- (1) Represents floating rate instruments that accrue interest at a predetermined spread relative to an index, typically the applicable London Interbank Offered Rate, or LIBOR or “L,” the Euro Interbank Offered Rate, or EURIBOR or “E,” or Prime rate, or “P.” The spread may change based on the type of rate used. The terms in the Schedule of Investments disclose the actual interest rate in effect as of the reporting period. LIBOR loans are typically indexed to a 30-day, 60-day, 90-day or 180-day LIBOR rate (1M L, 2M L, 3M L, or 6M L, respectively), and EURIBOR loans are typically indexed to a 90-day EURIBOR rate (3M E), at the borrower’s option. All securities are subject to a LIBOR or Prime rate floor where a spread is provided, unless noted. The spread provided includes payment-in-kind, or PIK, interest and other fee rates, if any.
- (2) Valued based on our accounting policy (See Note 2).
- (3) The provisions of the 1940 Act classify investments based on the level of control that we maintain in a particular portfolio company. As defined in the 1940 Act, a company is generally presumed to be “non-controlled” when we own 25% or less of the portfolio company’s voting securities and “controlled” when we own more than 25% of the portfolio company’s voting securities.
- (4) The provisions of the 1940 Act classify investments further based on the level of ownership that we maintain in a particular portfolio company. As defined in the 1940 Act, a company is generally deemed as “non-affiliated” when we own less than 5% of a portfolio company’s voting securities and “affiliated” when we own 5% or more of a portfolio company’s voting securities.
- (5) Security is exempt from registration under Rule 144A promulgated under the Securities Act of 1933, as amended, or the Securities Act. The security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers.
- (6) Non-U.S. company or principal place of business outside the United States.
- (7) Non-income producing securities.
- (8) The securities, or a portion thereof, are not pledged as collateral under the Credit Facility. All other securities are pledged as collateral under the Credit Facility and held through Funding I.
- (9) Represents the purchase of a security with delayed settlement or a revolving line of credit that is currently an unfunded investment. This security does not earn a basis point spread above an index while it is unfunded.
- (10) The investment is treated as a non-qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, we may not acquire any non-qualifying asset unless, at the time the acquisition is made, qualifying assets represent at least 70% of our total assets. As of March 31, 2018, qualifying assets represent 86% of our total assets and non-qualifying assets represent 14% of our total assets.
- (11) Par amount is denominated in Australian Dollars (A\$), Canadian Dollars (C\$) or in Euros (€) as denoted.
- (12) Investment is held through our Taxable Subsidiary (See Note 1).

(13) The security was not valued using significant unobservable inputs. The value of all other securities was determined using significant unobservable inputs (See Note 5).

- (1) Represents floating rate instruments that accrue interest at a predetermined spread relative to an index, typically the applicable LIBOR or “L,” EURIBOR or “E,” or Prime rate, or “P.” All securities are subject to a LIBOR or Prime rate floor where a spread is provided, unless noted. The spread provided includes PIK interest and other fee rates, if any.
- (2) Valued based on our accounting policy (See Note 2).
- (3) The provisions of the 1940 Act classify investments based on the level of control that we maintain in a particular portfolio company. As defined in the 1940 Act, a company is generally presumed to be “non-controlled” when we own 25% or less of the portfolio company’s voting securities and “controlled” when we own more than 25% of the portfolio company’s voting securities.
- (4) The provisions of the 1940 Act classify investments further based on the level of ownership that we maintain in a particular portfolio company. As defined in the 1940 Act, a company is generally deemed as “non-affiliated” when we own less than 5% of a portfolio company’s voting securities and “affiliated” when we own 5% or more of a portfolio company’s voting securities.
- (5) Security is exempt from registration under Rule 144A promulgated under the Securities Act. The security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers.
- (6) Non-U.S. company or principal place of business outside the United States.
- (7) Non-income producing securities.
- (8) The securities, or a portion thereof, are not pledged as collateral under the Credit Facility. All other securities are pledged as collateral under the Credit Facility and held through Funding I.
- (9) Represents the purchase of a security with delayed settlement or a revolving line of credit that is currently an unfunded investment. This security does not earn a basis point spread above an index while it is unfunded.
- (10) The investment is treated as a non-qualifying asset under Section 55(a) of the 1940 Act. Under the 1940 Act, we may not acquire any non-qualifying asset unless, at the time the acquisition is made, qualifying assets represent at least 70% of our total assets. As of September 30, 2017, qualifying assets represent 87% of our total assets and non-qualifying assets represent 13% of our total assets.
- (11) Par amount is denominated in Australian Dollars (A\$), Canadian Dollars (C\$) or in Euros (€) as denoted.
- (12) Investment is held through our Taxable Subsidiary (See Note 1).

(13) The security was not valued using significant unobservable inputs. The value of all other securities was determined using significant unobservable inputs (See Note 5).

PENNANTPARK FLOATING RATE CAPITAL LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(Unaudited)

1. ORGANIZATION

PennantPark Floating Rate Capital Ltd. was organized as a Maryland corporation in October 2010. We are a closed-end, externally managed, non-diversified investment company that has elected to be treated as a BDC under the 1940 Act.

Our investment objectives are to generate both current income and capital appreciation while seeking to preserve capital. We seek to achieve our investment objective by investing primarily in loans bearing a variable-rate of interest, or Floating Rate Loans, and other investments made to U.S. middle-market private companies whose debt is rated below investment grade. Floating Rate Loans pay interest at variable rates, which are determined periodically, on the basis of a floating base lending rate such as LIBOR, with or without a floor, plus a fixed spread. Under normal market conditions, we generally expect that at least 80% of the value of our Managed Assets, which means our net assets plus any borrowings for investment purposes, will be invested in Floating Rate Loans and other investments bearing a variable rate of interest, which may include, from time to time, variable rate derivative instruments. We generally expect that first lien secured debt, will represent at least 65% of our overall portfolio. We generally expect to invest up to 35% of our overall portfolio opportunistically in other types of investments, including second lien secured debt, subordinated debt, and, to a lesser extent, equity investments.

We entered into an investment management agreement, or the Investment Management Agreement, with the Investment Adviser, an external adviser that manages our day-to-day operations. We also entered into an administration agreement, or the Administration Agreement, with the Administrator, which provides the administrative services necessary for us to operate.

Funding I, our wholly owned subsidiary and a special purpose entity, was organized in Delaware as a limited liability company in May 2011. We formed Funding I in order to establish our Credit Facility. The Investment Adviser serves as the collateral manager to Funding I and has irrevocably directed that the management fee owed with respect to such services is to be paid to us so long as the Investment Adviser remains the collateral manager. This arrangement does not increase our consolidated management fee. The Credit Facility allows Funding I to borrow up to \$405 million at LIBOR plus 200 basis points during the revolving period. The Credit Facility is secured by all of the assets held by Funding I. See Note 10.

We have formed and expect to continue to form certain taxable subsidiaries, including the Taxable Subsidiary, which are subject to tax as corporations. The Taxable Subsidiary allows us to hold equity securities of certain portfolio companies treated as pass-through entities for U.S. federal income tax purposes while facilitating our ability to qualify as a RIC under the Code.

In May 2017, we and Trinity Universal Insurance Company, or Trinity, a subsidiary of Kemper Corporation (NYSE: KMPR), or Kemper, formed PSSSL, an unconsolidated joint venture. PSSSL invests primarily in middle-market and other corporate debt securities consistent with our strategy. PSSSL was formed as a Delaware limited liability company. See Note 4.

In October and November 2017, we completed a follow-on public offering of 6,292,000 shares of common stock at a public offering price of \$14.15 per share resulting in net proceeds of approximately \$88.0 million. The Investment Adviser paid approximately \$2.1 million of the sales load payable to the underwriters. We are not obligated to repay the sales load paid by our Investment Adviser.

In November 2017, we issued \$138.6 million of our 2023 Notes. The principal on the 2023 Notes will be payable in four annual installments as follows: 15% of the original principal amount on December 15, 2020, 15% of the original principal amount on December 15, 2021, 15% of the original principal amount on December 15, 2022 and 55% on December 15, 2023. The 2023 Notes are general, unsecured obligations and rank equal in right of payment with all of our existing and future senior unsecured indebtedness. The 2023 Notes are listed on the Tel Aviv Stock Exchange, or the TASE. In connection with this offering, we have dual listed our common stock on the TASE.

2. SIGNIFICANT ACCOUNTING POLICIES

The preparation of our Consolidated Financial Statements in conformity with U.S. generally accepted accounting principles, or GAAP, requires management to make estimates and assumptions that affect the reported amount of our assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of income and expenses during the reported periods. In the opinion of management, all adjustments, which are of a normal recurring nature, considered necessary for the fair presentation of financial statements have been included. Actual results could differ from these estimates due to changes in the economic and regulatory environment, financial markets and any other parameters used in determining such estimates and assumptions. We may reclassify certain prior period amounts to conform to the current period presentation. We have eliminated all intercompany balances and transactions. References to the Financial Accounting Standards Board, or FASB, Accounting Standards Codification, as amended, or ASC, serve as a single source of accounting literature. Subsequent events are evaluated and disclosed as appropriate for events occurring through the date the Consolidated Financial Statements are issued.

Our Consolidated Financial Statements are prepared in accordance with GAAP, consistent with ASC Topic 946, Financial Services – Investment Companies, and pursuant to the requirements for reporting on Form 10-K/Q and Articles 6, 10 and 12 of Regulation S-X, as appropriate. In accordance with Article 6-09 of Regulation S-X, we have provided a Consolidated Statement of Changes in Net Assets in lieu of a Consolidated Statement of Changes in Stockholders' Equity.

Our significant accounting policies consistently applied are as follows:

(a) Investment Valuations

We expect that there may not be readily available market values for many of our investments, which are or will be in our portfolio, and we value such investments at fair value as determined in good faith by or under the direction of our board of directors using a documented valuation policy and a consistently applied valuation process, as described in this Report. With respect to investments for which there is no readily available market value, the factors that the board of directors may take into account in pricing our investments at fair value include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate or revise our valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and the difference may be material. See Note 5.

PENNANTPARK FLOATING RATE CAPITAL LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

MARCH 31, 2018

(Unaudited)

Our portfolio generally consists of illiquid securities, including debt and equity investments. With respect to investments for which market quotations are not readily available, or for which market quotations are deemed not reflective of the fair value, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- (1) Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of our Investment Adviser responsible for the portfolio investment;
- (2) Preliminary valuation conclusions are then documented and discussed with the management of our Investment Adviser;
- (3) Our board of directors also engages independent valuation firms to conduct independent appraisals of our investments for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of the investment. The independent valuation firms review management's preliminary valuations in light of their own independent assessment and also in light of any market quotations obtained from an independent pricing service, broker, dealer or market maker;
- (4) The audit committee of our board of directors reviews the preliminary valuations of our Investment Adviser and those of the independent valuation firms on a quarterly basis, periodically assesses the valuation methodologies of the independent valuation firms, and responds to and supplements the valuation recommendations of the independent valuation firms to reflect any comments; and
- (5) Our board of directors discusses these valuations and determines the fair value of each investment in our portfolio in good faith, based on the input of our Investment Adviser, the respective independent valuation firms and the audit committee.

Our board of directors generally uses market quotations to assess the value of our investments for which market quotations are readily available. We obtain these market values from independent pricing services or at bid prices obtained from at least two brokers or dealers, if available, or otherwise from a principal market maker or a primary market dealer. The Investment Adviser assesses the source and reliability of bids from brokers or dealers. If the board of directors has a bona fide reason to believe any such market quote does not reflect the fair value of an investment, it may independently value such investments by using the valuation procedure that it uses with respect to assets for

which market quotations are not readily available.

(b) Security Transactions, Revenue Recognition, and Realized/Unrealized Gains or Losses

Security transactions are recorded on a trade-date basis. We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method, without regard to unrealized appreciation or depreciation previously recognized, but considering prepayment penalties. Net change in unrealized appreciation or depreciation reflects the change in the fair values of our portfolio investments, the Credit Facility and the 2023 Notes during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.

