For the purpose of the foregoing table, each of the directors and executive officers is deemed to be the beneficial owner of shares that may be acquired by him or her within 60 days through the exercise of options, if any, and such shares are deemed to be outstanding for the purpose of computing the percentage of the Company's Common Stock beneficially owned by him or her and by the directors and executive officers as a group. Such shares, however, are not deemed to be outstanding for the purpose of computing the percentage of the Company's Common Stock beneficially owned by any other person.

The foregoing table does not include shares issuable upon conversion of notes and exercise of warrants currently held by Castle Creek Technology Partners, LLC ("Castle Creek"). On July 25, 2001, the Company and Castle Creek entered into a Note Purchase, Modification and Forebearance Agreement, pursuant to which the Company has agreed to purchase the remaining \$9.25 million principal amount in convertible notes currently held by Castle Creek. The Company is obligated to pay \$3.0 million to Castle Creek by September 24, 2001 and \$4.955 million by October 23, 2001 (of which \$1.0 million was paid as a non-refundable deposit on July 25, 2001), plus all accrued and unpaid interest from the original issuance date through October 23, 2001 or, if earlier, the date of the purchase. As part of the transaction, the Company has issued to Castle Creek five-year warrants to purchase 500,000 shares of Common Stock, exercisable after one year, at an exercise price of \$3.14 per share (subject to specified anti-dilution adjustment). The shares issuable upon exercise of such warrant are to be registered with the Securities and Exchange Commission. In addition, the Company has granted to Castle Creek a security interest in its assets (including the assets of its subsidiaries),

3

including its intellectual property. Castle Creek has agreed not to trade in the Company's stock effective July 25, 2001 until the note repurchase is completed, in consideration of which Castle Creek was paid \$1.0 million as a non-refundable deposit against the final note purchase payment. The fixed conversion price of the notes was changed to \$4.00 with no floating conversion price if the notes are purchased on a timely basis and the Company complies with all its other obligations to Castle Creek in all material respects. The Company also agreed to

Edgar Filing: CELLPOINT INC - Form DEF 14A

certain limitations on the terms of future debt and equity financings, which limitations would not apply to a financing that provided the proceeds for the final purchase of the notes. The Company has granted Castle Creek a full release of all claims and has agreed not to disparage Castle Creek; Castle Creek has agreed not to disparage the Company. In addition, Castle Creek holds warrants to purchase 210,526 shares of Common Stock, which are currently exercisable at an exercise price of \$11.40 per share (subject to antidilution adjustments).

PROPOSAL

APPROVAL OF PRIVATE OFFERING TRANSACTIONS

INVOLVING THE FUTURE ISSUANCE OF COMMON STOCK

The Board of Directors has determined that it is in the best interests of the Company to authorize the issuance of shares of Common Stock in offerings exempt from registration under the Securities Act of 1933, as amended (the "Act"). The Company seeks approval of the issuance of Common Stock in two separate offerings described below. Such offerings shall consist of the issuance of units consisting of Common Stock and warrants to purchase Common Stock in exchange for cash consideration. The number of shares to be issued directly and which will become issuable upon the exercise of warrants may exceed 20% or more of the voting power outstanding before such issuance.

The purposes of the offerings are to (i) fund the working capital needs of the Company, and (ii) fund the repurchase of all of the Company's outstanding 6% convertible notes held by Castle Creek. On July 25, 2001, the Company and Castle Creek entered into a Note Purchase, Modification and Forebearance Agreement, pursuant to which the Company agreed to purchase the remaining \$9.25 million principal amount in convertible notes currently held by Castle Creek. The Company is obligated to pay \$3.0 million to Castle Creek by September 24, 2001 and \$4.955 million by October 23, 2001 (of which \$1.0 million was paid as a non-refundable deposit on July 25, 2001), plus all accrued and unpaid interest from the original issuance date through October 23, 2001 or, if earlier, the date of the purchase.

One offering is to be conducted in the United States in two or more tranches, pursuant to Regulation D promulgated under the Act (the "Regulation D Offering"). The first tranche of such offering, to be conducted directly by the Company, consists of an initial maximum of 70 units, plus if the offering is oversubscribed, an additional 50 units. The second tranche of such offering, to be conducted through a placement agent, consists of 40 units, plus if the offering is oversubscribed, an additional 30 units. Each unit in the Regulation D Offering consists of shares of Common Stock and warrants to purchase Common Stock. The number of shares comprising one unit will be determined based on a 20% discount to the volume weighted average price of the Company's Common Stock as traded on the Nasdaq for five days preceding the closing of each purchase. The number of warrants to be included in each unit sold in the Regulation D Offering will be equal to 50% of the number of shares included in the unit. Half of the warrants will be exercisable at \$3.50 per share for a period of 12 months from the date of issuance and half of the warrants will be exercisable at \$5.00 per share for a period of 24 months from the date of issuance. The purchase price for each unit in the first tranche is \$60,000 and the purchase price for each unit in the second tranche is \$100,000.

