ROCKY MOUNTAIN CHOCOLATE FACTORY, INC. AND SUBSIDIARY

NOTES TO INTERIM (UNAUDITED) CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Nature of Operations

The accompanying consolidated financial statements include the accounts of Rocky Mountain Chocolate Factory, Inc., its wholly-owned subsidiary, Aspen Leaf Yogurt, LLC and its majority-owned subsidiary, U-Swirl, Inc. (collectively, the “Company”). All intercompany balances and transactions have been eliminated in consolidation.

Rocky Mountain Chocolate Factory, Inc. (“RMCF”) is an international franchisor, confectionery manufacturer and retail operator in the United States, Japan, South Korea, Canada and the United Arab Emirates. RMCF manufactures an extensive line of premium chocolate candies and other confectionery products.

Aspen Leaf Yogurt, LLC (“ALY”) was incorporated in the state of Colorado as Aspen Leaf Yogurt, Inc. on September 30, 2010 and organized through conversion as Aspen Leaf Yogurt, LLC on October 14, 2010. ALY was a franchisor and retail operator of self-serve frozen yogurt retail locations until the sale of substantially all of its assets in January 2013. ALY has ceased to operate any Company-owned Aspen Leaf Yogurt locations, or sell and support franchise locations.

On January 14, 2013, Ulysses Asset Acquisition, LLC (“Newco”), a wholly-owned subsidiary of the Company formed in the State of Colorado on January 2, 2013, entered into an agreement to acquire substantially all of the franchise rights of YHI, Inc. and Yogurtini International, LLC (collectively, “Yogurtini”), which are the franchisors of self-serve frozen yogurt retail units branded as “Yogurtini.” In addition, on January 14, 2013, the Company entered into two agreements to sell all of its membership interests in Newco and substantially all of its assets in ALY to U-Swirl, Inc., a publicly traded company (OTCQB: SWRL), in exchange for a 60% controlling equity interest in U-Swirl, Inc. U-Swirl, Inc. is in the business of offering consumers frozen desserts such as yogurt and sorbet. U-Swirl launched a national chain of self-serve frozen yogurt cafés called U-Swirl Frozen Yogurt and is franchising this concept. U-Swirl has built and operates cafés owned and operated by U-Swirl, Inc. (“Company-owned”) and franchises to others the right to own and operate U-Swirl cafés. It also franchises and operates self-serve frozen yogurt cafes under the name “Yogurtini” and “Aspen Leaf Yogurt.”

The Company's revenues are currently derived from three principal sources: sales to franchisees and others of chocolates and other confectionery products manufactured by the Company; the collection of initial franchise fees and royalties from franchisees' sales; and sales at Company-owned stores of chocolates and frozen yogurt and other confectionery products. The following table summarizes the number of stores operating under RMCF and its subsidiaries at August 31, 2013:

	Sold, Not Yet Open	Open	Total
Rocky Mountain Chocolate Factory			
Company-owned stores	-	6	6
Franchise stores – Domestic stores	3	219	222

Basis of Presentation

The accompanying unaudited financial statements have been prepared by the Company and reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results for the interim periods presented. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial reporting and Securities and Exchange Commission regulations. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the financial statements reflect all adjustments (of a normal and recurring nature) which are necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods presented. The results of operations for the three and six months ended August 31, 2013 are not necessarily indicative of the results to be expected for the entire fiscal year.

These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2013.

Stock-Based Compensation

At August 31, 2013, the Company had stock-based compensation plans for employees and non-employee directors that authorized the granting of stock awards, including stock options and restricted stock units.

The Company recognized \$125,653 and \$268,462 of stock-based compensation expense during the three and six-month periods ended August 31, 2013, respectively, compared to \$94,867 and \$229,900 during the three and six-month periods ended August 31, 2012, respectively. Compensation costs related to stock-based compensation are generally amortized over the vesting period.

