UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington D.C. 20549

FORM 10-Q

(Mark One)

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934**

For the quarterly period ended September 30, 2014

OR

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934**

For the transition period from _____ to _____

Commission File Number 001-33307

RadNet, Inc.

(Exact name of registrant as specified in charter)

Delaware

13-3326724

(State or other jurisdiction of
Incorporation or organization) (I.R.S. Employer
Identification No.)

1510 Cotner Avenue
Los Angeles, California 90025
(Address of principal executive offices) (Zip Code)

(310) 478-7808

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act) Yes No

The number of shares of the registrant's common stock outstanding on November 5, 2014, was 42,710,676 shares.

CONDENSED CONSOLIDATED STATEMENTS OF CASH FLOWS (CONTINUED)

(unaudited)

Supplemental Schedule of Non-Cash Investing and Financing Activities

We acquired equipment and certain leasehold improvements for approximately \$16.6 million and \$11.3 million during the nine months ended September 30, 2014 and 2013, respectively, which were not paid for as of September 30, 2014 and 2013, respectively. The offsetting amounts due were recorded in our consolidated balance sheet under accounts payable, accrued expenses and other.

During the nine months ended September 30, 2014, we added capital lease debt of approximately \$12.6 million relating to radiology equipment.

Detail of non-cash investing activities related to acquisitions can be found in Note 2.

RADNET, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

NOTE 1 – NATURE OF BUSINESS AND BASIS OF PRESENTATION

We provide diagnostic imaging services including magnetic resonance imaging (MRI), computed tomography (CT), positron emission tomography (PET), nuclear medicine, mammography, ultrasound, diagnostic radiology (X-ray), fluoroscopy and other related procedures. At September 30, 2014, we operated directly or indirectly through joint ventures, 263 imaging centers located in California, Maryland, Florida, Delaware, New Jersey, Rhode Island and New York. Our operations comprise a single segment for financial reporting purposes.

The condensed consolidated financial statements include the accounts of Radnet Management, Inc. (or “Radnet Management”) and Beverly Radiology Medical Group III, a professional partnership (“BRMG”). The condensed consolidated financial statements also include Radnet Management I, Inc., Radnet Management II, Inc., Radiologix, Inc., Radnet Managed Imaging Services, Inc., Delaware Imaging Partners, Inc., New Jersey Imaging Partners, Inc. and Diagnostic Imaging Services, Inc. (“DIS”), all wholly owned subsidiaries of Radnet Management. All of these affiliated entities are referred to collectively as “RadNet”, “we”, “us”, “our” or the “Company” in this report.

Accounting Standards Codification (“ASC”) Section 810-10-15-14 stipulates that generally any entity with a) insufficient equity to finance its activities without additional subordinated financial support provided by any parties, or b) equity holders that, as a group, lack the characteristics specified in the ASC which evidence a controlling financial interest, is considered a Variable Interest Entity (“VIE”). We consolidate all VIEs in which we own a majority voting interest and all VIEs for which we are the primary beneficiary. We determine whether we are the primary beneficiary of a VIE through a qualitative analysis that identifies which variable interest holder has the controlling financial interest in the VIE. The variable interest holder who has both of the following has the controlling financial interest and is the primary beneficiary: (1) the power to direct the activities of the VIE that most significantly impact the VIE’s economic performance and (2) the obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the VIE. In performing our analysis, we consider all relevant facts and circumstances, including: the design and activities of the VIE, the terms of the contracts the VIE has entered into, the nature of the VIE’s variable interests issued and how they were negotiated with or marketed to potential investors, and which parties participated significantly in the design or redesign of the entity.

Howard G. Berger, M.D. is our President and Chief Executive Officer, a member of our Board of Directors and is deemed to be the beneficial owner, directly and indirectly, of approximately 13.1% of our outstanding common stock

as of September 30, 2014. Dr. Berger also owns, indirectly, 99% of the equity interests in BRMG. BRMG provides all of the professional medical services at the majority of our facilities located in California under a management agreement with us, and employs physicians or contracts with various other independent physicians and physician groups to provide the professional medical services at most of our other California facilities. We generally obtain professional medical services from BRMG in California, rather than provide such services directly or through subsidiaries, in order to comply with California's prohibition against the corporate practice of medicine. However, as a result of our close relationship with Dr. Berger and BRMG, we believe that we are able to better ensure that medical service is provided at our California facilities in a manner consistent with our needs and expectations and those of our referring physicians, patients and payors than if we obtained these services from unaffiliated physician groups. BRMG is a partnership of ProNet Imaging Medical Group, Inc., Breastlink Medical Group, Inc. and Beverly Radiology Medical Group, Inc., each of which is 99% or 100% owned by Dr. Berger.

John V Crues, III, M.D. is our Medical Director, a member of our Board of Directors and a 1% owner of BRMG. Dr. Crues owns a controlling interest in four medical groups ("Crues Entities") which provide professional medical services at some of our facilities in Manhattan and Brooklyn, New York while Dr. Berger owns a controlling interest in two medical groups ("NY Berger Entities") which provide professional medical services at one of our Manhattan, New York facilities. The Crues Entities and the NY Berger Entities are collectively hereinafter referred to as the "B&C Entities."

RadNet provides non-medical, technical and administrative services to BRMG and the B&C Entities for which it receives a management fee, pursuant to the related management agreements. Through these management agreements and our relationship with both Dr. Berger and Dr. Crues, we have exclusive authority over all non-medical decision-making related to the ongoing business operations of BRMG and the B&C Entities and we determine the annual budget of BRMG and the B&C Entities. BRMG and the B&C Entities both have insignificant operating assets and liabilities, and de minimis equity. Through these management agreements, we are paid the fair market value of our services, the result of which is that generally all net cash flows of both BRMG and the B&C Entities are transferred to us.

We have determined that BRMG and the B&C Entities are VIEs, and that we are the primary beneficiary, and consequently, we consolidate the revenue, expenses, assets and liabilities of each such entity. BRMG and the B&C Entities on a combined basis recognized \$23.6 million and \$24.7 million of revenue, net of management service fees to RadNet for the three months ended September 30, 2014 and 2013, respectively, and \$23.6 million and \$24.7 million of operating expenses for the three months ended September 30, 2014 and 2013, respectively. RadNet, Inc. recognized in its condensed consolidated statement of operations \$98.0 million and \$98.3 million of total billed net service fee revenue relating to these VIE's for the three months ended September 30, 2014 and 2013, respectively, of which \$74.4 million and \$73.6 million was for management services provided to BRMG and the B&C Entities relating primarily to the technical portion of total billed net service fee revenue for the three months ended September 30, 2014 and 2013, respectively.

BRMG and the B&C Entities on a combined basis recognized \$65.6 million and \$58.2 million of revenue, net of management service fees to RadNet for the nine months ended September 30, 2014 and 2013, respectively, and \$65.6 million and \$58.2 million of operating expenses for the nine months ended September 30, 2014 and 2013, respectively. RadNet, Inc. recognized in its condensed consolidated statement of operations \$279.6 million and \$256.6 million of total billed net service fee revenue relating to these VIE's for the nine months ended September 30, 2014 and 2013, respectively, of which \$213.9 million and \$198.4 million was for management services provided to BRMG and the B&C Entities relating primarily to the technical portion of total billed net service fee revenue for the nine months ended September 30, 2014 and 2013, respectively.

The cash flows of BRMG and the B&C Entities are included in the accompanying consolidated statements of cash flows. All intercompany balances and transactions have been eliminated in consolidation. In our consolidated balance sheets at September 30, 2014 and December 31, 2013, we have included approximately \$80.3 million and \$65.2 million, respectively, of accounts receivable and approximately \$9.4 million and \$11.9 million, respectively, of accounts payable and accrued liabilities, related to BRMG and the B&C Entities combined.

The creditors of both BRMG and the B&C Entities do not have recourse to our general credit and there are no other arrangements that could expose us to losses on behalf of BRMG and the B&C Entities. However, because of the relationship RadNet may be required to provide financial support to cover any operating expenses in excess of operating revenues.

Aside from certain centers in California and all of our centers in New York City where we contract with BRMG and the B&C Entities, respectively, for the provision of professional medical services, at all of our other centers, we have entered into long-term contracts with independent radiology groups in the area to provide physician services at those facilities. These third party radiology practices provide professional services, including supervision and interpretation of diagnostic imaging procedures, in our diagnostic imaging centers. The radiology practices maintain full control over the provision of professional services. In these facilities we enter into long-term agreements with radiology practice groups (typically 40 years). Under these arrangements, in addition to obtaining technical fees for the use of our diagnostic imaging equipment and the provision of technical services, we provide management services and receive a fee intended to compensate us for the fair market value of our services which in some instances may be

based on the practice group's professional revenue, including revenue derived outside of our diagnostic imaging centers. We own the diagnostic imaging equipment and, therefore, receive 100% of the technical reimbursements associated with imaging procedures. The radiology practice groups retain the professional reimbursements associated with imaging procedures after deducting management service fees paid to us. We have no financial controlling interest in the independent (non-BRMG or non-B&C Entities) radiology practices; accordingly, we do not consolidate the financial statements of those practices in our consolidated financial statements.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X and, therefore, do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles for complete financial statements; however, in the opinion of our management, all adjustments consisting of normal recurring adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods ended September 30, 2014 and 2013 have been made. The results of operations for any interim period are not necessarily indicative of the results for a full year. These interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes thereto contained in our annual report on Form 10-K for the year ended December 31, 2013 filed on March 17, 2014, as amended.

Significant Accounting Policies

During the period covered in this report, there have been no material changes to the significant accounting policies we use, and have explained, in our annual report on Form 10-K for the fiscal year ended December 31, 2013, as amended. The information below is intended only to supplement the disclosure in our annual report on Form 10-K for the fiscal year ended December 31, 2013, as amended.

Revenues

Service fee revenue, net of contractual allowances and discounts, consists of net patient fees received from various payers and patients themselves based mainly upon established contractual billing rates, less allowances for contractual adjustments. As it relates to centers affiliated with both BRMG and the B&C Entities, this service fee revenue includes payments for both the professional medical interpretation revenue recognized by BRMG and the B&C Entities as well as the payment for all other aspects related to our providing the imaging services, for which we earn management fees from BRMG and the B&C Entities. As it relates to non-BRMG and B&C Entity centers, this service fee revenue is earned through providing the administration of the non-medical functions relating to the professional medical practice at our non-BRMG and B&C Entity centers, including among other functions, provision of clerical and administrative personnel, bookkeeping and accounting services, billing and collection, provision of medical and office supplies, secretarial, reception and transcription services, maintenance of medical records, and advertising, marketing and promotional activities.

Service fee revenues are recorded during the period the patient services are provided based upon the estimated amounts due from the patients and third-party payers. Third-party payers include federal and state agencies (under the Medicare and Medicaid programs), managed care health plans, commercial insurance companies and employers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Contractual payment terms in managed care agreements are generally based upon predetermined rates per discounted fee-for-service rates. We also record a provision for doubtful accounts (based primarily on historical collection experience) related to patients and copayment and deductible amounts for patients who have health care coverage under one of our third-party payers.

Under capitation arrangements with various health plans, we earn a per-enrollee amount each month for making available diagnostic imaging services to all plan enrollees under the capitation arrangement. Revenue under capitation arrangements is recognized in the period in which we are obligated to provide services to plan enrollees under contracts with various health plans.

