**THE CATO CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS AND NINE MONTHS ENDED NOVEMBER 1, 2008 AND NOVEMBER 3,
2007**

NOTE 1 GENERAL:

The condensed consolidated financial statements have been prepared from the accounting records of The Cato Corporation and its wholly-owned subsidiaries (the Company), and all amounts shown as of and for the periods ended November 1, 2008 and November 3, 2007 are unaudited. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal, recurring nature unless otherwise noted. The results of the interim period may not be indicative of the results expected for the entire year.

The interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended February 2, 2008.

The year-end condensed consolidated balance sheet data presented for fiscal year ended February 2, 2008 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

Cash equivalents consist of highly liquid investments with original maturities of three months or less. Investments with original maturities beyond three months are classified as short-term investments.

Short-term investments are classified as available-for-sale. As they are available for current operations, they are classified in the Condensed Consolidated Balance Sheets as current assets. Available-for-sale securities are carried at estimated fair value, with unrealized gains and temporary losses, net of income taxes, reported as a component of accumulated other comprehensive income. Other than temporary declines in fair value of investments are recorded as a reduction in the cost of the investments in the accompanying Condensed Consolidated Balance Sheets and a reduction of interest and other income in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. The cost of debt securities is adjusted for amortization of premiums and accretion of discounts to maturity. The amortization of premiums, accretion of discounts and realized gains and losses are included in interest and other income.

Merchandise inventories are stated at the lower of cost (first-in, first-out method) or market as determined by the retail inventory method.

On December 4, 2008, the Board of Directors maintained the quarterly dividend at \$.165 per share or an annualized rate of \$.66 per share. The dividend will be payable on January 5, 2009 to shareholders of record of the Company at the close of business on December 22, 2008.

FOR THE THREE MONTHS AND NINE MONTHS ENDED NOVEMBER 1, 2008 AND NOVEMBER 3, 2007

NOTE 2 EARNINGS PER SHARE:

SFAS No. 128, *Earnings Per Share*, requires dual presentation of basic EPS and diluted EPS on the face of all income statements for all entities with complex capital structures. The Company has presented one basic EPS and one diluted EPS amount for all common shares in the accompanying Condensed Consolidated Statements of Income. While the Company's articles of incorporation provide the right for the Board of Directors to declare dividends on Class A shares without declaration of commensurate dividends on Class B shares, the Company has historically paid the same dividends to both Class A and Class B shareholders and the Board of Directors has resolved to continue this practice. Accordingly, the Company's allocation of income for purposes of EPS computation is the same for Class A and Class B shares and the EPS amounts reported herein are applicable to both Class A and Class B shares.

Basic EPS is computed as net income divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options and the Employee Stock Purchase Plan and the potential vestings of restricted stock computed using the treasury stock method.

Income tax payments, net of refunds received, for the nine months ended November 1, 2008 and November 3, 2007 were \$10,345,000 and \$15,216,000, respectively.

NOTE 4 FINANCING ARRANGEMENTS:

At November 1, 2008, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35 million. The revolving credit agreement is committed until August 2010. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of November 1, 2008. There were no borrowings outstanding under this credit facility during the first nine months ended November 1, 2008 or November 3, 2007, respectively, or the fiscal year ended February 2, 2008. Interest on any borrowings is based on LIBOR, which was 2.58% at November 1, 2008.

Table of Contents**THE CATO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****FOR THE THREE MONTHS AND NINE MONTHS ENDED NOVEMBER 1, 2008 AND NOVEMBER 3, 2007****NOTE 4 FINANCING ARRANGEMENTS (CONTINUED):**

At November 1, 2008 and November 3, 2007 the Company had approximately \$5,921,000 and \$2,544,000, respectively, of outstanding irrevocable letters of credit relating to purchase commitments.

NOTE 5 REPORTABLE SEGMENT INFORMATION:

The Company has two reportable segments: retail and credit. The Company operated its women's fashion specialty retail stores in 31 states at November 1, 2008, principally in the southeastern United States. The Company offers its own credit card to its customers and all related credit authorizations, payment processing, and collection efforts are performed by a separate subsidiary of the Company.

The following schedule summarizes certain segment information (in thousands):

NOTE 6 STOCK BASED COMPENSATION:

As of November 1, 2008, the Company had three long-term compensation plans pursuant to which stock-based compensation was outstanding or could be granted. The Company's 1987 Non-Qualified Stock Option Plan authorized 5,850,000 shares for the granting of options to officers and key employees. The 1999 Incentive Compensation Plan and 2004 Amended and Restated Incentive Compensation Plan authorized 1,500,000 and 1,350,000 shares, respectively, for the granting of various forms of equity-based awards, including restricted stock and stock options to officers and key employees. The 1999 Plan has expired as to the ability to grant new awards.

The following table presents the number of options and shares of restricted stock initially authorized and available for grant under each of the plans:

	1987 Plan	1999 Plan	2004 Plan	Total
Options and/or restricted stock initially authorized	5,850,000	1,500,000	1,350,000	8,700,000
Options and/or restricted stock available for grant:

NOTE 6 STOCK BASED COMPENSATION (CONTINUED):

The following is a summary of the changes in stock options outstanding during the nine months ended November 1, 2008:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (a)
Options outstanding at February 2, 2008	139,075	\$ 12.41	4.64	\$ 494,087

Forfeited or expired	(7,250)	\$ 17.78		
Exercised	(23,125)	\$ 9.40		
Outstanding at November 1, 2008	108,700	\$ 12.69	4.35	\$ 393,748
Vested and exercisable at November 1, 2008	88,825	\$ 12.22	4.03	\$ 363,503

- (a) The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.

No options were granted in fiscal 2007 or the first nine months of fiscal 2008.

As of November 1, 2008, there was approximately \$85,400 of total unrecognized compensation cost related to nonvested options, which is expected to be recognized over a remaining weighted-average vesting period of 0.73 years. The total intrinsic value of options exercised during the third quarter and nine months ended November 1, 2008 was approximately \$70,000 and \$189,000, respectively.

Effective with the adoption of SFAS No. 123R, *Share-Based Payment*, the Company began recognizing share-based compensation expense ratably over the vesting period, net of estimated forfeitures. The Company recognized share-based compensation expense for nonvested options of \$23,000 and \$69,000 for the third quarter and nine month period ended November 1, 2008, respectively compared to \$470,000 and \$1,282,000 for the third quarter and nine month period ending November 3, 2007, respectively. These expenses are classified as a component of selling, general and administrative expenses.

Prior to the adoption of SFAS No. 123R, the Company presented all benefits of tax deductions resulting from the exercise of share-based compensation as operating cash flows in the Statements of Cash Flows. SFAS No. 123R requires the benefits of tax deductions in excess of the compensation cost recognized for those options (excess tax benefits) to be classified as financing cash flows. For the nine months ended November 1, 2008 and November 3,

2007, the Company reported \$65,000 and \$5,460,000 of excess tax benefits as a financing cash inflow in addition to \$217,000 and \$411,000 in cash proceeds received from the exercise of stock options and Employee Stock Purchase Plan purchases, respectively.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS AND NINE MONTHS ENDED NOVEMBER 1, 2008 AND NOVEMBER 3, 2007

NOTE 6 STOCK BASED COMPENSATION (CONTINUED):

The Company's Employee Stock Purchase Plan allows eligible full-time employees to purchase a limited number of shares of the Company's Class A Common Stock during each semi-annual offering period at a 15% discount through payroll deductions. During the nine months ended November 1, 2008 and November 3, 2007, the Company sold 31,132 and 25,535 shares to employees at an average discount of \$2.26 and \$3.19 per share, respectively, under the Employee Stock Purchase Plan. The compensation expense recognized for the 15% discount given under the Employee Stock Purchase Plan was approximately \$70,000 and \$81,000 for the nine months ended November 1, 2008 and November 3, 2007, respectively.

In accordance with SFAS No. 123R, the fair value of current restricted stock awards is estimated on the date of grant based on the market price of the Company's stock and is amortized to compensation expense on a straight-line basis over the related vesting periods. As of November 1, 2008 and November 3, 2007, there was \$5,860,000 and \$5,330,000 of total unrecognized compensation cost related to nonvested restricted stock awards, which have a remaining weighted-average vesting period of 3.17 years and 3.76 years, respectively. The total fair value of the shares recognized as compensation expense during the third quarter and nine months ended November 1, 2008 was \$511,000 and \$1,447,000 compared to \$397,000 and \$1,095,000 for the third quarter and nine months ended November 3, 2007.

