Form 10-Q
August 08, 2006

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **June 30, 2006**

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: **1-16455**

Reliant Energy, Inc.

(Exact Name of Registrant as Specified in Its Charter)

Delaware
(State or Other Jurisdiction of Incorporation or
Organization)

76-0655566
(I.R.S. Employer Identification No.)

1000 Main Street

Houston, Texas 77002

(Address of Principal Executive Offices) (Zip Code)

(713) 497-3000

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer.
Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of July 31, 2006, the latest practicable date for determination, Reliant Energy, Inc. had 307,577,274 shares of common stock outstanding and no shares of treasury stock.

FORWARD-LOOKING INFORMATION

Projections, estimates or assumptions about revenues, costs, income, cash flow and other future events are called forward-looking statements. These forward-looking statements are within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Act of 1934. In some cases, you can identify forward-looking statements by words like anticipate, estimate, believe, intend, may, expect or similar words. Forward-looking statements are not guarantees of future performance. Actual results may differ from forward-looking statements. Each forward-looking statement speaks only as of its date and we are under no obligation to update these statements. For information about factors that could cause our actual results to differ from forward-looking statements, see Risk Factors in Item 1A of Reliant Energy, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2005 (Form 10-K) and Management's Discussion and Analysis of Financial Condition and Results of Operations Recent Events in Item 2 of this Quarterly Report on Form 10-Q.

RELIANT ENERGY, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(1) Background and Basis of Presentation

(a) Background.

Reliant Energy refers to Reliant Energy, Inc. and we, us and our refer to Reliant Energy, Inc. and its consolidated subsidiaries. Our business consists primarily of two business segments, retail energy and wholesale energy. See note 12. Our consolidated interim financial statements and notes (interim financial statements) are unaudited, omit certain disclosures and should be read in conjunction with our audited consolidated financial statements and notes in our Form 10-K.

(b) Basis of Presentation.

Estimates. Management makes estimates and assumptions to prepare financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) that affect:

the reported amount of assets, liabilities and equity,

the reported amounts of revenues and expenses and

our disclosure of contingent assets and liabilities at the date of the financial statements.

Adjustments and Reclassifications. The interim financial statements reflect all normal recurring adjustments necessary, in management's opinion, to present fairly our financial position and results of operations for the reported periods. Amounts reported for interim periods, however, may not be indicative of a full year period due to seasonal fluctuations in demand for electricity and energy services, changes in commodity prices, changes in our price-to-beat rate and other regulations, timing of maintenance and other expenditures, dispositions, changes in interest expense and other factors. We have reclassified certain immaterial amounts reported in this Form 10-Q from prior periods to conform to the 2006 presentation. These reclassifications had no impact on reported earnings/losses. We reclassified

net purchases of emission allowances of \$19 million for the six months ended June 30, 2005 from operating to investing cash flows.

Changes in Estimates for Retail Energy Sales and Costs. The revenues and the related energy supply costs in our retail energy segment include our estimates of customer usage after consideration of initial usage information provided by the independent system operators and the distribution companies. We revise these estimates and record any changes in the period as information becomes available (collectively referred to as market usage adjustments). During the three months ended June 30, 2006 and 2005, we recognized in gross margin (revenues less purchased power, fuel and cost of gas sold) \$13 million of loss and \$0, respectively, and during the six months ended June 30, 2006 and 2005, we recognized in gross margin \$1 million of loss and \$12 million of loss, respectively, related to market usage adjustments.

Change in Estimate for Derivatives. See note 5 regarding a change in accounting estimate relating to our derivatives.

(2) **Stock-based Compensation**

Overview of Plans. The Compensation Committee of the Board of Directors administers our stock-based incentive plans. The Reliant Energy, Inc. 2002 Long-Term Incentive Plan and the Reliant Energy, Inc. 2002 Stock Plan permit us to grant various stock-based incentive awards to officers, key employees and directors. Awards include stock options, restricted stock, performance awards, cash awards and stock awards.

As of June 30, 2006, 36 million shares are authorized for issuance under our stock-based incentive plans, with no more than 25% of these shares available for grant as awards of restricted stock and non-restricted grants of common stock or units denominated in common stock. We generally issue new shares when stock options are exercised and for the issuance of our other equity-based awards.

Summary. Prior to January 1, 2006, we applied the intrinsic value method of accounting for employee stock-based incentive plans (APB No. 25). Effective January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123R, Share-Based Payment (SFAS No. 123R) (using the modified prospective method), which requires compensation costs related to share-based transactions to be recognized in the financial statements based on estimated fair values at the grant dates. Our financial statements as of and for the six months ended June 30, 2006 reflect the impact of SFAS No. 123R; however, our financial statements for prior periods have not been restated to reflect, and do not include, the impact of the new standard. Our compensation expense for our stock-based incentive plans was:

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	Six Months Ended June 30,	
	2006	2005
	(in millions)	
Stock-based incentive plans compensation expense (pre-tax)	\$ 17	\$ 9
Income tax impact	(6)	(4)
After-tax expense	\$ 11	\$ 5

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

We did not capitalize any stock-based compensation costs as an asset during the six months ended June 30, 2006 and 2005.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

We recorded a cumulative effect of an accounting change of \$2 million (\$1 million, net of tax of \$1 million) during the three months ended March 31, 2006 related to the adoption of SFAS No. 123R for the estimated future forfeitures on the compensation expense previously recognized in our consolidated financial statements for the unvested awards outstanding as of January 1, 2006.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

By the end of 2006, we will assess the income tax impacts and adopt one of the methods allowed under the transition provisions of SFAS No. 123R to account for excess tax benefits, if any, available to absorb tax deficiencies recognized subsequent to the adoption. During the six months ended June 30, 2006, the accounting change did not impact cash flows from operating and financing activities due to our tax net operating loss carryforwards.

Valuation Data. Below is the description of the methods used during the indicated periods to estimate the fair value of our various awards.

Award:	Prior to January 1, 2006 (APB No. 25)	After January 1, 2006 (SFAS No. 123R)
Time-based stock options ⁽¹⁾	Intrinsic value on the grant date	Black-Scholes option-pricing model value on the grant date
Time-based restricted stock	Market price of our common stock on the grant date	No change
Time-based cash ⁽²⁾	Market price of our common stock on each reporting measurement date	No change
Key employee award program: Performance-based stock ⁽³⁾	Market price of our common stock on each reporting measurement date	Market price of our common stock on each reporting measurement date until accounting grant date
Performance-based options ⁽³⁾	Intrinsic value of option on each reporting measurement date	Black-Scholes option-pricing model value on each reporting measurement date until accounting grant date
Performance-based cash ⁽²⁾⁽³⁾	Market price of our common stock on each reporting measurement date	No change
Employee stock purchase plan	No compensation expense recorded	Black-Scholes option-pricing model value on the first day of the offering period

(1) No awards were granted during the six months ended June 30, 2006.

(2) These are liability-classified awards under SFAS No. 123R.

(3) No awards were granted during the six months ended June 30, 2006 and 2005.

Time-Based Stock Options. We grant time-based stock options to officers, key employees and directors at an exercise price equal to the market value of our common stock on the grant date. Generally, options vest 33.33% per year and have a term of 10 years. Beginning January 1, 2006, compensation expense is measured at fair value on the grant date, net of estimated forfeitures, and amortized to expense on a straight-line basis over the requisite service period for the entire award.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Summarized time-based option activity is:

	Options	\$	Six Months Ended June 30, 2006 Weighted Average Exercise Price
Beginning of period	11,646,667		15.21
Granted			
Exercised	(830,135) ⁽¹⁾		7.25
Forfeited	(20,638)		3.51
Expired	(1,173,081)		28.77
End of period	9,622,813		14.27
Weighted average grant date fair value	N/A		

(1) Received proceeds of \$6 million. Intrinsic value was \$3 million on the exercise date. No tax benefits are expected to be realized in 2006 due to our tax net operating loss carryforwards.

During the six months ended June 30, 2005, we granted 30,000 time-based options with a weighted average exercise price of \$12.47. During the six months ended June 30, 2005, we received proceeds for the exercise of time-

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

based options of \$11 million for which the intrinsic value was \$7 million. No tax benefits were realized during 2005 due to our tax net operating loss carryforwards.

For time-based options outstanding as of June 30, 2006:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (in millions)
Outstanding	9,622,813(1)(2) \$	14.27	4.3	\$ 29
Exercisable	9,380,098	14.50	4.2	27

(1) We estimate that none of these will be forfeited.

(2) As of June 30, 2006, the total compensation cost related to nonvested time-based stock options not yet recognized and the weighted-average period over which it is expected to be recognized is \$0.3 million and 0.3 years, respectively.

Time-Based Restricted Stock Awards. We grant time-based restricted stock awards to officers, key employees and directors. In general, these awards vest, subject to the participant's continued employment, three years from the grant date. Beginning January 1, 2006, compensation expense is measured at fair value on the grant date, net of estimated forfeitures, and amortized to expense on a straight-line basis over the requisite service period.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Summarized restricted stock award activity is:

	Six Months Ended June 30, 2006	
	Shares	Weighted Average Grant Date Fair Value
Beginning of period	1,855,583	\$ 6.96
Granted	313,674	11.51
Vested	(794,792) ⁽¹⁾	4.78
Forfeited	(71,010)	8.46
End of period	1,303,455 ⁽²⁾	9.31

(1) Based on the market price of our common stock on the vesting date, \$8 million in fair value vested.

(2) We estimate that 188,938 of these will be forfeited.

During the six months ended June 30, 2005, \$6 million in fair value of our time-based restricted stock vested based on the market price of our common stock on the vesting date. During the six months ended June 30, 2005, the weighted average grant date fair value of time-based restricted stock activity was \$12.49. As of June 30, 2006, the total compensation cost related to nonvested time-based restricted stock awards not yet recognized and the weighted-average period over which it is expected to be recognized is \$5 million and 1.5 years, respectively.

Time-Based Cash Awards. We grant time-based cash awards (cash units with each cash unit having an equivalent fair market value of one share of our common stock on the vesting date) to officers and key employees. In general, these awards vest, subject to the participant's continued employment, three years from the grant date. Compensation expense is measured at fair value on each financial reporting measurement date, net of estimated forfeitures, and amortized to expense on a straight-line basis over the requisite service period. We have a liability recorded of \$4 million for these time-based cash awards as of June 30, 2006.

During the six months ended June 30, 2006 and 2005, no time-based cash awards vested and we did not pay cash for any stock-based liabilities. As of June 30, 2006, the total compensation cost related to nonvested time-based cash awards not yet recognized and the weighted-average period over which it is expected to be recognized is \$5 million and 1.7 years, respectively.

