Form 10-Q  
November 02, 2007

---

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

---

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)  
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2007  
Commission file number 1-8966

SJW Corp.  
(Exact name of registrant as specified in its charter)

California 77-0066628  
(State or other jurisdiction of (I.R.S. Employer  
incorporation or organization) Identification No.)

374 West Santa Clara Street, San Jose, 95113  
CA  
(Address of principal executive offices) (Zip Code)

408-279-7800  
(Registrant's telephone number, including area code)

Not Applicable  
(Former name, former address and former fiscal year changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large filer" in Rule 12b-2 of the Exchange Act. (check one)

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
Yes  No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Common shares outstanding as of October 15, 2007 are 18,360,952.

**SJW CORP. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2007**  
**(in thousands, except share and per share data)**

**Note 1. General**

In the opinion of SJW Corp., the accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the results for the interim periods.

The Notes to Consolidated Financial Statements in SJW Corp.'s 2006 Annual Report on Form 10-K should be read with the accompanying condensed consolidated financial statements.

Water sales are seasonal in nature. The demand for water, especially by residential customers, is generally influenced by weather conditions. The timing of precipitation and climactic conditions can cause seasonal water consumption by residential customers to vary significantly. Due to the seasonal nature of the water business, the operating results for interim periods are not indicative of the operating results for a 12-month period. Revenue is generally higher in the warm, dry summer months when water usage and sales are greater and lower in the winter when cooler temperatures and increased rainfall curtail water usage and sales.

Basic earnings per share is calculated using income available to common shareholders, divided by the weighted average number of shares outstanding during the period. Diluted earnings per share is calculated using income available to common shareholders divided by the weighted average number of common shares including both shares outstanding and shares potentially issued in connection with stock options, deferred restricted common stock awards under SJW Corp.'s Long-Term Incentive Plan (the "Incentive Plan") and shares potentially issued under the Employee Stock Purchase Plan.

For the three months ended September 30, 2007 and 2006, the basic weighted average number of common shares was 18,350,007 and 18,277,728, respectively. For the nine months ended September 30, 2007 and 2006, the basic weighted average number of common shares was 18,325,206 and 18,273,558, respectively. For the three months ended September 30, 2007 and 2006, the diluted weighted average number of common shares was 18,561,631 and 18,558,508, respectively. For the nine months ended September 30, 2007 and 2006, the diluted weighted average number of common shares was 18,539,587 and 18,539,781, respectively. For the three and nine months ended September 30, 2006, 28,164 option share equivalents were excluded from the dilutive calculation because they were anti-dilutive.

**Note 2. Long-Term Incentive Plan and Share-Based Payments**

On January 1, 2006, SJW Corp. adopted Statement of Financial Accounting Standards ("SFAS") No. 123R, "Share-Based Payment" ("SFAS 123R"), which requires the measurement and recognition of compensation expense based on estimated fair value for all share-based payment awards.

SJW Corp.'s Incentive Plan provides for grants to employees and non-employee Board members. The types of awards included in the Incentive Plan are stock options, dividend units, restricted stock, and deferred restricted stock units. The remaining shares available for issuance under the Incentive Plan are 1,344,896. As of September 30, 2007, the number of awarded shares pursuant to the Incentive Plan was 369,410. The total compensation cost charged to income under the Incentive Plan for the three and nine months ended September 30, 2007, was \$132 and \$505, respectively, and for the three and nine months ended September 30, 2006, was \$138 and \$522, respectively. The total increase in shareholders' equity resulting from the Incentive Plan for the three and nine months ended September 30, 2007, was

\$132 and \$721, respectively, and for the three and nine months ended September 30, 2006, was \$82 and \$551, respectively.

SJW Corp. utilizes the Black-Scholes option-pricing model to determine the fair value of stock options and employee stock purchase plan awards under SFAS 123R. The Black-Scholes option-pricing model incorporates various subjective assumptions including expected volatility, expected term, expected dividend yield and interest rates. The expected volatility for both stock options and Employee Stock Purchase Plan (“ESPP”) awards is estimated by historical stock price volatility over the estimated expected term of SJW Corp.’s share-based awards. The expected term of SJW Corp.’s share-based awards are based on historical experience.

### Stock Options

No options were granted during the three and nine months ending September 30, 2007 and 2006.

SJW Corp. does not project any foreseeable terminations which could lead to forfeiture of unvested options. SJW Corp. has recognized share-based compensation expense for the stock options granted under the Incentive Plan of \$23 and \$82 for the three and nine months ended September 30, 2007, respectively, and \$33 and \$98 for the three and nine months ended September 30, 2006, respectively. As of September 30, 2007, total unrecognized compensation costs related to stock options amounted to \$92. These costs are expected to be recognized over a weighted average period of 1.0 year.

SFAS 123R requires the cash flows resulting from the tax benefits for tax deduction in excess of the compensation expense recorded for those options (excess tax benefits) to be classified as cash from financing activities. For the three and nine months ended September 30, 2007, total cash received on exercise of options amounted to \$465 and \$1,054, respectively, and the tax benefit realized from stock options exercised amounted to \$162 and \$391, respectively. For the nine months ended September 30, 2006, total cash received on exercise of options amounted to \$15 and the tax benefit realized from stock options exercised amounted to \$3.

### Restricted Stock and Deferred Restricted Stock Plans

Under SJW Corp.'s Deferred Restricted Stock Program, SJW Corp. may grant deferred restricted stock units to non-employee Board members. In addition, SJW Corp.'s Deferral Election Program, as amended on June 1, 2006 (the "Deferral Program"), also allows meeting fees earned for the 2007 calendar year to be deferred into deferred restricted stock units. Previously, only retainer fees were allowed to be deferred under the Deferral Program. Such retainer fees and meeting fees are collectively referred to as the "Annual Service Fees."

As of September 30, 2007, a total of 21,000 restricted and deferred restricted stock units had been granted to a key employee of SJW Corp., of which 7,000 restricted stock units vest upon the achievement of certain market conditions related to SJW Corp.'s common stock. In addition, 7,742 deferred restricted stock units were granted to non-employee Board members.

SJW Corp. has recognized an aggregate share-based compensation expense of \$109 and \$423 for the three and nine months ended September 30, 2007, respectively, and \$49 and \$257 for the three and nine months ended September 30, 2006, respectively, related to restricted and deferred restricted stock awards to employees and non-employee Board members of SJW Corp. As of September 30, 2007, the total unrecognized compensation costs were \$893. These costs are expected to be recognized over a weighted average period of 1.75 years.

