

AMERICAN INTERNATIONAL GROUP INC
Form 10-Q
August 03, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934**

For the quarterly period ended June 30, 2018

Commission File Number 1-8787

American International Group, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

13-2592361

(I.R.S. Employer
Identification No.)

175 Water Street, New York, New York

(Address of principal executive offices)

10038

(Zip Code)

Registrant's telephone number, including area code: (212) 770-7000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

| | | | | |
|----------------------------|-------------------|---|------------------------------|----------------------------|
| Large accelerated filer | Accelerated filer | Non-accelerated filer | Smaller reporting company | Emerging growth company |
| | | (Do not check if a smaller reporting company) | | |

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 30, 2018, there were 888,446,269 shares outstanding of the registrant’s common stock.

AMERICAN INTERNATIONAL GROUP, INC.

TABLE OF CONTENTS

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 1. Basis of Presentation**

1. Basis of Presentation

American International Group, Inc. (AIG) is a leading global insurance organization serving customers in more than 80 countries and jurisdictions. AIG companies serve commercial and individual customers through one of the most extensive worldwide property casualty networks of any insurer. In addition, AIG companies are leading providers of life insurance and retirement services in the United States. AIG Common Stock, par value \$2.50 per share (AIG Common Stock), is listed on the New York Stock Exchange (NYSE: AIG) and the Tokyo Stock Exchange. Unless the context indicates otherwise, the terms “AIG,” “we,” “us” or “our” mean American International Group, Inc. and its consolidated subsidiaries and the term “AIG Parent” means American International Group, Inc. and not any of its consolidated subsidiaries.

These unaudited Condensed Consolidated Financial Statements do not include all disclosures that are normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP) and should be read in conjunction with the audited Consolidated Financial Statements and the related notes included in our Annual Report on Form 10-K for the year ended December 31, 2017 (the 2017 Annual Report). The condensed consolidated financial information as of December 31, 2017 included herein has been derived from the audited Consolidated Financial Statements in the 2017 Annual Report.

Certain of our foreign subsidiaries included in the Condensed Consolidated Financial Statements report on different fiscal-period bases. The effect on our consolidated financial condition and results of operations of all material events occurring at these subsidiaries through the date of each of the periods presented in these Condensed Consolidated Financial Statements has been considered for adjustment and/or disclosure. In the opinion of management, these Condensed Consolidated Financial Statements contain normal recurring adjustments, including eliminations of material intercompany accounts and transactions, necessary for a fair statement of the results presented herein.

Interim-period operating results may not be indicative of the operating results for a full year. We evaluated the need to recognize or disclose events that occurred subsequent to June 30, 2018 and prior to the issuance of these Condensed Consolidated Financial Statements.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the application of accounting policies that often involve a significant degree of judgment. Accounting policies that we believe are most dependent on the application of estimates and assumptions are considered our critical accounting estimates and are related to the determination of:

- liability for unpaid losses and loss adjustment expenses (loss reserves);
- reinsurance assets;
- valuation of future policy benefit liabilities and timing and extent of loss recognition;
- valuation of liabilities for guaranteed benefit features of variable annuity products;
- estimated gross profits to value deferred policy acquisition costs for investment-oriented products;
- impairment charges, including other-than-temporary impairments on available for sale securities, impairments on other invested assets, including investments in life settlements, and goodwill impairment;
- allowances for loan losses;

- liability for legal contingencies;
- fair value measurements of certain financial assets and liabilities; and
- income tax assets and liabilities, including recoverability of our net deferred tax asset and the predictability of future tax operating profitability of the character necessary to realize the net deferred tax asset and provisional estimates associated with the Tax Act.

These accounting estimates require the use of assumptions about matters, some of which are highly uncertain at the time of estimation. To the extent actual experience differs from the assumptions used, our consolidated financial condition, results of operations and cash flows could be materially affected.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 1. Basis of Presentation****OUT OF PERIOD ADJUSTMENTS**

For the three- and six-month periods ended June 30, 2018, our results included out of period adjustments relating to prior periods that increased Net income attributable to AIG by \$116 million and \$191 million, respectively, and increased Income from continuing operations before income taxes by \$148 million and \$257 million, respectively. The out of period adjustments are primarily related to earned premium on certain multi-year insurance policies related to earlier accident years and adjustments to universal life benefit reserves.

We determined that these adjustments were not material to the current quarter or to any previously reported quarterly or annual financial statements.

2. Summary of Significant Accounting Policies**Accounting Standards Adopted During 2018****Revenue Recognition**

In May 2014, the FASB issued an accounting standard that supersedes most existing revenue recognition guidance. The standard excludes from its scope the accounting for insurance contracts, leases, financial instruments, and certain other agreements that are governed under other GAAP guidance, but could affect the revenue recognition for certain of our other activities.

We adopted the standard using the modified retrospective approach on its required effective date of January 1, 2018. Our analysis of revenues indicated that substantially all of our revenues were from sources excluded from the scope of the standard. For those revenue sources within the scope of the standard, there were no material changes in the timing or measurement of revenues based upon the guidance. As substantially all of our revenue sources were excluded from the scope of the standard, the adoption of the standard did not have a material effect on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Recognition and Measurement of Financial Assets and Financial Liabilities

In January 2016, the FASB issued an accounting standard that will require equity investments that do not follow the equity method of accounting or are not subject to consolidation to be measured at fair value with changes in fair value recognized in earnings, while financial liabilities for which fair value option accounting has been elected, changes in fair value due to instrument-specific credit risk will be presented separately in other comprehensive income. The standard allows the election to record equity investments without readily determinable fair values at cost, less impairment, adjusted for subsequent observable price changes with changes in the carrying value of the equity investments recorded in earnings. The standard also updates certain fair value disclosure requirements for financial instruments carried at amortized cost.

We adopted the standard on its effective date of January 1, 2018 using the modified retrospective approach. The impact of the adoption is primarily related to the reclassification of unrealized gains of equity securities resulting in a net decrease to beginning Accumulated other comprehensive income and a corresponding net increase to beginning Retained earnings of \$824 million.

Classification of Certain Cash Receipts and Cash Payments

In August 2016, the FASB issued an accounting standard that addresses diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The amendments provide clarity on the treatment of eight specifically defined types of cash inflows and outflows.

We adopted the standard retrospectively on its effective date of January 1, 2018. The standard addresses presentation in the statement of cash flows only and did not have a material impact on our reported consolidated financial condition, results of operations or required disclosures.

Intra-Entity Transfers of Assets Other than Inventory

In October 2016, the FASB issued an accounting standard that will require an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs, rather than when the asset is sold to a third party.

We adopted the standard on its effective date of January 1, 2018 using a modified retrospective approach. The adoption of this standard did not have a material impact on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

TABLE OF CONTENTS

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 2. Summary of Significant Accounting Policies**

Restricted Cash

In November 2016, the FASB issued an accounting standard that provides guidance on the presentation of restricted cash in the Statement of Cash Flows. Entities will be required to explain the changes during a reporting period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents in the statement of cash flows.

We adopted the standard retrospectively on its effective date of January 1, 2018. The standard addresses presentation of restricted cash in the Statement of Cash Flows only and had no effect on our reported consolidated financial condition, results of operations or required disclosures.

