GRAY TELEVISION, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Basis of Presentation

The accompanying condensed consolidated balance sheet of Gray Television, Inc. (and its consolidated subsidiaries, except as the context otherwise provides, “Gray,” the “Company,” “we,” “us,” and “our”) as of December 31, 2013, which was derived from the Company’s audited financial statements as of December 31, 2013 and our accompanying unaudited condensed consolidated financial statements as of March 31, 2014 and for the periods ended March 31, 2014 and 2013 have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and note disclosures normally included in annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to those rules and regulations, although we believe that the disclosures made are adequate to make the information not misleading. In our opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair statement have been included. Our operations consist of one reportable segment. For further information, refer to the consolidated financial statements and footnotes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2013 (the “2013 Form 10-K”). Our financial condition as of, and operating results for the three-month period ended, March 31, 2014 are not necessarily indicative of the financial condition or results that may be expected for any future interim period or for the year ending December 31, 2014.

Seasonality and Cyclicity

Broadcast advertising revenues are generally highest in the second and fourth quarters each year. This seasonality results partly from increases in consumer advertising in the spring and retail advertising in the period leading up to and including the holiday season. Broadcast advertising revenues are also typically higher in even-numbered years due to increased spending by political candidates, political parties and special interest groups in advance of elections. This political spending typically is heaviest during the fourth quarter.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires our management to make estimates and assumptions that affect the amounts reported in the unaudited condensed consolidated financial statements and the notes to the unaudited condensed consolidated financial statements. Our actual results could differ materially from these estimates. The most significant estimates we make relate to our allowance for doubtful accounts in receivables,

valuation of goodwill and intangible assets, amortization of program broadcast rights and intangible assets, stock-based compensation, pension costs, income taxes, employee medical insurance claims, useful lives of property and equipment and contingencies.

Variable Interest Entity

We consolidate a VIE when we are determined to be the primary beneficiary. In accordance with U.S. GAAP, in determining whether we are the primary beneficiary of a VIE for financial reporting purposes, we consider whether we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and whether we have the obligation to absorb losses or the right to receive returns that would be significant to the VIE.

During the year ended December 31, 2013, we entered into a series of transactions with the News-Press Gazette Company and Excalibur Broadcasting, LLC (collectively with its subsidiaries, "Excalibur"), pursuant to which we acquired the non-license assets, and Excalibur acquired the license assets, of KJCT-TV and associated low power stations (collectively, "KJCT-TV"), in the Grand Junction, Colorado market. In connection therewith, we entered into a shared services agreement, pursuant to which we provide certain services, including back-office, engineering and sales support, and a lease agreement, pursuant to which we provide studio and office space, to Excalibur. We have also entered into a put and call option agreement with Excalibur, pursuant to which we have the right to purchase, and Excalibur has the right to require us to purchase, the license assets of KJCT-TV, upon receipt of Federal Communications Commission ("FCC") approval (the "KJCT-TV Option"). In connection with the consummation of Excalibur's acquisition of KJCT-TV's license assets, Excalibur incurred debt which Gray has guaranteed. The assets of Excalibur can only be used to settle the obligations of Excalibur. In compliance with FCC regulations, Excalibur maintains complete responsibility for and control over programming, finances, personnel and operations of KJCT-TV. See Note 2 "Long-term Debt" for more information.

Based on the terms of our agreements with, the significance of our investment in, and our guarantee of the debt of, Excalibur, we have determined that Excalibur is a VIE of Gray. We believe we are the primary beneficiary of Excalibur because, subject to the ultimate control of the licensees, we have the power to direct the activities which significantly impact the economic performance of Excalibur through the services we provide, and our obligation to absorb losses and earn returns that would be considered significant to Excalibur. Included in our condensed consolidated statements of operations for the three months ended March 31, 2014 and 2013 is revenue of \$0.4 million and \$0.0 million, respectively, attributable to Excalibur.

The carrying amounts and classification of the assets and liabilities of Excalibur described above have been included in our consolidated balance sheets as of March 31, 2014 and December 31, 2013 as follows (in thousands):

	March 31, 2014	December 31, 2013

Long-term debt, less current portion	2,750	2,800
Other long-term liabilities	2,621	3,106
Total liabilities	\$6,741	\$ 6,839

The assets of Excalibur can only be used to settle the obligations of Excalibur and may not be sold, or otherwise disposed of, except for assets sold or replaced with others of like kind or value. Other long-term liabilities of \$2.6 million and \$3.1 million, representing the fair value of the KJCT-TV Option as of March 31, 2014 and December 31, 2013, respectively, and accrued expenses due to Gray of \$1.1 million and \$0.7 million as of March 31, 2014 and December 31, 2013, respectively, were eliminated in our consolidated financial statements. The terms of the KJCT-TV Option provide for the acquisition of the license assets of KJCT-TV at an exercise price that was less than the carrying value of such assets as of March 31, 2014.

Earnings Per Share

We compute basic earnings per share by dividing net income attributable to common stockholders by the weighted-average number of common shares outstanding during the relevant period. The weighted-average number of common shares outstanding does not include restricted shares. These shares, although classified as issued and outstanding, are considered contingently returnable until the restrictions lapse and, in accordance with U.S. GAAP, are not included in the basic earnings per share calculation until the shares vest. Diluted earnings per share is computed by including all potentially dilutive common shares, including restricted shares and shares underlying stock options, in the denominator of the diluted weighted-average shares outstanding calculation, unless their inclusion would be antidilutive.

The following table reconciles basic weighted-average shares outstanding to diluted weighted-average shares outstanding for the three-month periods ended March 31, 2014 and 2013 (in thousands):

	Three Months Ended	
	March 31,	
	2014	2013
Weighted-average shares outstanding-basic	57,847	57,523
Common stock equivalents for stock options and restricted stock	439	178
Weighted-average shares outstanding-diluted	58,286	57,701

Accumulated Other Comprehensive Loss

Our accumulated other comprehensive loss balances as of March 31, 2014 and December 31, 2013 consist of adjustments to our pension liability and income tax benefit as follows (in thousands):

	March 31,	December 31,
	2014	2013
Accumulated balances of items included in accumulated other comprehensive loss:		
Increase in pension liability	\$(17,064)	\$(17,064)
Income tax benefit	(6,655)	(6,655)

Accumulated other comprehensive loss	\$(10,409) \$(10,409)
--------------------------------------	------------------------

Our comprehensive income for the three-month periods ended March 31, 2014 and 2013 consisted entirely of net income. Therefore, a consolidated statement of comprehensive income is not presented for the three-month periods ended March 31, 2014 or 2013.

Property and Equipment

Property and equipment are carried at cost. Depreciation is computed principally by the straight-line method. Maintenance, repairs and minor replacements are charged to operations as incurred; major replacements and betterments are capitalized. The cost of any assets sold or retired and the related accumulated depreciation are removed from the accounts at the time of disposition, and any resulting profit or loss is reflected in income or expense for the period. The following table lists components of property and equipment by major category (in thousands):

	March 31, 2014	December 31, 2013	Estimated Useful Lives (in years)
Property and equipment:			
Land	\$25,271	\$25,656	
Buildings and improvements	58,056	59,021	7 to 40
Equipment	321,195	323,603	3 to 20
	404,522	408,280	
Accumulated depreciation	(264,937)	(264,659)	
Total property and equipment, net	\$139,585	\$143,621	

Allowance for Doubtful Accounts

Our allowance for doubtful accounts is equal to at least 85% of our receivable balances that are 120 days old or older. We may provide allowances for certain receivable balances that are less than 120 days old when warranted by specific facts and circumstances. We generally write-off accounts receivable balances when the customer files for bankruptcy or when all commonly used methods of collection have been exhausted.

Recent Accounting Pronouncements

We have reviewed all recently issued accounting pronouncements. Of those pronouncements that have been issued but are not yet effective, we do not anticipate a material impact upon our financial statements upon our adoption of those pronouncements. None of the pronouncements that became effective and were adopted by us during the three months ended March 31, 2014 had a material effect upon our results of operations or financial position.

2. Long-term Debt

As of March 31, 2014 and December 31, 2013, long-term debt primarily consisted of our obligations under our senior credit facility (the “2012 Senior Credit Facility”), our 7½% Senior Notes due 2020 (the “2020 Notes”) and a term loan between a third party and Excalibur, a VIE whose financial condition and results we consolidate with ours in accordance with U.S. GAAP (the “Excalibur Loan”), as follows (in thousands):

	March 31, 2014	December 31, 2013
Long-term debt including current portion:		
2012 Senior Credit Facility	\$ 159,000	\$ 159,000
2020 Notes	675,000	675,000
Excalibur Loan	2,950	3,000
Other	3	48
Total outstanding principal	836,953	837,048
Plus unamortized premium on our 2020 Notes	5,610	5,826
Less current portion	(203)	(224)
Net carrying value	\$ 842,360	\$ 842,650
 Borrowing availability under the 2012 Senior Credit Facility	 \$ 30,000	 \$ 30,000

Our 2012 Senior Credit Facility consists of a revolving loan (“2012 Revolving Credit Facility”) and a term loan. Excluding accrued interest, the amount outstanding under our 2012 Senior Credit Facility as of March 31, 2014 and December 31, 2013 was comprised solely of a term loan balance of \$159.0 million. Our maximum borrowing availability is limited by our required compliance with certain restrictive covenants, including a first lien net leverage ratio covenant. As of March 31, 2014 and December 31, 2013, we had a \$10.0 million letter of credit outstanding under the 2012 Revolving Credit Facility, which reduced our borrowing availability thereunder to \$30.0 million as of that date.

As of March 31, 2014 and December 31, 2013, we had \$675.0 million of our 2020 Notes outstanding.

As of March 31, 2014 and December 31, 2013, the balance outstanding of the Excalibur Loan was \$2.95 million and \$3.0 million, respectively.

As of March 31, 2014 and December 31, 2013, the interest rate on the balance outstanding under the 2012 Senior Credit Facility was 4.5% and 4.8%, respectively; the coupon interest rate was 7.5% and the yield was 7.6% on the 2020 Notes; and the interest rate on the balance outstanding under the Excalibur Loan was 4.75%.

As of March 31, 2014 and December 31, 2013, we had a deferred loan cost balance, net of accumulated amortization, of \$3.7 million and \$3.9 million, respectively, related to the 2012 Senior Credit Facility; and we had a deferred loan cost balance, net of accumulated amortization, of \$12.8 million and \$13.2 million, respectively, related to our 2020 Notes. The deferred loan cost balance, net of accumulated amortization, of the Excalibur Loan as of March 31, 2014 and December 31, 2013 was \$0.2 million.

