactions: Magnitude of Boot and the Exceptions to the Use of Fair Value."

In connection with the closing of the CorrChoice joint venture, the Company and RDJ entered into a voting agreement that enables the Company and RDJ to be equally represented on CorrChoice's Board of Directors. As such, the Company does not control CorrChoice. Therefore, in accordance with accounting principles generally accepted in the United States, the Company has recorded its investment in CorrChoice using the equity method of accounting.

Prior to the formation of the CorrChoice joint venture, the Company accounted for its investment in Ohio Packaging's non-voting stock under the cost method of accounting because the Company did not have significant influence over the operations of Ohio Packaging. Because the Company's investment in the common stock of Ohio Packaging that previously was accounted for by the cost method became qualified for use of the equity method (through the Company's ownership interest in CorrChoice), effective November 1, 1998 the Company's investment in Ohio Packaging, results of operations and retained earnings were retroactively restated in the Company's 1999 Annual Report in accordance with Accounting Principles Board Opinion ("APBO") No. 18, "The Equity Method of Accounting for Investments in Common Stock."

The Company sells containerboard to CorrChoice, which it uses to produce corrugated sheets, and the Company purchases corrugated sheets from CorrChoice, with all transactions effected at prevailing market prices. The Company's profit in CorrChoice inventory is eliminated in the Company's consolidated financial statements.

Pro Forma Information

The following pro forma (unaudited) information assumes that the Van Leer Industrial Packaging acquisition had occurred on November 1, 1999 (U.S. dollars in thousands, except per share amounts):

	For the years ended October 31,	
	2001	2000
Net sales	$1,746,255	$1,914,846
Net income	$ 72,805	$ 73,058
Basic earnings per share:		
Class A Common Stock	$ 2.58	$ 2.58
Class B Common Stock	$ 3.85	$ 3.86
Diluted earnings per share:		
Class A Common Stock	$ 2.57	$ 2.57
Class B Common Stock	$ 3.85	$ 3.86

The amounts reflect adjustments for interest expense related to the debt issued for the purchase, amortization of goodwill and other intangible assets and depreciation expense on the revalued properties, plants and equipment.

The pro forma information, as presented above, is not necessarily indicative of the results which would have been obtained had the transaction occurred on November 1, 1999, nor are they necessarily indicative of future results.

NOTE 3--INVESTMENT IN AFFILIATES

The Company has investments in CorrChoice (63.24%), Abzac-Greif (49%), Socer-Embalagens, Lda. (25%) and Balmer Lawrie-Van Leer (40.06%) that are accounted for on the equity method. The Company's share of earnings of these affiliates is included in income as earned. The Company received dividends from affiliates of $2.9 million in 2001 and $2.4 million in 2000.

The difference between the cost basis of the Company's investment in the underlying equity of affiliates of $4.8 million at October 31, 2001 ($5.2 million at October 31,2000) is being amortized over 15 years.

The summarized unaudited financial information below represents the combined financial position and results of the Company's unconsolidated affiliates accounted for by the equity method (U.S. dollars in thousands):

	As of and for the years ended October 31,		
	2001	2000	1999
Current assets	$140,752	$127,106	$118,821
Long-term assets	$108,639	$102,901	$ 97,225
Current liabilities	$ 16,489	$ 14,653	$ 19,501
Long-term liabilities	$ 11,266	$ 8,790	$ 8,238
Net sales	$282,277	$299,086	$251,638
Gross profit	$ 45,444	$ 54,399	$ 43,433
Operating income	$ 28,338	$ 34,590	$ 31,090
Net income	$ 18,606	$ 22,964	$ 17,570

NOTE 4--TIMBERLAND TRANSACTIONS

Sale of Timber Properties

In December 2000, the Company sold certain hardwood timberland for $44.4 million. As such, the Company recognized a gain of $43.0 million during the first quarter of 2001 related to this transaction. In a related agreement, the Company sold other hardwood timberland for $30.0 million in March 2001, and recognized an additional gain of $27.7 million during the second quarter of 2001.

A total of approximately 65,000 acres of timber properties situated in Arkansas, Mississippi and Louisiana were sold as a result of these transactions.

Purchase of Timber Properties

In December 2000, the Company purchased certain pine timberland for $42.8 million. In a related agreement, the Company purchased other pine timberland for $43.1 million in March 2001.

A total of approximately 63,000 acres of timber properties situated in Louisiana were purchased as a result of these transactions.

NOTE 5--RESTRUCTURING RESERVES

During the second quarter of 2001, the Company approved a plan to consolidate some of its locations in order to eliminate duplicate facilities caused by the Van Leer Industrial Packaging acquisition and improve operating

efficiencies and capabilities. The plan was the result of an in- depth study to determine whether certain locations should be closed and the sales and manufacturing volume associated with such plants relocated to a different facility. Six existing Company-owned plastic drum and steel drum plants were identified to be closed. These plants are located in North America. In addition, certain redundant administrative functions are being eliminated. As a result of this plan, during the second quarter of 2001, the Company recognized a pretax restructuring charge of $11.5

million, consisting of $8.0 million in employee separation costs (approximately 400 employees) and a $3.5 million loss on disposal of equipment and facilities. The Company is planning to sell its six owned facilities. The Company expects to complete these restructuring activities during the first half of 2002. Subsequent to the recognition of the restructuring charge, the Company has and will continue to recognize expense related to additional costs to relocate machinery and equipment and employees upon the closure of these plants. The amounts charged against this restructuring reserve during the period ended October 31, 2001 are as follows (U.S. dollars in thousands):

	Beginning Balance	Activity	Ending Balance
Cash charges:			
Employee separation costs	$ 8,000	$4,009	$3,991
Cash and non-cash charges:			
Other exit costs	3,534	3,222	312
	$11,534	$7,231	$4,303

As of October 31, 2001, there were a total of 170 employees that had been terminated and provided severance benefits under this restructuring plan.

In addition, in connection with the 2001 acquisition of Van Leer Industrial Packaging from Huhtamaki and the consolidation plan, five facilities purchased as part of the acquisition have been or will be closed. Four of these facilities are Company-owned and one is leased. The facilities are located in North America, South America, United Kingdom and Asia Pacific. In addition, certain redundant administrative functions will be eliminated. Accordingly, the Company recognized a $19.7 million restructuring liability in its purchase price allocation related to these locations. This liability was accounted for under EITF No. 95-3, "Recognition of Liabilities in Connection with a Purchase Business Combination." The liability consisted of $16.5 million in employee separation costs (approximately 375 employees), $0.9 million in lease termination costs and $2.3 million in other exit costs. The Company is planning to sell the four Company-owned facilities. The lease will be terminated on the remaining facility. The amounts charged against this restructuring reserve during the period ended October 31, 2001 are as follows (U.S. dollars in thousands):

	Balance at Acquisition	Activity	Ending Balance

Cash charges:			
Employee separation costs	$16,480	$6,962	$ 9,518
Cash and non-cash charges:			
Other exit costs	3,203	1,915	1,288
	$19,683	$8,877	$10,806

As of October 31, 2001, there were a total of 180 employees that had been terminated and provided severance benefits under this restructuring plan.