Gains and Losses from the Derecognition of Nonfinancial Assets

In February 2017, the FASB issued an accounting standard that clarifies the scope of the derecognition guidance for the sale, transfer and derecognition of non-financial assets to noncustomers that aligns with the new revenue recognition principles. The standard also adds new accounting for partial sales of nonfinancial assets (including real estate) that requires an entity to derecognize a nonfinancial asset when it 1) ceases to have a controlling financial interest in the legal entity that holds the asset based on the consolidation model and 2) transfers control of the asset based on the revenue recognition model.

We adopted this standard on its effective date of January 1, 2018 under the modified retrospective approach. Based on our evaluation, the standard did not have a material impact on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Improving the Presentation of Net Periodic Pension and Postretirement Benefit Cost

In March 2017, the FASB issued an accounting standard that requires entities to report the service cost component of net periodic pension and postretirement benefit costs in the same line item as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net periodic benefit costs are required to be separately presented in the income statement. The amendments also allow only the service cost component to be eligible for capitalization when applicable.

We adopted this standard on its effective date of January 1, 2018. The standard primarily addresses the presentation of the service cost component of net periodic benefit costs in the income statement. AIG's U.S. pension plans are frozen and no longer accrue benefits, which are reflected as service costs. Therefore, the standard did not have a material effect on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Modification of Share-Based Payment Awards

In May 2017, the FASB issued an accounting standard that provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting.

We prospectively adopted this standard on its effective date of January 1, 2018 and the standard did not have a material effect on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income

In February 2018, the FASB issued an accounting standard that allows the optional reclassification of stranded tax effects within accumulated other comprehensive income to retained earnings that arise due to the enactment of the Tax Cuts and Jobs Act of 2017 (Tax Act). The amount of the reclassification would reflect the effect of the change in the U.S. federal corporate income tax rate on the gross deferred tax amounts and related valuation allowances, if any, at the date of enactment of the Tax Act and other income tax effects of the Tax Act on items remaining in accumulated other comprehensive income.

We adopted the standard effective January 1, 2018. The impact of the adoption of the standard resulted in an increase to beginning Accumulated other comprehensive income and a corresponding decrease to beginning Retained earnings of \$248 million. *For more information on the adoption of the Tax Act, see Note 14.*

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 2. Summary of Significant Accounting Policies****Future Application of Accounting Standards****Leases**

In February 2016, the FASB issued an accounting standard that will require lessees with lease terms of more than 12 months to recognize a right of use asset and a corresponding lease liability on their balance sheets. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating leases or finance leases.

We plan to adopt the standard on its effective date of January 1, 2019 using a modified retrospective approach. We are currently quantifying the expected recognition on our balance sheet for a right to use asset and a lease liability as required by the standard. We do not expect the impact of the standard to have a material effect on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Financial Instruments - Credit Losses

In June 2016, the FASB issued an accounting standard that will change how entities account for credit losses for most financial assets, trade receivables and reinsurance receivables. The standard will replace the existing incurred loss impairment model with a new “current expected credit loss model” that generally will result in earlier recognition of credit losses. The standard will apply to financial assets subject to credit losses, including loans measured at amortized cost, reinsurance receivables and certain off-balance sheet credit exposures. Additionally, the impairment of available-for-sale debt securities, including purchased credit deteriorated securities, are subject to the new guidance and will be measured in a similar manner, except that losses will be recognized as allowances rather than reductions in the amortized cost of the securities. The standard will also require additional information to be disclosed in the footnotes.

The standard is effective on January 1, 2020, with early adoption permitted on January 1, 2019. We are continuing to develop our implementation plan to adopt the standard and are assessing the impact of the standard on our reported consolidated financial condition, results of operations, cash flows and required disclosures. While we expect an increase in our allowances for credit losses for the financial instruments within scope of the standard, given the objective of the new standard, the amount of any change will be dependent on our portfolios’ composition and quality at the adoption date as well as economic conditions and forecasts at that time.

Simplifying the Test for Goodwill Impairment

In January 2017, the FASB issued an accounting standard that eliminates the requirement to calculate the implied fair value of goodwill, through a hypothetical purchase price allocation, to measure a goodwill impairment charge. Instead, entities will record an impairment charge based on the excess of a reporting unit’s carrying amount over its fair value not to exceed the total amount of goodwill allocated to that reporting unit. An entity should also consider income tax effects from tax deductible goodwill on the

carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable.

The standard is effective on January 1, 2020, with early adoption permitted. We are evaluating the timing of our adoption. Any impact of the standard will be dependent on the market conditions of the reporting units at the time of adoption.

Premium Amortization on Purchased Callable Debt Securities

In March 2017, the FASB issued an accounting standard that shortens the amortization period for certain callable debt securities held at a premium by requiring the premium to be amortized to the earliest call date. The standard does not require an accounting change for securities held at a discount, which continue to be amortized to maturity.

We plan to adopt the standard retrospectively on its effective date, January 1, 2019. We do not expect the standard to have a material impact on our reported consolidated financial condition, results of operations, cash flows or required disclosures.

Derivatives and Hedging

In August 2017, the FASB issued an accounting standard that improves and expands hedge accounting for both financial and commodity risks. The provisions of the amendment are intended to better align the accounting with an entity's risk management activities, enhance the transparency on how the economic results are presented in the financial statements and the footnote, and simplify the application of hedge accounting treatment.

The standard is effective on January 1, 2019, with early adoption permitted. We are evaluating the timing of adoption and are assessing the impact of the standard on our reported consolidated financial condition, results of operations, cash flows and required disclosures.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited)** | **3. Segment Information****3. Segment Information**

We report our results of operations consistent with the manner in which our chief operating decision makers review the business to assess performance and allocate resources, as follows.

General Insurance

General Insurance business is presented as two operating segments:

- **North America** — consists of insurance businesses in the United States, Canada and Bermuda.
- **International** — consists of insurance businesses in Japan, the United Kingdom, Europe, Asia Pacific, Latin America, Puerto Rico, Australia, the Middle East and Africa.

Results are presented before internal reinsurance transactions. North America and International operating segments consist of the following products:

- Commercial Lines — consists of Liability, Financial Lines, Property and Special Risks.
- Personal Insurance — consists of Personal Lines and Accident and Health.

Life and Retirement

Life and Retirement business is presented as four operating segments:

- **Individual Retirement** — consists of fixed annuities, fixed index annuities, variable annuities and retail mutual funds.
- **Group Retirement** — consists of group mutual funds, group fixed annuities, group variable annuities, individual annuity and investment products, financial planning and advisory services.
- **Life Insurance** — primary products in the U.S. include term life and universal life insurance. International operations include distribution of life and health products in the UK and Ireland.
- **Institutional Markets** — consists of stable value wrap products, structured settlement and pension risk transfer annuities, corporate- and bank-owned life insurance and guaranteed investment contracts (GICs).

Other Operations

Other Operations category consists of:

- Income from assets held by AIG Parent and other corporate subsidiaries.

- General operating expenses not attributable to specific reporting segments.
- Interest expense.
- **Blackboard** —a data-enabled, digital subsidiary that provides the commercial insurance industry with alternative solutions using digital technology, data analytics and automation.
- **Fuji Life** — consists of term insurance, life insurance, endowment policies and annuities. The sale of this business was completed on April 30, 2017.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 3. Segment Information****Legacy Portfolio**

Legacy Portfolio represents exited or discontinued product lines, policy forms or distribution channels. Effective February 2018, our Bermuda domiciled composite reinsurer, DSA Reinsurance Company, Ltd. (DSA Re) is included in our Legacy Portfolio.

- **Legacy Life and Retirement Run-Off Lines** - Reserves consist of certain structured settlements, pension risk transfer annuities and single premium immediate annuities written prior to April 2012. Also includes exposures to whole life, long-term care and exited accident & health product lines.
- **Legacy General Insurance Run-Off Lines** - Reserves consist of excess workers' compensation, environmental exposures and exposures to other products within General Insurance that are no longer actively marketed. Also includes the remaining reserves in Eaglestone Reinsurance Company (Eaglestone).
- **Legacy Investments** - Includes investment classes that we have placed into run-off including holdings in direct investments as well as investments in global capital markets and global real estate.

We evaluate segment performance based on adjusted revenues and adjusted pre-tax income (loss). Adjusted revenues and adjusted pre-tax income (loss) are derived by excluding certain items from total revenues and net income (loss) attributable to AIG, respectively. *For the items excluded from adjusted revenues and adjusted pre-tax income (loss) see the table below.*

The following table presents AIG's continuing operations by operating segment:

Three Months Ended June 30,

| | 2018 | |

* Includes all net realized capital gains and losses except earned income (periodic settlements and changes in settlement accruals) on derivative instruments used for non-qualifying (economic) hedging or for asset replication.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****4. Fair Value Measurements****Fair Value Measurements on a Recurring Basis**

Assets and liabilities recorded at fair value in the Condensed Consolidated Balance Sheets are measured and classified in accordance with a fair value hierarchy consisting of three “levels” based on the observability of valuation inputs:

- **Level 1:** Fair value measurements based on quoted prices (unadjusted) in active markets that we have the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets. We do not adjust the quoted price for such instruments.
- **Level 2:** Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals.
- **Level 3:** Fair value measurements based on valuation techniques that use significant inputs that are unobservable. Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability. Therefore, we must make certain assumptions about the inputs a hypothetical market participant would use to value that asset or liability.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****Assets and Liabilities Measured at Fair Value on a Recurring Basis**

The following table presents information about assets and liabilities measured at fair value on a recurring basis and indicates the level of the fair value measurement based on the observability of the inputs used:

(a) Represents netting of derivative exposures covered by qualifying master netting agreements.

(b) As a result of the adoption of the Recognition and Measurement of Financial Assets and Financial Liabilities standard on January 1, 2018 (Financial Instruments Recognition and Measurement Standard), equity securities are no longer classified and accounted for as available for sale securities.

(c) Excludes investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent), which totaled \$5.5 billion and \$6.0 billion as of June 30, 2018 and December 31, 2017, respectively.

ITEM 1 | [Notes to Condensed Consolidated Financial Statements \(unaudited\)](#) | [4. Fair Value Measurements](#)**Transfers of Level 1 and Level 2 Assets and Liabilities**

Our policy is to record transfers of assets and liabilities between Level 1 and Level 2 at their fair values as of the end of each reporting period, consistent with the date of the determination of fair value. Assets are transferred out of Level 1 when they are no longer transacted with sufficient frequency and volume in an active market. Conversely, assets are transferred from Level 2 to Level 1 when transaction volume and frequency are indicative of an active market.

There were no transfers of securities issued by non-U.S. government entities from Level 1 to Level 2 in the three-month period ended June 30, 2018. During the six-month period ended June 30, 2018, we transferred \$16 million of securities issued by non-U.S. government entities from Level 1 to Level 2, because they are no longer considered actively traded. For similar reasons, during the three- and six-month periods ended June 30, 2018, we transferred \$490 million and \$681 million, respectively, of securities issued by the U.S. government and government sponsored entities from Level 1 to Level 2. We had no material transfers from Level 2 to Level 1 during the three- and six-month periods ended June 30, 2018.

There were no transfers of securities issued by non-U.S. government entities from Level 1 to Level 2 in the three-month period ended June 30, 2017. During the six-month period ended June 30, 2017, we transferred \$53 million of securities issued by non-U.S. government entities from Level 1 to Level 2, because they are no longer considered actively traded. For similar reasons, during the three- and six-month periods ended June 30, 2017, we transferred \$50 million and \$113 million, respectively, of securities issued by the U.S. government and government sponsored entities from Level 1 to Level 2. Additionally, we transferred \$126 million of preferred stock from Level 1 to Level 2 during the three- and six-month periods ended June 30, 2017. We had no material transfers from Level 2 to Level 1 during the three- and six-month periods ended June 30, 2017.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****Changes in Level 3 Recurring Fair Value Measurements**

The following tables present changes during the three- and six-month periods ended June 30, 2018 and 2017 in Level 3 assets and liabilities measured at fair value on a recurring basis, and the realized and unrealized gains (losses) related to the Level 3 assets and liabilities in the Condensed Consolidated Balance Sheets at June 30, 2018 and 2017:

| <i>(in millions)</i> | Fair Value Beginning of Period | Net Realized and Unrealized Gains (Losses) Included in Income | Other Comprehensive Income (Loss) | Purchases, Sales, Issuances and Settlements, Net | Gross Transfers In | Tra |

(a) There were no issuances during the three- and six-month periods ended June 30, 2018 and 2017, respectively.

(b) Includes GIAs, notes, bonds, loans and mortgages payable.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements**

Both observable and unobservable inputs may be used to determine the fair values of positions classified in Level 3 in the tables above. As a result, the unrealized gains (losses) on instruments held at June 30, 2018 and 2017 may include changes in fair value that were attributable to both observable (e.g., changes in market interest rates) and unobservable inputs (e.g., changes in unobservable long-dated volatilities).

Transfers of Level 3 Assets and Liabilities

We record transfers of assets and liabilities into or out of Level 3 classification at their fair values as of the end of each reporting period, consistent with the date of the determination of fair value. The Net realized and unrealized gains (losses) included in income or Other comprehensive income (loss) as shown in the table above excludes \$24 million of net gains related to assets and liabilities transferred into Level 3 during the six-month period ended June 30, 2018 and includes \$22 million of net losses related to assets and liabilities transferred out of Level 3 in both the three- and six-month periods ended June 30, 2018.

The Net realized and unrealized gains (losses) included in income or Other comprehensive income (loss) as shown in the table above excludes \$1 million of net gains and \$8 million of net losses related to assets and liabilities transferred into Level 3 during the three- and six-month periods ended June 30, 2017, respectively, and includes \$7 million of net losses related to assets and liabilities transferred out of Level 3 in both the three- and six-month periods ended June 30, 2017.

Transfers of Level 3 Assets

During the three- and six-month periods ended June 30, 2018 and 2017, transfers into Level 3 assets primarily included certain investments in private placement corporate debt, RMBS, CMBS and CDO/ABS. Transfers of private placement corporate debt and certain ABS into Level 3 assets were primarily the result of limited market pricing information that required us to determine fair value for these securities based on inputs that are adjusted to better reflect our own assumptions regarding the characteristics of a specific security or associated market liquidity. The transfers of investments in RMBS, CMBS and CDO and certain ABS into Level 3 assets were due to decreases in market transparency and liquidity for individual security types.

During the three- and six-month periods ended June 30, 2018 and 2017, transfers out of Level 3 assets primarily included private placement and other corporate debt, CMBS, RMBS, CDO/ABS and certain investments in municipal securities. Transfers of certain investments in municipal securities, corporate debt, RMBS, CMBS and CDO/ABS out of Level 3 assets were based on consideration of market liquidity as well as related transparency of pricing and associated observable inputs for these investments. Transfers of certain investments in private placement corporate debt and certain ABS out of Level 3 assets were primarily the result of using observable pricing information that reflects the fair value of those securities without the need for adjustment based on our own assumptions regarding the characteristics of a specific security or the current liquidity in the market.