### Dividend Equivalent Rights

Under the Incentive Plan, holders of options, restricted stock and deferred restricted stock awards have the right to receive dividend rights each time a dividend is paid on common shares after the grant date. Stock compensation on dividend equivalent rights is recognized as a liability and recorded against retained earnings on the date dividends are issued.

On April 2, 2007, the final dividend equivalent rights related to the 2003 option grants were converted to common stock units and 246 shares were credited into the participants' option deferred stock unit accounts. Accordingly, on April 29, 2007, 5,849 shares of common stock attributed to the 2003 option grant were fully vested and issued under the Incentive Plan to participants. The tax benefit realized from the stock issuance was \$35.

For the three and nine months ended September 30, 2007, \$53 and \$171, respectively, and the three and nine months ended September 30, 2006, \$56 and \$168, respectively, related to dividend equivalent rights were recorded against retained earnings and were accrued as a liability.

### Employee Stock Purchase Plan

The ESPP allows eligible employees to purchase shares of SJW Corp.'s common stock at 85% of the fair market value of shares on the purchase date. Under the ESPP, employees can designate up to a maximum of 10% of their base compensation for the purchase of shares of common stock, subject to certain restrictions. A total of 270,400 shares of common stock have been reserved for issuance under the ESPP.

After considering the estimated employee terminations or withdrawals from the plan before the purchase date, SJW Corp. recorded expense of \$13 and \$56 for the three and nine months ended September 30, 2007, respectively, and \$15 and \$45 for the three and nine months ended September 30, 2006, respectively, related to the ESPP.

The total unrecognized compensation costs related to the semi-annual offering period that ends January 31, 2008 for the ESPP is approximately \$28. This cost is expected to be recognized during the fourth quarter of 2007 and first quarter of 2008.

**Note 3. Nonregulated Business**

The “Water Utility Services” activities of SJW Corp. consist primarily of two of its subsidiaries, San Jose Water Company, a public utility regulated by the California Public Utilities Commission (“CPUC”), that operates within a service area approved by the CPUC and SJWTX Water, Inc., doing business as Canyon Lake Water Service Company, which is regulated by the Texas Commission on Environmental Quality. Included in the total operating revenue and operating expense are the nonregulated business activities of SJW Corp. The nonregulated businesses of SJW Corp. are comprised of operating the City of Cupertino Municipal Water Systems and lease operations of several commercial buildings and properties of SJW Land Company, and the sale and rental of water conditioning and purification equipment, through January 31, 2007, of Crystal Choice Water Service LLC (see Note 10). The following tables represent the distribution of the regulated and nonregulated business activities for the three and nine months ended September 30, 2007 and 2006:

	Three Months Ended September 30, 2007			Three Months Ended September 30, 2006		
	Regulated	Non Regulated	Total	Regulated	Non Regulated	Total
	Revenue	\$ 61,743	\$ 3,104	\$ 64,847	\$ 60,287	\$ 2,832
Expenses	52,023	2,093	54,116	49,530	2,188	51,718
Operating income	\$ 9,720	\$ 1,011	\$ 10,731	\$ 10,757	\$ 644	\$ 11,401

	Nine Months Ended September 30, 2007			Nine Months Ended September 30, 2006		
	Regulated	Non Regulated	Total	Regulated	Non Regulated	Total
	Revenue	\$ 150,471	\$ 8,528	\$ 158,999	\$ 137,499	\$ 7,235
Expenses	129,785	6,014	135,799	113,982	5,933	119,915
Operating income	\$ 20,686	\$ 2,514	\$ 23,200	\$ 23,517	\$ 1,302	\$ 24,819

**Note 4. Nonutility Property**

The major components of net nonutility property as of September 30, 2007 and December 31, 2006 are as follows:

	September 30, 2007	December 31, 2006
Land	\$ 30,103	\$ 8,947
Buildings and improvements	57,676	34,690
Intangibles	231	231
Subtotal	88,010	43,868
Less: accumulated depreciation and amortization	3,291	3,303
Total	\$ 84,719	\$ 40,565

Depreciation of nonutility property is computed using the straight-line method over the estimated service lives of the assets, ranging from 5 to 39 years.

On February 9, 2007, SJW Land Company reinvested the proceeds from the sale of nonutility properties received on December 15, 2006 by purchasing approximately 54 acres of nonutility property with an office and distribution facilities in Knoxville, Tennessee for approximately \$47,625.

**Note 5. Employee Benefit Plans**

The components of net periodic benefit costs for San Jose Water Company's pension plan, Executive Supplemental Retirement Plan and other postretirement benefit plan for the three and nine months ended September 30, 2007 and 2006 are as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2007	2006	2007	2006
Service cost	\$ 620	\$ 571	\$ 1,860	\$ 1,713
Interest cost	1,068	958	3,206	2,874
Other cost	369	413	1,106	1,239
Expected return on assets	(885)	(769)	(2,656)	(2,307)
	\$ 1,172	\$ 1,173	\$ 3,516	\$ 3,519

Internal Revenue Service regulations do not require SJW Corp. to make contributions for the 2007 plan year, however, San Jose Water Company expects to make a contribution of \$362 to the other postretirement benefit plan before the end of 2007.

**Note 6. Segment Reporting**

SJW Corp. is a holding company with four subsidiaries: (i) San Jose Water Company, a water utility operation with both regulated and nonregulated businesses, (ii) SJW Land Company and its consolidated variable interest entity - 444 West Santa Clara Street, L.P., which operates commercial building rentals ("Real Estate Services"), (iii) SJWTX Water, Inc. doing business as Canyon Lake Water Service Company, a regulated water utility located in Canyon Lake, Texas, and (iv) through January 31, 2007, Crystal Choice Water Service LLC, a business providing the sale and rental of water conditioning and purification equipment (see Note 10). In accordance with SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information," SJW Corp. has determined that it has two reportable business segments. The first segment is that of providing water utility and utility related services to its customers, through SJW Corp.'s subsidiaries, the Water Utility Services. The second segment is property management and investment activity conducted by SJW Land Company, the Real Estate Services.

SJW Corp.'s reportable segments have been determined based on information used by the chief operating decision maker. SJW Corp.'s chief operating decision maker is its President and Chief Executive Officer ("CEO"). The CEO reviews financial information presented on a consolidated basis that is accompanied by disaggregated information about operating revenue, net income and total assets.

The tables below set forth information relating to SJW Corp.'s reportable segments. Certain allocated assets, revenue and expenses have been included in the reportable segment amounts. Other business activity of SJW Corp. not included in the reportable segments is included in the "All Other" category.