Our obligations under the 2012 Senior Credit Facility are secured by substantially all of our and our consolidated subsidiaries' assets, including real estate. In addition, substantially all of our subsidiaries are joint and several guarantors of, and our ownership interests in those subsidiaries are pledged to collateralize, our obligations under the 2012 Senior Credit Facility. Excalibur is not a guarantor of, and its assets are not pledged to secure our obligations under, the 2012 Senior Credit Facility. Gray Television, Inc. is a holding company with no independent assets or operations. For all periods presented, the 2020 Notes have been fully and unconditionally guaranteed, on a joint and several, senior unsecured basis, by substantially all of Gray Television, Inc.'s subsidiaries. Any subsidiaries which do not guarantee such notes are "minor" (as defined in Rule 3-10(h) of Regulation S-X). As of March 31, 2014, there were no significant restrictions on the ability of Gray Television, Inc.'s subsidiaries to distribute cash to Gray or to the guarantor subsidiaries. Excalibur is not a guarantor of the 2020 Notes. The Excalibur Loan is secured by substantially all of Excalibur's assets, and we have jointly and severally guaranteed Excalibur's obligations under the Excalibur Loan, including the payment of all unpaid principal and interest.

The 2012 Senior Credit Facility contains affirmative and restrictive covenants that we must comply with, including (a) limitations on additional indebtedness, (b) limitations on liens, (c) limitations on the sale of assets, (d) limitations on guarantees, (e) limitations on investments and acquisitions, (f) limitations on the payment of dividends and share repurchases, (g) limitations on mergers, and (h) maintenance of a total leverage ratio not to exceed certain maximum limits, as well as other customary covenants for credit facilities of this type. The 2020 Notes include covenants with which we must comply and the Excalibur Loan includes covenants with which Excalibur must also comply, each of which are typical for borrowing transactions of their respective nature. As of March 31, 2014 and December 31, 2013, we were in compliance with all required covenants under all our debt obligations.

See Note 1 “Basis of Presentation” for more information about Excalibur.

3. Fair Value Measurement

To determine fair value, we utilize market data or assumptions that market participants would use in pricing an asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated or generally unobservable. We utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized into a hierarchy that gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (“Level 1”) and the lowest priority to unobservable inputs that require assumptions to measure fair value (“Level 3”). Level 2 inputs are those that are other than quoted prices on national exchanges included within Level 1 that are observable for the asset or liability either directly or indirectly (“Level 2”).

Fair Value of Other Financial Instruments

The estimated fair value of other financial instruments is determined using market information and appropriate valuation methodologies. Interpreting market data to develop fair value estimates involves considerable judgment. The use of different market assumptions may have a material effect on the estimated fair value amounts. Accordingly, the estimates presented are not necessarily indicative of the amounts that we could realize in a current market exchange, or the value that ultimately will be realized upon maturity or disposition.

The carrying amounts of the following instruments approximate fair value due to their short term to maturity: (i) accounts receivable, (ii) prepaid and other current assets, (iii) accounts payable, (iv) accrued employee compensation and benefits, (v) accrued interest, (vi) other accrued expenses, (vii) acquisition-related liabilities and (viii) deferred revenue.

The carrying amount of our long-term debt was \$842.6 million and \$842.9 million, respectively, and the fair value was \$895.1 million and \$877.5 million, respectively, as of March 31, 2014 and December 31, 2013. We classify long-term debt within Level 2 of the fair value hierarchy. Fair value of our long-term debt is based on observable estimates provided by third party financial professionals as of March 31, 2014 and December 31, 2013.

4. Retirement Plans

The following table provides the components of net periodic benefit cost for our pension plans for the three-month periods ended March 31, 2014 and 2013, respectively (in thousands):

	Three Months Ended March 31,	
	2014	2013
Service cost	\$1,345	\$1,325
Interest cost	1,070	917
Expected return on plan assets	(1,094)	(830)
Loss amortization	252	742
Net periodic benefit cost	\$1,573	\$2,154

During the three months ended March 31, 2014, we contributed \$1.0 million to our pension plans. During the remainder of 2014, we expect to contribute an additional \$5.1 million to our pension plans.

5. Stock-based Compensation

We recognize compensation expense for stock-based payment awards made to our employees and directors, including stock options and restricted shares under our 2007 Long-Term Incentive Plan, as amended (the "2007 Incentive Plan") and our Directors' Restricted Stock Plan. The following table provides our stock-based compensation expense and related income tax benefit for the three-month periods ended March 31, 2014 and 2013, respectively (in thousands).

	Three Months Ended March 31,	
	2014	2013
Stock-based compensation expense, gross	\$2,071	\$136
Income tax benefit at our statutory rate associated with stock-based compensation	(808)	(53)
Stock-based compensation expense, net	\$1,263	\$83

2007 Long-Term Incentive Plan

The 2007 Long-Term Incentive Plan provides for the grant of incentive stock options, nonqualified stock options, restricted stock awards, stock appreciation rights, and performance awards to acquire shares of our Class A common stock or common stock, or the receipt of other awards based on our performance, to our employees and non-employee directors.