Transfers of Level 3 Liabilities

There were no significant transfers of derivative or other liabilities into or out of Level 3 for the three- and six-month periods ended June 30, 2018 and 2017.

ITEM 1 | Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements

QUANTITATIVE INFORMATION ABOUT LEVEL 3 FAIR VALUE MEASUREMENTS

The table below presents information about the significant unobservable inputs used for recurring fair value measurements for certain Level 3 instruments, and includes only those instruments for which information about the inputs is reasonably available to us, such as data from independent third-party valuation service providers and from internal valuation models. Because input information from third-parties with respect to certain Level 3 instruments (primarily CDO/ABS) may not be reasonably available to us, balances shown below may not equal total amounts reported for such Level 3 assets and liabilities:

| <i>(in millions)</i> | Fair Value at June 30, 2018 | Valuation Technique | Unobservable Input ^(b) | Range (Weighted Average) |
|---|-----------------------------------|------------------------|-----------------------------------|--------------------------------|
| Assets: | | | | |
| Obligations of states, municipalities and political subdivisions | \$ 1,521 | Discounted cash flow | Yield | 3.93% - 4.54% (4.24%) |
| Corporate debt | 721 | Discounted cash flow | Yield | 3.52% - 14.75% (9.14%) |
| RMBS ^(a) | 14,915 | Discounted cash flow | Constant prepayment rate | 4.29% - 12.86% (8.57%) |

(a) Information received from third-party valuation service providers. The ranges of the unobservable inputs for constant prepayment rate, loss severity and constant default rate relate to each of the individual underlying mortgage loans that comprise the entire portfolio of securities in the RMBS and CDO securitization vehicles and not necessarily to the securitization vehicle bonds (tranches) purchased by us. The ranges of these inputs do not directly correlate to changes in the fair values of the tranches purchased by us, because there are other factors relevant to the fair values of specific tranches owned by us including, but not limited to, purchase price, position in the waterfall, senior versus subordinated position and attachment points.

(b) Represents discount rates, estimates and assumptions that we believe would be used by market participants when valuing these assets and liabilities.

(c) Mortality inputs are shown as multipliers of the 2012 Individual Annuity Mortality Basic table.

The ranges of reported inputs for Obligations of states, municipalities and political subdivisions, Corporate debt, RMBS, CDO/ABS, and CMBS valued using a discounted cash flow technique consist of one standard deviation in either direction from the value weighted average. The preceding table does not give effect to our risk management practices that might offset risks inherent in these Level 3 assets and liabilities.

Sensitivity to Changes in Unobservable Inputs

We consider unobservable inputs to be those for which market data is not available and that are developed using the best information available to us about the assumptions that market participants would use when pricing the asset or liability. Relevant inputs vary depending on the nature of the instrument being measured at fair value. The following paragraphs provide a general description of sensitivities of significant unobservable inputs along with interrelationships between and among the significant unobservable inputs and their impact on the fair value measurements. The effect of a change in a particular assumption in the sensitivity analysis below is considered independently of changes in any other assumptions. In practice, simultaneous changes in assumptions may not always have a linear effect on the inputs discussed below. Interrelationships may also exist between observable and unobservable inputs. Such relationships have not been included in the discussion below. For each of the individual relationships described below, the inverse relationship would also generally apply.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements****Obligations of States, Municipalities and Political Subdivisions**

The significant unobservable input used in the fair value measurement of certain investments in obligations of states, municipalities and political subdivisions is yield. In general, increases in the yield would decrease the fair value of investments in obligations of states, municipalities and political subdivisions.

Corporate Debt

Corporate debt securities included in Level 3 are primarily private placement issuances that are not traded in active markets or that are subject to transfer restrictions. Fair value measurements consider illiquidity and non-transferability. When observable price quotations are not available, fair value is determined based on discounted cash flow models using discount rates based on credit spreads, yields or price levels of publicly traded debt of the issuer or other comparable securities, considering illiquidity and structure. The significant unobservable input used in the fair value measurement of corporate debt is the yield. The yield is affected by the market movements in credit spreads and U.S. Treasury yields. In addition, the migration in credit quality of a given security generally has a corresponding effect on the fair value measurement of the security. For example, a downward migration of credit quality would increase spreads. Holding U.S. Treasury rates constant, an increase in corporate credit spreads would decrease the fair value of corporate debt.

RMBS and CDO/ABS

The significant unobservable inputs used in fair value measurements of RMBS and certain CDO/ABS valued by third party valuation service providers are constant prepayment rates (CPR), loss severity, constant default rates (CDR) and yield. A change in the assumptions used for the probability of default will generally be accompanied by a corresponding change in the assumption used for the loss severity and an inverse change in the assumption used for prepayment rates. In general, increases in CPR, loss severity, CDR and yield, in isolation, would result in a decrease in the fair value measurement. Changes in fair value based on variations in assumptions generally cannot be extrapolated because the relationship between the directional change of each input is not usually linear.

CMBS

The significant unobservable input used in fair value measurements for CMBS is the yield. Prepayment assumptions for each mortgage pool are factored into the yield. CMBS generally feature a lower degree of prepayment risk than RMBS because commercial mortgages generally contain a penalty for prepayment. In general, increases in the yield would decrease the fair value of CMBS.

Embedded derivatives within Policyholder contract deposits

Embedded derivatives reported within Policyholder contract deposits include GMWB within variable annuity products and interest crediting rates based on market indices within index annuities, indexed life and GICs.

For any given contract, assumptions for unobservable inputs vary throughout the period over which cash flows are projected for purposes of valuing the embedded derivative. The following unobservable inputs are used for valuing embedded derivatives measured at fair value:

- Long-term equity volatilities represent equity volatility beyond the period for which observable equity volatilities are available. Increases in assumed volatility will generally increase the fair value of both the projected cash flows from rider fees as well as the projected cash flows related to benefit payments. Therefore, the net change in the fair value of the liability may be either a decrease or an increase, depending on the relative changes in projected rider fees and projected benefit payments.
- Equity / interest rate correlation estimates the relationship between changes in equity returns and interest rates in the economic scenario generator used to value our GMWB embedded derivatives. In general, a higher positive correlation assumes that equity markets and interest rates move in a more correlated fashion, which generally increases the fair value of the liability.
- Base lapse rate assumptions are determined by company experience and are adjusted at the contract level using a dynamic lapse function, which reduces the base lapse rate when the contract is in-the-money (when the contract holder's guaranteed value, as estimated by the company, is worth more than their underlying account value). Lapse rates are also generally assumed to be lower in periods when a surrender charge applies. Increases in assumed lapse rates will generally decrease the fair value of the liability, as fewer policyholders would persist to collect guaranteed withdrawal amounts.
- Mortality rate assumptions, which vary by age and gender, are based on company experience and include a mortality improvement assumption. Increases in assumed mortality rates will decrease the fair value of the liability, while lower mortality rate assumptions will generally increase the fair value of the liability, because guaranteed payments will be made for a longer period of time.

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements**

- Utilization assumptions estimate the timing when policyholders with a GMWB will elect to utilize their benefit and begin taking withdrawals. The assumptions may vary by the type of guarantee, tax-qualified status, the contract's withdrawal history and the age of the policyholder. Utilization assumptions are based on company experience, which includes partial withdrawal behavior. Increases in assumed utilization rates will generally increase the fair value of the liability.
- Option budget estimates the expected long-term cost of options used to hedge exposures associated with equity price changes. The level of option budgets determines future costs of the options, which impacts the growth in account value and the valuation of embedded derivatives.