	Three Months Ended September 30, 2007			SJW Corp.

\*The "All Other" category includes Crystal Choice Water Service LLC and, without regard to its subsidiaries, SJW Corp. Please refer to Notes to Consolidated Financial Statements in SJW Corp.'s 2006 Annual Report on Form 10-K.

**Note 7. Long-Term Liabilities**

SJW Corp.'s contractual obligations and commitments include senior notes, mortgages and other obligations. San Jose Water Company, a subsidiary of SJW Corp., has received advance deposit payments from its customers on construction projects. Refunds of the advance deposit payments constitute an obligation of San Jose Water Company.

**Note 8. Adoption of Financial Accounting Standards Board Interpretation No. 48**

SJW Corp. adopted the provisions of Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes," on January 1, 2007. As a result, SJW Corp. recognized a decrease in its liability for unrecognized tax benefits of approximately \$448 which was recorded as an increase to the January 1, 2007 balance of retained earnings. The total amount of unrecognized tax benefits, before the impact of deductions for state taxes, excluding interest and penalties was \$1,407 and \$1,205 as of January 1, 2007 and September 30, 2007, respectively. The amount of tax benefits, net of any federal benefits for state taxes and inclusive of interest that would impact the effective rate, if recognized, is approximately \$618 as of September 30, 2007.

SJW Corp.'s policy is to classify interest and penalties associated with unrecognized tax benefits, if any, in tax expense. Accrued interest expense, net of the benefit of tax deductions which would be available on the payment of such interest, is approximately \$60 as of September 30, 2007. SJW Corp. has not accrued any penalties for unrecognized tax benefits.

SJW Corp. anticipates that its unrecognized tax benefits balance will be reduced by approximately \$194 within the next 12 months following the adoption date of January 1, 2007 due to the lapsing of statute of limitations. As of September 30, 2007 a total of \$202 reduction was recorded to unrecognized tax benefits as a result of a lapse of the applicable statute of limitations.

SJW Corp. files U.S. federal income tax returns and income tax returns in various states. The open tax years for the jurisdictions in which SJW Corp. files are as follows:

Jurisdiction	Years Open
Federal	2004 - 2006
California	2003 - 2006
Arizona	2006
Connecticut	2003 - 2006
Florida	2003 - 2006
Texas	2005 - 2006

**Note 9. Debt Issuance**

On January 23, 2007, San Jose Water Company issued \$20,000 of unsecured Senior Notes Series H, with an interest rate of 5.71% and interest-only payments until maturity, which is January 1, 2037. Senior Note Series H has terms and conditions that restrict San Jose Water Company from issuing additional funded debt if (1) the funded debt would exceed 66-2/3% of total capitalization, and (2) net income available for interest charges for the trailing 12-calendar-month period would be less than 175% of interest charges. Proceeds from the sales of Senior Notes Series H were used to repay short-term borrowings and to fund construction expenditures.

**Note 10. Sale of Business**

On January 31, 2007, the rental equipment and existing inventory of Crystal Choice Water Service LLC was sold for \$635 cash. The disposition of Crystal Choice Water Service LLC assets is not material to the overall financial condition of SJW Corp. The segment in which Crystal Choice Water Service LLC is disclosed under Note 6 of these financial statements is "All Other."

**Note 11. Commitment**

On April 17, 2006, San Jose Water Company entered into an agreement with Adobe Systems Incorporated (“Adobe”) for Adobe to purchase approximately one acre of property and buildings located in San Jose, California for a total purchase price of approximately \$4,000. The agreement includes an option for San Jose Water Company to lease-back the buildings until June 2008. The transaction needs to be approved by the CPUC since the property and buildings are utility plant assets. Since San Jose Water Company will retain more than a minor portion of the use of the property, the property will continue to be classified as a utility plant asset rather than as an asset held-for-sale, in accordance with SFAS No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets.”

On May 15, 2007, San Jose Water Company entered into an agreement to purchase a building in downtown San Jose, California for a total purchase price of approximately \$6,700. The purchase is expected to close in the fourth quarter of 2007.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**(in thousands, except share and per share data)**

The information in this Item 2 should be read in conjunction with the financial information and the notes thereto included in Item 1 of this Form 10-Q and the consolidated financial statements and notes thereto and the related "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in SJW Corp.'s Annual Report on Form 10-K for the year ended December 31, 2006.

This report contains forward-looking statements within the meaning of the federal securities laws relating to future events and future results of SJW Corp. and its subsidiaries that are based on current expectations, estimates, forecasts, and projections about SJW Corp. and the industries in which SJW Corp. operates and the beliefs and assumptions of the management of SJW Corp. Such forward-looking statements are identified by words including "expect," "estimate," "anticipate," "intends," "plans," "may," "should," "will," and similar expressions. These forward-looking statements are predictions and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Important factors that could cause or contribute to such differences include, but are not limited to, those discussed in this report and in other reports SJW Corp. files with the Securities and Exchange Commission ("SEC"), specifically the most recent reports on Form 10-K, Form 10-Q and Form 8-K, each as it may be amended from time to time. SJW Corp. undertakes no obligation to update the information contained in this report, including the forward-looking statements to reflect any event or circumstance that may arise after the date of this report.

**General:**

SJW Corp. is a holding company with four subsidiaries.

San Jose Water Company, a wholly owned subsidiary of SJW Corp., is a public utility in the business of providing water service to approximately 220,000 connections that serve a population of approximately one million people in an area comprising about 138 square miles in the metropolitan San Jose, California area.

The principal business of San Jose Water Company consists of the production, purchase, storage, purification, distribution, and retail sale of water. San Jose Water Company provides water service to customers in portions of the cities of Cupertino and San Jose and the cities of Campbell, Monte Sereno, Saratoga, and the Town of Los Gatos, and adjacent unincorporated territory, all in the County of Santa Clara in the State of California. San Jose Water Company distributes water to customers in accordance with accepted water utility methods, which include pumping from storage and gravity feed from high elevation reservoirs. San Jose Water Company also provides nonregulated water related services under agreements with municipalities. These nonregulated services include full water system operations, billings and cash remittance services.

San Jose Water Company has utility property including land held in fee, impounding reservoirs, diversion facilities, wells, distribution storage and all water facilities and other property necessary to provide utility service to its customers. Under Section 851 of the Public Utilities Code, properties currently used and useful in providing utilities services cannot be disposed of unless California Public Utilities Commission ("CPUC") approval is obtained.

