

GENERAL ELECTRIC CAPITAL CORP
Form 10-Q
May 12, 2014

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-06461

GENERAL ELECTRIC CAPITAL CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

13-1500700
(I.R.S. Employer Identification No.)

901 Main Avenue, Norwalk, CT
(Address of principal executive offices)

06851-1168
(Zip Code)

(Registrant's telephone number, including area code) (203) 840-6300

(Former name, former address and former fiscal year,
if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: GENERAL ELECTRIC CAPITAL CORP - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

At May 1, 2014, 1,000 shares of voting common stock, which constitute all of the outstanding common equity, with a par value of \$14 per share were outstanding.

REGISTRANT MEETS THE CONDITIONS SET FORTH IN GENERAL INSTRUCTION h(1)(a) AND (b) OF FORM 10-Q AND IS THEREFORE FILING THIS FORM 10-Q WITH THE REDUCED DISCLOSURE FORMAT.

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

General Electric Company (GE Company or GE) owns all of the common stock of General Electric Capital Corporation (GECC). Our financial statements consolidate all of our affiliates – companies that we control and in which we hold a majority voting interest. We also consolidate the economic interests we hold in certain businesses within companies in which we hold a voting equity interest and are majority owned by our parent, but which we have agreed to actively manage and control. See Note 1 to the consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 (2013 consolidated financial statements), which discusses our consolidation and financial statement presentation. GECC includes Commercial Lending and Leasing (CLL), Consumer, Real Estate, Energy Financial Services and GE Capital Aviation Services (GECAS).

Effects of transactions between related companies are made on an arms-length basis and are eliminated. As a wholly-owned subsidiary, GECC enters into various operating and financing arrangements with its parent, GE. These arrangements are made on an arms-length basis and consist primarily of GECC dividends to GE; GE customer receivables sold to GECC; GECC services for trade receivables management and material procurement; buildings and equipment (including automobiles) leased between GE and GECC; information technology (IT) and other services sold to GECC by GE; aircraft engines manufactured by GE that are installed on aircraft purchased by GECC from third-party producers for lease to others; and various investments, loans and allocations of GE corporate costs.

We have reclassified certain prior-period amounts to conform to the current-period presentation. Unless otherwise indicated, information in these notes to the condensed, consolidated financial statements relates to continuing operations.

Interim Period Presentation

The condensed, consolidated financial statements and notes thereto are unaudited. These statements include all adjustments (consisting of normal recurring accruals) that we considered necessary to present a fair statement of our results of operations, financial position and cash flows. The results reported in these condensed, consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year. It is suggested that these condensed, consolidated financial statements be read in conjunction with the financial statements and notes thereto included in our 2013 consolidated financial statements. We label our quarterly information using a calendar convention, that is, first quarter is labeled as ending on March 31, second quarter as ending on June 30, and third quarter as ending on September 30. It is our longstanding practice to establish interim quarterly closing dates using a fiscal calendar, which requires our businesses to close their books on either a Saturday or Sunday, depending on the business. The effects of this practice are modest and only exist within a reporting year. The fiscal closing calendar for 2014 is available on our website, www.ge.com/secreports.

Summary of Significant Accounting Policies

See the Notes in our 2013 consolidated financial statements for a summary of our significant accounting policies.

Accounting Changes

On January 1, 2014, we adopted Accounting Standards Update (ASU) 2013-05, Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or

Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity. Under the revised guidance, the entire amount of the cumulative translation adjustment associated with the foreign entity will be released into earnings in the following circumstances: (a) the sale of a subsidiary or group of net assets within a foreign entity that represents a complete or substantially complete liquidation of that entity, (b) the loss of a controlling financial interest in an investment in a foreign entity, or (c) when the accounting for an investment in a foreign entity changes from the equity method to full consolidation. The revised guidance applies prospectively to transactions or events occurring on or after January 1, 2014.

(8)

On January 1, 2014, we adopted ASU 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. Under the new guidance, an unrecognized tax benefit is required to be presented as a reduction to a deferred tax asset if the disallowance of the tax position would reduce the available tax loss or tax credit carryforward instead of resulting in a cash tax liability. The ASU applies prospectively to all unrecognized tax benefits that exist as of the adoption date and reduced both deferred tax assets and income tax liabilities by \$1,009 million as of January 1, 2014.

2. ASSETS AND LIABILITIES OF BUSINESSES HELD FOR SALE AND DISCONTINUED OPERATIONS

Assets and Liabilities of Businesses Held for Sale

In the first quarter of 2013, we committed to sell our Consumer auto and personal loan business in Portugal and completed the sale on July 15, 2013 for proceeds of \$83 million.

Discontinued Operations

Discontinued operations primarily comprised GE Money Japan (our Japanese personal loan business, Lake, and our Japanese mortgage and card businesses, excluding our investment in GE Nissen Credit Co., Ltd.), our U.S. mortgage business (WMC), our Commercial Lending and Leasing (CLL) trailer services business in Europe (CLL Trailer Services) and our Consumer banking business in Russia (Consumer Russia). Results of operations, financial position and cash flows for these businesses are separately reported as discontinued operations for all periods presented.

Financial Information for Discontinued Operations

(In millions)	Three months ended March 31	
	2014	2013
Operations		
Total revenues (loss)	\$ 29	\$ 54
Earnings (loss) from discontinued operations		
before income taxes	\$ (14)	\$ (142)
Benefit (provision) for income taxes	7	124
Earnings (loss) from discontinued operations, net of taxes	\$ (7)	\$ (18)
Disposal		
Gain (loss) on disposal before income taxes	\$ 18	\$ (187)
Benefit (provision) for income taxes	1	85
Gain (loss) on disposal, net of taxes	\$ 19	\$ (102)

Earnings (loss) from discontinued operations, net of taxes	\$	12	\$	(120)
--	----	----	----	-------

(In millions)	March 31, 2014	December 31, 2013
Assets		
Cash and equivalents	\$ 133	\$ 232
Financing receivables – net	1	711
Other	1,315	1,387
Assets of discontinued operations	\$ 1,449	\$ 2,330
Liabilities		
Deferred income taxes	\$ 260	\$ 250
Other	862	3,540
Liabilities of discontinued operations	\$ 1,122	\$ 3,790

Other assets at March 31, 2014 and December 31, 2013 primarily comprised a deferred tax asset for a loss carryforward, which expires principally in 2017 and in part in 2019, related to the sale of our GE Money Japan business.

(9)

GE Money Japan

During the third quarter of 2008, we completed the sale of GE Money Japan, which included our Japanese personal loan business. Under the terms of the sale, we reduced the proceeds from the sale for estimated refund claims in excess of the statutory interest rate. Proceeds from the sale were to be increased or decreased based on the actual claims experienced in accordance with loss-sharing terms specified in the sale agreement, with all claims in excess of 258 billion Japanese yen (approximately \$3,000 million) remaining our responsibility. On February 26, 2014, we reached an agreement with the buyer to pay 175 billion Japanese yen (approximately \$1,700 million) to extinguish this obligation. Our reserve for refund claims decreased from \$1,836 million at December 31, 2013 to \$56 million at March 31, 2014, reflecting payment in March 2014 of the amount required by the February 26, 2014 agreement. The \$56 million liability reflects the final remaining amount payable under the February 26, 2014 agreement.

GE Money Japan earnings (loss) from discontinued operations, net of taxes, were \$(1) million and \$(51) million in the three months ended March 31, 2014 and 2013, respectively.

WMC

During the fourth quarter of 2007, we completed the sale of WMC, our U.S. mortgage business. WMC substantially discontinued all new loan originations by the second quarter of 2007, and is not a loan servicer. In connection with the sale, WMC retained certain representation and warranty obligations related to loans sold to third parties prior to the disposal of the business and contractual obligations to repurchase previously sold loans that had an early payment default. All claims received by WMC for early payment default have either been resolved or are no longer being pursued.

The remaining active claims have been brought by securitization trustees or administrators seeking recovery from WMC for alleged breaches of representations and warranties on mortgage loans that serve as collateral for residential mortgage-backed securities (RMBS). At March 31, 2014, such claims consisted of \$4,466 million of individual claims generally submitted before the filing of a lawsuit (compared to \$5,643 million at December 31, 2013) and \$6,989 million of additional claims asserted against WMC in litigation without making a prior claim (Litigation Claims) (compared to \$6,780 at December 31, 2013). The total amount of these claims, \$11,455 million, reflects the purchase price or unpaid principal balances of the loans at the time of purchase and does not give effect to pay downs or potential recoveries based upon the underlying collateral, which in many cases are substantial, nor to accrued interest or fees. As of March 31, 2014, these amounts do not include approximately \$700 million of repurchase claims relating to alleged breaches of representations that are not in litigation and that are beyond the applicable statute of limitations. WMC believes that repurchase claims brought based upon representations and warranties made more than six years before WMC was notified of the claim would be disallowed in legal proceedings under applicable statutes of limitations.