Performance-Based Awards. We grant performance-based awards to officers and key employees. The number of performance-based awards earned is determined at the end of each performance period. All of the outstanding performance-based awards as of June 30, 2006 are for the 2004-2006 performance period, which is the requisite service period. Beginning January 1, 2006, compensation expense is measured at fair value, net of estimated forfeitures, at each reporting measurement date preceding the grant date for accounting purposes. We have broadly

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

interpreted the criteria for determining if the service inception date precedes the grant date for our performance-based awards under SFAS No. 123R. For our performance-based cash unit awards, we have a liability recorded of \$12 million as of June 30, 2006.

The Compensation Committee granted the 2004-2006 performance-based awards through the Key Employee Award Program (the Key Employee Program) established under the Reliant Energy, Inc. 2002 Long-Term Incentive Plan. Under the Key Employee Program, each performance-based award represents a targeted award of (a) 16,000 shares of performance-based stock, (b) 68,000 performance-based stock options and (c) 16,000 cash units with each cash unit having an equivalent fair market value of one share of our common stock on the vesting date. The Key Employee Program provides for a payout ranging from 0% to 140% of the targeted award level, as determined by the Compensation Committee in its sole discretion after considering various qualitative and quantitative performance criteria. These criteria include (a) reducing the ratio of our adjusted net debt to adjusted EBITDA to at least 3.5, (b) delivering superior customer value and (c) building a great company to work for, taking into consideration market conditions for each factor. The Compensation Committee has the discretion to weight the various performance objectives as it deems appropriate.

Summarized performance-based stock award activity of the Key Employee Program assuming a maximum payout (140%) is:

	Six Months Ended June 30, 2006	
	Shares	Reporting Measurement Date Fair Value
Beginning of period	1,825,600	
Granted		
Vested		
Forfeited	(67,200)	
End of period	1,758,400(1)	\$ 11.98

(1) We estimate no awards will be forfeited prior to vesting.

Summarized performance-based option activity of the Key Employee Program assuming a maximum payout (140%) is:

	Options	Six Months Ended June 30, 2006	
		Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)
Beginning of period	7,758,800	\$ 8.35	
Granted			
Exercised			
Forfeited	(285,600)	8.14	
Expired			
End of period	7,473,200(1)(2)	8.36	7.7
Exercisable at end of period			

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

- (1) We estimate no awards will be forfeited prior to vesting.
- (2) The aggregate intrinsic value is \$27 million.

During the six months ended June 30, 2005, no performance-based stock awards or options were granted or exercised.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Our option awards under the Key Employee Program are based on the following weighted average assumptions and resulting fair values:

	Six Months Ended June 30, 2006
Expected term in years ⁽¹⁾	3.5
Estimated volatility ⁽²⁾	48.60%
Risk-free interest rate	5.25%
Dividend yield	0%
Weighted-average fair value	\$ 6.36

(1) The expected term is based on a projection of exercise behavior considering the contractual terms and the participants of the option awards.

(2) We estimated volatility based on historical and implied volatility of our common stock.

During the six months ended June 30, 2006 and 2005, no performance-based awards vested. As of June 30, 2006, the total compensation cost related to nonvested performance based awards not yet recognized and the weighted-average period over which it is expected to be recognized is \$11 million and 0.5 years, respectively.

Employee Stock Purchase Plan. We have 18 million shares of authorized common stock reserved and approved for issuance under the Reliant Energy, Inc. Employee Stock Purchase Plan (ESPP). Under the ESPP, substantially all employees can purchase our common stock through payroll deductions of up to 15% of eligible compensation during semiannual offering periods commencing on January 1 and July 1 of each year. The share price paid by participants equals 85% of the lesser of the average market price on the first or last business day of each offering period.

Our employee stock purchase plan awards are based on the following weighted average assumptions and resulting fair values:

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	Six Months Ended June 30,	
	2006	2005(1)
Expected term in years	0.5	0.5
Estimated volatility ⁽²⁾	52.88%	34.87%
Risk-free interest rate	4.40%	2.63%
Dividend yield	0%	0%
Weighted-average fair value	\$ 3.16	\$ 3.42

(1) Because we applied APB No. 25 during 2005, this was only used for pro-forma data.

(2) We estimated volatility based on the historical volatility of our common stock.

During the six months ended June 30, 2006 and 2005, we issued 359,966 shares and 371,606 shares, respectively, under the ESPP and received \$3 million and \$3 million, respectively, from the sale of shares to employees. Approximately 11.1 million reserved unissued shares were available under the ESPP as of June 30, 2006.

Pro-forma Data for 2005. If employee stock-based compensation costs had been expensed based on the fair value (determined using the Black-Scholes model and market price of our common stock) method of accounting applied to all stock-based awards, our pro forma results would be:

	Three Months Ended June 30, 2005 (in millions, except per-share amounts)		Six Months Ended June 30, 2005	
Net income, as reported	\$	99	\$	74
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects		6		5
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects		(5)		(10)
Pro forma net income	\$	100	\$	69
Earnings per share:				
Basic, as reported	\$	0.33	\$	0.25
Basic, pro forma	\$	0.33	\$	0.23
Diluted, as reported	\$	0.30	\$	0.24
Diluted, pro forma	\$	0.30	\$	0.22

Classification. Through December 31, 2005, our accruals for our stock-based incentive awards were recorded as liabilities. Beginning January 1, 2006, for equity awards, we reclassified our accrual of \$23 million to equity, of which \$5 million was classified as temporary equity stock-based compensation based on the redemption amount of the award as of the grant date, and the remainder was classified as additional paid-in capital in stockholders' equity. Some of our equity stock-based awards provide for the settlement of the award in cash by us pursuant to change of control provisions and we do not believe it is probable these awards will become redeemable.

Other. We did not use cash to settle equity instruments granted under stock-based compensation plans during the six months ended June 30, 2006 and 2005. During the six months ended June 30, 2006 and 2005, there were no significant modifications to our outstanding stock-based awards.

(3) Comprehensive Income (Loss)

The components of total comprehensive income (loss) are:

	Three Months Ended June 30, 2006 (in millions)		2005		Six Months Ended June 30, 2006 (in millions)		2005	
Net income (loss)	\$	14	\$	99	\$	(119)	\$	74
Other comprehensive income (loss), net of tax:								
Deferred loss from cash flow hedges		(15)		(34)		(111)		(114)

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Reclassification of net deferred (gain) loss from cash flow hedges realized in net income/loss		29		(22)		71		(31)
Comprehensive income (loss)	\$	28	\$	43	\$	(159)	\$	(71)

(4) Goodwill

2006 Annual Goodwill Impairment Tests. We completed our annual goodwill impairment tests for our wholesale energy and retail energy reporting units effective April 1, 2006. No impairments occurred.

Estimation of Our Wholesale Energy Reporting Unit's Fair Value. We updated a number of subjective factors and significant assumptions to estimate fair value in our April 2006 test compared to our September 2005 test, including (a) appropriate weighting of valuation approaches (income approach, market approach and comparable public company approach), (b) projections about future power generation margins, (c) estimates of our future cost

structure, (d) required level of working capital and (e) assumed EBITDA multiple for terminal values, which changed from 8.0 to 7.5 primarily due to market factors affecting public company comparisons. See note 4(a) to our consolidated financial statements in our Form 10-K.

(5) Derivative Instruments

For discussion of our derivative activities, see notes 2(d) and 5 to our consolidated financial statements in our Form 10-K. The income (loss) of our energy and interest rate derivative instruments is:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
	(in millions)			
Energy derivatives:				
Hedge ineffectiveness	\$ (21)	\$ (8)	\$ (70)	\$ (1)
Other net unrealized gains	73	146	145	263
Interest rate derivatives:				
Hedge ineffectiveness				
Other net unrealized losses	(2)	(4)	(5)	(8)
Total⁽¹⁾⁽²⁾	\$ 50	\$ 134	\$ 70	\$ 254

(1) No component of the derivatives gain or loss was excluded from the assessment of effectiveness.

(2) During the three months ended June 30, 2006 and 2005, \$0 and during the six months ended June 30, 2006 and 2005, \$3 million and \$0, respectively, were recognized in our results of continuing operations as a result of the discontinuance of cash flow hedges because it was probable that the forecasted transaction would not occur.

During the three months ended June 30, 2006, we refined our methodology for estimating fair value of derivative instruments cleared and settled through brokers by modifying our discounting assumptions to be consistent with discounting assumptions used in estimating fair value of exchange-traded futures contracts. This change in accounting estimate had an impact during the three and six months ended June 30, 2006 as follows (income (loss)):

	Three and Six Months Ended June 30, 2006		
	Income/Loss from Continuing Operations before Income Taxes		Net Income/Loss
	(in millions)		
Cash flow hedges ⁽¹⁾	\$	\$	\$
Mark-to-market derivatives		(32) ⁽²⁾	(20)
Total	\$	(32)	(20)⁽³⁾

(1) The impact relating to cash flow hedges was an increase in our net derivative liabilities of \$9 million and a \$5 million increase in accumulated other comprehensive loss, net of income taxes.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

- (2) This amount represented an increase in our net derivative liabilities and an increase in net unrealized losses on energy derivatives, which were recorded \$(1) million in revenues and \$(31) million in purchased power, fuel and cost of gas sold.
- (3) This represents a \$(0.06) impact on diluted earnings/loss per share for the three and six months ended June 30, 2006.

Our derivative portfolio, excluding cash flow hedges, is \$168 million (net liability) and \$308 million (net liability) as of June 30, 2006 and December 31, 2005, respectively. Our cash flow hedges are valued at \$494 million (net liability) and \$471 million (net liability) as of June 30, 2006 and December 31, 2005, respectively.

As of June 30, 2006 and December 31, 2005, the maximum length of time we were hedging our exposure to the variability in future cash flows that may result from changes in commodity prices was seven years. As of June 30, 2006 and December 31, 2005, accumulated other comprehensive loss from derivatives was \$324 million and \$284 million, respectively. As of June 30, 2006, we expect \$190 million of accumulated other comprehensive loss to be reclassified into our results of operations during the period from July 1, 2006 to June 30, 2007. However, the actual amount reclassified into earnings will vary from the amounts recorded as of June 30, 2006, due to future changes in market prices.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Although we discontinued our proprietary energy trading business in March 2003, we have legacy positions, which will be closed as economically feasible or in accordance with their terms. The margins associated with these transactions are (income (loss)):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
	(in millions)			
Revenues	\$	\$	(1)	\$
Purchased power, fuel and cost of gas sold			1	10
Gross margin	\$	\$	\$	\$
			10	(16)

(6) Debt

Our outstanding debt is:

	Weighted Average Stated Interest Rate(1)	June 30, 2006		December 31, 2005		
		Long-term	Current (in millions, except interest rates)	Long-term	Current	
Banking or Credit Facilities,

Other:						
Adjustment to fair value of debt ⁽⁵⁾		34	10		39	9
Total other debt		34	10		39	9
Total debt		\$ 4,226	\$ 494		\$ 4,317	\$ 789

-
- (1) The weighted average stated interest rates are for borrowings outstanding as of June 30, 2006 or December 31, 2005.
- (2) As of December 31, 2005, we classified \$638 million as discontinued operations. See note 14.
- (3) PEDFA is defined as Pennsylvania Economic Development Financing Authority.
- (4) We have obtained an updated waiver from the lenders, which expires on May 1, 2007, relating to insurance requirements specified in the credit agreement.
- (5) Included in interest expense during the three months ended June 30, 2006 and 2005 is amortization of \$2 million and \$2 million, respectively, and included in interest expense during the six months ended June 30, 2006 and 2005 is amortization of \$4 million and \$4 million, respectively, for valuation adjustments for debt.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Amounts borrowed and available for borrowing under our senior secured revolver as of June 30, 2006 are:

	Total Committed Credit	Drawn Amount	Letters of Credit (in millions)	Unused Amount
Reliant Energy senior secured revolver due 2009	\$ 1,700	\$ 323	\$ 592	\$ 785

RE Retail Receivables, LLC Facility. We have a receivables facility arrangement to sell an undivided interest in accounts receivable from our retail business to financial institutions on an ongoing basis. The assets of the special purpose subsidiary that purchases the receivables and then resells receivables under the facility are available first and foremost to satisfy the claims of its creditors. The special purpose subsidiary is a separate entity, which we consolidate. We have extended this facility through October 31, 2006.

(7) **Earnings Per Share**

Reconciliations of the amounts used in the basic and diluted earnings (loss) per common share computations are:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
	(in millions)			
Income (loss) from continuing operations (basic)	\$ 23	\$ 50	\$ (116)	\$ 9
Plus: Interest expense on 5.00% convertible senior subordinated notes, net of tax	2	2	(1)	
Income (loss) from continuing operations (diluted)	\$ 25	\$ 52	\$ (116)	\$ 9

(1) As we incurred a loss from continuing operations for this period, diluted loss per share is calculated the same as basic loss per share.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
	(shares in thousands)			
Diluted Weighted Average Shares Calculation:				
Weighted average shares outstanding	306,780	301,250	306,208	300,848
Plus: Incremental shares from assumed conversions:

Restricted stock and performance-based shares	604	1,136	(1)	1,205
Employee stock purchase plan	81	29	(1)	24
5.00% convertible senior subordinated notes	28,823	28,823	(1)	
Warrants	3,995	4,341	(1)	4,470
	342,592	337,679	306,208	308,907

Weighted average shares outstanding assuming
conversion

(1) See note (1) above regarding diluted loss per share.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

We excluded the following items from diluted earnings (loss) per common share due to the anti-dilutive effect:

	Three Months Ended June 30, 2006		Six Months Ended June 30, 2005	
	(shares in thousands, dollars in millions)			
Shares excluded from the calculation of diluted earnings (loss) per share			35,657(1)	28,823(1)
Shares excluded from the calculation of diluted earnings (loss) per share because the exercise price exceeded the average market price	3,159(2)	4,396(2)	5,233(2)	4,284(2)
Interest expense that would be added to income if 5.00% convertible senior subordinated notes were dilutive	\$	\$	\$ 4	\$ 4

(1) Potential shares excluded may consist of convertible senior subordinated notes, warrants, stock options, restricted stock, performance-based shares and/or shares related to employee stock purchase plan.

(2) Relates to stock options.

(8) Income Taxes

(a) Tax Rate Reconciliation.

A reconciliation of the federal statutory income tax rate to the effective income tax rate is:

	Three Months Ended June 30, 2006		Six Months Ended June 30, 2005	
	(in millions, except percentages)			
Income (loss) from continuing operations before income taxes	\$ 39	\$ 105	\$ (42)	\$ 51
Federal statutory rate	35%	35%	35%	35%
Income tax expense (benefit) at statutory rate	14	37	(15)	18
Net addition (reduction) in taxes resulting from:				
Federal tax reserves		1	1	2
Federal valuation allowance	20	6	90	6
Settlement of shareholder class action lawsuits		2		2
State income taxes, net of federal income taxes	2	7	15	12

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Texas state law changes ⁽¹⁾	(19)		(19)	
Other, net	(1)	2	2	2
Total	2	18	89	24
Income tax expense from continuing operations	\$ 16	\$ 55	\$ 74	\$ 42
Effective rate	42%	52%	Not Meaningful	83%

(1) See note 8(d) below.

(b) Valuation Allowances.

We assess quarterly our future ability to use federal, state and foreign net operating losses, capital losses and other deferred tax assets. As a result of our recent history of losses and the change in our net federal deferred tax assets, we recorded \$20 million and \$90 million in valuation allowances against these tax assets during the three and six months ended June 30, 2006, respectively.

(c) ***Tax Contingencies.***

Our income tax returns, including years when we were included in CenterPoint Energy, Inc.'s (CenterPoint) consolidated tax group, for the 1997 to 2004 tax reporting periods are under audit by federal and state taxing authorities. These audits may result in additional taxes and interest or revisions of the timing of tax payments. We evaluate the need for contingent tax liabilities on a quarterly basis and record any estimable and probable tax exposures in our results of operations.

We have received proposed tax assessments from certain taxing authorities, which are currently at varying stages of appeals. The issues primarily relate to temporary differences and include deductions for plant abandonments, bad debts, capitalization of costs to plant and inventory, depreciable lives and various other matters. It could take several years to resolve these contingencies.

As of June 30, 2006 and December 31, 2005, we have accrued contingent federal and state tax liabilities related to our continuing operations of \$41 million and \$46 million, respectively. These balances are primarily classified in other long-term liabilities. We do not believe these contingencies will be resolved within the next 12 months.

As of June 30, 2006 and December 31, 2005, we have accrued contingent federal tax liabilities related to our discontinued European energy operations of \$11 million included in other long-term liabilities in continuing operations. We reserved these amounts for potential future federal income tax assessments on certain income from our former European subsidiaries. If sustained, these assessments would increase our capital loss carryforwards by \$45 million and reduce our tax net operating loss carryforwards by the same amount.

We believe that the substantial majority of certain payments and charges are deductible for income tax purposes; however, no assurance can be given that the Internal Revenue Service would not assert, or that a court would not sustain, a contrary position. These payments and/or charges include:

\$177 million to CenterPoint during 2004 related to our residential customers. See note 13(d) to our consolidated financial statements in our Form 10-K.

\$68 million during 2005 to settle the class action lawsuits against us for claims alleging violations of securities laws. See note 13(c) to our consolidated financial statements in our Form 10-K.

A pre-tax charge of \$351 million during 2005 to settle certain civil litigation and claims relating to the Western states energy crisis. See note 13(a) to our consolidated financial statements in our Form 10-K.

(d) ***Changes in Accounting for Income Taxes or Tax Laws.***

The Financial Accounting Standards Board recently issued guidance clarifying the accounting for uncertainty in income taxes recognized in our financial statements. Pursuant to the new guidance, which becomes effective for us in 2007, tax benefits are only recorded for positions where it is more-likely-than-not that our reported tax return treatment would be sustained if audited by relevant taxing authorities. Additional rules are provided for interest, penalties, changes in benefit recognition and other related matters. We cannot currently predict the effect this interpretation will have on our consolidated financial statements.

In May 2006, the State of Texas enacted substantial changes to its tax system. Effective January 1, 2007, the current Texas franchise tax comprised of taxable capital and earned surplus components will be replaced with a revised franchise tax based on modified gross revenue. As a result of the Texas law change, during the second quarter of 2006, we decreased our net deferred state tax liabilities by \$19 million to reflect the estimated cumulative change to deferred tax items.

(9) Guarantees

We have guaranteed certain non-qualified benefits of CenterPoint's existing retirees at September 20, 2002. The estimated maximum potential amount of future payments under the guarantee was approximately \$57 million as of June 30, 2006. We believe the likelihood that we would incur any significant losses under this guarantee is remote and, therefore, have not recorded a liability in our consolidated balance sheet as of June 30, 2006.

We also guarantee the \$500 million PEDFA bonds, which are included in our consolidated balance sheet as outstanding debt. Our guarantees are secured by guarantees from all of our subsidiaries that guarantee the

December 2004 credit facilities and the collateral that secures our senior secured notes and October 2005 credit facility. The guarantees require us to comply with covenants substantially identical to those in the senior secured notes indentures. The PEDFA bonds will become secured by certain assets of Seward if the collateral supporting both the senior secured notes and our guarantees is released. Our maximum potential obligation under the guarantees is for payment of the principal of \$500 million and related interest charges at a fixed rate of 6.75%.

We have guaranteed payments to a third party relating to energy sales from El Dorado Energy, LLC, a former investment. The estimated maximum potential amount of future payments under this guarantee is approximately \$21 million as of June 30, 2006. We secured a portion of the guarantee with letters of credit. We have not recorded a liability in our consolidated balance sheet for this guarantee.

We enter into contracts that include indemnification and guarantee provisions. In general, we enter into contracts with indemnities for matters such as breaches of representations and warranties and covenants contained in the contract and/or against certain specified liabilities. Examples of these contracts include asset sales agreements, retail supply agreements, service agreements and procurement agreements.

In our debt agreements, we typically indemnify against liabilities that arise from the preparation, entry into, administration or enforcement of the agreement.

We are unable to estimate our maximum potential exposure under these provisions until an event triggering payment under these provisions occurs. Based on current information, we consider the likelihood of making any material payments under these provisions to be remote.

(10) Contingencies

We are parties to many legal proceedings, some of which involve substantial claim amounts. Unless otherwise noted, we cannot predict the outcome of these proceedings. In this note, we disclose only proceedings that became reportable during the three months ended June 30, 2006 and material developments in previously reported proceedings. For information about previously reported proceedings, see note 12 to our consolidated financial statements in our Form 10-K and note 10 to our interim financial statements in our Quarterly Report on Form 10-Q for the period ended March 31, 2006, which notes (as updated below) are incorporated by reference into, and filed as exhibits to, this Form 10-Q.

Legal Matters.

Pending Western States Electricity and Natural Gas Litigation.

Natural Gas Actions. In February 2006, we executed our settlement agreement for the New York class action lawsuits (Cornerstone settlement agreement), which was approved in May 2006 by the United States District Court for the Southern District of New York. We paid the \$8 million Cornerstone settlement to the plaintiffs during the first quarter of 2006.

