NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**Note 1. Basis of Presentation**

U.S. Global Investors, Inc. (the Company or U.S. Global) has prepared the consolidated financial statements pursuant to accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission that permit reduced disclosure for interim periods. The financial information included herein reflects all adjustments (consisting solely of normal recurring adjustments), which are, in management's opinion, necessary for a fair presentation of results for the interim periods presented. The Company has consistently followed the accounting policies set forth in the notes to the consolidated financial statements in the Company's Form 10-K for the year ended June 30, 2005.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, United Shareholder Services, Inc. (USSI), A&B Mailers, Inc. (A&B), U.S. Global Investors (Guernsey) Limited (USGG), U.S. Global Brokerage, Inc. (USGB), and U.S. Global Investors (Bermuda) Limited (USBERM).

All significant intercompany balances and transactions have been eliminated in consolidation. Certain amounts have been reclassified for comparative purposes. The results of operations for the nine-month and three-month periods ended March 31, 2006, are not necessarily indicative of the results to be expected for the entire year.

Note 2. Investments

As of March 31, 2006, the Company held investments with a market value of \$4.88 million and a cost basis of \$3.86 million. The market value of these investments is approximately 24.4 percent of the Company's total assets. Investments in securities classified as trading are reflected as current assets on the consolidated balance sheet at their fair market value. Unrealized holding gains and losses on trading securities are included in earnings in the consolidated statements of operations and comprehensive income.

Investments in securities classified as available for sale, which may not be readily marketable, are reflected as non-current assets on the consolidated balance sheet at their fair value. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income as a separate component of shareholders' equity until realized. The following summarizes the market value, cost, and unrealized gain or loss on investments as of March 31, 2006, and June 30, 2005.

Securities	Market Value	Cost	Unrealized Gain (Loss)	Unrealized Holding Gains on Available-for-Sale Securities,
				Net of 34% Tax

Investment income can be volatile and may vary depending on market fluctuations, the Company's ability to participate in investment opportunities, and timing of transactions. A significant portion of the unrealized gains and losses for the nine months ending March 31, 2006, is concentrated in a small number of issuers. The Company expects that gains and losses will continue to fluctuate in the future.

Investment income (loss) from the Company's investments includes:

- realized gains and losses on sales of securities;
- unrealized gains and losses on trading securities;
- realized foreign currency gains and losses;
- other-than-temporary impairments on available-for-sale securities; and
- dividend and interest income.

The following summarizes investment income (loss) reflected in earnings for the periods discussed:

Investment Income (Loss)	Nine Months Ended March	
	2006	31, 2005
Realized gains on sales of available-for-sale securities	\$ 544,414	\$
Realized gains (losses) on sales of trading securities	235,936	(78,253)

Note 3. Investment Management, Transfer Agent, and Other Fees

The Company serves as investment adviser to U.S. Global Investors Funds (USGIF) and U.S. Global Accolade Funds (USGAF) and receives a fee based on a specified percentage of net assets under management. Three of the four funds within USGAF are sub-advised by third-party managers, who are in turn compensated out of the investment advisory fees received by the Company. The Company also serves as transfer agent to USGIF and USGAF and receives a fee based on the number of shareholder accounts. Additionally, the Company provides in-house legal services to USGIF and USGAF for which it is reimbursed and receives certain miscellaneous fees directly from USGAF and USGIF shareholders. Fees for providing investment management and transfer agent services to USGIF and USGAF continue to be the Company's primary revenue source.

The Company has voluntarily waived or reduced its advisory fees and/or has agreed to pay expenses on several funds within USGIF funds and one USGAF fund through November 1, 2006, and February 28, 2007, respectively, or such later date as the Company determines. The aggregate fees waived and expenses borne by the Company for the nine-month periods ended March 31, 2006, and 2005 were \$1,010,000, and \$1,090,000, respectively.

The investment advisory and related contracts between the Company and USGIF and USGAF will expire on February 28, 2007 and May 31, 2006, respectively. Management anticipates the trustees of both USGIF and USGAF will renew the contracts.

In the first quarter of fiscal year 2005, the Company began providing management and advisory services for the Meridian Global Gold and Resources Fund Ltd., an offshore fund. The Company receives a monthly management fee and a quarterly performance fee, if any, based on the overall increase in value of the net assets in the fund for the quarter. The Company recorded fees totaling \$873,650 and \$235,703 for the nine months ended March 31, 2006, and March 31, 2005, respectively. The Company recorded total fees of \$377,661 and \$178,107, respectively, for the three months ended March 31, 2006, and March 31, 2005. Frank Holmes, a director and CEO of the Company, is a director of Meridian Fund Managers Ltd., the manager of the fund.