The following table summarizes stock option transactions for common stock during the six months ended August 31, 2013 and 2012:

	Six Months Ended	
	August 31, 2013	2012
Outstanding stock options as of February 28 or 29:	270,945	307,088

Granted	-	-

Weighted average exercise price	\$7.93	\$10.67
Weighted average remaining contractual term (in years)	0.92	2.32

The following table summarizes non-vested restricted stock unit transactions for common stock during the six months ended August 31, 2013 and 2012:

	Six Months Ended	
	August 31, 2013	2012
Outstanding non-vested restricted stock units as of February 28 or 29:	57,030	101,980
Granted	280,900	-
Vested	(41,390)	(44,190)
Cancelled/forfeited	-	(560)
Outstanding non-vested restricted stock units as of August 31:	296,540	57,230
Weighted average grant date fair value	\$12.09	\$9.22
Weighted average remaining vesting period (in years)	5.49	1.63

During the six months ended August 31, 2013, the Company issued 4,000 fully vested, unrestricted shares of stock to non-employee directors compared with 4,000 fully vested, unrestricted shares of stock to non-employee directors in the six months ended August 31, 2012. There were no unrestricted shares of stock issued during the three-month periods ended August 31, 2013 or August 31, 2012. In connection with these non-employee director stock issuances, the Company recognized \$48,400 and \$37,200 of stock-based compensation expense during the six-month periods ended August 31, 2013 and 2012, respectively.

During the three and six month periods ended August 31, 2013, the Company recognized \$125,653 and \$220,061, respectively, of stock-based compensation expense related to non-vested, non-forfeited restricted stock unit grants. The restricted stock unit grants generally vest between 17% and 20% annually over a period of five to six years. During the three and six month periods ended August 31, 2013 and 2012, 41,390 and 44,190 restricted stock units vested and were issued as common stock, respectively. Total unrecognized compensation expense of non-vested, non-forfeited shares granted as of August 31, 2013 was \$3,500,868, which is expected to be recognized over the weighted-average period of 5.5 years.

There were no stock options awarded during the six months ended August 31, 2013 or August 31, 2012.

NOTE 2 - EARNINGS PER SHARE

Basic earnings per share is calculated using the weighted-average number of common shares outstanding. Diluted earnings per share reflects the potential dilution that could occur from common shares issuable through stock options and restricted stock units. For the three months ended August 31, 2013 there were no stock options excluded from the computation, compared with 101,661 stock options excluded from the computation of earnings per share for the three months ended August 31, 2012 because their effect would have been anti-dilutive. For the six months ended August 31, 2013 and 2012, 50,831 and 103,449 stock options, respectively, were excluded from the computation of earnings per share because their effect would have been anti-dilutive. Restricted stock units become dilutive within the period granted and remain dilutive until the units vest and are issued as common stock.

NOTE 3 – INVENTORIES

Inventories consist of the following:

NOTE 5 - STOCKHOLDERS' EQUITY

Stock Repurchases

On February 19, 2008, the Company announced the plan to purchase up to \$3.0 million of its common stock in the open market or in private transactions, whenever deemed appropriate by management. Between May 1, 2012 and May 31, 2012, the Company repurchased 33,800 shares under the plan at an average price of \$10.73 per share. Between June 1, 2012 and June 30, 2012, the Company repurchased 129,500 shares under the plan at an average price of \$10.45 per share. There were no repurchases of common stock during the three and six months ended August 31, 2013.

Cash Dividend

The Company paid a quarterly cash dividend of \$0.11 per share of common stock on March 15, 2013 to shareholders of record on March 1, 2013. The Company paid a quarterly cash dividend of \$0.11 per share of common stock on June 14, 2013 to shareholders of record June 4, 2013. The Company declared a quarterly cash dividend of \$0.11 per share of common stock on August 22, 2013 payable on September 13, 2013 to shareholders of record on September 3, 2013.

Future declaration of dividends will depend on, among other things, the Company's results of operations, capital requirements, financial condition and on such other factors as the Company's Board of Directors may in its discretion consider relevant and in the best long term interest of the shareholders.

NOTE 7 - OPERATING SEGMENTS

The Company classifies its business interests into five reportable segments: Franchising, Manufacturing, Retail Stores, U-Swirl, Inc. operations and Other. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in Note 1 to these financial statements and Note 1 to the Company's financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended February 28, 2013. The Company evaluates performance and allocates resources based on operating contribution, which excludes unallocated corporate general and administrative costs and income tax expense or benefit. The Company's reportable segments are strategic businesses that utilize common merchandising, distribution and marketing functions, as well as common information systems and corporate administration. All inter-segment sales prices are market based. Each segment is managed separately because of the differences in required infrastructure and the difference in products and services:

Amortization expense related to intangible assets totaled \$443 and \$4,988 during the six months ended August 31, 2013 and 2012, respectively. The decrease in amortization expense is primarily the result of some assets becoming fully amortized and Aspen Leaf Yogurt assets being sold. As of August 31, 2013 \$15,193 net intangible assets subject to amortization remained to be amortized through fiscal year 2024.