NOTE 6--LONG-TERM DEBT

On March 2, 2001, the Company and Greif Spain Holdings, S.L. entered into a $900 million Senior Secured Credit Agreement with a syndicate of lenders, and Merrill Lynch & Co. and KeyBank National Association, as co-agents. A portion of the proceeds from the Senior Secured Credit Agreement was used to fund the Van Leer Industrial Packaging acquisition and to refinance amounts outstanding under the Company's then existing revolving credit facility (as described below). The Senior Secured Credit Agreement provides for three term loans, a $150 million U.S. Dollar Term Loan A, a $200 million Euro Term Loan A and a $400 million U.S. Dollar Term Loan B, and a $150 million revolving multicurrency credit facility. The revolving multicurrency credit facility is available for working capital and general corporate purposes.

The Term Loan A (both U.S. Dollar and Euro) and Term Loan B amortize quarterly through the maturity dates of February 28, 2006 and February 29, 2008, respectively. The revolving multicurrency credit facility matures on February 28, 2006. The Company is required to pay a commitment fee each quarter equal to 0.375% to 0.500% of the total unused revolver commitment amount, based upon the Company's leverage ratio. Interest is based on

either a LIBOR rate or an alternative base rate that resets periodically plus a calculated margin amount. The amounts outstanding, as well as the base rates and margins, at October 31, 2001, are as follows (U.S. dollars and euros in thousands):

	Amount	Base Rate	Margi
Term Loan A (U.S. Dollar)	$131,526	2.27%	2.50
Term Loan A (Euro)	(euro)187,660	3.59%	2.50
Term Loan B	$377,256	2.27%	3.25
Multicurrency revolver	$ 20,000	2.34%	2.50

As of October 31, 2001, the Company had $696.3 million outstanding under the Senior Secured Credit Agreement with a weighted average interest rate of 5.50%.

As part of the Senior Secured Credit Agreement, the Company incurred financing fees of $16.3 million. The amount has been deferred and is being amortized over the life of the agreement of six years. The charge is recorded in interest expense.

The Senior Secured Credit Agreement contains certain covenants, including financial covenants that require the Company to maintain a certain leverage ratio, sufficient coverage of interest expense and fixed charges, and a minimum net worth. In addition, the Company is limited with respect to the incurrence of additional debt. The repayment of this facility is secured by a first lien on substantially all of the personal property and certain of the real property of the Company. Standard & Poor's and Moody's Investors Service have assigned a "BB" rating and a "Ba3" rating, respectively, both with favorable outlook, to the loan obligations of the Company under the Senior Secured Credit Agreement. At October 31, 2001, the Company was in compliance with these covenants.

The $150 million revolving multicurrency credit facility may also be used to issue letters of credit. At October 31, 2001, the Company had outstanding $13.0 million in letters of credit under the credit agreement. The quarterly fronting fee related to these letters of credit is 0.125% of the outstanding amount plus a calculated margin (2.50% at October 31, 2001) for the use of this facility.

In addition to the amounts borrowed against the Senior Secured Credit Agreement, the Company had outstanding debt of $17.7 million, comprised of $1.2 million in long-term debt and $16.5 million in short-term borrowings at October 31, 2001.

On March 30, 1998, the Company had entered into a credit agreement with various financial institutions, as banks, and KeyBank National Association, as agent, which provided a revolving credit facility of up to $325 million. The Company was required to pay a facility fee each quarter equal to 0.025% to 0.050% of the total commitment amount based upon the Company's leverage ratio. The interest rate was either based on the prime rate or LIBOR rate plus a calculated margin amount (0.275% at October 31, 2000). Interest was reset on a quarterly basis. At October 31, 2000, the interest rate was 6.99%. The revolving credit loans were due on March 31, 2003; however, the amounts remaining were repaid from proceeds of the Senior Secured Credit Agreement.

Annual maturities of the Company's long-term debt are $43.1 million in 2002, $58.9 million in 2003, $74.6 million in 2004, $90.4 million in 2005, $71.0 million in 2006 and $359.5 million thereafter.

During 2001, the Company paid $44.8 million of interest ($16.6 million in 2000 and $15.4 million in 1999) related to its long-term obligations. Interest of $2.5 million in 2001, $2.5 million in 2000 and $0.4 million in 1999 was capitalized.

The Company has entered into non-cancelable operating leases for buildings, trucks and computer equipment. The future minimum lease payments for the non-cancelable operating leases are $8.8 million in 2002, $7.3 million in 2003, $5.9 million in 2004, $5.1 million in 2005, $3.8 million in 2006 and $17.8 million thereafter. Rent expense was $19.8 million in 2001, $14.0 million in 2000 and $12.5 million in 1999.

NOTE 7--FINANCIAL INSTRUMENTS

The Company had interest rate swap agreements with an aggregate notional

amount of $320 million and EUR 65 million at October 31, 2001 with various maturities through 2008. Under these agreements, the Company receives interest quarterly from the counterparties equal to the LIBOR rate and pays interest at a weighted average rate of 5.56% over the life of the contracts. At October 31, 2001, a liability for the interest rate swap contracts, which represented their fair values at that time, in the amount of $21.0 million ($13.1 million net of tax) was recorded with an offsetting amount in accumulated other comprehensive income (loss). At October 31, 2000, the Company had interest rate swap agreements with an aggregate notional amount of $130 million. Under the agreements, the Company received interest quarterly from the counterparty equal to the LIBOR rate and paid interest quarterly to the counterparty at a weighted average rate of 6.01%.

At October 31, 2001, the Company had outstanding foreign currency forward contracts in the notional amount of $33.4 million. The fair value of these contracts at October 31, 2001 resulted in a gain of $0.3 million. The purpose of these contracts is to hedge short-term intercompany loan balances with its foreign businesses.

While the Company may be exposed to credit losses in the event of nonperformance by the counterparties to its derivative financial instrument contracts, its counterparties are established banks and financial institutions with high credit ratings. The Company has no reason to believe that such counterparties will not be able to fully satisfy their obligations under these contracts.

The fair values of all derivative financial instruments are estimated based on current settlement prices of comparable contracts obtained from dealer quotes. The values represent the estimated amounts the Company would pay or receive to terminate the agreements at the reporting date.

The Class A Common Stock shall have no voting power nor shall it be entitled to notice of meetings of the shareholders, all rights to vote and all voting power being vested exclusively in the Class B Common Stock unless four quarterly cumulative dividends upon the Class A Common Stock are in arrears. There is no cumulative voting.

The following table summarizes the Company's capital stock, without par value (Class A and Class B common shares) and treasury shares at the specified dates:

	Authorized Shares	Issued Shares	Outstan Share

NOTE 9--STOCK OPTIONS

In the current year, the Company adopted the 2001 Management Equity Incentive and Compensation Plan (the "2001 Plan"). The provisions of the 2001 Plan allow the awarding of incentive and nonqualified stock options and restricted and performance shares of Class A Common Stock to key employees. The maximum number of shares that may be issued each year is determined by a formula that takes into consideration the total number of shares outstanding and is also subject to certain limits. In addition, the maximum number of incentive stock options that will be issued under the 2001 Plan during its term is 2,500,000 shares.

Prior to 2001, the Company had adopted a Nonstatutory Stock Option Plan (the "2000 Plan") that provides the discretionary granting of nonstatutory options to key employees, and an Incentive Stock Option Plan (the "Option Plan") that provides the discretionary granting of incentive stock options to key employees and nonstatutory options for non-employees. The aggregate number of the Company's Class A Common Stock options that may be granted under the 2000 Plan and Option Plan may not exceed 200,000 shares and 1,000,000 shares, respectively.

Under the terms of the 2001 Plan, the 2000 Plan and the Option Plan, stock options are granted at exercise prices equal to the market value of the common stock on the date options are granted and become exercisable two years after date of grant. Options expire 10 years after date of grant.

The Directors' Stock Option Plan (the "Directors' Plan") provides the granting of stock options to directors who are not employees of the Company. The aggregate number of the Company's Class A Common Stock options that may be granted may not exceed 100,000 shares. Under the terms of the Directors' Plan, options are granted at exercise prices equal to the market value of the common stock on the date options are granted and become exercisable immediately. Options expire 10 years after date of grant.

In 2001, 444,800 stock options were granted under the 2001 Plan with option prices of $30.59 per share. Under the Directors' Plan, 10,000 options were granted to outside directors with option prices of $27.38 per share.

In 2000, 142,000 stock options and 163,730 stock options were granted under the Option Plan and 2000 Plan, respectively, at option prices ranging from $29.00 to $29.88 per share. Under the Directors' Plan, 10,000 options were granted to outside directors with option prices of $29.88 per share.

In 1999, 225,452 stock options were granted under the Option Plan with option prices of $24.25 per share. Under the Directors' Plan, 10,000 options were granted to outside directors with option prices of $26.81 per share.

The Company applies APBO No. 25, "Accounting for Stock Issued to Employees," and related interpretations in accounting for its stock option plans. If compensation cost would have been determined based on the fair values

at the date of grant under SFAS No. 123, "Accounting for Stock-Based Compensation," pro forma net income and earnings per share would have been as follows (U.S. dollars in thousands, except per share amounts):

	For the years ended October 31,		
	2001	2000	1999
Net income	$86,566	$73,990	$49,787
Basic earnings per share:			
Class A Common Stock	$ 3.06	$ 2.62	$ 1.73
Class B Common Stock	$ 4.59	$ 3.91	$ 2.58
Diluted earnings per share:			
Class A Common Stock	$ 3.06	$ 2.61	$ 1.73
Class B Common Stock	$ 4.59	$ 3.91	$ 2.58

The fair value for each option is estimated on the date of grant using the Black-Scholes option pricing model, as allowed under SFAS No. 123, with the following assumptions:

	2001	2000	19
Dividend yield	1.70%	1.70%	1
Volatility rate	27.20%	27.50%	25

NOTE 11--RETIREMENT PLANS

In 2001, the Company assumed certain non-contributory defined benefit pension plans in the United States, Australia, Germany, Netherlands, South Africa and United Kingdom as a result of the Van Leer Industrial Packaging acquisition (see Note 2). In addition, the Company already had non-contributory defined benefit pension plans in the United States. The salaried plans' benefits are based primarily on years of service and earnings. The hourly plans' benefits are based primarily upon years of service. The Company contributes an amount that is not less than the minimum funding nor more than the maximum tax-deductible amount to these plans. The plans' assets consist of large cap, small cap and international equity securities, fixed income investments and the allowable number of shares of the Company's common stock as follows:

NOTE 12--POSTRETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

In 2001, the Company assumed certain postretirement health and life insurance benefit plans in the United States and South Africa as a result of the Van Leer Industrial Packaging acquisition (see Note 2).

In conjunction with the acquisition of the industrial containers business from Sonoco in 1998, the Company assumed an obligation to reimburse Sonoco for its actual costs incurred in providing postretirement health care

benefits to certain employees. Contributions by the Company are limited to an aggregate annual payment of $1.4 million for eligible employees at the date of purchase. Further, the Company is responsible for the cost of certain union hourly employees who were not eligible at the date of closing. The Company intends to fund these benefits from its operations.

The components of net periodic cost for the postretirement benefits include the following (U.S. dollars in thousands):

Effect on postretirement benefit obligation	$2,747	

NOTE 13--CONTINGENT LIABILITIES

Various lawsuits, claims and proceedings have been or may be instituted or asserted against the Company, including those pertaining to environmental, product liability, safety and health matters. While the amounts claimed

may be substantial, the ultimate liability cannot now be determined because of considerable uncertainties that exist. Therefore, it is possible that results of operations or liquidity in a particular period could be materially affected by certain contingencies.

At October 31, 2001 and 2000, the Company had recorded liabilities of $7.1 million and $1.5 million, respectively, for estimated environmental remediation costs based upon an evaluation of currently available facts with respect to each individual site, including the results of environmental studies and testing, and considering existing technology, presently enacted laws and regulations, and prior experience in remediation of contaminated sites. The recorded liabilities are included in other long-term liabilities. Actual costs to be incurred in future periods at identified sites may vary from the estimates, given the inherent uncertainties in evaluating environmental exposures. Future information and developments will require the Company to continually reassess the expected impact of these environmental matters.

Based upon the facts currently available, management believes that the disposition of matters that are pending or asserted will not have a material adverse affect on the consolidated financial position of the Company.

NOTE 14--BUSINESS SEGMENT INFORMATION

The Company operates in three business segments: Industrial Shipping Containers; Containerboard & Corrugated Products; and Timber.

Operations in the Industrial Shipping Containers segment involve the production and sale of shipping containers. These products are manufactured and sold in over 40 countries throughout the world.

Operations in the Containerboard & Corrugated Products segment involve the production and sale of containerboard, both virgin and recycled, and related corrugated sheets, corrugated containers and multiwall bags. The products are manufactured and sold in North America.

on approximately 275,000 acres of timberland in the states of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi and Virginia.

The Company's reportable segments are strategic business units that offer different products. The Company evaluates performance and allocates resources based on earnings before interest, income taxes, depreciation, depletion, amortization, minority interest in income of consolidated subsidiaries and equity in earnings of affiliates ("EBITDA"). The accounting policies of the reportable segments are the same as those described in the "Description of Business and Summary of Significant Accounting Policies" note except that the Company accounts for inventory on a first-in, first-out basis at the segment level compared to a last-in, first-out basis at the consolidated level in the United States.

