Third Quarter 2006

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2006

Commission file number 1-4119

NUCOR CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

1915 Rexford Road, Charlotte, North Carolina
(Address of principal executive offices)

(704) 366-7000

(Registrant's telephone number, including area code)

13-1860817
(I.R.S. Employer

Identification No.)

28211
(Zip Code)

Edgar Filing: NUCOR CORP - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

302,116,334 shares of common stock were outstanding at September 30, 2006.

Table of Contents**Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited)**

- BASIS OF INTERIM PRESENTATION:** The information furnished in Item I reflects all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods and are of a normal and recurring nature. The information furnished has not been audited; however, the December 31, 2005 condensed consolidated balance sheet data was derived from audited financial statements but does not include all disclosures required by accounting principles generally accepted in the United States of America. The condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in Nucor's annual report for the fiscal year ended December 31, 2005. Certain amounts for the prior year have been reclassified to conform to the 2006 presentation.
- STOCK SPLIT:** In May 2006, Nucor's Board of Directors approved a two-for-one split of Nucor's common stock in the form of a stock dividend. As a result, stockholders of record received one additional share on May 31, 2006 for each share held on May 19, 2006. The par value of Nucor's common stock remains \$0.40 per share. All share and per share amounts have been restated to reflect the two-for-one stock split.
- FINANCIAL STATEMENT REVISION:** Certain prior year amounts have been revised to present variable rate demand notes (VRDNs) as short-term investments instead of cash equivalents. As a result, VRDNs in the amount of \$857.4 million at December 31, 2005, which had previously been included in cash and cash equivalents, are presented as short-term investments in the accompanying condensed consolidated balance sheet at December 31, 2005. Nucor purchased \$112.6 million of these securities during the nine months ended October 1, 2005; therefore, the condensed consolidated statement of cash flows has been revised. There were no sales of these securities during the nine months ended October 1, 2005.

We previously classified VRDNs as cash equivalents when the periods for interest rate resets were 90 days or less, based on our ability to either liquidate the VRDNs or roll them over to the next reset period. We reevaluated the presentation of these short-term investments considering the original maturity dates associated with the underlying bonds. This revision had no impact on Nucor's net earnings, changes in stockholders equity, or cash flows from operating activities and financing activities. The effects of this revision to our 2005 financial statements follow (in thousands). We had no VRDNs in 2004 and 2003.

	Year Ended December 31, 2005	
	As Originally Reported	As Revised
Cash flow from investing activities:		
Purchases of short-term investments	\$	\$ (919,950)
Proceeds from sales of short-term investments		62,590
Cash used in investing activities	(527,481)	(1,384,841)
Increase in cash and cash equivalents	1,058,461	201,101
Cash and cash equivalents at end of year	1,837,510	980,150
Short-term investments		857,360
Total current assets	4,071,553	4,071,553

Table of Contents**Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued**

	Nine Months (39 Weeks) Ended October 1, 2005	
	As Originally Reported	As Revised
Cash flow from investing activities:		
Purchases of short-term investments	\$	\$ (112,590)
Proceeds from sales of short-term investments		
Cash used in investing activities	(414,234)	(526,824)
Increase in cash and cash equivalents	828,189	715,599
Cash and cash equivalents at end of nine months	1,607,238	1,494,648
Short-term investments		112,590
Total current assets	3,805,010	3,805,010

4. **FOREIGN CURRENCY TRANSLATION:** The functional currency for certain joint ventures is the local currency. Gains and losses resulting from translating assets and liabilities from the functional currency to U.S. dollars are included in accumulated other comprehensive income. Foreign currency transaction gains and losses are included in operations in the period they occur.
5. **CASH AND CASH EQUIVALENTS:** Cash equivalents are recorded at cost plus accrued interest, which approximates market, and have original maturities of three months or less at the date of purchase. Cash and cash equivalents are maintained primarily with a few high-credit quality financial institutions.
6. **SHORT-TERM INVESTMENTS:** Short-term investments are recorded at cost plus accrued interest, which approximates market. Unrealized gains and losses on investments classified as available-for-sale are recorded as a component of accumulated other comprehensive income. Management determines the appropriate classification of its investments at the time of purchase and re-evaluates such determination at each balance sheet date. The Company periodically reviews its investments for impairment and adjusts these investments to their fair value when a decline in market value is deemed to be other than temporary.
- As of September 30, 2006 and December 31, 2005, short-term investments consisted entirely of VRDNs, which are variable rate bonds tied to short-term interest rates, but with stated maturities on the face of the bonds that exceed 90 days. All of the VRDNs in which Nucor invests are secured by a direct-pay letter of credit issued by a high-credit quality financial institution. Nucor is able to receive the principal invested and interest accrued thereon no later than seven days after notifying the financial institution that Nucor has elected to tender the VRDNs. VRDNs trade at par value; therefore, no realized or unrealized gains or losses were incurred. Aggregate contractual maturities of the Company's short-term investments are \$17.8 million in 2009, \$102.7 million in 2015 and \$1.27 billion in 2019 and thereafter.

Table of Contents

Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued

7. **INVENTORIES:** Inventories consist of approximately 51% raw materials and supplies and 49% finished and semi-finished products at September 30, 2006 (50% and 50% respectively, at December 31, 2005). Nucor's manufacturing process consists of a continuous, vertically integrated process from which products are sold to customers at various stages. Since most steel products can be classified as either finished or semi-finished products, these two categories of inventory are combined.

Inventories valued using the last-in, first-out (LIFO) method of accounting represent approximately 69% of total inventories as of September 30, 2006 (68% of total inventories as of December 31, 2005). If the first-in, first-out (FIFO) method of accounting had been used, inventories would have been \$426.9 million higher at September 30, 2006 (\$381.9 million higher at December 31, 2005).

8. **PROPERTY, PLANT AND EQUIPMENT:** Property, plant and equipment is recorded net of accumulated depreciation of \$3.46 billion at September 30, 2006 (\$3.20 billion at December 31, 2005).

9. **CURRENT LIABILITIES:** Drafts payable, included in accounts payable in the balance sheet, was \$131.6 million at September 30, 2006 (\$76.3 million at December 31, 2005).

Dividends payable, included in accrued expenses and other current liabilities in the balance sheet, was \$181.9 million at September 30, 2006 (\$100.9 million at December 31, 2005).

10. **STOCK-BASED COMPENSATION:** Effective January 1, 2006, Nucor adopted Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment, applying the modified prospective approach. As a result, the Company has recognized the cost of stock-based compensation as an expense using fair value measurement methods.

Through 2005, Nucor accounted for stock-based compensation plans under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. Accordingly, no compensation expense was recorded, other than for restricted stock grants, since the exercise prices of all stock options granted were equal to the market price of Nucor's common stock on the grant date. The following presents pro forma net earnings and per share data as if a fair value based method had been used to account for stock-based compensation in 2005 (in thousands, except per share amounts):

Table of Contents**Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued**

	Nine Months (39 Weeks) Ended	Three Months (13 Weeks) Ended
	Oct. 1, 2005	Oct. 1, 2005

Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of income taxes	(17,752)	(8,657)
Net earnings - pro forma	\$ 959,477	\$ 288,132
Net earnings per share - as reported:		
Basic	\$ 3.07	\$ 0.94
Diluted	3.04	0.93
Net earnings per share - pro forma:		
Basic	3.04	0.92
Diluted	3.01	0.92

STOCK OPTIONS: Nucor's stock option plans provide that options to purchase common stock may be granted to key employees, officers and non-employee directors with exercise prices at 100% of the market value on the date of the grant. Outstanding options are exercisable six months after grant date and have a term of seven years. Nucor did not grant any options during the nine months ended September 30, 2006 and does not expect to grant options to its employees, officers or non-employee directors in future periods. A summary of activity under Nucor's stock option plans for the nine months ended September 30, 2006 is as follows (in thousands, except year and per share amounts):

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value
Number of shares under option:				
Outstanding at beginning of year	4,366	\$ 19.93		
Exercised	(1,476)	19.54		\$ 39,405

Outstanding at September 30, 2006	2,888	\$ 20.12	4.4 years	\$ 84,826
Options exercisable at September 30, 2006	2,888	\$ 20.12	4.4 years	\$ 84,826

Table of Contents**Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued**

Nucor uses the Black-Scholes option-pricing model to determine the fair value of all option grants. Assumptions used in the model for the prior year grants are described in Nucor's Annual Report on Form 10-K. Expected volatilities are based on historical experience.

As a result of adopting SFAS No. 123(R) in the first quarter of 2006, compensation expense was recorded over the remaining vesting period for the unvested portion of previously issued awards that were outstanding at January 1, 2006. As of March 1, 2006, all outstanding options were vested; therefore, no compensation expense related to stock options was recorded in the third quarter of 2006 (\$2.5 million was expensed in the nine months ended September 30, 2006).

The amount of cash received from the exercise of stock options totaled \$28.8 million and \$1.6 million in the first nine months and third quarter of 2006, respectively.

RESTRICTED STOCK AIP and LTIP: Nucor's Senior Officers Annual Incentive Plan (the AIP) and Long-Term Incentive Plan (the LTIP) authorize the award of shares of common stock to officers subject to certain conditions and restrictions. The LTIP provides for the award of shares of restricted common stock at the end of each LTIP performance measurement period at no cost to officers if certain financial performance goals are met during the period. One-third of the LTIP restricted stock award vests upon each of the first three anniversaries of the award date or, if earlier, upon the officer's attainment of age fifty-five while employed by Nucor. Although participants are entitled to cash dividends and may vote such awarded shares, the sale or transfer of such shares is limited during the restricted period.

The AIP provides for the payment of annual cash incentive awards. An AIP participant may elect, however, to defer payment of up to one-half of an annual incentive award. In such event, the deferred AIP award is converted into common stock units and credited with a deferral incentive, in the form of additional common stock units, equal to 25% of the number of common stock units attributable to the deferred AIP award. Common stock units attributable to deferred AIP awards are fully vested. Common stock units credited as a deferral incentive vest upon the AIP participant's attainment of age fifty-five while employed by Nucor. Vested common stock units are paid to AIP participants in the form of shares of common stock following their termination of employment with Nucor.

A summary of Nucor's restricted stock activity under the AIP and LTIP for the first nine months of 2006 is as follows (shares in thousands):

	Shares	Weighted Average Price
Restricted stock awards and units:		
Unvested at beginning of year	408	\$ 27.33
Granted	588	47.54
Vested	(382)	39.29
Canceled		
Unvested at September 30, 2006	614	\$ 39.23
Shares reserved for future grants	2,724	

Table of Contents**Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued**

Compensation expense for common stock and common stock units awarded under the AIP and LTIP is recorded over the performance measurement and vesting periods based on the anticipated number and market value of shares of common stock and common stock units to be awarded. Compensation expense for anticipated awards based upon Nucor's financial performance, exclusive of amounts payable in cash, was \$16.0 million and \$10.6 million in the first nine months of 2006 and 2005, respectively, and was \$4.2 million and \$5.7 million in the third quarter of 2006 and 2005, respectively. At September 30, 2006, unrecognized compensation expense related to unvested restricted stock was \$5.7 million, which is expected to be recognized over a weighted-average period of 1.9 years.

RESTRICTED STOCK UNITS: In June 2006, Nucor granted restricted stock units (RSUs) to key employees, officers and non-employee directors for the first time. The RSUs typically vest and are converted to common stock in three equal installments on each of the first three anniversaries of the grant date. A portion of the RSUs awarded to senior officers vest upon the officer's retirement. Retirement, for purposes of vesting in these units only, means termination of employment with approval of the Compensation and Executive Development Committee after satisfying age and years of service requirements. RSUs granted to non-employee directors are fully vested on the grant date and are payable to the non-employee director in the form of common stock after the termination of the director's service on the Board of Directors.

RSUs granted to employees who are eligible for retirement on the date of grant or will become retirement-eligible prior to the end of the vesting term are expensed over the period through which the employee will become retirement-eligible since the awards vest upon retirement from the Company. Compensation expense for RSUs granted to employees who are not retirement-eligible is recognized on a straight-line basis over the vesting period. Cash dividend equivalents are paid to participants each quarter. Dividend equivalents paid on units expected to vest are recognized as a reduction in retained earnings.

The fair value of the RSUs is determined based on the closing stock price of Nucor's common stock on the day before the grant. A summary of Nucor's restricted stock unit activity for the first nine months of 2006 is as follows (shares in thousands):

	Shares	Weighted Average Price
Restricted stock awards and units:		
Unvested at beginning of year		\$
Granted	769	52.64
Vested	(141)	52.64
Canceled	(4)	52.64
Unvested at September 30, 2006	624	\$ 52.64
Shares reserved for future grants	18,306	

Compensation expense for RSUs was \$11.7 million in the first nine months of 2006 and \$6.5 million in the third quarter of 2006 (none in 2005). As of September 30, 2006, there was \$27.5 million of total unrecognized compensation cost related to nonvested RSUs, which is expected to be recognized over a weighted-average period of 2.2 years.

Table of Contents**Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued**

11. CONTINGENCIES: Nucor is subject to environmental laws and regulations established by federal, state and local authorities and makes provision for the estimated costs related to compliance. Of the undiscounted total of \$22.7 million of accrued environmental costs at September 30, 2006 (\$24.0 million at December 31, 2005), \$19.4 million was classified in accrued expenses and other current liabilities (\$20.0 million at December 31, 2005) and \$3.3 million was classified in deferred credits and other liabilities (\$4.0 million at December 31, 2005).

Other contingent liabilities with respect to product warranties, legal proceedings and other matters arise in the normal course of business. In the opinion of management, no such matters exist which would have a material effect on the consolidated financial statements.

12. EMPLOYEE BENEFIT PLAN: Nucor has a Profit Sharing and Retirement Savings Plan for qualified employees. Nucor's expense for these benefits was \$213.0 million and \$153.8 million in the first nine months of 2006 and 2005, respectively, and was \$80.2 million and \$45.3 million in the third quarter of 2006 and 2005, respectively.

13. INTEREST (INCOME) EXPENSE: The components of net interest (income) expense are as follows (in thousands):

	Nine Months (39 Weeks) Ended		Three Months (13 Weeks) Ended	
	Sept. 30, 2006	Oct. 1, 2005	Sept. 30, 2006	Oct. 1, 2005
Interest expense	\$ 30,096	\$ 27,033	\$ 10,166	\$ 9,076
Interest income	(55,849)	(19,637)	(20,599)	(8,154)
Interest (income) expense, net	\$ (25,753)	\$ 7,396	\$ (10,433)	\$ 922

14. OTHER INCOME: In the first quarter of 2005, Nucor received \$9.2 million in settlement of claims against third parties related to environmental matters. Nucor has made claims for reimbursement of additional amounts. No amounts have been recorded for such reimbursements, if any, that may be received.

15. INCOME TAXES: In the second quarter of 2006, the Internal Revenue Service (IRS) concluded its audit of our 2002 tax returns. As a result of this audit, Nucor recorded a net tax reserves reversal of \$4.0 million. The IRS is currently examining Nucor's 2003 and 2004 federal income tax returns. Management believes that the Company has adequately provided for any adjustments that may arise from this audit.

16. COMPREHENSIVE INCOME: The components of comprehensive income are as follows (in thousands):

	Nine Months (39 Weeks) Ended		Three Months (13 Weeks) Ended	
	Sept. 30, 2006	Oct. 1, 2005	Sept. 30, 2006	Oct. 1, 2005
Net earnings	\$ 1,349,522	\$ 969,250	\$ 517,578	\$ 291,877
Net unrealized gain (loss) on hedging derivatives	(51,500)	72,277	(15,700)	50,400
Foreign currency translation	9,221		1,651	
Total comprehensive income	\$ 1,307,243	\$ 1,041,527	\$ 503,529	\$ 342,277

Edgar Filing: NUCOR CORP - Form 10-Q

Comprehensive income includes net unrealized cash flow hedging gains (losses) on derivatives and foreign currency translation adjustments, both of which are presented net of tax.

Table of Contents**Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued**

17. SEGMENTS: Nucor reports its results in two segments, steel mills and steel products. The steel mills segment includes carbon and alloy steel in sheet, bars, structural and plate. The steel products segment includes steel joists and joist girders, steel deck, cold finished steel, steel fasteners, metal building systems and light gauge steel framing. The segments are consistent with the way Nucor manages its business, which is primarily based upon the similarity of the types of products produced and sold by each segment.

Interest expense, minority interests, other income, profit sharing expense and changes in the LIFO reserve and environmental accruals are shown under Corporate/eliminations/other. Corporate assets primarily include cash and cash equivalents, short-term investments, deferred income tax assets and investments in affiliates. The company's results by segment were as follows (in thousands):

	Nine Months (39 Weeks) Ended		Three Months (13 Weeks) Ended	
	Sept. 30, 2006	Oct. 1, 2005	Sept. 30, 2006	Oct. 1, 2005

			\$ 7,895,667	\$ 7,138,787

18. INVESTMENTS AND ACQUISITIONS: In May 2006, Nucor's wholly owned subsidiary, Nucor Steel Connecticut, Inc., purchased substantially all of the assets of Connecticut Steel Corporation for a cash purchase price of approximately \$43.9 million. This facility produces wire rod, rebar, wire mesh and structural mesh.

In June 2005, Nucor's wholly owned subsidiary, Nucor Steel Marion, Inc., purchased substantially all of the assets of Marion Steel Company for a cash purchase price of approximately \$108.7 million. This facility produces angles, flats, rebar, rounds and signposts.

Table of Contents**Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued**

In February 2005, Nucor purchased the assets of Fort Howard Steel, Inc.'s operations in Oak Creek, Wisconsin, for a cash purchase price of approximately \$44.1 million. This facility produces cold finish bar product.

Nucor owns a one-half interest in Harris Steel, Inc., a wholly owned subsidiary of Harris Steel Group, Inc. As of September 30, 2006, Nucor held a note receivable from Harris Steel Inc. in the amount of \$10.0 million. This note receivable bears interest, payable upon maturity, at a rate of LIBOR plus 100 basis points. The note was classified in Other Current Assets.

19. EARNINGS PER SHARE: The computations of basic and diluted net earnings per share are as follows (in thousands, except per share amounts):

	Nine Months (39 Weeks) Ended		Three Months (13 Weeks) Ended	
	Sept. 30, 2006	Oct. 1, 2005	Sept. 30, 2006	Oct. 1, 2005
Basic net earnings per share:				
Basic net earnings	\$ 1,349,522	\$ 969,250	\$ 517,578	\$ 291,877
Average shares outstanding	308,569	315,730	304,835	311,665
Basic net earnings per share	\$ 4.37	\$ 3.07	\$ 1.70	\$ 0.94
Diluted net earnings per share:				
Diluted net earnings	\$ 1,349,522	\$ 969,250	\$ 517,578	\$ 291,877
Diluted average shares outstanding:				
Basic shares outstanding	308,569	315,730	304,835	311,665
Dilutive effect of stock options and other	2,851	2,902	2,718	2,806
	311,420	318,632	307,553	314,471
Diluted net earnings per share	\$ 4.33	\$ 3.04	\$ 1.68	\$ 0.93

20. SUBSEQUENT EVENT: On November 1, 2006, Nucor's wholly owned subsidiary, Verco Decking, Inc., purchased substantially all the assets of Verco Manufacturing Company (Verco) for a cash purchase price of approximately \$180 million. Verco produces steel floor and roof decking in three locations in the western United States.
21. RECENT ACCOUNTING PRONOUNCEMENTS: In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109, which clarifies the accounting of uncertainty in income taxes recognized in financial statements in accordance with FASB Statement No. 109, Accounting of Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The provisions of this Interpretation are effective for Nucor beginning on January 1, 2007. Management is currently evaluating the financial statement impact of the adoption of FIN 48.

Table of Contents

Nucor Corporation Notes to Condensed Consolidated Financial Statements (Unaudited), continued

In September 2006, the FASB issued Statement No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. Management is currently evaluating the impact, if any, of this statement.

In September 2006, the FASB issued FASB Staff Position AUG AIR-1, Accounting for Planned Major Maintenance Activities, which is effective for Nucor beginning on January 1, 2007. This position statement eliminates Nucor's current policy, which is the accrue-in-advance method of accounting for planned major maintenance activities. In accordance with this position statement, Nucor will elect to use either the direct expensing method or the deferral method of accounting for planned maintenance activities. Management is currently evaluating the financial statement impact of the adoption of this statement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements made in this quarterly report are forward-looking statements that involve risks and uncertainties. These forward-looking statements reflect the Company's best judgment based on current information, and although we base these statements on circumstances that we believe to be reasonable when made, there can be no assurance that future events will not affect the accuracy of such forward-looking information. As such, the forward-looking statements are not guarantees of future performance, and actual results may vary materially from the results and expectations discussed in this report. Factors that might cause the Company's actual results to differ materially from those anticipated in forward-looking statements include, but are not limited to: (1) the sensitivity of the results of our operations to prevailing steel prices and the changes in the supply and cost of raw materials, including scrap steel; (2) availability and cost of electricity and natural gas; (3) market demand for steel products; (4) competitive pressure on sales and pricing, including pressure from imports and substitute materials; (5) uncertainties surrounding the global economy, including excess world capacity for steel production and fluctuations in international conversion rates; (6) U.S. and foreign trade policy affecting steel imports or exports; (7) significant changes in government regulations affecting environmental compliance; (8) the cyclical nature of the steel industry; (9) capital investments and their impact on our performance; and (10) our safety performance.

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements included elsewhere in this report, as well as the audited consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in Nucor's Annual Report on Form 10-K for the year ended December 31, 2005.

Operations

Net sales for the first nine months of 2006 increased 19% to \$11.28 billion, compared with \$9.49 billion in last year's first nine months. Average sales price per ton increased 7% from \$617 in the first nine months of 2005 to \$662 in the first nine months of 2006, while total tons shipped to outside customers increased 11% from the first nine months of 2005. Net sales for the third quarter of 2006 increased 30% to \$3.93 billion, compared with \$3.03 billion in the third quarter of 2005. The increase was due to a 23% increase in average sales price per ton from \$571 in the third quarter of 2005 to \$702 in the third quarter of 2006, accompanied by a 6% increase in total tons shipped to outside customers. Average sales price per ton increased 7% from the second quarter of 2006 to the third quarter of 2006, while total tons shipped to outside customers decreased 4%.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

During the first nine months of 2006, Nucor established records in the steel mills segment for steel production, total steel shipments and steel sales to outside customers. Steel production was 17,318,000 tons in the first nine months of 2006, compared with 15,136,000 tons produced in the first nine months of 2005, an increase of 14%. Total steel shipments increased 11% to 17,286,000 tons in the first nine months of 2006, compared with 15,504,000 tons in last year's first nine months. Steel sales to outside customers increased 11% to 15,936,000 tons in the first nine months of 2006, compared with 14,295,000 tons in last year's first nine months. In the steel products segment, steel joist production during the first nine months was 433,000 tons, compared with 413,000 tons in the first nine months of 2005, an increase of 5%. Steel deck sales decreased to 284,000 tons in the first nine months of 2006, compared with 285,000 tons in last year's first nine months. Cold finished steel sales remained flat at 261,000 tons in the first nine months of 2006 when compared with the first nine months of 2005. During the first nine months of 2006, the average estimated utilization rates of all operating facilities in the steel mills and steel products segments were approximately 92% and 80%, respectively.

The major component of cost of products sold is raw material costs. The average price of raw materials decreased approximately 1% from the first nine months of 2005 to the first nine months of 2006, and increased approximately 15% from the third quarter of 2005 to the third quarter of 2006.

In the steel mills segment, the average prices of raw materials used decreased approximately 1% from the first nine months of 2005, and increased approximately 17% from the third quarter of 2005. The average scrap and scrap substitute cost per ton used in our steel mills segment was \$247 in the first nine months of 2006, an increase of 1% from \$245 in the first nine months of 2005, and was \$257 in the third quarter of 2006, an increase of 18% from \$217 in the third quarter of 2005. Nucor incurred a charge to value inventories using the last-in, first-out (LIFO) method of accounting of \$45.0 million in the first nine months of 2006, compared with a credit of \$148.0 million in the first nine months of 2005. In the third quarter of 2006, the LIFO charge was \$20.5 million, compared with a credit of \$52.0 million in last year's third quarter. The LIFO charges (credits) for these interim periods are based on management's estimates of both inventory prices and quantities at year-end. These estimates will likely differ from actual amounts, and such differences may be significant.

The average prices of raw materials used in the steel products segment remained flat from the first nine months and third quarter of 2005.

Total energy costs increased approximately \$1 per ton from the first nine months of 2005 to the first nine months of 2006 and decreased approximately \$4 per ton from the third quarter of 2005 to the third quarter of 2006.

For the first nine months of 2006, pre-operating and start-up costs increased to \$30.0 million, compared with \$6.9 million in the first nine months of 2005. Pre-operating and start-up costs of new facilities increased to \$14.9 million in the third quarter of 2006, compared with \$1.3 million in the third quarter of 2005. In 2006, these costs primarily related to the HIs melt project in Kwinana, Western Australia and the refurbishment of our direct reduced iron facility in Trinidad. In 2005, these costs primarily related to the dismantling of the direct reduced iron plant located in Louisiana and its relocation to Trinidad, as well as for the modernization of rolling mill #2 at the bar mill in Darlington, South Carolina.

Gross margins were approximately 23% and 26% for the first nine months and third quarter of 2006, respectively, compared with approximately 20% and 19% for the first nine months and the third quarter of 2005, respectively.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

The major components of marketing, administrative and other expenses are freight and profit sharing costs. Unit freight costs increased approximately 8% from the first nine months of 2005 to the first nine months of 2006 and approximately 3% from the third quarter of 2005 to the third quarter of 2006 primarily due to higher fuel costs. Profit sharing costs, which are based upon and generally fluctuate with pre-tax earnings, increased approximately 44% in the first nine months of 2006 compared with the first nine months of 2005, and increased approximately 59% from the third quarter of 2005 to the third quarter of 2006. Profit sharing costs also fluctuate based on Nucor's achievement of certain financial performance goals, including comparisons of Nucor's financial performance to peers in the steel industry and to other high performing companies.

Nucor earned net interest income in the first nine months and third quarter of 2006 compared with net interest expense in the first nine months and third quarter of 2005 due to an increase in average cash equivalents and short-term investments and an increase in average interest rates on those investments, partially offset by an increase in the average interest rate on long-term debt.

Minority interests represent the income attributable to the minority partners of Nucor's less than 100% owned joint venture, Nucor-Yamato Steel Company. Under the partnership agreement, the minimum amount of cash to be distributed each year to the partners of Nucor-Yamato Steel Company is the amount needed by each partner to pay applicable U.S. federal and state income taxes. In the first nine months of 2005 and 2006, the amount of cash distributed to minority interest holders exceeded amounts allocated to minority interests based on mutual agreement of the general partners; however, the cumulative amount of cash distributed to partners was less than the cumulative net earnings of the partnership.

In the first nine months of 2005, Nucor received \$9.2 million in settlement of claims against third parties related to environmental matters (none in 2006).

Nucor had an effective tax rate of 35.1% in the first nine months of 2006 compared with 35.2% in the first nine months of 2005 and had an effective tax rate of 34.9% in the third quarter of 2006, compared with 34.7% in the third quarter of 2005. In the second quarter of 2006, the IRS concluded its audit of our 2002 tax returns. As a result of this audit, we recorded a net tax reserves reversal of \$4.0 million. The IRS is currently examining Nucor's 2003 and 2004 federal income tax returns. Management believes that Nucor has adequately provided for any adjustments that may arise from this audit.

Net earnings and earnings per share in the first nine months of 2006 increased 39% and 42%, respectively, to \$1.35 billion and \$4.33 per diluted share, compared with \$969.3 million and \$3.04 per diluted share in the first nine months of 2005. Net earnings and earnings per share in the third quarter of 2006 increased 77% and 81%, respectively, to \$517.6 million and \$1.68 per diluted share, compared with \$291.9 million and \$0.93 per diluted share in the third quarter 2005. Net earnings as a percentage of net sales were 12% and 10%, respectively, in the first nine months of 2006 and 2005, and were 13% and 10%, respectively, in the third quarter of 2006 and 2005. The increase in earnings per share also reflects the effect of repurchasing approximately 21.3 million shares of Nucor's common stock since the first quarter of 2005. Return on average stockholders' equity was approximately 40.3% and 34.2% in the first nine months of 2006 and 2005, respectively.

We expect that earnings in the fourth quarter of 2006 will be strong; however, they will be impacted by lower shipments resulting from seasonality and the current inventory destocking by our service center customers. These high inventories are due in part to the unexpected continued high levels of imports in the third quarter. Margins are expected to be strong in the fourth quarter. Margins will be affected by lower spot market prices for sheet and bars, but they will benefit from anticipated lower scrap costs. More than 80% of our sheet mill volume for the fourth quarter is committed to contract customers. These contracts limit our exposure during the terms of the contracts to the volatility of prices in the spot market. In addition, Nucor continues to benefit from the breadth of our product diversity.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Liquidity and capital resources

The current ratio was 2.9 at the end of the first nine months of 2006 and 3.2 at year-end 2005. The percentage of long-term debt to total capital was 16% at the end of the first nine months of 2006 and 17% at year-end 2005.

Short-term investments as of September 30, 2006 totaled \$1.39 billion and as of December 31, 2005 totaled \$857.4 million. Short-term investments for both periods consisted solely of VRDNs, which are variable rate bonds tied to short-term interest rates but with stated maturities on the face of the bonds that exceed 90 days. All VRDNs in which Nucor invests are secured by direct-pay letters of credit issued by high-credit quality banks. This bank credit enhancement provides a high degree of security and liquidity to the VRDNs. Nucor is able to receive a cash payment in the amount of its principal invested and interest accrued on any VRDN no later than seven days after notifying the bank that it has elected to tender such bond.

Capital expenditures increased approximately 8% in the first nine months of 2006 compared with the first nine months of 2005. Capital expenditures are projected to be approximately \$340.0 million for all of 2006.

During the second quarter of 2006, Nucor's wholly owned subsidiary, Nucor Steel Connecticut, Inc., purchased substantially all the assets of Connecticut Steel Corporation for a cash purchase price of approximately \$43.9 million. The acquisition was not material to the consolidated financial statements and did not result in material goodwill or other intangible assets.

In September 2006, Nucor's Board of Directors declared a supplemental dividend of \$0.50 per share in addition to the \$0.10 per share base dividend. The total dividend of \$0.60 per share is payable on November 10, 2006 to stockholders of record on September 29, 2006.

Nucor repurchased approximately 10.1 million shares of its common stock at a cost of approximately \$515.0 million during the first nine months of 2006, and repurchased approximately 6.3 million shares at a cost of about \$318.3 million during the third quarter of 2006. Nucor repurchased approximately 9.4 million shares at a cost of about \$245.2 million during the first nine months of 2005, and repurchased approximately 1.4 million shares at a cost of about \$39.3 million during the third quarter of 2005. Approximately 15.7 million shares remain authorized for repurchase under the current program. Since the first quarter of 2005, Nucor has repurchased approximately 21.3 million shares of common stock.

Funds provided from operations, existing credit facilities and new borrowings are expected to be adequate to meet future capital expenditure and working capital requirements for existing operations for at least the next 24 months. Three projects announced this year include a galvanizing facility at Nucor's sheet mill in Decatur, Alabama at an estimated cost of \$150.0 million, a fourth metal building systems facility in Brigham City, Utah at an estimated cost of \$27.0 million, and a special bar quality products steel mill in Memphis, Tennessee at an estimated cost of \$230.0 million. In addition, on November 1, 2006, Nucor's wholly owned subsidiary, Verco Decking, Inc., purchased substantially all of the assets of Verco for a cash purchase price of approximately \$180.0 million. Nucor has the financial ability to borrow significant additional funds to finance major acquisitions and still maintain reasonable leverage.

Management's Discussion and Analysis of Financial Condition and Results of Operations, continued

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the ordinary course of business, Nucor is exposed to a variety of market risks. We continually monitor these risks and develop appropriate strategies to manage them.

Interest Rate Risk Nucor manages interest rate risk by using a combination of variable-rate and fixed-rate debt. Nucor also makes use of interest rate swaps to manage net exposure to interest rate changes. Management believes that Nucor's exposure to interest rate market risk has not significantly changed since December 31, 2005.

Commodity Price Risk In the ordinary course of business, Nucor is exposed to market risk for price fluctuations of raw materials and energy, principally scrap steel and natural gas. We attempt to negotiate the best prices for our raw materials and energy requirement and to obtain prices for our steel products that match market price movements in response to supply and demand. In the first quarter of 2004, Nucor initiated a raw material surcharge designed to pass through the historically high cost of scrap steel and other raw materials. Our surcharge mechanism has worked effectively to reduce the normal time lag in passing through higher raw material costs so we can maintain our gross margins.

Nucor also uses derivative financial instruments to hedge a portion of our exposure to price risk related to natural gas purchases used in the production process when management believes it is prudent to do so. Gains and losses from the use of these instruments are deferred in accumulated other comprehensive income (loss) on the condensed consolidated balance sheets and recognized into cost of products sold in the same period as the underlying physical transaction. At September 30, 2006, accumulated other comprehensive income (loss) includes \$4.9 million in unrealized net-of-tax losses for the fair value of these derivative instruments. A sensitivity analysis of changes in the price of hedged natural gas purchases indicates that declines of 10% and 25% in natural gas prices would reduce the fair value of our natural gas hedge position by \$16.1 million and \$40.3 million, respectively. Any resulting changes in fair value would be recorded as adjustments to other comprehensive income (loss), net of tax. Because these instruments are structured and used as hedges, these hypothetical losses would be offset by the benefit of lower prices paid for the natural gas used in the normal production cycle.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting There were no changes in our internal control over financial reporting during the quarter ended September 30, 2006 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1A. Risk Factors**

There have been no material changes in Nucor's risk factors from those included in Nucor's annual report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Our share repurchase program activity for each of the three months and the quarter ended September 30, 2006 was as follows (in thousands, except per share amounts):

	Total Number of Shares Purchased	Average Price Paid per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (2)
July 2, 2006 - July 29, 2006	1,900	\$ 52.03	1,900	20,118
July 30, 2006 - August 26, 2006	2,000	51.33	2,000	18,118
August 27, 2006 - September 30, 2006	2,400	48.65	2,400	15,718
For the Quarter Ended September 30, 2006	6,300	\$ 50.52	6,300	15,718

(1) Includes commissions of \$0.02 per share.

(2) On September 5, 2000, the Board of Directors approved a stock repurchase program under which the Company is authorized to repurchase up to 5.0 million shares of the Company's common stock. On September 8, 2004, the Board of Directors resolved that the number of shares of common stock authorized for repurchase would increase 100% as a result of the 2-for-1 stock split on the record date of September 30, 2004. At that time, the number of remaining shares authorized for repurchase increased from 4.2 million shares to 8.5 million shares. On April 21, 2005, the Company publicly announced the reactivation of this stock repurchase program. On December 6, 2005, The Board of Directors authorized the repurchase of up to an additional 10.0 million shares of its common stock once the current repurchase authorization is completed. On May 11, 2006, the Board of Directors resolved that the number of shares of common stock authorized for repurchase would increase 100% as a result of a 2-for-1 stock split on the record date of May 19, 2006. At that time, the number of remaining shares authorized for repurchase increased from 12.5 million shares to 24.9 million shares.