We record interest income on an accrual basis to the extent that we expect to collect such amounts. For loans and debt investments with contractual PIK interest, which represents interest accrued and added to the loan balance that generally becomes due at maturity, we will generally not accrue PIK interest when the portfolio company valuation indicates that such PIK interest is not collectable. We do not accrue as a receivable interest on loans and debt investments if we have reason to doubt our ability to collect such interest. Loan origination fees, original issue discount, or OID, market discount or premium and deferred financing costs on liabilities, which we do not fair value, are capitalized and then accreted or amortized using the effective interest method as interest income or, in the case of deferred financing costs, as interest expense. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that we expect to collect such amounts. From time to time, the Company receives certain fees from portfolio companies, which are non-recurring in nature. Such fees include loan prepayment penalties, structuring fees and amendment fees, and are recorded as other investment income when earned. Litigation settlements are accounted for in accordance with the gain contingency provisions of ASC Subtopic 450-30, Gain Contingencies, or ASC-450-30.

Loans are placed on non-accrual status when principal or interest payments are past due 30 days or more and/or if there is reasonable doubt that principal or interest will be collected. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current.

(c) Income Taxes

We have complied with the requirements of Subchapter M of the Code and expect to be treated as a RIC for federal income tax purposes. In this regard, we account for income taxes using the asset and liability method prescribed by ASC Topic 740, Income Taxes, or ASC 740. Under this method, income taxes are provided for amounts currently payable and for amounts deferred as tax assets and liabilities based on differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities. Based upon our qualification and election to be treated as a RIC for federal income tax purposes, we typically do not incur any material level of federal income taxes.

However, we may elect to retain a portion of our calendar year income, which may result in the imposition of an excise tax, or we may incur taxes through our Taxable Subsidiaries. For the three and six months ended March 31, 2018, we recorded a provision for taxes of \$0.2 million and \$0.4 million, respectively, pertaining to U.S. federal excise tax. For both the three and six months ended March 31, 2017, we recorded a provision for taxes of \$0.1 million pertaining to U.S. federal excise tax.

We recognize the effect of a tax position in our Consolidated Financial Statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination by the applicable tax authority. Tax positions not considered to satisfy the “more-likely-than-not” threshold would be recorded as a tax expense or benefit. Penalties or interest, if applicable, that may be assessed relating to income taxes would be classified as other operating expenses in the financial statements. As of March 31, 2018, there were no tax accruals relating to uncertain tax positions and no amounts accrued for interest or penalties. The Company’s determinations regarding ASC 740 may be subject to review and adjustment at a later date based upon factors including, but not limited to, an on-going analysis of tax laws, regulations and interpretations thereof. Although the Company files both federal and state income tax returns, the Company’s major tax jurisdiction is federal.

Because federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and net realized gains recognized for financial reporting purposes. Differences between tax regulations and GAAP may be permanent or temporary. Permanent differences are reclassified among capital accounts in the Consolidated Financial Statements to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future.

PENNANTPARK FLOATING RATE CAPITAL LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

MARCH 31, 2018

(Unaudited)

(d) Distributions and Capital Transactions

Distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid, if any, as a distribution is determined by the board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually. The tax attributes for distributions will generally include ordinary income and capital gains, but may also include certain tax-qualified dividends and/or a return of capital.

Capital transactions, in connection with our dividend reinvestment plan, which was terminated on November 22, 2017, or through offerings of our common stock, are recorded when issued and offering costs are charged as a reduction of capital upon issuance of our common stock.

(e) Foreign Currency Translation

Our books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

1. Fair value of investment securities, other assets and liabilities – at the exchange rates prevailing at the end of the applicable period; and
2. Purchases and sales of investment securities, income and expenses – at the exchange rates prevailing on the respective dates of such transactions.

Although net assets and fair values are presented based on the applicable foreign exchange rates described above, we do not isolate that portion of the results of operations due to changes in foreign exchange rates on investments, other assets and debt from the fluctuations arising from changes in fair values of investments and liabilities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments and liabilities.

Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices to be more volatile than those of comparable U.S. companies or U.S. government securities.

(f) Consolidation

As permitted under Regulation S-X and as explained by ASC paragraph 946-810-45-3, PennantPark Floating Rate Capital Ltd. will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to us. Accordingly, we have consolidated the results of our taxable subsidiaries in our Consolidated Financial Statements. We do not consolidate our non-controlling interest in PSSL. See further description of our investment in PSSL in Note 4.

(g) Asset Transfers and Servicing

Asset transfers that do not meet ASC Topic 860, Transfers and Servicing, requirements for sale accounting treatment are reflected in the Consolidated Statements of Assets and Liabilities and Consolidated Schedules of Investments as investments. The creditors of Funding I have received a security interest in all of its assets and such assets are not intended to be available to the creditors of PennantPark Floating Rate Capital Ltd. or any of its affiliates.

(h) Recent Accounting Pronouncements

In May 2014, the FASB issued guidance to establish a comprehensive and converged standard on revenue recognition to enable financial statement users to better understand and consistently analyze an entity's revenue across industries, transactions, and geographies. An amended guidance defers the effective date of the new guidance to interim reporting periods within annual reporting periods beginning after December 15, 2017. Public business entities are permitted to apply the new guidance early, but not before the original effective date (i.e., interim periods within annual periods beginning after December 15, 2016). The Company has evaluated this guidance and determined it will have no material impact on its financial statements.

3. AGREEMENTS AND RELATED PARTY TRANSACTIONS

The Investment Management Agreement with the Investment Adviser was reapproved by our board of directors, including a majority of our directors who are not interested persons of us or the Investment Adviser, in February 2018. Under the Investment Management Agreement, the Investment Adviser, subject to the overall supervision of our board of directors, manages the day-to-day operations of and provides investment advisory services to us. The

Investment Adviser serves as the collateral manager to Funding I and has irrevocably directed that the management fee owed with respect to such services is to be paid to the Company so long as the Investment Adviser remains the collateral manager. This arrangement does not increase our consolidated management fee. For providing these services, the Investment Adviser receives a fee from us consisting of two components—a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 1.00% of our “average adjusted gross assets,” which equals our gross assets (net of U.S. Treasury Bills, temporary draws under any credit facility, cash and cash equivalents, repurchase agreements or other balance sheet transactions undertaken at the end of a fiscal quarter for purposes of preserving investment flexibility for the next quarter and adjusted to exclude cash, cash equivalents and unfunded commitments, if any) and is payable quarterly in arrears. The base management fee is calculated based on the average adjusted gross assets at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. For example, if we sold shares on the 45th day of a quarter and did not use the proceeds from the sale to repay outstanding indebtedness, our gross assets for such quarter would give effect to the net proceeds of the issuance for only 45 days of the quarter during which the additional shares were outstanding. For the three and six months ended March 31, 2018, the Investment Adviser earned a base management fee of \$1.9 million and \$3.8 million, respectively, from us. For the three and six months ended March 31, 2017, the Investment Adviser earned a base management fee of \$1.7 million and \$3.3 million, respectively, from us.

The incentive fee has two parts, as follows:

One part is calculated and payable quarterly in arrears based on our Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter. For this purpose, Pre-Incentive Fee Net Investment Income means interest income, dividend income and any other income, including any other fees (other than fees for providing managerial assistance), such as amendment, commitment, origination, prepayment penalties, structuring, diligence and consulting fees or other fees received from portfolio

PENNANTPARK FLOATING RATE CAPITAL LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

MARCH 31, 2018

(Unaudited)

companies, accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, any expenses payable under the Administration Agreement and any interest expense or amendment fees under any credit facility and distribution paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature (such as OID, debt instruments with PIK interest and zero coupon securities), accrued income not yet received in cash. Pre-Incentive Fee Net Investment Income does not include any realized capital gains, computed net of all realized capital losses or unrealized capital appreciation or depreciation. Pre-Incentive Fee Net Investment Income, expressed as a percentage of the value of our net assets at the end of the immediately preceding calendar quarter, is compared to the hurdle rate of 1.75% per quarter (7.00% annualized). We pay the Investment Adviser an incentive fee with respect to our Pre-Incentive Fee Net Investment Income in each calendar quarter as follows: (1) no incentive fee in any calendar quarter in which our Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate of 1.75%, (2) 50% of our Pre-Incentive Fee Net Investment Income with

respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.9167% in any calendar quarter (11.67% annualized) (we refer to this portion of our Pre-Incentive Fee Net Investment Income (which exceeds the hurdle but is less than 2.9167%) as the “catch-up,” which is meant

to provide our Investment Adviser with 20% of our Pre-Incentive Fee Net Investment Income, as if a hurdle did not apply, if this net investment income exceeds 2.9167% in any calendar quarter), and (3) 20% of the amount of our Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.9167% in any calendar quarter. These calculations are pro-rated for any share issuances or repurchases during the relevant quarter, if applicable. For both the three and six months ended March 31, 2018, the Investment Adviser earned \$0.2 million in incentive fees on net investment income from us. For the three and six months ended March 31, 2017, the Investment Adviser earned \$0.6 million and \$1.4 million, respectively, in incentive fees on net investment income from us.

The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Management Agreement, as of the termination date) and equals 20% of our realized capital gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees. For the three and six months ended March 31, 2018, the Investment Adviser accrued an incentive fee on capital gains of zero and reversed a prior accrual of \$(0.1) million, respectively, as calculated under the Investment Management Agreement (as described above). For the three and six months ended March 31, 2017, the Investment Adviser did not earn an incentive fee on capital gains, as calculated under the Investment Management Agreement (as described above).

Under GAAP, we are required to accrue a capital gains incentive fee based upon net realized capital gains and net unrealized capital appreciation and depreciation on investments held at the end of each period. In calculating the capital gains incentive fee accrual, we considered the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the Investment Management Agreement. This accrual is calculated using the aggregate cumulative realized capital gains and losses and cumulative unrealized capital appreciation or depreciation. If such amount is positive at the end of a period, then we record a capital gains incentive fee equal to 20% of such amount, less the aggregate amount of actual capital gains related to incentive fees paid in all prior years. If such amount is negative, then there is no accrual for such year. There can be no assurance that such unrealized capital appreciation will be realized in the future. The incentive fee accrued for under GAAP on our unrealized and realized capital gains for the three and six months ended March 31, 2018 was \$0.2 million and \$0.4 million, respectively. The incentive fee accrued for under GAAP on our unrealized and realized capital gains for the three and six months ended March 31, 2017 was \$(0.1) million and \$0.5 million, respectively.

The Administration Agreement with the Administrator was reapproved by our board of directors, including a majority of the directors who are not interested persons of us, in February 2018. Under the Administration Agreement, the Administrator provides administrative services and office facilities to us. For providing these services, facilities and personnel, we have agreed to reimburse the Administrator for its allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under the Administration Agreement, including rent and our allocable portion of the costs of compensation and related expenses of our Chief Compliance Officer, Chief Financial Officer and their respective staffs. The Administrator also offers, on our behalf, significant managerial assistance to portfolio companies to which we are required to offer such assistance. Reimbursement for certain of these costs is included in administrative services expenses in the Consolidated Statements of Operations. For the three and six months ended March 31, 2018, we reimbursed the Investment Adviser approximately \$0.6 million and \$0.9 million, respectively, including expenses the Investment Adviser incurred on behalf of the Administrator, for services described above. For the three and six months ended March 31, 2017, we reimbursed the Investment Adviser approximately \$0.7 million and \$1.0 million, respectively, including expenses the Investment Adviser incurred on behalf of the Administrator, for services described above.

During the three and six months ended March 31, 2018, there were no transactions with any affiliated fund managed by our Investment Adviser. During the three and six months ended March 31, 2017, the Company purchased \$38.1 million and \$38.1 million, respectively, from and sold zero and \$5.0 million in total investments, respectively, to an affiliated fund managed by our Investment Adviser in accordance with, and pursuant to procedures adopted under, Rule 17a-7 under the 1940 Act. Realized gains on those sales amounted to less than \$0.1 million.

For the three and six months ended March 31, 2018, we sold \$6.2 million and \$33.4 million, respectively, in investments to PSSL at fair value and recognized less than \$0.1 million of net realized gains for both periods. There were no such transactions for the three and six months ended March 31, 2017.

4. INVESTMENTS

Purchases of investments, including PIK interest, for the three and six months ended March 31, 2018 totaled \$138.6 million and \$315.7 million, respectively. For the same periods in the prior year, purchases of investments, including PIK interest, totaled \$146.5 million and \$271.3 million, respectively. Sales and repayments of investments for the three and six months ended March 31, 2018 totaled \$46.6 million and \$195.7 million, respectively. For the same periods in the prior year, sales and repayments of investments totaled \$71.5 million and \$141.9 million, respectively.