Our revenue, net of contractual allowances, discounts and provision for bad debts for the three and nine months ended September 30, 2014 and 2013 is summarized in the following table (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Commercial Insurance	\$109,472	\$103,934	\$314,300	\$310,147

Provision for Bad Debts

We provide for an allowance against accounts receivable that could become uncollectible to reduce the carrying value of such receivables to their estimated net realizable value. We estimate this allowance based on the aging of our accounts receivable by each type of payer over an 18-month look-back period, and other relevant factors. A significant portion of our provision for bad debt relates to co-payments and deductibles owed to us from patients with insurance. Although we attempt to collect deductibles and co-payments due from patients with insurance at the time of service, this attempt to collect at the time of service is not an assessment of the patient's ability to pay nor are revenues recognized based on an assessment of the patient's ability to pay. There are various factors that can impact collection trends, such as changes in the economy, which in turn have an impact on the increased burden of co-payments and deductibles to be made by patients with insurance. These factors continuously change and can have an impact on collection trends and our estimation process.

Deferred Tax Assets

Income tax expense is computed using an asset and liability method and using expected annual effective tax rates. Under this method, deferred income tax assets and liabilities result from temporary differences in the financial reporting bases and the income tax reporting bases of assets and liabilities. The measurement of deferred tax assets is reduced, if necessary, by the amount of any tax benefit that, based on available evidence, is not expected to be realized. When it appears more likely than not that deferred taxes will not be realized, a valuation allowance is recorded to reduce the deferred tax asset to its estimated realizable value. For net deferred tax assets we consider estimates of future taxable income, including tax planning strategies, in determining whether our net deferred tax assets are more likely than not to be realized.

Deferred Financing Costs

Costs of financing are deferred and amortized on a straight-line basis over the life of the associated loan, which approximates the effective interest rate method.

Meaningful Use Incentive

Under the American Recovery and Reinvestment Act of 2009, a program was enacted that provides financial incentives for providers that successfully implement and utilize electronic health record technology to improve patient care. Our software development team in Canada established an objective to build a Radiology Information System (RIS) software platform that has been awarded Meaningful Use certification. As this certified RIS system is implemented throughout our imaging centers, the radiologists that utilize this software will be eligible for the available financial incentives. In order to receive such incentive payments providers must attest that they have demonstrated meaningful use of the certified RIS in each stage of the program. Once an attestation is accepted by Medicare, payments will be made in four to eight weeks to the same taxpayer identification number and through the same channels as their claims payments are made. We account for this meaningful use incentive under the Gain Contingency Model outlined in ASC 450-30. Under this model, we record within non-operating income, meaningful use incentive only after Medicare accepts an attestation from the qualified eligible professional demonstrating meaningful use. We recorded approximately \$1.8 million during the nine months ended September 30, 2014 relating to this incentive. This amount was earned under a Medicare program to promote the use of electronic health record technology.

Liquidity and Capital Resources

We had cash and cash equivalents of \$274,000 and accounts receivable of \$155.0 million at September 30, 2014, compared to cash and cash equivalents of \$8.4 million and accounts receivable of \$133.6 million at December 31, 2013. We had a working capital balance of \$65.7 million and \$58.0 million at September 30, 2014 and December 31, 2013, respectively. We had net income (loss) attributable to RadNet, Inc. common stockholders for the three months ended September 30, 2014 and 2013 of \$4.5 million and (\$467,000) respectively, and net (loss) income attributable to RadNet, Inc. common stockholders for the nine months ended September 30, 2014 and 2013 of (\$2.8 million) and \$877,000, respectively. We also had stockholders' equity of \$2.6 million and \$2.2 million at September 30, 2014 and December 31, 2013, respectively.

We operate in a capital intensive, high fixed-cost industry that requires significant amounts of capital to fund operations. In addition to operations, we require a significant amount of capital for the initial start-up and development of new diagnostic imaging facilities, the acquisition of additional facilities and new diagnostic imaging equipment. Because our cash flows from operations have been insufficient to fund all of these capital requirements, we have depended on the availability of financing under credit arrangements with third parties.

Based on our current level of operations, we believe that cash flow from operations and available cash, together with available borrowings from our senior secured credit facilities, will be adequate to meet our liquidity needs. Our future liquidity requirements will be for working capital, capital expenditures, debt service and general corporate purposes. Our ability to meet our working capital and debt service requirements, however, is subject to future economic conditions and to financial, business and other factors, many of which are beyond our control. If we are not able to meet such requirements, we may be required to seek additional financing. There can be no assurance that we will be able to obtain financing from other sources on terms acceptable to us, if at all.

On a continuing basis, we also consider various transactions to increase shareholder value and enhance our business results, including acquisitions, divestitures and joint ventures. These types of transactions may result in future cash proceeds or payments but the general timing, size or success of any acquisition, divestiture or joint venture effort and the related potential capital commitments cannot be predicted. We expect to fund any future acquisitions primarily with cash flow from operations and borrowings, including borrowing from amounts available under our senior secured credit facilities or through new equity or debt issuances.

We and our subsidiaries or affiliates may from time to time, in our or their sole discretion, purchase, repay, redeem or retire any of our outstanding debt or equity securities in privately negotiated or open market transactions, by tender offer or otherwise.

Included in our condensed consolidated balance sheet at September 30, 2014 are \$572.2 million of senior secured term loan debt (net of unamortized discounts of \$12.7 million), broken down by loan agreement as follows (in thousands):

	Face Value	Discount	Total Carrying Value
2014 First Lien Term Loans	\$404,942	\$(9,922)	\$395,020
Second Lien Term Loans	\$180,000	\$(2,772)	\$177,228
Total	\$584,942	\$(12,694)	\$572,248

Our revolving credit facility has a \$25.1 million aggregate principal amount outstanding as of September 30, 2014.

The following describes our most recent financing activities:

2014 Amendment to the Refinance Agreement and Second Lien Credit and Guaranty Agreement:

On March 25, 2014, Radnet Management simultaneously entered into two agreements which resulted in the creation of a direct financial obligation as follows:

2014 Amendment of the Refinance Agreement. Radnet Management amended that certain Credit and Guaranty Agreement dated October 10, 2012, by that certain first amendment dated April 3, 2013 (the “2013 Amendment”) (collectively, the Refinance Agreement”), by entering into a second amendment to the Refinance Agreement (the “2014

Amendment”) to provide for, among other things, the borrowing by Radnet Management of \$30.0 million of additional first lien term loans (the “2014 First Lien Term Loans”).

Second Lien Credit and Guaranty Agreement. Radnet Management entered into a Second Lien Credit and Guaranty Agreement (the “Second Lien Credit Agreement”) to provide for, among other things, the borrowing by Radnet Management of \$180.0 million of second lien term loans (the “Second Lien Term Loans”). The proceeds from the Second Lien Term Loans and the 2014 First Lien Term Loans were used to redeem the senior notes, as more fully described below under the heading “Senior Notes”, to pay the expenses related to the transaction and for general corporate purposes.

Revolving Credit Facility. The \$101.25 million revolving credit line established in the Credit and Guaranty Agreement dated October 10, 2012 was unaltered by the agreements above and remains in place.

The 2014 Amendment provides for the following:

Interest. The interest rates payable on the 2014 First Lien Term Loans are the same as the rates currently payable under the Refinance Agreement, as amended by the 2013 Amendment, which are (a) the Adjusted Eurodollar Rate plus 3.25% or (b) the Base Rate (as defined in the Refinance Agreement) plus 2.25%. The Adjusted Eurodollar Rate has a minimum floor of 1.0% on all of the term loans under the Refinance Agreement. The Adjusted Eurodollar Rate at September 30, 2014 was 0.33%.

Payments. The scheduled amortization of the term loans under the Refinance Agreement has been increased from quarterly payments of \$975,000 to quarterly payments of \$5.2 million which started in June 2014, with the remaining balance to be paid at maturity.

The other material terms of the Refinance Agreement remain unchanged as described in our annual report on Form 10-K for the fiscal year ended December 31, 2013, as amended.

The Second Lien Credit Agreement provides for the following:

Interest. The interest rates payable on the Second Lien Term Loans are (a) the Adjusted Eurodollar Rate plus 7.0% or (b) the Base Rate plus 6.0%. The Adjusted Eurodollar Rate has a minimum floor of 1.0% on the Second Lien Term Loans. The Eurodollar Rate at September 30, 2014 was 0.33%.

Payments. There is no scheduled amortization of the principal of the Second Lien Term Loans. All principal will be due and payable on the termination date described below.

Termination. The termination date for the Second Lien Term Loans is the earlier to occur of (i) March 25, 2021, and (ii) the date on which the Second Lien Term Loans shall otherwise become due and payable in full under the Second Lien Credit Agreement, whether by acceleration or otherwise.

Restrictive Covenants. In addition to certain customary covenants, the Second Lien Credit Agreement places restrictions on indebtedness, liens, and investments, and places limits on distributions to stockholders (including the repurchase of shares) and other junior payments.

Financial Covenants. The Second Lien Credit Agreement contains financial covenants including a maximum total leverage ratio and a limit on annual capital expenditures.

Events of Default. In addition to certain customary events of default, events of default under the Second Lien Credit Agreement include failure to pay principal of any loans as and on the date when due, failure to pay any interest on any loan or any fee or other amount payable under the Second Lien Term Loans within five days after the due date, failure of any loan party to comply with any covenant or agreements, subject to applicable grace periods and/or notice requirements, or a material breach of any representation or warranty contained in the loan documents. The occurrence of an event of default could permit the lenders under the Second Lien Credit Agreement to declare all amounts borrowed, together with accrued interest and fees, to be immediately due and payable and to exercise other default remedies.

These limitations are subject to a number of important qualifications and exceptions, as described in the Second Lien Credit Agreement. As of September 30, 2014, we were in compliance with all covenants.

Senior Notes

On April 6, 2010, we issued and sold \$200 million of 10 3/8% senior unsecured notes due 2018 at a price of 98.680% (the “senior notes”). All payments of the senior notes, including principal and interest, were guaranteed jointly and severally on a senior unsecured basis by RadNet, Inc., and all of Radnet Management’s current and future domestic wholly owned restricted subsidiaries. The senior notes were issued under an indenture dated April 6, 2010 (the “Indenture”), by and among Radnet Management, Inc., as issuer, RadNet, Inc., as parent guarantor, the subsidiary guarantors thereof and U.S. Bank National Association, as trustee.” We paid interest on the senior notes on April 1 and October 1 of each year, commencing October 1, 2010, and they were scheduled to expire on April 1, 2018.

Optional Redemption. Under the Indenture, Radnet Management could redeem the senior notes, in whole or in part, at any time on or after April 1, 2014, at the redemption prices specified under the Indenture. Prior to April 1, 2014, Radnet Management was also permitted to redeem the senior notes, in whole or in part, at a redemption price equal to 100% of the principal amount redeemed, plus a make-whole premium established by the Indenture and accrued and unpaid interest, if any.

Senior Notes Tender Offer and Exercise of Optional Redemption

Radnet Management completed the retirement of its \$200 million in Senior Notes on April 24, 2014 and following such retirement the Company completed the satisfaction and discharge of the Indenture. The transactions leading to the retirement of the Senior Notes are described below:

Tender Offer and Exercise of Optional Redemption on March 7, 2014. On March 7, 2014, Radnet Management commenced a tender offer to purchase for cash any and all outstanding senior notes. In connection with the tender offer, Radnet Management also commenced a consent solicitation to amend the Indenture to eliminate or modify certain restrictive covenants. On March 25, 2014 (the “Initial Payment Date”), Radnet Management made a payment in cash for all senior notes tendered prior to 5:00 P.M., New York City time, on March 20, 2014 (the “Consent Payment Deadline”). As of the Consent Payment Deadline, Radnet Management had received tenders and consents in respect of \$193,464,000 aggregate principal amount of the senior notes, representing 96.73% of the outstanding senior notes, all of which were accepted for purchase. The total consideration for each \$1,000 principal amount of senior notes validly tendered and not withdrawn at or prior to the Consent Payment Deadline and accepted for purchase was \$1,056.88 (the “Total Consideration”), which amount included a consent payment (the “Consent Payment”) of \$30.00 per \$1,000 principal amount of senior notes. In addition, all senior notes accepted for payment received accrued and unpaid interest in respect of such notes from the last interest payment date prior to the applicable settlement date to, but not including, the applicable settlement date. The tender offer expired on April 3, 2014 and between the Consent Payment Deadline and the expiration of the tender offer, no additional senior notes were tendered. With a net carrying amount including discount and unamortized issue costs of \$189.2 million, a loss on early extinguishment of debt of \$15.5 million was recorded in the first quarter of 2014.

Tender Offer and Exercise on Optional Redemption of March 25, 2014. On March 25, 2014, Radnet Management called for redemption all of its remaining outstanding senior notes not purchased prior to the expiration of the tender offer described above, with a redemption date of April 24, 2014 (the “Redemption Date”). Upon redemption on April 24, 2014, the holders of the senior notes being redeemed received a redemption price equal to 105.188% of the outstanding principal amount of the senior notes being redeemed (or \$1,051.88 per \$1,000 in principal amount of the senior notes) in accordance with the terms of the Indenture, or approximately \$6.9 million in total, including approximately \$43,000 of accrued and unpaid interest up to, but excluding the Redemption Date. As of that date, Radnet Management completed the satisfaction and discharge of the Indenture in accordance with its terms and no senior notes remained outstanding. With a net carrying amount including discount and unamortized issue costs of \$6.4 million, a loss on early extinguishment of debt of \$471,000 was recorded in the second quarter of 2014.

Capital Lease Investments

During the nine months ended September 30, 2014, we added capital lease debt of approximately \$12.6 million relating to radiology equipment.

NOTE 2 – FACILITY ACQUISITIONS

On September 1, 2014 we completed our acquisition of Hematology Oncology Consultants located in Van Nuys, CA for cash consideration of \$553,000. We have made a preliminary fair value determination of the acquired assets and approximately \$15,000 of fixed assets, \$163,000 of medical supplies inventory, \$39,000 of other assets, \$100,000 covenant not to compete intangible asset, and \$235,000 of goodwill were recorded with respect to this transaction.

On September 1, 2014 we completed our acquisition of Imaging Centers of Pasadena consisting of a single multi-modality imaging center located in Pasadena, CA for cash consideration of \$1.8 million. The facility provides MRI, PET/CT, Ultrasound and X-ray services. We have made a preliminary fair value determination of the acquired assets and approximately \$1.7 million of fixed assets and \$105,000 of a covenant not to compete intangible asset were recorded with respect to this transaction.

On July 3, 2014 we completed our acquisition of certain imaging center equipment from Healthcare Partners for which we agreed to pay \$2.1 million. We paid cash of \$300,000 and a promissory note in the amount of \$1.8 million.

On July 1, 2014 we completed our acquisition of Moreno Valley Imaging consisting of a single multi-modality imaging center located in Moreno Valley, CA for cash consideration of \$700,000. The facility provides MRI, CT,

Ultrasound and X-ray services. We have made a preliminary fair value determination of the acquired assets and approximately \$285,000 of fixed assets, \$3,000 of other assets, \$50,000 for a non compete covenant and \$362,000 of goodwill were recorded with respect to this transaction.

On July 1, 2014 we completed our acquisition of Liberty Pacific Imaging Long Beach consisting of a single multi-modality imaging center located in Signal Hill, CA for cash consideration of \$1.9 million and assumed liabilities of \$65,000. The facility provides MRI, CT, Ultrasound and X-ray services. We have made a preliminary fair value determination of the acquired assets and assumed liabilities and \$577,000 of fixed assets, \$100,000 for a covenant not to compete and \$1.3 million of goodwill were recorded with respect to this transaction. We also assumed capital lease debt of \$65,000.

On July 1, 2014 we completed our acquisition of Medical Imaging of Manhattan consisting of a single modality mammography center located in New York, New York for cash consideration of \$2.4 million. We have made a preliminary fair value determination of the acquired assets and approximately \$672,000 of fixed assets, \$139,000 of other assets, a covenant not to compete of \$150,000 and \$1.4 million of goodwill were recorded with respect to this transaction.

On April 1, 2014, we acquired the diagnostic imaging practice of Sidney Friedman, M.D. located in Westchester, CA for \$1.4 million. We have made a fair value determination of the assets acquired and have allocated \$600,000 to Imaging equipment, \$470,000 to accounts receivable, a covenant not to compete of \$100,000 and \$231,000 to goodwill.

On January 2, 2014, we acquired the diagnostic imaging practice of Leslie A. Saint-Louis, MD located in New York, New York for \$360,000. Upon acquisition, we relocated the practice to a nearby existing center in New York, New York. We have made a fair value determination of the assets acquired and have allocated \$310,000 to goodwill and \$50,000 to other intangible assets related to a covenant not to compete contract with Dr. Saint-Louis.

NOTE 3 – NEW ACCOUNTING STANDARDS

In May 2014, the Financial Accounting Standard Board issued a GAAP update "Revenue from Contracts with Customers". This GAAP update requires an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. This GAAP update also requires more detailed disclosures to enable users of the financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The GAAP update is effective for fiscal years (and interim reporting periods within fiscal years) beginning after December 15, 2016. We are currently evaluating the impact of the GAAP update on our consolidated financial position, results of operations and cash flows.

NOTE 4 – EARNINGS PER SHARE

Earnings per share is based upon the weighted average number of shares of common stock and common stock equivalents outstanding, net of common stock held in treasury, as follows (in thousands except share and per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Net income (loss) attributable to RadNet, Inc.'s common stockholders	\$4,451	\$(467)) \$(2,829) \$877

**BASIC NET INCOME (LOSS) PER SHARE
ATTRIBUTABLE TO RADNET, INC.'S COMMON
STOCKHOLDERS**

Weighted average number of common shares outstanding during the period	41,644,606	39,235,863	40,734,083	39,105,522
Basic net income (loss) per share attributable to RadNet, Inc.'s common stockholders	\$0.11	\$(0.01)	\$(0.07)	\$0.02

**DILUTED NET INCOME (LOSS) PER SHARE
ATTRIBUTABLE TO RADNET, INC.'S COMMON
STOCKHOLDERS**

Weighted average number of common shares outstanding during the period	41,644,606	39,235,863	40,734,083	39,105,522
Add nonvested restricted stock subject only to service vesting	1,001,190	–	–	311,419
Add additional shares issuable upon exercise of stock options and warrants	1,387,784	–	–	469,199
Weighted average number of common shares used in calculating diluted net income per share	44,033,580	39,235,863	40,734,083	39,886,140
Diluted net income (loss) per share attributable to RadNet, Inc.'s common stockholders	\$0.10	\$(0.01)	\$(0.07)	\$0.02

For the three months ended September 30, 2013 and the nine months ended September 30, 2014 we excluded all outstanding options, warrants and restricted stock awards in the calculation of diluted earnings per share because their effect would be antidilutive.

NOTE 5 – INVESTMENT IN JOINT VENTURES

We have nine unconsolidated joint ventures with ownership interests ranging from 35% to 50%. These joint ventures represent partnerships with hospitals, health systems or radiology practices and were formed for the purpose of owning and operating diagnostic imaging centers. Professional services at the joint venture diagnostic imaging centers are performed by contracted radiology practices or a radiology practice that participates in the joint venture. Our investment in these joint ventures is accounted for under the equity method.

The following table is a roll forward of our investment in joint ventures during the nine months ended September 30, 2014 (in thousands):

Balance as of December 31, 2013	\$	28,949
Equity contributions in existing joint ventures		1,161
Equity earnings in these joint ventures		4,722
Distribution of earnings		(7,358)
Balance as of September 30, 2014	\$	27,474

We earned management service fees from the centers underlying these joint ventures of approximately \$2.3 million in each of the three months ended September 30, 2014 and 2013, and \$6.9 million and \$7.0 million for the nine months ended September 30, 2014 and 2013, respectively.

The following table is a summary of key financial data for these joint ventures as of and for the nine months ended September 30, 2014 and 2013 (in thousands):

Balance Sheet Data:	September 30, 2014
Current assets	\$ 14,181
Noncurrent assets	48,306
Current liabilities	(5,623)
Noncurrent liabilities	(6,944)
Total net assets	\$ 49,920
Book value of Radnet joint venture interests	\$ 23,232
Cost in excess of book value of acquired joint venture interests	3,857
Elimination of intercompany profit remaining on Radnet's consolidated balance sheet	385
Total value of Radnet joint venture interests	\$ 27,474
Total book value of other joint venture partner interests	\$ 26,688

Income Statement Data for the nine months ended September 30,	2014	2013
Net revenue	\$73,859	\$68,912
Net income	\$9,801	\$9,819

NOTE 6 – STOCK-BASED COMPENSATION

Stock Incentive Plans

Options and Warrants

We have two long-term incentive plans which we refer to as the 2000 Plan and the 2006 Plan. The 2000 Plan was terminated as to future grants when the 2006 Plan was approved by the stockholders in 2006 and as of September 30, 2014 no options or warrants were outstanding under our 2000 Plan. As of September 30, 2014, we have reserved for issuance under the 2006 Plan 11,000,000 shares of common stock. Certain options granted under the 2006 Plan to employees are intended to qualify as incentive stock options under existing tax regulations. In addition, we may issue non-qualified stock options and warrants under the 2006 Plan from time to time to non-employees, in connection with acquisitions and for other purposes and we may also issue restricted stock under the 2006 Plan. Stock options and warrants generally vest over two to five years and expire five to ten years from date of grant.

As of September 30, 2014, 2,037,509, or approximately 96.9%, of the 2,102,509 outstanding stock options and warrants granted under our 2006 Plan are fully vested. During the nine months ended September 30, 2014, we did not grant options or warrants under our 2006 Plan.

We have issued warrants outside the 2006 Plan under various types of arrangements to employees, and in exchange for outside services. All warrants issued to employees or consultants after our February 2007 listing on the NASDAQ Global Market have been characterized as awards under the 2006 Plan. All warrants outside the 2006 Plan have been issued with an exercise price equal to the fair value of the underlying common stock on the date of grant.

As of September 30, 2014, no warrants remain outstanding outside the 2006 Plan.

The following summarizes all of our option and warrant transactions during the nine months ended September 30, 2014:

Outstanding Options and Warrants Under the 2006 Plan and 2000 Plan	Shares	Weighted Average Exercise price Per Common Share	Weighted Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value
Balance, December 31, 2013	4,701,250	\$ 3.15		
Granted	—	—		
Exercised	(2,283,741)	2.38		
Canceled or expired	(315,000)	5.91		
Balance, September 30, 2014	2,102,509	3.57	1.44	\$7,017,488
Exercisable at September 30, 2014	2,037,509	3.62	1.36	6,719,788

Non-Plan Outstanding Warrants	Shares	Weighted Average Exercise price Per Common Share	Weighted Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value
Balance, December 31, 2013	200,000	\$2.62		
Granted	—	—		
Exercised	(200,000)	2.62		
Canceled or expired	—	—		
Balance, September 30, 2014	—	—	—	\$—
	—	—	—	—

Exercisable at
September 30, 2014

Aggregate intrinsic value in the table above represents the total pretax intrinsic value (the difference between our closing stock price on September 30, 2014 and the exercise price, multiplied by the number of in-the-money options or warrants, as applicable) that would have been received by the holder had all holders exercised their options or warrants, as applicable, on September 30, 2014. Total intrinsic value of options and warrants exercised during the nine months ended September 30, 2014 and 2013 was approximately \$5.9 million and \$2.3 million, respectively. As of September 30, 2014, total unrecognized stock-based compensation expense related to non-vested employee awards was \$39,000, which is expected to be recognized over a weighted average period of approximately 2.1 years.

Restricted Stock Awards (“RSA’s”)

The 2006 Plan permits the award of restricted stock. On January 2, 2014, we granted awards for 1,011,785 shares of our common stock to certain employees and outside directors. Of these awards granted, 337,262 shares vested on the award date, with the remaining 674,524 shares vesting at the completion of each year’s service by 337,262 shares per year over the next two years. We valued this award based on the closing market price of our stock on January 2, 2014 which was \$1.62 per share.

At September 30, 2014, the total unrecognized fair value of all restricted stock awards was approximately \$1.1 million, which will be recognized over the remaining vesting period of 2.50 years.

In sum, of the 11,000,000 shares of common stock reserved for issuance under the 2006 Plan, at September 30, 2014, we had 4,834,294 options, warrants and shares of restricted stock outstanding, 2,296,241 options exercised and 3,869,465 shares of common stock available for grant.

NOTE 7 – FAIR VALUE MEASUREMENTS

FAIR VALUE MEASUREMENTS – Assets and liabilities subject to fair value measurements are required to be disclosed within a fair value hierarchy. The fair value hierarchy ranks the quality and reliability of inputs used to determine fair value. Accordingly, assets and liabilities carried at, or permitted to be carried at, fair value are classified within the fair value hierarchy in one of the following categories based on the lowest level input that is significant to a fair value measurement:

Level 1—Fair value is determined by using unadjusted quoted prices that are available in active markets for identical assets and liabilities.

Level 2—Fair value is determined by using inputs other than Level 1 quoted prices that are directly or indirectly observable. Inputs can include quoted prices for similar assets and liabilities in active markets or quoted prices for identical assets and liabilities in inactive markets. Related inputs can also include those used in valuation or other pricing models such as interest rates and yield curves that can be corroborated by observable market data.

Level 3—Fair value is determined by using inputs that are unobservable and not corroborated by market data. Use of these inputs involves significant and subjective judgment.

The table below summarizes the estimated fair value of our long-term debt as follows (in thousands):

As of September 30, 2014				
Level 1	Level 2	Level 3	Total Fair Value	Total Face Value

Edgar Filing: RadNet, Inc. - Form 10-Q

2014 First Lien Term Loans	\$-	\$402,411	\$ -	\$402,411	\$404,942
Second Lien Term Loans		\$180,000	\$ -	180,000	\$180,000

As of December 31, 2013

	Level 1	Level 2	Level 3	Total	Total Face Value
Senior Term Loan	\$-	\$380,508	\$ -	\$380,508	\$349,125
Senior Notes	-	199,000	-	199,000	200,000

The carrying value of our revolving credit facility at September 30, 2014 and December 31, 2013 of \$25.1 million and \$0, respectively, approximated its fair value.

We consider the carrying amounts of cash and cash equivalents, receivables, other current assets and current liabilities to approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization or payment. Additionally, we consider the carrying amount of our capital lease obligations to approximate their fair value because the weighted average interest rate used to formulate the carrying amounts approximates current market rates.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the related notes and other financial information appearing elsewhere in this quarterly report.

Forward-Looking Statements

This quarterly report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements reflect current views about future events and are based on our currently available financial, economic and competitive data and on current business plans. Actual events or results may differ materially depending on risks and uncertainties that may affect our operations, markets, services, prices and other factors.

In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expect," "intend," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue," "assumption" or the negative of these terms or other comparable terminology. Statements in this quarterly report concerning our ability to successfully acquire and integrate new operations, to grow our contract management business, our financial guidance, our future cost saving efforts, our increased business from new equipment or operations and our ability to finance our operations and repay our outstanding indebtedness, including our increased amortization payments, are forward-looking statements.

The factors included in "Risk Factors," in our annual report on Form 10-K for the fiscal year ended December 31, 2013, as amended or supplemented by the information, if any, in Part II – Item 1A in our quarterly reports on Form 10-Q for the quarters ended March 31, 2014 and June 30, 2014, and in Part II – Item 1A below, among others, could cause our actual results to differ materially from those expressed in, or implied by, the forward-looking statements. You should consider the inherent limitations on, and risks associated with, forward-looking statements and not unduly rely on the accuracy of predictions contained in such forward-looking statements. These forward-looking statements speak only as of the date when they are made. Except as required under the federal securities laws or by the rules and regulations of the Securities and Exchange Commission, we do not undertake any responsibility to release publicly any revisions to these forward-looking statements to take into account events or circumstances that occur after the date of those statements. Additionally, we do not undertake any responsibility to update you on the occurrence of any unanticipated events which may cause actual results to differ from those expressed or implied by the forward-looking statements contained in this quarterly report.

Overview

We are the leading national provider of freestanding, fixed-site outpatient diagnostic imaging services in the United States based on number of locations and annual imaging revenue. At September 30, 2014, we operated directly or indirectly through joint ventures, 263 centers located in California, Maryland, Florida, Delaware, New Jersey, Rhode Island and New York. Our centers provide physicians with imaging capabilities to facilitate the diagnosis and treatment of diseases and disorders and may reduce unnecessary invasive procedures, often reducing the cost and amount of care for patients. Our services include magnetic resonance imaging (MRI), computed tomography (CT), positron emission tomography (PET), nuclear medicine, mammography, ultrasound, diagnostic radiology (X-ray), fluoroscopy and other related procedures.

We seek to develop leading positions in regional markets in order to leverage operational efficiencies. Our scale and density within selected geographies provides close, long-term relationships with key payors, radiology groups and referring physicians. Each of our facility managers is responsible for managing relationships with local physicians and payors, meeting our standards of patient service and maintaining profitability. We provide corporate training programs, standardized policies and procedures and sharing of best practices among the physicians in our regional networks.

We derive substantially all of our revenue, directly or indirectly, from fees charged for the diagnostic imaging services performed at our facilities. For the nine months ended September 30, 2014 and 2013, we performed 3,570,949 and 3,387,665 diagnostic imaging procedures, respectively, and generated total net revenue of \$532.0 million and \$524.6 million, respectively.

The condensed consolidated financial statements include the accounts of Radnet Management, Inc. (or “Radnet Management”) and Beverly Radiology Medical Group III, a professional partnership (“BRMG”). The condensed consolidated financial statements also include Radnet Management I, Inc., Radnet Management II, Inc., Radiologix, Inc., Radnet Managed Imaging Services, Inc., Delaware Imaging Partners, Inc., New Jersey Imaging Partners, Inc. and Diagnostic Imaging Services, Inc. (“DIS”), all wholly owned subsidiaries of Radnet Management. All of these affiliated entities are referred to collectively as “RadNet”, “we”, “us”, “our” or the “Company” in this report.

Accounting Standards Codification (“ASC”) Section 810-10-15-14 stipulates that generally any entity with a) insufficient equity to finance its activities without additional subordinated financial support provided by any parties, or b) equity holders that, as a group, lack the characteristics specified in the ASC which evidence a controlling financial interest, is considered a Variable Interest Entity (“VIE”). We consolidate all VIEs in which we own a majority voting interest and all VIEs for which we are the primary beneficiary. We determine whether we are the primary beneficiary of a VIE through a qualitative analysis that identifies which variable interest holder has the controlling financial interest in the VIE. The variable interest holder who has both of the following has the controlling financial interest and is the primary beneficiary: (1) the power to direct the activities of the VIE that most significantly impact the VIE’s economic performance and (2) the obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the VIE. In performing our analysis, we consider all relevant facts and circumstances, including: the design and activities of the VIE, the terms of the contracts the VIE has entered into, the nature of the VIE’s variable interests issued and how they were negotiated with or marketed to potential investors, and which parties participated significantly in the design or redesign of the entity.

Howard G. Berger, M.D. is our President and Chief Executive Officer, a member of our Board of Directors and is deemed to be the beneficial owner, directly and indirectly, of approximately 13.1% of our outstanding common stock as of September 30, 2014. Dr. Berger also owns, indirectly, 99% of the equity interests in BRMG. BRMG provides all of the professional medical services at the majority of our facilities located in California under a management agreement with us, and employs physicians or contracts with various other independent physicians and physician groups to provide the professional medical services at most of our other California facilities. We generally obtain professional medical services from BRMG in California, rather than provide such services directly or through subsidiaries, in order to comply with California’s prohibition against the corporate practice of medicine. However, as a result of our close relationship with Dr. Berger and BRMG, we believe that we are able to better ensure that medical service is provided at our California facilities in a manner consistent with our needs and expectations and those of our referring physicians, patients and payors than if we obtained these services from unaffiliated physician groups. BRMG is a partnership of ProNet Imaging Medical Group, Inc., Breastlink Medical Group, Inc. and Beverly Radiology Medical Group, Inc., each of which is 99% or 100% owned by Dr. Berger.

John V Crues, III, M.D. is our Medical Director, a member of our Board of Directors and a 1% owner of BRMG. Dr. Crues owns a controlling interest in four medical groups (“Crues Entities”) which provide professional medical services at some of our facilities in Manhattan and Brooklyn, New York while Dr. Berger owns a controlling interest in two medical groups (“NY Berger Entities”) which provide professional medical services at one of our Manhattan, New York facilities. The Crues Entities and the NY Berger Entities are collectively hereinafter referred to as the “B&C Entities.”

RadNet provides non-medical, technical and administrative services to BRMG and the B&C Entities for which it receives a management fee, pursuant to the related management agreements. Through these management agreements and our relationship with both Dr. Berger and Dr. Crues, we have exclusive authority over all non-medical decision-making related to the ongoing business operations of BRMG and the B&C Entities and we determine the annual budget of BRMG and the B&C Entities. BRMG and the B&C Entities both have insignificant operating assets and liabilities, and de minimis equity. Through these management agreements, we are paid the fair market value of our services, the result of which is that generally all net cash flows of both BRMG and the B&C Entities are transferred to us.

We have determined that BRMG and the B&C Entities are VIEs, and that we are the primary beneficiary, and consequently, we consolidate the revenue, expenses, assets and liabilities of each such entity. BRMG and the B&C Entities on a combined basis recognized \$23.6 million and \$24.7 million of revenue, net of management service fees to RadNet for the three months ended September 30, 2014 and 2013, respectively, and \$23.6 million and \$24.7 million of operating expenses for the three months ended September 30, 2014 and 2013, respectively. RadNet, Inc. recognized in its condensed consolidated statement of operations \$98.0 million and \$98.3 million of total billed net service fee revenue relating to these VIE's for the three months ended September 30, 2014 and 2013, respectively, of which \$74.4 million and \$73.6 million was for management services provided to BRMG and the B&C Entities relating primarily to the technical portion of total billed net service fee revenue for the three months ended September 30, 2014 and 2013, respectively.

BRMG and the B&C Entities on a combined basis recognized \$65.6 million and \$58.2 million of revenue, net of management service fees to RadNet for the nine months ended September 30, 2014 and 2013, respectively, and \$65.6 million and \$58.2 million of operating expenses for the nine months ended September 30, 2014 and 2013, respectively. RadNet, Inc. recognized in its condensed consolidated statement of operations \$279.6 million and \$256.6 million of total billed net service fee revenue relating to these VIE's for the nine months ended September 30, 2014 and 2013, respectively, of which \$213.9 million and \$198.4 million was for management services provided to BRMG and the B&C Entities relating primarily to the technical portion of total billed net service fee revenue for the nine months ended September 30, 2014 and 2013, respectively.

The cash flows of BRMG and the B&C Entities are included in the accompanying consolidated statements of cash flows. All intercompany balances and transactions have been eliminated in consolidation. In our consolidated balance sheets at September 30, 2014 and December 31, 2013, we have included approximately \$80.3 million and \$65.2 million, respectively, of accounts receivable and approximately \$9.4 million and \$11.9 million, respectively, of accounts payable and accrued liabilities, related to BRMG and the B&C Entities combined.

The creditors of both BRMG and the B&C Entities do not have recourse to our general credit and there are no other arrangements that could expose us to losses on behalf of BRMG and the B&C Entities. However, because of the relationship RadNet may be required to provide financial support to cover any operating expenses in excess of operating revenues.

Aside from certain centers in California and all of our centers in New York City where we contract with BRMG and the B&C Entities, respectively, for the provision of professional medical services, at all of our other centers, we have entered into long-term contracts with independent radiology groups in the area to provide physician services at those facilities. These third party radiology practices provide professional services, including supervision and interpretation of diagnostic imaging procedures, in our diagnostic imaging centers. The radiology practices maintain full control over the provision of professional services. The contracted radiology practices generally have outstanding physician and practice credentials and reputations; strong competitive market positions; a broad sub-specialty mix of physicians; a history of growth and potential for continued growth. In these facilities we enter into long-term agreements with radiology practice groups (typically 40 years). Under these arrangements, in addition to obtaining technical fees for the use of our diagnostic imaging equipment and the provision of technical services, we provide management services and receive a fee intended to compensate us for the fair market value of our services which in some instances may be based on the practice group's professional revenue, including revenue derived outside of our diagnostic imaging centers. We own the diagnostic imaging equipment and, therefore, receive 100% of the technical reimbursements associated with imaging procedures. The radiology practice groups retain the professional reimbursements associated with imaging procedures after deducting management service fees paid to us. We have no financial controlling interest in the independent (non-BRMG or non-B&C Entities) radiology practices; accordingly, we do not consolidate the financial statements of those practices in our consolidated financial statements.

We typically experience some seasonality to our business. During the first quarter of each year we generally experience the lowest volumes of procedures and the lowest level of revenue for any quarter during the year. This is primarily the result of two factors. First, our volumes and revenue are typically impacted by winter weather conditions in our northeastern operations. It is common for snowstorms and other inclement weather to result in patient appointment cancellations and, in some cases, imaging center closures. Second, in recent years, we have observed greater participation in high deductible health plans by patients. As these high deductibles reset in January for most of these patients, we have observed that patients utilize medical services less during the first quarter, when securing medical care will result in significant out-of-pocket expenditures.

Critical Accounting Policies

Use of Estimates

Our discussion and analysis of financial condition and results of operations are based on our consolidated financial statements that were prepared in accordance with U.S. generally accepted accounting principles, or GAAP. Management makes estimates and assumptions when preparing financial statements. These estimates and assumptions affect various matters, including:

· our reported amounts of assets and liabilities in our consolidated balance sheets at the dates of the financial statements;

· our disclosure of contingent assets and liabilities at the dates of the financial statements; and

· our reported amounts of net revenue and expenses in our consolidated statements of operations during the reporting periods.

These estimates involve judgments with respect to numerous factors that are difficult to predict and are beyond management's control. As a result, actual amounts could differ materially from these estimates.

The Securities and Exchange Commission defines critical accounting estimates as those that are both most important to the portrayal of a company's financial condition and results of operations and require management's most difficult, subjective or complex judgment, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. In Note 2 to our consolidated financial statements in our annual report on Form 10-K for the year ended December 31, 2013, as amended, we discuss our significant accounting policies, including those that do not require management to make difficult, subjective or complex judgments or estimates. The most significant areas involving management's judgments and estimates are described below.

During the period covered in this report, there were no material changes to the critical accounting estimates we use, and have described in our annual report on Form 10-K for the fiscal year ended December 31, 2013, as amended.

Revenues

Service fee revenue, net of contractual allowances and discounts, consists of net patient fees received from various payers and patients themselves based mainly upon established contractual billing rates, less allowances for contractual adjustments. As it relates to centers affiliated with both BRMG and the B&C Entities, this service fee revenue includes payments for both the professional medical interpretation revenue recognized by BRMG and the B&C Entities as well as the payment for all other aspects related to our providing the imaging services, for which we earn management fees from BRMG and the B&C Entities. As it relates to non-BRMG and B&C Entity centers, this service fee revenue is earned through providing the administration of the non-medical functions relating to the professional medical practice at our non-BRMG and B&C Entity centers, including among other functions, provision of clerical and administrative personnel, bookkeeping and accounting services, billing and collection, provision of medical and office supplies, secretarial, reception and transcription services, maintenance of medical records, and advertising, marketing and promotional activities.

Service fee revenues are recorded during the period the patient services are provided based upon the estimated amounts due from the patients and third-party payers. Third-party payers include federal and state agencies (under the Medicare and Medicaid programs), managed care health plans, commercial insurance companies and employers. Estimates of contractual allowances under managed care health plans are based upon the payment terms specified in the related contractual agreements. Contractual payment terms in managed care agreements are generally based upon predetermined rates per discounted fee-for-service rates. We also record a provision for doubtful accounts (based primarily on historical collection experience) related to patients and copayment and deductible amounts for patients who have health care coverage under one of our third-party payers.

Under capitation arrangements with various health plans, we earn a per-enrollee amount each month for making available diagnostic imaging services to all plan enrollees under the capitation arrangement. Revenue under capitation arrangements is recognized in the period in which we are obligated to provide services to plan enrollees under contracts with various health plans.

Our revenue, net of contractual allowances, discounts and provision for bad debts for the three and nine months ended September 30, 2014 and 2013 is summarized in the following table (in thousands):

Three Months Ended September 30,	Nine Months Ended September 30,
-------------------------------------	------------------------------------

Edgar Filing: RadNet, Inc. - Form 10-Q

	2014	2013	2014	2013
Commercial Insurance	\$109,472	\$103,934	\$314,300	\$310,147
Medicare	41,203	38,276	118,627	113,916
Medicaid	6,248	5,869	18,214	18,358
Workers' Compensation/Personal Injury	7,821	8,566	22,708	27,666
Other	6,354	8,727	24,688	26,337
Service fee revenue, net of contractual allowances and discounts	171,098	165,373	498,536	496,424
Provision for bad debts	(7,532)	(7,033)	(21,945)	(20,810)
Net service fee revenue	163,566	158,340	476,591	475,614
Revenue under capitation arrangements	20,493	16,848	55,426	49,034
Total net revenue	\$184,059	\$175,188	\$532,017	\$524,648

Provision for Bad Debts

We provide for an allowance against accounts receivable that could become uncollectible to reduce the carrying value of such receivables to their estimated net realizable value. We estimate this allowance based on the aging of our accounts receivable by each type of payer over an 18-month look-back period, and other relevant factors. A significant portion of our provision for bad debt relates to co-payments and deductibles owed to us from patients with insurance. Although we attempt to collect deductibles and co-payments due from patients with insurance at the time of service, this attempt to collect at the time of service is not an assessment of the patient's ability to pay nor are revenues recognized based on an assessment of the patient's ability to pay. There are various factors that can impact collection trends, such as changes in the economy, which in turn have an impact on the increased burden of co-payments and deductibles to be made by patients with insurance. These factors continuously change and can have an impact on collection trends and our estimation process.

Accounts Receivable

Substantially all of our accounts receivable are due under fee-for-service contracts from third party payors, such as insurance companies and government-sponsored healthcare programs, or directly from patients. Services are generally provided pursuant to one-year contracts with healthcare providers. Receivables generally are collected within industry norms for third-party payors. We continuously monitor collections from our payors and maintain an allowance for bad debts based upon specific payor collection issues that we have identified and our historical experience.

Depreciation and Amortization of Long-Lived Assets

We depreciate our long-lived assets over their estimated economic useful lives with the exception of leasehold improvements where we use the shorter of the assets useful lives or the lease term of the facility for which these assets are associated.

Deferred Tax Assets

Income tax expense is computed using an asset and liability method and using expected annual effective tax rates. Under this method, deferred income tax assets and liabilities result from temporary differences in the financial reporting bases and the income tax reporting bases of assets and liabilities. The measurement of deferred tax assets is reduced, if necessary, by the amount of any tax benefit that, based on available evidence, is not expected to be realized. When it appears more likely than not that deferred taxes will not be realized, a valuation allowance is

recorded to reduce the deferred tax asset to its estimated realizable value. For net deferred tax assets we consider estimates of future taxable income, including tax planning strategies, in determining whether our net deferred tax assets are more likely than not to be realized. At September 30, 2014, we determined that approximately \$55.7 million of our net deferred tax assets are more likely than not to be realized.

Valuation of Goodwill and Long-Lived Assets

Goodwill at September 30, 2014 totaled \$200.3 million. Goodwill is recorded as a result of business combinations. Management evaluates goodwill, at a minimum, on an annual basis and whenever events and changes in circumstances suggest that the carrying amount may not be recoverable in accordance with ASC 350, *Intangibles – Goodwill and Other*. Impairment of goodwill is tested at the reporting unit level by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit. The fair value of a reporting unit is estimated using a combination of the income or discounted cash flows approach and the market approach, which uses comparable market data. If the carrying amount of the reporting unit exceeds its fair value, goodwill is considered impaired and a second step is performed to measure the amount of impairment loss, if any. We tested goodwill for impairment on October 1, 2013. Based on our test, we noted no impairment related to goodwill as of October 1, 2013. However, if estimates or the related assumptions change in the future, we may be required to record impairment charges to reduce the carrying amount of goodwill.

We evaluate our long-lived assets (property and equipment) and intangibles, other than goodwill, for impairment whenever indicators of impairment exist. The accounting standards require that if the sum of the undiscounted expected future cash flows from a long-lived asset or definite-lived intangible is less than the carrying value of that asset, an asset impairment charge must be recognized. The amount of the impairment charge is calculated as the excess of the asset's carrying value over its fair value, which generally represents the discounted future cash flows from that asset or in the case of assets we expect to sell, at fair value less costs to sell. No indicators of impairment were identified with respect to our long-lived assets as of September 30, 2014.

New Accounting Standards

In May 2014, the Financial Accounting Standard Board issued a GAAP update "Revenue from Contracts with Customers". This GAAP update requires an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects what it expects in exchange for the goods or services. This GAAP update also requires more detailed disclosures to enable users of the financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The GAAP update is effective for fiscal years (and interim reporting periods within fiscal years) beginning after December 15, 2016. We are currently evaluating the impact of the GAAP update on our consolidated financial position, results of operations and cash flows.

Industry Updates

Sequestration spending cuts took effect on April 1, 2013, which reduced our Medicare payments by 2%. These spending cuts were extended through 2014 and 2015 by a two-year funding bill signed into law on December 26, 2013, which will continue to negatively impact our condensed consolidated financial results.

On March 31, 2014, Congress passed its seventeenth delay to the implementation of the SGR formula, which would have led to a 24% reduction in Medicare payments to physicians. This delay extends implementation for an additional twelve months, during which time Congress hopes to be able to pass a more permanent solution to the SGR formula.

On October 31, 2014, CMS published its final Medicare Physician Fee Schedule rule for 2015.

Results of Operations

The following table sets forth, for the periods indicated, the percentage that certain items in the statements of operations bears to revenue, net of contractual allowances and discounts and inclusive of revenue under capitation contracts.

Three Months Ended September 30, 2014 Compared to the Three Months Ended September 30, 2013

Service Fee Revenue

Service fee revenue for the three months ended September 30, 2014 was \$171.1 million compared to \$165.4 million for the three months ended September 30, 2013, an increase of \$5.7 million, or 3.5%.

Service fee revenue, including only those centers which were in operation throughout the third quarters of both 2014 and 2013 increased \$973,000, or 0.6%. This comparison excludes revenue contributions from centers that were acquired or divested subsequent to July 1, 2013. For the three months ended September 30, 2014, service fee revenue from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$5.9 million. For the three months ended September 30, 2013, service fee revenue from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$1.2 million.

Provision for Bad Debts

Provision for bad debts increased \$499,000, or 7.1%, to approximately \$7.5 million, or 3.9% of gross revenue, for the three months ended September 30, 2014 compared to \$7.0 million, or 3.9% of gross revenue, for the three months ended September 30, 2013.

Revenue Under Capitation Arrangements

Revenue under capitation arrangements for the three months ended September 30, 2014 was \$20.5 million compared to \$16.8 million for the three months ended September 30, 2013, an increase of \$3.6 million or 21.6%.

Revenue under capitation arrangements, including only those centers which were in operation throughout the third quarters of both 2014 and 2013 increased \$2.6 million, or 15.6%. This 15.6% increase was mainly due to new contractual relationships with private insurers. This comparison excludes revenue contributions from centers that were acquired or divested subsequent to July 1, 2013. For the three months ended September 31, 2014, revenue under capitation arrangements from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$1.0 million.

Operating Expenses

Cost of operations for the three months ended September 30, 2014 increased approximately \$1.2 million, or 0.8%, from \$151.8 million for the three months ended September 30, 2013 to \$153.0 million for the three months ended September 30, 2014. The following table sets forth our cost of operations and total operating expenses for the three months ended September 30, 2014 and 2013 (in thousands):

	Three Months Ended September 30,	
	2014	2013
Salaries and professional reading fees, excluding stock-based compensation	\$84,422	\$80,128
Stock-based compensation	432	\$463
Building and equipment rental	16,088	\$16,630
Medical supplies	10,314	\$9,260
Other operating expenses *	41,744	45,289

Cost of operations	153,000	151,770
Depreciation and amortization	14,423	14,762
Loss (gain) on sale and disposal of equipment	1,289	(5)
Severance costs	112	72
Total operating expenses	\$168,824	\$166,599

* Includes billing fees, office supplies, repairs and maintenance, insurance, business tax and license, outside services, utilities, marketing, travel and other expenses.

Salaries and professional reading fees, excluding stock-based compensation and severance

Salaries and professional reading fees increased \$4.3 million, or 5.4%, to \$84.4 million for the three months ended September 30, 2014 compared to \$80.1 million for the three months ended September 30, 2013.

Salaries and professional reading fees, including only those centers which were in operation throughout the third quarters of both 2014 and 2013, increased \$1.4, or 1.7%. This comparison excludes expenses from centers that were acquired or divested subsequent to July 1, 2013. For the three months ended September 30, 2014, salaries and professional reading fees from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$3.7 million. For the three months ended September 30, 2013, salaries and professional reading fees from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was approximately \$786,000.

Stock-based compensation

Stock-based compensation decreased \$31,000, or 6.7%, to approximately \$432,000 for the three months ended September 30, 2014 compared to \$463,000 for the three months ended September 30, 2013.

Building and equipment rental

Building and equipment rental expenses decreased \$542,000, or 3.3%, to \$16.1 million for the three months ended September 30, 2014 compared to \$16.6 million for the three months ended September 30, 2013.

Building and equipment rental expenses, including only those centers which were in operation throughout the third quarters of both 2014 and 2013, decreased \$1.0 million, or 6.3%. This 6.3% decrease mainly related to the re-negotiation of radiology equipment operating leases into capital leases, thus reducing equipment rental expense. This comparison excludes expenses from centers that were acquired or divested subsequent to July 1, 2013. For the three months ended September 30, 2014, building and equipment rental expenses from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$678,000. For the three months ended September 30, 2013, building and equipment rental expenses from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was approximately \$183,000.

Medical supplies

Medical supplies expense increased \$1.1 million, or 11.4%, to \$10.3 million for the three months ended September 30, 2014 compared to \$9.3 million for the three months ended September 30, 2013.

Medical supplies expenses, including only those centers which were in operation throughout the second quarter of both 2014 and 2013, increased \$784,000, or 8.5%. This 8.5% increase is primarily due to higher film prices over the three months ended September 30, 2014 compared to the three months ended September 30, 2013 as a result of a decrease in price rebates. This comparison excludes expenses from centers that were acquired or divested subsequent to July 1, 2013. For the three months ended September 31, 2014, medical supplies expenses from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$329,000. For the three months ended September 30, 2013, medical supplies expense from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$59,000.

Other operating expenses

Other operating expenses decreased \$3.5 million, or 7.8%, to \$41.7 million for the three months ended September 30, 2014 compared to \$45.3 million for the three months ended September 30, 2013.

Other operating expenses, including only those centers which were in operation throughout the third quarters of both 2014 and 2013, decreased \$4.0 million, or 8.9%. This 8.9% decrease is primarily due to reduced rates on certain of our maintenance contracts along with decreased license fees and insurance expense. This comparison excludes expenses from centers that were acquired or divested subsequent to July 1, 2013. For the three months ended September 30, 2014, other operating expense from centers that were acquired or divested subsequent July 1, 2013 and excluded from the above comparison was \$1.0 million. For the three months ended September 30, 2013, other operating expense from centers that were acquired or divested subsequent to July 1, 2013 was \$556,000.

Depreciation and amortization

Depreciation and amortization decreased \$339,000, or 2.3%, to \$14.4 million for the three months ended September 30, 2014 compared to \$14.8 million for the three months ended September 30, 2013.

Depreciation and amortization, including only those centers which were in operation throughout the third quarter of both 2014 and 2013, decreased \$936,000, or 6.4%. This comparison excludes expenses from centers that were acquired or divested subsequent to July 1, 2013. For the three months ended September 30, 2014, depreciation expense from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$707,000. For the three months ended September 30, 2013, depreciation and amortization from centers that were acquired or divested subsequent to July 1, 2013 and excluded from the above comparison was \$110,000.

Loss on sale and disposal of equipment

We recorded a net loss on sale of equipment of approximately \$1.3 million for the three months ended September 30, 2014. The loss on disposal of equipment primarily relates to the write-off of certain leasehold improvements due to the closing of certain centers during the period.

Interest expense

Interest expense for the three months ended September 30, 2014 decreased approximately \$0.7 million, or 6.3%, to \$10.4 million for the three months ended September 30, 2014 compared to \$11.1 million for the three months ended September 30, 2013. Interest expense for the three months ended September 30, 2014 included \$1.3 million of combined non-cash amortization and write-off of deferred loan costs as well as discount on issuance and refinance of debt. Interest expense for the three months ended September 30, 2013 included \$1.2 million of non-cash amortization of deferred loan costs and discount on issuance of debt. Excluding these non-cash amounts for each period, interest expense decreased approximately \$0.8 million for the three months ended September 30, 2014 compared to the three months ended September 30, 2013. This decrease was primarily due to a reduction in interest expense stemming from the redemption of the \$200 million Senior Notes. See "Liquidity and Capital Resources" below for more details on our debt refinancing.

Equity in earnings from unconsolidated joint ventures

For the three months ended September 30, 2014 and 2013, we recognized equity in earnings from unconsolidated joint ventures of \$2.0 million and \$1.6 million respectively.

Nine Months Ended September 30, 2014 Compared to the Nine Months Ended September 30, 2013

Service Fee Revenue

Service fee revenue for the nine months ended September 30, 2014 was \$498.5 million compared to \$496.4 million for the nine months ended September 30, 2013, an increase of \$2.1 million, or 0.4%.

Service fee revenue, including only those centers which were in operation throughout the first nine months of both 2014 and 2013 decreased \$9.2 million, or 1.9%. This 1.9% decrease is primarily due to a reduction in procedure volumes experienced at these centers. This comparison excludes revenue contributions from centers that were acquired or divested subsequent to January 1, 2013. For the nine months ended September 30, 2014, service fee revenue from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was \$13.4 million. For the nine months ended September 30, 2013, service fee revenue from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was \$2.1 million.

Provision for Bad Debts

Provision for bad debts increased \$1.1 million, or 5.5%, to \$21.9 million, or 4.0% of gross revenue, for the nine months ended September 30, 2014 compared to \$20.8 million, or 3.8% of gross revenue, for the nine months ended September 30, 2013.

Revenue Under Capitation Arrangements

Revenue under capitation arrangements for the nine months ended September 30, 2014 was \$55.4 million compared to \$49.0 million for the nine months ended September 30, 2013, an increase of \$6.4 million or 13.0%.

Revenue under capitation arrangements, including only those centers which were in operation throughout the first nine months of both 2014 and 2013 increased \$6.4 million, or 13.0%. This 13.0% increase was mainly due to new contractual relationships with private insurers. For the nine months ended September 30, 2014, revenue under capitation arrangements from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was approximately \$1.6 million.

Operating Expenses

Cost of operations for the nine months ended September 30, 2014 decreased approximately \$4.2 million, or 0.9%, from \$450.0 million for the nine months ended September 30, 2013 to \$445.8 million for the nine months ended September 30, 2014. The following table sets forth our cost of operations and total operating expenses for the nine months ended September 30, 2014 and 2013 (in thousands):

	Nine Months Ended September 30,	
	2014	2013
Salaries and professional reading fees, excluding stock-based compensation	\$244,479	\$241,349
Stock-based compensation	2,068	2,045
Building and equipment rental	47,374	49,421
Medical supplies	30,620	27,553
Other operating expenses *	121,297	129,662
Cost of operations	445,838	450,030
Depreciation and amortization	45,193	44,050
Loss on sale and disposal of equipment	1,581	357
Severance costs	976	312
Total operating expenses	\$493,588	\$494,749

* Includes billing fees, office supplies, repairs and maintenance, insurance, business tax and license, outside services, utilities, marketing, travel and other expenses.

Salaries and professional reading fees, excluding stock-based compensation and severance

Salaries and professional reading fees increased \$3.1 million, or 1.3%, to \$244.5 million for the nine months ended September 30, 2014 compared to \$241.3 million for the nine months ended September 30, 2013.

Salaries and professional reading fees, including only those centers which were in operation throughout the first nine months of both 2014 and 2013, decreased \$4.1 million, or 1.7%. This 1.7% decrease is in line with our decrease in procedure volumes at these centers coupled with employee headcount reduction. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2013. For the nine months ended September 30, 2014, salaries and professional reading fees from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was approximately \$7.7 million. For the nine months ended September 30,

2013, salaries and professional reading fees from centers that were acquired subsequent to January 1, 2013 and excluded from the above comparison was approximately \$541,000.

Stock-based compensation

Stock-based compensation increased approximately \$23,000 to \$2.1 million or 1.1% for the nine months ended September 30, 2014 compared to \$2.0 million for the nine months ended September 30, 2013.

Building and equipment rental

Building and equipment rental expenses decreased \$2.0 million, or 4.1%, to \$47.4 million for the nine months ended September 30, 2014 compared to \$49.4 million for the nine months ended September 30, 2013.

Building and equipment rental expenses, including only those centers which were in operation throughout the first nine months of both 2014 and 2013, decreased \$4.2 million, or 8.6%. This 8.6% decrease is primarily due to equipment operating leases being converted to capital leases. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2013. For the nine months ended September 30, 2014, building and equipment rental expenses from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was approximately \$2.4 million. For the nine months ended September 30, 2013, building and equipment rental expenses from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was \$253,000.

Medical supplies

Medical supplies expense increased \$3.1 million, or 11.1%, to \$30.6 million for the nine months ended September 30, 2014 compared to \$27.6 million for the nine months ended September 30, 2013.

Medical supplies expenses, including only those centers which were in operation throughout the first nine months of both 2014 and 2013, increased \$3.2 million, or 12.1%. This 12.1% increase is primarily due to increases in the cost of film and other key medical supplies over the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013 as a result of decreases in rebates. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2013. For the nine months ended September 30, 2014, medical supplies expense from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was \$683,000. For the nine months ended September 30, 2013, medical supplies expense from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was \$853,000.

Other operating expenses

Other operating expenses decreased \$8.4 million, or 6.5%, to \$121.3 million for the nine months ended September 30, 2014 compared to \$129.7 million for the three months ended September 30, 2013.

Other operating expenses, including only those centers which were in operation throughout the first nine months of both 2014 and 2013, decreased \$10.7 million, or 8.3%. This 8.3% decrease is primarily due to reduced rates on certain of our maintenance contracts along with decreased license fees and insurance costs. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2013. For the nine months ended September 30, 2014, other operating expense from centers that were acquired or divested subsequent January 1, 2013 and excluded from the above comparison was \$3.0 million. For the nine months ended September 30, 2013, other operating expense from centers that were acquired or divested subsequent to January 1, 2013 was \$674,000.

Depreciation and amortization

Depreciation and amortization increased \$1.1 million, or 2.6%, to \$45.2 million for the nine months ended September 30, 2014 compared to \$44.1 million for the same period last year.

Depreciation and amortization, including only those centers which were in operation throughout the first nine months of both 2014 and 2013, decreased \$502,000, or 1.1%. This comparison excludes expenses from centers that were acquired or divested subsequent to January 1, 2013. For the nine months ended September 30, 2014, depreciation and amortization from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was \$1.8 million. For the nine months ended September 30, 2013, depreciation and amortization from centers that were acquired or divested subsequent to January 1, 2013 and excluded from the above comparison was \$201,000.

Loss on sale and disposal of equipment

We recorded a net loss on sale and disposal of equipment of approximately \$1.6 million and \$357,000 for the nine months ended September 30, 2014 and 2013, respectively. The loss on disposal of equipment for the nine months ended September 30, 2014 primarily relates to the write-off of certain leasehold improvements due to the closing of certain centers during the period.

Interest expense

Interest expense for the nine months ended September 30, 2014 decreased approximately \$2.0 million, or 5.8%, to \$32.5 million for the nine months ended September 30, 2014 compared to \$34.5 million for the nine months ended September 30, 2013. Interest expense for the nine months ended September 30, 2014 included \$4.4 million of combined non-cash amortization and write-off of deferred loan costs as well as discount on issuance and refinance of debt. Interest expense for the nine months ended September 30, 2013 included \$3.3 million of non-cash amortization of deferred loan costs and discount on issuance of debt. Excluding these non-cash amounts for each period, interest expense decreased approximately \$3.1 million for the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013. This decrease was primarily due to a reduction in interest expense stemming from the redemption of the \$200 million Senior Notes. See "Liquidity and Capital Resources" below for more details on our debt refinancing.

Meaningful use incentive

For the nine months ended September 30, 2014, we recognized other income from meaningful use incentive in the amount of \$1.8 million. This amount was earned under a Medicare program to promote the use of electronic health record technology. See Note 1 to the condensed consolidated financial statements contain herein for more detail regarding this meaningful use incentive.

Equity in earnings from unconsolidated joint ventures

For the nine months ended September 30, 2014, we recognized equity in earnings from unconsolidated joint ventures of \$4.7 million compared to \$4.5 million for the nine months ended September 30, 2013, a 5.4% increase of \$241,000.

Loss on early extinguishment of Senior Notes

For the nine months ended September 30, 2014, we recognized a \$15.9 million loss on early extinguishment of debt through our tender offers for our senior notes. Completion of the tenders was conditioned on the closing of the amendment to the First Lien and the Second Lien Credit and Guaranty Agreement. See “Liquidity and Capital Resources” below and Note 1 to the condensed consolidated financial statements contained herein for more details on our debt refinancing.

Adjusted EBITDA

We use both GAAP and non-GAAP metrics to measure our financial results. We believe that, in addition to GAAP metrics, these non-GAAP metrics assist us in measuring our cash generated from operations and ability to service our debt obligations. We believe this information is useful to investors and other interested parties because we are highly leveraged and our non-GAAP metrics remove non-cash and certain other charges that occur in the affected period and provide a basis for measuring the Company's financial condition against other quarters.

One non-GAAP measure we believe assists us is Adjusted EBITDA. We define Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, each from continuing operations and exclude losses or gains on the disposal of equipment, other income or loss, loss on debt extinguishments, bargain purchase gains and non-cash equity compensation. Adjusted EBITDA includes equity earnings in unconsolidated operations and subtracts allocations of

earnings to non-controlling interests in subsidiaries, and is adjusted for non-cash or extraordinary and one-time events taking place during the period.

Adjusted EBITDA is a non-GAAP financial measure used as an analytical indicator by us and the healthcare industry to assess business performance, and is a measure of leverage capacity and ability to service debt. Adjusted EBITDA should not be considered a measure of financial performance under GAAP, and the items excluded from Adjusted EBITDA should not be considered in isolation or as alternatives to net income, cash flows generated by operating, investing or financing activities or other financial statement data presented in the consolidated financial statements as an indicator of financial performance or liquidity. As Adjusted EBITDA is not a measurement determined in accordance with GAAP and is therefore susceptible to varying methods of calculation, this metric, as presented, may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is reconciled to its nearest comparable GAAP financial measure, net income (loss) attributable to RadNet, Inc. common stockholders. The following is a reconciliation of GAAP net income (loss) attributable to Radnet, Inc. common stockholders to Adjusted EBITDA for the three and nine months ended September 30, 2014 and 2013, respectively:

	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Net income (loss) attributable to RadNet, Inc. common stockholders	\$4,451	\$(467)	\$(2,829)	\$877
Plus provision for (benefit from) income taxes	2,334	(483)	(911)	766
Plus other (income) expense	6	4	4	152
Plus loss on early extinguishment of Senior Notes	–	–	15,927	–
Plus interest expense	10,395	11,052	32,503	34,542
Plus severance costs	112	72	976	312
Plus loss on sale and disposal of equipment	1,289	(5)	1,581	357
Less gain on sale of imaging centers	–	–	–	(2,108)
Plus depreciation and amortization	14,423	14,762	45,193	44,050
Plus non-cash employee stock-based compensation	433	463	2,069	2,045
Adjusted EBITDA	\$33,443	\$25,398	\$94,513	\$80,993

Liquidity and Capital Resources

We had cash and cash equivalents of \$274,000 and accounts receivable of \$155.0 million at September 30, 2014, compared to cash and cash equivalents of \$8.4 million and accounts receivable of \$133.6 million at December 31, 2013. We had a working capital balance of \$65.7 million and \$58.0 million at September 30, 2014 and December 31, 2013, respectively. We had net income (loss) attributable to RadNet, Inc. common stockholders for the three months ended September 30 and 2013 of \$4.5 million and (\$467,000) respectively, and net (loss) income attributable to RadNet, Inc. common stockholders for the nine months ended September 30, 2014 and 2013 of (\$2.8 million) and \$877,000, respectively. We also had stockholders' equity of \$2.6 million and \$2.2 million at September 30, 2014 and December 31, 2013, respectively.

We operate in a capital intensive, high fixed-cost industry that requires significant amounts of capital to fund operations. In addition to operations, we require a significant amount of capital for the initial start-up and development of new diagnostic imaging facilities, the acquisition of additional facilities and new diagnostic imaging equipment. Because our cash flows from operations have been insufficient to fund all of these capital requirements, we have depended on the availability of financing under credit arrangements with third parties.

Under the 2014 Amendment to the Refinance Agreement explained in further detail below, the scheduled annual amortization payments on the First Lien Term Loan increased from 1% per annum to 5% per annum. As a result, scheduled amortization increased by \$16.8 million from pre-amendment terms. This \$16.8 million additional cash obligation will be partially offset by annual interest savings of approximately \$5.0 million under the terms of the Second Lien Term Loan as compared to that under the retired Senior Notes. We expect to fund this approximately \$11.8 million net increase in amortization payments from cash provided by operating activities.

At September 30, 2014 we had borrowed \$25.1 million under our \$101 million revolving credit facility, which expires in October 2017. Based on our current level of operations, we believe that cash flow from operations and available cash, together with available borrowings from our senior secured credit facilities, will be adequate to meet our liquidity needs. Our future liquidity requirements will be for working capital, capital expenditures, debt service and general corporate purposes. Our ability to meet our working capital and debt service requirements, however, is subject to future economic conditions and to financial, business and other factors, many of which are beyond our control. If we are not able to meet such requirements, we may be required to seek additional financing. There can be no assurance that we will be able to obtain financing from other sources on terms acceptable to us, if at all.

On a continuing basis, we also consider various transactions to increase shareholder value and enhance our business results, including acquisitions, divestitures and joint ventures. These types of transactions may result in future cash proceeds or payments but the general timing, size or success of any acquisition, divestiture or joint venture effort and the related potential capital commitments cannot be predicted. We expect to fund any future acquisitions primarily with cash flow from operations and borrowings, including borrowing from amounts available under our senior secured credit facilities or through new equity or debt issuances.

We and our subsidiaries or affiliates may from time to time, in our or their sole discretion, purchase, repay, redeem or retire any of our outstanding debt or equity securities in privately negotiated or open market transactions, by tender offer or otherwise. However, we have no formal plan of doing so at this time.

Included in our condensed consolidated balance sheet at September 30, 2014 are \$572.2 million of senior secured term loan debt (net of unamortized discounts of \$12.7 million), broken down by loan agreement as follows (in thousands):

	Face Value	Discount	Total Carrying Value
2014 First Lien Term Loans	\$404,942	\$(9,922)	\$395,020
Second Lien Term Loans	\$180,000	\$(2,772)	\$177,228
Total	\$584,942	\$(12,694)	\$572,248

Sources and Uses of Cash

Cash provided by operating activities was \$34.0 million for the nine months ended September 30, 2014 compared to \$42.5 million for the nine months ended September 30, 2013.

Cash used in investing activities was \$43.9 million and \$40.6 million for the nine months ended September 30, 2014 and 2013, respectively. For the nine months ended September 30, 2014, we purchased property and equipment for approximately \$33.9 million, acquired the assets and businesses of an additional imaging facilities for \$9.4 million (see Note 2 to the condensed consolidated financial statements contained herein), and purchased additional equity interests in non-consolidated joint ventures for \$1.2 million.

Cash provided by financing activities was \$1.8 million for the nine months ended September 30, 2014 compared to cash used in financing activities of \$1.9 million for the nine months ended September 30, 2013. The cash provided by financing activities for the nine months ended September 30, 2014, was primarily due to amounts received through the First and Second Lien Credit and Guaranty Agreements and borrowings under our revolving line of credit, offset by the redemption of \$200.0 million face value senior notes and principal payments on our notes and capital leases. (See Note 1 to the condensed consolidated financial statements herein).

The following describes our most recent financing activities:

2014 Amendment to the Refinance Agreement and Second Lien Credit and Guaranty Agreement:

On March 25, 2014, Radnet Management simultaneously entered into two agreements which resulted in the creation of a direct financial obligation as follows:

2014 Amendment of the Refinance Agreement. Radnet Management amended that certain Credit and Guaranty Agreement dated October 10, 2012, as amended by that certain first amendment date April 3, 2013 (the “2013 Amendment”) (collectively, the “Refinance Agreement”), by entering into a second amendment to the Refinance Agreement (the “2014 Amendment”) to provide for, among other things, the borrowing by Radnet Management of \$30.0 million of additional first lien term loans (the “2014 First Lien Term Loans”).

Second Lien Credit and Guaranty Agreement. Radnet Management entered into a Second Lien Credit and Guaranty Agreement (the “Second Lien Credit Agreement”) to provide for, among other things, the borrowing by Radnet Management of \$180.0 million of second lien term loans (the “Second Lien Term Loans”). The proceeds from the Second Lien Term Loans and the 2014 First Lien Term Loans were used to redeem the senior notes, as more fully described below under the heading “Senior Notes”, to pay the expenses related to the transaction and for general corporate purposes.

Revolving Credit Facility. The \$101.25 million revolving credit line established in the Credit and Guaranty Agreement dated October 10, 2012 was unaltered by the agreements above and remains in place.

The 2014 Amendment provides for the following:

Interest. The interest rates payable on the 2014 First Lien Term Loans are the same as the rates currently payable under the Refinance Agreement, as amended by the 2013 Amendment, which are (a) the Adjusted Eurodollar Rate plus 3.25% or (b) the Base Rate plus 2.25%. The Adjusted Eurodollar Rate has a minimum floor of 1.0% on all of the term loans under the Refinance Agreement. The Adjusted Eurodollar Rate at September 30, 2014 was 0.33%.

Payments. The scheduled amortization of the term loans under the Refinance Agreement has been increased from quarterly payments of \$975,000 to quarterly payments of \$5.2 million starting in June 2014, with the remaining balance to be paid at maturity.

The other material terms of the Refinance Agreement remain unchanged as described in our annual report on Form 10-K for the fiscal year ended December 31, 2013, as amended.

The Second Lien Credit Agreement provides for the following:

Interest. The interest rates payable on the Second Lien Term Loans are (a) the Adjusted Eurodollar Rate plus 7.0% or (b) the Base Rate plus 6.0%. The Adjusted Eurodollar Rate has a minimum floor of 1.0% on the Second Lien Term Loans. The Eurodollar Rate at September 30, 2014 was 0.33%.

Payments. There is no scheduled amortization of the principal of the Second Lien Term Loans. All principal will be due and payable on the termination date described below.

Termination. The termination date for the Second Lien Term Loans is the earlier to occur of (i) March 25, 2021, and (ii) the date on which the Second Lien Term Loans shall otherwise become due and payable in full under the Second Lien Credit Agreement, whether by acceleration or otherwise.

Restrictive Covenants. In addition to certain customary covenants, the Second Lien Credit Agreement places restrictions on indebtedness, liens, and investments, and places limits on distributions to stockholders (including the repurchase of shares) and other junior payments.

Financial Covenants. The Second Lien Credit Agreement contains financial covenants including a maximum total leverage ratio and a limit on annual capital expenditures.

Events of Default. In addition to certain customary events of default, events of default under the Second Lien Credit Agreement include failure to pay principal of any loans as and on the date when due, failure to pay any interest on any loan or any fee or other amount payable under the Second Lien Term Loans within five days after the due date, failure of any loan party to comply with any covenant or agreements, subject to applicable grace periods and/or notice requirements, or a material breach of any representation or warranty contained in the loan documents. The occurrence of an event of default could permit the lenders under the Second Lien Credit Agreement to declare all amounts borrowed, together with accrued interest and fees, to be immediately due and payable and to exercise other default remedies.

These limitations are subject to a number of important qualifications and exceptions, as described in the Second Lien Credit Agreement. As of September 30, 2014, we were in compliance with all covenants.

Senior Notes

On April 6, 2010, we issued and sold \$200 million of 10 3/8% senior unsecured notes due 2018 at a price of 98.680% (the “senior notes”). All payments of the senior notes, including principal and interest, were guaranteed jointly and severally on a senior unsecured basis by RadNet, Inc., and all of Radnet Management’s current and future domestic wholly owned restricted subsidiaries. The senior notes were issued under an indenture dated April 6, 2010 (the “Indenture”), by and among Radnet Management, Inc., as issuer, RadNet, Inc., as parent guarantor, the subsidiary guarantors thereof and U.S. Bank National Association, as trustee.” We paid interest on the senior notes on April 1 and October 1 of each year, commencing October 1, 2010, and they were scheduled to expire on April 1, 2018.

Optional Redemption. Under the Indenture, Radnet Management could redeem the senior notes, in whole or in part, at any time on or after April 1, 2014, at the redemption prices specified under the Indenture. Prior to April 1, 2014, Radnet Management was also permitted to redeem the senior notes, in whole or in part, at a redemption price equal to 100% of the principal amount redeemed, plus a make-whole premium established by the Indenture and accrued and unpaid interest, if any.

Senior Notes Tender Offer and Exercise of Optional Redemption

Radnet Management completed the retirement of its \$200 million in Senior Notes on April 24, 2014 and following such retirement the Company completed the satisfaction and discharge of the Indenture. The transactions leading to the retirement of the Senior Notes are described below:

Tender Offer and Exercise of Optional Redemption of March 7, 2014. On March 7, 2014, Radnet Management commenced a tender offer to purchase for cash any and all outstanding senior notes. In connection with the tender offer, Radnet Management also commenced a consent solicitation to amend the Indenture to eliminate or modify certain restrictive covenants. On March 25, 2014 (the “Initial Payment Date”), Radnet Management made a payment in cash for all senior notes tendered prior to 5:00 P.M., New York City time, on March 20, 2014 (the “Consent Payment Deadline”). As of the Consent Payment Deadline, Radnet Management had received tenders and consents in respect of \$193,464,000 aggregate principal amount of the senior notes, representing 96.73% of the outstanding senior notes, all of which were accepted for purchase. The total consideration for each \$1,000 principal amount of senior notes validly tendered and not withdrawn at or prior to the Consent Payment Deadline and accepted for purchase was \$1,056.88 (the “Total Consideration”), which amount included a consent payment (the “Consent Payment”) of \$30.00 per \$1,000 principal amount of senior notes. In addition, all senior notes accepted for payment received accrued and unpaid interest in respect of such notes from the last interest payment date prior to the applicable settlement date to, but not including, the applicable settlement date. The tender offer expired on April 3, 2014 and between the Consent Payment Deadline and the expiration of the tender offer, no additional senior notes were tendered. With a net carrying amount including discount and unamortized issue costs of \$189.2 million, a loss on early extinguishment of debt of \$15.5 million was recorded in the first quarter of 2014.

Tender Offer and Exercise of Optional Redemption of March 25, 2014. On March 25, 2014, Radnet Management called for redemption all of its remaining outstanding senior notes not purchased prior to the expiration of the tender offer described in Note 1 of our condensed consolidated financial statements contained herein, with a redemption date of April 24, 2014 (the “Redemption Date”). Upon redemption on April 24, 2014, the holders of the senior notes being redeemed received a redemption price equal to 105.188% of the outstanding principal amount of the senior notes being redeemed (or \$1,051.88 per \$1,000 in principal amount of the senior notes) in accordance with the terms of the Indenture, or approximately \$6.9 million in total, including approximately \$43,000 of accrued and unpaid interest up to, but excluding the Redemption Date. As of that date, Radnet Management completed the satisfaction and discharge of the Indenture in accordance with its terms and no senior notes remained outstanding. With a net carrying amount including discount and unamortized issue costs of \$6.4 million, a loss on early extinguishment of debt of \$470,800 was recorded in the second quarter of 2014.

Capital Lease Investments

During the nine months ended September 30, 2014, we added capital lease debt of approximately \$12.6 million relating to radiology equipment.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Exchange Risk. We sell our services exclusively in the United States and receive payment for our services exclusively in United States dollars. As a result, our financial results are unlikely to be affected by factors such as changes in foreign currency, exchange rates or weak economic conditions in foreign markets.

We maintain research and development facilities in Prince Edward Island, Canada and Budapest, Hungary for which expenses are paid in the local currency. Accordingly, we do have currency risk resulting from fluctuations between such local currency and the United States Dollar. At the present time, we do not have any foreign exchange currency contracts to mitigate this risk. A hypothetical 1% decline in the currency exchange rates between the U.S. dollar against the Canadian dollar and the Euro would have resulted in an annual increase of approximately \$15,000 in operating expenses.

Interest Rate Sensitivity. RadNet Inc. pays interest on various types of debt instruments to its suppliers, investors and lending institutions. The agreements entail either fixed or variable interest rates. Instruments which have fixed rates are mainly leases on radiology equipment. Variable rate interest obligations relate primarily to amounts borrowed under our outstanding credit facilities, which allows elections of either Adjusted Eurodollar or prime rates of interest. Under the 2014 Amendment to the Refinance Agreement and Second Lien Credit Agreement's election facilities', borrowed funds bear a 1.00% floor or 6 month Adjusted Eurodollar Rate plus an applicable margin of 3.25% for the 2014 First Lien Term Loans and 7% for the Second Lien Term Loans. At September 30, 2014, we had \$404.9 million outstanding subject to an Adjusted Eurodollar election on the 2014 First Lien Term Loans and \$180.0 million on the Second Lien Term Loans. As the Adjusted Eurodollar floor exceeds the current spot rate of 6 month Adjusted Eurodollar, the spot rate would have to increase more than 67 basis points before an additional interest expense would be accrued. An increase of 167 basis points would be necessary to realize a hypothetical 1% increase in the borrowing rate and an annual increase of \$5.8 million of interest expense. At September 30, 2014, an additional \$30.3 million was tied to the prime rate. A hypothetical 1% increase in the prime rate for 2013-2014 would have resulted in an annual increase in interest expense of approximately \$303,000.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure.

In November 2013 the Company identified a deficiency in controls relating to the accounting for income taxes and concluded at that time that such a deficiency represented a material weakness in its internal control over financial reporting. As a result of this discovery, the Company's Chief Executive Officer and Chief Financial Officer concluded that its disclosure controls and procedures were not effective as of December 31, 2013. Subsequent to November 2013 effort was put forth towards strengthening controls over the accounting for income taxes including placing a senior accounting professional in a leadership position within the accounting department to ensure the quality of information delivered to, and improve the review of completed work received from, the Company's outside tax consultant, and although some improvements were achieved, the Chief Executive Officer and Chief Financial Officer of RadNet, Inc. concluded that the Company's disclosure controls and procedures remain ineffective as of September 30, 2014 as a result of a material weakness in internal control over financial reporting.

Changes in Internal Control over Financial Reporting

During the quarterly period ended September 30, 2014, management implemented the following in internal control over financial reporting that materially affected, or was reasonably likely to materially affect, the Company's internal control over financial reporting:

The Company continued to take steps to improve the overall processes and controls in its tax function:

- placing a senior accounting professional in a leadership position within the accounting department to ensure the quality of information delivered to, and improve the review of completed work received from, Company's outside tax consultant;

· revised and implemented controls over our identification and assessment of uncertain tax positions.

Each of these changes is designed to improve the Company's internal controls over financial reporting and remediate the material weakness discussed above regarding the Company's accounting for income taxes

Limitations on Disclosure Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls or internal controls over financial reporting will prevent all errors or all instances of fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and any design may not succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures. Because of the inherent limitation of a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II – OTHER INFORMATION

ITEM 1. Legal Proceedings

We are engaged from time to time in the defense of lawsuits arising out of the ordinary course and conduct of our business. We do not believe that the outcome of any of our current litigation will have a material adverse impact on our business, financial condition and results of operations. However, we could be subsequently named as a defendant in other lawsuits that could adversely affect us.

ITEM 1A. Risk Factors

For information about risks and uncertainties related to our business, please see the risk factors set forth in Part I, Item 1A, of our annual report on Form 10-K for the year ended December 31, 2013, as supplemented and amended by the risk factors in Part II, Item 1A of our quarterly reports on Form 10-Q for the quarters ended March 31, 2014 and June 30, 2014. Those risks are not the only risks relevant to our business; we may face additional risks and uncertainties not currently known to us or that we currently deem to be immaterial as of the date of this report on Form 10-Q.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

ITEM 3. Defaults Upon Senior Securities

None.

ITEM 4. Mine Safety Disclosures

Not applicable.

ITEM 5. Other Information

None.

ITEM 6. Exhibits

Reference is made to the Exhibit Index immediately following the signature page of this report on Form 10-Q.