The Company expects that the purchasers of such shares would be a limited number of institutional or individual investors who are "accredited investors" as defined in Rule 501(a) of Regulation D promulgated under the Act. Purchasers in such offering have not been identified and,

Edgar Filing: CELLPOINT INC - Form DEF 14A

therefore, the consummation of the offering will depend upon the ability of the Company to identify and reach agreement with such purchasers upon terms of the sale, including price, which are acceptable to the Board of Directors of the Company. There can be no assurance that the Regulation D Offering will be consummated.

Pursuant to the Note Purchase, Modification and Forebearance Agreement, the Company has the right to designate third parties to purchase directly the convertible notes held by Castle Creek. Any such investors must satisfy the requirements of Regulation D as if they were purchasing shares directly in the Regulation D Offering. The Company anticipates that any agreement with third parties to purchase all of the outstanding notes held by Castle Creek will include the condition that such notes will be amended to a fixed conversion price and other terms substantially similar to those of the Regulation D Offering.

The other offering is being conducted pursuant to Regulation S under the Act. The Company is offering for sale an initial maximum of 80 units, plus if the offering is oversubscribed, an additional 60 units (the "Regulation S Offering"; the Regulations S offering and the Regulation D Offering being sometimes collectively referred to as the "Offerings"). The units in the Regulation S Offering will be offered and sold only to "non-U.S. Persons" as such term is defined in Regulation S. Each unit in the Regulation S Offering consists of shares of the Company's Common Stock and warrants to purchase Common Stock. The shares of Common Stock and the shares issuable upon exercise of the warrants may, at the request of the holder thereof, be exchanged for Swedish Depositary Receipts ("SDRs") after those shares have been registered with the Securities and Exchange Commission ("SEC") in the United States. The purchase price for each unit is 500,000 Swedish Kronor ("SEK"), which is valid through the initial closing. The units may be sold at multiple closings. The subscription price is subject to change by agreement between the Company and the placement agent at any time after the initial closing of the Regulation S Offering. Initially, 20,000 shares and 10,000 warrants will comprise one unit. Half of the warrants per unit (5,000) will be exercisable at 33 SEK per share for a period of six months from the date of the initial closing and half of the warrants per unit (5,000) will be exercisable at 56 SEK per share for a period of 12 months from the date of the initial closing. The placement agent for the Regulation S offering is Borsinsikt AB. Mats Jonnerhag, a director of the Company, is a 66% stockholder of Borsinsikt AB. The placement agent for the Regulation S offering will receive a commission equal to 6% of the proceeds from the Regulation S offering plus warrants equal to 6% of the number of shares issued. The disinterested members of the Board have approved the terms of this transaction. There can be no assurance that the Regulation S Offering will be consummated.

The shares to be issued in the Offerings may not be resold unless they are registered under the Act and applicable state securities laws or unless an exemption from registration is available. Consequently, the purchasers of these shares may be unable to liquidate their investment in the Company in the event of any emergency or for any other reason and may thus be required to retain their shares for an indefinite period. Accordingly, the price to be paid by the purchasers for the shares issued in such Offerings is likely to be less than the market price of the Company's Common Stock on the Nasdaq National Market at the date of closing of the offering. However, the Company has agreed to file a registration statement for such shares issued in the offering by October 31, 2001 or as soon as practicable thereafter. Although any changes in the market price of the Company's Common Stock are impossible to predict with any certainty, large block resales by the purchasers of shares issued in such offering or the perceived possibility of large block future resales may have a negative impact on the market price of the Company's Common Stock.

The Company will use the proceeds from these Offerings for the expansion and

Edgar Filing: CELLPOINT INC - Form DEF 14A

acceleration of international sales and marketing activities, product development and research, the repurchase of the Castle Creek notes and working capital for general corporate purposes. Any proceeds from the exercise of warrants will be used for the same purposes.

5

The Company's Common Stock is traded on the Nasdaq National Market. Nasdaq Marketplace Rule 4350 requires the Company to obtain stockholder approval in connection with the sale or issuance of shares of its common stock (or securities convertible into or exercisable for shares of common stock) not in a public offering when (i) the number of additional shares of common stock being issued equals or exceeds 20% of the number of shares of common stock that are outstanding prior to such sale or issuance and (ii) the shares of common stock will be sold at a price per share that is less than the greater of the (x) per share book value or (y) per share market value of the shares of common stock at the time of such sale or issuance.