⁽¹⁾Excludes investments in PSSSL.

PennantPark Senior Secured Loan Fund I LLC

In May 2017, we and Kemper formed PSSSL, an unconsolidated joint venture. PSSSL invests primarily in middle-market and other corporate debt securities consistent with our strategy. PSSSL was formed as a Delaware limited liability company. As of March 31, 2018, PSSSL had total assets of \$239.9 million. As of the same date, we and Kemper had remaining commitments to fund first lien secured debt and equity interests in PSSSL in an aggregate of \$18.1 million. PSSSL invests in portfolio companies in the same industries in which we may directly invest. During the three months ended March 31, 2018, the terms of our debt investment in PSSSL were modified to eliminate the subordination provision and to grant us a security interest in certain assets of PSSSL.

We provide capital to PSSSL in the form of first lien secured debt and equity interests. As of March 31, 2018, we and Kemper owned 87.5% and 12.5%, respectively, of each of the outstanding first lien secured debt and equity interests. As of the same date, our investment in PSSSL consisted of equity interests of \$22.8 million and first lien secured debt of \$53.2 million. As of the same date, we had commitments to fund first lien secured debt to PSSSL of \$64.3 million, of which \$11.1 million was unfunded. As of March 31, 2018, we had commitments to fund equity interests in PSSSL of \$27.6 million, of which \$4.8 million was unfunded.

We and Kemper each appointed two members to PSSSL's four person board of directors and investment committee. All material decisions with respect to PSSSL, including those involving its investment portfolio, require unanimous approval of a quorum of the board of directors or investment committee. Quorum is defined as (i) the presence of two members of the board of directors or investment committee; provided that at least one individual is present that was elected, designated or appointed by each member; (ii) the presence of three members of the board of directors or investment committee, provided that the individual that was elected, designated or appointed by the member with only one individual present shall be entitled to cast two votes on each matter; and (iii) the presence of four members of the board of directors or investment committee shall constitute a quorum, provided that two individuals are present that

were elected, designated or appointed by each member.

(1) Represents floating rate instruments that accrue interest at a predetermined spread relative to an index, typically the applicable LIBOR, EURIBOR or Prime rate. The spread may change based on the type of rate used. The terms in the Schedule of Investments disclose the actual interest rate in effect as of the reporting period. LIBOR loans are typically indexed to a 30-day, 60-day, 90-day or 180-day LIBOR rate (1M L, 2M L, 3M L, or 6M L, respectively), and EURIBOR loans are typically indexed to a 90-day EURIBOR rate (3M E), at the borrower's option. All

securities are subject to a LIBOR or Prime rate floor where a spread is provided, unless noted. The spread provided includes PIK interest and other fee rates, if any.

(2) Valued based on PSSL's accounting policy.

(3) Non-U.S. company or principal place of business outside the United States.

(4) Par amount is denominated in Australian Dollars (A\$), Canadian Dollars (C\$) or in Euros (€) as denoted.

5. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value, as defined under ASC Topic 820, Fair Value Measurement, or ASC 820, is the price that we would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment or liability. ASC 820 emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of us. Unobservable inputs reflect the assumptions market participants would use in pricing an asset or liability based on the best information available to us on the reporting period date.

ASC 820 classifies the inputs used to measure these fair values into the following hierarchies:

Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities, accessible by us at the measurement date.

Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets, or that are quoted prices for identical or similar assets or liabilities in markets that are not active and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term, if applicable, of the financial instrument.

Level 3: Inputs that are unobservable for an asset or liability because they are based on our own assumptions about how market participants would price the asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Generally, most of our investments and our Credit Facility are classified as Level 3. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and those differences may be material.

The inputs into the determination of fair value may require significant management judgment or estimation. Even if observable market data is available, such information may be the result of consensus pricing information, disorderly transactions or broker quotes which include a disclaimer that the broker would not be held to such a price in an actual transaction. The non-binding nature of consensus pricing and/or quotes accompanied by disclaimer would result in classification as Level 3 information, assuming no additional corroborating evidence were available. Corroborating evidence that would result in classifying these non-binding broker/dealer bids as a Level 2 asset includes observable orderly market-based transactions for the same or similar assets or other relevant observable market-based inputs that may be used in pricing an asset.

Our investments are generally structured as Floating Rate Loans, mainly first lien secured debt, but also may include second lien secured debt, subordinated debt and equity investments. The transaction price, excluding transaction costs, is typically the best estimate of fair value at inception. Ongoing reviews by our Investment Adviser and independent valuation firms are based on an assessment of each underlying investment, incorporating valuations that consider the evaluation of financing and sale transactions with third parties, expected cash flows and market-based information including comparable transactions, performance multiples and yields, among other factors. These non-public investments valued using unobservable inputs are included in Level 3 of the fair value hierarchy.

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in our ability to observe valuation inputs may result in a reclassification for certain financial assets or liabilities. Reclassifications impacting Level 3 of the fair value hierarchy are reported as transfers in or out of the Level 3 category as of the end of the quarter in which the reclassifications occur. During both the six months ended March 31, 2018 and 2017, our ability to observe valuation inputs resulted in no reclassifications.

In addition to using the above inputs in cash equivalents, investments, the 2023 Notes and our Credit Facility valuations, we employ the valuation policy approved by our board of directors that is consistent with ASC 820. Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading, in determining fair value. See Note 2.

As outlined in the table below, some of our Level 3 investments using a market approach valuation technique are valued using the average of the bids from brokers or dealers. The bids include a disclaimer, may not have corroborating evidence, may be the result of a disorderly transaction and may be the result of consensus pricing. The Investment Adviser assesses the source and reliability of bids from brokers or dealers. If the board of directors has a bona fide reason to believe any such market quote does not reflect the fair value of an investment, it may independently value such investments by using the valuation procedure that it uses with respect to assets for which market quotations are not readily available. We have adopted FASB Accounting Standards Update 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient.

The remainder of our investment portfolio and our long-term Credit Facility are valued using a market comparable or an enterprise market value technique. With respect to investments for which there is no readily available market value, the factors that the board of directors may take into account in pricing our investments at fair value include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, the pricing indicated by the external event, excluding transaction costs, is used to corroborate the valuation. When using earnings multiples to value a portfolio company, the multiple used requires the use of judgment and estimates in determining how a market participant would price such an asset. These non-public investments using unobservable inputs are included in Level 3 of the fair value hierarchy. Generally, the sensitivity of unobservable inputs or combination of inputs such as industry comparable companies, market outlook, consistency, discount rates and reliability of earnings and prospects for growth, or lack thereof, affects the multiple used in pricing an investment. As a result, any change in any one of those factors may have a significant impact on the valuation of an investment. Generally, an increase in a market yield will result in a decrease in the valuation of a debt investment, while a decrease in a market yield will have the opposite effect. Generally, an increase in an EBITDA multiple will result in an increase in the valuation of an investment, while a decrease in an EBITDA multiple will have the opposite effect.

PENNANTPARK FLOATING RATE CAPITAL LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

MARCH 31, 2018

(Unaudited)

The carrying value of our consolidated financial liabilities approximates fair value. We have adopted the principles under ASC Subtopic 825-10, Financial Instruments, or ASC 825-10, which provides companies with an option to report selected financial assets and liabilities at fair value, and made an irrevocable election to apply ASC 825-10 to our Credit Facility and the 2023 Notes. We elected to use the fair value option for our Credit Facility and the 2023 Notes to align the measurement attributes of both our assets and liabilities while mitigating volatility in earnings from using different measurement attributes. Due to that election and in accordance with GAAP, we incurred expenses of zero and \$10.9 million relating to amendment costs on the Credit Facility and debt issuance costs on the 2023 Notes during the three and six months ended March 31, 2018. There were no expenses relating to amendment or debt issuance costs on our debt for the three and six months ended March 31, 2017. ASC 825-10 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect on earnings of a company's choice to use fair value. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the Consolidated Statements of Assets and Liabilities and changes in fair value of the Credit Facility and the 2023 Notes are reported in our Consolidated Statements of Operations. We elected not to apply ASC 825-10 to any other financial assets or liabilities. For the three and six months ended March 31, 2018, our Credit Facility and the 2023 Notes had a net change in unrealized depreciation of \$5.3 million and \$8.4 million, respectively. For the three and six months ended March 31, 2017, our Credit Facility had a net change in unrealized depreciation (appreciation) of less than \$0.1 million and (\$1.0) million, respectively. As of March 31, 2018 and September 30, 2017, the net unrealized depreciation (appreciation) on our Credit Facility and the 2023 Notes totaled \$5.4 million and \$(3.1) million, respectively. We use a nationally recognized independent valuation service to measure the fair value of our Credit Facility in a manner consistent with the valuation process that the board of directors uses to value our investments. Our 2023 Notes trade on the TASE and we use the closing price on the exchange to determine the fair value.

6. TRANSACTIONS WITH AFFILIATED COMPANIES

An affiliated portfolio company is a company in which we have ownership of 5% or more of its voting securities. A portfolio company is generally presumed to be a non-controlled affiliate when we own at least 5% but 25% or less of its voting securities and a controlled affiliate when we own more than 25% of its voting securities. Transactions related to our funded investments with both controlled and non-controlled affiliates for the six months ended March 31, 2018 were as follows:

Edgar Filing: PennantPark Floating Rate Capital Ltd. - Form 10-Q

Name of Investment	Fair Value at September 30, 2017	Purchases of / Advances to Affiliates	Sale of / Distributions from Affiliates	Interest Income	Dividend Income	Net Change in Appreciation	Fair Value at March 31, 2018	Net Realized Gains (Losses)
Controlled Affiliates								
PennantPark Senior Secured Loan Fund I LLC *								
	\$43,525,143	\$33,000,000	\$ —	\$1,433,863	\$700,000	\$753,700	\$77,278,843	\$ —
Total Controlled Affiliates	\$43,525,143	\$33,000,000	\$ —	\$1,433,863	\$700,000	\$753,700	\$77,278,843	\$ —

*We and Kemper are the members of PSSSL, a joint venture formed as a Delaware limited liability company that is not consolidated by us for financial reporting purposes. The members of PSSSL make investments in the PSSSL in the form of equity interests and first lien secured debt, and all portfolio and other material decision regarding PSSSL must be submitted to PSSSL's board of directors or investment committee, both of which are comprised of two members appointed by each of us and Kemper. Because management of PSSSL is shared equally between us and Kemper, we do not believe we control PSSSL for purposes of the 1940 Act or otherwise.

7. CHANGE IN NET ASSETS FROM OPERATIONS PER COMMON SHARE

The following information sets forth the computation of basic and diluted per share net increase in net assets resulting from operations:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2018	2017	2018	2017
Numerator for net increase in net assets resulting from operations	\$15,589,760	\$7,283,145	\$17,508,542	\$16,132,054
Denominator for basic and diluted weighted average shares	38,772,074	29,413,407	37,823,481	28,056,997
Basic and diluted net increase in net assets per share resulting from operations	\$0.40	\$0.25	\$0.46	\$0.57

8. CASH AND CASH EQUIVALENTS

Cash equivalents represent cash in money market funds pending investment in longer-term portfolio holdings. Our portfolio may consist of temporary investments in U.S. Treasury Bills (of varying maturities), repurchase agreements, money market funds or repurchase agreement-like treasury securities. These temporary investments with original maturities of 90 days or less are deemed cash equivalents and are included in the Consolidated Schedule of Investments. At the end of each fiscal quarter, we may take proactive steps to preserve investment flexibility for the next quarter by investing in cash equivalents, which is dependent upon the composition of our total assets at

quarter-end. We may accomplish this in several ways, including purchasing U.S. Treasury Bills and closing out positions on a net cash basis after quarter-end, temporarily drawing down on the Credit Facility, or utilizing repurchase agreements or other balance sheet transactions as are deemed appropriate for this purpose. These amounts are excluded from average adjusted gross assets for purposes of computing the Investment Adviser's management fee. U.S. Treasury Bills with maturities greater than 60 days from the time of purchase are valued consistent with our valuation policy. As of March 31, 2018 and September 30, 2017, cash and cash equivalents consisted of money market funds in the amounts of \$48.4 million and \$18.9 million at fair value, respectively.

Weighted average debt per share ⁽¹⁾	\$ 8.24	\$ 9.30		
Asset coverage per unit ⁽⁶⁾	\$ 2,676	\$ 2,519		
Portfolio turnover ratio	52.08	43.76	%	%

*Not annualized for periods less than one year.