The following summary shows the changes in the shares of restricted stock outstanding during the nine months ended November 1, 2008:

	Number of Shares	Weighted Average Grant Date Fair Value Per Share
Restricted stock awards at February 2, 2008	301,967	\$ 22.56
Granted	156,795	16.32

NOTE 7 INCOME TAXES:

For the quarter ended November 1, 2008, the Company's effective tax rate was 35.4%. During the next 12 months, various taxing authorities' statutes of limitations will expire which could result in a potential reduction of unrecognized tax benefits. In addition, certain federal and state examinations may close, the ultimate resolution of which could materially affect the effective tax rate.

NOTE 8 FAIR VALUE MEASUREMENTS:

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements*. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosure of fair value measurements. Applicable provisions of SFAS 157 were adopted by the Company effective February 3, 2008. In February 2008, the FASB issued FASB Staff Position 157-2, *Effective date of FASB Statement No. 157*, which delayed for one year the effective date of SFAS 157 for non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company has not yet determined the impact on its financial statements of the February 1, 2009 adoption of SFAS No. 157-2 as it pertains to non-financial assets and liabilities. The following table sets forth information regarding the Company's financial assets that are measured at fair value (in thousands).

Description	Fair Value Measurements at Reporting Date Using

Other Assets	2,516	329	2,187	

The Company's investment portfolio was primarily invested in tax exempt auction rate securities and governmental debt securities held in managed funds. These securities are classified as available-for-sale as they are highly liquid and are recorded on the balance sheet at estimated fair value, with unrealized gains and temporary losses reported net of taxes as accumulated other comprehensive income. Additionally, as of November 1, 2008, the Company had \$2.2 million invested in privately managed investment funds and \$0.3 million of other miscellaneous equities which are reported within other noncurrent assets in the Condensed Consolidated Balance Sheets.

As of November 1, 2008, the Company held \$48.1 million in auction rate securities (ARS) and variable rate demand notes (VRDN) issued by tax exempt municipal authorities and agencies and rated A or better. The underlying securities have contractual maturities which generally range from seven to thirty-two years. The ARS and VRDNs are recorded at estimated fair value and classified as available-for-sale. Of the \$48.1 million in ARS and VRDNs, \$7.4 million failed their last

auctions as of November 1, 2008. The Company has experienced continued reductions in its failed ARS and reasonably expects the last ARS to either experience a successful auction or be called within a year and so has classified it as a short term investment. During the month of November 2008, the Company's brokerage firm repurchased at par \$3.9 million of the aforementioned failed ARS.

The Company classified these failed ARS securities as Level 2 items under SFAS 157 since they were not trading within ARS auctions and there is not an actively quoted market price for these securities. Additionally, the Company valued these failed ARS investments at par using a number of market based inputs to estimate the fair value, including: (i) the underlying credit quality of the issuer and insurer and the probability of default of the issue; (ii) the Company's experience and observations with ARS investments that were similar in many material aspects such as credit quality, yield, coupon or term to the remaining failed securities; (iii) the present value of future principal and interest payments discounted at rates reflecting current market conditions, reflecting the Company's determination that the effects on the ARS' estimated fair value of the increased penalty interest being paid by the non-auctioning bonds, as offset by a liquidity/risk value reduction, would render the fair values materially the same as their carrying value (par); (iv) the timing of expected future cash flows; and (v) the likelihood of repurchase at par for each security.

NOTE 9 RECENT ACCOUNTING PRONOUNCEMENTS:

In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 applies to all entities that elect the fair value option. SFAS 159 was effective for the Company on February 3, 2008. The adoption of SFAS 159 did not have an impact on the Company's financial position, results of operations or cash flows.

On June 14, 2007, the FASB reached consensus on EITF Issue No. 06-11, *Accounting for Income Tax Benefits of Dividends on Share-Based Payment*. EITF Issue No. 06-11 requires that a realized income tax benefit from dividends or dividend equivalents that are charged to retained earnings and are paid to associates for equity classified nonvested equity shares, nonvested equity share units, and outstanding equity share options should be recognized as an increase to additional paid-in capital. The amount recognized in additional paid-in capital for the realized income tax benefit from dividends on those awards should be included in the pool of excess tax benefits available to absorb tax deficiencies on share-based payment awards. EITF Issue No. 06-11 is effective for fiscal years beginning on or after December 15, 2007. The impact of the Company's adoption of EITF Issue No. 06-11 was immaterial.

