REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Buckle 401(k) Plan
Kearney, Nebraska

We have audited the accompanying statements of net assets available for benefits of the Buckle 401(k) Plan (“the Plan”) as of January 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of January 31, 2011 and 2010, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of January 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan’s management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic fiscal 2010 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

BUCKLE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED JANUARY 31, 2011 AND 2010

1. DESCRIPTION OF THE PLAN

The following description of the Buckle 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan provisions.

The Plan’s fiscal year ends on January 31. References to years in this report relate to fiscal years as defined below:

Fiscal Year	Year Ended
2010	January 31, 2011
2009	January 31, 2010

General — The Plan is a defined contribution plan covering, with certain specified exclusions, all employees working 1,000 hours or more per year who have one year of service and are at least age twenty. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. It was established effective February 1, 1986, and last amended effective January 1, 2010. The Plan administrator is The Buckle, Inc. (the “Company”). Fidelity Investments provides recordkeeping functions to the Plan, and Fidelity Management Trust Company serves as the Plan trustee.

Contributions — Participants may contribute from 1% to 75% of their eligible pay, as defined under the Plan. The Plan provides for the automatic enrollment of eligible participants at a deferral rate of 3% of eligible pay, unless the participant affirmatively elects otherwise. The Plan also provides for an automatic 1% annual increase in the deferral rate (up to a maximum deferral of 6% of eligible pay) for all participants who have been automatically enrolled in the Plan, unless the participant affirmatively elects otherwise. Participants are allowed to designate all or a portion of their contributions as Roth Contributions. The Company may contribute to the Plan at its discretion. In fiscal 2010 and 2009, the Company contributed 50% of employees’ contributions on deferrals up to 6% of their eligible pay. The Company contributions to the Plan were \$1,363,360 and \$1,203,482 during the years ended January 31, 2011 and 2010, respectively. Contributions are subject to certain Internal Revenue Code (“IRC”) limitations.

Participant Accounts — Individual accounts are maintained for each plan participant. Each participant’s account is credited with the participant’s contributions and an allocation of the Company’s discretionary contribution and Plan earnings (losses) and is charged with withdrawals and administrative expenses. Allocations are based on participant earnings or account balances, as defined under the Plan. For fiscal 2010 and 2009, administrative expenses were only charged for certain transactions and were allocated to the respective participants’ accounts accordingly. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Investments — Participants direct the investment of all contributions into various investment options offered by the Plan.

Vesting — Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. The Company’s discretionary contributions vest over a six-year period, which is as follows:

Years of Service	Percent Vested
Less than two	0 %
Two	20 %
Three	40 %
Four	60 %
Five	80 %
Six or more	100 %

Participant Loans — Participants may borrow from their individual accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the vested balance in the participant’s account and bear interest at a rate established quarterly by the Plan administrator based on the published prime rate plus 1%. At January 31, 2011, interest rates on outstanding loans ranged from 4.25% to 10.50%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits — On termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her vested account.

Forfeited Accounts — At January 31, 2011 and 2010, forfeited non-vested account balances were \$102,607 and \$66,572, respectively. Forfeitures of terminated participants’ non-vested account balances are utilized to offset the Company’s discretionary matching contributions made during the plan year. The amount utilized during fiscal 2010 and 2009 to fund a portion of the Company’s matching contribution was \$83,284 and \$78,000, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments, including mutual funds and common stock. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan’s investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of money market funds are stated at amortized cost, which approximates fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The Company’s common stock is valued at the closing price reported on the New York Stock Exchange on the last trading day of the plan year.

The net appreciation (depreciation) in the fair value of investments is based on the fair value of the investments at the beginning of the year or cost, if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan Agreement.

Administrative Expenses — Administrative expenses are paid by either the Company or the Plan, in accordance with the terms of the Plan Agreement.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, as of January 31, 2011 or January 31, 2010.

New Accounting Pronouncements — In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2010-06, Fair Value Measurements and Disclosures, which amends ASC 820, Fair Value Measurements and Disclosures, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan prospectively adopted the new guidance in 2010, except for the Level 3 reconciliation disclosures, which are required in 2011. The adoption in 2010 did not materially affect, and the future adoption is not expected to materially affect, the Plan’s financial statements.

In September 2010, the FASB issued ASU No. 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans. The ASU requires that participant loans be classified as notes receivable rather than a plan investment and measured at the unpaid principal balance plus accrued but unpaid interest rather than fair value. The Plan retrospectively adopted the new accounting in 2010. The adoption did not have a material effect on the Plan’s financial statements.

3.

FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period in which the transfer occurs.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis as of January 31, 2011 and 2010:

	As of January 31, 2011			Total
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Fidelity Freedom 2050 Fund (*)	3,741,855	2,172,332

(*) Represents a party-in-interest to the Plan.

(**) Fund value as of January 31, 2011 did not exceed 5% of net assets available for benefits.

During the years ended January 31, 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$6,579,559 and \$9,614,154, respectively, as follows:

	January 31, 2011	January 31, 2010
Investments at fair value as determined by quoted market price:		
Common stock	\$ 1,678,910	\$ 2,943,894
Mutual funds:		
Fixed income funds	(10,506)	77,339
Lifecycle funds	3,617,571	4,889,576
Domestic stock funds	1,045,001	1,239,027
International stock funds	248,583	464,318
Total mutual funds	4,900,649	6,670,260
Net appreciation in fair value	\$ 6,579,559	\$ 9,614,154

5. FEDERAL INCOME TAX STATUS

The Plan uses a volume submitter plan document sponsored by Fidelity Investments ("Fidelity"). Fidelity received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which states that the volume submitter document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from

the IRS. The plan document has been amended since receiving the opinion letter. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

- 8 -

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

The Plan's management is aware of certain operating or administrative issues that, if not corrected, could affect the tax qualified status of the Plan and its related trust and is in the process of correcting the matters identified. Accordingly, Plan management believes the Plan will retain its tax qualified status and, therefore, no tax liability has been accrued.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Company may direct the trustee either to distribute the Plan's assets to the participants or to continue the trust and distribute benefits as though the Plan had not been terminated.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments include The Buckle Stock Fund, which is invested primarily in the stock of The Buckle, Inc., the Plan sponsor, and, therefore, these investments and actual transactions qualify as party-in-interest. The Plan held 344,558 shares of The Buckle, Inc. common stock at January 31, 2011, and 314,878 shares at January 31, 2010, which had a cost basis of \$5,611,880 and \$4,135,843, respectively. Dividend income received by the Plan from its investment in the stock of The Buckle, Inc. was \$1,074,423 and \$779,388 for the plan years ended January 31, 2011, and 2010, respectively.

Certain Plan investments are managed by Fidelity Investments. Fidelity Investments is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

8. SUBSEQUENT EVENTS

Subsequent to the end of the plan year ended January 31, 2011, the Plan transferred its recordkeeping functions from Fidelity Investments to Massachusetts Mutual Life Insurance Company, who has served as recordkeeper for the plan since May 1, 2011 (the effective date of the transfer). As such, the trustee was also changed from Fidelity Management Trust Company to State Street Bank and Trust Company on the same date.