Investments in Certain Entities Carried at Fair Value Using Net Asset Value Per Share

The following table includes information related to our investments in certain other invested assets, including private equity funds, hedge funds and other alternative investments that calculate net asset value per share (or its equivalent). For these investments, which are measured at fair value on a recurring basis, we use the net asset value per share to measure fair value.

| | | June 30, 2018 | | December 31, 2017 | |
|------------------------------|---|---------------------|-------------|---------------------|-------------|
| | | Fair Value | Unfunded | Fair Value | Unfunded |
| | Investment Category Includes | Using NAV | Commitments | Using NAV | Commitments |
| | | Per Share | | Per Share | |
| | | (or its equivalent) | | (or its equivalent) | |
| (in millions) | | | | | |
| Investment Category | | | | | |
| Private equity funds: | | | | | |
| Leveraged buyout | Debt and/or equity investments made as part of a transaction in which assets of mature companies are acquired from the current shareholders, typically with the use of financial leverage | \$ 1,244 | \$ 787 | \$ 1,243 | \$ 706 |
| Real Estate / Infrastructure | Investments in real estate properties and infrastructure positions, including power plants and other energy generating facilities | 209 | 140 | 210 | 187 |

| | | | | | |
|-----------------------------------|--|-----------------|-----------------|----------|----------|
| Venture capital | Early-stage, high-potential, growth companies expected to generate a return through an eventual realization event, such as an initial public offering or sale of the company | 146 | 122 | 134 | 73 |
| Distressed | Securities of companies that are in default, under bankruptcy protection, or troubled | 106 | 91 | 113 | 42 |
| Other | Includes multi-strategy, mezzanine and other strategies | 546 | 167 | 428 | 219 |
| Total private equity funds | | 2,251 | 1,307 | 2,128 | 1,227 |
| Hedge funds: | | | | | |
| Event-driven | Securities of companies undergoing material structural changes, including mergers, acquisitions and other reorganizations | 893 | - | 1,128 | - |
| Long-short | Securities that the manager believes are undervalued, with corresponding short positions to hedge market risk | 1,084 | - | 1,233 | - |
| Macro | Investments that take long and short positions in financial instruments based on a top-down view of certain economic and capital market conditions | 966 | - | 1,011 | - |
| Distressed | Securities of companies that are in default, under bankruptcy protection or troubled | 136 | 8 | 266 | 8 |
| Other | Includes investments held in funds that are less liquid, as well as other strategies which allow for broader allocation between public and private investments | 197 | 2 | 231 | 4 |
| Total hedge funds | | 3,276 | 10 | 3,869 | 12 |
| Total | | \$ 5,527 | \$ 1,317 | \$ 5,997 | \$ 1,239 |

ITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements**

Private equity fund investments included above are not redeemable, because distributions from the funds will be received when underlying investments of the funds are liquidated. Private equity funds are generally expected to have 10-year lives at their inception, but these lives may be extended at the fund manager's discretion, typically in one or two-year increments. At June 30, 2018, assuming average original expected lives of 10 years for the funds, 50 percent of the total fair value using net asset value per share (or its equivalent) presented above would have expected remaining lives of three years or less, 24 percent between four and six years and 26 percent between seven and 10 years.

The hedge fund investments included above, which are carried at fair value, are generally redeemable monthly (30 percent), quarterly (38 percent), semi-annually (9 percent) and annually (23 percent), with redemption notices ranging from one day to 180 days. At June 30, 2018, investments representing approximately 54 percent of the total fair value of these hedge fund investments had partial contractual redemption restrictions. These partial redemption restrictions are generally related to one or more investments held in the hedge funds that the fund manager deemed to be illiquid. The majority of these contractual restrictions, which may have been put in place at the fund's inception or thereafter, have pre-defined end dates. The majority of these restrictions are generally expected to be lifted by the end of 2018.

Fair Value Option

The following table presents the gains or losses recorded related to the eligible instruments for which we elected the fair value option:

| <i>(in millions)</i> | Gain (Loss) Three Months Ended June 30, | | Gain (Loss) Six Months Ended June 30, | |
|--|--|---------------|--|-----------------|
| | 2018 | 2017 | 2018 | 2017 |
| Assets: | | | | |
| Bond and equity securities | \$ 129 | \$ 450 | \$ 152 | \$ 799 |
| Alternative investments ^(a) | 96 | 96 | 224 | 277 |
| Liabilities: | | | | |
| Long-term debt ^(b) | 16 | (33) | 68 | (48) |
| Other liabilities | - | (1) | - | (1) |
| Total gain | \$ 241 | \$ 512 | \$ 444 | \$ 1,027 |

(a) Includes certain hedge funds, private equity funds and other investment partnerships.

(b) Includes GIAs, notes, bonds and mortgages payable.

We recognized a loss of \$3 million and an immaterial gain during the three- and six-month periods ended June 30, 2017, respectively, attributable to the observable effect of changes in credit spreads on our own liabilities for which the fair value option was elected. We calculate the effect of these credit spread changes using discounted cash flow techniques that incorporate current market interest rates, our observable credit spreads on these liabilities and other factors that mitigate the risk of nonperformance such as cash

collateral posted.

As a result of the adoption of the Financial Instruments Recognition and Measurement Standard on January 1, 2018, we are required to record unrealized gains and losses attributable to the observable effect of changes in credit spreads on our liabilities for which the fair value option was elected in Other Comprehensive Income. An unrealized loss of \$1 million and an unrealized gain of \$1 million were recognized in Other Comprehensive Income for the three- and six-month periods ended June 30, 2018, respectively.

The following table presents the difference between fair values and the aggregate contractual principal amounts of mortgage and other loans receivable and long-term debt for which the fair value option was elected:

| <i>(in millions)</i> | June 30, 2018 | | | December 31, 2017 | | |
|-------------------------------------|---------------|------------------------------------|------------|-------------------|------------------------------------|------------|
| | Fair Value | Outstanding Principal Amount | Difference | Fair Value | Outstanding Principal Amount | Difference |
| Assets: | | | | | | |
| Mortgage and other loans receivable | \$ - | \$ - | \$ - | \$ 5 | \$ 5 | \$ - |
| Liabilities: | | | | | | |
| Long-term debt* | \$ 2,615 | \$ 2,114 | \$ 501 | \$ 2,888 | \$ 2,280 | \$ 608 |

* Includes GIAs, notes, bonds, loans and mortgages payable.