During the three-month period ended March 31, 2014, we granted 312,961 shares of restricted common stock to our employees, of which 68,991 shares vested on the date of grant; 127,316 shares will vest on January 17, 2015; and 58,327 shares will vest on each of January 17, 2016 and January 17, 2017. Also during the three-month period ended March 31, 2014, we granted 194,413 shares of restricted Class A common stock to an employee, of which 31,821 shares vested on the date of grant; 75,412 shares will vest on January 17, 2015; and 43,590 shares will vest on each of January 17, 2016 and January 17, 2017. Also during the three-month period ended March 31, 2014, we granted 41,881 shares of restricted Class A common stock to our non-employee directors, all of which will vest on January 1, 2015. During the three-month period ended March 31, 2013, we granted 318,852 shares of restricted common stock to our employees. Of these shares, 107,224 vested in the year ended December 31, 2013; 70,542 shares vested on March 19, 2014; and 70,542 will vest on each of March 19, 2015 and March 19, 2016. During the three-month period ended March 31, 2013, we granted 63,210 shares of restricted common stock to our non-employee directors. These shares vested on January 1, 2014.

Directors' Restricted Stock Plan

The Directors' Restricted Stock Plan authorizes the grant of restricted stock awards to our non-employee directors. During the three-month periods ended March 31, 2014 and 2013 we did not grant any restricted stock awards under the Directors' Restricted Stock Plan.

A summary of restricted common stock activity for the three-month periods ended March 31, 2014 and 2013 is as follows:

	Three Months Ended March 31, 2014		March 31, 2013

For the three-month period ended March 31, 2014, we did not have any stock options outstanding for our Class A common stock. The aggregate intrinsic value of our stock options was \$2.3 million based on the closing market price of our common stock on March 31, 2014.

6. Commitments and Contingencies

Acquisition Commitments

As of March 31, 2014, we were party to various acquisition agreements pursuant to which we have committed to pay an aggregate of approximately \$312.5 million to complete these pending acquisitions. Completion of these acquisitions is subject to various conditions, some of which are outside of our control, and which include, in some instances, the approval of the acquisition by the Federal Communications Commission. No assurances of the timing of such approvals can be provided.

Legal Proceedings and Claims

From time to time, we are or may become subject to legal proceedings and claims that arise in the normal course of our business. In our opinion, the amount of ultimate liability, if any, with respect to known actions, will not materially affect our financial position. However, the outcome of any one or more matters cannot be predicted with certainty, and the unfavorable resolution of any matter could have a material adverse effect on us.

Sports Marketing Agreement

On October 12, 2004, the University of Kentucky (“UK”) awarded a sports marketing agreement jointly to us and IMG Worldwide, Inc. (“IMG”) (the “UK Agreement”). The UK Agreement expires April 15, 2015.

The UK Agreement provides that we will share in profits in excess of certain amounts specified by the agreement, if any, but not losses. The agreement also provides that we will separately retain all local broadcast advertising revenue and pay all local broadcast expenses for activities under the agreement. Under the agreement, IMG agreed to make all license fee payments to UK. However, if IMG is unable to pay the license fee to UK, we will then be required to pay the unpaid portion of the license fee to UK. As of March 31, 2014, the aggregate license fee to be paid by IMG to UK over the remaining term of the agreement is approximately \$13.3 million. If we make advances on behalf of IMG, IMG is required to reimburse us for the amount paid within 60 days after the close of each contract year, which ends on June 30th. IMG has also agreed to pay interest on any advance at a rate equal to the prime rate. During the three-month period ended March 31, 2014, we did not advance any amounts to UK on behalf of IMG under this agreement. As of March 31, 2014, we do not consider the risk of non-performance by IMG to be high.

7. Goodwill and Intangible Assets

Our intangible assets are primarily comprised of network affiliations and broadcast licenses. There were no triggering events that required a test of impairment of our goodwill or intangible assets during the three-month periods ended March 31, 2014 or 2013.

8. Income Taxes

For the three-month periods ended March 31, 2014 and 2013, our income tax expense and effective income tax rates were as follows (dollars in thousands):

	Three Months Ended March 31,	
	2014	2013
Income tax expense	\$859	\$1,651
Effective income tax rate	40.2 %	65.5 %

We estimate our differences between taxable income or loss and recorded income or loss on an annual basis. Our tax provision for each quarter is based upon these full year projections, which are revised each reporting period. These projections incorporate estimates of permanent differences between U.S. GAAP income or loss and taxable income or loss, state income taxes and adjustments to our liability for unrecognized tax benefits to adjust our statutory Federal income tax rate of 35.0% to our effective income tax rate. For the three-month period ended March 31, 2014, these estimates increased or decreased our statutory Federal income tax rate of 35.0% to our effective income tax rate of 40.2% as follows: state income taxes added 4.4%, permanent differences between our U.S. GAAP income and taxable income added 1.0% and adjustments to our reserve for uncertain tax positions resulted in a reduction of 0.2%. For the three-month period ended March 31, 2013, these estimates increased or decreased our statutory Federal income tax rate of 35.0% to our effective income tax rate of 65.5% as follows: an adjustment specific to the quarter resulting from the expiration of certain unexercised stock options added 24.6%, state income taxes added 4.7%, permanent differences between our U.S. GAAP income and taxable income added 1.6%, and adjustments to our reserve for uncertain tax positions resulted in a reduction of 0.4%.

9. Subsequent Events

Edgar Filing: GRAY TELEVISION INC - Form 10-Q

On April 1, 2014, we completed the acquisition of WQCW (TV), Portsmouth, Ohio and WOCW-LP, Charleston, West Virginia (collectively, "WQCW-TV") at which time we paid the remaining \$0.9 million of the unpaid purchase price to complete the acquisition. WQCW-TV serves as the CW affiliate for the Charleston/Huntington, West Virginia, television market.