In May 2006, a class action lawsuit was filed in the District Court of the City and County of Denver, Colorado, relating to alleged conduct to increase natural gas prices in violation of antitrust and similar laws during the period January 2000 through October 2002. The lawsuit seeks restitution and expenses and also names our subsidiary, Reliant Energy Services, Inc., as a party.

Electricity Actions. In May 2006 and July 2006, the California Superior Court approved our settlement agreement for the majority of the lawsuits in California relating to alleged conduct to increase electricity prices in violation of antitrust, unfair competition and similar laws. In accordance with the terms of the settlement agreement, in June 2006 and July 2006, we paid \$3 million and \$1 million, respectively, to the plaintiffs. There are two remaining lawsuits on appeal from orders that dismissed these cases in our favor. A third case is pending at the trial court level.

(11) Supplemental Guarantor Information

Our wholly-owned subsidiaries are either (a) full and unconditional guarantors, jointly and severally, or (b) non-guarantors of the senior secured notes.

Condensed Consolidating Statements of Operations.

	Reliant Energy	Three Months Ended June 30, 2006			Consolidated

Gains on sales of assets and emission allowances, net	\$ 5	\$ 25	\$ 156	\$ 24

(1) REMA is Reliant Energy Mid-Atlantic Power Holdings, LLC and its consolidated subsidiaries.

(14) Discontinued Operations**(a) New York Plants.**

General. In February 2006, we closed on the sale of our three remaining New York plants with an aggregate net generating capacity of approximately 2,100 megawatts (MW) for \$979 million. During the third quarter of 2005, we began to report the results of the New York plants as discontinued operations. These plants were a part of our wholesale energy segment.

Use of Proceeds. We applied \$952 million of cash proceeds, which is net of estimated city, state and transfer taxes and transaction costs, to pay down our senior secured term loans.

Assumptions Related to Debt, Deferred Financing Costs and Interest Expense on Discontinued Operations. Based on our contractual obligation (at the time the purchase and sale agreement was executed) to utilize a portion of the net proceeds from the sale to prepay debt, we classified \$638 million of debt as discontinued operations as of December 31, 2005. See note 6. We also classified as discontinued operations the related deferred financing costs and interest expense on this debt. We allocated \$0 and \$10 million of related interest expense during the three months ended June 30, 2006 and 2005, respectively, and we allocated \$15 million and \$20 million of related interest expense during the six months ended June 30, 2006 and 2005, respectively, to discontinued operations.

(b) All Discontinued Operations.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

The following summarizes the assets and liabilities related to our New York discontinued operations:

	June 30, 2006	December 31, 2005 (in millions)	
Current Assets:			
Accounts receivable, net	\$	1	\$ 51
Derivative assets		10(1)	87
Other current assets			65
Total current assets		11	203
Property, Plant and Equipment, net			761
Other Assets:			
Other intangibles, net			69
Derivative assets			43
Other			8
Total long-term assets			881
Total Assets	\$	11	\$ 1,084
Current Liabilities:			
Accounts payable	\$		\$ 15
Taxes payable		25(2)	15
Derivative liabilities		9(1)	50
Other current liabilities		1	16
Total current liabilities		35	96
Other Liabilities:			
Accumulated deferred income taxes			120
Other liabilities			22
Total other liabilities			142
Long-term Debt			638
Total long-term liabilities			780
Total Liabilities	\$	35	\$ 876
Accumulated other comprehensive loss	\$		\$

(1) Relates to derivatives to be settled through December 2006.

(2) Of this amount, approximately \$20 million relates to state taxes to be paid in quarterly payments through December 2006 resulting from the sale.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our Form 10-K. The discussion includes non-GAAP financial measures, which are not standardized; therefore, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. We strongly encourage investors to review our consolidated financial statements and publicly filed reports in their entirety and not to rely on any single financial measure.

Business Overview

We provide electricity and energy services to retail and wholesale customers through two business segments.

Retail energy provides electricity and energy services to approximately 1.9 million retail electricity customers in Texas, including residential and small business customers and commercial, industrial and governmental/institutional customers. We also serve commercial, industrial and governmental/ institutional customers in the PJM Market, which is primarily Maryland, New Jersey and Pennsylvania.

Wholesale energy provides electricity and energy services in the competitive wholesale energy markets in the United States. We own and operate power plants or contract for power generation capacity. As of June 30, 2006, we had approximately 16,000 MW of owned or leased generation capacity in operation.

Key earnings drivers for our retail energy segment include the margin received from sales to our retail customers and the volume of electricity sold to these customers. Key earnings drivers for the wholesale energy segment include:

the number of hours our generation is economic to operate;

the commercial capacity factor of our power plants;

unit margins received from our power plants;

other margins received, from among other things, capacity payments and ancillary services; and

the settlement of our historical hedges relative to current market prices.

Information regarding these key earnings drivers for our retail and wholesale energy segments for the three and six months ended June 30, 2006 and 2005 is included in this Form 10-Q.

Recent Events

In this section, we present forward-looking information about recent events that could impact our future results of operations. In addition to the factors described below, a number of other factors could affect our future results of operations, including changes in natural gas prices, plant availability, retail energy customer growth and other factors.

Retail Credit Structure.

We are currently negotiating to enter into a new retail credit structure, which is intended to substantially eliminate our net collateral postings and reduce our liquidity requirements associated with procuring supply for our retail energy business. Assuming we are successful in concluding these negotiations, we expect to sign an agreement with a credit support provider later this year. The structure is expected to be subject to various conditions to close, including amending and/or refinancing our senior secured revolver and term loans and obtaining required consents from the holders of our senior secured notes and our PEDFA bonds to amend the note indentures and our guarantees of the bonds. We began soliciting for the consents with respect to proposed amendments to the note indentures and our guarantees of the bonds on July 26, 2006. We expect to reduce our total debt outstanding upon implementation of the contemplated new retail credit structure.

Retail Products.

As part of our retail marketing efforts in Texas, we have made a concerted effort to offer retail customers competitive alternatives to the price-to-beat. Through June 30, 2006, 45% of our ERCOT

residential customers are served under such competitive products and approximately 37% of these customers are on term products. We are striving to move customers to term products in order to provide them with stabilized and/or reduced electricity costs and at the same time reduce our attrition risk and risk around regulatory uncertainty.

PUCT Rule.

In July 2006, the Public Utility Commission of Texas adopted an emergency rule to suspend disconnection of electric service through September 30, 2006 for elderly low-income customers who contact us and designated critical care residential customers. This rule expands payment options to all low-income customers during the summer. Under the emergency rule, the affected customers will have the ability to enter into deferred payment plans to pay for their electric usage over a period of up to six billing cycles. The adoption of this emergency rule allowing certain limited classes of customers to avoid disconnection for a period of time and expanding the availability of deferred payment plans could increase our bad debt expense and have a material impact on our results of operations.

Stock-Based Compensation.

We adopted SFAS No. 123R effective January 1, 2006 related to accounting for our stock-based incentive plans. Changing from the intrinsic value method to the fair value method has not had a material impact on our consolidated financial statements. If we change our compensation system to include more stock-based incentive awards, then this change in accounting could have a material impact to our consolidated financial statements in the future. See note 2 to our interim financial statements.

Other.

For additional information regarding factors that could have an impact on our future results of operations, see **Risk Factors** in Item 1A of our Form 10-K.

Consolidated Results of Operations

Three Months Ended June 30, 2006 Compared to Three Months Ended June 30, 2005

We reported \$14 million consolidated net income, or \$0.05 diluted earnings per share, for the three months ended June 30, 2006 compared to \$99 million consolidated net income, or \$0.30 earnings per diluted share, for the same period in 2005.

	Three Months Ended June 30,	
2006	2005	Change

Discontinued operations		(9)		49		(58)
Net income	\$	14	\$	99	\$	(85)

Retail Energy Segment Summary. Our retail energy segment's contribution margin was \$271 million during the three months ended June 30, 2006, compared to \$270 million in the same period of 2005. The \$1 million increase in contribution margin was primarily due to improved gross margin, excluding unrealized gains/losses, of \$103 million, primarily offset by the net change in unrealized gains/losses on energy derivatives of \$75 million and higher operation and maintenance, selling and marketing and bad debt expense of \$27 million. See [Retail Energy Margins](#) below for explanations.

Retail Energy Operational Data.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	Three Months Ended June 30,	
	2006	2005
	(gigawatt hours)	
Electricity Sales to End-Use Retail Customers:		
Mass:		
Residential:

Total Commercial and Industrial	869	733	136
Total	2,107	1,638	469
Retail energy revenues from resales of purchased power and other hedging activities			
	120	90	30
Market usage adjustments	(7)	(11)	4(6)
Unrealized losses on energy derivatives	(3)		(3) ⁽⁷⁾
Total retail energy revenues	\$ 2,217	\$ 1,717	\$ 500

(1) Increase primarily due to increases in sales prices to customers due to increases in the price of natural gas.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(2) Increase primarily due to (a) increases in sales prices to customers due to increases in the price of natural gas and (b) increased volumes due to increased customers.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(3) Beginning in the first quarter of 2006, we recategorized financial and operational data for customers with a peak demand between 250 kilowatts and one MW from small business within mass to commercial and industrial. The 2005 data is presented on a comparable basis.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(4) Increase primarily due to (a) increased volumes due to increased customers and (b) increases in sales prices to customers due to increases in the price of natural gas.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(5) Increase primarily due to (a) fixed price contracts renewed at higher rates due to higher prices of natural gas and (b) variable rate contracts, which are tied to the market price of natural gas. These increases were partially offset by decreased volumes.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(6) See footnote (4) under Three Months Ended June 30, 2006 Compared to Three Months Ended June 30, 2005 Retail Energy Margins.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(7) See footnote (5) under Three Months Ended June 30, 2006 Compared to Three Months Ended June 30, 2005 Retail Energy Margins.

Retail Energy Purchased Power.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	2006	Three Months Ended June 30, 2005 (in millions)		Change
Costs of purchased power	\$ 1,727	\$ 1,360	\$ 367	(1)
Retail energy intersegments costs	140	124	16	(2)
Market usage adjustments	6	(11)	17	(3)
Unrealized gains on energy derivatives	(37)	(109)	72	(4)
Total retail energy purchased power	\$ 1,836	\$ 1,364	\$ 472	

(1) Increase primarily due to (a) increases in the price of purchased power due to higher market prices of electricity primarily driven by higher natural gas prices, (b) higher volumes due to increased customers and (c) increased cost of transmission and distribution losses in ERCOT. These increases were partially offset by (a) our economic supply hedges that allowed us to benefit from lower gas prices and (b) decreases in other supply costs.