In June 2008, the FASB issued FSP No. EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*. EITF 03-6-1 requires that unvested share-based payments that contain nonforfeitable rights to dividends are participating securities and they shall be included in the computation of EPS pursuant to the two class method. EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is in the process of evaluating the impact that the adoption of EITF 03-6-1 will have on its financial statements.

CRITICAL ACCOUNTING POLICIES:

The Company's accounting policies are more fully described in Note 1 to the consolidated financial statements included in the Company's Annual Report on Form 10-K. As disclosed in Note 1 of Notes to Consolidated Financial Statements, the preparation of the Company's financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The most significant accounting estimates inherent in the preparation of the Company's financial statements include the allowance for doubtful accounts receivable, reserves relating to workers' compensation, general and auto insurance liabilities, reserves for group health insurance, reserves for inventory markdowns, calculation of asset impairment, shrinkage accrual and reserves for uncertain tax positions.

The Company's critical accounting policies and estimates are discussed with the Audit Committee.

RESULTS OF OPERATIONS:

The following table sets forth, for the periods indicated, certain items in the Company's unaudited Condensed Consolidated Statements of Income and Comprehensive Income as a percentage of total retail sales:

RESULTS OF OPERATIONS (CONTINUED):

Comparison of Third Quarter and First Nine Months of 2008 with 2007.

Total retail sales for the third quarter were \$179.8 million compared to last year's third quarter sales of \$181.9 million, a 1.2% decrease. Same-store sales decreased 2.4% in the third quarter of fiscal 2008. For the nine months ended November 1, 2008, total retail sales were \$636.6 million compared to last year's first nine months sales of \$625.0 million, a 1.9% increase, and same-store sales decreased 0.6% for the comparable nine month period. Total revenues, comprised of retail sales and other income (principally, finance charges and late fees on customer accounts receivable and layaway fees), were \$182.8 million and \$645.5 million for the third quarter and nine months ended November 1, 2008, respectively, compared to \$184.8 million and \$634.0 million for the third quarter and nine months ended November 3, 2007, respectively. The Company operated 1,305 stores at November 1, 2008 compared to 1,321 stores at the end of last year's third quarter. For the first nine months of 2008 the Company opened 57 new stores, relocated 4 stores and closed 70 stores.

Credit revenue of \$2.6 million represented 1.4% of total revenues in the third quarter of 2008, compared to 2007 credit revenue of \$2.6 million or 1.4% of total revenues. Credit revenue remained flat for the comparable periods due to lower finance charge income offset by slightly higher late fee income from sales under the Company's proprietary credit card. Credit revenue is comprised of interest earned on the Company's private label credit card portfolio and related fee income. Related expenses include principally bad debt expense, payroll, postage and other administrative expenses and totaled \$2.0 million in the third quarter of 2008, compared to last year's third quarter expenses of \$1.5 million. The increase was due to a \$0.5 million charge to bad debt expense as other administrative expenses remained flat compared to the third quarter of 2007.

Other income in total, as included in total revenues, was \$2.9 million and \$8.9 million for the third quarter and first nine months of fiscal 2008, compared to \$3.0 million and \$9.0 million for the prior year's comparable three and nine months periods, respectively. The slight overall decrease resulted primarily from lower finance charges offset by an increase in layaway charges.