ITEM 1 | Notes to Condensed Consolidated Financial Statements (unaudited) | 4. Fair Value Measurements

FAIR VALUE MEASUREMENTS ON A NON-RECURRING BASIS

The following table presents assets measured at fair value on a non-recurring basis at the time of impairment and the related impairment charges recorded during the periods presented:

| (in millions) | Assets at Fair Value | | | | Impairment Charges* | | | |
|---------------------------------|----------------------|-------------|---------------|---------------|-----------------------------|--------------|---------------------------|---------------|
| | Non-Recurring Basis | | | | Three Months Ended June 30, | | Six Months Ended June 30, | |
| | Level 1 | Level 2 | Level 3 | Total | 2018 | 2017 | 2018 | 2017 |
| June 30, 2018 | | | | | | | | |
| Other investments | \$ - | \$ - | \$ 344 | \$ 344 | \$ 61 | \$ 33 | \$ 89 | \$ 50 |
| Investments in life settlements | - | - | - | - | - | 46 | - | 87 |
| Other assets | - | - | - | - | 1 | - | 1 | 35 |
| Total | \$ - | \$ - | \$ 344 | \$ 344 | \$ 62 | \$ 79 | \$ 90 | \$ 172 |
| December 31, 2017 | | | | | | | | |
| Other investments | \$ - | \$ - | \$ 55 | \$ 55 | | | | |
| Investments in life settlements | - | - | - | - | | | | |
| Other assets | - | - | - | - | | | | |
| Total | \$ - | \$ - | \$ 55 | \$ 55 | | | | |

* Impairments in the six-month period ended June 30, 2017 included \$35 million related to Other assets of \$179 million that were sold during the three-month period ended June 30, 2017.

FAIR VALUE INFORMATION ABOUT FINANCIAL INSTRUMENTS NOT MEASURED AT FAIR VALUE

The following table presents the carrying amounts and estimated fair values of our financial instruments not measured at fair value and indicates the level in the fair value hierarchy of the estimated fair value measurement based on the observability of the inputs used:

| (in millions) | Estimated Fair Value | | | Total | Carrying Value |
|--|----------------------|---------|-----------|-----------|----------------|
| | Level 1 | Level 2 | Level 3 | | |
| June 30, 2018 | | | | | |

| Total | \$31,657 | 726 | \$15,127 | 655 | \$46,784 | 1,000 |

(a) As a result of the adoption of the Financial Instruments Recognition and Measurement Standard on January 1, 2018, equity securities are no longer classified and accounted for as available for sale securities.

At June 30, 2018, we held 14,992 individual fixed maturity securities, that were in an unrealized loss position, of which 1,961 individual fixed maturity securities were in a continuous unrealized loss position for 12 months or more. We did not recognize the unrealized losses in earnings on these fixed maturity securities at June 30, 2018 because we neither intend to sell the securities nor do we believe that it is more likely than not that we will be required to sell these securities before recovery of their amortized cost basis. For fixed maturity securities with significant declines, we performed fundamental credit analyses on a security-by-security basis, which included consideration of credit enhancements, expected defaults on underlying collateral, review of relevant industry analyst reports and forecasts and other available market data.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments****Contractual Maturities of Fixed Maturity Securities Available for Sale**

The following table presents the amortized cost and fair value of fixed maturity securities available for sale by contractual maturity:

| <i>(in millions)</i> | Total Fixed Maturity Securities Available for Sale | | Fixed Maturity Securities in a Loss Position Available for Sale | |
|--|--|-------------------|---|------------------|
| | Amortized Cost | Fair Value | Amortized Cost | Fair Value |
| June 30, 2018 | | | | |
| Due in one year or less | \$ 7,562 | \$ 7,718 | \$ 1,913 | \$ 1,903 |
| Due after one year through five years | 45,336 | 46,295 | 13,526 | 13,181 |
| Due after five years through ten years | 42,634 | 42,293 | 27,391 | 26,097 |
| Due after ten years | 64,552 | 66,653 | 30,202 | 28,600 |
| Mortgage-backed, asset-backed and collateralized | 62,996 | 65,714 | 27,756 | 26,954 |
| Total | \$ 223,080 | \$ 228,673 | \$ 100,788 | \$ 96,735 |
| December 31, 2017 | | | | |
| Due in one year or less | \$ 7,932 | \$ 8,071 | \$ 1,526 | \$ 1,515 |
| Due after one year through five years | 47,179 | 49,093 | 7,764 | 7,571 |
| Due after five years through ten years | 42,617 | 43,944 | 11,559 | 11,143 |
| Due after ten years | 63,550 | 70,027 | 9,705 | 9,342 |
| Mortgage-backed, asset-backed and collateralized | 64,183 | 67,857 | 17,453 | 17,076 |
| Total | \$ 225,461 | \$ 238,992 | \$ 48,007 | \$ 46,647 |

Actual maturities may differ from contractual maturities because certain borrowers have the right to call or prepay certain obligations with or without call or prepayment penalties.

The following table presents the gross realized gains and gross realized losses from sales or maturities of our available for sale securities:

| <i>(in millions)</i> | Three Months Ended June 30, | | | | Six Months Ended June 30, | | | |
|---------------------------|-----------------------------|-----------------------|----------------------|-----------------------|---------------------------|-----------------------|----------------------|-----------------------|
| | 2018 | | 2017 | | 2018 | | 2017 | |
| | Gross Realized Gains | Gross Realized Losses | Gross Realized Gains | Gross Realized Losses | Gross Realized Gains | Gross Realized Losses | Gross Realized Gains | Gross Realized Losses |
| Fixed maturity securities | \$ 100 | \$ 113 | \$ 211 | \$ 46 | \$ 170 | \$ 173 | \$ 544 | \$ 224 |
| Equity securities | - | - | 83 | 2 | 16 | - | 100 | 18 |
| Total | \$ 100 | \$ 113 | \$ 294 | \$ 48 | \$ 186 | \$ 173 | \$ 644 | \$ 242 |

For the three- and six-month periods ended June 30, 2018, the aggregate fair value of available for sale securities sold was \$6.6 billion and \$12.1 billion, respectively, which resulted in net realized capital gains (losses) of \$(13) million and \$13 million, respectively.

For the three- and six-month periods ended June 30, 2017, the aggregate fair value of available for sale securities sold was \$7.6 billion and \$23.4 billion, respectively, which resulted in net realized capital gains of

\$246 million and \$402 million, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments****Other Securities Measured at Fair Value**

The following table presents the fair value of other securities measured at fair value based on our election of the fair value option:

| <i>(in millions)</i> | June 30, 2018 | | December 31, 2017 | |
|---|----------------------|------------------|--------------------------|------------------|
| | Fair Value | Percent of Total | Fair Value | Percent of Total |
| Fixed maturity securities: | | | | |
| U.S. government and government sponsored entities | \$ 2,662 | 20 % | \$ 2,802 | 21% |
| Non-U.S. governments | 51 | - | 57 | 1 |
| Corporate debt | 1,747 | 13 | 1,909 | 14 |
| Mortgage-backed, asset-backed and collateralized: | | | | |
| RMBS | 1,720 | 13 | 1,885 | 14 |
| CMBS | 411 | 3 | 559 | 4 |
| CDO/ABS and other collateralized* | 5,183 | 39 | 5,560 | 42 |
| Total mortgage-backed, asset-backed and collateralized | 7,314 | 55 | 8,004 | 60 |
| Total fixed maturity securities | 11,774 | 88 | 12,772 | 96 |
| Equity securities | 1,675 | 12 | 589 | 4 |
| Total | \$ 13,449 | 100 % | \$ 13,361 | 100% |

* Includes \$205 million and \$251 million of U.S. government agency-backed ABS at June 30, 2018 and December 31, 2017, respectively.

Other Invested Assets

The following table summarizes the carrying amounts of other invested assets:

| <i>(in millions)</i> | June 30, 2018 | December 31, 2017 |
|--|----------------------|--------------------------|
| Alternative investments ^{(a) (b)} | \$ 10,492 | \$ 11,308 |
| Investment real estate ^(c) | 8,879 | 8,258 |
| All other investments | 1,277 | 1,256 |
| Total | \$ 20,648 | \$ 20,822 |

(a) At June 30, 2018, included hedge funds of \$5.0 billion, private equity funds of \$5.0 billion, and affordable housing partnerships of \$463 million. At December 31, 2017, included hedge funds of \$5.8 billion, private equity funds of \$5.0 billion, and affordable housing partnerships of \$543 million.