Corporate and other includes the costs associated with the Company's corporate headquarters, the Company's long-term debt (see Note 6) and other non-segment items. The segment EBITDA amounts have been adjusted from the amounts previously disclosed in the footnote to the audited financial statements included in the Company's Annual Report on Form 10-K for the year ended October 31, 2001 and the Company's 2001 Annual Report to Shareholders to reflect the allocation of corporate costs consistent with a new allocation basis adopted by the Company in 2002.

The following segment information is presented for the three years ended October 31, 2001, except as to asset information that is as of October 31, 2001, 2000 and 1999 (U.S. dollars in thousands):

GREIF BROS. CORPORATION AND SUBSIDIARY COMPANIES

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS
JULY 31, 2002

NOTE 1--BASIS OF PRESENTATION

The information furnished herein reflects all adjustments which are, in the

opinion of management, necessary for a fair presentation of the consolidated balance sheets as of July 31, 2002 and October 31, 2001 and the consolidated statements of income and cash flows for the nine-month periods ended July 31, 2002 and 2001. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual amounts could differ from those estimates.

These interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto as of October 31, 2001 and 2000 and for each of the three years in the period ended October 31, 2001 of Greif Bros. Corporation and its subsidiaries (collectively, the "Company") included elsewhere herein.

Certain prior year amounts have been reclassified to conform to the 2002 presentation.

NOTE 2--VAN LEER INDUSTRIAL PACKAGING ACQUISITION

On March 2, 2001, pursuant to the terms of a Share Purchase Agreement dated October 27, 2000, as amended on January 5 and February 28, 2001, between the Company and Huhtamaki Van Leer Oyj, a Finnish corporation ("Huhtamaki"), the Company acquired all of the issued share capital of Royal Packaging Industries Van Leer N.V., a Dutch limited liability company, Huhtamaki Holdings do Brasil Ltda., a Brazilian limited liability company, Van Leer France Holding S.A.S., a French limited liability company, Van Leer Containers, Inc., a U.S. corporation, and American Flange & Manufacturing Co., Inc., a U.S. corporation (collectively, "Van Leer Industrial Packaging"). Van Leer Industrial Packaging was a worldwide provider of industrial packaging and components, including steel, fibre and plastic drums, polycarbonate water bottles, intermediate bulk containers and closure systems, with operations in over 40 countries.

As consideration for the shares of Van Leer Industrial Packaging, the Company paid $555.0 million less the amount of Van Leer Industrial Packaging's debt and certain other obligations ($206.4 million) that were assumed by the Company as of the closing date. In addition, the Company paid $15.8 million in legal and professional fees related to the acquisition. The acquisition was funded by new long-term debt borrowed against a $900 million Senior Secured Credit Agreement.

The acquisition of Van Leer Industrial Packaging, included in operating results from the acquisition date, was accounted for using the purchase method of accounting and, accordingly, the purchase price was allocated to the assets purchased and liabilities assumed based upon their fair values at the date of acquisition. The fair values of the assets acquired and the liabilities assumed were $636.8 million and $423.3 million, respectively.

Pro Forma Information

The following pro forma (unaudited) information for the nine months ended July 31, 2001 assumes the Van Leer Industrial Packaging acquisition had occurred on November 1, 2000 (U.S. dollars in thousands, except per share amounts):

Net sales	$1,302,502
Net income	$ 58,476
Basic and diluted earnings per share:	
Class A Common Stock	$ 2.07
Class B Common Stock	$ 3.10

The above amounts reflect adjustments for interest expense related to the debt issued for the acquisition, amortization of goodwill and intangible assets, and depreciation expense on the revalued properties, plants and equipment. The pro forma amounts do not include anticipated synergies from the acquisition, nor do they include the anticipated savings associated with the restructuring plan of Van Leer Industrial Packaging and the Company's locations existing prior to the acquisition date.

The pro forma information, as presented above, is not indicative of the results which would have been obtained had the transaction occurred on November 1, 2000, nor is it indicative of the Company's future results.

NOTE 3--RESTRUCTURING RESERVES

During the second quarter of 2001, the Company approved a plan to consolidate some of its locations in order to eliminate duplicate facilities caused by the Van Leer Industrial Packaging acquisition and improve operating efficiencies and capabilities. The plan was the result of an in-depth study to determine whether certain locations, either existing or newly acquired, should be closed and the sales and manufacturing volume associated with such plants relocated to a different facility. Six existing Company-owned plastic drum and steel drum plants were identified to be closed. The plants are located in North America. In addition, certain redundant administrative functions were identified to be eliminated. As a result of this plan, during the second quarter of 2001, the Company recognized a pretax restructuring charge of $11.5 million, consisting of $8.0 million in employee separation costs (approximately 250 employees) and a $3.5 million loss on disposal of equipment and facilities. The Company has sold or is in the process of selling these six owned facilities. The Company expects to complete these restructuring activities during 2002. Subsequent to the recognition of the restructuring charge, the Company has and will continue to recognize expense related to additional costs to relocate machinery and equipment and employees upon the closure of these plants. The amounts charged against this restructuring reserve during the period ended July31, 2002 are as follows (U.S. dollars in thousands):

	Balance at 10/31/01	Activity	Balance at 7/31/02
Cash charges:			
Employee separation costs	$ 3,991	$(3,768)	$ 223
Cash and non-cash charges:			
Other exit costs	312	--	312
	$ 4,303	$(3,768)	$ 535

As of July 31, 2002, there were a total of 227 employees that had been terminated and provided severance benefits under this restructuring plan.

In addition, in connection with the March 2001 acquisition of Van Leer Industrial Packaging from Huhtamaki and the consolidation plan, five facilities purchased as part of the acquisition have been or will be closed. These facilities are owned by subsidiaries of the Company. The facilities are located

in North America, South America, United Kingdom and Asia Pacific. In addition, certain redundant administrative functions have been or will be eliminated. Accordingly, the Company recognized a $19.7 million restructuring liability in its purchase price allocation related to these locations. This liability was accounted for under Emerging Issues Task Force ("EITF") No. 95-3, "Recognition of Liabilities in Connection with a Purchase Business Combination." The liability consisted of $16.5 million in employee separation costs (approximately 300 employees) and $3.2 million in other exit costs. The Company has sold or is in the process of selling these Company-owned facilities. The amounts charged against this restructuring reserve during the period ended July 31, 2002 are as follows (U.S. dollars in thousands):

	Balance at 10/31/01	Activity	Balance a 7/31/02
Cash charges:			
Employee separation costs	$ 9,518	$ (6,836)	$ 2,68
Cash and non-cash charges:			
Other exit costs	1,288	(499)	78
	$ 10,806	$ (7,335)	$ 3,47

As of July 31, 2002, there were a total of 210 employees that had been terminated and provided severance benefits under this restructuring plan.

NOTE 4--TIMBERLAND TRANSACTIONS

Sale of Timber Properties

In December 2000, the Company sold certain hardwood timberland for $44.4 million. As such, the Company recognized a gain of $43.0 million during the first quarter of 2001 related to this transaction. In a related agreement, the Company sold other hardwood timberland for $30.0 million in March 2001, and recognized an additional gain of $27.7 million during the second quarter of 2001.