(2) Increase primarily due to higher volumes due to more sales in PJM.

(3) See footnote (4) under Three Months Ended June 30, 2006 Compared to Three Months Ended June 30, 2005 Retail Energy Margins.

(4) See footnote (5) under Three Months Ended June 30, 2006 Compared to Three Months Ended June 30, 2005 Retail Energy Margins.

Retail Energy Margins.

In analyzing the results of our retail energy segment, we use the non-GAAP financial measure total retail energy gross margin, excluding unrealized gains/losses, which excludes unrealized gains/losses on energy derivatives as described below. We use this measure in addition to, and in conjunction with, contribution margin and retail energy gross margin in order to analyze the results of the retail energy segment. Retail energy gross margin, excluding unrealized gains/losses should not be relied upon to the exclusion of GAAP financial measures. The item that is excluded from this measure has a recurring effect on our earnings and reflects aspects of our business that are not taken into account by the measure retail energy gross margin, excluding unrealized gains/losses. We compensate for the limitations of the measure retail energy gross margin, excluding unrealized gains/losses by also using and analyzing GAAP measures to understand our business.

Unrealized Gains/Losses on Energy Derivatives. We use derivative instruments to manage operational or market constraints, to increase the return on our generation assets and to execute our retail energy segment's supply procurement strategy. Some derivative instruments receive mark-to-market accounting treatment, which requires us to record non-cash gains/losses related to future periods based on current changes in forward commodity prices. We refer to these gains and losses prior to settlement, as well as ineffectiveness on cash flow hedges, as unrealized gains/losses on energy derivatives. In some cases, the related underlying transactions being hedged receive accrual accounting treatment, resulting in a mismatch of accounting treatments. Since the application of mark-to-market accounting has the effect of pulling forward into current periods non-cash gains/losses relating to future delivery periods, analysis of results of operations from one period to another can be difficult. We believe that excluding these unrealized gains/losses provides a more meaningful representation of our economic performance in the reporting period and is therefore useful to us, investors, analysts and others in facilitating the analysis of our results of operations from one period to another. These gains/losses are also not a function of the operating performance of our generation assets, and excluding their impact helps isolate the operating performance of our generation assets under prevailing market conditions.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	2006	Three Months Ended June 30, 2005 (in millions)	Change
Mass gross margin	\$ 272	\$ 203(1)	\$ 69(2)
Commercial and industrial gross margin	88	41(1)	47(3)
Market usage adjustments	(13)		(13) ⁽⁴⁾
Total retail energy gross margin, excluding unrealized gains/losses	347	244	103
Unrealized gains on energy derivatives	34	109	(75) ⁽⁵⁾
Total retail energy gross margin	381	353	28
Operation and maintenance	58	49	9(6)
Selling and marketing expense	30	22	8(7)
Bad debt expense	22	12	10(8)
Total retail energy contribution margin	\$ 271	\$ 270	\$ 1

(1) Beginning in the first quarter of 2006, we recategorized financial and operational data for customers with a peak demand between 250 kilowatts and one MW from small business within mass to commercial and industrial. The 2005 data is presented on a comparable basis.

(2) Excluding \$4 million realized loss impact of terminated and subsequent replacement contracts in 2006, unit margins increased 33% primarily due to our economic supply hedges that allowed us to benefit from lower gas prices. This increase was partially offset by increased costs of transmission and distribution losses in ERCOT.

(3) Excluding \$4 million realized loss impact of terminated and subsequent replacement contracts in 2006, unit margins increased \$5.04 per megawatt hour (MWh) due to decreases in other supply costs. This increase was partially offset by increased costs of transmission and distribution losses in ERCOT.

(4) See note 1 to our interim financial statements.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(5) Decrease primarily due to (a) \$138 million in losses resulting from the impact of natural gas and power prices on our forward short gas and forward long power positions held during 2006 as compared to 2005, (b) \$26 million in unrealized losses during 2006 due to a change in accounting estimate (see note 5 to our interim financial statements) and (c) \$18 million decrease due to cash flow hedge ineffectiveness during 2006 as compared to 2005. These decreases were partially offset by \$107 million reversal of previously recognized unrealized losses resulting from the settlement of positions during 2006 when compared to the same period in 2005.

- (6) Increase primarily due to gross receipts tax of \$9 million due to higher billings.

- (7) Increase primarily due to additional marketing campaigns.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(8) Increase primarily due to an increase in residential bad debt expense rate effective January 1, 2006 primarily due to higher energy costs, coupled with an increase in residential revenues.

Wholesale Energy Segment Summary. Our wholesale energy segment's contribution margin was \$(13) million during the three months ended June 30, 2006, compared to \$81 million in the same period of 2005. The \$94 million decrease in contribution margin was primarily due to (a) \$47 million decrease in gross margin related to historical wholesale hedges, (b) \$17 million increase in operation and maintenance expenses, (c) \$16 million decrease in open wholesale gross margin and (d) \$11 million net change in unrealized gains/losses on energy derivatives. See Wholesale Energy Margins below for explanations.

Wholesale Energy Operational and Financial Data.

PJM/MISO Gas	30.58		26.07	
West	NM(6)		NM	
Other			0.77	
Total weighted average	\$ 18.68		\$ 20.63	

(1) The percent economic represents economic generation volume divided by maximum generation at 100% plant availability.

(2) Economic generation volume is estimated generation at 100% plant availability based on an hourly analysis of when it is economical to generate based on the price of power, fuel, emission allowances and variable operating costs.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

- (3) Commercial capacity factor is the generation volume divided by the economic generation.
- (4) Excludes generation volume related to power purchase agreements, which includes tolling agreements.
- (5) Represents open energy gross margin divided by generation volume. This measure is useful to us as it details the impact on open energy gross margin from a price perspective.
- (6) NM is not meaningful.

Wholesale Energy Revenues.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	2006	Three Months Ended June 30, 2005 (in millions)		Change
Wholesale energy third-party revenues	\$ 502	\$ 668	\$	(166) ⁽¹⁾
Wholesale energy intersegment revenues	140	124		16(2)
Unrealized gains on energy derivatives	56	45		11(3)
Total wholesale energy revenues	\$ 698	\$ 837	\$	(139)

(1) Decrease primarily due to (a) lower contracted prices of natural gas and power and (b) decreased natural gas sales volumes, partially offset by increased power sales volumes.

- (2) Increase primarily due to higher volumes due to more retail energy segment sales in PJM.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(3) See footnote (6) under Three Months Ended June 30, 2006 Compared to Three Months Ended June 30, 2005 Wholesale Energy Margins.

Wholesale Energy Purchased Power, Fuel and Cost of Gas Sold.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	2006	Three Months Ended June 30, 2005 (in millions)	Change
Wholesale energy third-party costs	\$ 500	\$ 584	\$ (84) ⁽¹⁾
Unrealized losses on energy derivatives	38	16	22 ⁽²⁾
Total wholesale energy	\$ 538	\$ 600	\$ (62)

(1) Decrease primarily due to (a) lower contracted prices of natural gas and purchased power and (b) decreased natural gas volumes. These decreases were partially offset by (a) higher contracted coal prices and (b) increased volumes of purchased power.

(2) See footnote (6) under Three Months Ended June 30, 2006 Compared to Three Months Ended June 30, 2005 Wholesale Energy Margins.

Wholesale Energy Margins.

In analyzing the results of our wholesale energy segment, we use the non-GAAP financial measures open energy gross margin and open wholesale gross margin, which exclude the items below. We use these measures in addition to, and in conjunction with, contribution margin and wholesale energy gross margin in order to analyze the results of the wholesale energy segment. Open energy gross margin and open wholesale gross margin should not be relied upon to the exclusion of GAAP financial measures. The items that are excluded from open energy gross margin and open wholesale gross margin have or have had a recurring effect on our earnings and reflect aspects of our business that are not taken into account by these measures. We compensate for the limitations of the measures open energy gross margin and open wholesale gross margin by also using and analyzing GAAP measures to understand our business.

Unrealized Gains/Losses on Energy Derivatives. See above under Retail Energy Margins .

Historical Wholesale Hedges. We exclude the effect of certain historical, although recurring until the contracts terminate, wholesale hedges that were entered into in order to hedge the economics of our wholesale operations. We believe that it is useful to us, investors, analysts and others to show our results in the absence of these hedges. The impact of these historical hedges on our financial results is not a function of the operating performance of our generation assets and excluding the impact better reflects the operating performance of our generation assets based on prevailing market conditions.

Changes in California-Related Receivables and Reserves. We excluded the impact of changes in receivables and reserves relating to energy sales in California from October 2000 through June 2001. We reached a settlement concerning these receivables during the third quarter of 2005. Because of the market conditions and regulatory events that underlie the changes in receivables and reserves, we believe that excluding this item provides a more meaningful representation of our results of operations on an ongoing basis and is therefore useful to us, investors, analysts and others in facilitating the analysis of our results of operations from one period to another. For additional information, see note 13 to our consolidated financial statements in our Form 10-K.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	2006	Three Months Ended June 30, 2005 (in millions)		Change
Open energy gross margin⁽¹⁾:				
PJM Coal	\$ 108	\$ 107	\$	1

Total	138	146		(8)
Other margin⁽³⁾:				
PJM Coal	7	10		(3)
MISO Coal	2	4		(2)
PJM/MISO Gas	10	12		(2)
West	46	51		(5)
Other	28	24		4
Total	93	101		(8)
Total open wholesale gross margin	231	247		(16)
Historical wholesale hedges⁽⁴⁾	(89)	(42)		(47)⁽⁵⁾
Net unrealized gains on energy derivatives	18	29		(11) ⁽⁶⁾
Changes in California-related receivables and reserves		3		(3)
Wholesale energy gross margin	160	237		(77)
Operation and maintenance	173	156		17(7)
Bad debt expense				
Total wholesale energy contribution margin	\$ (13)	\$ 81	\$	(94)

(1) Open energy gross margin is a model-derived number based on generation volume assuming (a) it had been sold at day-ahead power prices in the case of coal-fired generation and real-time power prices in the case of natural gas-fired generation and (b) it had been purchased at delivered spot fuel prices, each without regard to the effect of our historical wholesale hedges or prices actually paid or received.

(2) Decrease primarily due to (a) lower commercial capacity factor driven by higher maintenance and unplanned outages and (b) lower unit margins (lower power prices partially offset by lower coal costs). These decreases were partially offset by higher economic generation.

(3) Other margin represents power purchase agreements, capacity payments and ancillary revenues. In addition, other margin includes settlement of forward power and fuel sales and purchases for the West region.

(4) Historical wholesale hedges were entered into to primarily hedge the economics of our wholesale operations. These amounts primarily relate to settlements of forward power and fuel hedges, long-term tolling purchases, long-term natural gas transportation contracts, storage contracts and our legacy energy trading. These amounts are derived based on methodology consistent with the calculation of open energy gross margin.

(5) Increased loss primarily due to (a) \$42 million impact of unwinding PJM power sales hedges in the fourth quarter of 2005, (b) \$27 million due to decreases in coal market prices combined with increases in coal contract prices and (c) \$8 million due to lower margins in gas transportation. These losses were partially offset by \$30 million in gains on remaining power hedges due to lower market prices and lower hedged volumes.

(6) Decrease primarily due to (a) \$31 million lower unrealized gains in 2006 as compared to 2005 on positions entered to hedge the economics of our business operations, which receive mark-to-market accounting treatment and (b) \$6 million in unrealized losses during 2006 due to a change in accounting estimate (see note 5 to our interim financial statements). These losses were partially offset by (a) \$21 million in gains due to the reversal of previously recognized unrealized losses resulting from the settlement of positions during 2006 as compared to the same period in 2005 and (b) \$5 million change due to cash flow hedge ineffectiveness during 2006 as compared to 2005.

(7) Increase primarily due to \$11 million increase in planned outages and maintenance spending primarily at our coal plants.

Other General and Administrative.

Legal costs	\$	(11) ⁽¹⁾
Salaries and benefits		(2)
Contractor services and professional fees		3
Other, net		1
Net decrease in expense	\$	(9)

(1) Decrease due to (a) \$8 million settlement of shareholder class action lawsuits in 2005 and (b) \$3 million of California litigation expenses in 2005.

Gains on Sales of Assets and Emission Allowances, Net. See note 13 to our interim financial statements.

Depreciation and Amortization.

Decrease in amortization of emission allowances	\$	(4) ⁽¹⁾
Net accelerated depreciation on certain facilities due to early retirements		(3)
Information system assets fully depreciated		(3)
Other, net		(4)
Net decrease in expense	\$	(14)

(1) Amortization of emission allowances was \$12 million during the three months ended June 30, 2006 compared to \$16 million for the same period during 2005. The decrease is primarily due to lower weighted average cost of allowances used in 2006 compared to the same period in 2005.

Income (Loss) of Equity Investments, Net. Income (loss) of equity investments increased \$6 million primarily due to the sale of our interest in El Dorado Energy, LLC in July 2005 as we incurred a loss of \$5 million from this investment during the three months ended June 30, 2005.

Other, Net. Other, net changed by \$24 million during the three months ended June 30, 2006 compared to the same period in 2005 primarily due to a non-cash charge of \$23 million in 2005 for the impairment of our investment in a communications services company. See note 18 to our consolidated financial statements in our Form 10-K.

Interest Expense.

Increase in outstanding debt	\$	5
Higher interest rates		3
Other, net		(3)
Net increase in expense	\$	5

Interest Income. Interest income did not change significantly.

Income Tax Expense. See note 8 to our interim financial statements.

Discontinued Operations. See note 14 to our interim financial statements.

Six Months Ended June 30, 2006 Compared to Six Months Ended June 30, 2005

We reported \$119 million consolidated net loss, or \$0.39 loss per share, for the six months ended June 30, 2006 compared to \$74 million consolidated net income, or \$0.24 earnings per diluted share, for the same period in 2005.

	2006	Six Months Ended June 30, 2005	Change

Retail Energy Segment Summary. Our retail energy segment's contribution margin was \$175 million during the six months ended June 30, 2006, compared to \$427 million in the same period of 2005. The \$252 million decrease in contribution margin was primarily due to the net change in unrealized gains/losses on energy derivatives of \$292 million. Gross margin, excluding unrealized gains/losses, increased \$90 million and operation and maintenance, selling and marketing and bad debt expense increased \$50 million. See [Retail Energy Margins](#) below for explanations.

Retail Energy Operational Data.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	Six Months Ended June 30,	
	2006	2005
	(gigawatt hours)	
Electricity Sales to End-Use Retail Customers:		
Mass:		
Residential:		
Houston	7,399	8,042
Non-Houston	3,502	2,626
Small Business:		
Houston	1,719	1,689(1)
Non-Houston	652	331(1)
Total Mass	13,272	12,688
Commercial and Industrial:		
ERCOT ⁽²⁾	16,147	16,923(1)
Non-ERCOT	3,143	2,580
Total Commercial and Industrial	19,290	19,503
Market usage adjustments ⁽³⁾	11	(238)
Total	32,573	31,953

(1) Beginning in the first quarter of 2006, we recategorized financial and operational data for customers with a peak demand between 250 kilowatts and one MW from small business within mass to commercial and industrial. The 2005 data is presented on a comparable basis.

(2) These volumes include customers of the General Land Office for whom we provide services.

(3) See note 1 to our interim financial statements.

	Six Months Ended June 30,	
	2006	2005
	(in thousands, metered locations)	
Weighted Average Retail Customer Count:		
Mass:

Total Mass	1,844	1,802
Commercial and Industrial:		
ERCOT ⁽²⁾	74	73(1)
Non-ERCOT	2	1
Total Commercial and Industrial	76	74
Total	1,920	1,876

(1) Beginning in the first quarter of 2006, we recategorized financial and operational data for customers with a peak demand between 250 kilowatts and one MW from small business within mass to commercial and industrial. The 2005 data is presented on a comparable basis.

(2) Includes customers of the General Land Office for whom we provide services.

Retail Energy Revenues.

	2006	Six Months Ended June 30, 2005 (in millions)		Change
Retail energy revenues from end-use retail customers:				
Mass:				
Residential:				
Houston	\$ 1,184	\$ 995	\$ 189	(1)
Non-Houston	471	264	207	(2)
Small Business:				
Houston	273	205	68	(4)
Non-Houston	90	36	54	(5)
Total Mass	2,018	1,500	518	
Commercial and Industrial:				
ERCOT	1,467	1,219	248	(6)
Non-ERCOT	210	152	58	(5)
Total Commercial and Industrial	1,677	1,371	306	
Total	3,695	2,871	824	
Retail energy revenues from resales of purchased power and other hedging activities				
	205	172	33	
Market usage adjustments	7	(22)	29	(7)
Unrealized losses on energy derivatives	(3)		(3)	(8)
Total retail energy revenues	\$ 3,904	\$ 3,021	\$ 883	

(1) Increase primarily due to increases in sales prices to customers due to increases in the price of natural gas partially offset by lower volumes due to fewer customers.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(2) Increase primarily due to (a) increases in sales prices to customers due to increases in the price of natural gas and (b) increased volumes due to increased customers.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(3) Beginning in the first quarter of 2006, we recategorized financial and operational data for customers with a peak demand between 250 kilowatts and one MW from small business within mass to commercial and industrial. The 2005 data is presented on a comparable basis.

- (4) Increase primarily due to increases in sales prices to customers due to increases in the price of natural gas.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(5) Increase primarily due to (a) increased volumes due to increased customers and (b) increases in sales prices to customers due to increases in the price of natural gas.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(6) Increase primarily due to (a) fixed price contracts renewed at higher rates due to higher prices of natural gas and (b) variable rate contracts, which are tied to the market price of natural gas. These increases were partially offset by decreased volumes.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(7) See footnote (4) under Six Months Ended June 30, 2006 Compared to Six Months Ended June 30, 2005 Retail Energy Margins.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(8) See footnote (5) under Six Months Ended June 30, 2006 Compared to Six Months Ended June 30, 2005 Retail Energy Margins.

Retail Energy Purchased Power.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	2006	Six Months Ended June 30, 2005 (in millions)	Change
Costs of purchased power	\$ 3,209	\$ 2,486	\$ 723(1)
Retail energy intersegments costs	286	231	55(2)
Market usage adjustments	8	(10)	18(3)
Unrealized (gains) losses on energy derivatives	27	(262)	289(4)
Total retail energy purchased power	\$ 3,530	\$ 2,445	\$ 1,085

(1) Increase primarily due to (a) increases in the price of purchased power due to higher market prices of electricity primarily driven by higher natural gas prices and (b) increased cost of transmission and distribution losses in ERCOT. These increases were partially offset by (a) the impact of terminated commodity contracts and subsequent replacement contracts and (b) our economic supply hedges that allowed us to benefit from lower gas prices.

(2) Increase primarily due to higher volumes due to more sales in PJM.

(3) See footnote (4) under Six Months Ended June 30, 2006 Compared to Six Months Ended June 30, 2005 Retail Energy Margins.

(4) See footnote (5) under Six Months Ended June 30, 2006 Compared to Six Months Ended June 30, 2005 Retail Energy Margins.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Retail Energy Margins.

	2006	Six Months Ended June 30, 2005 (in millions)	Change
Mass gross margin	\$ 297	\$ 284(1)	\$ 13(2)
Commercial and industrial gross margin	108	42(1)	66(3)
Market usage adjustments	(1)	(12)	11(4)
Total retail energy gross margin, excluding unrealized gains/losses	404	314	90
Unrealized gains (losses) on energy derivatives	(30)	262	(292) ⁽⁵⁾
Total retail energy gross margin	374	576	(202)
Operation and maintenance	109	87	22(6)
Selling and marketing expense	54	41	13(7)
Bad debt expense	36	21	15(8)
Total retail energy contribution margin	\$ 175	\$ 427	\$ (252)

(1) Beginning in the first quarter of 2006, we recategorized financial and operational data for customers with a peak demand between 250 kilowatts and one MW from small business within mass to commercial and industrial. The 2005 data is presented on a comparable basis.

(2) Excluding \$19 million realized income impact of terminated and subsequent replacement contracts in 2006, unit margins decreased 2% primarily due to (a) increased costs of transmission and distribution losses in ERCOT and (b) increases in other supply costs. These decreases in gross margin were partially offset by (a) our economic supply hedges that allowed us to benefit from lower gas prices and (b) increased volumes due to more customers.

(3) Excluding \$26 million realized income impact of terminated and subsequent replacement contracts in 2006, unit margins increased \$2.05/MWh due to decreased other supply costs. These increases were partially offset by increased costs of transmission and distribution losses in ERCOT.

(4) See note 1 to our interim financial statements.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(5) Decrease primarily due to (a) \$273 million in losses resulting from the impact of natural gas and power prices on our forward short gas and forward long power positions held during 2006 as compared to 2005, (b) \$51 million loss due to the reversal of previously recognized unrealized gains resulting from the termination of commodity contracts with a counterparty, (c) \$26 million in unrealized losses during 2006 due to a change in accounting estimate (see note 5 to our interim financial statements) and (d) \$68 million decrease due to cash flow hedge ineffectiveness during 2006 as compared to 2005. These decreases were partially offset by \$126 million reversal of previously recognized unrealized losses resulting from the settlement of positions during 2006 when compared to the same period in 2005.