NOTE 9 – RELATED PARTY TRANSACTIONS

The Company has entered into Franchise Agreements and a Development Agreement with a member of the Company's Board of Directors. The Director operates two ALY locations under the Franchise Agreements and the Development Agreement. As of August 31, 2013, the Company had receivables of approximately \$2,600 due from the Director associated with the director's ownership and operation of the two current ALY locations.

U-Swirl, Inc. was owed \$6,520 and \$8,597 as of August 31, 2013 and February 28, 2013, respectively, from a U-Swirl franchise that is owned and operated by the grandchildren of the Company's Chief Marketing Officer. The corporate secretary and treasurer of the franchise is also the Company's corporate secretary.

As of August 31, 2013 and February 28, 2013, U-Swirl, Inc. had deferred revenue of \$30,000 and \$30,000, respectively, from an area developer in which the Company's Chief Executive Officer and Chief Operating Officer have a minority interest.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Note Regarding Forward-Looking Statements

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the unaudited financial statements and related notes of the Company included elsewhere in this report. The statements included in this report other than statements of historical fact, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, and include statements regarding our cash flow, dividends, operating income and future growth. Many of the forward-looking statements contained in this document may be identified by the use of forward-looking words such as "will," "believe," "expect," "anticipate," "estimate," "potential," or similar expressions. Factors which could cause results to differ include, but are not limited to: changes in the confectionery business environment, seasonality, consumer interest in our products, general economic conditions, the success of U-Swirl, Inc., receptiveness of our products internationally, consumer trends, costs and availability of raw materials, competition, the success of our co-branding strategy and the effect of government regulations. Government regulations which we and our franchisees either are or may be subject to and which could cause results to differ from forward-looking statements include, but are not limited to: local, state and federal laws regarding health, sanitation, safety, building and fire codes, franchising, employment, manufacturing, packaging and distribution of food products and motor carriers. For a detailed discussion of the risks and uncertainties that may cause our actual results to differ from the forward-looking statements contained herein, please see the "Risk Factors" contained in our Annual Report on Form 10-K for the fiscal year ended February 28, 2013 which can be viewed at the SEC's website at www.sec.gov or through our

website at www.rmcf.com. These forward-looking statements apply only as of the date of this report. Readers are cautioned not to place undue reliance on the forward-looking statements in this Quarterly Report on Form 10-Q. Except as required by law, we are not obligated to release publicly any revisions to these forward-looking statements that might reflect events or circumstances occurring after the date of this report or those that might reflect the occurrence of unanticipated events.

Overview

We are a product-based international franchisor, confectionery manufacturer and retail operator. Our revenues and profitability are derived principally from our franchised system of retail stores that feature chocolate, frozen yogurt, and other confectionery products. We also sell our candy in selected locations outside our system of retail stores to build brand awareness. We own and operate eighteen retail units as a laboratory to test marketing, design and operational initiatives.

The most important factors in continued growth in our earnings are ongoing unit growth, increased same-store sales and increased same-store pounds purchased from the factory. Historically, unit growth has more than offset decreases in same-store sales and same-store pounds purchased.

Our ability to successfully achieve expansion of our franchise systems depends on many factors not within our control, including the availability of suitable sites for new store establishment, the availability of adequate financing options and the availability of qualified franchisees to support such expansion.

Efforts to reverse the decline in same-store pounds purchased from the factory by franchised stores and to increase total factory sales depend on many factors, including new store openings, same-store sales, and the receptivity of our franchise system to our product introductions and promotional programs.

In January 2013, Ulysses Asset Acquisition, LLC (“Newco”), a wholly-owned subsidiary of the Company formed in the State of Colorado on January 2, 2013, entered into an agreement to acquire substantially all of the assets of YHI, Inc. and Yogurtini International, LLC (collectively, “Yogurtini”), which are the franchisors of self-serve frozen yogurt retail units branded as “Yogurtini.” In addition, we entered into two agreements to sell all of our membership interests in Newco and substantially all of our assets in Aspen Leaf Yogurt, LLC to U-Swirl, Inc., a publicly traded company (QTCQB: SWRL), in exchange for a 60% controlling equity interest in U-Swirl, Inc. Upon completion of these transactions, we ceased to operate any Company-owned Aspen Leaf Yogurt locations or sell and support franchise locations. We believe that the acquisition of 60% controlling interest in U-Swirl, Inc. will provide us with the ability to reverse operating losses incurred in prior fiscal years by the development and operation of Aspen Leaf Yogurt, LLC and provide an opportunity to continue to expand our presence in the self-serve frozen yogurt industry. Our ability to execute on this strategy is dependant upon continued expansion of the franchise network of U-Swirl, Inc. and the success of their franchisees. We have included U-Swirl Inc.’s performance into Management’s Discussion and Analysis of Financial Condition and Results of Operations.