A total of approximately 65,000 acres of timber properties situated in Arkansas, Mississippi and Louisiana were sold as a result of these transactions.

Purchase of Timber Properties

In December 2000, the Company purchased certain softwood timberland for $42.8 million. In a related agreement, the Company purchased other softwood timberland for $43.1 million in March 2001.

A total of approximately 63,000 acres of timber properties situated in Louisiana were purchased as a result of these transactions.

NOTE 5--NET ASSETS HELD FOR SALE

Net assets held for sale represent land, buildings and land improvements less accumulated depreciation for locations that have been closed, primarily as a result of the restructuring plans in the Industrial Shipping Containers

segment (see Note 3 Restructuring Reserves). As of July 31, 2002, there were 13 facilities held for sale. The net assets held for sale are being marketed for sale, and it is the Company's intention to complete the sales within the upcoming year.

NOTE 6--INVESTMENT IN AFFILIATES

The Company has investments in CorrChoice, Inc. (63.24%), Socer-Embalagens, Lda. (25%) and Balmer Lawrie-Van Leer (40.06%) which are accounted for on the equity method. The Company's investment in Abzac-Greif (49.0%) was sold for approximately $2.0 million, with a gain of $0.1 million, during the second quarter of 2002. The Company's share of earnings of these affiliates is included in income as earned. In the first nine months of 2002, the Company received dividends from affiliates of $2.3 million.

The difference between the cost basis of the Company's investment in the underlying equity of affiliates of $4.5 million at July 31, 2002 is being amortized over a 15-year period.

The summarized unaudited financial information below represents the combined results of the Company's unconsolidated affiliates (U.S. dollars in thousands):

	Nine months ended July 31,	
	2002	2001
Net sales	$167,958	$214,196
Gross profit	$ 30,944	$ 33,049
Net income	$ 10,769	$ 13,238

NOTE 7 -- LONG-TERM DEBT

Long-term debt is summarized as follows (U.S. dollars in thousands):

	July 31, 2002	October 31, 2001
$900 million Senior Secured Credit Agreement	$ 399,507	$ 696,306
8 7/8% Senior Subordinated Notes	247,965	--
Other debt	780	1,208
	648,252	697,514
Less current portion	(17,890)	(43,140)
	$ 630,362	$ 654,374

$900 Million Senior Secured Credit Agreement

On March 2, 2001, the Company entered into a $900 million Senior Secured Credit Agreement with a syndicate of lenders. A portion of the proceeds from the Senior Secured Credit Agreement was used to fund the Van Leer Industrial Packaging acquisition and to refinance amounts outstanding under the Company's then existing revolving credit facility. The Senior Secured Credit Agreement provides for three term loans, a $150 million U.S. Dollar Term Loan A,

a $200 million Euro Term Loan A and a $400 million U.S. Dollar Term Loan B, and a $150 million revolving multicurrency credit facility. At July 31, 2002, there was $106 million available under the $150 million revolving multicurrency credit facility. The revolving multicurrency credit facility is available for working capital and general corporate purposes.

As of August 23, 2002, the $900 million Senior Secured Credit Agreement was refinanced using proceeds from the Amended and Restated Senior Secured Credit Agreement (see Note 16 - Subsequent Event).

8 7/8% Senior Subordinated Notes

On July 31, 2002, the Company issued Senior Subordinated Notes in the aggregate principal amount of $250 million, receiving net proceeds of approximately $248 million before expenses. Interest on the notes is payable semi-annually at the annual rate of 8 7/8%. The notes do not have required principal payments prior to maturity on August 1, 2012. The net proceeds from the notes issuance were utilized to repay indebtedness under the Company's $900 million Senior Secured Credit Agreement and fees paid in connection with the offering. The fair value of the notes was approximately $248 million at July 31, 2002, based on quoted market prices.

During the third quarter of 2002, the Company incurred a non-cash debt extinguishment charge of $4.4 million related to the partial extinguishment of the $900 million Senior Secured Credit Agreement. The Company has early adopted the Financial Accounting Standard Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No.13, and Technical Corrections." SFAS No. 145 rescinds SFAS No. 4, which required all gains and losses from extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of the related income tax effect. As such, the debt extinguishment charge has been presented as a component of income before income taxes, minority interest in income of consolidated subsidiaries and equity in earnings of affiliates.

NOTE 8--FINANCIAL INSTRUMENTS

The Company had interest rate swap agreements with an aggregate notional amount of $280 million at July 31, 2002 with various maturities through 2008. Under these agreements, the Company receives interest quarterly from the counterparties equal to the LIBOR rate and pays interest at a weighted average rate of 5.41% over the life of the contracts. At July 31, 2002, a liability for the interest rate swap contracts, which represented their fair values at that time, in the amount of $17.9 million ($11.5 million net of tax) was recorded with an offsetting amount in accumulated other comprehensive income (loss).

At July 31, 2002, the Company had outstanding foreign currency forward contracts in the notional amount of $23.8 million. The fair value of these contracts at July 31, 2002 resulted in a gain of $0.2 million. The purpose of these contracts is to hedge short-term intercompany loan balances with its foreign businesses.

While the Company may be exposed to credit losses in the event of nonperformance by the counterparties to its derivative financial instrument contracts, its counterparties are established banks and financial institutions with high credit ratings. The Company has no reason to believe that such counterparties will not be able to fully satisfy their obligations under these

contracts.

The fair values of all derivative financial instruments are estimated based on current settlement prices of comparable contracts obtained from dealer quotes. The values represent the estimated amounts the Company would pay or receive to terminate the agreements at the reporting date.

NOTE 13--BUSINESS SEGMENT INFORMATION

The Company operates in three business segments: Industrial Shipping Containers; Containerboard & Corrugated Products; and Timber.

The Company's reportable segments are strategic business units that offer different products. The Company evaluates performance and allocates resources based on earnings before interest, income taxes, depreciation, depletion, amortization minority interest in income of consolidated subsidiaries, equity in

earnings of affiliates and debt extinguishment charge ("EBITDA"). The accounting policies of the reportable segments are the same as those described in the "Description of Business and Summary of Significant Accounting Policies" note in the 2001 Annual Report on Form 10-K except that the Company accounts for inventories on a first-in, first-out basis at the segment level compared to a last-in, first-out basis at the consolidated level in the United States.

Corporate and other includes the unallocated costs associated with the Company's corporate headquarters, the Company's long-term debt and other non-segment items. During 2002, the Company changed its method for allocating corporate and other costs to its segments. All prior period information has been restated to conform to the current period presentation.

The Company's non-United States subsidiaries are not guaranteeing the Senior Subordinated Notes ("Non-Guarantor Subsidiaries"). Presented below are summarized condensed consolidating financial statements of Greif Bros. Corporation (the "Parent"), which includes certain of the Company's operating units, the Guarantor Subsidiaries, the Non-Guarantor Subsidiaries and the Company on a consolidated basis.