** Annualized for periods less than one year.

⁽¹⁾Based on the weighted average shares outstanding for the respective periods.⁽²⁾The tax status of distributions is calculated in accordance with income tax regulations, which may differ from amounts determined under GAAP, and reported on Form 1099-DIV each calendar year.⁽³⁾

Based on the change in market price per share during the period and takes into account distributions, if any, reinvested in accordance with our dividend reinvestment plan, which was terminated on November 22, 2017.

(4) Excludes debt related costs.

(5) Credit Facility amendment and debt issuance costs, if any, are not annualized.

(6) The asset coverage ratio for a class of senior securities representing indebtedness is calculated on our consolidated total assets, less all liabilities and indebtedness not represented by senior securities, divided by the senior securities representing indebtedness. This asset coverage ratio is multiplied by \$1,000 to determine the asset coverage per unit.

10. DEBT

The annualized weighted average cost of debt for the six months ended March 31, 2018 and 2017, inclusive of the fee on the undrawn commitment of 0.375% on the Credit Facility, amendment costs and debt issuance costs, was 7.40% and 2.91%, respectively. As of March 31, 2018, in accordance with the 1940 Act, with certain limited exceptions, we are only allowed to borrow amounts such that we are in compliance with a 200% asset coverage ratio after such borrowing.

Credit Facility

Funding I's multi-currency Credit Facility with affiliates of SunTrust Bank, or the Lenders, was \$405 million as of March 31, 2018, subject to satisfaction of certain conditions and the regulatory restrictions that the 1940 Act imposes on us as a BDC, has an interest rate spread above LIBOR of 200 basis points, a maturity date of November 2022 and a revolving period that ends in November 2020. As of March 31, 2018 and September 30, 2017, Funding I had \$190.2 million and \$253.8 million of outstanding borrowings under the Credit Facility, respectively. The Credit Facility had a weighted average interest rate of 3.79% and 3.18%, exclusive of the fee on undrawn commitments as of March 31, 2018 and September 30, 2017, respectively.

During the revolving period, the Credit Facility bears interest at LIBOR plus 200 basis points and, after the revolving period, the rate sets to LIBOR plus 425 basis points for the remaining two years, maturing in November 2022. The Credit Facility is secured by all of the assets of Funding I. Both PennantPark Floating Rate Capital Ltd. and Funding I have made customary representations and warranties and are required to comply with various covenants, reporting requirements and other customary requirements for similar credit facilities.

The Credit Facility contains covenants, including, but not limited to, restrictions of loan size, industry requirements, average life of loans, geographic and individual portfolio concentrations, minimum portfolio yield and loan payment frequency. Additionally, the Credit Facility requires the maintenance of a minimum equity investment in Funding I and income ratio as well as restrictions on certain payments and issuance of debt. For instance, we must maintain at least \$25 million in equity and must maintain an interest coverage ratio of at least 125%. The Credit Facility compliance reporting is prepared on a basis of accounting other than GAAP. As of March 31, 2018, we were in compliance with the covenants relating to our Credit Facility.

We own 100% of the equity interest in Funding I and treat the indebtedness of Funding I as our leverage. Our Investment Adviser serves as collateral manager to Funding I under the Credit Facility.

PENNANTPARK FLOATING RATE CAPITAL LTD. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

MARCH 31, 2018

(Unaudited)

Our interest in Funding I (other than the management fee) is subordinate in priority of payment to every other obligation of Funding I and is subject to certain payment restrictions set forth in the Credit Facility. We may receive cash distributions on our equity interests in Funding I only after it has made all required payments of (1) cash interest and, if applicable, principal to the Lenders, (2) administrative expenses and (3) claims of other unsecured creditors of Funding I. The Investment Adviser has irrevocably directed that any management fee owed with respect to such services is to be paid to the Company so long as the Investment Adviser remains the collateral manager.

2023 Notes

In November 2017, we issued \$138.6 million of our 2023 Notes pursuant to a deed of trust between the Company and Mishmeret Trust Company, Ltd. as trustee.

The 2023 Notes pay interest at a rate of 3.83% per year. Interest on the 2023 Notes is payable semi-annually in arrears on June 15 and December 15 of each year, commencing June 15, 2018. The principal on the 2023 Notes is payable in four annual installments as follows: 15% of the original principal amount on December 15, 2020, 15% of the original principal amount on December 15, 2021, 15% of the original principal amount on December 15, 2022 and 55% of the original principal amount on

December 15, 2023.

The 2023 Notes are general, unsecured obligations, rank equal in right of payment with all of PennantPark Floating Rate Capital Ltd.'s existing and future unsecured indebtedness and are generally redeemable at our option. The deed of trust governing the 2023 Notes includes certain customary covenants, including minimum equity requirements, and events of default. Please refer to the deed of trust filed as Exhibit (d)(8) to our post-effective amendment filed on December 13, 2017 for more information. The 2023 Notes are rated ilAA- by S&P Global Ratings Maalot Ltd. and are listed for trading on the TASE. In connection with this offering, we have dual listed our common stock on the TASE.

The 2023 Notes have not been and will not be registered under the Securities Act and may not be offered or sold in the United States absent registration under the Securities Act or in transactions exempt from, or not subject to, such registration requirements.

11. COMMITMENTS AND CONTINGENCIES

From time to time, we, the Investment Adviser or the Administrator may be a party to legal proceedings, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our financial condition or results of operations. Unfunded debt and equity investments, if any, are disclosed in the Consolidated Schedules of Investments. As of March 31, 2018 and September 30, 2017, we had \$48.2 million and \$30.6 million, respectively, in commitments to fund investments. Additionally, as described in Note 4, the Company had commitments of up to \$15.9 million and \$44.6 million to PSSSL as of March 31, 2018 and September 30, 2017, respectively, that may be contributed primarily for the purpose of funding new investments approved by the PSSSL board of directors or investment committee.

12. SUBSEQUENT EVENTS

In May 2018 we doubled the financial capacity of PSSSL. We and Kemper each increased our respective debt and equity investments in PSSSL while continuing to own 87.5% and 12.5%, respectively, of each of the outstanding first lien secured debt and equity interests. Our commitments to fund first lien secured debt to PSSSL were increased by \$64.3 million and our commitments to fund equity interests in PSSSL were increased by \$27.6 million. Additionally, the PSSSL Credit Facility was amended to, among other things, allow PSSSL Subsidiary to borrow up to \$420.0 million at any one time outstanding, subject to leverage and borrowing base restrictions.

Through April 30, 2018, we have made investments totaling \$62.8 million and PSSSL has made investments totaling \$43.0 million (of which \$12.4 million was purchased from the Company).

On April 5, 2018, our board of directors approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the Consolidated Appropriations Act of 2018 (which includes the Small Business Credit Availability Act). As a result, the asset coverage requirements applicable to us for senior securities will be reduced from 200% to 150%, effective as of April 5, 2019, subject to compliance with certain disclosure requirements. As of March 31, 2018 and September 30, 2017, our asset coverage ratio, as computed in accordance with the 1940 Act, was 268% and 278%, respectively.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of PennantPark Floating Rate Capital Ltd. and its Subsidiaries

Results of Review of Interim Financial Statements

We have reviewed the accompanying consolidated statement of assets and liabilities of PennantPark Floating Rate Capital Ltd. and its Subsidiaries (collectively referred to as the “Company”), including the consolidated schedule of investments, as of March 31, 2018, the related consolidated statements of operations for the three-month and six-month periods ended March 31, 2018 and 2017, the related consolidated statements of changes in net assets and cash flows for the six-month periods ended March 31, 2018 and 2017 and the related notes to the consolidated financial statements (collectively, the interim financial statements). Based on our reviews, we are not aware of any material modifications that should be made to the condensed financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated statement of assets and liabilities of the Company, including the consolidated schedule of investments, as of September 30, 2017, and the related consolidated statement of operations, changes in net assets, and cash flows for the year then ended (not presented herein); and in our report dated November 30, 2017, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying consolidated statements of assets and liabilities as of September 30, 2017, is fairly stated, in all material respects, in relation to the balance sheet from which it has been derived.

Basis for Review Results

These interim financial statements are the responsibility of the Company’s management. We conducted our reviews in accordance with the standards of the PCAOB. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This Report, including Management's Discussion and Analysis of Financial Condition and Results of Operations, contains statements that constitute forward-looking statements, which relate to us and our consolidated subsidiaries regarding future events or our future performance or future financial condition. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our Company, our industry, our beliefs and our assumptions. The forward-looking statements contained in this Report involve risks and uncertainties, including statements as to:

- our future operating results;
- our business prospects and the prospects of our prospective portfolio companies;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the impact of a protracted decline in the liquidity of credit markets on our business;
- the impact of investments that we expect to make;
- the impact of fluctuations in interest rates and foreign exchange rates on our business and our portfolio companies;
- our contractual arrangements and relationships with third parties;
- the valuation of our investments in portfolio companies, particularly those having no liquid trading market;
- the ability of our prospective portfolio companies to achieve their objectives;
 - our expected financings and investments and ability to fund capital commitments to PSSL;
- the adequacy of our cash resources and working capital;

- the timing of cash flows, if any, from the operations of our prospective portfolio companies;
- the impact of price and volume fluctuations in the stock market;
- the ability of our Investment Adviser to locate suitable investments for us and to monitor and administer our investments;
- the impact of future legislation and regulation on our business and our portfolio companies; and
- the impact of European sovereign debt, Brexit and other world economic and political issues.

We use words such as “anticipates,” “believes,” “expects,” “intends,” “seeks,” “plans,” “estimates” and similar expressions to identify forward-looking statements. You should not place undue influence on the forward-looking statements as our actual results could differ materially from those projected in the forward-looking statements for any reason.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and, as a result, the forward-looking statements based on those assumptions also could be inaccurate. Important assumptions include our ability to originate new loans and investments, certain margins and levels of profitability and the availability of additional capital. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this Report should not be regarded as a representation by us that our plans and objectives will be achieved.

We have based the forward-looking statements included in this Report on information available to us on the date of this Report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements in this Report, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we in the future may file with the SEC, including reports on Form 10-Q/K and current reports on Form 8-K.

You should understand that under Section 27A(b)(2)(B) of the Securities Act and Section 21E(b)(2)(B) of the Exchange Act, the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 do not apply to forward-looking statements made in periodic reports we file under the Exchange Act.

The following analysis of our financial condition and results of operations should be read in conjunction with our Consolidated Financial Statements and the related notes thereto contained elsewhere in this Report.

Overview

PennantPark Floating Rate Capital Ltd. is a BDC whose objectives are to generate both current income and capital appreciation while seeking to preserve capital by investing primarily in Floating Rate Loans and other investments made to U.S. middle-market companies.

We believe that Floating Rate Loans to U.S. middle-market companies offer attractive risk-reward to investors due to a limited amount of capital available for such companies and the potential for rising interest rates. We use the term “middle-market” to refer to companies with annual revenues between \$50 million and \$1 billion. Our investments are typically rated below investment grade. Securities rated below investment grade are often referred to as “leveraged loans” or “high yield” securities or “junk bonds” and are often higher risk compared to debt instruments that are rated above investment grade and have speculative characteristics. However, when compared to junk bonds and other non-investment grade debt, senior secured Floating Rate Loans typically have more robust capital-preserving qualities, such as historically lower default rates than junk bonds, represent the senior source of capital in a borrower’s capital structure and often have certain of the borrower’s assets pledged as collateral. Our debt investments may generally range in maturity from three to ten years and are made to U.S. and, to a limited extent, non-U.S. corporations, partnerships and other business entities which operate in various industries and geographical regions.

Under normal market conditions, we generally expect that at least 80% of the value of our Managed Assets will be invested in Floating Rate Loans and other investments bearing a variable-rate of interest. We generally expect that first lien secured debt will represent at least 65% of our overall portfolio. We also generally expect

to invest up to 35% of our overall portfolio opportunistically in other types of investments, including second lien secured debt and subordinated debt and, to a lesser extent, equity investments. We seek to create a diversified portfolio by generally targeting an investment size between \$5 million and \$30 million, on average, although we expect that this investment size will vary proportionately with the size of our capital base.

Our investment activity depends on many factors, including the amount of debt and equity capital available to middle-market companies, the level of merger and acquisition activity for such companies, the general economic environment and the competitive environment for the types of investments we make. We have used, and expect to continue to use, our debt capital, proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives.

Organization and Structure of PennantPark Floating Rate Capital Ltd.

PennantPark Floating Rate Capital Ltd., a Maryland corporation organized in October 2010, is a closed-end, externally managed, non-diversified investment company that has elected to be treated as a BDC under the 1940 Act. In addition, for federal income tax purposes we elected to be treated, and intend to qualify annually, as a RIC under the Code.

Our investment activities are managed by the Investment Adviser. Under our Investment Management Agreement, we have agreed to pay our Investment Adviser an annual base management fee based on our average adjusted gross total assets as well as an incentive fee based on our investment performance. We have also entered into an Administration Agreement with the Administrator. Under our Administration Agreement, we have agreed to reimburse the Administrator for our allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under our Administration Agreement, including rent and our allocable portion of the costs of compensation and related expenses of our Chief Compliance Officer, Chief Financial Officer and their respective staffs. Our board of directors, a majority of whom are independent of us, provides overall supervision of our activities, and the Investment Adviser supervises our day-to-day activities.

Revenues

We generate revenue in the form of interest income on the debt securities we hold and capital gains and dividends, if any, on investment securities that we may acquire in portfolio companies. Our debt investments, whether in the form of first lien secured debt, second lien secured debt or subordinated debt, typically have a term of three to ten years and bear interest at a fixed or floating rate. Interest on debt securities is generally payable quarterly or semiannually. In some cases, our investments provide for deferred interest payments and PIK interest. The principal amount of the debt securities and any accrued but unpaid interest generally becomes due at the maturity date. In addition, we may generate revenue in the form of amendment, commitment, origination, structuring or diligence fees, fees for providing

significant managerial assistance and possibly consulting fees. Loan origination fees, OID and market discount or premium are capitalized and accreted or amortized using the effective interest method as interest income or, in the case of deferred financing costs, as interest expense. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that we expect to collect such amounts. From time to time, the Company receives certain fees from portfolio companies, which are non-recurring in nature. Such fees include loan prepayment penalties, structuring fees and amendment fees, and are recorded as other investment income when earned. Litigation settlements are accounted for in accordance with the gain contingency provisions of ASC 450-30.

Expenses

Our primary operating expenses include the payment of a management fee and the payment of an incentive fee to our Investment Adviser, if any, our allocable portion of overhead under our Administration Agreement and other operating costs as detailed below. Our management fee compensates our Investment Adviser for its work in identifying, evaluating, negotiating, consummating and monitoring our investments. Additionally, we pay interest expense on the outstanding debt and unused commitment fees on undrawn amounts, under our various debt facilities. We bear all other direct or indirect costs and expenses of our operations and transactions, including:

- the cost of calculating our net asset value, including the cost of any third-party valuation services;
- the cost of effecting sales and repurchases of shares of our common stock and other securities;
- fees payable to third parties relating to, or associated with, making investments, including fees and expenses associated with performing due diligence and reviews of prospective investments or complementary businesses;
- expenses incurred by the Investment Adviser in performing due diligence and reviews of investments;
- transfer agent and custodial fees;
- fees and expenses associated with marketing efforts;
- federal and state registration fees and any exchange listing fees;
- federal, state, local and foreign taxes;
- independent directors' fees and expenses;

•brokerage commissions;

•fidelity bond, directors and officers, errors and omissions liability insurance and other insurance premiums;

•direct costs such as printing, mailing, long distance telephone and staff;

•fees and expenses associated with independent audits and outside legal costs;

•costs associated with our reporting and compliance obligations under the 1940 Act and applicable federal and state securities laws; and

•all other expenses incurred by either the Administrator or us in connection with administering our business, including payments under our Administration Agreement that will be based upon our allocable portion of overhead, and other expenses incurred by the Administrator in performing its obligations under our Administration Agreement, including rent and our allocable portion of the costs of compensation and related expenses of our Chief Compliance Officer, Chief Financial Officer and their respective staffs.

Generally, during periods of asset growth, we expect our general and administrative expenses to be relatively stable or to decline as a percentage of total assets and increase during periods of asset declines. Incentive fees, interest expense and costs relating to future offerings of securities would be additive to the expenses described above.

PORTFOLIO AND INVESTMENT ACTIVITY

As of March 31, 2018, our portfolio totaled \$833.8 million and consisted of \$758.5 million of first lien secured debt (of which \$53.2 million was invested in PSSL), \$36.1 million of second lien secured debt and \$39.2 million of subordinated debt, preferred and common equity (of which \$24.1 million was invested in PSSL). Our debt portfolio consisted of 100% variable-rate investments (including 5% where LIBOR was below the floor). As of March 31, 2018, we had one company on non-accrual, representing 0.3% and 0.1% of our overall portfolio on a cost and fair value basis, respectively. Overall, the portfolio had net unrealized appreciation of \$5.0 million. Our overall portfolio consisted of 86 companies with an average investment size of \$9.7 million, had a weighted average yield on debt investments of 8.6%, and was invested 91% in first lien secured debt (of which 6% was invested in PSSL), 4% in second lien secured debt and 5% in subordinated debt, preferred and common equity (of which 3% was invested in PSSL). As of March 31, 2018, all of the investments held by PSSL were first lien secured debt.

As of September 30, 2017, our portfolio totaled \$710.5 million and consisted of \$609.7 million of first lien secured debt, \$37.8 million of second lien secured debt,

\$37.5 million of subordinated debt (of which \$30.1 million was invested in PSSL) and \$25.5 million of preferred and common equity (of which \$13.4 million was invested in PSSL). Our debt portfolio consisted of 99% variable-rate investments (including 7% where LIBOR was below the floor) and 1% fixed-rate investments. As of September 30, 2017, we had one company on non-accrual, representing 0.4% and 0.2% of our overall portfolio on a cost and fair value basis, respectively. Overall, the portfolio had net unrealized appreciation of \$2.0 million. Our overall portfolio consisted of 82 companies with an average investment size of \$8.7 million, had a weighted average yield on debt investments of 8.0%, and was invested 86% in first lien secured debt, 5% in second lien secured debt, 5% in subordinated debt (of which 4% was invested in PSSL) and 4% in preferred and common equity (of which 2% was invested in PSSL). As of September 30, 2017, all of the investments held by PSSL were first lien secured debt.

For the three months ended March 31, 2018, we invested \$138.5 million in six new and 17 existing portfolio companies with a weighted average yield on debt investments of 7.8%. Sales and repayments of investments for the three months ended March 31, 2018 totaled \$46.6 million. For the six months ended March 31, 2018, we invested \$315.3 million in 17 new and 28 existing portfolio companies with a weighted average yield on debt investments of 7.9%. Sales and repayments of investments for the six months ended March 31, 2018 totaled \$195.7 million.

For the three months ended March 31, 2017, we invested \$146.3 million in nine new and 10 existing portfolio companies with a weighted average yield on debt investments of 7.8%. Sales and repayments of investments for the three months ended March 31, 2017 totaled \$71.5 million. For the six months ended March 31, 2017, we invested

\$271.1 million in 21 new and 23 existing portfolio companies with a weighted average yield on debt investments of 7.7%. Sales and repayments of investments for the six months ended March 31, 2017 totaled \$141.9 million.

CRITICAL ACCOUNTING POLICIES

The preparation of our Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of our assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of income and expenses during the reported periods. In the opinion of management, all adjustments, which are of a normal recurring nature, considered necessary for the fair presentation of financial statements have been included. Actual results could differ from these estimates due to changes in the economic and regulatory environment, financial markets and any other parameters used in determining such estimates and assumptions. We may reclassify certain prior period amounts to conform to the current period presentation. We have eliminated all intercompany balances and transactions. References to ASC serve as a single source of accounting literature. Subsequent events are evaluated and disclosed as appropriate for events occurring through the date the Consolidated Financial Statements are issued. In addition to the discussion below, we describe our critical accounting policies in the notes to our Consolidated Financial Statements.

Investment Valuations

We expect that there may not be readily available market values for many of the investments which are or will be in our portfolio, and we value such investments at fair value as determined in good faith by or under the direction of our board of directors using a documented valuation policy and a consistently applied valuation process, as described in this Report. With respect to investments for which there is no readily available market value, the factors that the board of directors may take into account in pricing our investments at fair value include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate or revise our valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and the difference may be material.

Our portfolio generally consists of illiquid securities, including debt and equity investments. With respect to investments for which market quotations are not readily available, or for which market quotations are deemed not reflective of the fair value, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- (1) Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of our Investment Adviser responsible for the portfolio investment;

- (2) Preliminary valuation conclusions are then documented and discussed with the management of our Investment Adviser;
- (3) Our board of directors also engages independent valuation firms to conduct independent appraisals of our investments for which market quotations are not readily available or are readily available but deemed not reflective of the fair value of the investment. The independent valuation firms review management's preliminary valuations in light of their own independent assessment and also in light of any market quotations obtained from an independent pricing service, broker, dealer or market maker;
- (4) The audit committee of our board of directors reviews the preliminary valuations of our Investment Adviser and those of the independent valuation firms on a quarterly basis, periodically assesses the valuation methodologies of the independent valuation firms, and responds to and supplements the valuation recommendations of the independent valuation firms to reflect any comments; and
- (5) Our board of directors discusses these valuations and determines the fair value of each investment in our portfolio in good faith, based on the input of our Investment Adviser, the respective independent valuation firms and the audit committee.

Our board of directors generally uses market quotations to assess the value of our investments for which market quotations are readily available. We obtain these market values from independent pricing services or at the bid prices obtained from at least two brokers or dealers, if available, or otherwise from a principal market maker or

a primary market dealer. The Investment Adviser assesses the source and reliability of bids from brokers or dealers. If the board of directors has a bona fide reason to believe any such market quote does not reflect the fair value of an investment, it may independently value such investments by using the valuation procedure that it uses with respect to assets for which market quotations are not readily available.

Fair value, as defined under ASC 820, is the price that we would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment or liability. ASC 820 emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of us. Unobservable inputs reflect the assumptions market participants would use in pricing an asset or liability based on the best information available to us on the reporting period date.

ASC 820 classifies the inputs used to measure these fair values into the following hierarchies:

Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities, accessible by us at the measurement date.

Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets, or that are quoted prices for identical or similar assets or liabilities in markets that are not active and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term, if applicable, of the financial instrument.

Level 3: Inputs that are unobservable for an asset or liability because they are based on our own assumptions about how market participants would price the asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Generally, most of our investments and our Credit Facility are classified as Level 3. Our 2023 Notes are classified as Level 1. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the price used in an actual transaction may be different than our valuation and those differences may be material.

In addition to using the above inputs in cash equivalents, investments, our 2023 Notes and our Credit Facility valuations, we employ the valuation policy approved by our board of directors that is consistent with ASC 820. Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading, in determining fair value.

The carrying value of our consolidated financial liabilities approximates fair value. We have adopted the principles under ASC 825-10, which provides companies with an option to report selected financial assets and liabilities at fair value, and made an irrevocable election to apply ASC 825-10 to our Credit Facility and the 2023 Notes. We elected to use the fair value option for our Credit Facility and the 2023 Notes to align the measurement attributes of both our assets and liabilities while mitigating volatility in earnings from using different measurement attributes. Due to that election and in accordance with GAAP, we incurred expenses of zero and \$10.9 million relating to amendment costs on the Credit Facility and debt issuance costs on the 2023 Notes during the three and six months ended March 31, 2018. There were no expenses relating to amendment or debt issuance costs on our debt for the three and six months ended March 31, 2017. ASC 825-10 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect on earnings of a company's choice to use fair value. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the Consolidated Statements of Assets and Liabilities and changes in fair value of the Credit Facility and the 2023 Notes are reported in our Consolidated Statements of Operations. We elected not to apply ASC 825-10 to any other financial assets or liabilities. For the three and six months ended March 31, 2018, our Credit Facility and the 2023 Notes had a net change in unrealized depreciation of \$5.3 million and \$8.4 million, respectively. For the three and six months ended March 31, 2017, our Credit Facility had a net change in unrealized depreciation (appreciation) of less than \$0.1 million and (\$1.0) million, respectively. As of March 31, 2018 and September 30, 2017, the net unrealized depreciation (appreciation) on our Credit Facility and the 2023 Notes totaled \$5.4 million and \$(3.1) million, respectively. We use a nationally recognized independent valuation service to measure the fair value of our Credit Facility in a manner consistent with the valuation process that the board of directors uses to value our investments. Our 2023 Notes trade on the TASE and we use the closing price on the exchange to determine the fair value.

Revenue Recognition

We record interest income on an accrual basis to the extent that we expect to collect such amounts. For loans and debt investments with contractual PIK interest, which represents interest accrued and added to the loan balance that generally becomes due at maturity, we will generally not accrue PIK interest when the portfolio company valuation indicates that such PIK interest is not collectable. We do not accrue as a receivable interest on loans and debt investments if we have reason to doubt our ability to collect such interest. Loan origination fees, OID, market discount or premium and deferred financing costs on liabilities, which we do not fair value, are capitalized and then accreted or amortized using the effective interest method as interest income or, in the case of deferred financing costs, as interest expense. We record prepayment penalties on loans and debt investments as income. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that we expect to collect such amounts. From time to time, the Company receives certain fees from portfolio companies, which are non-recurring in nature. Such fees include loan prepayment penalties, structuring fees and amendment fees, and are recorded as other investment income when earned.

Net Realized Gains or Losses and Net Change in Unrealized Appreciation or Depreciation

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method, without regard to unrealized appreciation or depreciation previously recognized, but considering unamortized upfront fees and prepayment penalties. Net change in unrealized appreciation or depreciation reflects the change in the fair value of our portfolio investments, our Credit Facility and the 2023 Notes during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.

Foreign Currency Translation

Our books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

1. Fair value of investment securities, other assets and liabilities – at the exchange rates prevailing at the end of the applicable period; and
2. Purchases and sales of investment securities, income and expenses – at the exchange rates prevailing on the respective dates of such transactions.

Although net assets and fair values are presented based on the applicable foreign exchange rates described above, we do not isolate that portion of the results of operations due to changes in foreign exchange rates on investments, other assets and debt from the fluctuations arising from changes in fair value of investments and liabilities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments and liabilities.

Payment-in-Kind or PIK Interest

We have investments in our portfolio which contain a PIK interest provision. PIK interest is added to the principal balance of the investment and is recorded as income. In order for us to maintain our ability to be subject to tax as a RIC, substantially all of this income must be paid out to stockholders in the form of dividends for U.S. federal income tax purposes, even though we may not have collected any cash with respect to interest on PIK securities.

Federal Income Taxes

We have elected to be treated, and intend to qualify annually to maintain our election to be treated, as a RIC under Subchapter M of the Code. To maintain our RIC tax election, we must, among other requirements, meet certain annual source-of-income and quarterly asset diversification requirements. We also must annually distribute dividends for U.S. federal income tax purposes to our stockholders out of the assets legally available for distribution of an amount generally at least equal to 90% of the sum of our net ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, or investment company taxable income, determined without regard to any deduction for dividends paid.

Although not required for us to maintain our RIC tax status, in order to preclude the imposition of a 4% nondeductible federal excise tax imposed on RICs, we must distribute dividends for U.S. federal income tax purposes to our stockholders in respect of each calendar year of an amount at least equal to the sum of (1) 98% of our net ordinary income (subject to certain deferrals and elections) for the calendar year, (2) 98.2% of the excess, if any, of our capital gains over our capital losses, or capital gain net income (adjusted for certain ordinary losses) for the one-year period ending on October 31 of the calendar year plus (3) the sum of any net ordinary income plus capital gain net income for preceding years that was not distributed during such years and on which we did not incur any federal income tax. In addition, although we may distribute realized net capital gains (i.e., net long-term capital gains in excess of net short-term capital losses), if any, at least annually, out of the assets legally available for such distributions in the manner described above, we have retained and may continue to retain such net capital gains or investment company taxable income, subject to maintaining our ability to be subject to tax as a RIC, in order to provide us with additional liquidity.

Because federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and net realized gain recognized for financial reporting purposes. Differences between tax regulations and GAAP may be permanent or temporary. Permanent differences are reclassified among capital accounts in the Consolidated Financial Statements to reflect their appropriate tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future.

We have formed and expect to continue to form certain taxable subsidiaries, including the Taxable Subsidiary, which are taxed as corporations. The Taxable Subsidiary allows us to hold equity securities of certain portfolio companies treated as pass-through entities for U.S. federal income tax purposes while allowing us to maintain our ability to qualify as a RIC under the Code.

RESULTS OF OPERATIONS

Set forth below are the results of operations for the three and six months ended March 31, 2018 and 2017.

Investment Income

Investment income for the three and six months ended March 31, 2018 was \$16.5 million and \$31.3 million, respectively, and was attributable to \$13.2 million and \$26.8 million from first lien secured debt and \$3.3 million and \$4.5 million from second lien secured debt, subordinated debt and preferred and common equity, respectively. This compares to investment income for the three and six months ended March 31, 2017, which was \$13.2 million and \$25.9 million, respectively, and was attributable to \$12.0 million and \$23.3 million from first lien senior debt and \$1.2 million and \$2.6 million from second lien secured debt and subordinated debt, respectively. The increase in investment income compared to the same periods in the prior year was primarily due to the growth of our portfolio.

Expenses

Expenses for the three and six months ended March 31, 2018 totaled \$7.1 million and \$23.9 million, respectively. Base management fee for the same periods totaled \$1.9 million and \$3.8 million, incentive fee totaled \$0.4 million (including \$0.2 million on unrealized gains accrued but not payable) and \$0.5 million (including \$0.4 million on unrealized gains accrued but not payable), debt related interest and expenses totaled \$3.5 million and \$17.0 million (including \$10.9 million in Credit Facility amendment and debt issuance costs on the 2023 Notes), general and administrative expenses totaled \$1.1 million and \$2.2 million and provision for taxes totaled \$0.2 million and \$0.4 million, respectively. This compares to expenses for the three and six months ended March 31, 2017, which totaled \$5.2 million and \$11.0 million, respectively. Base management fee for the same periods totaled \$1.7 million and \$3.3 million, incentive fee totaled \$0.5 million (including \$(0.1) million on unrealized gains accrued but not payable) and \$1.9 million (including \$0.5 million on unrealized gains accrued but not payable), Credit Facility expenses totaled \$2.0 million and \$3.8 million, general and administrative expenses totaled \$0.9 million and \$1.9 million and provision for taxes totaled \$0.1 million and \$0.1 million, respectively. The increase in expenses compared to the same periods in the prior year was primarily due to the expenses incurred in connection with the Credit Facility amendment and debt issuance costs on the 2023 Notes in the current period, which was partially offset by a reduction in incentive fees.

Net Investment Income

Net investment income totaled \$9.4 million and \$7.5 million, or \$0.24 and \$0.20 per share, for the three and six months ended March 31, 2018, respectively. Net investment income totaled \$8.0 million and \$14.9 million, or \$0.27 and \$0.53 per share, for the three and six months ended March 31, 2017, respectively. The increase in net investment income for the three months ended March 31, 2018 compared to the same period in the prior year was primarily due to the growth of our portfolio, partially offset by higher recurring debt related interest and expense. The decrease in net investment income for the six months ended March 31, 2018 compared to the same period in the prior year was primarily due to the expenses incurred in connection with the Credit Facility amendment and debt issuance costs on the 2023 Notes in the current period.

Net Realized Gains or Losses

Sales and repayments of investments for the three and six months ended March 31, 2018 totaled \$46.6 million and \$195.7 million, respectively, and net realized gains (losses) totaled \$1.5 million and \$(1.3) million, respectively. Sales and repayments of investments for the three and six months ended March 31, 2017 totaled \$71.5 million and \$141.9 million, respectively, and net realized gains totaled \$2.0 million and \$2.5 million, respectively. The change in realized gains/losses was primarily due to changes in the market conditions of our investments and the values at which they were realized.

Unrealized Appreciation or Depreciation on Investments, the Credit Facility and the 2023 Notes

For the three and six months ended March 31, 2018, we reported net change in unrealized (depreciation) appreciation on investments of \$(0.6) million and \$2.9 million, respectively. For the three and six months ended March 31, 2017, we reported net change in unrealized depreciation on investments of \$2.7 million and \$0.2 million, respectively. As of March 31, 2018 and September 30, 2017, our net unrealized appreciation on investments totaled \$5.0 million and \$2.0 million, respectively. The net change in unrealized appreciation/depreciation on our investments compared to the same periods in the prior year was primarily due to changes in the capital market conditions, the financial performance of certain portfolio companies and the reversal of unrealized appreciation/depreciation on investments that were realized.

For the three and six months ended March 31, 2018, our Credit Facility and the 2023 Notes had a net change in unrealized depreciation of \$5.3 million and \$8.4 million, respectively. For the three and six months ended March 31, 2017, our Credit Facility had a net change in unrealized depreciation (appreciation) of less than \$0.1 million and \$(1.0) million, respectively. As of March 31, 2018 and September 30, 2017, our net unrealized depreciation (appreciation) on the Credit Facility and the 2023 Notes totaled \$5.4 million and \$(3.1) million, respectively. The net change in unrealized depreciation compared to the same periods in the prior year was primarily due to changes in the capital markets.

Net Change in Net Assets Resulting from Operations

Net change in net assets resulting from operations totaled \$15.6 million and \$17.5 million, or \$0.40 and \$0.46 per share, respectively, for the three and six months ended March 31, 2018. This compares to a net change in net assets resulting from operations of \$7.3 million and \$16.1 million, or \$0.25 and \$0.57 per share, respectively, for the three and six months ended March 31, 2017. The increase in the net change in net assets from operations compared to the same periods in the prior year was primarily due to the growth of our portfolio, partially offset by the expenses incurred in connection with the Credit Facility amendment and debt issuance costs on the 2023 Notes in the current period.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived primarily from proceeds of securities offerings, debt capital and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital, proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives. As of March 31, 2018, in accordance with the 1940 Act, with certain limited exceptions, we are only allowed to borrow amounts such that we

are in compliance with a 200% asset coverage ratio after such borrowing.

Funding I's multi-currency Credit Facility with the Lenders was \$405 million as of March 31, 2018, subject to satisfaction of certain conditions and regulatory restrictions that the 1940 Act imposes on us as a BDC, has an interest rate spread above LIBOR of 200 basis points, a maturity date of November 2022 and a revolving period that ends in November 2020. As of March 31, 2018 and September 30, 2017, Funding I had \$190.2 million and \$253.8 million of outstanding borrowings under the Credit Facility, respectively. The Credit Facility had a weighted average interest rate of 3.79% and 3.18%, exclusive of the fee on undrawn commitments as of March 31, 2018 and September 30, 2017, respectively.

The annualized weighted average cost of debt for the six months ended March 31, 2018 and 2017, inclusive of the fee on the undrawn commitment of 0.375% on the Credit Facility, amendment costs and debt issuance costs, was 7.40% and 2.91%, respectively (excluding amendment and debt issuance costs, amounts are 3.91% and 2.91%, respectively). As of March 31, 2018 and September 30, 2017, we had \$214.8 million and \$121.2 million of unused borrowing capacity under our Credit Facility, respectively, subject to the regulatory restrictions.

During the revolving period, the Credit Facility bears interest at LIBOR plus 200 basis points and, after the revolving period, the rate sets to LIBOR plus 425 basis points for the remaining two years, maturing in November 2022. The Credit Facility is secured by all of the assets of Funding I. Both PennantPark Floating Rate Capital Ltd. and Funding I have made customary representations and warranties and are required to comply with various covenants, reporting requirements and other customary requirements for similar credit facilities.

The Credit Facility contains covenants, including but not limited to, restrictions of loan size, currency types and amounts, industry requirements, average life of loans, geographic and individual portfolio concentrations, minimum portfolio yield and loan payment frequency. Additionally, the Credit Facility requires the maintenance of a minimum equity investment in Funding I and income ratio as well as restrictions on certain payments and issuance of debt. For instance, we must maintain at least \$25 million in equity and must maintain an interest coverage ratio of at least 125%. The Credit Facility compliance reporting is prepared on a basis of accounting other than GAAP. As of March 31, 2018, we were in compliance with the covenants relating to our Credit Facility.

We own 100% of the equity interest in Funding I and treat the indebtedness of Funding I as our leverage. Our Investment Adviser serves as collateral manager to Funding I under the Credit Facility.

Our interest in Funding I (other than the management fee) is subordinate in priority of payment to every other obligation of Funding I and is subject to certain payment restrictions set forth in the Credit Facility. We may receive cash distributions on our equity interests in Funding I only after it has made (1) all required cash interest and, if applicable, principal payments to the Lenders, (2) required administrative expenses and (3) claims of other unsecured creditors of Funding I. We cannot assure you that there will be sufficient funds available to make any distributions to us or that such distributions will meet our expectations from Funding I. The Investment Adviser has irrevocably

directed that the management fee owed with respect to such services is to be paid to the Company so long as the Investment Adviser remains the collateral manager.

In November 2017, we issued \$138.6 million of our 2023 Notes. The 2023 Notes were issued pursuant to a deed of trust between the Company and Mishmeret Trust Company, Ltd. as trustee.

The 2023 Notes pay interest at a rate of 3.83% per year. Interest on the 2023 Notes is payable semi-annually in arrears on June 15 and December 15 of each year, commencing June 15, 2018. The principal on the 2023 Notes will be payable in four annual installments as follows: 15% of the original principal amount on December 15, 2020, 15% of the original principal amount on December 15, 2021, 15% of the original principal amount on December 15, 2022 and 55% of the original principal amount on December 15, 2023.

The 2023 Notes are general, unsecured obligations, rank equal in right of payment with all of our existing and future unsecured indebtedness and are generally redeemable at our option. The deed of trust governing the 2023 Notes includes certain customary covenants, including minimum equity requirements, and events of default. Please refer to the deed of trust filed as Exhibit (d)(8) to our post-effective amendment filed on December 13, 2017 for more information. The 2023 Notes are rated ilAA- by S&P Global Ratings Maalot Ltd. and are listed on the TASE. In connection with this offering, we have dual listed our common stock on the TASE.

The 2023 Notes have not been and will not be registered under the Securities Act and may not be offered or sold in the United States absent registration under the Securities Act or in transactions exempt from, or not subject to, such registration requirements.

We may raise equity or debt capital through both registered offerings off our shelf registration statement and private offerings of securities, securitizing a portion of our investments among other considerations or mergers and acquisitions. Furthermore, our Credit Facility availability depends on various covenants and restrictions as discussed in the preceding paragraphs. The primary use of existing funds and any funds raised in the future is expected to be for repayment of indebtedness, investments in portfolio companies, cash distributions to our stockholders or for other general corporate purposes. For the six months ended March 31, 2018 and 2017, we issued 6.3 million and 5.8 million shares, respectively. As a result, we raised approximately \$88.0 million and \$80.5 million in net proceeds from our issuances of our equity capital, respectively.

As of March 31, 2018 and September 30, 2017, we had cash equivalents of \$48.4 million and \$18.9 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities used cash of \$111.7 million for the six months ended March 31, 2018, and our financing activities provided cash of \$142.1 million for the same period. Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily from a follow-on equity offering and the issuance of the 2023 Notes, partially offset by net repayments under the Credit Facility.

Our operating activities used cash of \$116.7 million for the six months ended March 31, 2017, and our financing activities provided cash of \$131.7 million for the same period. Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily from a follow-on equity offering and net borrowings under the Credit Facility.

PennantPark Senior Secured Loan Fund I LLC

In May 2017, we and Kemper formed PSSSL, an unconsolidated joint venture. PSSSL invests primarily in middle-market and other corporate debt securities consistent with our strategy. PSSSL was formed as a Delaware limited liability company. As of March 31, 2018, PSSSL had total assets of \$239.9 million. As of the same date, we and Kemper had remaining commitments to fund first lien secured debt and equity interests in PSSSL in an aggregate of \$18.1 million. PSSSL invests in portfolio companies in the same industries in which we may directly invest. During the three months ended March 31, 2018, the terms of our debt investment in PSSSL were modified to eliminate the subordination provision and to grant us a security interest in certain assets of PSSSL.

We provide capital to PSSSL in the form of first lien secured debt and equity interests. As of March 31, 2018, we and Kemper owned 87.5% and 12.5%, respectively, of each of the outstanding first lien secured debt and equity interests. As of the same date, our investment in PSSSL consisted of equity interests of \$22.8 million and first lien secured debt of \$53.2 million. As of the same date, we had commitments to fund first lien secured debt to PSSSL of \$64.3 million, of

which \$11.1 million was unfunded. As of March 31, 2018, we had commitments to fund equity interests in PSSSL of \$27.6 million, of which \$4.8 million was unfunded.

We and Kemper each appointed two members to PSSSL's four person board of directors and investment committee. All material decisions with respect to PSSSL, including those involving its investment portfolio, require unanimous approval of a quorum of the board of directors or investment committee. Quorum is defined as (i) the presence of two members of the board of directors or investment committee; provided that at least one individual is present that was elected, designated or appointed by each member; (ii) the presence of three members of the board of directors or investment committee, provided that the individual that was elected, designated or appointed by the member with only one individual present shall be entitled to cast two votes on each matter; and (iii) the presence of four members of the board of directors or investment committee shall constitute a quorum, provided that two individuals are present that were elected, designated or appointed by each member.

Additionally, PSSSL has entered into the PSSSL Credit Facility with Capital One, N.A. through its wholly-owned subsidiary, PSSSL Subsidiary, which as of March 31, 2018 allowed PSSSL Subsidiary to borrow up to \$210.0 million at any one time outstanding, subject to leverage and borrowing base restrictions.

Below is a summary of PSSSL's portfolio at fair value:

	March 31, 2018	September 30, 2017
Total investments	\$221,213,574	\$99,994,314
Weighted average cost yield on income producing investments	7.6	% 7.2 %
Number of portfolio companies in PSSSL	30	18
Largest portfolio company investment	\$13,135,874	\$8,080,000
Total of five largest portfolio company investments	\$62,437,832	\$34,935,330

Below is a listing of PSSL's individual investments as of March 31, 2018:

(1) Represents floating rate instruments that accrue interest at a predetermined spread relative to an index, typically the applicable LIBOR, EURIBOR or Prime rate. The spread may change based on the type of rate used. The terms in the Schedule of Investments disclose the actual interest rate in effect as of the reporting period. LIBOR loans are typically indexed to a 30-day, 60-day, 90-day or 180-day LIBOR rate (1M L, 2M L, 3M L, or 6M L, respectively), and EURIBOR loans are typically indexed to a 90-day EURIBOR rate (3M E), at the borrower's option. All securities are subject to a LIBOR or Prime rate floor where a spread is provided, unless noted. The spread provided includes PIK interest and other fee rates, if any.

(2) Valued based on PSSSL's accounting policy.

(3) Non-U.S. company or principal place of business outside the United States.

(4) Par amount is denominated in Australian Dollars (A\$), Canadian Dollars (C\$) or in Euros (€) as denoted.

(1) Represents floating rate instruments that accrue interest at a predetermined spread relative to an index, typically the applicable LIBOR, EURIBOR or Prime rate. All securities are subject to a LIBOR or Prime rate floor where a spread is provided, unless noted. The spread provided includes PIK interest and other fee rates, if any.

(2) Valued based on PSSSL's accounting policy.

(3) Non-U.S. company or principal place of business outside the United States.

(4) Par amount is denominated in Euros (€) as denoted.

Below is the financial information for PSSSL:

⁽¹⁾Currently, no management or incentive fees are payable by PSSL. If any fees were to be charged, they would be separately disclosed on the Statements of Operations.

Contractual Obligations

A summary of our significant contractual payment obligations at cost as of March 31, 2018, including borrowings under our Credit Facility, 2023 Notes and other contractual obligations, is as follows:

	Payments due by period (millions)				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Credit Facility	\$191.5	\$—	\$—	\$191.5	\$—
2023 Notes	131.9	—	—	—	131.9
Total debt outstanding ⁽¹⁾	\$323.4	\$—	\$—	\$191.5	\$131.9
Unfunded commitments to PSSL	15.9	—	—	—	15.9
Unfunded investments ⁽²⁾	48.2	0.3	2.9	37.2	7.8
Total contractual obligations	\$387.5	\$0.3	\$2.9	\$228.7	\$155.6

⁽¹⁾The annualized weighted average cost of debt as of March 31, 2018, excluding amendment costs and debt issuance costs, was 3.79% exclusive of the fee on the undrawn commitment on the Credit Facility.

⁽²⁾Unfunded debt and equity investments are disclosed in the Consolidated Schedule of Investments and Note 11 of our Consolidated Financial Statements.

We have entered into certain contracts under which we have material future commitments. Under our Investment Management Agreement, which was most recently reapproved by our board of directors, including a majority of our directors who are not interested persons of us or the Investment Adviser, in February 2018, PennantPark Investment Advisers serves as our investment adviser. Payments under our Investment Management Agreement in each reporting period are equal to (1) a management fee equal to a percentage of the value of our average adjusted gross assets and (2) an incentive fee based on our performance.

Under our Administration Agreement, which was most recently reapproved by our board of directors, including a majority of our directors who are not interested persons of us, in February 2018, the Administrator furnishes us with office facilities and administrative services necessary to conduct our day-to-day operations. If requested to provide significant managerial assistance to our portfolio companies, we or the Administrator will be paid an additional amount based on the services provided. Payment under our Administration Agreement is based upon our allocable portion of the Administrator's overhead in performing its obligations under our Administration Agreement, including rent and our allocable portion of the costs of our Chief Compliance Officer, Chief Financial Officer and their respective staffs.

If any of our contractual obligations discussed above are terminated, our costs under new agreements that we enter into may increase. In addition, we will likely incur significant time and expense in locating alternative parties to provide the services we expect to receive under our Investment Management Agreement and our Administration Agreement. Any new investment management agreement would also be subject to approval by our stockholders.

Recent Developments

In May 2018 we doubled the financial capacity of PSSSL. We and Kemper each increased our respective debt and equity investments in PSSSL while continuing to own 87.5% and 12.5%, respectively, of each of the outstanding first lien secured debt and equity interests. Our commitments to fund first lien secured debt to PSSSL were increased by \$64.3 million and our commitments to fund equity interests in PSSSL were increased by \$27.6 million. Additionally, the PSSSL Credit Facility was amended to, among other things, allow PSSSL Subsidiary to borrow up to \$420.0 million at any one time outstanding, subject to leverage and borrowing base restrictions.

Through April 30, 2018, we have made investments totaling \$62.8 million and PSSSL has made investments totaling \$43.0 million (of which \$12.4 million was purchased from the Company).

On April 5, 2018, our board of directors approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the Consolidated Appropriations Act of 2018 (which includes the Small Business Credit Availability Act). As a result, the asset coverage requirements applicable to us for senior securities will be reduced from 200% to 150%, effective as of April 5, 2019, subject to compliance with certain disclosure requirements. As of March 31, 2018 and September 30, 2017, our asset coverage ratio, as computed in accordance with the 1940 Act, was 268% and 278%, respectively.

Off-Balance Sheet Arrangements

We currently engage in no off-balance sheet arrangements other than our funding requirements for the unfunded investments described above.

Distributions

In order to be treated as a RIC for federal income tax purposes and to not be subject to corporate-level tax on our undistributed income or gains, we are required, under Subchapter M of the Code, to annually distribute dividends for U.S. federal income tax purposes to our stockholders out of the assets legally available for distribution of an amount generally at least equal to 90% of our investment company taxable income, determined without regard to any

deduction for dividends paid.

Although not required for us to maintain our RIC tax status, in order to preclude the imposition of a 4% nondeductible federal excise tax imposed on RICs, we must distribute dividends for U.S. federal income tax purposes to our stockholders in respect of each calendar year of an amount at least equal to the sum of (1) 98% of our net ordinary income (subject to certain deferrals and elections) for the calendar year, (2) 98.2% of our capital gain net income (adjusted for certain ordinary losses) for the one-year period ending on October 31 of the calendar year plus (3) the sum of any net ordinary income plus capital gain net income for preceding years that was not distributed during such years and on which we did not incur any federal income tax. In addition, although we may distribute realized net capital gains (i.e., net long-term capital gains in excess of net short-term capital losses), if any, at least annually, out of the assets legally available for such distributions in the manner described above, we have retained and may continue to retain such net capital gains or investment company taxable income, subject to our ability to be subject to tax as a RIC, in order to provide us with additional liquidity.

During the three and six months ended March 31, 2018, we declared distributions of \$0.285 and \$0.570 per share, respectively, for total distributions of \$11.0 million and \$21.5 million, respectively. For the same periods in the prior year, we declared distributions of \$0.285 and \$0.570 per share, respectively, for total distributions of \$8.7 million and \$16.3 million, respectively. We monitor available net investment income to determine if a return of capital for taxation purposes may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, stockholders will be notified of the portion of those distributions deemed to be a tax return of capital. Tax characteristics of all distributions will be reported to stockholders subject to information reporting on Form 1099-DIV after the end of each calendar year and in our periodic reports filed with the SEC.

We intend to continue to make monthly distributions to our stockholders. Our monthly distributions, if any, are determined by our board of directors quarterly.

On November 22, 2017, we terminated our dividend reinvestment plan. The termination of the plan applies to the reinvestment of cash distributions paid on or after December 22, 2017.

We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of these distributions from time to time. In addition, we may be limited in our ability to make distributions due to the asset coverage ratio for borrowings applicable to us as a BDC under the 1940 Act and due to provisions in future credit facilities. If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including possible loss of our ability to be subject to tax as a RIC. We cannot assure stockholders that they will receive any distributions at a particular level.

Recent Accounting Pronouncements

In May 2014, the FASB issued guidance to establish a comprehensive and converged standard on revenue recognition to enable financial statement users to better understand and consistently analyze an entity's revenue across industries, transactions, and geographies. An amended guidance defers the effective date of the new guidance to interim reporting periods within annual reporting periods beginning after December 15, 2017. Public business entities are permitted to apply the new guidance early, but not before the original effective date (i.e., interim periods within annual periods beginning after December 15, 2016). The Company has evaluated this guidance and determined it will have no material impact on its financial statements.

Item 3. Quantitative And Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates. As of March 31, 2018, our debt portfolio consisted of 100% variable-rate investments (including 5% where LIBOR was below the floor) and 0% fixed-rate investments. The variable-rate loans are usually based on a LIBOR rate and typically have durations of three months, after which they reset to current market interest rates. Variable-rate investments subject to a floor generally reset by reference to the current market index after one to nine months only if the index exceeds the floor. In regards to variable-rate instruments with a floor, we do not benefit from increases in interest rates until such rates exceed the floor and thereafter benefit from market rates above any such floor. In contrast, our cost of funds, to the extent it is not fixed, will fluctuate with changes in interest rates since it has no floor.

Assuming that the most recent Consolidated Statements of Assets and Liabilities was to remain constant, and no actions were taken to alter the existing interest rate sensitivity, the following table shows the annualized impact of hypothetical base rate changes in interest rates:

	Change In Interest Income, Net of Interest Expense (in thousands)	Change In Interest Income, Net of Interest Expense Per Share
Change In Interest Rates		
Down 1%	\$ (5,847)	\$ (0.15)
Up 1%	\$ 5,847	\$ 0.15
Up 2%	\$ 11,948	\$ 0.31
Up 3%	\$ 18,106	\$ 0.47
Up 4%	\$ 24,264	\$ 0.63

Although management believes that this measure is indicative of our sensitivity to interest rate changes, it does not adjust for potential changes in the credit market, credit quality, size and composition of the assets on the Consolidated Statements of Assets and Liabilities and other business developments that could affect net increase in net assets resulting from operations or net investment income. Accordingly, no assurances can be given that actual results would not differ materially from those shown above.

Because we borrow money to make investments, our net investment income is dependent upon the difference between the rate at which we borrow funds and the rate at which we invest these funds, as well as our level of leverage. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income or net assets.

We may hedge against interest rate and foreign currency fluctuations by using standard hedging instruments such as futures, options and forward contracts or our Credit Facility subject to the requirements of the 1940 Act and applicable commodities laws. While hedging activities may insulate us against adverse changes in interest rates and foreign currencies, they may also limit our ability to participate in benefits of lower interest rates or higher exchange rates with respect to our portfolio of investments with fixed interest rates or investments denominated in foreign currencies. During the periods covered by this Report, we did not engage in interest rate hedging activities or foreign currency derivatives hedging activities.

Item 4. Controls and Procedures

As of the period covered by this Report, we, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective and provided

reasonable assurance that information required to be disclosed in our periodic filings with the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of such possible controls and procedures.

There have been no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

None of us, our Investment Adviser or our Administrator, is currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us, or against our Investment Adviser or Administrator. From time to time, we, our Investment Adviser or Administrator, may be a party to certain legal proceedings, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these and any future legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our financial condition or results of operations.

Item 1A. Risk Factors

In addition to the other information set forth in this Report, you should consider carefully the factors discussed below, as well as in Part I “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017 filed on November 30, 2017 and in “Risk Factors” in Post-Effective Amendment No. 3 to the Registration Statement on Form N-2 filed on December 13, 2017, which could materially affect our business, financial condition and/or operating results. The risks described below, as well as in our Annual Report on Form 10-K and Registration Statement on Form N-2 are not the only risks facing PennantPark Floating Rate Capital Ltd. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

Recently passed legislation may allow us to incur additional leverage.

A BDC has historically been able to issue “senior securities,” including borrowing money from banks or other financial institutions, only in amounts such that its asset coverage, as defined in the 1940 Act, equals at least 200% after such incurrence or issuance. In March 2018, the Small Business Credit Availability Act was signed into law and amended the 1940 Act to decrease this percentage from 200% to 150% for a BDC that has received either stockholder approval or approval of a “required majority” (as defined in Section 57(o) of the 1940 Act) of its board of directors of the application of such lower asset coverage ratio to the BDC. Since on April 5, 2018 our Board has approved such reduction, if we comply with the applicable disclosure requirements, we will be able to incur additional indebtedness on April 5, 2019, which may increase the risk of investing in us. In addition, since our base management fee is payable based upon our average adjusted gross assets, which includes any borrowings for investment purposes, our base management fee expenses may increase if we incur additional leverage.

Because we intend to distribute substantially all of our income to our stockholders to maintain our ability to be subject to tax as a RIC, we will need to raise additional capital to finance our growth. If funds are not available to us, we may need to curtail new investments, and our common stock value could decline.

In order to satisfy the requirements to be treated as a RIC for federal income tax purposes, we intend to distribute to our stockholders substantially all of our investment company taxable income and net capital gains each taxable year.

However, we may retain all or a portion of our net capital gains and pay applicable income taxes with respect thereto and elect to treat such retained net capital gains as deemed dividend distributions to our stockholders.

As a BDC, we are required to meet a 200% asset coverage ratio through April 4, 2019 and 150% thereafter, subject to certain disclosure requirements of total assets to total senior securities, which includes all of our borrowings, and any preferred stock we may issue in the future. This requirement limits the amount we may borrow. If the value of our assets declines, we may be unable to satisfy this test. If that happens, we may be required to sell a portion of our investments or sell additional common stock and, depending on the nature of our leverage, to repay a portion of our indebtedness at a time when such sales and repayments may be disadvantageous. In addition, the issuance of additional securities could dilute the percentage ownership of our current stockholders in us.

We are partially dependent on our subsidiary Funding I for cash distributions to enable us to meet the RIC distribution requirements. Funding I may be limited by its covenants from making certain distributions to us that may be necessary to fulfill our requirements to be treated as a RIC for federal income tax purposes. We may have to request a waiver of these covenants' restrictions for Funding I to make certain distributions to enable us to be subject to tax as a RIC. We cannot assure you that Funding I will be granted such a waiver, and if Funding I is unable to obtain a waiver, compliance with the covenants may cause us to incur a corporate-level income tax.

If we incur additional debt, it could increase the risk of investing in our shares.

We have indebtedness outstanding pursuant to our Credit Facility and the 2023 Notes and expect in the future to borrow additional amounts under our Credit Facility or other debt securities, subject to market availability, and, may increase the size of our Credit Facility. We cannot assure you that our leverage will remain at current levels. The amount of leverage that we employ will depend upon our assessment of the market and other factors at the time of any proposed borrowing. Lenders have fixed dollar claims on our assets that are superior to the claims of our common stockholders or preferred stockholders, if any, and we have granted a security interest in Funding I's assets in connection with our Credit Facility borrowings. In the case of a liquidation event, those lenders would receive proceeds before our stockholders. Any future debt issuance will increase our leverage and may be subordinate to our Credit Facility. In addition, borrowings or debt issuances, also known as leverage, magnify the potential for loss or gain on amounts invested and, therefore, increase the risks associated with investing in our securities. Leverage is generally considered a speculative investment technique. If the value of our assets decreases, then leveraging would cause the NAV attributable to our common stock to decline more than it otherwise would have had we not utilized leverage. Similarly, any decrease in our revenue would cause our net income to decline more than it would have had we not borrowed funds and could negatively affect our ability to make distributions on our common or preferred stock. Our ability to service any debt that we incur depends largely on our financial performance and is subject to prevailing economic conditions and competitive pressures.

Through April 4, 2019, we are not permitted to incur indebtedness unless immediately after such borrowing we have an asset coverage for total borrowings of at least 200% (i.e., the amount of debt may not exceed 50% of the value of our assets). In addition, through such date we may not be permitted to declare any cash distribution on our outstanding common shares, or purchase any such shares, unless, at the time of such declaration or purchase, we have asset coverage of at least 200% after deducting the amount of such distribution or purchase price. If this ratio declines below 200% before April 5, 2019, we may not be able to incur additional debt and may need to sell a portion of our investments to repay some debt when it is disadvantageous to do so, and we may not be able to make distributions. The Small Business Credit Availability Act, which was signed into law in March 2018, modifies this section of the 1940 Act and decreases this percentage from 200% to 150% (subject to either stockholder approval or approval of both a majority of the board of directors and a majority of directors who are not interested persons). On April 5, 2018, our board of directors approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the Consolidated Appropriations Act of 2018 (which includes the Small

Business Credit Availability Act). As a result, the asset coverage requirements applicable to us for senior securities will be reduced from 200% to 150%, effective as of April 5, 2019, subject to compliance with certain disclosure requirements. As of such date, we will be able to incur additional indebtedness as a result of this new law and therefore, your risk of an investment in us may increase.

As of March 31, 2018 and September 30, 2017, our asset coverage ratio, as computed in accordance with the 1940 Act, was 268% and 278%, respectively.

Since our leverage was 60% and 56% of our net assets as of March 31, 2018 and September 30, 2017, respectively, we would have to receive an annual return of at least 1.44% and 1.13%, respectively, to cover annual interest payments.

As of March 31, 2018, we had outstanding borrowings of \$190.2 million under our Credit Facility and \$138.6 million outstanding under our 2023 Notes. Our consolidated debt outstanding was \$328.8 million and had a weighted average annual interest rate at the time of 3.81%, exclusive of the fees on the undrawn commitment on our Credit Facility. To cover the annual interest on our borrowings of \$328.8 million outstanding as of March 31, 2018, at the weighted average annual rate of 3.81%, we would have to receive an annual yield of at least 1.44%. This example is for illustrative purposes only, and actual interest rates on our Credit Facility or any future borrowings are likely to fluctuate. The costs associated with our borrowings, including any increase in the management fee or incentive fee payable to our Investment Adviser, are and will be borne by our common stockholders.

The following table is designed to illustrate the effect on the return to a holder of our common stock of the leverage created by our use of borrowing as of March 31, 2018 of 36% of total assets (including such borrowed funds), at the current interest rate at the time of 3.81%, and assumes hypothetical annual returns on our portfolio of minus 10 to plus 10 percent. The table also assumes that we will maintain a constant level of leverage and weighted average interest rate. The amount of leverage and cost of borrowing that we use will vary from time to time. As can be seen, leverage generally increases the return to stockholders when the portfolio return is positive and decreases return when the portfolio return is negative. Actual returns may be greater or less than those appearing in the table.

Assumed return on portfolio (net of expenses) ⁽¹⁾	(10.0)%	(5.0)%	— %	5.0%	10.0%
Corresponding return to common stockholders ⁽²⁾	(18.7)%	(10.5)%	(2.3)%	5.9%	14.1 %

(1) The assumed portfolio return is required by regulation of the SEC and is not a prediction of, and does not represent, our projected or actual performance.

(2) In order to compute the “corresponding return to common stockholders,” the “assumed return on portfolio” is multiplied by the total value of our assets at the beginning of the period to obtain an assumed return to us. From this amount, all interest expense expected to be accrued during the period is subtracted to determine the return available to stockholders. The return available to stockholders is then divided by the total value of our net assets as of the beginning of the period to determine the “corresponding return to common stockholders.”

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.