While there is no assurance that these Offerings will be completed, the Company is seeking stockholder approval of this proposal, because, after assuming the completion of the issuance of shares in the Offerings and the exercise of the warrants included in the Offerings, the aggregate number of shares of Common Stock issuable pursuant to the Offerings taken together may exceed 20% of the currently outstanding shares of Common Stock.

A vote for this proposal will approve the issuance of shares of the Company's Common Stock on the terms described above, whether directly or through fixed price conversion of the outstanding convertible notes. If the stockholders approve this proposal, then the Company will, after such shares are registered with the SEC, apply to list on Nasdaq the additional shares of common stock to be issued under the Regulation D Offering and the Regulation S Offering.

EFFECT OF THE FAILURE TO APPROVE THIS PROPOSAL

Failure to obtain stockholder approval of this proposal will limit the number of shares of Common Stock that can be issued pursuant to the Regulation D Offering and the Regulation S Offering, and will therefore limit the Company's ability to finance its working capital needs and to repurchase the convertible notes from Castle Creek. A failure by the Company to make the payments required under the Note Purchase, Modification and Forebearance Agreement with Castle Creek would be an event of default under the convertible notes and would permit Castle Creek to exercise all of its rights as a secured lender of the Company, including, but not limited to foreclosure on the assets of the Company and its subsidiaries.

CERTAIN RISKS OF THE ISSUANCE OF SHARES OF UNITS PURSUANT TO THE OFFERINGS

Under the terms of the Regulation D Offering, the Company may sell an initial maximum of 70 units, plus if the Offering is oversubscribed, an additional 50 units. The number of shares comprising one unit will be determined based on a 20% discount to the volume weighted average price of the Company's common stock as traded on Nasdaq for the five days preceding the closing of each purchase. Because the number of shares that comprise one unit in the Regulation D Offering is tied directly to the market price the number of shares, the actual number of shares that the Company sells in the Regulation D Offering and the associated ownership dilution experienced by stockholders will be greater if the price of the Company's Common Stock declines. Under the terms of the Regulation S Offering, the Company may sell an initial maximum of 80 units, plus if the offering is oversubscribed, and additional 60 units. Initially, 20,000 shares and 10,000 warrants will comprise one unit. After the initial closing, the subscription price per unit will be subject to change by agreement between the Company and the placement agent.

Edgar Filing: CELLPOINT INC - Form DEF 14A

The Company has agreed that prior to October 31, 2001 it will file with the SEC a registration statement covering the shares of Common Stock and the shares issuable upon exercise of the warrants included in the Regulation D Offering and the Regulation S Offering. Upon the effectiveness of such registration statement, a large number of shares will become freely tradeable without restriction under the Securities Act. The sale of a substantial number of shares of Common Stock in the public market could cause a reduction in the market price of the Company's common stock. Sales by stockholders of

6

Common Stock in the public market could materially adversely affect the prevailing market price for the Common Stock and could impair the Company's ability to raise additional capital. Any such sales could materially adversely affect the then-prevailing market price for the Common Stock or the ability of the Company's stockholders to sell their shares.

RECOMMENDATION

The Board of Directors has approved the transactions contemplated by the Regulation D Offering and the Regulation S Offering. The Board of Directors of the Company believes that it is in the best interests of the Company and its stockholders that the foregoing proposal be approved so that the Company can continue to finance its working capital needs and to fund the repurchase of the convertible notes held by Castle Creek. Without approval of this proposal, the Company will not have the authority to issue a sufficient number of shares of Common Stock to raise the capital needed to fund its working capital needs and to fund the repurchase of the convertible notes.

Approval requires the affirmative vote of a majority of the votes cast at the meeting, in person or by proxy, on such proposal.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE PROPOSAL TO APPROVE THE ISSUANCE OF SHARES OF COMMON STOCK IN THE TRANSACTIONS DESCRIBED ABOVE.

INCORPORATION BY REFERENCE

There is hereby incorporated by reference into this Proxy Statement all of the Company's periodic reports heretofore filed with the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, and the regulations thereunder.

OTHER MATTERS

As of the date of this Proxy Statement, the Company knows of no matter other than those set forth herein which will be presented for consideration at the Special Meeting of Stockholders. If any other matter or matters are properly brought before the meeting or any adjournment thereof, it is the intention of the person named in the accompanying proxy to vote, or otherwise act, on such matters in accordance with his judgment.