Reserves related to repurchase claims made against WMC were \$550 million at March 31, 2014, reflecting a net decrease to reserves in the quarter ended March 31, 2014 of \$250 million due to settlement activity. The reserve estimate takes into account recent settlement activity that reduced WMC's exposure on certain claims and is based upon WMC's evaluation of the remaining exposures as a percentage of estimated mortgage loan losses within the pool of loans supporting each securitization. Recent settlements reduced WMC's exposure on claims asserted in certain securitizations and the claim amounts reported above give effect to these settlements.

Rollforward of the Reserve

(In millions)	Three months ended March 31		2013
	2014		
Balance, beginning of period	\$	800	\$ 633
Provision		-	107
Claim resolutions		(250)	-
Balance, end of period	\$	550	\$ 740

Given the significant recent claim and related litigation activity and WMC's continuing efforts to resolve the lawsuits involving claims made against WMC, it is difficult to assess whether future losses will be consistent with WMC's past experience. Adverse changes to WMC's assumptions supporting the reserve may result in an increase to these reserves. Taking into account both recent settlement activity and the potential variability of settlements, WMC estimates a range of reasonably possible loss from \$0 to approximately \$500 million over its recorded reserve at March 31, 2014. This estimate excludes any possible loss associated with an adverse court decision on the applicable statute of limitations, as WMC is unable at this time to develop such a meaningful estimate.

At March 31, 2014, there were 14 lawsuits involving claims made against WMC arising from alleged breaches of representations and warranties on mortgage loans included in 13 securitizations. The adverse parties in these cases are securitization trustees or parties claiming to act on their behalf. Although the alleged claims for relief vary from case to case, the complaints and counterclaims in these actions generally assert claims for breach of contract, indemnification, and/or declaratory judgment, and seek specific performance (repurchase of defective mortgage loan) and/or money damages. Adverse court decisions, including in cases not involving WMC, could result in new claims and lawsuits on additional loans. However, WMC continues to believe that it has defenses to the claims asserted in litigation, including, for example, based on causation and materiality requirements and applicable statutes of limitations. It is not possible to predict the outcome or impact of these defenses and other factors, any of which could materially affect the amount of any loss ultimately incurred by WMC on these claims.

WMC has also received indemnification demands, nearly all of which are unspecified, from depositors/underwriters/sponsors of RMBS in connection with lawsuits brought by RMBS investors concerning alleged misrepresentations in the securitization offering documents to which WMC is not a party. WMC believes that it has defenses to these demands.

To the extent WMC is required to repurchase loans, WMC's loss also would be affected by several factors, including pay downs, accrued interest and fees, and the value of the underlying collateral. The reserve and estimate of possible loss reflect judgment, based on currently available information, and a number of assumptions, including economic conditions, claim and settlement activity, pending and threatened litigation, court decisions regarding WMC's legal defenses, indemnification demands, government activity, and other variables in the mortgage industry. Actual losses arising from claims against WMC could exceed these amounts and additional claims and lawsuits could result if actual claim rates, governmental actions, litigation and indemnification activity, adverse court decisions, actual settlement rates or losses WMC incurs on repurchased loans differ from its assumptions.

WMC revenues (loss) from discontinued operations were \$4 million and \$(107) million in the three months ended March 31, 2014 and 2013, respectively. WMC earnings (loss) from discontinued operations, net of taxes, were \$(2) million and \$(71) million in the three months ended March 31, 2014 and 2013, respectively.

Other

In the fourth quarter of 2013, we announced the planned disposition of Consumer Russia and classified the business as discontinued operations. At that time, we recorded a \$170 million loss on the planned disposal. We completed the sale in the first quarter of 2014 for proceeds of \$232 million. Consumer Russia revenues from discontinued operations were \$24 million and \$67 million in the three months ended March 31, 2014 and 2013, respectively. Consumer Russia earnings (loss) from discontinued operations, net of taxes, were \$1 million (including a \$4 million gain on disposal) and \$(11) million in the three months ended March 31, 2014 and 2013, respectively.

(11)

In the first quarter of 2013, we announced the planned disposition of CLL Trailer Services and classified the business as discontinued operations. We completed the sale in the fourth quarter of 2013 for proceeds of \$528 million. CLL Trailer Services revenues from discontinued operations were \$1 million and \$93 million in the three months ended March 31, 2014 and 2013, respectively. CLL Trailer Services earnings (loss) from discontinued operations, net of taxes, were \$13 million and \$14 million in the three months ended March 31, 2014 and 2013, respectively.

3. INVESTMENT SECURITIES

Substantially all of our investment securities are classified as available-for-sale. These comprise mainly investment-grade debt securities supporting obligations to annuitants, policyholders in our run-off insurance operations and supporting obligations to holders of guaranteed investment contracts (GICs) in Trinity and investments held in our CLL business collateralized by senior secured loans of high-quality, middle-market companies in a variety of industries. We do not have any securities classified as held-to-maturity.

(a) Substantially collateralized by U.S. mortgages. At March 31, 2014, \$1,225 million relates to securities issued by government-sponsored entities and \$649 million relates to securities of private-label issuers. Securities issued by private-label issuers are collateralized primarily by pools of individual direct mortgage loans of financial institutions.

(a) Includes gross unrealized losses related to securities that had other-than-temporary impairments previously recognized of \$(85) million at March 31, 2014.

(b) The majority relate to debt securities held to support obligations to holders of GICs and more than 70% are debt securities that were considered to be investment-grade by the major rating agencies at March 31, 2014.

We regularly review investment securities for other-than-temporary impairment (OTTI) using both qualitative and quantitative criteria. For debt securities, our qualitative review considers our ability and intent to hold the security and the financial condition of and near-term prospects for the issuer, including whether the issuer is in compliance with the

terms and covenants of the security. Our quantitative review considers whether there has been an adverse change in expected future cash flows. Unrealized losses are not indicative of the amount of credit loss that would be recognized and at March 31, 2014 are primarily due to increases in market yields subsequent to our purchase of the securities. We presently do not intend to sell the vast majority of our debt securities that are in an unrealized loss position and believe that it is not more likely than not that we will be required to sell the vast majority of these securities before anticipated recovery of our amortized cost. The methodologies and significant inputs used to measure the amount of credit loss for our investment securities during the three months ended March 31, 2014 have not changed. For equity securities, we consider the duration and the severity of the unrealized loss. We believe that the unrealized loss associated with our equity securities will be recovered within the foreseeable future.

Our corporate debt portfolio comprises securities issued by public and private corporations in various industries, primarily in the U.S. Substantially all of our corporate debt securities are rated investment grade by the major rating agencies.

(13)

Our RMBS portfolio is collateralized primarily by pools of individual, direct mortgage loans, of which substantially all are in a senior position in the capital structure of the deals, not other structured products such as collateralized debt obligations. Of the total RMBS held at March 31, 2014, \$1,225 million and \$649 million related to agency and non-agency securities, respectively. Additionally, \$355 million was related to residential subprime credit securities, primarily supporting our guaranteed investment contracts. Substantially all of the subprime exposure is related to securities backed by mortgage loans originated in 2006 and prior. A majority of subprime RMBS have been downgraded to below investment grade and are insured by Monoline insurers (Monolines). We continue to place partial reliance on Monolines with adequate capital and claims paying resources depending on the extent of the Monoline's anticipated ability to cover expected credit losses.

Our commercial mortgage-backed securities (CMBS) portfolio is collateralized by both diversified pools of mortgages that were originated for securitization (conduit CMBS) and pools of large loans backed by high-quality properties (large loan CMBS), a majority of which were originated in 2007 and prior. The vast majority of the securities in our CMBS portfolio have investment-grade credit ratings.

Our asset-backed securities (ABS) portfolio is collateralized by senior secured loans of high-quality, middle-market companies in a variety of industries, as well as a variety of diversified pools of assets such as student loans and credit cards. The vast majority of the securities in our ABS portfolio are in a senior position in the capital structure of the deals.

Pre-tax, Other-Than-Temporary Impairments on Investment Securities

(In millions)	Three months ended March 31	
	2014	2013

(14)

Contractual Maturities of Investment in Available-for-Sale Debt Securities
(Excluding Mortgage-Backed and Asset-Backed Securities)

(In millions)	Amortized cost	Estimated fair value
Due		
Within one year	\$ 1,838	\$ 1,845
After one year through five years	3,630	3,892
After five years through ten years	5,349	5,641
After ten years	18,490	21,361

We expect actual maturities to differ from contractual maturities because borrowers have the right to call or prepay certain obligations.

Gross Realized Gains and Losses on Available-for-Sale Investment Securities

(In millions)	Three months ended March 31	
	2014	2013
Gains	\$ 19	\$ 62
Losses, including impairments	(36)	(278)
Net	\$ (17)	\$ (216)

Although we generally do not have the intent to sell any specific securities at the end of the period, in the ordinary course of managing our investment securities portfolio, we may sell securities prior to their maturities for a variety of reasons, including diversification, credit quality, yield and liquidity requirements and the funding of claims and obligations to policyholders. In some of our bank subsidiaries, we maintain a certain level of purchases and sales volume principally of non-U.S. government debt securities. In these situations, fair value approximates carrying value for these securities.

Proceeds from investment securities sales and early redemptions by issuers totaled \$1,349 million and \$3,641 million in the three months ended March 31, 2014 and 2013, respectively, principally from sales of short-term government securities in our bank subsidiaries and Treasury operations, and redemptions of non-U.S. corporate and asset-backed securities in our CLL business.

We recognized pre-tax gains (losses) on trading securities of \$(5) million and \$36 million in the three months ended March 31, 2014 and 2013, respectively.

4. FINANCING RECEIVABLES AND ALLOWANCE FOR LOSSES ON FINANCING RECEIVABLES

(In millions)	March 31, 2014	December 31, 2013

- (a) Other primarily includes the effects of currency exchange.
- (b) Net write-offs (gross write-offs less recoveries) in certain portfolios may exceed the beginning allowance for losses as a result of losses that are incurred subsequent to the beginning of the fiscal year due to information becoming available during the current year, which may identify further deterioration on existing financing receivables.

(17)

Credit Quality Indicators

We provide further detailed information about the credit quality of our Commercial, Real Estate and Consumer financing receivables portfolios. For each portfolio, we describe the characteristics of the financing receivables and provide information about collateral, payment performance, credit quality indicators, and impairment. We manage these portfolios using delinquency and nonaccrual data as key performance indicators. The categories used within this section such as impaired loans, troubled debt restructuring (TDR) and nonaccrual financing receivables are defined by the authoritative guidance and we base our categorization on the related scope and definitions contained in the related standards. The categories of nonaccrual and delinquent are used in our process for managing our financing receivables.

(a) Write-offs to net realizable value are recognized against the allowance for losses primarily in the reporting period in which management has deemed all or a portion of the financing receivable to be uncollectible, but not later than

360 days after initial recognition of a specific reserve for a collateral dependent loan. However, in accordance with regulatory standards that are applicable in Italy, commercial loans are considered uncollectible when there is demonstrable evidence of the debtor's insolvency, which may result in write-offs occurring beyond 360 days after initial recognition of a specific reserve.

- (b) We recognized \$57 million, \$218 million and \$53 million of interest income, including none, \$60 million and \$16 million on a cash basis, in the three months ended March 31, 2014, the year ended December 31, 2013 and the three months ended March 31, 2013, respectively, principally in our CLL Americas business. The total average investment in impaired loans for the three months ended March 31, 2014 and the year ended December 31, 2013 was \$3,933 million and \$4,445 million, respectively.
- (c) We recognized \$19 million, \$187 million and \$57 million of interest income, including none, \$135 million and \$44 million on a cash basis, in the three months ended March 31, 2014, the year ended December 31, 2013 and the three months ended March 31, 2013, respectively. The total average investment in impaired loans for the three months ended March 31, 2014 and the year ended December 31, 2013 was \$3,761 million and \$4,746 million, respectively.
- (d) We recognized \$46 million, \$221 million and \$57 million of interest income, including an insignificant amount, \$3 million and \$1 million on a cash basis, in the three months ended March 31, 2014, the year ended December 31, 2013 and the three months ended March 31, 2013, respectively, principally in our Consumer U.S. installment and revolving credit portfolios. The total average investment in impaired loans for the three months ended March 31, 2014 and the year ended December 31, 2013 was \$2,977 million and \$3,156 million, respectively.

Impaired loans classified as TDRs in our CLL business were \$2,916 million and \$2,961 million at March 31, 2014 and December 31, 2013, respectively, and were primarily attributable to CLL Americas (\$1,676 million and \$1,770 million, respectively). For the three months ended March 31, 2014, we modified \$295 million of loans classified as TDRs, primarily in CLL Americas (\$176 million). Changes to these loans primarily included extensions, interest only payment periods, debt to equity exchange and forbearance or other actions, which are in addition to, or sometimes in lieu of, fees and rate increases. Of our \$1,391 million and \$2,555 million of modifications classified as TDRs in the twelve months ended March 31, 2014 and 2013, respectively, \$19 million and \$44 million have subsequently experienced a payment default in the three months ended March 31, 2014 and 2013, respectively.

Real Estate TDRs decreased from \$3,625 million at December 31, 2013 to \$3,470 million at March 31, 2014, primarily driven by resolution of TDRs through paydowns. We deem loan modifications to be TDRs when we have granted a concession to a borrower experiencing financial difficulty and we do not receive adequate compensation in the form of an effective interest rate that is at current market rates of interest given the risk characteristics of the loan or other consideration that compensates us for the value of the concession. The limited liquidity and higher return requirements in the real estate market for loans with higher loan-to-value (LTV) ratios has typically resulted in the conclusion that the modified terms are not at current market rates of interest, even if the modified loans are expected to be fully recoverable. For the three months ended March 31, 2014, we modified \$369 million of loans classified as TDRs. Changes to these loans primarily included forbearance, maturity extensions and changes to collateral or covenant terms or other actions, which are in addition to, or sometimes in lieu of, fees and rate increases. Of our \$1,636 million and \$3,611 million of modifications classified as TDRs in the twelve months ended March 31, 2014 and 2013, respectively, \$20 million and \$174 million have subsequently experienced a payment default in the three months ended March 31, 2014 and 2013, respectively.

Impaired loans in our Consumer business represent restructured smaller balance homogeneous loans meeting the definition of a TDR, and are therefore subject to the disclosure requirement for impaired loans, and commercial loans in our Consumer-Other portfolio. The recorded investment of these impaired loans totaled \$2,968 million (with an unpaid principal balance of \$3,023 million) and comprised \$132 million with no specific allowance, primarily all in our Consumer-Other portfolio, and \$2,836 million with a specific allowance of \$560 million at March 31, 2014. The impaired loans with a specific allowance included \$239 million with a specific allowance of \$33 million in our

Consumer–Other portfolio and \$2,597 million with a specific allowance of \$527 million across the remaining Consumer business and had an unpaid principal balance and average investment of \$2,854 million and \$2,857 million, respectively, at March 31, 2014.

(20)

Impaired loans classified as TDRs in our Consumer business were \$2,839 million and \$2,874 million at March 31, 2014 and December 31, 2013, respectively. We utilize certain loan modification programs for borrowers experiencing financial difficulties in our Consumer loan portfolio. These loan modification programs primarily include interest rate reductions and payment deferrals in excess of three months, which were not part of the terms of the original contract, and are primarily concentrated in our non-U.S. residential mortgage and U.S. credit card portfolios. For the three months ended March 31, 2014, we modified \$296 million of consumer loans for borrowers experiencing financial difficulties, which are classified as TDRs, and included \$179 million of non-U.S. consumer loans, primarily residential mortgages, credit cards and personal loans and \$117 million of U.S. consumer loans, primarily credit cards. We expect borrowers whose loans have been modified under these programs to continue to be able to meet their contractual obligations upon the conclusion of the modification. Of our \$1,339 million and \$1,647 million of modifications classified as TDRs in the twelve months ended March 31, 2014 and 2013, respectively, \$57 million and \$100 million have subsequently experienced a payment default in the three months ended March 31, 2014 and 2013, respectively.

Supplemental Credit Quality Information

Commercial

Substantially all of our Commercial financing receivables portfolio is secured lending and we assess the overall quality of the portfolio based on the potential risk of loss measure. The metric incorporates both the borrower's credit quality along with any related collateral protection.

Our internal risk ratings process is an important source of information in determining our allowance for losses and represents a comprehensive, statistically validated approach to evaluate risk in our financing receivables portfolios. In deriving our internal risk ratings, we stratify our Commercial portfolios into 21 categories of default risk and/or six categories of loss given default to group into three categories: A, B and C. Our process starts by developing an internal risk rating for our borrowers, which is based upon our proprietary models using data derived from borrower financial statements, agency ratings, payment history information, equity prices and other commercial borrower characteristics. We then evaluate the potential risk of loss for the specific lending transaction in the event of borrower default, which takes into account such factors as applicable collateral value, historical loss and recovery rates for similar transactions, and our collection capabilities. Our internal risk ratings process and the models we use are subject to regular monitoring and validation controls. The frequency of rating updates is set by our credit risk policy, which requires annual Risk Committee approval. The models are updated on a regular basis and statistically validated annually, or more frequently as circumstances warrant.

As described above, financing receivables are assigned one of 21 risk ratings based on our process and then these are grouped by similar characteristics into three categories in the table below. Category A is characterized by either high-credit-quality borrowers or transactions with significant collateral coverage that substantially reduces or eliminates the risk of loss in the event of borrower default. Category B is characterized by borrowers with weaker credit quality than those in Category A, or transactions with moderately strong collateral coverage that minimizes but may not fully mitigate the risk of loss in the event of default. Category C is characterized by borrowers with higher levels of default risk relative to our overall portfolio or transactions where collateral coverage may not fully mitigate a loss in the event of default.

Commercial Financing Receivables by Risk Category

Total	\$ 122,937	\$ 2,265	\$ 2,943	\$ 128,145

For our secured financing receivables portfolio, our collateral position and ability to work out problem accounts mitigates our losses. Our asset managers have deep industry expertise that enables us to identify the optimum approach to default situations. We price risk premiums for weaker credits at origination, closely monitor changes in creditworthiness through our risk ratings and watch list process, and are engaged early with deteriorating credits to minimize economic loss. Secured financing receivables within risk Category C are predominantly in our CLL businesses and are primarily composed of senior term lending facilities and factoring programs secured by various asset types including inventory, accounts receivable, cash, equipment and related business facilities as well as franchise finance activities secured by underlying equipment.

Loans within Category C are reviewed and monitored regularly, and classified as impaired when it is probable that they will not pay in accordance with contractual terms. Our internal risk rating process identifies credits warranting closer monitoring; and as such, these loans are not necessarily classified as nonaccrual or impaired.

Our unsecured Commercial financing receivables portfolio is primarily attributable to our Interbanca S.p.A. and GE Sanyo Credit acquisitions in CLL International. At March 31, 2014 and December 31, 2013, these financing

receivables included \$371 million and \$313 million rated A, \$400 million and \$580 million rated B, and \$282 million and \$231 million rated C, respectively.

(22)

Real Estate

Due to the primarily non-recourse nature of our Debt portfolio, loan-to-value ratios (the ratio of the outstanding debt on a property to the re-indexed value of that property) provide the best indicators of the credit quality of the portfolio.

(In millions)	Loan-to-value ratio					
	March 31, 2014			December 31, 2013		
	Less than 80%	80% to 95%	Greater than 95%	Less than 80%	80% to 95%	Greater than 95%
Debt	\$ 15,974	\$ 1,512	\$ 1,754	\$ 15,576	\$ 1,300	\$ 2,111

The credit quality of the owner occupied/credit tenant portfolio is primarily influenced by the strength of the borrower's general credit quality, which is reflected in our internal risk rating process, consistent with the process we use for our Commercial portfolio. As of March 31, 2014, the balances of our owner occupied/credit tenant portfolio with an internal risk rating of A, B and C approximated \$638 million, \$201 million and \$157 million, respectively, as compared to the December 31, 2013, balances of \$571 million, \$179 million and \$162 million, respectively.

The financing receivables within our Debt portfolio are primarily concentrated in our North American and European Lending platforms and are secured by various property types. A substantial majority of our Debt financing receivables with loan-to-value ratios greater than 95% are paying in accordance with contractual terms. Substantially all of these loans and the majority of our owner occupied/credit tenant financing receivables included in Category C are impaired loans that are subject to the specific reserve evaluation process. The ultimate recoverability of impaired loans is driven by collection strategies that do not necessarily depend on the sale of the underlying collateral and include full or partial repayments through third-party refinancing and restructurings.

Consumer

At March 31, 2014, our U.S. consumer financing receivables included private-label credit card and sales financing for approximately 57 million customers across the U.S. with no metropolitan area accounting for more than 6% of the portfolio. Of the total U.S. consumer financing receivables, approximately 66% relate to credit card loans that are often subject to profit and loss sharing arrangements with the retailer (which are recorded in revenues), and the remaining 34% are sales finance receivables that provide financing to customers in areas such as electronics, recreation, medical and home improvement.

Our Consumer financing receivables portfolio comprises both secured and unsecured lending. Secured financing receivables comprise residential loans and lending to small and medium-sized enterprises predominantly secured by auto and equipment, inventory finance, and cash flow loans. Unsecured financing receivables include private-label credit card financing. A substantial majority of these cards are not for general use and are limited to the products and services sold by the retailer. The private-label portfolio is diverse with no metropolitan area accounting for more than 5% of the related portfolio.

Non-U.S. residential mortgages

For our secured non-U.S. residential mortgage book, we assess the overall credit quality of the portfolio through loan-to-value ratios (the ratio of the outstanding debt on a property to the value of that property at origination). In the event of default and repossession of the underlying collateral, we have the ability to remarket and sell the properties to eliminate or mitigate the potential risk of loss.

(In millions)	Loan-to-value ratio					
	March 31, 2014			December 31, 2013		
	80% or less	Greater than 80% to 90%	Greater than 90%	80% or less	Greater than 80% to 90%	Greater than 90%
Non-U.S. residential mortgages	\$ 17,148	\$ 5,098	\$ 8,109	\$ 17,224	\$ 5,130	\$ 8,147

The majority of these financing receivables are in our U.K. and France portfolios and have re-indexed loan-to-value ratios of 74% and 56%, respectively. Re-indexed loan-to-value ratios may not reflect actual realizable values of future repossessions. We have third-party mortgage insurance for about 22% of the balance of Consumer non-U.S. residential mortgage loans with loan-to-value ratios greater than 90% at March 31, 2014. Such loans were primarily originated in France and the U.K.

(23)

Installment and Revolving Credit

For our unsecured lending products, including the non-U.S. and U.S. installment and revolving credit and non-U.S. auto portfolios, we assess overall credit quality using internal and external credit scores. Our internal credit scores imply a probability of default that we consistently translate into three approximate credit bureau equivalent credit score categories, including (a) 671 or higher, which are considered the strongest credits; (b) 626 to 670, which are considered moderate credit risk; and (c) 625 or less, which are considered weaker credits.

(In millions)	Internal ratings translated to approximate credit bureau equivalent score					
	March 31, 2014			December 31, 2013		
	671 or higher	626 to 670	625 or less	671 or higher	626 to 670	625 or less
Non-U.S. installment and revolving credit	\$ 8,033	\$ 3,117	\$ 2,565	\$ 8,310	\$ 2,855	\$ 2,512
U.S. installment and revolving credit	34,388	10,817	7,682	36,723	11,101	8,030
Non-U.S. auto	1,338	344	275	1,395	373	286

Installment and revolving credit accounts with credit bureau equivalent scores of 625 or less have an average outstanding balance less than one thousand U.S. dollars and are primarily concentrated in our retail card and sales finance receivables in the U.S. and closed-end loans outside the U.S., which minimizes the potential for loss in the event of default. For lower credit scores, we adequately price for the incremental risk at origination and monitor credit migration through our risk ratings process. We continuously adjust our credit line underwriting management and collection strategies based on customer behavior and risk profile changes.

Consumer – Other

We develop our internal risk ratings for this portfolio in a manner consistent with the process used to develop our Commercial credit quality indicators, described above. We use the borrower's credit quality and underlying collateral strength to determine the potential risk of loss from these activities.

At March 31, 2014, Consumer – Other financing receivables of \$6,013 million, \$401 million and \$504 million were rated A, B, and C, respectively. At December 31, 2013, Consumer – Other financing receivables of \$6,137 million, \$315 million and \$501 million were rated A, B, and C, respectively.

5. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

(In millions)	Balance at January 1, 2014		Acquisitions		Dispositions, currency exchange and other		Balance at March 31, 2014	
CLL	\$	13,522	\$	–	\$	63	\$	13,585
Consumer		10,277		–		109		10,386
Real Estate		742		–		(31)		711
Energy Financial Services		1,507		–		–		1,507
GECAS		147		–		–		147
Total	\$	26,195	\$	–	\$	141	\$	26,336

Goodwill balances increased \$141 million during the three months ended March 31, 2014, primarily as a result of currency exchange effects of a weaker U.S. dollar. Our reporting units and related goodwill balances are CLL (\$13,585 million), Consumer (\$10,386 million), Real Estate (\$711 million), Energy Financial Services (\$1,507 million) and GECAS (\$147 million) at March 31, 2014.

Intangible Assets Subject to Amortization

(In millions)	March 31, 2014			December 31, 2013			Net
	Gross carrying amount	Accumulated amortization	Net	Gross carrying amount	Accumulated amortization	Net	
Capitalized software	\$ 2,212	\$ (1,721)	\$ 491	\$ 2,200	\$ (1,707)	\$ 493	
Customer-related	1,325	(805)	520	1,173	(802)	371	
Lease valuations	679	(480)	199	703	(498)	205	
Present value of future profits (a)	583	(583)	–	574	(574)	–	
Patents and technology	108	(103)	5	106	(102)	4	
Trademarks	46	(34)	12	49	(36)	13	
All other	324	(276)	48	326	(276)	50	
Total	\$ 5,277	\$ (4,002)	\$ 1,275	\$ 5,131	\$ (3,995)	\$ 1,136	

(a) Balances at March 31, 2014 and December 31, 2013 reflect adjustments of \$316 million and \$322 million, respectively, to the present value of future profits in our run-off insurance operation to reflect the effects that would have been recognized had the related unrealized investment securities holding gains and losses actually been realized.

Amortization expense related to intangible assets subject to amortization was \$97 million and \$108 million in the three months ended March 31, 2014 and 2013, respectively, and is recorded in operating and administrative expense on the financial statements.

(25)

6. BORROWINGS AND BANK DEPOSITS

(In millions)	March 31, 2014	December 31, 2013
Short-term borrowings		
Commercial paper		
U.S.	\$ 21,229	\$ 24,877
Non-U.S.	3,817	4,168
Current portion of long-term borrowings(a)(b)	40,720	39,215
GE Interest Plus notes(c)	8,935	8,699
Other(b)	401	339
Total short-term borrowings	\$ 75,102	\$ 77,298
Long-term borrowings		
Senior unsecured notes(a)(d)	\$ 183,271	\$ 186,433
Subordinated notes(e)	4,860	4,821
Subordinated debentures(f)(g)	7,530	7,462
Other(b)	10,993	11,563
Total long-term borrowings	\$ 206,654	\$ 210,279
Non-recourse borrowings of consolidated securitization entities(h)	\$ 28,724	\$ 30,124
Bank deposits(i)	\$ 54,743	\$ 53,361
Total borrowings and bank deposits	\$ 365,223	\$ 371,062

- (a) Included \$481 million of obligations to holders of GICs at both March 31, 2014 and December 31, 2013, respectively. These obligations included conditions under which certain GIC holders could require immediate repayment of their investment should the long-term credit ratings of GECC fall below AA-/Aa3. The remaining outstanding GICs will continue to be subject to their scheduled maturities and individual terms, which may include provisions permitting redemption upon a downgrade of one or more of GECC's ratings, among other things.
- (b) Included \$9,338 million and \$9,468 million of funding secured by real estate, aircraft and other collateral at March 31, 2014 and December 31, 2013, respectively, of which \$2,733 million and \$2,868 million is non-recourse to GECC at March 31, 2014 and December 31, 2013, respectively.
- (c) Entirely variable denomination floating-rate demand notes.
- (d) Included \$700 million of debt at both March 31, 2014 and December 31, 2013 raised by a funding entity related to Penske Truck Leasing Co., L.P. (PTL). GECC, as co-issuer and co-guarantor of the debt, reports this amount as borrowings in its financial statements. GECC has been indemnified by the other limited partners of PTL for their proportionate share of the debt obligation.
- (e) Included \$300 million of subordinated notes guaranteed by GE at both March 31, 2014 and December 31, 2013.
- (f) Subordinated debentures receive rating agency equity credit.
- (g) Included \$3,008 million of subordinated debentures, which constitute the sole assets of trusts who have issued trust preferred securities and where GECC owns 100% of the common securities of the trusts. Obligations associated with these trusts are unconditionally guaranteed by GECC.
- (h)

Edgar Filing: GENERAL ELECTRIC CAPITAL CORP - Form 10-Q

Included at March 31, 2014 and December 31, 2013, were \$9,878 million and \$9,047 million of current portion of long-term borrowings, respectively. See Note 12.

- (i) Included \$13,458 million and \$13,614 million of deposits in non-U.S. banks at March 31, 2014 and December 31, 2013, respectively, and \$19,305 million and \$18,275 million of certificates of deposits with maturities greater than one year at March 31, 2014 and December 31, 2013, respectively.

(26)

7. INCOME TAXES

Unrecognized Tax Benefits

(In millions)	March 31, 2014	December 31, 2013
Unrecognized tax benefits	\$ 3,310	\$ 3,223
Portion that, if recognized, would reduce tax expense and effective tax rate(a)	2,360	2,346
Accrued interest on unrecognized tax benefits	558	570
Accrued penalties on unrecognized tax benefits	100	97
Reasonably possible reduction to the balance of unrecognized tax benefits in succeeding 12 months	0-1,000	0-800
Portion that, if recognized, would reduce tax expense and effective tax rate(a)	0-260	0-250

(a) Some portion of such reduction may be reported as discontinued operations.

The Internal Revenue Service (IRS) is currently auditing our consolidated U.S. income tax returns for 2010-2011. In addition, certain other U.S. tax deficiency issues and refund claims for previous years are still unresolved. The IRS has disallowed the tax loss on our 2003 disposition of ERC Life Reinsurance Corporation. We have contested the disallowance of this loss. It is reasonably possible that the unresolved items could be resolved during the next 12 months, which could result in a decrease in our balance of unrecognized tax benefits – that is, the aggregate tax effect of differences between tax return positions and the benefits recognized in our financial statements. We believe that there are no other jurisdictions in which the outcome of unresolved issues or claims is likely to be material to our results of operations, financial position or cash flows. We further believe that we have made adequate provision for all income tax uncertainties.

- (a) Aggregate summarized financial information for significant associated companies assuming a 100% ownership interest is included total assets at March 31, 2014 and December 31, 2013 of \$87,705 million and \$84,305 million, respectively. Assets were primarily financing receivables of \$47,348 million and \$46,655 million at March 31, 2014 and December 31, 2013, respectively. Total liabilities were \$60,651 million and \$59,559 million, consisted primarily of bank deposits of \$7,337 million and \$5,876 million at March 31, 2014 and December 31, 2013, respectively, and debt of \$40,542 million and \$39,034 million at March 31, 2014 and December 31, 2013, respectively. Revenues for the three months ended March 31, 2014 and 2013 totaled \$3,544 million and \$4,010 million, respectively, and net earnings for the three months ended March 31, 2014 and 2013 totaled \$437 million and \$565 million, respectively.
- (b) During the three months ended March 31, 2013, we sold real estate comprising certain floors located at 30 Rockefeller Center, New York for a pre-tax gain of \$902 million.

10. FAIR VALUE MEASUREMENTS

Recurring Fair Value Measurements

Our assets and liabilities measured at fair value on a recurring basis include investment securities primarily supporting obligations to annuitants and policyholders in our run-off insurance operations and supporting obligations to holders of GICs in Trinity and investment securities held in our CLL business collateralized by senior secured loans of high-quality, middle-market companies in a variety of industries.

- (a) There were no securities transferred between Level 1 and Level 2 in the three months ended March 31, 2014.
- (b) The netting of derivative receivables and payables (including the effects of any collateral posted or received) is permitted when a legally enforceable master netting agreement exists.
- (c) Includes investments in our CLL business in asset-backed securities collateralized by senior secured loans of high-quality, middle-market companies in a variety of industries.
- (d) The fair value of derivatives includes an adjustment for non-performance risk. The cumulative adjustment was a gain (loss) of \$29 million and \$(7) million at March 31, 2014 and December 31, 2013, respectively. See Note 11 for additional information on the composition of our derivative portfolio.
- (e) Includes private equity investments and loans designated under the fair value option.

(31)

Level 3 Instruments

The majority of our Level 3 balances consist of investment securities classified as available-for-sale with changes in fair value recorded in shareowners' equity.

- (a) Earnings effects are primarily included in the Revenues from services and Interest captions in the Condensed Statement of Earnings.
- (b) Transfers in and out of Level 3 are considered to occur at the beginning of the period. Transfers out of Level 3 were primarily a result of increased use of quotes from independent pricing vendors based on recent trading activity.
- (c) Represents the amount of unrealized gains or losses for the period included in earnings.
- (d) Represents derivative assets net of derivative liabilities and included cash accruals of \$10 million and \$4 million not reflected in the fair value hierarchy table for the three months ended March 31, 2014 and 2013, respectively.
- (e) Gains (losses) included in “net realized/unrealized gains (losses) included in earnings” were offset by the earnings effects from the underlying items that were economically hedged. See Note 11.

(32)

Non-Recurring Fair Value Measurements

The following table represents non-recurring fair value amounts (as measured at the time of the adjustment) for those assets remeasured to fair value on a non-recurring basis during the fiscal year and still held at March 31, 2014 and December 31, 2013.

(In millions)	Remeasured during the three months ended March 31, 2014		Remeasured during the year ended December 31, 2013

Investment securities - Debt

Edgar Filing: GENERAL ELECTRIC CAPITAL CORP - Form 10-Q

U.S. corporate	\$	898	Income approach	Discount rate(a)	1.5%-13.3% (6.5%)
Asset-backed		6,854	Income approach	Discount rate(a)	1.2%-10.5% (3.7%)
Corporate non-U.S.		819	Income approach	Discount rate(a)	1.4%-46.0% (15.1%)
Other financial assets		288	Income approach, Market comparables	WACC(c)	9.3%-9.3% (9.3%)
				Discount rate(a)	5.2%-5.3% (5.3%)
				EBITDA multiple	8.3X-12.5X (10.6X)
Non-recurring fair value measurements					
Financing receivables and loans held for sale	\$	1,937	Income approach, Business enterprise value	Capitalization rate(b) EBITDA multiple Discount rate(a)	5.5%-16.7% (8.0%) 4.3X-5.5X (4.8X) 6.6%-6.6% (6.6%)
Cost and equity method investments		100	Income approach, Market comparables	Discount rate(a) Capitalization rate(b) WACC(c) EBITDA multiple Revenue multiple	5.7%-5.9% (5.8%) 8.5%-10.6% (10.0%) 9.3%-9.6% (9.4%) 7.1X-14.5X (11.3X) 9.3X-12.6X (10.9X)
Long-lived assets, including real estate		691	Income approach	Capitalization rate(b) Discount rate(a)	5.4%-14.5% (7.8%) 4.0%-23.0% (8.8%)

- (a) Discount rates are determined based on inputs that market participants would use when pricing investments, including credit and liquidity risk. An increase in the discount rate would result in a decrease in the fair value.
- (b) Represents the rate of return on net operating income that is considered acceptable for an investor and is used to determine a property's capitalized value. An increase in the capitalization rate would result in a decrease in the fair value.
- (c) Weighted average cost of capital (WACC).

At March 31, 2014 and December 31, 2013, other Level 3 recurring fair value measurements of \$2,935 million and \$2,813 million, respectively, and non-recurring measurements of \$730 million and \$1,426 million, respectively, are

valued using non-binding broker quotes or other third-party sources. At March 31, 2014 and December 31, 2013, other recurring fair value measurements of \$154 million and \$173 million, respectively, and non-recurring fair value measurements of \$273 million and \$566 million, respectively, were individually insignificant and utilize a number of different unobservable inputs not subject to meaningful aggregation.

(34)

11. FINANCIAL INSTRUMENTS

The following table provides information about assets and liabilities not carried at fair value. The table excludes finance leases and non-financial assets and liabilities. Substantially all of the assets discussed below are considered to be Level 3. The vast majority of our liabilities' fair value can be determined based on significant observable inputs and thus considered Level 2. Few of the instruments are actively traded and their fair values must often be determined using financial models. Realization of the fair value of these instruments depends upon market forces beyond our control, including marketplace liquidity.

(In millions)	March 31, 2014			December 31, 2013		
	Notional amount	Assets (liabilities)		Notional amount	Assets (liabilities)	
		Carrying amount (net)	Estimated fair value		Carrying amount (net)	Estimated fair value
Assets						
Loans	\$ (a)	\$ 221,187	\$ 225,454	\$ (a)	\$ 226,293	\$ 230,792
Other commercial mortgages	(a)	2,261	2,269	(a)	2,270	2,281
Loans held for sale	(a)	1,078	1,078	(a)	512	512
Other financial instruments(c)	(a)	1,541	2,201	(a)	1,622	2,203
Liabilities						
Borrowings and bank deposits(b)(d)	(a)	(365,223)	(381,050)	(a)	(371,062)	(386,823)
Investment contract benefits	(a)	(3,107)	(3,666)	(a)	(3,144)	(3,644)
Guaranteed investment contracts	(a)	(1,441)	(1,429)	(a)	(1,471)	(1,459)
Insurance - credit life(e)	2,163	(110)	(96)	2,149	(108)	(94)

(a) These financial instruments do not have notional amounts.

(b) See Note 6.

(c) Principally comprises cost method investments.

(d) Fair values exclude interest rate and currency derivatives designated as hedges of borrowings. Had they been included, the fair value of borrowings at March 31, 2014 and December 31, 2013 would have been reduced by \$3,506 million and \$2,284 million, respectively.

(e) Net of reinsurance of \$1,250 million at both March 31, 2014 and December 31, 2013.

Notional Amounts of Loan Commitments

(In millions)	March 31, 2014	December 31, 2013
Ordinary course of business lending commitments(a)	\$ 5,102	\$ 4,756
Unused revolving credit lines(b)		
Commercial(c)	15,497	16,570
Consumer - principally credit cards	296,296	290,662

- (a) Excluded investment commitments of \$1,383 million and \$1,395 million at March 31, 2014 and December 31, 2013, respectively.
- (b) Excluded inventory financing arrangements, which may be withdrawn at our option, of \$12,650 million and \$13,502 million at March 31, 2014 and December 31, 2013, respectively.
- (c) Included commitments of \$11,952 million and \$11,629 million at March 31, 2014 and December 31, 2013, respectively, associated with secured financing arrangements that could have increased to a maximum of \$15,472 million and \$14,590 million at March 31, 2014 and December 31, 2013, respectively, based on asset volume under the arrangement.

(35)

Securities Repurchase and Reverse Repurchase Arrangements

Our issuances of securities repurchase agreements are insignificant and are limited to activities at certain of our foreign banks primarily for purposes of liquidity management. At March 31, 2014, we were party to repurchase agreements totaling \$134 million, which were reported in short-term borrowings on the financial statements. We have had no repurchase agreements that were accounted for as off-book financing and we do not engage in securities lending transactions.

We also enter into reverse securities repurchase agreements, primarily for short-term investment with maturities of 90 days or less. At March 31, 2014, we were party to reverse repurchase agreements totaling \$19.9 billion, which were reported in cash and equivalents on the financial statements. Under these reverse securities repurchase agreements, we typically lend available cash at a specified rate of interest and hold U.S. or highly-rated European government securities as collateral during the term of the agreement. Collateral value is in excess of amounts loaned under the agreements.

Derivatives and Hedging

As a matter of policy, we use derivatives for risk management purposes and we do not use derivatives for speculative purposes. A key risk management objective for our financial services businesses is to mitigate interest rate and currency risk by seeking to ensure that the characteristics of the debt match the assets they are funding. If the form (fixed versus floating) and currency denomination of the debt we issue do not match the related assets, we typically execute derivatives to adjust the nature and tenor of funding to meet this objective within pre-defined limits. The determination of whether we enter into a derivative transaction or issue debt directly to achieve this objective depends on a number of factors, including market related factors that affect the type of debt we can issue.

The notional amounts of derivative contracts represent the basis upon which interest and other payments are calculated and are reported gross, except for offsetting foreign currency forward contracts that are executed in order to manage our currency risk of net investment in foreign subsidiaries. Of the outstanding notional amount of \$302,000 million, approximately 97% or \$293,000 million is associated with reducing or eliminating the interest rate, currency or market risk between financial assets and liabilities in our financial services businesses. The instruments used in these activities are designated as hedges when practicable. When we are not able to apply hedge accounting, or when the derivative and the hedged item are both recorded in earnings concurrently, the derivatives are deemed economic hedges and hedge accounting is not applied. This most frequently occurs when we hedge a recognized foreign currency transaction (e.g., a receivable or payable) with a derivative. Since the effects of changes in exchange rates are reflected concurrently in earnings for both the derivative and the transaction, the economic hedge does not require hedge accounting.

Fair Value of Derivatives

(In millions)	March 31, 2014		December 31, 2013	
	Fair value		Fair value	
	Assets	Liabilities	Assets	Liabilities
Derivatives accounted for as hedges				
Interest rate contracts	\$ 4,187	\$ 1,350	\$ 3,837	\$ 1,989
Currency exchange contracts	1,264	1,135	1,746	958
Other contracts	-	-	-	-
	5,451	2,485	5,583	2,947
Derivatives not accounted for as hedges				
Interest rate contracts	288	151	270	175
Currency exchange contracts	1,318	1,516	1,753	1,765
Other contracts	44	22	57	22
	1,650	1,689	2,080	1,962
Gross derivatives recognized in statement of financial position				
Gross derivatives	7,101	4,174	7,663	4,909
Gross accrued interest	1,183	41	1,227	241
	8,284	4,215	8,890	5,150
Amounts offset in statement of financial position				
Netting adjustments(a)	(3,378)	(3,407)	(3,927)	(3,920)
Cash collateral(b)	(2,728)	(309)	(2,619)	(242)
	(6,106)	(3,716)	(6,546)	(4,162)
Net derivatives recognized in statement of financial position				
Net derivatives	2,178	499	2,344	988
Amounts not offset in statement of financial position				
Securities held as collateral(c)	(1,519)	-	(1,838)	-
Net amount	\$ 659	\$ 499	\$ 506	\$ 988

Derivatives are classified in other assets and other liabilities and the related accrued interest is classified in other receivables and other liabilities in our financial statements.

(a)

The netting of derivative receivables and payables is permitted when a legally enforceable master netting agreement exists. Amounts include fair value adjustments related to our own and counterparty non-performance risk. At March 31, 2014 and December 31, 2013, the cumulative adjustment for non-performance risk was a gain (loss) of \$29 million and \$(7) million, respectively.

- (b) Excludes excess cash collateral received and posted of \$177 million and \$56 million at March 31, 2014, respectively, and \$160 million and \$37 million at December 31, 2013, respectively.
- (c) Excludes excess securities collateral received of \$41 million and \$286 million at March 31, 2014 and December 31, 2013, respectively.

Fair value hedges

We use interest rate and currency exchange derivatives to hedge the fair value effects of interest rate and currency exchange rate changes on local and non-functional currency denominated fixed-rate debt. For relationships designated as fair value hedges, changes in fair value of the derivatives are recorded in earnings within interest along with offsetting adjustments to the carrying amount of the hedged debt.

(37)

Earnings Effects of Fair Value Hedging Relationships

(In millions)	Gain (loss) on hedging derivatives	Three months ended March 31		Gain (loss) on hedging derivatives	Gain (loss) on hedged items
		2014	2013		
Interest rate contracts	\$ 990	\$ (1,005)	\$ (909)	\$ 881	
Currency exchange contracts	2	(3)	(9)	8	

Fair value hedges resulted in \$(16) million and \$(29) million of ineffectiveness in the three months ended March 31, 2014 and 2013, respectively. In both the three months ended March 31, 2014 and 2013, there were insignificant amounts excluded from the assessment of effectiveness.

Cash flow hedges

We use interest rate, currency exchange and commodity derivatives to reduce the variability of expected future cash flows associated with variable rate borrowings and commercial purchase and sale transactions, including commodities. For derivatives that are designated in a cash flow hedging relationship, the effective portion of the change in fair value of the derivative is reported as a component of AOCI and reclassified into earnings contemporaneously and in the same caption with the earnings effects of the hedged transaction.

Gains (Losses) Recognized through AOCI

(In millions)	Gain (loss) recognized in AOCI for the three months ended March 31		Gain (loss) reclassified from AOCI into earnings for the three months ended March 31	
	2014	2013	2014	2013
Interest rate contracts	\$ 3	\$ (11)	\$ (69)	\$ (102)
Currency exchange contracts	183	(34)	134	(45)
Total(a)	\$ 186	\$ (45)	\$ 65	\$ (147)

(a) Gain (loss) is recorded in revenues from services and interest when reclassified to earnings.

The total pre-tax amount in AOCI related to cash flow hedges of forecasted transactions was a \$157 million loss at March 31, 2014. We expect to transfer \$191 million to earnings as an expense in the next 12 months contemporaneously with the earnings effects of the related forecasted transactions. In both the three months ended March 31, 2014 and 2013, we recognized insignificant gains and losses related to hedged forecasted transactions and firm commitments that did not occur by the end of the originally specified period. At March 31, 2014 and 2013, the maximum term of derivative instruments that hedge forecasted transactions was 19 years and 20 years, respectively. See Note 8 for additional information about reclassifications out of AOCI.

For cash flow hedges, the amount of ineffectiveness in the hedging relationship and amount of the changes in fair value of the derivatives that are not included in the measurement of ineffectiveness were insignificant for each

reporting period.

Net investment hedges in foreign operations

We use currency exchange derivatives to protect our net investments in global operations conducted in non-U.S. dollar currencies. For derivatives that are designated as hedges of net investment in a foreign operation, we assess effectiveness based on changes in spot currency exchange rates. Changes in spot rates on the derivative are recorded as a component of AOCI until such time as the foreign entity is substantially liquidated or sold, or upon the loss of a controlling interest in a foreign entity. The change in fair value of the forward points, which reflects the interest rate differential between the two countries on the derivative, is excluded from the effectiveness assessment.

(38)

Gains (Losses) Recognized through CTA

(In millions)	Gain (loss) recognized in CTA for the three months ended March 31		Gain (loss) reclassified from CTA for the three months ended March 31	
	2014	2013	2014	2013
Currency exchange contracts(a)	\$ (1,033)	\$ 2,105	\$ 10	\$ (124)

(a) Gain (loss) is recorded in revenues from services when reclassified out of AOCI.

The amounts related to the change in the fair value of the forward points that are excluded from the measure of effectiveness were \$(142) million and \$(166) million in the three months ended March 31, 2014 and 2013, respectively, and were recorded in interest.

Free-standing derivatives

Changes in the fair value of derivatives that are not designated as hedges are recorded in earnings each period. As discussed above, these derivatives are typically entered into as economic hedges of changes in interest rates, currency exchange rates, commodity prices and other risks. Gains or losses related to the derivative are typically recorded in revenues from services, based on our accounting policy. In general, the earnings effects of the item that represent the economic risk exposure are recorded in the same caption as the derivative. Gains (losses) for the three months ended March 31, 2014 on derivatives not designated as hedges were \$1,089 million composed of amounts related to interest rate contracts of \$11 million, currency exchange contracts of \$1,090 million, and other derivatives of \$(12) million. These gains were more than offset by the earnings effects from the underlying items that were economically hedged. Gains (losses) for the three months ended March 31, 2013 on derivatives not designated as hedges were \$(902) million composed of amounts related to interest rate contracts of \$(61) million, currency exchange contracts of \$(853) million, and other derivatives of \$12 million. These losses were more than offset by the earnings effects from the underlying items that were economically hedged.

Counterparty credit risk

Fair values of our derivatives can change significantly from period to period based on, among other factors, market movements and changes in our positions. We manage counterparty credit risk (the risk that counterparties will default and not make payments to us according to the terms of our agreements) on an individual counterparty basis. Where we have agreed to netting of derivative exposures with a counterparty, we net our exposures with that counterparty and apply the value of collateral posted to us to determine the exposure. We actively monitor these net exposures against defined limits and take appropriate actions in response, including requiring additional collateral.

As discussed above, we have provisions in certain of our master agreements that require counterparties to post collateral (typically, cash or U.S. Treasury securities) when our receivable due from the counterparty, measured at current market value, exceeds a specified limit. The fair value of such collateral was \$4,247 million at March 31, 2014, of which \$2,728 million was cash and \$1,519 million was in the form of securities held by a custodian for our benefit. Under certain of these same agreements, we post collateral to our counterparties for our derivative obligations, the fair value of which was \$309 million at March 31, 2014. At March 31, 2014, our exposure to counterparties (including accrued interest), net of collateral we hold, was \$622 million. This excludes exposure related to embedded derivatives.

Additionally, our master agreements typically contain mutual downgrade provisions that provide the ability of each party to require termination if the long-term credit rating of the counterparty were to fall below A-/A3. In certain of these master agreements, each party also has the ability to require termination if the short-term rating of the counterparty were to fall below A-1/P-1. Our master agreements also typically contain provisions that provide termination rights upon the occurrence of certain other events, such as a bankruptcy or events of default by one of the parties. If an agreement was terminated under any of these circumstances, the termination amount payable would be determined on a net basis and could also take into account any collateral posted. The net amount of our derivative liability, after consideration of collateral posted by us and outstanding interest payments was \$475 million at March 31, 2014. This excludes embedded derivatives.

(39)

12. VARIABLE INTEREST ENTITIES

We use variable interest entities primarily to securitize financial assets and arrange other forms of asset-backed financing in the ordinary course of business. Except as noted below, investors in these entities only have recourse to the assets owned by the entity and not to our general credit. We do not have implicit support arrangements with any VIE. We did not provide non-contractual support for previously transferred financing receivables to any VIE in 2014 or 2013.

Consolidated Variable Interest Entities

We consolidate VIEs because we have the power to direct the activities that significantly affect the VIE's economic performance, typically because of our role as either servicer or manager for the VIE. Our consolidated VIEs fall into three main groups, which are further described below:

- Trinity comprises two consolidated entities that hold investment securities, the majority of which are investment grade, and were funded by the issuance of GICs. The GICs include conditions under which certain holders could require immediate repayment of their investment should the long-term credit ratings of GECC fall below AA-/Aa3 or the short-term credit ratings fall below A-1+/P-1. The outstanding GICs are subject to their scheduled maturities and individual terms, which may include provisions permitting redemption upon a downgrade of one or more of GECC's ratings, among other things, and are reported in investment contracts, insurance liabilities and insurance annuity benefits.
- Consolidated Securitization Entities (CSEs) were created to facilitate securitization of financial assets and other forms of asset-backed financing that serve as an alternative funding source by providing access to variable funding notes and term markets. The securitization transactions executed with these entities are similar to those used by many financial institutions and substantially all are non-recourse. We provide servicing for substantially all of the assets in these entities.

The financing receivables in these entities have similar risks and characteristics to our other financing receivables and were underwritten to the same standard. Accordingly, the performance of these assets has been similar to our other financing receivables; however, the blended performance of the pools of receivables in these entities reflects the eligibility criteria that we apply to determine which receivables are selected for transfer. Contractually the cash flows from these financing receivables must first be used to pay third-party debt holders as well as other expenses of the entity. Excess cash flows are available to GECC. The creditors of these entities have no claim on other assets of GECC.

- Other remaining assets and liabilities of consolidated VIEs relate primarily to three categories of entities: (1) joint ventures that lease equipment with \$1,562 million of assets and \$713 million of liabilities; (2) other entities that are involved in power generating and leasing activities with \$733 million of assets and no liabilities; and (3) insurance entities that, among other lines of business, provide property and casualty and workers' compensation coverage for GE with \$1,195 million of assets and \$525 million of liabilities.

(40)

Assets and Liabilities of Consolidated VIEs

(In millions)	Consolidated Securitization Entities						Total
	Trinity(a)	Credit cards(b)	Equipment(b)	Trade receivables	Other		
March 31, 2014

Investment securities	2,764	-	-	-	1,034	-	3,798
Other assets	22	122	515	1	1,681	-	2,341
Total	\$ 2,786	\$ 24,010	\$ 13,544	\$ 2,629	\$ 4,782	\$ -	\$ 47,751
Liabilities(c)							
Borrowings	\$ -	\$ -	\$ -	\$ -	\$ 583	\$ -	\$ 583
Non-recourse borrowings	-	14,642	10,316	2,168	49	-	27,175
Other liabilities	1,454	265	285	28	1,273	-	3,305
Total	\$ 1,454	\$ 14,907	\$ 10,601	\$ 2,196	\$ 1,905	\$ -	\$ 31,063
December 31, 2013							
Assets(c)							
Financing receivables, net	\$ -	\$ 24,766	\$ 12,928	\$ 2,509	\$ 2,044	\$ -	\$ 42,247
Investment securities	2,786	-	-	-	1,044	-	3,830
Other assets	213	20	557	1	1,563	-	2,354
Total	\$ 2,999	\$ 24,786	\$ 13,485	\$ 2,510	\$ 4,651	\$ -	\$ 48,431
Liabilities(c)							
Borrowings	\$ -	\$ -	\$ -	\$ -	\$ 597	\$ -	\$ 597
Non-recourse borrowings	-	15,363	10,982	2,180	49	-	28,574
Other liabilities	1,482	228	248	25	1,235	-	3,218
Total	\$ 1,482	\$ 15,591	\$ 11,230	\$ 2,205	\$ 1,881	\$ -	\$ 32,389

(a) Excludes intercompany advances from GECC to Trinity, which are eliminated in consolidation of \$1,611 million and \$1,837 million at March 31, 2014 and December 31, 2013, respectively.

(b) We provide servicing to the CSEs and are contractually permitted to commingle cash collected from customers on financing receivables sold to CSE investors with our own cash prior to payment to a CSE, provided our short-term credit rating does not fall below A-1/P-1. These CSEs also owe us amounts for purchased financial assets and scheduled interest and principal payments. At March 31, 2014 and December 31, 2013, the amounts of commingled cash owed to the CSEs were \$3,106 million and \$6,314 million, respectively, and the amounts owed to us by CSEs were \$3,115 million and \$5,540 million, respectively.

(c)

Asset amounts exclude intercompany receivables for cash collected on behalf of the entities by GE as servicer, which are eliminated in consolidation. Such receivables provide the cash to repay the entities' liabilities. If these intercompany receivables were included in the table above, assets would be higher. In addition, other assets, borrowings and other liabilities exclude intercompany balances that are eliminated in consolidation.

Revenues from services from our consolidated VIEs were \$1,633 million and \$1,703 million in the three months ended March 31, 2014 and 2013, respectively. Related expenses consisted primarily of provisions for losses of \$301 million and \$414 million in the three months ended March 31, 2014 and 2013, respectively, and interest of \$80 million and \$89 million in the three months ended March 31, 2014 and 2013, respectively. These amounts do not include intercompany revenues and costs, principally fees and interest between GECC and the VIEs, which are eliminated in consolidation.

Investments in Unconsolidated Variable Interest Entities

Our involvement with unconsolidated VIEs consists of the following activities: assisting in the formation and financing of the entity; providing recourse and/or liquidity support; servicing the assets; and receiving variable fees for services provided. We are not required to consolidate these entities because the nature of our involvement with the activities of the VIEs does not give us power over decisions that significantly affect their economic performance.

(41)

Our largest exposure to any single unconsolidated VIE at March 31, 2014 is a \$7,018 million investment in asset-backed securities issued by the Senior Secured Loan Program (“SSLP”), a fund that invests in high-quality senior secured debt of various middle-market companies. Other significant unconsolidated VIEs include investments in real estate entities (\$2,261 million), which generally consist of passive limited partnership investments in tax-advantaged, multi-family real estate and investments in various European real estate entities; and exposures to joint ventures that purchase factored receivables (\$2,491 million).

The classification of our variable interests in these entities in our financial statements is based on the nature of the entity and the type of investment we hold. Variable interests in partnerships and corporate entities are classified as either equity method or cost method investments. In the ordinary course of business, we also make investments in entities in which we are not the primary beneficiary but may hold a variable interest such as limited partner interests or mezzanine debt investments. These investments are classified in two captions in our financial statements: “Other assets” for investments accounted for under the equity method, and “Financing receivables – net” for debt financing provided to these entities.

Investments in Unconsolidated VIEs

(In millions)	March 31, 2014	December 31, 2013
Other assets and investment securities	\$ 9,122	\$ 9,089
Financing receivables – net	3,084	3,344
Total investments	12,206	12,433
Contractual obligations to fund investments or guarantees	2,534	2,731
Revolving lines of credit	36	31
Total	\$ 14,776	\$ 15,195

In addition to the entities included in the table above, we also hold passive investments in RMBS, CMBS and ABS issued by VIEs. Such investments were, by design, investment grade at issuance and held by a diverse group of investors. Further information about such investments is provided in Note 3.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

In the accompanying analysis of financial information, we sometimes use information derived from consolidated financial information but not presented in our financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP). Certain of these data are considered "non-GAAP financial measures" under the U.S. Securities and Exchange Commission (SEC) rules. For such measures, we have provided supplemental explanations and reconciliations in Exhibit 99 to this Form 10-Q Report.

Unless otherwise indicated, we refer to captions such as revenues and earnings from continuing operations attributable to GECC simply as "revenues" and "earnings" throughout this Management's Discussion and Analysis. Similarly, discussion of other matters in our condensed, consolidated financial statements relates to continuing operations unless otherwise indicated.

We have reclassified certain prior-period amounts to conform to the current-period presentation.

OVERVIEW

General Electric Capital Corporation (GE Capital or GECC) businesses offer a broad range of financial services and products worldwide for businesses of all sizes. Services include commercial loans and leases, fleet management, financial programs, credit cards, personal loans and other financial services. GE Capital reduced its ending net investment (ENI), excluding cash and equivalents, to \$374 billion at March 31, 2014. As a result, we are a diversely funded and smaller, more focused finance company with strong positions in several commercial mid-market and consumer financing segments, which are described in the Segment Operations Section below.

We have communicated our goal of reducing our ENI, most recently targeting ENI of \$300 billion to \$350 billion. ENI is a metric used to measure the total capital invested in the financial services business. To achieve this goal, we are more aggressively focusing our businesses on selective financial services products where we have deep domain experience, broad distribution, the ability to earn a consistent return on capital and are competitively advantaged, while managing our overall balance sheet size and risk. We have a strategy of exiting those businesses that are deemed to be non-strategic or that are underperforming. We have completed a number of dispositions in our businesses in the past and will continue to evaluate options going forward.

Accordingly, in the short-term, as we reduce our ENI through exiting non-core businesses, the overall level of our future net earnings may be reduced. However, over the long-term, we believe that this strategy will improve our long-term performance through higher returns as we will have a larger concentration of assets in our core businesses, as opposed to the underperforming or non-strategic assets we will be exiting; reduce liquidity risk as we pay down outstanding debt and diversify our sources of funding (with less reliance on the global commercial paper markets and an increase in alternative sources of funding such as deposits); and reduce capital requirements while strengthening capital ratios.

During the first quarter of 2014, our North American Retail Finance business, under the name Synchrony Financial, filed a registration statement with the U.S. Securities and Exchange Commission for an initial public offering, as a first step in a planned, staged exit from that business.

Revenues decreased 8% and net earnings were flat in the three months ended March 31, 2014, as compared with the three months ended March 31, 2013. Revenues decreased as a result of lower gains, the effects of dispositions and organic revenue declines, primarily due to lower ENI, partially offset by lower impairments. Net earnings reflected

lower gains, core decreases and dispositions offset by lower provisions for losses on financing receivables and lower impairments.

(43)

SEGMENT OPERATIONS

Operating segments comprise our five segments focused on the broad markets they serve: Commercial Lending and Leasing (CLL), Consumer, Real Estate, Energy Financial Services and GE Capital Aviation Services (GECAS). The Chairman allocates resources to, and assesses the performance of, these five businesses. In addition to providing information on segments in their entirety, we have also provided supplemental information for the geographic regions within the CLL segment.

Corporate items and eliminations include unallocated Treasury and Tax operations; Trinity, a group of sponsored special purpose entities; certain consolidated liquidating securitization entities; the effects of eliminating transactions between operating segments; results of our run-off insurance operations remaining in continuing operations attributable to GECC; unallocated corporate costs; certain non-allocated amounts determined by the Chairman; and a variety of sundry items. Corporate items and eliminations is not an operating segment. Rather, it is added to operating segment totals to reconcile to consolidated totals on the financial statements.

Segment profit is determined based on internal performance measures used by the Chairman to assess the performance of each business in a given period. In connection with that assessment, the Chairman may exclude matters such as charges for restructuring; rationalization and other similar expenses; acquisition costs and other related charges; technology and product development costs; certain gains and losses from acquisitions or dispositions; and litigation settlements or other charges, responsibility for which preceded the current management team.

Segment profit excludes results reported as discontinued operations, earnings attributable to noncontrolling interests of consolidated subsidiaries GECC preferred stock dividends declared and accounting changes. Segment profit, which we sometimes refer to as "net earnings", includes interest and income taxes. GE allocates certain corporate costs to its segments based on an estimate of expected benefit to the respective segment relative to total GE. Factors considered in the determination of relative benefit include a segment's direct costs and number of employees compared to the total direct costs and number of employees for all segments.

Summary of Operating Segments
(Unaudited)

(Dollars in millions)	Three months ended March 31		V%
	2014	2013