On May 1, 2014, Gray completed its acquisition of KEVN-TV and its satellite station KIVV-TV from Mission TV, LLC for a purchase price of \$7.75 million. These stations serve as the Fox affiliate for the Rapid City, South Dakota, television market.

Also on May 1, 2014, Gray completed its acquisition of certain assets of KNDX-TV and its satellite station KXND-TV (collectively, "KNDX-TV"), as well as certain assets of the related low-power stations KNDX-LP and KXND-LP, from Prime Cities Broadcasting, Inc. ("Prime Cities") for an aggregate purchase price of \$7.0 million. These stations serve as the Fox affiliate for the Minot-Bismarck, North Dakota, television market. On May 1, 2014, Gray also began operating these four stations pursuant to a local marketing agreement ("LMA") with Prime Cities. The LMA will terminate with respect to KNDX-TV (but not the low-power stations) upon Gray's acquisition of any other full-power television station in the Minot-Bismarck television market.

Also on May 1, 2014, Gray and Prime Cities entered into an agreement for Gray to acquire the FCC licenses of KNDX-LP and KXND-LP (but not KNDX-TV) for an aggregate purchase price of \$0.5 million. We anticipate closing the low-power station acquisitions in the second or third quarter of 2014 subject to the receipt of FCC approval and other customary conditions.

On May 5, 2014, Gray entered into an agreement to acquire KTVH-TV, the NBC affiliate for the Helena, Montana, television market, and KBGF-TV, the NBC affiliate for the Great Falls, Montana, television market from Intermountain West Communications Company. Gray also entered into an agreement to acquire KMTF-TV, the CW affiliate for the Helena market from Rocky Mountain Broadcasting Company, subject to receipt of a "failing station waiver" from the FCC. On June 1, 2014, Gray will begin operating the NBC stations pursuant to a LMA. The aggregate purchase price to complete these acquisitions is approximately \$2.0 million.

Gray funded, or will fund, the total cost of these acquisitions with cash from operations and borrowings under its 2012 Senior Credit Facility.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Executive Overview

Introduction

The following analysis of the financial condition and results of operations of Gray Television, Inc. and its consolidated subsidiaries (except as the context otherwise provides, “Gray,” the “Company,” “we,” “us” or “our,”) should be read in conjunction with our unaudited condensed consolidated financial statements and related notes contained in this report and our audited consolidated financial statements and related notes contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 (the “2013 Form 10-K”). Gray’s consolidated financial condition and results of operations include the accounts of Excalibur Broadcasting, LLC (collectively with its subsidiaries, “Excalibur”), a variable interest entity that Gray is required to consolidate under generally accepted accounting principles. Included in Gray’s results of operations for the three months ended March 31, 2014 and 2013 is net revenue of \$0.4 million and \$0.0 million, respectively, of Excalibur.

Overview

We are a television broadcast company headquartered in Atlanta, Georgia, that owns and operates television stations and digital properties in markets throughout the United States. As of March 31, 2014, we owned and/or operated television stations in 34 television markets broadcasting a total of 110 programming streams, including 24 affiliates of the CBS Network (“CBS”), 14 affiliates of the NBC Network (“NBC”), nine affiliates of the ABC Network (“ABC”) and five affiliates of the FOX Network (“FOX”).

Within a market, we broadcast secondary digital channels that are in addition to our primary broadcast channels. Our secondary broadcast channels are generally affiliated with networks different from those affiliated with our primary broadcast channels, and are operated by us to make better use of our broadcast spectrum by providing supplemental and/or alternative programming to our primary channels. Certain of our secondary channels are affiliated with more than one network simultaneously. In addition to affiliations with ABC, CBS and FOX, our secondary channels are affiliated with the following networks: the CW Network or the CW Plus Network (collectively, “CW”), MyNetworkTV (“MyNet.”), the MeTV Network (“MeTV”), This TV Network (“This TV”), Antenna TV (“Ant.”), Live Well Network (“LW”) and Telemundo (“Tel.”). We also broadcast nine local news/weather channels in certain of our existing markets. Our combined TV station group reaches approximately 6.4% of total United States households.

As of the date hereof, we have pending acquisitions of television stations broadcasting a total of 26 programming streams in six additional markets and three of our existing markets in the United States. Following completion of our pending transactions (described below), we expect to reach approximately 7.3% of total United States households.

Television Industry Background

The Federal Communications Commission (the “FCC”) grants broadcast licenses to television stations. Historically, there have been a limited number of channels available for broadcasting in any one geographic area.

Television station revenue is derived primarily from local and national advertising. Television station revenue is derived to a much lesser extent from retransmission consent fees; network compensation; studio and tower space rental; and commercial production activities. “Advertising” refers primarily to advertisements broadcast by television stations, but it also includes advertisements placed on a television station’s website and sponsorships of television programming and off-line content (such as email messages, mobile applications, and other electronic content distributed by stations). Advertising rates are based upon: (i) the size of a station’s market, (ii) a station’s overall ratings, (iii) a program’s popularity among targeted viewers, (iv) the number of advertisers competing for available time, (v) the demographic makeup of the station’s market, (vi) the availability of alternative advertising media in the market, (vii) the presence of effective sales forces and (viii) the development of projects, features and programs that tie advertiser messages to programming. Rates can also be determined in part by a station’s overall ratings and in-market share, as well as the station’s ratings and market share among particular demographic groups that an advertiser may be targeting. Advertisers’ budgets, which can be affected by broad economic trends, can affect the broadcast industry in general and the revenue of individual broadcast television stations.