In March 2013, we entered into a License Agreement covering the Kingdom of Saudi Arabia. Under the terms of the agreement, the licensee agreed to open and begin operating four (4) Rocky Mountain Chocolate Factory stores within 30 months following the execution of the agreement. The licensee has also been granted a 30-month option to convert its initial License Agreement into a Master License Agreement covering the entire country of Saudi Arabia. If the licensee chooses to exercise the option prior to its expiration date, the licensee (or through third-party franchisees) will acquire the right to develop an additional six (6) Rocky Mountain Chocolate Factory stores in the Kingdom of Saudi Arabia.

In March 2013, we entered into a License Agreement covering South Korea. Under the terms of the agreement, the licensee agreed to open five (5) Rocky Mountain Chocolate Factory stores within 30 months following the execution of the agreement. The first Rocky Mountain Chocolate Factory store was opened in Seoul, South Korea in May 2013. The licensee has also been granted a 30-month option to convert its initial License Agreement into a Master License

Agreement covering the entire country of South Korea. If the licensee chooses to exercise the option prior to its expiration date, the licensee (or through third-party franchisees) will acquire the right to develop not less than 30 Rocky Mountain Chocolate Factory stores, inclusive of the five (5) stores developed under the terms of the initial License Agreement. As of September 30, 2013, five locations were operating under the agreement.

Results of Operations

Three Months Ended August 31, 2013 Compared to the Three Months Ended August 31, 2012

Basic earnings per share increased 21.4% from \$.14 in the three months ended August 31, 2012 to \$.17 in the three months ended August 31, 2013. Revenues increased 12.1% from \$7.7 million in the three months ended August 31, 2012 to \$8.7 million in the same period of the current year. Operating income increased 25.5% from \$1.27 million in the three months ended August 31, 2012 to \$1.59 million in the same period of the current year. Net income increased 24.0% from \$829,000 in the three months ended August 31, 2012 to \$1,028,000 in the same period of the current year. The increase in revenues, operating income and net income was due primarily to income from operations related to our frozen yogurt business, compared with an operating loss in our frozen yogurt business in the same period of the prior year.

Factory Sales

The increase in factory sales for the three months ended August 31, 2013 versus the three months ended August 31, 2012 was primarily due to a 2.2% increase in same-store pounds purchased by our network of domestic franchised stores and an increase in shipments of product to customers outside our network of franchise retail locations. We believe the increase in same store pounds purchased during the period to primarily be the result of an increase in same-store retail sales at franchised Rocky Mountain Chocolate Factory retail locations. Same store sales at domestic Rocky Mountain Chocolate Factory locations increased 1.7% in the three months ended August 31, 2013, compared with the three months ended August 31, 2012.

Retail Sales

The increase in retail sales was primarily due to changes in units in operation, resulting from the acquisition of a majority ownership in U-Swirl, Inc. Same store sales at Company-owned stores decreased 0.4% in the three months ended August 31, 2013 compared to the three months ended August 31, 2012.

Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees from the three months ended August 31, 2012 to the three months ended August 31, 2013 resulted from a 18.6% increase in domestic franchise stores in operation from the three months ended August 31, 2012 to the three months ended August 31, 2013, primarily as a result of our acquisition of a majority ownership position in the U-Swirl franchise system. This increase was partially offset by a 5.5% decrease in the number of domestic Rocky Mountain Chocolate Factory franchises in operation. The average number of domestic Rocky Mountain Chocolate Factory franchise stores in operation decreased from 238 in the three months ended August 31, 2012 to 225 during the three months ended August 31, 2013. This decrease is primarily the result of domestic store closures exceeding domestic store openings. Franchise fee revenues increased as a result of an increase in the number of domestic franchise store openings from two in the three months ended August 31, 2012 to nine

openings in the three months ended August 31, 2013. This increase was primarily the result of U-Swirl, Inc. franchise openings.