Cost of goods sold was \$127.2 million, or 70.7% of retail sales and \$416.8 million or 65.5% of retail sales for the third quarter and first nine months of fiscal 2008, compared to \$126.1 million, or 69.3% of retail sales and \$417.0 million, or 66.7% of retail sales for the prior year's comparable three and nine month periods, respectively. The overall increase in cost of goods sold as a percent of retail sales for the third quarter of fiscal 2008 resulted primarily from higher markdowns and buying and occupancy costs. The overall decrease in cost of goods sold as a percent of retail sales for the first nine months of fiscal 2008 resulted primarily from lower markdowns partially offset by higher occupancy costs. The decrease in markdowns was primarily attributable to tight inventory management and higher sell-throughs of regular priced merchandise. Cost of goods sold includes merchandise costs, net of discounts and allowances, buying costs, distribution costs, occupancy costs, freight and inventory shrinkage. Net merchandise costs and in-bound freight are capitalized as inventory costs. Buying and distribution costs include payroll, payroll-related costs and operating expenses for the buying departments and distribution center. Occupancy expenses include rent, real estate taxes, insurance, common area maintenance, utilities and maintenance for stores and distribution facilities. Total gross margin dollars (retail sales less cost of goods sold) decreased by 5.6% to \$52.7 million in the third quarter and increased by 5.7% to \$219.8 million in the first nine months of fiscal 2008 compared to \$55.8 million and \$208.0 million for the prior year's comparable three and nine month periods, respectively. Gross margin as presented may not be comparable to those of other entities.

Selling, general and administrative expenses (SG&A) primarily include corporate and store payroll, related payroll taxes and benefits, insurance, supplies, advertising, bank and credit card processing fees and bad debts. SG&A expenses were \$50.9 million, or 28.3% of retail sales and \$170.8 million, or 26.8% of retail sales for the third quarter and first nine months of fiscal 2008, compared to \$51.3 million, or 28.2% of retail sales and \$154.9 million, or 24.8% of retail sales for prior year's comparable three and nine months periods, respectively. SG&A expenses as a percentage of retail sales increased 10 basis points for the third quarter of fiscal 2008 as compared to the prior year and increased 200 basis points for the first nine months of fiscal 2008, as compared to the prior year. The increase in SG&A expenses as a percentage of retail sales for the third quarter of fiscal 2008 was primarily attributable to increased operating costs from new stores, higher bad debt expense and costs associated with store closings offset by the reversal of accrued incentive compensation from the first half of the year. The overall dollar decrease in SG&A expenses for the third quarter of fiscal 2008 resulted primarily from the reduction in accrued incentive-based compensation partially offset by higher store operating expenses. For the first nine months of fiscal 2008, the increase in SG&A expenses as a percentage of retail sales and the overall dollar increase in SG&A expense resulted primarily from increased operating costs from new stores, higher medical and worker's compensation costs, accrued incentive compensation, increased bad debt expense and the costs associated with store closings.

RESULTS OF OPERATIONS (CONTINUED):

Depreciation expense was \$5.6 million, or 3.1% of retail sales and \$16.9 million or 2.6% of retail sales, for the third quarter and first nine months of fiscal 2008, compared to \$5.7 million, or 3.1% of retail sales and \$16.7 million, or 2.7% of retail sales, for prior year's comparable three and nine month periods, respectively.

Interest and other income was \$2.2 million, or 1.2% of retail sales and \$5.8 million, or 0.9% of retail sales for the third quarter and first nine months of fiscal 2008, compared to \$2.2 million, or 1.2% of retail sales and \$6.4 million, or 1.0% of retail sales, for the prior year's comparable three and nine month periods, respectively. The decrease in the first nine months of fiscal 2008 resulted primarily from lower interest rates and lower investment balances.

Income tax expense was \$0.5 million, or 0.3% of retail sales and \$17.0 million, or 2.7% of retail sales, for the third quarter and first nine months of fiscal 2008, compared to \$1.0 million, or 0.6% of retail sales and \$17.7 million, or 2.8% of retail sales, for the prior year's comparable three and nine month periods. The decrease for the third quarter resulted from lower pre-tax income offset by a higher effective tax rate primarily due to lower tax credits. The effective tax rate for the third quarter of fiscal 2008 was 35.4% compared to 25.6% for the third quarter of 2007. The decrease for the nine month period resulted from lower pre-tax income offset by a higher effective tax rate. The effective income tax rate for the first nine months of fiscal 2008 was 36.4% compared to 34.1% for the nine months of fiscal 2007.

LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK:

The Company has consistently maintained a strong liquidity position. Cash provided by operating activities during the first nine months of fiscal 2008 was \$55.7 million as compared to \$57.6 million in the first nine months of fiscal 2007. These amounts enable the Company to fund its regular operating needs, capital expenditure program, cash dividend payments and purchase of treasury stock. In addition, the Company maintains a \$35 million unsecured revolving credit facility for short-term financing of seasonal cash needs. There were no outstanding borrowings on this facility at November 1, 2008.