San Jose Water Company also has approximately 1,500 acres of nonutility property which has been identified as no longer used and useful in providing utility services. Approximately 16 acres of the nonutility property are located in the vicinity of the San Jose Metropolitan area. The remaining properties are located in the hillside area adjacent to our watershed properties.

SJW Land Company, a wholly owned subsidiary of SJW Corp., owns the following properties:

Description	Approximate Acreage	Location	Approximate Square Footage
Three commercial buildings	2	San Jose, California	50,000
Warehouse	17	Windsor, Connecticut	170,000
Warehouse	8	Orlando, Florida	147,000
Retail building	2	El Paso, Texas	14,000
Warehouse	11	Phoenix, Arizona	176,000
Warehouse and commercial building	54	Knoxville, Tennessee	494,000
Undeveloped land	5	San Jose, California	N/A

The California properties include a 70% limited partnership interest in 444 West Santa Clara Street, L.P. The limited partnership has been determined to be a Variable Interest Entity within the scope of FASB Interpretation No. 46R ("FIN 46R"), "Consolidation of Variable Interest Entities," and as a result, it has been consolidated with SJW Land Company.

Canyon Lake Water Service Company ("CLWSC") provides service to approximately 7,800 connections that serve approximately 22,000 residents in a service area comprising more than 320 square miles in the rapidly growing region between San Antonio and Austin, Texas.

Crystal Choice Water Service LLC was a subsidiary 75% owned by SJW Corp., engaged in the sale and rental of water conditioning and purification equipment. On January 31, 2007, the rental equipment and existing inventory of Crystal Choice Water Service LLC was sold for \$635 (see Item 1, Note 10, to the accompanying unaudited condensed consolidated financial statements).

SJW Corp. also owns 1,099,952 shares of California Water Service Group, which represents approximately 5% of its outstanding shares as of September 30, 2007.

### **Business Strategy:**

SJW Corp. focuses its business initiatives in four strategic areas:

- (1) Regional regulated water utility operations.
- (2) Regional nonregulated water utility related services provided in accordance with the guidelines established by the CPUC.
- (3) Real estate investment activities in SJW Land Company.

(4) Out-of-region water and utility related services, primarily in the Western United States.

15

---

### Regional Regulated Activities

SJW Corp.'s regulated utility operation is conducted through San Jose Water Company, a wholly owned water utility subsidiary that provides water service to the greater metropolitan San Jose area, and CLWSC, a 97.5% owned regulated water utility subsidiary in the state of Texas. SJW Corp. plans and applies a diligent and disciplined approach to improving and maintaining its water system infrastructure. It also seeks to acquire regulated water systems adjacent to or near its existing service territory.

### Regional Nonregulated Activities

Operating in accordance with guidelines established by the CPUC, San Jose Water Company provides nonregulated water services under agreements with municipalities and other utilities. Nonregulated services include water system operations, billings and cash remittance processing, maintenance services, and telecommunication antenna leasing.

San Jose Water Company also seeks appropriate nonregulated business opportunities that complement its existing operations or that allow it to extend its core competencies beyond existing operations. San Jose Water Company seeks opportunities to fully utilize its capabilities and existing capacity by providing services to other regional water systems, benefiting its existing regional customers through increased efficiencies.

### Real Estate Investment

SJW Land Company's real estate investments diversifies SJW Corp.'s asset base and balances SJW Corp.'s concentration in regulated assets. SJW Land Company implements its real estate investment strategy by exchanging selected real estate assets for relatively low risk investments with a capital structure and risk and return profile that is consistent with SJW Corp.'s consolidated capital structure and risk and return profile.

### Out-of-Region Opportunities

SJW Corp. is also pursuing opportunities to participate in out-of-region water and utility related services, particularly regulated water businesses, in the Western United States. SJW Corp. evaluates out-of-region and out-of-state opportunities that meet SJW Corp.'s risk and return profile.

The factors SJW Corp. considers in evaluating such opportunities include:

- regulatory environment;
- synergy potential;
- general economic conditions;
- potential profitability;
- additional growth opportunities within the region;
- water quality and environmental issues; and
- capital requirements.

SJW Corp. cannot be certain it will be successful in consummating any transactions relating to such opportunities. In addition, any transaction will involve numerous risks. These include the possibility of paying more than the value derived from the acquisition, the assumption of certain known and unknown liabilities related to the acquired assets, the risk of diverting management's attention from normal daily operations of the business, negative impact to SJW Corp.'s financial condition and operating results, the risks of entering markets in which it has no or limited direct prior experience, and the potential loss of key employees of any acquired company. SJW Corp. cannot be certain that any transaction will be successful and will not materially harm its operating results or financial condition.

### **Critical Accounting Policies:**

SJW Corp. has identified the accounting policies below as the policies critical to its business operations and the understanding of the results of operations. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. SJW Corp. bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. The impact and any associated risks related to these policies on SJW Corp.'s business operations is discussed throughout "Management's Discussion and Analysis of Financial Condition and Results of Operations" where such policies affect SJW Corp.'s reported and expected financial results. SJW Corp.'s critical accounting policies are as follows:

#### **Balancing Account**

Pursuant to Section 792.5 of the California Public Utilities Code, a balancing account must be maintained for each expense item for which revenue offsets have been authorized. The purpose of a balancing account is to track the under-collection or over-collection associated with expense changes and the revenue authorized by the CPUC to offset those expense changes.

Within its regulatory regime, the CPUC has established a balancing account mechanism for the purpose of tracking the under-collection or over-collection associated with expense changes and the revenue authorized by the CPUC to offset those expense changes. A separate balancing account must be maintained for each offset expense item (e.g., purchased water, purchased power and groundwater extraction charges). The balancing account balance varies with the seasonality of the water utility business such that, during the summer months when the demand for water is at its peak, the account tends to reflect an under-collection while, during the winter months when demand for water is relatively lower, the account tends to reflect an over-collection. Since the balances have to be approved by the CPUC before they can be incorporated into rates, San Jose Water Company does not recognize the balancing account in its revenue until the CPUC authorizes the change in customers' rates. However, had the balancing account been recognized in San Jose Water Company's financial statements, San Jose Water Company's retained earnings would be decreased by the amount of the account over-collection or increased by the amount of the account under-collection, less applicable taxes.

#### **Revenue Recognition**

SJW Corp. recognizes its regulated and nonregulated revenue when services have been rendered, in accordance with SEC Staff Accounting Bulletin 104, "Revenue Recognition."