- (6) Increase primarily due to gross receipts tax of \$18 million due to higher billings.

- (7) Increase primarily due to additional marketing campaigns.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(8) Increase primarily due to an increase in residential bad debt expense rate effective January 1, 2006 primarily due to higher energy costs, coupled with an increase in residential revenues. These increases were partially offset by a \$4 million decrease due to a reduction in the commercial and industrial bad debt expense rate due to improved collections.

Wholesale Energy Segment Summary. Our wholesale energy segment's contribution margin was \$65 million during the six months ended June 30, 2006, compared to \$100 million in the same period of 2005. The \$35 million decrease in contribution margin was primarily due to (a) \$137 million decrease in gross margin related to historical wholesale hedges and (b) \$19 million increase in operation and maintenance expenses. These decreases to contribution margin were partially offset by (a) \$105 million net change in unrealized gains/losses on energy derivatives and (b) \$15 million increase in open wholesale gross margin. See Wholesale Energy Margins below for explanations.

Wholesale Energy Revenues.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	2006	Six Months Ended June 30, 2005 (in millions)		Change
Wholesale energy third-party revenues	\$ 1,118	\$ 1,225	\$	(107) ⁽¹⁾
Wholesale energy intersegment revenues	286	231		55 ⁽²⁾
Unrealized gains (losses) on energy derivatives	205	(100)		305 ⁽³⁾
Total wholesale energy revenues	\$ 1,609	\$ 1,356	\$	253

(1) Decrease primarily due to (a) lower contracted prices of power and natural gas and (b) decreased natural gas sales volumes, partially offset by increased power sales volumes.

- (2) Increase primarily due to higher volumes due to more retail energy segment sales in PJM.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(3) See footnote (8) under Six Months Ended June 30, 2006 Compared to Six Months Ended June 30, 2005 Wholesale Energy Margins.

Wholesale Energy Purchased Power, Fuel and Cost of Gas Sold.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

	2006	Six Months Ended June 30, 2005 (in millions)		Change
Wholesale energy third-party costs	\$ 1,140	\$ 1,068	\$ 72	(1)
Unrealized (gains) losses on energy derivatives	100	(100)	200	(2)
Total wholesale energy	\$ 1,240	\$ 968	\$ 272	

(1) Increase primarily due to (a) increase in volumes of purchased power and (b) higher contracted prices of coal, natural gas and oil. These decreases were partially offset by (a) decreased natural gas and oil volumes and (b) lower contracted prices of purchased power.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(2) See footnote (8) under Six Months Ended June 30, 2006 Compared to Six Months Ended June 30, 2005 Wholesale Energy Margins.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Wholesale energy gross margin	369		388	(19)
Operation and maintenance	307		288	19(6)
Bad debt expense	(3)			(3)
Total wholesale energy contribution margin	\$ 65	\$	100	\$ (35)

(1) Increase primarily due to (a) higher unit margins (higher market power prices and lower market coal costs), (b) increased commercial capacity factor driven by lower limitations in plant output caused by weather conditions and (c) full capacity at Seward in 2006 versus partial capacity in 2005.

(2) Decrease primarily due to (a) lower unit margins (lower power prices partially offset by lower coal costs) and (b) lower economic generation due to weather.

(3) Decrease due to Bighorn being under a power purchase agreement for only one month in 2006 compared to a full six months in 2005.

(4) Increased loss primarily due to (a) \$103 million impact of unwinding PJM power sales hedges in the fourth quarter of 2005 and (b) \$67 million due to decreases in coal market prices combined with increases in coal contract prices. These losses were partially offset by \$20 million on remaining power hedges due to lower hedged volumes, higher contract prices and higher market prices.

(5) Increase primarily due to (a) \$76 million higher unrealized gains in 2006 as compared to 2005 on positions entered to hedge the economics of our business operations, which receive mark-to-market accounting treatment and (b) \$34 million reversal of previously recognized unrealized losses resulting from the settlement of positions during 2006 when compared to the same period in 2005. These gains were partially offset by \$6 million in unrealized losses during 2006 due to a change in accounting estimate (see note 5 to our interim financial statements).

(6) Increase primarily due to (a) \$11 million increase in taxes other than income primarily due to the resolution of a potential tax liability in 2005 and (b) \$3 million increase in planned outages and maintenance spending.

Other General and Administrative.

Legal costs	\$	(13) ⁽¹⁾
Salaries and benefits		5
Other, net		2
Net decrease in expense	\$	(6)

(1) Decrease due to (a) \$8 million settlement of shareholder class action lawsuits in 2005 and (b) \$5 million of California litigation expenses in 2005.

Gains on Sales of Assets and Emission Allowances, Net. See note 13 to our interim financial statements.

Depreciation and Amortization.

Net accelerated depreciation on certain facilities due to early retirements	\$	(18)
Information system assets fully depreciated		(9)
Decrease in amortization of emission allowances		(6) ⁽¹⁾
Other, net		(8)
Net decrease in expense	\$	(41)

(1) Amortization of emission allowances was \$18 million during the six months ended June 30, 2006 compared to \$24 million for the same period during 2005. The decrease is primarily due to lower weighted average cost of allowances used in 2006 compared to the same period in 2005.

Income (Loss) of Equity Investments, Net. Income (loss) of equity investments increased \$6 million primarily due to the sale of our interest in El Dorado Energy, LLC in July 2005 as we incurred a loss of \$6 million from this investment during the six months ended June 30, 2005.

Other, Net. Other, net changed by \$24 million during the six months ended June 30, 2006 compared to the same period in 2005 primarily due to a non-cash charge of \$23 million in 2005 for the impairment of our investment in a communications services company. See note 18 to our consolidated financial statements in our Form 10-K.

Interest Expense.

Increase in outstanding debt	\$	16
Higher interest rates		6

Other, net		1
Net increase in income	\$	4

Income Tax Expense. See note 8 to our interim financial statements.

Discontinued Operations. See note 14 to our interim financial statements.

Liquidity and Capital Resources

During the six months ended June 30, 2006, we used \$115 million in operating cash flows from continuing operations. Excluding the changes in margin deposits of \$312 million and \$159 million in payments relating to the western states and Cornerstone settlements (see notes 12 and 13 to our consolidated financial statements in our Form 10-K), we used \$268 million in operating cash flows from continuing operations. In addition, we received \$194 million of net proceeds from sales of emission allowances.

See [Recent Events](#) [Retail Credit Structure](#) for discussion about our contemplated new retail energy business credit structure.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

In February and March 2006, we used net proceeds of \$952 million relating to the sale of our New York plants to pay down debt. See note 14 to our interim financial statements.

As of July 31, 2006, we had total collateral postings of \$1.8 billion, which is an \$800 million decrease from December 31, 2005 due primarily to the liquidation of certain hedges. As of July 31, 2006, additional postings of \$162 million could have been required by counterparties.

As of July 31, 2006, we had total available liquidity of \$1.0 billion, comprised of \$955 million in unused borrowing capacity under our senior secured revolver and \$62 million of cash and cash equivalents.

We have updated our estimates for the construction and timing of emissions control projects for SO₂ and NO_x and mercury based on our commencement of plans to install wet flue gas desulphurization systems, or scrubbers, at two Pennsylvania plants and based on further studies and our analyses of and developments in regulation. In total our capital expenditures for SO₂ and NO_x emission controls are now expected to range from \$365 million to \$640 million from 2006 through 2013. Our capital expenditures for mercury compliance are expected to range from \$35 million to \$100 million through 2009.

The following table provides updated information (from amounts in our Form 10-K) about our estimated future capital requirements:

	2006	2007 (in millions)	2008
Maintenance capital expenditures:			
Retail energy	\$ 7	\$ 5	\$ 5
Wholesale energy ⁽¹⁾	67	102	63
Other operations	4	4	8
Environmental ⁽²⁾	78	111	76
Construction of new generating facilities	50(3)	140(4)	175(5)
Construction of new generating facilities	1		
Total capital expenditures	\$ 129	\$ 251	\$ 251

(1) Excludes \$7 million for the remainder of 2006 through 2011 for pre-existing environmental conditions and remediation, which have been accrued for in our consolidated balance sheet as of June 30, 2006.

(2) We have estimated environmental capital expenditures of \$110 million to \$420 million for 2009 through 2013.

(3) Of this amount, \$8 million has been incurred through June 30, 2006.

(4) We have estimated environmental capital expenditures of \$140 million to \$145 million for 2007 and have included the low end of the range in the table.

(5) We have estimated environmental capital expenditures of \$175 million to \$205 million for 2008 and have included the low end of the range in the table.

See **Risk Factors** in Item 1A and **Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources** in Item 7 of our Form 10-K.

The following table provides updated information (from amounts in our Form 10-K) about our estimated future capital requirements:

Credit Risk

By extending credit to our counterparties, we are exposed to credit risk. As of June 30, 2006, our derivative assets and accounts receivable from our wholesale energy and ERCOT power supply counterparties, after taking into consideration netting within each contract and any master netting contracts with counterparties, are:

Credit Rating Equivalent	Exposure Before Collateral(1)	Credit Collateral Held	Exposure Net of Collateral (dollars in millions)	Number of Counterparties >10%	Net Exposure of Counterparties >10%
Investment grade	\$ 165	\$ 40	\$ 125		\$
Non-investment grade	592		592	2	587
No external ratings:					
Internally rated Investment grade	284		284	1	166
Internally rated Non-investment grade	13	3	10		
Total	\$ 1,054	\$ 43	\$ 1,011	3	\$ 753

(1) The table excludes amounts related to contracts classified as normal purchases and sales and non-derivative contractual commitments that are not recorded in our consolidated balance sheets, except for any related accounts receivable. Such contractual commitments contain credit and economic risk if a counterparty does not perform. Nonperformance could have a material adverse impact on our future results of operations, financial condition and cash flows.

As of June 30, 2006, two non-investment grade counterparties and one investment grade counterparty represented 58% (\$587 million) and 16% (\$166 million), respectively, of our credit exposure, net of collateral. As of December 31, 2005, two non-investment grade counterparties and one investment grade counterparty represented 59% (\$918 million) and 12% (\$183 million), respectively, of our credit exposure, net of collateral. Since December 31, 2005, our credit exposure to non-investment grade counterparties decreased primarily due to changes in commodity prices and the settlement of certain contracts. There were no other counterparties representing greater than 10% of our net credit exposure.

Off-Balance Sheet Arrangements

As of June 30, 2006, we have no off-balance sheet arrangements.