Adjusted gross margin, a non-GAAP measure, is equal to the sum of our factory adjusted gross margin plus our retail gross margin calculated in accordance with GAAP. Factory adjusted gross margin is equal to factory gross margin minus depreciation and amortization expense. We believe adjusted gross margin and factory adjusted gross margin are helpful in understanding our past performance as a supplement to gross margin, factory gross margin, and other performance measures calculated in conformity with GAAP. We believe that adjusted gross margin and factory adjusted gross margin are useful to investors because they provide a measure of operating performance and our ability to generate cash that is unaffected by non-cash accounting measures. Additionally, we use adjusted gross margin and factory adjusted gross margin rather than gross margin and factory gross margin to make incremental pricing decisions. Adjusted gross margin and factory adjusted gross margin have limitations as an analytical tool because they exclude the impact of depreciation and amortization expense and you should not consider them in isolation or as a substitute for any measure reported under GAAP. Our use of capital assets makes depreciation and amortization expense a necessary element of our costs and our ability to generate income. Due to these limitations, we use adjusted gross margin and factory adjusted gross margin as measures of performance only in conjunction with GAAP measures of performance such as gross margin and factory gross margin. The following table provides a reconciliation of factory adjusted gross margin to factory gross margin, the most comparable performance measure under GAAP:

(\$'s in thousands)	Three Months Ended	
	August 31, 2013	2012
Factory adjusted gross margin	\$1,718.7	\$1,604.6

Costs and Expenses

Cost of Sales

Factory margins increased 150 basis points in the three months ended August 31, 2013 compared to the three months ended August 31, 2012 due primarily to an increase in the average selling price of products to domestic franchise units. The increase in Company-owned store margin is due primarily to an increase in U-Swirl stores in operation and the associated higher margins.

Franchise Costs

The decrease in franchise costs in the three months ended August 31, 2013 versus the three months ended August 31, 2012 is due primarily to a decrease in franchise development costs associated with Aspen Leaf Yogurt due to the sale of the Aspen Leaf Yogurt concept to U-Swirl in January 2013, partially offset by increased franchise costs from the consolidation of U-Swirl, Inc. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs decreased to 26.3% in the three months ended August 31, 2013 from 37.2% in the three months ended August 31, 2012. This decrease as a percentage of royalty, marketing and franchise fees is primarily a result of a 31.8% increase in royalty, marketing and franchise fee revenue as a result of an increase in system-wide franchise stores in the three months ended August 31, 2013.

Sales and Marketing

The increase in sales and marketing costs for the three months ended August 31, 2013 compared to the three months ended August 31, 2012 is primarily due to increased marketing-related compensation costs and an increase in marketing costs associated with U-Swirl, Inc. franchise locations.

General and Administrative

The increase in general and administrative costs for the three months ended August 31, 2013 compared to the three months ended August 31, 2012 is due primarily to the consolidation of U-Swirl, Inc.'s general and administrative costs and an increase in compensation related expenses. For the three months ended August 31, 2013, approximately \$310,000 of U-Swirl, Inc. general and administrative costs were consolidated within our results, compared with no amount in the three months ended August 31, 2012. As a percentage of total revenues, general and administrative expenses increased to 13.9% in the three months ended August 31, 2013 compared to 9.5% in the three months ended August 31, 2012.

Retail Operating Expenses

The increase in retail operating expense was primarily due to an increase in the average number of Company-owned stores in operation. The average number of Company-owned stores in operation increased from 17 during the three months ended August 31, 2012 to 19 units in the same period of the current year. Retail operating expenses, as a percentage of retail sales, decreased from 57.4% in the three months ended August 31, 2012 to 50.0% in the same period of the current year. This decrease is primarily the result of a change in units in operation, resulting from the acquisition of a majority interest in U-Swirl, Inc.

Depreciation and Amortization

Depreciation and amortization of \$236,000 in the three months ended August 31, 2013 increased 2.6% from \$230,000 incurred in the three months ended August 31, 2012, due to additional depreciable assets in service related to the increase in Company-owned stores in operation.

Interest Income

Interest income of \$15,000 realized in the three months ended August 31, 2013 represents an increase of \$3,500 from the \$11,500 realized in the three months ended August 31, 2012 due to an increase in notes receivable.

Income Tax Expense

Our effective income tax rate for the three months ended August 31, 2013 was 31.8%, compared to 35.2% for the three months ended August 31, 2012. The decrease of 3.4% was primarily the result of the consolidation of the U-Swirl, Inc. net operating income. U-Swirl, Inc. has significant net operating loss carryovers. In accordance with section 382 of the Internal Revenue Code, deductibility of U-Swirl, Inc.'s U.S. net operating loss carryovers may be subject to annual limitation in the event of a change in control. We have performed a preliminary evaluation as to whether a change in control has taken place, and have concluded that there was a change of control with respect to the net operating losses of U-Swirl, Inc. when the Company acquired its 60% ownership interest in January 2013. Our effective income tax rate may increase in future periods, or for the full year as a result of estimates related to the income tax liability arising from the income before income taxes of U-Swirl, Inc.