Cyclicality and Seasonality

Broadcast stations like ours rely on advertising revenue and this revenue is sensitive to cyclical changes in the economy. As a result, improvement in general economic conditions resulted in improvements of our non-political advertising revenue in the first quarter of 2014 compared to the first quarter of 2013.

Broadcast advertising revenue is generally highest in the second and fourth quarters each year. This seasonality results partly from increases in consumer advertising in the spring and retail advertising in the period leading up to and including the holiday season. Broadcast advertising revenue is also typically higher in even-numbered years due to increased spending by political candidates, political parties and special interest groups in advance of elections. This political spending typically is heaviest during the fourth quarter.

For the three month period ended March 31, 2014, our largest advertising customer category was automotive. For the three month periods ended March 31, 2014 and 2013, we earned approximately 25% and 24%, respectively, of our total broadcast advertising revenue from our automotive customers. Our business and operating results could be materially adversely affected if advertising revenue from automotive customers decreases. Our business and operating results could also be materially adversely affected if revenue decreased from one or more other significant advertising categories, such as the medical, restaurant, communications, furniture and appliances, entertainment, or financial service industries.

Please see our “Results of Operations” and “Liquidity and Capital Resources” sections below for further discussion of our operating results.

Revenue

Set forth below are the principal types of revenue, less agency commissions, earned by us for the periods indicated and the percentage contribution of each type of revenue to our total revenue (dollars in thousands):

Results of Operations

Three Months Ended March 31, 2014 (“2014 three-month period”) Compared to Three Months Ended March 31, 2013 (“2013 three-month period”)

Revenue. Total revenue increased \$13.1 million, or 17%, to \$91.3 million in the 2014 three-month period primarily due to increases in local advertising revenue and retransmission consent revenue, as well as, an expected increase in political advertising revenue. We began providing services to one new full-power station (“KJCT-TV”) on October 31, 2013 and began operating additional stations in three new markets (the “Yellowstone Stations”) on November 1, 2013 (collectively, the “Acquired Stations”). The Acquired Stations accounted for approximately \$3.4 million of our total revenue in the 2014 three-month period. Retransmission consent revenue increased \$6.4 million, or 66%, to \$16.1 million due to increased retransmission consent rates. Political advertising revenue increased \$2.2 million, or 336%, to \$2.8 million due to 2014 being the “on year” of the two year election cycle which resulted in increased spending by political candidates, political parties and special interest groups in the 2014 three-month period. Local advertising revenue increased \$4.6 million, or 10%, to \$51.0 million. National advertising revenue decreased \$0.1 million, or 1%, to \$13.3 million in the 2014 three-month period compared to the 2013 three-month period. Our local advertising revenue continued to increase primarily due to increased spending in an improving economy. Local and national advertising revenue in the 2014 three-month period benefited from approximately \$3.8 million earned from the broadcast of the 2014 Winter Olympic Games on our fourteen NBC affiliated stations. There was no corresponding Olympic Games advertising revenue during the 2013 three-month period. Local and national advertising revenue included the broadcast of the 2014 Super Bowl on our five FOX channels, which earned us approximately \$0.2 million, a decrease of approximately \$0.9 million compared to the broadcast of the 2013 Super Bowl on our then 20 CBS channels that earned us approximately \$1.1 million.

Our five largest local and national advertising categories on a combined local and national basis by customer type, excluding political advertising, demonstrated the following changes during the 2014 three-month period compared to the 2013 three-month period: automotive increased 11%; medical increased 13%; communications increased 4%; restaurant decreased 21%; and furniture and appliances decreased 3%.

Broadcast Expenses. Broadcast expenses (before depreciation, amortization and loss or gain on disposal of assets) increased \$6.9 million, or 13%, to \$60.4 million in the 2014 three-month period, due primarily to increases in non-compensation expense of \$5.3 million and compensation expense of \$1.6 million. The Acquired Stations accounted for approximately \$3.0 million of broadcast expense in the 2014 three-month period. Non-compensation expense increased primarily due to increases in network affiliation fees, programming costs, software license fees and consulting fees, bad debt expense and other professional fees. Compensation expense increased primarily due to increases in salaries, incentive compensation and non-cash stock-based compensation, offset, in part by decreases in healthcare and pension expenses. During the 2014 three-month period and the 2013 three-month period, we recorded broadcast non-cash stock-based compensation expense of \$0.7 million and \$0.1 million, respectively. Broadcast non-cash stock-based compensation expense increased primarily due to a grant of restricted common stock to certain employees in the 2014 three-month period.

Corporate and Administrative Expenses. Corporate and administrative expenses (before depreciation, amortization and loss or gain on disposal of assets) increased \$2.7 million, or 70%, to \$6.5 million, due primarily to increases in compensation expense of \$1.6 million and non-compensation expense of \$1.1 million. Compensation expense increased primarily due to increases in non-cash stock-based compensation expenses and routine increases in salary expense. Non-compensation expense increased primarily due to increases in legal and other professional fees associated with our pending acquisitions. During the 2014 three-month period and the 2013 three-month period, we recorded corporate non-cash stock-based compensation expense of \$1.4 million and \$0.1 million, respectively. Non-compensation expense increased primarily due to the grant of restricted stock to certain employees and to our non-employee directors in the 2014 three-month period.

Depreciation. Depreciation of property and equipment totaled \$6.4 million and \$5.8 million for the 2014 three-month period and the 2013 three-month period, respectively. Depreciation increased primarily due to the addition of depreciable assets acquired in the fourth quarter of 2013.

Interest Expense. Interest expense increased \$2.7 million, or 22%, to \$15.3 million for the 2014 three-month period compared to the 2013 three-month period. This increase was attributable to an increase in average interest rates and an increase in average principal outstanding. The average interest rate on our total outstanding debt balance was 7.0% and 5.7% during the 2014 three-month period and the 2013 three-month period, respectively. Our average outstanding debt balance was \$836.9 million and \$835.0 million during the 2014 three-month period and the 2013 three-month period, respectively.

Income tax expense. We recognized income tax expense of \$0.9 million and \$1.7 million in the 2014 three-month period and the 2013 three-month period, respectively. For the 2014 three-month period and the 2013 three-month period, our effective income tax rate was 40.2% and 65.5%, respectively. We estimate our differences between taxable income or loss and recorded income or loss on an annual basis. Our tax provision for each quarter is based upon these full year projections which are revised each reporting period. These projections incorporate estimates of permanent differences between U.S. GAAP income or loss and taxable income or loss, state income taxes and adjustments to our liability for unrecognized tax benefits. For the 2014 three-month period, these estimates increased or decreased our statutory Federal income tax rate of 35.0% to our effective income tax rate of 40.2% as follows: state income taxes added 4.4%, permanent differences between our U.S. GAAP income and taxable income added 1.0% and adjustments to our reserve for uncertain tax positions resulted in a reduction of 0.2%.

Liquidity and Capital Resources

General

The following table presents data that we believe is helpful in evaluating our liquidity and capital resources (in thousands).

Long-term debt, including current portion	\$842,563	\$842,874
Borrowing availability under the 2012 Senior Credit Facility	\$30,000	\$30,000

Our 2012 Senior Credit Facility consists of a revolving loan and a term loan. Excluding accrued interest, the amount outstanding under our 2012 Senior Credit Facility as of March 31, 2014 and December 31, 2013 was comprised solely of a term loan balance of \$159.0 million. Our maximum borrowing availability is limited by our required compliance with certain restrictive covenants, including a first lien net leverage ratio covenant. As of March 31, 2014 and December 31, 2013, we had a \$10.0 million letter of credit outstanding under the 2012 Revolving Credit Facility, which reduced our borrowing availability thereunder to \$30 million as of that date.

As of March 31, 2014 and December 31, 2013, we had \$675.0 million of our 2020 Notes outstanding.

As of March 31, 2014 and December 31, 2013, the balance outstanding of the Excalibur Loan was \$2.95 million and \$3.0 million, respectively.

As of March 31, 2014 and December 31, 2013, the interest rate on the balance outstanding under the 2012 Senior Credit Facility was 4.5% and 4.8%, respectively; the coupon interest rate was 7.5% and the yield was 7.6% on the 2020 Notes; and the interest rate on the balance outstanding under the Excalibur Loan was 4.75%.

As of March 31, 2014 and December 31, 2013, we had a deferred loan cost balance, net of accumulated amortization, of \$3.7 million and \$3.9 million, respectively, related to the 2012 Senior Credit Facility; and we had a deferred loan cost balance, net of accumulated amortization, of \$12.8 million and \$13.2 million, respectively, related to our 2020 Notes. The deferred loan cost balance, net of accumulated amortization, of the Excalibur Loan as of March 31, 2014 and December 31, 2013 was \$0.2 million.

Our obligations under the 2012 Senior Credit Facility are secured by substantially all of our and our consolidated subsidiaries' assets, including real estate. In addition, substantially all of our subsidiaries are joint and several guarantors of, and our ownership interests in those subsidiaries are pledged to collateralize, our obligations under the 2012 Senior Credit Facility. Excalibur is not a guarantor of, and its assets are not pledged to secure our obligations under, the 2012 Senior Credit Facility. The Excalibur Loan is secured by substantially all of Excalibur's assets, and we have jointly and severally guaranteed Excalibur's obligations under the Excalibur Loan, including the payment of all unpaid principal and interest.

The 2012 Senior Credit Facility contains affirmative and restrictive covenants that we must comply with, including (a) limitations on additional indebtedness, (b) limitations on liens, (c) limitations on the sale of assets, (d) limitations on guarantees, (e) limitations on investments and acquisitions, (f) limitations on the payment of dividends and share repurchases, (g) limitations on mergers, and (h) maintenance of a total leverage ratio not to exceed certain maximum limits, as well as other customary covenants for credit facilities of this type. The 2020 Notes include covenants with which we must comply and the Excalibur Loan includes covenants with which Excalibur must also comply, each of which are typical for borrowing transactions of their respective nature. As of March 31, 2014 and December 31, 2013, we were in compliance with all required covenants under all our debt obligations.

Net Cash Provided By (Used In) Operating, Investing and Financing Activities

Net cash provided by operating activities was \$16.4 million in the 2014 three-month period compared to net cash provided by operating activities of \$17.6 million in the 2013 three-month period. We generated increased revenue but incurred increased interest payments and programming payments in the 2014 three-month period compared to the 2013 three-month period.

Net cash used in investing activities was \$2.7 million in the 2014 three-month period compared to net cash used in investing activities of \$7.7 million for the 2013 three-month period. The decrease in cash used in investing activities was largely due to a decrease in the purchases of property and equipment in the 2014 three-month period compared to the 2013 three-month period. Also, we purchased broadcast licenses for \$1.2 million in the 2013 three-month period. We did not have similar purchases of licenses in the 2014 three-month period.