(b) At June 30, 2018, approximately 60 percent and 23 percent of our hedge fund portfolio is available for redemption in 2018 and 2019, respectively, the remaining 17 percent will be available for redemption between 2020 and 2027.

(c) Net of accumulated depreciation of \$594 million and \$515 million at June 30, 2018 and December 31, 2017, respectively.

Net Investment Income

The following table presents the components of Net investment income:

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|--|-----------------------------------|---------|---------------------------------|---------|
| <i>(in millions)</i> | 2018 | 2017 | 2018 | 2017 |
| Available for sale fixed maturity securities, including short-term investments | \$2,536 | \$2,607 | \$5,146 | \$5,274 |
| Other fixed maturity securities | (10) | 221 | (31) | 355 |
| Equity securities ^(a) | 3 | 12 | (29) | 17 |
| Interest on mortgage and other loans | 447 | 399 | 897 | 792 |
| Alternative investments ^(b) | 171 | 371 | 508 | 819 |
| Real estate | 30 | 31 | 61 | 80 |
| Other investments | 14 | 100 | 24 | 216 |
| Total investment income | 3,191 | 3,741 | 6,576 | 7,553 |
| Investment expenses | 126 | 128 | 250 | 254 |
| Net investment income | \$3,065 | \$3,613 | \$6,326 | \$7,299 |

(a) Upon the adoption of the Financial Instruments Recognition and Measurement Standard on January 1, 2018, the change in fair value of all equity securities is included in Net investment income.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments**

(b) Includes income from hedge funds, private equity funds and affordable housing partnerships. Hedge funds for which we elected the fair value option are recorded as of the balance sheet date. Other hedge funds are generally reported on a one-month lag, while private equity funds are generally reported on a one-quarter lag.

Net Realized Capital Gains and Losses

The following table presents the components of Net realized capital gains (losses):

| <i>(in millions)</i> | Three Months Ended June 30, | | Six Months Ended June 30, | |
|--|--------------------------------|----------------|------------------------------|-----------------|
| | 2018 | 2017 | 2018 | 2017 |
| Sales of fixed maturity securities | \$ (13) | \$ 165 | \$ (3) | \$ 320 |
| Sales of equity securities | - | 81 | 16 | 82 |
| Other-than-temporary impairments: | | | | |

| Less: Net gains and losses recognized during the period on equity securities sold during the period | 14 | 28 | 42 | 6 | 27 | 33 |
| Unrealized gains and losses recognized during the reporting period on equity securities still held at the reporting date | \$ (11) | \$ 94 | \$ 83 | \$ (34) | \$ 287 | \$ 253 |

AIG | Second Quarter 2018 Form 10-Q 37

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments****Evaluating Investments for Other-Than-Temporary Impairments**

For a discussion of our policy for evaluating investments for other-than-temporary impairments see Note 6 to the Consolidated Financial Statements in the 2017 Annual Report.

Credit Impairments

The following table presents a rollforward of the cumulative credit losses in other-than-temporary impairments recognized in earnings for available for sale fixed maturity securities:

| <i>(in millions)</i> | Three Months Ended | | Six Months Ended | |
|--|---------------------------|---------------|-------------------------|-----------------|
| | June 30, | 2017 | June 30, | 2017 |
| Balance, beginning of period | \$ 358 | \$ 946 | \$ 526 | \$ 1,098 |
| Increases due to: | | | | |
| Credit impairments on new securities subject to impairment losses | 3 | 41 | 17 | 58 |
| Additional credit impairments on previously impaired securities | 28 | 7 | 45 | 37 |
| Reductions due to: | | | | |
| Credit impaired securities fully disposed for which there was no prior intent or requirement to sell | (80) | (44) | (131) | (55) |
| Accretion on securities previously impaired due to credit* | (121) | (188) | (269) | (376) |
| Balance, end of period | \$ 188 | \$ 762 | \$ 188 | \$ 762 |

* Represents both accretion recognized due to changes in cash flows expected to be collected over the remaining expected term of the credit impaired securities and the accretion due to the passage of time.

Purchased Credit Impaired (PCI) Securities

We purchase certain RMBS securities that have experienced deterioration in credit quality since their issuance. We determine whether it is probable at acquisition that we will not collect all contractually required payments for these PCI securities, including both principal and interest. At acquisition, the timing and amount of the undiscounted future cash flows expected to be received on each PCI security is determined based on our best estimate using key assumptions, such as interest rates, default rates and prepayment speeds. At acquisition, the difference between the undiscounted expected future cash flows of the PCI securities and the recorded investment in the securities represents the initial accretable yield, which is accreted into Net investment income over their remaining lives on an effective yield basis. Additionally, the difference between the contractually required payments on the PCI securities and the undiscounted expected future cash flows represents the non-accretable difference at acquisition. The accretable yield and the non-accretable difference will change over time, based on actual payments received and changes in estimates of undiscounted expected future cash flows, which are discussed further below.

On a quarterly basis, the undiscounted expected future cash flows associated with PCI securities are re-evaluated based on updates to key assumptions. Declines in undiscounted expected future cash flows due to further credit deterioration as well as changes in the expected timing of the cash flows can result in the recognition of an other-than-temporary impairment charge, as PCI securities are subject to our policy for evaluating investments for other-than-temporary impairment. Changes to undiscounted expected future cash flows due solely to the changes in the contractual benchmark interest rates on variable rate PCI securities will change the accretable yield prospectively. Significant increases in undiscounted expected future cash flows for reasons other than interest rate changes are recognized prospectively as adjustments to the accretable yield.

The following tables present information on our PCI securities, which are included in bonds available for sale:

| <i>(in millions)</i> | At Date of Acquisition |
|--|-------------------------------|
| Contractually required payments (principal and interest) | \$ 36,659 |
| Cash flows expected to be collected* | 30,085 |
| Recorded investment in acquired securities | 20,304 |

* Represents undiscounted expected cash flows, including both principal and interest.

| Balance, end of period | \$ 7,461 | \$ 7,465 | \$ 7,461 | \$ 7,465 |
| Pledged Investments | | | | |

Secured Financing and Similar Arrangements

We enter into secured financing transactions whereby certain securities are sold under agreements to repurchase (repurchase agreements), in which we transfer securities in exchange for cash, with an agreement by us to repurchase the same or substantially similar securities. Our secured financing transactions also include those that involve the transfer of securities to financial institutions in exchange for cash (securities lending agreements). In all of these secured financing transactions, the securities transferred by us (pledged collateral) may be sold or repledged by the counterparties. These agreements are recorded at their contracted amounts plus accrued interest, other than those that are accounted for at fair value.

Pledged collateral levels are monitored daily and are generally maintained at an agreed-upon percentage of the fair value of the amounts borrowed during the life of the transactions. In the event of a decline in the fair value of the pledged collateral under these secured financing transactions, we may be required to transfer cash or additional securities as pledged collateral under these agreements. At the termination of the transactions, we and our counterparties are obligated to return the amounts borrowed and the securities transferred, respectively.