Metered revenue of San Jose Water Company and CLWSC (together referred to as the "Water Utility Services") include billing to customers based on meter readings plus an estimate of water used between the customers' last meter reading and the end of the accounting period. The Water Utility Services read the majority of its customers' meters on a bi-monthly basis and records its revenue based on its meter reading results. Unbilled revenue from the last meter reading date to the end of the accounting period is estimated based on the most recent usage patterns, production records and the effective tariff rates. Actual results could differ from those estimates, which would result in adjusting

the operating revenue in the period which the revision to the Water Utility Services estimates are determined. As of September 30, 2007 and December 31, 2006, accrued unbilled revenue was \$18,711 and \$11,067, respectively. Unaccounted-for water on a 12 month-to-date basis for September 30, 2007 and 2006 approximated 7.16% and 4.51%, respectively, as a percentage of production. The estimate is based on the results of past experience, the trend and efforts in reducing the Water Utility Services' unaccounted-for water through customer conservation, main replacements and lost water reduction programs.

SJW Corp. recognizes its nonregulated revenue based on the nature of the nonregulated business activities. Revenue from San Jose Water Company's nonregulated utility operations and billing or maintenance agreements are recognized when services have been rendered. Revenue from SJW Land Company is recognized ratably over the term of the leases.

#### Recognition of Regulatory Assets and Liabilities

Generally accepted accounting principles for water utilities include the recognition of regulatory assets and liabilities as permitted by SFAS No. 71, "Accounting for the Effects of Certain Types of Regulation." In accordance with SFAS No. 71, San Jose Water Company records deferred costs and credits on the balance sheet as regulatory assets and liabilities when it is probable that these costs and credits will be recovered in the ratemaking process in a period different from when the costs and credits are incurred. Accounting for such costs and credits is based on management's judgment that it is probable that the costs are recoverable in the future revenue of San Jose Water Company through the ratemaking process. The regulatory assets and liabilities recorded by San Jose Water Company primarily relate to the recognition of deferred income taxes for ratemaking versus tax accounting purposes and the postretirement pension benefits and medical costs that have not been passed through rates. The disallowance of any asset in future ratemaking, including deferred regulatory assets, would require San Jose Water Company to immediately recognize the impact of the costs for financial reporting purposes. No disallowance has been recognized as of September 30, 2007 and December 31, 2006. The net regulatory assets recorded by San Jose Water Company as of September 30, 2007 and December 31, 2006 was \$49,581 and \$50,483, respectively.

#### Income Taxes

SJW Corp. estimates its federal and state income taxes as part of the process of preparing the financial statements. The process involves estimating the actual current tax exposure together with assessing temporary differences resulting from different treatment of items for tax and accounting purposes, including the evaluation of the treatment acceptable in the water utility industry and regulatory environment. These differences result in deferred tax assets and liabilities, which are included within the balance sheet. If actual results, due to changes in the regulatory treatment, or significant changes in tax-related estimates or assumptions or changes in law, differ materially from these estimates, the provision for income taxes will be materially impacted.

Effective January 1, 2007, SJW Corp. adopted FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes," as discussed in Item 1, Note 8 of SJW Corp.'s accompanying unaudited condensed consolidated financial statements.

### Pension Accounting

San Jose Water Company offers a defined benefit plan, an Executive Supplemental Retirement Plan and certain postretirement benefits other than pensions to employees retiring with a minimum level of service. Accounting for pensions and other postretirement benefits requires an extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the employees, mortality, turnover, and medical costs.

San Jose Water Company, through its Retirement Plan Administrative Committee managed by representatives from the unions and management, establishes investment guidelines that require approximately 30% of the Plan investments be in bonds or cash and the remaining 70% in equity securities. As of December 31, 2006, the plan assets consist of approximately 35% bonds, 7% cash and 58% equities. Furthermore, equities are to be diversified by industry groups to balance for capital appreciation and income. In addition, all investments are publicly traded. San Jose Water Company uses an expected rate of return on plan assets of 8% in its actuarial computation. The distribution of assets are not considered highly volatile or sensitive to changes in market rates and prices.

The plan assets are marked to market at the measurement date. Unrealized market losses on pension assets, when they occur, are amortized over 13 years.

San Jose Water Company utilizes each plan's projected benefit stream in conjunction with the "above the median" Citigroup Pension Discount Curve, which is designed to reflect Aa corporate bond rates, in determining the discount rate used in calculating the pension and other postretirement benefit liabilities at the measurement date.

### Recognition of Gain/Loss on Nonutility Property

In compliance with the Uniform Systems of Accounts prescribed by the CPUC and conforming to generally accepted accounting principles for rate-regulated public utilities, the cost of retired utility plant, including retirement costs (less salvage), is charged to accumulated depreciation and no gain or loss is recognized for utility plant used and useful in providing water utility services to customers.

Nonutility property in San Jose Water Company is property that is neither used nor useful in providing water utility services to customers and is excluded from the rate base for rate-setting purposes. San Jose Water Company recognizes gain/loss on disposition of nonutility property in accordance with CPUC Code Section 790. Nonutility property in SJW Land Company consists primarily of land and buildings. Net gains or losses from the sale of nonutility property are recorded as a component of other income (expense) in the consolidated statement of income and comprehensive income.

### **Recent Accounting Pronouncements:**

Effective January 1, 2007, SJW Corp. adopted FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes," as discussed in Item 1, Note 8 of SJW Corp.'s accompanying unaudited condensed consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 ("SFAS 157"), "Fair Value Measurements." SFAS 157 defines fair value and establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements, however, for some entities, the application of SFAS 157 will change their current practice. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. SJW Corp. is in the process of evaluating the impact of this accounting standard.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159 (“SFAS 159”), “The Fair Value Option for Financial Assets and Financial Liabilities.” SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007, provided the entity also elects to apply the provisions of SFAS 157. SJW Corp. is in the process of evaluating the impact of this accounting standard.

**Liquidity and Capital Resources:**

The Water Utility Services’ budgeted capital expenditures for 2007, exclusive of capital expenditures financed by customer contributions and advances, are \$55,916 with capital expenditures concentrated in water main replacements and treatment plants. In addition, the Water Utility Services has approximately \$10,000 in budgeted capital expenditures from 2006, primarily for the construction of a treatment plant, which was completed during the third quarter of 2007. Approximately \$18,000 will be spent to replace Water Utility Services mains in 2007. Year-to-date capital expenditures as of September 30, 2007 are approximately \$52,800.