Net cash used in financing activities was approximately \$0.2 million in the 2014 three-month period compared to net cash provided by financing activities of \$0.0 million in the 2013 three-month period.

Liquidity

As of March 31, 2014, required debt principal repayments over the next twelve months consisted primarily of \$0.2 million due under the Excalibur Loan. As of March 31, 2014, we estimate that we will make approximately \$58.2 million in debt interest payments over the next twelve months immediately following March 31, 2014. Depending upon timing of the completion of our pending acquisitions, capital expenditures may increase to between \$25.0 million and \$30.0 million during the twelve months immediately following March 31, 2014. We also estimate as of March 31, 2014, that we will be required to pay approximately \$312.5 million to complete currently pending acquisitions. These acquisitions are subject to a number of conditions, some of which may be out of our control, and which include, in some instances, FCC approval. No assurances of the timing of the satisfaction of these conditions can be provided. Although our cash flows from operations are subject to a number of risks and uncertainties, we

anticipate that our cash on hand, future cash expected to be generated from operations, borrowings from time to time under the 2012 Senior Credit Facility (or any such other credit facility as may be in place at the appropriate time) and, potentially, external equity or debt financing, will be sufficient to fund these debt service obligations, estimated capital expenditures and acquisition-related obligations. Any potential equity or debt financing would depend upon, among other things, the costs and availability of such financing at the appropriate time. We also presently believe that our future cash expected to be generated from operations and borrowing availability under the 2012 Senior Credit Facility (or any such other credit facility) will be sufficient to fund our future capital expenditures and long-term debt service obligations until at least October 12, 2019, which is the maturity date of the term loan under the 2012 Senior Credit Facility.

Capital Expenditures

Capital expenditures in the 2014 and 2013 three-month periods were \$3.8 million and \$6.5 million, respectively. We anticipate that our capital expenditures for the remainder of 2014 will range between approximately \$21.2 million and \$26.2 million.

Acquisitions

During the three month period ended March 31, 2014, we paid \$4.6 million of the total purchase price for WQCW-TV located in Portsmouth, Ohio and WOCW-TV located in Charleston, WV. On April 1, 2014, we completed these acquisitions and paid the remaining \$0.9 million payable in connection therewith. We funded the total cost of these acquisitions with funds from operations.

Other

We file a consolidated federal income tax return and such state or local tax returns as are required. Although we may earn taxable operating income in future years, as of March 31, 2014, we anticipate that through the use of our available loss carryforwards we will not pay significant amounts of federal or state income taxes for the next several years.

We do not believe that inflation has had a significant impact on our results of operations nor do we expect it to have a significant effect upon our business in the near future.

During the three months ended March 31, 2014, we contributed \$1.0 million to our pension plans. During the remainder of 2014, we expect to contribute an additional \$5.1 million to our pension plans.

Critical Accounting Policies

The preparation of financial statements in conformity with U.S. GAAP requires management to make judgments and estimations that affect the amounts reported in the financial statements and accompanying notes. Actual results could

differ from those estimates. We consider our accounting policies relating to intangible assets and income taxes to be critical policies that require judgments or estimations in their application where variances in those judgments or estimations could make a significant difference to future reported results. These critical accounting policies and estimates are more fully disclosed in our 2013 Form 10-K.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q (this “Quarterly Report”) contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21 E of the Securities Exchange Act of 1934. Forward-looking statements are all statements other than those of historical fact. When used in this Quarterly Report, the words “believes,” “expects,” “anticipates,” “estimates,” “will,” “may,” “should” and similar words and expressions are generally intended to identify forward-looking statements. Among other things, statements that describe our expectations regarding our results of operations, general and industry-specific economic conditions, future pension plan contributions and capital expenditures are forward-looking statements. Readers of this Quarterly Report are cautioned that any forward-looking statements, including those regarding the intent, belief or current expectations of our management, are not guarantees of future performance, results or events and involve risks and uncertainties, and that actual results and events may differ materially from those contained in the forward-looking statements as a result of various factors including, but not limited to, those listed under the heading “Risk Factors” in our 2013 Form 10-K and as may be described in subsequently filed quarterly reports on Form 10-Q, as well as the other factors described from time to time in our filings with the Securities and Exchange Commission. Forward-looking statements speak only as of the date they are made. We undertake no obligation to update such forward-looking statements to reflect subsequent events or circumstances.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

We believe that the market risk of our financial instruments as of March 31, 2014 has not materially changed since December 31, 2013. Our market risk profile on December 31, 2013 is disclosed in our 2013 Form 10-K.

Item 4. Controls and Procedures

As of the end of the period covered by this Quarterly Report, an evaluation was carried out under the supervision and with the participation of management, including the Chief Executive Officer (“CEO”) and the Chief Financial Officer (“CFO”), of the effectiveness of our disclosure controls and procedures. Based on that evaluation, the CEO and the CFO have concluded that, as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or furnish under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and to ensure that such information is accumulated and communicated to our management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosures. No system of controls, no matter how well designed and implemented, can provide absolute assurance that the objectives of the system of controls are met and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

There were no changes in our internal control over financial reporting during the three-month period ended March 31, 2014 identified in connection with this evaluation that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

Please refer to the information set out under the heading “Risk Factors” in Part I, Item 1A in our 2013 Form 10-K for a description of risk factors that we determined to be most material to our financial condition and results of operation. We do not believe there have been any material changes in these risk factors.