The following table presents the fair value of securities pledged to counterparties under secured financing transactions, including repurchase and securities lending agreements:

| | | |
|--|----------------------|-------------------|
| <i>(in millions)</i> | June 30, 2018 | December 31, 2017 |
| Fixed maturity securities available for sale | \$ 1,804 | \$ 2,911 |
| Other bond securities, at fair value | \$ 132 | \$ 1,585 |

At June 30, 2018 and December 31, 2017, amounts borrowed under repurchase and securities lending agreements totaled \$2.0 billion and \$4.5 billion, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments**

|--------------|----|---|----|-----|----|-------|----|---|----|---|----|-------|

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 5. Investments**

We also enter into agreements in which securities are purchased by us under agreements to resell (reverse repurchase agreements), which are accounted for as secured financing transactions and reported as short-term investments or other assets, depending on their terms. These agreements are recorded at their contracted resale amounts plus accrued interest, other than those that are accounted for at fair value. In all reverse repurchase transactions, we take possession of or obtain a security interest in the related securities, and we have the right to sell or repledge this collateral received.

The following table presents information on the fair value of securities pledged to us under reverse repurchase agreements:

| <i>(in millions)</i> | | June 30, 2018 | December 31, 2017 |
|-------------------------------------|----|----------------------|-------------------|
| Securities collateral pledged to us | \$ | 5,667 | \$ 2,227 |
| Amount sold or repledged by us | \$ | 113 | \$ 46 |

At June 30, 2018 and December 31, 2017, amounts loaned under reverse repurchase agreements totaled \$5.8 billion and \$2.2 billion, respectively.

We do not currently offset any secured financing transactions. All such transactions are collateralized and margined daily consistent with market standards and subject to enforceable master netting arrangements with rights of set off.

Insurance – Statutory and Other Deposits

The total carrying value of cash and securities deposited by our insurance subsidiaries under requirements of regulatory authorities or other insurance-related arrangements, including certain annuity-related obligations and certain reinsurance treaties, was \$4.1 billion and \$4.9 billion at June 30, 2018 and December 31, 2017, respectively.

Other Pledges and Restrictions

Certain of our subsidiaries are members of Federal Home Loan Banks (FHLBs) and such membership requires the members to own stock in these FHLBs. We owned an aggregate of \$189 million and \$93 million of stock in FHLBs at June 30, 2018 and December 31, 2017, respectively. In addition, our subsidiaries have pledged securities available for sale and residential loans associated with borrowings and funding agreements from FHLBs, with a fair value of \$4.1 billion and \$2.0 billion, respectively, at June 30, 2018 and \$2.7 billion and \$471 million, respectively, at December 31, 2017.

Certain GIAs have provisions that require collateral to be posted or payments to be made by us upon a downgrade of our long-term debt ratings. The actual amount of collateral required to be posted to the counterparties in the event of such downgrades, and the aggregate amount of payments that we could be required to make, depend on market conditions, the fair value of outstanding affected transactions and other factors prevailing at and after the time of the downgrade. The fair value of securities pledged as collateral with respect to these obligations was approximately \$1.9 billion and \$2.0 billion at June 30, 2018 and December 31, 2017, respectively. This collateral primarily consists of securities of the U.S. government

and government sponsored entities and generally cannot be repledged or resold by the counterparties.

Investments held in escrow accounts or otherwise subject to restriction as to their use were \$236 million and \$255 million, comprised of bonds available for sale and short term investments at June 30, 2018 and December 31, 2017, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 6. Lending Activities****6. Lending Activities**

The following table presents the composition of Mortgage and other loans receivable, net:

| <i>(in millions)</i> | June 30, 2018 | December 31, 2017 |
|--|------------------|----------------------|
| Commercial mortgages* | \$ 30,888 | \$ 28,596 |
| Residential mortgages | 6,200 | 5,398 |
| Life insurance policy loans | 2,192 | 2,295 |
| Commercial loans, other loans and notes receivable | 1,054 | 1,056 |
| Total mortgage and other loans receivable | 40,334 | 37,345 |
| Allowance for credit losses | (356) | (322) |
| Mortgage and other loans receivable, net | \$ 39,978 | \$ 37,023 |

* Commercial mortgages primarily represent loans for apartments, offices and retail properties, with exposures in New York and California representing the largest geographic concentrations (aggregating approximately 22 percent and 11 percent, respectively, at June 30, 2018, and 23 percent and 12 percent, respectively, at December 31, 2017).

Credit Quality of Commercial Mortgages

The following table presents debt service coverage ratios and loan-to-value ratios for commercial mortgages:

| <i>(in millions)</i> | Debt Service Coverage Ratios ^(a) | | | Total |
|---|---|-----------------|---------------|------------------|
| | >1.20X | 1.00X - 1.20X | <1.00X | |
| June 30, 2018 | | | | |
| Loan-to-Value Ratios^(b) | | | | |
| Less than 65% | \$ 18,043 | \$ 2,554 | \$ 305 | \$ 20,902 |
| 65% to 75% | 7,515 | 202 | 220 | 7,937 |
| 76% to 80% | 1,154 | 23 | - | 1,177 |
| Greater than 80% | 614 | 203 | 55 | 872 |
| Total commercial mortgages | \$ 27,326 | \$ 2,982 | \$ 580 | \$ 30,888 |
| December 31, 2017 | | | | |
| Loan-to-Value Ratios^(b) | | | | |
| Less than 65% | \$ 18,000 | \$ 1,525 | \$ 351 | \$ 19,876 |
| 65% to 75% | 6,038 | 193 | 184 | 6,415 |
| 76% to 80% | 569 | 40 | - | 609 |
| Greater than 80% | 1,416 | 206 | 74 | 1,696 |
| Total commercial mortgages | \$ 26,023 | \$ 1,964 | \$ 609 | \$ 28,596 |

(a) The debt service coverage ratio compares a property's net operating income to its debt service payments, including principal and interest. Our weighted average debt service coverage ratio was 2.0X and

2.1X at June 30, 2018 and December 31, 2017, respectively.

(b) The loan-to-value ratio compares the current unpaid principal balance of the loan to the estimated fair value of the underlying property collateralizing the loan. Our weighted average loan-to-value ratio was 58 percent and 57 percent at June 30, 2018, and December 31, 2017, respectively.

TABLE OF CONTENTSITEM 1 | **Notes to Condensed Consolidated Financial Statements (unaudited) | 6. Lending Activities**

(a) Loans that have been modified in troubled debt restructurings and are performing according to their restructured terms. For additional discussion of troubled debt restructurings see Note 7 to the Consolidated Financial Statements in the 2017 Annual Report.

(b) Does not reflect allowance for credit losses.

(c) Our commercial mortgage loan portfolio is current as to payments of principal and interest, for both periods presented. There were no significant amounts of nonperforming commercial mortgages (defined as those loans where payment of contractual principal or interest is more than 90 days past due) during any of the periods presented.

Allowance for Credit Losses

For a discussion of our accounting policy for evaluating Mortgage and other loans receivable for impairment see Note 7 to the Consolidated Financial Statements in the 2017 Annual Report

The following table presents a rollforward of the changes in the allowance for losses on Mortgage and other loans receivable:

| Six Months Ended June 30, <i>(in millions)</i> | 2018 | | | 2017 | | |
|--|-------------------------|----------------|--------|-------------------------|----------------|--------|
| | Commercial Mortgages | Other Loans | Total | Commercial Mortgages | Other Loans | Total |
| Allowance, beginning of year | \$ 247 | \$ 75 | \$ 322 | \$ 194 | \$ 103 | \$ 297 |
| Loans charged off | (16) | | | | | |