Historical Cash Flows

Cash Flows Operating Activities

	2006	Six Months Ended June 30, 2005 (in millions)	Change
Operating income	\$ 150	\$ 259	\$ (109)
Depreciation and amortization	172	213	(41)
Gains on sales of assets and emission allowances, net	(156)	(24)	(132)
Net unrealized gains on energy derivatives	(75)	(262)	187
Western states and Cornerstone settlement payments	(159)		(159)
Margin deposits, net	312 ⁽¹⁾	(206) ⁽²⁾	518
Change in accounts and notes receivable and accounts payable, net	(100) ⁽³⁾	96 ⁽⁴⁾	(196)
Settlements of exchange transactions prior to contractual period ⁽⁵⁾	(103)	(4)	(99)
Net option premiums sold (purchased)	(31)	56	(87)
Interest payments	(189)	(172)	(17)
Income tax (payments) net of refunds	(35)	(18)	(17)
Other, net	99	6	93
Net cash used in continuing operations from operating activities	(115)	(56)	(59)
Net cash provided by (used in) discontinued operations from operating activities	(37)	28	(65)
Net cash used in operating activities	\$ (152)	\$ (28)	\$ (124)

(1) Change primarily due to a decrease in counterparty obligations partially offset by a decrease in net unrealized value of our broker accounts.

(2) Change primarily due to decrease in net unrealized value of our broker accounts.

(3) Change primarily due to (a) increased accounts receivable due to seasonality in our retail energy segment and (b) decreased accounts payable due to decreased gas purchases, partially offset by increased power purchases. These were partially offset by decreased accounts receivable due to decreased gas and power sales.

(4) Change primarily due to (a) increased accounts payable as a result of increased power and gas purchases and (b) decreased accounts receivable due to decreased generation in our West region. These were partially offset by increased accounts receivable due to seasonality in our retail energy segment.

(5) Represents exchange transactions financially settled within three business days prior to the contractual delivery month.

Cash Flows Investing Activities

	2006	Six Months Ended June 30, 2005 (in millions)	Change
Capital expenditures	\$ (42)	\$ (33)	\$ (9)

The following table provides updated information (from amounts in our Form 10-K) about our estimated future capital expenditures. The following table provides updated information (from amounts in our Form 10-K) about our estimated future capital expenditures.

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

Proceeds from sales of assets, net	1	45	(44)
Proceeds from sales of emission allowances	197	70	127
Purchases of emission allowances	(3)	(89)	86
Restricted cash	17(1)	30	(13)
Other, net	5	2	3
Net cash provided by continuing operations from investing activities	175	25	150
Net cash provided by discontinued operations from investing activities	968	21	947
Net cash provided by investing activities	\$ 1,143	\$ 46	\$ 1,097

(1) Subsequent to the sale of the New York plants, Orion Power Holdings, Inc. is only able to distribute a portion of its cash to Reliant Energy, thus, its classification as restricted cash.

Cash Flows Financing Activities

	2006	Six Months Ended June 30, 2005 (in millions)	Change
Payments under senior secured term loans due 2010	\$ (320) ⁽¹⁾	\$ (3)	\$ (317)
Payments under REMA's term loans		(28)	28
Net borrowings under receivables facility		123	(123)
Net payments on senior secured revolver due 2009	(60)	(107)	47
Proceeds from issuance of stock	10	14	(4)

Significant Accounting Policies

See note 2 to our consolidated financial statements in our Form 10-K.

Critical Accounting Estimates

See Management's Discussion and Analysis of Financial Condition and Results of Operations Accounting Estimates New Accounting Pronouncements, Significant Accounting Policies and Critical Accounting Estimates Critical Accounting Estimates in Item 7 in our Form 10-K, note 2 to our consolidated financial statements in our Form 10-K and note 1 to our interim financial statements.

The following table provides updated information (from amounts in our Form 10-K) about our estimated ~~150~~ core capital

The following table provides updated information (from amounts in our Form 10-K) about our estimated future capital

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT NON-TRADING AND TRADING ACTIVITIES AND RELATED MARKET RISKS

Market Risks and Risk Management

Our primary market risk exposure relates to fluctuations in commodity prices. See Quantitative and Qualitative Disclosures About Non-Trading and Trading Activities and Related Market Risks in Item 7A of our Form 10-K.

Non-Trading Market Risks

Commodity Price Risk

We assess the risk of our non-trading derivatives using a sensitivity analysis that measures the potential loss in fair value based on a hypothetical 10% movement in the underlying energy prices. The income (loss) impacts from our sensitivity analysis are:

As of	Market Prices	Fair Value of Cash Flow Hedges	Earnings Impact of Other Derivatives	Total Potential Change in Fair Value
		(in millions)		
June 30, 2006	10% decrease	\$ 11	\$ (198)	\$ (187)
December 31, 2005	10% decrease	(19)	(174)	(193)

As of June 30, 2006, the fair values of the contracts related to our net non-trading derivative assets and liabilities are:

Source of Fair Value	Twelve Months Ending June 30, 2007	Remainder of 2007	2008	2009 (in millions)	2010	2011 and thereafter	Total fair value
Prices actively quoted	\$ (328)	\$ (70)	\$ (154)	\$ 7	\$ 1	\$	\$ (544)
Prices provided by other external sources	142	114	72	(3)			325
Prices based on models and other valuation methods	(27)	(7)	55	7	4	22	54
Total mark-to-market	(213)	37	(27)	11	5	22	(165)

The following table provides updated information (from amounts in our Form 10-K) about our estimated **152** core capital

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

non- trading
derivatives

Cash flow hedges		(278)		(69)		(53)		(28)		(27)		(39)		(494)
Total	\$	(491)	\$	(32)	\$	(80)	\$	(17)	\$	(22)	\$	(17)	\$	(659)

Interest Rate Risk

We assess interest rate risks using a sensitivity analysis that measures the potential change in our interest expense based on a hypothetical one percentage point movement in the underlying variable interest rate indices. If interest rates increased (decreased) one percentage point from their June 30, 2006 and December 31, 2005 levels, our annual interest expense would have increased (decreased) by \$16 million and \$18 million, respectively, and our annual interest expense, net of interest income, would not have changed significantly.

We estimated these amounts by considering the impact of hypothetical changes of interest rates on our variable-rate debt adjusted for: cash and cash equivalents and net margin deposits outstanding at the respective balance sheet dates.

If interest rates decreased by one percentage point from their June 30, 2006 and December 31, 2005 levels, the fair market values of our fixed-rate debt would have increased by \$196 million and \$200 million, respectively.

Trading Market Risks

As of June 30, 2006, the fair values of the contracts related to our legacy trading positions and recorded as net derivative assets and liabilities are:

Source of Fair Value	Twelve Months Ending June 30, 2007	Remainder of 2007	2008	2009 (in millions)	2010	2011 and thereafter	Total fair value
Prices actively quoted	\$ (14)	\$ (19)	\$ (48)	\$ (15)	\$	\$	\$ (96)
Prices provided by other external sources	19	19	55	16			109
Prices based on models and other valuation methods	(11)	(2)	(3)				(16)
Total	\$ (6)	\$ (2)	\$ 4	\$ 1	\$	\$	\$ (3)

Our consolidated realized and unrealized margins relating to these positions are (income (loss)):

	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
	(in millions)			
Realized	\$	\$	4	(4)
Unrealized			(4)	14
Total	\$	\$	10	(16)

An analysis of these net derivative assets and liabilities is:

	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
	(in millions)	
Fair value of contracts outstanding, beginning of period	\$ (20)	\$ 26
Contracts realized or settled	(1) ⁽¹⁾	11 ⁽²⁾
Contracts transferred to non-trading		(4)
Changes in valuation techniques	(8)	
Changes in fair values attributable to market price and other market changes	26	(18)
Fair value of contracts outstanding, end of period	\$ (3)	\$ 15

(1) Amount includes realized loss of \$4 million offset by deferred settlements of \$5 million.

The following table provides updated information (from amounts in our Form 10-K) about our estimated fair value of capital

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

(2) Amount includes realized loss of \$12 million offset by deferred settlements of \$1 million.

The daily value-at-risk for most of our legacy trading positions is:

	2006(1)	(in millions)	2005
As of June 30	\$	2	\$ 1
Three months ended June 30:			
Average		2	2
High		3	3
Low		2	1
Six months ended June 30:			
Average		3	2
High		7	3
Low		2	

(1) The major parameters for calculating daily value-at-risk remain the same during 2006 as disclosed in Quantitative and Qualitative Disclosures About Non-Trading and Trading Activities and Related Market Prices in Item 7A of our Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (1934 Act)) as of June 30, 2006, the end of the period covered by this Form 10-Q. Based on this evaluation, our chief executive officer and chief financial officer concluded that, as of June 30, 2006, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the 1934 Act) during the period ended June 30, 2006, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II.
OTHER INFORMATION**

ITEM 1. LEGAL PROCEEDINGS

See note 10 to our interim financial statements in this Form 10-Q.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In the second quarter of 2006, we issued 10,489 shares of unregistered common stock for warrants and 35,633 shares of unregistered common stock for \$181,372 in cash pursuant to warrant exercises under an exemption pursuant to Section 4(2) of the Securities Act of 1933, as amended.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

We held our annual meeting of our stockholders on May 19, 2006. Our stockholders voted on the following proposals:

The following table provides updated information (from amounts in our Form 10-K) about our estimated ~~150~~ ¹⁵⁶ core capital

1. To elect three directors to our Board of Directors;
2. To ratify the Audit Committee's selection of KPMG LLP as our independent auditors for 2006; and
3. To vote on a stockholder proposal requesting that the Board of Directors take action required to eliminate the classified structure of the Board.

The voting results were:

Joel V. Staff was re-elected to serve as a Class I director:

For	Withheld
240,444,248	37,519,508

Kirbyjon H. Caldwell was re-elected to serve as a Class I director:

For	Withheld
236,023,384	41,940,372

Steven L. Miller was re-elected to serve as a Class I director:

For	Withheld
236,261,143	41,702,613

Edgar Filing: RELIANT ENERGY INC - Form 10-Q

The Audit Committee's selection of KPMG LLP as our independent auditors for the fiscal year ended December 31, 2006 was ratified:

For	Against	Abstain
276,350,139	944,827	668,790

A non-binding stockholder proposal requesting that the Board of Directors take action required to eliminate the classified structure of the Board was approved:

For	Against	Abstain
189,931,143	15,307,448	4,822,707

There were 67,897,176 broker non-votes.

On April 18, 2006, we entered into a settlement agreement with a stockholder, Seneca Capital, L.P. Under the terms of the agreement, we agreed to appoint a representative of a substantial institutional shareholder to our board of directors by September 1, 2006.
