Item 5.02. Departure of Directors or Principal Officers; Election of Directors; Appointment of Principal Officers; Compensatory Arrangements of Certain Officers.

The employment agreements for Stephen Berman, our President and Chief Executive Officer, and for John (Jack) McGrath, our Chief Operating Officer, provide, inter alia, that for fiscal year 2018, their respective Annual Performance Bonuses will depend on our achieving certain performance criteria. The performance measures are based upon net revenues and EBITDA (earnings before interest, taxes, depreciation and amortization) with each performance measure weighted 50%. The specific performance criteria is to be determined by the Compensation Committee of our Board of Directors (the "Board") before the end of the Company's first fiscal quarter. The performance criteria for Messrs. Berman and McGrath's respective 2018 Annual Performance Bonuses have been established by the Compensation Committee, and are set forth below: (i) if the minimum EBITDA threshold of \$28.2 million is not met no Annual Performance Bonus will be earned regardless of the amount of net revenue, subject to the discretion of the Committee described below, and (ii) the net revenue criteria used to calculate the Annual Performance Bonus cannot be higher than two tiers above the EBITDA tier actually achieved, subject to the Committee's exercise of its discretion to make adjustments to such conditions as described below. The following examples are provided as an illustration of the foregoing conditions: (1) if the Company achieves net revenue of \$700 million and EBITDA of \$25 million, the Annual Performance Bonus would be zero because the threshold EBITDA target was not achieved; and, as another example, (2) if the Company achieves net revenue of \$700 million and EBITDA of \$32 million, the portion of the Annual Performance Bonus calculated according to the net revenue criteria would be limited to 80% (i.e. two higher than the EBITDA level achieved) and the pay-out for the portion calculated according to the EBITDA criteria would be 40%; subject to the Committee's exercise of its discretion to make adjustments to such conditions as provided below. The employment agreement for our new Chief Financial Officer, Brent Novak, provides that the performance criteria for determination of his Annual Performance Bonus will be the same as for Mr. McGrath, and the maximum bonus for Mr. Novak will be \$631,250.00, which is 125% of his base salary of \$505,000.00 (prorated according to the commencement date of his employment on April 1, 2018.)

The performance criteria, bonus targets and bonus percentages may be adjusted in the sole discretion of the Compensation Committee to take account of extraordinary or special items, or as otherwise may be permitted by the Plan, and the Compensation Committee also specifically reserved the right to modify the performance criteria, bonus targets and bonus percentages in the exercise of its negative discretion to take account of banking and legal fees incurred in connection with any transactions arising as a result of the expression of interest received from Hong Kong Meisheng Cultural Company Limited; the effect on the performance criteria of the bankruptcy of Toys "R US, and unforeseen market and general economic conditions.

The criteria for the 2018 bonuses have been established by the Compensation Committee, after discussion with its consultant, Willis Towers Watson, as follows, subject to the conditions described in the preceding paragraphs:
