

National Interstate CORP
Form 10-Q
August 01, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended June 30, 2014

OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____
Commission File Number: 000-511130

National Interstate Corporation
(Exact name of registrant as specified in its charter)

Ohio 34-1607394
(State or other jurisdiction of incorporation or (I.R.S. Employer Identification No.)
organization)
3250 Interstate Drive, Richfield, OH 44286-9000
(Address of principal executives offices) (Zip Code)

(330) 659-8900
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check One):

Large Accelerated Filer Accelerated Filer
Non-Accelerated Filer (Do not check if a smaller reporting company) Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the registrant's sole class of common shares as of July 29, 2014 was 19,780,383.

NATIONAL INTERSTATE CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements of National Interstate Corporation (the “Company”) and its subsidiaries have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and the instructions to Form 10-Q.

The unaudited consolidated financial statements include the accounts of the Company and its subsidiaries, National Interstate Insurance Company (“NIIC”), Hudson Indemnity, Ltd., National Interstate Insurance Company of Hawaii, Inc. (“NIIC-HI”), Triumphe Casualty Company (“TCC”), National Interstate Insurance Agency, Inc. (“NIIA”), Hudson Management Group, Ltd., Vanliner Insurance Company (“VIC”), Vanliner Reinsurance Limited, American Highways Insurance Agency, Inc., Explorer RV Insurance Agency, Inc., Safety, Claims and Litigation Services, LLC and TransProtection Service Company. Significant intercompany transactions have been eliminated.

These interim unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013. The interim financial statements reflect all adjustments which are, in the opinion of management, necessary for the fair presentation of the results for the periods presented. Such adjustments are of a normal recurring nature. Operating results for the three and six month periods ended June 30, 2014 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2014.

The preparation of the financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Changes in circumstances could cause actual results to differ materially from those estimates.

2. Fair Value Measurements

The Company must determine the appropriate level in the fair value hierarchy for each applicable measurement. The fair value hierarchy prioritizes the inputs, which refer broadly to assumptions market participants would use in pricing an asset or liability, into three levels. It gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The level in the fair value hierarchy within which a fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company’s management is responsible for the valuation process and uses data from outside sources (including nationally recognized pricing services and broker/dealers) in establishing fair value.

Pricing services use a variety of observable inputs to estimate the fair value of fixed maturities that do not trade on a daily basis. These inputs include, but are not limited to, recent reported trades, benchmark yields, issuer spreads, bids or offers, reference data and measures of volatility. Included in the pricing of mortgage-backed securities are estimates of the rate of future prepayments and defaults of principal over the remaining life of the underlying collateral. Inputs from brokers and independent financial institutions include, but are not limited to, yields or spreads of comparable investments which have recent trading activity, credit quality, duration, credit enhancements, collateral value and estimated cash flows based on inputs including delinquency rates, estimated defaults and losses and estimates of the rate of future prepayments. Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by the Company’s internal and affiliated investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the prices obtained, the Company’s internal investment professionals, who report to the Chief Investment Officer, compare the valuation received to independent third party pricing sources and consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions and the credit quality of the specific issuers. If the Company believes that significant discrepancies exist, the Company will perform additional procedures, which may include specific inquiry of the pricing source, to resolve the discrepancies.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical securities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices within Level 1 that are observable for the security, either directly or indirectly. Level 2 inputs include quoted prices for similar securities in active markets, quoted prices for identical or similar securities that are not active and observable inputs other than quoted prices, such as interest rate and yield curves. Level 3 inputs are unobservable inputs for the asset or liability. Level 1 consists of publicly traded equity securities and highly liquid, direct obligations of the U.S. Government whose fair value is based on quoted prices that are readily and regularly available in an active market. Level 2 primarily consists of financial

Table of Contents

instruments whose fair value is based on quoted prices in markets that are not active and include U.S. government agency securities, fixed maturity investments and nonredeemable preferred stocks that are not actively traded. Included in Level 2 are \$115.7 million of securities, which are valued based upon a non-binding broker quote and validated with other observable market data by management. Level 3 consists of financial instruments that are not traded in an active market, whose fair value is estimated by management based on inputs from independent financial institutions, which include non-binding broker quotes. The Company believes these estimates reflect fair value, but the Company is unable to verify inputs to the valuation methodology. The Company obtained at least one quote or price per instrument from its brokers and pricing services for all Level 3 securities and did not adjust any quotes or prices that it obtained. The Company's internal and affiliated investment professionals review these broker quotes using any recent trades, if such information is available, or market prices of similar investments. The Company primarily uses the market approach valuation technique for all investments.

The following table presents the Company's investment portfolio, categorized by the level within the fair value hierarchy in which the fair value measurements fall as of June 30, 2014:

	Level 1	Level 2	Level 3	Total
	(Dollars in thousands)			
Fixed maturities:				
U.S. Government and government agency obligations	\$1,725	\$100,659	\$—	\$102,384

Total equity securities	60,117	3,570	2,083	65,770
Total fixed maturities and equity securities	65,228	922,412	11,709	999,349
Cash and cash equivalents	35,684	—	—	35,684
Total fixed maturities, equity securities and cash and cash equivalents at fair value	\$100,912	\$922,412	\$11,709	\$1,035,033

The tables above exclude other invested assets of \$43.2 million and \$40.4 million at June 30, 2014 and December 31, 2013, respectively. Other invested assets include investments in limited partnerships which are accounted for under the equity method. Equity method investments are not reported at fair value.

The Company uses the end of the reporting period as its policy for determining transfers into and out of each level. During the six months ended June 30, 2014, there were six nonredeemable preferred stocks, totaling \$5.0 million (including one in the second quarter totaling \$0.1 million) that transferred from Level 1 to Level 2 due to changes in trading activity. During the three and six months ended June 30, 2013, there was one redeemable preferred stock totaling \$1.0 million and four nonredeemable preferred stocks totaling \$0.3 million that transferred from Level 2 to Level 1 due to changes in trading activity. The following tables present a reconciliation of the beginning and ending balances for all investments measured at fair value on a recurring basis using Level 3 inputs for the three and six months ended June 30, 2014.

At June 30, 2014, the Company had 13 securities with a fair value of \$13.8 million that are included in Level 3, which represented 1.3% of its total investments reported at fair value. The significant unobservable inputs used by the brokers and pricing services in establishing fair values of the Company's Level 3 securities are primarily spreads to U.S. Treasury rates and discounts to comparable securities. The specifics of such spreads and discounts were not made available to the Company. Significant increases (decreases) on spreads to U.S. Treasury rates and discount spreads to comparable securities would result in lower (higher) fair value measurements. Generally, a change in the assumption used for determining a spread is accompanied by market factors that warrant an adjustment for the credit risk and liquidity premium of the security. As the total fair value of Level 3 securities is 3.8% of the Company's shareholders' equity at June 30, 2014, any change in unobservable inputs would not have a material impact on the Company's

financial position.

3. Investments

Under other-than-temporary impairment accounting guidance, if management can assert that it does not intend to sell an impaired fixed maturity security and it is not more likely than not that it will be required to sell the security before recovery of its amortized cost basis, then an entity may separate the other-than-temporary impairments into two components: 1) the amount related to credit losses (recorded in earnings) and 2) the amount related to all other factors (recorded in other comprehensive income (loss)). The credit related portion of an other-than-temporary impairment is measured by comparing a security's amortized cost to the present value of its current expected cash flows discounted at its effective yield prior to the impairment charge. If management intends to sell an impaired security, or it is more likely than not that it will be required to sell the security before recovery, an impairment charge recorded in earnings is required to reduce the amortized cost of that security to fair value.

The cost or amortized cost and fair value of investments in fixed maturities and equity securities are as follows:

	Cost or Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(Dollars in thousands)			
June 30, 2014				
Fixed maturities:				
U.S. Government and government agency obligations	\$98,869	\$3,532	\$(17)) \$102,384

The table above excludes other invested assets of \$43.2 million and \$40.4 million at June 30, 2014 and December 31, 2013, respectively. Other invested assets include investments in limited partnerships which are accounted for under

the equity method. Equity method investments are not reported at fair value.

Table of Contents

State and local government obligations represented approximately 37.0% of the Company's fixed maturity portfolio at June 30, 2014, with approximately \$286.8 million, or 82.4%, of the Company's state and local government obligations held in special revenue obligations, and the remaining amount held in general obligations. The Company's state and local government obligations portfolio is high quality, as 99.1% of such securities were rated investment grade (as determined by nationally recognized agencies) at June 30, 2014. The Company had no state and local government obligations for any state, municipality or political subdivision that comprised 10% or more of the total amortized cost or fair value of such obligations at June 30, 2014.

The non-credit portion of other-than-temporary impairment charges is included in other comprehensive income. Cumulative non-credit charges taken for securities still owned at June 30, 2014 and December 31, 2013 were \$3.3 million and \$3.5 million, respectively.

The amortized cost and fair value of fixed maturities at June 30, 2014, by contractual maturity, are shown below. Other debt obligations, which are primarily comprised of asset-backed securities other than mortgage-backed securities are categorized based on their average maturity. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. The average life of mortgage-backed securities is 4.0 years in the Company's investment portfolio.

Amortized cost and fair value of the fixed maturities in the Company's investment portfolio were as follows:

	Amortized Cost	Fair Value
	(Dollars in thousands)	
Due in one year or less	\$32,402	\$32,751
Due after one year through five years	232,356	243,711
Due after five years through ten years	327,051	336,459
Due after ten years	98,918	101,894
	690,727	714,815
Mortgage-backed securities	217,921	226,905
Total	\$908,648	\$941,720

Gains and losses on the sale of investments, including other-than-temporary impairment charges and other investments' gains or losses, were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(Dollars in thousands)			
Fixed maturity gains	\$431	\$1,357	\$907	\$1,699
Fixed maturity losses	(41) (5) (230) (5
Equity security gains	424	795	939	1,210
Equity security losses	(165) (15) (211) (69
Other investments, net gains	418	402	2,267