Six Months Ended August 31, 2013 Compared to the Six Months Ended August 31, 2012

Basic earnings per share increased 16.1% from \$.31 for the six months ended August 31, 2012 to \$.36 for the six months ended August 31, 2013. Revenues increased 8.4% to \$18.8 million for the six months ended August 31, 2013 compared to \$17.4 million in the same period of the prior year. Operating income increased 18.0% from \$2.9 million in the six months ended August 31, 2012 to \$3.4 million in the same period of the current year. Net income increased 16.7% from \$1.9 million in the six months ended August 31, 2012 to \$2.2 million in the same period of the current year. The increase in revenues, operating income and net income was due primarily to income from operations related to our frozen yogurt business, compared with an operating loss in our frozen yogurt business in the same period of the prior year.

Factory Sales

The decrease in factory sales for the six months ended August 31, 2013 versus the six months ended August 31, 2012 was primarily due to a 7.1% decrease in shipments of product to customers outside our network of franchised retail stores and a 5.0% decrease in the average number of domestic Rocky Mountain Chocolate Factory franchised stores in operation. These decreases were partially offset by a 2.5% increase in same-store pounds purchased by our network of franchised stores.

Retail Sales

The increase in retail sales was primarily due to changes in units in operation, resulting from the acquisition of a majority ownership in U-Swirl, Inc. Same store sales at Company-owned stores increased 1.2% in the six months ended August 31, 2013 compared to the six months ended August 31, 2012.

Royalties, Marketing Fees and Franchise Fees

The increase in royalties and marketing fees from the six months ended August 31, 2012 to the six months ended August 31, 2013 resulted from a 17.3% increase in domestic franchise stores in operation from the six months ended August 31, 2012 to the six months ended August 31, 2013, primarily as a result of our acquisition of a majority ownership position in the U-Swirl franchise system. This increase was partially offset by a decrease in the number of domestic Rocky Mountain Chocolate Factory franchises in operation. The average number of domestic Rocky Mountain Chocolate Factory franchise stores in operation decreased from 238 in the six months ended August 31, 2012 to 226 during the six months ended August 31, 2013. This decrease is primarily the result of domestic store closures exceeding domestic store openings. Franchise fee revenues increased primarily as a result of the license fees associated with the license agreements for the development and franchising of Rocky Mountain Chocolate Factory stores in South Korea and the Kingdom of Saudi Arabia. Same store sales at domestic Rocky Mountain Chocolate

Adjusted gross margin, a non-GAAP measure, is equal to the sum of our factory adjusted gross margin plus our retail gross margin calculated in accordance with GAAP. Factory adjusted gross margin is equal to factory gross margin minus depreciation and amortization expense. We believe adjusted gross margin and factory adjusted gross margin are helpful in understanding our past performance as a supplement to gross margin, factory gross margin, and other performance measures calculated in conformity with GAAP. We believe that adjusted gross margin and factory adjusted gross margin are useful to investors because they provide a measure of operating performance and our ability to generate cash that is unaffected by non-cash accounting measures. Additionally, we use adjusted gross margin and factory adjusted gross margin rather than gross margin and factory gross margin to make incremental pricing decisions. Adjusted gross margin and factory adjusted gross margin have limitations as an analytical tool because they exclude the impact of depreciation and amortization expense and you should not consider them in isolation or as a substitute for any measure reported under GAAP. Our use of capital assets makes depreciation and amortization expense a necessary element of our costs and our ability to generate income. Due to these limitations, we use adjusted gross margin and factory adjusted gross margin as measures of performance only in conjunction with GAAP measures of performance such as gross margin and factory gross margin. The following table provides a reconciliation of factory adjusted gross margin to factory gross margin, the most comparable performance measure under GAAP:

(\$'s in thousands)	Six Months Ended	
	August 31, 2013	2012
Factory adjusted gross margin	\$3,626.9	\$3,661.0
Less: Depreciation and Amortization	144.4	142.3
Factory GAAP gross margin	\$3,482.5	\$3,518.7
Costs and Expenses		

Cost of Sales

Factory margins decreased 10 basis points in the six months ended August 31, 2013 compared to the six months ended August 31, 2012 due primarily to a decline in manufacturing efficiencies associated with 2.5% lower production volume in the six months ended August 31, 2013 compared to the six months ended August 31, 2012. The increase in Company-owned store margin is due primarily to an increase in U-Swirl stores in operation and associated higher

margins.

Franchise Costs

The decrease in franchise costs for the six months ended August 31, 2013 compared to the six months ended August 31, 2012 is due primarily to a decrease in franchise development costs associated with Aspen Leaf Yogurt due to the sale of the Aspen Leaf Yogurt concept to U-Swirl in January 2013, partially offset by increased franchise costs from the consolidation of U-Swirl, Inc. As a percentage of total royalty and marketing fees and franchise fee revenue, franchise costs decreased to 25.1% in the six months ended August 31, 2013 from 35.9% in the six months ended August 31, 2012. This decrease as a percentage of royalty, marketing and franchise fees is primarily a result of a 29.6% increase in royalty, marketing and franchise fee revenue as a result of an increase in system-wide franchise stores in the six months ended August 31, 2013 compared to the six months ended August 13, 2012.

Sales and Marketing

The increase in sales and marketing costs for the six months ended August 31, 2013 compared to the six months ended August 31, 2012 is primarily due to increased marketing-related compensation costs and an increase in marketing costs associated with U-Swirl, Inc. franchise locations.

General and Administrative

The increase in general and administrative costs for the six months ended August 31, 2013 compared to the six months ended August 31, 2012 is due primarily to the consolidation of U-Swirl, Inc.'s general and administrative costs and an increase in compensation related expenses. For the six months ended August 31, 2013, approximately \$716,000 of U-Swirl, Inc. general and administrative costs were consolidated within our results, compared with no amount in the six months ended August 31, 2012. As a percentage of total revenues, general and administrative expenses increased to 13.2% in the six months ended August 31, 2013 compared to 8.9% in the same period of the prior year.

Retail Operating Expenses

The decrease in retail operating expense was primarily due to a change in the mix of Company-owned stores in operation, resulting from the acquisition of a majority interest in U-Swirl, Inc. during the six months ended August 31, 2013 compared with the same period of the prior year. The average number of Company-owned stores in operation increased from 18 during the six months ended August 31, 2012 to 20 units in the same period of the current year. Retail operating expenses, as a percentage of retail sales, decreased from 57.8% in the six months ended August 31, 2012 to 47.2% in the same period of the current year. This decrease is primarily the result of a change in units in operation, resulting from the acquisition of a majority interest in U-Swirl, Inc.

Depreciation and Amortization

Depreciation and amortization of \$472,000 in the six months ended August 31, 2013 increased 0.9% from \$468,000 incurred in the six months ended August 31, 2012 due to additional depreciable assets in service.

Interest Income

Interest income of \$27,000 realized in the six months ended August 31, 2013 represents an increase of \$4,000 from the \$23,000 realized in the same period of the prior year due to higher balances of notes receivable.

Income Tax Expense

Our effective income tax rate for the six months ended August 31, 2013 was 31.8%, compared to 35.1% for the six months ended August 31, 2012. The decrease of 3.3% was primarily the result of the consolidation of the U-Swirl, Inc. net operating income. U-Swirl, Inc. has significant net operating loss carryovers. In accordance with section 382 of the Internal Revenue Code, deductibility of U-Swirl, Inc.'s U.S. net operating loss carryovers may be subject to annual limitation in the event of a change in control. We have performed a preliminary evaluation as to whether a change in control has taken place, and have concluded that there was a change of control with respect to the net operating losses of U-Swirl, Inc. when the Company acquired its 60% ownership interest in January 2013. Our effective income tax rate may increase in future periods, or for the full year as a result of estimates related to the income tax liability arising from the income before income taxes of U-Swirl, Inc.

Liquidity and Capital Resources

As of August 31, 2013, working capital was \$10.3 million, compared with \$9.0 million as of February 28, 2013, an increase of \$1.3 million. The change in working capital was due primarily to operating results less the payment of dividends an increase in notes receivable and the purchase of equipment.

Cash and cash equivalent balances decreased from \$5.32 million as of February 28, 2013 to \$4.14 million as of August 31, 2013 as a result of cash dividend payments of \$1.3 million partially offset by cash flows provided by operating activities. Our current ratio was 3.44 to 1 at August 31, 2013 in comparison with 2.61 to 1 at February 28, 2013. We monitor current and anticipated future levels of cash and cash equivalents in relation to anticipated operating, financing and investing requirements.

We have a \$5.0 million (no amount was outstanding as of August 31, 2013) working capital line of credit collateralized by substantially all of our assets with the exception of our retail store assets. Additionally, the line of credit is subject to various financial ratio and leverage covenants. As of August 31, 2013, we were in compliance with all such covenants. The line is subject to renewal on July 31, 2014.

We believe cash flows generated by operating activities and available financing will be sufficient to fund our operations at least through the end of fiscal 2014.

Off-Balance Sheet Arrangements

As of August 31, 2013, we had no off-balance sheet arrangements or obligations.

Impact of Inflation

Inflationary factors such as increases in the costs of ingredients and labor directly affect our operations. Most of our leases provide for cost-of-living adjustments and require us to pay taxes, insurance and maintenance expenses, all of which are subject to inflation. Additionally, our future lease costs for new facilities may include potentially escalating costs of real estate and construction. There is no assurance that we will be able to pass on increased costs to our customers.

Depreciation expense is based on the historical cost to us of our fixed assets, and is therefore potentially less than it would be if it were based on current replacement cost. While property and equipment acquired in prior years will ultimately have to be replaced at higher prices, it is expected that replacement will be a gradual process over many years.

Seasonality

We are subject to seasonal fluctuations in sales, which cause fluctuations in quarterly results of operations. Historically, the strongest sales of our confectionary products have occurred during the Christmas holiday through Mother's Day. We believe the strongest sales of frozen yogurt products will occur during the summer months. In addition, quarterly results have been, and in the future are likely to be, affected by the timing of new store openings and sales of franchises. Because of the seasonality of our business and the impact of new store openings and sales of franchises, results for any quarter are not necessarily indicative of results that may be achieved in other quarters or for a full fiscal year.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We do not engage in commodity futures trading or hedging activities and do not enter into derivative financial instrument transactions for trading or other speculative purposes. We also do not engage in transactions in foreign currencies or in interest rate swap transactions that could expose us to market risk. However, we are exposed to some commodity price and interest rate risks.

We frequently enter into purchase contracts of between six to eighteen months for chocolate and certain nuts. These contracts permit us to purchase the specified commodity at a fixed price on an as-needed basis during the term of the contract. Because prices for these products may fluctuate, we may benefit if prices rise during the terms of these contracts, but we may be required to pay above-market prices if prices fall and we are unable to renegotiate the terms of the contract. As of August 31, 2013, based on future contractual obligations for chocolate products, we estimate that a 10.0% change in the prices of cocoa would result in an \$95,000 favorable or unfavorable price benefit or cost, respectively, resulting from our contracts.

We have a \$5.0 million bank line of credit that bears interest at a variable rate. As of August 31, 2013, no amount was outstanding under the line of credit. We do not believe that we are exposed to any material interest rate risk related to this credit facility.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)) that are designed to ensure that material information relating to us is made known to the officers who certify as to our financial reports and to other members of senior management and the Board of Directors. These disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports that are filed or submitted under the Exchange Act, are recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management, with the participation of our CEO and CFO, has evaluated the effectiveness, as of August 31, 2013, of our disclosure controls and procedures. We acquired a 60% controlling interest in U-Swirl, Inc. in January 2013 and U-Swirl’s operations are consolidated into our unaudited financial statements included in this report. As such, the scope of our assessment of the effectiveness of our disclosure controls and procedures did not include the internal controls over financial reporting at U-Swirl. This exclusion is consistent with the SEC’s guidance that an assessment of a recently acquired business may be omitted from the scope of our assessment of the effectiveness of disclosure controls and procedures that are also part of internal control over financial reporting in the year of acquisition. Based on that evaluation, our CEO and CFO have concluded that our disclosure controls and procedures were effective as of August 31, 2013.

Changes in Internal Control over Financial Reporting

As a result of the acquisition of U-Swirl, Inc. in January 2013, the Company is evaluating and implementing changes to processes, policies and other components of its internal control over financial reporting with respect to the consolidation of U-Swirl’s operations into the Company’s financial statements. Management continues to be engaged in substantial efforts to evaluate the effectiveness of our internal control procedures and the design of those control procedures relating to U-Swirl. Except for the activities described above, there were no changes in the Company’s internal control over financial reporting that occurred during the quarter ended August 31, 2013 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are not currently involved in any material legal proceedings other than routine litigation incidental to our business.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in Part 1, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended February 28, 2013. There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the fiscal year ended February 28, 2013.