In the first quarter of fiscal year 2006, the Company began providing management and advisory services to the U.S. Global Investors Balanced Natural Resources Fund, Ltd., an offshore fund. For these services, the Company is paid a monthly management fee and a quarterly performance fee, if any. The Company recorded fees totaling \$99,011 for the nine months ended March 31, 2006. For the three months ended March 31, 2006, the Company recorded total fees of \$68,711. Holmes is a director of U.S. Global Investors Balanced Natural Resources Fund Ltd.

In the third quarter of fiscal year 2006, the Company began providing investment advisory services to Endeavour Mining Capital Corp., an offshore company. The Company is paid a monthly management fee based on the net asset value of the portfolio and an annual performance fee, if any, based on a percentage of consolidated net income from operations in excess of a predetermined percentage return on equity. The Company recorded \$106,230 in management fees for the three months ended March 31, 2006. Holmes is a member and Chairman of the Board of Directors of Endeavour Mining Capital Corp.

The Company receives additional revenue from several sources including custodial fee revenues, revenues from miscellaneous transfer agency activities including lockbox functions, mailroom operations from A&B, as well as investment income.

Note 4. Credit Facility

The Company has access to a \$1 million credit facility with a one-year maturity for working capital purposes. Any use of this credit facility will be secured by the Company's eligible accounts receivable. As of March 31, 2006, this credit facility remained unutilized by the Company.

Note 5. Stock-Based Compensation

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123R). SFAS 123R eliminates the alternative to use the intrinsic value method of accounting provided in SFAS 123, which generally resulted in no compensation expense recorded in the financial statements related to the issuance of equity awards to employees. SFAS 123R requires that the cost resulting from all share-based payment transactions be recognized in the financial statements. SFAS 123R establishes fair value as the measurement objective in accounting for share-based payment arrangements and requires all companies to apply a fair-value-based measurement method in accounting for generally all share-based payment transactions with employees.

On July 1, 2005 (the first day of the Company's 2006 fiscal year), the Company adopted SFAS 123R. The provisions of SFAS 123R became effective the first annual reporting period beginning after June 15, 2005, and the Company adopted SFAS 123R using a modified prospective application, as permitted under SFAS 123R. Accordingly, prior period amounts have not been restated. Under this application, the Company is required to record compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards that remain outstanding at the date of adoption.

The following table details the effect on net income and earnings per share had compensation expense for the employee stock-based awards been recorded in the nine months ended March 31, 2005, based on the fair value method under SFAS 123. The reported and pro forma net income and earnings per share for the nine months ended March 31, 2006, are the same since stock-based compensation expense is calculated under the provisions of SFAS 123R. The amounts for the nine and three months ended March 31, 2005, are included in the table below solely to provide the detail for a comparative presentation to the period of the previous year.

	Nine Months Ended March 31,

Prior to the adoption of SFAS 123R, the Company applied Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25) to account for stock-based awards. Beginning with the 2006 fiscal year, with the adoption of SFAS 123R, stock-based compensation expense was recorded for the cost of stock options. Stock-based compensation expense for the nine months ended March 31, 2006, was \$54,975 (\$36,285 after tax).

Stock compensation plans

The Company's stock option plans provide for the granting of either incentive or nonqualified stock options to employees and non-employee directors. Options are subject to terms and conditions determined by the Compensation Committee of the Board of Directors.

The diluted EPS calculation excludes the effect of stock options when their exercise prices exceed the average market price for the period. For the nine months ended March 31, 2006, and March 31, 2005, options for -0- and 20,000 shares, respectively, were excluded from diluted EPS. For the three-month period ended March 31, 2006, and March 31, 2005, options for -0- and -0- shares, respectively, were excluded from diluted EPS.

Note 7. Income Taxes

The Company and its subsidiaries file a consolidated federal income tax return. Provisions for income taxes include deferred taxes for temporary differences in the bases of assets and liabilities for financial and tax purposes, resulting from the use of the liability method of accounting for income taxes. The current deferred tax liability primarily consists of temporary differences in the deductibility of prepaid expenses and accrued liabilities, as well as unrealized gains on trading securities. The long-term deferred tax asset is composed primarily of unrealized tax losses on available-for-sale securities.

A valuation allowance is provided when it is more likely than not that some portion of the deferred tax amount will not be realized. No valuation allowance was included at March 31, 2006, or June 30, 2005, respectively.

Note 9. Contingencies and commitments

The Company continuously reviews all investor, employee and vendor complaints, and pending or threatened litigation. The likelihood that a loss contingency exists is evaluated under the criteria of SFAS No. 5, Accounting for Contingencies, through consultation with legal counsel, and a loss contingency is recorded if the contingency is probable and reasonably estimable at the date of the financial statements.

During the normal course of business, the Company may be subject to claims, legal proceedings, and other contingencies. These matters are subject to various uncertainties, and it is possible that some of these matters may be resolved unfavorably. The Company establishes accruals for matters for which the outcome is probable and can be reasonably estimated. Management believes that any liability in excess of these accruals upon the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial statements of the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

U.S. Global Investors, Inc. has made forward-looking statements concerning the Company's performance, financial condition, and operations in this report. The Company from time to time may also make forward-looking statements in its public filings and press releases. Such forward-looking statements are subject to various known and unknown risks and uncertainties and do not guarantee future performance. Actual results could differ materially from those anticipated in such forward-looking statements due to a number of factors, some of which are beyond the Company's control, including (i) the volatile and competitive nature of the investment management industry, (ii) changes in domestic and foreign economic conditions, (iii) the effect of government regulation on the Company's business, and (iv) market, credit, and liquidity risks associated with the Company's investment management activities. Due to such risks, uncertainties, and other factors, the Company cautions each person receiving such forward-looking information not to place undue reliance on such statements. All such forward-looking statements are current only as of the date on which such statements are made.

BUSINESS SEGMENTS

The Company, with principal operations in San Antonio, Texas, manages two business segments: (1) the Company offers money management advisory services to meet the needs of individual and institutional investors, and (2) the Company invests for its own account in an effort to add growth and value to its cash position.

The Company generates substantially all its operating revenues from investment management services for U.S. Global Investors Funds (USGIF) and U.S. Global Accolade Funds (USGAF). Although the Company generates the majority of its revenues from this segment, the Company holds a significant portion of its total assets in investments. The following is a brief discussion of the Company's two business segments.

Investment Management Advisory Services

The Company generates substantially all of its operating revenues from managing and servicing USGIF and USGAF. These revenues are largely dependent on the total value and composition of assets under its management. Fluctuations in the markets and investor sentiment directly impact the funds' asset levels, thereby affecting income and results of operations.

During the nine-month period ended March 31, 2006, SEC registered mutual fund assets under management averaged \$2.99 billion versus \$1.68 billion for the same period ended March 31, 2005. During the quarter ended March 31, 2006, mutual fund assets under management averaged \$3.78 billion versus \$2.01 billion for the same period ended March 31, 2005. This increase was primarily due to significant increases in the natural resources and foreign equity funds under management. These funds realized the benefit of net inflows as well as market appreciation.

In addition to managing SEC registered mutual funds, the Company provides management and advisory services for various offshore clients. The Company receives monthly management fees and either quarterly or annual performance fees, depending on the agreement. The Company recorded fees totaling \$1,078,891 and \$235,703 for the nine months ended March 31, 2006, and March 31, 2005, respectively. The Company recorded total fees of \$552,602 and \$178,107, respectively, for the three months ended March 31, 2006, and March 31, 2005,

The Company receives additional revenue from several sources including custodial fee revenues, revenues from miscellaneous transfer agency activities including lockbox functions, mailroom operations from A&B, as well as investment income.

Investment Activities

Management believes it can more effectively manage the Company's cash position by broadening the types of investments used in cash management and continues to believe that such activities are in the best interest of the Company. Company compliance personnel review and monitor these activities, and various reports are provided to investment advisory clients.

Investment income (loss) from the Company's investments includes:

realized gains and losses on sales of securities;

unrealized gains and losses on trading securities;

realized foreign currency gains and losses;

other-than-temporary impairments on available-for-sale securities; and

dividend and interest income.

This source of revenue does not remain consistent and is dependent on market fluctuations, the Company's ability to participate in investment opportunities, and timing of transactions.

As of March 31, 2006, the Company held approximately \$4.88 million in investment securities with a cost basis of \$3.86 million. The value of these investments is approximately 24.4 percent of total assets.

For the nine-month period ended March 31, 2006, the Company had net realized gains on available-for-sale securities of \$544,414 compared with \$0 for the nine-month period ended March 31, 2005, and net realized gains on trading securities of \$235,936 compared with net realized losses of \$78,253 for the nine-month period ended March 31, 2005. The change in net unrealized holding gains and losses on trading securities held at March 31, 2006, and 2005, which has been included in income for the nine-month period, was \$1,420,855 and (\$75,230), respectively.

For available-for-sale securities with declines in value that are deemed other than temporary, the cost basis of the securities is reduced accordingly, and the resulting loss is realized in earnings. The Company recorded other than temporary declines of \$28,655 and \$106,000 for the nine-month period ended March 31, 2006, and 2005, respectively. Dividend and interest income for the nine-month period ended March 31, 2006, was \$191,032 compared with \$47,026 for the nine-month period ended March 31, 2005.

RESULTS OF OPERATIONS NINE MONTHS ENDED MARCH 31, 2006 AND 2005

The Company posted net after-tax income of \$4,813,936 (\$.64 income per share) for the nine-month period ended March 31, 2006, compared with net after-tax income of \$1,096,560 (\$.15 income per share) for the nine-month period ended March 31, 2005.

Revenues

Total consolidated revenues for the nine-month period ended March 31, 2006, increased \$13,940,036 or 117 percent, compared with the nine-month period ended March 31, 2005. This increase was primarily attributable to the following:

Investment advisory fees grew by \$10,105,000 as a result of increased assets under management and growth and performance of offshore funds;

Investment income increased by \$2,562,000 primarily due to an increase in realized and unrealized gains on corporate investments classified as trading securities; and

Transfer agent fees increased by \$1,250,000 primarily through growth in the number of shareholder accounts.

Expenses

Total consolidated expenses for the nine-month period ended March 31, 2006, increased \$8,085,000 or 79 percent, compared with the nine-month period ended March 31, 2005. This was largely attributable to the following:

Consistent with continued growth in the Eastern European Fund, subadvisory fees increased by \$3,350,000;

Driven by strong mutual fund performance, compensation expense increased by \$2,061,000;

Omnibus platform fees increased by \$1,683,000 due to increased mutual fund asset flows through broker/dealer omnibus platforms; and

General and administrative expensed increased by \$901,000 primarily due to consulting fees, marketing-related travel costs, and audit fees.

RESULTS OF OPERATIONS QUARTER ENDED MARCH 31, 2006 AND 2005

The Company posted net after-tax income of \$2,550,408 (\$.34 income per share) for the three-month period ended March 31, 2006, compared with net after-tax income of \$448,911 (\$.06 income per share) for the three-month period ended March 31, 2005.

Revenues

Total consolidated revenues for the quarter ended March 31, 2006, increased \$6,671,309 or 137 percent, compared with the quarter ended March 31, 2005. This increase was primarily attributable to the following:

Investment advisory fees grew by \$4,324,000 as a result of increased assets under management and growth and performance of offshore funds;

Investment income increased by \$1,842,000 primarily due to an increase in realized and unrealized gains; and

Transfer agent fees increased by \$491,000 primarily through growth in the number of shareholder accounts.

Expenses

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

Total consolidated expenses for the quarter ended March 31, 2006, increased \$3,304,000, or 80 percent, compared with the quarter ended March 31, 2005. This was largely attributable to the following:

Consistent with continued growth in the Eastern European Fund, subadvisory fees increased by \$1,399,000;

Driven by strong mutual fund performance, compensation expense increased by \$942,000;

Omnibus platform fees increased by \$689,000 due to increased mutual fund asset flows through broker/dealer omnibus platforms; and

General and administrative expenses increased by \$335,000 primarily due to consulting fees, audit fees, and marketing-related travel costs.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2006, the Company had net working capital (current assets minus current liabilities) of approximately \$12.5 million and a current ratio (current assets divided by current liabilities) of 3.4 to 1. With approximately \$6.9 million in cash and cash equivalents and approximately \$4.9 million in marketable securities, the Company has adequate liquidity to meet its current obligations. Total shareholders' equity was approximately \$14.8 million with cash, cash equivalents, and marketable securities comprising 59% of total assets.

As of March 31, 2006, the Company has no long-term liabilities. The Company has access to a \$1 million credit facility with a one-year maturity for working capital purposes. Any use of this credit facility will be secured by the Company's eligible accounts receivable. As of March 31, 2006, the Company had not used this credit facility. The Company's available working capital and potential cash flow are expected to be sufficient to cover current expenses. The investment advisory and related contracts between the Company and USGIF and USGAF will expire on February 28, 2007, and May 31, 2006, respectively. Management anticipates the board of trustees of both USGIF and USGAF will renew the contracts.

Management believes current cash reserves, financing obtained and/or available, and potential cash flow from operations will be sufficient to meet foreseeable cash needs or capital necessary for the above-mentioned activities and allow the Company to take advantage of opportunities for growth whenever available.

CRITICAL ACCOUNTING POLICIES*Adoption of SFAS 123R*

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123R). SFAS 123R eliminates the alternative to use the intrinsic value method of accounting provided in SFAS 123, which generally resulted in no compensation expense recorded in the financial statements related to the issuance of equity awards to employees. SFAS 123R requires that the cost resulting from all share-based payment transactions be recognized in the financial statements. SFAS 123R establishes fair value as the measurement objective in accounting for share-based payment arrangements and requires all companies to apply a fair-value-based measurement method in accounting for generally all share-based payment transactions with employees.

On July 1, 2005 (the first day of the Company's 2006 fiscal year), the Company adopted SFAS 123R. The provisions of SFAS 123R became effective the first annual reporting period beginning after June 15, 2005, and the Company adopted SFAS 123R using a modified prospective application, as permitted under SFAS 123R. Accordingly, prior period amounts have not been restated. Under this application, the Company is required to record compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards that remain outstanding at the date of adoption.

Revenue Recognition on Subadvisory Contract

In the third quarter of fiscal year 2006, the Company began providing investment advisory services for Endeavour Mining Capital Corp. (EMCC), an offshore company. The Company is paid a monthly management fee based on the net asset value of the portfolio, and an annual performance fee, if any, based on a percentage of consolidated net income from operations in excess of a predetermined percentage return on equity.

EITF Abstract Topic No. D-96, Accounting for Management Fees Based on a Formula, identifies two methods by which incentive revenue may be recorded. Under Method 1, incentive fees are recorded at the end of the contract year; under Method 2, the incentive fees are recorded periodically and calculated as the amount that would be due under the formula at any point in time as if the contract was terminated at that date. Management has chosen the more conservative method (Method 1), in which performance fees are recorded annually at the end of each fiscal year of EMCC. The Company recorded \$106,230 in management fees for the three months ended March 31, 2006.

For discussion of the Company's other significant accounting policies, please refer to the notes to the consolidated financial statements included in the Annual Report on Form 10-K for the year ended June 30, 2005.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's balance sheet includes assets whose fair value is subject to market risks. Due to the Company's investments in equity securities, equity price fluctuations represent a market risk factor affecting the Company's consolidated financial position. The carrying values of investments subject to equity price risks are based on quoted market prices or, if not actively traded, management's estimate of fair value as of the balance sheet date. Market prices fluctuate, and the amount realized in the subsequent sale of an investment may differ significantly from the reported market value.

The Company's investment activities are reviewed and monitored by Company compliance personnel, and various reports are provided to investment advisory clients. The Company has in place a code of ethics that requires pre-clearance of any trading activity by the Company. Written procedures are also in place to manage compliance with the code of ethics.

The table below summarizes the Company's equity price risks as of March 31, 2006, and shows the effects of a hypothetical 25% increase and a 25% decrease in market prices.

SENSITIVITY ANALYSIS

	Fair Value at March 31, 2006	Hypothetical Percentage Change	Estimated Fair Value after Hypothetical Percent Change	Increase (Decrease) in Shareholders' Equity, Net of Tax
Trading Securities	\$ 4,806,964	increase 25%	\$ 6,008,706	\$ 793,149
		decrease 25%	\$ 3,605,223	\$ (793,149)
Available-for-Sale	\$ 71,311	increase 25%	\$ 89,138	\$ 11,766
		decrease 25%	\$ 53,483	\$ (11,766)

¹Unrealized and realized gains and losses on trading securities are included in earnings in the statement of operations.

²Unrealized gains and losses on available-for-sale securities are excluded from earnings and recorded in other comprehensive income as a separate component of shareholders' equity until realized.

The selected hypothetical change does not reflect what could be considered best- or worst-case scenarios. Results could be significantly worse due to both the nature of equity markets and the concentration of the Company's investment portfolio.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of March 31, 2006, was conducted under the supervision and with the participation of management, including the chief executive officer and chief financial officer. Based on that evaluation, the chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures were effective as of March 31, 2006.

No change in the Company's internal control over financial reporting has occurred during the quarter ended March 31, 2006, that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