These summarized condensed consolidated financial statements are prepared on the equity method. Separate financial statements for the Guarantor Subsidiaries are not presented based on management's determination that they do not provide additional information that is material to investors.

NOTE 15--RECENT ACCOUNTING STANDARDS

Goodwill and Other Intangible Assets

In June 2001, the FASB issued SFAS No. 142, "Goodwill and Other Intangible Assets," which requires that goodwill no longer be amortized, but instead be periodically reviewed for impairment. The provisions of SFAS No. 142 are required for fiscal years beginning after December 15, 2001. As such, the Company will adopt SFAS No. 142 at the beginning of its 2003 fiscal year.

The application of the non-amortization provisions of SFAS No. 142 will increase net income of the Company upon adoption. Amortization expense related to the Company's goodwill and indefinite-lived assets was $8.4 million and $6.5 million for the nine month periods ended July 31, 2002 and 2001, respectively.

At this time, the effect of the impairment provisions provided by SFAS No. 142 is not known.

Impairment or Disposal of Long-Lived Assets

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 addresses the accounting and reporting for the impairment or disposal of long-lived assets and supersedes FASB Statement No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed of" and Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations--Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." SFAS No. 144 establishes a single accounting model for long-lived assets to be disposed of by sale and resolves implementation issues related to Statement No. 121.

SFAS No. 144 is effective for financial statements issued for fiscal years beginning after December 15, 2001, or November 1, 2002 for the Company. The Company does not expect the adoption of this Statement to have a material impact on its results of operations or financial position.

NOTE 16--SUBSEQUENT EVENTS

On August 23, 2002, the Company, as U.S. borrower, and Greif Spain Holdings, S.L. Greif Bros. Canada Inc., Van Leer (UK) Ltd., Koninklijke Emballage Industrie Van Leer B.V. (dba Royal Packaging Industries Van Leer B.V.), and Van Leer Australia Pty. Limited, as foreign borrowers, entered into a $550 million Amended and Restated Senior Secured Credit Agreement with a syndicate of lenders. A portion of the proceeds from the Amended and Restated Senior Secured Credit Agreement was used to refinance amounts outstanding under the Company's then existing $900 million Senior Secured Credit Agreement. The Amended and Restated Senior Secured Credit Agreement provides for a $300 million term loan and a $250 million revolving multicurrency credit facility. The revolving multicurrency credit facility is available for working capital and general corporate purposes. The term loan periodically reduces through its maturity date of August 23, 2009, and the revolving multicurrency credit facility matures on February 28, 2006. In connection with the Amended and Restated Senior Secured Credit Agreement, the Company anticipates recognizing a debt extinguishment charge in the fourth quarter of 2002.

The Amended and Restated Senior Secured Credit Agreement contains certain covenants, which include financial covenants that require the Company to

maintain a certain leverage ratio, a minimum coverage of interest expense and fixed charges and a minimum net worth. In addition, the Company is limited with respect to the incurrence of additional debt. The repayment of this facility is secured by a first lien on substantially all of the personal property and certain of the real property of the Company and its U.S. subsidiaries and, in part, by the capital stock of the non-United States borrowers and any intercompany notes payable to them. Standard & Poor's and Moody's Investors Service have assigned a "BB" rating and a "Ba3" rating, respectively, to the loan obligations of the Company under the Amended and Restated Senior Secured Credit Agreement.

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors and Shareholders of Royal Packaging Industries Van Leer N.V., Huhtamaki Holding Ltda., Van Leer France Holding S.A.S., Van Leer Containers Inc., and American Flange and Manufacturing Company Inc.:

We have audited the accompanying combined balance sheets of the Industrial Packaging Division of Royal Packaging Industries Van Leer N.V., Huhtamaki Holding Ltda., Van Leer France Holding S.A.S., Van Leer Containers Inc., and American Flange and Manufacturing Company Inc. (`the Company') as of December 31, 2000 and 1999 and the related combined statements of operations and cash flows for each of the years in the two year period ended December 31, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in The Netherlands and the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of the Industrial Packaging Division of Royal Packaging Industries Van Leer N.V., Huhtamaki Holding Ltda., Van Leer France Holding S.A.S., Van Leer Containers Inc., and American Flange and Manufacturing Company Inc. as of December 31, 2000 and 1999 and the results of their operations and their cash flows for each of the years in the two year period ended December 31, 2000, in conformity with generally accepted accounting principles in The Netherlands.

Generally accepted accounting principles in The Netherlands vary in certain significant respects from generally accepted accounting principles in the United States. Application of generally accepted accounting principles in the United States would have affected results of operations and shareholders' equity as of and for the years ended December 31, 2000 and 1999 to the extent summarized in Note 18 to the combined financial statements.

NOTES TO THE COMBINED FINANCIAL STATEMENTS

1 Basis of presentation of the combined financial statements

The accompanying combined financial statements present the combined financial position, results of operations, and cash flows of the Industrial Packaging Division of Royal Packing Industries Van Leer N.V., Huhtamaki Holding Ltda., Van Leer France Holding S.A.S., Van Leer Containers Inc., and American Flange and Manufacturing Company Inc. (the 'Company'). Each of these legal entities was a wholly owned subsidiary of Huhtamaki Van Leer Oyj (the 'Parent Company'), which historically operated two principal divisions: the Industrial Packaging Division and the Consumer Packaging Division.

On March 2, 2001, pursuant to the terms of a share purchase agreement between Greif Bros. Corporation (the 'Purchaser') and Huhtamaki Van Leer Oyj, a Finnish corporation (the 'Seller'), the Purchaser acquired all of the issued share capital of Royal Packaging Industries Van Leer N.V., a worldwide manufacturer of packaging products headquartered in the Netherlands. In addition, pursuant to the terms of the agreement, the Purchaser acquired all of the issued and outstanding share capital of Huhtamaki Holding Ltda., Van Leer France Holding S.A.S., Van Leer Containers Inc. and American Flange and

Manufacturing Company Inc. Immediately prior to the acquisition by Greif Bros. Corporation, the Consumer Packaging Division of these entities was transferred to a subsidiary of the Parent Company. The Consumer Packaging Division was not acquired by Greif Bros. Corporation and, accordingly, these combined financial statements do not include financial information of the Consumer Packaging Division.

The accompanying combined financial statements include the assets, liabilities, net sales, movements in stocks, direct materials and other operating expenses that relate directly to the Industrial Packaging Division. Certain costs have been allocated to the Company on a direct basis, based upon a specific identification of the expenses. Allocations of expenses to the Company on an indirect basis have been made primarily on a proportional cost allocation method based on net capital. Management believes the above allocations to be reasonable under the circumstances, however, there can be no assurances that such allocations will be indicative of future results of operations of the combined businesses nor reflective of historical results had the combined businesses been a separate, stand-alone entity during the periods covered.

The combined financial statements have been prepared in accordance with generally accepted accounting principles in the Netherlands (`Dutch GAAP'). Note 18 includes a summary of differences between Dutch GAAP and generally accepted accounting principles in the United States that have an effect on net income and shareholders' equity. The accompanying Combined Financial Statements do not represent Dutch statutory financial statements as the combined businesses were not conducted as a separate single legal entity. The preparation of the combined financial statements requires management to make estimates and assumption that affect the amounts reported in the combined financial statements and accompanying notes. Actual results could differ from those estimates.

The accompanying financial statements are reported in Euro for all periods presented. Prior year amounts were restated from Dutch guilders into Euro by dividing the amounts in Dutch guilders by the exchange rate of 2.20371, fixed on January 1, 1999.

2 Summary of significant accounting policies

Combination

The combined financial statements include all companies in which the Company directly or indirectly holds more than fifty percent of the shares and/or on whose management and financial policy the Company exercises a decisive influence. The results of subsidiaries acquired are included from the date of acquisition and for subsidiaries sold, up to the date of disposal. All intercompany balances and transactions between the entities have been eliminated.

Related party transactions

Amounts due from or payable to the Parent Company result primarily from intercompany charges. Loans to and loans from the Parent Company relate primarily to intercompany financing transactions.

Translation of foreign currencies

The balance sheets of foreign entities are translated into Euros at the year-end exchange rates. The statements of operations are translated at the average exchange rates for the year. The resulting net translation adjustments

are recorded directly to shareholders' equity.

Transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency are included in the results of operations as incurred.

Tangible fixed assets

Land, buildings, machinery, installations and other tangible fixed assets are carried at cost net of depreciation.

Assets depreciation terms are as follows:

Land	--
Buildings	40 years
Machinery and installations	8-14 years
Other operational assets	3-12 years

Assets acquired under financing arrangements classified as capital leases are capitalized and depreciated in accordance with the above principles. The corresponding capital lease obligations are classified with long term loans due after more than one year. Other operational assets include primarily computer hardware and software and furniture and fixtures.

Goodwill

Goodwill, representing the amount paid in excess of net asset value for companies acquired, is charged to shareholders' equity.

Impairment of long-lived assets

Impairment of tangible fixed assets and other long-lived assets is recognized when events or changes in circumstances indicate that the carrying amount of the asset, or related groups of assets, may not be recoverable. Measurement of the amount of impairment may be based on appraisal, market value of similar assets or estimated discounted future cash flows resulting from the use and ultimate disposition of the asset.

Loans and securities

Loan and securities are valued at historical cost and represent the net realizable value.

Stocks

Inventories are valued at the lower of cost or market principally by the first-in, first-out method. Work in progress and finished goods include the cost of direct materials, labour and overhead.

Pensions and similar obligations

Pension schemes are established in various countries in conformity with local regulations. Current service costs of pension plans are charged to operations in the year in which they arise.

The unfunded liability of pensions is determined by using the accrued benefit valuation method. Under this method the accrued liability represents the present value of benefits payable at retirement date, taking into account the

applicable variables such as employee salaries, employee service years, and plan returns. Such variables do not take into account assumptions regarding future events.

Certain subsidiaries maintain post retirement health care and life insurance benefits. Benefits accrue over the periods employees render service, are actuarially calculated based on current assumptions. These plans are not funded, however, the recorded provision is sufficient to cover the present value of the accumulated post-retirement benefit obligation. The cost for the year represents the increase in the obligation for post-retirement benefits granted to employees, and is adjusted for differences in this obligation due to changes in assumptions.

Taxation on the result

The provision for income tax included in the accompanying combined financial statements has been determined as if the Company was a stand-alone entity during the periods covered. The provision for income taxes consists of current tax expense and deferred tax expense. In certain tax jurisdictions, the Company maintains deferred tax assets, which consist principally of net operating loss carry forwards. Management has assessed whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company has established, to the extent that deferred tax assets are not offset by deferred tax liabilities within a tax jurisdiction, a full valuation allowance for deferred tax assets.

Other assets and liabilities

All other assets and liabilities are stated at the amounts at which they were acquired or incurred. Assets are stated net of related provisions.

Income and expense

The Company recognizes sales when there is evidence of a sales agreement, the delivery of goods has occurred, and the collectibility is reasonably assured. Other income, costs and expenses are allocated to the year to which they relate. Losses are accounted for in the year in which they are identified. Research and development expenditures are written off as incurred.

Stock appreciation rights

Until October 1999, the Company sponsored a Stock Appreciation Rights ('SAR') Plan, which provided eligible employees with the right to receive cash equal to the appreciation of the Company's ordinary shares subsequent to the date of grant. The stock appreciation rights vest over a two to three year period and expire five years from the date of grant. Compensation in the form of cash payments to employees related to the SAR Plan are charged directly to equity. Subsequent to October 1999, no stock appreciation rights were granted and none were outstanding.

18 Net income and shareholders' equity under accounting principles generally accepted in the United States of America

The combined financial statements have been prepared in accordance with generally accepted accounting principles in The Netherlands ('Dutch GAAP'),

which differ in certain significant respects from generally accepted accounting principles in the United States of America ('U.S. GAAP').

The table below reconciles the net income and shareholders' equity of the Company under Dutch GAAP to the net income and shareholders' equity under U.S. GAAP:

	2000	1999
	EUR'000	EUR'000

	2000	1999

Shareholders' equity under Dutch GAAP	271,461	545,425
Pensions and post retirement benefit plans	30,766	28,585

Year 2000 costs	--	1,055
Start-up costs	5,969	1,500
Goodwill	9,817	7,313
Income tax effect of U.S. GAAP adjustments	(14,651)	(13,998)
Shareholders' equity under U.S. GAAP	312,182	578,380

The following accounting principles were followed by the Company pursuant to U.S. GAAP:

Stock-appreciation rights

Until October 1999, the Company sponsored a Stock Appreciation Rights ('SAR') Plan, which provided eligible employees with the right to receive cash equal to the appreciation of the Company's ordinary shares subsequent to the date of grant. The stock appreciation rights vest over a two to three year period and expire five years from the date of grant. Under Dutch GAAP, compensation in the form of cash payments to employees related to the SAR Plan are charged directly to equity. Under U.S. GAAP, compensation expense or benefit on SAR is recorded each reporting period based on changes in the market price of the Company's ordinary shares.

Pensions and post retirement benefit plans

Under Dutch GAAP, defined benefit pension and post retirement health care benefit expenses are based on premiums paid to certain pension and other post retirement benefit plan funds. The premiums are calculated using actuarial assumptions which, among other variables, do not take into account future salary increases or employee turnover due to resignations, dismissals or disability.

Premiums are not reduced by credits relating to overfunding of the funds, which under Dutch GAAP is computed by valuing assets at fair market value less a prudence provision unless refunds are actually received from the fund.

Under U.S. GAAP, pension costs are calculated in accordance with Financial Accounting Standards Board ('FASB') No. 87, 'Employers' Accounting for Pensions' and postretirement benefit obligations are calculated in accordance with FASB No. 106, 'Employers' Accounting for Postretirement Benefits Other than Pensions.' FASBs No. 87 and 106 are generally more prescriptive than Dutch GAAP. Under FASB 87, service costs are based on actuarial assumptions which, among other variables, include estimated future salary increases and estimated employee turnover related to resignations, dismissals and disability. Moreover, net periodic pension costs are reduced by credits representing amortization of overfunding of the fund, which is calculated by valuing plan assets at fair market value. Under FASB 106 the service costs is based on the expected amount and timing of future benefits, taking into consideration the expected future cost of providing the benefits.

Restructuring provisions

Under Dutch GAAP, the Company provided reserves for anticipated costs associated with termination benefits and other costs associated with exit activities at the point when a general plan was approved by management and the costs were reasonably estimable.

Under U.S. GAAP, certain criteria, as outlined by Emerging Issues Task Force ('EITF') Issue No. 94-3, 'Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity' and Securities and Exchange Commission ('SEC') Staff Accounting Bulletin ('SAB') No. 100, 'Restructuring and Impairment Charges', must be met prior to providing for these costs. For those accruals where the Company did not meet the criteria of EITF No. 94-3 and SAB 100, the Company expensed the restructuring costs, if any, in the year in which they were incurred.

Year 2000 costs

Under Dutch GAAP, the Company accrued for anticipated costs related to Year 2000 preparation. Under U.S. GAAP, year 2000 costs were accounted for in accordance with EITF No. 96-14, 'Accounting for the Costs Associated with Modifying Computer Software for the Year 2000' and were expensed as incurred.

Start-up costs

Under Dutch GAAP, the Company accrued for anticipated costs related to the start-up activities of some of its operations. Under U.S. GAAP, these costs were accounted for in accordance with Statement of Position ('SOP') No. 98-5, 'Reporting on the Costs of Start-up Activities' and, accordingly, were expensed as incurred.

Goodwill

Under Dutch GAAP, the Company charged all goodwill directly to equity. Under U.S. GAAP, goodwill is amortized on a straight-line method over 15 years, the estimated useful life. The carrying amount of goodwill is reviewed on a quarterly basis for recoverability based on the undiscounted cash flows of the businesses acquired over the remaining amortization period. Should the review indicate that goodwill is not recoverable, the Company's carrying value of the goodwill would be reduced by the estimated shortfall of the discounted cash

flows.

Income tax effect of U.S. GAAP adjustments

For all U.S. GAAP adjustments noted above, the tax effect was computed using the statutory tax rates of the respective subsidiaries of the Company creating the U.S. GAAP adjustment. To the extent the U.S. GAAP adjustment created a temporary deductible difference and there was insufficient positive evidence to support valuing the related deferred tax asset, an effective tax rate of 0% was used.

ITEM 20. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Section 145 of the Delaware Business Corporation Act (the "Delaware Law") sets forth conditions and limitations governing the indemnification of officers, directors, and other persons. Indemnification is permitted in third party actions where the indemnified person acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation and in criminal actions where he had no reasonable cause to believe his conduct was unlawful. Indemnification is also permitted in lawsuits brought by or on behalf of the corporation if the standards of conduct described above are met, except that no indemnification is permitted in respect to any matter in which the person is adjudged to be liable to the corporation unless a court shall determine that indemnification is fair and reasonable in view of all the circumstances of the case. In cases where indemnification is permissive, a determination as to whether the person met the applicable standard of conduct must be made either by the court, by disinterested directors, by independent legal counsel, or by the stockholders. Indemnification against expenses (including attorneys' fees) actually and reasonably incurred by directors, officers, employees and agents is required under Section 145 of the Delaware Law in those cases where the person to be indemnified has been successful on the merits or otherwise in defense of a lawsuit of the type described above. Such indemnification rights are specifically not deemed to be exclusive of other rights of indemnification by agreement or otherwise and the corporation is authorized to advance expenses incurred prior to the final disposition of a matter upon receipt of an undertaking to repay such amounts on a determination that indemnification was not permitted in the circumstances of the case.

Article 5 of the Amended and Restated By-Laws (the "By-Laws") of the Company, in effect as of the date hereof, contains certain indemnification

provisions adopted pursuant to authority contained in Section 145 of the Delaware Law. The By-Laws provide that each director, officer, employee or agent of the Company is to be indemnified by the Company and saved harmless, whether or not then employed or in office (and his or her heirs, executors and administrators) against all losses, expenses and damages sustained or reasonably incurred by him or her in connection with any action, suit or proceeding commenced or threatened, to which he or she may be a party by reason of his or her being or having been a director, officer, employee or agent of the Company, except in relation to matters as to which he or she is finally adjudged in such action, suit or proceeding to be liable for willful misfeasance, bad faith or negligence in the performance of his or her duties as such director, officer, employee or agent. The foregoing indemnification is not exclusive as to any other rights to which a director, officer, employee or agent may be entitled as a matter of law or otherwise.

Under Section 145 of the Delaware Law, the Company may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee, or agent of the Company, or who, while serving in such capacity, is or was at the request of the Company, a director, officer, employee or agent of another corporation or legal entity or of an employee benefit plan, against liability asserted against or incurred by such person in any such capacity whether or not the corporation would have the power to provide indemnity under Section 145. The Company has purchased a liability policy to indemnify its officers and directors against losses arising from claims by reason of their legal liability for acts as officers and directors, subject to the limitations and conditions set forth in the policy.

There is no litigation pending or, to the best of the Company's knowledge, threatened which might or could result in a claim for indemnification by a director or officer.

ITEM 22. UNDERTAKINGS

Each of the undersigned Registrants hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, as amended, each filing of a Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in this Registration Statement shall be deemed to be a new registration statement relating to the securities offered herein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Each of the undersigned Registrants hereby also undertakes:

(1) to file, during any period in which offers or sales are being made, post-effective amendment to this Registration Statement;

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) to reflect in the prospectus any facts or events arising after the effective date of this Registration Statement (or the most recent post-effective amendment thereto) which, individually or in the aggregate, represent a fundamental change in the information set forth in this Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of

prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective Registration Statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in this Registration Statement or any material change to such information in this Registration Statement; provided, however, that paragraphs (1) (i) and (1) (ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed by a Registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in this Registration Statement.

(2) that, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the in initial bona fide offering thereof.

(3) to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report to security holders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Securities Act of 1934, where interim financial information to be presented by Article 3 of Regulation S-X are not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the prospectus to provide such interim financial information.

In the event that a

claim for indemnification against such liabilities (other than the payment by each undersigned Registrant of expenses incurred or paid by a director, officer or controlling person of each Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, each Registrant will, unless in the opinion of its counsel the matter has been settled by the controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Each of the undersigned Registrants hereby undertakes to respond to

requests for information that is incorporated by reference into the Prospectus pursuant to Item 4, 10(b), 11 or 13 of this Form within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means.