Cash provided by operating activities for the first nine months of fiscal 2008 was primarily generated by earnings adjusted for depreciation and changes in working capital items. The decrease of \$1.9 million for the first nine months of fiscal 2008 as compared to the first nine months of fiscal 2007 was primarily due to a decrease in net income and accounts payable, accrued expenses and other liabilities, partially offset by inventories, accrued income taxes and excess tax benefits in fiscal 2008.

LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK (CONTINUED):

The Company believes that its cash, cash equivalents and short-term investments, together with cash flows from operations and borrowings available under its revolving credit agreement, will be adequate to fund the Company's planned capital expenditures, dividends, purchase of treasury stock and other operating requirements for fiscal 2008 and for the foreseeable future.

At November 1, 2008, the Company had working capital of \$159.5 million compared to \$193.2 million at November 3, 2007. Additionally, the Company had \$2.2 million and \$1.9 million invested in privately managed investment funds at November 1, 2008 and November 3, 2007, respectively, which are included in other assets on the Condensed Consolidated Balance Sheets.

At November 1, 2008, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35 million. The revolving credit agreement is committed until August 2010. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of November 1, 2008. There were no borrowings outstanding under these credit facilities during the first nine months ended November 1, 2008 or the fiscal year ended February 2, 2008.

At November 1, 2008 and November 3, 2007, the Company had approximately \$5.9 million and \$2.5 million, respectively, of outstanding irrevocable letters of credit relating to purchase commitments.

Expenditures for property and equipment totaled \$17.4 million in the first nine months of fiscal 2008, compared to \$14.3 million in last year's first nine months. The expenditures for the first nine months of 2008 were primarily for store development and investments in new technology. For the full fiscal 2008 year, the Company expects to invest approximately \$19.7 million for capital expenditures. This includes expenditures for 70 planned new stores and to relocate 9 stores.

Net cash used in investing activities totaled \$25.0 million in the first nine months of fiscal 2008 compared to \$42.1 million provided for the comparable period of 2007. The decrease was due primarily to the net decrease in purchases over sales of short-term investments.

On December 4, 2008, the Board of Directors maintained the quarterly dividend at \$.165 per share or an annualized rate of \$.66 per share. The dividend will be payable on January 5, 2009 to shareholders of record of the Company at the close of business on December 22, 2008.

On August 31, 2007, the Board authorized an increase in the Company's share repurchase program of two million shares. There is no specified expiration date by which any shares included in this authorization must be purchased. For the nine months ended November 1, 2008, the Company has repurchased or accepted 198,618 shares at a cost of \$2,433,785. At November 1, 2008, 196,042 shares remain available for repurchase in open authorizations.

LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK (CONTINUED):

At November 1, 2008, the Company's investment portfolio was primarily invested in governmental and other debt securities with maturities less than 36 months. These securities are classified as available-for-sale and are recorded on the balance sheet at fair value, with unrealized gains and temporary losses reported net of taxes as accumulated other comprehensive income. The Company does not use derivative financial instruments.

Other than temporary declines in fair value of investments are recorded as a reduction in the cost of investments in the accompanying Condensed Consolidated Balance Sheets. As of November 1, 2008, the Company had no other than temporary declines in investments.

The Company had 76 stores closed due to Hurricane Gustav. Of those 76 stores, only two were closed over thirty days and were reopened in November 2008. The Company is in the process of determining business interruption losses.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK:

The Company is subject to market rate risk from exposure to changes in interest rates based on its financing, investing and cash management activities, but the Company does not believe such exposure is material.

ITEM 4. CONTROLS AND PROCEDURES:

We carried out an evaluation, with the participation of our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures as of November 1, 2008. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of November 1, 2008, our disclosure controls and procedures, as defined in Rule 13a-15(e), under the Securities Exchange Act of 1934 (the Exchange Act), were effective to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING:

No change in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) has occurred during the Company's fiscal quarter ended November 1, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 1A. RISK FACTORS

In addition to the other information in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for our fiscal year ended February 2, 2008. These risks could materially affect our business, financial condition or future results; however, they are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition or results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table summarizes the Company's purchases of its common stock for the three months ended November 1, 2008:
