Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
The Ford Motor Company Savings and Stock
Investment Plan for Salaried Employees

We have audited the accompanying statements of net assets available for benefits of the Ford Motor Company Savings and Stock Investment Plan for Salaried Employees as of December 31, 2005 and 2004 and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2005 and 2004, and the changes in net assets for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year as of December 31, 2005 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. This supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Ford Motor Company Savings and Stock Investment Plan for Salaried Employees

**Notes to Financial Statements
December 31, 2005 and 2004**

Note 1 - Description of the Plan

The following description of the Ford Motor Company Savings and Stock Investment Plan for Salaried Employees (the "Plan") provides only general information. The Plan was established effective February 1, 1956. Participants should refer to the provisions of the Plan that are governed in all respects by the detailed terms and conditions contained in the Plan document.

Type and Purpose of the Plan - The Plan is a defined contribution plan established to encourage and facilitate systematic savings and investment by eligible salaried employees of Ford Motor Company (the "Company") and to provide them with an opportunity to become stockholders of the Company. The Plan includes provisions for voting shares of Company stock. It is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") applicable to defined contribution pension plans.

Eligibility - With certain exceptions, regular full-time salaried employees are eligible to participate in the Plan on the first day of the second month following the original date of hire. Participants are eligible for any applicable Company matching contributions after twelve months of service. Certain other part-time and temporary employees also may be eligible to participate in the Plan. Participation in the Plan is voluntary.

Contributions - Participants can contribute to the Plan on both a pretax and after-tax basis subject to Federal tax law and Plan limits. Participants may also elect to contribute all, or a portion of their distributions under the Company's Performance Bonus Plan, Ford Financial (Annual) Variable Incentive Plan, and Flexible Compensation Account. A contribution in an amount corresponding to each election is made by the Company to the Plan on the participant's behalf. Subject to IRC limits, pretax contributions are excluded from the participant's federal and most state and local taxable income.

Effective July 1, 2004, the Company reinstated matching contributions at a rate of \$.60 for each dollar contributed up to 5 percent of participants' base salary. Effective July 1, 2005, the Company suspended matching contributions. Company matching contributions are subject to forfeiture if participants terminate employment before they are vested. All Company matching contributions initially were invested in the Ford Stock Fund and there were no restrictions on the participant's ability to exchange out of the Ford Stock Fund. Contributions to the Pretax Program from the Performance Bonus Plan, Ford Financial (Annual) Variable Incentive Plan, and the Flexible Compensation Account Program were not eligible for the Company match.

**Notes to Financial Statements
December 31, 2005 and 2004**

Note 1 - Description of the Plan (Continued)

Subject to Ford Motor Company approval, participants may elect to roll over amounts from other qualifying plans or arrangements in accordance with the Internal Revenue Code. For the year ended December 31, 2005, transfers from other qualifying plans or arrangements amounted to \$7,700,483, which are included in employee contributions in the statement of changes in net assets available for plan benefits.

Activity for participants in the Ford Stock Fund who have elected to receive dividends paid in the form of cash instead of purchasing additional shares is reported in the statement of changes in net assets available for benefits.

Participant Accounts - A participant's account balance is comprised of their contributions, Company contributions, if any, and investment income earned from the individual investment options selected by the participant. Certain investment options will charge a fee on short-term transfers which is paid from the participant's account. The benefit to which a participant is entitled is determined from the participant's vested account balance.

Vesting and Distribution - Participants are fully vested in account balances related to their pre-tax and after-tax contributions and earnings thereon. Pretax assets, after-tax assets, and assets resulting from Company matching contributions are accounted for separately.

Company matching contributions vest three years after the original date of hire. At that time, all assets attributable to Company matching contributions held in participants' accounts become vested, and all future contributions vest when they are made. In-service withdrawals of vested Company match contributions are permissible for participants who are at least 59-1/2 years of age. Withdrawal of such contributions for participants less than 59-1/2 years of age is limited to those contributions that have been in the Plan for two years following the end of the year in which the contributions were made.

Pretax assets may not be withdrawn by participants until the termination of their employment or until they reach 59-1/2 years of age, except in the case of personal financial hardship.

Unmatched after-tax assets can be withdrawn at any time without restriction. Withdrawal of matched after-tax assets that have been in the Plan for less than two years will result in a suspension from making contributions to the Plan for a period of 12 months.

**Notes to Financial Statements
December 31, 2005 and 2004**

Note 1 - Description of the Plan (Continued)

Participants may transfer vested Company matching contributions into other available Master Trust investment options, subject to exchange restrictions imposed by the various investment options.

Investment Contracts with Insurance Companies - The Interest Income Fund is a stable value investment option of the Master Trust comprised of short-term fixed income securities and insurance contracts that seek to preserve principal. There is no immediate recognition of investment gains and losses on the fixed income securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the fund under the contracts.

There were no reserves against contract value for credit risk of the contract issuer or otherwise during 2005 and 2004. The average yield and crediting interest rate was approximately 3.65 percent for 2005. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0 percent. Such interest rates are reviewed on an annual basis for resetting.

Transfer of Assets - The Plan permits the transfer of assets among investment options held by the Master Trust, subject to certain trading restrictions imposed on some of the investment options.

Participant Loans - The Plan permits loans to participants from both their pretax and after-tax accounts. Monthly loan interest rates are based on the prime rate published in The Wall Street Journal on the last business day of the prior month.

A participant is eligible to take out one loan per calendar year, and to have only four loans outstanding at any one time. Regular loans may be for a minimum of one year, but not exceeding five years. Home loans are for a period of ten years.

Participant loans are included in the statements of net assets available for benefits. Loans that are considered to be in default by the Plan are reclassified as withdrawals.

Forfeitures and Plan Administration Expenses - The Plan permits the Company to use assets forfeited by participants to pay plan administrative expenses and, to the extent not used to pay such expenses, to reduce the Company's future contributions to the Plan. To the extent that forfeited assets are not available to pay certain administrative expenses, the Company pays such expenses directly.

Ford Motor Company Savings and Stock Investment Plan for Salaried Employees

**Notes to Financial Statements
December 31, 2005 and 2004**

Note 1 - Description of the Plan (Continued)

Related-Party Transactions - Certain Master Trust investment options are mutual funds and other investment products managed by Fidelity Management and Research Company, which is a wholly owned subsidiary of FMR Corp. Fidelity Management Trust Company, also a wholly owned subsidiary of FMR Corp. is the trustee as defined by the Plan. Fidelity Investments Institutional Operations Company, Inc., also a wholly owned subsidiary of FMR Corp., is the administrator for the Plan. Additionally, Barclays Global Investors and World Asset Management are paid investment management fees by the Company on behalf of the Plan. Fees paid to these entities for trustee, administrative, and other fees qualify as related party transactions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investments - The mutual funds and common/collective trust funds are at net asset value of the shares/units held. The investment in the Ford Stock Fund and the investments in all other funds, except the Interest Income Fund, are valued on the basis of quoted year-end market prices. The Interest Income Fund is stated at contract value, which approximates fair value. Contract value represents contributions made under the contracts, plus interest at the annual contract rate, less withdrawals paid out to participants. Participant loans are valued at cost, which approximates fair value. The average S&P and Moody's credit quality ratings for the underlying investments of the Interest Income Fund were AA+ and Aa1, respectively. The Common Stock Index Fund and the U.S. Extended Market Index Fund are stated at the aggregate market value of the individual collective pools included in each respective fund.

Purchases and sales of investments by the Master Trust are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Income from other investments of the Master Trust is recorded as earned on an accrual basis.

Contributions - Contributions to the Plan from participants and, when applicable, from the Company and participating subsidiaries (as defined in the Plan) are recorded in the period that payroll deductions are made from Plan participants.

Payment of Benefits - Benefits are recorded when paid.

Ford Motor Company Savings and Stock Investment Plan for Salaried Employees

**Notes to Financial Statements
December 31, 2005 and 2004**

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Master Trust's invested assets consist of Company stock, equity and fixed income mutual funds, equity and fixed income commingled institutional pools, and stable value investments. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

New Accounting Pronouncements - In December 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (FSP). This FSP makes the definition of benefit-responsive more restrictive so that certain investment contracts currently reported at contract value may need to be reported at fair value. Management has not yet determined the impact this standard, which is effective for the plan year ending December 31, 2006, will have on the Plan's financial statements.

Note 3 - The Master Trust

The Company established the Master Trust pursuant to a trust agreement between the Company and Fidelity Management Trust Company, as trustee of the funds, in order to permit the commingling of trust assets of several employee benefit plans for investment and administrative purposes. The assets of the Master Trust are held by Fidelity Management Trust Company.

**Notes to Financial Statements
December 31, 2005 and 2004**
Note 3 - The Master Trust (Continued)

Employee benefit plans participating in the Master Trust as of December 31, 2005 and 2004 include the following defined contribution plans:

- Ford Motor Company Savings and Stock Investment Plan for Salaried Employees
 - Ford Motor Company Tax-Efficient Savings Plan for Hourly Employees
 - Ford Retirement Plan

All transfers to, withdrawals from, or other transactions regarding the Master Trust shall be conducted in such a way that the proportionate interest in the Master Trust of each plan and the fair market value of that interest may be determined at any time. The interest of each such plan shall be debited or credited (as the case may be) (i) for the entire amount of every contribution received on behalf of such plan (including participant contributions), every distribution, or other expense attributable solely to such plan, and every other transaction relating only to such plan; and (ii) for its proportionate share of every item of collected or accrued income, gain or loss, and general expense, and of any other transactions attributable to the Trust or that investment option as a whole.

A summary of the assets of the Master Trust as of December 31, 2005 and 2004 is as follows:

	2005	2004
Investments - fair value:		
Ford Stock Fund	\$ 2,656,849,064	\$ 5,644,011,155

Note 3 - The Master Trust (Continued)

During the year ended December 31, 2005, the Master Trust investment loss was comprised of the following:

Net appreciation (depreciation):	
Mutual funds	\$ 229,017,866
Common and commingled institutional pools	121,361,197
Ford Stock Fund	(2,485,933,063)
Total net depreciation	(2,135,554,000)
Interest and dividend income	428,282,408
Total Master Trust investment loss	\$ (1,707,271,592)

The Plan's interest in the Master Trust represented approximately 69 percent of the total assets in the Master Trust at both December 31, 2005 and 2004.

A summary of the assets of the Plan as of December 31, 2005 and 2004 is as follows:

Interest and dividend income	295,489,962
Total Plan investment loss	\$ (1,071,729,809)

Note 4 - The Ford Stock Fund

The Ford Stock Fund is a unitized account that is comprised exclusively of Ford Motor Company common stock except a small portion of the fund is invested in cash or a cash equivalent or other short term investments to provide liquidity for daily activity.

The Ford Stock Fund consists of assets from the following sources: employee contributions (including rollovers), employee loan repayments, exchanges into the fund from other investment options, employer matching contributions (vested and unvested), earnings and dividends. All participant assets are self-directed.

Information about the Master Trust net assets relating to the Ford Stock Fund is as follows at December 31:

	2005	2004

**Notes to Financial Statements
December 31, 2005 and 2004**

Note 5 - Plan Amendments

Effective December 31, 2004, the Plan fiscal year changed to a calendar year ending December 31.

Note 6 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated July 8, 2003, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The Plan has since been amended through April 13, 2006. The Company believes that the Plan is currently designed and being operated in compliance with the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Administration of Plan Assets

The Master Trust assets are held by the Trustee of the Plan, Fidelity Management Trust Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan, nor does the Company allocate any costs to the Plan.

Note 8 - Plan Termination

The Company, by action of the Board of Directors, may terminate the Plan at any time. Termination of the Plan would not affect the rights of a participant as to (a) the continuance of investment, distribution or withdrawal of the securities, cash and cash value of the Ford Stock Fund units in the account of the participant as of the effective date of such termination, or (b) continuance of vesting of such securities and cash attributable to Company matching contributions or earnings thereon. Upon termination of the Plan, participants would become fully vested. In the event of termination all loans would become due immediately upon such termination. There are currently no plans to terminate the Plan.

Note 9 - Subsequent Event

Effective May 18, 2006, United States Trust Company, National Association has been appointed as the independent fiduciary and investment manager for the Ford Stock Fund that holds shares of common stock of Ford Motor Company.