Water Utility Services’ capital expenditures are incurred in connection with normal upgrading and expansion of existing facilities and to comply with environmental regulations. Water Utility Services expects to incur approximately \$265,885 in capital expenditures, which includes replacement of pipes and mains, and maintaining existing water systems, over the next five years, exclusive of customer contributions and advances. Water Utility Services’ actual capital expenditures may vary from its projections due to changes in the expected demand for services, weather patterns, actions by governmental agencies, and general economic conditions. Total additions to the utility plants normally exceed company-financed additions by several million dollars as a result of new facilities construction funded with advances from developers and contributions in aid of construction.

A substantial portion of San Jose Water Company’s distribution system was constructed during the period from 1945 to 1980. Expenditure levels for renewal and modernization of this part of the system will grow at an increasing rate as these components reach the end of their useful lives. In most cases, replacement cost will significantly exceed the original installation cost of the retired assets due to increases in the costs of goods and services.

Historically, the Water Utility Services’ write-offs for uncollectible accounts represent less than 1% of its total revenue. Management believes it can continue to collect its accounts receivable balances at its historical collection rate.

**Sources of Capital:**

San Jose Water Company’s ability to finance future construction programs and sustain dividend payments depends on its ability to maintain or increase internally generated funds and attract external financing. The level of future earnings and the related cash flow from operations is dependent, in large part, upon the timing and outcome of regulatory proceedings.

San Jose Water Company's financing activity is designed to achieve a capital structure consistent with regulatory guidelines of approximately 50% debt and 50% equity. As of September 30, 2007, San Jose Water Company's funded debt and equity were 47% and 53%, respectively.

Historically, San Jose Water Company's internally generated funds, which include allowances for depreciation and deferred income taxes, have provided approximately 50% of the future cash requirements for San Jose Water Company's capital expenditures. Funding for its future capital expenditure program will be provided through internally generated funds and long-term debt and will be consistent with the regulator's guidelines.

On January 23, 2007, San Jose Water Company issued \$20,000 of unsecured Senior Notes Series H, with an interest rate of 5.71% and interest-only payments until maturity, which is January 1, 2037. Proceeds from the sales of Senior Notes Series H were used to repay short-term borrowings and to fund construction expenditures. San Jose Water Company has outstanding \$150,000 of unsecured senior notes as of September 30, 2007. The senior note agreements of San Jose Water Company generally have terms and conditions that restrict San Jose Water Company from issuing additional funded debt if (1) the funded debt would exceed 66-2/3% of total capitalization, and (2) net income available for interest charges for the trailing 12-calendar-month period would be less than 175% of interest charges. As of September 30, 2007, San Jose Water Company's funded debt was 47% of total capitalization and the net income available for interest charges was 418% of interest charges.

San Jose Water Company received a \$2,007, 20-year 2.39% interest rate loan from the Safe Drinking Water State Revolving Fund ("SDWSRF") which requires semi-annual payments. San Jose Water Company issued a standby letter of credit with a commercial bank in the amount of \$2,000 in support of this loan.

In 2004, the California Department of Water Resources approved San Jose Water Company's application for a second loan under the SDWSRF program. The loan is for approximately \$1,660 over a term of 20 years at an interest rate of 2.60%. These funds will be used for water treatment plant improvements to meet increasing filtration standards. San Jose Water Company expects to receive the funding of this loan in 2007, when all documentation has been completed.

As of September 30, 2007, SJWTX Water, Inc. has outstanding \$15,000 of unsecured senior notes. The senior note agreement has terms and conditions that restrict SJWTX Water, Inc. from issuing additional funded debt if (1) its funded debt would exceed 66-2/3% of total capitalization, and (2) its net income available for interest charges for the trailing 12-calendar-month period would be less than 175% of interest charges. In addition, SJW Corp. is a guarantor of the senior note which has terms and conditions that restrict SJW Corp. from issuing additional funded debt if (1) the funded consolidated debt would exceed 66-2/3% of total capitalization, and (2) the minimum net worth of SJW Corp. becomes less than \$125,000 plus 30% of the Water Utility Services cumulative net income, since December 31, 2005. As of September 30, 2007, SJW Corp. does not face any restrictions in issuing any future indebtedness as a result of these terms and conditions.

In February 2007, SJW Land Company purchased approximately 54 acres of nonutility property with an office and distribution facilities in Knoxville, Tennessee by reinvesting proceeds from the sale of nonutility property in the fourth quarter of 2006 of approximately \$31,261, in order to qualify the transaction under Internal Revenue Code 1031. The total purchase price of the replacement property was approximately \$47,625. SJW Land Company also borrowed approximately \$13,500 and utilized internal funds of approximately \$2,864 in connection with the purchase. The property is leased to a large retail company for 19 years.

SJW Corp. and its subsidiaries have unsecured lines of credit available allowing aggregate short-term borrowings of up to \$35,000 at rates that approximate the bank's prime or reference rate. At September 30, 2007, SJW Corp. and its subsidiaries had available unused short-term bank lines of credit of \$27,500. Cost of borrowing averaged 6.33% for the first nine months of 2007. The lines of credit will expire on June 1, 2008. SJW Corp. and its subsidiaries intend to borrow funds in the fourth quarter of 2007. The debt will be used to repay the line of credit and to fund construction expenditures.

## **Results of Operations:**

### Overview

SJW Corp.'s consolidated net income for the three months ended September 30, 2007 was \$8,011, a decrease of \$847, or approximately 10%, from \$8,858 in the third quarter of 2006. For the nine months ended September 30, 2007, consolidated net income was \$15,539, a decrease of \$3,993, or approximately 20%, from \$19,532 for the same period in 2006.

### Operating Revenue

	Operating Revenue by Segment			
	Three Months Ended September 30		Nine Months Ended September 30	
	2007	2006	2007	2006
Water Utility Services	\$ 63,174	\$ 61,803	\$ 154,074	\$ 140,727
Real Estate Services	1,673	1,070	4,814	3,105
All Other	-	246	111	902
	\$ 64,847	\$ 63,119	\$ 158,999	\$ 144,734

The change in operating revenue from the same period in 2006 was due to the following factors:

	Three Months Ended Sept. 30, 2007 vs. 2006 Increase/(decrease)		Nine Months Ended Sept. 30, 2007 vs. 2006 Increase/(decrease)	
Utility:				
Consumption changes	\$ (2,046)	(3%)	\$ 2,912	2%
New customers increase	260	-	2,711	2%
Rate increases	3,157	5%	7,723	5%
Real Estate Services	603	1%	1,710	1%
All Other	(246)	-	(791)	-
	\$ 1,728	3%	\$ 14,265	10%

Operating Expense

	Operating Expense by Segment			
	Three Months Ended September 30		Nine Months Ended September 30	
	2007	2006	2007	2006
Water Utility Services	\$ 53,160	\$ 50,688	\$ 132,640	\$ 116,515
Real Estate Services	648	565	2,162	1,780
All Other	308	465	997	1,620
	\$ 54,116	\$ 51,718	\$ 135,799	\$ 119,915

The change in operating expenses from the same period in 2006 was due to the following factors:

	Three Months Ended Sept. 30, 2007 vs. 2006 Increase/(decrease)		Nine Months Ended Sept. 30, 2007 vs. 2006 Increase/(decrease)	
<b>Water production costs:</b>				
Decreased surface water supply	\$ 2,029	4%	\$ 7,378	6%
Change in consumption usage and new customers	(1,218)	(2%)	3,832	3%
Groundwater extraction charges and purchased water price increase	2,080	4%	3,070	3%
Other	151	-	280	-
Total water production costs	3,042	6%	14,560	12%
<b>Nonwater production costs:</b>				
Administrative and general	(57)	-	960	1%
Other operating expense	15	-	(111)	-
Maintenance	139	-	1,298	1%
Property taxes and other nonincome taxes	18	-	325	-
Depreciation and amortization	182	-	991	1%
Total nonwater production costs	297	-	3,463	3%
Income taxes	(941)	(1%)	(2,139)	(2%)
Total operating expenses	\$ 2,398	5%	\$ 15,884	13%

San Jose Water Company's water supply consists of groundwater from wells, surface water from watershed run off and diversion, and imported water purchased from Santa Clara Valley Water District ("SCVWD"). Surface water is the least expensive source of water and its availability will significantly impact the water production costs of San Jose Water Company.

Water production costs increased \$3,042 and \$14,560 for the third quarter and year-to-date of 2007, respectively. The increase in water production costs was primarily attributable to \$2,029 and \$7,378 for the quarter and year-to-date, respectively, in decreased surface water supply necessitating additional purchased water and groundwater extraction charges from the SCVWD. The lack of precipitation this past winter adversely impacts the Water Utility Services' operating results.

CLWSC's primary supply is water pumped from Canyon Lake at two lake intakes. This supply is supplemented by groundwater pumped from wells.

Water Utility Services' water production for the three and nine months ended September 30, 2007 decreased 649 and increased 2,552 million gallons, respectively, from the same periods in 2006. For the nine months ended September 30, 2007, more purchased and groundwater were used when compared to the same period in 2006.

The change in the Water Utility Services' source of supply mix was as follows:

	Three Months Ended Sept. 30, 2007 vs. 2006 Increase/(decrease)		Nine Months Ended Sept. 30, 2007 vs. 2006 Increase/(decrease)	
Purchased water	(337)	(2%)	1,942	5%
Surface water	(1,252)	(7%)	(4,510)	(11%)
Ground water	970	5%	5,091	13%
Reclaimed water	(30)	-	29	-
	(649)	(4%)	2,552	7%

The changes in the source of supply mix were consistent with the changes in the water production costs.

Quarterly nonwater production costs increased \$297 in the third quarter of 2007 from 2006 due to \$182 in depreciation expense from increased real estate property and utility plant and \$139 in maintenance expenses. Administrative and general, property taxes and other nonincome taxes and other operating expense decreased by \$24. Income tax expense decreased \$941 due to lower taxable income in the third quarter of 2007 versus the third quarter of 2006.

Year-to-date nonwater production costs increased \$3,463, or 3%, compared to 2006. The increase is primarily attributable to a \$1,298 increase in maintenance expenses due to higher leak repairs, \$991 in depreciation expense from increased real estate property and utility plant, \$960 in administrative and general costs, and taxes other than income and other expenses increased \$214. Income tax expense decreased \$2,139 year-to-date for 2007 due to decreased taxable income. The effective income tax rates for the periods ended September 30, 2007 and 2006 approximated 41%.

The change in comprehensive income for the three and nine months ended September 30, 2007 and 2006 was due to the changes in market value of the investment in California Water Service Group.

#### Water Supply and Energy Resources

San Jose Water Company's water supply is obtained from groundwater wells, local surface water from watershed run off and diversion, and the purchase of imported treated water from the SCVWD under the terms of a master contract with SCVWD expiring in 2051. Groundwater level in 2007 remains comparable with 30-year normal levels.

On September 17, 2007, the SCVWD's 10 reservoirs were 51% full with 86,412 acre-feet of water in storage. The rainfall in the season commencing July 1, 2007 was approximately 21% of historical season average.

Rainfall at San Jose Water Company's Lake Elsmar was measured at .25 inches for the season commencing July 1, 2007 through June 30, 2008, which is typical for this normal dry time of year. Local surface water is a less costly source of water than groundwater or purchased water and its availability significantly impacts San Jose Water Company's results of operations.

Based on information provided by SCVWD in its Water Utility Enterprise Report, San Jose Water Company believes that its various sources of water supply are sufficient to meet customer demand for the immediate foreseeable future.

To the extent that San Jose Water Company has to pump water from wells during peak periods to satisfy customer demand when imported water is insufficient, higher energy costs will be incurred. Currently, the CPUC has no established procedure for water utilities to recover the additional costs incurred due to such unanticipated changes in water supply mix. There can be no assurance that such costs will be recovered in full or in part.

On June 12, 2007, SCVWD issued a statement urging county residents and businesses to voluntarily cut back their water use by ten percent (10%). SJW Corp. continues to encourage its customers to use water wisely and has active programs in place to help customers achieve savings.

On August 31, 2007, US District Court Judge Oliver Wanger issued a ruling which will result in a court order to reduce the amount of water pumped from the San Joaquin-Sacramento River Delta, during the breeding season of the Delta Smelt, which commences in December and ends in June. While we do not believe this decision will have a near term impact on our water supply, its impact on future periods is uncertain. SCVWD has advised us that it is working with various relevant parties to understand the full implication of the resultant court order, including its impact on the water allocation to SCVWD.

CLWSC has long-term contracts with the Guadalupe-Blanco River Authority ("GBRA"). The terms of the agreements expire in 2044 and 2050. The agreements provide CLWSC with 6,000 acre-feet of water annually from Canyon Lake at prices to be adjusted periodically by the GBRA.

#### Regulatory Affairs

Almost all of the operating revenue of San Jose Water Company results from the sale of water at rates authorized by the CPUC. The CPUC sets rates that are intended to provide revenue sufficient to recover operating expenses and produce a specified return on common equity. The timing of rate decisions could have an impact on the results of operations.

On November 9, 2006, the CPUC issued San Jose Water Company's most recent general rate case decision (D.06-11-015). The decision granted San Jose Water Company authority to increase rates by \$3,488 or 2.00% in 2007, \$5,402 or 3.02% in 2008, and \$3,959 or 2.15% in 2009. The decision also authorizes additional rate recoveries to be phased in as capital projects are completed over the three-year period and the recovery of approximately \$450 from San Jose Water Company's balancing and memorandum accounts. These rate increases are designed to produce a return on common equity of 10.13%, which is comparable with recent authorized returns for water utilities in California.

Pursuant to this general rate case decision, on January 1, 2007, San Jose Water Company was authorized a revenue increase of \$3,488, or 2.00%, designed to recover projected operating cost increases for 2007. Also pursuant to D.06-11-015, on April 12, 2007, the CPUC authorized a \$1,568 revenue increase to recover additional plant additions originally authorized in D.06-11-015.

Effective July 9, 2007, the CPUC approved San Jose Water Company's request for a revenue increase of \$5,409. The request was the result of the increased cost of purchased water and higher groundwater extraction costs charged to San

Jose Water Company by the SCVWD.

On January 22, 2007, San Jose Water Company filed an application with the CPUC requesting the approval of the sale of its main office facility pursuant to Public Utilities Code Section 851, and the authorization of the subsequent reinvestment of the sales proceeds in water utility infrastructure under Public Utilities Code Section 790. In addition to the reinvestment of the sale proceeds, San Jose Water Company has proposed to make additional investments to upgrade utility facilities, which would result in a rate increase of \$1,871 or approximately 1.05% over current rates. In the application, San Jose Water Company is proposing to sell its main office property and relocate the headquarters offices and walk-in customer service center functions to a new downtown San Jose location, while consolidating all other operations at San Jose Water Company's existing Bascom Avenue location. This request is still pending before the CPUC.

25

---

In San Jose Water Company's general rate case decision D.06-11-015, the CPUC required that San Jose Water Company file an application containing a proposal for the implementation of a conservation rate structure. Subsequently, on March 19, 2007, San Jose Water Company submitted the required filing containing a proposal for the implementation of a conservation rate structure via tiered rates as well as the establishment of a Water Revenue Adjustment Mechanism. The filing also included requests for the establishment of a memorandum account for conservation expenses, the establishment of a full cost balancing account for water supply expense, and the expansion of San Jose Water Company's existing water quality memorandum account. The proposed tiered rate structure will be applicable to all residential customers for all meter sizes. If approved as proposed, the average residential user will see a modest reduction in their water bill, while customers with usage at 20 ccf and above will begin to see increases in their bills which progressively reflect the third tier rate. There will be no changes to the monthly service charges, and all other customers will remain under the current single tiered rates. The filing is currently being reviewed by the CPUC and any changes to the rate structure will likely not become effective until sometime during 2008.

On November 1, 2006, San Jose Water Company filed with the CPUC requesting implementation of a rate increase for the Mountain District (formerly Redwood Mutual Water Company). In accordance with the Agreement for Purchase and Sale of Water System between Redwood Mutual Water Company and San Jose Water Company, the service charge will be increased by 2.0% and the Quantity Rate will be increased by 10.3% over the 2006 water rates originally established by the Redwood Mutual Water Company. This rate increase was ultimately authorized, effective June 21, 2007. Additionally, effective July 30, 2007, San Jose Water Company was authorized two surcharges in the Mountain District to recover the increased cost of purchased water and higher groundwater extraction costs charged to San Jose Water Company by the SCVWD.

On October 12, 2007, CLWSC filed its first rate case with the Texas Commission on Environmental Quality with new rates to become effective on December 14, 2007. As part of the acquisition agreement, the rate increase request for CLWSC was limited to 10% or approximately \$451.

#### Balancing Account Recovery Procedures

As of September 30, 2007 and December 31, 2006, the total accrued balance in San Jose Water Company's balancing account was an over-collection of \$1,094 and \$739, respectively, including interest. The balance for the period November 29, 2001 to December 31, 2004 has been reviewed and authorized for rate recovery by the CPUC. All the memorandum type balancing accounts will be reviewed by the CPUC in San Jose Water Company's next general rate case. The balances are summarized as follows:

	September 30, 2007	December 31, 2006
Under-collected balancing account 11/29/2001 to 12/31/2004, including surcharge and interest	\$ 140	\$ 402
Over-collected memorandum type balancing account 1/1/2005 to 12/31/2005	(152)	(146)
Over-collected memorandum type balancing account 1/1/2006 to 12/31/2006	(1,034)	(995)
Over-collected memorandum type balancing account 1/1/2007 to 6/30/2007	(48)	-
Net over-collected balancing account	\$ (1,094)	\$ (739)

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

SJW Corp. is subject to market risks in the normal course of business, including changes in interest rates and equity prices. The exposure to changes in interest rates is a result of financings through the issuance of fixed-rate, long-term debt and short-term funds obtained through the variable rate line of credit. SJW Corp. also owns 1,099,952 shares of California Water Service Group and is exposed to the risk of changes in equity prices.

SJW Corp. has no material derivative financial instruments, financial instruments with significant off-balance sheet risks, or financial instruments with concentrations of credit risk. There is no material sensitivity to change in market rates and prices.

### **ITEM 4. CONTROLS AND PROCEDURES**

SJW Corp.'s management, with the participation of SJW Corp.'s Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the SJW Corp.'s disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that SJW Corp.'s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or "the Act") as of the end of the period covered by this report have been designed and are functioning effectively to provide reasonable assurance that the information required to be disclosed by SJW Corp. in the reports that it files or submits under the Act is recorded, processed, summarized, and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. SJW Corp. believes that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

There has been no change in internal control over financial reporting during the third fiscal quarter of 2007 that has materially affected, or is reasonably likely to materially affect, the internal controls over financial reporting of SJW Corp.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

SJW Corp. is subject to ordinary routine litigation incidental to its business. There are no pending legal proceedings to which SJW Corp. or any of its subsidiaries is a party, or to which any of its properties is the subject, that are expected to have a material effect on SJW Corp.'s business, financial position, results of operations or cash flows.

**ITEM 5. OTHER INFORMATION**

On October 25, 2007, the Board of Directors of SJW Corp. declared the regular quarterly dividend of \$0.15125 per common share. The dividend will be paid on December 1, 2007 to shareholders of record as of the close of business on November 5, 2007.

**ITEM 6. EXHIBITS**

See Exhibit Index located immediately following the Certification of this document, which is incorporated herein by reference as required to be filed by Item 601 of Regulation S-K for the quarter ended on September 30, 2007.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
